

[ornamental grasses]

BRIZA MEDIA

18"h

Part Shade/Sun

Quaking Grass / Rattlesnake Grass

FEATURES: Cool season grass. One of the more dependable grasses with medium green leaves and flowers which resemble tiny rattles and rise on stems 12-18" above the foliage.

USES: Small clumping form, used as an all-purpose grass. Good in perennial gardens, as edging and borders.

TIP: Enjoys moist areas. Cut back several inches from crown to stimulate new growth.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 6
BLOOM SEASON: Apr-Jun
HARDINESS: 5
TRAY SIZE: 128
PRICE CODE: 128D

CALAMAGROSTIS BRACHYTRIA

24-30"h

Part Shade/Sun

Reed Grass

FEATURES: This warm season grass is deep green in color with foliage that turns bright yellow with fall. Flowers start out green, with some pink in late summer, and then turn a wheat color in fall. The flowers of this fall-blooming reed grass are fatter and fluffier than those of other reed grasses.

USES: Will grow in hot areas with some shade. Will grow in shade where grasses like fountain grass will not grow. Goes completely dormant even in mild climates.

TIP: Grows best in moist soil and full sun.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 6
BLOOM SEASON: Late summer to early fall
TRAY SIZE: 128
HARDINESS: 5
PRICE CODE: 128E

CAREX AMAZON MIST

10"h

Full Sun

FEATURES: Milk green-on-green reverse leaves with hanging tussock with twisting tips.

USES: Garden habitat that is moist, well-drained, and full sun. Heat tolerance: medium.

TIP: Avoid extremes in both temperature and moisture.

BREEDER: Kieft-Pro-Seeds
CROP WEEKS: 10
BLOOM SEASON: N/A
HARDINESS: 7
TRAY SIZE: 128
PRICE CODE: 128F

CAREX BRONCO

10"h

Full Sun

FEATURES: A mid-brown-bronze leaf color with hanging tussock.

USES: Garden habitat that is moist, well-drained, full sun. Heat tolerance: medium.

TIP: Avoid extremes in both temperature and moisture.

BREEDER: Kieft-Pro-Seeds
CROP WEEKS: 10
BLOOM SEASON: N/A
HARDINESS: 7
TRAY SIZE: 128
PRICE CODE: 128F

CAREX BRONZITA

16"h

Full Sun

FEATURES: Mid-brown-bronze leaf color with semi-erect tussock. Carex Bronzita is more erect and a bit taller and broader-leaved than Bronco.

USES: Garden habitat that is moist, well-drained, full sun. Heat tolerance: medium.

TIP: Avoid extremes in both temperature and moisture.

BREEDER: Kieft-Pro-Seeds
CROP WEEKS: 10
BLOOM SEASON: N/A
HARDINESS: 7
TRAY SIZE: 128
PRICE CODE: 128G

**CAREX BUCHANANII**

12-24"h

Part Shade/Sun

FEATURES: This New Zealand native grass has showy copper, red-brown leaves. Leaf tips may curl and flowers are inconspicuous. Can grow as high as 3' under ideal conditions.

USES: Great in rock gardens, water gardens, and in containers. Part shade in hot climates. Full sun in coastal areas.

TIP: Likes constant, moist soil that is rocky and drains well. Established grasses can tolerate some drought. May be short-lived (usually around 2-3 years).

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 10
BLOOM SEASON: N/A
HARDINESS: 7
TRAY SIZE: 128
PRICE CODE: 128G

**CAREX COMANS**

20-22"h

Part Shade/Sun

Sedge

FEATURES: Basal grass leaves form tufts of green with sharp edges and triangular stems. Can grow 3-6' under the right conditions.

USES: Borders, watersides, wet areas, low rock gardens, or shade.

TIP: Cut back in spring.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 10
BLOOM SEASON: Jun-Aug
HARDINESS: 7
TRAY SIZE: 128
PRICE CODE: 128G

**CAREX COMANS BRONZE**

12"h

Part Shade/Sun

Bronze New Zealand Hair Sedge

FEATURES: This finely textured grass forms arching mounds with very thin bronze leaves and pale brown spikelets, mostly obscured by bronze foliage.

USES: Rock gardens and in pots. Best in moist areas with fast drainage. Will require some shade in hot climates.

TIP: In cold climates must be brought inside.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 10
BLOOM SEASON: N/A
HARDINESS: 7

PRICE CODE: 128G

**CAREX LURIDA**

12-24"h

Part Shade/Sun

Shallow Sedge

FEATURES: This bunch type species has light green flowers that look spike-like from a distance. Can grow as high as 3' tall.

