

RifeMedic 8

GOOD VIBRATIONS

Quantum Radionics and Educational Bio-Resonator

RifeMedic devices are the most creative and innovative health and healing support instruments in the world. Visit www.rifemedic.co.za

Bio-feedback sensors

Lcd touch screen

Bottom:

Chromotherapy,
Radionics, PEMF

Radionics driver

Chromotherapy

Pulse em field

Signal indicator

Power, on/off

Signal output

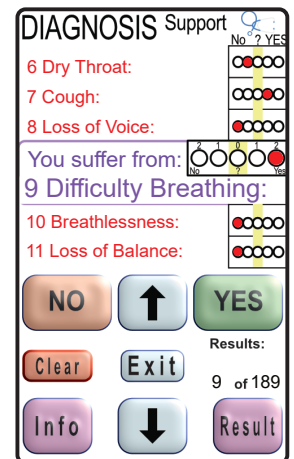

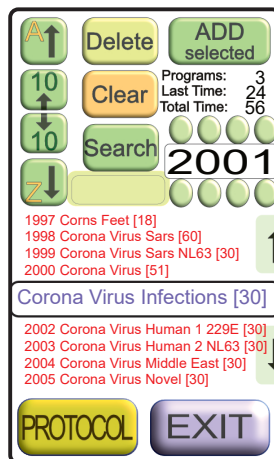

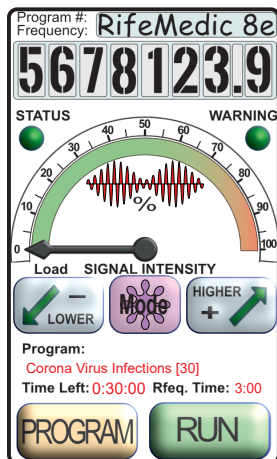

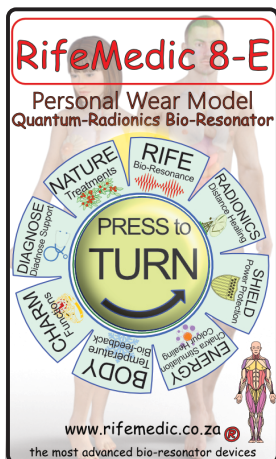

Very easy to use:

- 1... Switch on the unit
- 2... Press **Accept**
- 3... Press **Select**
- 4... Press **Programs**
- 5... **ADD** programs
- 6... Press **RUN** to start
- 6... Adjust the Intensity

Inside the box:

- 1 RifeMedic 8 device
- 1 set of hand electrodes
- 1 set of foot plates
- 1 set of cables
- 1 screen tapper
- 1 power supply
- 1 user-program manual
- 1 usb upgrade cable
- 1 carry case

Optional: battery pack

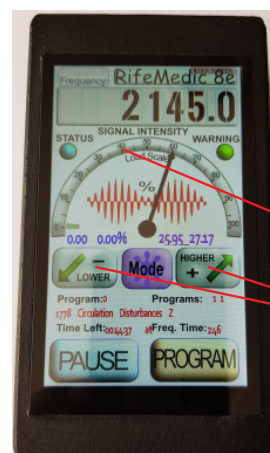

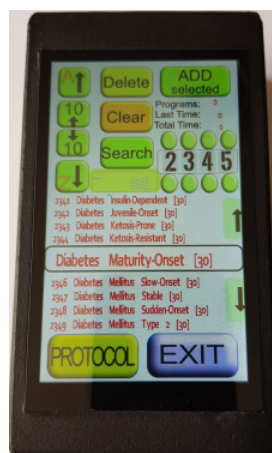

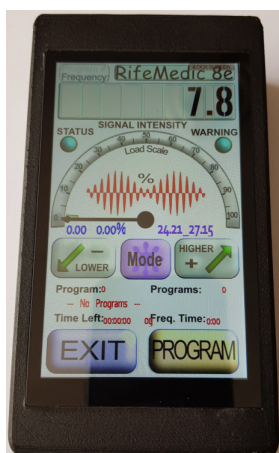

Features:

