

Los Angeles County
Department of Regional Planning

Planning for the Challenges Ahead

Richard J. Bruckner
Director

July 15, 2011

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

HEARING ON AMENDMENT TO TITLE 21 (SUBDIVISION CODE) AND TITLE 22 (PLANNING AND ZONING) OF THE LOS ANGELES COUNTY CODE RELATED TO REASONABLE ACCOMMODATION (ALL DISTRICTS) (THREE VOTES)

SUBJECT

The Draft Reasonable Accommodation Ordinance, which implements a program in the 2008-2014 Los Angeles County Housing Element, amends the Los Angeles County Code to create a procedure for individuals with disabilities to request reasonable accommodation from land use and zoning standards or procedures, when those standards or procedures are a barrier to equal housing access.

IT IS RECOMMENDED THAT YOUR BOARD, AFTER THE PUBLIC HEARING:

1. Consider the attached Draft Negative Declaration together with any comments received during the public review process, find on the basis of the whole record before the Board that there is no substantial evidence that the project will have a significant effect on the environment, find that the Draft Negative Declaration reflects the independent judgment and analysis of the Board, and adopt the Draft Negative Declaration; and
2. Approve the recommendation of the Regional Planning Commission to amend the County Code to include an administrative procedure for individuals with disabilities to request reasonable accommodation, as outlined in the attached Draft Reasonable Accommodation Ordinance; and
3. Instruct County Counsel to prepare an ordinance to amend Title 21 and Title 22, as recommended by the Regional Planning Commission.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

On August 5, 2008, the Board of Supervisors adopted the Fourth Revision of the Housing Element. The Draft Ordinance implements *Program 2: Removal of Governmental Constraints* of the Housing Element, which addresses rules and regulations that may constrain the development of housing affordable to low and moderate income households and households with special needs.

The Draft Ordinance amends Title 21 and Title 22 of the Los Angeles County Code to include an administrative procedure for individuals with disabilities to request reasonable accommodation, or a waiver or modification to regulations, policies procedures and standards, that may be necessary for an individual with a disability to have an equal opportunity to use and enjoy a residential use. State and federal fair housing laws require that cities and counties provide this flexibility where the requested accommodation is reasonable and necessary. Some examples include permitting a wheelchair ramp in a required setback area or allowing extra time for an applicant to submit materials. The Draft Ordinance, which applies to all unincorporated areas of Los Angeles County, provides a procedure to review requests for reasonable accommodations for all regulations, policies, practices and procedures regulated by the Department of Regional Planning (Department).

The Draft Ordinance provides a fair and reasonable means of accommodating the special housing needs of individuals with disabilities, without compromising the County's commitment to protecting community character and environmental quality. A request for a reasonable accommodation is evaluated on a case-by-case basis, using findings specified in the state and federal law. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation requested is intended to be used by an individual with a disability who resides or will reside on the property; that the requested accommodation is necessary to afford an individual with a disability equal opportunity to use and enjoy a residential use; that the requested accommodation will not impose an undue financial burden or administrative burden on the County; and the requested accommodation will not require a fundamental alteration in the nature of the land use and zoning program of the County. In addition, determinations on reasonable accommodations are appealable by any person; however, the appeals are limited to the findings for reasonable accommodations. After a reasonable accommodation has been granted, an applicant is required to record the findings of reasonable accommodation with the County Recorder's office, in order to ensure proper use and enforcement.

Furthermore, the Draft Ordinance provides a clear reasonable accommodation procedure for staff and members of the public. For example, the Draft Ordinance specifies that a reasonable accommodation may be requested by an individual with a disability or someone acting on his or her behalf, such as a personal advocate, or a provider or developer of housing for individuals with disabilities. The State Attorney General issued a

letter in May 2001 advising local governments of their affirmative duty under fair housing laws to provide reasonable accommodation and encouraging local governments to establish prompt and efficient processes for handling such requests.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The Draft Reasonable Accommodation Ordinance promotes the County's Strategic Planning Goal 1: Organizational Effectiveness, by addressing regulatory barriers to the development of housing for individuals with disabilities. The Draft Ordinance also addresses Goal 2: Children, Family and Adult Well-Being, by providing equal opportunities for those with special needs. In addition, the Draft Ordinance helps to "promote a wide range of housing opportunities to meet the needs of ... those with special needs," which is Strategy 4 under Goal 3: Community and Municipal Services. The Draft Ordinance also implements the Los Angeles County Housing Element, which is Objective 2 of Goal 3, Strategy 4.

FISCAL IMPACTS/FINANCING

Implementation of the Draft Reasonable Accommodation Ordinance will not result in a loss of revenue to the County or add significant new costs to the Department of Regional Planning or other County departments.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The State Housing Element Law (Government Code Sections 65580-65589.8) requires local jurisdictions to address and analyze the housing needs of special needs populations, including individuals with disabilities, as well as provide a program for granting reasonable accommodations. The Draft Ordinance implements *Program 2: Removal of Governmental Constraints* of the Housing Element of the Los Angeles County General Plan, which addresses rules and regulations that may constrain the development of housing affordable to low and moderate income households and households with special needs. Failure to implement the Housing Element puts the County at risk of losing its State certification.

Federal Fair Housing Amendments Act of 1988 (FHAA) and the California Fair Employment and Housing Act (FEHA), define discrimination as, among other things, a refusal to make reasonable accommodations in rules, policies, practices, or services, when these accommodations may be necessary to afford an individual with a disability equal opportunity to use and enjoy a dwelling.

The Draft Ordinance is consistent with the County's "Analysis of Impediments to Fair Housing Choice," which includes a recommendation to adopt a procedure for reasonable

accommodation. The U.S. Department of Housing and Urban Development's (HUD) requires that local jurisdictions utilizing Community Development Block Grant (CDBG) funds analyze impediments to fair housing.

The Draft Reasonable Accommodation Ordinance is in conformance with the purpose, intent and provisions of the Los Angeles County General Plan. Specifically, the Draft Ordinance supports *Housing Availability Goal 1* and *Housing Affordability Goal 3* in the Housing Element, as well as *Conserve Resources and Enhance Environmental Quality Policy 22* in the Land Use Element.

The Regional Planning Commission conducted public hearings on the Draft Reasonable Accommodation Ordinance on February 23, April 27, and May 25, 2011. One member of the public testified in support of the Draft Ordinance. On May 25, 2011, the Regional Planning Commission voted to approve the Draft Ordinance and environmental documents.

A public hearing is required pursuant to Section 22.16.200 of the County Code and Sections 65353-65356 of the Government Code. Required notice must be given pursuant to the procedures and requirements set forth in Section 22.60.174 of the County Code. These procedures exceed the minimum standards of Section 65090 of the Government Code relating to notice of public hearing.

ENVIRONMENTAL DOCUMENTATION

The staff has prepared a Draft Initial Study and Negative Declaration for the proposed amendments to Title 21 and Title 22 in compliance with the California Environmental Quality Act (CEQA) and the environmental reporting procedures of the County of Los Angeles.

Copies of the Draft Initial Study and Negative Declaration were transmitted to all County libraries for public review. Public notice was also published in 12 newspapers, including one Spanish language newspaper, of general circulation in the unincorporated areas of Los Angeles County, on or before January 24, 2011. The notice was also posted in the Los Angeles County Register-Recorder/County Clerk's office.

The staff has received letters from the Sheriff's Department and the Fire Department regarding the environmental documentation. Neither Department had comments on the determination.

Based on the attached Draft Negative Declaration, the adoption of the Draft Reasonable Accommodation Ordinance will not have a significant effect on the environment.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Approval of the Draft Reasonable Accommodation Ordinance will improve planning services by clarifying and facilitating a procedure to request and grant reasonable accommodations.

Respectfully submitted,

DEPARTMENT OF REGIONAL PLANNING

Richard J. Bruckner
Director

**RESOLUTION
REGIONAL PLANNING COMMISSION
COUNTY OF LOS ANGELES**

WHEREAS, the Regional Planning Commission of the County of Los Angeles conducted a public hearing on February 23, and May 25, 2011 on amendments to Title 21 (Subdivisions) and Title 22 (Planning and Zoning) of the Los Angeles County Code relating to reasonable accommodations for individuals with disabilities.

WHEREAS, the commission finds as follows:

1. The Fair Housing Amendments Act of 1988 and the California Fair Employment and Housing Act prohibit cities and counties from discriminating against individuals with disabilities through land use and zoning decisions and procedures. Discrimination includes the failure or refusal to provide reasonable accommodation to rules, policies, practices, and procedures where such accommodation may be necessary to afford individuals with disabilities equal opportunity to housing.
2. On August 5, 2008, the Los Angeles County Board of Supervisors adopted the 2008-2014 Los Angeles County Housing Element. The Housing Element contains a program, *Program 2: Removal of Governmental Constraints*, to amend the zoning code to include a procedure for granting reasonable accommodation.
3. The proposed ordinance supports *Housing Availability, Goal 1 of the 2008-2014 Los Angeles County Housing Element*: "a wide range of housing types in sufficient supply to meet the needs of current and future residents, particularly persons with special needs, including but not limited to low income households, seniors, persons with disabilities, single-parent households, the homeless and at-risk homeless, and farmworkers," in that it provides a process to request and obtain reasonable accommodation to rules, policies, practices, and procedures where such accommodation may be necessary to afford individuals with disabilities equal opportunity to housing.
4. The proposed ordinance supports *Housing Affordability, Goal 4 of the 2008-2014 Los Angeles County Housing Element*: "a housing delivery system that provides assistance to those with low and moderate incomes and those with special needs," in that it provides a systematic procedure for providing reasonable accommodation to rules, policies, practices, and procedures where such accommodation may be necessary to afford individuals with disabilities equal opportunity to housing.
5. The proposed ordinance supports *Equal Opportunity, Goal 1 of the Los Angeles County Housing Element*: "accessibility to adequate housing for all persons without discrimination in accordance with federal and state fair housing laws," in

2. That the Board adopt the attached Negative Declaration and find that there is no substantial evidence that proposed amendments to Title 21 and Title 22 may have a significant effect on the environment; and
3. That the Board adopts the draft ordinances as recommended by this Commission and amend Title 21 and Title 22 accordingly, and determine that the amendments are consistent with the goals and policies of the Los Angeles County General Plan.

I hereby certify that the foregoing resolution was adopted by the Regional Planning Commission of the County of Los Angeles on May 25, 2011.

Rosie O. Ruiz, Secretary
Regional Planning Commission
County of Los Angeles

Elaine Lemke
Principal Deputy County Counsel
County of Los Angeles

DEPARTMENT OF REGIONAL PLANNING

PROJECT SUMMARY

PROJECT IDENTIFICATION:	Proposed amendments to Title 21 (Subdivisions) and Title 22 (Planning and Zoning) of the Los Angeles County Code relating to reasonable accommodations for individuals with disabilities.
REQUEST:	Adoption of the Draft Ordinance amending Titles 21 and 22.
LOCATION:	Countywide
STAFF CONTACT:	Gretchen Siemers at (213) 974-6417
RPC MEETING DATES:	February 23, April 27, May 25, 2011
RPC RECOMMENDATION:	Board public hearing to consider adoption of the Draft Ordinance.
MEMBERS VOTING AYE:	Commissioners Valadez, Louie and Pedersen
MEMBERS ABSENT:	Commissioners Modugno and Helsley
KEY ISSUES:	<p>The Draft Ordinance implements Program 2 of the 2008-2014 Housing Element of the General Plan. Reasonable accommodation means a waiver or modification to regulations, policies, procedures and standards that may be necessary for an individual with a disability to have an equal opportunity to use and enjoy a residential use.</p>
MAJOR POINTS FOR:	<p>State and federal law mandate that local governments provide reasonable accommodation for individuals with disabilities. Adopting an ordinance codifies and clarifies the procedure for both the public and County staff.</p> <p>Failure to implement the Housing Element makes the County vulnerable to legal challenges and at risk of losing its Housing Element certification from the State.</p> <p>The Draft Ordinance contains provisions, such as</p>

Executive Summary for BOS Hearing
Reasonable Accommodation for Persons with Disabilities

findings, third-party verification of disability and an appeals procedure, to provide a fair and reasonable means of accommodating the special housing needs of individuals with disabilities, without compromising the County's commitment to protecting community character and environmental quality.

MAJOR POINTS AGAINST:

The case-by-case basis nature of reasonable accommodations adds uncertainty to the implementation of the ordinance.

ORDINANCE NO. _____

An ordinance amending Title 21—Subdivisions—and Title 22—Planning and Zoning—of the Los Angeles County Code establishing procedures for individuals with disabilities to request reasonable accommodations from planning and land use regulations to obtain equal opportunity to use and enjoy a residential use.

The Board of Supervisors of the County of Los Angeles ordains as follows:

SECTION 1. Section 21.52.010 is hereby amended as follows:

21.52.010 Modification or waiver of provisions authorized when.

...

D. The director or the advisory agency may make modifications to regulations contained in this Title 21 pertaining to the granting of a reasonable accommodation, as provided for in Title 22.

SECTION 2. Section 22.08.040 is hereby amended to read as follows:

22.08.040 D.

...

~~“Disability” means a condition which renders an individual unable to engage in normal activities by reason of a medically determinable physical or mental impairment which can be expected to last for not less than 12 months.~~

SECTION 3. Part 19 of Chapter 22.56 is hereby added to read as follows:

Part 19 REQUESTS FOR REASONABLE ACCOMMODATION

- 22.56.3000 Purpose.
- 22.56.3010 Applicability.
- 22.56.3020 Definitions.
- 22.56.3030 Application.
- 22.56.3040 Findings.

