## Intrinsic Perennial Gardens — 25 Years of Highlights

History	
1992	Started selling perennials
1994	Built a 3,000 sq. ft. heated greenhouse
1996	Constructed a 4,500 sq. ft. production building with office
1997	Introduced our first selection Penstemon digitalis Pink Dawn
1998	Published first descriptive wholesale catalog
1999	Built a 3,000 sq. ft. gutter connected greenhouse adjacent to our production building
2000	Fully-automated irrigation system
2000	Developed a website
2002	Hosted the PPA growers tour
2003	Received our first plant patent #14,421, for Sedum x 'Lajos' <i>Autumn Charm</i> <sup>TM</sup>
2004	Reached 1 million in sales
2005	Doubled our office space
2006	Received our first royalty check
2008	Doubled our greenroof sales
2009	Establish Sedum cutting beds in order to sell Sedum by the pound and our breeding work was highlighted in <i>Nursery Manager Pro</i> magazine.
2010	We installed a gravel garden and Pennisetum <i>Red Head</i> received an award from the ISU in Europe
2011	Installed Trudy's Garden, named for my mom.
2012	Installed two new display gardens: a Sedum gravel garden and Sonja's Garden, named for my sister.
2013	Featured on the cover of American Nurseryman magazine.
2014	Brent's book on Sedum published.
2015	Brent's Sedum book received the Gold Award from the The Association for Garden Communicator.
2015	First Annual Ornamental Grass Day, and installed a grass garden.
2016	Perennial Plant Association Grower of the Year.
2017	Hosted 3rd Annual Ornamental Grass Day.
To date	We've sold over 5 million plants

### OUR MISSION

- To service our customers fast and fully
  To cultivate healthy and happy employees
- To grow the best ornamental plants available, mainly perennials
- To grow plants as naturally as possible for ourselves and for the environment
- · To breed and introduce new plants into the trade

#### January 2018

As the 2017 Season comes to an abrupt end, it seems this year of extremes continues right to the end. Despite the wet beginning and the drought in the middle, the plants looked good all season. We continue to grow more of those plants that can take the fluctuations in the weather like, Alliums and Amsonias. While Allium *Millenium* is the PPA plant of the year, we are focusing on our own selections. Allium x *August Asteroides* is very close to *Millenium* in size and stature, it blooms a bit later but just as heavy. The color is a slightly lighter too. Allium x *Windy City* is closer in color to *Millenium* but blooms earlier on shorter plants. It's just beginning to pick up momentum in the trade. We also have Allium *Medusa* from Walters Gardens like a taller form of the twinging onion with more substantial grey-green foliage and taller pink-purple flowers 12-15" tall. And don't forget our mostly sterile *Chivette* which blooms in May and has exceptional vigor.

Our newest Amsonia x illustris *Seventh Inning Strech* is a hybrid with illustris which normally has taller open habit and glossy wide foliage that is a bit loose for my taste, but this more refined foliage is still glossy but about half as wide, yet still %". The fuller plants have more foliage too. The habit is more refined at 3' + and upright. Bright yellow fall color with red parts in the stem peeking through.

Geum may not like a drought, but they do like rich moist conditions and our two new varieties are some of the best. *Cherry Bomb* starts with semi-double reddish but quickly takes on some rose-pink as it ages and fades. This one is sterile and shorter at 12-15" tall. *Top Shelf Margarita* is an improved *Limoncello* with clear lemon yellow flowers that nicely glow against the deep green foliage. The flowers are held on very upright red stems with red buds. Rebloom in July 2017 was around 40%, our most so far.

Travel has many benefits and my October 2015 trip to Holland yielded Astrantia major *Pink Sparkling Stars* from Rijnbeek Nursery. It has proven as vigorous here as it was in their fields. Mounds of cut foliage bloom twice a year on 24" + stems with intricate umbels of wine colored pedicels holding pink florets above creamy white and green bracts.

More daylilies and 8 new Hostas keep those staples exciting and ever evolving, including of the biggest and best selling *Empress Wu* and a mini called *Sun Mouse*.

After years of promoting Lavandula *Blue Cushion* as the best for the Midwest I have decided to offer a new one that has foliage that looks so clean it could be fake. *Essence Purple* is that in-between lavender blue-purple color. We have a first year offering of Liatris ligulistylis *Butterfly Magnet* our seed strain is more reserved at 4' – 5' tall but has the same chemical attraction the male Monarch butterflies love.

After a few years trying to get a nice crop of Bradbury's Bee Balm, we have a crop worthy. Our form has deep green foliage with chocolate-red highlights and spring growth. Soft pink spotted flowers in June. Best on well drained to dry soils. Phlox x paniculata *Jeana* has been on our radar for a while. It's supposed to be more attractive to butterflies. Smaller flowers in large cluster on 4' plus tall plants.

We have two new Rudbeckias. One is the shorter form of *Henry Eilers* called *Little Henry* which is still 3-4' tall. The flowers have rolled yellow petals and bloom from late summer into fall. Then we have Rudbeckia x *Glitters Like Gold* PPAF that has broad hairy foliage that resembles *Goldsturm* in size but is resistant to Septoria fungus. Heavy blooming plant start in July on 3' stems. Flowers are a bright gold color and 3" plus wide. Sedum rupestre *Making Progress* PPAF is a great compliment to *Angelina* and *Blue Spruce*. In late fall through May the stems are plum red with dark green needle like foliage. Yellow flowers are a sharp contrast.

Lastly, we are propagators and growers so let us grow something for you. A few of our favorites to grow are Allium, Aster, Echinacea, Geranium, Heuchera, Peony, Penstemon, Phlox, Salvia, Sedum, Veronica and almost any grass.

Thank you all for your continued support. We look forward to another year of growth and sharing our love for plants and the joy they can bring. I'm already looking forward to spring and winter is just starting.

Brushorsetz

Brent

### **◆** CUSTOMER INFORMATION **◆**

#### Nursery / Office Hours

April:	Monday – Friday	7:30 AM-4:00 PM
May-June:	Monday – Friday	7:30 AM-5:30 PM
May-June:	Saturday	7:30 AM-12:00 PM
July:	Monday – Friday	7:30 AM-4:00 PM
August-September:	Monday – Friday	7:30 AM-4:00 PM
October-November:	Monday – Friday	7:30 AM-3:00 PM

December-March: CLOSED

Employee Lunch Hour is daily 12:00 noon until 12:30 PM
Office Hours Apply According to the Schedule above Mondays – Fridays.
CLOSED HOLIDAYS!

#### **Nursery Location**

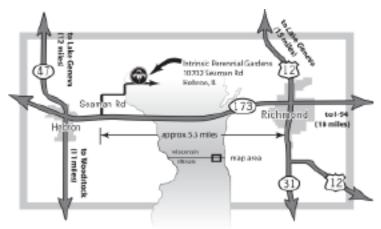

Intrinsic Perennial Gardens (IPG) is located approximately one mile east of Rt. 47, just north of Route 173 at 10702 Seaman Road in Hebron, IL.

#### **Emails**

Orders: Inventory:

Sales@intrinsicperennialgardens.com
Owner:
Lois@ intrinsicperennialgardens.com
Accounting:

Brenth@ intrinsicperennialgardens.com Maria@ intrinsicperennialgardens.com

#### To Establish An Account

To establish an account for your business, please submit a fully completed New Customer Form. As proof of business, we will require the following:

- 1 Trade References
- 2. Statement understanding our Terms

Please call and ask Customer Service for a New Customer Form

#### Availability

Our plants are primarily grown and overwintered outside without heat resulting in Hebron Hardy perennials! Availability begins the first week of April and continues through October. For best results order from our weekly list.

#### **Price Quotes**

Price quotes are generally returned the same day as requested. Please call if you do not receive a response within 24 hours. Price quotes are good for the calendar year they are quoted in.

#### Pick Ups & Orders

While we do not require minimum quantity orders, we do request your help in making peak season (April-June) orders less confusing by ordering in full case quantities. Full case quantities are as follows: 6-1 gallon per tray; 12-4 1/2" (qts.) per tray. 2 and 3 Gallon pots will be sold individually. Our plugs come in 32 plug trays (2 1/2"), 50 plug trays, and 70 plug trays. Orders picked up at the nursery will be discounted 7% with advance notice. Please note, due to the high volume of pick up orders, we cannot honor the pick up discount without a minimum of 24 hours (1 day) notice.

Orders can be faxed to the nursery at (815) 648-2072 or emailed to sales@ intrinsicperennialgardens.com. For those interested in faxing orders, we have Order/FAX sheets available. When faxing, please include all necessary information such as pick up or delivery and requested ship date. When faxing additions to an order, send only additions/changes or clearly state to disregard original order. Orders are pulled only when we have a confirmed ship date.

Customers are welcome to stop and shop at the nursery by appointment. Please Note: Spring backorders are generally ready mid- to late-June but are crop dependent. Also, we can label plants with prices for a nominal label fee.

