Appendix A Conservation Codes

Ramsar Listed Wetlands

The Convention of Wetlands of International Importance was signed in 1971 at the Iranian town of Ramsar. The Convention has since been referred to as the Ramsar Convention. Ramsar Listed wetlands are “sites containing representative, rare or unique wetlands, or wetlands that are important for conserving biological diversity because of their ecological, botanical, zoological, limnological or hydrological importance” (DotE 2013b). Once a Ramsar Listed Wetland is designated, the country agrees to manage its conservation and ensure its wise use. Under the Convention, wise use is broadly defined as “maintaining the ecological character of a wetland” (DotE 2013b).

Nationally Important Wetlands

Nationally Important Wetlands are wetlands which meet at least one of the following criteria (DotE 2013a):

- It is a good example of a wetland type occurring within a biogeographic region in Australia;
- It is a wetland which plays an important ecological or hydrological role in the natural functioning of a major wetland system/complex;
- It is a wetland which is important as the habitat for animal taxa at a vulnerable stage in their life cycles, or provides a refuge when adverse conditions such as drought prevail;
- The wetland supports one percent or more of the national populations of any native plant or animal taxa;
- The wetland supports native plant or animal taxa or communities which are considered endangered or vulnerable at the national level; and
- The wetland is of outstanding historical or cultural significance.

Vegetation Extent and Status

The National Objectives and Targets for Biodiversity Conservation 2001–2005 (Commonwealth of Australia 2001) recognise that the retention of 30 percent or more of the pre-clearing extent of each ecological community is necessary if Australia’s biological diversity is to be protected. This is the threshold level below which species loss appears to accelerate exponentially and loss below this level should not be permitted. This level of recognition is in keeping with the targets recommended in the review of the National Strategy for the Conservation of Australia’s Biological Diversity (ANZECC, 2000) and in EPA Position Statement No. 2 on environmental protection of native vegetation in Western Australia (EPA, 2000).

From a purely biodiversity perspective and taking no account of any other land degradation issues, there are a number of key criteria now being applied to the clearing of native vegetation in Western Australia (EPA, 2000).

- The “threshold level” below which species loss appears to accelerate exponentially at an ecosystem level is regarded as being at a level of 30 % of the pre-European extent of the vegetation type;
- A level of 10 % of the original extent is regarded as being a level representing *Endangered*;
- Clearing which would put the threat level into the class below should be avoided; and
- From a biodiversity perspective, stream reserves should generally be in the order of at least 200 metres (m) wide.

The extent of remnant native vegetation has been assessed by Shepherd et al. (2002) and the Government of Western Australia (2013), based on broadscale vegetation association mapping by Beard.

Conservation Codes

Species of significant flora, fauna and communities are protected under both Federal and State Acts. The Australian Government EPBC Act provides a legal framework to protect and manage nationally important flora and communities. The State WC Act is the primary wildlife conservation legislation in Western Australia. Information on the conservation codes is summarised in the following sections.

Conservation Significant Communities

Ecological communities are defined as naturally occurring biological assemblages that occur in a particular type of habitat (English and Blyth, 1997). Australian Government-listed Threatened Ecological Communities (TECs) are protected under the EPBC Act administered by the Department of the Environment (DotE) (formerly the Department of Sustainability, Environment, Water, Population and Communities (DSEWPaC)). The DPaW also maintains a list of TECs for Western Australia; some of which are also protected under the EPBC Act. TECs are ecological communities that have been assessed and assigned to one of four categories related to the status of the threat to the community, i.e. *Presumed Totally Destroyed*, *Critically Endangered*, *Endangered* and *Vulnerable* (Table 18).

Possible TECs that do not meet survey criteria are added to the DPaW Priority Ecological Community (PEC) List under Priorities 1, 2 and 3 (Table 19). These are ecological communities that are adequately known; are rare but not threatened, or meet criteria for Near Threatened. PECs that have been recently removed from the threatened list are placed in Priority 4. These ecological communities require regular monitoring. Conservation dependent ecological communities are placed in Priority 5. PECs are not listed under any formal Federal or State legislation.

Conservation Codes

Western Australia Conservation Categories		Australian Government Conservation Categories (EPBC Act)	
Presumed Totally Destroyed (PD)	The community has been found to be totally destroyed or so extensively modified throughout its range that no occurrence of it is likely to recover its species composition and/or structure in the foreseeable future.	Critically Endangered (CR)	If, at that time, it is facing an extremely high risk of extinction in the wild in the immediate future.

Western Australia Conservation Categories		Australian Government Conservation Categories (EPBC Act)	
Critically Endangered (CR)	An ecological community that has been adequately surveyed and found to have been subject to a major contraction in area and/or that was originally of limited distribution and is facing severe modification or destruction throughout its range in the immediate future, or is already severely degraded throughout its range but capable of being substantially restored or rehabilitated	Endangered (EN)	If, at that time, it is not critically endangered and is facing a very high risk of extinction in the wild in the near future.
Endangered (EN)	An ecological community that has been adequately surveyed and found to have been subject to a major contraction in area and/or was originally of limited distribution and is in danger of significant modification throughout its range or severe modification or destruction over most of its range in the near future.	Vulnerable (VU)	If, at that time, it is not critically endangered or endangered, and is facing a high risk of extinction in the wild in the medium-term future.
Vulnerable (VU)	An ecological community that has been adequately surveyed and is found to be declining and/or has declined in distribution and/or condition and whose ultimate security has not yet been assured and/or a community that is still widespread but is believed likely to move into a category of higher threat in the near future if threatening processes continue or begin operating throughout its range.		

**Conservation Categories and Definitions for Priority Ecological Communities
as Listed by the Department of Parks and Wildlife**

Category	Description
Priority 1	<p>Poorly known ecological communities.</p> <p>Ecological communities that are known from very few occurrences with a very restricted distribution (generally ≤5 occurrences or a total area of ≤100 ha). Occurrences are believed to be under threat either due to limited extent, or being on lands under immediate threat (e.g. within agricultural or pastoral lands, urban areas, active mineral leases) or for which current threats exist. May include communities with occurrences on protected lands. Communities may be included if they are comparatively well-known from one or more localities but do not meet adequacy of survey requirements, and/or are not well defined, and appear to be under immediate threat from known threatening processes across their range.</p>
Priority 2	<p>Poorly known ecological communities.</p> <p>Communities that are known from few occurrences with a restricted distribution (generally ≤10 occurrences or a total area of ≤200 ha). At least some occurrences are not believed to be under immediate threat of destruction or degradation. Communities may be included if they are comparatively well known from one or more localities but do not meet adequacy of survey requirements, and/or are not well defined, and appear to be under threat from known threatening processes.</p>
Priority 3	<p>Poorly known ecological communities.</p> <p>(i) Communities that are known from several to many occurrences, a significant number or area of which are not under threat of habitat destruction or degradation or:</p> <p>(ii) Communities known from a few widespread occurrences, which are either large or with significant remaining areas of habitat in which other occurrences may occur, much of it not under imminent threat, or;</p> <p>(iii) Communities made up of large, and/or widespread occurrences, that may or may not be represented in the reserve system, but are under threat of modification across much of their range from processes such as grazing by domestic and/or feral stock, and inappropriate fire regimes.</p> <p>Communities may be included if they are comparatively well known from several localities but do not meet adequacy of survey requirements and/or are not well defined, and known threatening processes exist that could affect them.</p>
Priority 4	<p>Ecological communities that are adequately known, rare but not threatened or meet criteria for Near Threatened, or that have been recently removed from the threatened list. These communities require regular monitoring.</p> <p>(i) Rare. Ecological communities known from few occurrences that are considered to have been adequately surveyed, or for which sufficient knowledge is available, and that are considered not currently threatened or in need of special protection, but could be if present circumstances change. These communities are usually represented on conservation lands.</p> <p>(ii) Near Threatened. Ecological communities that are considered to have been adequately surveyed and that do not qualify for Conservation Dependent, but that are close to qualifying for Vulnerable.</p> <p>(iii) Ecological communities that have been removed from the list of threatened communities during the past five years.</p>
Priority 5	<p>Conservation Dependent ecological communities.</p> <p>Ecological communities that are not threatened but are subject to a specific conservation program, the cessation of which would result in the community becoming threatened within five years.</p>

Other Significant Vegetation

Vegetation may be significant for a range of reasons, other than a statutory listing as a TEC or because the extent is below a threshold level. The EPA (2004a) states that significant vegetation may include vegetation that includes the following:

- Scarcity;
- Unusual species;
- Novel combinations of species;
- A role as a refuge;
- A role as a key habitat for Threatened species or large population representing a significant proportion of the local to regional total population of a species;
- Being representative of the range of a unit (particularly, a good local and/or regional example of a unit in ‘prime’ habitat, at the extremes of range, recently discovered range extensions, or isolated outliers of the main range); and
- A restricted distribution.

This may apply at a number of levels, so the unit may be significant when considered at the fine-scale (intra-locality), intermediate-scale (locality or inter-locality) or broad-scale (local to region).

Conservation Significant Flora and Fauna

Species of significant flora are protected under both Federal and State legislation. Any activities that are deemed to have a significant impact on species that are recognised by the EPBC Act, and/or the WC Act can warrant referral to the DotE and/or the EPA. According to the DPaW (WA Herbarium, 1998–): “Threatened flora are plants which have been assessed as being at risk of extinction. In Western Australia the term Declared Rare Flora (DRF) is applied to Threatened flora due to the laws regarding threatened flora conservation. The WC Act is the primary wildlife conservation legislation in the State and the Minister for the Environment can declare taxa (species, subspecies or variety) as “Rare Flora” if they are considered to be in danger of extinction, rare or otherwise in need of special protection.” For the purposes of this report, flora listed by the WC Act as DRF is described as Threatened.

The Australian Government conservation level of flora and fauna species and their significance status is assessed under the EPBC Act (Table 20). The significance levels for fauna used in the EPBC Act are those recommended by the International Union for the Conservation of Nature and Natural Resources (IUCN).

The State conservation level of fauna species and their significance status is assessed under the State WC Act (*Wildlife Conservation (Specially Protected Fauna) Notice 2010(2)*). This Act uses a set of Schedules (Table 21) but also classifies species using some of the IUCN categories. Schedule 3 fauna species are those which are “subject to an agreement between the Government of Australia and the Governments of Japan, China and the Republic of Korea relating to the protection of migratory birds, are declared to be fauna that is in need of special protection”.

In Western Australia, the DPaW also maintains a list of Priority listed flora species. Conservation codes for Priority species are assigned by the DPaW to define the level of conservation significance (Table 21). Priority species are not currently protected under the WC Act.

For the purposes of this assessment, all species listed under the EPBC Act, WC Act and DPaW Priority species are considered conservation significant.

Conservation Codes and Definitions for EPBC Act Listed Flora and Fauna Species

Conservation Code	Definition
<i>Extinct</i>	Taxa not definitely located in the wild during the past 50 years.
<i>Extinct in the Wild</i>	Taxa known to survive only in captivity.
<i>Critically Endangered</i>	Taxa facing an extremely high risk of extinction in the wild in the immediate future.
<i>Endangered</i>	Taxa facing a very high risk of extinction in the wild in the near future.
<i>Vulnerable</i>	Taxa facing a high risk of extinction in the wild in the medium-term.
<i>Near Threatened</i>	Taxa that risk becoming Vulnerable in the wild.
<i>Conservation Dependent</i>	Taxa whose survival depends upon ongoing conservation measures. Without these measures, a conservation dependent taxon would be classified as Vulnerable or more severely threatened.
<i>Data Deficient (Insufficiently Known)</i>	Taxa suspected of being Rare, Vulnerable or Endangered, but whose true status cannot be determined without more information.
<i>Least Concern</i>	Taxa that are not considered Threatened.

Conservation Codes and Descriptions for Western Australian Flora and Fauna

Code	Conservation Category	Description
Wildlife Conservation Act 1950		
T	Schedule 1 under the WC Act	<p>Threatened Fauna (Fauna that is rare or is likely to become extinct).</p> <p>Threatened Flora (Declared Rare Flora – Extant).</p> <p>Taxa that have been adequately searched for and are deemed to be in the wild either rare, in danger of extinction, or otherwise in need of special protection, and have been gazetted as such.</p> <p>CR: Critically Endangered – considered to be facing an extremely high risk of extinction in the wild.</p> <p>EN: Endangered – considered to be facing a very high risk of extinction in the wild.</p> <p>VU: Vulnerable – considered to be facing a high risk of extinction in the wild.</p>
X	Schedule 2 under the WC Act	<p>Presumed Extinct Fauna</p> <p>Presumed Extinct Flora (Declared Rare Flora – Extinct)</p> <p>Taxa which have been adequately searched for and there is no reasonable doubt that the last individual has died, and have been gazetted as such.</p>
IA	Schedule 3 under the WC Act	<p>Birds protected under an international agreement.</p> <p>Birds that are subject to an agreement between governments of Australia and Japan relating to the protection of migratory birds and birds in danger of extinction.</p>
S	Schedule 4 under the WC Act	<p>Other specially protected fauna.</p> <p>Fauna that is in need of special protection, otherwise than for the reasons mentioned in the above schedules.</p>
DPaW Priority Listed		
1	Priority One: Poorly-known taxa	<p>Taxa that are known from one or a few collections or sight records (generally less than five), all on lands not managed for conservation, e.g. agricultural or pastoral lands, urban areas, Shire, Westrail and Main Roads WA road, gravel and soil reserves, and active mineral leases and under threat of habitat destruction or degradation. Taxa may be included if they are comparatively well known from one or more localities but do not meet adequacy of survey requirements and appear to be under immediate threat from known threatening processes.</p>
2	Priority Two: Poorly-known taxa	<p>Taxa that are known from one or a few collections or sight records, some of which are on lands not under imminent threat of habitat destruction or degradation, e.g. national parks, conservation parks, nature reserves, State forest, vacant Crown land, water reserves, etc. Taxa may be included if they are comparatively well known from one or more localities but do not meet adequacy of survey requirements and appear to be under threat from known threatening processes.</p>

Code	Conservation Category	Description
3	Priority Three: Poorly-known taxa	Taxa that are known from collections or sight records from several localities not under imminent threat, or from few but widespread localities with either large population size or significant remaining areas of apparently suitable habitat, much of it not under imminent threat. Taxa may be included if they are comparatively well known from several localities but do not meet adequacy of survey requirements and known threatening processes exist that could affect them.
4	Priority Four: Rare, Near Threatened and other taxa in need of monitoring	(a) Rare. Taxa that are considered to have been adequately surveyed, or for which sufficient knowledge is available, and that are considered not currently threatened or in need of special protection, but could be if present circumstances change. These taxa are usually represented on conservation lands. (b) Near Threatened. Taxa that are considered to have been adequately surveyed and that do not qualify for Conservation Dependent, but that are close to qualifying for Vulnerable. (c) Taxa that have been removed from the list of threatened species during the past five years for reasons other than taxonomy.
5	Priority 5: Conservation Dependent taxa	Taxa that are not threatened but are subject to a specific conservation program, the cessation of which would result in the taxon becoming threatened within five years.

Migratory Species Listed Under the EPBC Act

The EPBC Act also protects land and migratory species that are listed under International Agreements. The list of migratory species established under section 209 of the EPBC Act comprises:

- Migratory species which are native to Australia and are included in the appendices to the Bonn Convention (Convention on the Conservation of Migratory Species of Wild Animals Appendices I and II);
- Migratory species included in annexes established under the Japan-Australia Migratory Bird Agreement (JAMBA) and the China–Australia Migratory Bird Agreement (CAMBA); and
- Native, migratory species identified in a list established under, or an instrument made under, an international agreement approved by the Minister, such as the Republic of Korea–Australia Migratory Bird Agreement (ROKAMBA).

Other Significant Flora and Fauna

Flora species, subspecies, varieties, hybrids and ecotypes may be significant for a range of reasons, other than as Threatened (Declared Rare) Flora or Priority Flora. The EPA (2004a) states that significant flora may include taxa that have:

- A keystone role in a particular habitat for threatened species or supporting large populations representing a significant proportion of the local regional population of a species;
- Relic status;
- Anomalous features that indicate a potential new discovery;
- Being representative of the range of a species (particularly, at the extremes of range, recently discovered range extensions, or isolated outliers of the main range);

- The presence of restricted subspecies, varieties, or naturally occurring hybrids;
- Local endemism/a restricted distribution; and
- Being poorly reserved.

The application of the degree of significance may apply at a range of scales.

Introduced Plants (Weeds)

Declared Pests

The Department of Agriculture and Food Western Australia (DAFWA) maintains a list of Declared Pests for Western Australia that have been declared under the BAM Act. If a Pest is declared for the whole of the State or for particular Local Government Areas, all landholders are obliged to comply with the specific category of control. Declared Pests are gazetted under categories, which define the action required. The category may apply to the whole of the State, districts, individual properties or even paddocks. Categories of control are defined in Table B.5. Among the factors considered in categorising Declared Pests are:

- The impact of the plant on individuals, agricultural production and the community in general;
- Whether it is already established in the area; and
- The feasibility and cost of possible control measures.

Department of Agriculture and Food (Western Australia) Categories for Declared Pests under the Biosecurity and Agriculture Management Act 2007

Control class code	Description
C1 (Exclusion)	Pests will be assigned to this category if they are not established in Western Australia and control measures are to be taken, including border checks, in order to prevent them entering and establishing in the State.
C2 (Eradication)	Pests will be assigned to this category if they are present in Western Australia in low enough numbers or in sufficiently limited areas that their eradication is still a possibility.
C3 (Management)	Pests will be assigned to this category if they are established in Western Australia but it is feasible, or desirable, to manage them in order to limit their damage. Control measures can prevent a C3 pest from increasing in population size or density or moving from an area in which it is established into an area which currently is free of that pest.

Weeds of National Significance

The spread of weeds across a range of land uses or ecosystems is important in the context of socio-economic and environmental values. The assessment of Weeds of National Significance (WoNS) is based on four major criteria:

- Invasiveness;
- Impacts;
- Potential for spread; and
- Socio-economic and environmental values.

Australian state and territory governments have identified thirty two Weeds of National Significance (WoNS); a list of 20 WoNS was endorsed in 1999 and a further 12 were added in 2012 (Australian Government, 2012).

