

Fall 2009 [Ornamental Grasses] Variety List

Briza media

18"h

P. Sh/Sun

Quaking Grass / Rattlesnake Grass

Features: Cool season grass. One of the more dependable grasses with medium green leaves and flowers which resemble tiny rattles and rise on stems 12-18" above the foliage.

Uses: Small clumping form, used as an all purpose grass. Good in perennial gardens, as edging and borders.

Tip: Enjoys moist areas. Cut back several inches from crown to stimulate new growth.

Breeder: Jelitto Seed
 Crop Weeks: 7
 Bloom Season: Apr-Jun
 Tray Size: 128
 Hardiness: 5
 Price Code: 128D

Calamagrostis brachytria

24-30"h

P. Sh/Sun

Reed Grass

Features: This warm season grass is deep green in color with foliage that turns bright yellow with fall. Flowers start out green with some pink in late summer and then turn a wheat color in fall. The flowers of this fall blooming reed grass are fatter and fluffier than other reed grasses.

Uses: Will grow in hot areas with some shade. Will grow in shade where grasses like fountain grass will not grow. Goes completely dormant even in mild climates.

Tip: Grows best in moist soil and full sun.

Breeder: Jelitto Seed
 Crop Weeks: 6
 Bloom Season: Late summer to early fall
 Tray Size: 128
 Hardiness: 7
 Price Code: 128E

Carex 'Amazon Mist'

10"h

Full Sun

Features: Milk green-on-green reverse leaves with hanging tussock with twisting tips.

Uses: Garden habitat that is moist, well drained, and full sun. Heat tolerance: medium.

Tip: Avoid extremes in both temperature and moisture.

Breeder: "Color Grass" Kieft Seeds
 Crop Weeks: 10
 Bloom Season: N/A
 Tray Size: 128
 Hardiness:
 Price Code: 128F

Carex 'Bronco'

10"h

Full Sun

Features: A mid brown-bronze leaf color with hanging tussock.

Uses: Garden habitat that is moist, well drained, full sun. Heat tolerance: medium.

Tip: Avoid extremes in both temperature and moisture.

Breeder: "Color Grass" Kieft Seeds
 Crop Weeks: 10
 Bloom Season: N/A
 Tray Size: 128
 Hardiness:
 Price Code: 128F

Carex 'Bronzita'

16"h

Full Sun

Features: Mid brown-bronze leaf color with semi erect tussock. Carex Bronzita is more erect, a bit taller and broader leaved than Bronco.

Uses: Garden habitat that is moist, well drained, full sun. Heat tolerance: medium.

Tip: Avoid extremes in both temperature and moisture.

Breeder: "Color Grass" Kieft Seeds
 Crop Weeks: 10
 Bloom Season: N/A
 Tray Size: 128
 Hardiness:
 Price Code: 128G

Carex buchananii

12-24"h

P. Sh/Sun

Features: This New Zealand native grass has showy copper, red-brown leaves. Leaf tips may curl and flowers are inconspicuous. Can grow as high as 3' under ideal conditions.

Uses: Great in rock gardens, water gardens, and in containers. Part-shade in hot climates. Full sun in coastal areas.

Tip: Likes constant moist soil that is rocky and drains well. Established grasses can tolerate some drought. May be short-lived (usually around 2-3 years).

Breeder: Jelitto Seed
 Crop Weeks: 10
 Bloom Season: N/A
 Tray Size: 128
 Hardiness: 7
 Price Code: 128G

Tray Size: noted above
 Price Group: noted above

All items subject to availability. Prices may change without notice.

Fall 2009 [Ornamental Grasses] Variety List

Carex comans

20-22"h

P. Sh/Sun

Sedge

Features: Basal grass leaves form tufts of green with sharp-edges and triangular stems. Can grow 3-6 ft under the right conditions.

Uses: Borders, watersides, wet areas, low rock gardens, or shade.

Tip: Cut back in spring.

Breeder: Jelitto Seed
 Crop Weeks: 10
 Bloom Season: Jun-Aug
 Tray Size: 128
 Hardiness: 7
 Price Code: 128G

Carex comans bronze

12"h

P. Sh/Sun

Bronze New Zealand Hair Sedge

Features: This finely textured grass forms arching mounds with very thin bronze leaves and pale brown spikelets, mostly obscured by bronze foliage.

Uses: Rock gardens and in pots. Best in moist areas with fast drainage. Will require some shade in hot climates.

Tip: In cold climates must be brought inside.

