Intrinsic Perennial Gardens — 27 Years of Highlights

History

- 1992** Started selling perennials
- 1994** Built a 3,000 sq. ft. heated greenhouse
- 1996** Constructed a 4,500 sq. ft. production building with office
- 1997** Introduced our first selection *Penstemon digitalis* *Pink Dawn*
- 1998** Published first descriptive wholesale catalog
- 1999** Built a 3,000 sq. ft. gutter connected greenhouse adjacent to our production building
- 2000** Fully-automated irrigation system, developed a website
- 2002** Hosted the PPA growers tour
- 2003** Received our first plant patent #14,421, for *Sedum* x 'Lajos' *Autumn Charm*™
- 2004** Reached 1 million in sales
- 2005** Doubled our office space
- 2006** Received our first royalty check
- 2008** Doubled our greenroof sales
- 2009** Establish *Sedum* cutting beds in order to sell *Sedum* by the pound and our breeding work was highlighted in *Nursery Manager Pro* magazine.
- 2010** We installed a gravel garden and *Pennisetum Red Head* received an award from the ISU in Europe
- 2011** Installed Trudy's Garden, named for my mom.
- 2012** Installed two new display gardens: a *Sedum* gravel garden and Sonja's Garden, named for my sister.
- 2013** Featured on the cover of *American Nurseryman* magazine.
- 2014** Brent's book on *Sedum* published.
- 2015** Brent's *Sedum* book received the Gold Award from the The Association for Garden Communicator.
- 2015** First Annual Ornamental Grass Day, and installed a grass garden.
- 2016** Perennial Plant Association Grower of the Year.
- 2019** Hosted 5th Annual Ornamental Grass Day.
- 2019** *Rudbeckia* AGR selected as an All-American Selection
- To date** We've sold over 5 million plants

OUR MISSION

- *To service our customers fast and fully*
- *To cultivate healthy and happy employees*
- *To grow the best ornamental plants available, mainly perennials*
- *To grow plants as naturally as possible for ourselves and for the environment*
- *To breed and introduce new plants into the trade*

January 2020

2019 was a great year for Intrinsic Perennial Gardens. Looking back we enjoyed many great visitors from all over including a PPA tour in July and Fergus Garrett from Great Dixter in September. Our *Rudbeckia* x 'American Gold Rush' won the All American Selection award just in time to meet the growing supply. It was and will continue to be one of our top selling plants for its naturally compact habit and disease resistant foliage. I also celebrated my 50th birthday and 29th year growing perennials.

New plants for 2020 include a wide range of our favorite genera. *Amsonia* x 'Bases Loaded' PPAF is our most refined intermediate size foliage yet. Extra dark green foliage shows off the heavy clusters of light blue inflorescences on 18-24" stems. Reserved growth keeps the 30" plants wider than they are tall. Stay tuned for future *Amsonia*. *Bouteloua gracilis* 'Honey Blonde' PPAF is a larger Grama grass selected for uniform growth, good vigor and upright stems standing up to winter. *Dianthus* x 'Fuchsia Fire' PPAF is the first plant introduction from breeder Jake Letmanski, who I've been lucky enough to mentor since he joined our team in 2017 at 15 years old. His introduction has the great attributes of 'Firewitch' but is half the size and has Kahori in its background which helps its sporadic rebloom. 'Fuchsia Fire' are matting silver plants that spread out instead of opening up in the middle. A portion of the royalty will go to Jake as he pursues horticulture in college fall of 2020. *Eupatorium* x 'Polished Brass' PPAF is an absolute pollinator and butterfly magnet. The 4' tall hybrid plants emerge with glossy bronze red foliage and bloom like a cloud in August with creamy white flowers. For the future we have a Joe Pye weed with purple foliage. We are offering five new hosta, several coming from Hans Hansen's breeding at Walters Gardens.

After 19 years breeding, *Pennisetum alopecuroides* 'Love and Rockets' PPAF is a dwarf red flowering fountain grass close in size and stature to 'Hameln'. The reddish flowers combine nicely with the dark green foliage with red tips. 'Yellow Ribbons' our 2019 intro looked great at every trial site I saw it in. Next year we will introduce a broad leaved form with yellow foliage. Think 'All Gold' for full sun. *Salvia nemorosa* 'Sixteen Candles' PPAF has less branched upright flowers. The pink flowers are backed up by purple and violet calyxes and stems adding depth and contrast. We're pleased to offer five new sedums. *Sedum rupestre* 'Angelina's Teacup' PPAF is new from Chris Hansen of Garden Solutions and is a tight non-flowering improvement on 'Angelina' with gold foliage throughout the year, plus a variegated purple foliage sedum called 'Dream Dazzler'. Intrinsic Introductions, *Sedum sexangulare* 'Yellowstone' PPAF is a more robust and bright improvement on 'Golddigger' and *Sedum album* 'Nerds' is a low groundcover with interesting orange to russet red color from winter into spring. I'm pleased that *Sedum* x 'Pride and Joy' PPAF will become our fourth Proven Winners perennial. It's a deeper pink sport of 'Pure Joy' and has the same great dome shaped habit, 1' tall by 15-20" wide. Our 2008 intro *Polemonium* x 'Heaven Scent' will also become a Proven Winners perennial this year, making it our fifth perennial along with the annual *Salvia elegans* 'Golden Delicious' for a total of six plants in the program. Finally, *Veronicastrum virginicum* 'Queen of Diamonds' was selected for extra clean, dark green foliage. After the soft pink flowers in late summer, the upright 4' plants stand chocolate brown all winter long.

Our 6th Annual Ornamental Grasses Day is Friday September 18th, 2020 when our ornamental grasses will be at their peak.

Brent Horvath

Inventory Availability:

Lois@intrinsicperennialgardens.com

Accounting:

Acouns@intrinsicperennialgardens.com

To Establish An Account

To establish an account for your business, please submit a fully completed New Customer Form. As proof of business, we will require the following:

1. Trade References
2. Statement understanding our Terms

Please call and ask Customer Service for a New Customer Form.

Availability

Our plants are primarily grown and overwintered outside without heat resulting in Hebron Hardy perennials! Availability begins the first week of April and continues through October. For best results order from our weekly list.

Price Quotes

Price quotes are generally returned the same day as requested. Please call if you do not receive a response within 24 hours. Price quotes are good for the calendar year they are quoted in.

Pick Ups & Orders

While we do not require minimum quantity orders, we do request your help in making peak season (April-June) orders less confusing by ordering in full case quantities. Full case quantities are as follows: 6-1 gallon per tray; 12-4 1/2" (qts.) per tray. 2 and 3 gallon pots will be sold individually. Our plugs come in 50 plug trays and 70 plug trays.

Orders can be faxed to the nursery at (815) 648-2072 or emailed to sales@intrinsicperennialgardens.com. When emailing, please include all necessary information such as pick up or delivery and ship date. When emailing additions to an order, send only additions/changes or clearly state to disregard original order. Orders are pulled only when we have a confirmed ship date.

Customers are welcome to stop and shop at the nursery by appointment.

Please Note: Spring backorders are generally ready mid- to late-June but are crop dependent. Also, we can label plants with prices for a nominal label fee.

Recycling

We are happy to accept used one-gallon containers in good condition.

Weekly Email List For Customers

Our weekly broadcast publishes plants that are blooming, budding, have showy foliage and are available for delivery immediately. This plant list is available for active customers only. Just call (815) 648-2788 if you are interested in receiving Intrinsic's Blooming List weekly in season. You can also sign up download the list from our website.

Delivery & Fuel Surcharge

Delivery is free for orders over \$400.00 within 75 miles of our nursery. Orders below the minimum will be charged \$60.00 delivery (\$30.00 local if we are already headed your direction with another delivery). Outside of a 75 mile radius from our nursery, delivery fee will be determined case by case with a minimum delivery fee of \$100. \$1000 minimum order for deliveries over 100 miles. We have a 30¢ per mile fuel surcharge on all deliveries, with a \$15 minimum fuel charge.

Currently, we have two delivery trucks. We do our best to accommodate swift shipment of orders and delivery on the date requested. Generally, we ship one to three days from order date. We cannot give exact delivery times, please call the morning of delivery to get our best estimate!

Gallon plants are shipped in trays that are unpacked upon delivery. Trays are available for purchase for our current cost *with advance notice*. Trays kept by customers at the time of delivery will be charged, and this fee will be added to the order invoice.

If no one is on site to help unload plants on orders of fifteen cases or more, a \$50.00 unloading fee will be added to the order invoice. Orders over 24 cases will not be unloaded without help.

🌿 **CUSTOMER INFORMATION** 🌿

Delivery Routing

We do not follow a strict delivery schedule, orders are shipped as soon as possible, usually next day or the following day.

Terms

Billing terms for new accounts are cash (C.O.D.) only at the time of delivery. Terms for established accounts are Net 30 Days. There will be a 1.5% per month service charge on accounts past due 30 days from date of invoice. Unless we have on file a copy of your Certificate of Registration, Certificate of Resale, or a letter containing tax exempt status on a certain job, we will collect 7% tax on all orders. Tax exempt job information must be presented at time of order. Please note: The Illinois Department of Revenue does not recognize out of state registrations. Therefore, our Wisconsin customers must pay sales tax when picking up orders in Illinois.

IPG accepts Visa, MasterCard, and Discover payments.   

Returned Check Policy

There is a \$25.00 returned check fee. Accounts which present NSF checks will be set to C.O.D. until account remains paid in full for a minimum of three consecutive months.

Plugs / Contract Growing

We can contract grow any size from 70 plug to 3 gallon containers, etc. Contracts require a 33% nonrefundable down payment. Plugs on many of the varieties propagated by cuttings are available. Plug availability varies based on season, and is updated online monthly.

Intrinsic Perennial Gardens and its owners are members of the following organizations. Web links are available at our website.

 **Sedum Society**

Trade Names

Just a few notes regarding the correct use of trade names (™/®): 1. Trade names always should be used in conjunction with variety names. 2. Trade names must be distinct from variety names. 3. Trade names are to be used like common names. 4. Trade names do not use single quote marks.

Volume Pricing/Discounts

Volume pricing is negotiable for quantities over 50 on many of our 1 gallon size plants. The 4 1/2" size groundcovers have the following special quantity prices. Volume discounts are available for companies with a history of current accounts and high volume sales. Discounts apply to accounts in good standing. Only accounts in good standing are eligible for volume discounts and special pricing.

Our Commitment

Our goal is to service fully each customer. If you are looking for additional services, please let us know how we can better serve you.

Disclaimer

All plant material availability is subject to natural and unnatural conditions beyond our control. We try very hard to sell plants true to name and of high quality. We cannot be responsible for materials once accepted or after they leave the nursery.

Wholesale prices are for horticulture trade professionals only.

🌿 **CONTAINER VOLUME**

Our plants are grown and sold in the following volume pots.

Manufacturer	Pot Size	U.S./Imperial	Metric
T.O.P.	4 1/2"	1.13 Qts	1.07 liters
Nursery Supplies/Dillen	1 Gal	2.96 Qts/ .74 Gal	2.809 liters
ITML	2 Gal	6.40 Qts/ 1.6 Gal	6.062 liters
Nursery Supplies	3 Gal	11.37 Qts/ 2.84 Gal	10.764 liters

OUR PLANT PROGRAMS

U.S. native plants tough enough for a Midwest greenroof have carefully been selected by Intrinsic Perennial Gardens to provide your Midwest greenroof with life and color. Striving to create a new biota through life and color for your greenroof. Like the prairie before and the city present, the BIOdiverCITY Blend™ strives to connect our flora and fauna. By creating a new ecology on the roofs of our homes and businesses, and linking our parks and our gardens to the tops of our roofs.

The **SKYSCRAPERS** are the natives of the short grass prairie.

The **STREETS** are paved with flowers and foliage.

The **SUBWAY** is the roots, the soil, fungi and bacteria.

The **PEOPLE** are the insects, birds and the bees.

This is our new CITY, our Bio diverse CITY.

IPG Top 10 Natives for an extensive greenroof:

Allium cernuum
Campanula rotundifolia
Coreopsis lanceolata
Dalea purpurea
Geum triflorum
Heuchera richardsonii
Koeleria macrantha
Penstemon hirsutus pygmaeus
Sedum ternatum
Talinum calycinum

Let us custom grow your next native greenroof!

Top Pollinator Friendly Plant List

<i>Achillea</i>	<i>Heliopsis</i>
<i>Agastache</i>	<i>Liatris</i>
<i>Asclepias</i>	<i>Lobelia</i>

SEDUM SAMPLER™

We offer a mixed flat of Sedum sold in trays with four different varieties in each tray. They are selected based on best-looking foliage at the time/our choice. Retailers keep coming back for more!

6 mixed cases – our choice
72 @ 3.50 each, Total = 252.00

12 mixed cases – our choice
144 @ 3.40 each, Total = 489.60

GOT SEDUMS?

Brent Horvath's first book, *The Plant Lover's Guide to Sedums*, is published by Timber Press. It includes everything you need to know about these beautiful gems. Plant profiles highlight 150 of the best varieties to grow, with information on zones, plant size, soil and light needs, origin, and how they are used in the landscape. Additional information includes designing with sedums, growing and propagating them, where to buy them, and where to see them in public gardens.

Achillea	<i>millefolium</i>	Yarrow	
‘Oertel’s Rose’ – A new, brighter pink. 18” plants with a nice habit and clean foliage. Blooms in June. Prefers well drained soil in full sun..... 1 Gal. 4.75			
‘Paprika’ – Flat red heads starting in June grow to 30”. Full sun, well drained soil..... 1 Gal. 4.75			
Achillea	x	Yarrow	
‘Moonshine’ – Sulfur yellow flowers bloom in June on ferny silver foliage, may rebloom if cut back. 24-30” plants. Full sun, well drained soil..... 1 Gal. 5.00			
Aconitum	<i>carmichaelii</i>	Monkshood	
Violet blue hooded flowers in loose spikes standing 5 – 6’ tall. A fall bloomer starting in September. Similar to Delphinium. Poisonous. Prefers moist soil and part shade. <u>Comment:</u> A plant I highly recommend using with fall grasses..... 1 Gal. 5.50			
Agastache	x	Lavender Hyssop	
‘Blue Fortune’ – An outstanding sterile hybrid. ‘Blue Fortune’ blooms over two months starting in July with purplish blue 5” spikes on 36”+ mounding plants. Full sun to part shade, well drained soil..... 1 Gal. 5.00			

AJUGA — *Ajugas prefer moist, well drained soil and protection from winter wind and sun. They start blooming in May.*

Ajuga	<i>reptans</i>	Ajuga / Bugleweed	
‘Catlin’s Giant’ (Giant Ajuga) – Huge, deep green leaves with bronze purple highlights support 8-10” spikes of blue flowers in spring. Prefers moist, well drained soil and protection from winter wind and sun. (GROUNDCOVER)..... 4 1/2” 3.50			
‘Chocolate Chip’ aka ‘Valfredda’ – Thin, shiny, green foliage with chocolate highlights on slowly spreading clumps. Thin blue flowers spike in May to 6”+. Prefers constant moisture with good drainage and part shade. (GROUNDCOVER)..... 4 1/2” 3.50			
Alchemilla	<i>mollis</i>	Lady’s Mantle	
‘Thriller’ – A staple in the border, Lady’s Mantle can be grown in both sun and shade and well drained to moist soil. Bright yellow green flowers in May on 15”+ clumps. <u>Comments:</u> Known for holding water droplets in their leaves. New varietybred for cut flower use..... 1 Gal. 5.00			
Allium	<i>cernuum</i>	Nodding Onion	
Native throughout the U.S., this onion relative has pink nodding flowers in August and reaches 18”. Full sun to part shade, well drained to moist soil. Nice fall color. Good as a cut flower..... 1 Gal. 5.00			
‘Wine Drop’ – <u>An Intrinsic Introduction!</u> This vegetative form of Nodding Onion was selected for its darker pink color. At cool times the pedicels are wine colored too giving an added hint of pink to the flower head. The foliage is on the thin side. Stems grow 15-18” tall. Full sun, well drained soil..... 1 Gal. 5.50			

Allium	<i>cernuum</i>	Nodding Onion	
‘Falling Stars’ – <u>An Intrinsic Introduction!</u> This white form of nodding onion has thicker gray green foliage on 18 – 24” tall stems a bit taller than the species. Full sun to light shade, average well drained to dry soil..... 1 Gal. 5.50			
Allium	<i>schoenoprasum</i>	Chives	
‘Forescate’ – A relatively new ornamental chive growing to 18” with silver grey foliage, and having rosy pink flowers mid May. Requires ..4 1/2” full sun and good drainage. One of our showiest spring bloomers 1 Gal. 4.75			
‘Rising Star’ – <u>An Intrinsic Introduction!</u> Extra dwarf pink chives reaching only 10-12” tall and wide, bloom in May. Fine grey, green, grassy foliage looks nice all season long. Easy to grow. Plants prefer full sun and average to well drained soil..... 4 1/2” 70 plug 1.00 3.50			
‘Schnittlauch’ – A dwarf form of chives growing only about 10”. Purple flowers in spring. Full sun, well drained soil 4 1/2” 3.50			
Allium	<i>thunbergii</i>	Ornamental Onion	
‘Ozawa’ – Pinkish purple flower clusters in October on stems of 1’ or less. Slender dark green foliage mounds 4-5” high. Prefers well drained soil, full sun. Clump improves with age. Frost resistant. Try it with Antennaria..... 4 1/2” 4.50			
Allium	x	Ornamental Onion	
‘Chivette’ PP#30,151 – <u>An Intrinsic Introduction!</u> A mostly sterile chive with edible kelly green foliage all season long. Initially upright but then more relaxed reaching 12-15” + long. This vigorous plant is easy to grow. Lavender purple flowers with a purple stripe down the middle of the pedal are also edible and held on 12” + stems. Beginning as round buds the flower open to 1” wide. Full sun preferred. Average to dry soil..... 1 Gal. 6.00			
NEW for 2020 – ‘Gladiator’ – This late spring blooming bulb has wide silver and green foliage that is as nice as the dusty purple flowers. Short stems hold 4” globes. Easy to combine with other June blooming plants. Full sun to light shade. Average to well drained soil 1 Gal. 6.00			
‘Globemaster’ – Huge lilac purple balls can reach 10” wide and sit on 3”+ stems above nice wide gray green blades of foliage. Full sun to light shade. Moist, well drained soil..... 1 Gal. 9.00			
‘Medusa’ PP#28,701 – This new twisting onion has senescens in the background but it’s all grown up compared to its little sister. Gray green foliage 1/4” or wider grows over 12” long and twists as it grows. Mid-summer blooms of lavender purple are held on thin yet strong stems growing 18” - 24” tall. Full sun, well drained soil 1 Gal. 6.00			
‘Summer Beauty’ – A strong, impressive onion with deep green glossy foliage that makes its own statement even without the pink flowers that stand 18”-24”. Blooms July. Full sun, well drained soil 1 Gal. 5.25			
‘Windy City’ PP#28,100 – <u>An Intrinsic Introduction!</u> Dark green glossy foliage reaches 15” tall and wide. Dark rose purple flower clusters begin to color in June and open in July on 18-20” stems. Full sun is best. Average well drained to dry soil. Very drought tolerant..... 50 plug 1.50 1 Gal. 6.50			