#### Recycling

We are happy to accept used one-gallon containers in good condition.

#### Weekly Fax / E-Mail List For Customers

Our weekly broadcast publishes plants that are blooming, budding, have showy foliage and are available for delivery immediately. This plant list is available for active customers only. Just call (815) 648-2788 if you are interested in receiving Intrinsic's Blooming List weekly in season. You can also download the list from our website.

#### **Email Orders**

Email orders are now accepted at sales@intrinsicperennialgardens.com.

#### **Delivery & Fuel Surcharge**

Delivery is free for orders over \$350.00 within 75 miles of our nursery. Orders below the minimum will be charged \$60.00 delivery (\$30.00 local if we are already headed your direction with another delivery). Outside of a 75 mile radius from our nursery, delivery fee will be determined case by case with a minimum delivery fee of \$100. \$1000 minimum order for deliveries over 100 miles. We have a 30¢ per mile fuel surcharge on all deliveries, with a \$15 minimum fuel charge.

Currently, we have two delivery trucks, with a third in season. We do our best to accommodate swift shipment of orders and delivery on the date requested. Generally, we ship one to three days from order date. We cannot give exact delivery times, please call the morning of delivery to get our best estimate!

Gallon plants are shipped in trays that are unpacked upon delivery. Trays are available for purchase for our current cost *with advance notice*. Trays kept by customers at the time of delivery will be charged, and this fee will be added to the order invoice.

If no one is on site to help unload plants on orders of fifteen cases or more, a \$25.00 unloading fee will be added to the order invoice. Orders over 24 cases will not be unloaded without help.

#### CUSTOMER INFORMATION

#### **Delivery Routing**

We do not follow a strict delivery schedule, orders are shipped as soon as possible, usually next day or the following day.

#### **Terms**

Billing terms for new accounts are cash (C.O.D.) only at the time of delivery. Terms for established accounts are Net 30 Days. There will be a 1.5% per month service charge on accounts past due 30 days from date of invoice. Unless we have on file a copy of your Certificate of Registration, Certificate of Resale, or a letter containing tax exempt status on a certain job, we will collect 7% tax on all orders. Tax exempt job information must be presented at time of order. Please note: The Illinois Department of Revenue does not recognize out of state registrations. Therefore, our Wisconsin customers must pay sales tax when picking up orders in Illinois.

IPG accepts Visa, MasterCard, and Discover payments.

#### **Returned Check Policy**

There is a \$25.00 returned check fee. Accounts which present NSF checks will be set to C.O.D. until account remains paid in full for a minimum of three consecutive months.

#### **Plugs / Contract Growing**

We can contract grow any size from 70 plug to 3 gallon containers, etc. Contracts require a 33% nonrefundable down payment. Plugs on many of the varieties propagated by cuttings are available. Plug availability varies based on season.

Intrinsic Perennial Gardens and its owners are members of the following organizations. Web links are available at our website. www.intrinsicperennialgardens.com

**Canadian Ornamental** Plant Foundation

Chicago Botanic Garden

**Sedum Society** 

#### **Trade Names**

Just a few notes regarding the correct use of trade names (TM/®): 1. Trade names always should be used in conjunction with variety names. 2. Trade names must be distinct from variety names. 3. Trade names are to be used like common names. 4. Trade names do not use single quote marks.

#### **Volume Pricing/Discounts**

Volume pricing is negotiable for quantities over 50 on many of our 1 gallon size plants. The 4 1/2" size groundcovers have the following special quantity prices. Volume discounts are available for companies with a history of current accounts and high volume sales. Discounts apply to accounts in good standing.

	GROUNDCOVER QUANTITY PRICES — 4 1/2" (Qts.)
$\underline{List} = \$2.75$	Qty. Prices = 120+ \$2.65 / 240+ \$2.55 / 360+ \$2.45 / 1000+ \$2.25
$\underline{List} = \$3.00$	Qty. Prices = 120+ \$2.90 / 240+ \$2.80 / 360+ \$2.70 / 1000+ \$2.50

#### **Our Commitment**

Our goal is to service fully each customer. If you are looking for additional services, please let us know how we can better serve you.

#### Disclaimer

All plant material availability is subject to natural and unnatural conditions beyond our control. We try very hard to sell plants true to name and of high quality. We cannot be responsible for materials once accepted or after they leave the nursery.

### CONTAINER VOLUME

Our plants are grown and sold in the following volume pots.

Manufacturer	Pot Size	U.S./Imperial	Metric
T.O.P.	4 1/2"	1.13 Qts	1.07 liters
Nursery Supplies/Dillen	1 Gal	2.96 Qts/ .74 Gal	2.809 liters
ITML	2 Gal	6.40 Qts/ 1.6 Gal	6.062 liters
Nursery Supplies	3 Gal	11.37 Qts/ 2.84 Gal	10.764 liters

#### **Downloads/Catalog/Weekly Bloom List**

Email orders are accepted, see page 5 for more info. Our website also includes many helpful downloads, including the Weekly Bloom List (on the *Plant Lists* page).

**Excel Plant List** – A straight list of all the plants we grow will be available in Excel format. Those proficient with Excel may choose to use this database to place orders. Our fax number is (815) 648-2072. We will continue to distribute our weekly Bloom List via e-mail and fax upon request. Call (815) 648-2788 for a sample copy.

Cultural Lists – The following cultural lists can now be downloaded on our website.

- Alpine
- Butterfly Garden
- Container Plants
- Deer Resistant
- Drought Tolerant
- Evergreen
- Fall Color
- Groundcovers
- Long Bloomers
  - Natives

- Recommended Plants
- Rooftop Extensive Plants
- Salt Tolerant
- Shade Plants
- Wetland

Other References – Plant color and common name cross reference lists are also available at the website

**Greenroof Plant/Plug List** – Our current greenroof plant/plug list is featured on-line.

#### Features

Other reasons to visit our website include the following features:

**About the Founder** – For all those who remember or have heard stories about our Founder Mr. Lou Horvath, we have included his picture and a summary highlighting his boundless passion for family, perennials and hard work.

**Intrinsic Introductions** – We currently have over 100 Intrinsic Introductions with many more coming down the line. View pictures in the Intrinsic Introductions catalog to see what makes our introductions unique, or download the exclusive Intrinsic Introductions catalog online.

**Links** – The website features links to some of our favorite websites including all of our affiliate trade associations.

**Photo Gallery** – One of the greatest advantages of the website is that we can feature many more pictures of the best and most beautiful perennials we grow. Our on-line photo gallery has over 500 pictures! Also, check out our Facebook and Pinterest pages to view current photos and posts.

U.S. native plants tough enough for a Midwest greenroof have carefully been selected by Intrinsic Perennial Gardens to provide your Midwest greenroof with life and color. Striving to create a new biota through life and color for your greenroof. Like the prairie before and the city present, the BIOdiverCITY Blend™ strives to connect our flora and fauna. By creating a new ecology on the roofs of our homes and businesses, and linking our parks and our gardens to the tops of our roofs.

The **Skyscrapers** are the natives of the short grass prairie.

The streets are paved with flowers and foliage.

The **subway** is the roots, the soil, fungi and bacteria.

The **people** are the insects, birds and the bees.

This is our new CITY, our Bio diverse CITY.

### **IPG Top 10 Natives for an extensive greenroof:**

Allium cernuum
Campanula rotundifolia
Coreopsis lanceolata
Dalea purpurea
Geum triflorum
Heuchera richardsonii
Koeleria cristata
Penstemon hirsutus pygmaeus
Sedum ternatum
Talinum calycinum

Let us custom grow your next native greenroof!

## Top 10 Bee Friendly™ Plant List

Achillea
Agastache
Aster
Calamintha nepeta nepeta
Coreopsis
Monarda
Penstemon
Pycanthemum
Salvia
Sedum

**Top 10 Groundcover List** 

Alchemilla mollis Thriller
Aster divaricatus
Brunnera macrophylla
Carex flacca
Epimedium cvs.
Galium odoratum
Geranium cantabridgiense/ macrorrhizum(s)
Lamium maculatum cvs.
Liriope spicata
Sedum floriferum Weihenstephaner Gold

#### SEDUM SAMPLER™

We offer a mixed flat of Sedum sold in trays with four different varieties in each tray. They are selected based on best-looking foliage at the time/ our choice. Retailers keep coming back for more!

6 mixed cases – our choice 72 @ 3.00 each, Total = 216.00

12 mixed cases – our choice 144@2.90 each, Total = 417.60

### **GOT SEDUMS?**

Brent Horvath's first book, *The Plant Lover's Guide to Sedums*, is published by Timber Press. It includes everything you need to know about these beautiful gems. Plant profiles highlight 150 of the best varieties to grow, with information on zones, plant size, soil and light needs, origin, and how they are used in the landscape. Additional information includes designing with sedums, growing and propagating them, where to buy them, and where to see them in public gardens.

