

# SILENT AUCTION

AMOSKEAG  
AUCTION COMPANY, INC.

AUCTION NO. 112  
NOVEMBER 19 & 20, 2016

# AMOSKEAG NOVEMBER 19 & 20, 2016 - SALE NO. 112 - SILENT

## TERMS AND CONDITIONS OF SALE

### GENERAL STATEMENTS

- The Silent Auction is by absentee bidding only. Absentee bidders must register by filling out and signing an absentee bid sheet.
- The highest bidder acknowledged by the auctioneer shall become the owner upon the fall of the hammer. The auctioneer has sole discretion in the case of a dispute among bidders.
- Amoskeag Auction Company, Inc. has taken great care in the preparation of the descriptions in this catalog. Although we believe everything in the descriptions to be true, we do not guarantee any part of any description. We recommend that the bidders view the items in person and form their own opinions as to condition, originality, origin, etc. Amoskeag Auction Company, Inc. will consider all requests for refunds. If a customer is unhappy with a purchase we will be happy to discuss a remedy with them.
- Amoskeag Auction Company, Inc. reserves the right to reject any bid in order to protect our consignors interests.
- Bidding on any item in the sale indicates the bidder's full acceptance and understanding of all terms and conditions of sale.

### PAYMENT POLICY

- Amoskeag Auction Company, Inc. will accept cash, check, MasterCard, Visa, and American Express as payment for items purchased by those customers who attend the sale. Amoskeag Auction Company, Inc. reserves the right to demand cash or hold merchandise until funds are collected in full. THERE WILL BE A \$35.00 CHARGE FOR ALL RETURNED CHECKS.
- There will be a Buyer's Premium of 17.5% added to all purchases. A discounted Buyer's Premium of 15% will apply to all purchases paid by cash or check.

### GUIDELINES FOR FIREARM PURCHASES

- All Federal, State and Local firearms laws will be observed. FFL holders may take possession of any firearm on day of sale when they present a signed copy of their Federal Firearms License. New Hampshire residents over the age of 21 may take possession of any firearm on day of sale providing the proper paperwork is filled out and the transfer has been approved either through the NH State Police or the FBI NICS System. While most NICS and State approvals are immediate, approvals could take up to 3 days. Most non-residents may take possession of long guns on day of sale after completing the proper forms and successfully completing a NICS check; modern handguns will need to be shipped to an FFL holder in the buyer's home state. Buyer is responsible for any and all shipping charges and all items must be paid for on day of sale. Bidders should be familiar with their local and state laws.

Firearms are marked as follows:

ANTIQUÉ - no paperwork required

C&R - for firearms that fall under the ATF Curio & Relics licensing and if purchased by a person with a "C&R License" no paperwork is required. **NOTE:** Items that meet the age requirements but have been altered from their original configuration may NOT be delivered on a C&R License.

Firearms that are not marked with one of these notations are considered to be "MODERN" and all proper paperwork is required unless you are an FFL Dealer.

## FIREARMS WARNING

Amoskeag Auction Company, Inc. **does not** warranty the safety of any article it sells. Therefore, it is **imperative** that, before you use any firearm purchased here or anywhere else, you have it examined by a qualified gunsmith to determine whether or not it is safe to use.

# Firearms

2000. **U.S. FP-45 LIBERATOR PISTOL BY G.M. GUIDE LAMP DIVISION**, 45 ACP, 4" barrel with a lightly oxidized bore. The weld grind on the barrel is smooth with a small slag pit. The barrel strap has failed and the channel the breech plate slides in has cracked on both sides. The breech plate has been welded and is no longer operable. The metal surfaces have been lightly cleaned and have scattered light scratches, oxidation stains and a few scattered pits. The cocking knob is in excellent condition with a small casting flaw and cavity mold number "20". This three-hole pistol has the remnants of a crescent F breech marking, the cocking knob remains functional and the floor plate is missing. The top of the barrel is marked "45 ACP 350" with a German inspection mark between them. The left side of the weld over the chamber is German proof marked and dated March 1982. (86229-795) {C&R} [Elliott Riggs Collection] (350/550)
2001. **SMITH & WESSON MODEL 637-2 CHIEFS SPECIAL AIRWEIGHT REVOLVER** serial #CYX0795, .38 Special, 1 7/8" barrel with an excellent bore. The stainless steel surfaces rate excellent and the anodized surfaces retain about 99% original finish with both exhibiting a few scattered light scratches and there is a turn ring on the cylinder. The rubber factory "boot" style grips with S&W logo rate excellent. The revolver includes a factory box that is correctly end labeled and numbered to the gun, manual and paperwork. These are fantastic concealed carry guns. (87874-3) {MODERN} (350/550)
2002. **SMITH & WESSON MODEL 66 COMBAT MAGNUM REVOLVER** serial #35K0480, .357 Magnum, 4" pinned barrel with an excellent bore. The stainless steel surfaces rate very good to excellent with scattered light scratches, turn ring on the cylinder and a few minor scuffs. The hard chrome finish on the standard trigger and standard hammer rates excellent with a few light operational marks. The checkered rubber Pachmayr Presentation grips rates very good to excellent with a few light handling marks. This revolver features factory white outline microadjustable rear sight and red ramp front sight. Included is a Hunter model 1100P-11 holster. (87874-6) {MODERN} (350/550)
2003. **COLT OFFICIAL POLICE REVOLVER** serial #584701, .38 Special, 4" barrel with an excellent bore. This 1933 made revolver retains about 99% professionally reapplied blue to the frame with a few minor old pit marks visible under the new finish. The barrel and cylinder are factory replacements with original finish. The refinish is factory quality but no factory refurbish marks are present. The unmarked checkered walnut factory grips with silver Colt medallions rate very good with a few lightly compressed diamond points and a few light scuffs. The Rampant Colt is no longer visible on the sideplate but the post 1969 barrel markings are crisp. Overall, a nicely refurbished Official Police for the budding collector or the shooter who enjoys the oldies. (87927-14) {C&R} (350/550)