<i>Amsonia</i>	<i>hubrichtii</i>	Bluestar Flower	
This fine leaved has deep green needle like foliage. Plants reach 3' tall and wide. Nice fall color of orange to golden yellow. Full sun average to dry soil. <u>Available in June</u>			1 Gal. 5.00
<i>Amsonia</i>	<i>tabernaemontana</i>	Bluestar Flower	
'Fontana' – <u>An Intrinsic Introduction!</u> This red stem selection has slightly darker blue flower clusters at the end of May into June on 36" + plants. In August the red seedheads are showy too. Zone 4-9. Full sun to light shade. Well drained to dry soil.....			1 Gal. 5.50
'Short Stop' – <u>An Intrinsic Introduction!</u> Compact 2'+ plants bloom the end of May early June with light blue cone shaped flower clusters. While most Amsonias have a growth spurt after flowering, this one is stopped short. Yellow fall color too. Full sun is best. Average to well drained soils.....			1 Gal. 5.50
'Storm Cloud' - This exceptional form emerges with dark foliage including some near black. This also gives the starshaped blue flowers a deeper huge compared to the species. New growth after the flowers to 30"+. Full sun, average soil.....			1 Gal. 8.00
<i>Amsonia</i>	<i>x</i>	Blue Star	
'Blue Ice' – Deeper blue flowers in May that last longer make this an up-and-coming Amsonia. Wide foliage and good yellow fall color on 20"+ plants. Full sun, moist to well drained soil.....			1 Gal. 5.50
NEW for 2020 – 'Bases Loaded' – <u>An Intrinsic Introduction!</u> Intermediate, halfway type foliage, emerges dark green. These hybrid plants are heavy blooming. The light blue flower clusters are larger too and begin to open at the end of May on 18-24" stems. These plants have a reserved growth spurt to 30 inches plus after the flowers fade keeping the plant wider than tall. Full sun, average soil.....			
			1 Gal. 5.50
'First Hit' – <u>An Intrinsic Introduction!</u> Our second plant in the Baseball™ Series. This intermediate foliage is exceptionally dark and glossy, held on red-purple stems in spring, quickly followed by clusters of light blue flowers. The habit is also more compact growing around 2'+. Nice yellow fall color too. Full sun, average soil.....			1 Gal. 5.50
'Halfway to Arkansas' – <u>An Intrinsic Introduction!</u> The foliage is a glossy deep green and uniformly needle-like. Pale blue flowers cluster in May. Rounded mounds top out just over 48" tall and wide. Yellow fall color comes a bit later than the other Amsonias. Try it with Pennisetum 'Red Head'. Full sun to light shade in well drained to moist soil.....			70 plug 1.00 1 Gal. 5.50
'Midway to Montana' – <u>An Intrinsic Introduction!</u> Technically this is probably Amsonia tabernaemontana salicifolia as is our 'Halfway to Arkansas'. This form is practically half the size too. Mature plants have intermediate foliage around 3/8 - 1/2" wide with clumps maturing to 3' tall and wide. Light blue flower cluster bloom at around 12-18"+ with a bolt of foliage after that. These adaptable plants will grow in full sun to part shade and most any soil except wet. Fall color is a striking golden yellow. These plants can make a nice informal herbaceous hedge too.....			1 Gal. 5.50

<i>Amsonia</i>	<i>x illustris</i>	Blue Star	
'Seventh Inning Stretch' – <u>An Intrinsic Introduction!</u> Initially glossy foliage emerges green but smaller than a typical illustris. The habit on this hybrid is also upright but more reserved and is bushier. Light blue flower clusters bloom at the top of the thin stems in late May, early June eventually reaching 3' +. Full sun to light shade.....			1 Gal. 6.00
<i>Anemone</i>	<i>hupehensis</i>	Japanese Anemone	
'September Charm' – Two toned pink petals are very eye catching on 2-3' stems in late September. Brilliant golden yellow fall color. Part shade, dry to well drained soil.....			1 Gal. 6.50
<i>Anemone</i>	<i>hybrida</i>	Japanese Anemone	
'Honorine Jobert' – 2016 PPA Plant of the Year. This standard white Japanese Anemone blooms in late September. Bright white flowers with yellow eyestop 3'+ stems. Prefers a partly shaded, dry to well drained site. <u>Available in June</u>.....			1 Gal. 6.50
<i>Anemone</i>	<i>sylvestris</i>	Snowdrop Anemone	
Fragrant, single white flowers with yellow eyes in May bloom for a long period. The clean green foliage stays at 8". Some rebloom in fall. Well drained soil. <u>Comment:</u> Good for naturalizing or as a groundcover.....			1 Gal. 5.00
<i>Anemone</i>	<i>tomentosa (vitifolia)</i>	Grape Leaf Anemone	
'Robustissima' – Hardy and vigorous, the single pink flowers on 36" stems bloom in September, about one month earlier than those on other fall blooming Anemone. Part shade, dry to well drained soil. <u>Available in June</u>.....			1 Gal. 6.00
<i>Angelica</i>	<i>gigas</i>	Angelica	
Biennial. Substantial plants to 6'+ with round red flower clusters in late summer. Can reseed. Likes part shade with moist soil. <u>Available in June</u>.....			1 Gal. 6.50
<i>Aralia</i>	<i>cordata</i>	Japanese Spikenard	
'Sun King' – Substantial plants can eventually reach 4' by 4'. Bright yellow foliage make a great contrast with purple and bronze red foliage. Part shade in rich soil is ideal.....			1 Gal. 7.00
<i>Arunco</i>	<i>x</i>	Goatsbeard	
'Horatio' – This hybrid from Earnst Pagels has a robust habit growing 4' to 5' with deeper green foliage and some red in the stems, topped with full fingered creamy white flowers in June. Part shade with average to well drained soil.....			1 Gal. 7.50
<i>Asclepias</i>	<i>incarnata</i>	Swamp Milkweed	
Large shrub-like plants to 5' tall by 3' wide. Rose purple pink flower clusters in July. Monarch larvae love to eat the foliage. Full sun, moist soil.....			1 Gal. 5.00
'Ice Ballet' – Substantial plants, growing around 4', bloom abundantly with almost pure white, but slightly creamy clusters of flowers in mid to late summer. Attractive to butterflies. This plant prefers moist soil in sun.....			1 Gal. 5.50

PERENNIALS

Asclepias tuberosa Butterfly Weed
 This Illinois/Midwest native has flat clustered orange flowers in July on 2'+ stems. Lean, well drained soil. Extremely drought tolerant when established. Yellow fall color. Late to emerge in spring. Full sun.....1 Gal. 6.50

ASTERS

Aster ageratoides Japanese Aster
 'Ezo Murasaki' – Spreading plants grow 15-18" tall with a late summer bloom of violet blue flowers over a long period. Full sun to light shade, moist but drained soil.....1 Gal. 6.00

Aster divaricatus Woodland Aster
 'Eastern Star' – Thin petaled white flowers bloom late (August-September) on this 18" Aster. Some red fall color as well. Can take full sun, but prefers part shade. Tolerates dry shade.....1 Gal. 5.50

Aster dumosus KICKiN™ Aster
NEW for 2020 – KICKiN™ 'Lavender' – Bushy plants with good vigor reach 3' tall and wide. Lavender blue flowers begin in late summer. Full sun, average soil.....1 Gal. 5.50

NEW for 2020 – KICKiN™ 'Lilac Blue' – Blue flowers begin in late summer into fall on these robust plants reaching 2-3' tall and wide.....1 Gal. 5.50

NEW for 2020 – KICKiN™ 'Pink Chiffon' – Light pink 1" inch flowers on bushy plants 2' plus tall and wide. Full sun, well drained soil.....1 Gal. 5.50

Aster novae-angliae New England Aster
 'Purple Dome' – A compact semi-double purple New England Aster growing to 18". Moist to well drained soil, full sun. **Comment:** Goes well with Solidago 'Golden Fleece'. One of fall's best flowers blooming at the end of September. Highly recommended! Available in June.....1 Gal. 5.00

Aster oblongifolius Aromatic Aster
 'October Skies' / light blue – Light to bright blue flowers open at the end of September and bloom through October on 30"+ dome shaped plants. Slender fragrant foliage. Moist to well drained soil in full sun.....1 Gal. 5.50

Aster tataricus Japanese Aster
 'Jindai' – A different type of Aster whose leaves resemble those of Rudbeckia Goldstrum in size and texture. This variety stays shorter than the species at 4 foot tall and displays a large rounded cluster of light blue flowers in October. A US National Arboretum introduction. Needs moist soil, full sun.1 Gal. 5.50

ASTILBE — Most Astilbe do best in moist soil with part to full shade.

Astilbe arendsii Astilbe
 'Fanal' – Raspberry to brick red plumes in June stand at about 24". The foliage has red highlights throughout spring. Moist soil, part to full shade.....1 Gal. 4.75

Astilbe chinensis Chinese Astilbe
 'Maggie Daley' – Named after Mayor Daley's wife, this Astilbe has beautiful, glossy, dark green foliage with bright pink purple flowers in July on large heads. Grows 24" to 30" tall. Tolerates dryer soils than other Astilbe species.....1 Gal. 4.75

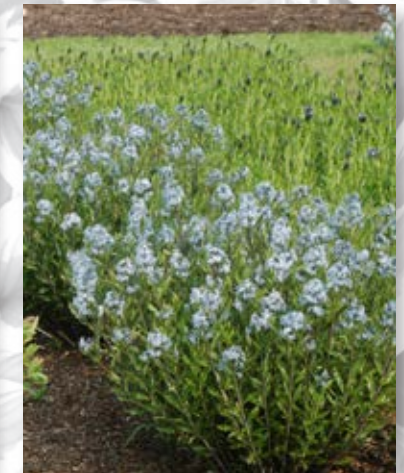

Allium 'Chivette' PP#30,151 with Salvia Lurie Strain

Amsonia x 'First Hit'

Amsonia t 'Fontana'

Amsonia x 'Bases Loaded'

Amsonia x 'Blue Ice' with Salvia

Dianthus x 'Fuschia Fire' PPAF

Echinacea p 'Mellow Yellows'

Astilbe	<i>chinensis</i>	Chinese Astilbe	
'Pumila' (Dwarf Chinese Astilbe) – A great ground hugging, spreading Astilbe excellent for edging or ground cover. Short stiff lavender pink flower spikes are long lasting in late July. Grows to 15" tall. Most drought tolerant variety. (GROUNDCOVER) 1 Gal. 4.75			
'Visions' – Glowing raspberry plumes in July to 18" above compact dark green, bronzed foliage. Tolerates dryer soils than the other Astilbe species. <u>Available in June</u> 1 Gal. 4.75			
'Vision in Red' PP#11,965 – Not quite red in my eyes, but an eye catching raspberry any way. Substantial glossy foliage looks good all season. Part shade, moist soil. <u>Available in June</u> 1 Gal. 5.00			
Astilbe	<i>japonica</i>	Astilbe	
'Deutschland' – A good white bloomer in June with glossy dark green foliage. Flowers stand at 24" 1 Gal. 4.75			
'Rheinland' – Similar to 'Deutschland' in foliage but with pink fingered plumes also in June reaching 24" 1 Gal. 4.75			
Astilbe	<i>rosea</i>	Rose Astilbe	
'Peach Blossom' – Light salmon pink plumes start in June and fade into multi-tones for an interesting effect. Good grower 1 Gal. 4.75			
Astilbe	<i>simplicifolia</i>	Star Astilbe	
'Sprite' – Finely cut, bronzed red foliage with an abundance of airy, soft pink flowers in July to 15". <u>Comment</u> : 1994 Perennial Plant of the Year..... 1 Gal. 5.00			
Astilbe	<i>taquetii (chinensis)</i>	Astilbe	
'Superba' – Large, tight clusters of purple tinted pink spires bloom mid July on this 48"+ Astilbe 1 Gal. 5.00			
Astilbe	<i>thunbergii</i>	Astilbe	
'Ostrich Plume' – In June, unique drooping flower plumes of salmon pink on 36" plants. <u>Available in June</u> 1 Gal. 4.75			
Astilbe	<i>x</i>	False Spirea	
'Delft Lace' PP#19,839 – Extra deep green foliage emerges red making a nice combination even before the substantial bi-color pink flowers in July on 24" stems. Part sun in rich moist to average soil 1 Gal. 6.00			
Astrantia	<i>major</i>	Masterwort	
'Pink Sparkling Stars' – Mounding plants have lobed foliage on 1' + by nearly 2' wide plants. In mid-summer intricate umbels of pink bracts below wine colored florets explode like fireworks and return later in the season for an encore. Vigorous plants prefers some shade and moist soil..... 1 Gal. 6.50			
Baptisia	<i>australis</i>	False Indigo	
2010 PPA Plant of the Year! Nice textured blue green foliage on a 3-4' shrub-like plant. Indigo blue flowers in June. Native. Grows in clay. Moist to well drained soil. Prefers full sun, but can take some shade. <u>Available in June</u> 1 Gal. 5.00			

Baptisia	x	False Indigo	
‘Pink Truffles’ PP#26,588— A new color in Baptisia. Chalky pink flowers spike on substantial plants blooming in June on 3’ - 4’ plus stems. Eventually mature plants reach 4’ x 4’. Full sun to light shade, most any soil buy wet.....			
			1 Gal. 8.00
‘Purple Smoke’ – Finer foliage and a shorter habit make this hybrid an easy to use plant in the landscape. Dome shaped plants to 24”+ bloom a smoky purple above to 36”+ May into June. Plants have light gray green foliage. Full sun, well drained soil. <u>Comment:</u> May take a year or two to mature in the garden.....			
			1 Gal. 7.00
‘Twilite’ Prairieblues™ PP#19,011 – Smoky purple and yellow bicolor spikes in June on substantial 4’ plants. Bred by Jim Ault of the Chicago Botanic Garden. Full sun, well drained soil.....			
			1 Gal. 8.00
Brunnera	macrophylla	Perennial Forget-Me-Not	
Large heart shaped leaves form impressive 12” clumps. Sprays of Forget-Me-Not blue flowers in April and May. Can naturalize. Prefers good drainage. Takes full sun to shade.....			
			1 Gal. 5.00
‘Alexander’s Great’ PP#25,789 – Exceptional size and vigor is a great reason to grow this variety. Extra large heart shaped leaves of silver veined in green on clumps over 1’ tall and 2’ wide. Small blue flowers bloom in spring. Part shade, well drained soil is best.....			
			1 Gal. 9.50
NEW for 2020 – Diane’s Gold PP#22,687 – Golden heart shaped leaves emerge in a spring with small bright blue flowers. Plants grow to 12” with flowers above that, spreading to 24 inches wide. Part to full shade, moist to average soil.....			
			1 Gal. 9.50
‘Jack Frost’ PP#13,859 – 2012 PPA Perennial Plant of the Year! Tiny blue flowers in May above silvered foliage with green veins that becomes solid silver later in the season. Prefers shade and moist soil. <u>Available in June</u>			
			1 Gal. 9.00
NEW for 2020 – Sterling Silver – Larger foliage grows 7 to 8 inches wide and is improved silver foliage Brunnera. Classic blue flowers in spring emerge with the foliage. Part to full shade. Average to moist soil.....			
			1 Gal. 9.00
Galamintha	nepeta	Calamint	
nepeta. Long blooming light blue flowers that can appear white, start mid to late summer and continue into October. Mostly sterile plants that grow 15-18” tall and wide, makes a nice filler. Full sun; well drained soil.....			
			1 Gal. 5.25
Chelone	glabra	Turtlehead	
Milky white flowers in September on 3–4’ plants. Deep green foliage. Performs best in moist soil. Full sun to light shade.....			
			1 Gal. 5.50
Chelone	obliqua	Turtlehead	
‘Hot Lips’ – Deeper green foliage distinguishes this turtlehead from the species. Deep pink flowers look like turtle heads in September on 3’+ plants. Deserves more use. Full sun to part shade, moist soil.....			
			1 Gal. 5.50
Chrysanthemum	suberbum		
See <i>Leucanthemum</i> , page 42			

Chrysanthemum	k		
NEW for 2020 – ‘Franz’ aka ‘Venus’ aka ‘Innocence’ – A hardy fall mum with a tall open habit to 30”. Tricolor flowers in October have pink tips, white bases, and yellow centers. Full sun to light shade, well drained soil.....			
			1 Gal. 5.50
Cimicifuga	ramosa	Bugbane	
‘Brunette’ – Deep purple foliage which does not fade. Eventually forming substantial clumps of foliage 2’+ followed by 5’ stems with fragrant white flower spikes in September. Highly recommended. Moist soil, partly shaded location preferred.....			
			1 Gal. 9.50
Convallaria	majalis	Lily Of The Valley	
Long, dull green leaves to 8” with clusters of fragrant white bells blooming in May. May go dormant in summer heat. Loves dense shade, fertilizer, and well drained soil. (GROUNDCOVER).....			
			4 1/2” 3.50
Coreopsis	tripteris	Cutleaf Coreopsis	
‘Flower Tower’ – Introduced by Jim Van Hoorn, this plant is bound to be popular. When I first saw it, I thought it was Rudbeckia ‘Herbstonne’. This is a tetraploid form of a native coreopsis with a commanding presence in the garden, reaching 7’ tall with thick 1” stems, deep green foliage, and a strong clumping habit.....			
			1 Gal. 6.50
Coreopsis	verticillata	Tickseed / Lanceleaf Coreopsis	
‘Zagreb’ – Dense compact plants reaching only 15” with deep yellow to gold flowers July/August. Moist to well drained soil, full sun.....			
			1 Gal. 4.75
Coreopsis	x	BIG BANG™ Series	
‘Full Moon’ PP#19,364 – Not at all new but we’ve decided this color and long bloom time are too hard to resist. Plus the plant is tough. Moonbeam yellow flowers almost 3” wide bloom non-stop from summer to fall on stems up to 2’ tall but usually shorter. Full sun, well drained soil.....			
			1 Gal. 5.50
‘Mercury Rising’ PP#24,689 – Velvet red flowers on bushy plants to 18” tall start to bloom in early summer continuing until frost. Full sun, well drained soil. <u>Available in June</u>			
			1 Gal. 6.00
Coreopsis	x	Threadleaf Coreopsis	
NEW for 2020 – Super Star PP# 30,805 – Rarely do I like oversized flowers but these seem to work with the bi-color yellow and red blooms on 16” tall and wide clumps. Long blooming 2.5 to 3” flowers are almost constant from the time they start in early summer. Full sun, well drained soil.....			
			1 Gal. 5.50
Delosperma	nubigenum	Ice Plant	
‘Basutoland’ – This seems to be the hardiest and most vigorous Ice Plant. Yellow flowers to 1” wide sit on top of light green succulent fingerlike foliage that creeps along the ground. Full sun well drained to dry soil.....			
			4 1/2” 3.50
Dianthus	gratianopolitanus	Cheddar Pinks	
‘Firewitch’ – Compact blue gray mounds nicely complemented by hot pink, almost magenta, flowers starting in May. Grows to 6”. One of the best. Prefers well drained soil and full sun. 2006 PPA Plant of the Year!.....			
			1 Gal. 4.75

<i>Dianthus</i>	x	Cheddar Pinks	
<i>NEW for 2020</i> – ‘Fuchsia Fire’ PPAF – <u>An Intrinsic Introduction!</u>			
This hybrid with ‘Firewitch’ has nearly the same color but the stems are half the size. Reaching 5-6” tall above silver and mat forming foliage the fragrant flowers begin in June, with some re-bloom sporadically throughout the season. Extra clean foliage is needlelike and silver and blue. Bred by Jake Letmanski. Full sun, well drained soil			
		70 Plug	1.00
		1 Gal.	5.50
<i>Dicentra</i>	<i>spectabilis</i>	Old Fashioned Bleeding Heart	
Beautiful, pink, heart shaped blossoms start in April and go into June on large plants that can become huge — up to 3’ tall by 3’ wide. They go dormant in the heat of summer. Moist to well drained soil, full sun to shade			
		1 Gal.	5.00
‘Alba’ – White form of the Old Fashioned Bleeding Heart described above. <u>Available in June</u>			
		1 Gal.	5.50
‘Gold Heart’ – Some of the brightest golden yellow foliage for the spring shade garden. Pink flowers in May into June. Plants go dormant in summer heat. <u>Available in June</u>			
		1 Gal.	9.00
<i>Dicentra</i>	<i>spectabilis</i>	Valentine® Old Fashioned Bleeding Heart	
‘Hortival’ PP#22,739’ – This new form of the old fashioned bleeding heart has red on white flowers compared to the original pink. Foliage color is also darker. Otherwise similar, growing large in time 30” tall and wide. Part sun, average soil			
		1 Gal.	6.50
<i>Digitalis</i>	<i>grandiflora (ambigua)</i>	Yellow Foxglove	
A perennial Foxglove with yellow flowers on 30”+ plants. Moist soil, full sun			
		1 Gal.	5.00
<i>Echinacea</i>	<i>pallida</i>	Pale Coneflower	
Similar to purple coneflower but the whole plant is hairier, and the pale pink petals droop more and bloom earlier — in June. Very drought resistant. Needs sharp drainage and full sun to light shade			
		1 Gal.	5.00
<i>Echinacea</i>	<i>purpurea</i>	Purple Coneflower	
‘Alba’ (White Coneflower) – Creamy white coneflowers at 3-4’ in early July. Nice in mass or shown with the pink varieties. Takes moist to well drained soil and full sun to light shade			
		1 Gal.	4.75
<i>NEW for 2020</i> – ‘Deep Pink Showoff’ – <u>An Intrinsic Introduction!</u>			
Extra long and wide reflexed petals present themselves above showing orange cones making the color stand out compared to the modern upright forms. Full sun, well drained soil			
		1 Gal.	5.00
<i>NEW for 2020</i> – ‘Mellow Yellows’ – This strain of soft and creamy yellow flowers can border on gold but not for long. Plants grow 30” tall. Long blooming plants starting in July. Full sun, well drained soil			
		1 Gal.	5.00
‘Rubinstern’ aka ‘Ruby Star’ – An improved ‘Magnus’ with more uniformity and deeper pink petals in July. Takes moist to well drained soil and full sun to light shade			
		1 Gal.	4.75

