GENESEE COUNTY BU

Cancers Cured!

OR NO CHARGE.

DR. KINGSLEY, OF ROME, N. Y.,

Has discovered a perfect cure for Cancers without the use of the knife. Thousands of cases cured can testify to the efficacy of this plan of treatment. This preparation will destroy the specific nature of most Cancers in from ten to sixty minutes. Even in those large Cancerous affections of the breast, from which so many females die annually, my specific is equally as effectual as in those smaller surface Cancers. Ninety-nine out of a hundred of all those persons who have died from Cancer, could easily have been cured. Cancer has been considered from time immemorial the greatest scourge of the human race; but the time will come when all shall see that it is as remediable as any other disease. At the same time remedies are given to purify the blood and fortify the system against a renewed attack. In all cases, if the Cancer is not too far advanced, a perfect cure is warranted, or no charge.

Most persons are greatly deceived in regard to the first symptoms and appearance of Cancer, considering it very painful from the commencement. This is a sad mistake, (causing the death of thousands,) there being but little or no pain until the Cancer is far advanced. The only symptoms for months, and in some cases even for years, is occasionally either a stinging, itching, smarting, burning, creeping or shooting sensation, and in some cases not even any of these. Nearly all of those kernels or lumps that occur in the female breast, and also those unnatural appearances in the form of crusts or warty excrescence, which appear in either sex on the face, lips, nose, eye lids, or any other part of the surface, are cancers. Cancer is very easily cured in its early stage, consequently it is of the very greatest importance that all thus afflicted should have immediate treatment; as thousands of very valuable lives have been lost from pure neglect, having been misguiding by physicians having no knowledge of the disease, who, by calling it Scrofula, Erysipelas, Salt Rheum or some other non-terrifying disease, lull this unfortunate class in the cradle of ignorance, until upon the very verge of death, when, to hide such ignorance, the physician tells the patient that it has finally turned to Cancer, and cannot be cured. There is no such thing as turning to Cancer. Whatever ends in Cancer, began in Cancer. Be no longer deceived. If you have the slightest suspicion of trouble, seek immediate relief and thereby preserve life.

Consumption, Bronchitis, Catarrh, Asthma, Heart Disease, Dyspepsia, Liver Complaint, Fits, St. Vitus' Dance, Neuralgia, Scald Head, Piles, Tape Worms, or Worms of any kind, all Diseases of the Skin, Pimples, Scrofula or King's Evil, Fever Sores, Spinal Diseases, Rheumatism, Gout, Dropsy, Diabetes, Kidney Diseases, Gravel, and all Diseases peculiar to Males or Females, successfully treated.

Warts, Corns, Bunions, Moles, Wens, Birth-Marks, Tumors &c., removed. Especial attention given to the treatment of Crooked Feet, Legs, Arms, Spine, Neck, and all other deformities. Cross Eyes straightened, Hare-Lips cured by an entirely new plan of operating. Operations for Stone in the Bladder, Polypus, Strangulated Hernia, Fistula, or the cure of False and Crooked Joints, and all deformities of the Eye Lids, Nose, Lips, Neck &c., resulting from Burns or Wounds, performed upon the most scientific principles. All Diseases of the Eye and Ear treated with very great success.

Especial attention given to the treatment of all diseases originating from the errors of misguided Youth.

Patients from a distance, except in Surgical and Cancer cases, by sending a full description of their symptoms, can have medicines sent by Mail or Express, and be treated at home.

All letters promptly answered, and medicines ordered, immediately forwarded.

The Doctor is a graduate with an experience of over fourteen years in the practice of medicine, twelve of which have been spent in Rome.

N. B.—All persons troubled with Asthma should send for Dr. Kingsley's ASTHMA SPECIFIC, which is warranted to relieve any case or money refunded.

Send for DR. KINGSLEY'S AGUE SPECIFIC, which is purely vegetable and never fails to cure.

All troubled with a Cough of any kind should be sure to send for DR. KINGSLEY'S COUGH BALSAM, which cures as by magic.

For Further Particulars, Write the Doctor.

R. O. HOLDEN,

WHOLESALE AND RETAIL DEALER IN FOREIGN AND DOMESTIC

DRY GOODS!

No. 85. MAIN STREET, No. 85.

BATAVIA, N. Y.

THE REYNOLDS

Mower & Reaper KNIVES.

MANUFACTURED EXCLUSIVELY BY US, UNDER REYNOLDS' PATENTS for Tempering Steel without the aid of any liquids, received the only award at the Great National Implement Trial, held at Auburn, in 1886. They possess the following superior qualities:

1. They are made with a fine Cutlery Temper at the edges.
2. They hold only a Spring Temper at the center and at the heel.
3. They are warranted perfectly uniform, every knife being exactly alike in temper.
4. We warrant they can be ground from 8 to 10 times without losing their cutting-edge.
5. Finally, we will warrant them to cut from 40 to 50 acres of grain or grass without being once ground.

We are the sole Manufacturers of these Knives in the United States.

INTRODUCTION.

In presenting the initial number of the "Gazetteer and Directory of Genesee County" to the public, the publisher desires to return his sincere thanks to all who have so kindly assisted in obtaining the valuable information which it contains, and without whose aid it would have been impossible to collect, in the brief space of time in which it is essential that all such works should be completed. Especially are our thanks due to the several editors of the *Republican Advocate*, *Progressive Batavian*, *Spirit of the Times*, *Batavia*; and *LeRoy Gazette*, *LeRoy*, for the uniform kindness which has been evinced in calling public attention to the author's efforts; and to the following persons, viz., D. C. Rumsey, School Commissioner; A. D. Lord, Superintendent of State Institution for the Blind, and R. McWilliams, Deputy Collector Internal Revenue, *Batavia*, for essential aid in furnishing material for the work. Many others in various sections of the County have kindly volunteered their aid, to all of whom we return sincere thanks.

The following works were consulted in its preparation: "French's Gazetteer of the State of New York;" "Turner's Pioneer History of the Holland Purchase;" "Hammond's Political History of the State of New York;" "Hotchkin's History of the Presbyterian Church in Western New York;" "Census Reports of 1865;" "Proceedings of Board of Supervisors for 1868," and "Sketches of *Batavia*," by Wm. Seaver.

That errors may have occurred in so great a number of names and dates as are here given, is probable, and that names have been omitted that should have been inserted is quite certain. We can only say that we have exercised more than ordinary diligence and care in this difficult and complicated feature of book-making. To such as feel aggrieved in consequence of error or omission, we beg pardon, and ask the indulgence of the reader in marking such as had been observed in the subsequent reading of the proofs, and which are noted in the *Errata*, on page 223.

It is also suggested that our patrons observe and become familiar with the explanations at the commencement of the Directory.

The Map of the County was engraved with great care by Messrs. "Weed, Parsons & Co.," of Albany, and, it is believed, will prove a valuable acquisition to the work.

The *Advertisers* represent some of the leading business men and firms of the County, and also many enterprising and reliable dealers in other parts of the State. We most cheerfully commend them all to the patronage of those under whose observation these pages may come.

With thanks to friends generally, we leave our work to secure the favor which earnest endeavor ever wins from a discriminating business public.

HAMILTON CHILD.

ALVIN L. BRIGGS,
LANDSCAPE PAINTER!

STUDIO IN ROYCE'S BLOCK,

ALBION, - Orleans County, N. Y.

Having a natural talent for **PAINTING**, aided by a course of instruction by some of the most eminent artists in this country, since which time I have enjoyed quite an extended experience and practice in my profession, warrants me in feeling competent to undertake any orders I may be favored with.

My Patrons will Always Find my Terms Reasonable.

COPIES OF ORIGINAL PAINTINGS EXECUTED WITH FIDELITY.

All orders will be thankfully received and promptly attended to.

J. A. Clark, dealer in Clocks, Watches, Jewelry, Cutlery and Fancy Goods, No. 90 Main St., Batavia, N. Y., advertises on colored page 225. This is one of the best furnished stores to be found in the State, outside of the large cities, and is equalled by but few anywhere. It is, in fact, a first-class store as to goods and general fitting up, and any one in want of any article usually kept in such a store will find Mr. Clark ready to furnish it on as reasonable terms as any dealer in the State. Customers can rely on getting the quality of goods they bargain for. Call and see.

Alvin L. Briggs, whose card appears on page 16, is a young artist of promise. He has already had quite extensive experience in painting landscapes from na-

ture, while as a copyist he has few superiors. We have no hesitation in recommending our friends to engage pictures of him. The only fault we know of to be found with him, is, that his prices are so low as to cause complaint among other artists.

W. S. Brown & Co., Carriage Makers, at LeRoy, N. Y., can supply citizens of Western New York with elegant and substantial work in their line. They employ experienced workmen and use the best of seasoned timber and the finest qualities of iron in their manufactures. Citizens of Genesee Co. should patronize home industries by selecting their Buggies, Wagons, or Cutters of this firm. See card, page 217.

Glen & Hall Manufacturing Co., of Rochester, manufacture superior Threshing Machines, Horse Powers and other agricultural implements. Their works have been established more than 40 years, during which time they have supplied machines to many thousand customers in all parts of the country. For further particulars of this worthy establishment, we refer the reader to their advertisement on page 216.

E. A. Shumway's Wholesale and Retail Paper Warehouse, Syracuse, is always supplied with a large assortment of Paper, Stationery and Printers' Materials, which he will furnish to the trade or to consumers on as good terms as any house in Central New York. Mr. S. understands the wants of the public and will spare no pains to suit his customers.—Dealers and others will do well to give him a call before purchasing elsewhere. See card, page 208.

Edward Davey, Carriage and Sleigh Manufacturers, Medina, N. Y., advertises on page 196. This manufactory was established twenty years ago, and its products have gone far and wide over this and adjoining counties. The best materials are used and skilled workmen employed. He buys his stock for cash and can do as good work at as low a price as any establishment in this region. As all his work is warranted, people need not fear to purchase; they will be honorably dealt with.

Dr. Kingsley, of Rome, justly celebrated for the many cures he has effected of that most distressing disease, Cancer, publishes a notice on page 1. He is prepared to treat all scrofulous diseases, and others of long standing, and assures his patients that they will not be charged a heavy bill and dismissed without receiving any benefit. Persons who cannot conveniently call upon him in person, can address him by letter, and will receive prompt attention. Dr. K. is a graduate, with an experience of over fourteen years in the practice of medicine. Let the afflicted give him a call.

Burke, Fitzsimons, Hone & Co., Importers, Jobbers and Retailers of Dry Goods, Fancy Goods and Woolens, No. 53 Main street, Rochester, publish a card on page 226. This House was established in 1849, since which time its success has been uninterrupted, each year increasing its amount of business. Their annual sales amount to the enormous sum of near \$1,500,000, their trade extending from the Eastern portions of the State to the "Far West." Occupying, as they do, fully 25,000 feet of flooring in actual business departments, every portion of which is crowded with immense piles of goods from foreign countries, as well as of domestic manufacture, renders the facilities of this house for Jobbing equal to any in the country. The firm are also proprietors of the "Genesee Falls Woolen Mills," where they manufacture 100,000 yards of goods annually.

HOWE'S NEVER-FAILING AGUE CURE AND TONIC

B I T T E R S ,

Warranted to cure, permanently, Chills, Ague & Fever, and all Periodic Diseases. It cures Sciatic Rheumatism, Neuralgia, Paralysis, and all Weaknesses, &c., being wonderfully adapted to CURING Disease, restoring health and strength.

This Preparation is purely Vegetable, and entirely free from Quinine or Mineral Poison. N. B. Persons using this Medicine can commence working immediately, and without fear of the disease returning. **WARRANTED.**

Dr. C. B. Howe, Sole Proprietor, Seneca Falls, N. Y.

Howe's Concentrated Syrup.

JAMES GERARD & CO.,

(Sole Agents for the United States.)

85 Nassau Street, (up stairs.) NEW YORK.

THE STATES,

THEIR SETTLEMENT, ADMITTANCE TO THE UNION, POPULATION,
SUFFRAGE LAWS, ETC.

ALABAMA was settled near Mobile, in 1702, by the French; was formed into a Territory by act of Congress, approved March 3, 1817, from the eastern portion of the Territory of Mississippi; framed a Constitution August 2, 1819, and was admitted into the Union December 14 of the same year. Area 50,722 square miles, or 32,462,080 acres.—Population in 1860, 964,201, of whom 435,080 were slaves. It is the chief cotton growing State of the Union. White male citizens who have resided one year in the State and three months in the county, are entitled to vote. An election for a Convention was held December 24, 1860, and a majority of over 50,000 votes cast for secession; the Convention met January 7, 1861, and on the 11th passed the ordinance of secession, by a vote of 51 to 39, which was followed on the 21st by the resignation of its members of Congress.

ARKANSAS was settled at Arkansas Post in 1685, by the French, and was part of the Louisiana purchase ceded by France to the United States, April 30, 1803. It was formed into a Territory by act of Congress, March 2, 1819, from the southern part of the Territory of Missouri; its western boundary was settled May 26, 1824, and its southern, May 19, 1828. Having adopted a Constitution, a memorial was presented in Congress, March 1, 1836, and an act for its admission into the Union passed June 15 of the same year. Area 52,198 square miles, or 33,406,720 acres. In 1860 its population was 435,450, of whom 111,115 were slaves. It is an agricultural State, its staples being corn and cotton.—Citizenship and residence in the State for six months, qualify voters in the county and district where they reside. January 16, 1861, its Legislature ordered a State Convention, which assembled, and on May 6, voted to secede, 69 to 1. January 4, 1864, a Convention assembled in Little Rock, which adopted a new Constitution, the principle feature of which consisted in a clause abolishing slavery. The Convention adjourned January 22. This body also inaugurated a Provisional Government. The Constitution was submitted to the people, and 12,177 votes cast for it, to 226 against it. The State was re-organized under the plan contained in the Amnesty Proclamation of President LINCOLN, in pursuance of which an election was held March 14, 1864. The vote required under the Proclamation was 5,405. About 16,000 votes were cast.

CALIFORNIA was settled at Diego in 1768, by Spaniards, and was part of the territory ceded to the United States by Mexico, by the treaty concluded at Guadalupe Hidalgo, February 22, 1848. After several ineffectual attempts to organize it as a Territory or admit it as a State, a law was passed by Congress for the latter purpose, which was approved September 9, 1850. Area 188,981 square miles, or 120,947,784 acres. Population in 1860, 305,439. It is the most productive gold mining region on the continent, and also abounds in many other minerals.—White male citizens of the United States, and those of Mexico who may choose to comply with the provisions of the treaty of Queretaro, of May 30, 1848, who have resided in the State six months and in the county or district thirty days, are entitled to vote.

CONNECTICUT was settled at Windsor, in 1633, by English Puritans from Massachusetts, and continued under the jurisdiction of that Province until April 23, 1662, when a separate charter was granted, which continued in force until a Constitution was formed, September 15, 1818. It was one of the original thirteen States, and ratified the United States Constitution, January 9, 1788. Area 4,674 square miles, or 2,991,360 acres. Population in 1860, 460,147. It is one of the most densely populated and principal manufacturing States in the Union. Residence for six months, or military duty for a year, or payment of State tax, or a freehold of the yearly value of seven dollars, gives the right to vote.

DELAWARE was settled at Wilmington, early in 1638, by Swedes and Finns; was granted to William Penn, in 1682, and continued under the government of Pennsylvania until the adoption of a Constitution, September 20, 1776; a new one was formed June 12, 1792. It was one of the original thirteen States, and ratified the United States Constitution, December 7, 1787. Area 2,120 square miles, or 1,356,800 acres.—Population, in 1860, 112,216, of whom 1,798 were slaves. It is a grain and fruit growing State, with some extensive manufactories. Residence in the State one year, and ten days in the election district, with payment of a State or county tax assessed ten days prior to an election, gives the right to vote, except that citizens between twenty-one and twenty-two years of age need not have paid the tax.

FLORIDA was settled at St. Augustine, in 1565, by Spaniards; was formed from part of the territory ceded by Spain to the United States by treaty of February 22, 1819; an act to authorize the President to establish a temporary government was passed March 3, 1819; articles of surrender of East Florida were framed July 10, and of West Florida, July 17, 1821, and it was then taken possession of by General Jackson as Governor. An act for the establishment of a Territorial Government was passed March 30, 1822, and by act of March 3, 1823, East and West Florida were constituted one Territory. Acts to establish its boundary line between Georgia and Alabama were passed May 4, 1826, and March 2, 1831. After several ineffectual attempts to organize it into two Territories, or into a State and Territory, an act for its admission into the Union was passed March 3, 1845. Area 59,268 square miles, or 37,930,520 acres. Population, in 1860, 140,425, of whom 61,745 were slaves. It is an agricultural State, tropical in its climate and products. Every free white male citizen, who has resided in the State two years and in the county six months, and has been enrolled in the militia (unless exempt by law,) is qualified to vote; but no soldier, seaman

or marine can vote unless qualified before enlistment. Its Legislature called a Convention, December 1, 1860, which met January 3, 1861, and passed a secession ordinance on the 10th by a vote of 62 to 7.

GEORGIA was settled at Savannah, in 1733, by the English under General Oglethorpe. It was chartered June 9, 1732; formed a Constitution February 5, 1777; a second in 1785 and a third May 30, 1798.— It was one of the original thirteen States, and ratified the United States Constitution January 2, 1788. Area 58,000 square miles, or 37,120,000 acres. Population, in 1860, 1,057,286, of whom 462,198 were slaves. It is a large cotton and rice growing State. Citizens of the State, six months resident of the county where voting, who have paid taxes the year preceding the election, are entitled to vote. November 18, 1860, its Legislature ordered an election for a State Convention, which assembled and passed a secession ordinance January 19, 1861, by a vote of 208 to 89, and on the 23d of the same month its members of Congress resigned.

ILLINOIS was settled at Kaskaskia, in 1683, by the French, and formed part of the northwestern territory ceded by Virginia to the United States. An act for dividing the Indiana Territory and organizing the Territory of Illinois, was passed by Congress, February 3, 1809; and an act to enable it to form a State Constitution, Government, &c., was passed April 18, 1818; a Constitution was framed August 26, and it was admitted into the Union December 23 of the same year. Area 54,405 square miles, or 64,819,200 acres. Population, in 1860, 1,711,951. It is the chief "prairie" State, and the largest grain growing and second largest cattle raising State in the Union. All white male inhabitants, who have resided in the State one year and election district sixty days, can vote in the district where actually residing.

INDIANA was settled at Vincennes, in 1690, by the French, and formed part of the northwestern territory ceded by Virginia to the United States. It was organized into a Territory May 7, 1800, from which the Territory of Michigan was set off in 1805, and Illinois in 1809. An act was passed to empower it to form a State Constitution, Government, &c., April 19, 1816, and it was admitted into the Union December 11 of the same year. Area 33,809 square miles, or 21,637,760 acres. Population, in 1860, 1,350,428. It is an agricultural State, chiefly devoted to grain growing and cattle raising. A residence of one year in the State entitles males of 21 years of age to vote in the county of their residence.

IOWA was first settled at Burlington by emigrants from the Northern and Eastern States. It was part of the region purchased from France; was set off from the Territory of Wisconsin and organized as a separate Territory June 12, 1838; an act for its admission as a State was passed and approved March 3, 1845, to which the assent of its inhabitants was to be given to be announced by Proclamation of the President, and on December 28, 1846, another act for its admission was passed. Area 50,914 square miles or 32,584,960 acres. Population, in 1860, 674,913. It is an agricultural State, resembling Illinois, and contains important lead mines. White male citizens of the United States, having resided in the State six months and county twenty days, are entitled to vote.

KANSAS was formed out of the original Louisiana purchase, and organized into a Territory by act of Congress, May 30, 1854, and after several ineffectual attempts was finally admitted into the Union in January, 1861. Area 78,418 square miles, or 50,187,520 acres. Population, in 1860, 107,206. It is an agricultural State, with a soil of rich and deep black loam, except the central portion, which is partly a desert. The western portion is a fine grazing country, well wooded. Residence in the State six months, and in the township or ward thirty days, confers the right of suffrage on white male citizens. It also abounds in minerals.

KENTUCKY was settled in 1775, by Virginians; formed into a Territory by act of the Virginia Legislature, December 18, 1789, and admitted into the Union June 1, 1792, by virtue of an act of Congress passed February 4, 1791. Area 37,680 square miles, or 24,115,200 acres.—Population in 1860, 1,155,684, of whom 225,483 were slaves. It is an agricultural State, raising more flax and hemp than any other. Loyalty, a residence of two years in the State and one in the county are the requirements to vote. "Any citizen of this State who shall enter the service of the so-called Confederate States, in either a civil or military capacity; or into the service of the so-called Provisional Government of Kentucky, in either a civil or military capacity; or having heretofore entered such service of either the Confederate States or Provisional Government, shall continue in such service after this act takes effect, (March 11, 1863,) or shall take up or continue in arms against the military forces of the United States or State of Kentucky, or shall give voluntary aid and assistance to those in arms against said forces, shall be deemed to have expatriated himself, and shall no longer be a citizen, except by permission of the Legislature by a general or special statute."

LOUISIANA was settled at Iberville, in 1699, by the French, and comprised a part of the territory ceded by France to the United States, by treaty of April 30, 1803, which purchase was erected into two Territories by act of Congress March 26, 1804, one called the Territory of Orleans, the other the District of Louisiana, afterwards changed to that of Missouri.—Congress, March 2, 1806, authorized the inhabitants of Orleans Territory to form a State Constitution and Government when their population should amount to 60,000; a Constitution was adopted January 22, 1812, and the State admitted into the Union April 8 of the same year, under the name of Louisiana. Area 41,255 square miles, or 26,403,200 acres. Population in 1860, 708,002, of whom 331,726 were slaves. It is the chief sugar producing State of the Union. Two years' residence in the State and one in the parish are the qualifications of voters. December 10, 1860, the Legislature ordered a State Convention to be held, which assembled and passed an ordinance of secession January 26, 1861, by a vote of 113 to 17. The people voted on the question, and on March 28 the following was announced as the result: For, 20,448; against, 17,296; a majority of 3,152. The Convention ratified the 'Confederate' Constitution March 11, 1861, by a vote of 107 to 7, and refused to submit it to the people by 94 to 10. On the 11th day of January, 1864, Maj. Gen. Banks issued a Proclamation for an election of State officers and delegates to a Constitutional Convention, for the purpose of affecting a reconstruction of the State Government under the plan suggested in the Amnesty Proclamation of President Lincoln. The election was held on the 22d day of February, 1864. The officers thus elected were installed March 4. The total vote cast was 10,725. The vote requisite under the Proclamation was 5,051. The Convention amended the Constitution so as to abolish slavery. The new Constitution was adopted by the people by a vote of 6,836 for, to 1,566 against.

MAINE was settled at York, in 1623, by the English, and was formerly under the jurisdiction of Massachusetts. October 29, 1819, the inhabitants of the District of Maine framed a Constitution; applied for admission December 8, 1819. Congress passed an act March 3, 1820, and it was admitted as a State March 15, of the same year. Area 31,766 square miles, or 20,330,240 acres. Population, in 1860, 628,279. It is largely engaged in the lumber trade and ship building. Citizens of the United States, except paupers and persons under guardianship, who have resided in the State for three months next preceding the election, are entitled to vote.

MARYLAND was settled at St. Mary, in 1634, by Irish Roman Catholics, having been chartered June 20, 1632. It was one of the original thirteen States; formed a Constitution August 14, 1776, and ratified the Constitution of the United States April 28, 1788. Area 11,124 square miles, or 7,119,260 acres. Population in 1860, 687,049, of whom 87,189 were slaves. It is mainly an agricultural State, producing grain and tobacco. A residence of one year in the State, and six months in the county, gives the right to vote to every white male citizen who takes the oath of allegiance prescribed in the Constitution. January 28, 1864, a bill passed the Legislature submitting to the people the question of a Convention to revise the Constitution of the State. The popular vote on the question was as follows: For Convention, 32,203; against, 18,337. The Convention assembled and adopted a Constitution abolishing slavery, which was submitted to and adopted by the people; and in accordance with its provisions, on the 29th of October, 1864, the Governor issued his Proclamation declaring the slaves in that State free from the 1st day of November.

MASSACHUSETTS was settled at Plymouth, November 3, 1620, by English Puritans, and Charters were granted March 4, 1629, January 13, 1630, August 20, 1726, and October 7, 1731. It was one of the original 13 States; adopted a Constitution March 2, 1780, which was amended November 3, 1820, and ratified the Constitution of the United States February 6, 1788. Area 7,800 square miles, or 4,992,000 acres. Population in 1860, 1,231,066. It is a largely commercial, the chief manufacturing and most densely populated State in the Union. A residence of one year in the State, and payment of State or county tax, gives the right to vote to male citizens of 21 years and upward, except paupers and persons under guardianship.

MICHIGAN was settled at Detroit in 1670, by the French, and was part of the territory ceded to the United States by Virginia. It was set off from the territory of Indiana, and erected into a separate Territory January 11, 1805; an act to attach to it all the territory of the United States west of the Mississippi river, and north of the State of Missouri, was passed June 28, 1834. Wisconsin was organized from it April 30, 1836. In June of the same year an act was passed to provide for the admission of the State of Michigan into the Union, and a Constitution having been adopted, it was admitted January 26, 1837. Area 56,243 square miles, or 35,995,552 acres. Population in 1860, 749,113. It is a grain growing and cattle rearing State, with rich and extensive mines of copper and iron in the Northern Peninsula. A residence in the State of six months preceding the election, entitles white male citizens to vote.

MINNESOTA was settled about 1846, chiefly by emigrants from the Northern and Western States. It was organized as a Territory by act of Congress approved March 3, 1849, and admitted into the Union February 26, 1857. Area 95,274 square miles, or 60,975,536 acres. Population in 1860, 172,123 whites, and about 25,000 Indians, many of the tribes being of a warlike character. It is an agricultural State, chiefly devoted to Northern grains. The right to vote is extended to male persons of 21 years of age, of the following classes, if they have resided in the United States one year, the State four months, and the election district ten days: White citizens of the United States, and those of foreign birth who have declared their intention to become citizens; persons of mixed white and Indian blood who have adopted the customs of civilization, and those of pure Indian blood who have been pronounced capable by any district court of the State.

MISSISSIPPI was settled at Natchez, in 1716, by the French, and was formed out of part of the territory ceded to the United States by South Carolina in 1787, and Georgia in 1802. It was organized as a Territory by act of Congress, April 7, 1789, and enlarged on the north March 27, 1804, and on the south May 14, 1812. After several unsuccessful attempts to enter the Union, Congress finally passed an act March 1, 1817, enabling the people of the western part of the Territory to form a State Constitution and Government, which being complied with August 15, it was admitted December 10 of the same year. Area 47,156 square miles, or 30,179,840 acres. Population in 1860, 791,305, of whom 436,631 were slaves. It is the second cotton growing State of the Union. Citizens who have resided one year in the State, and four months in the county, and having performed military duty or paid taxes, are entitled to vote. A Convention met January 7, 1861, and on the 9th passed an ordinance of secession by a vote of 84 to 15.

MISSOURI was settled at Genevieve in 1763, by the French, and was part of the territory ceded by France by treaty of April 30, 1803. It was created under the name of the District of Louisiana, by an act approved March 26, 1804, and placed under the direction of the officers of the Indiana Territory, and was organized into a separate Territory June 4, 1812, its name being changed to that of Missouri; and was divided March 2, 1819, the Territory of Arkansas being then created. An act authorizing it to form a State Constitution and Government was passed March 6, 1820, and it was admitted into the Union December 14, 1821. Area 67,380 square miles, or 43,123,200 acres. Population in 1860, 1,182,012, of whom 114,931 were slaves. An act of gradual emancipation was passed July 1, 1863, by a vote of 51 to 30. On the 6th of January, 1865, a Constitutional Convention assembled in St. Louis, and on the 8th of April adopted a new Constitution, declaring the State free, prohibiting compensation for slaves, and adopting many other radical changes. On the 6th of June the Constitution was adopted by the people by a vote of 43,670 to 41,808, and pursuant to a Proclamation issued on the 1st of July, the Constitution went into effect July 4, 1865. It is an agricultural and mining State. Citizens of the United States who have resided in the State one year, and county three months, are entitled to vote. By an act passed by the Legislature of 1863, voting by ballot was adopted, and the *viva voce* system abolished.

NEBRASKA was settled by emigrants from the Northern and Western States, and was formed out of a part of the territory ceded by France, April 30, 1803. Attempts to organize it were made in 1844 and 1848, but it was not accomplished until May 30, 1854. Area 75,955 square miles, or 44,796,160 acres. Population 28,841, besides a few roving tribes of Indians. A Convention adopted a State Constitution February 9, 1866, which was submitted to the people on the 22d of June, and adopted by a vote of 3,938 for, to 3,838 against, and State officers were elected. A bill was passed by Congress, July 27th, admitting the State, but the President withheld his signature. In February, 1867, Congress passed an act imposing certain conditions to admission, which were promptly accepted, and the territory became a State. It is an agricultural region, its prairies affording boundless pasture lands.

NEVADA was organized as a Territory March 2, 1861. Its name signifies snowy, and is derived from the Spanish word *nieve* (snow.) It comprises 81,539 square miles, or 52,184,960 acres, lying mostly within the Great Basin of the Pacific coast. Congress, at its session in 1864, passed an act which was approved March 21, to enable the people of the Territory to form a Constitution and State Government, in pursuance of which a Government was organized and the Territory admitted as a State by Proclamation of the President, October 31, 1864. At the time of its organization the Territory possessed a population of 6,857 white settlers. The development of her mineral resources was rapid and almost without parallel, and attracted a constant stream of immigration to the Territory. As the population has not been subject to the fluctuations from which other Territories have suffered, the growth of Nevada has been rapid and steady. At the general convention election of 1863, 10,934 votes were cast. During 1864 great accessions to the population were made. It is probably the richest State in the Union in respect to mineral resources. No region in the world is richer in argentiferous leads. It also contains an immense basin of salt, five miles square. Quartz mills are a very important feature in mining operations. The State is barren for agricultural purposes, and is remarkably healthy.

NEW HAMPSHIRE was settled at Dover, in 1623, by English Puritans, and continued under the jurisdiction of Massachusetts until September 18, 1679, when a separate charter was granted. It was one of the original thirteen States, and ratified the United States Constitution June 21, 1788; its State Constitution was framed January 5, 1776, and amended in 1784 and 1792. Area 9,280 square miles, or 5,939,200 acres. Population in 1860, 326,073. It is a grazing and manufacturing State. All male citizens, except paupers, are allowed to vote.

NEW JERSEY was settled at Bergen, in 1624, by the Dutch and Danes; was conquered by the Dutch in 1655, and submitted to the English in 1664, being held thereafter under the same grants as New York, until it was surrendered to the Crown in 1702. It was one of the original thirteen States, adopted a State Constitution July 2, 1776, and ratified the United States Constitution December 18, 1787. Area 8,320 square miles, or 5,324,800 acres. Population in 1860, 672,035. It is a grain and fruit growing region, its orchard and market products being relatively greater than those of any other State. A residence of one year in the State gives the right to vote, except to paupers, &c.

NEW YORK was settled at Manhattan, in 1614, by the Dutch; was ceded to the English by grants to the Duke of York, March 20, April 26, and June 24, 1664; was retaken by the Dutch in 1673, and surrendered again by them to the English, February 9, 1674. It was one of the original thirteen States; ratified the United States Constitution July 26, 1788; framed a Constitution April 20, 1777, which was amended October 27, 1801, and November 10, 1821; a new one was adopted November 3, 1846. Area 47,000 square miles, or 30,080,000 acres. Population in 1865, 3,831,777. It is the most populous, wealthy and commercial of the States. White male citizens of the United States, who have resided in the State one year, in the county four months, and election district thirty days, are entitled to vote; and all men of color who have resided in the State three years, and own and pay taxes on a freehold assessed at \$250.