1 22.56.3050 Commission review where concurrent.

2 22.56.3060 Notice of determination.

3 22.56.3070 Effective date.

4 22.56.3080 Expiration of Reasonable Accommodation.

5 22.56.3090 Covenant.

6 22.56.3100 Appeals.

7
8 **22.56.3000 Purpose.**

9 The purpose is to provide a procedure for individuals with disabilities to request
10 reasonable accommodation, as provided by the federal Fair Housing Amendments Act of 1988
11 and the California Fair Employment and Housing Act (the Acts), as those regulations are
12 amended from time to time.

13
14 **22.56.3010 Applicability.**

15 The provisions of this Part 19 shall apply to all regulations, policies, procedures and
16 standards, regulated by the Department of Regional Planning of the County of Los Angeles.

17
18 **22.56.3020 Definitions.**

19 "The Acts" means the federal Fair Housing Amendments Act of 1988 and the California
20 Fair Employment and Housing Act, as those regulations are amended from time to time.

21 "Individual with a disability" as defined in California Government Code Sections 12900-
22 12996 and the regulations promulgated thereunder.

23 "Reasonable accommodation" is a waiver or modification to regulations, policies,
24 procedures and standards that may be reasonable and necessary for a person with a disability
25 to have an equal opportunity to use and enjoy a residential use.

26 "Residential use" means any dwelling as defined by 42 U.S.C. 3602(b), as may be
27 amended from time to time.

28
29 **22.56.3030 Application—Filing.**

30 A. Any individual with a disability, someone acting on his or her behalf, or a provider or
31 developer of housing for individuals with disabilities, desiring to obtain accommodation in
32 accordance with this Part 19 shall file an application with the director.

33 B. A request for accommodation shall contain the following information:

1 1. Name and address of the applicant and of all persons owning any or all of the
2 subject property.

3 2. Evidence that the applicant is one of the following;

4 a. Is the owner of the subject property, or

5 b. Has the written permission of the owner or owners to make such
6 request.

7 3. Location of the subject property, including address (or vicinity) and Assessor's
8 parcel number(s).

9 4. Legal description of the subject property.

10 5. Description of the current use of the property.

11 6. The specific regulations, policies, procedures and/or standards that are
12 requested to be waived or modified.

13 7. A statement setting forth the basis for the request, including verifiable
14 documentation of disability status.

15 C. The director may request additional information as necessary that complies with the
16 Acts and the privacy rights of the individual with a disability.

17
18 **22.56.3040 Findings.**

19 A. The director shall grant a request for accommodation where all of the following are
20 established:

21 1. The accommodation requested is intended to be used by an individual with a
22 disability who resides or will reside on the property;

23 2. The requested accommodation is necessary to afford an individual with a
24 disability equal opportunity to use and enjoy a residential use;

25 3. The requested accommodation will not impose an undue financial or
26 administrative burden on the County; and

27 4. The requested accommodation will not require a fundamental alteration in the
28 nature of the land use and zoning program of the County.

29
30 **22.56.3050 Hearing officer or commission review where concurrent.**

31 When a request for accommodation is filed in conjunction with a permit, variance or any
32 other discretionary land use action as provided by Title 21 and/or Title 22, the hearing officer or
33 commission shall grant a request for a reasonable accommodation concurrently with such

1 permit, variance or other discretionary land use action in accordance with the required findings
2 pursuant to 22.56.3040.

3
4 **22.56.3060 Notice of determination.**

5 A. The director, hearing officer or commission shall notify the applicant by mail of the
6 action taken on a request for accommodation.

7 1. Notices of determination not considered pursuant to 22.56.3050 shall be
8 issued within 30 days of the date the application is deemed complete.

9 B. A copy of the notice of determination shall be provided to abutting owners of subject
10 the property.

11 C. The notice of determination shall give notice of the right to appeal, as set forth in
12 Section 22.56.3080.

13
14 **22.56.3070 Effective date.**

15 The director's determination on a request for reasonable accommodation becomes final
16 30 days after mailing the notice of determination.

17
18 **22.56.3080 Expiration of reasonable accommodation.**

19 A. A reasonable accommodation which is not used within the time specified in such
20 notice of determination or, if no time is specified, within two years after the granting of the
21 reasonable accommodation, becomes null, void and of no effect at all:

22 1. That in all cases the hearing officer may extend such time for a period of not to
23 exceed one year, provided an application requesting such extension is filed prior to such
24 expiration date.

25 2. That, in the case of a reasonable accommodation filed and heard concurrently
26 with a land division, the hearing officer shall specify the limits and extensions to be concurrent
27 and consistent with those of the land division.

28 B. A reasonable accommodation shall be considered used, within the intent of this
29 section, when construction, development or use authorized by such reasonable accommodation
30 has commenced that would be prohibited in the zone if no accommodation had been granted.

31 C. A reasonable accommodation granted by action of the director or the commission,
32 shall automatically cease to be of any force and effect if the use for which such accommodation
33 was granted has ceased or has been suspended for a consecutive period of two or more years.

1 **22.56.3090 Covenant.**

2 A. The director may require the applicant to record, in the office of the county recorder,
3 an agreement that the reasonable accommodation granted will be maintained in accordance
4 with this Part as a covenant running with the land for the benefit of the County of Los Angeles.
5 The covenant shall also declare that any violation thereof shall be subject to the enforcement
6 procedures of Part 6 of Chapter 22.60.

7 B. The director may require a covenant, if:

8 1. The accommodation is physically integrated on the property and cannot
9 feasibly be removed or altered, and the structure would otherwise be subject to Part 10 of
10 22.56; or

11 2. The accommodation is temporary and required to be discontinued if no longer
12 maintained in compliance with this Part.

13 C. The director may terminate a covenant after making written findings that the lot or
14 parcel of land is in compliance with all applicable land use and zoning regulations.

15 D. The property owner is required to record the termination or release of any covenant
16 provided by this section.

17
18 **22.56.3100 Appeals.**

19 A. An appeal shall be made in writing, pursuant to the procedures established in Part 5
20 of 22.60.

21 B. All determinations on the appeal shall address and be based upon the same findings
22 required in accordance with 22.56.3040.

23 C. Decisions on an appeal shall be effective on the date of decision and no further
24 administrative appeals may be heard, except when provided by 22.56.3050.

Location: Countywide

Description of Project: A proposed ordinance amending Title 22 (Planning and Zoning) and Title 21 (Subdivisions) of the Los Angeles County Code related to reasonable accommodations for persons with disabilities. The proposed ordinance creates a discretionary administrative procedure for reasonable accommodation, which is defined as a waiver or modification to regulations, policies, procedures and standards that may be reasonable and necessary for a person with a disability to have an equal opportunity to use and enjoy a residential use, consistent with state and federal fair housing laws. The ordinance applies to all the unincorporated areas of Los Angeles County.

Gross Area: N/A

Environmental Setting: Countywide – Unincorporated Areas

Zoning: Requests for *reasonable accommodation* are permitted in conjunction with any residential use.

General Plan: Countywide

Community/Area Wide Plan: Countywide

DRAFT January 19, 2011

Environmental Finding:

FINAL DETERMINATION: On the basis of this Initial Study, the Department of Regional Planning finds that this project qualifies for the following environmental document:

NEGATIVE DECLARATION, inasmuch as the proposed project will not have a significant effect on the environment.

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was determined that this project will not exceed the established threshold criteria for any environmental/service factor and, as a result, will not have a significant effect on the physical environment.

MITIGATED NEGATIVE DECLARATION, inasmuch as the changes required for the project will reduce impacts to insignificant levels (see attached discussion and/or conditions).

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was originally determined that the proposed project may exceed established threshold criteria. The applicant has agreed to modification of the project so that it can now be determined that the project will not have a significant effect on the physical environment. The modification to mitigate this impact(s) is identified on the Project Changes/Conditions Form included as part of this Initial Study.

ENVIRONMENTAL IMPACT REPORT*, inasmuch as there is substantial evidence that the project may have a significant impact due to factors listed above as "significant."

At least one factor has been adequately analyzed in an earlier document pursuant to legal standards, and has been addressed by mitigation measures based on the earlier analysis as described on the attached sheets (see attached Form DRP/IA 101). The EIR is required to analyze only the factors not previously addressed.

HAZARDS - 1. Geotechnical

SETTING/IMPACTS

Yes No Maybe
a.

Is the project site located in an active or potentially active fault zone, Seismic Hazards Zone, or Alquist-Priolo Earthquake Fault Zone?

The proposed ordinance would not be expected to result in impacts from exposing people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving rupture of a known active fault zone, seismic hazard zone or Alquist-Priolo Earthquake Fault Zone. Although all of the unincorporated areas of Los Angeles County lie within a general region of known fault zones and seismic activity (per California Seismic Hazards maps, California Special Study Zones maps, Los Angeles County General Plan Safety Element Plate 1), the project is a discretionary procedure for requests for *reasonable accommodation* that may result in a modification to a policy, procedure, or standard in the General Plan and/or Zoning Code.

Future requests for *reasonable accommodation* are subject to the County's building code and may require the appropriate approvals from the Los Angeles County Department of Public Works, including a geotechnical report if located in a fault zone. In addition, all future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within an area with an active or potentially active fault zone, Seismic Hazards Zone, or Alquist-Priolo Earthquake Fault Zone, the project-level CEQA review would address the impacts, and mitigation, as defined in Public Resources Code Section 2693(c), may be required. Furthermore, future requests for reasonable accommodation are subject to the state law, which prohibits structures for human occupancy within 50 feet of an active fault trace, with the exception of individual single family residences and mobilehomes.

Nonetheless, the existence of known fault zones creates the potential for seismic hazards. The degree of seismic ground shaking would depend on the characteristics of the earthquake, including the generating fault, the distance to the epicenter, the magnitude of the earthquake, and the site-specific geologic conditions. Compliance with the California Building Code (CBC) includes the incorporation of seismic safety features, such as proper building footings and proper structure, and a registered engineer would review the project plans to ensure that all required earthquake safety measures are incorporated and the building design conforms to the CBC requirements. Such compliance with existing standards and requirements would ensure an adequate level of protection from seismic hazards. In addition, the proposed ordinance would not be expected to result in strong seismic ground shaking or associated impacts. Therefore, there would be no expected impacts from exposing people or structures to potential substantial adverse effects involving strong seismic ground shaking. Furthermore, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages, prohibits and regulates residential uses in active or potentially active fault zones, seismic hazards zones, and Alquist-Priolo Earthquake Fault Zones, it is unlikely that a reasonable accommodation will locate a project within any of these areas, or create significant impacts.

b.

Is the project site located in an area containing a major landslide(s)?

The proposed ordinance would not be expected to result in impacts from exposing people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving major landslides. While there are some unincorporated areas of Los Angeles County that contain landslides and are not suitable for development (per Los Angeles County General Plan Safety Element Plate 5), the proposed ordinance is a discretionary procedure and would not likely cause development to locate in such areas. Future requests for *reasonable accommodation* are subject to the County's building code and may require the appropriate approvals from the Los

Angeles County Department of Public Works. In addition, all future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within an area with high slope instability, project-level CEQA review would address the impacts, and mitigation, as defined in Public Resources Code Section 2693(c), would be required. However, a request for reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages and regulates residential uses in major landslide areas, it is unlikely that a reasonable accommodation, will locate a project within such an area, or create significant impacts.

- c.

Is the project site located in an area having high slope instability?

The proposed ordinance would not be expected to result in impacts to geology and soils in relation to location on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide or collapse. Although there are some unincorporated areas of Los Angeles County that have high slope instability and are not suitable for development, the project is a discretionary procedure and would not likely cause impacts. Future requests for reasonable accommodation are subject to the County's building code and may require the appropriate approvals from the Los Angeles County Department of Public Works. In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within an area with high slope instability, project-level CEQA review would address the impacts, and mitigation, as defined in Public Resources Code Section 2693(c), would be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program, and because the General Plan discourages development in, and regulates areas with high slope instability, through such mechanisms as the County's Hillside Management provisions, it is unlikely that a reasonable accommodation will locate a project within such an area, or create significant impacts.

- d.

Is the project site subject to high subsidence, high groundwater level, liquefaction, or hydrocompaction?

Although there are some unincorporated areas of Los Angeles County that contain high subsidence, high groundwater level, liquefaction, or hydrocompaction, and may not be suitable for development (per Los Angeles County General Plan Safety Element Plates 3 and 4), the proposed ordinance would not be expected to result in impacts from exposing people or structures to potential adverse effects, including the risk of loss, injury or death involving high subsidence, high groundwater level, liquefaction, or hydrocompaction. Future requests for reasonable accommodation are subject to the County's building code and may require the appropriate approvals from the Los Angeles County Department of Public Works. In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within an area where historic occurrence of liquefaction, or local geological, geotechnical, and groundwater conditions, indicate a potential for permanent ground displacements, project-level CEQA review would address the impacts, and mitigation as defined in Public Resources Code Section 2693(c), would be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan regulates areas subject to high subsidence, high groundwater level, liquefaction and hydrocompaction, a reasonable accommodation is not likely to locate a project in any of these areas or create significant impacts.

- e.