2004

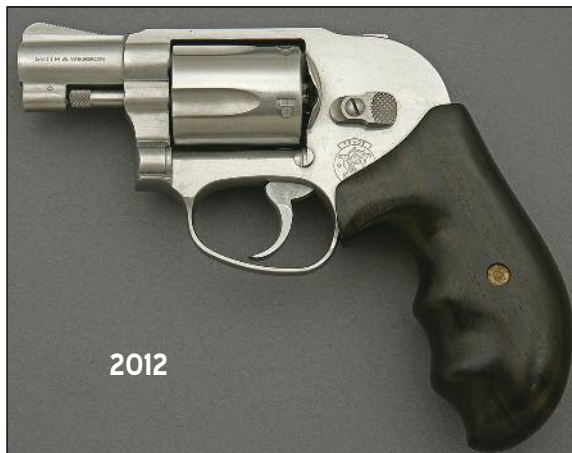

2004. **GERMAN HAMMERLESS ZIMMERSTUTZEN RIFLE BY W. STRÖHLEIN**

4mm, 7 1/2" octagon barrel with an excellent bore. The overall length of the partially fluted barrel is 32", the striker housing is missing and the top barrel flat is marked "W. Ströhlein, Münchberg"; the breech-end of the barrel features fancy decorative platinum inlay designs and retains 95% original blue with scattered specks of oxidation. Rifle is devoid of sights and the tangs, action and Schuetzen-style buttplate retain 85% original case-hardened colors. The lever is embellished with floral style engravings and a game scene vignette of a stag, the detailed engraving continues onto the buttplate. The checkered European walnut buttstock rates about very good featuring a pronounced left side cheekpiece, raised side panels, decorative incise-carved forend tip, right handed thumb rest and shows scattered dings and dents throughout. Rifle features double set triggers. (157483-10) {C&R} (300/500)

2005. **SPRINGFIELD ARMORY XD-45 SEMI-AUTO PISTOL** serial #US627120, .45 ACP, 4" barrel with bright excellent bore. The steel slide has 98% of its original matte black finish remaining and the polymer frame with lower Picatinny rail rates excellent showing only a few minor handling marks. The pistol has a three white dot fixed sight pattern and comes with two Springfield marked magazines to include one 10 round and one 13 round, all in excellent condition. (108002-20) {MODERN} [Charles Hadley Collection] (350/550)
2006. **RUGER NEW MODEL BLACKHAWK SINGLE ACTION REVOLVER** serial #37-01772, .357 Magnum, 4 5/8" barrel with bright excellent bore. The revolver retains 90% original blue finish with several light handling marks, scratches, and turn ring on the cylinder. The laminate wood grips with silver Phoenix medallions rate excellent. The revolver has a standard fixed blade front sight with black blade square notch rear sight and comes with its original shipping sleeve and box. (108002-44) {MODERN} [Charles Hadley Collection] (350/550)
2007. **SMITH & WESSON MODEL SW99 COMPACT SEMI-AUTO PISTOL** serial #SAF3504, .40 S&W, 3 1/2" barrel with bright near excellent bore. The metal surfaces of this pistol retain 95% original matte black finish that shows light handling marks and operational wear. The polymer frame with textured grips, checkered finger grooves and backstrap rates excellent. The gun features an adjustable three dot sighting system with ambidextrous magazine release and comes with a single 8 round magazine. (108002-55) {MODERN} [Charles Hadley Collection] (350/550)
2008. **SMITH & WESSON MODEL 37 CHIEFS SPECIAL AIRWEIGHT REVOLVER** serial #AYP0922, .38 Special, 1 7/8" barrel with bright excellent bore. The nickel plated surfaces on this revolver rate very good plus showing a couple of lightly clouded spots and some flaking near the muzzle. The standard hammer and smooth combat style trigger show trace amounts of case-hardened colors and are mostly a dull gray patina. The revolver has a serrated 1/10" front ramp sight with square cut groove at rear and is stocked with a set of Pachmayr checkered rubber wrap-around grips and remains in overall very good condition. (108002-93) {MODERN} [Charles Hadley Collection] (350/550)
2009. **WALTHER PPK/S SEMI-AUTO PISTOL BY INTERARMS** serial #S006625, .380 ACP, 3 1/4" barrel with bright excellent bore. The stainless steel finishes on this pistol rate excellent showing only a few minor handling marks. The Walther banner black synthetic checkered grips rate excellent and the pistol comes with two magazines. There is an unmarked aftermarket and a Walther marked, both with finger rest floorplates. (108002-128) {MODERN} [Charles Hadley Collection] (350/550)
2010. **SMITH & WESSON MODEL 66-1 COMBAT MAGNUM REVOLVER** serial #96K8766, .357 Magnum, 2 1/2" pinned barrel with bright excellent bore. The stainless steel finish of this revolver rates near excellent showing light superficial scratches and handling marks with the initials "LAPP" stamped on the left side of the frame centered below the recessed cylinder. The standard hammer and trigger have a hard chrome finish that shows minor operational wear and remains excellent. The revolver has a set of checkered walnut Magna grips with silver S&W medallions that show a few light handling and or wear marks and remain in excellent condition. (108002-70) {MODERN} [Charles Hadley Collection] (350/550)