NORTH CAROLINA was settled at Albemarle, in 1650, by the English, and was chartered March 20, 1663. It was one of the original thirteen States, and ratified the United States Constitution, November 21, 1789; its State Constitution was adopted December 18, 1776, and amended in 1835. Area 50,704 square miles, or 32,450,560 acres. Population in 1860, 992,622, of whom 831,059 were slaves. It is an agricultural State, with some mines and extensive pine forests. Every freeman of 21 years of age, having resided one year in any county in the State, may vote for a member of the House of Commons, but must own fifty acres of land to vote for a Senator. A State Convention passed an ordinance of secession May 21, 1861. An election for delegates to a State Convention took place September 21, 1865. The Convention assembled October 2. On the 2d of October it passed an ordinance forever prohibiting slavery. The Legislature ratified the Constitutional amendment December 1. An election was held on the first Thursday of November, for Governor, Members of Congress and the Legislature.

OHIO was settled at Marietta, in 1788, by emigrants from Virginia and New England; was ceded by Virginia to the United States October 20, 1783; accepted by the latter March 1, 1784, and admitted into the Union April 30, 1802. Area 39,964 square miles, or 25,576,960 acres. Population in 1860, 2,339,511. It is the most populous and wealthy of the agricultural States, devoted principally to wool growing, grain and live stock. A male of 21 years of age, who has resided in the State one year, and has paid or been charged with a State or county tax, is eligible to vote.

OREGON, although it had previously been seen by various navigators, was first taken possession of by Capt. Robert Gray, who entered the mouth of its principal river May 7, 1792, naming it after his vessel, the *Columbia*, of Boston. Exploring expeditions soon followed, and fur companies sent their trappers and traders into the region. In 1811 a trading post was established at the mouth of the *Columbia* river by the American Fur Company, who named it Astoria. For some time a Provisional Territorial Government existed, but the boundary remained unsettled until the treaty with Great Britain in 1846, when the 49th parallel was adopted. It was formally organized as a Territory August 14, 1848; was divided March 2, 1853, on the 46th parallel, the northern portion being called Washington and the southern Oregon. November 9, 1857, a State Constitution was adopted, under which it was admitted February 14, 1859,

about one-third of it on the east being added to Washington Territory, its northern boundary following the Columbia river until its intersection with latitude 46° north. Area 102,606 square miles, or 65,667,840 acres. Population in 1860, 52,465. It is an agricultural State, possessed of a fertile soil, extensive pastures, genial climate, and is well wooded. Gold and other precious metals are found in considerable abundance.

PENNSYLVANIA was settled at Philadelphia, in 1681, by English Quakers, and was chartered February 28 of the same year. It was one of the original thirteen States, ratifying the United States Constitution December 12, 1787; adopted a State Constitution September 28, 1776, and amended it September 2, 1790. Area 46,000 square miles, or 29,440,000 acres. Population in 1860, 2,906,115. It is the second State in wealth and population, and the principal coal and iron mining region in the Union. Residence in the State one year, and ten days in the election district, with payment of a State or county tax assessed ten days prior to an election, gives the right to vote; except that citizens between 21 and 22 years of age need not have paid the tax.

RHODE ISLAND was settled at Providence in 1636, by the English from Massachusetts, under Roger Williams. It was under the jurisdiction of Massachusetts until July 8, 1662, when a separate charter was granted, which continued in force until the formation of a Constitution in September, 1842. It was one of the original thirteen States, ratifying the United States Constitution May 29, 1790. Area 1,306 square miles, or 835,840 acres. Population in 1860, 174,620. It is largely engaged in manufactures. A freehold possession of \$13; or, if in reversion, renting for \$7, together with a residence of one year in the State and six months in the town; or, if no freehold, then a residence of two years in the State and six months in the town, and payment of \$1 tax or military service instead, are the qualifications of voters.

SOUTH CAROLINA was settled at Port Royal, in 1670, by the English, and continued under the charter of Carolina, or North Carolina, until they were separated in 1729. It was one of the original thirteen States, ratifying the United States Constitution May 23, 1795; it framed a State Constitution March 26, 1776, which was amended March 19, 1778, and June 3, 1790. Area 29,385 square miles, or 18,806,400 acres. Population in 1860, 703,708, of whom 402,406 were slaves, an excess of 101,270 over the whites. It is the principal rice-growing State. Whites, who have resided in the State two years and district six months, and have a freehold of fifty acres of land, or have paid a State tax, are entitled to vote. December 17, 1860, a Convention assembled in Columbia, adjourned to Charleston, and on the 24th unanimously adopted an ordinance of secession, which was followed the next day by a Declaration of Causes claimed to be sufficient to justify the act. An election for delegates to a State Convention was held September 4, 1865. The Convention assembled September 13, and adjourned on the 28th. It repealed the ordinance of secession, abolished slavery, equalized the representation of the Senate and taxation throughout the State, giving the election of Governor and Presidential electors to the people, ordered voting in the Legislature by *vote*, endorsed the Administration unanimously, and directed a commission to submit a code to the Legislature for the protection of the colored population. The Legislature ratified the Constitutional Amendment November 13, 1865.

TENNESSEE was settled at Fort Donelson, in 1756, by emigrants from Virginia and North Carolina; was ceded to the United States by North Carolina, December, 1789, conveyed by the Senators of that State February 25, 1790, and accepted by act of Congress April 2 of the same year; it adopted a Constitution Feb. 6, 1796, and was admitted into the Union the 1st of June following. Area 45,600 square miles, or 29,184,000 acres. Population in 1860, 1,109,601, of whom 275,179 were slaves. It is a mining and agricultural State, and is largely productive of live stock. Citizens of the United States who have resided six months in the county are entitled to vote. A military league was formed between the Governor, Isham G. Harris, and the rebel States, May 7, 1861, ratified the same day by the Senate by a vote of 14 to 6, and a Declaration of Independence submitted to the people, the election to be held June 8, the result of which was declared by the Governor, June 24, to be 104,913 for, and 47,238 against. This movement not being acceptable to the people of East Tennessee, which had declared against separation by a vote of 32,923 to 14,780, they, in a Convention held at Greenville, June 18-21, repudiated it. Andrew Johnson, Provisional Governor of the State, called a State Convention to be held in Nashville the second Monday in January. Delegates were elected, the Convention met, declared slavery forever abolished, prohibited compensation to owners of slaves, and abrogated the secession ordinances. These amendments of the Constitution were submitted to the people 22d of February, 1865, with the following result: For ratification, 22,197; rejection, 63. The United States Constitutional Amendment was ratified April 5, 1865.

TEXAS was first settled at Bexar, in 1694, by Spaniards; formed a part of Mexico until 1836, when she revolted from that Republic and instituted a separate Government, under which she existed until admitted into the Union by a joint resolution approved March 1st, 1845, imposing certain conditions, which were accepted, and a Constitution formed July 4 of the same year, and another joint resolution adopted by Congress, consummating the annexation, was approved December 29, 1845. Area 237,504 square miles, or 152,002,500 acres. Population in 1860, 604,215, of whom 182,566 were slaves. It is an agricultural region, principally devoted to grain, cotton and tropical fruits. Free white male citizens of 21 years of age, who have resided in the State one year and district six months are entitled to vote. A Convention assembled at Galveston January 28, 1861, and on February 1 passed an ordinance of secession, by a vote of 166 to 7, to be submitted to the people February 23, and on March 4 they declared the State out of the Union, and Gov. Houston issued a Proclamation to that effect.

VERMONT was settled in 1724, by Englishmen from Connecticut, chiefly under grants from New Hampshire; was formed from a part of the territory of New York, by act of its Legislature March 6, 1769; framed a Constitution December 25, 1777, and was admitted into the Union March 4, 1791, by virtue of an act of Congress passed February 18 of the same year. Area 10,212 square miles, or 6,535,680 acres. Population in 1860, 315,098. It is a grazing region, producing more wool, live stock, maple sugar, butter, cheese and hay, in proportion to its population, than any other State. Any citizen of the United States who has resided in the State one year, and will take the oath of allegiance, is entitled to vote.

VIRGINIA was settled at Jamestown, in 1607, by the English, and was chartered April 10, 1606, May 23, 1609, and March 12, 1612. It was one of the original thirteen States, ratifying the United States Constitution June 25, 1788; it framed a State Constitution July 5, 1776, which was

amended January 15, 1830. The State was divided in 1863. Present area 37,352 square miles. Population in 1860, 1,314,532, of whom 481,410 were slaves. It is a large corn producing, and the chief tobacco growing State. Every white male citizen of the age of 21 years, who has been a resident of the State for one year, and of the county, city or town where he offers to vote for six months next preceding an election, and has paid all taxes assessed to him, after the adoption of the Constitution, under the laws of the Commonwealth after the re-organization of the county, city or town where he offers to vote, is qualified to vote for members of the General Assembly and all officers elective by the people. A Convention sitting in Richmond on the 17th of April, 1861, passed an ordinance of secession, by a vote of 88 to 55, which was submitted to the people at an election held May 23, the result of which was announced June 25 to be 128,824 for, and 82,134 against. The State Government was re-organized by a Convention which met at Wheeling, May 11, 1861. Upon the division of the State in 1863, the seat of Government was removed to Alexandria. A State Constitutional Convention, March 10, 1864, adopted a section abolishing slavery.

WEST VIRGINIA.—On the passage of the ordinance of secession by the Virginia Convention, a Convention of the western and other loyal counties of the State was held at Wheeling; which assembled May 11, 1861, and on the 17th unanimously deposed the then State officers and organized a Provisional Government. On the 26th of November, 1861, a Convention representing the western counties assembled in Wheeling and framed a Constitution for West Virginia, which was submitted to the people on the 3d of May, 1862, and adopted by them by a nearly unanimous vote. The division of the State was sanctioned by the Legislature May 13, 1862, and ratified by Congress by an act approved December 31, 1862, conditioned on the adoption of an amendment to the Constitution providing for the gradual abolition of slavery, which was done on the 24th of March, 1863, by a vote of the qualified electors of the proposed State, 28,318 voting in favor of the amendment, and 572 against it. In pursuance of the act of Congress, the President issued a Proclamation, April 20, 1863, admitting the State sixty days from the date thereof, and on the 20th of June the new State Government was formally inaugurated. Area 24,000 square miles. Population in 1860, 350,599, of whom 12,754 were slaves. It is a large corn producing State, and abounds in coal and other minerals. The Alexandria Legislature adopted the United States Constitutional Amendment February 9, 1865. White male citizens, residents of the State one year and county thirty days, unless disqualified by rebellion, are entitled to vote.

WISCONSIN was settled at Green Bay, in 1669, by the French; was a part of the territory ceded by Virginia, and was set off from Michigan December 24, 1834, and was organized into a Territory April 30, 1836. Iowa was set off from it June 12, 1838, and acts were passed at various times setting its boundaries. March 3, 1847, an act for its admission into the Union was passed, to take effect on the issuing of a Proclamation by the President, and by act of May 29, 1848, it was admitted into the Union. Area 53,924 square miles, or 34,511,360 acres. Population in 1860, 775,881. It is an agricultural State, chiefly engaged in grain raising and wool growing. Both white and colored citizens of the United States, or white foreigners who have declared their intention to become citizens, are entitled to vote. Colored citizens were admitted to the franchise, by a decision of the Supreme Court, rendered the 27th day of March, 1866, holding that, whereas an election was held in 1849, under the provisions of chapter 137, of that year, at which election 5,265 votes were cast in

favor of the extension of the right of suffrage to colored men, and 4,075 against such extension, therefore, the section of said law conferring such right had been constitutionally adopted and is the law of the land.

THE TERRITORIES,

THEIR BOUNDARIES, AREA, PHYSICAL FEATURES, ETC.

ALASKA, our new territory, recently purchased of Russia, comprehends all the north-west coast on the Pacific, and the adjacent islands north of the parallel of 50 degrees 40 minutes north, and the portion of the mainland west of the meridian (about 140° west) of Mount St. Elias. The area is computed at 481,376 square miles. The climate, although warmer than in the same latitude on the eastern coast, is too rigorous to admit of successful agricultural operations, and the chief value of the country and adjacent seas is derived from their fisheries and hunting grounds. The southern and central portions are mountainous; the northern portion along the Arctic ocean is quite flat, nowhere rising more than fifteen or twenty feet above the sea. The population is estimated at about 80,000, mostly Esquimaux.

ARIZONA was organized by the Thirty-Seventh Congress, in the winter of 1863, out of the western half of New Mexico, the boundary between the two Territories being the 109th meridian (32d west from Washington,) and includes the greater portions of the valleys of Colorado and Gila, which two rivers drain its entire surface, with parts of Utah, New Mexico and Nevada, and yet convey, it is reported, a less volume of water to the sea than the Hudson at Albany. The fertile Messilla Valley was left with New Mexico. The Territory forms a block nearly square, and contains 126,141 square miles, or 80,730,240 acres. Its white population is probably considerably less than 10,000. For agricultural purposes it is probably the most worthless on the Continent, owing to the absence of rains, but it is reputed to abound in silver mines.

COLORADO was organized March 2, 1861, from parts of Kansas, Nebraska and Utah, and is situated on each side of the Rocky Mountains, between latitude 37° and 41°, and longitude 25° and 32° west from Washington. Area 104,500 square miles, or 66,880,000 acres. Population 50,000, besides numerous tribes of Indians. By an enabling act passed March 21, 1864, the people of the Territory were authorized to frame a State Constitution and organize a State Government, and a Convention accordingly met in 1865, and on the 12th of August adopted a Constitution, which was submitted to and adopted by the people September 5, and State officers elected November 14. A bill to admit the Territory as a State passed Congress, but was vetoed May 25, 1866. It is said to be a superior grazing and cattle producing region, with a healthy climate and rich soil. An extensive coal bed, and also gold, iron and other minerals abound.

DAKOTA was first settled by employees of the Hudson Bay Company, but is now being peopled by emigrants from the Northern and Western States. It was set off from the western portion of Minnesota when that Territory became a State in 1857, and was organized March 2, 1861. Area 148,933 square miles, or 95,316,480 acres. Population 2,576 whites, and 2,261 Indians, besides the roving tribes.

IDAHO was organized by the Thirty-Seventh Congress, at its second session, in the winter of 1863. Its name means 'Bead of the Mountains,' and it embraces the whole breadth of the Rocky Mountain region, and has within its bounds the head waters of nearly all the great rivers that flow down its either slope, but the greater portion lies east of the mountains. Its southern boundary is the 41st, its northern the 46th parallel of latitude. It extends from the 104th meridian on the east to the 110th on the west. Area 326,373 square miles, or 208,870,720 acres. For agricultural purposes it is comparatively worthless, but abounds in gold and other valuable mines.

MONTANA was settled by emigrants from the Northern and Western States. Organized in 1864, with the following boundaries: Commencing at a point formed by the intersection of the 27° L. W. from Washington with the 45° N. L.; thence due west on said 45th degree to a point formed by its intersection with the 34th degree W. from Washington; thence due south along said 34th degree of longitude to its intersection with the 44th degree and 30 minutes of N. L.; thence due west along said 44th degree and 30 minutes of N. L. to a point formed by its intersection with the crest of the Rocky Mountains; thence following the crest of the Rocky Mountains northward till its intersection with the Bitter Root Mountains; thence northward along the crest of said Bitter Root Mountains to its intersection with the 39th degree of longitude W. from Washington; thence along said 39th degree of longitude northward to the boundary line of the British possessions; thence eastward along said boundary to the 27th degree of longitude W. from Washington; thence southward along said 27th degree to the place of beginning. This makes it the northermost Territory next the States east of the Missouri Valley. It is a good mining and agricultural region. The total population is put down at 15,822. Large accessions have been made since the census was taken.

NEW MEXICO was formed from a part of the territory ceded to the United States by Mexico, by the treaty of Guadalupe Hidalgo, February 2, 1848, and was organized into a Territory September 9, 1850.—Area 121,201 square miles, or 77,568,640 acres. Population 83,000, besides large tribes of warlike Indians. The principal resource of the country is its minerals.

UTAH was settled by the Mormons, and was formed from a part of the territory ceded to the United States by Mexico, by the treaty of Guadalupe Hidalgo, February 2, 1848, and was organized into a Territory, September 9, 1850. Area, 106,382 square miles, or 68,084,480 acres. Population, 40,273, of whom 29 were slaves. Brine, sulphureous and chalybeate springs abound; limestone, granite, sandstone and marble are found in large quantities; iron is abundant, and gold, silver, copper, lead and zinc have been found. Not one-fiftieth part of the soil is fit for tillage, but on that which is, abundant crops of grain and considerable cotton are raised. A Convention was held at Great Salt Lake City, January 22, 1862, and a State Constitution formed, but it has not been acted on by Congress.

WASHINGTON was settled by emigrants from the Northern and Western States, and was organized into a Territory, March 2, 1853, from the northern portion of Oregon, to which was added another portion from the

eastern part when the latter Territory was admitted as a State, February 14, 1859. Area 69,994 square miles, or 48,636,800 acres. Population 11,168, besides numerous tribes of Indians.

WYOMING was organized in July 1868. It lies between the 27th and 34th meridians of longitude west from Washington, and between the 41st and 45th parallels of latitude. The Territory is rich in mineral wealth, having large quantities of iron, coal, gypsum and building stone, besides vast quantities of gold, silver and copper. Salt springs of great value are found within its limits. The western portion of the Territory embraces what is generally known as the "Sweet Water Mines." The climate is healthy, and the Territory is rapidly filling up with an enterprising and hardy population. The act of Congress organizing the Territory, provides that "There shall be no denial of the elective franchise or any other right, on account of color or race, and all persons shall be equal before the law."

STAMP DUTIES.

SCHEDULE OF DUTIES ON AND AFTER MARCH 1, 1867.

	Stamp Duty.		Stamp Duty.
Accidental injuries to persons, tickets, or contracts for insurance against,	exempt.	bank, banker or trust company at sight or on demand,	2
Affidavits,	exempt.	When drawn upon any other person or persons, companies or corporations, for any sum exceeding \$10, at sight or on demand,	2
Agreement or contract not otherwise specified:		Bill of exchange, (inland,) draft or order for the payment of any sum of money not exceeding \$100, otherwise than at sight or on demand, or any promissory note, or any memorandum, check, receipt, or other written or printed evidence of an amount of money to be paid on demand or at a time designated: For a sum not exceeding \$100,	5
For every sheet or piece of paper upon which either of the same shall be written,	\$0 5	And for every additional \$100 or fractional part thereof in excess of \$100,	5
Agreement, renewal of, same stamp as original instrument.		Bill of exchange, (foreign,) or letter of credit drawn in, but payable out of, the United States: If drawn singly, same rates of duty as inland bills of exchange or promissory notes.	5
Appraisement of value or damage, or for any other purpose: For each sheet of paper on which it is written,	5.	If drawn in sets of three or more, for every bill of each set, where the sum made payable shall not	
Assignment of a lease, same stamp as original, and additional stamp upon the value or consideration of transfer, according to the rates of stamps on deeds. (See Conveyance.)			
Assignment of policy of insurance, same stamp as original instrument. (See Insurance.)			
Assignment of mortgage, same stamp as that required upon a mortgage for the amount remaining unpaid. (See Mortgage.)			
Bank check, draft or order for any sum of money drawn upon any

Writs or other process on ap-			

	Stamp Duty.
lease the same,	1 00
Power of attorney for any other purpose,	50
Probate of will, or letters of administration; where the estate and effects for or in respect of which such probate or letters of administration applied for shall be sworn or declared not to exceed the value of \$1,000,	exempt.
Exceeding \$1,000, and not exceeding \$2,000,	1 00
Exceeding \$2,000, for every additional \$1,000, or fractional part thereof, in excess of \$2,000,	50
Promissory note. (See Bill of exchange, inland.)	
Deposit note to mutual insurance companies, when policy is subject to duty,	exempt.
Renewal of a note, subject to the same duty as an original note.	
Protest of note, bill of exchange, acceptance, check, or draft, or any marine protest,	25
Quit-claim deed to be stamped as a conveyance, except when given as a release of a mortgage by the mortgagee to the mortgagor, in which case it is exempt; but if it contains covenants may be subject as an agreement or contract.	
Receipts for satisfaction of any mortgage or judgment or decree of any court,	exempt.
Receipts for any sum of money or debt due, or for a draft or other instrument given for the payment of money; exceeding \$20, not being for satisfaction of any mortgage or judgment or decree of court, (See Indorsement.)	2
Receipts for the delivery of property.	exempt.
Renewal of agreement, contract or charter, by letter or otherwise, same stamp as original instrument.	
Sheriff's return on writ or other process,	exempt.
Trust deed, made to secure a debt, to be stamped as a mortgage.	exempt.
Warehouse receipts,	exempt.
Warrant of attorney accompanying a bond or note, if the bond or note is stamped,	exempt.
Weigher's returns,	exempt.
Official documents, instruments, and papers issued by officers of the United States Government,	exempt.
Official instruments, documents, and papers issued by the officers of any State, county, town, or other municipal corporation, in the exercise of functions strictly belonging to them in their ordinary governmental or municipal capacity,	exempt.
Papers necessary to be used for	

Stamp Duty.
 the collection from the United States Government of claims by soldiers, or their legal representatives, for pensions, back pay, bounty, or for property lost in the service, exempt.

CANCELLATION.

In all cases where an adhesive stamp is used for denoting the stamp duty upon an instrument, the person using or affixing the same must write or imprint thereupon in ink the initials of his name, and the date (the year, month, and day) on which the same is attached or used. Each stamp should be separately cancelled. When stamps are printed upon checks, &c., so that in filling up the instrument, the face of the stamp is and must necessarily be written across, no other cancellation will be required.

All cancellation must be distinct and legible, and except in the case of proprietary stamps from private dies, no method of cancellation which differs from that above described can be recognized as legal and sufficient.

PENALTIES.

A penalty of fifty dollars is imposed upon every person who makes, signs, or issues, or who causes to be made, signed, or issued, any paper of any kind or description whatever, or who accepts, negotiates, or pays, or causes to be accepted, negotiated, or paid, any bill of exchange, draft, or order, or promissory note, for the payment of money, without the same being duly stamped, or having thereupon an adhesive stamp for denoting the tax chargeable thereon, cancelled in the manner required by law, with intent to evade the provisions of the revenue act.

A penalty of two hundred dollars is imposed upon every person who pays, negotiates, or offers in payment, or receives or takes in payment, any bill of exchange or order for the payment of any sum of money drawn or purporting to be drawn in a foreign country, but payable in the United States, until the proper stamp has been affixed thereto.

A penalty of fifty dollars is imposed upon every person who fraudulently makes use of an adhesive stamp to denote the duty required by the revenue act, without effectually cancelling and obliterating the same in the manner required by law.

Attention is particularly called to the following extract from section 155, of the act of July 30, 1864, as amended by the act of July 18, 1866:

"If any person shall wilfully remove or cause to be removed, alter or cause to be altered, the cancelling or defacing marks on any adhesive stamp, with intent to use the same, or to cause the use of the same, after it shall have been used once, or shall knowingly or wilfully sell or buy such washed or restored stamps, or offer the same for sale, or give or expose the same to any per-

son for use, or knowingly use the same or prepare the same with intent for the further use thereof, or if any person shall knowingly and without lawful excuse (the proof whereof shall lie on the person accused) have in his possession any washed, restored, or altered stamps, which have been removed from any vellum, parchment, paper, instrument or writing; then, and in every such case, every person so offending, and every person knowingly and wilfully aiding, abetting, or assisting in committing any such offence as aforesaid, shall, on conviction thereof, * * * be punished by a fine not exceeding one thousand dollars, or by imprisonment and confinement to hard labor not exceeding five years, or both, at the discretion of the court."

It is not lawful to record any instrument, document, or paper required by law to be stamped, or any copy thereof, unless a stamp or stamps of the proper amount have been affixed and cancelled in the manner required by law; and such instrument or copy and the record thereof are utterly null and void, and cannot be used or admitted as evidence in any court until the defect has been cured as provided in section 158.

All willful violations of the law should be reported to the United States District Attorney within and for the district where they are committed.

GENERAL REMARKS.

Revenue stamps may be used indiscriminately upon any of the matters or things enumerated in Schedule B, except proprietary and playing card stamps, for which a special use has been provided.

Postage stamps cannot be used in payment of the duty chargeable on instruments.

The law does not designate which of the parties to an instrument shall furnish the necessary stamp, nor does the Commissioner of Internal Revenue assume to determine that it shall be supplied by one party rather than by another; but if an instrument subject to stamp duty is issued without having the necessary stamps affixed thereto, it cannot be recorded, or admitted, or used in evidence, in any court, until a legal stamp or stamps, denoting the amount of tax, shall have been affixed as prescribed by law, and the person who thus issues it is liable to a penalty, if he omits the stamps with an intent to evade the provisions of the internal revenue act.

The first act imposing a stamp tax upon certain specified instruments took effect, so far as said tax is concerned, October 1, 1862. The impression which seems to prevail to some extent, that no stamps are required upon any instruments issued in the States lately in insurrection, prior to the surrender, or prior to the establishment of collection districts there, is erroneous.

Instruments issued in those States since October 1, 1862, are subject to the same taxes as similar ones issued at the same time in the other States.

No stamp is necessary upon an instrument executed prior to October 1, 1862, to make

it admissible in evidence, or to entitle it to record.

Certificates of loan in which there shall appear any written or printed evidence of an amount of money to be paid on demand, or at a time designated, are subject to stamp duty as "promissory notes."

When two or more persons join in the execution of an instrument, the stamp to which the instrument is liable under the law, may be affixed and cancelled by either of them; and "when more than one signature is affixed to the same paper, one or more stamps may be affixed thereto, representing the whole amount of the stamp required for such signatures."

No stamp is required on any warrant of attorney accompanying a bond or note, when such bond or note has affixed thereto the stamp or stamps denoting the duty required; and, whenever any bond or note is secured by mortgage, but one stamp duty is required on such papers—such stamp duty being the highest rate required for such instruments, or either of them. In such case a note or memorandum of the value or denomination of the stamp affixed should be made upon the margin or in the acknowledgement of the instrument which is not stamped.

Particular attention is called to the change in section 154, by striking out the words "or used;" the exemption thereunder is thus restricted to documents, &c., issued by the officers therein named. Also to the changes in sections 152 and 153, by inserting the words "and cancelled in the manner required by law."

The acceptor or acceptors of any bill of exchange, or order for the payment of any sum of money, drawn or purporting to be drawn in any foreign country, but payable in the United States, must, before paying or accepting the same, place thereupon a stamp indicating the duty.

It is only upon conveyances of realty sold that conveyance stamps are necessary. A deed of real estate made without valuable consideration need not be stamped as a conveyance; but if it contains covenants, such, for instance, as a covenant to warrant and defend the title, it should be stamped as an agreement or contract.

When a deed purporting to be a conveyance of realty sold, and stamped accordingly, is inoperative, a deed of confirmation, made simply to cure the defect, requires no stamp. In such case, the second deed should contain a recital of the facts, and should show the reasons for its execution.

Partition deeds between tenants in common, need not be stamped as conveyances, inasmuch as there is no sale of realty, but merely a marking out, or a defining, of the boundaries of the part belonging to each; but where money or other valuable consideration is paid by one co-tenant to another for equality of partition, there is a sale to the extent of such consideration, and the conveyance, by the party receiving it, should be stamped accordingly.

A conveyance of lands sold for unpaid taxes, issued since August 1, 1866, by the officers of any county, town, or other mun-

municipal corporation in the discharge of their strictly official duties, is exempt from stamp tax.

A conveyance of realty sold, subject to a mortgage, should be stamped according to the consideration, or the value of the property *unencumbered*. The consideration in such case is to be found by adding the amount paid for the equity of redemption to the mortgage debt. The fact that one part of the consideration is paid to the mortgagor and the other part to the mortgagee does not change the liability of the conveyance.

The stamp tax upon a mortgage is based upon the amount it is given to secure. The fact that the value of the property mortgaged is less than that amount, and that consequently the security is only partial, does not change the liability of the instrument. When, therefore, a second mortgage is given to secure the payment of a sum of money partially secured by a prior mortgage upon other property, or when two mortgages upon separate property are given at the same time to secure the payment of the same sum, each should be stamped as though it were the only one.

A mortgage given to secure a surety from loss, or given for any purpose whatever, other than as security for the payment of a definite and certain sum of money, is taxable only as an agreement or contract.

The stamp duty upon a lease, agreement, memorandum, or contract for the hire, use, or rent of any land, tenement, or portion thereof, is based upon the *annual* rent or rental value of the property leased, and the duty is the same whether the lease be for one year, for a term of years, or for the fractional part of a year only.

Upon every assignment or transfer of a mortgage, a stamp tax is required equal to that imposed upon a mortgage for the amount remaining unpaid; this tax is required upon every such transfer in writing, whether there is a *sale* of the mortgage or not; but no stamp is necessary upon the endorsement of a negotiable instrument, even though the legal effect of such indorsement is to transfer a mortgage by which the instrument is secured.

An assignment of a lease within the meaning and intent of Schedule B, is an assignment of the *leasehold*, or of some portion thereof, by the *lessee*, or by some person claiming by, from, or under him; such an assignment as subrogates the assignee to the rights, or some portion of the rights, of the *lessee*, or of the person standing in his place. A transfer by the *lessor* of his part of a lease, neither giving nor purporting to give a claim to the leasehold, or to any part thereof, but simply a right to the rents, &c., is subject to stamp tax as a contract or agreement only.

The stamp tax upon a fire insurance policy is based upon the *premium*.

Deposit notes taken by a mutual fire insurance company, not as payment of premium nor as evidence of indebtedness therefor, but to be used simply as a basis upon which to make rateable assessments to meet the losses incurred by the company,

should not be reckoned as premium in determining the amount of stamp taxes upon the policies.

When a policy of insurance properly stamped has been issued and lost, no stamp is necessary upon another issued by the same company to the same party, covering the same property, time, &c., and designed simply to supply the loss. The second policy should recite the loss of the first.

An instrument which operates as the renewal of a policy of insurance, is subject to the same stamp tax as the policy.

When a policy of insurance is issued for a certain time, whether it be for one year only or for a term of years, a receipt for premium, or any other instrument which has the legal effect to continue the contract and extend its operation *beyond that time*, requires the same amount of revenue stamps as the policy itself; but such a receipt as is usually given for the payment of the monthly, quarterly, or annual premium, is not a renewal within the meaning of the statute. The payment simply prevents the policy from expiring, by reason of non-performance of its conditions; a receipt given for such a payment requires a two-cent stamp, if the amount received exceeds twenty dollars, and a two-cent stamp only. When, however, the time of payment has passed, and a tender of the premium is not sufficient to bind the company, but a new policy or a new contract in some form, with the mutuality essential to every contract, becomes necessary between the insurer and the insured, the same amount of stamps should be used as that required upon the original policy.

A permit issued by a life insurance company changing the terms of a policy as to travel, residence, occupation, &c., should be stamped as a contract or agreement.

A bill single or a bill obligatory, *i. e.*, an instrument in the form of a promissory note, *under seal*, is subject to stamp duty as written or printed evidence of an amount of money to be paid on demand or at a time designated, at the rate of five cents for each one hundred dollars or fractional part thereof.

A waiver of protest, or of demand and notice, written upon negotiable paper and signed by the indorser, is an agreement, and requires a five-cent stamp.

A stamp duty of twenty-five cents is imposed upon the "protest of every note, bill of exchange, check or draft," and upon every marine protest. If several notes, bills of exchange, drafts, &c., are protested at the same time and all attached to one and the same certificate, stamps should be affixed to the amount of twenty-five cents for each note, bill, draft, &c., thus protested.

When, as is generally the case, the caption to a deposition contains other certificates in addition to the jurat to the affidavit of the deponent, such as a certificate that the parties were or were not notified, that they did or did not appear, that they did or did not object, &c., it is subject to a stamp duty of five cents.

When an attested copy of a writ or other

process is used by a sheriff or other person in making personal service, or in attaching property, a five-cent stamp should be affixed to the certificate of attestation.