- Rife Machine Bio-Resonance - 0.1 to 500 000 Hz.
- Radionics application
- Skin Temperature bio-feedback
- Saturated blood oxygen bio-feedback
- 8 000 + x Rife Programs
- 186 x Radionics Protocols
- 61 x Shield Protocols
- 80 x Nature Protocols
- Dynamic 4.3 inch Graphics touch screen
- Home computer software upgrade function
- 130 x 72 x 40 mm pocket size
- Weak Pulse Electro-Magnetic Field Therapy
- Chromotherapy application
- Heart rate bio-feedback
- Diagnosis Symptom-Disease support
- 1200 x General Protocols
- 87 x Energy Protocols
- 60 x Charm Protocols
- Frequency, Harmonics, Chakra, Colour Modes
- Can set up 1 or up to 100 programs at a time
- All features are built into the device
- standard RifeMedic excellent quality signal driver

The Quick Start Page

1. **Plug in your two electrodes** (- ensure they do not touch each other).
2. **Plug in your 24V DC Power Supply** and switch it on.
3. **Switch on the RifeMedic 8** device.
4. Press the Yellow **Press-to-Start** button.
5. Press the **ACCEPT** button (- if you accept the conditions of use).
6. Press **SELECT** to select Rife (- or choose and **SELECT** another option).
7. Press **PROGRAMS** (- to enter the programs selection screen).
8. Find and **ADD** the programs you wish to run.
9. Press **EXIT** to exit the programs page.
10. Press **RUN** to run the Added / Loaded programs.
11. Hold the electrodes and **press on 40** on the meter or Higher or Lower to adjust the signal intensity to where the sensation feels comfortable.
12. Observe the text to indicate your Added program name and the time counting down. Each frequency change will announce and adjust intensity.
13. Use **PAUSE** to pause the process. **RUN** after pause will adjust the intensity only to half your set point - so re-adjust the intensity.
14. After **PAUSE**, for a few seconds, the device allows you to **STOP** the current session.
15. At 40 %, most people may feel a very weak sensation.
16. At 60 % most people feel a comfortable sensation.
17. Some people require up to 80 % signal sensation.
18. Observe the **LOAD** Indicator on the Intensity meter.
19. Do not adjust the intensity higher when the sensation changes with higher frequencies - the body nervous system can not feel high frequencies.

Press on the Meter to adjust signal intensity or use the - Lower and + Higher buttons.

RifeMedic 8 User Manual

The know-how of how to apply bio-resonance electrodes, foot plates, electro-magnetic mats and other peripherals; human and animal physiology; anatomy; pathology; psychiatry; chronic conditions' protocols; acute conditions' protocols; diagnosis; medication; contra-indications; natural medicine; treatment modalities; therapy applications; nutritional matters and more... are beyond the scope of this document, but are all factors that should form part of considerations when applying any form of therapy.

For the application of any RifeMedic device, you have the responsibility of using your own discretion. This document as well as this product make no attempt to replace any physician's diagnosis, prognosis, therapy, or medication.

Also, in order for you to use the RifeMedic 8, you have to agree to the conditions described on the device screen after powering it up.

On the top left side of the unit is a finger placement concave feature for heart rate and saturated oxygen measurement.

On the top left side of the unit is a non-contact skin temperature sensor for body temperature measurement.

On both sides of the unit are air breather holes for temperature control air ventilation.

The LCD screen is a 4.3 inch capacitive touch screen.

After switching on the unit, tap and accept to get to this static screen.

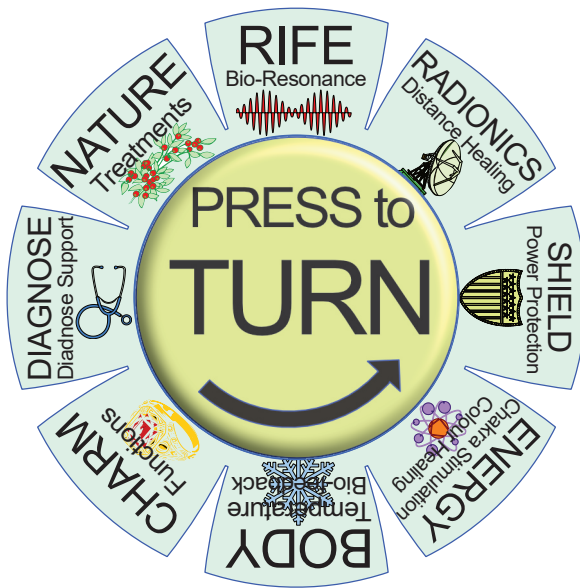

Tap on TURN or any of the 8 tabs to rotate the required function to the top. Then press SELECT .

