Precise Results Unrivalled in its performance class

Citizen Scale (I) Pvt Ltd is a leading global supplier of Laboratory weighing balance and precision instruments and services. We have strong leadership positions in all of our businesses and believe we hold global market positions in a majority of them. Specifically, we are the largest provider of weighing Balance & instruments for use in pharma, laboratory, industrial and food retailing applications. We are also a leader in analytical instruments, reaction engineering and real-time analytic systems, process analytics instruments and end-of-line product inspection systems. Our solutions are critical in key R&D, quality control and manufacturing processes for customers in a wide range of industries. Our global sales and service network is one of the most extensive in the industry. We have subsidiaries, sales and service operations in 10 countries.

New Citizen Balances will impress you with their excellent performance, delivering accurate results within the shortest possible time, thanks to MonoTech and Perfect Self Automatic Calibration (PSAC).

Laboratory Balances

Pharma - Analytical Laboratory Weighing Balances & Industrial Scales

Easy Data Transfer

Only a single cable is required to transfer balance data to MSEXcel or other Windows application.

No troublesome interface attachment or software installation is necessary. This unique feature makes Citizen balance extremely convenient for data analysis.

EXCELLENT READABILITY

High Contrast Backlit LCD display is exceptionally easy to read under any room lighting conditions.

THE BRILLIANT MONO-TECH

Unique & unequalled high end MONO-TECH technology (Weigh Sensor) to match the highest international standards.

ELECTROMAGNETIC COMPATIBILITY

Metal housing eliminates the effects of thunderstorms or electromagnetic interference from other equipments.

CM SERIES Micro Balances

Pipette

Filter Micro Balance

CITIZEN CM Series is designed to meet the highest requirements for determination of mass. Its built-in system of automatic internal adjustment/calibration maintains excellent measurement reliability and accuracy.

The device comprises two major components (an indicator and a precise mechanical measuring system which are enclosed separately). Such design eliminates an influence of heat sourcing from instrument's electronics on its mechanical components and additionally protects it from shocks and vibrations caused by users operating the instrument. All the elements of a microbalance are made of glass and steel which eliminates an impact of electro statics on weighing process.

- Internal Calibration / Adjustment Inside the balance housing are built in motorized calibration / adjustment weights.

- **iso CAL Perfect Self Auto Calibration** When the ambient temperature changes by a specific value or once a defined time interval has elapsed, it performs External Calibration.
- ISO 8655 & 4787 NABL Micro Pipette standard as per FDA rule compliance.

USP (United States Pharmacopeia) 21CFR Part 11 Compliance Available on Request.

Performance Depending on the installation location and environmental conditions, the value could be higher.

Semi-Micro Balances

CITIZEN Semi-Micro Balances has been designed to meet high requirement for measuring small masses with high readability (d = 1mg). They are equipped with Alpha Numerical display with user menu, and CX Series Semi-Micro range 0.01mg to 220g.

STANDARD FEATURES - CX Series

- Easy to read Large backlite LCD display with A.E.P. (Advanced Eye Protection)
- Standard RS 232 C interface.
- Windows Direct Communication
- Hanger for Below Balance weighing
- **iso CAL Perfect Self Auto Calibration** When the ambient temperature changes by a specific value or once a defined time interval has elapsed, it performs External Calibration & fully automatic Internal calibration with built in motorized calibration weight for CX Series.
- Sensor Type : EMFC
- IP Protection : IP54
- Dye cast aluminium design for long term stability and accurate results
- User selectable stability and filter level
- Spacious draft shield interior
- Improved Repeatability For Better Results
- Statistics & Totalization
- Animal Weighing & Formulation
- Density measurement for solid and liquid [With optional eap. & software]
- Auto Zero tracking
- Spirit leveling : Balance have adjustable feet for maintaining / providing uniform level.