A marriage certificate issued by the officiating clergyman or magistrate, to be returned to any officer of a State, county, city, town, or other municipal corporation, to constitute part of a public record, requires no stamp; but if it is to be retained by the parties, a five-cent stamp should be affixed.

The stamp tax upon a bill of sale, by which any ship or vessel, or any part thereof, is conveyed to or vested in any other person or persons, is at the same rate as that imposed upon conveyances of realty sold; a bill of sale of any other personal property should be stamped as a contract or agreement.

An assignment of real or personal property, or of both, for the benefit of creditors, should be stamped as an agreement or contract.

Written or printed assignments of agreements; bonds, notes not negotiable, and of all other instruments the assignments of which are not particularly specified in the foregoing schedule, should be stamped as agreements.

No stamp is necessary upon the registry of a judgment, even though the registry is such in its legal effect as to create a lien which operates as a mortgage upon the property of the judgment debtor.

When a "power of attorney or proxy for voting at any election for officers of any incorporated company or society, except religious, charitable, or literary societies, or public cemeteries," is signed by several stockholders, owning separate and distinct shares, it is, in its legal effect, the separate instrument of each, and requires stamps to the amount of ten cents for each and every signature; one or more stamps may be used representing the whole amount required.

A notice from landlord to tenant to quit possession of premises requires no stamp.

A stamp tax is imposed upon every "manifest for custom-house entry or clearance of the cargo of any ship, vessel, or steamer for a foreign port." The amount of this tax in each case depends upon the registered tonnage of the vessel.

If a vessel clears in ballast and has no cargo whatever, no stamp is necessary; but if she has any, however small the amount—a stamp should be used.

A bond to convey real estate requires stamps to the amount of twenty-five cents.

The stamp duty upon the probate of a will, or upon letters of administration, is based upon the sworn or declared value of all the estate and effects, real, personal, and mixed, undiminished by the debts of the estate for or in respect of which such probate or letters are applied for.

When the property belonging to the estate of a person deceased, lies under different jurisdictions and it becomes necessary to take out letters in two or more places, the letters should be stamped according to the value of all the property, real, personal, and mixed, for or in respect of which the particular letters in each case are issued.

Letters *de bonis non* should be stamped according to the amount of property remaining to be administered upon thereunder, regardless of the stamps upon the original letters.

A mere copy of an instrument is not subject to stamp duty unless it is a certified one, in which case a five-cent stamp should be affixed to the certificate of the person attesting it; but when the instrument is executed and issued in duplicate, triplicate, &c., as in the case of a lease of two or more parts, each part has the same legal effect as the other, and each should be stamped as an original.

POSTAL RATES AND REGULATIONS.

LETTERS.—The law requires postage on all letters (including those to foreign countries when prepaid), excepting those written to the President or Vice President, or members of Congress, or (on official business) to the chiefs of the executive departments of the Government, and the heads of bureaux and chief clerks, and others invested with the franking privilege, to be prepaid by stamps or stamped envelopes, prepayment in money being prohibited.

All drop-letters must be prepaid. The rate of postage on drop-letters, at offices where free delivery by carrier is established, is two cents per half ounce or fraction of a half ounce; at offices where such free delivery is not established the rate is one cent.

The single rate of postage on all domestic mail letters throughout the United States, is three cents per half ounce, with an additional rate of three cents for each additional half ounce or fraction of a half ounce. The ten cent (Pacific) rate is abolished.

NEWSPAPERS, ETC.—Letter postage is to be charged on all handbills, circulars, or other printed matter which shall contain any manuscript writing whatever.

Daguerreotypes, when sent in the mail, are to be charged with letter postage by weight.

Photographs on cards, paper, and other flexible material, (not in cases), can be sent at the same rate as miscellaneous printed matter, viz., two cents for each four ounces or fraction thereof.

Photograph Albums are chargeable with book postage—four cents for each four ounces or fraction thereof.

NEWSPAPER POSTAGE.—Postage on daily papers to subscribers when prepaid quarterly or yearly in advance, either at the mailing office or office of delivery, per quarter (three months), 35 cts.; six times per week, per quarter 30 cts.; for tri-weekly, per quarter 15 cts.; for semi-weekly, per quarter 10 cts.; for weekly, per quarter 5 cents.

Weekly newspapers (one copy only) sent by the publisher to actual subscribers within the county where printed and published, **FREE.**

Postage per quarter (to be paid quarterly or yearly in advance) on newspapers and periodicals issued less frequently than once a week, sent to actual subscribers in any part of the United States: Semi-monthly, not over 4 oz., 6 cts.; over 4 oz. and not over 8 oz., 12 cts.; over 8 oz. and not over 12 oz., 18 cts.; monthly, not over 4 oz., 3 cts.; over 4 oz. and not over 8 oz., 6 cts.; over 8 oz. and not over 12 oz., 9 cts.; quarterly, not over 4 oz., 1 cent; over 4 oz. and not over 8 oz., 2 cts.; over 8 oz. and not over 12 oz., 3 cts.

TRANSIENT MATTER.—Books not over 4 oz. in weight, to one address, 4 cts.; over 4 oz. and not over 8 oz., 8 cts.; over 8 oz. and not over 12 oz., 12 cts.; over 12 oz. and not over 16 oz., 16 cts.

Circulars not exceeding three in number to one address, 2 cts.; over 3 and not over 6, 4 cts.; over 6 and not over 9, 6 cts.; over 9 and not exceeding 12, 8 cts.

On miscellaneous mailable matter, (embracing all pamphlets, occasional publications, transient newspapers, hand-bills and posters, book manuscripts and proof-sheets, whether corrected or not, maps, prints, engravings, sheet music, blanks, flexible patterns, samples, and sample cards, photographic paper, letter envelopes, postal envelopes or wrappers, cards, paper, plain or ornamental, photographic representations of different types, seeds, cuttings, bulbs, roots and scions,) the postage to be pre-paid by stamps, is on one package, to one address, not over 4 oz. in weight, 2 cts.; over 4 oz. and not over 8 oz., 4 cts.; over 8 oz. and not over 12 oz., 6 cts.; over 12 oz. and not over 16 oz., 8 cts. The weight of packages of seeds, cuttings, roots and scions, to be franked, is limited to thirty-two ounces.

Any word or communication, whether by printing, writing, marks or signs, upon the cover or wrapper of a newspaper, pamphlet, magazine, or other printed matter, other than the name or address of the person to whom it is to be sent, and the date when the subscription expires, subjects the package to letter postage.

MONEY ORDERS.—Absolute safety in sending money by mail is secured by obtaining a Money Order, on any Money Order Office, for which the fees are:—Orders not exceeding \$20, 10 cents. Orders not exceeding \$50, 25 cents. **NEVER PUT MONEY IN A LETTER—ALWAYS PROCURE A MONEY ORDER.**

Valuable Letters should be carried to the Post-office. If money is to be remitted, a Postal Money Order should be obtained. If upon points where there is no Money Order Office, then the letter should be registered. Money should never be enclosed in an ordinary letter.

STAMPS AND ENVELOPES can be obtained at the BOX DELIVERY. Envelopes in numbers not less than 500 with the "address of the purchaser," and a "return request," across the end, can be procured (by leaving an order with the Post-master,) at the same prices as ordinary stamped envelopes.

REGISTERED LETTERS.—Valuable Letters for any part of the United States, Holland, United Kingdom, Italian States, Africa, East Indies, Egypt, Falkland Islands, China, and Australia, will be registered on application at the office. Registry fee to the above foreign countries, 16 cents. Registry fee in the United States, 15 cents; Canada and the British Provinces, 5 cents; North Germany, 8 cents. Letters addressed to **POST-MASTERS** must be prepaid at the usual rates.

RULES:—1. Direct Letters plainly to the street and number, as well as the Post-office and State.

2. Head letters with the name of the writer's *Post-office and State, Street and Number.* Sign them with full name, and request that answers be directed accordingly.

3. Letters sent to strangers or transient visitors in a town or city, whose special address may be unknown, should be marked on the lower left hand corner with the word "Transient."

4. Place the postage stamp on the upper right hand corner, and leave space between the stamp and direction for post marking, without interfering with the writing. N. B.—A request for the return of a letter to the writer, if unclaimed within thirty days or less, written or printed, with the writer's name, *Post Office and State* across the left hand side of the envelope, on the face side, will be complied with. Letters bearing such indorsements will be returned to the writer free of charge.

Additional Table of Foreign Postage.

The * indicates that, unless the letter is registered, pre-payment is optional; in all other cases it is required. § Pamphlets and Periodicals, ten cents per four ounces or fraction thereof. † Pamphlets, Magazines, &c., two cents per four ounces or fraction thereof.

The recent postal treaty with Great Britain provides that besides letters and newspapers, "book packets," and "packets of patterns and samples," may be sent. Such packets—

1. Must contain no writing.
2. Must be fully prepaid (6 cents per 4 ounces from the U. S., or 3 pence sterling from Great Britain.)
3. Must be open at the ends to allow inspection.

Samples of merchandise must not be of intrinsic value.

Dutiable articles—books, music, &c., sent from Great Britain to the United States, must, in addition to the postage, pay the regular duties, which are—On books and engravings, 25 per cent.; music and photographs, 20 per cent.

If letters or articles sent to Italy are not prepaid, or are insufficiently paid, they will be charged with deficient postage, and subject to fine, on arrival at their destination.

Infallible Rules for Detecting Counterfeit or Spurious Bank Notes.

RULE 1st.—Examine the shading of the letters in title of Bank called **LATHWORK**, which in genuine notes presents an even, straight, light and silky appearance, generally so fine and smooth as to appear to be all in one solid, pale body. In the counterfeit the lines are coarse and irregular, and in many of the longer lines breaks will be perceived, thus presenting a very inferior finish in comparison to genuine work.

2d.—Observe the dies, circles and ovals in the genuine; they are composed of a network of lines, which, by crossing each other at certain angles, produce an endless variety of figures; **SEE THE ONE CENT STAMP ATTACHED.** The fine line alone is the unit which enables you to detect spurious work. In the counterfeit, the **REPRESENTED** white lines are coarse, irregular, and cross each other in a confused, irregular manner, thus producing blurred and imperfect figures.

3d.—Examine the form and features of all human figures on the note. In the genuine, the texture of the skin is represented by fine dots and lines intermixed. In the eyes, the pupil is distinctly visible, and the white clearly seen; the nose, mouth and chin, well formed, natural and expressive; the lips are slightly pouting, and the chin well thrown out; and the delicate shading of the neck perfectly harmonizes with the rest of the figure. Observe the fingers and toes; they should be clearly and accurately defined. The hair of the head should show the fine strands and present a natural appearance. The folds of the drapery of human figures should lay natural and present a fine, finished appearance. In the counterfeit the female figure does not bear the natural prominence in outlines; observe, the eyes and shading surrounding does not present the lifelike appearance it should. The fingers and toes are not properly and proportionately defined; the hair does not bear that soft and finished appearance as in the genuine.

4th.—Examine the imprint or engraver's names in the evenness and shape of the

fine letters. Counterfeits never bear the imprint perfect. This rule should be strictly observed, as it is infallible in detecting counterfeits.

5th.—In the genuine note the landscapes are well finished; trees and shrubs are neatly drawn; the limbs well proportioned, and the foliage presenting a fine natural appearance; clear sky is formed of fine parallel lines, and when clouds or heavy skies appear, they cross each other, and bear a soft, smooth and natural appearance. The perspective, showing a view of the surrounding country, is always clear and distinct. The small figures in the background are always plainly seen, and their outlines and general character recognized. Ships are well defined and the canvass has a clear texture; railroad cars are very accurately delineated; in examining a train observe carefully the car most distant. In the counterfeit the landscape is usually poorly executed; the leaves of trees poorly and unnaturally defined.—The lines representing still water are scratchy rather than parallel, the sky is represented generally in like manner, and where rolling clouds are to be seen, the unnatural effect is obvious. Domestic animals are generally poorly executed, particularly the head and limbs; the eyes are seldom clearly defined. Ships are poorly drawn, the texture of the canvass coarse and inferior in style of workmanship, thus giving an artificial appearance. Railroad cars are also poorly executed; the car farthest from the eye is usually the most imperfect. The perspective is always imperfect, the figures in the background can seldom be recognized.

6th.—Bills altered from a smaller to a higher denomination, can readily be detected by a close observer, in consequence of the striking difference between the parts which have been extracted and the rest of the note. This difference is readily perceived in the lack of color, body and finish of the dye; we have seen bills where the surrounding shading in altered dies was

too dark, but from the back or finish of the white lines you have a sure test. Again observe particularly the words "Five" or "Ten Dollars" as the case may be, denoting the denomination of the note; the parallel outlines and shading (if any) are coarse and imperfect. Alterations are frequently made by pasting a greater denomination over a smaller, but by holding the bill up to the light, the fraud will be perceived. Another method resorted to is to cut out the figures in the dies as well as the words one dollar, or the words two or three as the case may be, and with a sharp eraser, scrape down the ends and also the edges of the pieces to be inserted; when the pieces thus prepared are affixed they are hardly perceivable; but by passing the note through the hand, so as to feel the die both with the finger and thumb at the same time, the fraud will be detected by the stiffness of the outer edges, "occasioned by the gum or method adopted" in affixing the parts. The letter S should always be examined, as in many alterations it is pasted or stamped at the end of the word "dollar;" and even when stamped there, the carrying out of the outlines for its shading will readily show the fraud. Bills of broken banks are frequently altered by extracting the name of bank, state and town; they may readily be de-

tected by observing first the state, second the title or name of the bank, third the town or location.

GENERAL REMARKS IN REFERENCE TO COUNTERFEITS.—The paper on which they are printed is generally of a very inferior quality, with less body, finish and toughness than bank note paper has. The ink generally lacks the rich luster of the genuine; the red letters and figures are generally imperfect, and the ink does not present the vermilion hue as it should. The printing is generally inferior, usually exhibiting specks of white in the most prominent letters. The date and filling up, and the President's and Cashier's names are generally written by the same person, although in many instances they present a different appearance. There are bills in circulation bearing either genuine dies or vignettes; but upon close examination you will be enabled to detect any spurious bill, whether counterfeit or altered, by the instructions here given, if persevered in for a short time. We beg to suggest, if time will admit, the learner should examine minutely every bill he receives. A powerful pocket magnifying glass, which can be purchased for from fifty cents to one dollar at any of the opticians, will greatly enable you to see and comprehend the difference between genuine and spurious work

HOW TO SUCCEED IN BUSINESS.

What will my readers give to know how to get rich? Now, I will not vouch that the following rules will enable every person who may read them to acquire wealth; but this I will answer for, that if ever a man does grow rich by honest means, and retains his wealth for any length of time, he must practice upon the principles laid down in the following essay. The remarks are not original with me, but I strongly commend them to the attention of every young man, at least as affording the true secret of success in attaining wealth. A single perusal of such an essay at an impressive moment, has sometimes a very wonderful effect upon the disposition and character.

Fortune, they say, is a fickle dame—full of her freaks and caprices; who blindly distributes her favors without the slightest discrimination. So inconstant, so wavering is she represented, that her most faithful votaries can place no reliance on her promises. Disappointment, they tell us, is the lot of those who make offerings at

her shrine. Now, all this is a vile slander upon the dear blind lady.

Although wealth often appears the result of mere accident, or a fortunate concurrence of favorable circumstances without any exertion of skill or foresight, yet any man of sound health and unimpaired mind may become wealthy, if he takes the proper steps.

Foremost in the list of requisites are honesty and strict integrity in every transaction of life. Let a man have the reputation of being fair and upright in his dealings, and he will possess the confidence of all who know him. Without these qualities every other merit will prove unavailing. Ask concerning a man, "Is he active and capable?" Yes. "Industrious, temperate and regular in his habits?"—Oh yes. "Is he honest? Is he trustworthy?" Why, as to that, I am sorry to say that he is not to be trusted; he needs watching; he is a little tricky, and will take an undue advantage, if he can. "Then I will have nothing to do with him," will be the in-

variable reply. Why, then, is honesty the best policy? Because, without it, you will get a bad name, and everybody will shun you.

A character for knavery will prove an insurmountable obstacle to success in almost every undertaking. It will be found that the straight line is, in business, as in geometry, the shortest. In a word, it is almost impossible for a dishonest man to acquire wealth by a regular process of business, because he is shunned as a depredator upon society.

Needy men are apt to deviate from the rule of integrity, under the plea that necessity knows no law; they might as well add that it knows no shame. The course is suicidal, and by destroying all confidence, ever keeps them immured in poverty, although they may possess every other quality for success in the world.

Punctuality, which is said to be the soul of business, is another important element in the art of money getting. The man known to be scrupulously exact in the fulfillment of his engagements, gains the confidence of all, and may command all the means he can use with advantage; whereas, a man careless and regardless of his promises in money matters will have every purse closed against him. Therefore be prompt in your payments.

Next, let us consider the advantages of a cautious circumspection in our intercourse with the world. Slowness of belief and a proper distrust are essential to success. The credulous and confiding are ever the dupes of knaves and impostors. Ask those who have lost their property how it happened, and you will find in most cases that it has been owing to misplaced confidence. One has lost by endorsing, another by crediting, another by false representations; all of which a little more foresight and a little more distrust would have prevented. In the affairs of this world men are not saved by faith, but by the want of it.

Judge of men by what they do, not by what they say. Believe in looks rather than words. Observe all their movements. Ascertain their motives and their ends. Notice what they say or do in their unguarded moments, when under the influence of excitement. The passions have been compared to tortures which force men to reveal their secrets. Before trusting a man, before putting it in his power to cause you a loss, possess yourself of every available information relative to him. Learn his history, his habits, inclinations and propensities; his reputation for honor, industry, frugality and punctuality; his prospects, resources, supports, advantages and disadvantages; his intentions and motives of action; who are his friends and enemies, and what are his good or bad qualities. You may learn a man's good qualities and advantages from his friends—his bad qualities and disadvantages from his enemies. Make due allowance for exaggeration in both. Finally, examine carefully before engaging in anything, and act with energy afterwards. Have the hundred eyes of

Argus beforehand, and the hundred hands of Briarion afterwards.

Order and system in the management of business must not be neglected. Nothing contributes more to dispatch. Have a place for everything and everything in its place; a time for everything, and everything in its time. Do first what presses most, and having determined what is to be done, and how it is to be done, lose no time in doing it. Without this method all is hurry and confusion, little or nothing is accomplished, and business is attended to with neither pleasure nor profit.

A polite, affable deportment is recommended. Agreeable manners contribute powerfully to a man's success. Take two men, possessing equal advantages in every other respect, but let one be gentlemanly, kind, obliging and conciliating in his manners; the other harsh, rude and disobliging; and the one will become rich, while the other will starve.

We are now to consider a very important principle in the business of money-getting, namely—Industry—persevering, indefatigable attention to business. Persevering diligence is the Philosopher's stone, which turns everything to gold. Constant, regular, habitual and systematic application to business, must in time, if properly directed, produce great results. It must lead to wealth, with the same certainty that poverty follows in the train of idleness and inattention. It has been truly remarked that he who follows his amusements instead of his business, will, in a short time, have no business to follow.

The art of money-saving is an important part of the art of money-getting. Without frugality no one can become rich; with it, few would be poor. Those who consume as fast as they produce, are on the road to ruin. As most of the poverty we meet with grows out of idleness and extravagance, so most large fortunes have been the result of habitual industry and frugality. The practice of economy is as necessary in the expenditure of time as of money. They say if "we take care of the pence the pounds will take care of themselves." So, if we take care of the minutes, the days will take care of themselves.

The acquisition of wealth demands as much self-denial, and as many sacrifices of present gratification, as the practice of virtue itself. Vice and poverty proceed, in some degree, from the same sources, namely—the disposition to sacrifice the future to the present; the inability to forego a small present pleasure for great future advantages. Men fail of fortune in this world, as they fail of happiness in the world to come, simply because they are unwilling to deny themselves momentary enjoyments for the sake of permanent future happiness.

Every large city is filled with persons, who, in order to support the appearance of wealth, constantly live beyond their income, and make up the deficiency by contracting debts which are never paid. Others, there are, the mere drones of so-

ciety, who pass their days in idleness, and subsist by pirating on the hives of the industrious. Many who run a short-lived career of splendid beggary, could they be but persuaded to adopt a system of rigid economy for a few years, might pass the remainder of their days in affluence. But no! They must keep up appearances, they must live like other folks.

Their debts accumulate; their credit fails; they are harassed by duns, and besieged by constables and sheriff. In this extremity, as a last resort, they submit to a shameful dependence, or engage in criminal practices which entail hopeless wretchedness and infamy on themselves and families.

Stick to the business in which you are regularly employed. Let speculators make thousands in a year or a day; mind your own regular trade, never turning from it to the right hand or to the left. If you are a merchant, a professional man, or a mechanic, never buy lots or stocks, unless you have surplus money which you wish to invest. Your own business you understand as well as other men; but other people's business you do not understand. Let your business be some one which is useful to the community. All such occupations possess the elements of profit in themselves.

How to Secure the Public Lands,

OR THE ENTRY OF THE SAME UNDER THE PRE-EMPTION AND HOMESTEAD LAWS.

The following circular gives all necessary information as to the procedure necessary in purchasing and securing the public lands:

DEPARTMENT OF THE INTERIOR, }
 GEN'L LAND OFFICE, July 19, 1865. }

Numerous questions having arisen as to the mode of procedure to purchase public lands, or acquire title to the same by bounty land locations, by pre-emptions or by homestead, this circular is communicated for the information of all concerned.

In order to acquire title to public lands the following steps must be taken:

1. Application must be made to the Register of the district land office in which the land desired may be situated.

A list of all the land offices in the United States is furnished by the Department, with the seats of the different offices, where it is the duty of the Register and Receiver to be in attendance, and give proper facilities and information to persons desirous of obtaining lands.

The minimum price of ordinary public lands is \$1.25 per acre. The even or reserved sections falling within railroad grants are increased to double the minimum price, being \$2.50 per acre.

Lands once offered at public sale, and not afterwards kept out of market by reservation, or otherwise, so as to prevent free competition, may be entered or located.

2. By the applicant filing with the Register his written application describing the

tract, with its area; the Register will then certify to the receiver whether the land is vacant, with its price; and when found to be so, the applicant must pay that price per acre, or may locate the same with land warrant, and thereafter the Receiver will give him a "duplicate receipt," which he is required to surrender previous to the delivery to him of the patent, which may be had either by application for it to the Register or to the General Land Office.

3. If the tract has not been offered at public sale it is not liable to ordinary private entry, but may be secured by a party legally qualified, upon his compliance with the requirements of the pre-emption laws of 4th September, 1841, and 3d March, 1843; and after such party shall have made actual settlement for such a length of time as will show he designs it for his permanent home, and is acting in good faith, building a house and residing therein, he may proceed to the district land office, establish his pre-emption claim according to law, by proving his actual residence and cultivation, and showing that he is otherwise within the purview of these acts.— Then he can enter the land at \$1.25, either in cash or with bounty land warrant, unless the premises should be \$2.50 acre lands. In that case the whole purchase-money can be paid in cash, or one-half in cash, the residue with a bounty land warrant.

4. But if parties legally qualified desire to obtain title under the Homestead Act of 20th May, 1862, they can do so on com-

plying with the Department Circular, dated 30th October, 1862.

5. The law confines Homestead entries to surveyed lands; and although, in certain States and Territories noted in the subjoined list, pre-emptors may go on land before survey, yet they can only establish their claim after return of survey, but must file their pre-emption declaration within three months after receipt of official plat, at the local land-office where the settlement was made before survey. Where, however, it was made after survey, the claimant must file within three months after date of settlement; and where actual residence and cultivation have been long enough to show

that the claimant has made the land his permanent home, he can establish his claim and pay for the same at any time before the date of the public sale of lands within the range in which his settlement may fall.

6. All unoffered surveyed lands not acquired under pre-emption, homestead, or otherwise, under express legal sanction, must be offered at public sale under the President's Proclamation, and struck off to the highest bidder, as required by act of April 24, 1820.

J. M. EDMUNDS,
Commissioner General Land Office.

LAW MAXIMS.

1. A promise of a debtor to give "satisfactory security" for the payment of a portion of his debt, is a sufficient consideration for a release of the residue by his creditor.

2. Administrators are liable to account for interest on funds in their hands, although no profit shall have been made upon them, unless the exigencies of the estate rendered it prudent that they should hold the funds thus uninvested.

3. Any person who voluntarily becomes an agent for another, and in that capacity obtains information to which as a stranger he could have had no access, is bound in subsequent dealing with his principal, as purchaser of the property that formed the subject of his agency, to communicate such information.

4. When a house is rendered untenable in consequence of improvements made on the adjoining lot, the owner of such cannot recover damages, because it is presumed that he had knowledge of the approaching danger in time to protect himself from it.

5. When a merchant ship is abandoned by order of the master, for the purpose of saving life, and a part of the crew subsequently meet the vessel so abandoned and bring her safe into port, they will be entitled to salvage.

6. A person who has been led to sell goods by means of false pretences, cannot recover them from one who has purchased them in good faith from the fraudulent vendor.

7. An agreement by the holder of a note to give the principal debtor time for payment, without depriving himself of the right to sue, does not discharge the surety.

8. A seller of goods who accepts, at the time of sale, the note of a third party, not endorsed by the buyer, in payment, cannot in case the note is not paid, hold the buyer responsible for the value of the goods.

9. A day-book copied from a "blotter" in which charges are first made, will not be received in evidence as a book of original entries.

10. Common carriers are not liable for extraordinary results of negligence that could not have been foreseen by ordinary skill and foresight.

11. A bidder at a Sheriff's sale may retract his bid at any time before the property is knocked down to him, whatever may be the conditions of the sale.

12. Acknowledgment of debt to a stranger does not preclude the operation of the statute.

13. The fruits and grass on the farm or garden of an intestate descend to the heir.

14. Agents are solely liable to their principals.

15. A deposit of money in bank by a husband, in the name of his wife, survives to her.

16. Money paid on Sunday contracts may be recovered.
17. A debtor may give preference to one creditor over another, unless fraud or special legislation can be proved.
18. A court cannot give judgment for a larger sum than that specified in the verdict.
19. Imbecility on the part of either husband or wife, invalidates the marriage.
20. An action for malicious prosecution will lie, though nothing further was done than suing out warrants.
21. An agreement not to continue the practice of a profession or business in any specified town, if the party so agreeing has received a consideration for the same, is valid.
22. When A consigns goods to B to sell on commission, and B delivers them to C, in payment of his own antecedent debts, A can recover their value.
23. A finder of property is compelled to make diligent inquiry for the owner thereof, and to restore the same. If, on finding such property, he attempts to conceal such fact, he may be prosecuted for larceny.
24. A private person may obtain an injunction to prevent a public mischief by which he is affected in common with others.
25. Any person interested may obtain an injunction to restrain the State or a municipal corporation from maintaining a nuisance on its lands.
26. A discharge under the insolvent laws of one State will not discharge the insolvent from a contract made with a citizen of another State.
27. To prosecute a party with any other motive than to bring him to justice, is malicious prosecution, and actionable as such.
28. Ministers of the gospel, residing in any incorporated town, are not exempt from jury, military, or fire service.
29. When a person contracts to build a house, and is prevented by sickness from finishing it, he can recover for the part performed, if such part is beneficial to the other party.
30. In a suit for enticing away a man's wife, actual proof of the marriage is not necessary. Cohabitation, reputation, and the admission of marriage by the parties, are sufficient.
31. Permanent erections and fixtures, made by a mortgagor after the execution of the mortgage upon land conveyed by it, become a part of the mortgaged premises.
32. When a marriage is denied, and plaintiff has given sufficient evidence to establish it, the defendant cannot examine the wife to disprove the marriage.
33. The amount of an express debt cannot be enlarged by application.
34. Contracts for advertisements in Sunday newspapers cannot be enforced.
35. A seller of goods, chattels, or other property, commits no fraud, in law, when he neglects to tell the purchaser of any flaws, defects, or unsoundness in the same.
36. The opinions of witnesses, as to the value of a dog that has been killed, are not admissible in evidence. The value of the animal is to be decided by the jury.
37. If any person puts a fence on or plows the land of another, he is liable for trespass whether the owner has sustained injury or not.
38. If a person, who is unable from illness to sign his will, has his hand guided in making his mark, the signature is valid.
39. When land trespassed upon is occupied by a tenant, he alone can bring the action.
40. To say of a person, "If he does not come and make terms with me, I will make a bankrupt of him and ruin him," or any such threatening language, is actionable, without proof of special damage.
41. In an action for slander, the party making the complaint must prove the words alleged; other words of like meaning will not suffice.
42. In a suit of damages for seduction, proof of pregnancy, and the birth of a child, is not essential. It is sufficient if the illness of the girl, whereby she was unable to labor, was produced by shame for the seduction; and this is such a loss of service as will sustain the action.
43. Addressing to a wife a letter containing matter defamatory to the character of her husband is a publication, and renders the writer amenable to damages.
44. A parent cannot sustain an action for any wrong done to a child, unless he has incurred some direct pecuniary injury therefrom in consequence of some loss of service or expenses necessarily consequent thereupon.
45. A master is responsible for an injury resulting from the negligence of his servant, whilst driving his cart or carriage, provided the servant is at the time engaged in his master's business, even though the accident happens in a place to which his master's business does not call him; but if the journey of a servant be solely for a purpose of his own, and undertaken without the knowledge and consent of his master, the latter is not responsible.
46. An emigrant depot is not a nuisance in law.
47. A railroad track through the streets is not a nuisance in law.

48. If an agreement upon which a party relies be oral only, it must be proved by evidence. But if the contract be reduced to writing, it proves itself; and now no evidence whatever is receivable for the purpose of varying the contract or affecting its obligations. The reasons are obvious. The law prefers written to oral evidence, from its greater precision and certainty, and because it is less open to fraud. And where parties have closed a negotiation and reduced the result to writing, it is presumed that they have written all they intended to agree to, and therefore, that what is omitted was finally rejected by them.—[PARSONS.

49. Delivery of a husband's goods by a wife to her adulterer, he having knowledge that she has taken them without her husband's authority, is sufficient to sustain an indictment for larceny against the adulterer.

50. The fact that the insurer was not informed of the existence of impending litigation, affecting the premises insured, at the time the insurance was effected, does not vitiate the policy.

51. The liability of an innkeeper is not confined to personal baggage, but extends to all the property of the guest that he consents to receive.

52. When a minor executes a contract, and pays money, or delivers property on the same, he cannot afterwards disaffirm such contract and recover the money, or property, unless he restores to the other party the consideration received from him for such money or property.

53. When a person has, by legal inquiry been found an habitual drunkard, he cannot, even in his sober intervals, make contracts to bind himself or his property, until the inquiry is removed.

54. Any person dealing with the representative of a deceased person, is presumed, in law, to be fully apprized of the extent of such representative's authority to act in behalf of such estate.

55. In an action against a railroad company, by a passenger, to recover damages for injuries sustained on the road, it is not compulsory upon the plaintiff to prove actual negligence in the defendants; but it is obligatory on the part of the latter to prove that the injury was not owing to any fault or negligence of theirs.

56. A guest is a competent witness, in an action between himself and an inn-keeper, to prove the character and value of lost personal baggage. Money in a trunk, not exceeding the amount reasonably required by the traveler to defray the expenses of the journey which he has undertaken, is a part of his baggage; and in case of its loss, while at any inn, the plaintiff may prove its amount by his own testimony.

57. The deed of a minor is not absolutely void. The court is authorized to judge, from the instrument, whether it is void or not, according to its terms being favorable or unfavorable to the interests of the minor.

58. A married woman can neither sue nor be sued on any contract made by her during her marriage, except in an action relating to her individual property. The action must be commenced either by or against her husband. It is only when an action is brought on a contract made by her before her marriage, that she is to be joined as a co-plaintiff, or defendant, with her husband.