Geum X Garden Gems  'Sea Breeze' - PP#26,437 - orange — An Intrinsic Introduction!  This robust grower has larger hairy foliage than most Geums.  Orange flowers can verge on the red side after cold nights and measure 2" wide. The unique flowers have folded wavy petals like they are blowing in the breeze and are held on red 18"+ stems. Full sun, rich moist soil. Nice with Salvias		1.50 5.50
the name and therefore had to make up the cocktail. I made this refreshing summer drink up waiting for a plane home in the Warsaw Airport. Reposado tequila on ice with three fresh squeezed lemon wedges. Sip and enjoy!	50 plug	1.50 5.50
<i>'Spanish Fly'</i> PP#27,226 – <u>An Intrinsic Introduction!</u> Single gold flowers tipped in red have hints of orange too. Red stems grow 18" tall in May. Full sun, rich, moist soil	50 plug 1 Gal.	1.50 5.50
'Tequila Sunrise' PP#21,514— An Intrinsic Introduction! The second in our cocktail series. Cool off your spring with a refreshing Tequila Sunrise. Lemony yellow single and semi double flowers drip with a touch of grenadine rose red on the end of the burgundy red stems. 1' clumps with the flower stems reaching 15-18" start blooming in May and go into June. Full sun with moist soil	<u>ction!</u> ıt	1.50 5.50
against the deep green foliage. Upright habit of red stems 15-18' tall. Makes great presentation in pots and at retail. Reliable rebloom on almost half of the plants is an exiting addition to this genus after 10 years of breeding	50 plug	1.50 5.50
'Wet Kiss' PP#27,227 – An Intrinsic Introduction! Is a deeper colored red sport of 'Mai Tai' with more vermillion to orange semi-double flowers. Red stems and buds grow to 18". Full Sun, rich moist soil	50 plug 1 Gal.	1.50 5.50
Heliopsis helianthoides False Sunflower  'Burning Hearts' – The seed strain from Jelitto has combined tw great attributes of purple new growth and extra deep green folia with golden yellow, red eyed flowers. Plants grow 36" + tall and 18" + wide in time. Full sun, average to well drained soil	ige	5.00
<i>'Tuscan Sun'</i> PP# 18,763 – A Proven Winner Perennial. Once these golden 3" sun like flowers begin in Mid summer they continue until September. Medium plants grow 24-36" tall. Full sun, well drained, average soil	<b>P</b> 1 Gal.	<b>W</b> 6.00

Helleborus orientalis Lenten Rose  'Pine Knot Strain' – Of all the hellebores we have tried this seems to have the best vigor and hardiness. A mix of white, pink and red that bloom in April. Evergreen clumps over 1' tall and almost 2' wide.	
Prefers part shade. Well drained soil	7.50
HEMEROCALLIS (Daylilies) [dip=diploid / tet=tetraploid] We have many additional daylilies, just ask.	
Hemerocallis x Daylily  'Bela Lugosi' (tet) – Deep purple 6" flowers on 30"+ stems. One of the best purples	5.50
NEW for 2018 – 'Bodacious Returns' – Spider like 5-6" gold flowers bloom on 30" stems and rebloom reliably in late summer	5.00
<i>'Catalina Summer'</i> — An Intrinsic Introduction! Think of Catalina dressing, now you have a hint of this unique color blend of coral, orange and pink. Short plants around 20-24" tall	5.00
'Cherry Cheeks' (tet) – Bright cherry red flowers with yellow throats start at the end of July on plants with good substance and 30" stems	4.50
'Chicago Apache' (tet) – One of the top red tetraploids on the market. 6-7" flowers on 30" plants. Late bloomer starting at the end of July. Destined to be popular!	5.00
<i>'Chicago Sunrise'</i> (tet) – Pure gold flowers on substantial tetraploid plants. Growing just over 2' tall	4.50
'Country Melody' (tet) – True pink with a green throat and ruffled edges. 30" plants. From Roy Klehm	6.00
<i>'Cranberry Baby'</i> – A small red flower 3" wide with a yellow eye on short 18" stems over thin foliage	5.00
'Dustin Domansky' An Intrinsic Introduction! (Diploid) Buttery yellow, 3" flowers on 24"+ stems have a hint of pink down the middle of the petals. June bloom with some rebloom in August. Full sun, well drained soil	4.50
'Grape Magic' – Lavender purple flowers with yellow centers bloom in mid summer on 24"+ stems. Long blooming, unique color	5.00
<i>'Happy Returns'</i> (dip) – Everblooming yellow starts in July	4.50 4.25
<i>'Hyperion'</i> (dip) – Still one of the most popular, this fragrant yellow variety stands 3-4' tall. Tolerates part shade better than other varieties. Starts blooming in July	4.50
<i>'Joan Senior'</i> (dip) – The premium white variety in daylilies blooms mid July at 30" with 5" blooms. Clean, robust foliage too1 Gal.	5.00

Huecheralla x Buttered Rum

Geum x Cherry Bomb PPAF

Geum x Top Shelf Margarita PPAF

Liatris ligulistylus Butterfly Magnet

Monarda bradburiana

Hemerocallis x Daylily 'Jumping Pumpkins' – A Roy Klehm hybrid named by me after walking the fields with my dog Pumpkin, this one caught my eye twice among hundreds of yellow, orange, and other pastel daylilies.	
The shorter height to 18"+ and heavy bud set on uniform stems make a statement. Glowing cantelope orange with extremely ruffled edges on 5" flowers	6.00
'Longfield's Beauty' (tet) – Wide petals of creamy yellow with a hint of peach on green throated flowers. Substantial foliage and a high bud count keep this one blooming for a long time	4.50
'Magic Dawn' (dip) – A pleasing bicolor with yellow and faded rose petals in mid July that give a long display with a pastel look. 30"	4.50
'Mary Todd' (tet) – The color of golden butter in July, they have a very high bud count and a long flowering period. 36"	4.50
<i>'Melon Zest'</i> (tet)— One of Roy Klehm's improvements and further breeding on the Techny theme of pink and melony yellow bicolors that Brother Charles developed. This one has extreme ruffling on more yellow 5" flowers on 3' stems	5.00
'On Top'- Syn. 'Baby Stella <sup>TM</sup> '. An Intrinsic Introduction! One of the shortest daylilies you'll ever see. The stems are typically 6" tall, which leave the golden flowers sitting right "on top" of the mound of foliage. Some rebloom. Prefers full sun, well drained soil.  NOTE: We are breeding with this and should have some more extremely short ones in the future1 Gal.	5.00
'Onion Patch' (dip) – Wide petaled, ruffled 5" onion white blooms on well branched stems to 26"	5.00
<i>'Pardon Me'</i> (dip) – Deep red 2 1/2" flowers with green yellow throats on 24" tall stalks rebloom once	5.00
<i>'Penny's Worth'</i> (dip) (Grass Leafed Daylily) – A miniature yellow with grass like, deep green leaves and some rebloom. 10-12" high1 Gal.	5.00
'Perfect Pink Princess' – Soft shell pink 5" flowers are held on 22" stems	6.00
'Raspberry Tonic' – Cherry pink almost red flowers on tetraploid plants to 30"	5.00
'Root Beer' (tet) – Dark red, almost black blooms in July with yellow eyes and sweet fragrance on 22" plants. Sometimes doubles appear. Good retailer!	6.00
NEW for 2018 – 'Screaming Yellow Zonkers' – This is one of those landscape daylilies that has a heavy bloom on super uniform tetrapoloid plants that really make a statement. 30" or less sturdy stems hold canary yellow 5" + flowers with hints of green	5.00

