24-hour clock keeps USPS linked

"There are no islands in the Postal Service. All of our processes are linked. If you do one well, you're going to do well in another, and another, and another."

That's how Deputy Postmaster General Pat Donahoe illustrates the importance of the 24-hour clock

to our mail operations — to better manage our time, keep the mail moving and give our customers the service they depend on.

Meeting commitments by deadline helps the next shift — or the next plant or Post Office further down the mailstream — meet its deadlines too. Key indicators to help us use the 24-hour clock are:

- All carriers back by 1800 (6 P.M.).
- Cancel 80 percent of collection mail by 2000 (8 P.M.).
- Process outgoing primary-sort mail by 2300 (11 P.M.).
- Process outgoing secondary-sort mail by 2400 (midnight).
- Clear Managed Mail Program (MMP) mail by 2400. Zero MMP at 2400 (midnight).
- Assign commercial/FedEx outgoing mail by 0230 (2:30 A.M.).
- Process all delivery point sequence (DPS) second-pass mail by 0700 (7 A.M.).
- Dispatch mail on time from plants to delivery units 0400–0900 (4–9 A.M.).

The long and winding WebROADS: New database provides better REC overview

Remote encoding centers (RECs) started as a solution for unreadable letter mail but evolved into an integral part of our processing operations. Today's RECs process images

for not only letters but also flats, parcels, undeliverable-as-addressed mail and change-of-address forms. Standardizing all of those operations was a challenge — until now.

Web REC Operations Analysis Database System (WebROADS) started in fiscal year 2005 as a way to provide REC performance reports to national users across all platforms. The latest software update gives craft group leaders, supervisors and managers a better view of what's happening at the REC. That's a big help when 70 percent of your workforce schedules may change week to week based on expected image arrivals.

Since the database works across all platforms, groups such as Engineering, area coordinators and Headquarters are able to access the application online to use in decision analysis reports, software updates validation, REC performance and costs comparison, holiday planning and contingency plans.

WebROADS is a good road to follow during this challenging budget year for the Postal Service.

Sum of all year: There's a reason it's called comprehensive

It's not just for Congress. It's for you, too.

Each year, the Postal Service publishes its *Comprehensive Statement on Postal Operations* to keep U.S. lawmakers informed about USPS plans, policies, operations, finances and other data. Want to stay "in the loop?" The 2005 edition is available on the Postal Service Intranet

and USPS.com at www.usps.com/strategicplanning/cs05/.

The comprehensive statement does more than just add up the stats. It puts the year in context — what we've been doing and why we're doing it. You may know what your group is doing to reduce costs and improve service, but what about everybody else? The comp statement adds it up for you.

Congress may read about it — but we live it. Knowing everything we can about the place where we work can only help us better do our jobs — and better serve our customers.

New delivery mail sorters deployed

State-of-the-art delivery barcode sorter input output subsystem (DIOSS) machines are being deployed to replace outdated multi-line optical character readers (MLOCs) around the country. The new

machines will deliver improved performance, handle a wider range of mail types and provide more than 200 separations in the same space that MLOCs currently occupy to handle 60.

Two years in the testing, various configurations have been completed in Ft. Worth, TX, Baltimore, MD, Sacramento, CA, Santa Clarita, CA, and Colorado Springs, CO. The final configuration completed testing recently in Queens, NY.

DIOSS Program Director Lilo Rheinwein said that a total of 395 new DIOSS systems and 217 updates to existing delivery barcode sorters will be deployed to 283 sites, replacing 646 MLOCs in the next 16 months. "The remaining sites can expect to begin receiving the new equipment by mid-March," Rheinwein said.

POSTMASTERS

SUBJECT: *Benjamin Franklin* Commemorative Postage Stamps Kit

The Postal Service™ provides an opportunity to honor Benjamin Franklin, an American icon, during the 300th anniversary year of his birth by issuing four commemorative postage stamps. Each stamp features a collage representing one of four aspects of Franklin's life — as a printer, a postmaster, a scientist, and a statesman.

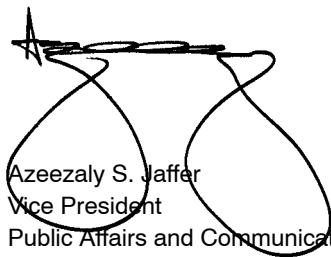

Benjamin Franklin holds the unique distinction of being the second most popular subject to be commemorated on a postage stamp, with more than 100 stamp issuances in his honor since 1847. His connection to the Postal Service as the first postmaster general under the Continental Congress in 1775 has earned him a cherished place in the history of our organization.

These 2006 stamps have educational, historical, and scientific value and represent the heritage of the United States and the Postal Service. The stamps will be dedicated on April 7 in Philadelphia, Pennsylvania, at the National Constitution Center.

During this year-long anniversary celebration, we encourage you to host special events in your community highlighting one or all of the four aspects of Franklin's career depicted on the stamps.

The enclosed publicity kit serves as a guide to help you plan your local *Benjamin Franklin* commemorative postage stamp dedication events and activities. Partnering with the organizations listed in this kit will help you generate publicity. In fact, it's likely that these organizations will offer suggestions, provide recommendations for hosting facilities, and allow you to partner with an established event they are hosting. In addition, Postal Facts are included at the end of this kit as valuable information for the media. Our Public Affairs and Communications team members are available to assist you in coordinating publicity efforts. Please feel free to call on them.

Thank you for your support and for taking advantage of this exciting opportunity to celebrate our first postmaster general. Your participation in this year's dedication events of the *Benjamin Franklin* commemorative postage stamps is vital to their success.

Overview

The *Benjamin Franklin* commemorative postage stamps will be issued April 7 at the National Constitution Center in Philadelphia, PA. This stamp release follows the 300th anniversary of Benjamin Franklin's birth on January 17. This is a year-long celebration and you will have many opportunities to hold a dedication or "second day" event. The *Benjamin Franklin* commemorative postage stamps will go on sale nationwide April 8, 2006.