<i>Echinacea</i>	<i>purpurea</i>	Purple Coneflower	
‘Showoff’ – <u>An Intrinsic Introduction!</u> Selected for the extra wide and long drooping pink petals and extra showy orange cones, this seed strain stands out at a distance, especially when compared to the new upright petaled forms. Full sun well drained soil. Long blooming			
		70 plug	1.00
		1 Gal.	5.00
‘White Showoff’ – <u>An Intrinsic Introduction!</u> After years of observing the pink form and pulling out the best whites we are able to offer a white strain of Showoff. Bright honey-colored cones and hanging white petals on vigorous 3’+ plants. Great for a naturalistic planting. Full sun, well drained soil. Long blooming			
		1 Gal.	5.00
<i>Echinacea</i>	<i>tennesseensis</i>	Tennessee Coneflower	
The native species is a recent introduction in the trade. It differs from <i>purpurea</i> with thin hairy foliage and upright east facing, pink petals. More floriferous plants bloom in July over an extended period. Prefers full sun, well drained soil, and tolerates moisture <u>Available in June</u>			
		1 Gal.	6.50
<i>Echinacea</i>	x	Hybrid Coneflower	
‘Hot Papaya’ PP#21,022 – Even if you don’t love double Echinacea you will love the color on this double. Saturated red with hints of dark orange and pink too on round tops with petal hanging down all on tall 3’ stems. Full sun, average to well drained soil			
		1 Gal.	7.50
‘Intrinsic Hybrid Mix’ – <u>An Intrinsic Introduction!</u> These hybrids consist of multi-generation seedlings that come from a cross of <i>tennesseensis</i> . Some very unique forms, foliage and branching habits. Blooms in June			
		1 Gal.	4.75
‘Supreme Cantalope’ PP#24,897 – Double flowers colored cantaloupe orange are held on 3 foot plus stems. Long blooming plants			
		1 Gal.	7.50
<i>Echinacea</i>	x	Pixie Meadowbrite™	
‘CBG2’ PP#18,546 – A robust grower, this coneflower is loaded with deeper pink flowers than the species types and bloom over a long time. Shorter habit to around 24”. Full sun, well drained soil. Wouldgo nice with our new, shorter, fountain grass ‘Piglet’			
		1 Gal.	7.50
<i>Epimedium</i>	<i>grandiflorum</i>	Barrenwort	
‘Purple Pixie’ PP#13,966 – This variety has as much foliage interest as it does flower. In April clusters of 1” bicolor flowers of wine and white emerge just before the foliage. Then maroon red new growth emerges and holds on into July. Vigorous grower. Part shade, well drained soil. Price includes \$0.25 royalty			
		1 Gal.	8.00
<i>Epimedium</i>	<i>rubrum</i>	Barrenwort	
Slow spreading clumps with dull, leathery, semi-evergreen leaves to 10” just after the clusters of 1/2” four part, star shaped, red flowers in April. Moist, well drained soil in part shade. (GROUNDCOVER)			
		1 Gal.	7.50
<i>Epimedium</i>	<i>versicolor</i>	Barrenwort	
‘Sulphureum’ – Sulphur yellow flowers in early spring go with most anything. Prefers well drained to dry soil and a shaded location. (GROUNDCOVER)			
		1 Gal.	7.50

Eryngium planum **Sea Holly**
 blue – Rounded basal foliage make a substantial clump with 2'+ forked stems beginning early to mid-summer and holding on into early fall if you can resist cutting them to bring in. Loosed branched stems of gray, white and blue flowers have a spiny row of bracts. Full sun, well drained soil..... 1 Gal. 5.50

Eryngium yuccifolium **Rattlesnake Master**
 'Prairie Moon' - seed strain – **An Intrinsic Introduction!**
 This uniformly short seed strain was selected for its shorter statured 3'+ stems compared to the species which grows to 5' and tends to flop. The foliage is also thinner and bluer. White flowers begin in June or July. In fall the seedheads turn brown and hold on into winter. Plant in full sun, dry to well drained soil..... 1 Gal. 6.00

Eupatorium coelestinum **Mist Flower / Hardy Ageratum**
 blue – A similar flower to Ageratum but it is hardy and 2-3' tall. Blooms August/September. Nice foliage too. Should have a protected site. Emerges late in Spring. Available in June..... 1 Gal. 5.50

Eupatorium perfoliatum **Boneset**
 'Milk n Cookies' – **An Intrinsic Introduction!** This native wetland species tolerates average soil. This selection has chocolate red foliage with milky white flowers in July on 3' stems. Full sun, moist to average soil. Easy to combine with..... 70 plug 1.50
 1 Gal. 6.00

NEW for 2020 – 'Polished Brass' – An Intrinsic Introduction!
 The hybrid vigor is hard to miss on these robust plants. In spring the foliage emerges chocolate red, a trait that comes from the seed parent, *Eupatorium perfoliatum* 'Milk and Cookies'. The difference is the leaves are glossy and the whole plant is more robust growing 4' plus on sturdy stems. If you want pollinators and butterflies, this is your plant! In August into September the plant is a magnet. It would be nice with *Vernonia*'s. Plant and enjoy. Full sun, any soil..... 1 Gal. 5.50

Euphorbia palustris **Marsh Spurge**
 A commanding plant in the garden for both early and heavy blooms 24-30" plants bloom in early summer with some of the brightest yellow in the garden. After the flowers comes a spurt of growth with more matte green foliage holding onto colored stems that vary from green to coral to red-orange, depending the time of year. Plants are adaptable but will grow in wet soil. Full sun is best, but they tolerate some shade..... 1 Gal. 5.50

Filipendula rubra **Queen Of The Prairie**
 'Venusta' – This large 6-7' native prairie plant is very showy when its huge panicles of cotton candy like pink plumes are in bloom July/August. Seed heads are showy after flowering! Great for moist sites in full sun..... 1 Gal. 5.50

Galium odoratum **Sweet Woodruff**
 Glossy whorled foliage with starry white flowers at 6" bloom in April and May. Spreads by rhizomes. Fragrant foliage as well. Likes full sun with moist soil. Tolerates part shade with drained soil. (GROUNDCOVER)..... 4 1/2" 3.50

Why Plant Green?

- Because these plants don't bloom long or they bloom late
- They have great fall color
- They have exceptional texture
- You get to enjoy the plants longer
- Plants are green by nature!

Limonium latifolium with Ruellia humilis

Geranium	<i>andrewsii</i>	Bottled Geranium	
		Late blooming plants can begin in September which makes them a great companion to grasses. Especially nice with low clumping grasses like Sesleria and Sporobolus. Clusters of tube shaped blue flowers are hard to miss among the fading foliage in September and October. Plants grow up to 2' tall and tend to sprawl into their neighbors. Parts sun is best but tolerates full sun, dry too drained soil	1 Gal. 6.50
Geranium	<i>cantabrigiense</i>	Cranesbill	
		'Biokovo' – 2015 PPA Perennial Plant of the Year! One of its parents, macrorrhizum, gives this hybrid its aromatic foliage and light pink, almost white flowers in June on 8" plants. Red highlights in the fall. Evergreen. Takes well drained soil, full sun to shade.....	1 Gal. 5.50
		'Karmina' – Deeper pink flowers in June with the same glossy foliage as 'Biokovo' and beautiful red highlights in fall on ever-green foliage. Makes a great alternative groundcover. Full sun to part shade	1 Gal. 5.50
Geranium	<i>macrorrhizum</i>	Bigroot Geranium	
		'Bevan's Variety' – A great plant for reasons other than its May blooming, dark pink flowers on 15" spreading clumps. Looks great with ferns. Semi-evergreen. Well drained soil, full sun to shade. The foliage has an intriguing spicy fragrance, and the fall color can be the brightest red imaginable	1 Gal. 5.00
		'Ingwersen's Variety' – A light pink form with good fall color. Full sun to part shade. Well drained soil.....	1 Gal. 5.00
Geranium	<i>maculatum</i>	Spotted Geranium	
		An early bloomer for this family, starting at the beginning of May, this native Geranium has pink flowers on 15-18" plants. Red highlights in fall too. Likes moist, organic soil and part to full shade ...	1 Gal. 5.50
		'Espresso' – Dark green to bronze red foliage add another dimension to this adaptable native plant. Mid to light pink flowers in May on clumping plants that grow 15" tall. Some shade is ideal but they tolerate full sun with moisture.....	1 Gal. 6.00
Geranium	<i>sanguineum</i>	Cranesbill	
		'Ankums Pride' – Extra bright pink flowers lean to neon pink at times. Mounding plants reach 15" + and 15" x 18" wide. Well drained to average soil. Full sun to part shade	1 Gal. 5.50
		'Max Frei' – A tight mounding form that looks good all year growing only 8"+ tall. Magenta purple flowers in June continue sporadically to frost. Full sun to part shade, well drained soil	1 Gal. 5.00
		<i>striatum (lancastrinse)</i> – More and more popular and for good reason. This ground hugging form has long blooming, light pink flowers that start mid May with dark veins making it attractive to most everyone. This form needs more sun and good drainage	1 Gal. 5.50
Geranium	<i>soboliferum</i>	Cranesbill	
		A unique geranium since it begins to flower in September. Large clumps of pale green foliage reach 2'+ wide and 18"+ tall. Nice en masse or planted where it can weave between other plants. Perfect with <i>Eragrostis spectabilis</i> . Magenta and pink bicolor flowers dance along the foliage, which can have nice red highlights in October adding to its seasonal interest. Full sun to light shade, well drained soil	1 Gal. 5.50

Geranium	<i>wlassovianum</i>	Cranesbill		
A unique Geranium, this species has hairy foliage with some chocolate spots. In August and September it has bright blue flowers on sprawling clumps followed by bright red fall high-lights in the foliage. Full sun to light shade, good in moist and dry soil. Did great in drought of 2005 without watering in full sun. <u>Available in June</u>				
			1 Gal.	5.50
Geranium	<i>x</i>	Cranesbill		
'Brookside' – An improvement over 'Johnson's Blue', this variety flowers more and has great fall color. 1'+ clumps with bright blue flowers. Full sun with moist soil.....				
			1 Gal.	5.25
Geum	<i>triflorum</i>	Prairie Smoke		
One of the most ornamental natives, this plant has clusters of three-part, red flowers in April which turn into shiny, spidery seed heads. Plants grow to 10" and prefer moist to well drained soil. Full sun to part shade. Try it with Pulsatillas.....				
			1 Gal.	5.50
Geum	<i>x</i>	Garden Gems		
'Alabama Slammer' PP#23,750 – <u>An Intrinsic Introduction!</u> Hairy mounds of foliage grow 8-10" tall and over 1' wide. In May, burgundy stems to 18"+ bloom with multi colored deep orange flowers edged and highlighted with red. Mostly semi-double 1 1/2" flowers. Full sun, moist, drained soil.....				
			50 plug	1.75
			1 Gal.	5.50
'Banana Daiquiri' PP#25,351 – <u>An Intrinsic Introduction!</u> Clear lemon yellow semi double flowers on floriferous plants start blooming the end of April on 18"+ stems and continue through May. Semi evergreens foliage reaches 10" tall by 12-15" wide. Best in full sun with rich moist to average soil.....				
			50 plug	1.75
			1 Gal.	5.50
'Champagne' – <u>An Intrinsic Introduction!</u> Creamy white nodding to side facing flowers on substantial plants reaching 24" tall and wide sometimes taller. Vigorous plants hardy zone 4-8. Rich moist soil is best.....				
			1 Gal.	5.50
'Cherry Bomb' PPAF – <u>An Intrinsic Introduction!</u> Semi-double sterile flowers between grenadine and vermilion red fade to cherry pink. Held on maroon stems to 15" tall. Nice fuzzy green foliage too in mounds 10" tall and 12"-15" wide. Rich moist soil in sun is best.....				
			50 plug	1.75
			1 Gal.	5.50
'Citronge' PP#28,893 – <u>An Intrinsic Introduction!</u> Creamy orange flowers emerge in May from red stem and buds on 18" stems. Wide folded petals overlap giving a nice full effect. Heavy blooming plants have some rebloom too. Full sun, moist rich soil. Zone 4-8.....				
			50 plug	1.75
			1 Gal.	5.50
'Coppertone Punch' PP#28,376 – <u>An Intrinsic Introduction!</u> Semi-double orange flowers in May have shorter petals on top of the full size petals for a layered look. Saturated orange flowers on airy green stems 18" plus tall. Semi evergreen hairy foliage on 10" x 12-15" clumps look good all season. Moist rich soil is ideal, but average soil is suitable. Full sun.....				
			50 plug	1.75
			1 Gal.	5.50

Geum	<i>x</i>	Garden Gems		
'Cosmopolitan' PP#24,982 – <u>An Intrinsic Introduction!</u> Creamy petals flushed and edged with a rosey pink on semi double flowers that look like miniature roses, appear on 18" burgundy stems in May. Semi evergreen foliage on 10" x 12-15" clumps. Moist rich soil is ideal, but average soil is suitable. Full sun.....				
			50 plug	1.75
			1 Gal.	5.50
'Flames of Passion' PP#13,730 – Heavy blooming plants with semi-double red flowers in clusters growing 15-18" tall starting the end of April going through May. Prefers moist soil in full sun. Nicewith yellow spring bloomers like <i>Geum x</i> 'Tequila Sunrise'.....				
			1 Gal.	5.50
'Gimlet' - PP#26,223 – <u>An Intrinsic Introduction!</u> This light yellow Geum can have white tips in its petals especially as the semi double flowers fade. They begin blooming in early May and continue for 3-4 weeks. Full sun, rich moist soil is best.....				
			50 plug	1.75
			1 Gal.	5.50
'Limoncello' – <u>An Intrinsic Introduction!</u> Single lemon yellow flowers look straight up on 12-15" red stems. This is one of our heaviest blooming Geums. Full sun, rich moist soil.....				
			50 plug	1.75
			1 Gal.	5.50
'Mai Tai' PP#22,433 – <u>An Intrinsic Introduction!</u> Heavy blooming, vigorous plants have single to semi-double blooms of vermilion red fading to a peachy-pink in May. Clumping mounds reach just over 1' wide topped by burgundy 18" stems. Full sun, moist to average soil.....				
			50 plug	1.75
			1 Gal.	5.50
'Sangria' – <u>An Intrinsic Introduction!</u> A semidouble, sterile, intense red hybrid with a long bloom time starting the end of May and going through June into July.....				
			50 plug	1.75
			1 Gal.	5.50
'Sea Breeze' - PP#26,437 - orange – <u>An Intrinsic Introduction!</u> This robust grower has larger hairy foliage than most Geums. Orange flowers can verge on the red side after cold nights and measure 2" wide. The unique flowers have folded wavy petals like they are blowing in the breeze and are held on red 18"+ stems. Full sun, rich moist soil. Nice with Salvias.....				
			50 plug	1.75
			1 Gal.	5.50
'Solid Gold Dancer' PP#29,656 - <u>An Intrinsic Introduction!</u> A new color in garden gems, this is the first gold color in the cocktail series. Semi-double ruffled and sometime notched petals overlap to form a full looking flower. Hairy foliage on robust growing plants makes mounds 8" + tall and over 1' wide. Peak bloom is mid May. Full sun to light shade, rich moist soil. Side note: For those not familiar with this cocktail, that's because we made up the name and therefore had to make up the cocktail. I made this refreshing summer drink up waiting for a plane home in the Warsaw Airport. Reposado tequila on ice with three fresh squeezed lemon wedges. Sip and enjoy!.....				
			50 plug	1.75
			1 Gal.	5.50
'Tequila Sunrise' PP#21,514– <u>An Intrinsic Introduction!</u> The second in our cocktail series. Cool off your spring with a refreshing Tequila Sunrise. Lemony yellow single and semi double flowers drip with a touch of grenadine rose red on the end of the burgundy red stems. 1' clumps with the flower stems reaching 15-18" start blooming in May and go into June. Full sun with moist soil.....				
			50 plug	1.75
			1 Gal.	5.50

Geum	x	Garden Gems		
‘Top Shelf Margarita’ PPAF – An Intrinsic Introduction! This clear and bright yellow is nearly semi-double and stands out against the deep green foliage. Upright habit of red stems 15-18” tall. Makes great presentation in pots and at retail. Reliable rebloom on almost half of the plants is an exciting addition to this genus after 10 years of breeding.....				
			50 plug	1.75
			1 Gal.	5.50
‘Wet Kiss’ PP#27,227 – An Intrinsic Introduction! Is a deeper colored red sport of ‘Mai Tai’ with more vermilion to orange semi-double flowers. Red stems and buds grow to 18”. Full Sun, rich moist soil.....				
			50 plug	1.75
			1 Gal.	5.50

Heliopsis	<i>helianthoides</i>	False Sunflower		
‘Burning Hearts’ – The seed strain from Jelitto has combined two great attributes of purple new growth and extra deep green foliage with golden yellow, red eyed flowers. Plants grow 36” + tall and 18” + wide in time. Full sun, average to well drained soil				
			1 Gal.	5.00

Helleborus	<i>orientalis</i>	Lenten Rose		
‘Pine Knot Strain’ – Of all the hellebores we have tried this seems to have the best vigor and hardiness. A mix of white, pink and red that bloom in April. Evergreen clumps over 1’ tall and almost 2’ wide. Prefers part shade. Well drained soil				
			1 Gal.	8.00

HEMEROCALLIS (Daylilies) [dip=diploid / tet=tetraploid]
We have many additional daylilies, just ask.