Hemerocallis x Daylily		
'Stella De Oro' (dip) – The ever popular everblooming dayli Blooms with light golden flowers from June until frost on 15 stems. Goes nicely with blue Salvias. Deadhead to keep plar looking nice and reblooming	5-18" nts 1 Gal.	4.25 4.00
<i>'Strawberry Candy'</i> (tet) – Extra long blooming bicolor pink with a raspberry red eye. Shorter habit to 26" and nice deep green foliage too. <u>Available in June</u>		5.00
NEW for 2018 – 'Tetrina's Grandaughter' – This is an extra tall daylily held on 5' + stems. It's also later blooming starting A	l yellow August 1 Gal.	6.00
Heuchera micrantha Purple Leafed 'Palace Purple' / select – Has a ruffled texture with purple leaves and 18"+ sprays of white flowers in July. Very hardy overwinters well in containers. Ours are grown from select sto ensure deep red leaves. 1991 Perennial Plant of the Year	and seed 4 1/2"	3.00 4.50
Heuchera villosa Fairy Bells 'Autumn Bride' / macrorrhiza – Matte green hairy foliage in 12" mounds. Cone shaped sprays of tiny white bells in late s or early fall. Part sun, well drained soil. Many are planted or Evening Island at the Chicago Botanic Gardens. Look good shade with Calamagrostis brachytricha	summer n in dry	5.00
'Caramel' PP#16,560 – The new leaves are bright gold in sp then take on honey-apricot hues. Clusters of whitish-pink flo bloom on 18-inch stems in midsummer. Heat and humidity t ant, prefers part to full shade and dry soil	owers toler-	7.00
Heuchera X Coral Bells 'Forever Purple' PP#26,358 – Glossy purple leaves are both a subtle wavy ruffle and slight silvering giving the foliage lo all year long. Pink flowers above mounding foliage reaching over 20" wide. Grows in sun to shade, well drained soil is be	ots of interest g 12" tall and	8.00
'Obsidian' PP#14,836 – This is one of the darkest red leaved yet. The sheen of the foliage adds another dimension. Insign Part sun to light shade. Well drained soil. Bound to be popul	ificant flowers.	7.00
<i>'Plum Pudding'</i> – Robust plants of red with dull silvering an deep red undersides	ıd 1 Gal.	5.50
'Silver Scrolls' PP#12,066 – Has a smaller habit and leaves that are brighter purple with very distinct silver patches. Smacreamy, white bell flowers in July have a pink tinge. Well drug to dry soil, shade to part shade. One of the showiest varieties	ained	5.50
Heucherella × Foamy Bells 'Buttered Rum' PP#25,040 – This new Foamy bell has unique foliage of bronze orange with good vigor. Mounding plants to 10" tall and close to 2' wide. Well drained soil in part sun is	reach	8.50

HIBISCUS — Hibiscus are late to emerge. Please note that we do not ship dormant plants. Hibiscus orders will ship once plants are green. All Hibiscus are available in June.

Hibiscus moscheutos Hardy Hibiscus  'Blue River II' – A pure white form with 12" flowers in Septer on 5' plants. Available in June	mber	12.00
'Fireball' PP#13,631 – Deep green and red foliage make this Rose Mallow stand out. The deep red flowers fit right in. Grov 5' and blooms in August/September. Full sun with moist soil is	ws to 1 Gal.	6.50 12.50
'Kopper King' PP#10,793 – Huge 12" flowers of white with reeyes. Red leaves look like a maple		6.50 12.50
'Lou Emmons' – An Intrinsic Introduction! This hybrid ha lobed foliage with some red highlights most of the season. So plants grow 5'+ and bloom in July and August with creamy flowers that have big red eyes. Full sun, average to moist so	ubstantial white	12.00
'Perfect Storm' PP#27,880 – A more manageable size on these substantial plants, this one grows 3' tall but close to 5' wide. Dark pointed foliage is deep green and purple. Large flower of light pink with red eyes reach up to 8" wide. Full sun, moist to average soil		W 15.00

HOSTA — Most Hostas prefer fertile, moist soil and part to full shade. White flowering Hostas, such as 'Fragrant Bouquet', and 'Royal Standard', 'So Sweet', 'Stained Glass', are more sun tolerant, as are the fortunei.

$\overline{}$		
Round	x <b>Hosta</b> ua Drinking Gourd' – 2014 Hosta of the Year.  led blue foliage is not only puckered but also cups holding at times. Always interesting, medium to large clumps	7.50
a good Makes	P. McConnell' – A small form with a thin white edge and a show of purple flowers at the end of July on 15" stalks. In a nice border plant. Mature mounds stand 6" x 6".  INDCOVER)	5.00
	st Moon' (fortunei) – This all gold Hosta gets brighter and er until August. Blooms are light lilac on 24" stems in July 1 Gal.	4.50
'Autun	nn Frost' PP#22,234 – A sport of 'First Frost' that	W
	ger yellow margin next to blue centers. Clumps reach 12" tall1 Gal.	8.00
0	Daddy' – Large clumps of leaves with puckering and heavy gation. Near white flowers in June. <u>Available in June</u>	6.50

Hos			
	<i>'Blue Angel'</i> (sieboldiana) <i>(Blue Angel Hosta)</i> – Plants produce light lavender white flowers in large clusters on 4" stems in June/July. Their large, pointed, blue green leaves are up to 1'+ long. Plants have a very fast growth rate	Gal.	5.50

NE	EW for 2018 – 'Key West' – This large gold Hosta has heart shaped leaves on clumps that can reach 30" p Fast growing too	lus and 5' wide.	Gal.	9.00
	'Krossa Regal' – An upright, vase shaped habit and leaves makes this a very attractive Hosta. 6' stalks flowers	of lavender	Gal.	5.00

<b>Hosta</b> x <b>Hosta</b> lancifolia – This species has glossy, deep green leaves and	
produces lilac purple flowers in August/September. Small to medium 18" clumps. Very tough and adaptable. Can tolerate wet soil and sun	4.50
<i>'Liberty'</i> PP#12,531 – A wide edge sport of Sagae, wide butter yellow margins fade to creamy white on substantial leaves. Plants grow to 25"	7.50
NEW for 2018 – 'Love Pat' – Round blue leaves are heavily corrugated and grow more and more substantial. Near white flowers bloom June/July	7.50
<i>'Maui Buttercups'</i> – Smaller 5" round gold foliage that is strongly corrugated and has a thick substance. Reaching only 10-12" tall 1 Gal.	7.50
'Mighty Mouse' – This Blue Mouse Ears sport has a wide creamy yellow edge and fair vigor for a miniature. Eventually 8" tall and 12" wide	7.00
'Mini Skirt' – A highly variegated sport of 'Might Mouse' that has wavy leaves of blue and creamy white on miniature sized plants	8.00
'Morning Star' – Creamy white centers are streaked and bleed into the deep green edges. Medium to large size growing 20" + tall and over 2' wide	7.50
'Night Before Christmas' – In maturity, large clumps reaching 25" and several feet wide have uniform white streaks down the center with wide green edges. A good grower. Mark Zilis, author of <i>The Hosta Handbook</i> , calls it "perhaps, one of the best white-centered Hosta cultivars."	6.50
<i>'Orange Marmalade'</i> PP#16,742 – An improved sport of <i>'Paul's Glory'</i> . Brighter gold center holds its color all season	11.00
<i>'Paradigm'</i> – Shiny gold leaves with a green edge have good corrugation too. Grows to 20". The 2007 Hosta of the year!	7.50
'Patriot' (fortunei) – 1997 Hosta of the Year. A sport of 'Francee' with a broader white margin. Light lilac flowers at the end of July on 24"+ stems	5.00
NEW for 2018 – 'Pilgrim' – This small hosta reaches 8" x 20" wide when mature. Grey green near heart shaped are small with creamy yellow edges. Lavender purple flowers	6.00
<i>'Pineapple Upside Down Cake'</i> – 1' long thin leaves are chartruese yellow with a thin green rippled edge. Lavender flowers to 24" in late summer. Reaches 20" in height by 60" in width	8.00
<i>'Prairie Sky'</i> PP#17309 – One of the bluest and newest Hostas. The medium size foliage is almost heart shaped and strongly pointed	7.50

Но	'Praying Hands' – Extra upright and folded foliage almost looks grassy at times. Dark green leaves reach over 1' tall and fan out.  Hosta of the year in 2011. Available in June	1 Gal.	7.00
	<i>'Rainforest Sunrise'</i> – 2013 Hosta of the year. Small to medium rounded gold leaves have a ruffled surface with green edges on full clumps. <u>Available in June</u>	1 Gal.	6.50
	<i>'Regal Splendor'</i> – A variegated form of <i>'Krossa Regal'</i> with a light yellow margin. Impressive as a specimen. 4-5' lavender flower spikes in August. 2003 Hosta of the Year. Good grower. In my opinion, one of the best!	1 Gal.	5.50
	<i>'Royal Standard'</i> – Has a faster growth rate and better substance than plantaginea grandiflora. White fragrant flowers in August	1 Gal.	4.50
	'Shade Fanfare' – While not new, this lime green Hosta still stands out as a bright spot even in the Hosta garden. Creamy yellow edges fade to white on 2' tall plants over 3' wide	1 Gal.	6.00
	'So Sweet' – 'So Sweet' has a fast growth rate, glossy rounded leaves with white edges, and fragrant white flowers in August to 24". Can tolerate full sun if in moist soil. May rebloom.  1996 Hosta of the Year. A great Hosta!	1 Gal.	5.50
	'Spring Morning' – Unique long sulphur yellow leaves edged in creamy white on 18" tall medium sized clumps.	1 Gal.	7.50
	'Stained Glass' – Large veined foliage of glossy apple green surrounded by a deep green edge. Large fragrant white flowers in August too. An improved form of 'Guacamole'.  The 2006 Hosta of the year!	1 Gal.	9.50
NE	EW for 2018 – 'Sugar Daddy' – This sport of Big Daddy has the same corrugated blue leaves with the added bonus of a 1" creamy yellow edge. White flowers on short stalks in late spring	1 Gal.	7.50
	'Sum and Substance' – 2004 Hosta of the Year! One of the largest Hostas ever, this variety's leaves can reach more than 1' across. Nice golden chartreuse color. Light lavender flowers on 4'+ stems in July into August	1 Gal.	6.50
NE	EW for 2018 – 'Sun Mouse' PPAF – A 2016 Plant Delight Nursery introduction after years of breeding with Blue Mouse Ears for a gold leaf and vigour. Leaves are 3" long by 2" wide on 6" tall plants	4 1/2"	6.50
	<i>'Twilight'</i> PP#14,040 – This sport of fortunei 'Aureomarginata' has a broader yellow margin and more substantial leaves. It reminds me of a <i>'Patriot'</i> with yellow variegation	1 Gal.	6.00
	<i>'Victory'</i> – This sport of <i>'Sagae'</i> has a broad yellow margins set against bluish green centers on large leaves and large clumps reaching 2' tall by 3' wide	1 Gal.	9.50
	'Whirlwind' – Streaky green margins with yellowish center and distinguished veining of green. Wavy upright mounds to 20x40". Lavender flowers in late July-August	1 Gal.	7.50