Is the proposed project considered a sensitive use (school, hospital, public assembly site) located in close proximity to a significant geotechnical hazard?

The proposed ordinance would not be expected to result in the location of sensitive uses in close proximity to a significant geologic hazard. Reasonable accommodations are associated with residential uses, which are considered sensitive uses. A reasonable accommodation cannot

fundamentally alter the nature of the land use and zoning program and as the General Plan regulates geotechnical hazards, a reasonable accommodation is not likely to locate a project in proximity to a significant geotechnical hazards, or create significant impacts. In addition, future requests for *reasonable accommodation* are subject to the County's building code and may require the appropriate approvals from the Los Angeles County Department of Public Works. In addition, all future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant geotechnical hazard, project-level CEQA review would address the impacts, and mitigation as defined in Public Resources Code Section 2693(c), may be required.

- f. Will the project entail substantial grading and/or alteration of topography including slopes of more than 25%?

The proposed ordinance would not be expected to result in significant impacts from development that entails substantial grading and/or alteration of topography. There are some unincorporated areas of Los Angeles County that have high slope instability and are not suitable for development. Future requests for *reasonable accommodation* are subject to the County's building code and may require the appropriate approvals from the Los Angeles County Department of Public Works. In addition, all future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would entail substantial grading and/or alteration of topography including slopes of more than 25 percent, project-level CEQA review would address the impacts, and mitigation as defined in Public Resources Code Section 2693(c), may be required. Furthermore, it should be noted that a *reasonable accommodation* cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages and regulates substantial grading and/or alteration of topography, including the County's Hillside Management provisions, a *reasonable accommodation* is not likely to result in substantial grading and/or alteration of topography, or create significant impacts.

- g. Would the project be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?

The proposed ordinance would not be expected to result in impacts from developments located on expansive soil. While there are some unincorporated areas of Los Angeles County that contain expansive soil, the proposed ordinance creates a discretionary procedure and would not be expected to result in impacts to geology and soils in relation to location on expansive soil creating substantial risks to life or property. Future requests for *reasonable accommodation* are subject to the County's building code and may require the appropriate approvals from the Los Angeles County Department of Public Works. In addition, all future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code, project-level CEQA review would address the impacts, and mitigation as defined in Public Resources Code Section 2693(c), may be required. Furthermore, a *reasonable accommodation* cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages risks to life and property, a *reasonable accommodation* in and of itself would not locate a project on expansive, or create significant impacts.

- h. Other factors? _____

STANDARD CODE REQUIREMENTS

Building Ordinance No. 2225 C Sections 308B, 309, 310 and 311 and Chapters 29 and 70.

DRAFT January 19, 2011

MITIGATION MEASURES / OTHER CONSIDERATIONS
 Lot Size Project Design Approval of Geotechnical Report by DPW

The above analysis is undertaken to determine if the proposed ordinance may have a significant impact to geology and soils, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to geology and soils in the area subject to the proposed ordinance was evaluated with regard to the California Geological Survey Seismic Hazard Zone Report for the U.S. Geological Survey (USGS) topographic quadrangle maps; the County of Los Angeles General Plan; and most recent Alquist-Priolo Earthquake Fault Zoning (APEFZ) Maps.

The analysis concludes that the proposed ordinance will not result in significant impacts on geology and soils that would create hazards from exposing people or structures to potential substantial adverse effects, including the risk of loss, injury, or death. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a *reasonable accommodation* will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant geotechnical hazard, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for *reasonable accommodation* are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

DRAFT January 19, 2011

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by, **geotechnical** factors?

Potentially significant Less than significant with project mitigation Less than significant/No impact

HAZARDS - 2. Flood

SETTING/IMPACTS

- | | Yes | No | Maybe | |
|----|--------------------------|--------------------------|-------------------------------------|--|
| a. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <p>Is a major drainage course, as identified on USGS quad sheets by a dashed line, located on the project site?</p> <p><u>While, there are major drainage courses located within the unincorporated areas of Los Angeles County (per USGS maps), the proposed ordinance would not be expected to result in impacts to major drainage courses in a manner that would result in flooding on site or off site. The project is a discretionary procedure for requests for <i>reasonable accommodation</i> for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and/or Zoning Code. Future requests for <i>reasonable accommodation</i> are subject to the County's building code and floodway provisions, as applicable, and may require the appropriate approvals from the Los Angeles County Department of Public Works. In addition, all future requests for <i>reasonable accommodation</i> are subject to project-level CEQA review, as applicable. Therefore, if a <i>reasonable accommodation</i> would be located within a major drainage course, the project-level CEQA review would address the impacts, and mitigation may be required. Furthermore, it should be noted that a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the siting of projects on major drainage courses, a reasonable accommodation is not likely to locate a project in such an area, or create significant impacts.</u></p> |
| b. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <p>Is the project site located within or does it contain a floodway, floodplain, or designated flood hazard zone?</p> <p><u>The proposed ordinance would not be expected to result in development being located within or be located in areas that contain a floodway, floodplain or designated flood hazard zone. There are some unincorporated areas of Los Angeles County that contain a floodway, floodplain, or designated flood hazard zone (per Los Angeles County General Plan Safety Element Plate 6). Future requests for <i>reasonable accommodation</i> are subject to the County's building code and floodway provisions, as applicable, and may require the appropriate approvals from the Los Angeles County Department of Public Works, as applicable. In addition, all future requests for <i>reasonable accommodation</i> are subject to project-level CEQA review, as applicable. Therefore, if a <i>reasonable accommodation</i> would be located in such an area, the project-level CEQA review would address the impacts, and mitigation may be required. Furthermore, it should be noted that a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan prohibits and discourages residential developments in floodways, floodplains, and flood zones, a reasonable accommodation is not likely to locate a project within any of these areas, or create significant impacts.</u></p> |
| c. | <input type="checkbox"/> | | <input checked="" type="checkbox"/> | <p>Is the project site located in or subject to high mudflow conditions?</p> <p><u>The proposed ordinance would not be expected to result in development being located in or subject to high mudflow conditions. While there are some unincorporated areas of Los Angeles County that are subject to high mudflow conditions, the proposed project is a discretionary procedure and would not likely result in significant impacts. Future requests for <i>reasonable accommodation</i> are subject to the County's building code and floodway provisions, as applicable, and may require the appropriate approvals from the Los Angeles County Department of Public Works, as applicable. In addition, all future requests for <i>reasonable</i></u></p> |

accommodation are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located in such an area, the project-level CEQA review would address the impacts, and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan and the County Code discourage residential developments in areas in or subject to high mudflow conditions, a reasonable accommodation is not likely to locate a project in such areas, or create significant impacts.

- d. Could the project contribute or be subject to high erosion and debris deposition from run off?

Although there are some portions of unincorporated Los Angeles County that are subject to high erosion and debris disposition from runoff, the proposed ordinance would not be expected to result in impacts to hydrology and water quality in relation to alteration of existing drainage patterns in a manner that would result in substantial erosion or siltation on- or off-site. Future requests for reasonable accommodation are subject to the County's building code and floodway provisions, as applicable, and may require the appropriate approvals from the Los Angeles County Department of Public Works, as applicable. In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located in such an area, the project-level CEQA review would address the impacts, and mitigation may be required. Furthermore, it should be noted that a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages development in areas with flood hazards, a reasonable accommodation is not likely to located a project in such an area or create significant impacts.

- e. Would the project substantially alter the existing drainage pattern of the site or area?

The proposed ordinance would not be expected to substantially alter the existing drainage pattern of a site or area subject to a request for reasonable accommodation. While there are some areas within unincorporated Los Angeles County where existing drainage patterns may be altered, the proposed project is a discretionary procedure and would not likely cause such impacts. Future requests for reasonable accommodation are subject to the County's building code and floodway provisions, as applicable, and may require the appropriate approvals from the Los Angeles County Department of Public Works, as applicable. In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located in such an area, the project-level CEQA review would address the impacts, and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the impacts associated with altering drainage patterns, a reasonable accommodation is not likely to facilitate a project that would substantially alter the existing drainage pattern of the site area

- f. Other factors (e.g., dam failure)? _____

STANDARD CODE REQUIREMENTS

- Building Ordinance No. 2225 C Section 308A Ordinance No. 12,114 (Floodways)
 Approval of Drainage Concept by DPW

- MITIGATION MEASURES / OTHER CONSIDERATIONS

DRAFT January 19, 2011

Lot Size Project Design

The potential for impacts related to hydrological and flood hazards in the area subject to the proposed ordinance was evaluated with regard to the applicable County of Los Angeles General Plan, State of California Regional Water Quality Control Board Basin Plan for the Los Angeles Regional Water Quality Control Board Los Angeles Basin Plan, National Flood Insurance Program Flood Insurance Rate Maps for the County of Los Angeles, and the U.S. Geological Survey (USGS) topographic quadrangle maps.

The analysis concludes that the proposed ordinance will not result in significant impacts to hydrology that would create hazards from exposing people or structures to potential substantial adverse effects, including the risk of loss, injury, or death due to flooding. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for reasonable accommodation that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health). Some projects will require approval of a drainage concept from the Department of Public Works. Furthermore, future requests for reasonable accommodation will be required to comply with County Code requirements for setbacks or other measures to avoid flood hazard impacts, as well as General Plan policies that discourage development in flood prone areas (per Los Angeles County General Plan Conservation and Open Space Element Policy 22).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

DRAFT January 19, 2011

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **flood (hydrological)** factors?

Potentially significant Less than significant with project mitigation Less than significant/No impact

HAZARDS - 3. Fire

SETTING/IMPACTS

Yes No Maybe

- a. Yes No Maybe

Is the project site located in a Very High Fire Hazard Severity Zone (Fire Zone 4)?
The proposed ordinance would not be expected to allow for new development to locate in a Very High Fire Hazard Severity Zone (Fire Zone 4). While there are some unincorporated areas of Los Angeles County that are located in Very High Fire Hazard Severity Zones (Fire Zone 4, per Los Angeles County General Plan Safety Element Plate 7), the project is a discretionary procedure that will not likely result in such impacts. Future requests for reasonable accommodation are subject to the County's Fire Code and require the appropriate approvals, including clearance prior to occupancy, from the Los Angeles County Fire Department, as applicable. Requests for reasonable accommodation that are located in Very High Fire Hazard Severity Zones may require additional review by the Fire Department (Source: Los Angeles County Fire Department). In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located in such an area, the project-level CEQA review would address the impacts, and mitigation may be required. Furthermore, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages residential uses in fire hazard areas, a reasonable accommodation is not likely to locate a project within a Very High Fire Hazard Severity Zone (Fire Zone 4), or create significant impacts.

- b. Yes No Maybe

Is the project site in a high fire hazard area and served by inadequate access due to lengths, widths, surface materials, turnarounds or grade?
The proposed ordinance would not be expected to allow for development in a high fire hazard area that is served by inadequate access due to lengths, widths, surface materials, turnarounds or grades. There are some unincorporated areas of Los Angeles County that are located in Very High Fire Hazard Severity Zones (Fire Zone 4, per Los Angeles County General Plan Safety Element Plate 7). Access issues identified in association with future requests for reasonable accommodation will be addressed during the Department of Public Works and the Fire Department's review and permit approval process. In addition, Fire Department clearance may be required prior to occupancy (Source: Los Angeles County Fire Department). In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located in such an area, the project-level CEQA review would address the impacts, and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages fire hazards, such as inadequate access, a reasonable accommodation is not likely to locate a project in such an area or create significant impacts.

- c. Yes No Maybe

Does the project site have more than 75 dwelling units on a single access in a high fire hazard area?
The proposed ordinance would not be expected to result in more than 75 dwelling units on a single access in a high fire hazard area. The project is a discretionary procedure for requests for reasonable accommodation for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Because a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages residential developments in fire hazard areas and inadequate access, a reasonable accommodation is not

likely to locate a project in such an area or create significant impacts.

- d. Is the project site located in an area having inadequate water and pressure to meet fire flow standards?

Although there are unincorporated areas with inadequate water and pressure to meet fire hazard conditions, the proposed ordinance would not be expected to result in such development. Future requests for reasonable accommodation are subject to the County's Fire Code and may require the appropriate approvals from the Los Angeles County Fire Department. In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation is located in such an area, the project-level CEQA review would address the impacts, and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages projects that would place people and property at risk of fire hazards, the granting of a reasonable accommodation is not likely to facilitate a project with inadequate water and pressure to meet fire flow standards.

- e. Is the project site located in close proximity to potential dangerous fire hazard conditions/uses (such as refineries, flammables, explosives manufacturing)?

Although there are unincorporated areas in close proximity to potential dangerous fire hazard conditions, the proposed ordinance would not be expected to result in such development. Future requests for reasonable accommodation are subject to the County's Fire Code and may require the appropriate approvals from the Los Angeles County Fire Department. In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation is located in such an area, the project-level CEQA review would address the impacts, and mitigation may be required. Furthermore, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the impacts associated with locating a project in close proximity to potentially dangerous fire hazard conditions, the granting of a reasonable accommodation is not likely to locate a project in such areas or create significant impacts.

- f. Does the proposed use constitute a potentially dangerous fire hazard?

Because a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages potentially dangerous fire hazard conditions, the granting of a reasonable accommodation is not likely to locate a project in such areas or create significant impacts. Therefore, a reasonable accommodation would not constitute a fire hazard.