Zosteropidae

959.	<i>Zosterops lateralis</i> (Grey-breasted White-eye, Silvereye)			
------	---	--	--	--

Zygophyllaceae

960.	<i>Zygophyllum fruticosum</i> (Shrubby Twinleaf)			
------	--	--	--	--

Conservation Codes

T - Rare or likely to become extinct
 X - Presumed extinct
 IA - Protected under international agreement
 S - Other specially protected fauna
 1 - Priority 1
 2 - Priority 2
 3 - Priority 3
 4 - Priority 4
 5 - Priority 5

¹ For NatureMap's purposes, species flagged as endemic are those whose records are wholly contained within the search area. Note that only those records complying with the search criterion are included in the calculation. For example, if you limit records to those from a specific datasource, only records from that datasource are used to determine if a species is restricted to the query area.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected.

Information on the coverage of this report and qualifications on data supporting this report are contained in the caveat at the end of the report.

Information is available about [Environment Assessments](#) and the EPBC Act including significance guidelines, forms and application process details.

Report created: 15/09/15 18:18:38

Summary

Matters of National Environmental Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance:	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	None
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	33
Listed Migratory Species:	5

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <http://www.environment.gov.au/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Land:	1
Commonwealth Heritage Places:	None
Listed Marine Species:	8
Whales and Other Cetaceans:	None
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	None
Commonwealth Reserves Marine:	None

Extra Information

This part of the report provides information that may also be relevant to the area you have nominated.

State and Territory Reserves:	10
Regional Forest Agreements:	None
Invasive Species:	21
Nationally Important Wetlands:	1
Key Ecological Features (Marine)	None

Details

Matters of National Environmental Significance

Listed Threatened Species	[Resource Information]	
Name	Status	Type of Presence
Birds		
<u>Calyptorhynchus latirostris</u>		
Carnaby's Black-Cockatoo, Short-billed Black-Cockatoo [59523]	Endangered	Breeding likely to occur within area
<u>Leipoa ocellata</u>		
Malleefowl [934]	Vulnerable	Species or species habitat known to occur within area
<u>Rostratula australis</u>		
Australian Painted Snipe [77037]	Endangered	Species or species habitat may occur within area
Mammals		
<u>Dasyurus geoffroii</u>		
Chuditch, Western Quoll [330]	Vulnerable	Species or species habitat known to occur within area
Plants		
<u>Acacia forrestiana</u>		
Forest's Wattle [17235]	Vulnerable	Species or species habitat likely to occur within area
<u>Andersonia gracilis</u>		
Slender Andersonia [14470]	Endangered	Species or species habitat likely to occur within area
<u>Anigozanthos viridis subsp. terraspectans</u>		
Dwarf Green Kangaroo Paw [3435]	Vulnerable	Species or species habitat known to occur within area
<u>Asterolasia nivea</u>		
Bindoon Starbush [8225]	Vulnerable	Species or species habitat likely to occur within area
<u>Banksia fuscobractea</u>		
Dark-bract Banksia [83059]	Critically Endangered	Species or species habitat likely to occur within area
<u>Banksia mimica</u>		
Summer Honeypot [82765]	Endangered	Species or species habitat likely to occur within area
<u>Banksia serratuloides subsp. serratuloides</u>		
Southern Serrate Dryandra [82768]	Vulnerable	Species or species habitat may occur within area
<u>Caladenia huegelii</u>		
King Spider-orchid, Grand Spider-orchid, Rusty Spider-orchid [7309]	Endangered	Species or species habitat may occur within area

Name	Status	Type of Presence
<u>Centrolepis caespitosa</u> [6393]	Endangered	Species or species habitat may occur within area
<u>Chamelaucium sp. Gingin (N.G.Merchant 6)</u> Gingin Wax [64649]	Endangered	Species or species habitat likely to occur within area
<u>Conospermum densiflorum subsp. unicephalatum</u> One-headed Smokebush [64871]	Endangered	Species or species habitat likely to occur within area
<u>Darwinia acerosa</u> Fine-leaved Darwinia [9004]	Endangered	Species or species habitat likely to occur within area
<u>Darwinia foetida</u> Muchea Bell [83190]	Critically Endangered	Species or species habitat likely to occur within area
<u>Drakaea elastica</u> Glossy-leaved Hammer-orchid, Praying Virgin [16753]	Endangered	Species or species habitat known to occur within area
<u>Eleocharis keigheryi</u> Keighery's Eleocharis [64893]	Vulnerable	Species or species habitat likely to occur within area
<u>Epiblema grandiflorum var. cyaneum</u> Baby Blue Orchid, Blue Babe-in-the-cradle Orchid, Blue Babe-in-a-cradle [67182]	Endangered	Species or species habitat may occur within area
<u>Eucalyptus absita</u> Badgingarra Box [24260]	Endangered	Species or species habitat may occur within area
<u>Eucalyptus balanites</u> Cadda Road Mallee, Cadda Mallee [24264]	Endangered	Species or species habitat may occur within area
<u>Eucalyptus dolorosa</u> Dandaragan Mallee, Mount Misery Mallee [56709]	Endangered	Species or species habitat likely to occur within area
<u>Eucalyptus impensa</u> Eneabba Mallee [56711]	Endangered	Species or species habitat may occur within area
<u>Eucalyptus leprophloia</u> Scaly Butt Mallee, Scaly-butt Mallee [56712]	Endangered	Species or species habitat may occur within area
<u>Eucalyptus recta</u> Silver Mallet [56430]	Endangered	Species or species habitat may occur within area
<u>Grevillea curviloba subsp. incurva</u> Narrow curved-leaf Grevillea [64909]	Endangered	Species or species habitat may occur within area
<u>Hemiandra gardneri</u> Red Snakebush [7945]	Endangered	Species or species habitat may occur within area
<u>Leucopogon obtectus</u> Hidden Beard-heath [19614]	Endangered	Species or species habitat may occur within area
<u>Paracaleana dixonii</u> Sandplain Duck Orchid [86882]	Endangered	Species or species habitat known to occur within area

Name	Status	Type of Presence
Ptychosema pusillum Dwarf Pea [11268]	Vulnerable	Species or species habitat likely to occur within area
Thelymitra manginii K.Dixon & Batty ms. [67443]	Endangered	Species or species habitat may occur within area
Thelymitra stellata Star Sun-orchid [7060]	Endangered	Species or species habitat may occur within area

Listed Migratory Species		[Resource Information]
* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.		
Name	Status	Type of Presence
Migratory Marine Birds	Threatened	
Apus pacificus Fork-tailed Swift [678]		Species or species habitat likely to occur within area
Migratory Terrestrial Species		
Merops ornatus Rainbow Bee-eater [670]		Species or species habitat may occur within area
Migratory Wetlands Species		
Ardea alba Great Egret, White Egret [59541]		Species or species habitat known to occur within area
Ardea ibis Cattle Egret [59542]		Species or species habitat may occur within area
Pandion haliaetus Osprey [952]		Species or species habitat known to occur within area

Other Matters Protected by the EPBC Act

Commonwealth Land		[Resource Information]
The Commonwealth area listed below may indicate the presence of Commonwealth land in this vicinity. Due to the unreliability of the data source, all proposals should be checked as to whether it impacts on a Commonwealth area, before making a definitive decision. Contact the State or Territory government land department for further information.		
Name	Status	Type of Presence
Commonwealth Land -		
Listed Marine Species		[Resource Information]
* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.		
Name	Status	Type of Presence
Birds	Threatened	
Apus pacificus Fork-tailed Swift [678]		Species or species habitat likely to occur within area
Ardea alba Great Egret, White Egret [59541]		Species or species habitat known to occur within area
Ardea ibis Cattle Egret [59542]		Species or species habitat may occur within area
Haliaeetus leucogaster White-bellied Sea-Eagle [943]		Species or species habitat likely to occur

Name	Threatened	Type of Presence within area
Merops ornatus Rainbow Bee-eater [670]		Species or species habitat may occur within area
Pandion haliaetus Osprey [952]		Species or species habitat known to occur within area
Rostratula benghalensis (sensu lato) Painted Snipe [889]	Endangered*	Species or species habitat may occur within area
Thinornis rubricollis Hooded Plover [59510]		Species or species habitat known to occur within area

South Mimegarra	WA	
Unnamed WA21164	WA	
Unnamed WA25591	WA	
Unnamed WA46899	WA	
Unnamed WA47808	WA	

Invasive Species		[Resource Information]
Weeds reported here are the 20 species of national significance (WoNS), along with other introduced plants that are considered by the States and Territories to pose a particularly significant threat to biodiversity. The following feral animals are reported: Goat, Red Fox, Cat, Rabbit, Pig, Water Buffalo and Cane Toad. Maps from Landscape Health Project, National Land and Water Resources Audit, 2001.		

Name	Status	Type of Presence
Birds		
Anas platyrhynchos Mallard [974]		Species or species habitat likely to occur within area
Columba livia Rock Pigeon, Rock Dove, Domestic Pigeon [803]		Species or species habitat likely to occur within area
Streptopelia chinensis Spotted Turtle-Dove [780]		Species or species habitat likely to occur within area
Streptopelia senegalensis Laughing Turtle-dove, Laughing Dove [781]		Species or species habitat likely to occur within area
Sturnus vulgaris Common Starling [389]		Species or species habitat likely to occur

Name	Status	Type of Presence within area
Mammals		
Canis lupus familiaris Domestic Dog [82654]		Species or species habitat likely to occur within area
Felis catus Cat, House Cat, Domestic Cat [19]		Species or species habitat likely to occur within area
Mus musculus House Mouse [120]		Species or species habitat likely to occur within area
Oryctolagus cuniculus Rabbit, European Rabbit [128]		Species or species habitat likely to occur within area
Rattus rattus Black Rat, Ship Rat [84]		Species or species habitat likely to occur within area
Sus scrofa Pig [6]		Species or species habitat likely to occur within area
Vulpes vulpes Red Fox, Fox [18]		Species or species habitat likely to occur within area
Plants		
Asparagus asparagoides Bridal Creeper, Bridal Veil Creeper, Smilax, Florist's Smilax, Smilax Asparagus [22473]		Species or species habitat likely to occur within area
Brachiaria mutica Para Grass [5879]		Species or species habitat may occur within area
Cenchrus ciliaris Buffel-grass, Black Buffel-grass [20213]		Species or species habitat may occur within area
Chrysanthemoides monilifera Bitou Bush, Boneseed [18983]		Species or species habitat may occur within area
Genista sp. X Genista monspessulana Broom [67538]		Species or species habitat may occur within area
Olea europaea Olive, Common Olive [9160]		Species or species habitat may occur within area
Pinus radiata Radiata Pine Monterey Pine, Insignis Pine, Wilding Pine [20780]		Species or species habitat may occur within area
Rubus fruticosus aggregate Blackberry, European Blackberry [68406]		Species or species habitat likely to occur within area
Tamarix aphylla Athel Pine, Athel Tree, Tamarisk, Athel Tamarisk, Athel Tamarix, Desert Tamarisk, Flowering Cypress, Salt Cedar [16018]		Species or species habitat likely to occur within area
Nationally Important Wetlands	<u>[Resource Information]</u>	
Name	State	
Guraga Lake	WA	

Caveat

The information presented in this report has been provided by a range of data sources as acknowledged at the end of the report.

This report is designed to assist in identifying the locations of places which may be relevant in determining obligations under the Environment Protection and Biodiversity Conservation Act 1999. It holds mapped locations of World and National Heritage properties, Wetlands of International and National Importance, Commonwealth and State/Territory reserves, listed threatened, migratory and marine species and listed threatened ecological communities. Mapping of Commonwealth land is not complete at this stage. Maps have been collated from a range of sources at various resolutions.

Not all species listed under the EPBC Act have been mapped (see below) and therefore a report is a general guide only. Where available data supports mapping, the type of presence that can be determined from the data is indicated in general terms. People using this information in making a referral may need to consider the qualifications below and may need to seek and consider other information sources.

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

For species where the distributions are well known, maps are digitised from sources such as recovery plans and detailed habitat studies. Where appropriate, core breeding, foraging and roosting areas are indicated under 'type of presence'. For species whose distributions are less well known, point locations are collated from government wildlife authorities, museums, and non-government organisations; bioclimatic distribution models are generated and these validated by experts. In some cases, the distribution maps are based solely on expert knowledge.

Only selected species covered by the following provisions of the EPBC Act have been mapped:

- migratory and
- marine

The following species and ecological communities have not been mapped and do not appear in reports produced from this database:

- threatened species listed as extinct or considered as vagrants
- some species and ecological communities that have only recently been listed
- some terrestrial species that overfly the Commonwealth marine area
- migratory species that are very widespread, vagrant, or only occur in small numbers

The following groups have been mapped, but may not cover the complete distribution of the species:

- non-threatened seabirds which have only been mapped for recorded breeding sites
- seals which have only been mapped for breeding sites near the Australian continent

Such breeding sites may be important for the protection of the Commonwealth Marine environment.

Conservation Codes

- T - Rare or likely to become extinct
- X - Presumed extinct
- IA - Protected under international agreement
- S - Other specially protected fauna
- 1 - Priority 1
- 2 - Priority 2
- 3 - Priority 3
- 4 - Priority 4
- 5 - Priority 5

¹ For NatureMap's purposes, species flagged as endemic are those whose records are wholly contained within the search area. Note that only those records complying with the search criterion are included in the calculation. For example, if you limit records to those from a specific datasource, only records from that datasource are used to determine if a species is restricted to the query area.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected.

Information on the coverage of this report and qualifications on data supporting this report are contained in the caveat at the end of the report.

Information is available about [Environment Assessments](#) and the EPBC Act including significance guidelines, forms and application process details.

Report created: 15/09/15 18:19:01

Summary

Matters of National Environmental Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance:	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	None
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	35
Listed Migratory Species:	5

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <http://www.environment.gov.au/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Land:	1
Commonwealth Heritage Places:	1
Listed Marine Species:	8
Whales and Other Cetaceans:	None
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	None
Commonwealth Reserves Marine:	None

Extra Information

This part of the report provides information that may also be relevant to the area you have nominated.

State and Territory Reserves:	8
Regional Forest Agreements:	None
Invasive Species:	22
Nationally Important Wetlands:	1
Key Ecological Features (Marine)	None

Details

Matters of National Environmental Significance

Listed Threatened Species	[Resource Information]	
Name	Status	Type of Presence
Birds		
<u>Calyptorhynchus latirostris</u>		
Carnaby's Black-Cockatoo, Short-billed Black-Cockatoo [59523]	Endangered	Breeding likely to occur within area
<u>Leipoa ocellata</u>		
Malleefowl [934]	Vulnerable	Species or species habitat likely to occur within area
<u>Rostratula australis</u>		
Australian Painted Snipe [77037]	Endangered	Species or species habitat may occur within area
Mammals		
<u>Dasyurus geoffroii</u>		
Chuditch, Western Quoll [330]	Vulnerable	Species or species habitat likely to occur within area
Plants		
<u>Acacia cochlocarpa subsp. cochlocarpa</u>		
Spiral-fruited Wattle [23877]	Endangered	Species or species habitat may occur within area
<u>Acacia forrestiana</u>		
Forest's Wattle [17235]	Vulnerable	Species or species habitat likely to occur within area
<u>Acacia splendens</u>		
Splendid Wattle, Dandaragan Wattle [81510]	Endangered	Species or species habitat likely to occur within area
<u>Andersonia gracilis</u>		
Slender Andersonia [14470]	Endangered	Species or species habitat known to occur within area
<u>Anigozanthos viridis subsp. terraspectans</u>		
Dwarf Green Kangaroo Paw [3435]	Vulnerable	Species or species habitat known to occur within area
<u>Banksia serratuloides subsp. perissa</u>		
Northern Serrate Dryandra [82767]	Critically Endangered	Species or species habitat may occur within area
<u>Caladenia huegelii</u>		
King Spider-orchid, Grand Spider-orchid, Rusty Spider-orchid [7309]	Endangered	Species or species habitat may occur within area
<u>Centrolepis caespitosa</u>		
[6393]	Endangered	Species or species habitat may occur within area

Name	Status	Type of Presence
<u>Chamelaucium sp. Cataby (G.J.Keighery 11009)</u> Griffin's Waxflower [82509]	Vulnerable	Species or species habitat known to occur within area
<u>Chamelaucium sp. Gingin (N.G.Merchant 6)</u> Gingin Wax [64649]	Endangered	Species or species habitat may occur within area
<u>Conospermum densiflorum subsp. unicephalatum</u> One-headed Smokebush [64871]	Endangered	Species or species habitat likely to occur within area
<u>Darwinia foetida</u> Muchea Bell [83190]	Critically Endangered	Species or species habitat likely to occur within area
<u>Drakaea elastica</u> Glossy-leaved Hammer-orchid, Praying Virgin [16753]	Endangered	Species or species habitat likely to occur within area
<u>Eleocharis keigheryi</u> Keighery's Eleocharis [64893]	Vulnerable	Species or species habitat likely to occur within area
<u>Epiblema grandiflorum var. cyaneum</u> Baby Blue Orchid, Blue Babe-in-the-cradle Orchid, Blue Babe-in-a-cradle [67182]	Endangered	Species or species habitat may occur within area
<u>Eucalyptus absita</u> Badgingarra Box [24260]	Endangered	Species or species habitat known to occur within area
<u>Eucalyptus balanites</u> Cadda Road Mallee, Cadda Mallee [24264]	Endangered	Species or species habitat likely to occur within area
<u>Eucalyptus dolorosa</u> Dandaragan Mallee, Mount Misery Mallee [56709]	Endangered	Species or species habitat known to occur within area
<u>Eucalyptus impensa</u> Eneabba Mallee [56711]	Endangered	Species or species habitat likely to occur within area
<u>Eucalyptus leprophloia</u> Scaly Butt Mallee, Scaly-butt Mallee [56712]	Endangered	Species or species habitat likely to occur within area
<u>Eucalyptus recta</u> Silver Mallet [56430]	Endangered	Species or species habitat may occur within area
<u>Grevillea batrachioides</u> Mt Lesueur Grevillea [21735]	Endangered	Species or species habitat likely to occur within area
<u>Grevillea calliantha</u> Foote's Grevillea, Cataby Grevillea, Black Magic Grevillea [56339]	Endangered	Species or species habitat likely to occur within area
<u>Grevillea curviloba subsp. incurva</u> Narrow curved-leaf Grevillea [64909]	Endangered	Species or species habitat may occur within area
<u>Hakea megalosperma</u> Lesueur Hakea [10505]	Vulnerable	Species or species habitat likely to occur within area
<u>Hemiandra gardneri</u> Red Snakebush [7945]	Endangered	Species or species habitat likely to occur within area

Name	Status	Type of Presence
Leucopogon obtectus Hidden Beard-heath [19614]	Endangered	Species or species habitat may occur within area
Macarthuria keigheryi Keighery's Macarthuria [64930]	Endangered	Species or species habitat likely to occur within area
Paracaleana dixonii Sandplain Duck Orchid [86882]	Endangered	Species or species habitat may occur within area
Thelymitra manginii K.Dixon & Batty ms. [67443]	Endangered	Species or species habitat likely to occur within area
Thelymitra stellata Star Sun-orchid [7060]	Endangered	Species or species habitat may occur within area

Listed Migratory Species [\[Resource Information \]](#)

* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.		
Name	Threatened	Type of Presence
Migratory Marine Birds		
Apus pacificus Fork-tailed Swift [678]		Species or species habitat likely to occur within area

Migratory Terrestrial Species

Merops ornatus Rainbow Bee-eater [670]	Species or species habitat may occur within area
---	--

Migratory Wetlands Species

Ardea alba Great Egret, White Egret [59541]	Species or species habitat likely to occur within area
--	--

Ardea ibis

Cattle Egret [59542]	Species or species habitat may occur within area
----------------------	--

Pandion haliaetus

Osprey [952]	Species or species habitat likely to occur within area
--------------	--

Other Matters Protected by the EPBC Act

Commonwealth Land [\[Resource Information \]](#)

The Commonwealth area listed below may indicate the presence of Commonwealth land in this vicinity. Due to the unreliability of the data source, all proposals should be checked as to whether it impacts on a Commonwealth area, before making a definitive decision. Contact the State or Territory government land department for further information.