Hosta x Hosta  'Wide Brim' (tokudama) – A faster growing form of tokudama with a large irregular cream to yellow margin on medium leaves.  Heavy lilac tinted flowers June into July on 15"+ stems	al. 5.00
■ IRIS — Foliage should be removed in fall to prevent Iris borer.	3.00
Iris cristata Crested Iris  NEW for 2018 – Short thin blades arch and hug the ground growing 6" tall. Spring blooms of blue sit just on top. Part shade, dry to well drained soil	al. 5.50
Iris ensata Japanese Iris  'Variegata' (Variegated Japanese Iris) – Eye-catching foliage all season long. Has white variegation. Violet flowers with yellow markings appear at the end of June. Full sun, moist to well drained soil. Available in June	al. 6.00
Iris pseudacorus Yellow Flag Iris  'Variegata' – Pleasant bi-color yellow and light green variegation blends in with green blades. Slowly fades to all green foliage.  Yellow flowers in the summer. Full sun part shade. Well drained to moist soil	al. 6.00
Iris pumila Standard Dwarf Bearded I 'Prolific Purple' – An Intrinsic Introduction! Fragrant purple flowers smell like grapes, on silvered green foliage to 12"+. Flowers in May on 15-18" stems. Named by my Dad for its extreme vigor. An old variety from our Glenview Garden Center1 G	
Iris sibirica Siberian Iris 'Caesar's Brother' – This very popular Siberian Iris is deep blue to purple with some gold markings and grows to 36"+. Blooms in June. Prefers moist soil and full sun	al. 4.50
A native blue flowering Iris that can tolerate wet feet. Thin foliage and flower size close to Siberian Iris. The habit is more open. Grows 30-36" tall. Flowers in June. Full sun, wet to well drained soil	ral. 5.00
<i>'Gerald Darby'</i> – This variety has the added interest of deep maroon stem bases that can extend almost halfway up the plant.  Appears showiest in spring. Full sun, wet to well drained soil	
Kalimeris incisa Kalimeris  'Blue Star' – Reliable late summer bloom over a long period on 2'+ upright clumps. Light blue Aster like flowers with yellow eyes. Full sun, well drained to average soil	al. 5.00

LAMIUM — Lamium maculatum prefer moist soil and part shade.

They start to bloom the end of April and continue throughout May.

Lamium maculatum Spotted Dead Nettle 'Chequers' – The silver streaked green leaves show good purple color fall through winter. Purple pink flower spikes in April to 6"+. (Groundcover)	4 1/2"	3.00
'Ghost' – An Intrinsic Introduction! Mostly silvered foliage is what caught our eye on this Lamium. Purple flower clusters fit right in. Full sun with moisture or part shade, well drained soil. Extra vigorous (GROUNDCOVER)	4 1/2"	3.00
'Pink Pewter' – An outstanding variety having compact, bright white silver streaked foliage with green margins and clear pink, long lasting flowers starting in May on 5" plants. In the right location, it will bloom all year. Partially shaded, cool, moist, well drained location is ideal. (Groundcover)	4 1/2"	3.00
'White Nancy' – A vigorous grower, this popular variety has bright white silver foliage with green margins and white flowers.  May remain evergreen. (GROUNDCOVER). Available in June	4 1/2"	3.00
Lavandula angustifolia English Lavender  NEW for 2018 – 'Essence Purple' PPAF – One of the best, the foliage of this lavender is hard to beat. Silvered green leaves on open reserved mounds 18" tall and wide with the lavender-blue flowers. Early to bloom, too. Full sun, well drained to dry soil		6.50

Paeonia x Bartzella Peony  'Bartzella' – One of the most sought after peonies. Herbaceous plants grow 36-48" tall blooming with huge 6-8" lemon yellow flowers that look straight up and out in June. Full sun, well drained soil	
Penstemon digitalis Beardtongue  'Husker's Red' – selection. 1996 Perennial Plant of the Year. 'Husker's Red' has purple red foliage highlights with deep green foliage following. The white flowers in June show well on 3'+ stems.  Moist soil, full sun. Our superior form is propagated vegatively	

Penstemon digitalis Beardtongue  'Pocahontas' PP#24,804 – An Intrinsic Introduction! Burgundy foliage emerges in spring quickly followed in June by 3-4' burgundy red stems holding loose clusters of purple pink flowers. An irresistible combination judging from the womens reaction when we had it blooming near the office. The hummingbirds also had a taste and find it equally appealing. Plants prefer full sun, and well drained to rich soil	g 1.25 5.50
Perovskia atriplicifolia Russian Sage 'Little Spire' PP#11,643 – Bred for stronger stems and a more compact habit. This variety only reaches 30" and starts blooming in August. Prefers full sun, well drained soil	5.00
<i>'Superba'</i> – 1995 PPA Perennial Plant of the Year. A very long blooming plant with bright blue purple flowers on 4' woody stems. Light shade or full sun, well drained soil. Should be cut back in spring like a dieback shrub	4.50
PersicariaamplexicaulePersicaria'Firetail' aka speciosa – Many thin red spikes start blooming in August on 3-4' stems and continue into September. Substantial plants reaching 2' wide have arrowhead shaped leaves.1 Gal.	6.50
Persicaria polymorpha Giant Fleeceflower Huge clumping plant that can reach 5'+. Topped by large clusters of milky white, cloud shaped flowers in June. Moist to well drained soil, full sun to light shade	12.50
M LHTOX	
Phlox divaricata Woodland Phlox blue (Wild Sweet William) – There is some fragrance to these 1' clumps covered with sky blue flowers in May. Prefers moist, fertile, well drained soil in part to full shade. A great native for the shade garden. Available in June	3.00 4.50
Phlox paniculata Garden / Summer Phlox Phlox paniculata are among the best for late bloom. A very showy and subs plant in the garden blooming July into August. Should have space and good movement. Adding lime will prevent powdery mildew. Well drained soil, ful	d air
<i>'Blue Paradise'</i> – Unique evolving flower color from blue to violet on 30"+ plants. Fair mildew resistance. Full sun, well drained soil. An instant retail sale in flower. Long blooming. This blue color is hard to believe. The color will actually change from blue to more violet in the afternoon when it gets warm. <u>Available in June</u>	5.00
2002 FFA Felenmai Francoi die Teal!	4.50

Phlox x Garden / Summer Phlo: 'Forever Pink' PPAF – From Chicagoland Grows. A heavy blooming and re-blooming Phlox growing 16" tall. Pink flowers in June are followed by re-bloom summer and fall. Vigorous plants with clean foliage make a nice companion to Phlox x 'Minnie Pearl'. Full sun, average soil		5.00
Phlox x Garden / Summer Phlomannia Summer Phlomannia Pearl' – A great new Phlox hybrid with glaberrima as one of its parents, giving it great mildew resistance as well as glossy deep green foliage. Pure white flowers start in early summer and continue over an extended time, close to 2 months. Only reaches 18" tall. Likes full sun, well drained soil. Would be nice with Phlox 'Forever Pink'		5.50
'Violet Pinwheels' PP#25,884 – Low mounding plants grow 4" tall be 18" wide and have a violet almost iridescent blue color with hints of lavender and some fading to light blue. Thin foliage is reminiscent of creeping Phlox. Full sun well-drained soil	4.1/2"	4.00 6.00
Polemonium reptans Creeping Jacob's Lade This native woodland plant is always one of the first spring bloomers starting in early May. Light blue flowers on 1'+ mounds. Full sun to shade, moist soil		4.50
Polemonium X Jacob's Ladder 'Heaven Scent' PP#20,214 – An Intrinsic Introduction! Lacy pinnate foliage emerges red and continues to hold red highlights until summer. Grape scented blue flowers begin in May and can continue into June. Plants top out at 18-24" tall. Drought tolerant clumps can grow in full sun to part shade. Makes a good cut flower, too	.1 Gal.	6.50
Polygonatum biflorum Solomon's Seal  This long lived native can be seen on the side of the road out in full sun or partly shaded banks which means it requires good drainage. Long arching stems are chalky green and grow up to 4-5' tall. Short lived pairs of tubular white flowers are followed by purple fruit in fall. Great gold and yellow fall color	.1 Gal.	5.50
Polygonatum falcatum (was odoratum) Variegated Solomon's 'Variegatum' – 2013 Perennial Plant Association Plant of the Year! Creamy white flowers hang from the stems in May. A top shade plant with variegated foliage on long arching stems to 30"+. Likes well drained alkaline soil. Try using mushroom compost. Part to full shade		6.00
Polygonatum × Dwarf Solomon's Sear 'Prince Charming' PP#22,304 – An Intrinsic Introduction in cooperation with Chicagoland Grows! Clumps no taller than 12" start the spring with many pair of creamy white perfumed flowers along the short arching stems. In fall purple berries are followed by golden yellow fall color. Can grow in full sun with drained soil but will tolerate part shade	2 eye division 4 1/2"	2.00 4.50 7.50