Background

Benjamin Franklin, Scientist

The stamp image honoring Franklin as a scientist includes a whimsical 19th-century Currier and Ives lithograph depicting Franklin and his son performing the legendary electricity experiment with a kite; a page from Franklin's 1769 volume *Experiments and Observations on Electricity*, depicting water spouts and a "magic square;" a schematic drawing of Franklin's "three-wheeled clock" from the late 18th-century book *Select Mechanical Exercises* by James Ferguson; and a depiction of Franklin at a writing desk from a mural by Charles Elliott Mills at the Benjamin Franklin Institute of Technology in Boston, MA. The text on the back of the stamp sheet reads:

Remembered for the pursuits he called "philosophical amusements," Benjamin Franklin was intensely curious about natural phenomena. His observations and experiments in areas such as electricity and meteorology resulted in interesting inventions, including a heating stove, the lightning rod and an early electrical battery.

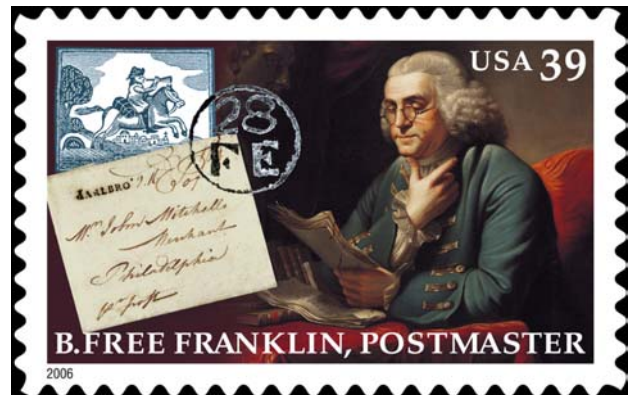

Benjamin Franklin, Printer

The image of the stamp honoring Franklin as a printer includes a portrait of him in a printer's smock by illustrator Michael Dooling; a copy of the *Pennsylvania Gazette* dated Sept. 25 through Oct. 2, 1729; the front of the 1733 edition of *Poor Richard's Almanack*; and a 5-pound currency note printed by Franklin in 1760. The text on the back of the stamp sheet reads:

From his childhood apprenticeship in Boston to his career in Philadelphia as an adult, Benjamin Franklin enjoyed a lifelong association with printing. In addition to the *Pennsylvania Gazette* and *Poor Richard's Almanack*, his presses also printed a wide range of materials, such as government pamphlets, religious tracts, currency and books.

B. Free Franklin, Postmaster

The Continental Congress appointed Franklin as the first Postmaster General of the organization known today

as the United States Postal Service®. The stamp honoring Franklin as a postmaster includes a graphic device used by the *Boston Post-Boy* newspaper during the middle 18th century; a colonial postal cover from Marlboro, MD, on a 1775 letter to Philadelphia; a colonial-era date postmark; and a late 18th-century painting of Franklin by Charles Wilson Peale after a portrait by David Martin. The text on the back of the stamp sheet reads:

Benjamin Franklin was vital to the organization of the American postal system, serving as postmaster of Philadelphia and a deputy postmaster for the American colonies before being appointed postmaster general by the Continental Congress in 1775. He marked postage-free letters with his unique personal signature: "B. Free Franklin." Text across the bottom of the stamp reads "B. Free Franklin, Postmaster," a reference to Franklin's personal franking signature.

Benjamin Franklin, Statesman

The stamp honoring Franklin as a statesman includes a detail from John Trumbull's famous painting of the signing of the Declaration of Independence, painted between 1786 and 1819; a copy of Franklin's 1754 "Join or Die" political cartoon urging colonial unity; the top of a printed copy of the Declaration of Independence; a pastel portrait of Franklin by Joseph-Siffred Duplessis, painted during the 1780s; and the French side of the 1778 Treaty of Alliance with France, which was negotiated and signed by Franklin. The text on the back of the stamp sheet reads:

Deeply involved in politics and civic life, Benjamin Franklin served in the Continental Congress and signed both the Declaration of Independence and the Constitution. Often considered America's first diplomat, Franklin negotiated an alliance with France and helped to secure a peace treaty with Great Britain.

Publicity Ideas to Interest the Media

Keep in mind that these stamps have significant national, historic, and political importance. Senators and congressional representatives, as well as local elected officials, will be interested in this stamp and the events surrounding it. It is a good idea to contact your Postal Service Government Relations representative for guidance in involving elected officials when planning your event.

Your district Public Affairs and Communications representatives are also available and ready to assist you in coordinating publicity for your events.

There are many ways to interest local media in the *Benjamin Franklin* commemorative postage stamps by planning local events; partnering with local historic and science museums and organizations; and contacting your local television meteorologists, Benjamin Franklin grade schools, newspaper organizations, and colleges or universities. Following are some suggestions to capture media attention.

- Form an alliance with your local television meteorologist.
- Ask the local television meteorologist to conduct a live broadcast from your local Post Office™, or other event location, when the *Benjamin Franklin* commemorative postage stamps go on sale or during the weather segment on television. Franklin's impact upon meteorological studies was profound. Provide these talking points to your television meteorologist or weather reporter when showing the *Benjamin Franklin* stamps. Provide them with the background of the *Benjamin Franklin, Scientist* stamp (see below).

Talking Points to Provide to Your Television Meteorologist

"Some are weather-wise, some are otherwise." — Benjamin Franklin

- One can find Franklin's first recorded weather forecasts in the 1735, *Poor Richard's Almanak*, illustrated in the *Benjamin Franklin, Printer* stamp. In this publication Ben Franklin wrote: "Some are weather-wise, some are otherwise."
- Intellectually curious, Benjamin Franklin was one of the greatest scientists of his day. He was intensely curious about natural phenomena such as electricity, meteorology, magnetism, and the Gulf Stream.