Name	Status	Type of Presence within area
<i>Streptopelia senegalensis</i> Laughing Turtle-dove, Laughing Dove [781]		Species or species habitat likely to occur within area
<i>Sturnus vulgaris</i> Common Starling [389]		Species or species habitat likely to occur within area
Mammals		
<i>Canis lupus familiaris</i> Domestic Dog [82654]		Species or species habitat likely to occur within area
<i>Capra hircus</i> Goat [2]		Species or species habitat likely to occur within area
<i>Felis catus</i> Cat, House Cat, Domestic Cat [19]		Species or species habitat likely to occur within area
Feral deer Feral deer species in Australia [85733]		Species or species habitat likely to occur within area
<i>Mus musculus</i> House Mouse [120]		Species or species habitat likely to occur within area
<i>Oryctolagus cuniculus</i> Rabbit, European Rabbit [128]		Species or species habitat likely to occur within area
<i>Rattus rattus</i> Black Rat, Ship Rat [84]		Species or species habitat likely to occur within area
<i>Sus scrofa</i> Pig [6]		Species or species habitat likely to occur within area
<i>Vulpes vulpes</i> Red Fox, Fox [18]		Species or species habitat likely to occur within area
Plants		
<i>Asparagus asparagoides</i> Bridal Creeper, Bridal Veil Creeper, Smilax, Florist's Smilax, Smilax Asparagus [22473]		Species or species habitat likely to occur within area
<i>Brachiaria mutica</i> Para Grass [5879]		Species or species habitat may occur within area
<i>Cenchrus ciliaris</i> Buffel-grass, Black Buffel-grass [20213]		Species or species habitat may occur within area
<i>Chrysanthemoides monilifera</i> Bitou Bush, Boneseed [18983]		Species or species habitat may occur within area
<i>Genista sp. X Genista monspessulana</i> Broom [67538]		Species or species habitat may occur within area
<i>Olea europaea</i> Olive, Common Olive [9160]		Species or species habitat may occur within area
<i>Pinus radiata</i> Radiata Pine Monterey Pine, Insignis Pine, Wilding		Species or species

Name	Status	Type of Presence
Pine [20780]		habitat may occur within area
Tamarix aphylla		
Athel Pine, Athel Tree, Tamarisk, Athel Tamarisk, Athel Tamarix, Desert Tamarisk, Flowering Cypress, Salt Cedar [16018]		Species or species habitat likely to occur within area
Nationally Important Wetlands		[Resource Information]
Name		State
Lancelin Defence Training Area		WA

Caveat

The information presented in this report has been provided by a range of data sources as acknowledged at the end of the report.

This report is designed to assist in identifying the locations of places which may be relevant in determining obligations under the Environment Protection and Biodiversity Conservation Act 1999. It holds mapped locations of World and National Heritage properties, Wetlands of International and National Importance, Commonwealth and State/Territory reserves, listed threatened, migratory and marine species and listed threatened ecological communities. Mapping of Commonwealth land is not complete at this stage. Maps have been collated from a range of sources at various resolutions.

Not all species listed under the EPBC Act have been mapped (see below) and therefore a report is a general guide only. Where available data supports mapping, the type of presence that can be determined from the data is indicated in general terms. People using this information in making a referral may need to consider the qualifications below and may need to seek and consider other information sources.

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

For species where the distributions are well known, maps are digitised from sources such as recovery plans and detailed habitat studies. Where appropriate, core breeding, foraging and roosting areas are indicated under 'type of presence'. For species whose distributions are less well known, point locations are collated from government wildlife authorities, museums, and non-government organisations; bioclimatic distribution models are generated and these validated by experts. In some cases, the distribution maps are based solely on expert knowledge.

Only selected species covered by the following provisions of the EPBC Act have been mapped:

- migratory and
- marine

The following species and ecological communities have not been mapped and do not appear in reports produced from this database:

- threatened species listed as extinct or considered as vagrants
- some species and ecological communities that have only recently been listed
- some terrestrial species that overfly the Commonwealth marine area
- migratory species that are very widespread, vagrant, or only occur in small numbers

The following groups have been mapped, but may not cover the complete distribution of the species:

- non-threatened seabirds which have only been mapped for recorded breeding sites
- seals which have only been mapped for breeding sites near the Australian continent

Such breeding sites may be important for the protection of the Commonwealth Marine environment.

Conservation Codes

- T - Rare or likely to become extinct
- X - Presumed extinct
- IA - Protected under international agreement
- S - Other specially protected fauna
- 1 - Priority 1
- 2 - Priority 2
- 3 - Priority 3
- 4 - Priority 4
- 5 - Priority 5

¹ For NatureMap's purposes, species flagged as endemic are those whose records are wholly contained within the search area. Note that only those records complying with the search criterion are included in the calculation. For example, if you limit records to those from a specific datasource, only records from that datasource are used to determine if a species is restricted to the query area.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected.

Information on the coverage of this report and qualifications on data supporting this report are contained in the caveat at the end of the report.

Information is available about [Environment Assessments](#) and the EPBC Act including significance guidelines, forms and application process details.

Report created: 15/09/15 18:19:33

Summary

Matters of National Environmental Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance:	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	None
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	38
Listed Migratory Species:	5

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <http://www.environment.gov.au/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Land:	1
Commonwealth Heritage Places:	1
Listed Marine Species:	8
Whales and Other Cetaceans:	None
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	None
Commonwealth Reserves Marine:	None

Extra Information

This part of the report provides information that may also be relevant to the area you have nominated.

State and Territory Reserves:	6
Regional Forest Agreements:	None
Invasive Species:	22
Nationally Important Wetlands:	1
Key Ecological Features (Marine)	None

Details

Matters of National Environmental Significance

Listed Threatened Species	[Resource Information]	
Name	Status	Type of Presence
Birds		
<u>Calyptorhynchus latirostris</u>		
Carnaby's Black-Cockatoo, Short-billed Black-Cockatoo [59523]	Endangered	Breeding likely to occur within area
<u>Leipoa ocellata</u>		
Malleefowl [934]	Vulnerable	Species or species habitat likely to occur within area
<u>Rostratula australis</u>		
Australian Painted Snipe [77037]	Endangered	Species or species habitat may occur within area
Mammals		
<u>Dasyurus geoffroii</u>		
Chuditch, Western Quoll [330]	Vulnerable	Species or species habitat likely to occur within area
Plants		
<u>Acacia cochlocarpa subsp. cochlocarpa</u>		
Spiral-fruited Wattle [23877]	Endangered	Species or species habitat may occur within area
<u>Acacia forrestiana</u>		
Forest's Wattle [17235]	Vulnerable	Species or species habitat likely to occur within area
<u>Acacia splendens</u>		
Splendid Wattle, Dandaragan Wattle [81510]	Endangered	Species or species habitat likely to occur within area
<u>Andersonia gracilis</u>		
Slender Andersonia [14470]	Endangered	Species or species habitat known to occur within area
<u>Anigozanthos viridis subsp. terraspectans</u>		
Dwarf Green Kangaroo Paw [3435]	Vulnerable	Species or species habitat known to occur within area
<u>Banksia serratuloides subsp. perissa</u>		
Northern Serrate Dryandra [82767]	Critically Endangered	Species or species habitat may occur within area
<u>Caladenia huegelii</u>		
King Spider-orchid, Grand Spider-orchid, Rusty Spider-orchid [7309]	Endangered	Species or species habitat may occur within area
<u>Centrolepis caespitosa</u>		
[6393]	Endangered	Species or species habitat may occur within area

Name	Status	Type of Presence
<u>Chamelaucium sp. Gingin (N.G.Marchant 6)</u> Gingin Wax [64649]	Endangered	Species or species habitat may occur within area
<u>Conospermum densiflorum subsp. unicephalatum</u> One-headed Smokebush [64871]	Endangered	Species or species habitat likely to occur within area
<u>Darwinia foetida</u> Muchea Bell [83190]	Critically Endangered	Species or species habitat likely to occur within area
<u>Drakaea elastica</u> Glossy-leaved Hammer-orchid, Praying Virgin [16753]	Endangered	Species or species habitat may occur within area
<u>Eleocharis keigheryi</u> Keighery's Eleocharis [64893]	Vulnerable	Species or species habitat likely to occur within area
<u>Epiblema grandiflorum var. cyaneum</u> Baby Blue Orchid, Blue Babe-in-the-cradle Orchid, Blue Babe-in-a-cradle [67182]	Endangered	Species or species habitat may occur within area
<u>Eremophila scaberula</u> Rough Emu Bush [16729]	Endangered	Species or species habitat may occur within area
<u>Eucalyptus absita</u> Badgingarra Box [24260]	Endangered	Species or species habitat known to occur within area
<u>Eucalyptus balanites</u> Cadda Road Mallee, Cadda Mallee [24264]	Endangered	Species or species habitat known to occur within area
<u>Eucalyptus crispata</u> Yandanooka Mallee [24268]	Vulnerable	Species or species habitat may occur within area
<u>Eucalyptus dolorosa</u> Dandaragan Mallee, Mount Misery Mallee [56709]	Endangered	Species or species habitat likely to occur within area
<u>Eucalyptus impensa</u> Eneabba Mallee [56711]	Endangered	Species or species habitat likely to occur within area
<u>Eucalyptus leprophloia</u> Scaly Butt Mallee, Scaly-butt Mallee [56712]	Endangered	Species or species habitat likely to occur within area
<u>Eucalyptus suberea</u> Cork Mallee, Mount Lesueur Mallee [5529]	Vulnerable	Species or species habitat may occur within area
<u>Grevillea batrachioides</u> Mt Lesueur Grevillea [21735]	Endangered	Species or species habitat likely to occur within area
<u>Grevillea calliantha</u> Foote's Grevillea, Cataby Grevillea, Black Magic Grevillea [56339]	Endangered	Species or species habitat likely to occur within area
<u>Hakea megalosperma</u> Lesueur Hakea [10505]	Vulnerable	Species or species habitat likely to occur within area
<u>Hemiandra gardneri</u> Red Snakebush [7945]	Endangered	Species or species habitat likely to occur within area

Name	Status	Type of Presence
<u><i>Leucopogon obtectus</i></u> Hidden Beard-heath [19614]	Endangered	Species or species habitat may occur within area
<u><i>Macarthuria keigheryi</i></u> Keighery's Macarthuria [64930]	Endangered	Species or species habitat likely to occur within area
<u><i>Paracaleana dixonii</i></u> Sandplain Duck Orchid [86882]	Endangered	Species or species habitat likely to occur within area
<u><i>Patersonia spirifolia</i></u> Spiral-leaved Patersonia [83927]	Endangered	Species or species habitat likely to occur within area
<u><i>Ptychosema pusillum</i></u> Dwarf Pea [11268]	Vulnerable	Species or species habitat likely to occur within area
<u><i>Spirogardnera rubescens</i></u> Spiral Bush [15667]	Endangered	Species or species habitat likely to occur within area
<u><i>Thelymitra manginii</i></u> K.Dixon & Batty ms. [67443]	Endangered	Species or species habitat likely to occur within area
<u><i>Thelymitra stellata</i></u> Star Sun-orchid [7060]	Endangered	Species or species habitat may occur within area

Listed Migratory Species		[Resource Information]
* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.		
Name	Threatened	Type of Presence
Migratory Marine Birds		
<u><i>Apus pacificus</i></u> Fork-tailed Swift [678]		Species or species habitat likely to occur within area
Migratory Terrestrial Species		
<u><i>Merops ornatus</i></u> Rainbow Bee-eater [670]		Species or species habitat may occur within area
Migratory Wetlands Species		
<u><i>Ardea alba</i></u> Great Egret, White Egret [59541]		Species or species habitat likely to occur within area
<u><i>Ardea ibis</i></u> Cattle Egret [59542]		Species or species habitat may occur within area
<u><i>Pandion haliaetus</i></u> Osprey [952]		Species or species habitat may occur within area

Invasive Species

[Resource Information]

Weeds reported here are the 20 species of national significance (WoNS), along with other introduced plants that are considered by the States and Territories to pose a particularly significant threat to biodiversity. The following feral animals are reported: Goat, Red Fox, Cat, Rabbit, Pig, Water Buffalo and Cane Toad. Maps from Landscape Health Project, National Land and Water Resources Audit, 2001.

Name	Status	Type of Presence
Birds		
Anas platyrhynchos Mallard [974]		Species or species habitat likely to occur within area
Columba livia Rock Pigeon, Rock Dove, Domestic Pigeon [803]		Species or species habitat likely to occur within area
Streptopelia chinensis Spotted Turtle-Dove [780]		Species or species habitat likely to occur within area
Streptopelia senegalensis Laughing Turtle-dove, Laughing Dove [781]		Species or species habitat likely to occur within area
Sturnus vulgaris Common Starling [389]		Species or species habitat likely to occur within area
Mammals		
Canis lupus familiaris Domestic Dog [82654]		Species or species habitat likely to occur within area
Capra hircus Goat [2]		Species or species habitat likely to occur within area
Felis catus Cat, House Cat, Domestic Cat [19]		Species or species habitat likely to occur within area
Feral deer Feral deer species in Australia [85733]		Species or species habitat likely to occur within area
Mus musculus House Mouse [120]		Species or species habitat likely to occur within area
Oryctolagus cuniculus Rabbit, European Rabbit [128]		Species or species habitat likely to occur within area
Rattus rattus Black Rat, Ship Rat [84]		Species or species habitat likely to occur within area
Sus scrofa Pig [6]		Species or species habitat likely to occur within area
Vulpes vulpes Red Fox, Fox [18]		Species or species habitat likely to occur within area
Plants		
Asparagus asparagoides Bridal Creeper, Bridal Veil Creeper, Smilax, Florist's Smilax, Smilax Asparagus [22473]		Species or species habitat likely to occur within area
Brachiaria mutica Para Grass [5879]		Species or species habitat may occur within

Name	Status	Type of Presence area
Cenchrus ciliaris Buffel-grass, Black Buffel-grass [20213]		Species or species habitat may occur within area
Chrysanthemoides monilifera Bitou Bush, Boneseed [18983]		Species or species habitat may occur within area
Genista sp. X Genista monspessulana Broom [67538]		Species or species habitat may occur within area
Olea europaea Olive, Common Olive [9160]		Species or species habitat may occur within area
Pinus radiata Radiata Pine Monterey Pine, Insignis Pine, Wilding Pine [20780]		Species or species habitat may occur within area
Tamarix aphylla Athel Pine, Athel Tree, Tamarisk, Athel Tamarisk, Athel Tamarix, Desert Tamarisk, Flowering Cypress, Salt Cedar [16018]		Species or species habitat likely to occur within area

Caveat

The information presented in this report has been provided by a range of data sources as acknowledged at the end of the report.

This report is designed to assist in identifying the locations of places which may be relevant in determining obligations under the Environment Protection and Biodiversity Conservation Act 1999. It holds mapped locations of World and National Heritage properties, Wetlands of International and National Importance, Commonwealth and State/Territory reserves, listed threatened, migratory and marine species and listed threatened ecological communities. Mapping of Commonwealth land is not complete at this stage. Maps have been collated from a range of sources at various resolutions.

Not all species listed under the EPBC Act have been mapped (see below) and therefore a report is a general guide only. Where available data supports mapping, the type of presence that can be determined from the data is indicated in general terms. People using this information in making a referral may need to consider the qualifications below and may need to seek and consider other information sources.

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

For species where the distributions are well known, maps are digitised from sources such as recovery plans and detailed habitat studies. Where appropriate, core breeding, foraging and roosting areas are indicated under 'type of presence'. For species whose distributions are less well known, point locations are collated from government wildlife authorities, museums, and non-government organisations; bioclimatic distribution models are generated and these validated by experts. In some cases, the distribution maps are based solely on expert knowledge.

Only selected species covered by the following provisions of the EPBC Act have been mapped:

- migratory and
- marine

The following species and ecological communities have not been mapped and do not appear in reports produced from this database:

- threatened species listed as extinct or considered as vagrants
- some species and ecological communities that have only recently been listed
- some terrestrial species that overfly the Commonwealth marine area
- migratory species that are very widespread, vagrant, or only occur in small numbers

The following groups have been mapped, but may not cover the complete distribution of the species:

- non-threatened seabirds which have only been mapped for recorded breeding sites
- seals which have only been mapped for breeding sites near the Australian continent

Such breeding sites may be important for the protection of the Commonwealth Marine environment.