- g. Other factors? _____

STANDARD CODE REQUIREMENTS

- Water Ordinance No. 7834 Fire Ordinance No. 2947 Fire Regulation No. 8
- Fuel Modification/Landscape Plan

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Project Design Compatible Use

The above analysis is undertaken to determine if the proposed ordinance to establish a reasonable accommodation

DRAFT January 19, 2011

procedure may have a significant impact related to fire hazards, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. Fires are natural and man-made threats that can pose a substantial or potential hazard to human health or the environment when improperly managed. Fires may be caused by reactive or ignitable hazardous wastes that appear on special Environmental Protection Agency (EPA) lists. The potential for the impacts related to fire hazards in the area subject to the proposed ordinance was evaluated based on expert opinion supported by facts, review of environmental databases, and the County of Los Angeles General Plan.

The analysis concludes that the proposed ordinance will not result in significant impacts to the environment that would create hazards from exposing people or structures to potential substantial adverse effects, including the risk of loss, injury, or death due to fires. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a *reasonable accommodation* will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a *reasonable accommodation*.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for *reasonable accommodation* are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **fire hazard** factors?

DRAFT January 19, 2011

Potentially significant Less than significant with project mitigation Less than significant/No impact

HAZARDS - 4. Noise

SETTING/IMPACTS

Yes No Maybe

- a. Is the project site located near a high noise source (airports, railroads, freeways, industry)?

While it is possible that projects could be located near excessive noise levels if they are located near existing noise sources, such as freeways, railroads, raceways, airports, or industrial operations, the proposed ordinance would not be expected to locate development near a high noise source. The project is an ordinance to provide a discretionary procedure for requests for *reasonable accommodation* for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Future requests for *reasonable accommodation* are subject to the County's building code and noise ordinance and may require approvals from the Los Angeles County Department of Public Works and Department of Public Health (Environmental Health), as applicable. In addition, all future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, if a CEQA review indicates that a particular *reasonable accommodation* would be located in such an area, the project-level CEQA review would address the impacts, and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects sensitive uses from high noise sources, a reasonable accommodation is not likely to locate a residential project near a high noise source, or create significant impacts.

- b. Is the proposed use considered sensitive (school, hospital, senior citizen facility) or are there other sensitive uses in close proximity?

Reasonable accommodations are associated with residential uses and can be located in proximity to sensitive uses. Future requests for *reasonable accommodation* are subject to the County's building code and noise ordinance and may require the appropriate approvals from the Los Angeles County Department of Public Works, and Department of Public Health (Environmental Health), as applicable. In addition, all future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan and County Code regulate noise impacts on sensitive uses, a reasonable accommodation is not likely to create significant impacts to sensitive uses.

- c. Could the project substantially increase ambient noise levels including those associated with special equipment (such as amplified sound systems) or parking areas associated with the project?

Future requests for *reasonable accommodation* are expected to generate noise levels that are consistent with residential uses. Future requests for *reasonable accommodation* are subject to the County's building code and noise ordinance and may require the appropriate approvals from the Los Angeles County Department of Public Works, and Department of Public Health (Environmental Health), as applicable. In addition, all future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects sensitive uses against noise impacts, a reasonable

accommodation is not likely to substantially increase ambient noise levels including those associated with special equipment such as amplified sounds systems, or parking areas associated with the project.

- d. Would the project result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels without the project?

Although it is possible that construction noise would be generated during the construction of development associated with a reasonable accommodation, the proposed ordinance would not likely spur such development noise. Future requests for reasonable accommodation are subject to the County’s building code and noise ordinance and may require approvals from the Los Angeles County Department of Public Works, and Department of Public Health (Environmental Health), as applicable. In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects against noise impacts, a reasonable accommodation is not likely to result in a project that has a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels without the project.

- e. Other factors? _____

STANDARD CODE REQUIREMENTS

- Noise Ordinance No. 11,778 Building Ordinance No. 2225--Chapter 35

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Lot Size Project Design Compatible Use

The above analysis is undertaken to determine if the proposed ordinance to establish a reasonable accommodation procedure may have a significant impact related to noise, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to noise in the area subject to the proposed ordinance was evaluated with regard to the County of Los Angeles General Plan and the County Noise Control Ordinance (Ordinances 11778 and 11773).

The analysis concludes that the proposed ordinance will not result in significant impacts to the environment that would create hazards from exposing people or structures to potential increased noise levels and/or vibration. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County’s and other local jurisdictions’ experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for reasonable accommodation that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are

exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health). In addition, future requests for reasonable accommodations will be required to meet current noise standards and comply with the County Noise Ordinance. Developments associated with requests for reasonable accommodation that are subject to project-level environmental review and located near uses that produce 45 decibels or greater could incorporate sound attenuation measures, such as the installation of sound walls, to protect occupants from these noise impacts.

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by **noise**?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 1. Water Quality

SETTING/IMPACTS

Yes No Maybe

- a. Is the project site located in an area having known water quality problems and proposing the use of individual water wells?

There are unincorporated areas that are known to have water quality problems. Future requests for *reasonable accommodation* may be located in areas that require the use of individual water wells. The project is a proposed amendment to the zoning code to provide a discretionary procedure for requests for *reasonable accommodation* for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Projects facilitated by the ordinance are subject to County health and plumbing provisions, and require the appropriate permits and approvals issued by the County Department of Public Health (Environmental Health), Regional Planning and Public Works, as applicable. In addition, all future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the impacts associated with locating projects in areas with known water quality problems and the use of individual water wells, a reasonable accommodation is not likely to locate a project in such areas, or create significant impacts.

- b. Will the proposed project require the use of a private sewage disposal system?

There are unincorporated areas that are known to require private sewage systems. Requests for *reasonable accommodation* may be located in areas served by private onsite sewage disposal systems. Future requests for *reasonable accommodation* are subject to County health and plumbing provisions, and require the appropriate permits and approvals issued by the County Department of Public Health (Environmental Health) and Public Works, as applicable. In addition, all future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan, a reasonable accommodation is not likely to facilitate the impacts associated the use of a private sewage disposal system.

- If the answer is yes, is the project site located in an area having known septic tank limitations due to high groundwater or other geotechnical limitations *or* is the project proposing on-site systems located in close proximity to a drainage course?

There are unincorporated areas that are known to have septic tank limitations. Requests for *reasonable accommodation* may be located in or in proximity to these areas. Future requests for *reasonable accommodation* are be subject to County health and plumbing provisions, and require the appropriate permits and approvals issued by the County Department of Public Health (Environmental Health) and Public Works, as applicable. In addition, all future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed a through a project level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the impacts associated with private sewage systems in limited areas, a reasonable accommodation is not likely to locate a project in such an area, propose on-site systems located in close proximity to a drainage course, or create significant impacts.

DRAFT January 19, 2011

- c. Could the project's associated construction activities significantly impact the quality of groundwater and/or storm water runoff to the storm water conveyance system and/or receiving water bodies? Future requests for reasonable accommodation are subject to County National Pollutant Discharge Elimination System (NPDES) requirements, and may require the appropriate permits and approvals issued by the County Department of Public Health (Environmental Health) and Public Works, as well as the California Regional Water Quality Control Board (RWQCB), as applicable. In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages impacts to quality of groundwater and/or storm water runoff to the storm water conveyance system and/or receiving water bodies, the granting of a reasonable accommodation is not likely to facilitate construction activities that create such impacts.
- d. Could the project's post-development activities potentially degrade the quality of storm water runoff and/or could post-development non-storm water discharges contribute potential pollutants to the storm water conveyance system and/or receiving bodies? Future requests for reasonable accommodation are subject to County NPDES requirements, and require the appropriate permits and approvals issued by the County Department of Public Health (Environmental Health) and Public Works, as well as the RWQCB, as applicable. In addition, all future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages impacts that degrade the quality of stormwater runoff and/or pollute stormwater conveyance systems and receiving water bodies, a reasonable accommodation is not likely to facilitate activities to create such impacts.
- e. Other factors? _____

STANDARD CODE REQUIREMENTS

- Industrial Waste Permit Health Code Ordinance No. 7583, Chapter 5
 Plumbing Code Ordinance No. 2269 NPDES Permit Compliance (DPW)

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Lot Size Project Design

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact related to water quality, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to water quality in the area subject to the proposed ordinance was evaluated with regard to the applicable County of Los Angeles General Plan, State of California Regional Water Quality Control Board Basin Plan for the Los Angeles Regional Water Quality Control Board Los Angeles Basin Plan.

The analysis concludes that the proposed ordinance will not result in significant impacts to the environment that would create hazards from exposing people or structures to potential degraded water quality. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for reasonable accommodation that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by, **water quality** problems?

Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 2. Air Quality

SETTING/IMPACTS

Yes No Maybe

- a. Yes No Maybe

Will the proposed project exceed the State's criteria for regional significance (generally (a) 500 dwelling units for residential uses or (b) 40 gross acres, 650,000 square feet of floor area or 1,000 employees for nonresidential uses)?

The project is a proposed amendment to the zoning code to provide a discretionary procedure for requests for reasonable accommodation for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Given its limited scope, the ordinance is not likely to result in reasonable accommodation to facilitate projects that exceed the State's criteria for regional significance.

- b. Yes No Maybe

Is the proposal considered a sensitive use (schools, hospitals, parks) and located near a freeway or heavy industrial use?

Reasonable accommodation is associated with residential uses and can be located in proximity to sensitive uses. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the impacts associated with locating sensitive uses near freeways and heavy industrial uses, a reasonable accommodation is not likely to locate a project near a freeway or heavy industrial use, or create significant impacts.

- c. Yes No Maybe

Will the project increase local emissions to a significant extent due to increased traffic congestion or use of a parking structure, or exceed AQMD thresholds of potential significance?

Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the impacts associated with significantly increasing local emissions or exceeding AQMD thresholds, a reasonable accommodation is not likely to create such impacts.

- d. Yes No Maybe

Will the project generate or is the site in close proximity to sources which create obnoxious odors, dust, and/or hazardous emissions?

Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the impacts associated with generating or locating in close proximity to air pollution sources, a reasonable accommodation is not likely to create such impacts.

- e. Yes No Maybe

Would the project conflict with or obstruct implementation of the applicable air quality plan?

Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan is consistent with the goals of the South Coast Air Quality Management Plan, a reasonable accommodation is not likely to conflict with or obstruct the implementation of the South Coast Air Quality Management Plan.

DRAFT January 19, 2011

f. Would the project violate any air quality standard or contribute substantially to an existing or projected air quality violation?

Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the impacts associated with violating air quality standards or contributing significantly to existing/project air quality violations, a reasonable accommodation is not likely to violate any air quality standard or contribute substantially to an existing or projected air quality violation.

g. Would the project result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?

Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages the impacts associated with increasing air pollutants, a reasonable accommodation is not likely to result in a cumulatively considerable net increase of any criteria pollutant.

STANDARD CODE REQUIREMENTS

Health and Safety Code Section 40506

MITIGATION MEASURES / OTHER CONSIDERATIONS

Project Design

Air Quality Report

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact related to air quality, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to air quality in the area subject to the proposed ordinance was evaluated with regard to the County of Los Angeles (County) General Plan, the National Ambient Air Quality Standards (NAAQS), the California Ambient Air Quality Standards (CAAQS), and the Clean Air Act (CAA). Data on existing air quality in the South Coast Air Basin, in which the area affected by the proposed ordinance is located, is monitored by a network of air monitoring stations operated by the California Environmental Protection Agency (CalEPA), Air Resources Board (CARB) and the South Coast Air Quality Management District.

The analysis concludes that the proposed ordinance will not result in significant impacts to the environment that would create hazards from exposing people or structures to potential degraded air quality. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the

DRAFT January 19, 2011

construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by, **air quality**?

Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 3. Biota

SETTING/IMPACTS

Yes No Maybe

a.

Is the project site located within a Significant Ecological Area (SEA), SEA Buffer, or coastal Sensitive Environmental Resource (ESHA, etc.), or is the site relatively undisturbed and natural?

Although there are many areas within unincorporated Los Angeles County are relatively natural and undisturbed (Source: Los Angeles County SEA and ESHA maps), the proposed ordinance would not be expected to allow development in such areas. The project is a discretionary procedure for requests for *reasonable accommodation* for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Future requests for *reasonable accommodation* are be subject to the County environmental policies and require the appropriate permits and approvals issued by the County Department of Regional Planning, such as Oak Tree Permits, and SEATAC and ERB reviews, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA and other reviews, and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan prohibits, discourages and regulates environmentally sensitive areas, a reasonable accommodation is not likely to locate a project within a Significant Ecological Area (SEA), SEA Buffer or coastal Sensitive Environmental Resource Area (ESHA, etc.), nor is it likely to be located in a relatively undisturbed or natural area. (Source: Los Angeles County General Plan Land Use Element Policy 13 and Conservation and Open Space Element Policy 7). Furthermore, a reasonable accommodation is unlikely to create significant impacts.

b.

Will grading, fire clearance, or flood related improvements remove substantial natural habitat areas?

Future requests for *reasonable accommodation* will require the appropriate permits and approvals from the Department of Fire, Public Works, and Public Health (Environmental Health), as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourage impacts to natural habitat areas, a reasonable accommodation is not likely to result in grading, fire clearance or flood related improvements that will substantially remove these areas, or create significant impacts. (Source: Los Angeles County General Plan Conservation and Open Space Element Policy 12).

c.

Is a major drainage course located on the project site that is depicted on USGS quad sheets by a blue dashed line or that may contain a bed, channel, or bank of any perennial, intermittent or ephemeral river, stream or lake?