Hemerocallis	x	Daylily		
‘Bela Lugosi’ (tet) – Deep purple 6” flowers on 30”+ stems. One of the best purples.....				
			1 Gal.	5.50
‘Bodacious Returns’ – Spider like 5-6” gold flowers bloom on 30” stems and rebloom reliably in late summer				
			1 Gal.	5.00
‘Cherry Cheeks’ (tet) – Bright cherry red flowers with yellow throats start at the end of July on plants with good substance and 30” stems.....				
			1 Gal.	5.00
‘Chicago Apache’ (tet) – One of the top red tetraploids on the market. 6-7” flowers on 30” plants. Late bloomer starting at the end of July. Destined to be popular!				
			1 Gal.	5.00
‘Chicago Sunrise’ (tet) – Pure gold flowers on substantial tetraploid plants. Growing just over 2’ tall.....				
			1 Gal.	4.75
‘Country Melody’ (tet) – True pink with a green throat and ruffled edges. 30” plants. From Roy Klehm.....				
			1 Gal.	6.00
‘Cranberry Baby’ – A small red flower 3” wide with a yellow eye on short 18” stems over thin foliage.....				
			1 Gal.	5.00
‘Happy Returns’ (dip) – Everblooming yellow starts in July. Deadhead to keep plants looking nice and reblooming. 15”+.....				
			1 Gal.	4.75

Hemerocallis	x	Daylily		
‘Hyperion’ (dip) – Still one of the most popular, this fragrant yellow variety stands 3-4’ tall. Tolerates part shade better than other varieties. Starts blooming in July				
			1 Gal.	4.75
‘Joan Senior’ (dip) – The premium white variety in daylilies blooms mid July at 30” with 5” blooms. Clean, robust foliage too.....				
			1 Gal.	5.00
‘Jumping Pumpkins’ – A Roy Klehm hybrid named by me after walking the fields with my dog Pumpkin, this one caught my eye twice among hundreds of yellow, orange, and other pastel daylilies. The shorter height to 18”+ and heavy bud set on uniform stems make a statement. Glowing cantelope orange with extremely ruffled edges on 5” flowers.....				
			1 Gal.	6.00
‘Mary Todd’ (tet) – The color of golden butter in July, they have a very high bud count and a long flowering period. 36”.....				
			1 Gal.	4.75
‘On Top’- Syn. Baby Stella™. An Intrinsic Introduction! One of the shortest daylilies you’ll ever see. The stems are typically 6” tall, which leave the golden flowers sitting right “on top” of the mound of foliage. Some rebloom. Prefers full sun, well drained soil. NOTE: We are breeding with this and should have some more extremely short ones in the future.....				
			1 Gal.	5.00
‘Pardon Me’ (dip) – Deep red 2 1/2” flowers with green yellow throats on 24” tall stalks rebloom once				
			1 Gal.	5.00
‘Root Beer’ (tet) – Dark red, almost black blooms in July with yellow eyes and sweet fragrance on 22” plants. Sometimes doubles appear. Good retailer!.....				
			1 Gal.	6.00
‘Screaming Yellow Zonkers’ – This is one of those landscape daylilies that has a heavy bloom on super uniform tetraploid plants that really make a statement. 30” or less sturdy stems hold canary yellow 5” + flowers with hints of green				
			1 Gal.	5.00
‘Stella De Oro’ (dip) – The ever popular everblooming daylily. Blooms with light golden flowers from June until frost on 15-18” stems. Goes nicely with blue Salvias. Deadhead to keep plants looking nice and reblooming				
			1 Gal.	4.75
‘Strawberry Candy’ (tet) – Extra long blooming bicolor pink with a raspberry red eye. Shorter habit to 26” and nice deep green foliage too. <u>Available in June</u>				
			1 Gal.	5.00

Heuchera	<i>micrantha</i>	Purple Leafed Alumroot		
‘Palace Purple’ / select – Has a ruffled texture with purple leaves and 18”+ sprays of white flowers in July. Very hardy and overwinters well in containers. Ours are grown from select seed to ensure deep red leaves. 1991 Perennial Plant of the Year				
			1 Gal.	4.75

Heuchera	<i>villosa</i>	Fairy Bells		
‘Autumn Bride’ / macrorrhiza – Matte green hairy foliage in loose 12” mounds. Cone shaped sprays of tiny white bells in late summer or early fall. Part sun, well drained soil. Many are planted on Evening Island at the Chicago Botanic Gardens. Look good in dry shade with Calamagrostis brachytricha				
			1 Gal.	5.50

Heuchera villosa Fairy Bells
 ‘Caramel’ PP#16,560 – The new leaves are bright gold in spring, then take on honey-apricot hues. Clusters of whitish-pink flowers bloom on 18-inch stems in midsummer. Heat and humidity tolerant, prefers part to full shade and dry soil 1 Gal. 7.50

Heuchera x Coral Bells
NEW for 2020 – ‘Lemon Supreme’ PPAF – This is truly supreme, as far as we are concerned. One of the few gold leaved coral bells that we can grow with clean wavy leaves and compact 8 to 10” clumps spreading to 18” wide. Tolerates more sun than most. Part sun to shade. Well drained to gray soil..... 1 Gal. 8.00

‘Obsidian’ PP#14,836 – This is one of the darkest red leaved Heucheras yet. The sheen of the foliage adds another dimension. Insignificant flowers. Part sun to light shade. Well drained soil. Bound to be popular! 1 Gal. 7.50

‘Plum Pudding’ – Robust plants of red with dull silvery and deep red undersides 1 Gal. 5.50

‘Wild Rose’ PP#29,923 – A Proven Winners perennial. Rosie purple leaves have dark veins that give foliage depth. Dense clumps to 10” tall with matching colored flowers stems to 20” holding pink flowers. Adaptable plants takes sun to shade average soil 1 Gal. 8.00

Heucherella x Foamy Bells
 ‘Buttered Rum’ PP#25,040 – This new Foamy bell has unique colored foliage of bronze orange with good vigor. Mounding plants reach 10” tall and close to 2’ wide. Well drained soil in part sun is best 1 Gal. 8.50

‘Eye Spy’ PP#30,532 – Red centered and red veined foliage bleeds into dissect leaves of light green near yellow, with hints of silver later. Heavy blooming plants have spikelets of pink flowers over a long time. Plants grow 10” tall with flowers to 16”. Sun to shade, average soil 1 Gal. 7.50

HIBISCUS — *Hibiscus are late to emerge. Please note that we do not ship dormant plants. Hibiscus orders will ship once plants are green. All Hibiscus are available in June.*

Hibiscus moscheutos Hardy Hibiscus / Rose Mallow
NEW for 2020 – ‘Holy Grail’ PPAF – Nice name, on this extra altogether dark and red plant with flowers reaching 8 to 9” across and 4 to 5’ plants. The foliage too is extra dark green fitting right in with red stems. Full sun, average to moist soil..... 3 Gal. 15.00

‘Perfect Storm’ PP#27,880 – A more manageable size on these substantial plants, this one grows 3’ tall but close to 5’ wide. Dark pointed foliage is deep green and purple. Large flower of light pink with red eyes reach up to 8” wide. Full sun, moist to average soil 3 Gal. 15.00

HOSTA — *Most Hostas prefer fertile, moist soil and part to full shade. White flowering Hostas, such as ‘Fragrant Bouquet’, and ‘Royal Standard’, ‘So Sweet’, ‘Stained Glass’, are more sun tolerant, as are the fortunei.*

Hosta x Hosta
 ‘Abiqua Drinking Gourd’ – 2014 Hosta of the Year. Rounded blue foliage is not only puckered but also cups holding water at times. Always interesting, medium to large clumps 1 Gal. 7.50

NEW for 2020 – ‘Age of Gold’ PPAF – Extra large gold foliage with mature clumps reaching 25” x 58” wide 1 Gal. 7.00

NEW for 2020 – ‘Aquamarine’ PP#22,672 – The real show on these veined blue leaves comes in late summer when the purple stems and flowers add another dimension. 15” tall by 30” wide with the flowers to 18” 1 Gal. 8.00

‘August Moon’ (fortunei) – This all gold Hosta gets brighter and brighter until August. Blooms are light lilac on 24” stems in July..... 1 Gal. 5.00

‘Aureomarginata’ (montana) – Extra-large and long pointed foliage of deep green and wide gold margins. Mature clumps reaching 27” tall by 40” wide. A classic..... 1 Gal. 7.50

‘Autumn Frost’ PP#22,234 – A sport of ‘First Frost’ that has larger yellow margin next to blue centers. Clumps reach 12” tall..... 1 Gal. 8.00

NEW for 2020 – ‘Beyond Glory’ PP#28,784 – Wide blue green margins surround bright chartreuse green centers of nearly half and half. Mature plants to 16” tall and 40” wide. Heavy lavender purple flowers in midsummer 1 Gal. 6.00

‘Big Daddy’ – Large clumps of leaves with puckering and heavy corrugation. Near white flowers in June. Available in June 1 Gal. 7.00

‘Blond Elf’ – Wavy lance shaped leaves are chartreuse gold with good sun tolerance. 8” tall by over 12” in time..... 1 Gal. 6.00

‘Blue Angel’ (sieboldiana) (Blue Angel Hosta) – Plants produce light lavender white flowers in large clusters on 4” stems in June/July. Their large, pointed, blue green leaves are up to 1’+ long. Plants have a very fast growth rate..... 1 Gal. 5.50

‘Blue Ivory’ PP#19,623 – A sport of ‘Halcyon’ with creamy to white edged foliage making a great contrast to the powder blue centers. Mature plants grow 15” tall by 24” wide 1 Gal. 7.50

‘Blue Mouse Ears’ – 2008 Hosta of the year. Small blue green leaves are heart-shaped in tight mounds only around 8 inches tall. Lavender flowers from tight buds on 12” stems..... 4 1/2” 5.50

‘Blueberry Muffin’ – Round puckered foliage on medium plants maturing around 12 to 14” tall and 18” wide 1 Gal. 7.50

PERENNIALS

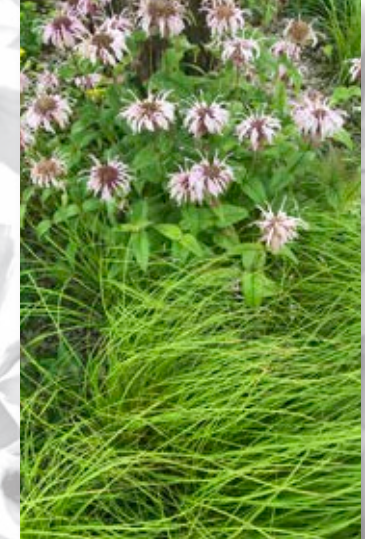

<i>Hosta</i>	<i>x</i>	Hosta		
Hosta				
‘Brother Stefan’ – This exceptional Hosta has size and texture, along with the irresistible combination of a large blue green edge surrounding gold centers. Extra corrugated foliage, with white flowers in early summer on 20” tall and 3’ wide clumps				
			1 Gal.	7.50
‘Captain Kirk’ – Vigorous plants have uniform green edges almost an inch wide and bright gold centers. Medium to large plants.....				
			1 Gal.	7.50
‘Color Festival’ – Named for its tricolor foliage which does make this one stand out. Chartreuse centered foliage quickly turns creamy white with some yellow flames bleeding into the long wide deep green edges. Mature height 12” + by 20” plus wide. A sport of ‘Enterprise’.....				
			1 Gal.	7.50
‘Curly Fries’ – Some of the thinnest Hosta foliage you’ll see. They have a wavy edge and are curled in too. Length of the leaves reach over 1 foot long. Creamy golden color fading into chartreuse.....				
			1 Gal.	7.00
NEW for 2020 – ‘Dancing Queen’ – 2020 American Hosta Growers Hosta of the year! Large, long gold leaves remain gold into summer with a wavy edge. Plants grow 18” by 28” in time				
			1 Gal.	8.00
NEW for 2020 – ‘Diamond Lake’ PP#30,769 – All the best attributes of a blue hosta apply here. Thick heavily corrugated leaves with a wavy edge to boot are large reaching 9” wide by 11” long. Mature				
			1 Gal.	9.00
‘Dream Weaver’ – A sport of ‘Great Expectations’ with large round leaves of blue green with creamy white centers. White flowers. Grows 18” by 30”.....				
			1 Gal.	8.00
‘Earth Angel’ – A sport of ‘Blue Angel’, with creamy margins on large heart shaped blue gray leaves				
			1 Gal.	7.50
‘Elegans’ (sieboldiana) (Blue Giant Hosta) – A selection of sieboldiana with large, corrugated, powder blue leaves. White flowers in June/July				
			1 Gal.	5.50
‘Empress Wu’ PP#20,774– One the largest Hostas on the market, it can easily reach 3-4’ tall and over 6’ wide in just a few years. Emerges blue green, they are semi-glossy green later in the year. Early 5’ flower stalks in June. Part to light shade. Average to moist rich soil.....				
			1 Gal.	9.00
NEW for 2020 – ‘Etched Glass’ PPAF – This sport of ‘Stained Glass,’ has thicker leaves with a wider green margin but that actually adds to its character. Bright yellow centers and white fragrant flowers in				
			1 Gal.	7.50
‘Fire and Ice’ (fortunei) – A sport of ‘Patriot’ with a green edge and white center.....				
			1 Gal.	7.50
‘Firm Line’ This sport of ‘First Frost’ has a much wider creamy white edge next to the classic blue center. Medium sized leaves on clumps around 18” tall and wide.....				
			1 Gal.	9.00
‘First Blush’ PPAF – We’ve all had one. Glossy green heart shaped leaves with plum red stems that bleed into the leaf including red veins and leaf edge in spring. 12” tall by 24” wide when mature.....				
			1 Gal.	35.00

Orostachys ‘Octopus Garden’

Polygonatum x ‘Prince Charming’ with *Carex p* ‘Straw Hat’.

Lychnis ‘Fire’ with *Penstemon* ‘Pocahontas’

Polygonatum x 'Prince Charming' with *Carex p 'Straw Hat'*

Salvia n 'Sixteen Candles'

Sedum a 'Nerds'

PERENNIALS

<i>Hosta</i>	x	<i>Hosta</i>		
'First Frost' – 2010 Hosta of the Year! Silvered blue medium foliage with an irregular creamy yellow edge. Eye catching. A sport of 'Halcyon'.....				
			1 Gal.	8.00
'Fragrant Bouquet' – 1998 Hosta Plant of the Year. Similar to 'Shade Fanfare' and 'So Sweet' in appearance but larger with fragrant white flowers in August. <u>Available in June</u>				
			1 Gal.	8.00
'Francee' (fortunei) – Still one of the best white edged Hostas. This one can take full sun.....				
			1 Gal.	5.00
'Frances Williams' (sieboldiana) – Still one of the most versatile and demanded Hostas. Light green edges on sieboldiana blue leaves. Heavy white flower clusters in June/July.....				
			1 Gal.	6.00
'Gold Standard' (fortunei) – This Hosta has golden leaves with green margins and medium to large clumps. A good grower. One of my favorites.....				
			1 Gal.	5.00
'Golden Empress' – A medium sized plant with all gold foliage reaching about 1' tall.....				
			1 Gal.	8.00
'Golden Tiara' – A very fast growing variety with medium spoon shaped leaves that have a broad golden yellow edge. Purple flowers on 18" stems in July. A good groundcover.....				
			1 Gal.	5.00
'Halcyon' – Medium to small sized, silver blue leaves in a nice, tight mound. Leaves have thick substance. Short clusters of lavender white flowers in August.....				
			1 Gal.	5.50
'Hans' – Bright white center variegation makes this Hosta stand out among the crowd. Eventually reaching 20" tall and wide. Feathered variegation is also unique, streaking into the blue green edges.....				
			1 Gal.	8.00
'Hasta Mañana' PPAF – <u>An Intrinsic Introduction!</u> A combination of two of the best Hostas. This sport likely came from Francee and nearly mimics another one of its great relatives, Gold Standard. Lightly puckered veined leaves emerge near apple green and quickly begin to fade to gold at the tips eventually becoming entirely gold except for the mostly thin white edge although sometimes a deep green streak appears. Green new foliage continues to emerge giving the whole plant a wave of green to gold colors				
			50 plug	1.25
			1 Gal.	7.50
NEW for 2020 – 'Humpback Whale' – An extra special and extra large blue hosta From Mildred Seaver. Blue green heart shaped leaves on mature plants that can reach 3' x 7' wide.....				
			1 Gal.	9.50
'Island Breeze' PP#27,151 – Medium plants with wide, bright green edges and bright yellow centers turning to chartreuse or light yellow. Red stemmed plants reach 12" by 28".....				
			1 Gal.	7.50
'June' – This 'Halcyon' sport has bright gold centers with a thin blue green edge on medium sized clumps. 2001 Hosta of the Year.....				
			1 Gal.	7.50
'June Spirit' – A wider margined sport of 'June Fever' Shiny leaves have deep green margins and chartreuse centers turning yellow. 14" x20".....				
			1 Gal.	7.50

<i>Hosta</i>	x	<i>Hosta</i>		
'Key West' – This large gold Hosta has nice texture and heart shaped leaves on clumps that can reach 30" plus and 5' wide. Fast growing too.....			1 Gal.	9.00
'Krossa Regal' – An upright, vase shaped habit and blue green leaves makes this a very attractive Hosta. 6' stalks of lavender flowers			1 Gal.	5.50
lancifolia – This species has glossy, deep green leaves and produces lilac purple flowers in August/September. Small to medium 18" clumps. Very tough and adaptable. Can tolerate wet soil and sun			1 Gal.	5.00
'Liberty' PP#12,531 – A wide edge sport of Sagae, wide butter yellow margins fade to creamy white on substantial leaves. Plants grow to 25"			1 Gal.	8.00
'Maui Buttercups' – Smaller 5" round gold foliage that is strongly corrugated and has a thick substance. Reaching only 10-12" tall			1 Gal.	7.50
'Mini Skirt' – A highly variegated sport of 'Mighty Mouse' that has wavy leaves of blue and creamy white on miniature sized plants.....			4 1/2"	6.00
'Munchkin Fire' – Vigorous yet small plants of short narrow gold leaves. A nice size for the front of the border. Grows 7" to 20"			1 Gal.	6.00
'Neptune' PP#19,674 – Large clumps have cascading and rippled, relatively narrow leaves of glaucous blue fading to blue green in summer. Size eventually 24 to 36"			1 Gal.	7.00
'Night Before Christmas' – In maturity, large clumps reaching 25" and several feet wide have uniform white streaks down the center with wide green edges. A good grower. Mark Zilis, author of <i>The Hosta Handbook</i> , calls it "...perhaps, one of the best white-centered Hosta cultivars."			1 Gal.	7.50
'Orange Marmalade' PP#16,742 – An improved sport of 'Paul's Glory'. Brighter gold center holds its color all season.....			1 Gal.	9.00
'Paradigm' – Shiny gold leaves with a green edge have good corrugation too. Grows to 20". The 2007 Hosta of the year!			1 Gal.	7.50
'Patriot' (fortunei) – 1997 Hosta of the Year. A sport of 'Francee' with a broader white margin. Light lilac flowers at the end of July on 24"+ stems			1 Gal.	5.25
'Prairie Moon' – Thin lance shaped leaves hold their golden color all season long. Matures to 16 inches by 30"			1 Gal.	7.50
'Prairie Sky' PP#17309 – One of the bluest and newest Hostas. The medium size foliage is almost heart shaped and strongly pointed			1 Gal.	8.00
'Praying Hands' – Extra upright and folded foliage almost looks grassy at times. Dark green leaves reach over 1' tall and fan out. Hosta of the year in 2011			1 Gal.	7.50
'Pure Heart' – A variegated sport of 'Blue Mouse Ears' with blue-green margins and yellow centers that brighten with age			1 Gal.	9.00

<i>Hosta</i>	x	<i>Hosta</i>		
'Rainforest Sunrise' – 2013 Hosta of the year. Small to medium rounded gold leaves have a ruffled surface with green edges on full clumps. <u>Available in June</u>			1 Gal.	6.50
'Regal Splendor' – A variegated form of 'Krossa Regal' with a light yellow margin. Impressive as a specimen. 4-5' lavender flower spikes in August. 2003 Hosta of the Year. Good grower. In my opinion, one of the best!.....			1 Gal.	6.50
'Royal Standard' – Has a faster growth rate and better substance than plantaginea grandiflora. White fragrant flowers in August.....			1 Gal.	5.00
'Royal Wedding' PP#26,727 – Upright medium size mounds have thick glossy leaves with a wide yellow margin that mature to white followed by white fragrant flowers in late summer. Grows 12" by 18"			1 Gal.	9.00
'Shade Fanfare' – While not new, this lime green Hosta still stands out as a bright spot even in the Hosta garden. Creamy yellow edges fade to white on 2' tall plants over 3' wide.....			1 Gal.	6.00
'So Sweet' – 'So Sweet' has a fast growth rate, glossy rounded leaves with white edges, and fragrant white flowers in August to 24". Can tolerate full sun if in moist soil. May rebloom. 1996 Hosta of the Year. A great Hosta!.....			1 Gal.	5.50
'Stained Glass' – Large veined foliage of glossy apple green surrounded by a deep green edge. Large fragrant white flowers in August too. An improved form of 'Guacamole'. The 2006 Hosta of the year!			1 Gal.	9.50
'Sugar Daddy' – This sport of Big Daddy has the same corrugated blue leaves with the added bonus of a 1" creamy yellow edge. White flowers on short stalks in late spring.....			1 Gal.	8.00
'Sum and Substance' – 2004 Hosta of the Year! One of the largest Hostas ever, this variety's leaves can reach more than 1' across. Nice golden chartreuse color. Light lavender flowers on 4"+ stems in July into August			1 Gal. 13 Gal.	6.50 13.50
'Sun Mouse' PP#30,033 – A 2016 Plant Delight Nursery introduction after years of breeding with Blue Mouse Ears for a gold leaf and vigour. Leaves are 3" long by 2" wide on 6" tall plants.....			4 1/2"	7.00
'Twilight' PP#14,040 – This sport of fortunei 'Aureomarginata' has a broader yellow margin and more substantial leaves. It reminds me of a 'Patriot' with yellow variegation			1 Gal.	6.50
'Victory' – This sport of 'Sagae' has a broad yellow margins set against bluish green centers on large leaves and large clumps reaching 2' tall by 3' wide			1 Gal.	7.50
'Whirlwind' – Streaky green margins with yellowish center and distinguished veining of green. Wavy upright mounds to 20x40". Lavender flowers in late July-August.....			1 Gal.	7.50
'Wide Brim' (tokudama) – A faster growing form of tokudama with a large irregular cream to yellow margin on medium leaves. Heavy lilac tinted flowers June into July on 15"+ stems.....			1 Gal.	5.00

 PERENNIALS

Hosta *x* **Hosta**
 ‘Wiggles and Squiggles’ – A small Hosta with thin yet very wavy margin on a long gold leaf. Grows 10” x 20” 1 Gal. 8.00

 IRIS — *Foliage should be removed in fall to prevent Iris borer.*

Iris *ensata* **Japanese Iris**
 ‘Variegata’ (Variegated Japanese Iris) – Eye-catching foliage all season long. Has white variegation. Violet flowers with yellow markings appear at the end of June. Full sun, moist to well drained soil. Available in June 1 Gal. 6.50