- Franklin's observations and experiments resulted in the progression of atmospheric science.
- As an avid publisher, Franklin kept records of his observations. He observed the weather systems in North America and concluded that storms moved from west to east. This notion of storms traveling eventually led to Franklin's synoptic charts of dynamic meteorology, which ultimately replaced the use of climatology charts.
- Franklin studied oceanography by gathering information from Atlantic Ocean sailors and also kept records of his own travels. In 1768, he published the first map of the Gulf Stream current.
- His investigations into electricity — including his famous kite experiment — formed the basis for numerous discoveries by succeeding generations of scientists.
- His observations and experiments resulted in interesting inventions, including a heating stove, the lightning rod, and an early electrical battery.
- Other aspects that fascinated Franklin were natural events such as volcano eruptions and tornados. Today, many refer to him as the first theorist of volcano-climate interactions.

Partnering With Local Schools

Form an alliance with the hundreds of Benjamin Franklin schools right in your community. Do any of the schools in your area bear Benjamin Franklin's name? If so, this would be an opportune time to honor the school by having a stamp ceremony. They may already have events planned to celebrate the school's namesake. Below is a chart, by state, of many schools named after Benjamin Franklin. However, this list is not final, so do not hesitate to do a search in your area!

Partnering With Local Newspapers

Form an alliance with your local newspaper. Use the following suggestions to generate media exposure.

- Benjamin Franklin's first career was as a printer and newspaper publisher. Provide the editor with the appropriate background (Found in the press release on page 17) and ask that the paper feature an article about the *Benjamin Franklin* commemorative postage stamps.
- Hold a second-day dedication ceremony at your local newspaper featuring the *Benjamin Franklin* commemorative postage stamps, specifically emphasizing the *Benjamin Franklin, Printer* stamp.
- If your area only has a large metropolitan newspaper, share the idea with your neighborhood section's editors.
- Your community newspaper may be a member of the National Newspaper Association (NNA) and participate in the Benjamin Franklin Community Newspaper and Postal Partnership Award of Excellence Program. The NNA and the Postal Service have partnered to choose postal employees that have made significant contributions to community newspapers. Newspapers that are members of the NNA nominate postal employees based on their efforts.
- A postal employee in your area or state may have been nominated or may be the state or national winner! This would be an opportune time to get your community involved and hold a special dedication ceremony with the nominee during a *Benjamin Franklin* stamp ceremony for the namesake of the award.
- On the next page is a list, categorized by region, of NNA representatives you can contact to find out if your community newspaper is a member.

Partnering With Local Colleges and Universities

Contact local colleges and universities with science, English, philosophy, engineering or government departments to promote the stamps. Franklin aided in establishing institutions of higher education such as the University of Pennsylvania and Franklin and Marshall College. His contribution to the arts and sciences is vast!

- Science and Technology — Franklin's career as a scientist involved discovery and experimentation with electricity. He created many inventions such as the Franklin stove, medical catheter, lightning rod, glass harmonica, and bifocals. Franklin was also an avid publisher of meteorology and astrology. His contributions to the sciences continues to be incorporated in educational curriculums.
- History and Government — Franklin is remembered as a great leader and one of the Founding Fathers of the United States. He was deeply involved in politics and civic life and served in the Continental Congress and signed both the Declaration of Independence and the Constitution. Often considered America's first diplomat, Franklin negotiated an alliance with France and helped to secure a peace treaty with Great Britain.
- Philosophy — Franklin dedicated himself to the improvement of everyday life and belonged to a group that engaged in business, morality, politics, and philosophy. He created lists called "13 Virtues" and the "A to Z Words of Wisdom" (see next page). He also created the American Philosophical Society, which promotes scientific and intellectual dialogue and, to this day, is one of the nation's premiere scholarly associations. It is known for its avocation of knowledge in the sciences and humanities through excellence in scholarly research, professional meetings, publications, library resources, and community outreach. This association offers prizes, fellowships, and grants to scholars.

Visit <http://members.amphilsoc.org/searchPublic.php> to find a local winner and college near you.

- Printing and Publishing — From his childhood apprenticeship in Boston to his career in Philadelphia, Benjamin Franklin enjoyed a lifelong association with printing and publishing. Some of his published material includes *Poor Richard's Almanack*; *Experiments and Observations on Electricity*, a series of scientific experiments; *The Pennsylvania Gazette*, which consisted of political

information; and political cartoons, still used today in publications. His presses also printed a wide range of other materials, such as government pamphlets, religious tracts, currency, and books.

Implement any of these ideas, combine them, or brainstorm with your employees and come up with ideas of your own. Use the publicity materials in this kit and be sure to publicize each and every event to your local newspaper, radio and television stations via press releases, media advisories, and letters to the media. Don't forget to make follow-up telephone calls.

U.S. Postal Service Honors the First Postmaster General on First-Class Postage Stamps

[City, State] — During a special ceremony today, [Name of Local Elected Official] joined [Postal Service Official Name and Title] to dedicate the *Benjamin Franklin* commemorative postage stamps to continue the year-long celebration to honor the 300th anniversary of his birth.

The event introducing the four educational 39-cent First-Class postage stamps — took place today at the [Name of Town Post Office or Other Location].

[Insert USPS Quote].

These stamps are designed to give you the "scoop" on this genius who was a printer, scientist, statesman and the nation's first postmaster general. We are honored by this opportunity to keep Benjamin Franklin's legacy and brilliance alive.

