

Apéndice 1. Lista de las palmeras de América del sur continental. CS = Argentina, Uruguay y Paraguay (Cono Sur); BR = Brasil; BC = Bolivia y Chile; PE = Perú; EC = Ecuador; CO = Colombia; VE = Venezuela; GU = Guyana, Suriname y Guyana Francesa. 1. La región amazónica, 2. Las formaciones de la periferia noroeste de la Amazonía y de la costa caribeña, 3. Las formaciones mesófilas y xéricas de la periferia Sur y Sur-Este de la Amazonía y del Cono Sur, 4. La Mata Atlántica, 5. La costa pacífica, el pie-de-monte andino occidental, la zona del istmo de Panamá y los valles interandinos de Colombia, 6. Los Andes, las cordilleras costeras caribeñas y las montañas guyanesas, 7. La vegetación costera. ?= población geográficamente aislada, tentativamente asignada a la especie correspondiente, o de presencia altamente probable pero no sustentada por una colección de herbario. *Cocos nucifera*, cuya distribución natural es incierta, no está incluido en el listado, tampoco *Attalea amyloacea*, *A. fairchildensis*, *A. leandroana* y *A. lauromuelleriana* descritos y conocidos solo en jardines botánicos.