59. Any contract made with a person judicially declared a lunatic is void.

60. Money paid voluntarily in any transaction, with a knowledge of the facts, cannot be recovered.

61. In all cases of special contract for services, except in the case of a minor, the plaintiff can recover only the amount stipulated in the contract.

62. A wife is a competent witness with her husband, to prove the contents of a lost trunk, or when a party.

63. A wife cannot be convicted of receiving stolen goods when she received them of her husband.

64. Insurance against fire, by lightning or otherwise, does not cover loss by lightning when there is no combustion.

65. Failure to prove plea of justification, in a case of slander, aggravates the offence.

66. It is the agreement of the parties to sell by sample that constitutes a sale by sample, not the mere exhibition of a specimen of the goods.

67. An agent is liable to his principals for loss caused by his misstatements, tho' unintentional.

68. Makers of promissory notes given in advance for premiums on policies of insurance, thereafter to be taken, are liable thereon.

69. An agreement to pay for procuring an appointment to office is void.

70. An attorney may plead the statute of limitations, when sued by a client for money which he has collected and failed to pay over.

71. Testimony given by a deceased witness on first trial, is not required to be repeated verbatim on the second.

72. A person entitling himself to a reward offered for lost property, has a lien upon the property for the reward; but only when a definite reward is offered.

73. Confession by a prisoner must be voluntarily made, to constitute evidence against him.

74. The defendant in a suit must be served with process; but service of such process upon his wife, even in his absence from the State, is not, in the absence of statutory provisions, sufficient.

75. The measure of damages in trespass for cutting timber, is its value as a chattel on the land where it was felled, and not the market price of the lumber manufactured.

76. To support an indictment for malicious mischief in killing an animal, malice towards its owner must be shown, not merely passion excited against the animal itself.

77. No action can be maintained against a sheriff for omitting to account for money obtained upon an execution within a reasonable time. He has till the return day to render such account.

78. An interest in the profits of an enterprise, as profits, renders the party holding it a partner in the enterprise, and makes him presumptively liable to share any loss.

79. Males can marry at fourteen, and females at twelve years of age.

80. All cattle found at large upon any public road, can be driven by any person to the public pound.

81. Any dog chasing, barking, or otherwise threatening a passer-by in any street, lane, road, or other public thoroughfare, may be lawfully killed for the same.

82. A written promise for the payment of such amount as may come into the hands of the promisor, is held to be an instrument in writing for the payment of money.

83. The declaration of an agent is not admissible to establish the fact of agency.— But when other proper evidence is given, tending to establish the fact of agency, it is not error to admit the declarations of the agent, accompanying acts, though tending to show the capacity in which he acted. When evidence is competent in one respect and incompetent in another, it is the duty of the court to admit it, and control its effects by suitable instructions to the jury.

84. The court has a general power to remove or suspend an attorney for such immoral conduct as rendered him unworthy of confidence in his official capacity.

85. Bankruptcy is pleadable in bar to all actions and in all courts, and this bar may be avoided whenever it is interposed, by showing fraud in the procurement of the discharge, or a violation of any of the provisions of the bankrupt act.

86. An instrument in the form of a deed, but limited to take effect at the termination of the grantor's natural life, is held to be a deed, not a will.

87. A sale will not be set aside as fraudulent, simply because the buyer was at the time unable to make the payment agreed upon, and knew his inability, and did not intend to pay.

88. No man is under an obligation to make known his circumstances when he is buying goods.

89. Contracting parties are bound to disclose material facts known to each, but of which either supposes the other to be ignorant, only when they stand in some special relation of trust and confidence in relation to the subject matter of the contract. But neither will be protected if he does anything, however slight, to mislead or deceive the other.

90. A contract negotiated by mail is formed when notice of acceptance of the offer is duly deposited in the post-office, properly addressed. This rule applies, although the party making the offer expressly requires that if it is accepted, speedy notice of acceptance shall be given him.

91. The date of an instrument is so far a material part of it, that an alteration of the date by the holder after execution, makes the instrument void.

92. A corporation may maintain an action for libel, for words published of them and relating to its trade or business, by which it has incurred special damages.

93. It is unprofessional for a lawyer who has abandoned his case without trying it, a term or two before trial, to claim a fee conditional upon the success of his client, although his client was successful.

94. Although a party obtaining damages for injuries received through the default of another, was himself guilty of negligence, yet that will not defeat his recovery, unless his negligence contributed to cause the injury.

95. A person may contract to labor for another during life, in consideration of receiving his support; but his creditors have the right to inquire into the intention with which such arrangement is made, and it will be set aside if entered into to deprive them of his future earnings.

96. A grantor may by express terms exclude the bed of a river, or a highway, mentioned as boundary; but if without language of exclusion a line is described as 'along,' or 'upon,' or as 'running to' the highway or river, or as 'by,' or 'running to the bank of' the river; these expressions carry the grantee to the center of the highway or river.

97. The court will take pains to construe the words used in a deed in such a way as to effect the intention of the parties, however unskillfully the instrument may be drawn. But a court of law cannot exchange an intelligible word plainly employed in a deed for another, however evident it may be that the word used was used by mistake for another.

98. One who has lost his memory and understanding is entitled to legal protection, whether such loss is occasioned by his own misconduct or by an act of Providence.

99. When a wife leaves her husband voluntarily, it must be shown, in order to make him liable for necessaries furnished to her, that she could not stay with safety. Personal violence, either threatened or inflicted, will be sufficient cause for such separation.

100. Necessaries of dress furnished to a discarded wife must correspond with the pecuniary circumstances of the husband, and be such articles as the wife, if prudent, would expect, and the husband should furnish, if the parties lived harmoniously together.

101. A fugitive from justice from one of the United States to another, may be arrested and detained in order to his surrender by authority of the latter, without a previous demand for his surrender by the executive of the State whence he fled.

102. A watch will not pass under a bequest of "wearing apparel," nor of "household furniture and articles for family use."

103. Money paid for the purpose of settling or compounding a prosecution for a supposed felony, cannot be recovered back by a party paying it.

104. An innkeeper is liable for the death of an animal in his possession, but may free himself from liability by showing that the death was not occasioned by negligence on his part.

105. Notice to the agent of a company is notice to the company.

106. An employer is not liable to one of his employees for an injury sustained by the latter in consequence of the neglect of others of his employees engaged in the same general business.

107. Where a purchaser at a Sheriff's sale has bid the full price of property under the erroneous belief that the sale would divest the property of all liens, it is the duty of the court to give relief by setting aside the sale.

108. When notice of protest is properly sent by mail, it may be sent by the mail of the day of the dishonor; if not, it must be mailed for the mail of the next day; except that if there is none, or it closes at an unseasonably early hour, then notice must be mailed in season for the next possible mail.

109. A powder-house located in a populous part of a city, and containing large quantities of gunpowder, is a nuisance.

110. When the seller of goods accepts at the time of the sale, the note of a third person, unindorsed by the purchaser, in payment, the presumption is that the payment was intended to be absolute; and though the note should be dishonored, the purchaser will not be liable for the value of the goods.

111. A man charged with crime before a committing magistrate, but discharged on his own recognizance, is not privileged from arrest on civil process while returning from the magistrate's office.

112. When one has been induced to sell goods by means of false pretences, he cannot recover them from one who has bona fide purchased and obtained possession of them from the fraudulent vendor.

113. If the circumstances attendant upon a sale and delivery of personal property are such as usually and naturally accompany such a transaction, it cannot be declared a legal fraud upon creditors.

114. A stamp impressed upon an instrument by way of seal, is good as a seal, if it creates a durable impression in the texture of the paper.

115. If a party bound to make a payment use due diligence to make a tender, but through the payee's absence from home is unable to find him or any agent authorized to take payment for him, no forfeiture will be incurred through his failure to make a tender.

Government Land Measure.

A township, 36 sections, each a mile square.

A section, 640 acres.

A quarter section, half a mile square, 160 acres.

An eighth section, half a mile long, north and south, and a quarter of a mile wide, 80 acres.

A sixteenth section, a quarter of a mile square, 40 acres.

The sections are numbered from one to thirty-six, commencing at the northeast corner, thus:

6	5	4	3	2	n	w	n	e
					s	w	s	e
7	8	9	10	11	12			
18	17	16	15	14	13			
19	20	21	22	23	24			
30	29	28	27	26	25			
31	32	33	34	35	36			

The sections are all divided in quarters, which are named by the cardinal points, as in section one. The quarters are divided in the same way. The description of a 40 acre lot would read: The south half of the west half of the southwest quarter of section 1 in township 24, north of range 7 west, or as the case might be; and sometimes will fall short, and sometimes overrun the number of acres it is supposed to contain.

THE DECIMAL SYSTEM
OF
WEIGHTS AND MEASURES.

As Authorized by Act of Congress--Approved July 28, 1866.

STANDARDS.

In every system of Weights and Measures it is necessary to have what are called "Standards," as the pound, yard, gallon, &c., to be divided and multiplied into smaller and larger parts and denominations. The definition and construction of these Standards involve philosophical and scientific principles of a somewhat abstruse character, and are made and procured by the legislative department of the government. The nominal Standards in the new system are the METER, the ARE, the LITER, and the GRAM. The only *real* Standard, the one by which all the other standards are measured, and from which the system derives its name of "Metric," is the METER.

THE METER

Is used for all measures of length, distance, breadth, depth, height, &c., and was intended to be, and is very nearly, one ten-millionth of the distance on the earth's surface from the equator to the pole. It is about 39 $\frac{1}{2}$ inches, or 3 feet, 3 inches and 3 eighths, and is to be substituted for the yard.

THE ARE

Is a surface whose side is ten Meters, and is equal to 100 square Meters or about 4 square rods.

THE LITER

Is the unit for measuring solids and capacity, and is equal to the contents of a cube whose edge is one-tenth of a meter. It is about equal to 1 quart, and is a standard in cubic, dry and liquid measures.

D

A cubic Meter (or Kiloliter) is called a *stere*, and is also used as a standard in certain cubic measures.

THE GRAM

Is the Unit of *weight*, and is the weight of a cube of pure water, each edge of the cube being one one-hundredth of a Meter. It is about equal to 15 $\frac{1}{2}$ grains. It is intended as the Standard in *all* weights, and with its divisions and multiples, to supersede the use of what are now called Avoirdupois, Apothecaries and Troy Weights.

Each of the foregoing Standards is divided decimally, and larger units are also formed by multiples of 10, 100, &c. The successive subordinate parts are designated by the prefixes Deci, Centi and Milli; the successive multiples by Dekas, Hecto, Kilo and Myria; each having its own numerical signification, as will be more clearly seen in the tables hereinafter given.

The terms used may, at first sight, have a formidable appearance, seem difficult to pronounce, and to retain in memory, and to be, therefore, objectionable; but with a little attention and use, the apprehended difficulty will be found more apparent than real, as has been abundantly proved by experience. The importance, also, of conformity in the use of commercial terms, on the part of the United States, with the practice of the many nations in which the system, *with its present nomenclature*, has already been adopted, must greatly overbalance the comparatively slight objection alluded to.

TABLES.

OLD.	MONEY.	NEW.
4 farthing make 1 penny.		10 mills make 1 cent.
12 pence " 1 shilling.		10 cents " 1 dime.
20 shillings " 1 pound.		10 dimes " 1 dollar.

LONG AND CLOTH MEASURE.—New.

10 millimeters	make	1 centimeter.
10 centimeters	"	1 decimeter.
10 decimeters	"	1 METER.
10 meters	"	1 dekameter.
10 dekameters	"	1 hectometer.
10 hectometers	"	1 kilometer.
10 kilometers	"	1 myriameter.

SQUARE MEASURE.—New.

100 square millimeters	make	1 square centimeter.
100 square centimeters	"	1 square decimeter.
100 square decimeters	"	1 square meter or CENTARE.
100 centares	"	1 ARE.
100 ares	"	1 hectare.

The denominations less than the Are, including the Meter, are used in specifying the contents of surfaces of small extent; the terms *Centare*, *Are* and *Hectare*, in expressing quantities of land surveyed or measured.

The above table may, however, be continued beyond the Meter, thus:

100 square meters	make	1 square dekameter.
100 square dekameters	"	1 square hectometer.
100 square hectometers	"	1 square kilometer.
100 square kilometers	"	1 square myriameter.

CUBIC MEASURE.—New.

For Solids.

1000 cubic millimeters	make	1 cubic centimeter.
1000 cubic centimeters	"	1 cubic decimeter or liter.
1000 cubic decimeters	"	1 cubic meter or stere.
1000 cubic meters	"	1 cubic dekameter.
1000 cubic dekameters	"	1 cubic hectometer.
1000 cubic hectometers	"	1 cubic kilometer.
1000 cubic kilometers	"	1 cubic myriameter.

For Dry and Liquid Measures.

10 milliliters	make	1 centiliter.
10 centiliters	"	1 deciliter.
10 deciliters	"	1 LITER.
10 liters	"	1. dekaliter.
10 dekaliters	"	1 hectoliter.
10 hectoliters	"	1 kiloliter.
10 kiloliters	"	1 myrialiter.

A LITER, the standard of Measures of Capacity, usually in a cylindrical form, is equivalent to a cubic *Decimeter*, or the one-thousandth part of a cubic Meter, the contents of which are about one quart.]

The Kiloliter, or STERE, is a cubic Meter, and is used as a unit in measuring firewood and lumber.

10 decliteres	make	1 stere.
10 steres	"	1 dekastere.

ALL WEIGHTS.—New.

10 milligrams	make	1 centigram.
10 centigrams	"	1 decigram.
10 decigrams	"	1 GRAM.
10 grams	"	1 dekagram.
10 dekagrams	"	1 hectogram.
10 hectograms	"	1 kilogram.
10 kilograms	"	1 myriagram.
10 myriagrams	"	1 quintal.
10 quintals	"	1 miller or tonneau.

Acts and Resolutions of Congress.

PUBLIC—No. 183.

AN ACT to authorize the use of the metric system of weights and measures.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the passage of this act, it shall be lawful throughout the United States of America to employ the weights and measures of the metric system; and no contract or dealing, or pleading in any court, shall be deemed invalid or liable to objection, be-

cause the weights or measures expressed or referred to therein are weights or measures of the metric system.

Sec. 2. *And be it further enacted,* That the tables in the schedule hereto annexed, shall be recognized in the construction of contracts, and in all legal proceedings, as establishing, in terms of the weights and measures now in use in the United States, the equivalents of the weights and measures expressed therein in terms of the metric system; and said tables may be lawfully used for computing, determining and expressing, in customary weights and measures, the weights and measures of the metric system.

Discount and Premium.

When a person buys an article for \$1.00—20 per cent off, (or discount,) and sells it again for \$1.00, he makes a profit c. 25 per cent. on his investment. Thus: He pays 80 cents and sells for \$1.00—a gain of 20 cents, or 25 per cent of 80 cents. And for any transaction where the sale or purchase of gold, silver, or currency is concerned, the following rules will apply in all cases.

RULE 1st.—To find premium when discount is given: Multiply 100 by rate of discount and divide by 100, less rate of discount.

RULE 2d.—To find discount when premium is given. Multiply the rate of interest by 100, and divide by 100, plus the rate of premium.

Suppose A has \$140 in currency, which he wishes to exchange for gold, when gold is 27 per cent. premium, how much gold should he receive? In this case the premium is given, consequently we must find the discount on A's currency and subtract it from the \$140, as per rule 2d, showing the discount to be a trifle more than 21 per cent. and that he should receive \$110.60 in gold.

⚔ A dagger (†) denotes the profits to be a fraction more than specified. A (*) denotes profits to be a fraction less than specified.

In large cities nothing is more common than to see large business establishments, which seem to have an immense advantage over all competitors, by the wealth, experience, and prestige they have acquired, drop gradually out of public view, and be succeeded by firms of a smaller capital, more energy, and more determined to have the fact that they sell such and such commodities known from one end of the land to the other. In other words, the establishments advertise; the old die of dignity.—The former are ravenous to pass out of obscurity into publicity; the latter believe that their publicity is so obvious that it cannot be obscured. The first understand that they must thrust themselves upon public attention, or be disregarded; the second, having once obtained public attention, suppose they have arrested it permanently; while, in fact, nothing is more characteristic of the world than the ease with which it forgets.

Stephen Girard, than whom no shrewder business man ever lived, used to say: I have always considered advertising liberally and long to be the great medium of success in business, and the prelude to wealth. And I have made it an invariable rule too, to advertise in the duldest times as well as the busiest; long experience having taught me that money thus spent is well laid out; as by keeping my business continually before the public it has secured me many sales that I would otherwise have lost.

Facts on Advertising.

The advertisements in an ordinary number of the London Times exceed 2,500. The annual advertising bills of one London firm are said to amount to \$200,000; and three others are mentioned who each annually expend for the purpose \$50,000. The expense for advertising the eight editions of the "Encyclopaedia Britannia" is said to have been \$15,000.

Brilliant Whitewash.

Many have heard of the brilliant stucco whitewash on the east end of the President's house at Washington. The following is a recipe for it; it is gleaned from the National Intelligencer, with some additional improvements learned by experiments: Take half a bushel of nice un-slacked lime, slack it with boiling water, cover it during the process to keep in the steam. Strain the liquid through a fine sieve or strainer, and add to it a peck of salt, previously well dissolved in warm water; three pounds of ground rice, boiled to a thin paste, and stirred in boiling hot; half a pound of powdered Spanish whiting, and a pound of clean glue, which has been previously dissolved by soaking it well, and then hanging it over a slow fire, in a small kettle within a large one filled with water. Add five gallons of hot water to the mixture, stir it well, and let it stand a few days covered from the dirt.

It should be put on right hot; for this purpose it can be kept in a kettle on a portable furnace. It is said that about a pint of this mixture will cover a square yard upon the outside of a house if properly applied. Brushes more or less small may be used according to the neatness of the job required. It answers as well as oil paint for wood, brick or stone, and is cheaper. It retains its brilliancy for many years. There is nothing of the kind that will compare with it, either for inside or outside walls.

Coloring matter may be put in and made of any shade you like. Spanish brown stirred in will make red pink, more or less deep according to the quantity. A delicate tinge of this is very pretty, for inside walls. Finely pulverized common clay, well mixed with Spanish brown, makes a reddish stone color. Yellow-ochre stirred in makes yellow wash, but chrome goes further, and makes a color generally esteemed prettier. In all these cases the darkness of the shades of course is determined by the quantity of coloring used. It is difficult to make rules, because tastes are different. It would be best to try experiments on a shingle and let it dry. We have been told that green must not be mixed with lime. The lime destroys the color, and the color has an effect on the whitewash, which makes it crack and peel. When walls have been badly smoked, and you wish to have them a clean white, it is well to squeeze indigo plentifully through a bag into the water you use, before it is stirred in the whole mixture. If a larger quantity than five gallons be wanted, the same proportion should be observed.

How to get a Horse out of a Fire.

The great difficulty of getting horses from a stable where surrounding buildings are in a state of conflagration, is well known.—The plan of covering their eyes with a blanket will not always succeed.

A gentleman whose horses have been in great peril from such a cause, having tried

in vain to save them, hit upon the expedient of having them harnessed as though going to their usual work; when, to his astonishment, they were led from the stable without difficulty.

The Chemical Barometer.

Take a long narrow bottle, such as an old-fashioned Eau-de-Cologne bottle, and put into it two and a half drachms of camphor, and eleven drachms of spirits of wine; when the camphor is dissolved, which it will readily do by slight agitation, add the following mixture: Take water, nine drachms; nitrate of potash (saltpetre) thirty-eight grains; and muriate of ammonia (sal ammoniac) thirty-eight grains. Dissolve these salts in the water prior to mixing with the camphorated spirit; then shake the whole well together. Cork the bottle well, and wax the top, but afterwards make a very small aperture in the cork with a red-hot needle. The bottle may then be hung up, or placed in any stationary position. By observing the different appearances which the materials assume, as the weather changes, it becomes an excellent prognosticator of a coming storm or of a sunny sky.

Leech Barometer.

Take an eight ounce phial, and put in it three gills of water, and place in it a healthy leech, changing the water in summer once a week, and in winter once in a fortnight, and it will most accurately prognosticate the weather. If the weather is to be fine, the leech lies motionless at the bottom of the glass and coiled together in a spiral form; if rain may be expected, it will creep up to the top of its lodgings and remain there till the weather is settled; if we are to have wind, it will move through its habitation with amazing swiftness, and seldom goes to rest till it begins to blow hard; if a remarkable storm of thunder and rain is to succeed, it will lodge for some days before almost continually out of the water, and discover great uneasiness in violent throes and convulsive-like motions; in frost as in clear summer-like weather it lies constantly at the bottom; and in snow as in rainy weather it pitches its dwelling in the very month of the phial. The top should be covered over with a piece of muslin.

TO MEASURE GRAIN IN A BIN.—Find the number of cubic feet, from which deduct *one-fifth*. The remainder is the number of bushels—allowing, however, one bushel extra to every 224. Thus in a remainder of 224 there would be 225 bushels. In a remainder of 448 there would be 450 bushels &c.

VALUABLE RECIPES.

[The following recipes are vouched for by several who have tried them and proven their virtues. Many of them have been sold singly for more than the price of this book.—PUB.]

HORSES.

RING BONE AND SPAVIN.—2 oz. each of Spanish flies and Venice turpentine; 1 oz. each of aqua ammonia and euphorbium; $\frac{1}{2}$ oz. red precipitate; $\frac{1}{2}$ oz. corrosive sublimate; 1 $\frac{1}{2}$ lbs. lard. When thoroughly pulverized and mixed, heat carefully so as not to burn, and pour off free from sediment.

For ring-bone, rub in thoroughly, after removing hair, once in 48 hours. For spavin, once in 24 hours. Cleanse and press out the matter on each application.

POLL-EVIL.—Gum arabic $\frac{1}{2}$ oz.; common potash $\frac{1}{2}$ oz.; extract of belladonna $\frac{1}{2}$ dr. Put the gum in just enough water to dissolve it. Pulverize the potash and mix with the dissolved gum, and then put in the extract of belladonna, and it will be ready for use. Use with a syringe after having cleansed with soap suds, and repeat once in two days till a cure is affected.

SCOURS.—Powdered tormentil root, given in milk, from 3 to 5 times daily till cured.

GREASE-HEEL AND SCRATCHES.—Sweet oil 6 ozs.; borax 2 ozs.; sugar of lead 2 ozs. Wash off with dish water, and, after it is dry, apply the mixture twice a day.

CHOLIC IN HORSES.—To $\frac{1}{2}$ pt. of warm water add 1 oz. laudanum and 3 ozs. spirits of turpentine, and repeat the dose in about $\frac{1}{2}$ of an hour, adding $\frac{1}{2}$ oz. powdered aloes, if not relieved.

BOTS.—Three doses. 1st. 2 qts milk and 1 of molasses. 2d. 15 minutes after, 2 qts. warm sage tea. 3d. After the expiration of 30 minutes, sufficient lard to physic.—Never fails.

MISCELLANEOUS.

PILES—PERFECTLY CURED.—Take flour of sulphur 1 oz., rosin 3 ozs., pulverize and mix well together. (Color with carmine or cochineal, if you like.) *Dose*—What will lie on a five cent piece, night and morning, washing the parts freely in cold water once or twice a day. This is a remedy of great value.

The cure will be materially hastened by taking a table-spoon of sulphur in a half pint of milk, daily, until the cure is affected.

SURE CURE FOR CORNS, WARTS AND CHILBLAINS.—Take of nitric and muriatic acids, blue vitriol and salts of tartar, 1 oz. each. Add the blue vitriol, pulverized, to either of the acids; add the salts of tartar in the same way; when done foaming, add the other acid, and in a few days it will be ready for use. For chilblains and corns apply it very lightly with a swab, and repeat in a day or two until cured. For warts, once a week, until they disappear.

HOOF-AIL IN SHEEP.—Mix 2 ozs. each of butter of antimony and muriatic acid with 1 oz. of pulverized white vitriol, and apply once or twice a week to the bottom of the foot.

COMMON RHEUMATISM.—Kerosene oil 2 ozs.; neat-foot oil 1 oz.; oil of organum $\frac{1}{2}$ oz. Shake when used, and rub and heat in twice daily.

VERY FINE SOAP, QUICKLY AND CHEAPLY MADE.—Fourteen pounds of bar soap in a half a boiler of hot water; cut up fine; add three pounds of sal-soda made fine; one ounce of pulverized rosin; stir it often till all is dissolved; just as you take it off the fire, put in two table-spoonfuls of spirits of turpentine and one of ammonia; pour it in a barrel, and fill up with cold soft water; let it stand three or four days before using. It is an excellent soap for washing clothes, extracting the dirt readily, and not fading colored articles.

WATER PROOF FOR LEATHER.—Take linseed oil 1 pint, yellow wax and white turpentine each 2 ozs. Burgundy pitch 1 oz., melt and color with lampblack.

TO KEEP CIDER SWEET.—Put into each barrel, immediately after making, $\frac{1}{2}$ lb. ground mustard, 2 oz. salt and 2 oz. pulverized chalk. Stir them in a little cider, pour them into the barrel, and shake up well.

AGUE CURE.—Procure $1\frac{1}{2}$ table-spoons of fresh mandrake root juice, (by pounding) and mix with the same quantity of molasses, and take in three equal doses, 2 hours a part, the whole to be taken 1 hour before the chill comes on. Take a swallow of some good bitters before meals, for a couple of weeks after the chills are broken, and the cure will be permanent.

CURE FOR SALT RHEUM OR SCURVY.—Take of the pokeweed, any time in summer; pound it; press out the juice; strain it into a pewter dish; set it in the sun till it becomes a salve—then put it into an earthen mug; add to it fresh water and bees' wax sufficient to make an ointment of common consistency; simmer the whole over a fire till thoroughly mixed. When cold, rub the part affected. The patient will almost immediately experience its good effects, and the most obstinate cases will be cured in three or four months. Tested.—The juice of the ripe berries may be prepared in the same way.

SUPERIOR PAINT—FOR BRICK HOUSES.—To lime whitewash, add for a fastener, sulphate of zinc, and shade with any color you choose, as yellow ochre, Venetian red, etc. It outlasts oil paint.

FELONS.—Stir 1 oz. of Venice turpentine with $\frac{1}{2}$ tea-spoonful of water, till it looks like candied honey, and apply by spreading upon cloth and wrapping around the finger. If not too long delayed will cure in 6 hours.

A poke root poultice is also said to be a sure remedy.

WATER-PROOF BLACKING AND HARNESS POLISH.—Take two and a half ounces gum shellac and half a pint of alcohol, and set in a warm place until dissolved; then add two and a half ounces Venice turpentine to neutralize the alcohol; add a tablespoonful of lampblack. Apply with a fine sponge. It will give a good polish over oil or grease.

MOSQUITOS.—To get rid of these tormentors, take a few hot coals on a shovel, or a chafing dish, and burn upon them some brown sugar in your bed-rooms and parlors, and you effectually banish or destroy every mosquito for the night.

CHEAP OUTSIDE PAINT.—Take two parts (in bulk) of water lime ground fine, one part (in bulk) of white lead ground in oil. Mix them thoroughly, by adding best boiled linseed oil, enough to prepare it to pass through a paint mill, after which temper with oil till it can be applied with a common paint brush. Make any color to suit. It will last three times as long as lead paint, and cost not one-fourth as much. It is SUPERIOR.

CURE FOR A COUGH.—A strong decoction of the leaves of the pine, sweetened with loaf sugar. Take a wine-glass warm on going to bed, and half an hour before eating three times a day. The above is sold as a cough syrup, and is doing wonderful cures, and it is sold at a great profit to the manufacturers.

How to Judge a Horse.

A correspondent, contrary to old maxims, undertakes to judge the character of a horse by outward appearances, and offers the following suggestions, the result of his close observation and long experience:

If the color be light sorrell, or chestnut, his feet, legs and face white, these are marks of kindness. If he is broad and full between the eyes, he may be depended on as a horse of good sense, and capable of being trained to anything.

As respects such horses, the more kindly you treat them the better you will be treated in return. Nor will a horse of this description stand a whip, if well fed.

If you want a safe horse, avoid one that is dish-faced. He may be so far gentle as not to scare; but he will have too much go-ahead in him to be safe with everybody.

If you want a fool, but a horse of great bottom, get a deep bay, with not a white hair about him. If his face is a little dish-ed, so much the worse. Let no man ride such a horse that is not an adept in riding—they are always tricky and unsafe.

If you want one that will never give out, never buy a large, overgrown one.

A black horse cannot stand heat, nor a white one cold.

If you want a gentle horse, get one with more or less white about the head; the more the better. Many persons suppose the parti-colored horses belonging to the circuses, shows, &c., are selected for their oddity. But the selections thus made are on account of their great docility and gentleness.

Measurement of Hay in the Mow or Stack.

—It is often desirable, where conveniences for weighing are not at hand, to purchase and sell hay by measurement. It is evident that no fixed rule will answer in all cases, as it would require more cubic feet at the top of a mow than at the bottom. The general rule adopted by those who have tested it, is $7\frac{1}{2}$ cubic feet of solid Timothy hay, as taken from mow or bottom of stack. The rule may be varied for upper part of mow or stack according to pressure.

EXPLANATION.—Find the Year and observe the Letter above it; then look for the Month, and in a line with it find the Letter of the Year; above the Letter find the Day; and the figures on the left, in the same line, are the days of the same name in the month.

Leap Years have two letters; the first is used till the end of February, the second during the remainder of the year.

GENESEE COUNTY.

THIS COUNTY was formed from Ontario, March 30, 1802, and originally comprised all that part of the State lying west of Genesee River, and a line extending due south from the point at the junction of Genesee River and Canascraga Creek, to the south line of the State. Allegany County was taken off in 1806, Cattaraugus, Chautauqua and Niagara in 1808, parts of Livingston and Monroe in 1821, Orleans in 1824 and Wyoming in 1841. A part of Covington was annexed to Livingston County in 1823, and Shelby was added to Orleans in 1825. It is one of the western counties of the State, separated from Lake Ontario by Orleans, and from Lake Erie and Niagara River by Erie County. It is centrally distant from Albany 229 miles and contains 507 square miles. The surface is level or gently undulating for the most part. The south border is occupied by a range of hills which extends north from Wyoming County, and has a general elevation of from 200 to 300 feet above the valleys and about 1,000 feet above tide. A limestone terrace, bordered in many places by nearly perpendicular ledges, extends east and west through the County north of the center. At each extremity in the County this terrace ranges in height from 50 to 100 feet, but it declines towards the center to a height of from 20 to 40 feet.

Tonawanda Creek enters Alexander from the south and flows in a north-east direction to the village of Batavia, thence in a general north-west direction to the west border of the County. Its name signifies *swift running water*, from the rapid current for ten miles below Batavia, though its course generally is very tortuous and sluggish. Between Attica, Wyoming County, and Batavia, this stream flows between two parallel roads one mile apart. The distance by the highway is eleven miles and by the stream 43 miles. Its principal tributaries are Little Tonawanda and Bowen's Creeks. Oak Orchard Creek takes its rise near the center of the County and pursues a winding course to the north-east corner of Elba, where it

turns west and flows through the great Tonawanda Swamp, which occupies the north part of Elba, Oakfield and Alabama. Black Creek, called by the Indians *Checkanango*, flows north through near the center of Bethany, Stafford and Byron, thence easterly through Bergen, into Monroe County. Bigelow and Spring Creeks are its chief tributaries. Oatka, or Allen's Creek, flows across the south-east corner of the County, and Murder and Eleven Mile Creeks across the south-west corner. There is a series of beautiful cascades upon Tonawanda, Black and Oatka Creeks, as they pass over the limestone terrace near the center of the County.