Each Tab on top will give a compact description of what the function may be doing.

On the bottom far right side is the DC power supply's connector.

On the bottom right is the on-off slide switch.

On the bottom left side are the electrode cable connector for connecting your electrodes' cables.

The Bio-resonance program list is the same for all these selections, except for each selection to have its own set of protocols.

A protocol is a selection of normally more than one program to address a specific condition's various effects or considerations.

As an example: Take influenza: Consider: Viruses role, damage, immunity, symptoms, organs affected, body weaknesses emphasised.

A protocol may consist of various programs to include these factors.

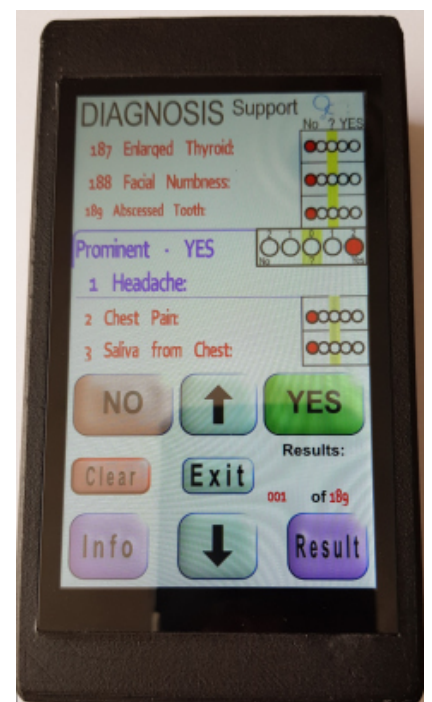

Use these protocols to your own discretion.