USES: Likes swamps, bogs and wet meadows.

TIP: Provides food and cover for songbirds, chicks, ducks, moose and anything that survives and lives around wetlands.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 10
BLOOM SEASON: Jun/Jul
HARDINESS: 5
TRAY SIZE: 128
PRICE CODE: 128H

**CAREX MUSKINGUMENSIS**

24"h

Part Shade/Sun

Palm Sedge

FEATURES: Slow creeping grass with palm-frond-looking leaves that get 4-8" long. Plant has a tropical look and is excellent for ground cover in moist, light/shaded areas. Turns yellowish-green in full sun.

USES: Under trees, near ponds, streams or moist banks. Will grow in shallow water 3-4" and in deeper water as it matures.

TIP: Tends to flop in too much shade.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 7
BLOOM SEASON: May/Jun
HARDINESS: 7
TRAY SIZE: 128
PRICE CODE: 128E

CAREX PENDULA

24-30"h

Part Shade/Sun

Drooping Sedge

FEATURES: Semi-evergreen grass with spreading habit. Known for its arching flower spikes and vertical-hanging fruits which last into winter.

USES: Likes the waters edge and does grow in shallow water. It will handle full sun but must stay moist.

TIP: Known as a slow grower.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 9
BLOOM SEASON: Jun-Aug
HARDINESS: 8
TRAY SIZE: 128
PRICE CODE: 128D

CAREX PRAIRIE FIRE

16"h

Full Sun

FEATURES: This semi-erect tussock grass has a green-based leaf color with an orange top that intensifies in summer.

USES: Moist, well-drained garden habitat with full sun. Heat tolerance: medium.

TIP: Avoid extremes in both temperature and moisture.

BREEDER: Kieft-Pro-Seeds
CROP WEEKS: 11
BLOOM SEASON: N/A

**CYPERUS ERAGROSTIS**

12-24"h

Part Shade/Sun

Nutsedge

FEATURES: Pale green clusters with leaves that are as tall as the stem.**USES:** Has great cold tolerance and needs to grow in steady moisture. It is a hardy perennial that is often used in some cut-flower arrangements.**TIP:** Invasive, native weed that can grow in clay or gravel.**DISTRIBUTOR:** Jelitto Seed**CROP WEEKS:** 9**BLOOM SEASON:** Jul-Oct**HARDINESS:** 8**TRAY SIZE:** 128**PRICE CODE:** 128D**CYPERUS GLABER**

12-24"h

Part Shade/Sun

FEATURES: This warm-season clumping grass has light-green foliage that grows upright reaching up to 2' high. It is the hardiest of the papyrus with gold seed heads lasting from May to December.**USES:** Great for pot, tubs, or as a marginal plant.**TIP:** Needs moist soil or boggy conditions and can handle full sun in moist soil.**DISTRIBUTOR:** Jelitto Seed**CROP WEEKS:** 9**BLOOM SEASON:** N/A**HARDINESS:** 8**TRAY SIZE:** 128**PRICE CODE:** 128D**DESCHAMPSIA ZEPHYR**

6-8"h

Part Shade/Sun

FEATURES: This dainty, fine-textured, green grass is well suited as a component in small, mixed containers. Quick and easy to grow, it works well in 4.5" pots and quarts.**USES:** Accent plant, mixed container.**TIP:** Avoid full sun in hot, dry conditions; not recommended for in-ground plantings.**BREEDER:** PanAmerican Seed**CROP WEEKS:** 7**BLOOM SEASON:** N/A**HARDINESS:** 7**TRAY SIZE:** 128**PRICE CODE:** 128F**FESTUCA AMETHYSTINA**

8-12"h

Sun

Sheep's Fescue

FEATURES: Cool season, evergreen grass. Flower spikes 6-12" above foliage turn purple to blue and then dry to a golden yellow as they mature. Prefers cool, moist, well-drained soil in full sun. When planted on a hillside, it looks like it is weeping down the hill.**USES:** Groundcover or as a single accent plant.**TIP:** Rots easily in moist, poorly drained soil. In hot summer, it will grow well along coastal areas but not in hot and humid areas.**DISTRIBUTOR:** Jelitto Seed**CROP WEEKS:** 9**BLOOM SEASON:** May/Jun**HARDINESS:** 5**TRAY SIZE:** 128**PRICE CODE:** 128B**FESTUCA FESTINA**