#### **♥** Primula — All Primula prefer constantly moist soil and part shade.

Primula japonica Japanese Primrose Mix mix – Toothed rosettes with 15"+ stalks and whorled flower clusters along the stems. Flowers are usually purple, reddish,	
pink or white in color. <u>Available in June</u> 1 Gal.	5.00
Primula juliea Primrose  NEW for 2018 – 'Wanda' – This old reliable primrose has magenta pink flowers on top of bright green crinkled foliage in low mounds 6" tall by 10-12" wide. Prefers some moisture in part shade	5.50
Primula veris Cow's Lip  'Sunset Shades' – Shades of glowing reds to burnt orange and yellow on long flowered plants that start in April	3.00
<i>'Wild Form'</i> – Nodding heads of yellow on 5"+ stalks above compact mounds in April. One of my favorites	3.00
Pulmonaria — Pulmonaria prefer well drained soil in a partly shaded location. They bloom in April and May.	
Pulmonaria x Bethlehem Sage / Lungwort  'Roy Davidson' – Seems to hold the foliage best throughout the year. Tight mounds of deep green with silver spots, some of which run together. Light pink buds with light blue flowers on 10" clumps. Part shade to full sun, moist, well drained soil	5.50
Pycanthemum muticum Mountain Mint Unassuming plants of gray green have silver backed leaves and get topped by silvery bracts and purple lavender flowers in July. 30" plants that can spread easily over 2' wide. Takes dry part shade or full sun. Great pollinator/bee plant!	5.00
Ranunculus acris Buttercup  'Farrers Variety' – Bicolor flower clusters on 15-18" stems in May, have irridescent white and lemon yellow on the same flower. Thin stems make them look like they are almost floating. Clumping plants. Full sun and moist soil is best	6.00
'Multiplex' – Low creeping mounds of three part leaves have light silver, spotted foliage with 2' stems shooting out in May with double, yellow button sized flowers over a few weeks. Well drained soil, full sun	5.50
<b>Rodgersia</b> pinnata <b>Rodger's Flower</b> 'Elegans' – Robust five plus part leaves give good texture to the part to full shade garden with constant moisture. Tall open sprays of pink bloom in late spring and grow 3-4' with the foliage reaching 2'+. Fading flower stalks have tinges of pink and bronze1 Gal.	7.00

Rudbeckia fulgida Black Eyed Susan deamii – A hairier subspecies which offers this plant much better resistance to septoria – the black leaf spot that is affecting 'Goldsturm' throughout the Midwest. A bit later flowering with slightly smaller flowers but a highly recommended substitute. 1 Gal. Grows to 30"+. Full sun, well drained soil	4.25 4.00
**Rudbeckia nitida **Coneflower**  'Herbstsonne' - An important and substantial plant in the border.  This coneflower stands 7' tall with clear yellow petals and yellow cones larger than the species. Blooms in August. Likes moist to well drained soil in full sun, and can tolerate some shade	5.50
Rudbeckia subtomentosa Sweet Coneflower  A nice form of Rudbeckia reaching 4' with nice brown eyed cones and clear yellow petals in August. This species can also take part shade. Well drained to moist soil	5.50
NEW for 2018 – 'Little Henry' PP#23,590 – The shorter version of Henry Eilers this form only grows to 3' tall. Quilled yellow petals bloom an extra long time late summer into fall. This species has the added bonus of sweetly fragrant foliage and makes a great long lasting cut flower. Most any soil in full sun to light shade	6.50
Rudbeckia × Black Eyed Susan  'American Gold Rush' PP#28,498 – An Intrinsic Introduction!  One of my best plants. Naturally compact plants reach 22" at the most, with a rounded habit and heavy bloom starting in late July through September. The golden yellow 3" flowers have arched petals. Foliage is thinner and hairy giving this plant excellent resistance to Septoria, the fungus that affects Goldsturm. Full sun, well drained soil	6.50
NEW for 2018 – 'Glitters Like Gold' PPAF – An Intrinsic Introduction!  This hybrid has rounded hairy foliage reminiscent of Goldsturm but the added bonus of Septoria fungus resistance. Deep gold flowers are 3" wide and heavy blooming on 3' plus stems. An improved Goldsturm. Full sun to light shade; any soil but wet	6.50
Salvia — All Salvia prefer full sun with well drained soil unless otherwise noted.	
Salvia nemorosa <i>Perennial Salvia / Meadow Sage</i>	
'Ave Maria' – An Intrinsic Introduction! Purple pink flowers bloom in May along deep purple stems and calyx which hold their color through June giving this form an extra month of interest. Plants can rebloom in fall too. Clumps grow 15-18" tall. Full sun and well drained soil is best	5.50

Salvia nemorosa <i>Perennial Salvia / Meadow Sage</i> 'Caradonna' – Similar flower color to 'East Friesland', 'Caradonna' has the added interest of purple stems. Stiff upright habit is on the	•
open side compared to other salvias. Full sun, well drained soil1 Gal.	4.50
<i>'East Friesland'</i> – Propagated vegetatively, <i>'East Friesland'</i> has purple to violet spikes on 18"+ compact mounds. Cut back after flowering for a neat appearance and rebloom	4.50
Lurie strain mix – An Intrinsic Introduction! This seed strain is a wonderful mix of amethyst to pink to light purples with some violets too. This blend was selected out of a light pink seedling of Amethyst found in Lurie by Piet Oudolf and Roy Diblik. It has a similar tall 24-30"+ habit with long thinner lightly branched flowers 8-12" in length. Full sun, well drained to average soil. Available in June	5.00
'May Night' – 1997 Perennial Plant of the Year. This variety has larger foliage than 'East Friesland' with violet blue spikes to 20"+. Fragrant foliage is also a notable characteristic. Should be cut back after flowering for a neat appearance and rebloom	4.50
<i>'Pink Wesuve'</i> – An Intrinsic Introduction! This seedling of <i>Wesuve</i> has the same great foliage, early bloom and habit. Rose colored seedheads are showy well after the pink flowers fade. Grows 18-24" tall and wide. The combination is elegant. Full sun, Well drained soil	5.50
<i>'Snowhill'</i> – This white flowering form of <i>'Blue Hill'</i> has a long bloom time and grows to 18". Starts to flower in May/June. Prefers full sun with well drained soil. Should be cut back after flowering for a neat appearance and rebloom	4.50
'Wesuve' – Very early, blooming in May, 'Wesuve' was rated as one of the best Salvias by the Chicago Botanic Garden. It has violet flowers on 18"+ clumps. Full sun, well drained soil	4.50
Sanguisorba menziesii Burnet  Divided and pointed foliage is attractive right away in spring followed quickly by thick fuzzy red fingered flowers on 24"+ stems. Brown seedhead hold on into summer. Full sun, average soil	5.00
Sanguisorba officinalis Burnet  'Tanna' – A miniature form with pea sized leaflets and clumps reaching just over a foot wide and 2-3' tall. Ball shaped flowers of maroon in summer. Full sun, well drained soil. Available in June1 Gal.	6.00
<i>'Little Angel'</i> – White edged pinnate foliage is an added bonus on this small burnet growing close to 12" tall. The fine foliage fits nicely with the small bright cherry red flower clusters. Prefers moist to average soil and full sun	6.50

this folia Cho on 4	tenuifolia <b>Purple Fineleaf Burnet</b> purea – After a long hiatus from our catalog plant seems to be in favor again. Adaptable plants have pinnate age that looks good spring to fall with some yellow fall color too. scolate red bottlebrush flowers bloom in mid to late summer 4' stems pairing perfectly with fall grasses. Full sun to part de, most any soil		5.50
<i>'Bli</i> hyb grov gray plar	aka x Hylostachys  SunSparkler Sedum  we Elf' PPAF – What I like most about this Orostachys x Sedum  rid is that the plants look mostly the same through out the  wing season. Only when the ruby pink flower tucked into the  yed plum foliage do the plants change. These low spreading  this grow 3-5" tall and over 12" wide. Full sun, dry to well  med soil	4 1/2"	3.50
	SEDUM — All Sedum enjoy full sun and well drained soil unless otherwise noted. See page 68 for groundcover quantity	prices.	`