The lowest rocks in the County belong to the Onondaga salt group, extending along the north border. Gypsum is quarried in several places. The hydraulic, Onondaga and corniferous limestone from the limestone terrace extend through the County. Lime and building stone are extensively obtained by the outcrop of these rocks. Next above the limestones are the Marcellus and Hamilton shales, occupying the whole south part of the County. A thick deposit of drift covers most of the County, the underlying rocks appearing only in the ravines of the streams. Large deposits of muck and marl are found in most of the swamps, furnishing an almost inexhaustible fertilizer to the soil. Marl is deposited by many of the springs and streams in the County. Along the north border are numerous wells yielding water strongly impregnated with sulphuric acid, and known as "Sour Springs." The soil generally is a deep and fertile sandy or gravelly loam, intermixed with clay and mostly underlaid by clay or limestone.

The "Genesee Country," of which this County forms a part, has from its first settlement been noted for its fertility. Agriculture forms the leading pursuit. For many years wheat formed the staple product, but late years farmers have turned their attention more to raising the coarser grains and the cultivation of fruit. Considerable attention is also given to raising wool and cattle and to dairying.

The County Seat is located at Batavia. The act organizing the County required the Holland Land Company to donate one acre of land for County purposes and erect the necessary buildings. Joseph Ellicott, the agent of the Company, complied with the requirements of the law and erected the buildings in 1802. The first officers of the County were Joseph Ellicott, *First Judge*; Daniel D. Brown, *District Attorney*; James W. Stevens, *County Clerk*; Richard M. Stoddard, *Sheriff*; Jeremiah R. Munson, *Surrogate*. A new Court House was erected in 1841-2 at a cost of \$17,000. It is a fine stone structure, three stories high, containing the County Clerk's Office and rooms for the other County officers. The Jail is of brick, situated a few rods west of the Court House. It was erected in 1851.

In June, 1803, the Courts of the County were first organized. The Judges were Ezra Platt, John H. Jones and Benjamin Elliott. John Greig, Richard Smith, George Hosmer, Timothy and Gouverneur Ogden were admitted to practice in the new Court as attorneys and counselors. The first Grand Jury west of the Genesee River was organized at this term of the Court. The names of the jurors were as follows: Alexander Rea, Asa Ransom, Peter Vandeventer, Daniel Henry, Samuel F. Geer, Lovell Churchill, Jabez Warren, Zerah Phelps, Jotham Bemus, Seymour Kellogg, John A. Thompson, John Ganson, Jr., Isaac Smith, Elisha Farwell, Peter Shaeffer, Hugh McDermott, John McNaughton and Luther Coe. The jail limits consisted of the side-walks of the village of Batavia, fifteen links wide, and several dwellings and yards to allow the debtors access to boarding houses. The entire limits embraced about three acres of ground. The first trial for murder that occurred in the County was in June, 1807. Daniel D. Tompkins was the presiding Judge. James McLean was tried for the murder of William Orr. He was convicted and executed at Batavia in August, 1807.

The County Poor House is located on a farm of 200 acres in the town of Bethany, about ten miles from Batavia. The number of paupers during the year ending October 31, 1868, was 170, supported at an expense of \$6,030.88. The average expense per week for supporting each was \$1.32. The personal property on the farm is valued at \$2,214.84, and the produce of the farm during the last year \$2,716.00. The Institution is in a good condition and appears to be well managed.

The New York Central Railroad extends in a south-west direction through Bergen, Byron, Stafford, Batavia, Pembroke and the north-west corner of Darien. A branch of this road extends south from Batavia, through Alexander, to Attica. The Canandaigua and Niagara Falls Branch extends west through LeRoy, Stafford, Batavia and Pembroke, crossing the main line at Batavia. The Buffalo, New York and Erie Railroad extends through LeRoy, Stafford, Batavia and Alexander. The mania for plank roads prevailed in this as in many other counties of the State, and under its influence several were constructed but have long since been abandoned. An important canal feeder extends from Tonawanda Creek through the north-west corner of Alabama.

There are four weekly newspapers now published in the County.

The first paper published was commenced in the spring of 1807, at Batavia, by Elias Williams, and was called

The Genesee Intelligencer. It was the first paper published west of the Genesee River. It was suspended in October of the same year. In the spring of 1808 Benjamin Blodgett and Samuel Peck commenced

The Cornucopia and continued it until 1811.

The Republican Advocate was commenced in 1811, by Benjamin Blodgett and David C. Miller. It soon after passed into the hands of Miller and was published by him until 1828. It was then successively in the hands of Charles Sentell, Charles W. Miller, Edwin Hough, Andrew W. Young, Lewis & Brown, C. C. Allen and Waite & Cooley. Messrs. Waite & Cooley published the paper from June 8th, 1835, to September of the same year, when Mr. Cooley retired and the paper was conducted by D. D. Waite until January 1st, 1854, when he sold out to Messrs. Kimberly & Goodrich, the proprietors of the *Genesee County Whig*. The paper was then published as the

Republican Advocate and Genesee County Whig until January 1st, 1855, when the latter part of the title was dropped and the paper resumed its original name,

THE REPUBLICAN ADVOCATE, and was published by J. H. Kimberly until November, 1857, when it passed into the hands of D. D. Waite, who has continued its publication to the present time.

The Daily Advocate was started in May, 1859, by D. D. Waite, and continued until August 9th, 1861.

The Spirit of the Times was started at Batavia, February 3d, 1819, by Oran Follett. In May, 1825, it was sold to his brother, Frederick Follett, who continued its publication until August, 1836. It was published successively by Fred. Follett, Lucas Seaver, Wm. Seaver & Son and Charles Hurley, until 1856.

THE LEROY GAZETTE was commenced in 1826 by J. O. Balch. It was successively issued by Starr & Hotchkin, Henry D. Ward, Richard Hollister, Rufus Robertson, F. Goodrich, Seth M. Gates, Martin O. Coe and Cyrus Thompson, until 1840, when it passed into the hands of C. B. Thompson, who has continued its publication to the present time.

The People's Press was commenced at Batavia in 1825, by an association, with Benj. Blodgett, editor. It was subsequently issued by Martin, Adams & Thorp, Adams & Thorp and Adams & McCleary, and was finally merged in the *Spirit of the Times* and continued as *The Spirit of the Times and the People's Press*.

The Morgan Investigator was published at the office of the *Republican Advocate* during the Morgan excitement in 1827, and continued about a year.

The Masonic Intelligencer was published about the same time at the office of the *People's Press*.

The Farmers' and Mechanics' Journal was commenced at Alexander, Nov. 4, 1837, by Peter Lawrence. In June, 1840, it was removed to Batavia and issued as

The Batavia Times and Farmers' and Mechanics' Journal, by Frederick Follett and Peter Lawrence. Fred. Follett became the sole proprietor soon after and published it until 1843, when it passed into the hands of Lucas Seaver and was merged in the *Spirit of the Times*.

The Temperance Herald (monthly) was issued from the office of the *Spirit of the Times*, by Lucas Seaver, for one year from March, 1842.

The Genesee County Whig was started at Batavia in 1852, by Kimberly & Tyrell, and was published by them until 1854, when it was merged in the *Republican Advocate*.

The LeRoy Advertiser was commenced April 1, 1857, by Thomas B. Tufts. It was discontinued in July, 1858.

The Genesee Republican and Herald of Reform was commenced at LeRoy in 1829, and was published one or two years by Freeman & Son; Orestes A. Brownson, editor.

The Genesee Courier was commenced at LeRoy in the spring of 1844, by Edward Bliss, and was continued about a year. In 1853 the paper was revived and published a short time.

The Genesee Herald was commenced at LeRoy in 1854, by Wm. C. Grummond. In January, 1857, it was removed to Batavia and published by A. J. McWain, until his death in June, 1860. The administrator continued its publication one year when it passed into the hands of Henry Todd. For a few years it was published as

The Genesee Herald and Spirit of the Times. Mr. Todd dropped the former part of the title and issued it as

THE SPIRIT OF THE TIMES, and still continues its publication under that title.

The Genesee Daily Herald was issued from the same office in 1858, and continued until November, 1860.

The LeRoy Democrat was commenced in December, 1852, by Henry Todd. In November, 1853, it was removed to Batavia and its name changed to

The Batavia Democrat. In December, 1856, it passed into the hands of John Bergen and subsequently into those of Harry Wilber, who changed its name to

The Genesee Weekly Democrat. Mr. Wilber continued its publication until February, 1868, when it passed into the hands of R. S. Lewis, who changed its name to the

PROGRESSIVE BATAVIAN, and still continues its publication.

The greater part of this County is embraced in the tract known as the Holland Purchase, some of the eastern towns being included in the Morris Reserve. The territory known as Western New York was originally claimed by Massachusetts, by virtue of a charter granted by the King of England to the Plymouth Colony. The same territory was subsequently granted to the Duke of York and Albany. Without giving a history of the disputes which subsequently arose between the States of Massachusetts and New York, we will say that the question was settled by a convention of commissioners who met at Hartford, Conn., December 16th, 1786. According to the stipulations entered into, Massachusetts ceded to New York all her claims to the sovereignty and jurisdiction of the territory lying west of the east boundary of New York, and the State of New York ceded to Massachusetts the right of pre-emption to the soil of all that part of New York lying west of a meridian passing through a point in the south boundary of the State, eighty-two miles west of the north-east corner of Pennsylvania, except a strip one mile wide extending along the east bank of Niagara River, from Lake Erie to Lake Ontario. In April, 1788, Massachusetts contracted to sell this territory to Nathaniel Gorham and Oliver Phelps, for 300,000 pounds in the consolidated securities of that State, which were at a discount of more than fifty per cent. at that time. The rapid advance in the value of these securities rendered Phelps and Gorham unable to fulfill their contract and a large part of the purchase reverted to the State. The part retained and subsequently known as the Phelps and Gorham Purchase was bounded east by the pre-emption line already described, and west by a meridian passing through the point at the junction of the Canasraga Creek and Genesee River, south to the south line of the State, and north from this point along the Genesee River to a point two miles north of the village of Canawagus, thence west twelve miles, thence northwardly to Lake Ontario, at a distance of twelve miles from the Genesee River. On the 12th of March, 1791, the State of Massachusetts sold the territory west of the Phelps and Gorham Purchase to Robert Morris, the assignee of Samuel Ogden. Mr. Morris sold to the Holland Company all this tract lying west of a meridian passing through a point twelve miles west of the south-west corner of the Phelps and Gorham Purchase.

The territory lying between the Holland Purchase and the Phelps and Gorham Purchase was called "Morris' Reserve," and was sold out to various parties in large tracts. The sale was made to the Holland Company before the Indian title was extinguished, but with an agreement on the part of Morris that it should be extinguished as soon as practicable. This was effected at a treaty

made at *Big Tree*, near Geneseo, in September, 1797. In this treaty the Indians retained certain reservations in different parts of the Purchase, some of which they continue to occupy. Preparations were soon made to survey this tract, and a line, run with a transit instrument, between Morris's Reserve and the Holland Purchase, was called the "Transit Line." Theophilus Cazenove, of Philadelphia, was the general agent of the Company, and Joseph Ellicott the principal surveyor. It was surveyed into ranges numbered from east to west, and into townships about six miles square numbered from south to north. Mr. Ellicott contracted with Thomas Morris to deliver on the Genesee River or on the shore of Lake Ontario, one hundred barrels of pork, fifteen barrels of beef and two hundred and seventy barrels of flour, for the supply of the surveyors the ensuing year. The survey commenced early in the spring of 1798. The principal surveyors were Joseph and Benjamin Ellicott, John Thompson, Richard M. Stoddard, George Burgess, James Dewey, David Ellicott, Aaron Oakford, Jr., Augustus Porter, Seth Pease, James Smedley, William Shepherd and George Eggleston. Previous to the sale to the Holland Company Mr. Morris had sold the Triangle Tract, of 87,000 acres, to LeRoy, Bayard and McEvers, and 100,000 acres directly west of this, to the State of Connecticut and Sir William Pulteney. On arriving at the south line of the Connecticut Tract Mr. Ellicott found that the east line of the Holland Purchase would intersect that tract, to avoid which he moved west 2.07875 miles, and then run the line due north to Lake Ontario. This offset is near the center of the town of Stafford.

Theophilus Cazenove was the general agent of the Holland Company until 1799. He was succeeded by Paul Busti, who continued in charge of the affairs of the Company until 1824. He was succeeded by John J. Vander Kemp, who continued in charge of the affairs of the Company until their final settlement.

The first principal stations of the surveyors were at Williamsburgh and Buffalo Creek, but before the close of 1798 the principal establishment was located at Stafford, and the locality designated as the "Transit Store House." Mr. James Brisbane was the chief clerk.

In the spring of 1798 a road was laid out from Canawagus to Buffalo Creek and to Lewiston, on Niagara River. The road followed the general course of the old Indian trail. The Holland Company subscribed \$5,000 towards defraying the expense.

A few settlers located in various places in 1798-9, but the settlements did not progress with great rapidity until after the opening of the Land Office in October, 1800. The first crops raised upon the Purchase were at the Transit Store House. In the spring of 1799 Mr. James Dewey cleared ten acres, a few rods west of

the Transit Line, and sowed most of it with oats, but planted a few potatoes and some garden vegetables. In the summer of 1799 Mr. Busti, the agent, authorized Mr. Ellicott to contract with six reputable individuals to locate themselves on the road between the eastern Transit and Buffalo Creek, about ten miles apart, and to open houses of entertainment for travelers, in consideration of which they were to have from fifty to one hundred and fifty acres of land each, at a liberal time for payment without interest. Mr. Frederick Walthers accepted the offer and took 150 acres in Township 12, Range 1, where he had already located. The land included the Company's Store House and the site of the present village of Stafford. Garritt Davis located in Township 13, Range 2, and Asa Ransom in Township 12, Range 6, and opened respectable houses of entertainment for travelers. The Land Office was at first locate at *Pine Grove*, the residence of Asa Ransom, but in 1802, upon the organization of Genesee County, it was removed to Batavia, where it remained until the closing up of the affairs of the Company. Joseph Ellicott, the principal surveyor of the Company, received the appointment of local agent and for more than twenty years had almost exclusive control of the local business. He was an enterprising citizen, and conducted the large and complicated business of the Company with marked ability. In 1821 he resigned his agency and was succeeded by Jacob S. Otto, who held the office until his death in 1827. David E. Evans was Otto's successor and continued in office until 1837, when the business of the Company was closed up. In 1811 Ebenezer Mix entered the service of the Company as a clerk and had control of the sales and subdivisions of the land.

In 1835 the Company sold all their remaining lands to a new Company, composed chiefly of citizens of Batavia, and a new order of things was established. Difficulties immediately arose between the new Company and the settlers in various parts of the Purchase, and mobs assembled to destroy the land offices. One of the principal causes of disturbance was a rumor that the new Company intended to exact a certain sum for the renewal of every contract. This rule became very obnoxious, and the extra payment was called the "Genesee Tariff," and opposition to it was extensively resolved upon. The office at Mayville, Chautauqua Co., was broken open Feb. 6, 1836, the books and papers seized and burned in the street. On the 13th of May a report reached Batavia that 700 armed men were on their way to burn the Land Office at that place. Mr. Evans at once fortified the office and collected a force of fifty men well armed to protect it. The militia were also called out. The mob soon came into town, but learning of the preparations that had been made to receive them, concluded that "discretion was the better part of valor," and went away without offering

any violence. Between fifty and sixty of the ringleaders were prosecuted, but the difficulties were afterwards amicably adjusted and the prosecutions dropped.

The opening of this new region to settlement, under the auspices of a rich and liberal company, instituted a new order of things in the general history of the County, and was of incalculable benefit to the settlers. Mills were erected, roads opened and everything done to facilitate settlement and to remove difficulties in the path of the settlers. The lands were sold at fair prices and on the most liberal terms. The affairs of the Company, both at their general and local offices, were conducted by gentlemen of liberal culture, enlarged views and humane hearts. In consequence of the richness of the lands and the liberal terms upon which it was offered by the Company, the whole region rapidly filled up with an industrious, intelligent and enterprising population. Many of the first settlers afterwards occupied high official positions and became known throughout the State for their ability and integrity.

The location of the principal Land Office at Batavia converted it at once into a place of business, and the subsequent selection of the village as the County Seat of Genesee County, made it for many years one of the most important places in Western New York. Several other land offices were afterwards established, but they were all subordinate to the one at Batavia. In 1850 an act was passed directing the original field notes and maps to be deposited in the Secretary's office for preservation and as legal proofs. Previous to this it was found necessary in closing up the affairs of the Company to obtain evidence of the death of certain of the original proprietors, and an act was passed directing the appointment of a special commissioner to visit Europe and obtain the desired evidence. Julius Rhoades was appointed to execute that trust.

In the summer of 1826 Genesee County was the scene of an excitement seldom equaled, and the results of which were widespread and lasting. William Morgan, a Royal Arch Mason, a native of Virginia, commenced the preparation of a work disclosing the secrets of Masonry, to be published by David C. Miller, a printer of Batavia. When this fact became known to members of the Masonic Order, great excitement was created and measures were taken to suppress the book. A stranger was introduced to the printer, who, under pretense of friendship, labored to gain an interest in its publication and thus gain possession of the manuscript. This scheme failing, Morgan was arrested on a civil suit and gave bail; but in August his bail surrendered him to the Sheriff and he was imprisoned over the Sabbath, and in the mean time his lodgings were searched and some of his papers seized. An attempt was also made to burn the office where the book was to be printed. On Sunday, September 10th, a warrant was obtained at

Canandaigua by Nicholas G. Chesebro, for the arrest of Morgan at Batavia, on a charge of stealing a shirt and cravat, which he had borrowed of E. C. Kingsley. He was arrested the next day and taken in a stage coach to Canandaigua, where he was discharged by the justice who issued the warrant. He was immediately re-arrested on a claim of two dollars for a tavern bill, and though he took off his coat that the officer might levy upon it for payment, he was lodged in jail. On the evening of the 12th, while the jailor was absent, his wife, under the advice of Chesebro, released Morgan, as the claim upon which he was held had been paid by Loton Lauson, a pretended friend. As Morgan passed out of the jail he was seized by Lauson and a man by the name of Foster, gagged, thrust into a carriage, and driven towards Rochester. This was the last seen of Morgan, except by Masons, and whatever else is known was ascertained by judicial inquiry. "It is now known that he was carried by relays of horses, and through the agency of many different individuals, in bondage and secrecy, until he was securely deposited in the magazine of Fort Niagara, at the mouth of Niagara River. This unprecedented outrage, though committed with such boldness, was at the same time guarded by so many precautions, that it was impossible for a long time to penetrate the veil of secrecy with which the conspirators had concealed their movements."—[*Hammond's Pol. His. N. Y.*]

The disappearance of Morgan excited suspicion and led to an investigation. Citizens of Batavia, LeRoy, and other places along the route of the abduction, held meetings and appointed committees which brought to light the facts as stated above, and an intense excitement followed. Several persons were tried for participating in the abduction. Some of them plead guilty and thus prevented that extended judicial inquiry which, it was hoped, would bring to light facts that would reveal the fate of Morgan. Delays finally barred further prosecution except for murder. The excitement following the investigation, at first directed against the immediate participants in the outrage, was soon turned against the whole Masonic fraternity. The belief that a powerful organization, bound by secret oaths, with their members occupying high official positions, would perpetrate a crime of such a magnitude, excited alarm and led to the organization of an Anti-Masonic party. The excitement spread through the State and country; members of the fraternity seceded in large numbers, and a systematic effort was made to crush the order. The intense feeling continued, and the mutual recriminations of the parties entered into all the political, religious and social relations of society, until about 1832, when other political questions arose, and the excitement gradually died away.

Immediately after the abduction of Morgan an attempt was made to obtain the manuscript of Morgan's "Revelations," then in the

hands of Miller, the printer, but without success. In September, 1827, Jesse French, Roswell Wilcox and James Hurlburt were tried and convicted for assault and battery upon David C. Miller, and for false imprisonment and riot. In the evidence before the Court it appeared that on the 12th of September, French, then holding the office of constable, came into the printing office of Miller and arrested him upon a writ issued by Justice Bartow, of LeRoy. Miller was taken into a carriage and driven off, attended by a large party armed with clubs, conspicuous among whom were Wilcox and Hurlburt. At Stafford he was taken into a Masonic lodge room, and efforts made to frighten him by threatening him with the fate of Morgan. When taken out of the lodge room a large number of his friends had collected and he was permitted to see counsel and to learn the nature of the suit brought against him, which was a civil action for debt. Bail was refused and repeated demands were made to be taken immediately before a magistrate, but the demands were unheeded. From Stafford to LeRoy he was closely guarded by a large number of armed men and attended by an equally large number of his friends. Upon his arrival in LeRoy he insisted on going before the magistrate, and assisted by his crowd of friends was enabled to do so, taking the unwilling constable along with him. After a short delay he was discharged. On his way back to Batavia, under escort of a number of his friends who had followed him to LeRoy, efforts were made to re-arrest him, which was prevented by his friends. French was sentenced to one year's imprisonment in the county jail, Wilcox to six months and Hurlburt to three months. James Granson was tried and acquitted. Great excitement followed these events and a civil war was anticipated. At the celebration of St. John's Day, following the abduction, an incident occurred that shows the excited state of mind in the community. During the day, Frederick Follett, a Mason, while attending to his duties as Marshal of the day, suddenly found himself surrounded by an infuriated crowd of armed men, evidently determined to kill him. He drew his sword, put spurs to his horse and succeeded in escaping from the crowd, though two men had grasped the bridle. For some time Masonry was at a low ebb, but for several years it has been gaining in influence and popularity until many of our best and most talented men are numbered among its members. We have endeavored to give the main facts in relation to the abduction of Morgan, and leave it for the reader to form his own opinion as to the degree of criminality involved in the transaction. The victims of the outrages were men whose personal character would not add great weight to the revelations made.

The Genesee County Agricultural Society was formed in 1840. They have a fine location in the village of Batavia for their Fairs.

The grounds are provided with suitable buildings and a half mile track upon which to try the speed of the horses. Fairs are held annually and the exhibition of live stock, farm products, agricultural implements, &c., indicate a good degree of interest on the part of the farmers. The Fairs have generally proved a success. A Horse Fair was held in July, 1869. The present officers of the Society are Addison Foster, President; O. R. Clark, Secretary; Jerome Thompson, Treasurer.

In closing this historical sketch of the County, the writer would be glad to give an extended report of the men and means furnished to the Government to aid in suppressing the "Great Rebellion." The State Census Reports are incomplete and unreliable, and other data are not at hand by which we can determine definitely the number who enlisted. Sufficient is known however to show that Genesee County was not behind the other counties of Western New York in furnishing her quotas under the various calls for troops. From the various towns in the County the loyal and patriotic rallied in defense of their country, as the battle fields and prison pens of the South abundantly testify. While many left the comforts and endearing associations of home for the hardships and privations of the camp and the battle field, those who remained behind were not unmindful of them, but contributed liberally for the support of the various organizations whose object was to relieve so far as possible the rigors of camp life. May the time not be far distant when some competent pen shall record in an appropriate manner the brave deeds of our "Boys in Blue."

GAZETTEER OF TOWNS.

ALABAMA, named from the State of Alabama, and signifying, "Here we rest," was formed from Shelby (Orleans Co.) and Pembroke, as "Gerrysville," April 17, 1826. It was the intention to name it in honor of David Gary, one of the early settlers, but instead it was named for Elbridge Gerry, Ex-Vice President. Its name was changed April 21, 1828. A part of Wales was annexed in 1832. It is the north-west corner town of the County. The surface is level or gently undulating. The north and west portions are covered by marshes, forming a part of the Tonawanda Swamp. Oak Orchard Creek flows across the north-east corner, and Tonawanda Creek across the south-west corner. The Tonawanda Canal Feeder extends through the north-west part. A limestone terrace, from 50 to 75 feet high, extends across the south part of the town. Tonawanda Creek flows down this declivity in a perpendicular cascade, known as Tonawanda Falls, furnishing a fine water-power. The Tonawanda Indian Reservation embraces the south-west part. Near the center of the north border of the town are the "Oak Orchard Acid Springs," situated a few rods from the banks of the Creek. There are nine of these springs, all of which are situated within a circle of fifty rods. They issue from mounds, evidently formed by the action of the water, and elevated from two and a half to four feet above the surrounding surface. No two of these springs are alike, and in one instance three springs issue from a single mound within ten feet of each other, and yet the waters are essentially different. The following is an analysis of the three principal springs, the first by Profs. Silliman and Norton, the others by Prof. E. Emmons :

Large quantities of this water are bottled and sold annually for medicinal purposes.

The soil of the town is a gravelly and sandy loam, with a clay subsoil.

Alabama Center (Alabama p. o.) is situated near the center of the town, and contains two churches, viz., Methodist and Baptist, a hotel, several stores and mechanic shops, and about thirty dwellings.

Wheatville, (p. v.) in the north-east part, contains a F. W. Baptist church, a store and about a dozen dwellings.

Smithville, (South Alabama p. o.) in the eastern part, contains a Baptist church, several mechanic shops and about twenty-five dwellings.

The first settlement was made in 1806 by James Walsworth, who had previously spent a few years in Orleans County. Among

other early settlers were Robert Harper, Jesse Lund, Dr. Smith, from Vermont; and Peter, Joseph and James Holmes, from Delaware County. The first births were those of twin children of James Walsworth, in 1806; the first death was that of an unknown traveler, at the house of Mr. Walsworth, in 1808. He was buried without a coffin or religious services. The first school was taught by Henry Howard, in 1817; the first inn was kept by James Walsworth, in 1808; and the first store by Nahum Loring, in 1828. The first saw mill was erected in 1824, by Samuel Whitcomb at Wheatville. The first Church (F. W. Bap.) was formed in the east part of the town, in 1824, by Elder Samuel Whitcomb, the first preacher.

The population of the town in 1865 was 1,839, and its area 27,904 acres.

The number of school districts in which there are school houses is 11, employing the same number of teachers. The number of children of school age is 681; the number attending school, 566; the average attendance, 261, and the amount expended for school purposes during the year ending September 30, 1868, was \$3,074.53.

ALEXANDER, named in honor of Alexander Rea, the first settler, and for several years a State Senator, was formed from Batavia, June 8, 1812. It lies on the south border of the County, west of the center. The surface in the south part and in the center is hilly, and in the north part rolling. The summits in the southwest are from 200 to 250 feet above the valleys. The streams are Tonawanda Creek, Little Tonawanda, Huron and Bowen's Creeks, and several smaller streams. Tonawanda Creek flows north through the center of the town. The soil upon the hills is a gravelly loam with a clay sub-soil, and in the valleys a rich alluvium. The Attica branch of the New York Central R. R., and the Buffalo, N. Y. & Erie, pass through the town near the center.

Alexander, (p. v.) situated on Tonawanda Creek, a little south of the center of the town, was incorporated April 24, 1834. It contains three churches, a hotel, a seminary, a flouring mill, several stores and mechanic shops and about 300 inhabitants. It is a station on the Attica branch of the N. Y. C. R. R.

The Genesee and Wyoming Seminary was founded in 1834, through the efforts and liberality of Samuel Benedict and Henry Hawkins. In 1845 Mr. Hawkins bequeathed to the Institution \$4,000, his private library and geological cabinet. The Institution has a good library, cabinet of natural history, and buildings to accommodate several hundred students. It is in a flourishing condition.

Brookville, (p. o.) in the east part, is a hamlet.

The first settlement was made by Alexander Rea, in 1802. He was an early surveyor of the Holland Company and became the founder of Alexander village, where he erected a saw mill in 1804. John Olney, Lewis Disbrow, George Darrow and William Blackman came in the same year. Among the other early settlers who came in within a few years were several by the name of Hawkins, all of whom were enterprising and successful business men. Their names were Rodolphus, Harry, Henry, Rensselaer and Timothy. Elijah Root, Jr., Lillie Fisher, Royal Moulton, Ezekiel Lewis, Seba Brainard, Stephen Day, John Riddle, Caleb and Emory Blodgett, William Parish and Ezekiel Churchill came in at an early day.

The first birth was that of a child of Mr. Blackman; the first death that of William Whitney, killed in 1803, by the fall of a tree. The first school was taught by Mr. Jones, in the winter of 1805-6, at Alexander village. The first marriage was that of Benjamin Moulton and Eunice Olney. Harvey Hawkins kept the first inn, in 1807, and the first store in 1809. William Adams built the first grist mill, in 1807. The first frame house was erected by John and Samuel Latham, in 1810. Charles Chaffee was the first physician. The first religious services were held in 1805, by Elder Burton. In 1811 a public library was established with Alexander Rea, Harvey Hawkins, Seba Brainard, Samuel Latham, Henry Hawkins, Noah North and Ezra W. Osborn, as trustees.

The population of the town in 1865 was 1,828, its area is 22,735 acres.

The number of school districts is 12, employing 12 teachers. The number of the school population is 544; the number attending school, 408; the average attendance, 218, and the amount expended for school purposes during the year ending September 30, 1868, was \$2,731.02.

BATAVIA was formed March 30, 1802. Alexander, Bergen, Bethany and Pembroke were taken off in 1812, and Elba and a part of Stafford in 1820. It is the central town of the County. Its surface is level or gently undulating. A limestone ridge, forming a terrace from 20 to 50 feet high, extends east and west through the north part of the town. Tonawanda Creek flows northward from the line of Alexander to Batavia village, where it turns westward and flows through the town near the center to the west border. Bowen's Creek is the other principal stream. The soil is a deep, fertile, sandy and gravelly loam, with a clay sub-soil.

Batavia, (p. v.) situated in the east part, on Tonawanda Creek, was incorporated April 23, 1823. It contains the County buildings, New York State Institute for the Blind, six churches, viz., Presbyterian, Methodist, Baptist, Episcopal, Reformed and Roman Catho.

lic; a female seminary, union school, three newspaper offices, three banks, a large number of hotels, stores and manufactories, and between 5,000 and 6,000 inhabitants. It is the most important village between Rochester and Buffalo, and from it seven railroads radiate to different parts. The streets are broad, bordered by beautiful rows of shade trees and lighted with gas. Main street is one of the most beautiful and best shaded streets in the country. The village has more miles of good flag-stone sidewalks than any other village of the size in the State.

The State Institution for the Blind occupies a beautiful site, about half a mile north of the Court House. Dr. A. D. Lord, the Superintendent of the Institution, kindly furnished most of the following facts respecting its history: The law for its establishment was passed April 27, 1865. This act provided for the appointment of five commissioners to select a site for the Institution and three to superintend the erection of the buildings, and a Board of Trustees to take charge of the Institution after the buildings were completed. The Commissioners first named were E. W. Leavenworth, B. F. Manierre, James Furguson, O. K. Woods and M. M. Southworth. After examining several sites offered, the Commissioners selected that upon which the Institution now stands. The village of Batavia presented to the State this site, comprising fifty acres of land, which was purchased at a cost of over \$10,000 and is now valued at \$13,000. The grading and excavating were commenced May 4th, 1866. The first contract was let to the builder, Mr. Henry T. Rogers, of Rochester, July 18th, and the corner stone was laid with appropriate ceremonies, September 6th of the same year. On this occasion Dr. S. G. Howe, of Boston, delivered an address. The following documents were deposited in the corner stone: Copies of city and country newspapers; the programme of exercises; copy of act establishing the Institution; a Continental bank note of \$35, and a Provincial note of the Province of New York, for two shillings; a \$5 bank note of the Bank of Attica, with an historical sketch of the Bank, and a specimen of postal currency; pamphlet containing a sketch of Batavia, by William Seaver; a list of subscribers for the grounds upon which the buildings are erected; copy of the proceedings of the first Court held in Batavia, in 1803; photographs of village Trustees, &c., and a large sheet of parchment upon which were engraved the names of the Building Commissioners, Trustees of the Institution and State and Federal officers. The contracts of the builder on the main edifice were completed May 31st, 1868, and it was formally delivered to the Trustees, July 15th. The buildings are of brick, three stories high above the basement, which is of blue limestone, quarried on the site, upon which rests a broad belt of Lockport stone. The quoins and window dressings are of the same kind of stone. The buildings front the south and consist of

four structures, a front and rear center building and two wings connected by corridors, 14 by 32 feet, containing the halls and staircases. The center buildings are 50 by 62 and 50 by 76 feet, and the wings 46 by 106 feet. The length of the entire front is 206 feet, and the distance from front to rear, including portico, is 185 feet. The wings present a front of 106 feet. The basement contains the laundry, bathing rooms, water closets, heating apparatus, &c. The other stories are conveniently arranged for the officers of the Institution and assistants, and school and sleeping rooms for 150 pupils. The steam heating apparatus was furnished by Baker & Smith, of New York. Rain water from the roof is conducted to a cistern holding 5,000 barrels, from which it is pumped by steam into tanks located in the attic of the rear building, thence distributed to all parts of the building where needed. A well about sixty feet deep, six feet in diameter inside the walls and capable of furnishing 4,500 gallons per hour of excellent water, is upon the premises.