Breeder: Jelitto Seed
 Crop Weeks: 10
 Bloom Season: N/A
 Tray Size: 128
 Hardiness: 7
 Price Code: 128G

Carex lurida

12-24"h

P. Sh/Sun

Shallow Sedge

Features: This bunch type species has light green flowers that look spike-like from a distance. Can grow as high as 3 feet tall.

Uses: Likes swamps, bogs and wet meadows.

Tip: Provides food and cover for songbirds, chicks, ducks, moose and anything that survives and lives around wetlands.

Breeder: Jelitto Seed
 Crop Weeks: 10
 Bloom Season: Jun/Jul
 Tray Size: 128
 Hardiness: 6
 Price Code: 128H

Carex muskingumensis

24"h

P. Sh/Sun

Palm Sedge

Features: Slow creeping grass with palm frond looking leaves that get 4-8" long. Plant has a tropical look and is excellent for ground cover in moist, light-shaded areas. Turns yellowish-green in full sun.

Uses: Under trees near ponds or streams or moist banks. Will grow in shallow water 3-4" and deeper water as it matures.

Tip: Tends to flop in too much shade.

Breeder: Jelitto Seed
 Crop Weeks: 7
 Bloom Season: May/Jun
 Tray Size: 128
 Hardiness: 7
 Price Code: 128E

Carex pansa

3-6"h

P. Sh/Sun

California Meadow Sedge

Features: Durable, low sedge, with evergreen foliage in mild climates. Low maintenance.

Uses: Can be used as a lawn substitute or unmowed meadow. Grows well in full sun to partial shade with regular water.

Tip: Prefers sandy, well drained soil. Looks best when kept unmowed with bi-weekly watering.

Breeder:
 Crop Weeks: 8
 Bloom Season: N/A
 Tray Size: 288
 Hardiness:
 Price Code: 288F

Carex pendula

24-30"h

P. Sh/Sun

Drooping Sedge

Features: Semi-evergreen grass with spreading habit. Known for its arching flower-spikes & vertical hanging fruits which last into winter.

Uses: Likes the waters edge and does grow in shallow water. It will handle full sun but must stay moist.

Tip: Known as a slow grower.

Breeder: Jelitto Seed
 Crop Weeks: 9
 Bloom Season: Jun/Aug
 Tray Size: 128
 Hardiness: 8
 Price Code: 128D

Tray Size: noted above
 Price Group: noted above

Fall 2009 [Ornamental Grasses] Variety List

Carex 'Prairie Fire'

16"h

Full Sun

Features: This semi erect tussock grass has a green based leaf color with an orange top that intensifies in summer.

Uses: Moist, well drained garden habitat with full sun. Heat tolerance: medium.

Tip: Avoid extremes in both temperature and moisture.

Breeder: "Color Grass" Kieft Seeds

Crop Weeks: 11

Bloom Season: N/A

Tray Size: 128

Hardiness:

Price Code: 128G

Carex 'Red Rooster'

24"h

Features: Red bronze leaf color with erect and curled tips.

Uses: Moist, well drained, garden habitat. Heat tolerance: medium.

Tip: Avoid extremes in both temperature and moisture.

Breeder: "Color Grass" Kieft Seeds

Crop Weeks: 10

Bloom Season: N/A

Tray Size: 128

Hardiness:

Price Code: 128F

Corynephorus 'Spiky Blue'

8"h

Features: Tufts of fine spiky blue green leaves.

Uses: Containers, gardens. Heat tolerance: medium.

Tip: Best in sandy soil with little lime in full sun.

Breeder: "Color Grass" Kieft Seeds

Crop Weeks: 5

Bloom Season: N/A

Tray Size: 128

Hardiness:

Price Code: 128E

Cyperus alternifolia 'Wild Spike'

n/a

Features: The Umbrella Plant is semi-aquatic and requires a very moist soil and a medium light exposure.

Uses: Houseplant, sometimes grown with the pot standing in a container of water.

Tip: Temperatures cannot reach below 55 degrees. Re-pot in March if needed.

Breeder: Sakata

Crop Weeks: 7

Bloom Season: N/A

Tray Size: 128

Hardiness: 8

Price Code: 128G

Cyperus eragrostis

Nutsedge

12-24"h

P. Sh/Sun

Features: Pale green clusters with leaves that are as tall as the stem.

Uses: Has great cold tolerance and needs to grow in steady moisture. It is a hardy perennial that is often used in some cut flower arrangements.