Benjamin Franklin, Printer

The image of the stamp honoring Franklin as a printer includes a portrait of him in a printer's smock by illustrator Michael Dooling; a copy of the *Pennsylvania Gazette* dated Sept. 25 through Oct. 2, 1729; the front of the 1733 edition of *Poor Richard's Almanack*; and a 5-pound currency note printed by Franklin in 1760. The text on the back of the stamp sheet reads:

From his childhood apprenticeship in Boston to his career in Philadelphia as an adult, Benjamin Franklin enjoyed a lifelong association with printing. In addition to the *Pennsylvania Gazette* and *Poor Richard's Almanack*, his presses also printed a wide range of materials, such as government pamphlets, religious tracts, currency and books.

Benjamin Franklin, Scientist

The stamp image honoring Franklin as a scientist includes a whimsical 19th-century Currier and Ives lithograph depicting Franklin and his son performing the legendary electricity experiment with a kite; a page from Franklin's 1769 volume *Experiments and Observations on Electricity* depicting water spouts and a "magic square;" a schematic drawing of Franklin's "three-wheeled clock" from the late 18th-century book *Select Mechanical Exercises* by James Ferguson; and a depiction of Franklin at a writing desk from a mural by Charles Elliott Mills at the Benjamin Franklin Institute of Technology in Boston, MA. The text on the back of the stamp sheet reads:

Remembered for the pursuits he called "philosophical amusements," Benjamin Franklin was intensely curious about natural phenomena. His observations and experiments in areas such as electricity and meteorology resulted in interesting inventions, including a heating stove, the lightning rod and an early electrical battery.

Benjamin Franklin, Statesman

The stamp honoring Franklin as a statesman includes a detail from John Trumbull's famous painting of the signing of the Declaration of Independence, painted between 1786 and 1819; a copy of Franklin's 1754 "Join or Die" political cartoon urging colonial unity; the top of a printed copy of the Declaration of Independence; a pastel portrait of Franklin by Joseph-Siffred Duplessis, painted during the 1780s; and the French side of the 1778 Treaty of Alliance with France, which was negotiated and signed by Franklin. The text on the back of the stamp sheet reads:

Deeply involved in politics and civic life, Benjamin Franklin served in the Continental Congress and signed both the Declaration of Independence and the Constitution. Often considered America's first diplomat, Franklin negotiated an alliance with France and helped to secure a peace treaty with Great Britain.

B. Free Franklin, Postmaster

The Continental Congress appointed Franklin as the first postmaster general of the organization known today as the United States Postal Service. The stamp honoring Franklin as a postmaster includes a graphic device used by the *Boston Post-Boy* newspaper during the 18th century; a colonial postal cover from Marlboro, MD, on a 1775 letter to Philadelphia; a colonial-era date postmark; and a late 18th-century painting of Franklin by Charles Wilson Peale after a portrait by David Martin. Text across the bottom of the stamp reads: "B. Free Franklin, Postmaster," a reference to Franklin's personal franking signature. The text on the back of the stamp sheet reads:

Benjamin Franklin was vital to the organization of the American postal system, serving as postmaster of Philadelphia and a deputy postmaster for the American colonies before being appointed Postmaster General by the Continental Congress in 1775. He marked postage-free letters with his unique personal signature: "B. Free Franklin."

Since 1775, the Postal Service and its predecessor, the Post Office Department, has connected friends, families, neighbors and businesses by mail. It is an independent federal agency that visits 144 million homes and businesses every day, six days a week and is the only service provider delivering to every address in the nation. The Postal Service receives no taxpayer dollars for routine operations, but derives its operating revenues solely from the sale of postage, products and services. With annual revenues of more than \$69 billion, it is the world's leading provider of mailing and delivery services, offering some of the most affordable postage rates in the world. The Postal Service delivers more than half of the world's mail volume — some 212 billion letters, advertisements, periodicals and packages a year — and serves seven and a half million customers each day at its 37,000 retail locations nationwide. Its Web site, usps.com, attracts more than 21 million visitors each month.

Benjamin Franklin Commemorative Stamps Dedication Speech

The following suggested speech may be used at local ceremonies and events to support and promote the Benjamin Franklin commemorative postage stamps. Feel free to customize it to fit your local event and community.

Thank you and welcome.

Today is a day of historical significance. This special event is to recognize the 300th anniversary of the birth of Benjamin Franklin.

I am honored to be here representing the Postal Service as we dedicate a stamp in honor of this American icon who was a statesman, scientist, printer, and the nation's first postmaster general.

The four images chosen for these intricate and brilliantly illustrated stamps capture many of Franklin's lifetime accomplishments. The design that was selected is historical and educational. These stamps are a collage representing one of four aspects of Franklin's life, career, and personal interests.

These stamps capture the essence of what Franklin contributed to this nation many years ago.

I speak to you today not only to celebrate the 300th anniversary of his birth, but to also paint a picture in your head of what Ben Franklin means to the U.S. Postal Service, and more importantly, our nation. It is incredible to think of the everyday things we experience and how most of them can be traced right back to Franklin. From his numerous inventions, the electricity that keeps our society and businesses moving, to the everyday thoughts, ideas, and ways to live, and to the letters and packages that are delivered to our homes everyday.

Ladies and gentlemen, you, too, have the opportunity to make a difference. One step is to keep Benjamin Franklin's legacy and brilliance alive and take part in the Postal Service's nationwide celebration — for our children and our children's children.

Take the time this year to appreciate history and honor this great teacher, leader, and inventor. With these stamps, we hope to give you a head start.

So, now, on behalf of the Postal Service, I would like to ask our special guests to join me at the drape as we officially dedicate the Benjamin Franklin commemorative stamps.

In 2005, 400 employees were recognized as heroes — by risking their own lives to save the lives of the customers they serve.

Semipostal stamps raise money to support worthy causes:

- As of January 2006, the *Breast Cancer Research* semipostal stamp has raised \$48.9 million.
- The *Heroes* semipostal stamp, sold from June 2002 through December 2004, raised \$10.6 million to assist families of emergency relief personnel killed or permanently disabled in the line of duty on September 11, 2001.