Although unincorporated Los Angeles County contains many areas with major drainage courses, the proposed ordinance would not likely locate development in such areas. (Source: USGS Quad Sheets). Future requests for *reasonable accommodation* are subject to the County environmental policies and may require the appropriate permits and

approvals issued by the County Department of Regional Planning, such as Oak Tree Permits, and SEATAC and ERB reviews, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages impacts such as projects that include a major drainage course or may contain a bed, channel, or bank of any perennial, intermittent or ephemeral river, stream or lake, a reasonable accommodation is not likely to locate a project on or near such areas, or create significant impacts. (Source: Los Angeles County General Plan Land Use Element Policy 13 and Conservation and Open Space Element Policy 7).

- d. Does the project site contain a major riparian or other sensitive habitat (e.g., coastal sage scrub, oak woodland, sycamore riparian woodland, wetland, etc.)? Unincorporated Los Angeles County contains many areas with major riparian and other sensitive habitats. Future requests for *reasonable accommodation* are subject to the County environmental policies and may require the appropriate permits and approvals issued by the County Department of Regional Planning, such as Oak Tree Permits, and SEATAC and ERB reviews, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and other reviews, and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects watersheds, streams, and riparian vegetation, a reasonable accommodation is not likely to locate a project in a major riparian or other sensitive habitat (e.g. coastal sage scrub, oak woodlands, sycamore riparian woodland, wetland, etc.), or create significant impacts. (Source: Los Angeles County General Plan Conservation and Open Space Element policy 12).

- e. Does the project site contain oak or other unique native trees (specify kinds of trees)? There are oaks and other unique native trees within the unincorporated areas of Los Angeles County. Future requests for *reasonable accommodation* are subject to the County environmental policies and may require the appropriate permits and approvals issued by the County Department of Regional Planning, such as Oak Tree Permits, and SEATAC and ERB reviews, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and other reviews, and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects oaks and native trees, a reasonable accommodation is not likely to create impacts to contain oak or other unique native trees.

- f. Is the project site habitat for any known sensitive species (federal or state listed endangered, etc.)? There are some unincorporated areas that contain sensitive species. Future requests for *reasonable accommodation* are subject to County environmental policies and require the appropriate permits and approvals issued by the County Department of Regional

Planning. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects natural habitats with sensitive species, a reasonable accommodation is not likely to locate a project in a habitat for any known sensitive species listed by the federal or state government, or create significant impacts.

g. Other factors (e.g., wildlife corridor, adjacent open space linkage)? _____

MITIGATION MEASURES / OTHER CONSIDERATIONS

Lot Size Project Design Oak Tree Permit ERB/SEATAC Review

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact related to biological resources, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to biological resources in the area subject to the proposed ordinance was evaluated with regard to the County of Los Angeles (County) General Plan; in coordination with resource agencies (U.S. Fish and Wildlife Service and California Department of Fish and Game); a query of the California Natural Diversity Database (CNDDDB); and a review of published and unpublished literature germane to the proposed ordinance.

The analysis concludes that the proposed ordinance will not result in significant impacts to biological resources. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County’s and other local jurisdictions’ experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a *reasonable accommodation* will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a *reasonable accommodation*.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future

DRAFT January 19, 2011

requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on **biotic resources**?

Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 4. Archaeological / Historical / Paleontological

SETTING/IMPACTS

Yes No Maybe

- a. Is the project site in or near an area containing known archaeological resources or containing features (drainage course, spring, knoll, rock outcroppings, or oak trees) which indicate potential archaeological sensitivity?
There are areas that contain known archeological resources or that contain features (drainage course, spring, knoll, rock outcroppings, or oak trees), which indicate potential archeological sensitivity within the unincorporated areas of Los Angeles County. The project is a proposed amendment to the zoning code to provide a discretionary procedure for requests for reasonable accommodation for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects areas of known archeological resources or areas that indicate potential archaeological sensitivity, a reasonable accommodation is not likely to locate a project in or near such an area, or create significant impacts.
- b. Does the project site contain rock formations indicating potential paleontological resources?
There are areas that contain rock formations indicating potential paleontological resources. Vasquez Rocks, which contains unique geological rock formations and is considered a cultural resource, is located in unincorporated Santa Clarita Valley and within a Very High Fire Hazard Severity Zone (Source: Preliminary Draft Santa Clarita Valley Area Plan, 2008). Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects areas with potential paleontological resources, a reasonable accommodation is not likely to locate a project in such an area, or create significant impacts.
- c. Does the project site contain known historic structures or sites?
There is an estimated 17 historical or cultural resource sites in unincorporated Los Angeles County (Source: LA County Draft General Plan). Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan, a reasonable accommodation is not likely to facilitate a project that contains known historic structures or sites, or create significant impacts.
- d. Would the project cause a substantial adverse change in the significance of a historical or archaeological resource as defined in 15064.5?
Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of

the land use and zoning program and as the General Plan protects historical and archaeological resources, a reasonable accommodation is not likely to cause a substantial adverse change in the significance of a historical or archeological resource as defined in 15064.5.

- e. Would the project directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?

Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects paleontological, geologic and other resources, a reasonable accommodation is not likely to directly or indirectly destroy a unique paleontological resource or site of unique geologic feature.

- f. Other factors? _____

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Lot Size Project Design Phase I Archaeology Report

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact related to cultural resources, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to cultural resources in the area subject to the proposed ordinance was evaluated with regard to the County of Los Angeles County General Plan, a review of the Directory of Historic Properties for Los Angeles County compiled by the Office of Historic Preservation, and a review of published literature germane to the proposed ordinance.

The analysis concludes that the proposed ordinance will not result in significant impacts to archaeological, historical or paleontological resources. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County’s and other local jurisdictions’ experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for reasonable accommodation that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a

DRAFT January 19, 2011

reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **archaeological, historical, or paleontological** resources?

Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 5.Mineral Resources

SETTING/IMPACTS

Yes No Maybe

- a. Yes No Maybe Would the project result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?

The proposed ordinance would not likely result in the loss of availability of a known mineral resource that would be of value to the region and state. The project is a proposed amendment to the zoning code to provide a discretionary procedure for requests for reasonable accommodation for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Future requests for reasonable accommodation are subject to County environmental and land use provisions and require the appropriate permits and approvals issued by the County Department of Regional Planning, and subject to the CA Surface Mining and Reclamation Act. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects mineral resources, the a reasonable accommodation is not likely to result in the loss of availability of a known mineral resources.

- b. Yes No Maybe Would the project result in the loss of availability of a locally important mineral resource discovery site delineated on a local general plan, specific plan or other land use plan?

The proposed ordinance would not likely result in the loss of availability of locally important mineral resource discovery site delineated on a local general plan, specific plan or other land use plan. Future requests for reasonable accommodation are subject to County environmental and land use provisions and require the appropriate permits and approvals issued by the County Department of Regional Planning, and subject to the CA Surface Mining and Reclamation Act. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects mineral resources, a reasonable accommodation is not likely to result in the loss of availability of a locally important mineral resource discovery site.

- c. Yes No Maybe Other factors? _____

MITIGATION MEASURES / OTHER CONSIDERATIONS

- Lot Size Project Design

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact related to cultural resources, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to mineral resources in the area subject to the proposed ordinance was evaluated with regard to California Geological Survey publications and the County of Los Angeles General Plan.

The analysis concludes that the proposed ordinance will not result in significant impacts to mineral resources. This is

DRAFT January 19, 2011

due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a *reasonable accommodation* will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a *reasonable accommodation*.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for *reasonable accommodation* are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health), as well as General Plan policies that protect known mineral resources reserves from encroachment of incompatible land uses (Source: Los Angeles County General Plan Land Use Element Policy 26).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **mineral** resources?

Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 6. Agriculture Resources

SETTING/IMPACTS

Yes No Maybe

- a. Would the project convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?

Although there are known unincorporated areas that include areas identified by the Farmland Mapping and Monitoring Program of the California Resources Agency, the proposed ordinance would not likely result in development in such areas. The project is a proposed amendment to the zoning code to provide a discretionary procedure for requests for reasonable accommodation for residential uses, and may result in the granting of a reasonable accommodation. Future requests for reasonable accommodation are subject to County environmental and land use provisions and require the appropriate permits and approvals issued by the County Department of Regional Planning, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects farmland from conversion to non-agricultural uses, a reasonable accommodation is not likely to convert Prime Farmland, Unique Farmland or Farmland of Statewide Importance to a non-agricultural use, or create significant impacts.

- b. Would the project conflict with existing zoning for agricultural use, or a Williamson Act contract?

Future requests for reasonable accommodation are subject to County environmental and land use provisions and require the appropriate permits and approvals issued by the County Department of Regional Planning, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program, a reasonable accommodation is not likely to conflict with the existing zoning. Furthermore, Los Angeles County does not participate in agricultural Williamson Act contracts (Source: California State Department of Conservation).

- c. Would the project involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?

Future requests for reasonable accommodation are subject to County environmental and land use provisions and require the appropriate permits and approvals issued by the County Department of Regional Planning, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects farmland from conversion to non-agricultural uses, the granting a reasonable accommodation is not likely to involve other changes in the existing environment which, due to their location and nature, could result in conversion of Farmland to non-agricultural use, or create significant impacts.

d. Other factors? _____

MITIGATION MEASURES / OTHER CONSIDERATIONS

Lot Size Project Design

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact related to cultural resources, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to agricultural resources in the area subject to the proposed ordinance was evaluated with regard to the California Department of Conservation (CDC) Farmland Mapping and Monitoring Program (FMMP) and the County of Los Angeles (County) General Plan.

The analysis concludes that the proposed ordinance will not result in significant impacts to agricultural resources. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for reasonable accommodation that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health), as well as General Plan policies that protect agricultural resources from encroachment of incompatible land uses (Source: Los Angeles County General Plan Land Use Element Policies 21, 22, 23).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless,

DRAFT January 19, 2011

the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **agriculture** resources?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 7. Visual Qualities

SETTING/IMPACTS

Yes No Maybe

- a. Yes No Maybe
Is the project site substantially visible from or will it obstruct views along a scenic highway (as shown on the Scenic Highway Element), or is it located within a scenic corridor or will it otherwise impact the viewshed?
The proposed ordinance would not be expected to result in impacts to scenic vistas, including views along a scenic highway or scenic corridor. A scenic vista is typically defined as a public view of highly valued visual and scenic resources such as urban skylines and distant mountain ranges, particularly from public vantage points. The diverse landscape of unincorporated Los Angeles County contains many scenic vistas, and including portions of Mulholland Highway, Las Virgenes Road, Malibu Canyon Road, and Angeles Crest Highway that are adopted Scenic Highways. However, the project is a discretionary procedure that is not likely to result in development that would impact these resources. The project is a proposed amendment to the zoning code to provide a discretionary procedure for requesting reasonable accommodation for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects visual resources, a reasonable accommodation is not likely to locate a project in an area that is substantially visible from, nor will it obstruct views along, a scenic highway, as shown in the Scenic Highway Element; nor is it likely to be located within a scenic corridor; nor will it likely otherwise impact the viewshed. In addition, a reasonable accommodation is not likely to create significant impacts.

- b. Yes No Maybe
Is the project substantially visible from or will it obstruct views from a regional riding or hiking trail?
The proposed ordinance would not be expected to result in impacts from developments that are substantially visible from or that will obstruct views from a regional riding or hiking trail. Trails are scenic and recreational resources that exist within the unincorporated areas of Los Angeles County. However, the proposed project is a discretionary procedure and is not likely to create impacts to these resources. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program, and as the General Plan protects viewsheds and visual resources, a reasonable accommodation is not likely to be located in an area that is substantially visible from, nor will it obstruct views from, a regional riding or hiking trail. In addition, a reasonable accommodation is not likely to create significant impacts.

- c. Yes No Maybe
Is the project site located in an undeveloped or undisturbed area, which contains unique aesthetic features?
The proposed ordinance would not be expected to result in impacts from development in undeveloped or undisturbed areas which contain unique aesthetic features. Although there are undeveloped or undisturbed areas throughout the unincorporated areas of Los Angeles County, the proposed project creates a discretionary procedure that would not likely result in

such development. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan, a reasonable accommodation is not likely to locate a project in an undeveloped or undisturbed area that contains unique aesthetic features, or create significant impacts.

- d. Is the proposed use out-of-character in comparison to adjacent uses because of height, bulk, or other features?

The proposed ordinance would not be expected to result in impacts from development that is out of character in comparison to adjacent uses because of height, bulk or other features. The proposed project creates a discretionary procedure that would not likely result in such development because future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program, the granting of a reasonable accommodation is not likely to be out of character in comparison to adjacent uses, because of height, bulk or other features, or create significant impacts.

- e. Is the project likely to create substantial sun shadow, light or glare problems?

The proposed ordinance would not be expected to create impacts from substantial sun shadow, light or glare problems. The proposed project creates a discretionary procedure for persons with disabilities to request waivers or exceptions to rules when necessary and reasonable, to ensure fair housing access. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program, the granting of a reasonable accommodation is not likely to create substantial sun shadow, light or glare problems, or create significant impacts.