Tip: Invasive native weed that can grow in clay or gravel.

Breeder: Jelitto Seed

Crop Weeks: 9

Bloom Season: Jul/Oct

Tray Size: 128

Hardiness: 8

Price Code: 128D

Cyperus glaber

12-24"

P. Sh/Sun

Features: This warm season clumping grass has light green foliage that grows upright reaching up to 2' high. It is the hardiest of the papyrus with gold seed heads lasting from May to December.

Uses: Great for pot, tubs, or as a marginal plant.

Tip: Needs moist soil or boggy conditions and can handle full sun in moist soil.

Breeder: Jelitto Seed

Crop Weeks: 9

Bloom Season: N/A

Tray Size: 128

Hardiness: 8

Price Code: 128D

Tray Size: noted above
Price Group: noted above

Fall 2009 [Ornamental Grasses] Variety List

Deschampsia Zephyr

6-8"h

P. Sh/Sun

Features: This dainty, fine textured green grass is well suited as a component in small mixed containers. Quick and easy to grow it works well in 4.5" pots and quarts.

Uses: Accent plant, mixed container.

Tip: Avoid full sun in hot, dry conditions; not recommended for in-ground plantings.

Breeder: PanAmerican Seed

Crop Weeks: 7

Bloom Season: N/A

Tray Size: 128

Hardiness: 7

Price Code:

Festuca amethystina

8-12"h

Sun

Sheep's Fescue

Feature: Cool season, evergreen grass. Flower spike 6-12" above foliage turn purple to blue and then dry to a golden yellow as they mature. Prefers cool, moist, well drained soil in full sun. When planted on a hillside it looks like it is weeping down the hill.

Uses: Groundcover or as a single accent plant.

Tip: Rots easily in moist, poorly drained soil. In hot summer it will grow well along coastal areas but not in hot and humid areas.

Breeder: Jelitto

Crop Weeks: 8

Bloom Season: May/Jun

Tray Size: 128

Hardiness: 5

Price Code: 128B

Festuca 'Festina'

6"h

Feature: Clump-forming dense foliage with blue-green leaf color and upright flower panicles in June.

Uses: Moist well drained soil in garden habitat, part shade, or full sun. Heat tolerance: medium.

Tip: Avoid excessive heat.

Breeder: "Color Grass" Kieft Seeds

Crop Weeks: 8

Bloom Season: June

Tray Size: 128

Hardiness:

Price Code: 128F

Festuca glauca

12-18"h

Sun

Blue Fescue

Features: Cool season grass with shades of blue and gray foliage which makes it an attractive plant for landscaping. Drought tolerant in areas that receive only some moisture in the summer.

Uses: Borders, edging, as ground cover and ideal in rock gardens. Prefers moist well drained soil in full sun. In hot climates, plant in areas with light shade.

Tip: Trim foliage yearly to keep the clumps clean. Do not cut during hot seasons and clip 3-4" from the crown. May require replanting after 2-3 years as it dies out in the center.

Breeder: Jelitto

Crop Weeks: 8

Bloom Season: N/A

Tray Size: 128

Hardiness: 5

Price Code: 128B

Festuca ovina

6-10"h

Sun

Features: This hardy perennial has blue-green foliage with fine texture and dense tufts.

Uses: Ground cover and accent plants in gardens. Likes well drained, moist to dry soil. Prefers full sun but will tolerate light shade.

Tip: Helps to repel deer all season. Tends to die out when grown in heavy, poorly drained soil.

Breeder: Jelitto Seed

Crop Weeks: 8

Bloom Season: Summer

Tray Size: 128

Hardiness: 5

Price Code: 128D

Festuca scoparia

4-6"h

P. Sh/Sun

Features: Sharp, prickly, bright evergreen foliage that forms dense tight mats. Its needle-like leaves will grow 4-6" tall and are sharp to the touch. Flowers are narrow, greenish spikes that turn to gold as it matures.

Uses: Plants prefer well drained rocky soil in full sun or partial shade. Somewhat drought tolerant in cooler climates.

Tip: Does not tolerate heavy, moist, wet soils. Has a tendency to die out in center if it is crowded.

Breeder: Jelitto Seed

Crop Weeks: 9

Bloom Season: N/A

Tray Size: 128

Hardiness: 5

Price Code: 128G

Tray Size: noted above

Fall 2009 [Ornamental Grasses] Variety List

Hystrix patula

8-12"h

P. Sh/Sun

Features: Cool season clumping grass with bristly flower heads that look like bottle brushes and dark olive green leaves. Green flowers bloom on a spike 1-2' above foliage. Turns brown in fall as it matures.