This year, National Dog Bite Prevention Week will be held May 21–27 to build awareness concerning animal attacks.

Working with ADVO to reunite families, the "Have You Seen Me" detached direct-mail card highlights the power of the mail — 138 missing children have been found and returned to their homes (as of 12/05).

The U.S. Postal Inspection Service is one of the oldest federal law enforcement agencies. In 2005, the Inspection Service launched "Operation Dialing for Dollars" to shut down fraudulent telemarketers targeting older Americans. The operation resulted in 64 arrests and 64 convictions.

The Postal Service is a recognized leader in efforts to make the world a safer and cleaner place by protecting the environment. We:

DMM REVISION

New 3-Digit Sort Option for Drop-Ship Mailers

Effective July 6, 2006, mailers have a new option to drop-ship Parcel Select® and Bound Printed Matter machinable parcels to certain 5-digit ZIP Codes™ prepared on 3-digit pallets or in 3-digit pallet boxes when entered at designated sectional center facilities (SCFs). We are revising sections 456.2 and 466.3 of the *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) and adding new Labeling List L607 to reflect this change.

This new option provides additional workshare opportunities and improved total time-in-transit by allowing mailers to enter parcels for certain ZIP Codes directly into appropriate destination sectional center facilities (DSCFs).

Prior to this change, mailers prepared all machinable parcels entered at DSCFs in 5-digit scheme or 5-digit sacks with a seven-piece minimum. Operationally this requirement is necessary for the majority of our Package Services volume, which is sorted on mechanized equipment to the 5-digit level in the bulk mail center/auxiliary service facility (BMC/ASF) network. Without this standard, machinable parcels sorted just to 3-digit containers and deposited at DSCFs would shift workload from the mechanized BMC/ASF environment to a manual sorting environment at the SCFs.

While BMCs and ASFs sort parcels to the 5-digit level for a majority of our ZIP Codes, there are a number of ZIP Codes that the BMCs and ASFs combine into 3-digit containers for further sorting at the downstream SCF. Our new option will essentially provide mailers the same opportunity by authorizing them to enter some parcels closer to the destination facility. However, these parcels are still subject to destination bulk mail center rates.

L607 3-Digit ZIP Code Sort Option for Drop-Ship Mailers

L607 lists the 5-digit ZIP Codes for machinable parcels eligible to be entered at designated SCFs when sorted into 3-digit containers. The corresponding rate eligibility and mail preparation standards are described in 456.2.2 and 2.6 and 466.3.1 and 3.2.

Column A lists the 5-digit destination ZIP Codes that may be included in this sortation. Column B lists the corresponding 3-digit destination for container labeling. Use L005 for determining the corresponding SCF entry facility.

DMM REVISION

Hold For Pickup Endorsement — Update

As follow up to our September 29, 2005, *Postal Bulletin* 22164 article regarding Hold For Pickup service, effective March 16, 2006, we are revising 455.4.6.2 of the *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)* by deleting the requirement for mailers to separate parcels endorsed “Hold For Pickup” from other Parcel Select parcels entered at destination delivery units.

DMM REVISION

Elimination of Multiple Entry Point Processing System

Effective March 16, 2006, we are revising 705.15.4.1 of the *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)* to remove the Multiple Entry Point Processing System (MEPPS) option.

MEPPS was a stand-alone system that enabled mailers to input postage statement information by entry point and aggregate the information into a single consolidated postage statement. The MEPPS system is no longer available.

PostalOne! will enable mailers to submit mailing documentation and postage statements electronically. For information on *PostalOne!*, or to explore alternate solutions to submit your mailing documentation, contact your local business mail entry unit or the USPS Customer Care Center at 800-522-9085.

DMM REVISION

Sack Preparation Changes for Periodicals Mail

Effective May 11, 2006, we are adopting new mailing standards for Periodicals mail prepared in sacks. The standards include two new types of sacks — a 3-digit carrier routes sack and a merged 3-digit sack — and a new minimum of 24 pieces for most other sacks. We published this revision in the January 19, 2006, *Postal Bulletin*, but inadvertently omitted related standards for cosacking bundles of automation and presorted flats in section 705.9.2 of the *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)*. We provide the revised standards below. These revised standards are also effective on May 11, 2006.

Overseas Military Mail

Mail addressed to military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO table below outlines these conditions by APO/FPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to determine which APO/FPO ZIP Codes are active and

which conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO ZIP Codes, toll free, at 800-810-6098, Monday–Friday, 0730–1630 ET.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

There are no changes in the APO/FPO Table this issue.

We have eliminated “Not Active” entries from the table below to save space and paper.

Upcoming Mail Preparation Changes

Several important mail preparation changes are on the horizon. We summarize these changes in the table below, and we will incorporate them into *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) when they are effective.

The DMM and other mailing tools are available for customers and employees on the Postal Explorer® Web site at <http://pe.usps.com>. The electronic DMM is fully searchable and features fly-out menus and clickable links for easy navigation. We update the DMM online at least once a month to capture changes to mailing standards, so it is always your current source for mail preparation information.

NOTICE

Phase III Postage Meters Scheduled for Decertification

We remind Phase III postage meter users who plan to continue using a meter for postage that they must complete their transition to a more secure Postal Service™-approved postage meter by the December 31, 2006, decertification date established in 2001.

Phase III postage meters use older rotary (letterpress) technology to print postage and do not automatically disable if not reset within a certain time period. Customers using this technology should keep in mind that Phase III meters cannot be reset once they are decertified. Phase III meters must be off the market and withdrawn from service by December 31, 2006.