Acanthizidae

1. 24260 *Acanthiza apicalis* (*Broad-tailed Thornbill, Inland Thornbill*)
2. 24261 *Acanthiza chrysorrhoa* (*Yellow-rumped Thornbill*)
3. 24262 *Acanthiza inornata* (*Western Thornbill*)
4. 24265 *Acanthiza uropygialis* (*Chestnut-rumped Thornbill*)
5. 24269 *Calamanthus campestris* (*Rufous Fieldwren*)
6. 25530 *Gerygone fusca* (*Western Gerygone*)
7. 24271 *Gerygone fusca* subsp. *fusca* (*Western Gerygone*)
8. 25534 *Sericornis frontalis* (*White-browed Scrubwren*)
9. 30948 *Smicromys brevirostris* (*Weebill*)

Accipitridae

10. 25535 *Accipiter cirrocephalus* (*Collared Sparrowhawk*)
11. 24285 *Aquila audax* (*Wedge-tailed Eagle*)
12. 24289 *Circus assimilis* (*Spotted Harrier*)
13. 24295 *Haliastur sphenurus* (*Whistling Kite*)

Actinopodidae

14. 14444 *Missulena hoggi*

Aegothelidae

15. 24301 *Aegotheles cristatus* subsp. *cristatus* (*Australian Owlet-nightjar*)

Agamidae

16. 30899 *Ctenophorus adelaidensis* (*Southern Heath Dragon, Western Heath Dragon*)
17. 24879 *Ctenophorus maculatus* subsp. *griseus* (*Spotted Military Dragon*)
18. 25510 *Pogona minor* (*Dwarf Bearded Dragon*)
19. 24907 *Pogona minor* subsp. *minor* (*Dwarf Bearded Dragon*)

Amaranthaceae

20. 2655 *Amaranthus albus* (*Tumbleweed*)
21. 2716 *Ptilotus declinatus* (*Curved Mulla Mulla*)
22. 2718 *Ptilotus drummondii* (*Narrowleaf Mulla Mulla*)
23. 2742 *Ptilotus manglesii* (*Pom Poms, Mulamula*)
24. 2751 *Ptilotus polystachyus* (*Prince of Wales Feather*)
25. 15856 *Ptilotus sericostachyus* subsp. *sericostachyus*
26. 40841 *Ptilotus stirlingii* subsp. *stirlingii*

Y

Anarthriaceae

27. 1058 *Anarthria gracilis*
28. 1059 *Anarthria humilis*
29. 1060 *Anarthria laevis*
30. 1061 *Anarthria polyphylla*
31. 1097 *Lyginia barbata*
32. 19245 *Lyginia excelsa*
33. 18049 *Lyginia imberbis*

P1

Anatidae

34. 24312 *Anas gracilis* (*Grey Teal*)
35. 24316 *Anas superciliosa* (*Pacific Black Duck*)
36. 24321 *Chenonetta jubata* (*Australian Wood Duck, Wood Duck*)
37. 24322 *Cygnus atratus* (*Black Swan*)
38. 24329 *Stictoneitta naevosa* (*Freckled Duck*)
39. 24331 *Tadorna tadornoides* (*Australian Shelduck, Mountain Duck*)

Apiaceae

40. 6205 *Actinotus leucocephalus* (*Flannel Flower*)
41. 6219 *Eryngium pinnatifidum* (*Blue Devils*)
42. 6222 *Homaloscidium homalocarpum*
43. 6255 *Platysace juncea*
44. 14996 *Platysace* sp. *Eneabba* (R. Hnatiuk 770001)
45. 6262 *Platysace xerophila*
46. 6289 *Xanthosia huegelii*
47. 6294 *Xanthosia tomentosa* (*Lesueur Southern Cross*)

P4

Apodanthaceae

48. 33460 *Pilosyles cocoidea*
49. 2408 *Pilosyles hamiltonii*

Apodidae

50. 25554 *Apus pacificus* (*Fork-tailed Swift*)

Conservation Codes

T - Rare or likely to become extinct
 X - Presumed extinct
 IA - Protected under international agreement
 S - Other specially protected fauna
 1 - Priority 1
 2 - Priority 2
 3 - Priority 3
 4 - Priority 4
 5 - Priority 5

¹ For NatureMap's purposes, species flagged as endemic are those whose records are wholly contained within the search area. Note that only those records complying with the search criterion are included in the calculation. For example, if you limit records to those from a specific datasource, only records from that datasource are used to determine if a species is restricted to the query area.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected.

Information on the coverage of this report and qualifications on data supporting this report are contained in the caveat at the end of the report.

Information is available about [Environment Assessments](#) and the EPBC Act including significance guidelines, forms and application process details.

Report created: 15/09/15 18:19:50

Summary

Matters of National Environmental Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance:	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	None
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	37
Listed Migratory Species:	5

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <http://www.environment.gov.au/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Land:	1
Commonwealth Heritage Places:	None
Listed Marine Species:	7
Whales and Other Cetaceans:	None
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	None
Commonwealth Reserves Marine:	None

Extra Information

This part of the report provides information that may also be relevant to the area you have nominated.

State and Territory Reserves:	6
Regional Forest Agreements:	None
Invasive Species:	22
Nationally Important Wetlands:	None
Key Ecological Features (Marine)	None

Details

Matters of National Environmental Significance

Listed Threatened Species	[Resource Information]	
Name	Status	Type of Presence
Birds		
Calyptorhynchus latirostris		
Carnaby's Black-Cockatoo, Short-billed Black-Cockatoo [59523]	Endangered	Breeding likely to occur within area
Leipoa ocellata		
Malleefowl [934]	Vulnerable	Species or species habitat likely to occur within area
Mammals		
Dasyurus geoffroii		
Chuditch, Western Quoll [330]	Vulnerable	Species or species habitat likely to occur within area
Plants		
Acacia cochlocarpa subsp. cochlocarpa		
Spiral-fruited Wattle [23877]	Endangered	Species or species habitat may occur within area
Acacia forrestiana		
Forest's Wattle [17235]	Vulnerable	Species or species habitat likely to occur within area
Acacia splendens		
Splendid Wattle, Dandaragan Wattle [81510]	Endangered	Species or species habitat likely to occur within area
Andersonia gracilis		
Slender Andersonia [14470]	Endangered	Species or species habitat known to occur within area
Anigozanthos viridis subsp. terraspectans		
Dwarf Green Kangaroo Paw [3435]	Vulnerable	Species or species habitat known to occur within area
Banksia serratuloides subsp. perissa		
Northern Serrate Dryandra [82767]	Critically Endangered	Species or species habitat may occur within area
Caladenia huegelii		
King Spider-orchid, Grand Spider-orchid, Rusty Spider-orchid [7309]	Endangered	Species or species habitat may occur within area
Centrolepis caespitosa		
[6393]	Endangered	Species or species habitat may occur within area
Chamelaucium sp. Gingin (N.G.Marchant 6)		
Gingin Wax [64649]	Endangered	Species or species habitat may occur within area

Name	Status	Type of Presence
<i>Conospermum densiflorum</i> subsp. <i>unicephalatum</i> One-headed Smokebush [64871]	Endangered	Species or species habitat likely to occur within area
<i>Darwinia foetida</i> Muchea Bell [83190]	Critically Endangered	Species or species habitat likely to occur within area
<i>Drakaea elastica</i> Glossy-leaved Hammer-orchid, Praying Virgin [16753]	Endangered	Species or species habitat may occur within area
<i>Eleocharis keigheryi</i> Keighery's Eleocharis [64893]	Vulnerable	Species or species habitat likely to occur within area
<i>Epiblema grandiflorum</i> var. <i>cyanescens</i> Baby Blue Orchid, Blue Babe-in-the-cradle Orchid, Blue Babe-in-a-cradle [67182]	Endangered	Species or species habitat may occur within area
<i>Eremophila scaberula</i> Rough Emu Bush [16729]	Endangered	Species or species habitat may occur within area
<i>Eucalyptus absita</i> Badgingarra Box [24260]	Endangered	Species or species habitat known to occur within area
<i>Eucalyptus balanites</i> Cadda Road Mallee, Cadda Mallee [24264]	Endangered	Species or species habitat known to occur within area
<i>Eucalyptus crispata</i> Yandanooka Mallee [24268]	Vulnerable	Species or species habitat may occur within area
<i>Eucalyptus dolorosa</i> Dandaragan Mallee, Mount Misery Mallee [56709]	Endangered	Species or species habitat likely to occur within area
<i>Eucalyptus impensa</i> Eneabba Mallee [56711]	Endangered	Species or species habitat likely to occur within area
<i>Eucalyptus leprophloia</i> Scaly Butt Mallee, Scaly-butt Mallee [56712]	Endangered	Species or species habitat likely to occur within area
<i>Eucalyptus suberea</i> Cork Mallee, Mount Lesueur Mallee [5529]	Vulnerable	Species or species habitat likely to occur within area
<i>Grevillea batrachioides</i> Mt Lesueur Grevillea [21735]	Endangered	Species or species habitat likely to occur within area
<i>Grevillea humifusa</i> Spreading Grevillea [61182]	Endangered	Species or species habitat may occur within area
<i>Hakea megalosperma</i> Lesueur Hakea [10505]	Vulnerable	Species or species habitat likely to occur within area
<i>Hemiandra gardneri</i> Red Snakebush [7945]	Endangered	Species or species habitat likely to occur within area
<i>Leucopogon obtectus</i> Hidden Beard-heath [19614]	Endangered	Species or species habitat may occur within area

Name	Status	Type of Presence
Macarthuria keigheryi Keighery's Macarthuria [64930]	Endangered	Species or species habitat likely to occur within area
Paracaleana dixonii Sandplain Duck Orchid [86882]	Endangered	Species or species habitat likely to occur within area
Patersonia spirifolia Spiral-leaved Patersonia [83927]	Endangered	Species or species habitat likely to occur within area
Ptychosema pusillum Dwarf Pea [11268]	Vulnerable	Species or species habitat likely to occur within area
Spirogardnera rubescens Spiral Bush [15667]	Endangered	Species or species habitat likely to occur within area
Thelymitra manginii K.Dixon & Batty ms. [67443]	Endangered	Species or species habitat may occur within area
Thelymitra stellata Star Sun-orchid [7060]	Endangered	Species or species habitat may occur within area

Listed Migratory Species		[Resource Information]
* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.		
Name	Status	Type of Presence
Migratory Marine Birds Apus pacificus Fork-tailed Swift [678]	Threatened	Species or species habitat likely to occur within area
Migratory Terrestrial Species		
Merops ornatus Rainbow Bee-eater [670]		Species or species habitat may occur within area
Migratory Wetlands Species		
Ardea alba Great Egret, White Egret [59541]		Species or species habitat likely to occur within area
Ardea ibis Cattle Egret [59542]		Species or species habitat may occur within area
Pandion haliaetus Osprey [952]		Species or species habitat may occur within area

Other Matters Protected by the EPBC Act

Commonwealth Land	[Resource Information]
The Commonwealth area listed below may indicate the presence of Commonwealth land in this vicinity. Due to the unreliability of the data source, all proposals should be checked as to whether it impacts on a Commonwealth area, before making a definitive decision. Contact the State or Territory government land department for further information.	
Name	
Commonwealth Land -	
Listed Marine Species	
* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.	
Name	Type of Presence

Name	Threatened	Type of Presence
Birds		
<u><i>Apus pacificus</i></u>		
Fork-tailed Swift [678]		Species or species habitat likely to occur within area
<u><i>Ardea alba</i></u>		
Great Egret, White Egret [59541]		Species or species habitat likely to occur within area
<u><i>Ardea ibis</i></u>		
Cattle Egret [59542]		Species or species habitat may occur within area
<u><i>Haliaeetus leucogaster</i></u>		
White-bellied Sea-Eagle [943]		Species or species habitat likely to occur within area
<u><i>Merops ornatus</i></u>		
Rainbow Bee-eater [670]		Species or species habitat may occur within area
<u><i>Pandion haliaetus</i></u>		
Osprey [952]		Species or species habitat may occur within area
<u><i>Thinornis rubricollis</i></u>		
Hooded Plover [59510]		Species or species habitat may occur within area

Extra Information

State and Territory Reserves		[Resource Information]
Name	State	
Badgingarra	WA	
Hill River	WA	
Minyulo	WA	
Twyata	WA	
Unnamed WA41986	WA	
Wongonderrah	WA	

Invasive Species	[Resource Information]
Weeds reported here are the 20 species of national significance (WoNS), along with other introduced plants that are considered by the States and Territories to pose a particularly significant threat to biodiversity. The following feral animals are reported: Goat, Red Fox, Cat, Rabbit, Pig, Water Buffalo and Cane Toad. Maps from Landscape Health Project, National Land and Water Resources Audit, 2001.	

Name	Status	Type of Presence
Birds		
<i>Anas platyrhynchos</i>		
Mallard [974]		Species or species habitat likely to occur within area
<i>Columba livia</i>		
Rock Pigeon, Rock Dove, Domestic Pigeon [803]		Species or species habitat likely to occur within area
<i>Streptopelia chinensis</i>		
Spotted Turtle-Dove [780]		Species or species habitat likely to occur within area

Name	Status	Type of Presence
<i>Streptopelia senegalensis</i> Laughing Turtle-dove, Laughing Dove [781]		Species or species habitat likely to occur within area
<i>Sturnus vulgaris</i> Common Starling [389]		Species or species habitat likely to occur within area
Mammals		
<i>Canis lupus familiaris</i> Domestic Dog [82654]		Species or species habitat likely to occur within area
<i>Capra hircus</i> Goat [2]		Species or species habitat likely to occur within area
<i>Felis catus</i> Cat, House Cat, Domestic Cat [19]		Species or species habitat likely to occur within area
Feral deer Feral deer species in Australia [85733]		Species or species habitat likely to occur within area
<i>Mus musculus</i> House Mouse [120]		Species or species habitat likely to occur within area
<i>Oryctolagus cuniculus</i> Rabbit, European Rabbit [128]		Species or species habitat likely to occur within area
<i>Rattus rattus</i> Black Rat, Ship Rat [84]		Species or species habitat likely to occur within area
<i>Sus scrofa</i> Pig [6]		Species or species habitat likely to occur within area
<i>Vulpes vulpes</i> Red Fox, Fox [18]		Species or species habitat likely to occur within area
Plants		
<i>Asparagus asparagoides</i> Bridal Creeper, Bridal Veil Creeper, Smilax, Florist's Smilax, Smilax Asparagus [22473]		Species or species habitat likely to occur within area
<i>Brachiaria mutica</i> Para Grass [5879]		Species or species habitat may occur within area
<i>Cenchrus ciliaris</i> Buffel-grass, Black Buffel-grass [20213]		Species or species habitat may occur within area
<i>Chrysanthemoides monilifera</i> Bitou Bush, Boneseed [18983]		Species or species habitat may occur within area
<i>Genista sp. X Genista monspessulana</i> Broom [67538]		Species or species habitat may occur within area
<i>Olea europaea</i> Olive, Common Olive [9160]		Species or species habitat may occur within area
<i>Pinus radiata</i> Radiata Pine Monterey Pine, Insignis Pine, Wilding Pine [20780]		Species or species habitat may occur within

Name	Status	Type of Presence area
Tamarix aphylla Athel Pine, Athel Tree, Tamarisk, Athel Tamarisk, Athel Tamarix, Desert Tamarisk, Flowering Cypress, Salt Cedar [16018]		Species or species habitat likely to occur within area

Caveat

The information presented in this report has been provided by a range of data sources as acknowledged at the end of the report.

This report is designed to assist in identifying the locations of places which may be relevant in determining obligations under the Environment Protection and Biodiversity Conservation Act 1999. It holds mapped locations of World and National Heritage properties, Wetlands of International and National Importance, Commonwealth and State/Territory reserves, listed threatened, migratory and marine species and listed threatened ecological communities. Mapping of Commonwealth land is not complete at this stage. Maps have been collated from a range of sources at various resolutions.

Not all species listed under the EPBC Act have been mapped (see below) and therefore a report is a general guide only. Where available data supports mapping, the type of presence that can be determined from the data is indicated in general terms. People using this information in making a referral may need to consider the qualifications below and may need to seek and consider other information sources.

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

For species where the distributions are well known, maps are digitised from sources such as recovery plans and detailed habitat studies. Where appropriate, core breeding, foraging and roosting areas are indicated under 'type of presence'. For species whose distributions are less well known, point locations are collated from government wildlife authorities, museums, and non-government organisations; bioclimatic distribution models are generated and these validated by experts. In some cases, the distribution maps are based solely on expert knowledge.

Only selected species covered by the following provisions of the EPBC Act have been mapped:

- migratory and
- marine

The following species and ecological communities have not been mapped and do not appear in reports produced from this database:

- threatened species listed as extinct or considered as vagrants
- some species and ecological communities that have only recently been listed
- some terrestrial species that overfly the Commonwealth marine area
- migratory species that are very widespread, vagrant, or only occur in small numbers

The following groups have been mapped, but may not cover the complete distribution of the species:

- non-threatened seabirds which have only been mapped for recorded breeding sites
- seals which have only been mapped for breeding sites near the Australian continent

Such breeding sites may be important for the protection of the Commonwealth Marine environment.

Name ID	Species Name	Naturalised	Conservation Code	¹ Endemic To Query Area
---------	--------------	-------------	-------------------	------------------------------------

Conservation Codes

- R - Rare or likely to become extinct
- X - Presumed extinct
- IA - Protected under international agreement
- S - Other specially protected fauna
- 1 - Priority 1
- 2 - Priority 2
- 3 - Priority 3
- 4 - Priority 4
- 5 - Priority 5

¹ For NatureMap's purposes, species flagged as endemic are those whose records are wholly contained within the search area. Note that only those records complying with the search criterion are included in the calculation. For example, if you limit records to those from a specific datasource, only records from that datasource are used to determine if a species is restricted to the query area.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected.

Information on the coverage of this report and qualifications on data supporting this report are contained in the caveat at the end of the report.

Information is available about [Environment Assessments](#) and the EPBC Act including significance guidelines, forms and application process details.