Uses: Landscaping in part-shade areas.

Tip: Grows in fertile well-drained soil.

Breeder: Jelitto Seed
 Crop Weeks: 8
 Bloom Season: Jun/Aug
 Tray Size: 128
 Hardiness: 6
 Price Code: 128I

Isolepis cernua 'Live Wire'

6-8"h

P. Sh/Sun

Features: A unique looking grass, with a mounded habit and "fiber optic" strands. It grows more upright as a young plant and drapes as it matures.

Uses: Well suited for packs, 4" and 6" containers.

Tip: Performs best in containers when used outdoors. (Sown with one multi-seeded pellet).

Breeder: PanAmerican Seed
 Crop Weeks: 8
 Bloom Season: N/A
 Tray Size: 128
 Hardiness: 6
 Price Code: 128G

Juncus inflexus 'Blue Arrows'

36"h

Full Sun

Features: Blue-green foliage with stiff and upright strands. This grass does well in wet areas, but also is drought tolerant once established in the ground.

Uses: Bedding, mixed containers, and in the garden.

Tip: Performs as a perennial in USDA Hardiness Zones 5 to 9. (Sown with one multi-seeded pellet).

Breeder: PanAmerican Seed
 Crop Weeks: 10
 Bloom Season: N/A
 Tray Size: 128
 Hardiness:
 Price Code: 128G

Juncus pallidus 'Javelin'

48"h

Full Sun

Features: This green grass has stiff, upright foliage and can reach up to 5' high.

Uses: In the garden and as a centerpiece for mixed containers.

Tip: Can grow in standing water, but tolerates heat and drought well. (Sown with one multi-seeded pellet).

Breeder: PanAmerican Seed
 Crop Weeks: 10
 Bloom Season: N/A
 Tray Size: 128
 Hardiness: 4
 Price Code: 128F

Juncus tenuis Blue Dart

14-16"h

P. Sh/Sun

Features: With a strong vertical habit and linear blue foliage, Blue Dart can be used as an alternative to dracaena spike in small containers and is very adaptable to a range of conditions.

Uses: Garden bed, hanging basket, landscape, mixed container.

Tip: Can be used as a water plant, but can also be planted in the ground as part of a drought tolerant garden.

Breeder: PanAmerican Seed
 Crop Weeks: 10
 Bloom Season: N/A
 Tray Size: 128
 Hardiness: 5
 Price Code: 128G

Juncus Twisted Arrows

18-36"h

P. Sh/Sun

Features: Twisted Arrows is a special mix of Juncus Blue Arrows and Juncus effusus spiralis (curly juncus) which provides a unique - straight and curly - texture and has a blue and green color contrast.

Uses: Accent plant, mixed container.

Tip: Twisted Arrows can also be used a pond plant, but can be planted in the ground as part of a drought tolerant garden.

Breeder: PanAmerican Seed
 Crop Weeks: 10
 Bloom Season: N/A
 Tray Size: 288
 Hardiness:
 Price Code: 288J

Tray Size: noted above
 Price Group: noted above

Fall 2009 [Ornamental Grasses] Variety List

Koeleria 'Blue Sprite'

6-8"h

P. Sh/Sun

Koeleria glauca Blue Hair Grass

Features: This small, blue-green grass forms round clumps and produces wheat like plumes in mid-Summer.

Uses: Mixed container, border, garden bed, landscape.

Tip: Prefers good drainage. (Sown with one multi-seeded pellet).

Breeder: PanAmerican Seed

Crop Weeks: 9

Bloom Season: July-Aug.

Tray Size: 128

Hardiness:

Price Code: 128E

Koeleria 'Coolio'

6"h

Features: Produces tufts with greenish blue foliage and semi broad linear leaves.

Uses: Landscaping with sandy soils.

Tip: Sometimes becomes dormant by high summer in regions with hot and humid conditions.

Breeder: Kieft Seeds

Crop Weeks: 9

Bloom Season: N/A

Tray Size: 128

Hardiness:

Price Code: 128F

Luzula 'Lucius'

16"h

Features: Loose tufts of light green leaves with dense off-white flower clusters 15 cm above foliage in early spring.

Uses: Gardens with moist or moderately dry habitat.

Tip: Plant in part shade.

