Pest Management Centre Project Status by Crop

17-Oct-13 : 10:01:23 AM

Appendix 1

Project initiated: This status includes Letter of support received, PSCR submitted, Data requirements issued and planning phase

Data generation: At least one study in the project has field or lab in the process of being conducted

Reporting phase: All studies within a project are either complete or are being written up

Project complete: All data requirements within a project are complete

Data with registrant for submission: The project data has been sent to the registrant for submission

Project withdrawn: Support for this project has been withdrawn by the registrant or as a result of a change from the original selected priority

Project on Hold: Specific issues need to be addressed

Submitted to PMRA: Data has been submitted to the PMRA for review

PMRA approved: The PMRA review is complete and approved the use

Rejected for use: The PMRA review is complete but the use is rejected

On label: The product is registered

Crop Group MRL approved: The Crop Group Maximum Residue Limits has been approved but the use might not be on the marketing label