Moisture Analyzer Balances

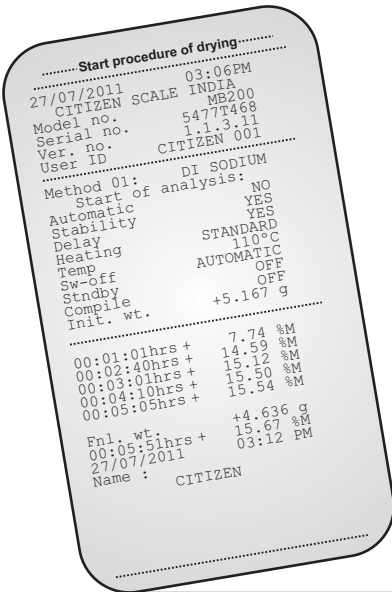

Citizen's New MB Series Moisture Analyzer With HALOGEN Heating is mainly Designed on the basis of Time Saving Factor for universal use in Chemical, Pharmaceutical, Oil, Petroleum Industries also in Material Testing & Environmental Laboratories & in Sewage Treatment Plants.

MB Series is compact in shape & big in performance. It performs all the major Functions of routine moisture analysis with following features.

STANDARD FEATURES

- Data memory up to 1000 data
- Data can be divided in to 40 methods or 100 batches
- User can avail Statistic method or batch wise
- Facility of compile two method
- PS2 Key Board connectivity make it very user friendly operation.
- Password protection prevent unauthorized use of the important setting
- 4 user ID configurable
- ISO/GLP calibration report for weight and temperature, also last successfully calibration report can be avail any time form the memory
- Programmable customize print format
- Alpha numeric keypad makes it easy to enter method name
- Weight in assist helps user to do accurate measurements
- Facility to add any insolvent before actual drying
- Possible to configure stand by temperature between 30°C to 175°C
- Highly flexible display for changing font, background and contrast
- User configurable print interval during the moisture determination
- Auto Off, Auto keypad lock

STANDARD FEATURES

- External calibration
- Easy to read LCD Display.
- Multifunction weighing units.
- RS 232 interface (Standard)
- Stabilization times 3-5 sec.
- ABS housing body with acrylic draft shield for 1mg balances.
- Overload protection design.
- Adjusting Program (CAL). For quick setting of the balance's accuracy External adjusting weight required.
- Auto zero tracking, low battery for continues use.
- S.S. Weighing Pan, level indicator, Quick weighing accurate result.
- In built rechargeable battery for continues use.

CPR 02 SERIES Statistical Data Printer

Date & Time Password Protection

CITIZEN STATISTICAL PRINTER is ideal for routine laboratory application with following features.

ISO/GLP compliant recording capability for printouts.

GLP : Good Laboratory Practice
Password-protected menu lock.

We have the parameter pertaining to the ambient weighing conditions printed before (GLP header) and after (GLP footer) the values of a weighing series. These parameters include:

GLP header :

- Date
- Time at beginning measurement
- Balance manufacturer
- Balance model
- Balance serial number
- Software version number
- Identification number of the current sampling operation

GLP Footer:

- Date
- Time at end of measurement
- Field for operator signature
- ID designations are configured as follows setup: Printout : Identification codes.
- ISO/GLP compliant recording capability for printouts.

Ultrasonic Cleaner/Bath

CUB 5

CUB 10 ~ 30

CITIZEN Ultrasonic units are used in Industrial and Analytical Laboratories. With their high power, optimized parameter settings and strict parameter monitoring and assisted by a large range of useful accessories the ultrasonic units guarantee safe and reliable results for the multifaceted laboratory applications. The **CITIZEN** Laboratory equipment is complete with a full programme of cleaning chemicals developed and produced in our own laboratory.

Application : Laboratory

Get consistent cleaning with every cycle. Our Ultrasonic baths thoroughly remove blood, protein, and contaminants. Use it for everything from glassware to lenses to instruments and precision components.

Beyond Cleaning

CITIZEN ultrasonic cleaners are extremely versatile. They can also be used in laboratory applications for cell separation, mixing emulsifying, sample preparation and degassing of liquids.

Electronics

Get a safe, unwavering cleaning for even the most delicate of components. CITIZEN baths completely remove flux and contaminants from such precision parts as PC boards, SMDs, quartz crystals, capacitors, and many others.

Jewellery

See the difference and performance of CITIZEN ultrasonic baths. Thoroughly clean and restore brilliance to watches, chains and charms, settings, coins, fine

Industrial

The demands of light industrial workflow require an ultrasonic bath that can stand up to the challenge. Our baths are perfect for deep cleaning to remove dirt, grease, waxes, and oils from light industrial parts and components of all kinds - including steel, light & nonferrous metals, plastic and glass. jewellery and clockworks of every type.

Optional : Degas Function available on request.