Breeder: Kieft Seeds

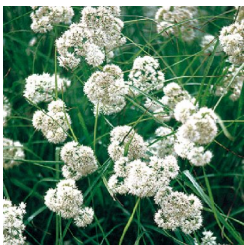

Crop Weeks: 9

Bloom Season: Early Spring

Tray Size: 128

Hardiness:

Price Code: 128F

Luzula nivea

8-12"h

P. Sh/Sun

Snowy Woodrush

Features: Gray-green foliage covered by soft down hairs. Evergreen foliage forms clumps and fluffy white flowers emerge on spikes 12-16" above foliage.

Uses: Good ground cover for moist and shady areas or light shade.

Tip: It will burn from full sun in hot areas but performs well on west coast in full sun with no shade.

Breeder: Jelitto Seed

Crop Weeks: 9

Bloom Season: Jun/Jul

Tray Size: 128

Hardiness: 6

Price Code: 128D

Luzula 'Starmaker'

20"h

Features: Large tussock, flowering in early spring with dark brown inflorescences 10-20 cm above foliage.

Uses: Suitable for most soils, drought tolerant, sun or semi shade.

Tip: Low heat tolerance.

Breeder: Kieft Seeds

Crop Weeks: 9

Bloom Season: Early Spring

Tray Size: 128

Hardiness:

Price Code: 128F

Melica ciliata

8-12"h

P. Sh/Sun

Hairy Melic

Features: Cool season grass with gray-green foliage with showy flower spikes that are white and fluffy arching 12-18" above the foliage.

Uses: Gardens with moist, well drained fertile soil.

Tip: May need to be staked in the landscape.

Breeder: Jelitto Seed

Crop Weeks: 8

Bloom Season: Jun/Jul

Tray Size: 128

Hardiness: 6

Price Code: 128D

Tray Size: noted above
Price Group: noted above

All items subject to availability. Prices may change without notice.

Fall 2009 [Ornamental Grasses] Variety List

Melinis nerviglumis (Rynchelytrum)

6-12"h

Sun

Savannah

Features: This warm season grass grows compact tufts of blue green foliage and shining pink inflorescences. As summer unfolds to fall, its silky seed heads fade from a deep rose to a delicate pink.

Uses: Gardens and borders with a relative dry soil.

Tip: Protect plants against late frost.

Breeder: Benary Seed
 Crop Weeks: 7
 Bloom Season: Sept/Oct
 Tray Size: 128
 Hardiness:
 Price Code: 128G

Miscanthus sinensis

n/a

Sun

Japanese Silver Grass

Features: Clumping, warm season grass with showy, whisk-like plumes that begin to flower from silver to tan and then to reddish purple and dry into fluffy heads.

Uses: In background of beds in landscapes. Very well suited for water gardens or near ponds and stream sides.

Tip: Plants struggle in hot, humid climates.

Breeder: Jelitto Seed
 Crop Weeks: 7
 Bloom Season: Jul/Sep
 Tray Size: 128
 Hardiness: 4
 Price Code: 128E

Miscanthus sinensis Early Hybrids

3-5'h

Sun

Maiden Grass

Features: Medium green slender weeping leaves that turn burgundy and copper color as fall comes then an almond color by winter. Grass is drought tolerant and will flop with too much shade and moisture and when the soil is too fertile.

Uses: As accents and filler.

Tip: Prefers well drained soils but will grow in variety of different soils including clay.

Breeder: Jelitto Seed
 Crop Weeks: 7
 Bloom Season: N/A
 Tray Size: 128
 Hardiness: 4
 Price Code: 128F

Pennisetum alopecuroides

36-48"h

Sun

Fountain Grass

Features: Warm season grass with bright green foliage that becomes streaked with brown & yellow as it reaches fall. Turns to an attractive straw color by winter. Cream color foxtail-like flowers grow 4-10" long and turn a light pink color.

Uses: One of the most versatile grasses, very dependable, and showy. Happiest in moist fertile soil but tolerates colder climates.

Tip: Does take some shade but will not bloom much if it is in too much shade.

Breeder: Jelitto Seed
 Crop Weeks: 8
 Bloom Season: Jul/Sep
 Tray Size: 128
 Hardiness: 7
 Price Code: 128I

Pennisetum Red Riding Hood

24-36"h

Sun/Shade

Dwarf Rubrum

Features: This grass from tissue culture or division is similar to Pennisetum rubrum, but its smaller size makes it a nice addition to combination pots. It has rich burgundy leaves and reddish brown flower plumes that rise above foliage.