2011. **SMITH & WESSON MODEL 66-2 COMBAT MAGNUM REVOLVER** serial #ANB6695, .357 Magnum, 2 1/2" barrel with bright excellent bore. The stainless steel finish of this revolver rates near excellent showing light superficial scratches concentrated mostly along the barrel. The standard hammer and smooth combat trigger have a hard chrome finish that remains excellent. The revolver is stocked with two piece checkered Pachmayr rubber grips. It has a red ramp front sight with black blade micro adjustable rear sight and remains in excellent condition. (108002-71) {MODERN} [Charles Hadley Collection] (350/550)

2012. **SMITH & WESSON MODEL 649 BODYGUARD REVOLVER** serial #AHT4615, .38 Special, 1 7/8" barrel with bright excellent bore. The stainless steel finish on this revolver rates excellent showing minor handling marks. The shrouded hammer and smooth combat trigger have a hard chrome finish that shows minor operational wear and remains in excellent condition. The un-numbered smooth finger groove gonzalo alves combat grips rate excellent. It has a 1/8" serrated ramp front sight with square notch rear sight. This revolver would make a great all around carry gun and remains in excellent condition. (108002-48) {MODERN} [Charles Hadley Collection] (350/550)

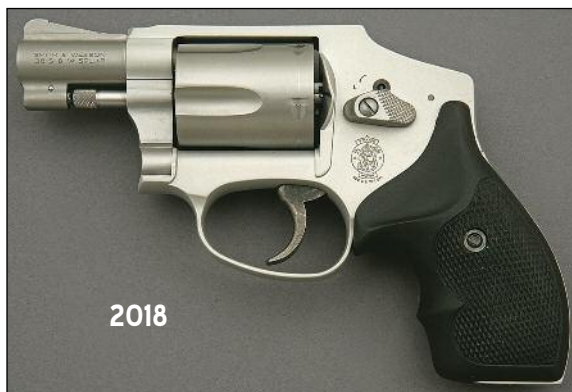

2013. **SMITH & WESSON MODEL 66 COMBAT MAGNUM REVOLVER** serial #8K17468, .357 Magnum, 2 1/2" pinned barrel with bright excellent bore. The stainless steel surfaces of this revolver rate excellent showing a few light handling marks. The gun has a set of aftermarket smooth rosewood finger grooved combat grips. The revolver has several custom features to include: hammer spur removed, trigger radiused and polished smooth, edges of the thumbpiece radiused and action work. The revolver features a Patridge front sight with factory black blade microadjustable rear sight. The revolver times well, lock up remains tight and the single action notch still functions. This should make a great concealed carry gun. (108002-116) {Modern} [Charles Hadley Collection] (350/550)

2014. **GLOCK MODEL 27 SEMI-AUTO PISTOL** serial #DRA912US, 40 S&W, 3 3/8" barrel with bright excellent bore. This third generation subcompact pistol's metal surfaces retain 99% original Tenifer finish and the polymer frame rates excellent overall showing a very few light handling marks. This pistol is sighted with three-dot night sights that no longer illuminate and comes with a single ten round magazine. This subcompact pistol would make a great conceal carry gun. (108002-62) {MODERN} [Charles Hadley Collection] (350/550)

2015. **SMITH & WESSON MODEL 10-5 MILITARY AND POLICE REVOLVER** serial #D740374, .38 Special, 2" pinned barrel with bright excellent bore. The metal surfaces of this revolver retain 98% original blue finish showing very light handling marks and a faint turn ring along the cylinder. The standard hammer and trigger show vibrant case-hardened colors with perhaps a few light operational marks and the revolver is sighted with a 1/10" serrated front ramp and square groove rear sight. The un-numbered walnut checkered factory Magna grips with silver S&W medallions rate excellent. (108002-132) {MODERN} [Charles Hadley Collection] (350/550)

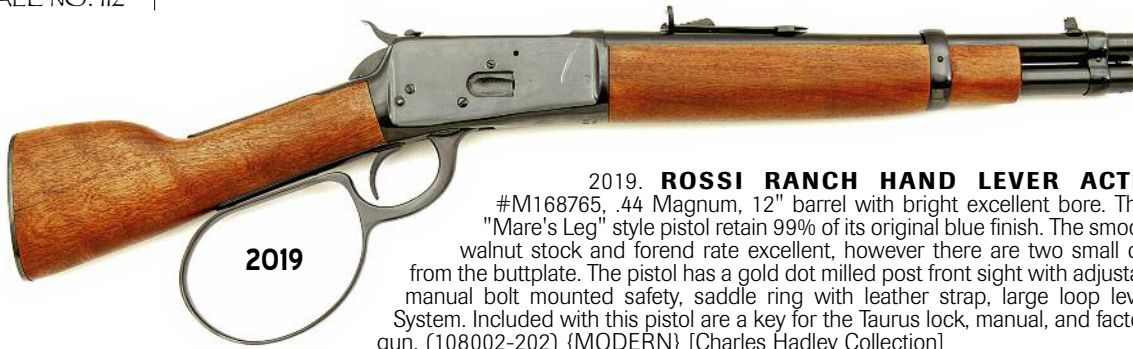

2016. **SMITH & WESSON MODEL 10-8 MILITARY AND POLICE REVOLVER** serial #13D4919, .38 Special, 3" heavy barrel with bright excellent bore. The nickel finish on this revolver rates excellent showing some scattered light scratches and light turn ring along the cylinder. The standard hammer and smooth combat trigger have been slightly dressed leaving remnants of case-hardened color with polished bright metal surfaces. The revolver has a serrated 1/8" ramp front sight with square groove rear and is stocked with a set of walnut checkered factory Magna grips with silver S&W medallions that rate excellent overall. Included with this revolver is a correctly end labeled and numbered box with cleaning kit and manual. (108002-112) {MODERN} [Charles Hadley Collection] (350/550)