- f. Other factors (e.g., grading or land form alteration): _____

- MITIGATION MEASURES** / **OTHER CONSIDERATIONS**
 Lot Size Project Design Visual Report Compatible Use

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact related to aesthetics or visual resources, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to visual resources and aesthetics in the area subject to the proposed ordinance was evaluated with regard to the County of Los Angeles General Plan and expert knowledge regarding the visual character of the area affected by the proposed ordinance.

The analysis concludes that the proposed ordinance will not result in significant impacts to aesthetics and visual resources. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for reasonable accommodation that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health). Future requests for reasonable accommodation must be consistent with General Plan policies that provide protection to lands of major scenic value and ensure compatibility of development (Source: Los Angeles County General Plan)

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on **scenic** qualities?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 1. Traffic/Access

SETTING/IMPACTS

In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan, the granting of a reasonable accommodation is not likely to result in parking problems with a subsequent impact on traffic conditions.</u></p> |
| d. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <p>Will inadequate access during an emergency (other than fire hazards) result in problems for emergency vehicles or residents/employees in the area?</p> <p><u>The proposed ordinance would not be expected to result in or be located in areas that have inadequate access during an emergency that would result in problems for emergency vehicles. Future requests for reasonable accommodation are subject to County environmental and land use provisions and require the appropriate permits and approvals issued by the County Departments of Regional Planning, Fire Department, and Public Works,</u></p> |

as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages inadequate emergency access, a reasonable accommodation is not likely to result in inadequate access during an emergency for emergency vehicles or residents/employees in the area, or create significant impacts.

- e. Will the congestion management program (CMP) Transportation Impact Analysis thresholds of 50 peak hour vehicles added by project traffic to a CMP highway system intersection or 150 peak hour trips added by project traffic to a mainline freeway link be exceeded?

The proposed ordinance would not be expected to generate a significant number of increased trips. The proposed ordinance creates a discretionary procedure, and would not likely result in increased trip generation. Future requests for reasonable accommodation are subject to County environmental and land use provisions and require the appropriate permits and approvals issued by the County Departments of Regional Planning and Public Works, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages poor circulation, a reasonable accommodation is not likely to exceed thresholds outlined in the congestion management program (CMP), or create significant impacts.

- f. Would the project conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?

The proposed ordinance would not be expected to conflict with adopted policies, plans or programs supporting alternative transportation. The proposed ordinance establishes a discretionary procedure through which any impacts could be evaluated. Future requests for reasonable accommodation are subject to County environmental and land use provisions and require the appropriate permits and approvals issued by the County Departments of Regional Planning and Public Works, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program, a reasonable accommodation is not likely to conflict with adopted policies, plans or programs supporting alternative transportation.

- g. Other factors? _____

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

Project Design Traffic Report Consultation with Traffic & Lighting Division

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact related to traffic and access, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to transportation and traffic in the area subject to the proposed ordinance was evaluated with regard to the County of Los Angeles (County) General Plan and the adopted Congestion Management Program (CMP).

The analysis concludes that the proposed ordinance will not result in significant impacts to transportation an traffic.

DRAFT January 19, 2011

This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a *reasonable accommodation* will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a *reasonable accommodation*.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for *reasonable accommodation* are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health), as well as General Plan policies that encourage efficient and adequate transportation and access.

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **traffic/access** factors?

Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 2. Sewage Disposal

SETTING/IMPACTS

Yes No Maybe

- a. If served by a community sewage system, could the project create capacity problems at the treatment plant?

The proposed ordinance would not likely create capacity problems at a sewage treatment plant. The project is a proposed amendment to the zoning code to provide a discretionary procedure for requests for *reasonable accommodation* for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Future requests for *reasonable accommodation* will require the appropriate permits and approvals from the County Departments of Health and Public Works, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan discourages such impacts, a reasonable accommodation is not likely to create capacity problems at a community treatment plant.

- b. Could the project create capacity problems in the sewer lines serving the project site?

The proposed ordinance would not likely result in capacity problems in sewer lines. Future requests for *reasonable accommodation* will require the appropriate permits and approvals from the County Departments of Health and Public Works, as applicable. In addition, future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan encourages adequate infrastructure, a reasonable accommodation is not likely to create capacity problems in the sewer lines serving a potential project site, or create significant impacts.

- c. Other factors? _____

STANDARD CODE REQUIREMENTS

- Sanitary Sewers and Industrial Waste Ordinance No. 6130
- Plumbing Code Ordinance No. 2269

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact on sewage disposal facilities, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to sewage disposal facilities in the area subject to the proposed ordinance was evaluated with regard to the California Integrated Waste Management Board Web site, the County of Los Angeles Draft Public Services and Facilities Element and the adopted County of Los Angeles (County) General Plan Safety Element.

The analysis concludes that the proposed ordinance will not result in significant impacts to sewage disposal

DRAFT January 19, 2011

facilities. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a *reasonable accommodation* will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a *reasonable accommodation*.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for *reasonable accommodation* are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health). Future requests for *reasonable accommodation* will be subject to all applicable County codes and policies, in addition to regulations per Title 25 CCR §784, 786, and 788, regarding sewage disposal, underground sewage tanks, and maintenance.

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **sewage disposal** facilities?

Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 3. Education

| a. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | Could the project create capacity problems at the district level?
<u>The proposed ordinance would not be expected to create capacity problems at the district level. There are known capacity problems within some school districts in the unincorporated area. The project is a proposed amendment to the zoning code to provide a discretionary procedure for requests for reasonable accommodation for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan encourages adequate public facilities, a reasonable accommodation is not likely to create capacity problems at the district level.</u> |
| b. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | Could the project create capacity problems at individual schools which will serve the project site?
<u>The proposed ordinance would not be expected to result in any capacity problems at individual schools. The proposed ordinance establishes a discretionary procedure, and future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan encourages adequate public facilities, a reasonable accommodation is not likely to create capacity problems at individual schools.</u> |
| c. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | Could the project create student transportation problems?
<u>The proposed ordinance would not be expected to result in any student transportation problems. The proposed ordinance creates a discretionary procedure, and future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan encourages adequate public facilities and discourages poor circulation, a reasonable accommodation is not likely to create student transportation problems.</u> |
| d. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | Could the project create substantial library impacts due to increased population and demand?
<u>The proposed ordinance would not be expected to result in any substantial library impacts due to increased population and demand. The proposed ordinance creates a discretionary procedure, and future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan encourages adequate facilities, a reasonable accommodation is not likely to create substantial library impacts. In addition, due the scope of the ordinance, it is unlikely that a reasonable accommodation will result in a significant increase in population</u> |

and demand for library facilities.

e. Other factors? _____

MITIGATION MEASURES / OTHER CONSIDERATIONS

Site Dedication Government Code Section 65995 Library Facilities Mitigation Fee

The above analysis is undertaken to determine if the proposed ordinance to establish a discretionary procedure to grant reasonable accommodations may have a significant impact on educational facilities, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to education in the area subject to the proposed ordinance was evaluated based on review of the County of Los Angeles (County) General Plan and the County of Los Angeles web site.

The analysis concludes that the proposed ordinance will not result in significant impacts to educational facilities. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County’s and other local jurisdictions’ experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for reasonable accommodation that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health). Future requests for reasonable accommodation will be subject to all applicable County codes and policies, in addition to regulations per Title 25 CCR §784, 786, and 788, regarding sewage disposal, underground sewage tanks, and maintenance.

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable

DRAFT January 19, 2011

accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **educational** facilities/services?

Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 4. Fire/Sheriff Services

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

Fire Mitigation Fees

The above analysis is undertaken to determine if the proposed ordinance may have a significant impact to fire and sheriff services, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to public services in the area subject to the proposed ordinance was evaluated based on review of the County of Los Angeles (County) General Plan, the County of Los Angeles web site and expert interviews.

The analysis concludes that the proposed ordinance will not result in significant impacts on fire and sheriffs services that would create hazards from exposing people or structures to potential substantial adverse effects, including the risk of loss, injury, or death. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc.

DRAFT January 19, 2011

Requests for reasonable accommodation that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health).

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **fire/sheriff** services?

Potentially significant Less than significant with project mitigation Less than significant/No impact

STANDARD CODE REQUIREMENTS

- Plumbing Code Ordinance No. 2269
- Water Code Ordinance No. 7834

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Lot Size
- Project Design

The above analysis is undertaken to determine if the proposed ordinance may have a significant impact to utilities or other services, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to public services in the area subject to the proposed ordinance was evaluated based on review of the County of Los Angeles (County) General Plan, the County of Los Angeles web site and expert interviews.

The analysis concludes that the proposed ordinance will not result in significant impacts on utilities or other services. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for reasonable accommodation will be considered through a staff-level, administrative review. Based on research of the County’s and other local jurisdictions’ experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most reasonable accommodation requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for reasonable accommodation that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

DRAFT January 19, 2011

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for reasonable accommodations are subject to project-level CEQA review, as applicable. Therefore, if a reasonable accommodation would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for reasonable accommodation are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health), and regulations related to water quality, supply, and solid waste disposal per Title 25 CCR §770, §772, §774, and §742.

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **utilities/services**?

Potentially significant Less than significant with project mitigation Less than significant/No impact

The above analysis is undertaken to determine if the proposed to the zoning code may have a significant impact on the environment, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to public services in the area subject to the proposed ordinance was evaluated based on review of the County of Los Angeles (County) General Plan the County of Los Angeles web site, and expert interviews.

The analysis concludes that the proposed ordinance will not result in significant impacts on utilities or other services

DRAFT January 19, 2011

that would create hazards from exposing people or structures to potential substantial adverse effects, including the risk of loss, injury, or death. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for *reasonable accommodation* are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health), and regulations related to water quality, supply, and solid waste disposal per Title 25 CCR §770, §772, §774, and §742.

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to any of the above factors?

Potentially significant Less than significant with project mitigation Less than significant/No impact

OTHER FACTORS - 2. Environmental Safety

SETTING/IMPACTS

Yes No Maybe
a.

Are any hazardous materials used, transported, produced, handled, or stored on-site?

The proposed ordinance would not be expected to result in impacts from hazards and hazardous materials with respect to creating a significant hazard to the public or the environment through the transport, use, or disposal of hazardous materials. Hazardous wastes are by-products that can pose a substantial or potential hazard to human health or the environment when improperly managed. Hazardous wastes possess at least one of four characteristics (ignitability, corrosivity, reactivity, or toxicity), or appear on special Environmental Protection Agency (EPA) lists. Future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to discourage such activities in proximity to residential uses, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts. In addition, future requests for *reasonable accommodation* will require appropriate permits from the County Departments of Fire, Public Health (Environmental Health), and Public Works, as applicable.

b.

Are any pressurized tanks to be used or any hazardous wastes stored on-site?

The proposed ordinance would not be expected to result in impacts from pressurized tanks being used or any hazardous wastes being used on-site. Future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to discourage such activities in proximity to residential uses, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts. In addition, future requests for *reasonable accommodation* will require appropriate permits from the County Departments of Fire, Public Health (Environmental Health), and Public Works, as applicable.

c.

Are any residential units, schools, or hospitals located within 500 feet and potentially adversely affected?

The proposed ordinance would not be expected to result in impacts from residential units, schools, or hospitals located within 500 feet and potentially adversely affected with respect to creating a significant hazard to the public or the environment. Future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to discourage such activities in proximity to residential uses, schools and hospitals, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts. In addition, future requests for *reasonable accommodation* will require appropriate permits from the County Departments of Fire, Public Health (Environmental Health), and Public Works, as applicable.

d.

Have there been previous uses that indicate residual soil toxicity of the site or is the

site located within two miles downstream of a known groundwater contamination source within the same watershed?

The proposed ordinance would not be expected to result in locating a reasonable accommodation in areas with or within two miles downstream of a known groundwater contamination source within the same watershed. There are sites with soil toxicity problems and known groundwater contamination sources throughout the unincorporated areas of Los Angeles County. Future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to discourage such activities, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts. In addition, future requests for *reasonable accommodation* will require appropriate permits from the County Departments of Fire, Public Health (Environmental Health), and Public Works, as applicable.

e. Would the project create a significant hazard to the public or the environment involving the accidental release of hazardous materials into the environment?

The proposed ordinance would not be expected to result in impacts from hazards and hazardous materials with respect to creating a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous material. Future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, if any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to discourage such activities, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts. In addition, future requests for *reasonable accommodation* will require appropriate permits from the County Departments of Fire, Public Health (Environmental Health), and Public Works, as applicable.

f. Would the project emit hazardous emissions or handle hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?

The proposed ordinance would not be expected to result in impacts from hazards and hazardous materials with respect to the emission of hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within 0.25 mile of an existing or proposed school. Future requests for *reasonable accommodation* are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to discourage such development in such areas, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts. In addition, future requests for *reasonable accommodation* will require appropriate permits from the County Departments of Fire, Public Health (Environmental Health), and Public Works, as applicable.

g. Would the project be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would create a significant hazard to the public or environment?

The proposed ordinance would not be expected to result in impacts related to being located on a site that is included on a list of hazardous materials sites, creating a significant hazard to the public of the environment. According to the California Department of Toxic Substances Control, there are an estimated 694 sites in Los Angeles County that are either contaminated

or potentially contaminated (Source: EnviroStor). It is possible that reasonable accommodations may be associated with a residential use located these sites once site clean-up and the necessary site remediation are completed. Future requests for reasonable accommodation will require appropriate permits from the County Departments of Fire, Public Health (Environmental Health), and Public Works, as applicable. In addition, future requests for reasonable accommodations are subject to project-level CEQA, as applicable. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to discourage development in such areas, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts.