6"h

Part Shade/Sun

Quaking Grass / Rattlesnake Grass

FEATURES: Clump-forming, dense foliage with blue-green leaf color and upright flower panicles in June.**USES:** Moist, well-drained soil in garden habitat, part shade or full sun. Heat tolerance: medium.**TIP:** Avoid excessive heat.**BREEDER:** Kieft-Pro-Seeds**CROP WEEKS:** 8**BLOOM SEASON:** Jun**HARDINESS:** 4**TRAY SIZE:** 128**PRICE CODE:** 128F

FESTUCA GLAUCA

12-18"h

Sun

Blue Fescue

FEATURES: Cool season grass with shades of blue and gray foliage, which makes it an attractive plant for landscaping. Drought-tolerant in areas that receive only some moisture in the summer.

USES: Borders, edging, as ground cover, and ideal in rock gardens. Prefers moist, well-drained soil in full sun. In hot climates, plant in areas with light shade.

TIP: Trim foliage yearly to keep the clumps clean. Do not cut during hot seasons, and clip 3-4" from the crown. May require replanting after 2-3 years, as it dies out in the center.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 8
BLOOM SEASON: N/A
HARDINESS: 5
TRAY SIZE: 128
PRICE CODE: 128B

FESTUCA OVINA

6-10"h

Sun

FEATURES: This hardy perennial has blue-green foliage with fine texture and dense tufts.

USES: Ground cover and accent plants in gardens. Likes well-drained, moist-to-dry soil. Prefers full sun but will tolerate light shade.

TIP: Helps to repel deer all season. Tends to die out when grown in heavy, poorly drained soil.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 8
BLOOM SEASON: Summer
HARDINESS: 5
TRAY SIZE: 128
PRICE CODE: 128D

FESTUCA SCOPARIA

4-6"h

Part Shade/Sun

FEATURES: Sharp, prickly, bright evergreen foliage that forms dense tight mats. Its needle-like leaves will grow 4-6" tall and are sharp to the touch. Flowers are narrow, greenish spikes that turn to gold as it matures.

USES: Plants prefer well-drained, rocky soil in full sun or partial shade. Somewhat drought tolerant in cooler climates.

TIP: Does not tolerate heavy, moist, wet soils. Has a tendency to die out in center if it is crowded.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 9
BLOOM SEASON: N/A
HARDINESS: 5
TRAY SIZE: 128
PRICE CODE: 128G

HYSTRIX PATULA

8-12"h

Part Shade/Sun

FEATURES: Cool season clumping grass with bristly flower heads that look like bottle brushes and dark, olive-green leaves. Green flowers bloom on a spike 1-2' above foliage. Turns brown in fall as it matures.

USES: Landscaping in part-shade areas.

TIP: Grows in fertile, well-drained soil.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 8
BLOOM SEASON: Jun-Aug
TRAY SIZE: 128
HARDINESS: 6
PRICE CODE: 128I

ISOLEPSIS CERNUA LIVE WIRE

6-8"h

Part Shade/Sun

FEATURES: A unique-looking grass, with a mounded habit and "fiber optic" strands. It grows more upright as a young plant and drapes as it matures.

USES: Well-suited for packs, 4" and 6" containers.

TIP: Performs best in containers when used outdoors. (Sown with one multi-seeded pellet.)

BREEDER: PanAmerican Seed
CROP WEEKS: 8
BLOOM SEASON: N/A
HARDINESS: 6
TRAY SIZE: 128
PRICE CODE: 128G

**JUNCUS INFLEXUS BLUE ARROWS**

36"h

Full Sun

FEATURES: Blue-green foliage with stiff and upright strands. This grass does well in wet areas, but also is drought tolerant once established in the ground.

USES: Bedding, mixed containers, and in the garden.

TIP: Performs as a perennial in USDA Hardiness Zones 5 to 9. (Sown with one multi-seeded pellet.)

BREEDER: PanAmerican Seed

CROP WEEKS: 10

BLOOM SEASON: N/A

LUZULA LUCIUS

16"h

Part Shade/Sun

FEATURES: Loose tufts of light-green leaves with dense, off-white flower clusters 15 cm above foliage in early spring.
USES: Gardens with moist or moderately dry habitat.
TIP: Plant in part shade.