2017. **SMITH & WESSON MODEL 10-14 MILITARY AND POLICE REVOLVER** serial #CNP5725, .38 Special +P, 4" heavy barrel with bright excellent bore. The metal surfaces of this revolver retain 98% original blue finish with a spot of silvering near the muzzle and a light turn ring along the cylinder. The standard hammer and smooth combat trigger show a dark mottled case-hardened color and remain excellent. The revolver has serrated 1/8" ramp front sight with square notch groove rear sight. There is a set of unmarked Mono Grip-style hardwood grips fitted to the revolver that rate excellent. Included with this gun are a correctly numbered and end labeled factory hard case, cable lock, integral locking key, manual and related product literature. (108002-31) {MODERN} [Charles Hadley Collection] (350/550)

2018. **SMITH & WESSON MODEL 642-2 CENTENNIAL AIRWEIGHT REVOLVER** serial #CJR2608, .38 Special +P, 1 7/8" barrel with bright excellent bore. The stainless steel finish on the cylinder and barrel rate excellent showing a couple of light handling marks and turn ring along the cylinder. The silver anodized finish of the alloy frame rates excellent retaining 95% plus original finish with loss due to light scratches and an area of flaking along the backstrap. The gun features an integral lock and has a 1/8" serrated front ramp and square notch rear sights. The smooth combat trigger shows strong case-hardened colors and the revolver is stocked with a set of Uncle Mike's checkered rubber Boot Grips. Included with this revolver is a correctly end labeled and numbered factory hard case. (108002-14) {MODERN} [Charles Hadley Collection] (350/550)

2019. **ROSSI RANCH HAND LEVER ACTION PISTOL** serial #M168765, .44 Magnum, 12" barrel with bright excellent bore. The metal surfaces of this "Mare's Leg" style pistol retain 99% of its original blue finish. The smooth straight-grip Brazilian walnut stock and forend rate excellent, however there are two small drying cracks emanating from the buttplate. The pistol has a gold dot milled post front sight with adjustable buckhorn rear sight, manual bolt mounted safety, saddle ring with leather strap, large loop lever, and Taurus Security System. Included with this pistol are a key for the Taurus lock, manual, and factory box numbered to the gun. (108002-202) {MODERN} [Charles Hadley Collection] (350/550)

2020. **ROSSI RANCH HAND LEVER ACTION PISTOL**

serial #K286165, .38 Special / .357 Magnum, 12" barrel with bright excellent bore. The metal surfaces of this "Mare's Leg" pistol fashioned after the one Steve McQueen carried in the movie "Wanted Dead or Alive" retain 99% original blue finish with a couple of light scratches in the surface. The smooth straight grip Brazilian walnut stock and fore end rate excellent. This pistol features a milled post with gold dot front sight, adjustable buckhorn rear sight, saddle ring with leather strap, manual bolt mounted safety, large loop lever and Taurus Security System.

Included with this pistol are a manual, key for the Taurus locking system and correctly end labeled and numbered factory box. (108002-201) {MODERN} [Charles Hadley Collection] (350/550)

2021. **SMITH & WESSON MODEL 649 BODYGUARD REVOLVER** serial #ALW3108, .38 Special, 1 7/8" barrel with bright excellent bore. The stainless steel surfaces of this revolver rate near excellent showing several light scratches in the finish. The shrouded hammer and smooth combat style trigger have a hard chrome finish that rates excellent. The gun has a 1/10" serrated ramp front sight with square notch rear. There is a set of two piece checkered rubber combat grips by Pachmayr fitted to the gun and they rate excellent. This would make a great concealed carry gun. (108002-45) {MODERN} [Charles Hadley Collection] (350/550)

2022. **SMITH & WESSON MODEL 39-2 SEMI-AUTO PISTOL** serial #A146093, .9mm, 4" barrel with bright excellent bore. The alloy frame retains 99% of its anodized finish showing only a few minor handling marks. The steel slide retains 99% of its original blue finish with a few superficial light scratches along the top. The pistol has a fixed front sight with adjustable blade rear sight. The checkered walnut grips with silver S&W medallions rate near excellent showing light handling marks. The pistol comes with a single S&W marked blued finish magazine. (107958-1) {MODERN} (350/550)

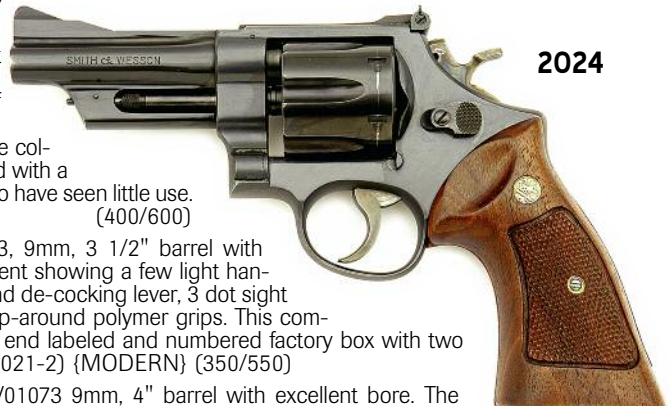

2023

2023. **CUSTOM MAUSER 98K BOLT ACTION RIFLE** serial #2691n, 458 Win Mag, 26" barrel with a bright, excellent bore. The metal surfaces retain about 95% of a professionally applied blue finish that has light handling wear on some of the edges. There are visible German military markings still present on either side of the receiver. The checkered walnut Monte Carlo style Bishop stock rates about very good but has a repaired crack running from the bottom metal through the checkering on the right side. There are light handling marks and excess epoxy present as well and a hardware store crossbolt added. Mounted to the receiver is a one-piece Buehler scope base with 1" rings. A very good condition custom Mauser sporting rifle. (47951-75) {MODERN} [Tweed Herendeen Collection] (300/500)