Iris *pseudacorus* **Yellow Flag Iris**
 ‘Variegata’ – Pleasant bi-color yellow and light green variegation blends in with green blades. Slowly fades to all green foliage. Yellow flowers in the summer. Full sun part shade. Well drained to moist soil 1 Gal. 6.00

Iris *sibirica* **Siberian Iris**
 ‘Caesar’s Brother’ – This very popular Siberian Iris is deep blue to purple with some gold markings and grows to 36”+. Blooms in June. Prefers moist soil and full sun 1 Gal. 5.00

Iris *versicolor* **Blue Flag Iris**
 A native blue flowering Iris that can tolerate wet feet. Thin foliage and flower size close to Siberian Iris. The habit is more open. Grows 30-36” tall. Flowers in June. Full sun, wet to well drained soil 1 Gal. 5.00

‘Gerald Darby’ – This variety has the added interest of deep maroon stem bases that can extend almost halfway up the plant. Appears showiest in spring. Full sun, wet to well drained soil 1 Gal. 6.00

Kalimeris *incisa* **Kalimeris**
 ‘Blue Star’ – Reliable late summer bloom over a long period on 2”+ upright clumps. Light blue Aster like flowers with yellow eyes. Full sun, well drained to average soil 1 Gal. 5.50

 LAMIUM — *Lamium maculatum prefer moist soil and part shade. They start to bloom the end of April and continue throughout May.*

Lamium *maculatum* **Spotted Dead Nettle**
 ‘Chequers’ – The silver streaked green leaves show good purple color fall through winter. Purple pink flower spikes in April to 6”+. (GROUND COVER) 4 1/2” 3.50

‘Ghost’ – An Intrinsic Introduction! Mostly silvered foliage is what caught our eye on this Lamium. Purple flower clusters fit right in. Full sun with moisture or part shade, well drained soil. Extra vigorous (GROUND COVER) 4 1/2” 3.50

‘Pink Pewter’ – An outstanding variety having compact, bright white silver streaked foliage with green margins and clear pink, long lasting flowers starting in May on 5” plants. In the right location, it will bloom all year. Partially shaded, cool, moist, well drained location is ideal. (GROUND COVER) 4 1/2” 3.50

 PERENNIALS

Lamium *maculatum* **Spotted Dead Nettle**
 ‘White Nancy’ – A vigorous grower, this popular variety has bright white silver foliage with green margins and white flowers. May remain evergreen. (GROUND COVER) 4 1/2” 3.50

Lavandula *angustifolia* **English Lavender**
 ‘Essence Purple’ – One of the best, the foliage on this lavender is hard to beat. Silvered green leaves on open reserved mounds 18” tall and wide with the lavender-blue flowers. Early to bloom, too. Full sun, well drained to dry soil 1 Gal. 6.50

Lavandula *x* **Lavender**
 ‘Niko’ PP#24,193 – Phenomenal™ Lavender. This plant has a lot going for it. Substantial plants reaching 24” plus the 12” plus flower stems. Very cold hardy and disease resistant plants make this one of the best lavenders. Full sun 1 Gal. 6.50

Leucanthemum *superbum* **Daisy May™**
 ‘Daisy Duke’ PP#21,914 – An Intrinsic Introduction! Extremely uniform plants. Tight perky habit with star quality growing to 2’ tall have a dome shaped habit with deep green foliage and flat 3” daisies. Picked to be a Proven Winners Perennial! Full sun, well drained soil 1 Gal. 6.00

Leucanthemum *superbum* **Shasta Daisy**
 ‘Becky’ – Very clean foliage and large, substantial, double-petaled, white daisy flowers in June/July on plants reaching 18”+. Needs moist, well drained soil and full sun. Comment: 2003 PPA Perennial Plant of the Year 1 Gal. 5.00

Liatris *ligulistylis* **Meadow Blazing Star**
 This plant is literally a monarch butterfly magnet. Butterflies will come to nectar on these plants at your garden center or your customers gardens if you plant this. Long thin spikes of lavender purple on 4”+ stems bloom in August. Full sun, well drained soil 1 Gal. 5.50

‘Butterfly Magnet’ – An Intrinsic Introduction! This seed strain is selected for a more reserved 4’ size compared to the 5-6’ tall species. Extra attractive to male monarchs, these plants have a pheromone that attracts the butterflies like a magnet once they begin blooming in July 1 Gal. 6.00

Liatris *spicata* **Blazing Star / Gayfeather**
 purple – The tall growing species, it reaches 3-4’ high with strap like foliage all along the stem topped by purple flower spikes in July. Likes moist to well drained, organic soil and full sun 1 Gal. 4.50

Liatris *spicata* **Blazing Star / Gayfeather**
 ‘Kobold’ (Dwarf Blazing Star) – A dwarf form of spicata growing 24-30” tall with bright purple flowers in July. Rated one of the best by the Chicago Botanic Garden. Available in June 1 Gal. 5.50

<i>Liatris</i>	<i>spicata</i>	Blazing Star / Gayfeather	
‘Trailblazer’ seed strain – An Intrinsic Introduction! Originally selected for some red tips to the foliage, this tetraploid form of <i>Liatris spicata</i> only reaches 24” + tall and 15-18” wide. Thick purple flowers in summer turn black as they go to seed. Extra showy and compact compared to the species. An improvement on ‘Kobold’. Full sun, most any soil. Zones 4-9			
			1 Gal. 5.50
<i>Ligularia</i>	<i>dentata</i>	Bigleaf Golden Ray	
‘Britt-Marie Crawford’ PP#16,113 – This <i>Ligularia</i> has almost entirely red foliage. Golden clusters bloom in August. Part shade with moist soil. Sure to be a classic.....			
			1 Gal. 9.00
NEW for 2020 – ‘Pandora’ PPAF – Smaller foliage of near black purple results in smaller tighter plants reaching only 1’ plus. The golden yellow flowers are shy and also smaller. Part sun is ideal. Average to moist soil.....			
			1 Gal. 10.00
<i>Ligularia</i>	<i>stenocephala</i>	Golden Ray	
‘Little Rocket’ PP#14,621 – Sturdy plants reaching around 36” in maturity. Many flower spikes of golden yellow in July. Prefers moist soil in part shade.....			
			1 Gal. 7.50
‘The Rocket’ – This is the Peony of the shade garden. When happy can reach 7’ tall. One plant can have over 75 flower stalks! 2’ long yellow spikes in July. Prefers moist soil and shade to part shade. One of the best plants for Chicagoland			
			1 Gal. 8.00
 LILIUM — <i>Lilium</i> prefer well drained, fertile soil in full sun or part shade. Ephemeral — Go dormant after blooming. Planting deep (10”) will promote longevity. They are usually available mid May or early June. Orientals start in July.			
<i>Lilium</i>	x	Oriental Lily	
‘Casa Blanca’ – Glossy, green foliage with extra large white fragrant flowers beginning at the end of July on 3-4’ plants. Available in June			
			1 Gal. 4.75
‘Stargazer’ – Well known, ‘Stargazer’ is a very fragrant bicolor with large red flowers edged in white in August. <u>Comment:</u> A florist’s favorite! Good for cutting. Available in June			
			1 Gal. 4.75
<i>Limonium</i>	<i>latifolium</i>	Sea Lavender	
Lavender purple near blue clouds erupt in late summer from leafy near succulent rosettes of smooth leaves. Stems reach 24” tall and the flowerhead nearly as wide. It makes a great cut flower especially dried. Full sun, dry to well drained soil.....			
			1 Gal. 5.50
<i>Liriope</i>	<i>spicata</i>	Lily Turf	
Thin strappy foliage on spreading plants 6-8” tall. The light purple flowers come late in summer here. Prefers light shade and moist soil, but can take it dry and sunny. (GROUNDCOVER). Available in June.....			
			4 1/2” 3.50
<i>Lobelia</i>	<i>cardinalis</i>	Cardinal Flower	
Bright red spikes on 4’+ plants attract hummingbirds. Blooms in August. Short lived without the proper conditions of moist soil and some shade. This great native is still gaining popularity			
			1 Gal. 5.50

<i>Lobelia</i>	<i>cardinalis</i>	Cardinal Flower	
NEW for 2020 – ‘Black Truffle’ PP#25,687 – Good vigor and robust plants are a welcome combination just like the deep red flowers and the dark purple foliage. Red spikes bloom in the summer and 3 to 4’ stems. Full sun to light shade, average to moist soil.....			
			1 Gal. 6.00
<i>Lobelia</i>	<i>siphilitica</i>	Giant Blue Lobelia	
A form with blue spikes in late summer on 4’ wiry stems. Native. Self sows easily. Long lived in moist soil and part shade			
			1 Gal. 5.50
<i>Lychnis</i>	<i>viscaria</i>		
NEW for 2020 – splendens ‘Fire’ – Narrow almost grassy foliage and basil clumps erupt with magenta pink flowers in June. Medium sized plants reaching 18 to 24” tall. Full sun to light shade, well drained soil. Looks great with Penstemon ‘Pocahontas’			
			1 Gal. 5.00
<i>Lysimachia</i>	<i>clethroides</i>	Gooseneck Loosestrife	
Many goosenecked white spikes above glossy foliage that creeps in full sun. Great fall color. Likes it moist, can take part shade. Attracts Monarch butterflies. (GROUNDCOVER)			
			1 Gal. 5.50
<i>Lysimachia</i>	<i>lanceolata</i>	Lancelot Loosestrife	
purpurea - This native grows east of the Mississippi and has a genteel nature growing in a wide variety of situations. Slow spreading plants have a basil rosette topped with thin almost lacey wine red foliage all season long. In summer small yellow flowers add a hint of color to contrast the foliage. Plant size is just over one foot tall and spreading over one foot wide. Full sun to light shade, most any soil			
			1 Gal. 6.00
<i>Mertensia</i>	<i>virginica</i>	Virginia Bluebells	
Top native plant that goes dormant after flowering. Somewhat succulent looking leaves with pink buds opening to deep sky blue flowers. Grows up to 18” tall and wide. Moist organic soil, part to full shade			
			1 Gal. 6.50
 MONARDA — All <i>Monarda</i> prefer moist soil and full sun to part shade. They start blooming at the end of June and continue through July.			
<i>Monarda</i>	<i>bradburiana</i>	Bee Balm	
Fuzzy foliage emerging red and fading to deep green, have light pink flowers earlier than the other monardas, beginning in June. Full sun to light shade. Well drained to dry soil.....			
			1 Gal. 6.00
<i>Monarda</i>	<i>didyma</i>	Bee Balm	
‘Jacob Cline’ – The cleanest foliage of any <i>Monarda</i> I’ve seen. These plants have light green, glossy foliage with long lasting bright red flowers on 5’ plants. Aggressive grower			
			1 Gal. 4.75
<i>Monarda</i>	<i>didyma</i>	Bee Balm	
‘Raspberry Wine’ – A wine red mildew resistant form. 36”+ plants			
			1 Gal. 5.00
<i>Monarda</i>	<i>fistulosa</i>	Oswego Tea / Bergmot	
A native prairie species reaching 4’ with semi-glossy foliage and pale purple flowers. Used to make tea. Requires full sun and good drainage			
			1 Gal. 4.75

PERENNIALS

Monarda *x* **Bee Balm**
 ‘Mojo’ PP#29,982 – **An Intrinsic Introduction!** Chocolate red foliage emerges early with short silvered hairs and chocolate red stems, too. By the time the purple flowers bloom in June, the mildew resistant foliage turns to green. Grows to 24” + tall. Full sun; average to well drained soil 1 Gal. 5.50

Nepeta *x faassenii* **Catmint**
 ‘Blue Wonder’ – The ever popular Catmint. Silvery mounds and bright blue flowers go together nicely and seem to fit with almost everything. 1’ mounds. Well drained soil, full sun. (GROUND COVER)..... 1 Gal. 4.75

‘Puursian Blue’ PP#24,788 – Another compact and long blooming catmint. This one fits in the middle of ‘Early Bird’ and ‘Walkers Low,’ growing 14 to 18” tall and wider with time. Periwinkle blue flowers. Full sun, well drained soil..... 1 Gal. 5.00

‘Walker’s Low’ – Similar to the common Catmint except for a more compact habit and extended bloom time. Short gray green mounds to 10”+. Flowers from June on and off into fall. Full sun, well drained soil. 2007 PPA Perennial Plant of the Year (GROUND COVER)..... 1 Gal. 4.75

Nepeta *x* **Catmint**
 ‘Early Bird’ – A choice catmint that blooms earlier and on more compact clumps only reaching 12”-15” tall and spreading 15”-18” wide. Vibrant blue flowers begin in April. Full sun, well drained soil..... 1 Gal. 5.00

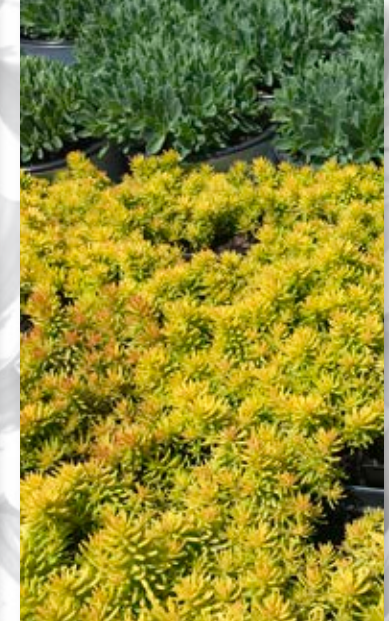

Ophiopogon *umbraticola* **Ophiopogon**
NEW for 2020 – Closely related to Liriope this grassy plant is clumping with thin dark green foliage only reaching 5 to 6” tall. White flowers in late summer are 1’ stems can yield porcelain blueberries for fall. Hardy to zone 5. Moist soil in part sun. Easily tucked in like you would a small sedge..... 4 1/2” 4.00

Orostachys *x* **Chinese Dunce Caps**
 ‘Octopus Garden’ – **An Intrinsic Introduction!** This seed strain has a range of colored foliage from grayed-greens, to gray and silver all the way to grayed-plum. Hybrid vigor yields clustered rosettes of succulent foliage very quickly from winter or spring sown seed. In early fall, dunce cap shaped creamy white 6-8” flowers are covered with pollinators. Full sun, well-drained soil. These mono-carpi plants need the flowers stems cleaned up after flowering. Zone 4-9 70 plug 1.00
 4 1/2” 3.75

PEONIES — *All Garden Peonies prefer well drained soil and full sun. Most bloom in June unless otherwise noted.*

Paeonia *lactiflora* **Garden Peony**
 ‘Charlies White’ – A beautiful white Peony that is great for cutting. Growing 36”. Prefers well drained soil and full sun..... 2 Gal. 13.00
 ‘Coral Charm’ – Coral flowers bloom in June. Prefers well drained soil and full sun..... 3 Gal. 15.00
 ‘Festiva Maxima’ – Double white flowers with crimson spots. These plants are 36” tall 2 Gal. 13.00

Sedum x 'Lime Joy' PPAF *Sedum r 'Angelina's Teacup' and Sedum x 'Bundle of Joy'*

Sedum s 'Yellowstone'

Sedum x 'Pride and Joy'

Sedum x 'Sunset Boulevard' PPAF

Sedum x 'Dream Dazzler'

PERENNIALS

<i>Paeonia</i>	<i>lactiflora</i>	Garden Peony		
‘Karl Rosenfield’ – Coral flowers bloom in June. Prefers well drained soil and full sun.....				
			2 Gal.	13.00
‘Raspberry Sundae’ – A fragrant pink and white bicolor. 30”.....				
			2 Gal.	13.00
‘Sarah Bernhardt’ – True pink, fully double flowers. 35”. Fragrant.....				
			2 Gal.	13.00
<i>Paeonia</i>	<i>x</i>	Itoh Peony		
‘Bartzella’ – One of the most sought after peonies. Herbaceous plants grow 36-48” tall blooming with huge 6-8” lemon yellow flowers that look straight up and out in June. Full sun, well drained soil.....				
			2 Gal.	35.00
‘First Arrival’ – A cross between garden Peony and a tree Peony, this acts just like an herbaceous peony in the garden. Easy to grow, vigorous plants reach over 24” tall and near 36” wide. Large 6 to 8” semi-double pink flowers have a darker center and a hint of lavender to them when they are opening. Full sun, Well drained soil.....				
			2 Gal.	47.00
<i>Penstemon</i>	<i>digitalis</i>	Beardtongue		
‘Husker’s Red’ – selection. 1996 Perennial Plant of the Year. ‘Husker’s Red’ has purple red foliage highlights with deep green foliage following. The white flowers in June show well on 3’+ stems. Moist soil, full sun. Our superior form is propagated vegetatively for uniformity.....				
			1 Gal.	5.00
‘Pocahontas’ PP#24,804 – An Intrinsic Introduction! Burgundy foliage emerges in spring quickly followed in June by 3-4’ burgundy red stems holding loose clusters of purple pink flowers. An irresistible combination judging from the womens reaction when we had it blooming near the office. The hummingbirds also had a taste and find it equally appealing.				
			50 plug	1.25
			1 Gal.	5.50
<i>Perovskia</i>	<i>atriplicifolia</i>	Russian Sage		
‘Little Spire’ PP#11,643 – Bred for stronger stems and a more compact habit. This variety only reaches 30” and starts blooming in August. Prefers full sun, well drained soil.....				
			1 Gal.	5.50
‘Superba’ – 1995 PPA Perennial Plant of the Year. A very long blooming plant with bright blue purple flowers on 4’ woody stems. Light shade or full sun, well drained soil. Should be cut back in spring like a dieback shrub.....				
			1 Gal.	5.00
<i>Persicaria</i>	<i>amplexicaule</i>	Persicaria		
‘Firetail’ aka speciosa – Many thin red spikes start blooming in August on 3-4’ stems and continue into September. Substantial plants reaching 2’ wide have arrowhead shaped leaves. Available in June.....				
			1 Gal.	7.50
<i>Persicaria</i>	<i>polymorpha</i>	Giant Fleeceflower		
Huge clumping plant that can reach 5’+. Topped by large clusters of milky white, cloud shaped flowers in June. Moist to well drained soil, full sun to light shade.....				
			1 Gal.	6.50

PHLOX

Phlox *divaricata* **Woodland Phlox**
 blue (**Wild Sweet William**) – There is some fragrance to these 1' clumps covered with sky blue flowers in May. Prefers moist, fertile, well drained soil in part to full shade. A great native for the shade garden. Available in June..... 1 Gal. 5.00

Phlox *paniculata* **Garden / Summer Phlox**
Phlox paniculata are among the best for late bloom. A very showy and substantial plant in the garden blooming July into August. Should have space and good air movement. Adding lime will prevent powdery mildew. Well drained soil, full sun.