Report created: 15/09/15 18:20:02

Summary

Matters of National Environmental Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance:	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	None
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	38
Listed Migratory Species:	5

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <http://www.environment.gov.au/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Land:	1
Commonwealth Heritage Places:	None
Listed Marine Species:	7
Whales and Other Cetaceans:	None
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	None
Commonwealth Reserves Marine:	None

Extra Information

This part of the report provides information that may also be relevant to the area you have nominated.

State and Territory Reserves:	8
Regional Forest Agreements:	None
Invasive Species:	17
Nationally Important Wetlands:	None
Key Ecological Features (Marine)	None

Details

Matters of National Environmental Significance

Listed Threatened Species	[Resource Information]	
Name	Status	Type of Presence
Birds		
Calyptorhynchus latirostris		
Carnaby's Black-Cockatoo, Short-billed Black-Cockatoo [59523]	Endangered	Breeding likely to occur within area
Leipoa ocellata		
Malleefowl [934]	Vulnerable	Species or species habitat likely to occur within area
Mammals		
Dasyurus geoffroii		
Chuditch, Western Quoll [330]	Vulnerable	Species or species habitat likely to occur within area
Plants		
Acacia cochlocarpa subsp. cochlocarpa		
Spiral-fruited Wattle [23877]	Endangered	Species or species habitat may occur within area
Acacia splendens		
Splendid Wattle, Dandaragan Wattle [81510]	Endangered	Species or species habitat likely to occur within area
Andersonia gracilis		
Slender Andersonia [14470]	Endangered	Species or species habitat likely to occur within area
Anigozanthos viridis subsp. terraspectans		
Dwarf Green Kangaroo Paw [3435]	Vulnerable	Species or species habitat may occur within area
Banksia serratuloides subsp. perissa		
Northern Serrate Dryandra [82767]	Critically Endangered	Species or species habitat known to occur within area
Caladenia huegelii		
King Spider-orchid, Grand Spider-orchid, Rusty Spider-orchid [7309]	Endangered	Species or species habitat may occur within area
Centrolepis caespitosa		
[6393]	Endangered	Species or species habitat may occur within area
Chamelaucium sp. Gingin (N.G.Marchant 6)		
Gingin Wax [64649]	Endangered	Species or species habitat may occur within area
Conospermum densiflorum subsp. unicephalatum		
One-headed Smokebush [64871]	Endangered	Species or species habitat likely to occur within area

Name	Status	Type of Presence
<u><i>Eleocharis keigheryi</i></u> Keighery's Eleocharis [64893]	Vulnerable	Species or species habitat likely to occur within area
<u><i>Eremophila scaberula</i></u> Rough Emu Bush [16729]	Endangered	Species or species habitat may occur within area
<u><i>Eucalyptus absita</i></u> Badgingarra Box [24260]	Endangered	Species or species habitat known to occur within area
<u><i>Eucalyptus balanites</i></u> Cadda Road Mallee, Cadda Mallee [24264]	Endangered	Species or species habitat known to occur within area
<u><i>Eucalyptus crispata</i></u> Yandanooka Mallee [24268]	Vulnerable	Species or species habitat known to occur within area
<u><i>Eucalyptus dolorosa</i></u> Dandaragan Mallee, Mount Misery Mallee [56709]	Endangered	Species or species habitat likely to occur within area
<u><i>Eucalyptus impensa</i></u> Eneabba Mallee [56711]	Endangered	Species or species habitat likely to occur within area
<u><i>Eucalyptus lateritica</i></u> Laterite Mallee [6271]	Vulnerable	Species or species habitat likely to occur within area
<u><i>Eucalyptus leprophloia</i></u> Scaly Butt Mallee, Scaly-butt Mallee [56712]	Endangered	Species or species habitat known to occur within area
<u><i>Eucalyptus pruiniramis</i></u> Midlands Gum, Jingymia Gum [56403]	Endangered	Species or species habitat likely to occur within area
<u><i>Eucalyptus suberea</i></u> Cork Mallee, Mount Lesueur Mallee [5529]	Vulnerable	Species or species habitat likely to occur within area
<u><i>Grevillea batrachioides</i></u> Mt Lesueur Grevillea [21735]	Endangered	Species or species habitat likely to occur within area
<u><i>Grevillea curviloba subsp. incurva</i></u> Narrow curved-leaf Grevillea [64909]	Endangered	Species or species habitat may occur within area
<u><i>Grevillea humifusa</i></u> Spreading Grevillea [61182]	Endangered	Species or species habitat may occur within area
<u><i>Hakea megalosperma</i></u> Lesueur Hakea [10505]	Vulnerable	Species or species habitat likely to occur within area
<u><i>Hemiandra gardneri</i></u> Red Snakebush [7945]	Endangered	Species or species habitat likely to occur within area
<u><i>Leucopogon obtectus</i></u> Hidden Beard-heath [19614]	Endangered	Species or species habitat may occur within area
<u><i>Macarthuria keigheryi</i></u> Keighery's Macarthuria [64930]	Endangered	Species or species habitat likely to occur within area

Name	Status	Type of Presence
<u>Paracaleana dixonii</u>		
Sandplain Duck Orchid [86882]	Endangered	Species or species habitat known to occur within area
<u>Patersonia spirifolia</u>		
Spiral-leaved Patersonia [83927]	Endangered	Species or species habitat likely to occur within area
<u>Ptychosema pusillum</u>		
Dwarf Pea [11268]	Vulnerable	Species or species habitat likely to occur within area
<u>Spirogardnera rubescens</u>		
Spiral Bush [15667]	Endangered	Species or species habitat likely to occur within area
<u>Thelymitra manginii K.Dixon & Batty ms.</u>		
[67443]	Endangered	Species or species habitat may occur within area
<u>Thelymitra stellata</u>		
Star Sun-orchid [7060]	Endangered	Species or species habitat known to occur within area

Reptiles

Name	Status	Type of Presence
<u>Egernia stokesii aethiops</u>	Vulnerable	Species or species habitat likely to occur within area
<u>Egernia stokesii badia</u>		
Western Spiny-tailed Skink, Baudin Island Spiny-tailed Skink [64483]	Endangered	Species or species habitat likely to occur within area

Listed Migratory Species

[\[Resource Information\]](#)

* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.		
Name	Status	Type of Presence
Migratory Marine Birds	Threatened	
<u>Apus pacificus</u>		
Fork-tailed Swift [678]		Species or species habitat likely to occur within area

Migratory Terrestrial Species

Name	Status	Type of Presence
<u>Merops ornatus</u>		
Rainbow Bee-eater [670]		Species or species habitat may occur within area

Migratory Wetlands Species

Name	Status	Type of Presence
<u>Ardea alba</u>		
Great Egret, White Egret [59541]		Species or species habitat likely to occur within area
<u>Ardea ibis</u>		
Cattle Egret [59542]		Species or species habitat may occur within area

[Pandion haliaetus](#)

Osprey [952]		Species or species habitat may occur within area

Other Matters Protected by the EPBC Act

Commonwealth Land

[Resource Information]

The Commonwealth area listed below may indicate the presence of Commonwealth land in this vicinity. Due to the unreliability of the data source, all proposals should be checked as to whether it impacts on a Commonwealth area, before making a definitive decision. Contact the State or Territory government land department for further information.

Invasive Species

[Resource Information]

Weeds reported here are the 20 species of national significance (WoNS), along with other introduced plants that are considered by the States and Territories to pose a particularly significant threat to biodiversity. The following feral animals are reported: Goat, Red Fox, Cat, Rabbit, Pig, Water Buffalo and Cane Toad. Maps from Landscape Health Project, National Land and Water Resources Audit, 2001.

Name	Status	Type of Presence
Birds		
Anas platyrhynchos Mallard [974]		Species or species habitat likely to occur within area
Columba livia Rock Pigeon, Rock Dove, Domestic Pigeon [803]		Species or species habitat likely to occur within area
Streptopelia chinensis Spotted Turtle-Dove [780]		Species or species habitat likely to occur within area
Streptopelia senegalensis Laughing Turtle-dove, Laughing Dove [781]		Species or species habitat likely to occur within area
Sturnus vulgaris Common Starling [389]		Species or species habitat likely to occur within area
Mammals		
Canis lupus familiaris Domestic Dog [82654]		Species or species habitat likely to occur within area
Capra hircus Goat [2]		Species or species habitat likely to occur within area
Felis catus Cat, House Cat, Domestic Cat [19]		Species or species habitat likely to occur within area
Feral deer Feral deer species in Australia [85733]		Species or species habitat likely to occur within area
Mus musculus House Mouse [120]		Species or species habitat likely to occur within area
Oryctolagus cuniculus Rabbit, European Rabbit [128]		Species or species habitat likely to occur within area
Rattus rattus Black Rat, Ship Rat [84]		Species or species habitat likely to occur within area
Sus scrofa Pig [6]		Species or species habitat likely to occur within area
Vulpes vulpes Red Fox, Fox [18]		Species or species habitat likely to occur within area
Plants		
Asparagus asparagoides Bridal Creeper, Bridal Veil Creeper, Smilax, Florist's Smilax, Smilax Asparagus [22473]		Species or species habitat likely to occur within area
Cenchrus ciliaris Buffel-grass, Black Buffel-grass [20213]		Species or species habitat may occur within

Name	Status	Type of Presence area
Tamarix aphylla Athel Pine, Athel Tree, Tamarisk, Athel Tamarisk, Athel Tamarix, Desert Tamarisk, Flowering Cypress, Salt Cedar [16018]		Species or species habitat likely to occur within area

Caveat

The information presented in this report has been provided by a range of data sources as acknowledged at the end of the report.

This report is designed to assist in identifying the locations of places which may be relevant in determining obligations under the Environment Protection and Biodiversity Conservation Act 1999. It holds mapped locations of World and National Heritage properties, Wetlands of International and National Importance, Commonwealth and State/Territory reserves, listed threatened, migratory and marine species and listed threatened ecological communities. Mapping of Commonwealth land is not complete at this stage. Maps have been collated from a range of sources at various resolutions.

Not all species listed under the EPBC Act have been mapped (see below) and therefore a report is a general guide only. Where available data supports mapping, the type of presence that can be determined from the data is indicated in general terms. People using this information in making a referral may need to consider the qualifications below and may need to seek and consider other information sources.

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

For species where the distributions are well known, maps are digitised from sources such as recovery plans and detailed habitat studies. Where appropriate, core breeding, foraging and roosting areas are indicated under 'type of presence'. For species whose distributions are less well known, point locations are collated from government wildlife authorities, museums, and non-government organisations; bioclimatic distribution models are generated and these validated by experts. In some cases, the distribution maps are based solely on expert knowledge.

Only selected species covered by the following provisions of the EPBC Act have been mapped:

- migratory and
- marine

The following species and ecological communities have not been mapped and do not appear in reports produced from this database:

- threatened species listed as extinct or considered as vagrants
- some species and ecological communities that have only recently been listed
- some terrestrial species that overfly the Commonwealth marine area
- migratory species that are very widespread, vagrant, or only occur in small numbers

The following groups have been mapped, but may not cover the complete distribution of the species:

- non-threatened seabirds which have only been mapped for recorded breeding sites
- seals which have only been mapped for breeding sites near the Australian continent

Such breeding sites may be important for the protection of the Commonwealth Marine environment.

- Other groups and individuals

The Department is extremely grateful to the many organisations and individuals who provided expert advice and information on numerous draft distributions.

Please feel free to provide feedback via the [Contact Us](#) page.

Appendix C Flora Data

Likelihood of Occurrence	Guiding Parameters
Known	Species previously recorded within the Study Area.
Likely	Species is relatively wide spread, has been previously recorded within 20 km of the Study Area and suitable habitat occurs within the Study Area; OR Species is rare but has been previously recorded within 100 m of the Study Area and suitable habitat occurs at the Study Area.
Possible	Species previously recorded within 20 km with suitable habitat occurring at the Study Area
Unlikely	Suitable habitat for the species does not occur at the Study Area; OR Suitable habitat does occur but the species has a highly restricted distribution, is very rare and only known from a limited number of populations. The Study Area is outside the species' natural distribution.

Table 23 Likelihood of occurrence assessment for conservation significant flora taxa

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Banksia fuscobractea</i>	CE	EPBC	22 km E	47 km SE	57 km SE	59 km SE	68 km SE	Erect, prickly, non-lignotuberous shrub, ca 1 m high.	Lateritic gravel, grey sand over laterite.	Fl. yellow, Jul to Oct.	14	Likely	Unlikely- No suitable soil type present and Study Areas beyond its range.
<i>Banksia serratuloides</i> subsp. <i>perissa</i>	CE	NM; EPBC	68 km N	33 km N	20 km N	12 km N	1 km S	Bushy, lignotuberous shrub, to 1 m high.	Lateritic gravel and brown loam on ridge tops and slopes or in red-brown sand on low areas. Favours area of low dense heath also be found in low open woodland..	Fl. yellow, Aug to Sep.	43	Possible	Unlikely – There is no suitable habitat present in the Study Areas.
<i>Darwinia foetida</i>	CE	EPBC	67 km NE	57 km NE	54 km NE	51 km NE	53 km NE	Shrub to 0.7m high	Grey white sands on swampy, seasonally wet.	Fl. Green. Oct to Nov	22	Unlikely	Unlikely – No suitable habitat or soil type present.
<i>Acacia cochlocarpa</i> subsp. <i>cochlocarpa</i>	En	EPBC	49 km NE	53 Km E	53 km E	53 km SE	54 km NE	Glabrous, sprawling shrub, 0.3-0.7 (-1.5) m high.	Clayey, sandy, often gravelly soils.	Fl. yellow.	28	Unlikely	Unlikely – Habitat not recorded within the Study Areas.
<i>Acacia splendens</i>	En	NM; EPBC	33 km N	10 km NE	6 km NE	6 km SE	17 km S	Tree or shrub, to 8 m high, bark dark grey; phylodes acuminate, glaucous.	White sand over clay, pale brown loam, cracked brown soil, gravel, laterite, ironstone. Slopes of breakaways, especially southern slopes, hills.	Fl. yellow, May.	52	Likely	Unlikely – No suitable habitat or soil type present.
<i>Acacia wilsonii</i>	En	NM	88 km N	40 km N	32 km N	24 km N	10 km N	Low spreading, wiry shrub, 0.2-0.5 m high.	Restricted from near Enneabba S to Baginagarra. White/yellow sand & lateritic gravel, sandy clay over laterite.	Fl. yellow.	22	Possible	Unlikely – No suitable habitat present Study Area 5.
<i>Caladenia huegelii</i>	En	EPBC	84 km S	115 km S	128 km S	135 km S	148 km S	Tuberous, perennial, herb, 0.25-0.6 m high.	Grey or brown sand, clay loam.	Fl. green & cream & red, Sep to Oct.	131	Unlikely	Unlikely – No suitable habitat present.

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Chamelaucium sp. Gingin (N.G. Marchant 6)</i>	En	EPBC	54 km S	94 km S	109 km S	114 km S	124 km S				34	Unlikely	Unlikely - Study Areas beyond its range.
<i>Conospermum densiflorum</i> subsp. <i>unicephalatum</i>	En	EPBC	30 km E	58 km SE	54 km E	52 km E	54 km SE	Erect, much-branched shrub, 0.3-0.6 m high, inflorescence a spike.	Clay soils. Low-lying areas.	Fl. cream/white & blue, Sep to Nov.	21	Unlikely	Unlikely – No suitable habitat present.
<i>Drakaea elastica</i>	En	NM; EPBC	15 km S	24 km S	37 km S	42 km S	55 km S	Tuberous, perennial, herb, 0.12-0.3 m high.	White or grey sand. Low-lying situations adjoining winter-wet swamps	Fl. red & green & yellow, Oct to Nov.	92	Unlikely	Unlikely – No suitable habitat present.
<i>Eremophila scaberula</i>	En	EPBC	35 km NE	52 km E	53 km E	54 km SE	59 km SE	Low compact or sprawling to upright shrub, 0.15-0.7 (-1.5) m high.	Clay, sandy clay or loam. Winter-wet plains, inundated areas.	Fl. purple-blue, Aug to Oct.	22	Unlikely	Unlikely – No suitable habitat present.
<i>Eucalyptus absita</i>	En	NM; EPBC	46 km N	19 km NE	9 km NE	2 km E	1 km NE	Mallee or tree, 2.3-10 m high, bark rough, fibrous.	White lateritic sand. Paddocks	Fl. white, Apr to Jul.	30	Likely	Likely – Suitable habitat present.
<i>Eucalyptus balanites</i>	En	EPBC	71 km N	32 km N	19 km N	15 km NW	11 km E	Mallee, to 5 m high, bark rough, flaky.	Light coloured sandy soils over laterite. Habitat consists of gently sloping heathlands; open mallee woodland over shurblad or heathland with emergent shrubs.	Fl. white, Oct to Dec or Jan to Feb.	13	Possible	Unlikely - No suitable soil or habitat type in Study Areas..
<i>Eucalyptus dolorosa</i>	En	NM; EPBC	31 km N	13 km E	21 km SE	28 km SE	35 km S	Mallee, 1.5-3 m high, bark rough, flaky.	Confined to lateritic breakaway slopes and a summit in malle heath over low scrub, amongst ironstone blocks.	Fl. yellow, Feb to Mar.	12	Unlikely	Unlikely – No suitable habitat present. Only known from a single population.
<i>Eucalyptus impensa</i>	En	EPBC	95 km N	63 km NE	49 km NE	42 km N	32 km N	Straggly mallee, to 1.5 m high, bark smooth.	Yellow sand. Lateritic hills.	Fl. pink, Jun to Jul.	18	Unlikely	Unlikely – No suitable soil type present and Study Areas beyond its range.