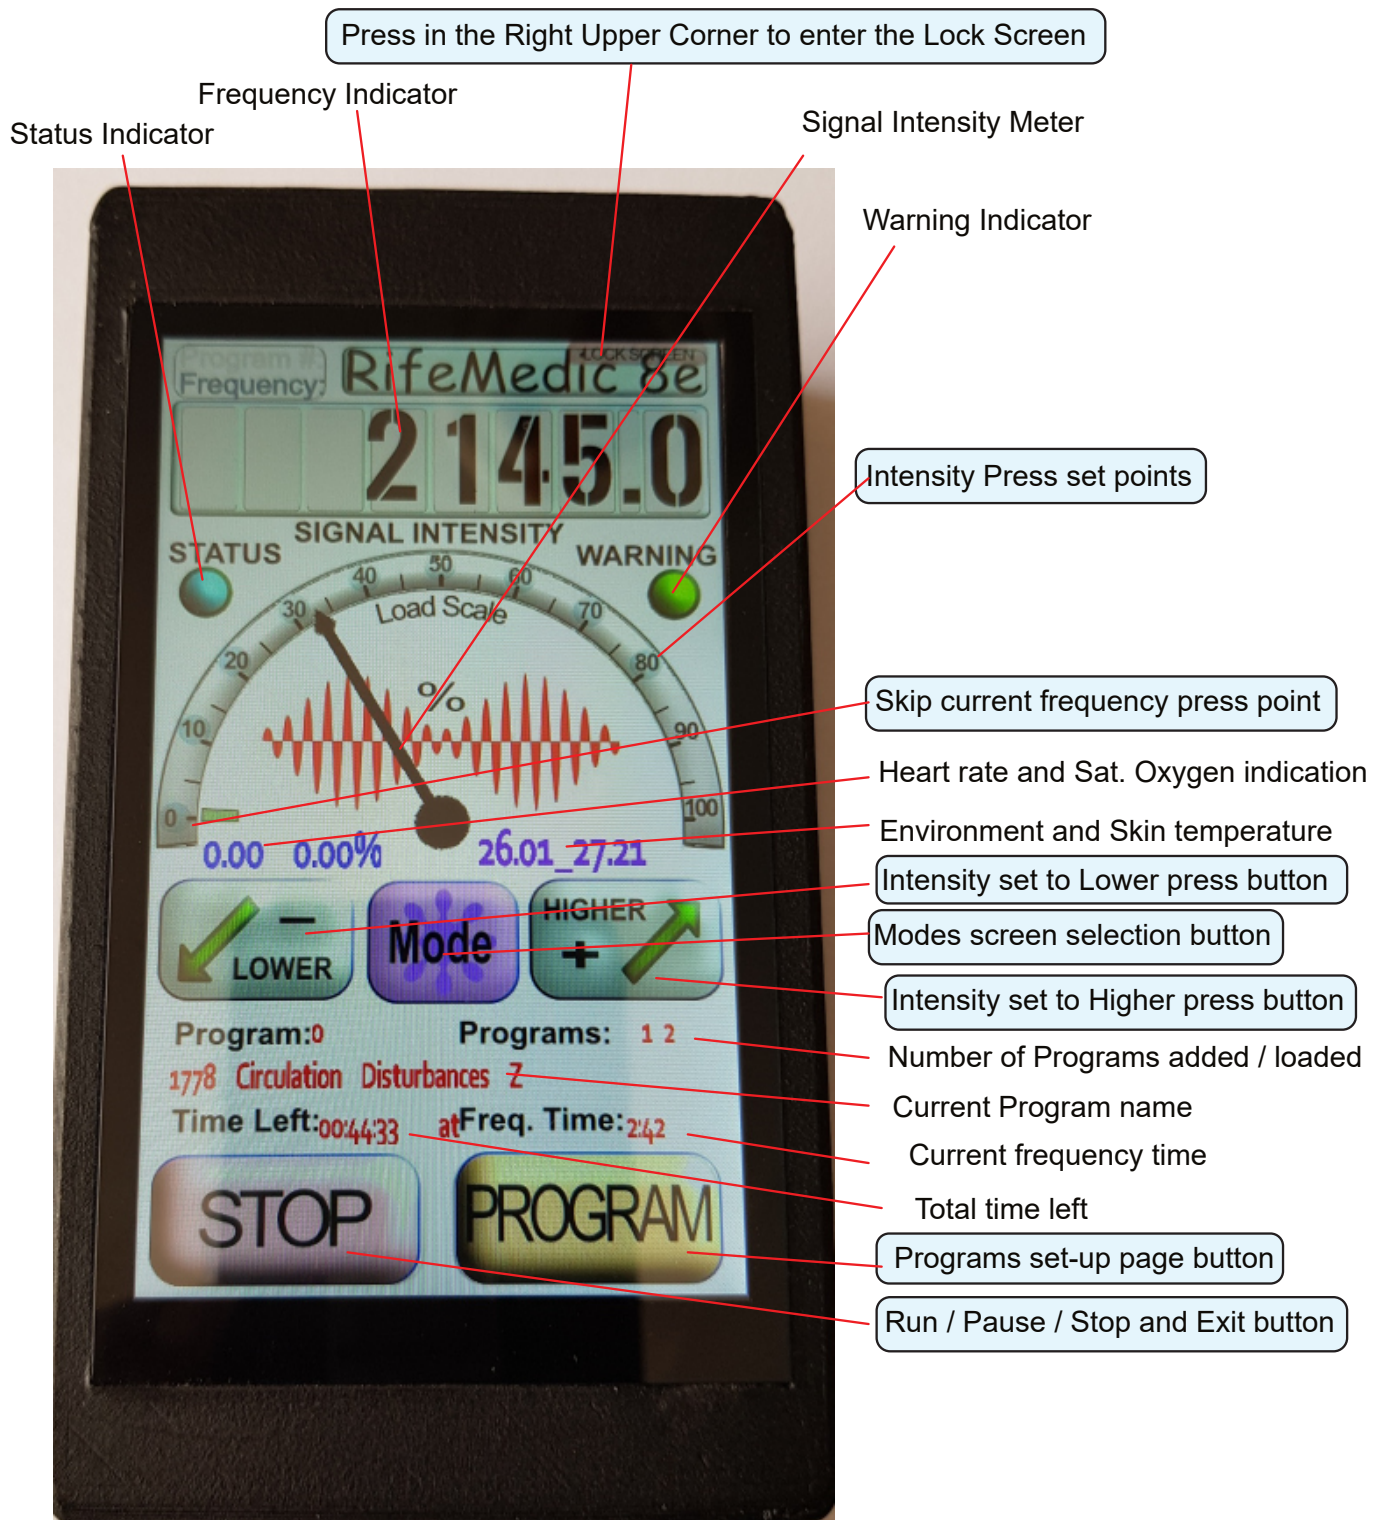

-  Rife Protocols
-  Radionics Protocols
-  Energy Protocols
-  Shield Protocols
-  Charm Protocols
-  Nature Protocols

Bio-Resonance

PEMT transducer

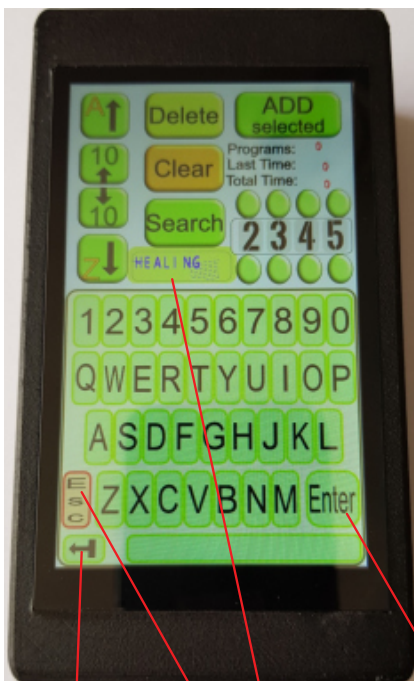

Programs ADD Delete Clear Search

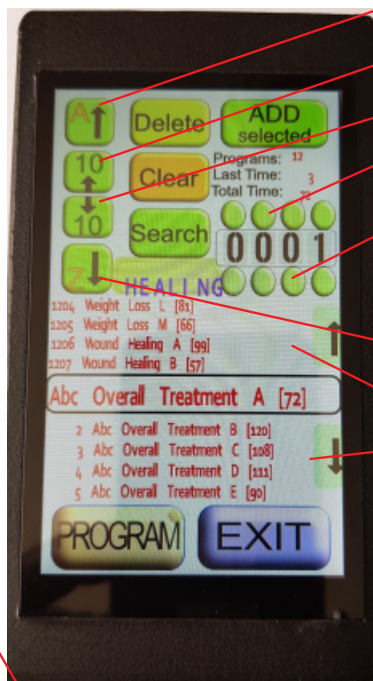

- Delete the last added program
- Push Clear once to clear the Search string and to reset the program list
- Push Clear twice to clear the added programs
- Search for a name, a keyboard will open Press Enter to search or Esc to exit
- Press on the search name to search for the next occurrence of the name
- Use Alphabetic up and down to allow search to start searching from that point down

If you search for a name, in this example we typed "Healing", the first occurrence will be "Accelerate Healing". Pressing on the word Healing will find the next Healing word. In order to find words starting with Healing, press the Alpha Down button to the letter H and press on the word Healing. You may enter part of a name like Heada instead of Headache.