Meter users who choose to transition to one of the new information-based indicia postage meter models will have access to the advantages offered by Intelligent Mail, including the following:

- Greater mailpiece visibility.
- Improved ability to provide predictable and accurate delivery by the Postal Service.
- Multiple value-added services in a single barcode. The barcode provides data-rich and machine-

readable information and is unique and trackable throughout the Postal Service distribution network.

In addition to this notice, the Postal Service has provided all commercial postage meter vendors with a letter outlining the transition requirements for distribution to their clients.

Postal Service employees should direct customers requesting specific information about approved replacement models to contact a commercial postage meter vendor. Mailing system representatives at these companies have received specialized training, can explain the features offered by each postage meter model, and can answer questions about this transition process.

General information on digital technology, postage meter decertification schedules, and a listing of Postal Service-approved postage meter vendors can also be found at www.usps.com/postagesolutions/flash.htm.

Reductions in Grade — Correction

In the article “ELM Revision: Reductions in Grade” in *Postal Bulletin* 22170 (12-22-05, pages 41–42) we published changes to the *Employee and Labor Relations Manual* (ELM) 422.125, Reductions in Grade, to be effective June 10, 2006 (Pay Period 13-2006). Household Diary Study

The Postal Service's™ Household Diary Study (HDS), conducted since 1987, provides information about the contents of the mail sent and received by U.S. households. The Postal Service uses this information to help understand why and how customers use the mail. The results are used to:

- Forecast mail volume.
- Plan marketing strategies.
- Provide information for rate-setting purposes.

The HDS is administered at Headquarters by the Office of Demand Forecasting and Economic Analysis, Finance. NuStats, the HDS survey research firm contractor since July 1999, conducts the interviews and collects and analyzes the HDS data throughout the year.

HDS is a two-stage survey. Stage 1 is the Household Interview. NuStats sends an advance letter, signed by the postmaster general, to a representative sample of U.S. households. This letter emphasizes the importance of the HDS and asks for participation. These sample households are contacted either by telephone or in person and asked about the mail they send and receive, their adoption and use of various communications' technologies, their attitudes about mail service in general, and information relating to their household and personal demographics. Those respondent households are recruited to participate in HDS Stage 2.

Stage 2 is the Mail Diary. NuStats asks households that agree to participate in Stage 2 to record information about the mail they send and receive for a 7-day period from

Monday to Sunday. Information recorded includes number of mailpieces received and sent, industry mail source, mail characteristics, and attitudes regarding mail received. As an incentive for HDS Stage 2 participation, households are offered the options of receiving \$30 or a roll of 100 First-Class Mail® stamps.

Customers who participate in Stage 2 of the HDS can expect to receive their incentive about 2 months after they return the diary packet to NuStats.

Data gathered in both HDS stages is available in a final report, *The Household Diary Study — Mail Use and Attitudes*. The report is published in hard copy and a free electronic file. Order forms for the latest HDS report may be obtained via the Postal Service Internet at www.usps.com/householddiary.

IMM REVISION

International Inquiry, Claims, and Postage Refund Processes

Effective March 16, 2006, *International Mail Manual* (IMM®) 920 is revised to further clarify changes to the international inquiry and claims process. The new process provides greater customer convenience as customers simply call the International Inquiry Center at 800-222-1811 to initiate an inquiry regarding Global Express Guaranteed® (GXG®), Global Express Mail® (EMS®), international registered and recorded delivery, letter-post, and insured or ordinary parcel post items.

International Mail Manual (IMM)

* * * * *

9 Inquiries, Indemnities, and Refunds

* * * * *

[Revise 920 in its entirety to read as follows:]

920 Inquiries and Claims

921 Inquiries

921.1 Definition

“Inquiry” is a general term that includes:

- Requests concerning the disposition of an item mailed to or from a foreign country.
- Complaints or reports concerning the loss, rifling (missing contents), damage, or improper delivery or return of an item mailed to or from a foreign country.

921.2 Initiating an Inquiry

Inquiries can be initiated for Global Express Guaranteed (GXG) items, Global Express Mail (EMS) items, registered and recorded delivery letter-post items, and insured and

ordinary parcel post items. Inquiries are not accepted for ordinary letter-post (including M-bags) or Global Priority Mail items. Customers must wait a reasonable amount of time for an international item to be delivered in the foreign country before initiating an inquiry. Customers must initiate inquiries within the time limits in Exhibit 921.2.

921.3 How to Initiate

Customers must call the International Inquiry Center at 800-222-1811 within the time limits listed in Exhibit 921.2 to initiate an inquiry. Customers will be asked to provide relevant information regarding the mailing, including, but not limited to:

- Mailing receipt number or item barcode number of the article.
- Names and addresses of the mailer and addressee.
- Date of mailing.
- Telephone number(s) of the mailer and addressee.

921.4 Inquiry Process

After the Postal Service customer provides the International Inquiry Center with the relevant mailing information, the International Inquiry Center will correspond with the appropriate foreign post and advise the customer of the results of the inquiry. Customers must allow foreign posts 60 days to research and respond to the International Inquiry Center. When there is a determination that an item has been lost, rifled, or damaged, the International Inquiry Center will mail a claim packet to the customer. The packet will include a letter of instruction on how to complete and submit the claim.

Exhibit 921.2 Time Limits for Inquiries

Product or Special Service*	Who	When (from mailing date)	
		No sooner than...	No later than...
Global Express Guaranteed	U.S. Sender Only	3 days	30 days
Global Express Mail	U.S. Sender Only	3 days	90 days
Global Express Mail with Guarantee	U.S. Sender Only	3 days	30 days
Registered Letter-post, Recorded Delivery, and Insured or Ordinary Parcel Post	Air	Sender or Addressee	7 days
	Economy (Surface)	Sender or Addressee	30 days

*Inquiries are not accepted on ordinary letter-post, M-bags, or Global Priority Mail items. Customers are also reminded to visit usps.com for delivery information.