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Eucalyptus leprophloia</i>	En	NM; EPBC	86 km N	48 km N	32 km N	31 km N	16 km N	Mallee, 2-5m sometimes to 8m) high, bark rough loose & flaky to 1 m.	Slopes of hills in brown loam over laterite as an emergent mallee; in white sand on gentle valley slopes in low <i>E. accedens</i> woodland over heath, on grey sand and laterite with <i>E. toditaina</i> ; in grey sandy clay loam on the slopes of a drainage line between two breakaways; and in grey sand and lateritic gravel.	Fl. cream-white, Aug to Oct	28	Possible	Unlikely –No suitable habitat or soil type present.
<i>Eucalyptus recta</i>	En	EPBC	56 km E	77 km E	79 km SE	80 km SE	85 km SE	Tree, to 15 m high, bark smooth.	Sandy laterite.		22	Unlikely	Unlikely – Study Areas beyond its known range.
<i>Grevillea batrachioides</i>	En	EPBC	102 km N	61 km N	52 km N	47 km N	39 km NW	Shrub, 0.5-1.5 m high.	Sandstone outcrops.	Fl. orange-red, Oct.	7	Unlikely	Unlikely - No suitable soil or habitat type in Study Areas.
<i>Grevillea curviloba</i> subsp. <i>incurva</i>	En	EPBC	56 km S	96 km S	109 km S	116 km S	123 km S	Prostrate to erect shrub, 0.1-2.5 m high.	Sand, sandy loam. Winter-wet heath.	Fl. white-cream, Aug to Sep.	75	Unlikely	Unlikely – Sudy Areas beyond its known range.
<i>Grevillea humifusa</i>	En	EPBC	91 km N	50 km N	42 km NE	32 km NE	25 km NE	Prostrate to decumbent, lignotuberous shrub.	Gravelly loam over laterite.	Fl. red, Sep to Nov.	8	Unlikely	Unlikely - No suitable soil or habitat type in Study Areas.
<i>Hemiandra gardneri</i>	En	EPBC	47 km NE	52 km E	53 km E	52 km E	53 km NE	Prostrate, pungent shrub, 0.1-0.2 m high, to 1 m wide.	Grey or yellow sand, clayey sand. Sandplains.	Fl. red/pink-red, Aug to Oct.	32	Possible	Unlikely – No suitable habitat present in the Study Areas. Study Areas beyond its range.
<i>Leucopogon obtectus</i>	En	EPBC	98 km N	60 km N	47 km N	41 km N	32 km NW	Erect shrub, 0.5-1.7 m high.	Grey sand.	Fl. cream-yellow, Aug to Oct.	35	Possible	Unlikely – No suitable habitat present

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Macarthuria keigheryi</i>	En	NM; EPBC	13 km S	9 km W	12 km SW	17 km SW	27 km SW	Erect or spreading perennial, herb or shrub, 0.2-0.4 m high, 0.3-0.6 m wide.	Prefers low-lying, winter wet, damp grey/white sands. The Cooljarloo population, west of Dandaragan, it grows in <i>Banksia</i> woodland with <i>Banksia menziesii</i> , <i>B. attenuata</i> , <i>Eucalyptus todtiana</i> , <i>Nuytsia floribunda</i> and other wetland species (DotE, 2010).	Fl. Sep to Dec or Feb to Mar.	42	Possible	Unlikely- No suitable habitat is present.
<i>Paracaleana dixonii</i>	En	NM; EPBC	9 km S	44 km N	34 km N	28 km N	20 km NW	Tuberous, perennial, herb, 0.09-0.2 m high.	Grey sand over granite.	Fl. yellow-brown, Oct to Dec or Jan.	70	Unlikely	Unlikely – No suitable habitat present
<i>Patersonia spirifolia</i>	En	NM; EPBC	67 km N	27 km NW	19 km NW	15 km W	4 km NW	Spreading, woody, tussock-forming rhizomatous, herb, to 0.3 m high, to 0.4 m across.	The spiral-leaved patersonia is found on lateritic ridges and slopes, or sand over laterite in low species-rich heath. Associated species include <i>Allocasuarina humilis</i> , <i>Daviesia chapmanii</i> , <i>D. epiphyllum</i> , <i>Gastrolobium spinosum</i> , <i>Mesomelaena stygia</i> , <i>M. tetragona</i> , <i>Patersonia occidentalis</i> and <i>Xanthorrhoea preissii</i> (DotE, 2015d).		23	Likely	Likely – Suitable habitat is present.
<i>Spirogardnera rubescens</i>	En	NM; EPBC	70 km N	33 km N	20 km N	14 km N	5 km NW	Spindly leafless shrub, to 1.6 m high.	Laterite, sand over laterite, loam.	Fl. white, Aug to Dec.	54	Possible	Unlikely – No suitable habitat present
<i>Thelymitra dedmaniarum</i> (formerly <i>Thelymitra manginii</i> K. Dixon & Batty ms)	En	EPBC	36 km S	40 km S	51 km S	55 km S	66 km S	Tuberous, perennial, herb, to 0.8 m high.	Granite.	Fl. yellow, Nov to Dec or Jan.	19	Unlikely	Unlikely – No suitable habitat present and Study Areas beyond its range.

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Thelymitra stellata</i>	En	NM; EPBC	22 km N	19 km S	28 km S	34 km S	48 km S	Tuberous, perennial, herb, 0.15-0.25 m high.	Sand, gravel, lateritic loam.	Fl. yellow & brown, Oct to Nov.	58	Possible	Unlikely – No suitable habitat present.
<i>Centrolepis caespitosa</i>	En; P4	EPBC	84 km S	124 km S	137 km S	143 km S	154 km S	Tufted annual, herb (forming a rounded cushion up to 25 mm across).	White sand, clay. Salt flats, wet areas.	Fl. Oct to Dec.	70	Unlikely	Unlikely – No suitable habitat present.
<i>Epiblema grandiflorum</i> var. <i>cyanescens</i> (now <i>Epiblema grandiflorum</i>)	holds no status	EPBC										N/A	N/A
<i>Anigozanthos viridis</i> subsp. <i>terraspectans</i>	Vu	NM; EPBC	8 km NW	4 km SW	10 km W	15 km SW	22 km SW	Rhizomatous, perennial, herb, 0.05-0.2 m high.	Grey sand, clay loam. Winter-wet depressions.	Fl. green/yellow-green, Aug to Sep.	27	Likely	Unlikely – No suitable habitat present
<i>Chamaelaelium sp. Cataby</i> (G.J. Keighery 11009)	Vu	NM; EPBC	25 km N	13 km SE	25 km SE	29 km SE	41 km S	Low, rounded shrubs to 0.4 m.	Breakaway, brown loam over laterite.		12	Unlikely	Unlikely – No suitable habitat present.
<i>Eleocharis keigheryi</i>	Vu	NM; EPBC	25 km N	13 km S	24 km S	28 km S	41 km S	Rhizomatous, clumped perennial, grass-like or herb (sedge), to 0.4 m high.	Emergent in freshwater: creeks, claypans.	Fl. green, Aug to Nov.	86	Unlikely	Unlikely – No suitable habitat present.
<i>Eucalyptus lateritica</i>	Vu	NM; EPBC	85 km N	44 km N	33 km N	28 km N	19 km N	Mallee, 2-3 m high, bark rough at base.	White or grey sand with gravel. Lateritic breakaways & mesas.	Fl. white, Aug to Oct.	43	Possible	Unlikely – No suitable soil type present.
<i>Eucalyptus suberea</i>	Vu	NM; EPBC	86 km N	47 km N	32 km N	27 km N	18 km N	Mallee, 1-4 m high, bark rough & flaky.	Grey sand. Near or on lateritic breakaways.	Fl. white, Nov to Dec or Jan.	57	Possible	Unlikely – No suitable soil or habitat type in Study Areas.
<i>Hakea megalosperma</i>	Vu	NM; EPBC	38 km N	6 km E	11 km SE	17 km S	18 km NW	Spreading, lignotuberous shrub, 1-2 m high.	Grey sand, loam. Lateritic hills & rocks.	Fl. white-cream/pink, May to Jun.	68	Possible	Unlikely – Soil type not present.
<i>Ptychosperma pusillum</i>	Vu	NM; EPBC	17 km N	22 km S	19 km N	15 km N	Within Study Area	Perennial, herb, mostly 0.05-0.1 m high.	Sand. Rises.	Fl. red & brown & yellow, Aug to Oct.	10	Likely	Unlikely – No suitable habitat present

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Acacia denticulosa</i>	T	NM	8 km W	47 km S	49 km S	49 km S	71 km S	Erect, diffuse, spindly shrub, 1-4 m high.	Sand, loam, clay. Granite outcrops, rarely on sandplains.	Fl. yellow, Sep to Oct.	44	Unlikely	Unlikely – Habitat not recorded within the Study Areas.
<i>Acacia forrestiana</i>	T	NM	16 km NE	17 km SE	18 km SE	20 km S	27 km S	Erect, open, prickly shrub, 0.4-1 m high.	Lateritic gravelly soils, clay loam over sandstone. Gullies, hills, breakaways.	Fl. yellow, Nov to Dec.	44	Likely	Unlikely – No suitable habitat present.
<i>Andersonia gracilis</i>	T	NM	22 km SE	3.6 km S	6.5 km W	10 km SW	22 km SW	Slender erect or open straggly shrub, 0.1-0.5(-1) m high.	White/grey sand, sandy clay, gravelly loam. Winter-wet areas, near swamps.	Fl. white-pink-purple, Sep to Nov.	56	Likely	Unlikely – No suitable habitat present within Study Areas 2, 3, 4 and 5. Study Area 1 outside its known range.
<i>Asterolasia nivea</i>	T	NM	4 km W	42 km S	52 km S	59 km S	71 km S	Open, weak, densely branched shrub, 0.3-0.5 m high.	Sand or clay with lateritic gravel, saline loam. Breakaway, slopes.	Fl. white, Aug to Oct.	29	Unlikely	Unlikely – No suitable soil type present
<i>Banksia mimica</i>	T	NM	14 km SE	53 km SE	63 km SE	66 km SE	76 km SE	Prostrate, lignotuberous shrub, 0.15-0.4 m high.	White or grey sand over laterite, sandy loam.	Fl. yellow-brown, Dec or Jan to Feb.	53	Likely	Unlikely – No suitable habitat type or soil type present.
<i>Darwinia acerosa</i>	T	NM	4 km W	42 km S	55 km S	59 km S	79 km S	Spreading, compact shrub, 0.2-0.6 m high.	Sand, loam, often moist soils. Granite outcrops, road verges.	Fl. green & red & purple, Sep to Nov.	28	Unlikely	Unlikely – No suitable habitat present.
<i>Darwinia carnea</i>	T	NM	5 km W	44 km S	56 km S	61 km S	81 km S	Spreading shrub, 0.2-0.45 m high.	Lateritic loam & gravel.	Fl. green & red, Oct to Dec.	26	Unlikely	Unlikely – No suitable habitat or soil type present.
<i>Eucalyptus crispata</i>	T	NM	77 km N	46 km N	33 km N	27 km N	13 km N	Mallee, 3-7 m high, bark rough on the trunk, in partly decorticated curls.	Sand, loam with lateritic gravel. Lateritic breakaways.	Fl. yellow-cream, Mar to Jun.	37	Unlikely	Unlikely – No suitable habitat present.

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Eucalyptus x balanites</i>	T	NM	72 km N	33 km N	19 km N	16 km NW	11 km W	Mallee, to 5 m high, bark rough, flaky.	Light coloured sandy soils over laterite. Habitat consists of gently sloping heathlands; open mallee woodland over shrubland or heathland with emergent mallees.	Fl. white, Oct to Dec or Jan to Feb.	13	Possible	Unlikely - No suitable soil or habitat type in Study Areas.
<i>Grevillea calliantha</i>	T	NM	30 km N	7 km E	17 km SE	21 km S	32 km S	Spreading, flat-topped shrub, 0.9-2.5 m high.	Grey or yellow sand over laterite, with gravel.	Fl. red-brown, Apr or Jun or Aug.	24	Likely	Unlikely - No suitable soil type present in the Study Areas.
<i>Banksia prionophylla</i>	P1	NM	23 km N	17 km SE	27 km SE	33 km S	46 km S	Lignotuberous, branching shrub, to 0.6 m high.	Dry grey sand over laterite with surface boulders. Rises.	Fl. yellow, Jul.	4	Unlikely	Unlikely – No suitable habitat present.
<i>Drosera allantostigma</i>	P1	NM	66 km N	32 km N	19 km NE	16 km NE	8 km E	Fibrous-rooted, rosetted perennial, herb, to 0.08 m high.	Loam, silica sand or peaty soils. Margins of winter-wet depressions	Fl. white, Nov to Dec.	5	Possible	Unlikely – No suitable habitat present.
<i>Eucalyptus absita x loxophleba</i>	P1	NM	53 km N	21 km NE	16 km E	10 km E	7 km E	Mallee, to 10 m high, bark fibrous, box-like.	Lateritic sand.		11	Likely	Likely – Suitable habitat present.
<i>Eucalyptus annuliformis</i>	P1	NM	21 km NE	32 km SE	40 km SE	46 km SE	54 km SE	Mallee, to 3 m high, bark smooth.	Shallow sandy soils. Rocky laterite slope.	Fl. white, May to Sep.	8	Unlikely	Possible – Suitable habitat present; however, Study Areas beyond its range.
<i>Grevillea synapheae</i> subsp. A Flora of Australia (S.D. Hopper 6333)	P1	NM	33 km N	13 km E	21 km SE	25 km SE	35 km S	Semi-prostrate, sprawling shrub, 0.2-0.3 m high.	Gravelly loam.	Fl. white-cream-yellow, Sep.	5	Possible	Unlikely - No suitable soil or habitat type in Study Areas.
<i>Grevillea synapheae</i> subsp. <i>minyula</i>	P1	NM	33 km N	9 km S	19 km S	21 km S	29 km S	Spreading to sprawling, lignotuberous shrub, 0.2-0.5 m high.	Gravel, laterite.	Fl. white-cream-yellow, Aug to Sep.	19	Likely	Unlikely - No suitable soil or habitat type in Study Areas.

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Grevillea thelemanniana</i> subsp. Cooljarloo (B.J. Keighery 28 B)	P1	NM	48 km NW	14 km W	24 km W	26 km W	25 km NW	Spreading shrub to 0.5 m	Grey/white sand	Fl. Red, Aug to Sep.	10	Possible	Unlikely – No suitable habitat type recorded in Study Area 2 and there are limited records of this species within 20 km of the Study Areas.
<i>Hypocalymma linifolium</i>	P1	NM	52 km N	21 km NE	16 km E	13 km E	17 km SE	Low spreading shrub, to 0.6 m high.	Sand.		3	Likely	Possible – Limited available information on habitat type. Sand is present within the Study Areas; however, limited records of this species exist.
<i>Hypocalymma</i> sp. Dandaragan (C.A. Gardner 9014)	P1	NM	34 km N	24 km E	17 km N	11 km N	5 km SE	Multi-stemmed shrub to 30 cm.	Grey sand.	Fl. Yellow.	5	Likely	Unlikely – Soil type not present.
<i>Lasiopteratum</i> sp. Hill River (T.N. Stoate 5)	P1	NM	35 km N	11 km E	18 km SE	13 km NE	7 km SE	Shrub to 1 m high.	Loam over laterite.		6	Possible	Unlikely – No suitable habitat present.
<i>Lyginia excelsa</i>	P1	NM	37 km N	3 km S	2 km N	4 km S	17 km S	Dioecious rhizomatous, erect, tufted herb, 0.6-1.5 m high, rhizomes on surface.	Dry heath & Banksia woodland.	Fl. Mar to Nov.	5	Likely	Likely – Suitable habitat is present.
<i>Malleostemon</i> sp. Cooljarloo (B. Backhouse s.n. 16/11/88)	P1	NM	17 km N	2 km S	14 km S	22 km S	34 km S	Erect shrub, ca 0.4 m high.	Low-lying areas.	Fl. pink, Nov.	10	Likely	Possible - limited records of this species and uncertainty with habitat type.
<i>Rhetinocarpha suffruticosa</i>	P1	NM	32 km N	23 km E	17 km E	13 km E	5 km SE	Woody perennial, herb (with slender erect branches), to 0.8 m high.	Red-brown loamy clay, gravelly loam or clay loam over laterite. Slopes, small ridges.	Fl. White.	14	Possible	Unlikely – No suitable habitat present

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Stylium sp.</i> Dewars Pool (K.F. Kenneally 11400)	P1	NM	15 km W	52 km SW	61 km SW	65 km SW	76 km SW	Perennial, herb.	White silica sand.	Fl. white & purple, Nov.	8	Possible	Unlikely – No suitable habitat present.
<i>Stylium tinkeri</i>	P1	NM	56 km NW	13 km NW	6 km W	13 km SW	23 km SW	Erect annual, herb, 0.03-0.07 m high.	Grey sandy soil. Seasonal wetlands.	Fl. white & pink, Oct.	10	Unlikely	Unlikely – No suitable habitat present.
<i>Acacia benthamii</i>	P2	NM	49 km S	19 km W	22 km W	23 km SW	39 km SW	Shrub, ca 1 m high.	Typically on limestone breakaways.	Fl. yellow, Aug to Sep.	39	Unlikely	Unlikely – Habitat not recorded within the Study Areas.
<i>Acacia retrorsa</i>	P2	NM	64 km N	23 km NW	14 km NW	10.7 km W	6 km E	Prostrate, sprawling shrub, 0.05-0.5 m high, 0.4-2 m wide.	Grey sand & lateritic gravel, sandy loam.	Fl. yellow, Aug to Sep.	22	Likely	Unlikely – No suitable soil type present.
<i>Amanita carneiphylla</i>	P2	NM	15 km S	60 km S	63 km NE	57 km NE	49 km NE	Amanita carneiphylla - the 'Pink-gilled Amanita' - is distinctive by virtue of its pink gills, white warts on the cap, and long rooting stem. Fruit bodies often remain mostly embedded in the soil at maturity.	Deeply rooting in sandy soil, solitary or in small scattered groups		26	Likely	Unlikely – No suitable habitat present
<i>Anigozanthos humilis</i> subsp. Badgingarra (S.D. Hopper 7114)	P2	NM	17 km N	9 km N	3km E	8 km SE	22 km S	Erect, hirsute rhizomatous, herb, to 0.9 m high.	Grey-white sand, rich brown sandy loam, sandy clay, alluvial soils. Low plains, river-banks, winter-wet swamps.		25	Likely	Unlikely – No suitable habitat present within Study Areas.
<i>Arnocrinum gracillimum</i>	P2	NM	42 km N	Within Study Area	9 km W	11 km SW	Within Study Area	Rhizomatous, perennial, herb, 0.2-0.4 m high.	White, grey, yellow or lateritic sand.	Fl. purple, Oct to Nov.	23	Likely	Likely – Habitat present within the Study Areas.
<i>Boronia scabra</i> subsp. <i>condensata</i>	P2	NM	34 km N	13 km E	19 km SE	26 km SE	12 km N	Erect shrub, 0.25-0.7 m high, flowers, cymes sessile, staminal filaments tuberculate.	Sandy clay or gravel. Upper slopes, edges of lateritic breakaways.	Fl. pink, Aug.	8	Unlikely	Unlikely – No suitable soil type present.
<i>Calectasia palustris</i>	P2	NM	57 km NW	20 km NW	13 km W	11 km NW	11 km SW	Stilt-rooted herb (undershrub), stems to 0.7 m high.	White or grey sand. Seasonally inundated swamplands.	Fl. blue, Jul to Oct.	13	Unlikely	Unlikely – No suitable soil type present.