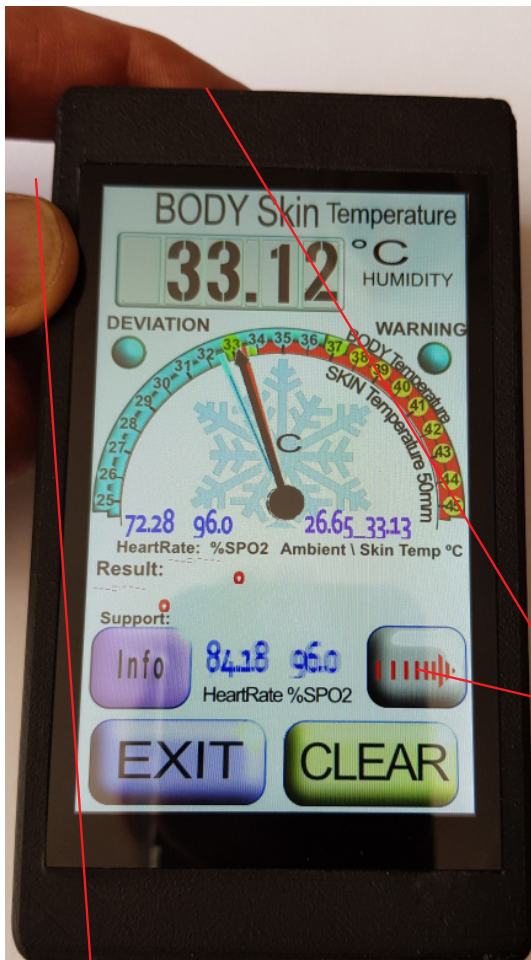

Down increases the program number
Up decreases the program number

Search name Enter = search
Backspace, Esc = Close the Search keyboard

- Alphabetic Up
- 10 programs Up
- 10 programs Down
- Program number Increase
- Program number Decrease
- Alphabetic Down
- 1 program Up
- 1 program Down

The skin temperature sensor is always on

Switch on the heart rate sensor and hold the index finger lightly over the sensor on the top left of the unit. The picked-up heart rate will beep and read the values when the beep rate is consistent. Hold your hand about 50 mm away from the temperature sensor to read your skin temperature.

Note that skin and body temperature are different measurements and it may differ by about 4 degrees C.

Press Clear to reset the Lowest / Highest skin temperature meter markers.

The Info button has no function.

Heart Rate Sensor On / Off

Use Yes / No answers to adjust the red marker on the answer block for any relative symptom. Observe the Purple description about your selection.

Use Up and Down to advance to next symptom questions.

Use Result to find the Symptom Disease connection and score count. The listed order of same-score conditions has no significance.

Take note of the functionality of this feature, that it may not be applicable or accurate for a specific person as many factors may contribute to different outcomes.

Use this function as a guide to suggest possibilities only.

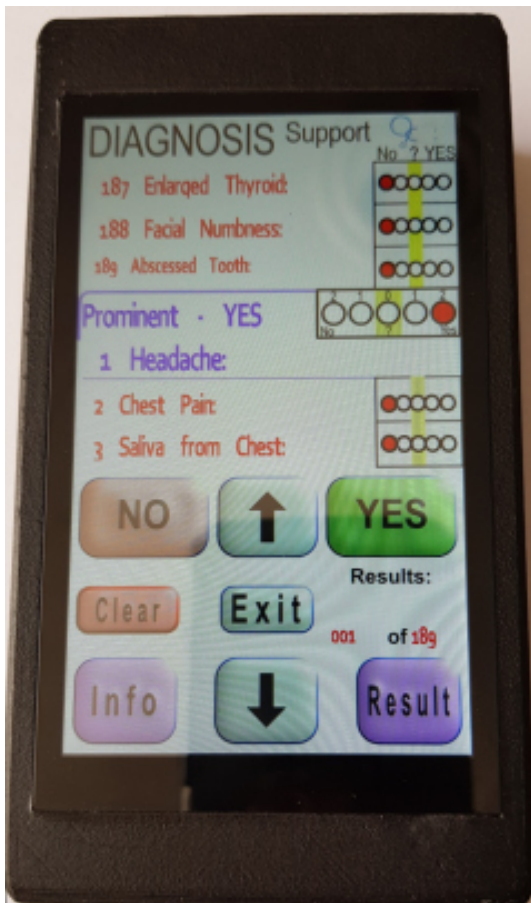

Far Left No = 0 score

Left No = 1 score

Centre ? = 0 score

Right Yes = 5 points score

Far Right Yes = 10 points score

Some Rife Machine Notes and guides:

One of two treatments per day for more or less one hour at a time, suits most people best.

Over-stimulation especially on inflamed tissue, can increase sensitivity or cause damage.

Be careful and sensible when stimulating organs, glands and hormonal functions.