921.5 General Procedures

921.51 Nondelivery

The U.S. Postal Service will initiate an inquiry within the time frames specified in 921.2 with the destination postal administration in any case involving a GXG, EMS, registered, recorded delivery, or insured or ordinary parcel post item that has not been delivered. Inquiries are not accepted for ordinary letter-post items (including M-bags) or Global Priority Mail items.

921.52 Return Receipts Improperly Completed or Not Received

If the sender receives an improperly completed return receipt (see 341 for completion at destination) or a return receipt is not received, the sender may go to any Post Office and request a refund of the return receipt special service fee. If the sender wants to inquire about the delivery of the article, the sender must call 800-222-1811 to initiate an inquiry (see 921.2).

921.53 Rifled Parcels

Customers may go to any Post Office to report instances of rifled parcels. Postal Service personnel should complete PS Form 673, *Report of Rifled Parcel*, in accordance with POM 169.3.

921.54 Wrapper Found Without Contents

921.541 Parcels of Domestic Origin

When the contents of a parcel of domestic origin become separated from the wrapper, Postal Service personnel should inform the sender in accordance with the instructions on PS Form 3760, *Parcel Search Request*.

921.542 Parcels of Foreign Origin

If the parcel is of foreign origin, send PS Form 3760, appropriately modified, to the addressee.

922 Claims

922.1 General Description

A claim is a request by a U.S. Postal Service customer for an indemnity payment that resulted from the loss, damage, or rifling of a GXG, EMS, registered letter-post, or insured or ordinary parcel post item. See 221.3, 280, 320, and 330 for information on indemnity limits. See 930 and 940 for information on indemnity payments and postage refunds.

922.2 Filing a Claim

Claims may be filed for GXG, EMS, registered letter-post, and insured and ordinary parcel post items as noted in Exhibit 922.2. Claims may not be filed for ordinary letter-post, GPM, or recorded delivery items. Claims for lost articles may not be filed until after an inquiry has been completed in accordance with procedures in 921. Claims for rifled or damaged articles should be filed immediately. Claims for registered letter-post and insured or ordinary parcel post

items delivered to the addressee with contents missing or in damaged condition are payable only to the addressee, unless the addressee waives right to payment, in writing, in favor of the sender. If the addressee does not accept delivery and the item is returned to the sender, the sender will be the payee.

922.3 Claims Process

When there is a determination that an item has been lost, rifled, or damaged, the customer will receive PS Form 2855, *Claim for Indemnity — International Registered Mail, Insured, Ordinary Parcel, and Express Mail*.

922.31 Evidence of Indemnity Coverage

The customer must submit acceptable evidence to establish the indemnity purchased at the time it was mailed. Indemnity claims for GXG, EMS, registered letter-post, and insured or ordinary parcel post items must be supported as follows:

- a. If mailed in the United States:
 - (1) For Global Express Guaranteed items, the original receipt of the GXG Air Waybill/Shipping Invoice.
 - (2) For Global Express Mail items, PS Form 2861, *Express Mail International Service Inquiry*, received from the International Inquiry Center.
 - (3) For registered letter-post or insured parcel post items, the original mailing receipt issued at the time of mailing. Copies are not acceptable.
 - (4) For ordinary parcel post, the original mailing receipt or the customer copy of PS Form 2976-A, *Customs Declaration and Dispatch Note — CP 72*.
- b. If mailed from a foreign country: The original mailing receipt if available, the customs label, the wrapper, and any other markings or endorsements on the mailing container that indicate how it was sent.

922.32 Evidence of Value

The customer must submit acceptable evidence to establish the cost or value of the article at the time it was mailed. Other evidence may be requested to help determine an accurate value. Examples of acceptable evidence include:

- a. Sales receipt, invoice, or statement of value from a reputable dealer.
- b. Customer's own statement describing the lost or damaged article, including the date and place of purchase, the amount paid, and whether new or used (only if a sales receipt, invoice, or statement of value from a reputable dealer is not available). If the article is handmade, the statement must include the price of the materials and labor used. The statement must describe the article in enough detail to determine whether the value claimed is accurate.

IMM AND PUBLICATION 51 REVISIONS

Suspension of International Economy Mail Service to Several Countries

Effective February 17, 2006, we revised the *International Mail Manual* (IMM®) and Publication 51, *International Postal Rates and Fees*, to reflect that all mail paid at the economy rates to the following countries is suspended due to a lack of reliable, cost-effective surface transportation:

- Algeria.
- Benin.
- Cameroon.
- Central African Republic.
- Congo, Democratic Republic of the.
- Congo (Brazzaville), Republic of the.
- Cote d'Ivoire (Ivory Coast).
- Djibouti.
- Eritrea.
- Ethiopia.
- Gabon.
- Guinea.
- Iraq.
- Libya.
- Madagascar.
- Mauritania.
- Morocco.
- Reunion.
- Togo.
- Tunisia.

This suspension does *not* affect International Surface Air Lift® (ISAL®) mail. *Exception:* There is currently a suspension of ISAL service to Libya, and that suspension remains in effect.

This suspension of economy mail services will remain in effect until further notice.

Return any on-hand economy mail for these countries to the sender endorsed "Service Temporarily Suspended." Refund postage according to *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 604.9.0.

REMINDER

New International Destinations: The Republic of the Marshall Islands and the Federated States of Micronesia

The Republic of the Marshall Islands and the Federated States of Micronesia are international destinations. As part of an agreement negotiated between the United States government and the two former United States Trust Territories, mail destined to these two countries now uses the international rate schedules listed in the *International Mail Manual* (IMM®).

