

Brett Lunn

Managing Partner, FB Rice

Brett has a BSc in physics, a PhD in polymer physics and has been a registered Australian patent attorney since 1995. He is currently the Managing Partner of FB Rice, a patent and trade mark attorney firm practicing in Australia and New Zealand.

In addition to his role of Managing Partner, Brett maintains a practice specializing in the protection of medical technology, including biomaterials, orthopedic implants and medical bionics. Brett acts for a range of clients including Australian and multinational companies, hospitals, universities, start-ups and individual inventors in the medical field.

In the IP space, he is a Fellow of the Institute of Patent and Trade Mark Attorneys of Australia (IPTA) and a Member of the International Federation of Intellectual Property Attorneys (FICPI), the Asian Patent Attorneys Association (APAA) and the Intellectual Property Society of Australia and New Zealand (IPSANZ). He is also a Director of the Association of Intellectual Property Firms (AIPF) and a member of the Australian Institute of Physics (AIP) and the Institute of Materials Engineering Australasia (IMEA).