2024. **SMITH & WESSON MODEL 28-2 HIGHWAY PATROLMAN DOUBLE ACTION REVOLVER**

serial #S323625, 357 Magnum, 4" pinned and ribbed barrel with a bright excellent bore. The metal surfaces retain 98-99% original blue with some light silvering at the muzzle and on a few high edges, a couple of spots of minor oxidation and light pinprick pitting, and a light turn ring on the recessed cylinder. The hammer and trigger exhibit excellent case colors. The checkered walnut target grips rate excellent. The gun is sighted with a ramp front and adjustable rear sights. A very nice revolver that appears to have seen little use. (127992-3) {MODERN} (400/600)

2025. **BERSA THUNDER 9 SEMI-AUTO PISTOL** serial #E27893, 9mm, 3 1/2" barrel with excellent bore. The Duo-Tone finish on this compact pistol rates excellent showing a few light handling marks. The pistol is equipped with ambidextrous manual safety and de-cocking lever, 3 dot sight system, integral trigger lock (with Key), and has black checkered wrap-around polymer grips. This compact 9mm appears to have seen little use and comes with a correctly end labeled and numbered factory box with two ten round double stack magazines, manual and related literature. (108021-2) {MODERN} (350/550)

2026. **FN HERSTAL FNP-9 SEMI-AUTO PISTOL** serial #71BMV01073 9mm, 4" barrel with excellent bore. The metal surfaces of the steel slide retain 98% original matte black finish showing minor operational wear and light silvering along some of the high edges. The polymer frame with textured grips and checkered front and back straps rates excellent. This model does not offer a decocker and has fixed three-dot sights with white tips and comes with two 16 round magazines, manual and factory hard case that is correctly end labeled and numbered to the gun. (108021-8) {MODERN} (350/550)

2027. **CZ MODEL 75D COMPACT SEMI-AUTO PISTOL** serial #B731128, 9mm, 3 1/2" barrel with bright excellent bore. The metal surfaces of this compact revolver retain 99% original black poly-coat finish showing a couple of light handling marks. The pistol features fixed three-dot sights, decocker, checkered rubber grips and comes with a factory hard case that is correctly end labeled and numbered to the gun with a manual and two 14 round magazines. (107988-2) {MODERN} (350/550)

2028. **HIGH STANDARD MODEL B SEMI-AUTO PISTOL** serial #12668, 22 LR, 4 1/2" barrel with an excellent bore. This New Haven made pistol retains about 95% original blue with high edge wear, thinning grip frame and a few handling marks. The checkered hard rubber grips rate excellent with a few minor handling marks. The pistol features the I-A takedown and includes a single magazine. A great little Model B for shooting or starting up a collection. (88047-23D31207) {C&R} (350/550)

2029. **COLT SECOND MODEL NEW LINE REVOLVER** serial #29710, 22 Long, 2 3/16" flat sided barrel with a lightly frosted bore. The metal surfaces retain about 95% factory nickel plate with high edge wear, scratches, a few dings, dents, flaking and bubbling. The hammer retains strong Nitre blue with light stains from oxidation on the in-the-white sides and the trigger is worn to pewter. The smooth rosewood grips rate very good plus with scattered light dents, dings and flaking finish. The barrel is etched "COLT NEW 22" plus all appropriate parts and the grips are numbered to the gun. Timing and lock-up are excellent. (87904-8) {ANTIQUE} (350/550)

2030. **COLT MODEL 1903 POCKET HAMMERLESS SEMI-AUTO PISTOL** serial #122121, 32 ACP, 3 3/4" barrel with a near excellent bore exhibiting slight frosting. This 1911 made gun retains about 85% factory blue with moderate high edge wear, scratches and a few oxidation blemishes. The trigger and safety lever retain brilliant Nitre blue with light operational wear. The checkered hard rubber factory grips with a Rampant Colt surrounded by a stylized "C" rate excellent with a few light handling marks. A single unmarked magazine is included. (87942-152) {C&R} (350/550)

2031. **COLT MODEL 1903 POCKET HAMMERLESS SEMI-AUTO PISTOL** serial #546242, 32 ACP, 3 3/4" barrel with an excellent bore. This pre-war 1941 made gun retains about 85% factory blue with moderate high edge wear, scratches, frontstrap thinned to pewter, minor pinprick pitting and a few oxidation blemishes. There are some moderate scratches and tool marks on the frame near the safety. The walnut factory grips with Colt medallions have been sanded smooth and rate excellent in their present state. The slide is not correctly numbered to the gun (543093) and a single unmarked magazine is included. (87942-147) {C&R} (350/550)

2032. **SMITH & WESSON MODEL 1 1/2 TIP-UP REVOLVER** serial #69254, 32 RF, 3 1/2" barrel with a frosted bore. The metal surfaces of this second issue revolver retain about 97% factory nickel plate with scattered light oxidation blemishes, flaking, bubbling and handling wear. The hammer and trigger retain weak case-hardened colors. The smooth factory rosewood grips are correctly numbered to the gun and rate very good with light scratches, scuffs and flaking finish. The revolver still times and locks up correctly, barrel to frame fit is slightly loose, and the barrel and cylinder are correctly assembly numbered to the gun. (88037-1) {ANTIQUE} (350/550)

2033. **BERETTA MODEL 92A1 SEMI-AUTO PISTOL** serial #A055841Z, 9mm, 5" barrel with a bright excellent bore. The metal surfaces retain 98% original blue with several minor superficial scratches. The checkered black plastic grips rate excellent. This pistol appears to have seen little use and comes with a total of three magazines and a black leather holster. (128048-10S20084) {MODERN} (350/550)