Three international services are *not* offered for mail destined to these two countries: Global Express Guaranteed® (GXG®), Global Priority Mail® (GPM), and International Surface Air Lift® (ISAL®). These services require special transportation arrangements, which are not presently available, but services may be offered in the future. Also, the following special services are *not* available: insurance, international business reply service, international money orders, international reply coupons, recorded delivery, registered mail, restricted delivery, and return receipt.

Mail for these destinations must be prepared based on the standards in the IMM, including the addressing standards in IMM 120.

Following is a review of the conditions for mailing to the Republic of the Marshall Islands and the Federated States of Micronesia. The conditions are the same for both countries.

Note: The Republic of the Marshall Islands includes Ebeye, Kwajalein, and Majuro. The Federated States of Micronesia include Chuuk (Truk), Kosrae, Pohnpei, and Yap.

STAMP ANNOUNCEMENT 06-17

The Art of Disney: Romance Stamps

Copyright USPS 2005

The Postal Service™ will issue 39-cent commemorative stamps, *The Art of Disney: Romance*, in four designs, in a pressure-sensitive adhesive (PSA) pane of 20 (Item 568000), on April 21, 2006, in Lake Buena Vista, Florida. The stamps, designed by David Pacheco, Burbank, California, go on sale nationwide April 22, 2006.

With this stamp pane, the U.S. Postal Service® honors the art of romance as imagined by Walt Disney and his studio animators. With help from some of Walt Disney’s famous animated characters, Postal Service art director Terrence McCaffrey joined with a Disney team including artist Peter Emmerich and creative director David Pacheco to create four stamps that feature the following characters:

- Cinderella and Prince Charming.
- Beauty and the Beast.
- Lady and Tramp.
- Mickey and Minnie Mouse.

This is the third stamp pane honoring the art of Disney to be issued by the Postal Service. The first, issued in 2004, was on the theme of friendship. The second, issued in 2005, focused on celebrations.

How to Order First Day of Issue Postmark

Customers have 30 days to obtain the first day of issue postmark by mail. They may purchase new stamps at their

local Post Office™, by telephone at 800-STAMP-24, and at The Postal Store® Web site at www.usps.com/shop. They should affix the stamps to envelopes of their choice, address the envelopes (to themselves or others), and place them in a larger envelope addressed to:

[Information not available at time of printing.]

After applying the first day of issue postmark, the Postal Service will return the envelopes through the mail. There is no charge for the postmark. All orders must be postmarked by May 20, 2006.

Second Day Postmarks

Due to copyright agreements with the Walt Disney Company, only the following pictorial postmarks are permitted. Post Offices planning events are prohibited from designing their own special pictorial postmark. The word "Station" or the abbreviation "STA" is required somewhere in the design, because it will be a temporary station.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. If available, the sponsor of the pictorial postmark appears in italics under the date. Also provided, as space permits, are illustrations of those postmarks that were reproducible and available at press time.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event, but who wish to obtain the postmark, may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL POSTMARKS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP+4® CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP+4 code).

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

The following postmark has been extended for 30 days.

ALL IRT AND DEBIT/CREDIT CARD OFFICES

Setting Clocks for Daylight Saving Time

Managers must ensure that before opening for business on Monday, April 3, 2006, the clocks in all integrated retail terminals (IRTs) and debit/credit card terminals under their control are set *forward* (in most locations) 1 hour to reflect the change to Daylight Saving Time. Facilities with Saturday night operations should reset the time as soon as possible after the 2 A.M. start time, Sunday, April 2, 2006.

The correct system time in IRTs is critical since their internal clocks are used to verify Express Mail® and Global Express Guaranteed™ acceptance times and service commitments. The IRT system time is also printed on customer receipts and employee reports. It is very important that the debit/credit card terminal clocks be set to the correct day, date, and time as this will help reduce the possibility of accepting an expired debit/credit card.

NOTICE

Custodial Products — Capital Equipment Purchases

Dallas Environmental and Maintenance Repair Operations Category Management Center (MRO CMC) awarded national contracts for custodial products to W. W. Grainger and Cleanwise in August 2001. These contracts incorporated custodial equipment such as vacuums, scrubbers, sweepers, etc., that cost less than the capital threshold of \$3,000.

In the past, equipment requests over \$3,000 have been processed through the Windsor, CT; Chicago, IL; San Francisco, CA; and the Memphis, TN, Purchasing Service Centers (PSCs). **Effective immediately, requests for**

custodial capital equipment (scrubbers, sweepers, burnishers, etc.) should be forwarded to the Environmental and MRO CMC.

Questions regarding this procedural change should be directed to the contracting officer for custodial products and equipment, Dan Davisson, at 214-819-7116 or *Dan.M.Davisson@usps.gov*.

NOTICE

Postal Service Awards New National Contract for Corrugated Fiberboard Postal Paks

On December 30, 2005, the Mail Transport Equipment (MTE) Category Team (CT) awarded a contract to International Paper to supply the 69-inch tri-wall postal pak to all bulk mail centers (BMCs). The new contract began on or about February 28, 2006, and is for a 3-year period with two 1-year options. Based on estimated annual usage, the value of the contract is projected at \$2,227,000 per year.

At first, all orders will be placed using an off-catalog eBuy requisition, and a delivery order will be manually created against the contract. When the eBuy catalog is available, which should be around April 19, orders will be placed via the catalog and will be routed to the appropriate International Paper manufacturing facility. Additional order funding is required on all requisitions for freight, as this is a free on board (FOB) destination contract.

An accomplishment of this Supply Chain Management (SCM) effort has been to consolidate requirements in order to leverage Postal Service™ demand. As a result, the overall cost of the product is reduced by 19 percent. Additionally, time of delivery — from manufacturing site to facility — is reduced. This is due to International Paper's four manufacturing facilities located across the United States, which regionalize the BMCs according to proximity to their sites.

Contact Jonathan Hirsch, Purchasing and Supply Management Specialist, MTE CT — Headquarters, at 202-268-8434 for more information.