'Blue Paradise' – Unique evolving flower color from blue to violet on 30"+ plants. Fair mildew resistance. Full sun, well drained soil. An instant retail sale in flower. Long blooming. This blue color is hard to believe. The color will actually change from blue to more violet in the afternoon when it gets warm. Available in June..... 1 Gal. 5.00

'David' – Light green, somewhat leathery leaves with white heads for a long time. Mildew resistant. Grows to 30"+. 2002 PPA Perennial Plant of the Year! 1 Gal. 5.00

'Glamour Girl' PP#25,778 – Coral-pink flowers are early, large and prolific on 36"+ plants. Deep green foliage stays free of mildew and looks great all season. Full sun, well drained soil 1 Gal. 5.50

'Jeana' – True pink flowers are held on extra large clusters on 4-5' tall plants. This form is supposed to be more attractive to butterflies too. Mildew resistant foliage 1 Gal. 5.00

'Laura' – One of the best Phlox on the market. 'Laura' has purple flowers with a slight white eye. Good disease resistance. Grows to 30"+ 1 Gal. 5.00

'Sweet Laura' – This soft pink seedling was selected by Piet Oudolf in the Lurie Garden and named for Laura Ekasetya the head gardener. Full flower heads have a slight eye. Substantial plants grow 3-4' tall. Full sun to light shade. Average soil 1 Gal. 5.50

'Zion' – This plant came from Craig Bergmann. Extra tall, up to 4-5' tall plants, have mildew resistant deep green foliage and dark stems. Magenta purple flowers work perfect with other late summer saturated colors, in full sun 1 Gal. 5.50

Phlox *subulata* **Creeping Phlox**
 'Apple Blossom' – Loose but small habit. Light pink and white flowers. Good vigor. Full sun, well drained soil. (**GROUNDCOVER**) 4 1/2" 3.50
 'Blue Emerald' – Sky blue flowers cover mat forming, needle like, dark green foliage in May. Well drained soil in full sun. 4 1/2" 3.50
 (**GROUNDCOVER**) 1 Gal. 4.75

Phlox *subulata* **Creeping Phlox**
 'Emerald Pink' – The most popular of the bunch, 'Emerald Pink' has bright pink flowers in May that cover the tight green mounds. 4 1/2" 3.50
 Well drained soil in full sun. (**GROUNDCOVER**) 1 Gal. 4.75

'Snowflake' – White flowers with a small yellow eye on 4" spreading mounds of clean dark green foliage. The best white creeping phlox. Well drained soil, full sun. (**GROUNDCOVER**) 4 1/2" 3.50
 1 Gal. 4.75

Phlox *x* **Garden / Summer Phlox**
 'Amethyst Pearl' PP#28,487 – This sport of Minnie Pearl has shades of lavender pink flowers on the same short 18" stems that bloom in early summer and rebloom in late summer. Spreads slowly too. Full sun, well drained soil..... 1 Gal. 7.00

'Forever Pink' PP#24,918 – From Chicagoland Grows. A heavy blooming and re-blooming Phlox growing 16" tall. Pink flowers in June are followed by re-bloom summer and fall. Vigorous plants with clean foliage make a nice companion to *Phlox x* 'Minnie Pearl'. Full sun, average soil 1 Gal. 5.50

'Minnie Pearl' – A great new Phlox hybrid with glaberrima as one of its parents, giving it great mildew resistance as well as glossy deep green foliage. Pure white flowers start in early summer and continue over an extended time, close to 2 months. Only reaches 18" tall. Likes full sun, well drained soil. Would be nice with Phlox 'Forever Pink' 1 Gal. 5.50

'Violet Pinwheels' PP#25,884 – Low mounding plants grow 4" tall by 18" wide and have a violet almost iridescent blue color with hints of lavender and some fading to light blue. Thin foliage is reminiscent of creeping Phlox. Full sun well-drained soil..... 4 1/2" 4.00

Physostegia *virginiana* **Obedient Plant**
 'New Era' pink- This clumping pink seedling came from New Era Nursery in Hillsboro, WI. Nice sized plants reach 36" tall blooming a long time, starting in August and into October at times. Clean foliage too. Full sun, Average soil 1 Gal. 5.50

Polemonium *reptans* **Creeping Jacob's Ladder**
 This native woodland plant is always one of the first spring bloomers starting in early May. Light blue flowers on 1'+ mounds. Full sun to shade, moist soil 1 Gal. 5.00

Polemonium *x* **Jacob's Ladder**
 'Heaven Scent' PP#20,214 – **An Intrinsic Introduction!** Lacy pinnate foliage emerges red and continues to hold red highlights until summer. Grape scented blue flowers begin in May and can continue into June. Plants top out at 18-24" tall. Drought tolerant clumps can grow in full sun to part shade. **Makes a good cut flower, too** 1 Gal. 6.50

Polygonatum *biflorum* **Solomon's Seal**
 This long lived native can be seen on the side of the road out in full sun or partly shaded banks which means it requires good drainage. Long arching stems are chalky green and grow up to 4-5' tall. Short lived pairs of tubular white flowers are followed by purple fruit in fall. Great gold and yellow fall color 1 Gal. 6.50

Polygonatum *falcatum (odoratum)* **Variegated Solomon's Seal**
 'Variegatum' – 2013 Perennial Plant Association Plant of the Year!
 Creamy white flowers hang from the stems in May. A top shade
 plant with variegated foliage on long arching stems to 30"+. Likes
 well drained alkaline soil. Try using mushroom compost. Part to
 full shade..... 1 Gal. 7.00

Polygonatum *x* **Dwarf Solomon's Seal**
 'Prince Charming' PP#22,304 – **An Intrinsic Introduction in**
cooperation with Chicagoland Grows! Clumps no taller than
12" start the spring with many pair of creamy white perfumed
flowers along the short arching stems. In fall purple berries are
followed by golden yellow fall color. Can grow in full sun with
drained soil but will tolerate part shade..... 1 Gal. 7.50

PRIMULA — *All Primula prefer constantly moist soil and part shade.*

Primula *veris* **Cow's Lip**
 'Sunset Shades' – Shades of glowing reds to burnt orange and
 yellow on long flowered plants that start in April 4 1/2" 3.75

'Wild Form' – Nodding heads of yellow on 5"+ stalks above
 compact mounds in April. One of my favorites..... 4 1/2" 3.75

Prunella *vulgaris* **Selfheal**
 'Magdalena' PPAF – **An Intrinsic Introduction!** Clusters of four
 sided short spikes erupt in Mid-June with purple bi-color flowers.
 Plants grow 6" tall and spread over 12" wide. The semi-evergreen
 fingered and pointed foliage is bright green with purple highlights
 at the cool times of the year. Full sun, most any soil. Very
 adaptable. Native to 48 states 1 Gal. 5.50

PULMONARIA — *Pulmonaria prefer well drained soil in a partly shaded location. They bloom in April and May.*

Pulmonaria *x* **Bethlehem Sage / Lungwort**
 'Roy Davidson' – Seems to hold the foliage best throughout the
 year. Tight mounds of deep green with silver spots, some of
 which run together. Light pink buds with light blue flowers on
 10" clumps. Part shade to full sun, moist, well drained soil..... 1 Gal. 6.50

Pulsatilla *vulgaris* **Bethlehem Sage / Lungwort**
 purple - This reliable and early bloomer begins in April with fuzzy
 cut foliage and purple buds emerging at the same time. 1' tall and
 over 1' wide. Full sun, dry to well drained soil 1 Gal. 6.00

Pycnanthemum *muticum* **Mountain Mint**
 Unassuming plants of gray green have silver backed leaves and
 get topped by silvery bracts and purple lavender flowers in July.
 30" plants that can spread easily over 2' wide. Takes dry part shade
 or full sun. Great pollinator/bee plant! 1 Gal. 5.00

Ranunculus *acris* **Buttercup**
 'Multiplex' – Low creeping mounds of three part leaves have
 light silver, spotted foliage with 2' stems shooting out in
 May with double, yellow button sized flowers over a few
 weeks. Well drained soil, full sun..... 1 Gal. 6.00

Rodgersia *pinnata* **Rodger's Flower**
 'Elegans' – Robust five plus part leaves give good texture to the
 part to full shade garden with constant moisture. Tall open sprays
 of pink bloom in late spring and grow 3-4' with the foliage
 reaching 2'+. Fading flower stalks have tinges of pink and bronze 1 Gal. 7.50

Rudbeckia *fulgida* **Black Eyed Susan**
 deamii – A hairier subspecies which offers this plant much
 better resistance to septoria – the black leaf spot that is affecting
 'Goldsturm' throughout the Midwest. A bit later flowering with
 slightly smaller flowers but a highly recommended substitute.
 Grows to 30"+. Full sun, well drained soil..... 1 Gal. 4.75

Rudbeckia *nitida* **Coneflower**
 'Herbstsonne' – An important and substantial plant in the border.
 This coneflower stands 7' tall with clear yellow petals and yellow
 cones larger than the species. Blooms in August. Likes moist to
 well drained soil in full sun, and can tolerate some shade 1 Gal. 6.00

Rudbeckia *subtomentosa* **Sweet Coneflower**
 A nice form of Rudbeckia reaching 4' with nice brown eyed cones
 and clear yellow petals in August. This species can also take
 part shade. Well drained to moist soil..... 1 Gal. 6.00

'Little Henry' PP#23,590 – The shorter version of Henry Eilers this
 form only grows to 3' tall. Quilled yellow petals bloom an extra long
 time late summer into fall. This species has the added bonus of sweetly
 fragrant foliage and makes a great long lasting cut flower. Most any
 soil in full sun to light shade..... 1 Gal. 7.50

Rudbeckia *x* **Black Eyed Susan**
 'American Gold Rush' PP#28,498 – **An Intrinsic Introduction!**
One of my best plants. Naturally compact plants reach 22" at the
most, with a rounded habit and heavy bloom starting in late July
through September. The golden yellow 3" flowers have arched
petals. Foliage is thinner and hairy giving this plant excellent
resistance to Septoria, the fungus that affects Goldsturm. Full
sun, well drained soil 1 Gal. 7.00

'Glitters Like Gold' PPAF – **An Intrinsic Introduction!** This hybrid
 has rounded hairy foliage reminiscent of Goldsturm but the added
 bonus of Septoria fungus resistance. Deep gold flowers are 3" wide
 and heavy blooming on 3' plus stems. An improved Goldsturm.
 Full sun to light shade; any soil but wet 1 Gal. 7.00

SALVIA — *All Salvia prefer full sun with well drained soil unless otherwise noted.*

Salvia nemorosa Perennial Salvia / Meadow Sage
 ‘Caradonna’ – Similar flower color to ‘East Friesland’, ‘Caradonna’ has the added interest of purple stems. Stiff upright habit is on the open side compared to other salvias. Full sun, well drained soil 1 Gal. 4.75

‘East Friesland’ – Propagated vegetatively, ‘East Friesland’ has purple to violet spikes on 18”+ compact mounds. Cut back after flowering for a neat appearance and rebloom..... 1 Gal. 4.75

Lurie strain mix – An Intrinsic Introduction! This seed strain is a wonderful mix of amethyst to pink to light purples with some violets too. This blend was selected out of a light pink seedling of Amethyst found in Lurie by Piet Oudolf and Roy Diblik. It has a similar tall 24-30”+ habit with long thinner lightly branched flowers 8-12” in length. Full sun, well drained to average soil. 70 plug 1.00 Available in June..... 1 Gal. 5.00

‘May Night’ – 1997 Perennial Plant of the Year. This variety has larger foliage than ‘East Friesland’ with violet blue spikes to 20”+. Fragrant foliage is also a notable characteristic. Should be cut back after flowering for a neat appearance and rebloom..... 1 Gal. 4.75

NEW for 2020 – ‘Perfect Profusion’ PPAF – Soft blue flowers and rounded mounds blooming at 16 to 20 inches tall and wide not only .. bloom in spring but re-bloom in summer 1 Gal. 6.00

‘Pink Wesuwe’ – **An Intrinsic Introduction!** This seedling of Wesuwe has the same great foliage, early bloom and habit. Rose colored seedheads are showy well after the pink flowers fade. Grows 18-24” tall and wide. The combination is elegant. Full sun, well drained soil 1 Gal. 5.50

NEW for 2020 – ‘Sixteen Candles’ PPAF – **An Intrinsic Introduction!** Don’t let the soft pink color fool you. The stems are purple and the calyxes are near violet adding depth to the unbranched and upright 18” stems. Late spring blooming. Full sun, well drained and soil 1 Gal. 5.50

‘Snowhill’ – This white flowering form of ‘Blue Hill’ has a long bloom time and grows to 18”. Starts to flower in May/June. Prefers full sun with well drained soil. Should be cut back after flowering for a neat appearance and rebloom 1 Gal. 5.00

‘Wesuwe’ – Very early, blooming in May, ‘Wesuwe’ was rated as one of the best Salvias by the Chicago Botanic Garden. It has violet flowers on 18”+ clumps. Full sun, well drained soil 1 Gal. 5.50

Sanguisorba officinalis Burnet
 ‘Tanna’ – A miniature form with pea sized leaflets and clumps reaching just over a foot wide and 2-3’ tall. Ball shaped flowers of maroon in summer. Full sun, well drained soil. Available in June 1 Gal. 6.00

Sanguisorba tenuifolia Purple Fineleaf Burnet
 purpurea – After a long hiatus from our catalog this plant seems to be in favor again. Adaptable plants have pinnate foliage that looks good spring to fall with some yellow fall color too. Chocolate red bottlebrush flowers bloom in mid to late summer on 4” stems pairing perfectly with fall grasses. Full sun to part shade, most any soil 1 Gal. 6.00

SEDUM — *All Sedum enjoy full sun and well drained soil unless otherwise noted. See page 68 for groundcover quantity prices.*

Sedum foliage by color (other than green):
Grey/ silvered foliage: *rupestre* ‘Blue Spruce’, ‘Bundle of Joy’, ‘Peace and Joy’, ‘Pure Joy’, ‘Rock Star’, *sieboldii*, ‘Thundercloud’
Plum colored foliage: ‘Firecracker’, ‘Wildfire’
Red colored Foliage: *album* ‘Coral Carpet’, *spurium* ‘Fuldaglut’, *spurium* ‘Red Rock’
Yellow foliage: *ellacombiahum* ‘Cutting Edge’, *rupestre* ‘Angelina’, *sexangulare* ‘Golddigger’, x ‘Beka’, Autumn Delight™, ‘Lajos’, Autumn Charm™, ‘Lime Twister’
Best Sedum for containers:
 ‘Bundle of Joy’, *floriferum* ‘Weihenstephaner Gold’, *hybridum* ‘Immergrunchen’, ‘Lime Joy’, *sieboldii*, ‘Sunset Boulevard’, *takesimensis* ‘Golden Carpet’, ‘Autumn Joy’, ‘Peace and Joy’, ‘Pillow Talk’, ‘Pure Joy’, ‘Rock Star’, ‘Thundercloud.’

Sedum album Stonecrop
 Small fingered foliage on ground hugging plants, bloom white on 6” stems in June. Orange red winter color 4 1/2” 3.50

NEW for 2020 – ‘Nerds’ – **An Intrinsic Introduction!** After collecting seed on a group of over 100 different Sedum albums we selected this as being superior. Ground hugging, vigorous plants are deep green and russet red all year long with some orange-ish highlights. Heavy blooming plants in June are only 3 to 4” tall with white flowers 4 1/2” 3.50

chlorotictum – Tiny, light green leaves and white flowers on 2” stalks grow in tight spreading clumps. (GROUNDCOVER) 70 plug .75
 4 1/2” 3.50

‘Coral Carpet’ – A dark red (maroon) ground hugging sedum. 70 plug .60
 In June, white flowers 2-3” tall. (GROUNDCOVER) 4 1/2” 3.50

Sedum cuttings Stonecrop
 Mixed, by the pound – We now have good availability 1-99lbs is \$16.00 per lb
 on the top greenroof Sedum sold by the pound, mixed. 100-249 \$12.00 per lb
 Availability depends on time of year..... 250-499 \$11.00 per lb
 500-749 \$10.00 per lb
 750-999 \$9.00 per lb
 1000+ \$8.00 per lb

Sedum	<i>ellacombianum</i>	Russian Stonecrop		
'Cutting Edge' PP#28,926 – An Intrinsic Introduction! Virtually static plants start with bright butter yellow edges and hints of pink in spring. Yellow edged, bright green foliage on mounding plants 6-8" tall and spreading over 12" wide look good from Spring to Fall providing a bright contrasting plant for full sun to part shade. Well drained soil.				
			70 plug	.75
			4 1/2"	3.75
Sedum	<i>floriferum</i>	Russian Stonecrop		
'Weihenstephaner Gold' aka 'Bailey's Gold' – This 6" tall dense mat blooms with golden yellow flowers in the summer. Hybrid vigor, red winter color. One of the best! (GROUNDCOVER)				
			70 plug	.50
			4 1/2"	3.50
Sedum	<i>kamtschaticum</i>	Russian Stonecrop		
Scalloped leaves form 8-10" mounds covered with golden yellow flowers in July. (GROUNDCOVER)				
			70 plug	.50
			4 1/2"	3.50
Sedum	<i>rupestre</i>	Stonecrop		
'Angelina' (Golden Stonecrop) – One of the brightest gold foliage plants as long as it has full sun. Needle like leaves are whorled all around the spreading stems. Good vigor. Full sun, well drained soil. Comment: Expect good retail sales. (GROUNDCOVER)				
			70 plug	.50
			4 1/2"	3.50
NEW for 2020 – 'Angelina's Teacup' PPAF – Extra compact plants of bright gold foliage stay intact due to the non-flowering plants. Spreading clumps only reach 2-3" tall but spread to 8 to 10" or more wide. Full sun, dry to well drained soil				
			4 1/2"	4.00
'Blue Spruce' (Iceberg Stonecrop) – Strong growing silvered needle like foliage looks like a blue spruce. Yellow flowers on upright 6-7" stems stand above the 3-4" sprawling foliage. Full sun, well drained soil. (GROUNDCOVER)				
			70 plug	.50
			4 1/2"	3.50
Sedum	<i>sexangulare</i>	Stonecrop		
'Golddigger' An Intrinsic Introduction! A golden leaved form that shows it's best golden color in the summer. Six sided fingered foliage in almost ground hugging golden yellow flowers on 4-6" plants June into July. Full sun, well drained soil. Evergreen				
			70 plug	.75
			4 1/2"	3.50
NEW for 2020 – 'Yellowstone' PPAF – An Intrinsic Introduction! Chartreuse fingered foliage turns to gold as the season heads into summer with peak gold foliage quickly followed by yellow flowers in July. Spreading plants grow 4-6" tall and over 1' wide. Larger foliage and better vigor than 'Golddigger'				
			70 plug	1.00
			4 1/2"	3.75
Sedum	<i>sieboldii</i>	Stonecrop		
Nice, blue green, medium sized clumps growing 8-10" tall with pink flowers in October. Great fall colors including bright orange, red, and yellow				
			4 1/2"	3.50
			1 Gal.	5.00
Sedum	<i>spectabile</i>	Showy Stonecrop		
'Neon' – This bright pink form is shorter than the species, grows to 15"+. Same color as 'Carmen'				
			1 Gal.	4.75

Sedum	<i>spurium</i>	Two Row Stonecrop		
'Fuldaglut' – An improvement over 'Dragon's Blood', the foliage is more substantial and has red highlights all year. Ruby flowers in July. (GROUNDCOVER)				
			70 plug	.50
			4 1/2"	3.50
'John Creech' – Strongly ground hugging making it a good ground cover. The evergreen foliage is green all year. Deep pink flowers in July – August. Low growing only 2-4" tall. (GROUNDCOVER)				
			70 plug	.50
			4 1/2"	3.50
'Leningrad White' – We got this vigorous white flowered form from Plant Delights. Pure green foliage on clumps reaching 12" wide by 6-8" tall. Blooms in July, looks good all season. (GROUNDCOVER)				
			70 plug	.50
			4 1/2"	3.50
'Red Rock' – An Intrinsic Introduction! An all red sport of 'Fuldaglut' this is an improved form of Vodoo. This form stays red most of the year and has very good vigor. Grow in full sun for best color. Dry to well drained soil				
			70 plug	.75
			4 1/2"	3.50
Sedum	<i>x</i>	Autumn Stonecrop		
'Autumn Joy' aka 'Herbstfreude' – One of the best landscape and garden plants due to its attractive foliage and red seed heads, which hold on most winters. Evolving heads of green to pink and then red in September. 24-30"				
			1 Gal.	4.75
'Beka' PP#18,398 Autumn Delight™ – An Intrinsic Introduction! A reverse sport that came from Sedum 'Lajos' PP#14,421 Autumn Charm™. This one has foliage with a thin, green edge and chartreuse yellow centers. Flowers just like 'Autumn Joy', the parent. Due to the variegation the height seems to be shorter. So far we've only seen it grow to 18". Beka means frog in Hungarian and was my dad's affectionate name for my mom. The foliage is showiest in May and June. Licensing is available, please call Brent				
			1 Gal	6.00
'Bundle of Joy' PPAF – A Proven Winners perennial. This sport of 'Pure Joy' is pure white. Same great mounding habit to 1' tall and 18"+ wide. Gray-green foliage is also showy in spring. Full sun, well drained to dry soil.				
			1 Gal	6.00
NEW for 2020 – 'Dream Dazzler' PPAF – A variegated sport of 'Dazzleberry'. This plant has a mostly pink edge which blends beautifully with the dark green, purple foliage. Grows 12" tall by 15" wide. Raspberry pink flowers in late summer.				
			1 Gal	6.00
'Firecracker' PPAF – This extra robust thick plum leaved groundcover will grow 6 to 8 inches tall. The flower color is a unique cherry pink.				
			1 Gal	5.50
'Kay's Little Joy' – This mounding sedum has light gray green foliage reminiscent of Neon but even shorter and more compact with soft pink flowers. Great habit and super disease-resistant this is a great new Sedum				
			1 Gal	5.00