2034. **COLT POLICE POSITIVE DOUBLE ACTION REVOLVER** serial #364185, 38 S&W, 4" barrel with a bright excellent bore. The metal surfaces on this second issue revolver retain about 90-92% original blue, loss due primarily to muzzle and cylinder wear along with some minor flaking on the rear right side of the frame. The checkered walnut grips rate about very good with light handling marks, the checkering on the right panel nearly worn smooth and "V.J.G." stamped in the butt of the left panel. An overall very good 1934 manufactured revolver. (57907-5) {C&R} (300/500)

2035. **U.S. MODEL 1884 TRAPDOOR RIFLE SPORTERIZED** serial #421200, 45-70 Govt., 24" professionally shortened and crowned barrel with a near excellent bore showing good strong rifling with fine pinprick pitting and frosting the entire length. The barrel has an overall pale brown patina with a few tiny impact marks. The frame and 1884 dated breechblock have a deep brown and gray patina and the the lock has a deep charcoal gray with some faint traces of brown. The hardware has a pale brown patina with some very light oxidation staining, the buttplate having more oxidation and pitting. The walnut stock rates very good showing an old light cleaning with lightly rounded edges, no inspector cartouche and a tiny thin crack at the rear of the lock. A standard front sight has been installed and the rear sight is an 1873 rifle sight. An overall very good modified 1884 Trapdoor Springfield. (57907-4) {ANTIQUE} (400/600)

2036. **SAVAGE MODEL 1917 SEMI-AUTO PISTOL** serial #252669, 32 ACP, 3 5/8" barrel with a bright excellent bore. The metal surfaces retain 99% original blue. The trapezoidal black hard rubber grips rate excellent. Included is a single factory magazine. A minty Savage 1917 that has seen little if any use. (58000-8) {C&R} (350/550)

2037. **SAVAGE MODEL 1907 SEMI-AUTO PISTOL** serial #171630, 32 ACP, 3 5/8" barrel with a bright excellent bore. The metal surfaces retain about 98% original blue with a very thin scratch at the left muzzle and a previous owner's initials lightly scratched below the right panel. The trigger shows faint traces of original case colors slowly toning to gray. The factory checkered brown hard rubber grips rate excellent. A single factory magazine is included. (58000-11) {C&R} (350/550)

2038. **CZECH CZ 1927 SEMI-AUTO PISTOL** serial #199070, 32 ACP, 3 5/8" barrel with a bright excellent bore. The metal surfaces retain 95-97% original blue, the barrel more of a plum-brown and the majority of loss due to light wear to the edges and right side of the slide. The right side of the frame and barrel are Waffenamt marked. The factory checkered brown plastic grips rate excellent. Pistol includes a worn brown leather flap holster with light scuffing and numerous seam holes where pouches and belt loops were removed and reattached and a single "P. Mod. 27" marked magazine, the magazine pouch is a much darker leather and is most likely from another holster. (57927-58) {C&R} (300/500)

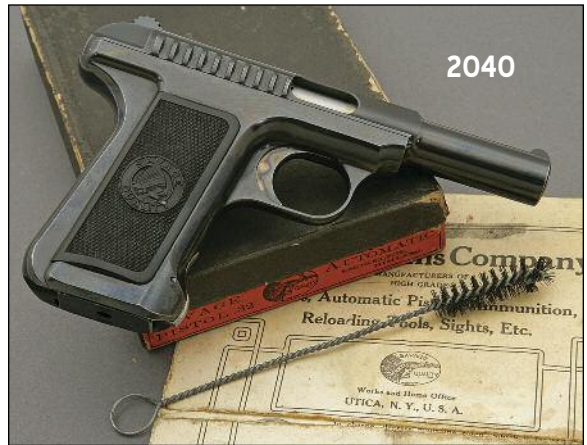

2039

**2039. SAVAGE MODEL 1907 TRANSITIONAL SEMI-AUTO PISTOL** serial #215547, 32 ACP, 3 5/8" barrel with a bright excellent bore. The metal surfaces retain 99% plus original blue and the trigger retains equal brilliant original case colors. This is a later-manufactured pistol with a thin serrated 1917 style slide and spur cocking piece. The factory checkered black hard rubber grips rate excellent. A minty, as-new Model 1907 pistol. (58000-12) {C&R} (400/600)

**2040. EARLY SAVAGE MODEL 1907 SEMI-AUTO PISTOL WITH FACTORY BOX**

serial #21735, 32 ACP, 3 5/8" barrel with a bright excellent bore. The metal surfaces retain 98% original blue, loss due to very minor muzzle and edge wear and the color case-hardened trigger retains all of its original brilliant crisp colors. This is an early variation pistol with wide slide serration, round cocking piece and early indented magazine release. The factory checkered black hard rubber grips rate excellent. Pistol includes a lightly worn factory cardboard box numbered to the gun in ink on the bottom of the box, instruction sheet, cleaning brush and (1) single groove blued magazine. The box has a couple light tears, scuffed edges and corners, a separated corner on the bottom of the box, a separated corner on the lower compartment and a separated upper right corner which is continuing along the edge. The instruction sheet has darkened with age and is separating at the folds. A great looking early 1907 pistol with original factory box and accessories. (58000-10) {C&R} (500/700)

