Dear Sir or Madam,

THIS YEAR OUR NURSERY IS CELEBRATING ITS 35TH ANNIVERSARY. On this occasion we would like to express gratitude to our clients and associates. Together we contribute to improvement of our environment, which becomes healthier and more beautiful just because of the presence of plants.

We would like to present you the 32nd wholesale price list of plants produced in our Nursery. This year's price list includes over 300 plants offered by our company for the first time. Many of them are presented for the first time on the Polish nursery market.

We recommend to pay special attention to original English roses of David Austin. Each of them has a certificate, a colorful label and an attractive flowerpot. *Proven Winners* blooming shrubs also enjoy huge popularity. They are sold with license labels, in colorful pots. New varieties of *Chaenomeles* with uniquely large, semi-double flowers resembling flowers of *Camellia* (*Chaenomeles* × *superba*, varieties: 'Mango Storm'^{PBR}, 'Orange Storm'^{PBR}, 'Pink Storm'^{PBR}, 'Scarlet Storm'^{PBR}) are available. We have again extended our assortment of perennials.

We are proud of the fact that *Salix gracilistyla* 'Mt Aso' proposed by our Nursery was awarded a silver medal in the Plant Novelty Competition during the last year's *Green is Life* exhibition. It was also appreciated during the *Flowers Expo* Moscow exhibition, where it was awarded a gold medal.

We are especially pleased with honorable mention by an international group of journalists of horticultural magazines aimed at a broad spectrum of recipients. They recognized *Salix gracilistyla* 'Mt Aso' reported by us the most interesting novelty of the last year's season.

We hope that in the catalogue you will find plenty of interesting positions and that you will be satisfied with the quality of plants offered by us. We encourage plants lovers to visit our Nursery and the display garden. You are invited to visit www.szmit.pl and www.encyklopediaDrzew.pl web pages, and our Facebook profile facebook.com/SzkolkaSzmit.

This year you are invited to visit our stands at the following international exhibitions:

📅 **Green in Life**, Warsaw, 31 August – 02 September 2017

📅 **Flowers Expo**, Moscow, 12–14 September 2017

📅 **Elmia Garden**, Jönköping, Sweden, 04–05 October 2017

Selling conditions

Prices provided for in our offer are wholesale net prices applicable for garden shops and garden centers, landscape architects, companies managing green areas, plant nurseries and other persons professionally involved in the plant business. We add value added tax (VAT) to our prices. VAT rate is 8% this year.

Clients making a purchase of significant value at a time are offered additional discounts.

Our regular clients are entitled to pay by transfer.

Transport

The Nursery has its own means of transport and offers deliveries of plants to any place in Poland, under conditions agreed each time with a client.

Orders

Please send orders to our e-mail address: szmit@szmit.pl or fax no.: +48 23 672 36 27.

Bigger orders are completed within 2–7 working days.

We realize orders for soil-grown plants from 01 September.

Export

We are highly experienced in export of plants and we are fully prepared for it.

Individual sale

You can purchase all plants included in our price list as well as many other plants at our retail outlet located within the Nursery premises, open in season from Monday to Friday from 7 a.m. to 6 p.m. and on Saturdays from 7 a.m. to 3 p.m.

Retail prices, approximately 20–50% higher than the wholesale prices, apply in the case of retail sale.

Sale through mail-order is not available.

By the nursery one can find a show garden with
a unique collection of over

6000

SPECIES AND VARIETIES

of woody plants and perennials suitable for
cultivation in our climate zone. For that reason
our nursery is visited by many pupils, students,
professionals and plant enthusiasts, both those
living in Poland and abroad.