Uses: Containers, borders.

Tip: Blooms in late summer which is later than Pennisetum rubrum.

Breeder: RTT
 Crop Weeks: 8
 Bloom Season: N/A
 Tray Size: 72
 Hardiness:
 Price Code: PEN

Pennisetum ruppellii

24-36"h

Sun

Features: Warm season grass. Clumping, tender fountain grass that has become a favorites for perennial gardens. The long slender pink, showy flowers emerge in May in warm climates and in early summer in cooler climates. The tufts reach 2-3 ft tall with flowers 1-2 ft above the foliage. Turn straw colored before winter.

Uses: Likes moist, well drained, fertile soil but tolerates many different soil conditions. Will grow in heavy clay or almost solid rock. It tolerates shade but will flop in too much shade.

Tip: Can be an invasive seeder.

Breeder: Kieft Seeds
 Crop Weeks: 5
 Bloom Season: May/Oct
 Tray Size: 128
 Hardiness: 7
 Price Code: 128E

Tray Size: noted above
 Price Group: noted above

All items subject to availability. Prices may change without notice.

Fall 2009 [Ornamental Grasses] Variety List

Pennisetum setaceum Fireworks

24-30"h

Sun

Variegated Red/Purple Fountain Grass

Features: A sport of *P. rubrum*, Fireworks has pink and white striping that changes color in warm and cold weather.

Uses: Attractive in mixed containers or as a full sun accent plant in the garden.

Tip: Cutting back during the season will encourage new flushes of variegated foliage.

Breeder:
Crop Weeks: 8
Bloom Season: Late summer
Tray Size: 72
Hardiness:
Price Code: 603B

Pennisetum setaceum rubrum

48"h

P. Sh/Sun

Red/Purple Fountain Grass

Features: *Pennisetum rubrum* is a very popular ornamental grass used in the landscape because of its red foliage and burgundy showy flowers. Inflorescence occurs from early summer to frost. From division or TC.

Uses: Landscape.

Tip: Cut back in late winter to expose new foliage.

Breeder: RTT
Crop Weeks: 8
Bloom Season: N/A
Tray Size: 72
Hardiness:
Price Code: PEN

Sesleria caerulea

6-12"h

P. Sh/Sun

Blue Moor Grass

Features: This cool season grass has leaves that are dark on top and bluish-gray underneath. Spiked flowers bloom on thin stems 6-8" above the foliage. Flowers are purple and turn gold.

Uses: Good in mass plantings and as filler and edging. Does well in light shade under tall trees and bushes. Prefers moist, well-drained rich soil and in those conditions will handle the full sun or light shade.

Tip: Does not like dry sites and does well on the coastal climates.

Breeder: Jelitto Seed
Crop Weeks: 9
Bloom Season: Mar-Jun
Tray Size: 128
Hardiness: 4
Price Code: 128G

Stipa arundinacea 'Sirocco'

12-14"h

Full Sun

Pheasant's Tail Grass

Features: Sirocco is the only pink grass from seed on the market and will turn to shades of copper and pink under cool conditions, natural sunlight, and maturity.

Uses: Landscapes, gardens and mixed containers.

Tip: Prefers well-drained soil. (Sown with one multi-seeded pellet).

Breeder: PanAmerican Seed
Crop Weeks:
Bloom Season: Jun-Sep
Tray Size: 128
Hardiness: 6
Price Code: 128E

Stipa lessingiana 'Capriccio'

14-16"h

Full Sun

Features: Wispy, green grass that produces creamy-beige flowers from June to early winter. Similar to *Stipa tenuissima*, but more robust.

Uses: Landscape, bedding and mixed containers.

Tip: Likes well-drained soil; tolerates heat and drought conditions. (Sown with one multi-seeded pellet).

Breeder: PanAmerican Seed
Crop Weeks:
Bloom Season: June
Tray Size: 128
Hardiness: 6
Price Code: 128E

Stipa tenuissima (Ponytails)

12-24"h

Sun

Mexican Feather Grass

Features: Light green foliage with silky leaves that look like flowing blonde hairs that go from silky green to gold as it matures. Plant is very full and does well in landscape backgrounds or along drier areas.

Uses: Landscape, slopes for erosion control, and tolerates different soils as long as it dries out between watering.

Tip: Does not like wet conditions.

Breeder: Jelitto
Crop Weeks: 6
Bloom Season: Jun/Sep
Tray Size: 128
Hardiness: 6
Price Code: 128D

Tray Size: noted above