2040

2041. **BERETTA MODEL 1934 SEMI-AUTO PISTOL** serial #929348, 32 ACP, 3 1/4" barrel with a bright excellent bore. The metal surfaces retain about 95% thinning original blue with loss due primarily to minor gripstrap wear and contact wear on the barrel. The left rear of the frame is "RE" army mark. The metal-backed hard rubber grips rate excellent and the lanyard loop is present and intact. Included is a brown leather flap holster and (2) original finger rest magazines. A very good to near excellent army marked pistol. (58000-24) {C&R} (300/500)
2042. **CZECH C.A.I. MODEL VZOR 70 SEMI-AUTO PISTOL** serial #211549, 32 ACP, 3 5/8" barrel with a bright excellent bore. The metal surfaces on this C.A.I. imported pistol retain 98% arsenal applied blue with some very light edge wear. The checkered black plastic grips rate near excellent with a couple very light handling marks. The barrel and slide are numbered alike and the importer serial has been applied on the front underside of the frame. A single black plastic finger rest magazine is included. (57927-51) {MODERN} (1752/275)
2043. **HARRINGTON & RICHARDSON SELF LOADING 25 ACP PISTOL** serial #13695, 25 ACP, 2 1/8" barrel with a bright very good bore. The metal surfaces retain 95-97% original blue with minor edge wear and a small spot of fading on the right side of the slide and the hammer retains about 80% original bright case colors toning to brown. The checkered black plastic factory logo grips rate excellent. Included is a single, flaking nickel magazine. (57927-50) {C&R} (300/500)
2044. **BROWNING "BABY" SEMI-AUTO PISTOL** serial #383385, 25 ACP, 2 1/8" barrel with a bright excellent bore. The metal surfaces retain 98-99% original blue. The factory checkered black plastic grips rate excellent. Included with this pistol are (2) factory magazines, factory pistol rug, manual and cleaning rod. (58000-26) {MODERN} (300/500)

2045

**2045. BROOKLYN ARMS CO. SLOCUM POCKET REVOLVER** serial #4605, 3" barrel with a very good bore having light oxidation within the grooves. The iron metal surfaces bear an overall pewter patina with some sparse staining and a few tiny impact marks. The brass frame has light scroll engraving and a pleasing ocher patina with traces of very light verdigris forming. The rosewood bag-shaped grips rate near excellent with a couple light blemishes, still retaining much original varnish. The interior of the panels are marked "K / 57" which is also present at the butt on the right side if the frame. The action seems to time and advance nicely. (57927-24) {ANTIQUÉ} (500/700)

2046. **SMITH & WESSON NO. 1 THIRD ISSUE TIP-UP REVOLVER** serial #85417, 22 Short, 3 1/8" barrel with a very good bore having scattered fine oxidation staining and sparse pinprick pitting. The metal surfaces retain about 98% original bright nickel with a few tiny impact marks and superficial scratches. The rosewood birdshead grips rate excellent and are stamp-numbered to the gun on the right panel. Lock-up remains tight and the action times nicely. (57904-6) {ANTIQUÉ} (300/500)
2047. **SMITH & WESSON NO. 1 THIRD ISSUE TIP-UP REVOLVER** serial #31497, 22 Short, 3 1/8" barrel with a bright very good bore having some sparse pitting and staining. The metal surfaces retain about 75% original blue toning to a rich brown patina with the majority of loss on the underside of the barrel, cylinder, release pin and gripstraps. The rosewood birdshead grips rate excellent retaining much original varnish and are stamp numbered to the gun on the right panel. Lock-up remains tight and the action times nicely. (57904-5) {ANTIQUÉ} (300/500)
2048. **FOREHAND & WADSWORTH SIDE HAMMER SPUR TRIGGER REVOLVER** serial #19528, 22 RF, 2 3/8" octagon barrel with a very good bore having spots of light pitting. The metal surfaces retain about 80% flaking original nickel, majority of the loss at the muzzle, cylinder and front of the frame. The exposed metal surfaces are a pale gray with scattered oxidation staining. The walnut birdshead grips rate excellent retaining much original varnish and are stamp-numbered to the gun on both panels. The revolver seems to lockup and advance properly. (57904-9) {ANTIQUÉ} (150/250)
2049. **ETHAN ALLEN SIDEHAMMER REVOLVER** serial #712, 32 RF, 5" octagon barrel with a good bore having pitting and oxidation the entire length. The metal surfaces on this third model revolver are an overall brown patina with scattered fine oxidation staining, the barrel having some spots of more modest oxidation and light silvering along the edges. The plain walnut grips rate very good with tiny handling marks, lightly darkened edges and are stamp-numbered to the gun on both panels. The hammer shows a brazed repair at its center, the grip screw does not seat properly and the cylinder no longer rotates freely. (57927-56) {ANTIQUÉ} (200/400)
2050. **KOLB BABY HAMMERLESS FOLDING TRIGGER REVOLVER** serial #586, 22 Short, 1 1/4" barrel with a poor bore having faint traces of rifling lost to pitting and oxidation. The metal surfaces retain 98% original nickel with a few tiny scratches and a very light turn ring on the cylinder. The checkered hard rubber "circle K" grips rate excellent and are scratch-numbered to the gun on both panels. (57904-13) {C&R} (50/100)

2051

2051. **SHARPS MODEL 1A PEPPERBOX PISTOL** serial #19808, 22 Short, 2 1/2" four barrel cluster with good bores showing pitting and oxidation. The barrels have an overall deep brown patina with traces of original blue in the protected areas of the flutes. The brass frame has a soft ochre patina with generous traces of fading silver plate. The embossed gutta-percha grips rate excellent with a couple light blemishes. The barrels are numbered to the frame and remain tight. An overall very good Model 1A pepperbox. (57904-11) {ANTIQUÉ} (350/550)

2052. **HUSQVARNA M1907 SEMI-AUTO PISTOL** serial #69635, 380 ACP, 5" barrel with an excellent bore. The metal surfaces retain about 98-99% arsenal blue with some light silvering and handling wear noted. The military hard rubber grips rate excellent and included is a single detachable magazine. Pistol is marked "(crown)/G.B." on the back of the frame and no importer markings are visible save the caliber marking on the left side of the frame when the conversion was performed. An excellent example overall. (47942-146) {C&R} (300/500)