The amount paid to Mr. Rogers, the builder, for the principal structure, was.....	\$194,183.35
Carriage House and Stable,.....	7,995.00
Cellar, Cistern and Drains,.....	3,750.00
Well,.....	2,064.50
Cooking Ranges,.....	2,467.72
Steam Engine,.....	1,013.50
Grading, Laying out Streets, &c.,.....	22,957.06
Commission of Architect,.....	4,500.00
Traveling Expenses,.....	120.35
Per Diem and Mileage of Commissioners,.....	5,535.76
<hr/>	
Making the entire cost,.....	\$244,587.24

To the Commissioners for the erection of the building, Messrs. John Fisher, of Batavia; John Van Horn, of Lockport, and L. A. Haywood, of Warsaw, the people of the State are under lasting obligations for their fidelity in executing the important trust committed to them; and especially to Mr. Fisher for his almost constant oversight of the work from the beginning. Great credit is also due to the contractor, Mr. Rogers, for the excellence of the materials employed in every part of the building, and for the thorough manner in which all was executed, and especially for the promptness with which it was completed according to his contract.

On the 20th of July last, Dr. A. D. Lord, for the past twelve years Superintendent of the Ohio Institute for the Blind, accepted the office of Superintendent. He took charge of the building on the 18th of August. The school was opened the 2d of September and has been in successful operation since, with about 70 pupils enrolled. The system of instruction pursued is similar to that generally

adopted by the best institutions for the blind in this country, including a thorough course of training in the common branches of an English education and most of the higher branches. Instruction is also given in vocal and instrumental music. No provision has yet been made for teaching trades to young men, but the girls and younger boys are taught several kinds of useful and fancy work. Six teachers are employed in the Institution. Everything throughout the building is kept in the most perfect order, and the grounds, when graded and ornamented according to the plan proposed by Dr. Lord, will present one of the most attractive spots in the State.

Mrs. Bryan's Female Seminary is a boarding school for young ladies, situated in a pleasant locality and is in a flourishing condition. There is also a flourishing school in connection with the Roman Catholic Church.

Bushville is a hamlet.

Croft's Station (West Batavia p. o.) is a station on the N. Y. C. R. R.

East Pembroke (p. v.) is partly in this town.

The village of Batavia was surveyed in 1800, and laid out in lots, and in 1801 Abel Rowe, Stephen Russell and David McCracken took contracts for lots. Mr. Ellicott fixed upon this site as the place for the Land Office, and it was removed here in 1802. The formation of Genesee County and the selection of this place as the County Seat made the village the most important place upon the Holland Purchase for several years. Previous to 1802 the place was known as "The Bend." Mr. Rowe became the first inn keeper in 1801, and Mr. Russell the second one at the same place. McCracken was the first physician upon the Purchase. In February, 1802, Mr. Ellicott employed John Lamberton and — Mayo to cut a road through the village. The contract was made at Ransom's, Feb. 20th. They came to Batavia on foot, one of them bringing on his back a tent, the other a keg of whisky. The road was one hundred feet wide and two miles long. The price received for this work was twelve dollars per acre. It was cleared off during the summer by the owners of the lots along the road. The Buffalo road was the only one except Indian trails on the Purchase. A post office was established in 1802 and James Brisbane appointed the first postmaster. The mail was carried once in two weeks, sometimes on foot and sometimes on horseback. Mr. William Seaver, now a resident of Batavia, performed the duties of postmaster from Jan. 13, 1823, to August 6th, 1842.

The first newspaper in Batavia, *The Genesee Intelligencer*, was printed in 1807. It was a half sheet, of medium size, and contained two or three columns of advertisements for the Holland Land Company, a notice of an elopement and of a runaway apprentice boy,

for whose apprehension a *bag of bran* was offered as a reward. The subscription list numbered about one hundred.

An Arsenal was erected in 1810 or 1811, for protection against incursions of British and Indians. It was constructed of logs, and about the close of the war the present stone structure was erected near the site. It is now in a dilapidated condition.

The first Trustees of the village, elected in 1823, were David H. Chandler, David E. Evans, Nathan Follett, Simeon Cummings and Silas Finch. Trumbull Cary was Treasurer, and Parley Paine, Collector.

Among the early settlers whose names have not been mentioned were Isaac Sutherland, Gen. Worthy L. Churchill, Col. William Rumsey, John Thomson, John Lamberton, David E. Evans, James W. Stevens, Richard Abbey, Jedediah Crosby, Gideon Elliott, Cotton Leach, Sam'l F. Geer, Benajah Worden and Wm. Munger.

In a letter to Mr. Busti, the general agent of the Company at Philadelphia, Mr. Ellicott, in speaking of the selection he had made for the location of the Land Office, at the "Bend of the Tonewanta," says, May 30, 1801, that one lot was sold and one house built, and he had decided to call the place "Bustia" or "Bustiville." Mr. Busti objected to the name and it was called Batavia, the name of the Republic to which the Dutch proprietors belonged. Mr. Ellicott informs him that the land sales are going on encouragingly and that in one place on the "Great Road," within the space of ten miles, thirteen improvements have been made.

The first marriage was that of Wm. Leston and Lavinia How, and the first death that of — Harris, in 1807. Hannah Austin taught the first school, in 1806; James Brisbane kept the first store, in 1802. Mr. Ellicott erected the first saw mill, in 1801, and the first grist mill, in 1804, for the Holland Company, on Tonawanda Creek.

The first town meeting of Batavia was held in March, 1803, at the house of Peter Vandeventer. David Culley was chosen Town Clerk; Peter Vandeventer, Supervisor; Enos Kellogg, Asa Ransom and Alexander Rea, Assessors; Alexander Rea, Isaac Sutherland and Suffrenus Maybee, Commissioners of Highways; David Culley and Benjamin Porter, Overseers of the Poor; Abel Rowe, Collector; John Mudge, Levi Felton, Rufus Hart, Abel Rowe, Seymour Kellogg and Hugh Howell, Constables. The Pathmasters were Martin Middaugh, Timothy Hopkins, Orlando Hopkins, Benjamin Morgan, Rufus Hart, Lovell Churchill, Jabez Warren, William Blackman, Samuel Clark, Gideon Dunham, Jonathan Willard, Thomas Layton, Hugh Howell, Benjamin Porter and William Walsworth. At this meeting there was some legislation of which the following is a specimen: A bounty of five dollars on wolves, half price for whelps, and fifty cents for foxes and wildcats. At

the second town meeting, held in 1804, a law was passed imposing a fine of \$5.00 on any person living in any other county or town, who should drive cattle into the town of Batavia to be kept. This was to preserve the fine feed in the openings, on the Lockport and Batavia road, for the use of the settlers. Settlers further east had been in the habit of driving cattle there to pasture. No person was licensed to keep a tavern who had not a securely inclosed yard of sufficient size to contain all the "sleds, sleighs, wagons, carts, and other carriages that he or she may have at his or her tavern at any one time, for entertainment or refreshment."

The first general election after the organization of the town was held in April, 1803. The vote for Senator is reported as follows: Caleb Hyde, 146; Vincent Matthews, 5. The next year the vote for Governor was, 111 for Morgan Lewis and 11 for Aaron Burr; for Lieutenant Governor, John Broome received 115 and Oliver Phelps 7 votes.

From some reminiscences of Wm. H. Bush, one of the pioneers of Batavia, we learn that in May, 1806, there were less than 100 acres of land cleared on the Buffalo road within a distance of six miles of Batavia. On his arrival here Mr. Bush built a log house, covered it with elm bark and laid a floor of slabs and hemlock boards. As the cabin had no chimney the cooking for the family was done in the open air by a fire built against a stump. This was continued during the entire summer. Mr. B. immediately commenced the erection of a saw mill which was completed about the middle of October. This was kept running from daylight till dark during the winter, and proved to be a good investment. The settlers were ready to stock the mill with logs to be sawed on shares, and there was a ready market for all the lumber the mill could cut. Before cold weather came on Mr. Bush built a stick chimney, laid a better floor, plastered the cracks between the logs and cleared one acre of land around his house. To pay for his mill he had sold everything except his scanty household furniture. In 1808 he built a machine shop, and a carding and cloth dressing establishment, the first upon the Holland Purchase. The first wool was carded at this establishment on the 6th day of June, 1808; it belonged to George Lathrop, of Bethany. In February, 1809, the first piece of cloth dressed upon the Purchase was dressed at this mill, for Theophilus Crocker. Customers came from a great distance in all directions, extending west as far as Niagara River. The largest quantity of wool carded for one man was seventy pounds, and the smallest, four pounds. The whole amount carded during the first season was 3,029 pounds. It was no small task to get together the machinery for this pioneer establishment. Hand shears were procured from the Shakers at New Lebanon, a press plate from a furnace in Onondaga County, a screw and box from Canaan, Connecticut, and a dye

kettle, press papers, &c., at Albany. The cost of transporting these things was more than two hundred dollars. In 1809 Mr. Bush erected a grist mill, and in 1817 a paper mill and a distillery. He made the first ream of paper that was manufactured west of the Genesee River. This early pioneer was successful in his enterprises, accumulated a competence and enjoyed a serene old age.

Previous to the erection of the grist mill at Batavia in 1804, the people were sometimes without bread or anything to make it of. Flour was brought on pack horses before the roads were of such a character as to allow a better means of conveyance.

Ebenezer Mix became a resident of Batavia in 1809. He was a native of New Haven, Connecticut, and worked at his trade, that of a mason, for a while, then became a school teacher, and subsequently a student at law, and in 1811 entered into the service of the Holland Company as clerk in their Land Office, where he remained for twenty-seven years. He possessed extraordinary talents as a practical mathematician, and a memory of localities, boundaries and topography, which mapped the Holland Purchase upon his mind. He was eminently useful not only to his principals but to the settlers upon the Purchase. Ebenezer Cary was an early merchant, of Batavia. He was one of the surveyors of the Purchase and clerk at the Transit Store House previous to his removal to Batavia. He died in 1825. Trumbull Cary came in and settled in 1805. He occupied many positions of honor and trust, and after a long and successful life, died June 20, 1869, at the age of 82.

In 1822 a Mr. Farnsworth was convicted of forging United States Land Warrants and sentenced to be hanged on the 20th of September. A large crowd assembled to witness the execution, when to their great disgust the President granted a reprieve for six months. The murmurings of the disappointed multitude were loud and deep, and before the expiration of the six months respite, he was pardoned, as it appeared that he had committed no crime against the Government.

In the fall of 1820, Mr. Busti, the agent of the Holland Company, was visiting Batavia, when a Presbyterian clergyman called on him and insisted on a donation of land to each society of his persuasion, then formed on the Purchase. Mr. Busti treated the gentleman with due courtesy but manifested no disposition to accede to his request. The minister persevered in his solicitations until Mr. B. left the office to go to tea, and followed him to the piazza of Mr. Elliott's residence and renewed his application. Mr. Busti's patience was nearly exhausted and he at length replied: "Yes, Mr. R., I will give a tract of one hundred acres to a religious society in every town on the Purchase, and this is *finis*." This was not satisfactory, he wanted the pledge for the benefit of the Presbyterians.

But "to save contention" it was given to "the first religious society in every town." The zealous clergyman hastened home and sent out runners to rally the Presbyterians in the various towns in the vicinity, to organize and thus secure the land. The Land Office was soon flooded with petitions from the various societies, some of which were extremely ludicrous. One of these was directed to "General Poll Busti," upon seeing which he insisted that it could not be from a religious society, for all religious societies read their Bibles and knew that P-o-double-l did not spell Paul." Notwithstanding the urgent demands made by the various societies, Mr. Ellicott, upon whom devolved the duty of carrying out the promise of Mr. Busti, delayed for some time to convey the lands demanded. In some instances the whole one hundred acres was given to a single society and in others to two, three, and sometimes four different denominations.

The first church organized in Batavia was Congregational, in 1809, though it soon after adopted the Presbyterian form of government. It was organized by Rev. Royal Phelps, with twelve members. The following are their names: Silas Chapin, David Anderson, Ezekiel Fox, Solomon Kingsley, Eleanor Smith, Elizabeth Mathers, Elizabeth Peck, Esther Kellogg, Hulda Wright, Patience Kingsley, Esther Kingsley and Polly Barnard. On the 24th of September, 1809, Rev. Mr. Phelps preached in Jesse Rumsey's barn and administered the Sacrament of the Lord's Supper for the first time in this place. The first Trustees of the Society were Ebenezer Cary, Ebenezer Seymour and Benjamin Porter. Their church edifice was erected in 1824, and a bell weighing 1,000 pounds, cast in Batavia by James Cochran, was placed upon it.

St. James Church (Protestant Episcopal) was organized June 6th, 1815. John Hickcox and Samuel Benedict were the Church Wardens. Measures were immediately taken to erect a church but it was not completed until 1822. The present church edifice was erected in 1835.

The First M. E. Church of Batavia was organized Dec. 15, 1819, with Thomas McCulley, Samuel F. Geer, Jeremiah Bennett, Seymour Ensign and Silas Hollister, Trustees. The first class was formed in 1817, consisting of fourteen members, only one of whom is now living. The society worshiped for several years in the West School House of Batavia. In 1823 a stone church was erected in the west part of the village and is now used for a malt house. In 1841 a new church was erected on Jackson street, now known as Terry Hall. A very fine brick church is now nearly completed, and when finished will be the finest church building in the County. It is of the Norman style of architecture, 50 by 90 feet, with a lecture room in the rear 38 by 50 feet. The spire is 160 feet in height. The structure is an ornament to the village and highly creditable

to the enterprise and good taste of the society erecting it. Rev. S. Hunt is the present pastor.

The Baptist Church was organized in 1835, with Richard Covell, Jr., John Dorman, Wm. Blossom, Wm. D. Popple and Calvin Foster, Trustees. Rev. J. Clark was the first pastor. Their house of worship was erected in 1835.

The population of the town in 1865 was 6,004, and its area 34,437 acres.

The number of school districts is 14, employing 20 teachers. The number of children of school age is 2,066; the number attending school, 1,449; the average attendance, 502, and the amount expended for school purposes during the year ending September 30, 1868, was \$9,703.41.

BERGEN was formed from Batavia, June 8, 1812. Byron was taken off in 1820. The surface is gently undulating, with a slight inclination towards the north. Black Creek flows east through the town, a little north of the center. The soil is a gravelly and clayey loam.

Bergen, (p. v.) situated in the east part of the town, on the New York Central R. R., contains four churches, viz., Baptist, Methodist, Congregationalist and Roman Catholic; two hotels, a sash and blind factory, several stores and mechanic shops and about 700 inhabitants.

Stone Church, (p. o.) in the south-east part of the town, contains a Congregational church, a school house, several mechanic shops and about a dozen houses.

West Bergen, (p. o.) in the south-west part, on the N. Y. C. R. R., and

North Bergen, (p. o.) in the north-west part, are hamlets.

Samuel Lincoln commenced the first settlement at Bergen village in 1805. He was from Connecticut, as were also most of the other settlers. Jedediah Crosby, David Potter, William White, James Landen and David Franklin came in and settled in 1805-6. Simeon Pierson located here in 1808.

The first birth was that of Luther Crosby, in 1806; the first inn was kept at Bergen Corners in 1810, by Samuel Butler; the first store was kept by Levi Ward, in 1808. Jared Merrill erected the first saw mill in the north-west part of the town, in 1811. Titus Wilcox, from Connecticut, taught the first school, in the winter of 1807-8, at Bergen Corners. Deacon Levi Ward and his sons, from Connecticut, established public religious services soon after their arrival, and in 1807 or 1808 a Church (Presb.) was organized. Rev. Allan Hollister was installed pastor of the Church in 1811 or 1812.

The population of the town in 1865 was 1,908, and its area is 17,289 acres.

There are eight school districts, employing ten teachers. The number of the school population is 652; the number attending school, 524; the average attendance, 289, and the amount expended for school purposes during the year ending September 30, 1868, was \$9,529.57.

BETHANY was formed from Batavia, June 8th, 1812. It lies upon the south border of the County, east of the center. The surface is hilly in the south and rolling in the north. Black Creek flows north through the town, a little east of the center, and Little Tonawanda Creek flows through the south-west and north-west corners. White Creek flows north through the east part. The soil in the east is a dark, gravelly loam, and in the west a heavy clay loam. Weak brine springs have been found, but all attempts to procure salt water by boring have proved unsuccessful.

Bethany Center (Bethany p. o.) is situated a little south of the center of the town, and contains a Baptist church, an academy, a hotel and about thirty dwellings.

East Bethany (p. v.) contains a church, a hotel, a store, a blacksmith and wagon shop and about twenty dwellings.

Linden, (p. v.) situated on the Buffalo and Hornellsville Branch of the N. Y. & Erie R. R., in the south-west part, contains two stores, a carriage shop, two blacksmith shops, a stove factory, a grist and saw mill, a foundry and about 20 dwellings. There is also a saw mill about a mile north of this village.

West Bethany (p. o.) contains a Baptist church, a grist mill and a blacksmith shop.

Canada, in the north part, on Black Creek, is a hamlet, containing a Methodist church, a carriage shop, a cooper shop, a saw and grist mill and about a dozen houses.

This town was first settled by John Torry, from Cayuga County, in 1803. He located in the north-east part, erected a log cabin and commenced other improvements. Captain George Lathrop, from Connecticut, located on lot 40, in the north part of the town, the same year, and Orsemus Kellogg, from Sheffield, Mass., in the east part. Lyman D. Prindle, from Hoosick, settled at East Bethany in 1805; Joseph Adgate, from Ulster Co., and Mather Peck, from Lyme, Conn., settled near East Bethany in 1806.

The first birth was that of a child of Orsemus Kellogg, in 1803, and the first death that of Solomon Lathrop, in 1806. The first school was taught by Matilda Wedge, from New England, in 1808. Sylvester Lincoln kept the first inn; Elisha Hurlburt, from Ver-

mont, the first store, in 1808, and Judge Wilson built the first grist mill, in 1811.

The population of the town in 1865 was 1,734, and its area 22,707 acres.

There are eleven school districts, employing the same number of teachers. The number of the school population is 458; the number attending school, 374; the average attendance, 179, and the amount expended for school purposes during the year ending September 30, 1868, was \$2,712.81.

BYRON, named from Lord Byron, was formed from Bergen, April 4, 1820. It lies on the north border of the County, east of the center. The surface is gently undulating, with a slight inclination towards the north. Black Creek flows north to near the center of the town, receiving as tributaries Bigelow and Spring Creeks, then turns and flows north-east into Bergen. The soil is a fine quality of sand and gravelly loam. A sulphur spring, from which issues carburetted hydrogen gas, is found on Black Creek, a little north of Byron. An acid spring, known as the "Sour Spring," is found in the south-west part of the town. This spring issues from a hillock about 230 feet long, 100 feet broad and elevated about four or five feet above the plain. The strength of the acid is increased by drouth, and in some places it is quite concentrated and nearly dry in its combination with the charred vegetable coat which everywhere covers the hillock to the depth of from five to forty inches.

Byron, (p. v.) situated near the center of the town, on Black Creek, contains two churches, viz., Presbyterian and Methodist, one hotel, two stores, several mechanic shops, a foundry and about 150 inhabitants.

South Byron, (p. v.) in the south part, is a station on the N. Y. C. R. R., and contains a Methodist church, a hotel, three stores, a school, two wagon shops, three blacksmith shops and about 200 inhabitants.

North Byron is a hamlet containing a Baptist church and about a dozen houses.

The town was first settled by Benham Preston in 1807, on lot 197, about a mile north of Byron Center. Elisha Taylor, from Otsego Co., located on lot 186 in 1810; and Thester T. Holbrook, from Cayuga Co., Wheaton Carpenter, from Rhode Island, and Elisha Miller, from Pennsylvania, on lot 2, in 1809. Elijah Loomis settled on lot 197, in 1808; T. M. Fenn settled on the same lot in 1809, previous to the survey of the 100,000 Acre Tract. Nat Spafford, from Cayuga Co., settled in Bergen in 1807, and in 1812 removed to Byron, about one mile east of the center. Cyre-

nus Walker, with his father, from Berkshire Co., Mass., settled on lots 41 and 29, in July, 1811. Nathan Holt, from Otsego Co., and Asa Merrill, from Oneida Co., came in in 1810.

Mr. Merrill located on lots 162 and 174, and still resides there. He started from Oneida County for his new home with two yoke of oxen and a sled. Soon after crossing Cayuga Lake, the snow disappeared, and with his family he stopped at a tavern and tried in vain to procure a wagon with which to proceed on his journey. At length he went to the woods and, with the aid of the landlord, cut an oak tree about three feet in diameter, and having sawed off blocks for wheels, a vehicle was constructed upon which he placed his sled and other loading and came to Byron. He set out an orchard of about seven acres, in which is a tree eight feet two inches in circumference, the branches covering a space seventeen paces in diameter.

Andrew Dibble, from Massachusetts, purchased lot 7 in 1811, and located with his family in 1816. Levi Fisk, from Franklin County, Mass., settled near Byron Center in 1811.

Captain James Pendall was an early settler on lot 78, where Erastus Cash now resides. In front of the house stands a large willow tree with a double trunk, each about three and a half feet in diameter. This tree was once a riding whip which Mr. Pendall used on his return from LeRoy. It was set in the ground by Mrs. Pendall and has produced the present tree.

Paul Ballard, from Oneida Co., settled in the south-west part of the town in 1812.

The first birth was that of a son of Elisha Taylor, in 1809; the first marriage that of Samuel Montgomery and Polly Parks, in 1811; and the first death that of a son of Mr. Haskins. Thester T. Holbrook taught the first school, in 1810-11; Ira Newburg kept the first inn, in 1815; and Amos Hewett the first store, in 1813. William Shepard erected the first saw mill, in 1813, and Asa Williams the first grist mill, in 1814. The first religious services were held in 1809 by Rev. Royal Phelps, of the Presbyterian Church, from Cayuga County. The first Church (Bap.) was organized in 1810 by Elder Benjamin M. Parks.

The population of the town in 1865 was 1,645, its area is 20,531 acres.

There are nine school districts, employing the same number of teachers. The number of the school population is 557; the number attending school, 410; the average attendance, 204, and the amount expended for school purposes during the year ending September 30, 1868, was \$3,507.99.

DARIEN was formed from Pembroke, February 10, 1832. It is the south-west corner town of the County. The surface is

hilly in the south and rolling in the north. Murder Creek flows through the town from south to north, in the eastern part. Crooked and Eleven Mile Creeks are the other principal streams. The soil in the north is a sandy and gravelly loam, and in the south a clayey loam overlaid by limestone. The Buffalo, New York and Erie R. R. extends through the town from east to west, a little south of the center. The N. Y. C. R. R. extends through the north-west corner.

Darien Center, (p. v.) formerly called *King's Corners*, is situated a little south of the center of the town, near the B. N. Y. & Erie R. R., and contains a church, several mechanic shops and about 25 dwellings.

Darien City, (Darien p. o.) in the east part, on Murder Creek, contains a church, a hotel, a mill, several mechanic shops and about 40 dwellings.

The first settlement was made near Darien City by Orange Carter, from Vermont, in 1803. Isaac Chaddock, from Vermont, settled near Darien City in 1804.

The first birth was that of Harriet Carter, in 1805. Stephen Parker kept the first inn, in 1808, at Darien City, and Stephen King, the first store, at Darien Center, in 1815. The first saw mill was erected by Amos Humphrey, in 1809, on Eleven Mile Creek.

The population in 1865 was 2,168, and the area is 30,405 acres.

The town contains fourteen school districts, employing the same number of teachers. The number of the school population is 788; the number attending school, 666; the average attendance, 323, and the amount expended for school purposes during the year ending September 30, 1868, was \$3,222.73.

ELBA was formed from Batavia, March 14, 1820. Oakfield was taken off in 1842. It is the central town in the north border of the County. The surface is level or undulating. Oak Orchard Creek is the principal stream. It enters the town near the north-west corner and flows north-east, through the center of the town, to the north-east corner, then flows west, through the north part, into Oakfield. The Tonawanda Swamp occupies the north part of the town. Bigelow and Spring Creeks flow across the south-east corner. The soil is a fertile, sandy, gravelly and clayey loam.

Pine Hill, (Elba p. o.) near the center of the town, contains three churches, viz., Methodist, Congregationalist and Baptist; a hotel, two stores, two shoe manufactories, a wagon shop, two blacksmith shops, two harness shops, a tailor shop and about fifty dwellings. A Friends' meeting house is located about a mile north of Pine Hill.

East Elba (p. o.) is a hamlet, containing a Methodist church, two woolen mills, two grist mills and a saw mill.

Daw's Corners, in the south part, and

Langton's Corners, a little north of the center, are hamlets.

The first settlement was made at *Daw's Corners* in 1801, by Samuel and Amos Ranger, from Vermont. Samuel Clark, from Mass., and his son Samuel, settled in 1802, and Samuel Hall, from Seneca Co., and John Young, came soon after, and located near Pine Hill.

Patrick O'Fling was another of the early settlers of Elba. In 1813 he and three sons and a son-in-law enlisted in the army. At Fort George, in 1813, Gen. Dearborn's attention was called to the soldierly bearing of the old gentleman and asked him where he had seen service. He replied, "in the Revolution under Captain Dearborn." A recognition followed and Gen. Dearborn took so much interest in the family that he used his influence to obtain Lieutenant's commissions for two of the sons and another was admitted as a cadet at West Point. One of the sons was killed in the sortie at Fort Erie.

The first birth was that of Betsey White, in 1802, and the first death that of David Kingsley, in 1804. Mason Turner taught the first school, near the center, in 1811. Stephen Harmon kept the first inn, in 1815, and Samuel Lane the first store, at Pine Hill, in 1819. Horace Gibbs erected the first saw mill, on a branch of Spring Creek, in the east part of the town, in 1810, and Comfort Smith erected the first grist-mill, on the same stream, in 1815.

In Turner's *Pioneer History* we find the following reminiscence of pioneer life by the widow of John Young:

"My husband having the year before been out and purchased his land upon the Holland Purchase, in the fall of 1804 we started from our home in Virginia, on horseback, for our new location.— We came through Maryland, crossing the Susquehanna at Milton, thence via Tioga Point and the usual route. In crossing the Alleghany Mountains night came upon us, the horses became frightened by wild beasts and refused to proceed. We wrapped ourselves in our cloaks and horse blankets and attempted to get some rest, but had a disturbed night of it. Panthers came near us, often giving terrific screams; the frightened horses snorted and stamped upon the rocks. Taking an early start in the morning, we soon came to a settler's house and were informed that we had stopped in a common resort of the panther. Arriving at our destination, a family by the name of Clark had preceded us in the neighborhood. Myself and husband and the family named were the first settlers on the Oak Orchard Road, or in fact north of Batavia. Mr. Clark was kind enough to give us a shelter for a few days until my husband

built a shanty. It was about ten feet square, flat roofed, covered with split ash shingles; the floor was made of the halves of split basswood; no chimney; a blanket answered the purpose of a door for awhile until my husband got time to make a door of split plank. We needed no window, the light came in where the smoke went out. So much for the shanty, and now for the furniture.— For chairs we had benches made by splitting logs and setting the sections upon legs. A bedstead was made by boring holes in the side of the shanty and inserting pieces of timber which rested upon two upright posts in front; a side piece completed the structure. Peeled basswood bark answered the place of a cord. We of course had brought no bed with us on horseback, so one had to be procured. We bought a cotton bag of Mr. Brisbane, and stuffing it with cat-tail, it was far better than no bed. Buying a little iron-ware, crockery, and a few knives and forks, we were soon under way, house or *shanty* keeping. We got our flour and meal the first year at Caledonia. The second year we were in, I had an attack of the fever and ague which confined me for nearly a year. That year my husband cleared four acres, besides taking care of me and doing the cooking. It was no uncommon thing in the first years of settlement for women in child-birth to be deprived of the aid of a physician, and often the attendance of their own sex had to be dispensed with. Mr. Young died in 1836.”

The population of the town in 1865 was 2,044, and its area is 22,631 acres.

There are 9 school districts, employing 10 teachers. The number of the school population is 600; the number attending school 446; the average attendance 210, and the amount expended for school purposes during the year ending September 30th, 1868, was \$2,936.38.

LEROY was formed from Caledonia (Livingston Co.) as “Bellona,” June 8, 1812. It received its present name April 6, 1813, in honor of Herman LeRoy, one of the original purchasers of the “Triangle Tract.” A part of Stafford was taken off in 1820 and a part of Pavilion in 1842. It is the central town on the east border of the County. The surface is level or gently undulating. A limestone ridge, from 40 to 100 feet high, extends through the north part of the town. Oatka Creek, the principal stream, enters the town near the south-west corner and flows north-east to a point a little north of the center, then turns and flows in a south-easterly direction, leaving the town near the center of the east border. The creek flows over the limestone ridge in a beautiful cascade ninety feet in height. When the water is low it disappears in the bed of the stream about two miles above the falls, passes through a subterranean channel and appears again below the falls. The soil gener-

ally is a sandy and gravelly loam. Gypsum and Onondaga limestone, for building purposes, are obtained at various points in the town. In the east part, south of Oatka Creek, is an extensive tract of oak openings; it is very stony and hard to cultivate.

LeRoy, (p. v.) situated on the Oatka Creek, was incorporated May 5th, 1834. It contains seven churches, viz., Methodist, Baptist, Episcopal, Presbyterian, Congregationalist, Roman Catholic and Universalist; the Ingham University, Academic Institute, a newspaper office, two banks, two flouring mills, a tannery and several other manufactories, a good number of hotels and stores, and about 3,000 inhabitants. The Canandaigua & Niagara Falls R. R. and the Buffalo, N. Y. & Erie R. R. extend through the village. The streets are bordered by beautiful rows of shade trees and the plank side walks are giving way to substantial flag stone. The educational facilities of the place, added to the other attractions, render it one of the most desirable residences in Western New York.

The LeRoy Flouring Mills have a capacity of about 150 barrels per day.

The LeRoy Malt Houses consist of three stone buildings, 300 by 40 feet, with a capacity of 100,000 bushels during the season. These buildings were erected by Hon. A. S. Upham in 1853-4, for the manufacture of cars for the N. Y. C. R. R. In 1857 the Company withdrew their patronage and the buildings were unoccupied until 1863, when they were converted into malt houses and have been used for that purpose since.

The Genesee Co. Paper Mill is located about half a mile north of the railroad depot. It was formerly a flouring mill, but in 1868 was converted into a mill for the manufacture of all kinds of wrapping paper.