Sedum	X	Autumn Stonecrop		
'Lajos' PP#14,421 Autumn Charm™ – An Intrinsic Introduction!				
A variegated form of Sedum 'Autumn Joy'. Creamy yellow edges with green centers. In mid September white buds turn to pink then russet red. A four season plant. Comments: Our firstpatented plant. This form is very stable. For licensing information call Brent				
			1 Gal.	6.50
'Lime Joy' PPAF – An Intrinsic Introduction! Gray-green foliage erupts on vigorous plants. By Mid-July domed lime green buds resemble Hydrangea buds. In September the flowerheads swell to 6-8" packed domes of pink and magenta bi-color flowers. The strong stems grow to 15" tall and take on some red-purple coloration. Full sun, well drained soil				
	70 plug			1.25
			1 Gal.	6.00
'Lime Twister' PPAF – A sport of Lime Zinger with soft yellow edges in spring which fade in time. Spreading clumps reach 6-8" tall and 12" wide. Pink flowers are shy to show themselves in late summer.				
			1 Gal.	5.50
'Peace and Joy' PPAF – An Intrinsic Introduction! This 'Pure Joy' relative has a similar habit but this plant has bi-color magenta and pink flowers in September. Along with that the grey green foliage takes on a reddish edge and purple stems, a very nice addition. Grows to 1' tall and 12-15" wide. Full sun, well drained soil. Resistant to Rhizoctonia.				
	70 Plug			1.25
			1 Gal.	6.00
'Pillow Talk' PP#28,528 – An Intrinsic Introduction! Substantial plants with hybrid vigor reach 18-24" tall and wide. Gray-green foliage is also larger held on rose colored stems and at times can have reddish edges. Large 5-6" flower heads of deep pink and magenta stand out from the crowd. Fall color of chartreuse and pink foliage too. Resistant to Rhizoctonia. Full sun to light shade, well drained soil is best				
	70 plug			1.25
			1 Gal.	6.00
NEW for 2020 – 'Pride and Joy' An Intrinsic Introduction! This sport of 'Pure Joy' has darker pink flowers but the same great mounding habit and dome shaped inflorescence. Plants grow 1' tall and over 15" wide. Full sun, well drained soil				
			1 Gal.	6.00
'Pure Joy' PP#24,194 – An Intrinsic Introduction! Blue green foliage reminiscent of Sedum sieboldii in tight compact clumps only reaching around 12" high and up to 15" wide. Bicolor pink flowers begin in September. Full sun well drained soil is best. A Proven Winner perennial!				
			1 Gal.	6.00
'Rock Star' PP#29,036 – An Intrinsic Introduction! Pointed gray-green foliage in tight clumps has pink flowers on 1' stems, starting in Mid-August through September. A pink companion to Thundercloud, selected as much for its foliage as it was for the flower color! Full sun, to light shade. Well drained soil is best.				
			1 Gal.	6.00

PERENNIALS

Sedum	<i>x</i>	Autumn Stonecrop		
'Sunset Boulevard' PPAF – An Intrinsic Introduction! This sister seedling to 'Pillow Talk' has darker raspberry colored flowers and exceptional fall foliage and color throughout the plant with lime-green ad orange and red fall foliage on red stems with wine colored seedheads. An exceptional fall plants great for containers. Full sun, Well drained soil.....				
			70 plug	1.25
			1 Gal.	6.00
'Thundercloud' PP#21,833 – An Intrinsic Introduction! Unique pointed grey green foliage emerges in spring on strongly mounding domes. Slowly expanding to 10-12" mounds with white spectabile type flowers the end of August into September. Full sun; well drained soil. For licensing information call Brent.....				
			URC	.30
			70 plug	1.00
			1 Gal.	5.00
'Wildfire' PPAF – If you like subtle and variegation, this is your plant. A vigorous sport of 'Firecracker' that has pink edged foliage, who needs the pink flowers. Spreading clumps 4-6" tall and over 1' wide. Full sun, well drained soil.....				
			1 Gal.	5.50
Silphium	<i>laciniatum</i>	Compass Plant		
Big leaves with deep cuts form loose, substantial mounds with 7'+ stalks of sunflower like yellow daisies in June/July. Moist soil in full sun.....				
			1 Gal.	6.50
Silphium	<i>perfoliatum</i>	Cup Plant		
Huge plants up to 9' tall and 4' wide on top. Many yellow flowers in late summer. The leaves form cups at the stem which hold water. An important bird plant providing seeds and water. Prefers moist soil in full sun. Available in June.....				
			1 Gal.	6.50
Silphium	<i>terrebinthinaceum</i>	Prairie Dock		
Substantial clumps of foliage up to 2-3' tall and wide with slender flowering stems 5-6' plus. In late summer and early fall yellow flowers seem to hang in the air. Long lived. Full sun, well drained soil.....				
			1 Gal.	6.50
Stachys	<i>byzantina</i>	Lamb's Ears		
'Big Ears' aka 'Helene von Stein' – This variety has more green to the larger, hairy leaves, does not flower as heavily, and resists melting out in hot weather.....				
			1 Gal.	5.00
Stachys	<i>monieri</i>	Betony		
'Hummelo' – PPA 2019 Plant of the Year! A reliable plant with crinkled green foliage and clumps approximately 1' wide. Many deep pink flowers to 18" in summer. Some rebloom in fall. Comment: Named after the town in Holland where breeder Piet Oudolf has his nursery.....				
			1 Gal.	5.00
Stachys	<i>officinalis</i>	Betony		
'Pink Cotton Candy' PP#21,436 – This new Stachy's from Chicagoland grows promises to be popular. Bicolor pink flowers in July on compact clumps around 15" tall. Nice deep green crinkled foliage too.....				
			1 Gal.	5.00

Stachys	x	Betony		
‘Summer Crush’ PP#29,899 – An Intrinsic Introduction! Vigorous and substantial plants growing to 24” + have white and pink bicolor spikes that bloom in June into July. The crinkled green foliage is fragrant when crushed and deer resistant. Full sun; average soil. Adaptable, long lived and trouble free.....				
			70 plug	1.50
			1 Gal.	6.00
‘Summer Romance’ PP#30,243 – An Intrinsic Introduction! June is a romantic time of year in the garden and this Stachys adds to it with longer spikes of pinker-purple flowers. Very upright too. Looks nice with Monarda ‘Mojo’ crinkled green foliage looks great all season and is deer resistant. Full sun, average to moist soil.....				
			70 plug	1.50
			1 Gal.	6.00
Thymus	<i>praecox</i>	Creeping Thyme		
arcticus psuedolanuginosus (Wooly Thyme) – Tiny, ground hugging foliage with hairs that cause a silver/gray appearance. Pink flowers in June. (GROUNDCOVER).....				
			4 1/2”	3.50
‘Bressingham’ – Grey green, ground hugging plants with good vigor are covered by pink flowers in June. Nice interplanted with the other thymes or at the base of lavender & roses. Full sun and well drained soil is best. (GROUNDCOVER).....				
			4 1/2”	3.50
‘Coccineus’ – Glossy, dark green ground hugging foliage with purple flowers in June. Full sun, well drained soil. (GROUNDCOVER).....				
			4 1/2”	3.50
Tiarella	x	Foam Flower		
‘Spring Symphony’ PP#12,397 – Compact clumps of fingered, black centered foliage are topped with astounding pink foam flowers on 10–15” stems.....				
			1 Gal.	6.00

TRADESCANTIA — *Tradescantia* start blooming at the end of May
They prefer moist soil in full sun to light shade.

Vernonia	<i>acaulis</i>	Stemless Ironweed		
Since acquiring this rare ironweed from Mt. Cuba center in Delaware I’ve enjoyed the habit of basal rosettes and 3’ sturdy stems of open clustered purple flowers. Late summer bloom and showy seedhead are a plus. Attractive to pollinators. Native to the Carolinas and Georgia. Full sun, well drained to dry soil.....				
			1 Gal.	6.00
Vernonia	<i>altissima</i>	Giant Ironweed		
These seedlings of Jonesboro Giant may be variable but the parent reaches 10-12’ tall, so take a chance. Deep green foliage on tall stems eventually reaching 8’ plus with purple sprays of flowers in late summer. Perfect with tall grasses. Full sun, average to moist soil.....				
			1 Gal.	6.00
Vernonia	<i>lettermanii</i>	Threadleaf Ironweed		
‘Iron Butterfly’ – Unique needle-like foliage resembles Amsonia hubrichtii. Plants typically reach 18”+ and bloom late in September with fuschia purple flattened clusters. Mature plants will measure around 18”+ wide too. Prefers well drained soil but tolerates moisture. Full sun is best.....				
			1 Gal.	6.00

Vernonia	x	Ironweed		
‘Southern Cross’ – An Intrinsic Introduction! A favorite selection, this hybrid came from seed sown as Vernonia lettermanii. The other parent is unknown but it had broad foliage and this one has intermediate foliage measuring up to 1/2” wide. The deep green leaves look good all season long. The plant grows 3-4’ tall and wide, blooming in August. Purple flowers can have thin white filaments along with lacy purple petals that emerge from deep purple buds that look like little jewels.....				
			1 Gal.	6.50
<i>NEW for 2020</i> – ‘Summer’s Swan Song’ PP#28,556 – From Chicagoland Grows. Extra dark and thinner foliage is what catches my attention initially on this plant. After that the 30” tall and 50” wide plants are a great small to intermediate size for this late blooming perennial. Clusters of purple lacy flowers bloom in September and invite many pollinators. Full sun, most any soil.....				
			1 Gal.	6.50
Veronica	<i>incana</i>	Woolly Speedwell		
‘Pure Silver’ – An Intrinsic Introduction! Selected for vigor and longevity in the garden. Typically this species requires sharp drainage but this selection is more adaptable to heavy soil and moist conditions. Silvered foliage on 12”+ clumps topped by numerous 15”+ spikes on vivid sky blue flowers in July. Full sun; well drained soil is ideal.....				
			70 plug	1.00
			1 Gal.	5.00
Veronica	x	Speedwell		
‘Blue Skywalker’ PP#29,406 – The dark green foliage is the first things you notice on this tall blue Veronica growing to 24” tall. Blooms a long time starting in June.....				
			1 Gal.	6.00
‘Good Night Irene’ – An Intrinsic Introduction! Long dark green foliage with violet-lavender spikes on 18”+ stems that bloom starting in July and continue into August. Perfect with Echinacea, Leucanthemum and Daylilies. Full sun, well drained soil.....				
			1 Gal.	5.00
‘Kiss the Sky’ PPAF – An Intrinsic Introduction! This hybrid has traits from two of our previous intros. Slightly gray-green foliage gives this plant very clean foliage throughout the season. The vigorous plants are taller growing 24” plus with exceptionally long sky blue flower spikes beginning to bloom in mid-June. Plants will rebloom in late summer but with dead-heading will be near continuous. Full sun, well drained soil.....				
			1 Gal.	5.50
Veronica	x	Speedwell		
‘Spike’ PP#27,814 – An Intrinsic Introduction! Full and extra long blue spikes on low growing, compact plants that bloom in summer on 12 - 15” upright stems. Full sun, well drained soil is best. An improvement over ‘Royal Candles’.....				
			70 plug	1.00
			1 Gal.	5.00
Veronicastrum	<i>virginicum</i>	Culver’s Root		
<i>NEW for 2020</i> – ‘Queen of Diamonds’ – An Intrinsic Introduction! Believe it or not this fine form of Culver’s root was selected solely for its clean, dark green foliage. When it emerges the tips are wine red. Light pink spikes are held on 4’ upright stems and open in mid-August. Full sun, most any soil but moist soil is ideal.....				
			1 Gal.	6.00

 PERENNIALS

Waldsteinia	<i>ternata</i>	Barren Strawberry	
A slow spreading groundcover. Strawberry like foliage with yellow flowers beginning in April and continuing in May. Moist to well drained soil. Likes sun to part shade.....			
			4 1/2" 3.50
Zizia	<i>aurea</i>	Golden Alexander	
This native prairie plant always seems to have some color. It starts blooming in May with some rebloom through the season. The yellow umbels on 30"+ stems are followed by intricate seedheads. Nice cut foliage looks good all year, too. Full sun, well drained soil.....			
			1 Gal. 5.50

 FERNS

 *In general, ferns prefer a moist, organic soil in part to full shade. Mulching is beneficial around but not on top of the crowns. Most emerge in May and are heavy feeders.*

Adiantum	<i>pedatum</i>	Maidenhair Fern	
Flat green fronds with black stems up to 18". Very graceful. Spreads by rhizomes. Native. Prefers a moist, organic soil in part to full shade.....			
			1 Gal. 7.50
Athyrium	<i>angustum forma rubellum</i>	Red Stem Lady Fern	
'Lady in Red' – A prolific fine green fern with the added feature of red stems. Grows to 24". Part shade with moist soil is best.....			
			1 Gal. 7.00
Athyrium	<i>filix-femina</i>	Lady Fern	
Similar to Ostrich in form but more delicate and only reaching 2"+. Native. <u>Available in June</u>			
			1 Gal. 6.50
Athyrium	<i>niponicum</i>	Japanese Painted Fern	
'Apple Court' – This crested form of Japanese painted fern has a lot going on. Mature plants have both great contrasting silver, green and red coloration but also crested foliage for extra texture. Larger plants closer to 24" tall in maturity. <u>Available in June</u>			
			1 Gal. 7.50
'Pictum' – 2004 Perennial Plant Association Plant of the Year! Unique hardy fern with red stems and silver gray edged fronds. One of the most ornamental plants for shade. Although not native, it is long lived and reliable. Grows 18"+.....			
			4 1/2" 4.50 1 Gal. 6.50
Athyrium	<i>x</i>	Giant Japanese Painted Fern	
'Godzilla' – This robust hybrid has a larger size and better vigor growing to 36" silver and red foliage.....			
			1 Gal. 7.50
Athyrium	<i>x</i>	Painted Fern	
'Ghost' (Ghost Fern) – A sterile hybrid between Japanese Painted Fern and Lady Fern with upright silvered fronds growing 2' tall.....			
			1 Gal. 7.50
Athyrium	<i>x</i>	Victorian Lady's Fern	
'Dre's Dagger' – Slightly smaller at 18" tall and wide the fronds of this lady fern are crested at the tips with the pinnae forming crosses. Altogether a fine lacy appearance. Part sun, average to rich soil.....			
			1 Gal. 7.50

 FERNS

Cystopteris	<i>bulbifera</i>	Bulblet / Berry Bladder Fern	
A delicate looking fern that spreads easily by bulblets, even in our limestone gravel. It prefers a high pH basic soil but can take some acid. Bright green fronds, some with red stems to 12"+. Constantly moist soil in part to full shade.....			
			1 Gal. 6.50
Dennstaedtia	<i>punctilobula</i>	Hayscented Fern	
Many finely textured short fronds of bright green growing in every direction. Drought tolerant. Can take full sun. Grows 1'-2'. <u>Available June</u>			
			1 Gal. 7.00
Dryopteris	<i>goldiana</i>	Goldie Fern	
A stately fern reaching 4' and having glossy, leathery fronds of light green. Prefers a moist, organic soil in part to full shade. Native.....			
			1 Gal. 7.50
Dryopteris	<i>marginalis</i>	Leatherwood / Marginal Shield	
Native species with glossy green foliage and many hairy overlapping fronds per crown. Grows to 18"+. <u>Available June</u>			
			1 Gal. 7.00
Matteuccia	<i>pennsylvanica</i>	Ostrich Fern	
An old standby, these can be grown in full sun with moist soil. Strongly vase shaped growing up to 5' tall.....			
			1 Gal. 6.50
Onoclea	<i>sensibilis</i>	Sensitive Fern	
Rounded lobes on bright green fronds, sometimes with red stems creeping in every direction. 1-2' tall. Native to wet areas. <u>Comment</u> : Often used in dried flower arrangements. <u>Available in June</u>			
			1 Gal. 7.00
Osmunda	<i>cinnamomea</i>	Cinnamon Fern	
Yellow stems with green pinnae. The real excitement starts when the infertile cinnamon colored spore structures appear. 18"+. <u>Available in June</u>			
			1 Gal. 6.50
Osmunda	<i>regalis</i>	Royal Fern	
Pinnae equal in size to Honeylocust leaves with a similar texture. Can become tall once established — up to 3'. <u>Available in June</u>			
			1 Gal. 6.50
Polystichum	<i>acrostichoides</i>	Christmas Fern	
Glossy, leathery, deep green fronds that stay evergreen. 1-2'. <u>Available in June</u>			
			1 Gal. 7.00

 GRASSES / RUSHES / SEDGES

COOL SEASON VS. WARM SEASON GRASSES

*Cool season grasses are best planted early (April-May) and grow at 70°F or below.
Warm season grasses are best planted in June and grow at 70°F or above.*

Andropogon	<i>gerardii</i>	Big Bluestem	
'Blackhawks' PP#27,949 – <u>An Intrinsic Introduction!</u> Deeper green foliage takes on deep purple background in mid-summer deepening to dark purple and near black in some parts of the plant. Upright 5'+ tall plants will stand out in the landscape, especially with other tall grasses. Full sun, average soil.....			
			50 plug 2.75 1 Gal. 7.00 3 Gal. 14.50

<i>Andropogon gerardii</i>	Big Bluestem		
‘Dancing Wind’ PP#26,892 – An Intrinsic Introduction! Selected for its bi-color late summer color of green and red deepening to dark red in September and scarlet after frost. Heavy blooming plants begin in August with the entire plant becoming mostly red by the end of September. Grows to 6’ tall and almost 2’ wide.			
		50 plug	2.75
Full sun is best. Any soil but wet		1 Gal.	6.50
‘Red October’ PP#26,283 – An Intrinsic Introduction! Our second vegetative form of Big Bluestem and for its fall color its hard to beat. Initially it was selected for its finer foliage, and has a nice upright habit to 6’. Foliage emerges deep green usually having some red tips from spring on. Starting in August the red highlights increase and deepen to a rich burgundy red. After the first frost usually in October, the foliage turns a more scarlet red taking on a striking appearance. Red flowers begin in August.			
		50 plug	2.75
Full sun is best for the red foliage color. Well drained soil.		1 Gal.	6.50
John Greenlee called this “the New Rubrum”		3 Gal.	14.00
<i>Bouteloua curtipendula</i>	Sideoats Grama		
A native warm season grass reaching 2-3’ tall. The foliage can have a slight blue cast. Unique one sided flowers in summer.			
		1 Gal.	5.50
<i>Bouteloua gracilis</i>	Blue Grama		
‘Angels Eyelashes’ – This western most collection of blue grama grass comes from California via John Greenlee. This form has showier reddish inflorescence on 18” + stems over a long period starting in mid-summer. Nice with ‘Blonde Ambition’. Full sun, well drained to dry soil			
		1 Gal.	6.00
‘Blonde Ambition’ PP#22,048 – Unique blonde yellow flowers are perpendicular to the stem hanging on thin wire like stems 3’-4’ tall. Long blooming and showy plants are not only hardy but up and coming. Full sun well-drained soil ideally			
		1 Gal.	6.50
NEW for 2020 – ‘Honey Blonde’ PPAF – An Intrinsic Introduction!			
Hardy and adaptable plants with good vigor have a similar size and stature compared to ‘Blonde Ambition’. Upright wire like stems stand 30” plus and begin blooming with eyelash like flowers, holding yellow pollen, in June. The tan color lightens with age, holding on for a long time and into winter. Full sun, average to well-drained soil			
		50 plug	2.00
		1 Gal.	6.00
<i>Calamagrostis acutiflora</i>	Feather Reed Grass		
‘Avalanche’ – This feather reed grass has variegation in the center of the leaf. This gives the flower stems extra brilliance before they fade to straw color in late summer/early fall. Better vigor than ‘Overdam’. Grows to 5’. Full sun, well drained, moist soil			
		1 Gal.	5.50
		3 Gal.	13.00
‘Karl Foerster’ – The best form of Feather Reed Grass reaching 4’ with substantial straw like flowers in June/July that hold on into fall. Full sun with moist to well drained soil. Cool season grass. 2001 PPA Perennial Plant of the Year!			
		1 Gal.	5.50
		3 Gal.	13.00