Treat the cause and consequence of your symptoms as well:

For Example "Candida problems", determine the order of the factors applicable:

A) Candida overgrowth B) Tissue damage, pain, discomfort C) Immunity D) Compromised organs' and glands' functions E) Detoxification F) Body physiology balance.

Very low and very high frequencies are weakly felt - do not adjust the intensity too high!

Frequencies above 20 Hz and below 20 kHz are well felt.

The unit beeps when it does a frequency change. Relax your grip and feel if the newly loaded frequency's intensity is not too harsh. If so, adjust the intensity to a comfortable level and keep the setting there for the entire program.

Application via the feet, requires a higher intensity because the path resistance is higher.

Treat through hands for upper body conditions, treat through feet for lower body conditions, although the entire body resonates with either application.

To test if your wires are good, short the two hand electrodes briefly and see that the Load indicator on the intensity meter jumps to a high load indication. In this case, your cables are good. If no change is observed, one or both of the wires may be damaged and require repair or replacement.

Repeat programs to your own discretion for as many days as may be necessary. People do not heal the same and do not react the same to therapy.

Do not use your rife machine during thunder storms.

Apply electrodes to hands and feet only. The epidermis elsewhere has a dead skin layer that conducts weakly but will start conducting on a small surface and burn you due to the small conducting surface.

Discretion and Considerations to take into account, are a person's: Age, Gender, Race, Pregnancy, Menstrual cycle, Weight, Blood group, Blood viscosity, Hydration status, pH level, Gland problems, Organ problems, Body systems problems, Brain problems, Nervous system problems, Back problems, Body weaknesses, Accidents history, Disease history, Implants, Bad habits, Medication, Other applied therapies, Vaccination history as a bad factor, Chronic symptoms and factors, Acute symptoms and factors, De-worming and anti-parasite processes, Detoxification processes, Supplementation application, Dietary factors, Food quality, Environmental sensitivities, Allergies, Traumas, Emotional factors, Relationships factors, Negative stresses, Financial stresses, Life expectancy, Education, and there are more... And that is why the question of how to treat a condition for a person you do not properly know, is an unfair one.

Who should not or can not be treated with a Rife machine:

Pregnant people, epileptic people, people with heart failure risk, people wearing a life-support device like a heart pace maker, people with acute or critical or life support care conditions.

About Graphine Dioxide and Graphine Hydroxide obtained from Covid vaccinations:

Graphine nano-particles are extremely sharp structures and it may cause damage to tissue and cells when bio-resonance is applied. It is suggested to first detoxify the body thoroughly and use other modalities like ozone therapy to support healing from these particles.

Disclaimer and Conditions of use:

This device is not intended to diagnose a disease or replace any other physician's medication or therapy. The use and application of this and any other bio-resonance device, is entirely on your own discretion and risk. You take full responsibility for any matter, good and bad, arising from this application and it is no one else's task or responsibility to inform or teach or educate or prescribe any matter related in any way to you. Also take into account the Conditions of Use and Disclaimers here and as provided on the device.

RifeMedic devices are designed, manufactured and tested to comply with type BF requirements. See www.rifemedic.co.za for more information.

Credits: Dr Royal Ramond Rife, Rife forums like www.rife.de, Dr. Nenah Sylver, frequency research centres, bio-resonance researchers and other bio-resonator manufacturers, many many alternative health professionals and contributors, rife machine users all over the world! **RifeMedic devices are being manufactured for more than 20 years as leading functional and creativity quality devices.**

A well designed bio-resonator will stimulate every facet of health and healing:

- Promoting circulation.
- Balancing body pH.
- Balancing Oxygen and CO2 relationship.
- Promote body systems detoxification.
- Help Feeding Cells with nutrients.
- Help Detoxifying cells.
- Energising cells with electric potential.
- Stimulating Glands and their functions.
- Stimulating Organs and their functions.
- Stimulating healing of fractures and wounds.
- Breaking down protein structures of poisons.
- Breaking down viral protein structures to make them dysfunctional.
- Breaking up bacteria.
- Killing bad fungus.
- Killing parasites, larva and eggs.
- Drain toxins from infections.
- Relieves pain.
- Improves energy.