Se	dum spurium Two Row Stonecrop 'Fuldaglut' – An improvement over 'Dragon's Blood', the foliage is more substantial and has red highlights all year. Ruby flowers in July. (Groundcover)		.45 .70 2.75 2.65
	'John Creech' – Strongly ground hugging making it a good ground cover. The evergreen foliage is green all year. Deep pink flowers in July – August. Low growing only 2-4" tall	70 plug 4 1/2" 120+	.45 2.75 2.65
	'Leningrad White' – We got this vigorous white flowered form from Plant Delights. Pure green foliage on clumps reaching 12" wide by 6-8" tall. Blooms in July, looks good all season. (Groundcover)	70 plug .4 1/2"	.45 2.75
	'Red Rock' – An Intrinsic Introduction! An all red sport of 'Fuldaglut' this is an improved form of Vodoo. This form stays red most of the year and has very good vigor. Grow in full sun for best color. Dry to well drained soil	70 plug	.50 3.00
Se	dum tatarinowii <b>Stonecrop</b> Broad leaf form – This gray foliage form has rounded edges and plum highlights on tight clumps only reaching around 5-6" tall and wide. It makes a nice container specimen plant. Full sun, well drained soil	.4 1/2"	3.50
Se	dum x Autumn Stonecrop  'Autumn Joy' aka 'Herbstfreude' – One of the best landscape and garden plants due to its attractive foliage and red seed heads, which hold on most winters. Evolving heads of green to pink and then red in September. 24-30"	1 Gal.	4.25
	'Beka' PP#18,398 Autumn Delight™ – An Intrinsic Introduction! A reverse sport that came from Sedum 'Lajos' PP#14,421 Autumn Charm ™. This one has foliage with a thin, green edge and chartreuse yellow centers. Flowers just like 'Autumn Joy', the parent. Due to the variegation the height seems to be shorter. So far we've only seen it grow to 18". Beka means frog in Hungarian and was my dad's affectionate name for my mom. The foliage is showiest in May and June. Licensing is available, please call Brent		5.50

<b>Sedum</b> x <b>Autumn Stonecrop</b> 'Dazzleberry' PP#22,457 – Smokey grey plants have plum highlights on this exceptionally vigorous plant. New growth and flowers come mid to late summer. Ruby colored, Cherry pink		
red flowers		<ul><li>5.50</li><li>5.50</li></ul>
NEW for 2018 – 'Jade' – An old white spectabile hybrid with bright flowers in late summer above bright green glossy leaves. Clumps reach 15-18" tall and wide	1 Gal.	5.00
NEW for 2018 – 'Joyful' PPAF – An Intrinsic Introduction! Extra pointy gray-green foliage on tight clumping plants that grow 1' tall and 18" plus wide. chalky pink flowers bloom late summer in 4" plus clusters. Full sun, Well drained soil	70 plug 1 Gal.	1.00 5.00
'Kay's Little Joy' – This mounding sedum has light gray green foliage reminiscent of Neon but even shorter and more compact with med pink flowers. Great habit and super disease-resistant this is a great new Sedum	70 plug 1 Gal	.75 5.00
'Lajos' PP#14,421 Autumn Charm <sup>™</sup> – An Intrinsic Introduction A variegated form of Sedum 'Autumn Joy'. Creamy yellow edge with green centers. In mid September white buds turn to pink then russet red. A four season plant. Comments: Our first patented plant. This form is very stable. For licensing information call Brent	es	6.50
<i>'Lime Twister'</i> PPAF – A sport of <i>Lime Zinger</i> with soft yellow edg in spring which fade in time. Spreading clumps reach 6-8" tall and 12" wide. Pink flowers are shy to show themselves in late summer		5.50
'Peace and Joy' PPAF – An Intrinsic Introduction! This 'Pure Jorelative has a similar habit but this plant has bi-color magenta and pink flowers in September. Along with that the grey green foliage takes on a reddish edge and purple stems, a very nice addition. Grows to 1' tall and 12-15" wide. Full sun, well drained soil. Resistant to Rhizoctonia.	70 Plug	1.25 6.00
'Pillow Talk' PP#28,528 – An Intrinsic Introduction! Substantia plants with hybrid vigor reach 18-24" tall and wide. Gray-green foliage is also larger held on rose colored stems and at times can have reddish edges. Large 5-6" flower heads of deep pink and magenta stand out from the crowd. Fall color of chartreuse and pink foliage too. Resistant to Rhizoctonia. Full sun to light shade, well drained soil is best	70 plug	1.25 6.00
<i>'Plum Perfection'</i> PP# 22,690 – <u>An Intrinsic Introduction!</u> Grey tips are followed by perfect plum foliage on tight clumps growing just over 1' wide and only around 8" tall. Bi-color pink flowers in late August-September. Full sun to light shade in well drained soil	URC 70 plug 1 Gal.	.30 1.00 5.00

Sedum X Autumn Stonecrop  'Pure Joy' PP#24,194 – An Intrinsic Introduction! Blue green foliage reminiscent of Sedum sieboldii in tight compact clumps only reaching around 12" high and up to 15" wide. Bicolor pink flowers begin in September. Full sun well drained	P	V
soil is best. A Proven Winner perennial!	1 Gal.	6.00
'Rock Star' PPAF – An Intrinsic Introduction! Pointed gray-green foliage in tight clumps has pink flowers on 1' stems, starting in Mid-August through September. A pink companion to Thundercloud, selected as much for its foliage as it was for the flower color! Full sun, to light shade. Well drained soil is best	70 plug 1 Gal.	1.00 6.00
<i>'Thundercloud'</i> PP#21,833 – An Intrinsic Introduction! Unique pointed grey green foliage emerges in spring on strongly mounding domes. Slowly expanding to 10-12" mounds with white spectabile type flowers the end of August into September. Full sun; well drained soil. For licensing information call Brent	URC 70 plug 4 1/2" 1 Gal.	.30 .75 3.00 5.00
'Wildfire' PPAF – If you like subtle and variegation, this is your plant. A vigorous sport of 'Firecracker' that has pink edged foliage, who needs the pink flowers. Spreading clumps 4-6" tall and over 1' wide. Full sun, well drained soil	1 Gal.	5.50
Silphium laciniatum <i>Compass Plant</i> Big leaves with deep cuts form loose, substantial mounds with 7'+ stalks of sunflower like yellow daisies in June/July. Moist soil in full sun	1 Gal.	6.00
Silphium perfoliatum <i>Cup Plant</i> Huge plants up to 9' tall and 4' wide on top. Many yellow flowers in late summer. The leaves form cups at the stem which hold water. An important bird plant providing seeds and water. Prefers moist soil in full sun. <u>Available in June</u>	1 Gal.	6.00
Silphium terebinthinaceum <i>Prairie Dock</i> Substantial clumps of foliage up to 2-3' tall and wide with slender flowering stems 5-6' plus. In late summer and early fall yellow flowers seem to hang in the air. Long lived. Full sun, well drained soil	1 Gal.	6.00
Stachys byzantina Lamb's Ears  'Big Ears' aka 'Helene von Stein' – This variety has more green to the larger, hairy leaves, does not flower as heavily, and resists melting out in hot weather	1 Gal.	5.00
<i>'Silver Carpet'</i> – This form of Lamb's Ears rarely blooms. Similar to the species in looks and culture	1 Gal.	5.00
Stachys monieri <b>Betony</b> 'Hummelo' – A reliable plant with crinkled green foliage and clumps approximately 1' wide. Many deep pink flowers to 18" in summer. Some rebloom in fall. Comment: Named after the town in Holland where breeder Piet Oudolf has his nursery	1 Gal.	4.50