<i>Calamagrostis acutiflora</i>	Feather Reed Grass		
‘Overdam’ – Narrow foliage that has silver white variegation and 4’ tall golden flower plumes. Begins flowering at the end of June. Prefers full sun and well drained to moist soil. Cool Season Grass			
		1 Gal.	5.50
		3 Gal.	13.00
<i>Calamagrostis brachytricha</i>	Foxtail / Korean Feather Reed Grass		
An up and coming ornamental grass, it can be used as a specimen or en masse. 2” wide, pink tinged flowers on light green, glossy foliage reaching 4’. Late blooming, brachytricha starts in September. Can grow in shade! Moist to well drained soil			
		1 Gal.	5.50
		3 Gal.	13.00
CAREX — Deciduous Carex can be cut back. Evergreen types should not be cut back.			
<i>Carex bromoides</i>	Hummock Sedge		
Strongly mounding, bright green 10-12” mounds prefer moist soil and are showiest in Spring when they are one of the first sedges to bloom. Part shade, moist to average soil			
		1 Gal.	5.50
<i>Carex elata</i>	Tussock Sedge		
This deep green upright form has a clean clumping habit making a great companion to other colored foliage perennials. Showy dark inflorescence in spring adds to the contrast. The upright then arching habit to 18”+ add motion and character. Full sun, moist to average soil			
		1 Gal.	6.00
<i>Carex elata</i>	Bowles Golden Sedge		
‘Bowles Golden’ – Grassy golden foliage with green edges on upright clumps growing 15-18”+. Prefers part shade moist well drained soil			
		1 Gal.	7.50
<i>Carex flacca (glauca)</i>	Dark Flowered Sedge		
An aggressive spreader, this Carex has steel gray highlights and brown flowers in June that hold until fall. 1’ tall. Prefers light shade and wet soil (GROUNDCOVER)			
		4 1/2”	3.75
		1 Gal.	5.00
‘Blue Zinger’ – This form is propagated vegetatively and has finer blue foliage compared to the species. Spreading plants make a nice ground cover especially in dry shade. It can be aggressive if irrigated in sun. Part sun to full shade, well drained to dry soil			
		1 Gal.	5.50
<i>Carex grayii</i>	Gray Sedge		
Upright mounds with star like inflorescens in Summer that resemble a midevil torture device in miniature anyway. Full sun, 18” tall, moist soil. Native!			
		1 Gal.	5.00
<i>Carex montana</i>	Sedge		
This species has very deep green foliage typically around 3/8” wide. Relatively low clumps grow nearly flat to the ground, reaching 4-6”. Would be stunning in a mass planting as a groundcover. Part sun, average to moist soil			
		1 Gal.	6.00

<i>Carex</i>	<i>morrowii</i>	Japanese Sedge		
‘Ice Dance’ – Thick deep green foliage edged in a mix of creamy yellow to almost white. Blades are approximately 1/2” wide on 12-15” wide clumps. Zone 5. Full sun to part shade and moist to well drained soil.....				
			1 Gal.	5.50
<i>Carex</i>	<i>muskigumensis</i>	Palm Sedge		
A native sedge whose habit reminds me of ferns. Upright plants growing to 24” have alternate blades going up the stem. Takes full sun with moist soil, though shade is better.....				
			1 Gal.	5.50
‘Little Midge’ – A cute, fine textured, short clumper only reaching around 1’ tall. Needle like foliage. Full sun with moist soil is best.....				
			1 Gal.	6.50
<i>Carex</i>	<i>pensylvanica</i>	Pennsylvania Sedge		
This native sedge grows naturally in dry shade. The bright green foliage reaches only 5-6” with sulphur yellow inflorescence. 4 1/2” 4.00				
Grows with Bird’s Foot Violet in the wild.....				
			1 Gal.	6.00
‘Straw Hat’ PP#29,432 – An Intrinsic Introduction! This rhizomatous and vegetative form of penn sedge has a vigorous habit. It also has more substantial flower clusters than the species with reliable heavy spring bloom in May. It makes a good groundcover for dry shade. I have it planted with <i>Polemonium</i> x ‘Heaven Scent’. Tolerates full sun with irrigation. Part shade is best. The bright green foliage reaches only 5-6”, semi-evergreen.....				
			4 1/2”	4.50
<i>Carex</i>	<i>siderosticha</i>	Broad Leaved Sedge		
‘Variegata’ – 1” wide foliage of apple green with a bone white edge. Prefers some moisture with good drainage, part shade. Back after a one year hiatus.....				
			1 Gal.	6.50
<i>Carex</i>	<i>sprengellii</i>	Long-Beaked Sedge		
Loose yellow inflorescence emerge early on fresh green clumps growing 1’ plus tall. Plants continue to grow and fold over about halfway for summer. Average soil in part shade.....				
			1 Gal.	6.00
<i>Chasmanthium</i>	<i>latifolium</i>	Northern Sea Oats		
Light green foliage on clumping plants 2-4’ tall above which are flat green oat-like flowers in August which turn brown in fall. Likes moist soil. Can take it well drained. Full sun to part shade. Can self sow.....				
			1 Gal.	5.50
<i>Deschampsia</i>	<i>caespitosa</i>	Tufted Hair Grass		
‘Goldtau’ – A unique look for this species, this form has a much shorter habit to around 15”+. Heavy clusters of gold flowers hang on from summer to fall. Prefers moist soil and sun to part shade.....				
			1 Gal.	5.00
<i>Elymus</i>	<i>canadensis</i>	Canada Wild Rye		
‘Icy Blue’ – A Jellito seed strain with showier blue foliage and flowers. Bottlebrush flowers begin in June and hold on into fall. These plants can also tolerate some shade. An adaptable and hardy native grass, growing 3’+. Dry to well drained soil is best.....				
			1 Gal.	6.00

<i>Equisetum</i>	<i>hyemale</i>	Horsetail		
Pencil thin stems of green reaching 4’ come from spreading roots. Can be aggressive in wet situations. A marginal aquatic. Likes full sun and moist to wet soil.....				
			1 Gal.	6.50
<i>Eragrostis</i>	<i>spectabilis</i>	Purple Love Grass		
A short, clumping, native grass reaching 1’ tall. The airy flowers have a pink to red cast August into September. Some red fall color to the foliage. Moist to well drained soil in full sun.....				
			1 Gal.	5.50
<i>Festuca</i>	<i>amethystina</i>	Blue Fescue		
‘Superba’ – Reliably flowers in May/June at about 15”. This unusually fine textured Fescue displays red orange/copper highlights intermittently throughout the growing season. As blue as ‘Elijah’s Blue’. Needs good drainage, full sun. <u>Comment:</u> A favorite Fescue, should be used more.....				
			1 Gal.	5.50
<i>Festuca</i>	<i>x</i>	Blue Fescue		
‘Cool as Ice’ PP#27,651 – An Intrinsic Introduction! This cool blue fescue was selected for its lighter green spring emergence giving the plant a slight bi-color look and better heat tolerance in summer. Vigorous plants turn blue in summer. Flower stems reach 18” with foliage reaching 24” wide. Zone 4-8. Full sun to light shade, well drained soil is best.....				
			50 plug	1.75
			4 1/2”	3.75
			1 Gal.	5.50
<i>Hakonechloa</i>	<i>macra</i>	Golden Variegated Hakone Grass		
While green the habit of this grass gives it its character. Upright then arching nearly back to the ground it give the effect of movement. Great to echo other greens and to contrast with other foliage types. <u>Available in June</u>				
			1 Gal.	7.50
‘All Gold’ – The all gold form of Japanese forest grass virtually, still has the same vigor as ‘Aureola’ but the foliage is a striking gold color all season long. Great in part shade and dry to well drained soil.....				
			1 Gal.	8.00
‘Aureola’ – Arching foliage of green striped in golden yellow are easy to blend into the dry shade garden. Foliage reaches 18”+ in time with a spread of 24”+. Flowers are rarely heavy or showy.....				
			1 Gal.	8.00
<i>Imperata</i>	<i>cylindrica</i>	Japanese Blood Grass		
‘Red Baron’ – Spreading clump are red through out the season on 1-2’ long stems and blades. Tolerant of a wide variety of soils including moist. Full sun is best for red color.....				
			1 Gal.	6.50
<i>Koeleria</i>	<i>macrantha</i>	June Grass		
This very adaptable and long lived Native grass deserves more use. June blooming plants emerge from tight gray green clumps only 6”-8” tall and wide. Stems reach 18” and continue to be attractive into fall, moving from silver and yellow blooms to golden tan seedheads. Good for a short Meadow and dry situations, including gravel gardens and greenroofs. Full sun well drained to dry soil.....				
			1 Gal.	5.50
<i>Miscanthus</i>	<i>giganteus</i>	Giant Silver Grass		
Used mainly for its foliage effect. Grows to 12’ and spreads readily. If it blooms, it will produce nice, heavy, pink flowers in October. Full sun and moist to well drained soil. Warm season grass.....				
			1 Gal.	5.50
			3 Gal.	13.00

GRASSES / RUSHES / SEDGES

Miscanthus	<i>sinensis</i>	Japanese Silver Grass		
‘Graziella’ (Maiden Grass) – Vase shaped clumps exhibit nice fall colors. A great replacement for ‘Gracillimus’ with same slender foliage and white nodding flowers. Grows to 6’ and is heavy flowering. Blooms early in September. Moist well drained soil. Warm season grass.....				
			1 Gal.	5.50
			3 Gal.	13.00
‘Malepartus’ – Has all my favorite attributes for a Miscanthus: wide, substantial blades on 6’+ plants that flower in September with heavy fingered flowers that emerge shiny red and fade to silver but hold on into winter. Likes full sun and moist well drained soil. Warm season grass. Available in June.....				
			1 Gal.	5.50
			3 Gal.	13.00
‘Morning Light’ (Maiden Grass) – 2 1/2-3’ arching habit with fine, silvery, variegated foliage and some nice fall color. Seldom flowers here. Moist to well drained soil. <u>Comment:</u> A United States Arboretum introduction. Warm season grass.....				
			1 Gal.	5.50
			3 Gal.	13.00
‘Purpurascens’ (Flame Grass) – Slow spreading, upright clumps feature bright red color and tall silvery plumes in September to 6’ in fall. One of the hardest Miscanthus. Prefers moist to well drained soil and full sun. Warm season grass.....				
			1 Gal.	5.50
			3 Gal.	13.00
Molinia	<i>arundinacea</i>	Tall Purple Moor Grass		
‘Cordoba’ – We received this plant from Robert Herman who got it from the breeder Ernst Pagel. This is one of Ernst’s last plants he selected and we are honored to introduce it. A tall form reaching 6-7’, the habit is moderately upright. Vigorous plants.....				
			1 Gal.	6.00
‘Dutch Dreamer’ – An Intrinsic Introduction! This medium sized Molinia still reaches 5’ tall, so its perfect for blending tall and small. Upright plants have golden yellow fall color too.....				
			1 Gal.	6.00
‘Skyracer’ – A vigorous 7-8’, clumping, architectural grass with slender stems and a transparent appearance due to the 2’ foliage. Blooms July into August. Its graceful golden flower stalks provide great fall interest. Needs full sun and well drained to moist soil.....				
			50 plug	2.00
			1 Gal.	6.00
			3 Gal.	13.50
Molinia	<i>caerulea</i>	Moor Grass		
‘Poul Peterson’ – Relatively new to the U.S. trade, this selection comes from Overdam Nursery in Denmark and is a favorite of Piet Oudolf and Roy Diblik. Foliage is 1/2” wide with heavy blooming plants in a V shape. Golden yellow fall color. Stems grow to 3’ plus and have dark flowers in summer. Full sun, almost any soil.....				
			1 Gal.	6.00
‘Variegata’ – A small mound of yellow variegated foliage 6-8” tall and over 1’ wide with somewhat insignificant maroon red flowers to 24+” in July. The bright yellow stalks are showy all year. Likes full sun to light shade, well drained to dry soil. Highly recommended!.....				
			1 Gal.	6.00
Panicum	<i>virgatum</i>	Switch Grass		
‘Northwind’ – 2014 Perennial Plant of the Year. Gaining in popularity especially in the Midwest. This grass has a very stiff upright habit to 6’ tall but only 15” wide on top. Full sun, well drained to moist soil. <u>Comment:</u> Selected by Roy Diblik of Northwind Perennial Farm in Wisconsin. Available in June.....				
			1 Gal.	6.00
			3 Gal.	13.50

Panicum	<i>virgatum</i>	Switch Grass		
'Prairie Dog' PPAF – An Intrinsic Introduction! Selected for a more reserved habit growing 4-5' tall with clean blue foliage on upright growth. Heavy flowering plants bloom on the top third of the plant.....			50 plug	2.00
			1 Gal.	6.00
			3 Gal.	13.50
'Shenandoah' (Red Switch Grass) – 'Shenandoah' Switch Grass starts to show red highlights in its foliage in July with red flowers in August/September. Grows to 4'. Full sun, moist soil. Warm season grass.....			1 Gal.	5.50
			3 Gal.	13.00
Pennisetum	<i>alopecuroides</i>	Fountain Grass		
'Ginger Love' PP#26,442 (Fountain Grass) – An Intrinsic Introduction! If you like Red Heads you'll love Ginger Love. This red flowered fountain grass grows 2-3' tall and wide with thick red inflorescence starting in August and holding on until October. Plants should be deadheaded once seeds start to drop. Full sun, well drained to average soil. Zones 5-9.....			50 plug	2.00
			1 Gal.	6.00
			3 Gal.	13.00
'Hameln' (Dwarf Fountain Grass) – Green mounds have showy 4" bottlebrush flowers in late summer on very uniform plants that reach 3'. Our most popular grass, although it can be marginally hardy here. Frequent division in spring (once plants show green) will keep plants vigorous and help overwintering. Full sun and well drained soil.....			1 Gal.	5.00
			3 Gal.	13.00
NEW for 2020 – 'Love and Rockets' PPAF – An Intrinsic Introduction!				
After 19 years of breeding we finally have a small red flowered fountain grass in league with 'Hameln'. Dark green foliage blends nicely with the wine red flowers softening in color by fall. Mature plants reaching around 24 to 30" tall. Red tipped foliage at times adds another dimension. Full sun. Most any soil but wet.....			50 plug	2.00
			1 Gal.	6.00
'Piglet' PP#19,074 – An Intrinsic Introduction! This new dwarf fountain grass tops out at around 18" tall and wide. Full sun, well drained soil. Comments: The flowers are substantial enough to be viewed in the landscape compared to 'Little Bunny' and plants grow to about half the size of 'Hameln'. Try with Pixie Meadowbrite™ or Liatris 'Kobold'. For trial or licensing, information, please call Brent.....			50 plug	1.50
			1 Gal.	5.50
'Red Head' (Red Head Fountain Grass) – An Intrinsic Introduction!				
An early form of red flowering Pennisetum. I selected this one in 1998 from among Pennisetum 'National Arboretum'. 'Red Head' shows its red inflorescence the beginning of August, one month earlier than most. It looked stunning against the Feather Reed Grass in the field beds at the nursery. Nice with other red grasses, variegated Miscanthus and Joe Pye Weed. Full sun, well drained to moist soil. It should be deadheaded in October to prevent reseeding. Awarded in 2010 at the ISU Conference in Europe.....			50 plug	1.50
			1 Gal.	5.00
			3 Gal.	13.00
'Red Rocket' PP#28,715 – An Intrinsic Introduction! Get ready for take off, when the dark red flower spikes of 'Red Rocket' bloom in late summer they will be flying off the shelf. 3' x 3' + substantial plants are the perfect size to blend the tall and small in your border. Full sun, well drained soil.....				
			50 plug	2.00
			1 Gal.	6.00
			3 Gal.	13.00

 GRASSES / RUSHES / SEDGES

<i>Pennisetum alopecuroides</i>	Fountain Grass		
'Yellow Ribbons' PPAF – <u>An Intrinsic Introduction!</u> Yellow foliage plants are nearly the same size as 'Hameln' with thin golden yellow foliage that mellows to chartreuse yellow by fall. Light tan colored flowers bloom in August and end in October on 24" stems. Zone 5 to 9.			
		50 plug	2.00
		1 Gal.	6.00
		3 Gal.	13.50
<i>Schizachyrium scoparium</i>	Little Bluestem		
One of the most ornamental natives, it stands 3' tall and exhibits great orange-red fall color and fluffy silver seed heads along the stems in September. Native to all lower 48 states. Prefers full sun and moist to well drained soil. Warm season grass.....			
		50 plug	1.50
		1 Gal.	5.50
'Jazz' – <u>An Intrinsic Introduction!</u> An exciting selection that comes from 'The Blues'. 'Jazz' is a shorter form growing 2'+ with the same blue foliage and will not fall over. Makes a good replacement for Blue Oat Grass. Native. Some purple fall color to the stems too. Full sun, well drained soil is best			
		50 plug	2.00
		1 Gal.	6.00
'Standing Ovation' PP#25,202 – It's hard to beat this 'Little Bluestem' although it's on the larger size it's also one of the best. Tall 4' plants average great upright vase shaped habit and a wide range of colored foliage from spring to fall, including silver, orange, reds, and purple. Full sun, well drained soil.....			
		1 Gal.	6.50
'The Blues' – A selection with exceptional blue foliage. Propagated vegetatively. Highly recommended. Four season interest. Flowers later than the species in September. Prefers full sun and moist to well drained soil. Warm season grass. Great with other blue grasses.....			
		1 Gal.	6.00
<i>Sesleria autumnalis</i>	Autumn Moor Grass		
Short, light green mounds with 18" stems topped by fluffy, rounded, white flowers in August. Full sun to part shade, tolerates dry shade, too. Well drained soil			
		1 Gal.	6.00
<i>Sesleria caerulea</i>	Blue Moor Grass		
A neat 6" clump forming grass with flat twisting foliage that is green on the top but silver gray on the underside. Likes full sun, well drained soil. Cool season grass.....			
		1 Gal.	6.00
<i>Sesleria x</i>	Moor Grass		
'Greenlee's Hybrid' – A hybrid between caerulea and autumnalis. Tight clumps with slight grey highlights blooming mid to late spring on 15"+ stems, fading to a golden beige going into fall, with another set of flowers appearing too. Full sun to part shade, well drained to average soil.....			
		50 plug	1.75
		1 Gal.	5.50
<i>Spodiopogon sibiricus</i>	Graybeard		
Also called frost Grass, this one prefers a cooler location, so moist drained soil in light shade is ideal. Wide foliage almost resembles bamboo on this clumping grass to 5' tall and 1-2' wide. The top third has the open spear shaped, silvered flowers in late summer. Can have some reddish-orange fall color too			
		1 Gal.	6.50

 GRASSES / RUSHES / SEDGES

<i>Sporobolus heterolepis</i>	Prairie Dropseed		
Fine textured, bright green clumps are similar in habit to Fescue but the clumps are much larger. Fragrant airy flowers in August. In fall, it boasts a great reddish orange color. Grows to 4' tall. Likes full sun and well drained soil. Warm season grass			
		4 1/2	3.75
		1 Gal.	5.50
NEW for 2020 – 'Golden Prairie' – <u>An Intrinsic Introduction!</u> I debated on whether I should sell this gold leaved prairie dropseed, however when you see the plant in spring it's hard to ignore. Although not entirely stable, the golden foliage stands out in the spring. The plant green up at the season progresses so enjoy it early			
		1 Gal.	6.50
'Tara' – Found growing on a bluff in the Kettle Moraine by Roy Diblik of Northwind, this dwarf Prairie Dropseed only grows 24" tall. Extra nice fall color of orange and red. Likes well drained soil in full sun			
		50 plug	2.50
		4 1/2"	4.50
		1 Gal.	7.00

 VINES

 CLEMATIS — *All Clematis like cool, shaded roots in moist soil. Most bloom in early summer. All vine Clematis will come with a metal trellis.*

<i>Clematis paniculata</i>	Sweet Autumn Clematis		
This good growing, fall flowering Clematis with masses of small, fragrant white flowers in September eventually reaches 15-20'			
		1 Gal.	9.00
<i>Clematis x</i>	Clematis		
'Arabella' – Lavender blue flowers from May until frost. This short climbing vine only reaches 4-6' but deserves more use. It can be planted between perennials as a groundcover too. The roots like to be shaded but the tops like full sun. Available in June			
		1 Gal.	10.00
'Comtesse de Bouchard' – Light pink petals with a deeper strip down the center. Bushy, vigorous plants. Rated one of the best by the Chicago Botanic Garden. Available in June			
		1 Gal.	10.00
'Jackmani' – The staple vine in many gardens, this variety has 4-5" purple flowers on vines reaching 20'+. No pruning necessary. Available in June			
		1 Gal.	9.50
'Nellie Mosier' – 6" Bicolor flowers bloom May and June. Mauve pink petals have darker pink stripes down the center.....			
		1 Gal.	10.00
<i>Parthenocissus quinquefolia</i>	Virginia Creeper		
Rapidly growing vine, can reach 30-50' high. Scarlet in the fall. Native. Sun or partial shade. Tolerates poor or dry soil, as well as heat and salty conditions			
		1 Gal.	7.50
<i>Parthenocissus tricuspidata</i>	Boston Ivy		
'Grand Slam' – <u>An Intrinsic Introduction!</u> This plant has great looking foliage three seasons out of the year. Semi glossy foliage emerges lighter green but quickly colors up to deep green. The real show comes in Fall when the uniform bright red fall color is hard to beat. This climbing vine will grow over 20' tall and cling to stone. Zone 4-9			
		1 Gal.	9.00