BREEDER: Kieft-Pro-Seeds
CROP WEEKS: 9
BLOOM SEASON: Early Spring
HARDINESS: 6
TRAY SIZE: 128
PRICE CODE: 128F

LUZULA NIVEA

8-12"h

Part Shade/Sun

Snowy Woodrush

FEATURES: Gray-green foliage covered by soft, down hairs. Evergreen foliage forms clumps, and fluffy white flowers emerge on spikes, 12-16" above foliage.
USES: Good ground cover for moist and shady areas or light shade.
TIP: It will burn from full sun in hot areas but performs well on the West Coast in full sun with no shade.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 9
BLOOM SEASON: Jun/Jul
HARDINESS: 6
TRAY SIZE: 128
PRICE CODE: 128D

LUZULA STARMAKER

20"h

Part Shade/Sun

FEATURES: Large tussock, flowering in early spring with dark brown inflorescences 10-20 cm above foliage.
USES: Suitable for most soils, drought tolerant, sun or semi-shade.
TIP: Low heat tolerance.

BREEDER: Kieft-Pro-Seeds
CROP WEEKS: 10
BLOOM SEASON: Early Spring
HARDINESS: 6
TRAY SIZE: 128
PRICE CODE: 128F

MELICA CILIATA

8-12"h

Part Shade/Sun

Hairy Melic

FEATURES: Cool-season grass with gray-green foliage, featuring showy flower spikes that are white and fluffy arching 12-18" above the foliage.
USES: Gardens with moist, well-drained, fertile soil.
TIP: May need to be staked in the landscape.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 8
BLOOM SEASON: Jun/Jul
HARDINESS: 6
TRAY SIZE: 128
PRICE CODE: 128D

**MELINIS NERVIGLUMIS (RYNCHELYTRUM)**

6-12"h

Sun

Savannah

FEATURES: This warm-season grass grows compact tufts of blue-green foliage and shining-pink inflorescences. As summer unfolds to fall, its silky seed heads fade from a deep rose to a delicate pink.

USES: Gardens and borders with a relatively dry soil.

TIP: Protect plants against late frost.

BREEDER: Benary Seed
CROP WEEKS: 7
BLOOM SEASON: Sep/Oct
HARDINESS: 8
TRAY SIZE: 128
PRICE CODE: 128G

**MISCANTHUS SINENSIS**

Sun

Japanese Silver Grass

FEATURES: Clumping, warm-season grass with showy, whisk-like plumes that begin to flower from silver to tan, and then to reddish purple and dry into fluffy heads.

USES: In background of beds in landscapes. Very well suited for water gardens or near ponds and stream sides.

TIP: Plants struggle in hot, humid climates.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 7
BLOOM SEASON: Jul-Sep
HARDINESS: 4
TRAY SIZE: 128
PRICE CODE: 128E

**MISCANTHUS SINENSIS EARLY HYBRIDS**

3-5"h

Sun

Maiden Grass

FEATURES: Medium, green, slender, weeping leaves that turn burgundy and copper color as fall comes, then an almond color by winter. Grass is drought-tolerant and will flop with too much shade and moisture or when the soil is too fertile.

USES: As accents and filler.

TIP: Prefers well-drained soils, but will grow in variety of different soils including clay.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 7
BLOOM SEASON: N/A
HARDINESS: 4
TRAY SIZE: 128
PRICE CODE: 128F

**PENNISETUM ALOPECUROIDES**

36-48"h

Sun

Fountain Grass

FEATURES: Warm-season grass with bright-green foliage that becomes streaked with brown and yellow as it reaches fall. Turns to an attractive straw color by winter. Cream-color of foxtail-like flowers grow 4-10" long and turn a light-pink color.

USES: One of the most versatile grasses, very dependable, and showy. Happiest in moist, fertile soil but tolerates colder climates.

TIP: Does take some shade, but will not bloom much in too much shade.

DISTRIBUTOR: Jelitto Seed
CROP WEEKS: 8
BLOOM SEASON: Jul-Sep
HARDINESS: 7
TRAY SIZE: 128
PRICE CODE: 128I

TRAY SIZE: 72
PRICE CODE: PEN

VEGETATIVE

PENNISETUM RUEPELLII

24-36"h

Sun

FEATURES: Warm-season grass. Clumping, tender, fountain grass that has become a favorite for perennial gardens. The long, slender, pink, showy flowers emerge in May in warm climates and in early summer in cooler climates. The tufts reach 2-3' tall with flowers 1-2' above the foliage. Turn straw-colored before winter.

USES: Likes moist, well-drained, fertile soil but tolerates many different soil conditions. Will grow in heavy clay or almost solid rock. Tolerates shade, but will flop in too much shade.

TIP: Can be an invasive seeder.

BREEDER: Kieft-Pro-Seeds
CROP WEEKS: 5
BLOOM SEASON: May-Oct
HARDINESS: 7
TRAY SIZE: 128