<i>Catacolea enodis</i>	P2	NM	56 km N	18 km N	8 km N	1 km S	5 km NW	Rhizomatous, perennial, herb, 0.1-0.3 m high, spikelets many-flowered, on slender peduncles; culms broad, 1.2-2 mm wide, compressed; style single.	Deep white sand over laterite. Tall heath.	Fl. Brown.	12	Likely	Likely – Suitable habitat present.
<i>Chordifex reseminans</i>	P2	NM	40 km N	1 km S	17 km S	23 km S	1 km N	Rhizomatous, erect, tufted, dioecious herb, 0.6-0.9 m high.	Dry sand. Heath.	Fl. Mar to May.	10	Likely	Likely – Suitable habitat present.
<i>Comesperma rhadinocarpum</i>	P2	NM	56 km N	20 km N	7 km N	1 km S	2 km NW	Perennial, herb.	Sandy soils.	Fl. blue, Oct to Nov.	16	Likely	Likely – Suitable habitat present.
<i>Dampiera tephrea</i>	P2	NM	1 km E	10 km E	15 km SE	15 km E	15 km SE	Ascending to erect perennial, herb or shrub, 0.3-0.6 m high, with grey or yellowish hairs on abaxial surface of leaves.	Sand, gravelly loam.	Fl. blue, Jul.	34	Possible	Unlikely – No suitable habitat present
<i>Eucalyptus abdita</i>	P2	NM	20 km N	3 km E	11 km S	19 km S	28 km S	Mallee or shrub, 2-3 m high, bark smooth, grey.	Laterite, sandy clay with gravel over laterite. Slopes, breakaways.		19	Unlikely	Unlikely – No suitable habitat present.
<i>Gastrolobium nudum</i>	P2	NM	25 km N	17 km SE	28 km SE	35 km SE	45 km S	Spreading, twiggy shrub, to 0.8 m high.	Red-brown clay, brown loam, gravel, laterite, granite. Flats, slopes, hilltops, ridges, valleys, breakaways.	Fl. orange&red, Feb.	20	Possible	Unlikely - No suitable soil or habitat type in Study Areas.
<i>Goodenia xanthotricha</i>	P2	NM	64 km N	31 km N	20 km NE	15 km NE	10 km SE	Viscid shrub, to 0.5 m high.	Sandy soils. Gravelly hills.	Fl. blue, Nov to Dec or Jan to Feb.	10	Possible	Possible – Limited information on sand type.
<i>Hypocalymma</i> sp. <i>Cataby</i> (G.J. Keighery 5151)	P2	NM	13 km N	13 km S	13 km N	6 km N	8 km S	Erect, spreading shrub, 0.5-1 m high, to 1 m wide.	Grey sand.	Fl. white, Aug.	13	Likely	Unlikely – Soil type not present.

<i>Isotropis cuneifolia</i> subsp. <i>glabra</i>	P2	NM	13 km E	26 km SW	39 km SW	45 km SW	56 km SW	Prostrate to ascending, spreading perennial, herb or shrub, 0.05-0.15 m high.	Sand, clay loam. Winter-wet flats.	Fl. yellow/orange & red, Sep.	26	Possible	Unlikely – No suitable habitat present.
<i>Jacksonia rubra</i>	P2	NM	82 km N	40 km N	34 km N	29 km N	14 km N	Tangled dwarf shrub, ca 0.2 m high.	Clayey sand.	Fl. orange, Oct.	14	Possible	Unlikely – No suitable habitat present.
<i>Lepyrodia curvescens</i>	P2	NM	3 km E	14 km NW	9 km W	14 km SW	26 km SW	Dioecious, shortly creeping, tufted rhizomatous, herb, 0.24-0.4 m high, rhizomes on surface or to 1 cm deep.	Sand, laterite. Seasonally inundated swampland.	Fl. Sep to Nov.	17	Likely	Unlikely – No suitable habitat present.
<i>Leucopogon plumuliflorus</i>	P2	NM	64 km N	32 km NE	21 km NE	13 km NE	6 km SE	Slender, multi-stemmed shrub, 0.1-0.4 m high.	Lateritic sandy soils. Amongst lateritic boulders, hillslopes.	Fl. white/white-pink, Apr or Jul to Nov.	37	Possible	Unlikely – No suitable habitat present
<i>Leucopogon</i> sp. Badgingarra (R. Davis 421)	P2	NM	52 km N	12 km N	6 km W	5 km W	11 km SW	Open, erect shrub, 0.7-1 m high.	Grey sand, dry white sand. Hills, plains.	Fl. white, Dec.	9	Likely	Likely – Suitable habitat is present.
<i>Leucopogon squarrosus</i> subsp. <i>trigynus</i>	P2	NM	6 km SW	45 km SW	57 km SW	63 km SW	74 km SW	Shrub to ca. 1.5 m high and 1.2 m wide.	Primarily occurs on the Bassendean Sands of the Swan Coastal Plain		15	Possible	Possible - limited records of this species and uncertainty with habitat type.
<i>Onychosepalum microcarpum</i>	P2	NM	18 km SE	11 km S	8 km NW	4 km W	1 km W	Rhizomatous, tufted perennial, herb, 0.07-0.15 m high.	Dry heath, low woodland.	Fl. Aug to Oct. White or yellow sand.	14	Likely	Likely – Suitable habitat is present.
<i>Persoonia filiformis</i>	P2	NM	68 km N	28 km NW	17 km NW	14 km W	19 km SW	Erect, spreading, lignotuberous shrub, 0.07-0.4 m high.	Yellow or white sand over laterite.	Fl. yellow, Nov to Dec.	15	Likely	Possible – Suitable habitat is present and species just falls within range of the Study Areas.
<i>Petrophile clavata</i>	P2	NM	39 km N	15 km E	18 km SE	20 km SE	29 km SE	Erect shrub, to 0.7 m high.	Grey sand, laterite. Hilltops and rises.	Fl. yellow-cream, Sep.	18	Possible	Unlikely – No suitable habitat present

<i>Schoenus badius</i>	P2	NM	57 km NW	17 km NW	14 km W	18 km SW	28 km SW	Slender annual, grass-like or herb (sedge), 0.05-0.12 m high.	Grey sand. Moist areas.	Fl. brown-green, Sep to Oct.	5	Possible	Unlikely – No suitable habitat present
<i>Stenantherum sublineare</i>	P2	NM	38 km NW	4 km SW	15 km S	22 km S	38 km S	Erect shrub, to 0.1 m high.	Littered white sand. Coastal plain.	Fl. green, Oct to Dec.	18	Possible	Unlikely – No suitable habitat present
<i>Stylium aceratum</i>	P2	NM	49 km N	9 km NW	10 km SW	15 km W	16 km W	Fibrous rooted annual, herb, 0.05-0.09 m high, leaves spathulate.	Sandy soils. Swamp heathland.	Fl. pink/white, Oct to Nov.	6	Possible	Unlikely – No suitable habitat present
<i>Stylium</i> sp. Moora (J.A. Wege 713)	P2	NM	4 km SW	42 km S	53 km S	59 km S	71 km S	Compact, bulbous, perennial herb 0.1 m high x 0.05 m wide.	Red sand-clay.	Fl. Pink.	15	Unlikely	Unlikely – No suitable habitat present.
<i>Synaphea endothrix</i>	P2	NM	41 km N	10 km E	8 km NE	4 km E	13 km S	Erect, clumped shrub, to 0.6 m high.	Gravelly loam, sand. Lateritic rises.	Fl. yellow, Aug to Sep.	18	Possible	Unlikely – No suitable habitat present.
<i>Synaphea xela</i>	P2	NM	83 km NW	43 km NW	30 km NW	25 km NW	20 km NW	Sprawling shrub (or subshrub), to 0.4 m high.	Red-brown gravelly sand, white-pink, grey-brown clayey sand and loam, over laterite. Undulating sites.		7	Possible	Unlikely – No suitable habitat present.
<i>Thysanotus</i> sp. Badgingarra (E.A. Griffin 2511)	P2	NM	74 km N	36 km N	24 km N	17 km N	6 km NW	Perennial, herb (with tuberous roots), ca 0.35 m high.	Grey sand with lateritic gravel.	Fl. blue, Dec.	2	Possible	Unlikely – No suitable soil type present.
<i>Acacia epacantha</i>	P3	NM	36 km N	9km E	9 km E	9 km E	15 km S	Dense, bushy, spiny shrub, 0.2-0.5 (-0.7) m high.	Lateritic gravelly loam or clay.	Fl. yellow, Jul to Aug.	15	Possible	Unlikely – No suitable habitat present within Study Areas.
<i>Acacia flabellifolia</i>	P3	NM	33 km N	30 km N	29 km N	27 km N	3 km N	Erect, spreading, pungent shrub, 0.4-1 m high.	Rocky loam, lateritic gravelly soils. Low hills & ridges.		33	Unlikely	Unlikely – Study Areas outside its known range
<i>Acacia plicata</i>	P3	NM	28 km N	11 km S	21 km S	25 km S	40 km S	Erect shrub, (0.3)-0.9-2 m high.	Loamy & clayey soils, often over sandstone or siltstone. Along drainage lines.	Fl. yellow, Aug to Oct.	27	Unlikely	Unlikely – No suitable habitat or soil type present.

<i>Allocasuarina grevilleoides</i>	P3	NM	16 km W	12 km E	18 km E	9 km E	10 km E	Dioecious, lignotuberous shrub, 0.15-0.4 m high.	Sand over laterite, gravel.		32	Likely	Likely – Suitable habitat present.
<i>Allocasuarina ramosissima</i>	P3	NM	40 km NE	23 km E	16 km E	11 km E	1 km E	Dioecious, somewhat divaricate shrub, 0.3-1.2 m high.	Lateritic soils, gravel.		42	Likely	Recorded – Study Area 5.
<i>Baeckea</i> sp. Moora (R. Bone 1993/1)	P3	NM	24 km N	14 km S	20 km N	12 km E	1 km E	Open spreading or spindly shrub, 0.5-2 m high.	Gravelly soils.	Fl. white/pink, Nov to Dec.	25	Likely	Likely – Suitable habitat present.
<i>Baeckea</i> sp. Perth Region (R.J. Cranfield 444)	P3	NM	1 km S	10 km W	11 km W	16 km SW	25 km SW	Erect, open straggly shrub, to 1.2 m high.	Orange sand, brown loam, white sandy clay. Low flats, winter-wet swamps, railway reserves.	Fl. pink/white, Jan to Mar.	25	Likely	Unlikely – No suitable habitat or soil type present
<i>Banksia cypholoba</i>	P3	NM	82 km N	46 km N	35 km N	29 km N	17 km N	Prostrate, dwarf, lignotuberous shrub, to 0.3 m high.	Sand & gravelly loam.	Fl. yellow-brown, Aug.	58	Possible	Unlikely- No suitable habitat within Study Areas 2, 3, 4 and 5. Study Area 1 outside its known range.
<i>Banksia dallanneyi</i> subsp. <i>pollostia</i>	P3	NM	6 km S	25 km S	37 km S	43 km S	55 km S	Prostrate, lignotuberous shrub.	Grey/yellow sand. Flats, lateritic rises.	Fl. yellow-brown, Aug to Sep.	27	Unlikely	Unlikely – Suitable habitat present within Study Area 1. Study Areas 2, 3, 4 and 5 outside its known range.
<i>Banksia kippistiana</i> var. <i>paenepeccata</i>	P3	NM	1 km N	16 km S	19 km NE	15 km NE	8 km E	Erect, prickly, lignotuberous shrub, 0.3-1.2 m high.	Lateritic gravelly soils.	Fl. yellow-cream, Oct to Nov.	28	Likely	Likely – Suitable habitat present.
<i>Banksia nobilis</i> subsp. <i>fragrans</i>	P3	NM	65 km N	35km N	20km N	15km N	1 km N	Erect, non-lignotuberous shrub, 0.6-2 m high.	Lateritic rises.	Fl. yellow-green/pink, Jul to Sep.	10	Unlikely	Likely – Suitable habitat present.

<i>Conospermum scaposum</i>	P3	NM	26 km E	7 km W	14 km W	17 km W	Within Study Area	Erect shrub, 0.2-0.45(-0.75) m high.	White-grey sand, sandy clay. Low swampy areas, road verges.	Fl. blue, Oct to Dec or Jan to Feb.	42	Possible	Unlikely – No suitable habitat present
<i>Cryptandra stellulata</i>	P3	NM	49 km N	23 km NE	19 km E	17 km E	22 km SE	Shrub, 0.3-1 m high, commonly with spinescent branches.	Brown-grey loam, yellow loamy clay or sand, granite, laterite.		8	Unlikely	Unlikely – No suitable habitat present
<i>Desmocladus biformis</i>	P3	NM	10 km S	30 km N	14 km N	10 km N	1 km S	Rhizomatous, densely tufted perennial, herb (sedge-like), 0.1-0.2 m high.	Sand, sandy clay, lateritic soils. Dry sites.	Fl. Sep to Oct.	28	Possible	Unlikely – No suitable habitat or soil type present.
<i>Dillwynia dillwynioides</i>	P3	NM	13 km S	50 km S	62 km S	67 km S	77 km S	Decumbent or erect, slender shrub, 0.3-1.2 m high.	Sandy soils. Winter-wet depressions.	Fl. red & yellow/orange, Aug to Dec.	74	Possible	Unlikely – No suitable habitat present.
<i>Drosera marchantiifolia</i> subsp. <i>prophylloides</i>	P3	NM	21 km N	5 km N	1 km S	7 km S	1 km S	Erect tuberous, perennial, herb, 0.1-0.3 m high.	Laterite-silica sand soils. Hilltops.	Fl. white, Jun to Jul.	5	Likely	Unlikely – No suitable habitat present.
<i>Gompholobium gaudichardianum</i>	P3	NM	38 km N	10 km E	15 km SE	20 km SE	2 km NW	Erect, slender, multistemmed shrub, to 0.5 m high.	White, cream or brown sandy clay, white sand over sandstone, brown or grey sand over laterite, gravel. Hill summits and slopes, ridges.	Fl. yellow, Sep to Nov.	25	Likely	Unlikely - No suitable soil or habitat type in Study Areas.
<i>Grevillea florida</i>	P3	NM	32 km N	11 km S	22 km S	28 km S	39 km S	Erect shrub, to 0.9 m high.	Sand, sandy clay, gravel, laterite. Sandplain, slopes, road verges	Fl. cream-yellow, Jul to Sep.	32	Possible	Unlikely - No suitable soil or habitat type in Study Areas.
<i>Grevillea leptopoda</i>	P3	NM	62 km N	28 km NE	21 km NE	15 km NE	8 km SE	Spreading to erect shrub, 0.6-1.5 m high.	Loam & lateritic gravel, sand, clay.	Fl. white-cream, Aug to Sep.	29	Possible	Unlikely - No suitable soil or habitat type in Study Areas.

<i>Patersonia argyrea</i>	P3	NM	71 km N	32 km N	21 km NW	18 km NW	18 km W	Rhizomatous, tufted perennial, herb, to 0.4 m high.	Grey sand and lateritic gravel.	Fl. violet-purple/other, Sep to Nov.	10	Possible	Unlikely – No suitable habitat present
<i>Persoonia rufida</i>	P3	NM	3 km S	31 km NE	18 km NE	13 km NE	7 km SE	Erect, often spreading shrub, 0.2-1 m high.	White, grey or yellow sand, often over laterite.	Fl. yellow, Sep to Dec or Jan.	51	Likely	Likely – Suitable habitat present.
<i>Petrophile biternata</i>	P3	NM	3 km SW	40 km S	52 km S	35 km NE	23 km N	Stout, rigid, non-lignotuberous shrub, 0.8-1.5 m high.	Yellow/grey sand & gravel, laterite, quartzite soils. Lateritic ridges, plains.	Fl. yellow/cream-yellow, Aug to Oct.	19	Likely	Unlikely – No suitable habitat present
<i>Petrophile septemfida</i>	P3	NM	78 km N	48 km NE	35 km NE	27 km NE	17 km NE	Shrub to ca. 1.2 m high.	Sand or in sand over laterite		15	Possible	Unlikely – Study Areas beyond its known range.
<i>Phlebocarya pilosissima</i> subsp. <i>pilosissima</i>	P3	NM	9 km S	12 km NW	6 km W	1 km W	2 km SE	Shortly rhizomatous, compactly tufted perennial, grass-like or herb, 0.15-0.4 m high.	White or grey sand, lateritic gravel.	Fl. cream-white, Aug to Oct.	23	Likely	Likely – Suitable habitat is present.
<i>Platysace ramosissima</i>	P3	NM	26 km S	16 km SW	28 km S	37 km S	29 km W	Perennial, herb, to 0.3 m high.	Sandy soils.	Fl. white-cream, Oct to Nov.	20	Likely	Possible - uncertainty with habitat type.
<i>Podotheca pritzelii</i>	P3	NM	31 km N	13 km SE	23 km SE	27 km S	39 km S	Ascending to erect, succulent annual, herb, 0.05-0.25 m high.	Sand ridges in salt flats.	Fl. yellow-orange, Sep to Oct.	67	Unlikely	Unlikely – No suitable habitat present
<i>Schoenus griffinianus</i>	P3	NM	18 km SE	4 km S	14 km SW	24 km W	37 km SW	Small, tufted perennial, grass-like or herb (sedge), to 0.1 m high.	White sand.	Fl. Sep to Oct.	44	Likely	Recorded – Within Study Areas 2, 4 and 4.
<i>Schoenus pennisetis</i>	P3	NM	39 km N	Within Study Area	8 km W	14 km SW	26 km SW	Tufted annual, grass-like or herb (sedge), 0.05-0.15 m high.	Grey or peaty sand, sandy clay. Swamps, winter-wet depressions.	Fl. purple-black, Aug to Sep.	47	Possible	Unlikely – No suitable habitat present
<i>Stackhousia</i> sp. Red-blotched corolla (A. Markey 911)	P3	NM	84 km N	45 km N	35 km N	29 km N	16 km NW	Perennial erect shrub.	Brown clayey sand over laterite.		8	Unlikely	Unlikely – No suitable habitat present