- h. Would the project result in a safety hazard for people in a project area located within an airport land use plan, within two miles of a public or public use airport, or within the vicinity of a private airstrip?

The proposed ordinance would not be expected to result in impacts from hazards and hazardous materials due to the area affected by the proposed policy being located in the vicinity of a private airstrip, resulting in the potential for safety hazards for people residing or working in the area affected by the proposed ordinance. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to discourage development in such areas, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts.

- i. Would the project impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?

The proposed ordinance would not be expected to result in impacts from hazards and hazardous materials from impairing the implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan. The proposed ordinance does not alter, reference, or provide guidance regarding the implementation of an emergency plan, nor would the ordinance allow reasonable accommodations to physically interfere with an emergency plan. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, if any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to encourage adequate emergency response, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts.

- j. Other factors? _____

MITIGATION MEASURES / **OTHER CONSIDERATIONS**
 Toxic Clean up Plan

The above analysis is undertaken to determine if the proposed ordinance may have a significant impact on environmental safety, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for the impacts related to hazards and hazardous materials in the area subject to the proposed ordinance were evaluated based on expert opinion supported by facts, review of environmental databases, and the County of Los Angeles

DRAFT January 19, 2011

(County) General Plan.

The analysis concludes that the proposed ordinance will not result in significant impacts on environmental safety that would create hazards from exposing people or structures to potential substantial adverse effects, including the risk of loss, injury, or death. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a reasonable accommodation will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a reasonable accommodation.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for *reasonable accommodation* are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health), and regulations related to water quality, supply, and solid waste disposal per Title 25 CCR §770, §772, §774, and §742.

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact relative to **public safety**?
 Potentially significant Less than significant with project mitigation Less than significant/No impact

OTHER FACTORS - 3. Land Use

SETTING/IMPACTS

Yes No Maybe

- a. Can the project be found to be inconsistent with the plan designation(s) of the subject property?

The proposed ordinance could not found to be inconsistent with the plan designation. The proposed ordinance is a program of the 2008 Housing Element of the General Plan. Future requests for reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program, which would include the General Plan.

- b. Can the project be found to be inconsistent with the zoning designation of the subject property?

The proposed ordinance would not be expected to allow for a reasonable accommodation that is inconsistent with a zoning designation. Future requests for reasonable accommodation are subject to project-level CEQA, as applicable. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program, a reasonable accommodation is not likely to be inconsistent with the zoning designation(s) of the subject property.

- c. Can the project be found to be inconsistent with the following applicable land use criteria:

Hillside Management Criteria?

SEA Conformance Criteria?

Other? N/A

- d. Would the project physically divide an established community?

The proposed ordinance would not be expected to result in impacts to land use and planning through the physical division of an established community. The proposed ordinance does not alter, reference, or provide guidance regarding the development of circulation elements that may affect a community's connectivity. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan contains policies to encourage neighborhood character, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts.

- e. Other factors? N/A

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

The above analysis is undertaken to determine if the proposed ordinance may have a significant impact on the land use, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to land use and

DRAFT January 19, 2011

planning in the area subject to the proposed ordinance was evaluated in light of the adopted published maps, adopted General Plan and Housing Element, and in coordination with U.S. Fish and Wildlife and California Department of Fish and Game, with regard to the applicable proposed or adopted land use plans and regulations.

The analysis concludes that the proposed ordinance will not result in significant impacts on land use. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a *reasonable accommodation* will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a *reasonable accommodation*.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for *reasonable accommodation* are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health), and regulations related to water quality, supply, and solid waste disposal per Title 25 CCR §770, §772, §774, and §742.

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **land use** factors?

Potentially significant Less than significant with project mitigation Less than significant/No impact

OTHER FACTORS - 4. Population/Housing/Employment/Recreation

SETTING/IMPACTS

Yes No Maybe

- a. Yes No Maybe
Could the project cumulatively exceed official regional or local population projections?
The proposed ordinance would not be expected to result in cumulative impacts to exceed regional or local population projections. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through a project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan is based on population projections, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts.
- b. Yes No Maybe
Could the project induce substantial direct or indirect growth in an area (e.g., through projects in an undeveloped area or extension of major infrastructure)?
The proposed ordinance would not be expected to induce direct or indirect growth in an area through for example, projects in an undeveloped area or extension of major infrastructure. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan is based on population projections, a reasonable accommodation is not to allow a project with these characteristics or create significant impacts.
- c. Yes No Maybe
Could the project displace existing housing, especially affordable housing?
The proposed ordinance would not be expected to displace existing housing, including affordable housing. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, it should be noted that a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan is based on population projections, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts.
- d. Yes No Maybe
Could the project result in a substantial job/housing imbalance or substantial increase in Vehicle Miles Traveled (VMT)?
The proposed ordinance would not be expected to result in a substantial jobs/housing imbalance or substantial increase in VMTs. Future requests for reasonable accommodation are subject to project-level CEQA review, as applicable. Therefore, any impacts related to the above would be addressed through project-level CEQA review and mitigation may be required. However, a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan official population projections, a reasonable accommodation is not likely to allow a project with these characteristics or create significant impacts. Due to the limited scope of the ordinance, it is unlikely that a reasonable accommodation will result in substantial job/housing imbalance or a substantial increase in VMT.
- e. Yes No Maybe
Could the project require new or expanded recreational facilities for future residents?
The proposed ordinance would not result in impacts to population and housing that would require new or expanded recreational facilities. The ordinance is limited to providing fair and equal access to residential uses, and is not related to recreational uses.

DRAFT January 19, 2011

- f. Would the project displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?
The proposed ordinance would not be expected to result in impacts to population and housing in relation to the displacement of substantial numbers of people, necessitating the construction of replacement housing elsewhere. The proposed ordinance would codify a reasonable accommodation procedure in compliance with the state and federal Fair Housing law. Due to the limited scope of the ordinance, a reasonable accommodation is not likely to result in the displacement of substantial numbers of people.
- g. Other factors? _____

MITIGATION MEASURES / OTHER CONSIDERATIONS

The above analysis is undertaken to determine if the proposed ordinance may have a significant impact on population, housing, employment or recreation, thus requiring the consideration of mitigation measures or alternatives, in accordance with Section 15063 of the State of California Environmental Quality Act (CEQA) Guidelines. The potential for impacts related to population and housing in the area subject to the proposed ordinance was evaluated with regard to state, regional, and local data and forecasts for population, employment and housing, and the anticipated incidence of reasonable accommodations, per empirical data from this and other local jurisdictions.

The analysis concludes that the proposed ordinance will not result in significant impacts on population, housing, employment or recreation. This is due to the following:

The ordinance is not likely to facilitate new development. The project is a proposed amendment to the zoning code to create a discretionary procedure for persons with disabilities to request reasonable accommodation, pursuant to state and federal Fair Housing laws. Requests for *reasonable accommodation* will be considered through a staff-level, administrative review. Based on research of the County's and other local jurisdictions' experience, the accommodations granted are likely to be modifications to standards or procedures that have no impact on the physical environment. Most *reasonable accommodation* requests are likely to be for the construction of alternative access for single family homes, such as wheel chair ramps, elevator shafts, etc. Requests for *reasonable accommodation* that meet the requirements of Section 15301 (Existing Facilities) or Section 15303 (New Construction or Conversion of Small Structures) of the Public Resources Code are exempt from project-level environmental review under the California Environmental Quality Act (CEQA).

The ordinance has limited applicability. A request for a *reasonable accommodation* will be approved or denied pursuant to the following findings: that the accommodation is necessary for a person with a disability to have fair and equal access to housing; that the request will not be a fundamental alteration to the nature of the land use and zoning program; and that the request does not result in an undue financial or administrative burden to the County. These findings ensure that existing policies and standards that minimize risks to life and property such as those outlined in the General Plan, are not fundamentally altered in order to grant a *reasonable accommodation*.

There are existing measures in place that limit any potential impacts. All future requests for *reasonable accommodations* are subject to project-level CEQA review, as applicable. Therefore, if a *reasonable accommodation* would be located within in close proximity to a significant hazard or create impacts, project-level CEQA review would address the impacts, and mitigation may be required. In addition, future requests for *reasonable accommodation* are subject to applicable County codes and policies, including approvals from the Los Angeles County Departments of Regional Planning, Public Works, Fire, and Public Health (Environmental Health), and regulations related to water quality, supply, and solid waste disposal per

DRAFT January 19, 2011

Title 25 CCR §770, §772, §774, and §742.

It is important to note that requests for reasonable accommodation are evaluated on a case-by-case basis. As such, the number, location, specific characteristics and environmental impacts of requests are unforeseeable. Nonetheless, the limited applicability and required findings, in addition to the fact that each request for reasonable accommodation will be subject to project-level CEQA review, minimize the potential for impacts on the physical environment.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **population, housing, employment, or recreational factors**?

Potentially significant Less than significant with project mitigation Less than significant/No impact

MANDATORY FINDINGS OF SIGNIFICANCE

Based on this Initial Study, the following findings are made:

- | | Yes | No | Maybe | |
|----|--------------------------|-------------------------------------|--------------------------|--|
| a. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?
<u>The project is a proposed amendment to the zoning code to provide a discretionary procedure for requests for reasonable accommodation for residential uses, and may result in the granting of a reasonable accommodation to a policy, procedure, or standard in the General Plan and Zoning Code. As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program, and as the General Plan protects natural habitats and environmentally sensitive areas, a reasonable accommodation is not likely to result in the substantial degradation of the quality of the environment, the substantial reduction of the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, nor eliminate important examples of the major periods of California history or prehistory.</u> |
| b. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Does the project have possible environmental effects which are individually limited but cumulatively considerable? "Cumulatively considerable" means that the incremental effects of an individual project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.
<u>Given the limited scope of the ordinance, and the findings required to grant a reasonable accommodation, it is unlikely that reasonable accommodations can result in cumulatively considerable environmental effects.</u> |
| c. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Will the environmental effects of the project cause substantial adverse effects on human beings, either directly or indirectly?
<u>As a reasonable accommodation cannot fundamentally alter the nature of the land use and zoning program and as the General Plan protects people from adverse impacts, a reasonable accommodation is not likely to have such impacts.</u> |

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the environment?

- Potentially significant Less than significant with project mitigation
 Less than significant/ No impact

DRAFT January 19, 2011

**COUNTY OF LOS ANGELES
DEPARTMENT OF REGIONAL PLANNING
320 WEST TEMPLE STREET
LOS ANGELES, CA 90012**

NEGATIVE DECLARATION

PROJECT NUMBER: R2010-00416
CASE: RADV T2010-000017

1. DESCRIPTION: The project is a proposed ordinance amending Title 22 (Planning and Zoning) and Title 21 (Subdivisions) of the Los Angeles County Code related to reasonable accommodations for persons with disabilities. The proposed ordinance creates a discretionary administrative procedure for reasonable accommodation, which is defined as a waiver or modification to regulations, policies, procedures and standards that may be reasonable and necessary for a person with a disability to have an equal opportunity to use and enjoy a residential use, consistent with state and federal fair housing laws.
2. LOCATION: All unincorporated areas of Los Angeles County
3. PROPONENT: Included as a program in the Los Angeles County Housing Element, which was adopted by the Board of Supervisors on August 5, 2008 and certified by the State Department of Housing and Community Development on November 6, 2008.
4. FINDINGS OF NO SIGNIFICANT IMPACTS: Based on the initial study, it has been determined that the project will not have a significant effect on the environment.
5. THE LOCATION AND CUSTODIAN OF THE RECORD OF PROCEEDINGS ON WHICH ADOPTION OF THIS NEGATIVE DECLARATION IS BASED:

Los Angeles County
Department of Regional Planning
320 West Temple Street
Los Angeles, CA 90012

PREPARED BY: Gretchen Siemers, AICP
Housing Section

DATE: January 19, 2011

**REGIONAL PLANNING COMMISSION
PUBLIC HEARING PROCEEDINGS**

**HEARINGS ON AMENDMENT TO TITLE 21 (SUBDIVISIONS) AND TITLE 22
(PLANNING AND ZONING) OF THE LOS ANGELES COUNTY CODE RELATED TO
REGIONAL ACCOMMODATIONS**

February 23, 2011:

The Regional Planning Commission conducted a public hearing to consider the Draft Reasonable Accommodation Ordinance and Negative Declaration. One member of the public testified in support of the Draft Ordinance. Nikki Viola, of Shelter Partnership, Inc., presented the Commission with a letter of support, and indicated that her organization had been working with Regional Planning to create a fair and useable procedure. Ms. Viola testified that all of her organization's concerns had been addressed, except that Shelter Partnership would prefer that the ordinance include an appeal procedure that is not a public hearing. In response, Regional Planning staff indicated that a closed appeal procedure is impractical and there is no legal precedent for such a procedure.

The Commission asked questions of staff regarding the applicability of the Draft Ordinance to Residential Facilities. Staff responded that a reasonable accommodation may be requested of any rule, policy practice or procedure, including the regulation of Residential Facilities.

The Commission had concerns about the tracking of reasonable accommodations, as well as how staff would verify an applicant's disability. Staff indicated that privacy laws prohibit inquiries into the nature or severity of a disability, but that a third party would be required to verify a disabled status. Hearing materials suggested that a disabled placard from the DMV be used as a verification of disability; the Commission was concerned about the potential misuse of such placards.