<b>Stachys</b> officinalis <b>Betony</b> 'Pink Cotton Candy' PP#21,436 – This new Stachy's from Chicagoland grows promises to be popular. Bicolor pink flowers in July on compact clumps around 15" tall. Nice deep green		
crinkled foliage too		5.00
substantial plants growing to 24" + have white and pink bicolor spikes that bloom in June into July. The crinkled green foliage i fragrant when crushed and deer resistant. Full sun; average soil. Adaptable, long lived and trouble free	s 70 plug	1.00 6.00
	70 plug	1.00
Telekia speciosa Heartleaf Oxeye  NEW for 2018 – Large hairy foliage reaching over 2' long, whorl aroun large plants that bloom golden yellow with thin ray petals in late summer. 4-5' stems command attention. Full sun, well drained soil.	nd	<b>6.00</b> 5.00
Thalictrum flavum Meadow Rue glaucum – One of those plants where the foliage and the flower make an overall greater effect together. Gray green foliage on substantial 5-6' upright plants topped by billowing clouds of light yellow. Prefer some shade but tolerates full sun with moisture. Comment: Would look nice combined with many other silver or gray foliage plants such as Baptisia, Eryngium, silver grasses, and Dianthus	1 Gal.	5.50
<b>Thalictrum</b> x <b>Meadow Rue</b> 'Anne' – Robust tall plants reach 7' tall with blueish green foliage on dark stems topped with bi-color purple and white flowers. Full sun in average soil, will tolerate light shade or moist soil. Available in June	3 Gal.	13.50
<i>'Splendide'</i> – Extra floriferous plants have lavender purple flowers with yellow stamens starting in June above airy foliage. Long blooming plants grow to 5'+. Full sun to part shade with moist drained soil is best	1 Gal.	8.00
Thymus praecox Creeping Thyme arcticus psuedolanuginosus (Wooly Thyme) – Tiny, ground hugging foliage with hairs that cause a silver/gray appearance. Pink flowers in June. (Groundcover)	4 1/2"	3.00
<i>'Bressingham'</i> – Grey green, ground hugging plants with good vigor are covered by pink flowers in June. Nice interplanted with the other thymes or at the base of lavender & roses. Full sun and well drained soil is best. (GROUNDCOVER)	4 1/2"	3.00

'Skyracer' – A vigorous 7-8', clumping, architectural grass with slender stems and a transparent appearance due to the 2' foliage. Blooms July into August. Its graceful golden flower stalks provide great fall interest. Needs full sun and well drained to moist soil	1 Gal.	5.50
Molinia caerulea Moor Grass  'Poul Peterson' – Relatively new to the U.S. trade, this selection comes from Overdam Nursery in Denmark and is a favorite of Piet Oudolf and Roy Diblik. Foliage is 1/2" wide with heavy blood plants in a V shape. Golden yellow fall color. Stems grow to 3' plus and have dark flowers in summer. Full sun, almost any soil	ming	5.50
'Variegata' – A small mound of yellow variegated foliage 6-8" tall and over 1' wide with somewhat insignificant maroon red flowers to 24+" in July. The bright yellow stalks are showy all year. Likes full sun to light shade, well drained to dry soil. Highly recommended!	1 Gal.	5.50
Panicum virgatum Switch Grass 'Northwind' – 2014 Perennial Plant of the Year. Gaining in popularity especially in the Midwest. This grass has a very stiff upright habit to 6' tall but only 15" wide on top. Full sun, well drained to moist soil. Comment: Selected by Roy Diblik of Northwind Perennial Farm in Wisconsin. Available in June	1 Gal.	5.50 12.50
'Shenandoah' (Red Switch Grass) – 'Shenandoah' Switch Grass starts to show red highlights in its foliage in July with red flowers in August/September. Grows to 4'. Full sun, moist soil. Warm season grass	1 Gal. 3 Gal.	5.50 12.50
NEW for 2018 'Totem Pole' PPAF – Clean blue green foliage on upright plants to 6' tall no doubt have Northwind as parent. Heavier bloom and a brighter inflorescence make this showier		<b>V</b> 6.50
Pennisetum alopecuroides Fountain Grass  'Ginger Love' PPAF (Fountain Grass)— An Intrinsic Introduction If you like Red Heads you'll love Ginger Love. This red flowered fountain grass grows 2-3' tall and wide with thick red inflorescense starting in August and holding on until October. Plants should be deadheaded once seeds start to drop. Full sun, well drained to average soil. Zones 5-9	50 plug 1 Gal.	
'Hameln' (Dwarf Fountain Grass) – Green mounds have showy 4" bottlebrush flowers in late summer on very uniform plants that reach 3". Our most popular grass, although it can be marginally hardy here. Frequent division in spring (once plants show green) will keep plants vigorous and help overwintering. Full sun and well drained soil	1 Gal. 3 Gal.	5.00 12.00

Pennisetum alopecuroides Fountain Grass 'Piglet' PP#19,074 – An Intrinsic Introduction! This new dwarf fountain grass tops out at around 18" tall and wide. Full sun,well drained soil. Comments: The flowers are substantial enough to be viewed in the landscape compared to 'Little Bunny' and plants grow to about half the size of		
<i>'Hameln'</i> . Try with Pixie Meadowbrite <sup>™</sup> or Liatris <i>'Kobold'</i> . For trial or licensing, information, please call Brent	50 plug .1 Gal.	1.50 5.00
'Red Glare' – An Intrinsic Introduction! This very upright fountain grass is also one of the earliest to bloom starting in July. Reddish flowers on 42-48" tall plants only reach around 24" + wide on top	.1 Gal.	5.50
'Red Head' (Red Head Fountain Grass) – An Intrinsic Introducti An early form of red flowering Pennisetum. I selected this one in 1998 from among Pennisetum 'National Arboretum'. 'Red Head' shows its red inflorescence the beginning of August, one month earlier than most. It looked stunning against the Feather Reed Grass in the field beds at the nursery. Nice with other red grasses, variegated Miscanthus	on! AWAR WINN	D HR
and Joe Pye Weed. Full sun, well drained to moist soil. It should be deadheaded in October to prevent reseeding.  Awarded in 2010 at the ISU Conference in Europe	50 plug 1 Gal. .3 Gal.	1.50 5.00 12.00
Pennisetum alopecuroides Sip of Wine™  'Red Rocket' PP#28,715 – An Intrinsic Introduction! Get ready for take off, when the dark red flower spikes of 'Red Rocket' bloom in late summer they will be flying off the shelf. 3' x 3' +	50 plug	2.00
substantial plantsare the perfect size to blend the tall and small in your border. Full sun, well drained soil	1 Gal.	5.50 13.00
Schizachyrium scoparium Little Bluestem One of the most ornamental natives, it stands 3' tall and exhibits great orange-red fall color and fluffy silver seed heads along the stems in September. Native to all lower 48 states. Prefers full sun and moist to well drained soil. Warm season grass	4 1/2" .1 Gal.	3.00 5.00
'The Blues' – A selection with exceptional blue foliage. Propagated vegetatively. Highly recommended. Four season interest. Flowers later than the species in September. Prefers full sun and moist to well drained soil. Warm season grass. Great with other blue grasses	.1 Gal.	5.50
'Jazz' – An Intrinsic Introduction! An exciting selection that comes from 'The Blues'. 'Jazz' is a shorter form growing 2'+ with the same blue foliage and will not fall over. Makes a good replacement for Blue Oat Grass. Native. Some purple fall color to the stems too. Full sun, well drained soil is best		2.00 6.00
Sesleria albicans Balkans Moor Grass NEW for 2018 – Bi-color evergreen foliage has 1/4" wide blades that are chalky green on top and silvered on the bottum. Early blooming plants begin in April with yellow pollen covered florets on 12" plus stems tucked into the clumps. Foliage reaches 12" tall by 15-18" wide. Moist to drained soil in Full sun.	.1 Gal.	5.50

#### VINES

Akebia quinata Chocolate Vine  Palmate 5 part leaves on twining vines growing over 5' a year once established. Chocolate red flower clusters can yield 5" long banana shaped fruit gray in color. Part shade preferred. Average soil 1 Gal.	9.50
© CLEMATIS — All Clematis like cool, shaded roots in moist soil.  Most bloom in early summer.  All vine Clematis will come with a metal trellis.	
Clematis paniculata Sweet Autumn Clematis This good growing, fall flowering Clematis with masses of small, fragrant white flowers in September eventually reaches 15-20'1 Gal.	9.00
Clematis x Clematis  'Arabella' – Lavender blue flowers from May until frost. This short climbing vine only reaches 4-6' but deserves more use. It can be planted between perennials as a groundcover too. The roots like to be shaded but the tops like full sun. Available in June	9.50
'Comtesse de Bouchard' – Light pink petals with a deeper strip down the center. Bushy, vigorous plants. Rated one of the best by the Chicago Botanic Garden. Available in June	9.50
'Jackmanii' – The staple vine in many gardens, this variety has 4-5" purple flowers on vines reaching 20'+. No pruning necessary.  Available in June	9.50
<i>'Nellie Mosier'</i> – 6" Bicolor flowers bloom May and June. Mauve pink petals have darker pink stripes down the center1 Gal.	9.50
Hydrangea anomala <i>Climbing Hydrangea</i> petiolaris – A deciduous vine with many ornamental attributes including glossy foliage, flat white flowers in August and beautiful exfoliating bark. It is also very shade tolerant. May be slow to establish but well worth it! Grows over 30 ft	15.00
A long lived vine at our nursery, ours is growing together nicely, complementing a native grape — Vitis riparia. Coral red fingered with yellow clusters start blooming in June. Grows to 20'+. The foliage has a nice blue green cast as well	7.50
Parthenocissus quinquefolia Virginia Creeper Rapidly growing vine, can reach 30-50' high. Scarlet in the fall. Native. Sun or partial shade. Tolerates poor or dry soil, as well as heat and salty conditions	7 50

7.50
