Sanyo
Model# of Till:

Conversion Instructions:

ECR-325

This till has a numeric printer and the number of the tax you have been using for GST is the

ECR-330
number of the tax you will reprogram here.
&

ECR-335   **Verify where these buttons are on the keyboard:**
"GST Shift" (May also be labeled "Shift 1", "Shift 2" or "Shift 3")
"%1" (May also be labeled "% Disc" or %10 etc.
"#/NS" which is your no sale key

Insert a "P" key in the mode lock and turn the mode lock to "P".
Enter the key sequence below
00001000 "GST SHIFT" 060000 "%1" "#/NS"

Turn the mode key back to "R" and test.

If you have add-on taxes and advertise tax included prices, you will have to change any pre-programmed prices also.

TEST Your Work: Mode key in the "Reg" position.
Press 1000
Press a Dept button with GST or both taxes allocated to it.
If GST only, total with taxes should be $10.60
If P&G, total with taxes should be $11.30

If all buttons are preset items, you should enter several sale items so that the total is $10.00
or more and finalise the sale before voiding so that you have a receipt to check the GST
calculation with a calculator.