<i>Stylium hymenocraspedum</i>	P3	NM	38 km NW	4 km NW	Within Study Area	4 km S	7.5 km W	Rosetted perennial, herb, 0.27-0.7 m high.	Sand over laterite. Hillslopes. Heath, Banksia and Eucalyptus low open woodland.	Fl. yellow, Sep to Oct.	17	Likely	Recorded – Study Area 2 and 4.
<i>Stylium maritimum</i>	P3	NM	33 km W	13 km SW	32 km W	36 km W	42 km NW	Caespitose perennial, herb, 0.3-0.7 m high.	Sand over limestone. Dune slopes and flats. Coastal heath and shrubland, open Banksia woodland.	Fl. white/purple, Sep to Nov.	82	Possible	Unlikely – No suitable habitat present.
<i>Stylium nonscandens</i>	P3	NM	11 km S	51 km N	37 km N	31 km N	20 km N	Erect perennial, herb, 0.18-0.46 m high.	Sand over laterite. Hillslopes and crests. Banksia woodland, heath, mallee shrubland	Fl. pink, Sep to Nov.	31	Possible	Unlikely – No suitable habitat within Study Area 1. Study Areas 2, 3, 4 and 5 beyond its range.
<i>Stylium periscelianthum</i>	P3	NM	29 km N	12 km S	24 km S	31 km S	41 km S	Bulb-forming perennial, herb, 0.07-0.15 m high.	Loamy clay, moist soils pockets. Wet flats, low granitic hills.	Fl. pink, Sep to Oct.	27	Possible	Unlikely – No suitable habitat present.
<i>Stylium torticarpum</i>	P3	NM	39 km N	17 km E	11 km W	15 km SW	23 km SW	Caespitose perennial, herb, 0.12-0.27 m high.	Sandy clay and clay loam over laterite. Adjacent to creeklines, depressions, and beneath breakaways. Heath or mallee shrubland.	Fl. pink, Sep to Nov.	48	Possible	Unlikely – No suitable habitat present.
<i>Tetratheca angulata</i>	P3	NM	40 km NW	4 km E	14 km SW	8 km NE	4 km SE	Lax to erect, slender shrub (subshrub), 0.2-0.3 m high.	Sandy to gravelly laterite soils. Low hill crests, breakaways with massive laterite boulders.		12	Possible	Recorded – Study Area 4.
<i>Thysanotus anceps</i>	P3	NM	84 km N	44 km N	33 km N	27 km N	21 km N	Rhizomatous, leafless perennial, herb, to 0.4 m high.	White or grey sand, lateritic gravel, laterite.	Fl. purple, Oct to Dec.	28	Possible	Possible – habitat present; however, Study Areas beyond its range.
<i>Thysanotus vernalis</i>	P3	NM	79 km N	37 km N	26 km N	19 km NW	13 km NE	Perennial, herb (with tuberous roots), to 0.3 m high.	Sandy loam.	Fl. purple, Sep to Oct.	11	Possible	Unlikely – No suitable soil type present.

<i>Verticordia amphigia</i>	P3	NM	47 km NW	8 km NW	8 km SW	16 km SW	28 km SW	Shrub, 0.6-1.3 m high.	Sandy loam, clay & rocky loam. Winter-wet depressions.	Fl. yellow, Oct to Nov.	16	Unlikely	Unlikely – No suitable habitat present.
<i>Verticordia fragrans</i>	P3	NM	72 km N	38 km NE	29 km NE	17 km NE	10 km NE	Openly branched shrub, 1-3 m high.	White, grey or yellow sand, clay loam. Low-lying areas, sandplains.	Fl. pink-white, Sep to Nov.	36	Possible	Unlikely – No suitable habitat present.
<i>Verticordia huegelii</i> var. <i>tridens</i>	P3	NM	33 km NE	8 km SW	21 km SW	27 km SW	38 km SW	Shrub, 0.15-0.6 m high.	Sandy or gravelly loam. Winter-wet areas, low hills.	Fl. green-yellow/red, Sep to Nov.	37	Unlikely	Unlikely – No suitable habitat present.
<i>Verticordia insignis</i> subsp. <i>eomagis</i>	P3	NM	27 km NE	19 km NE	11 km NE	9 km E	9 km SE	Erect shrub, 0.2-1(-1.5) m high.	Sandy soils over laterite. Sandplains, rocky rises.	Fl. white-pink/white, Aug to Nov.	49	Likely	Likely – Suitable habitat present.
<i>Verticordia rutilastra</i>	P3	NM	37 km NE	19 km E	11 km NE	9 km E	1 km E	Shrub, 0.2-0.9 m high.	Sand & lateritic gravel. Hills.	Fl. yellow, Sep to Nov.	42	Likely	Likely – Suitable habitat present.
<i>Anigozanthos humilis</i> subsp. <i>chrysanthus</i>	P4	NM	7 km NE	10 km SW	15 km SW	22 km SW	36 km SW	Rhizomatous, perennial, herb, 0.2-0.4(-0.8) m high.	Grey or yellow sand.	Fl. yellow, Jul to Oct.	105	Likely	Unlikely – No suitable habitat present within Study Areas.
<i>Asterolasia drummondii</i>	P4	NM	25 km N	12 km S	22 km S	29 km S	42 km S	Slender erect shrub, 0.2-0.5 m high.	Lateritic gravel & sand or loam. Lateritic hills & sandplains, breakaways.	Fl. white, Jul to Sep.	52	Likely	Likely – Habitat present within the Study Areas.
<i>Banksia chamaephyton</i>	P4	NM	14 km E	29 km NW	23 km NW	21 km W	1 km N	Low, lignotuberous shrub, to 0.4 m high, up to 2 m wide.	Grey or white sand over laterite.	Fl. cream & brown, Oct to Dec.	38	Likely	Likely – Suitable habitat present.
<i>Banksia elegans</i>	P4	NM	85 km N	46 km N	34 km N	29 km N	17 km NW	Shrub (with fire-tolerant rootstock, often suckering), 1-4 m high.	Yellow, white or red sand. Sandplains, low consolidated dunes.	Fl. yellow/green-yellow, Oct to Nov.	35	Possible	Unlikely – No suitable habitat present.
<i>Boronia tenuis</i>	P4	NM	41 km SE	5 km NW	11 km S	18 km S	31 km S	Procumbent or erect & slender shrub, 0.1-0.5 m high.	Laterite, stony soils, granite.	Fl. blue/pink-white, Aug to Nov.	78	Unlikely	Unlikely – No suitable soil type present.
<i>Calothamnus accedens</i>	P4	NM	17 km W	30 km NE	22 km NE	12 km NE	11 km SW	Erect & slender shrub, to 1.8 m high.	Sandy soils over laterite. Road verge.	Fl. pink-red.	45	Possible	Likely – Suitable habitat present.

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Calothamnus pachystachyus</i>	P4	NM	15 km SE	43 km S	55 km S	65 km S	75 km S	Erect, much-branched, often straggly shrub, (0.3-)0.6-1.7 m high.	Lateritic soils, often gravelly. Ridges, road verges.	Fl. red-brown-black, Aug to Oct.	38	Unlikely	Unlikely- No suitable soil type present and Study Areas beyond its range.
<i>Calytrix chrysantha</i>	P4	NM	89 km N	49 km N	38 km N	32 km N	20 km N	Shrub, 0.3-1.3 m high.	White, grey or yellow/brown sand. Flats.	Fl. yellow, Dec or Jan to Feb.	49	Possible	Unlikely - Study Areas beyond its range.
<i>Calytrix eneabbensis</i>	P4	NM	55 km NW	20 km NW	17 km W	18 km SW	30 km SW	Shrub, 0.3-1 m high.	White, grey or yellow sand over laterite. Sandplains.	Fl. purple & pink & yellow, Jul to Oct.	39	Possible	Possible – Suitable habitat is present; however,
<i>Chordifex chaunocoleus</i>	P4	NM	42 km NW	6 km W	7 km SW	15 km NW	10 km W	Rhizomatous, erect perennial, herb, 0.15-0.5 m high.	Grey, siliceous or peaty sand, well to poorly drained. Drainage lines, depressions.	Fl. brown, Sep.	41	Possible	Unlikely – No suitable habitat present.
<i>Conostephium magnum</i>	P4	NM	29 km N	Within Study Area, uncertainty of exact location	Erect, compact, many-stemmed shrub, to 2 m high.	White-grey sands sometimes associated with laterite gravels. Sand dunes, swampland, disturbed roadside, drainage channels, open woodland.	Fl. pink-purple, Jul to Sep.	27	Likely	Recorded			
<i>Desmocladus elongatus</i>	P4	NM	39 km N	5 km E	11 km N	6 km N	1 km S	Rhizomatous, perennial, herb (sedge-like), 0.25-0.5 m high.	White or grey sand. Dry kwongan.	Fl. Aug to Dec.	41	Likely	Likely – Suitable habitat present.
<i>Diuris recurva</i>	P4	NM	35 km E	49 km N	38 km N	30 km N	20 km N	Tuberous, perennial, herb, 0.2-0.3 m high.	Loam. Winter-wet areas.	Fl. yellow & brown, Jul to Aug.	41	Unlikely	Unlikely – No suitable habitat present.
<i>Dodonaea hackettiana</i>	P4	NM	16 km SW	43 km S	57 km S	63 km S	78 km S	Erect shrub or tree, 1-5 m high.	Outcroping limestone.	Fl. yellow-green/red, mainly Jul to Oct.	68	Unlikely	Unlikely – No suitable habitat present.

Species Name	Status	Source	Nearest Record Study Area 1	Nearest Record Study Area 2	Nearest Record Study Area 3	Nearest Record Study Area 4	Nearest Record Study Area 5	Description	Preferred Habitat	Preferred Flowering Time	NatureMap Counts	Desktop Assesment	Field Assessment
<i>Eucalyptus exilis</i>	P4	NM	60 km SE	51 km N	38 km N	30 km N	21 km N	Whipstick mallee, 2-6 m high, bark smooth.	Grey sand, gravelly loam. Lateritic ridges.	Fl. white, Aug to Oct.	70	Unlikely	Unlikely – No suitable soil type present and Study Areas beyond its range.
<i>Eucalyptus macrocarpa</i> subsp. <i>elachantha</i>	P4	NM	Within Study Area	3 km W	5 km W	7 km SW	1 km S	Spreading or sprawling mallee, 0.8-4 m high, bark smooth, grey over salmon pink.	White or grey sand over laterite. Hillslopes, ridges, sandplains.	Fl. red-pink, Aug to Sep or Nov to Dec.	72	Likely	Recorded – Study Areas 4 and 5
<i>Eucalyptus pendens</i>	P4	NM	50 km N	1 km S.	2 km E	2 km E	1 km E	Slender, pendulous mallee, 2-5 m high, bark smooth.	White or grey sand with lateritic gravel. Hillsides, breakaways, sandplains.	Fl. white, Aug to Nov.	87	Likely	Likely – Suitable habitat recorded.
<i>Eucalyptus x carnabyi</i>	P4	NM	26 km N	8 km E	12 km SE	15 km SE	28 km S	Mallee, 1.5-6 m high, bark smooth, grey over cream.	Grey sand, sandy loam. Lateritic ridges.	Fl. pink-cream, Oct to Nov.	28	Possible	Unlikely - No suitable soil
<i>Grevillea drummondii</i>	P4	NM	27 km N	10 km S	23 km S	29 km S	42 km S	Spreading to erect shrub, 0.2-2(2.5) m high.	Lateritic soils (sandy clay, gravel, loam, sand), sand over granite. Rocky hillsides, boulders, granite outcrops.	Fl. cream & yellow & red, Jun to Sep.	35	Possible	Unlikely - No suitable soil or habitat type in Study Areas.
<i>Grevillea olivacea</i>	P4	NM	16 km NE	30 km SE	40 km SE	43 km SE	56 km SE	Erect, non-lignotuberous shrub, 1-4.5 m high.	White or grey sand. Coastal dunes, limestone rocks.	Fl. red/red-pink, Jun to Sep.	29	Possible	Unlikely - No suitable soil or habitat type in Study Areas.
<i>Grevillea rufa</i>	P4	NM	15 km NE	25 km S	16 km NE	14 km N	1 km S	Loose, spreading to erect shrub, 0.2-1.2 m high.	White, grey, yellow or red sand, often with gravel & over laterite.	Fl. white-cream/cream-yellow, Jan or Apr or Jun to Sep or Nov to Dec.	57	Likely	Recorded – Study Areas 4 and 5.
<i>Grevillea saccata</i>	P4	NM	31 km S	1 km S	5 km NE	4 km S	1 km S	Diffuse scrambling or trailing shrub, 0.25-0.5 m high, 1-2 m wide.	Yellow or brown sand, often with lateritic gravel.	Fl. red, Apr or Jun to Nov.	108	Possible	Unlikely – No suitable soil type recorded.
<i>Hakea neurophylla</i>	P4	NM	71 km N	33 km N	22 km N	15 km N	2 km NW	Erect shrub, 0.3-2 m high.	Lateritic sandy soils. Hillsides.	Fl. pink-red, Aug.	25	Likely	Likely – Suitable habitat present in Study Areas.

<i>Hibbertia helianthemoides</i>	P4	NM	28 km N	Within Study Area	6 km E	9 km E	10 km SW	Spreading to erect, low or prostrate shrub, to 0.3 m high.	Clayey sand over sandstone or loam over quartzite. Hills and screen slopes.	Fl. yellow, Jul or Sep to Oct.	67	Possible	Unlikely – No suitable habitat type present.
<i>Hypolaena robusta</i>	P4	NM	22 km N	3 km SW	15 km S	7 km W	1 km W	Dioecious rhizomatous, perennial, herb, ca 0.5 m high.	White sand. Sandplains.	Fl. Sep to Oct.	44	Likely	Recorded – Study Areas 3 and 4.
<i>Rumex drummondii</i>	P4	NM	Within Study Area	40 km SE	52 km S	58 km S	62 km S	Erect perennial, herb, 0.6-0.9 m high.	Winter-wet disturbed areas.		18	Unlikely	Unlikely – No suitable habitat present
<i>Stylium aeonioides</i>	P4	NM	22 km N	6 km NW	1 km S	5 km S	4 km NW	Rossetted perennial, herb, 0.05-0.4 m high.	Sandy clay loam over laterite. Hillsides and breakaways. Low heath, open woodland.	Fl. cream-yellow, Sep to Nov.	38	Likely	Unlikely – No suitable habitat present
<i>Stylium inversiflorum</i>	P4	NM	57 km N	21 km N	7 km N	3 km W	3.5 km NW	Rossetted perennial, herb, 0.08-0.25 m high.	White or grey sand over laterite. Sandplains, hillslopes and gullies. Heath, open woodland.	Fl. yellow, Sep to Nov.	24	Likely	Likely – Suitable habitat is present
<i>Theelymitra apiculata</i>	P4	NM	19 km E	5 km NE	6 km N	1 km N	12 km S	Tuberous, perennial, herb, 0.2-0.35 m high.	Grey sand, lateritic gravel.	Fl. purple & yellow, May to Jul.	17	Likely	Unlikely – No suitable soil type present.
<i>Thysanotus glaucus</i>	P4	NM	18 km E	17 km SE	11 km W	13 km SW	18 km N	Caespitose, glaucous perennial, herb, 0.1-0.2 m high.	White, grey or yellow sand, sandy gravel.	Fl. purple, Oct to Dec or Jan to Mar.	34	Likely	Likely – suitable habitat present.
<i>Tripteroococcus sp.</i> Brachyllobus (A.S. George 14234) (nee: <i>Tripteroococcus paniculatus</i>)	P4	NM	21 km S	34 km N	21 km N	14 km N	3 km N	Perennial, herb, to 1 m high.	Grey, black or peaty sand. Winter-wet flats.	Fl. yellow-green, Oct to Nov.	33	Unlikely	Unlikely – No suitable habitat present.
<i>Verticordia lindleyi</i> subsp. <i>lindleyi</i>	P4	NM	18 km SE	9 km W	7 km SW	13 km SW	26 km SW	Erect shrub, 0.2-0.75 m high.	Sand, sandy clay. Winter-wet depressions.	Fl. pink, May or Nov to Dec or Jan.	115	Unlikely	Unlikely – No suitable habitat present.
<i>Verticordia paludosa</i>	P4	NM	9 km S	45 km SW	57 km S	64 km S	74 km S	Erect shrub, 0.3-0.9 m high.	White/grey sand. Winter-wet flats.	Fl. pink-white, Jan to May.	38	Possible	Unlikely – No suitable habitat present.

Quadrat Data Sheets

Site	Q1	Project	6132549 - Brand Highway SLK 70 to 150					
Date:	29/09/2015	Described by:	Joshua Foster and Steven Petts					
Location:	Brand Highway 77.54-79.7	Easting:	374708	Northing:	6573992			
MGA Zone:	50	Site Type:	Q					
Dimensions:	10x10m	Photo:						
Site Disturbance:	Clearing Infrastructure Other- Road	Frequency:	Disturb >10 yr					
Climate:	Recent rain, +ve veg responses	Water or Wind Erosion Evidence:	No					
Veg Condition:	Very Good to Excellent	Field Vegetation Type:	Banksia Woodland on White Sands					
Drainage:	Good drain							
Fire Frequency:	Nil	Fire Intensity:	-					
Surface Component:	Loose soil (50%) Humus/Litter (50%)	Soil Type: Major Component:	Sand	Minor:	Nil			
Leaf Litter:	Plentiful	Wood Litter:	Plentiful					
Soil Colour:	White	Slope (if present):	Negligible					
Landform:								
GROWTH FORM TABLE:								
Tree >10 m		Tree 2-10 m	U1					
Tree <2 m		Tree Mallee						
Palm		Shrub >2 m	M1					
Shrub 1-2 m	M2	Shrub <1 m	M3