Ingham University, for young ladies, is located at this place. The Institution was founded by Misses Marietta and Emily E. Ingham, from Saybrook, Conn., in the year 1835. After several years of marked growth and prosperity, under their private management, for the purpose of securing it as a permanent public institution, devoted to the Christian education of young ladies, the property to the value of more than \$20,000 was donated to the Synod of Genesee, upon the condition that a full collegiate course should be established and a permanent fund raised for its support. The Institution was chartered with University privileges and powers in 1857. For several years thereafter Rev. Samuel Hanson Cox, D. D., presided over its interests as its first Chancellor, and vigorously exerted himself to make it the model Institution of the State for the complete training of woman for her preeminent duties and responsibilities in the world. Col. Phineas Staunton, the

husband of the younger of the founders, was its first Vice Chancellor, and he continued an earnest and effective laborer for its interests until his decease in 1867. A distinguished artist himself, he elevated the Art Department to a high rank; and the genius with which he wrought has become a permanent inspiration to move the Department still forward in the direction of the beautiful, the true and the good. The School of Art continues to furnish unusual facilities in all the departments of drawing, painting and design, and attracts hither many pupils who enjoy the advantages of a gallery of many pictures of rare merit, valued at not less than \$20,000. The Institution has adopted three courses of study adapted to the wants of different classes of pupils. Special attention is given to the Department of Vocal and Instrumental Music. The libraries and cabinet are ample to supply the wants of the students. The Institution has a valuable museum of 700 rare birds and a great variety of curious and instructive specimens from South America and other parts of the world. There are two literary societies with their libraries and pleasantly furnished rooms. It is in contemplation to erect a fire proof building for an art gallery, that the valuable collection of works of art may be placed in a position where their merits may be more conspicuous and at the same time be less exposed than now to the casualties of fire. The people of LeRoy can well afford to bear the expense of a suitable building for the sake of preserving so valuable a collection in their village. The officers of the University are: Rev. Samuel D. Burchard, D. D., Chancellor and President of the Board of Councilors; Mrs. E. E. Ingham Staunton, Vice Chancellor and Treasurer; Rev. W. L. Parsons, D. D., Secretary and Assistant Treasurer. The Faculty consists of twelve professors and teachers. All needed information is contained in the catalogue which will be sent on application to the Secretary.

The LeRoy Academic Institute, boarding and day school, (English and classical) for both sexes, was incorporated at the beginning of the year 1864, the first term of instruction commencing January 5th. The establishment of this Institution was the result of an effort to secure a sounder and more practical education for the youth of the town and vicinity than they had before enjoyed. Originating with a few earnest citizens, the movement soon spread, meeting with such encouragement that before many months it assumed definite form and respectable proportions, the school commencing with a full corps of professional teachers and about one hundred pupils. It rapidly grew into favor in the community, soon doubling its attendance and requiring ample accommodations. These were promptly furnished by subscriptions to its stock from the friends of education throughout a somewhat extended section, the town it-

self, in recognition of the high character of the school, appropriating, by a decisive vote, \$10,000 for the purpose. Thus placed on a permanent footing, it is now in a very flourishing condition. Its property is valued at over \$35,000; it enjoys a central and beautiful location, occupies a new and commodious building, and has a well conducted boarding house under the oversight of the Principal. The pupils, whose ages range from 8 to 25, are divided into four grades; the course of study is full and thorough, embracing the English language and literature, mathematics, natural and mental science, Latin and Greek, French and German, together with drawing and vocal and instrumental music; the discipline is strict, though the end in view is to teach the pupils self-government. The Principal, Mr. E. H. Russell, has been in the school from its commencement, with a brief interval of absence, and has the assistance of five experienced teachers. Mr. Chauncey L. Olmsted is President of the Board of Trustees, and Lucius N. Bangs, Esq., Secretary.

The first settlement of this town was commenced in 1797, by Charles Wilbur, about a mile east of the village. He opened an inn here and the next year sold out to Capt. John Ganson, who removed with his family, among whom were three sons, John, James and Benjamin. The place was called "Ganson's Settlement," and the hotel was for many years considered the best on the Albany and Buffalo Road. Joseph Hewitt, Samuel Davis, — Scofield and Jesse Beach came in about the same time. Scofield was the pioneer shoe maker and Beach the first blacksmith. They settled near the present residence of Dr. Sheldon. Cyrus Douglass located on the west side of Mad Creek, and Amaziah Stoughton on the east side. Friend Hall settled opposite the stone school house. Gilbert Hall, from Bloomfield, came in in 1799; he had an unfinished house on the Phelps farm. Daniel Davis and Philemon Nettleton located on the farm now owned by — Andross. Capt. Jotham Curtis, from Albany Co., settled on the farm now owned by S. L. Dix, and Gardner Carver settled the same year.

The first marriages were in the fall of 1800, when Daniel Davis and Naomi Le Barron, and Gardner Carver and Lydia Davis were married. The first house, erected on the place now owned by Dr. Sheldon, was built by Hinds Chamberlain, who opened an inn about Christmas, 1799, and in 1801 sold out to Asher Bates, of Canandaigua, who kept a public house for several years. James Fox and Abel Nettleton came in in 1802, and James Davis, Jr., in 1803. In 1801 Richard M. Stoddard became the agent for the Triangle Tract, and Dudley Saltonstall became associated with him in the purchase of 500 acres, embracing most of the village site. Saltonstall soon after sold his interest to Ezra Platt, of Canandaigua, who came here in 1802. Richard Waite, from Bloom-

field, came about the same time. Thaddeus Keyes was the first tanner in the town. In 1801 a bridge was built over Oatka Creek, where the present Main street bridge is. John Ganson, Charles Wilbur and Jotham Curtis were the commissioners to build the bridge, and James Ganson the builder. A shanty was built on the east side of the creek to accommodate the workmen. It required five days to raise the frame work of the bridge. Mr. Stoddard erected a land office, and subsequently a house, on the site of the Eagle Hotel, and opened an inn. In 1803 Ezra Platt built a framed house on the corner of Main and Church streets, and in 1804 S. A. Wolcott built a small framed house on the site of the University. The first grist mill was built in 1803, by Stoddard and Platt, on the site of the LeRoy Mills. Previous to this the inhabitants were compelled to go to the Genesee River for their milling. Solomon Bunnell, from Grand Isle, in Lake Champlain, was the millwright, and James Austin the first miller. Doctor William Coe was the first physician, in 1803; Dr. Fitch came in 1808.

Dr. William Sheldon came from Bennington Co. Vt., in 1810. He informed the writer that he came on horseback with his saddlebags and a small quantity of medicine, a lancet and an instrument for extracting teeth. He was seeking an eligible site to locate for the practice of his profession. His money was nearly exhausted when he arrived at "Ganson's," where he put up, turned his horse out to grass, made a supper of bread and milk and retired not knowing how he was to raise the money to pay his bill in the morning. Fortunately for him, Mrs. Ganson had an attack of colic in the night, and as there was no other physician in the place, Dr. Sheldon was called on to prescribe. A dose of calomel and jalap restored the good lady so that she resumed her duties in the morning. This professional call of course paid his bill and served as an introduction, and he was invited to settle as there was a great deal of sickness and no physician in the place. He accepted the invitation and for many years enjoyed an extensive practice. During the war of 1812-15, he was the captain of a military company and served his country during the greater part of the war. He participated in seven battles, was taken prisoner at Black Rock, and carried to Montreal, where he remained until he was discharged in May, 1814. He was afterwards Sheriff of the County and filled other positions of responsibility. He is now hale and hearty, and though over eighty years old, looks as though he was good for another score of years. He receives a pension of \$20 per month for services rendered to his country.

Uni Hurlbert, one of the oldest residents of the village, came here in 1819 and engaged in farming and brickmaking, which he continued for forty-nine years. He made the brick for the first buildings in the village constructed of that material, some of which

are still standing, among them the Methodist church, Eagle Hotel and other public and private buildings. He is now in the 84th year of his age.

In 1801 a log school house was erected opposite the present residence of Dr. Sheldon, the school was taught by Miss Luseba Scott. In 1802 Phebe Bates taught the school, and in 1803 Mrs. Stephen Wolcott. In 1804 Mrs. Wolcott taught the first school in the village. The first framed school house in the town was erected a little east of the log one in 1804. It was erected by a stock company; the shares were four dollars each. The largest purchaser took four shares and the smallest half a share. The number of stock holders was thirty. The bachelors manifested their interest in the education of the rising generation, by taking one share each. The first teacher to occupy this building was — Pomeroy, from Albany. The first school house in the village was erected in 1810. A singing school was taught in 1808 and the first tune learned was Concord. The first military training west of the Genesee River, was at Ganson's in 1801. J. Hewitt was captain; Daniel Davis, Lieutenant, and J. Ganson, Ensign; there were ten privates. Phineas P. Bates carried the mail from Canandaigua to Fort Niagara in 1800. A few copies of the Ontario Gazette and Genesee Advertiser were left at LeRoy, but the mail was not very extensive.

Among the early settlers not already mentioned were E. Smith, J. Blodgett, J. Haskell, R. Nesbit, Jacob McCollum, David Scott, Philo Pierson, Gideon Fordham and Alexander McPherson. Thomas Tufts, agent of the Cragie Tract, came in 1810. The first store was kept by George A. Tiffany in 1806, though previous to this Mr. Stoddard used to keep a few goods in his Land Office. J. Anjin and H. Johnson were early merchants. Levi Fordham erected the first clothing works in 1811. The first death was that of an immigrant, at the house of Captain Curtis; S. B. Wally was the first settler who died. They were both buried in the same lot, on Mr. Curtis' farm.

The first Town Meeting was held in 1813. Thomas Tufts was chosen Town Clerk, and Dr. Wm. Sheldon, Supervisor. The other town officers were David LeBarron, Philo Pierson, Benj. Ganson, Asa Buell, Salmon Turrell, David Biddlecum, Harvey Prindle, R. Waite, L. Fowler, G. Newell, G. Terry, A. Hascall, J. Hascall.

The first religious services were held in barns and school houses. In the summer of 1800 Rev. David Perry, a missionary from Massachusetts, visited the town and preached. Hotchkin in his History says: "He probably preached the first sermon ever delivered in the place. The settlement at that time consisted of about sixteen or eighteen families, and was the most western set.

tlement in the State of New York." In 1802 Rev. Davenport Phelps, of the Episcopal Church, held services in the village. The place was visited by missionaries occasionally, previous to 1812, when a Congregational Church was organized and soon after became connected with the Presbytery. Rev. David Fuller was the first resident clergyman. The present church edifice was erected in 1825. As early as 1807, Rev. Cyrus Story, a local preacher of the M. E. Church, visited the town and preached. The writer has not been able to give the date of the formation of the first class, but the town was visited by itinerants for several years previous to the organization of a Church. The church edifice was erected in 1828. In 1806 Elder Peck, of the Baptist Church, preached in LeRoy, and the Rev. Donald Mann often preached, walking from his farm in Caledonia and returning the same day, making twenty-two miles travel.

The Baptist Church was organized in 1819, and united with the Association in October, 1820, having at that time a membership of 43. The first delegates to the Association were Elder E. M. Spencer, Deacon H. Chamberlain and T. Drake. Deacon Chamberlain served the church for fifteen years, when he resigned his office. He died in 1848 at the age of 83 years. His wife was the first member of the Church baptized in LeRoy. The present house of worship was commenced in 1823 and completed in 1834. It was subsequently removed from the eastern extremity of the village to its present location. In 1829 Elder N. Willey became the pastor. May 2d, 1840, the Church passed a resolution of dis-fellowship for those who use or traffic in intoxicating liquors as a beverage. The parsonage was erected about the year 1854, at a cost of \$1,800. The whole number baptized during the last thirty-one years is 335; the present number of members is 250. W. F. Basten is the present pastor.

St. Mark's Church (Epis.) was organized in 1817 by Rev. Samuel Johnson. Timothy Hatch and Hugh Murphy were the wardens; Abel Noyes, Solomon Root, George A. Tiffany, Ezra Platt, Thaddeus Stanley, Elisha Stanley, Manly Colton and Graham Newell, vestrymen. The present officers are Elisha Stanley, who has been a warden over 40 years, and Albert Hill, junior warden; F. C. Lathrop, M. F. Bixby, A. F. Bartow, A. O. Comstock, C. F. Bissell, Wm. Lampson, W. D. Olmsted and J. W. Shedd, vestrymen; E. H. Martin, clerk. The church was commenced in 1826 and completed the next year. Rev. Seth W. Beardsley was the first rector to occupy it. During the three years of his ministry thirty were baptized and twenty confirmed. Herman LeRoy donated the site of the church and \$1,000 towards its erection, and Jacob LeRoy gave \$1,500, to be invested for the benefit of the rector. On the 24th of April, 1869, the corner stone of a new

stone church was laid with appropriate ceremonies by the Right Rev. A. Cleveland Cox, D. D., Bishop of the Diocese of Western New York. The church is of stone and under contract to be finished November 1st, at a cost of \$25,000. Rev. J. H. Waterbury is the present rector.

The Universalist Society of LeRoy was organized in July, 1859, under the ministry of Rev. C. Cravens. Services were held in Starr Hall at first, and measures were immediately taken to erect a church edifice, which was completed and dedicated in April, 1860. The dedicatory sermon was preached by the pastor, Rev. C. Cravens. The house is a substantial brick structure, 44 by 60 feet, and contains 60 pews. The original cost of lot and edifice was \$5,000, valued at present at \$12,000. In the summer of 1861 Rev. F. E. Hicks was called to the pastoral charge of the Society. In 1863 Rev. C. Cravens again became the pastor and continued until the spring of 1867, when Rev. C. H. Dutton, the present pastor, accepted the position.

Mr. R. M. Stoddard's first residence at LeRoy, was a log house on the banks of the creek. During the first winter he was engaged in tending the saw mill one night, when a party of intoxicated Indians came into the kitchen, built a fire and commenced making a pow-wow, as if they were masters of the premises. Mrs. Stoddard was abed in another room, and on learning the state of affairs, put a little girl out of the window and sent her to the mill to notify Mr. Stoddard. The Indians attacked him as he came into the house and a severe fight ensued, but Mr. S. came off victorious, expelling the savages from his dwelling. The Indians had several camps in the vicinity of Leroy, where they were accustomed to resort for hunting. They were generally peaceable, and had great respect for Mr. S., who was often consulted by them. It is related that on one occasion when Mr. Stoddard's whole family were sick with a prevailing influenza, a party of Indians and Squaws came to his house and gave them an "Indian sweat," which greatly mitigated the disease. They dug holes in the earth, put in hot stones and then poured water on them, placing the patients under the influence of the hot steam, covering them with blankets and giving them hot drinks.

The population of the town in 1865 was 4,304; its area is 26,900 acres.

The town contains thirteen school districts, employing the same number of teachers. The number of the school population is 1,371; the number attending school, 769; the average attendance, 346, and the amount expended for school purposes during the year ending September 30th, 1868, was \$8,411.06.

OAKFIELD was formed from Elba, April 11, 1842. It

received its name from the fact that the lands of the town were chiefly "Oak Openings." It lies on the north border of the County, west of the center. The surface is level or gently undulating. Oak Orchard Creek, the principal stream, flows westerly through the north part of the town. A marsh, forming a part of the Tonawanda Swamp, extends along its course. The soil is a sandy and gravelly loam, underlaid by clay. Salt springs, from which salt was formerly manufactured, are found near the center of the town. In the west part of the town is a large plaster bed, one of the finest in the State. It extends from the west border of the town, east, about two miles, and is half a mile in width.

Cary, (Oakfield p. o.) named in honor of Col. Alfred Cary, was incorporated in July, 1858. It lies a little south of the center and six miles north-west of Batavia, and contains four churches, viz., Presbyterian, Episcopal, Methodist Episcopal and Free Methodist; Cary Collegiate Institute, a hotel, five stores, a foundry, a wheel rake manufactory, a grist and plaster mill, several mechanic shops and about 600 inhabitants.

Cary Collegiate Institute was founded in 1840, chiefly through the liberality of Col. Alfred Cary, a resident of the town. The buildings are of stone. The apparatus is ample for illustrating the principles of the natural sciences. There is also a fine library to which the students have access. Col. Cary endowed the Institution with about \$20,000. In 1856, by act of the Trustees, the Institution was placed under the control of the Protestant Episcopal Church. The number of students of both sexes in attendance during the last year was 175.

North Oakfield (p. o.) is in the north part of the town.

Mechanicsville, in the east part, contains a saw mill, a wagon shop, a blacksmith shop, two cooper shops, a school house and fifteen dwellings.

Oakfield, in the west part, is a hamlet.

Most of the town was an Indian Reservation, and not sold until after 1832. The settlement was commenced in 1801 by Erastus Wolcott, Gideon Dunham and Christopher Kenyon. Mr. Dunham was from Livingston County, and located on Section 5 of the Holland Purchase. Peter Lewis, from Vermont, settled on the same Section about the same time. Elijah Blodgett, formerly from Vermont, removed from Ontario County to Oakfield in 1807, and settled at Mechanicsville. George W., John and Jeremiah H. Gardner settled in the town in 1811. Wm. McCrellis, from Madison County, settled on lot 10, Section 5, in 1810; Aaron White on Section 6, in 1806. Calvin Nobles, John Orr and — Terrill were among the other early settlers. George Driggs, from Con-

necticut, was one of the first settlers on the north line of the Reservation, in 1811. Mr. Driggs cut the Lewiston road through from Alabama to Walsworth's tavern. Othniel Brown, from Rhode Island, settled on Section 6 of the Holland Purchase, in 1816, and Laurens Armstrong and Harvey Hubbell, from Connecticut, were also early settlers.

The first birth in the town was that of Calvin Nobles, son of Russell Nobles, in 1806. Gideon Dunham and — Davis were early hotel keepers. The first mills were erected by Christopher Kenyon in 1811. The first store was kept by Col. Cary, at Caryville, in 1833. Othniel Brown commenced wool carding and cloth dressing in 1829, and, about 1835, erected a woolen factory which continued in operation until 1848.

About a mile west of Cary are the remains of an old fortification, known as the *Old Fort*, consisting of a ditch and breastworks, including about ten acres of ground. The ditch is now of such a depth that a person standing in it would be unobserved a short distance off. The west side of the Fort is formed by a ravine through which flows "Dry Creek," a stream that disappears during the dry season. Trees have grown upon the breastworks apparently 200 or 300 years old. On the west side, leading down to the creek, there was a passage for ingress and egress, with the sides built up with stones.

The population of the town in 1865 was 1,511, and its area is 15,379 acres.

There are eight school districts, employing eight teachers. The number of the school population is 573; the number attending school, 384; the average attendance, 186, and the amount expended for school purposes during the year ending September 30, 1868, was \$2,126.69.

PAVILION was formed from Covington, (Wyoming Co.) May 19, 1841. Portions were annexed from LeRoy and Stafford, March 22, 1842. It is the south-east corner town of the County. The surface is hilly in the south and undulating in the north. Oatka Creek flows north through the town, a little west of the center. The soil is a fertile gravelly loam, underlaid by clay. Fruits are extensively cultivated.

Pavilion, (p. v.) situated on Oatka Creek, near the south border of the town, contains five churches, viz., Methodist, Baptist, Presbyterian, Universalist and Roman Catholic; a hotel, several stores and mechanic shops and about 200 inhabitants.

Pavilion Center, (p. v.) on Oatka Creek, near the center of the town, contains a Union church, a hotel, several shops of various kinds and about 20 houses.

Union Corners is a hamlet containing a Methodist Church.

There are in the town a grist mill, a saw mill, two heading mills, a rake factory and a broom factory.

The first settlement was made in 1809, by Peter Crossman. James McWithey, Solomon Terrill, Reuben Burnham, Joshua Shumway and Rowland Perry, settled in 1810. Mr. Perry is now living and has resided in the same place since his first arrival. Sylvanus Young, Elijah Phelps, Amasa Allen, Lemam Bradley, Cyril Shumway, Page Russell, Samuel Bishop, Loomis Walker and Isaac Walker came in 1811. Lemam Bradley served in the war of 1812. Mary Hill, who afterwards became his wife, was one of the first school teachers. His father, J. F. M. Bradley, died December 11, 1868, at the age of one hundred years. Mr. Bishop is still living; he was in the war of 1812. Loomis Walker was also in the war and now receives a pension. Chester Hannum came in 1816 and has always resided where he first located. Elijah Cheney came in 1814, was in the war of 1812, taken prisoner and sent to Halifax, where he was kept until peace was declared. He was discharged at Boston without money and was compelled to beg on his way home. Among the other early settlers were Elisha Rogers, Lovell Cobb, James Tompkins and several brothers by the name of Burgess.

The first death was that of a child of Reuben Burnham, in 1812. The first school was taught in 1813 by Laura Terrill, from Vermont. Seth Smith kept the first inn, in 1815, and Horace Bates the first store, in 1817, at the village of Pavilion. The first mill was erected by Bial Lathrop, on Oatka Creek, in 1816. The first church (Universalist) was erected at Pavilion village in 1832.

The population in 1865 was 1,611, and the area is 22,728 acres.

There are ten school districts, employing the same number of teachers. The number of the school population is 446; the number attending school, 372; the average attendance, 218, and the amount expended for school purposes during the year ending Sept. 30, 1868, was \$3,012.10.

PEMBROKE was formed from Batavia, June 8, 1812. A part of Alabama was taken off in 1826 and Darien in 1832. It is

the central town on the west border of the County. The surface is level or gently undulating. Tonawanda Creek flows through the north-east part, and Murder Creek through the south and south-west parts. The soil is a sandy and gravelly loam, intermixed with clay. The Tonawanda Indian Reservation occupies a portion of the north part of the town.

East Pembroke, (p. v.) situated on the line of Batavia, on Tonawanda Creek, contains three churches, viz., Baptist, Presbyterian and Roman Catholic; Rural Seminary, a hotel, three stores, a grist mill, a saw mill, a wool carding mill, a stove manufactory, a cheese factory and about 80 dwellings. It is a station on the Canandaigua and Niagara Falls branch of the N. Y. C. R. R.

Pembroke, (p. v.) on Murder Creek, in the west part of the town, contains a church, several stores, mills and mechanic shops, and about 35 houses.

Corfu, (p. v.) in the south part, on the N. Y. C. R. R., contains two churches, several stores, shops, &c., and between 200 and 300 inhabitants.

North Pembroke, (p. v.) on Tonawanda Creek, contains saw and grist mills and about 20 dwellings.

Indian Falls is a post office in the north part, on Tonawanda Creek.

Prospect Hill is a hamlet.

The first settlement was made by David Goss, from Mass., in 1804. In 1808 John Long, Dr. David Long, from Washington Co., and Samuel Carr settled in the town, and Joseph Lester, from Connecticut, in 1809.

The first birth was that of a child of Jonathan Hastings, Jr., in 1810; the first marriage was that of Ansell Hastings and Polly Long, in 1812. The first school was taught by Anna Horton, at Corfu, in 1811. Samuel Carr kept the first inn, at West Pembroke, in 1809; John Ball the first store, at the same place, in 1812. The first grist and saw mills were erected by Samuel Carr, in 1808-9. The first Church (Cong.) was organized by Rev. Joshua Spencer, the first preacher, in 1810, at Long's Corners. Rev. Mr. Hotchkin says: "Rev. Hugh Wallis removed his family into the town in the latter part of the year 1816, or the early part of the next year, and continued to reside there for many years. The author believes that he organized the Church either before or shortly after the removal of his family into the place."

The population of the town in 1865 was 2,825, and its area is 26,183 acres.

There are 14 school districts, employing the same number of teachers. The number of the school population is 1,031; the number attending school is 796; the average attendance, 422, and the amount expended for school purposes during the year ending Sept. 30, 1868, was \$5,126.68.

STAFFORD was formed from Batavia and LeRoy, March 24, 1820. A part of Pavilion was taken off in 1842. It is an interior town, lying east of the center of the County. The surface is undulating, with a general slope to the north. Black Creek flows north through the center of the town, and Bigelow Creek rises in the west part and flows north, nearly parallel with Black Creek. The soil is a productive sandy loam intermixed with clay. The Niagara Falls Branch of the N. Y. C., and the Buffalo, N. Y. and Erie Railroads, pass through the town. At Morganville is a fall in Black Creek of about 30 feet perpendicular height, and 30 feet in rapids, affording a valuable water power. In the west bank of the Creek, a few rods below the falls, are two caves.

Stafford (p. v.) lies on Black Creek, near the center of the town, and is a station on the N. Y. C. R. R. It contains two churches, viz., Methodist and Episcopal, a hotel, a dry goods store, a drug store, several mechanic shops and about 350 inhabitants. "Blazing Star Lodge" No. 844 of I. O. of Good Templars, was organized March 1, 1869.

Morganville, (p. v.) situated on Black Creek, about a mile and a half north of Stafford, contains a church, a grist mill, a saw mill, several mechanic shops and about 20 houses. The Buffalo, N. Y. & Erie R. R. passes within three-fourths of a mile of the village. This village received its name in honor of the wife of Wm. Morgan, of Masonic notoriety.

Roanoke, in the south-east part of the town, on Oatka Creek, contains a Methodist church, a store, a grist mill, a saw mill, a cooper shop, a blacksmith shop and about 25 houses.

During the survey of the Transit Line a store house was established near the village of Stafford for the accommodation of the surveyors. In the spring of 1799 about ten acres were cleared, sowed to oats and planted with potatoes and garden vegetables. Frederick Walthers received from the Holland Company 150 acres of land, including the site of the store house, and opened a

tavern. This appears to have been the first settlement in the town, and the crop raised that year was the first upon the Purchase. In 1801 Col. William Rumsey and General Worthy L. Churchill, from Vermont, located on the Buffalo road, west of the village. Peter Stage, from Onondaga Co., settled in 1802. General Churchill served with credit in the war of 1812 and was subsequently Sheriff of the County from 1820 to 1825. Walthers appears to have been quite officious, and in absence of the agent to have taken upon himself the responsibilities of that position.

The first birth in the town was that of a child of Gen. Churchill, March 9, 1803, and the first death that of his wife, about the same time. The first school was taught by Esther Sprout, in 1806. The first saw mill was built on Bigelow Creek, in 1810, by Amos Stow, and the first grist mill on the same stream, in 1811, by Seymour Ensign. The first public religious services were held at the house of Col. Rumsey by Rev. Mr. Green. The first Church (Baptist) was organized by Rev. Amos Lampson, in 1815.

The population of the town in 1865 was 1,798, and its area is 19,976 acres.

The town contains nine school districts, employing ten teachers. The number of the school population is 657; the number attending school, 541; the average attendance, 246, and the amount expended for school purposes during the year ending September 30, 1868, was \$3,797.00.

GENESEE COUNTY BUSINESS DIRECTORY.

EXPLANATIONS TO DIRECTORY.

Directory is arranged as follows: 1. Name of individual or firm. 2. Post office address in parenthesis. 3. If a farmer, the lot number indicates his residence. 4. Business or occupation.

A Star (*) placed before a name, indicates an advertiser in this work.—For such advertisement see Index.

Figures placed after the occupation of *farmers*, indicate the number of acres of land owned or leased by the parties.

Names set in CAPITALS indicate subscribers to this work.

The word *Street* is implied as regards directory for villages.

For additions and corrections see Errata, following the Introduction.

ALABAMA.

(Post Office Addresses in Parentheses.)

ABBREVIATIONS.—I. R., Indian Reservation.

Copying and Enlarging from Old Pictures.

All work guaranteed as good as can be had in the city.

CANCERS CURED!

**D. F. BISHOP, M. D.,
OF LOCKPORT, N. Y.,**

Invites the attention of those afflicted with *Cancer*, to his mode of treatment, which has been practiced for a number of years with great success. The removal of the Tumor is speedily made without the use of the knife in the live tissue, and with but little pain. The question of radical cure of Cancer undoubtedly depends upon the time of its removal. It should be done before it breaks down by ulceration, and the earlier the better. The results of this treatment, which destroys the life of the Tumor before its removal, as compared with the use of the knife, will be readily understood in the difference of the two modes of removing a locust tree from the soil; to kill it by girdling or otherwise, leaving nature to complete the process—or to grab out the live tree, leaving many fibres to spring up and grow again. If you have a *Cancer*, please call and see me, or correspond.

K I N G H A M
University for Young Ladies!

LE ROY, - Genesee Co., N. Y.

*The School year begins on the Second Thursday
of September, and closes on the Third
Wednesday of June.*

This old and well known Institution continues to afford advantages
for

ACADEMIC, COLLEGIATE, AND ART STUDY!

Scarcely surpassed by any similar School in the country. For Catalogues
giving full particulars, address,

MRS. E. E. I. STAUNTON,
VICE CHANCELLOR.

A SPECIALTY!

THE SENECA BLACK CAP,

AND

Davison's Thornless Raspberries.

Waterloo, N. Y., 1869.

The undersigned who is the one who first introduced the Seneca Raspberry to the public, will now be prepared to furnish No. One First Class Plants, of Senecas and Davison's Thornless, which are to be the leading Raspberries and should go together.

The THORNLESS is early, ripens a trifle earlier than the Doolittle; the SENECA ripens about two weeks later than THORNLESS, which makes the season complete in the berry line.

All wishing good, first-class plants of these two valuable berries, can rely on me for them, as I will send out no poor plants.

Send stamp and get my prices, when issued next fall.

My soil enables me to grow plants equal to any grown in the country, and they are pronounced No. One, by reliable dealers. Yours Truly,

WARREN WIGHT,

Waterloo, Seneca Co., N. Y.

P. S.—Write your name very plain, that there may be no mistake, and send early.

Cash with Order or C. O. D.

J. R. ANDERSON,

WHOLESALE AND RETAIL DEALER IN

Hardware, Stoves,

IRON, STEEL, NAILS, GLASS,

MECHANICS' TOOLS, AGRICULTURAL IMPLEMENTS, CARRIAGE

GOODS, TRIMMINGS, &c. SHOT GUNS & AMMUNITION.

MANUFACTURER AND DEALER IN

TIN, COPPER, & SHEET IRON WARE,

NO. 12 MAIN STREET, LE ROY, N. Y.

Roofing, Spouting and Job Work Done to Order.

JOHN R. ANDERSON.

A L L E N ' S

Patent Corn and Bean Planter.

Is distinguished from all others in its mechanical arrangement, and the

POSITIVE CERTAINTY OF ITS WORK.

This Machine has been thoroughly and triumphantly tested, and its superiority is not a matter of opinion or question. We have the most reliable certificates to this effect.

The certainty and delicate accuracy with which this Machine drops the Grain, is the admiration of all who have witnessed its work.

It is Simple—Durable—Not Liable to get out of Order—

IS VERY CHEAP—Requires Little Power—Is

Easily Managed—and is the

GRAIN PLANTER OF THE AGE.

The most liberal terms will be given to those who wish to order Machines,
or Purchase County or State Rights.

For further information, address, E. C. ALLEN, Patentee,

Dodge & Lord,
 MANUFACTURERS OF
MELODEONS
 AND
REED
Organs,

Of every description and in the various styles of finish, and containing all modern patent improvements known to the trade, such as TREMOLO, SUB-BASS, COMBINATION VALVE, PATENT KNEE SWELL AND OCTAVE COUPLER. Styles adapted to the **PARLOR, SCHOOLS, CHURCHES, LECTURE ROOMS AND LODGES**, and containing from one to four Sets of Reeds, or more, as desired.

The usual discount to clergymen, churches and the trade. Also retail customers will here find the advantages of cheapness of material and light expenses, as compared with those of city manufacture. All work warranted first-class, and for a term of FIVE YEARS. Factory, Hintermister Block, 21 State St., opposite Watkins' Exchange,

PUBLISHER'S NOTICES.

T. Harlbert, manufacturer of Plows, at the State Street Plow Manufactory, Batavia, N. Y., is prepared to furnish farmers or dealers with almost any desirable style or size of Plows and other articles indispensable to the farmer. There is no better place to purchase any article found at his manufactory. His card appears on page 126. Call and see for yourselves.

Mackey Brothers, dealers in Newspapers, Books, Stationery, Music, &c., No. 44 Main St., Batavia, N. Y., publish a card on page 144. Any publications in the United States or any other part of the world will be furnished to order at short notice. Those who are collecting Foreign or Domestic Postage Stamps or Revenue Stamps will do well to call, as their facilities for obtaining the same are unsurpassed. A Descriptive Price List of American and Foreign Stamps will be sent to any address in the world on receipt of fifteen cents. The *American Journal of Philately*, an Illustrated Magazine for Stamp Collectors, can be procured of Mackey Brothers. Give them a call.