Staff discussed the covenant requirement that would help Regional Planning staff track or trace granted reasonable accommodations. The Commission had concerns related to how these covenants would appear in a title search on a particular property.

The Commission asked staff to report back on the following issues:

1. The evaluation of a reasonable accommodation request on the basis of financial viability;
2. Sources to verify disability, such as a physician verification of disability, in addition to Department of Motor Vehicles disability documentation;
3. Mechanisms to track reasonable accommodations that have been granted;
4. The protection of confidential medical information when recording covenants; and
5. The disclosure of a reasonable accommodation that has been granted in a title search.

The Commission continued the public hearing, and instructed the staff to return on April 27, 2011.

April 27, 2011: Due to unforeseen changes in Regional Planning Commission membership and agenda scheduling, staff recommended a continuance to May 25, 2011, which was granted. No members of the public testified in regard to the Draft Ordinance.

May 25, 2011: At the public hearing, staff addressed the Commission's concerns raised at the February 23, 2011 public hearing and outlined changes made to the Draft Ordinance.

Evaluation of Financial Viability

Staff discussed the broad nature of reasonable accommodation requests. In cases in which an applicant applies for an accommodation on the basis of financial viability, the applicant must establish through the provision of financial information that the requested accommodation is necessary by showing a causal link between the proposed accommodation and how it provides an equal opportunity for housing opportunities for the disabled applicant. However, the request would also be reviewed against the other reasonable accommodation findings, including that the request shall not fundamentally alter the nature of the land use and zoning program of the County. Although this nexus has been contemplated by the courts, there is no published case in the Ninth Circuit of the federal appellate courts that has found that an accommodation solely on the basis of financial viability to be necessary under the Fair Housing Act.

Verification of Disability

Staff indicated that, to address this concern, staff will add to the guidelines for processing reasonable accommodation requests and application materials that a verification of disability from an appropriate healthcare or rehabilitation professional is required, in addition to any government issued identification.

Mechanisms to Track Reasonable Accommodations

Staff indicated that the Draft Ordinance was revised to address this concern and to clarify the covenant provisions. Section 22.56.3090 of the Draft Ordinance now clearly specifies that there are two types of covenants. The first type of covenant is required when the accommodation is permanent and physically integrated into the property, and infeasible to remove when the accommodation is no longer necessary. The purpose of requiring this type of covenant is to disclose to future buyers that there is an accommodation associated with the property that may continue as a legal non-conforming use. The second type of covenant is required when the accommodation can be removed when no longer necessary. The purpose of requiring the second type of covenant is to disclose to future buyers that the property is no longer in compliance with the Reasonable Accommodation Ordinance, and that it is the property owner's responsibility to remove or discontinue the accommodation.

Staff indicated that the covenant compels a property owner to bring his/her property up to current zoning standards, upon sale or remodel, either through obtaining permits or removing the unnecessary accommodation. Additionally, the Draft Ordinance, as revised, requires that a property owner record a termination or release of the associated covenant.

Staff noted that a covenant would not be required in all cases. For example, if an applicant for a reasonable accommodation requests a procedural exception, a covenant would not need to be recorded against any real property.

Staff presented two sample covenants to illustrate when a covenant would specify that the accommodation be removed versus when this provision would not apply. Furthermore, to address this concern, staff will be including in the guidelines for processing reasonable accommodation requests, that the applicant should notify the Department when an accommodation is no longer necessary.

Protection of Confidential Information

Staff indicated that the Draft Ordinance was revised to no longer require the recordation of the findings. The covenant will no longer state the basis for the request, i.e. the applicant's disability. To ensure that the accommodation is provided to the intended recipient, the covenant will reference a reasonable accommodation case number associated with a file in which the findings and documentation are maintained and protected from public review.

Disclosure of Reasonable Accommodations in Title Search

Staff indicated that two local title companies, First American Title Company and Lawyers Title of Los Angeles, as well as with Department staff, were consulted. Each source confirmed that covenants placed on record for the benefit of the County, such as those required by the Draft Ordinance, would be identified in a standard title search.

Staff proposed the following changes to the Draft Ordinance to ensure consistency with the zoning code and to facilitate its implementation:

- Terms of expiration that specify that if an accommodation is not used within a specified time frame, it is null and void, unless a limited extension is granted. The terms of the expiration are the same as those for a conditional use permit.
- An effective date of thirty (30) days after the mailing date of the notice of determination on a request for a reasonable accommodation.

No members of the public testified in regard to the Draft Ordinance.

The Commission asked if the Draft Ordinance contains a specific time period to record the termination of the covenant, to which staff responded that there is no specific time period set forth in the Draft Ordinance.

The Regional Planning Commission approved the Draft Reasonable Accommodation Ordinance with staff's recommended changes, as well as the Draft Negative Declaration and recommended that the Board of Supervisors hold a public hearing to consider the Draft Ordinance and Draft Negative Declaration for approval.

**Re: Project: R2010-00416; Case No. RADV T2010-000017 –
Reasonable Accommodation Ordinance Hearing Date: February 23, 2011**

Dear Planning Commissioners:

Thank you for the opportunity to comment on the County's draft proposed fair housing reasonable accommodation ordinance. Shelter Partnership is dedicated to alleviating, preventing and ending homelessness by assisting in the development of short-term and transitional housing programs, affordable housing, and supportive services for the homeless and potentially homeless throughout Los Angeles County. It is estimated that nationwide at least half of the individuals who are homeless have at least one disability and within Los Angeles County the number of homeless individuals with disabilities is even higher.

The reasonable accommodation ordinance proposed today is based on the federal Fair Housing Amendments Act and California's Fair Employment and Housing Act, both of which impose an affirmative duty on cities and counties to provide reasonable accommodations in land use and zoning regulations, procedures and practices. Since 2001, California law has required that every city and county have a written procedure for making requests for reasonable accommodations to local land use and zoning regulations. The County's ordinance is intended to meet this longstanding requirement and we support approval of this ordinance with certain changes as set forth below. Most of the comments that are being provided have been previously discussed with Regional Planning staff in several meetings beginning at least two years ago.

Definition of "Residential Use"

Section 22.56.3020 defines "residential use" as "... any dwelling as defined by 42 U.S.C. 3602(b), as may be amended from time to time." The federal statutory provision referred to defines dwelling, not residential use:

(b) "Dwelling" means any building, structure, or portion thereof which is occupied as, or designed or intended for occupancy as, a residence by one or more families, and any vacant land which is offered for sale or lease for the construction or location thereon of any such building, structure, or portion thereof."

Referencing a federal statute without providing the language does not provide sufficient information to the public as to the actual meaning of a phrase. The use of this referenced definition is confusing for several reasons: it does not define "residential use" and the definition of "dwelling" may appear to be limiting application of the ordinance to dwellings occupied by families and exclude other types of occupancies. While we do not believe that this is what the County intended, an explicit statement of applicability to residential dwellings likely would provide clearer meaning to the reader.

No fee should be imposed for filing a request for reasonable accommodation or appeal.

The proposed ordinance is silent on the requirement of a fee for filing an initial application for reasonable accommodation or an appeal of a determination. There is concern that after the ordinance is passed, the County may require a fee. We urge the County to include in this ordinance a specific statement that no fee will be imposed for requesting or appealing a reasonable accommodation. The purpose of the reasonable accommodation procedure is to assist an individual with a disability or a developer of housing for persons with disabilities in overcoming a barrier to the use and enjoyment of housing as well as initial access to housing. The imposition of a fee is an impediment to using the procedure and in conflict with the County's affirmative duty to provide exceptions to the law. Furthermore, there is no justification for a fee where there is no costly public notice and public hearing process as in a conditional use permit or variance proceeding. The County's Comparison Matrix of Other Local Jurisdictions' Reasonable Accommodations Policies (Attachment 4) reports that only 24% of those jurisdictions surveyed impose a fee, recognizing that doing so would be a deterrent to using the fair housing procedure.

Appeals should be limited to the aggrieved applicant requesting an accommodation.

The reasonable accommodation procedure provides a method of addressing the unique needs of an individual with a disability to overcome a barrier to use and enjoy a dwelling. The determination requires an analysis of any zoning, land use, administrative or financial burden to the local government and legally there is no basis for considering the personal likes or dislikes of an individual who has no relation to the matter. Given the serious neighborhood opposition to housing for persons with disabilities, there is no justification for permitting appeals by other individuals. The proposed ordinance does not even limit appeal rights to abutting neighbors; anyone, without any relation to the property, could appeal the decision to grant an accommodation to an individual with a disability. Reasonable accommodation requests undergo sufficient scrutiny so this appeal right is unnecessary and it is adverse to civil rights laws and confidentiality and privacy protections. Section 22.56.3080 should specify that the right to appeal is limited to an aggrieved applicant.

Concurrent Reviews

When a request for reasonable accommodation is filed in conjunction with a permit, variance or other discretionary process, the hearing officer or commission may hear the matters concurrently. Section 22.56.3050. While we understand the importance of efficiency and cost savings, the public nature of other entitlement proceedings is in conflict with the reasonable accommodation procedure which recognizes the sensitive and confidential nature of decision-making related to disability issues. An individual with a disability seeking a request for reasonable accommodation is entitled to rely on the procedures established for seeking an exception or deviation from the code and should not be forced into a noticed public hearing procedure because several applications are made to the County. We request that this provision be deleted from the ordinance, noting that only half of the other jurisdictions surveyed have a concurrency requirement.

Appeals should be heard by a hearing officer pursuant to Section 22.60.010.

It is unclear from reading the proposed ordinance whether a hearing officer or the Planning Commission hears appeals from an initial reasonable accommodation decision. Section 22.60.010 provides the authority for a hearing officer to hear appeals. In addition to providing a more private setting, this appeal process would reduce administrative costs and provide for a more timely determination. The case law is clear that delays in reasonable accommodation decisions may be deemed denials.

Draft Reasonable Accommodation Form

There are several concerns with the draft application form. First, the application at Question 3 asks for the record owner and the "applicant/agent," but what is likely meant instead of agent is "representative." Second, while the ordinance properly sets forth the four factors of analysis for making a determination on a request for reasonable accommodation, the application form is flawed. The accommodation must be granted when Questions 5 and 8 are answered in the affirmative; the housing is for a person with a disability and the accommodation is necessary (reasonable), unless the County establishes a burden. Questions 9 and 10 set forth the burden analysis that is to be conducted by the County, not the applicant, and therefore both Questions 9 and 10 should be eliminated from the application form. There are also two numbering errors on this draft form.

The verification form requests the service or medical provider to verify that the person meets the definition of disability but this is a legal determination that cannot be rendered by these providers. The provider may indicate generally that the person has a disability and how the limitation necessitates an accommodation. We request that the County revise the verification form to address this concern.

We commend the County's commitment to adopting a fair housing reasonable accommodation procedure to further the development of critically needed housing for individuals with disabilities. We appreciate the Planning Commission's consideration of these comments and suggestions. Please contact Senior Project Manager, Nicky Viola, at 213-943-4584 or nviola@shelterpartnership.org or if you need any additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "Ruth Schwartz". The signature is written in a cursive style with a large initial "R" and a long, sweeping underline.

Ruth Schwartz
Executive Director

COUNTY OF LOS ANGELES

**NOTICE OF PUBLIC HEARING ON PROPOSED AMENDMENT TO TITLE 21 AND TITLE 22 OF THE
LOS ANGELES COUNTY CODE RELATED TO REASONABLE ACCOMMODATIONS**

NOTICE OF INTENT TO ADOPT A NEGATIVE DECLARATION

NOTICE IS HEREBY GIVEN that the Regional Planning Commission of the County of Los Angeles has recommended approval of the draft reasonable accommodation ordinance. The draft reasonable accommodation ordinance, which implements a program of the Los Angeles County Housing Element, amends Title 21 and Title 22 of the Los Angeles County Code to establish a procedure related to the granting of reasonable accommodations. The draft ordinance creates an administrative procedure for persons with disabilities to request reasonable accommodation from land use and zoning standards or procedures, when those standards or procedures are a barrier to equal access to residential uses, consistent with state and federal fair housing laws.

NOTICE IS ALSO HEREBY GIVEN that a public hearing will be held before the Board of Supervisors, Kenneth Hahn Hall of Administration, 500 West Temple Street, Los Angeles, California 90012 at **9:30 a.m. on August 30, 2011** pursuant to said Title 22 of the Los Angeles County Code and Title 7 of the California Government Code (Planning and Zoning Law) for the purpose of hearing testimony relative to the adoption of the above mentioned amendments and the supporting environmental document.

Written comments may be sent to the Executive Office of the Board of Supervisors in Room 383 at the above address. Project materials are available on the Department of Regional Planning website at http://planning.lacounty.gov//view/reasonable_accommodations. If you do not understand this notice or would like more information, please contact Gretchen Siemers of the Housing/General Plan Section at (213) 974-6417 or gsiemers@planning.lacounty.gov.

Pursuant to the California Environmental Quality Act and County Guidelines, a Negative Declaration has been prepared that shows that the proposed ordinance will not have a significant effect on the environment.

ADA ACCOMMODATIONS: If you require reasonable accommodations or auxiliary aid and services such as material in alternate format or a sign language interpreter, please contact the Americans with Disabilities Act Coordinator at (213) 974-6488 (Voice) or (213) 617-2292 (TDD), with at least three business days notice.

Si no entiende esta noticia o necesita mas información, por favor llame este numero: (213) 974-6417.