Batavia Marble Works, Joseph Hamilton, proprietor, No. 24 Main St., Batavia, N. Y. This is one of the oldest establishments of the kind in Genesee Co., and we take pleasure in calling the attention of our readers to it, believing that in doing this we are conferring a favor upon them as well as upon Mr. Hamilton, who has manufactured some of the finest monuments in this part of the State. He keeps a large assortment of Monuments, Head Stones, &c., which he will dispose of at reasonable prices. He has been engaged in the business twenty-two years, during which he has established a reputation second to none in the country. Those wanting anything in his line will do well to call. His advertisement appears on page 148.

C. L. Carlton & Co., manufacturers of Carriages, Buggies, &c., LeRoy, N. Y., advertise on page 144. This firm have recently been burned out, but are now established in their new quarters where they will be pleased to see their old customers and any others who may favor them with a call. Messrs. Carlton are energetic and enterprising young men and good workmen, and are worthy of a liberal patronage. Give them a call.

H. Andrews, M. D., Bergen, N. Y., publishes a card on page 140. Dr. Andrews is prepared to treat successfully Cancers and Scrofulous diseases of all kinds. Let those suffering give him a call.

A. S. Fisher, Druggist and Apothecary, Bergen, N. Y., publishes a neatly displayed card on page 140. He keeps an excellent assortment of all goods usually found in a first-class Drug store, and sells as low as any dealer in Western New York. For fancy articles or drugs and medicines, give him a call if you would consult your own interest.

The Republican Advocate, published at Nos. 55 and 57 Main St., Batavia, N. Y., by D. D. Waite, is one of the oldest as well as one of the best conducted papers in the State. Started nearly sixty years ago, it has increased in size to meet the increasing demands upon its columns, and now occupies an enviable position among the local papers of the State. The Job Department has all the facilities for first-class work. See advertisement on page 130.

W. & T. Morton, Merchant Tailors, Lake St., Bergen, N. Y., keep a good assortment of Cloths, Cassimeres and Vestings, which they are constantly making up to suit customers. Those who want a well fitting and substantially made suit, can procure it at this shop at as low a price as in any establishment in this vicinity. See card on page 140.

Dr. H. H. Benjamin, Dentist, Batavia, N. Y., has an office nicely fitted up in the Cobble Stone Block, where he will be pleased to relieve the afflicted, by removing decayed teeth and inserting others after the most approved style. Ether, Laughing Gas or Chloroform administered to patients who desire it. Dr. Benjamin warrants all work intrusted to his care. See card, page 144.

Frank Decot, House and Sign Painter, No. 15 Jackson St., Batavia, N. Y., publishes a card on page 126. Those who wish for elegant signs, or to have their houses painted and grained in the best style of the art, will do themselves a favor by giving Mr. Decot a call.

Corbitt & Bradish, of the Genesee Agricultural Works, Batavia, N. Y., manufacture a great variety of the best Agricultural implements in use in this and adjoining States. Established in 1840, it has been constantly adding to the number and variety of articles until there is no place in the County where farmers can so readily procure everything needed for the cultivation of their farms. Read his advertisement on page 122.

M. Dalley, dealer in Groceries, Nos. 28 and 30 Main St., Batavia, N. Y., keeps a good stock of Crockery, Stone and Wooden Ware, in addition to his large and well selected stock of Groceries. These goods will be sold for cash or exchanged for all kinds of farm produce, or cash will be paid as may suit the customer. His card appears on page 112. Give him a call.

C. H. Kirkham, dealer in Boots and Shoes, No. 74 Main St., Batavia, N. Y., has one of the largest and best selected stocks of goods to be found in Genesee County. He understands the true secret of success in business, namely, keep what the people want and sell so low that they will never leave his store for better bargains. Call and see for yourselves. His advertisement appears on page 112.

PUBLISHER'S NOTICES.

The Progressive Batavian, published by R. S. Lewis, at Batavia, N. Y., is an enterprising paper devoted to the best interests of the county, and ready to advocate every just and laudable measure calculated to promote the welfare of the public. The Job Department is furnished with a well selected assortment of type for executing all kinds of work. See advertisement on page 184.

L. R. Bailey, Merchant Tailor, Batavia, N. Y., is daily giving *fits* to scores of customers, and yet they return for more, knowing that there is no place outside of New York City where all kinds of Cloths and Clothing for men's and boys' wear can be purchased on more reasonable terms. If you wish a complete outfit give him a call. While he keeps the best of goods he is not unmindful of those who wish cheaper goods for common wear. Read his advertisement on page 116 and then call at his store and see if the picture is over-drawn.

G. M. Janes, dealer in Books, Stationery, Pictures, Frames, Paper Hangings, &c., No. 78 Main St., Batavia, N. Y., publishes a finely illustrated advertisement on page 122. It would be useless for us to attempt to enumerate the articles, useful and ornamental, that furnish this store; let it suffice therefore to say that he will furnish you with anything in the line of Books, Stationery, Musical Instruments, Pictures, Frames or fancy articles, to be found in the country. Give him a call.

Miss L. Jerome, Milliner, No. 100 Main St., Batavia, N. Y., publishes a card on page 108. Ladies visiting this establishment will see so many beautiful styles and patterns that they will be at a loss to decide which to take. Give her a call for anything usually found in a first-class shop.

Agar & Parker, Grocers and Provision dealers, No. 64 Main St., Batavia, N. Y., keep a good assortment of choice family goods which they are selling at prices as low as the lowest. Their stock of Confectionery and Foreign and Domestic Fruits is large and cannot fail to suit their customers. Those having farm produce to dispose of will find a ready market and the highest cash price at this place. Since printing their advertisement the name of the firm has been changed to Agar Bros., Mr. Parker retiring from the firm. See advertisement on page 108.

Thomas McKenzie & Co., dealers in Lumber, Shingles, Sash, Blinds, &c., Bergen, N. Y., advertise on colored page 118. Their stock is large and contains every variety needed for building purposes. By strict attention to business and to the wants of their patrons they have gained the confidence of the public. As building contractors they have no superiors in this region, having special facilities for executing all work intrusted to them.

Warren Burlingame, Gunsmith, Alabama Center, N. Y., advertises on page 108. Mr. B. is prepared to manufacture to order all kinds of Rifle and Shot Guns in the best manner. Those in want of a tip top gun, one that is sure fire and sure to kill every time, will do well to give him a call. Repairing of all kinds done in the best manner.

Henry W. Hall, dealer in Drugs, Medicines, Paints, Oils, &c., advertises on colored page 136. Mr. Hall buys his goods for cash and can sell at lower rates than those who purchase on credit. He selects his goods with great care, and all his customers may depend on getting as pure an article as can be found. His place of business is at No. 48 Main St., Batavia.

The Western New York Life Insurance Company, Batavia, N. Y., advertised on page 117, is a home institution, having among its Directors some of the most reliable business men of this and adjoining counties. Every *right-minded* man, who has a family depending upon him, and who has not the means to provide a comfortable support for them should he be taken away suddenly, will see the necessity of having his life insured, and the only question with him will be as to the company. The Western New York insures all desirable forms of Policies, and the known integrity of its Directors is a sufficient guarantee that the business of the Company will be faithfully attended to.—James M. Showerman is the General Agent.

R. O. Holden, Wholesale and Retail dealer in Foreign and Domestic Dry Goods, No. 85 Main Street, Batavia, has been engaged in business here for 31 years, and has increased his trade from \$10,000 to over \$100,000 a year. This large cash capital gives him an advantage over smaller dealers, and his motto, "Quick Sales and Small Profits," is duly appreciated by his old customers and is constantly adding to his already large trade. By strict integrity and attention to the wants of his customers he has established his business on a firm basis. See advertisement on colored page 2.

Le Roy Academic Institute, though young in years, has taken its place among the first class schools of the State, and bids fair to occupy a position second to none. Males and females are admitted to the same course of study. See advertisement on page 176.

L. Davis & Son's Hoop Skirt and Corset Manufactory, No. 116 Main Street, Batavia, N. Y., still attracts the attention of the fair ones who wear these *necessary* articles of female apparel. The best materials are used and the work is unsurpassed. Messrs. D. & Son keep a general assortment of ladies' furnishing goods which will be sold as cheap as goods of like quality any where in the County. See card, page 175.

PUBLISHER'S NOTICES.

The Spirit of the Times, published at Batavia, N. Y., by Henry Todd, is one of the oldest papers in the County, having been established in 1819. It is a live newspaper and gives its readers the fresh thoughts of its editor upon all topics of general interest to its readers. For doing all kinds of Job work in the best and most expeditious manner, it has no superior in the County. See advertisement on page 200.

Wiard's Agricultural Works, Oakfield, Genesee Co., N. Y., are advertised on page 196. Machinery has become as essential to the farmer as to the manufacturer, and the question, "Shall I buy a machine?" is not asked, but, "Where can I get the best?" To the inhabitants of Genesee Co. Wiard's Works offer superior inducements to those who wish for Plows, Grain Drills, Cultivators, &c. Mr. W. warrants all machines and sells on reasonable terms.

Elba Mills, advertised on page 196, have recently been furnished with the most improved machinery, and are now turning out choice Family Flour. Mr. Whitney, the proprietor, is prompt and reliable and will fill all orders at reasonable prices. Farmers will find this a good place for custom grinding of all kinds.

Wilson House, Main Street, Batavia, N. Y. This Hotel has just been built and fitted up with new furniture throughout, and now offers accommodations unsurpassed by any Hotel in the County. The table is furnished with the best the market affords, and with good cooks, he must be dainty indeed who cannot satisfy the demands of appetite at the table. Under the management of Mr. H. W. Mosman, the gentlemanly landlord, we predict for the House a prosperous career. A free Omnibus conveys passengers to and from all trains. We can cordially recommend this House to all who have occasion to stop in Batavia. See advertisement on colored page 135.

James Annin, dealer in Watches, Jewelry, Silver Plated Ware, Fancy Goods, &c., south side of Main St., LeRoy, N. Y., advertises on page 208. If your Watch needs repairing Annin is the man to do it, or, what would suit him better, he will sell you a good Gold or Silver Watch on favorable terms. If your Table Cutlery wants replenishing, he will sell you a set that cannot be beat in Genesee County. If any one doubts the statement, let him call and see for himself.

E. L. & G. D. Kenyon, dealers in Groceries and Provisions, No. 72 Main St., Batavia, N. Y., are prepared to supply their customers with a choice selection of the best goods at the lowest living rates. Messrs. Kenyon keep a general assortment of all goods usually found in such a store. Let those who have occasion to patronize such a store call and see for themselves. Their advertisement appears on page 136.

Frank L. Stone, Physician and Surgeon, Stafford, Genesee Co., N. Y., publishes a card on page 192. The afflicted will find him ready at all times to relieve their wants. If you must employ a Doctor give him a call.

Henry Phelps, manufacturer of Carriages and Wagons of all kinds, Corfu, N. Y., publishes an advertisement on page 192. Mr. Phelps keeps a good assortment of his own manufacture and makes to order all kinds, from the best materials. All who deal with him will find an honest reliable man who will use his best endeavors to render his work satisfactory. Give him a call.

Hamilton & Palmer, manufacturers of the "Cleansing Soap" and various other articles of use for the family and the toilet, advertise on page 192. Those who deal directly with the manufacturers will get the genuine article at a lower rate than if purchased of others. Orders addressed to East Pembroke, Genesee Co., N. Y., will receive prompt attention. See card, page 192.

Ingham University for Young Ladies, Le Roy, N. Y., is an old and well established institution, whose influence extends throughout the country. Mrs. Staunton, one of the founders, still continues to exercise supervision over it, assisted by an able corps of teachers. Those who wish to send their daughters where they will receive thorough instruction in every department, and at the same time be under a kind, parental and christian influence, cannot do better than send them to this University. The Art Department, which has hitherto held so high a rank, still maintains its rank among the best in the country. See advertisement on page 164.

Fisher's Coffin and Furniture Rooms, No. 2 Gray's Block, Le Roy, are supplied with a well selected assortment of all goods in his line, from plain and cheap to ornamental and costly, so that all classes of customers can be accommodated. Mr. Fisher will attend to all branches of the Undertaking business at short notice. Give him a call. See card, page 160.

S. C. Kelsey, dealer in Gents' Furnishing Goods, Cloths, Cassimeres and Ready Made Clothing, No. 18 Main Street, Le Roy, N. Y., advertises on page 160. Those in want of any goods in this line will find no larger or better selected stock from which to make their selection than at Kelsey's. Suits got up to order and fits warranted. Call and see.

E. B. French & Co., Coopers, Elba, N. Y., advertise on page 156. In addition to the general cooping business they keep a full supply of dry Staves, Heading, Hoops and Barrels, which will be sold at prices to suit customers. All patrons can rely upon getting first class work. Call and see.

Wood, William, (Stafford,) lot 151, farmer 180.
 WRIGHT, JAMES H., (Morganville,) lot 186, farmer 108.

Young, William W., (Morganville,) patent right dealer.

 COLE, FERNANDO D., (Alexander,) harness maker.
 Conant, Lewis, (Alexander,) farmer 1.
 Coon, Phillip, (Alexander,) lot 8, farmer 180.

PUBLISHER'S NOTICES.

The LeRoy Gazette, published by C. B. Thompson, LeRoy, N. Y., is advertised on page 168. This sheet has been before the people too long to need any recommendation. It has been in the hands of the present proprietor thirty years, during which it has instructed the ignorant, cheered the desponding and been generally useful in promoting the interests of the people. Let those who want a good family paper send two dollars and receive it for one year.

Eagle Hotel, LeRoy, N. Y., has recently been purchased by Edward Search, and has been thoroughly renovated and refurnished. This Hotel is pleasantly situated in the business part of the village, and will be found a pleasant resort for travelers, pleasure seekers and commercial agents. LeRoy is one of the most pleasant and healthy localities in Western New York, and a sojourn of a few days or a few weeks at the Eagle Hotel, whose table is loaded with the best the market affords, and whose gentlemanly and obliging landlord will do his best to supply every want, cannot fail to make the traveler feel at home. A carriage is in readiness at all times to convey passengers to and from all trains. See advertisement on page 180.

J. R. Anderson, dealer in Stoves, Hardware, Iron, Steel, &c., No. 12, Main Street, LeRoy, N. Y., advertises on page 172. We commend this store to all who are in want of mechanics' tools, agricultural implements, carriage trimmings, or anything usually found in a first-class Hardware establishment, feeling confident that Mr. Anderson will satisfy all the reasonable demands of his customers.

F. W. Munson, Photographer, over No. 16 Main Street, LeRoy, N. Y., has on exhibition some of the best specimens of the art to be found in the country. From a thorough acquaintance with the business in all its details he is able to produce all styles of pictures known to the art, at prices as low as the lowest. Give him a call. His card appears on page 176.

Thomas Ladd & Son, manufacturers of Wagons and Carriages, LeRoy, N. Y., advertise on page 180. Those who want a good substantial and elegant wagon or carriage will have their wants supplied by calling on Ladd & Son. Their materials are selected with care and the work done in the best manner.

Tryon & Main, dealers in Drugs, Chemicals, Surgical Instruments, Books, Stationery and Fancy Goods, No. 57 Main St., Batavia, N. Y., advertise on page 148. The proprietors have been engaged in the business since 1851, and a thorough acquaintance with all its details, enables them to supply the wants of the community on as reasonable terms as any firm in the Country. Give them a call.

G. B. Worthington, dealer in Hardware, Iron, Steel, Nails, &c., No. 86 Main Street, Batavia, N. Y., advertises on page 152. He keeps a general assortment of Builders' Hardware, Paints, Oils, Varnish, Farming Implements, Mechanics' Tools, Carriage Trimmings, Bent Stuff and Saddlery Hardware. The latest styles of Heating, Cooking and Parlor Stoves and Furnaces may always be found at his establishment. Tin, Sheet Iron and Copper Ware of all kinds manufactured and sold on reasonable terms. Mr. W. has been in the same business since 1836, is fully competent to judge of the wants of the community and able to supply them. Read his advertisement and then call on him for anything in his line.

Howe's Never-Falling Ague Cure and Tonic Bitters, and Howe's Concentrated Syrup, are prepared under the personal supervision of Dr. C. B. Howe, the proprietor, at Seneca Falls, N. Y., for ague and fever, and all periodic diseases, rheumatism, paralysis, etc. The "Ague Cure" has produced wonderful cures. The "Syrup," for the blood, liver, skin, digestive and uterine organs, has cured many cases of scrofula, cancer, tumors, goiter, salt rheum, scaldhead, and many other diseases too numerous to mention in this place. See card, page 20.

Improved Gerard.—Read the advertisement headed "The celebrated Oroide Watch." The advertisers (Messrs. James Gerard & Co.) are actually selling these Watches at twelve dollars, fifteen dollars, and twenty dollars each; and that they strictly RESEMBLE gold we know—that they wear like gold, a friend of ours, who has WORN ONE SIX MONTHS, assures us; and that they are, therefore, (in the words of the advertisement,) "as good as gold, in all respects, except intrinsic value." we have reason to believe. Every watch is GUARANTEED by special certificate.—*Elizabeth (N. J.) Journal*. See card, page 20, also on map.

Charles H. Bannister, manufacturer and dealer in Lever Pumps, Duguid's Mills, Le Roy, publishes a card on page 156. These pumps, for durability and convenience, are unsurpassed by any of the kind in these parts. Give him a call.

Allen's Corn and Bean Planter, advertised on page 172, supplies a want that has long been felt by farmers. While we have had planters and seed sowers possessing some merit, they have hitherto all possessed some marked defects, to obviate which Mr. E. C. Allen, of Le Roy, invented his unrivaled machine. While many machines work well in theory they fail in practice. But this has stood the test of trial and stands forth as the best and most reliable Planter in the market. Let the farmers try it.

BUSINESS ESTABLISHED IN 1828.

THE GLEN & HALL Manufacturing Company.

WORKS ON EAST AVENUE,
SALES ROOM, - SOUTH WATER STREET,
ROCHESTER, N. Y.

MANUFACTURE THE CELEBRATED

Hall Thrashing Machines,
AND
HORSE POWERS!
COMBINED CLOVER THRASHERS,
Hullers and Cleaners,
"Farmers' Favorite" Grain Drills, &c.

Our Thrashing Machines and Horse Powers are so well known, and have proved so far superior to all others, that we deem it only necessary to mention them.

Our Clover Machine, commonly known as "Collins & Shattuck's," has proved equally superior, and so great is our confidence in it that we warrant it to give satisfaction to purchasers.

The "Farmers' Favorite" Grain Drill, is the most perfect implement ever offered to the Farmers of Western New York. It is the only Drill having separate sets of distributors for Coarse and Fine Grain. This feature has proved indispensable to accurate sowing.

We WARRANT it to sow Wheat, Rye, Barley, Oats, Corn, Peas, or other Grains, evenly and in any desired quantity without injuring any seed. If it fails in any respect it may be returned and the money paid will be returned.

We have full sets of patterns and pay special attention to supplying *Repairs for all Hall Machines in use*, including those made by the late Joseph Hall, Glen & Hall, ourselves or others.

ALL OUR WORK IS FULLY WARRANTED.

Catalogues and Price Lists of Machines and Repairs sent FREE to all applicants.

Address: *The Glen & Hall Manufacturing Co., Rochester, N. Y.*

ADDITIONAL STATISTICS FROM CENSUS OF 1865.

In addition to the above extracts we give the following totals for the County, as per returns for the several heads mentioned:—

Cash Value of Farms, 1865, \$16,283,072; of *Stock*, 1865, \$2,081,311; of *Tools and Imple- ments*, 1865, \$480,221; *Acres Plowed*, 1865, 57,397; *Tons of Hay*, 1864, 377,644½; *Winter Rye*, bushels harvested in 1864, 5,687; *Barley*, bushels harvested in 1864, 91,896½; *Flax*, acres sown in 1865, 46½; *Pounds of Lint*, 1864, 3,262; *Honey*, pounds collected in 1864, 13,916; *Working Oxen*, number in 1865, 397; *Neat Cattle*, number killed for beef in 1864, 1,573; *Swine*, number of pigs in 1865, 9,596; one year old and over, 1865, 11,785; slaugh- tered in 1864, 11,785; pounds of pork made, 1864, 2,635,625; *Wool*, pounds shorn, 1865, 665,214; *Sheep*, number of lambs raised, 1865, 48,716; number killed by dogs, 1864, 389; *Poultry*, value owned, 1865, \$26,181.60; value of eggs sold in 1864, \$23,134.41; *Fertilizers*, value bought, 1864, \$17,581.45; *Domestic Manufactures*, 1864, yards of fulled cloth, 416; yards of flannel, 1,418½; yards of linen, 801; yards of cotton and mixed goods, 451; *Apples*, number of trees in fruit, 1864, 222,054; barrels of cider, 1864, 7,568.

Important Knowledge.—As music is now an indispensable necessity in every household, any reliable information is valuable as to the best place to buy musical instruments. We have been acquainted for years personally with the firm of Redington & Howe, and have known of their business facilities. We know that no House between New York and Chicago can compete with them successfully, as their facilities are unequalled. In addition to the immense capital at their control, they have special contracts with several leading first-class manufacturers, whereby they buy cheaper than any other dealers in the United States anywhere. Their immense trade requires only a small profit on each one of their many transactions to ensure them a handsome income. Their terms are most highly liberal. And another important consideration is that their treatment of their customers is perfectly honorable, a very important matter in the purchase of such a complicated affair as a musical instrument. Their recommendation of instruments can be depended on implicitly.— This we know from an extensive acquaintance among hundreds to whom they have sold instruments. We advise our readers to give them a call, or certainly to write to them before deciding on the purchase of a Piano Forte, Organ or Melodeon, or any musical merchandise. See card on Co. Map.

Warren Wight, Propagator and dealer in the celebrated *Seneca Black Cap* and Davison's Thornless Raspberries, Grape Vines, Strawberries, and other small fruits, at Waterloo, Seneca Co., publishes a card on page 164. His experience in the business is large, and his soil is excellent, probably no better can be found in the State for the purpose he uses it. We advise our friends to peruse his advertisement and purchase their supplies of him. He uses great care in packing for shipment, and sends out none but first-class plants. It would do no harm to address him for a circular, and might be the means of affording you an abundance of his delicious fruits.

Attention is specially directed to the large and extensive stock of goods offered by **Wisner & Palmer**, 33 State street, Rochester, N. Y. This old established House is among the largest in their line in this country. They spare no pains or expense to get the latest and most stylish patterns of French China, White Granite Ware, Kerosene Lamps and Chandeliers, Cutlery, Britannia, Silver Plated Ware and House Furnishing Goods. They have just opened an immense stock of the celebrated makes of Haviland's French China, direct from Limoges, France, Alcock's "Sydney" Pattern of White Granite, Edwards' "Porcelain De Terre," White Granite. These White Granite Goods are the choicest goods made, and can hardly be told from French China. Their Lamps and Chandeliers, of Tucker & Co., and Bradley & Hubbard's make, are elegant Bronzed Goods and the "Perfection of art." Cutlery in Cocoa wood, Ebony, Bone, Ivory and Pearl Handles, from the best American and English manufactories. Britannia and Silver Plated Ware, from the "Wilcox" Meriden Britannia Co., and Rogers Bro's., cannot be excelled for beauty and quality. This firm also deals in all reliable makes of "Fruit Jars," and do an immense business in this line from Boston, Mass., to Memphis, Tenn. To the trade they guarantee their prices to be as low as offered by any responsible House in America. We would say to our readers, if you would "consult your interests," call on Wisner & Palmer before you make your purchases. See advertisement at bottom of map.

Chas. Tremain & Co., manufacturers of Rag, Book, News, Tea and Wrapping Paper, at Manlius, publish a card on page 188. Publishers and paper dealers will find them fair and honorable men to purchase from. In the manufacture of book and news, they use only domestic stock, which is conceded to be superior to imported rags. They employ experienced paper makers only, and having improved machinery, they can insure a superior article in all cases.

BOYCE & FISHER, CARRIAGE BUILDERS,

AND MANUFACTURERS OF ALL KINDS OF

AGRICULTURAL IMPLEMENTS.

OLD PLOWS, CULTIVATORS, &c.,

Fitted up with New Castings and made as good as new.

The Reynold's Steel Tempering Works, Reynolds, Barber & Co., Proprietors, at Auburn, are largely engaged in the manufacture of Reaper and Mower Knives, Plane Irons, Chisels &c. The process by which they temper steel is a peculiar one, and as patented by Mr. Reynolds, is the result of over forty years labor. This gentleman always worked on the plan that tempering steel was simply changing it from a *fibrous* to a *granular* state. He certainly has succeeded in producing a finer granulation (temper) than has ever before been produced. Messrs. Reynolds, Barber & Co., control the patents for these processes, and are applying them successfully in all their manufactures.— Their establishment is capable of turning out an immense amount of work, yet their orders are now, and have been for some months, accumulating far in advance of their present ability to supply; a circumstance which they will not long allow to be the case. We predict that the time is not far distant when all Mower and Reaper Factories and farmers will use their improved sections. See their advertisement on page 14, fronting the Introduction.

Dodge & Lord, manufacturers of Melodeons and Reed Organs, at Ithaca, N. Y., were formerly connected with Syracuse manufactories. They have since moved their business where lumber is cheap, and expenses less than in the larger

cities, like New York, Boston, Albany or Syracuse. The styles of their organs are particularly their own, possessing all modern improvements, and some unknown to other manufacturers. They have found market for their instruments in every county of the State, and in Northern Pennsylvania and New Jersey, and have an increasing trade with the West, in all of which places they are brought into successful competition with the first Eastern manufacturers. They are both practical men, and have secured workmen of long experience and tried abilities. Situated midway between the Erie and N. Y. C. railways, they can ship conveniently to all parts of the country. See card, page 188.

Hiram Curtis, manufacturer of Agricultural Implements, Albion, N. Y., advertises on colored page 227. Mr. Curtis manufactures a variety of Implements, including the *Buckeye Mower* with improved *Self Rake*. The farmers of Genesee County will find it for their advantage to purchase of Mr. C. or his agents, as any part can be obtained at short notice.

D. F. Bishop, M. D., Lockport, N. Y., advertises on page 156. It is with pleasure that we are permitted to call the attention of those afflicted with Cancer, to Dr. Bishop's mode of treatment.— Past success is the best recommendation that can be given in favor of his mode of treatment.

ADVERTISEMENTS.

The firm of Agar & Parker, (Batavia,) has been changed to Agar Bros., since their advertisement was printed, Mr. Parker has retired from the firm.

Dr. J. B. Henion, No. 22 and 24 North St. Paul Street, Rochester, N. Y., advertises on page 134. It is with pleasure that we call the attention of our subscribers to the Doctor's advertisement, believing that we are thereby rendering essential service to the afflicted by informing them where they will find relief. To be convinced that the Dr. performs what he promises, a person has only to look into his office and see the crutches, canes, &c., left there by those who have been so far benefited as to have no further use for such assistance. We would say to all who need medical advice, that Dr. Henion is prepared to give it, and to render essential aid in all cases where there is any hope of relief. If their case is past hope the Dr. will be honest and tell them so.

A. K. Drury, Photographer, Central Block, Le Roy, N. Y., has rooms well fitted up where he will catch the shadows as they fly and transfer them to paper of the most enduring kind, so when people cease to cast a shadow, their friends can gaze upon the picture with delight. Every thing in the line of Photograph work of the best kind is executed at this establishment. His card appears on page 156.

Boyce & Fisher, manufacturers of all kinds of Carriages, Wagons and Agricultural Implements, Richville, N. Y., publish an advertisement on page 220, in which they give a partial price list of Wagons and Cutters, that all may know whether or not they are prepared to sell lower than any other manufacturer in the County. Farmers and others will consult their own interest as well as that of Messrs. Boyce & Fisher, by calling and examining their stock. They are the agents for the Little Giant Mower and Hand Raking Reaper, one of the best out.

Miller & Foster, Carriage manufacturers, Batavia, N. Y., are engaged in the manufacture of all kinds of Carriages and Sleighs. Their stock is selected with great care, and their personal supervision of the work is an assurance that it will be done in the best manner. They have the facilities for doing all work on as reasonable terms as any establishment in the County. Their stock of finished work on hand is one of the largest and best in this part of the State from which to select a carriage or sleigh. For advertisement see inside first cover.

OF

DRY GOODS AND FANCY GOODS,

AND MANUFACTURERS OF

WOOLEN GOODS,

No. 53 Main Street,

AND

Nos. 1, 3, 5, 7 and 9 North St. Paul Street,

ROCHESTER, - - N. Y.

Having established the most extensive Dry Goods House in the State outside of New York City, we can offer advantages to buyers of Dry Goods unequalled by any other dealers in the country. We import directly and keep constantly on hand full lines of

Broche and Paisley Shawls; Pim Bros. Genuine Irish Poplins,
Black and Colored Silks; Irish Linens and Lace Curtains;
Lupine Merinoes and Alpacas;

Hilgers' Celebrated Broadcloths and Doeskins.

Our stock of the following goods is always full and complete:

Cloaks, Sacques and Mantillas; English, French and American Cassimeres;
Geneese Falls Cassimeres, "our own make;" Mohair and Cashmere Dress Goods;

Shaker and Ebenezer Flannels; White, Scarlet and Opera Wool Flannels;
Damask Table Cloths and Towelings; Napkins, Doylies and Wine Cloths;

Linen Sheetings and Pillow Casings;

3-4, 4-4, 5-4, 6-4, 7-4, 8-4, 9-4, 10-4, and 11-4 Cotton Sheetings;
French, American & Scotch Ginghams; English, French & American Calicoes.

Woolen and Cotton Yarns; Blankets, Quilts and Counterpanes;
Real Laces and Embroideries; Swiss Nainsook and Victoria Muslins;

Fancy Goods and Yankee Notions; Ribbons and Trimmings; Hostery,
Wrappers and Drawers; Balmoral and Hoop Skirts; &c., &c., &c., &c., &c.

Our Jobbing business, which now extends from the Eastern portion of the State to the "Far West," offers inducements to city and country Merchants equal to any house in the United States. In addition to our advantages as Manufacturers and direct Importers, we have the sale of several makes of Brown Cottons and Woolen Mills in this locality.

Price Lists and Samples furnished on application, and orders sent by mail or entrusted to our agents, will receive prompt attention, and Dealers can rely upon purchasing of us the year around

At New York Jobbers' Prices.

HIRAM CURTIS' AGRICULTURAL WORKS!

ALBION, ORLEANS CO., N. Y.

The subscriber, gratified with the generous patronage heretofore bestowed upon him, would respectfully call the attention of the Farmers of Genesee County to the New Implements manufactured by him, which have but recently been presented to the trade. Chief among these Labor-Saving articles, is the

BUCKEYE MOWER!

WITH IMPROVED SELF-RAKE.

Especially constructed for the coming Harvest, warranted to cut a full swath of 5 feet 6 inches, throwing the Grain entirely in rear of the Machine, and out of the way of the next swath; castings strengthened and improved, and the motion materially increased. In fact, we invite the most careful attention to the *Buckeye Harvester*.

If there is no agent in your town, be sure to find one before you purchase, as it is a well known fact that every other agent will assure you "that the Machine he sells, beats the Buckeye." Having always warranted my work, there is no danger of getting an article that does not suit, as all goods may be returned and the money refunded, when they fail to work as stated. Look out for

STEEL PLOWS!

I have devoted a large portion of the last year in getting up a *STEEL PLOW*, which for beauty of design, ease of draft, and excellence of workman-ship, cannot fail to please the most practical plowman. A full assortment of *Plows, Culticators, Harrows, Corn and Shovel Plows, and Plow Trimmings*, and everything in the line of *PIECES for MOWER AND REAPER* Repairs, can always be found at any of my regular agencies, where also may be obtained Circulars of the

STEEL-TOOTH SULKY RAKE,

(Horton's Patent,) for Raking Hay and Stubble. These *RAKES* have a Broad-cast Seed and Plaster Sower combined, which can be attached to the Axle in ten minutes, and are warranted to excel any Sulky Rake in the United States.

HIRAM CURTIS.