2053. **HUSQVARNA M1907 SEMI-AUTO PISTOL** serial #8826, 380 ACP, 5" barrel with an excellent bore. The metal surfaces retain about 85-90% arsenal blue with some light silvering, handling wear and some areas of light oxidation staining and pitting noted. The military hard rubber grips rate very good and have a few very small cracks and included is a single detachable magazine. Pistol is marked "(crown)/T.T. H.K." on the back of the frame and no importer markings are visible save the caliber marking on the left side of the frame when the conversion was performed. A unit marking of "11 No. 226" is also visible on the left side. A very good to near excellent example overall. (47942-113) {C&R} (200/400)

2054. **ARMINIUS MODEL HW3 REVOLVER** serial #230284, 22 LR, 2 3/4" barrel with an excellent bore. The metal surfaces retain about 98-99% original blue with some light handling wear and a few specks of very light surface oxidation present. The brown composite checkered grip rates excellent. Revolver bears the gold embossed factory logo on the left side of the frame. It appears to function and time correctly in both double and single action. A splendid little eight shot 22 rimfire revolver that is in excellent condition overall. (47989-2) {MODERN} (100/200)

2055. **BERETTA MODEL 1935 SEMI-AUTO PISTOL** serial #440592, 7.65mm (32 ACP), 3 3/8" barrel with a bright, excellent bore. The metal surfaces retain about 90-95% original blue with light edges and handling wear throughout. The factory blue is flaking to a rich pleasing plum color. The black composite grips rate excellent and a single factory magazine is included. An overall excellent example of these former military pistols, this one appears to be dated "1939". (47989-1) {C&R} (300/500)

2056. **CHINESE SKS SEMI-AUTO CARBINE BY NORINCO** serial #23002781, 7.62x39, 20 1/2" barrel with an excellent bore. The metal surfaces retain about 98-99% of an arsenal blue finish that has some very light handling wear. Carbine has a black composite folding stock and a painted wood handguard which rate excellent. The handguard has some minor flaking to the black paint. Included are a detachable 30 round magazine, a cleaning rod and a correct spike bayonet. The numbers appear to be all matching and carbine is import marked "Poly U.S.A." on the left side of the receiver. An excellent example overall. (47907-1) {MODERN} (300/500)

2057. **COLT M4 CARBINE SEMI-AUTO RIFLE** serial #BP018654, 22 LR, 16 1/4" shrouded barrel with a bright, excellent bore. The metal surfaces retain about 99% plus original blue with no visible wear. Carbine is equipped with black Zytel furniture including a round carbine length handguard, pistolgrip and a five position collapsible stock. Carbine features an A3 style flattop receiver with detachable carry handle and has a brass deflector and forward assist. The original box is included which contains three 30 round magazines, take-down tools, a cable lock and the owner's manual and papers. The original hang tags are still attached. A terrific tactical .22 carbine in as-new-in-box overall condition. These quality carbines are made in Germany under license by Walther, in partnership with Umarex. (47958-21) {MODERN} (300/500)

2058. **REMINGTON MODEL 1100 TRAP SEMI-AUTO SHOTGUN** serial #M934794, 12 ga, 30" raised rib barrel with dual bead sights that is choked modified and has an excellent bore. The metal surfaces retain about 98-99% original blue with light handling marks throughout, some of which is lightly flaking to a pleasing brown hue. The checkered, highly figured walnut stocks rate excellent and have a few small dings. The Monte Carlo style buttstock has a factory ventilated recoil pad that is slightly oversized and the forearm has some staining where a label had previously been. Included is a tan faux leather luggage style case by Aztec International Ltd which contains a manual, magazine plug and keys. An excellent condition example of these competition grade shotguns. (48027-6) {MODERN} (300/500)

2059. **SMITH & WESSON MODEL 1500 DELUXE VARMINT BOLT ACTION RIFLE** serial #PN69061, 22-250, 24" heavy barrel with a bright, excellent bore. The metal surfaces retain about 99% original blue that has some light wear and specks of light surfaces oxidation throughout. The checkered walnut Monte Carlo stock rates excellent and has a few small dings and other light handling marks. Mounted to the receiver is a Tasco 6-18X40 adjustable objective riflescope that features a duplex reticle with bullet drop and has bright, excellent optics. A terrific long range target or varmint rifle package in excellent overall condition. (48021-12) {MODERN} (300/500)

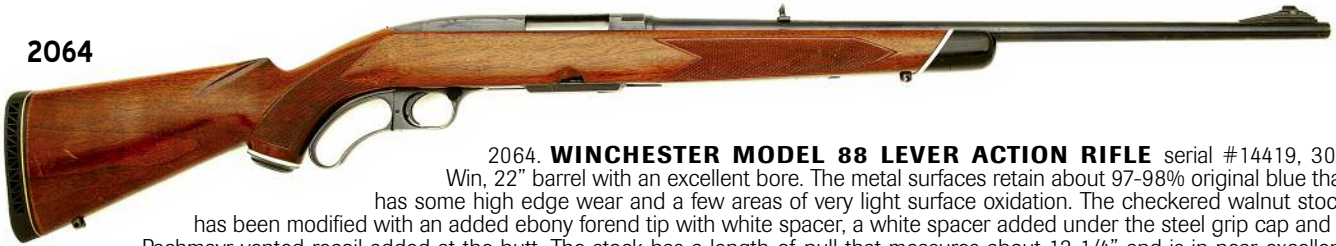

2060. **REMINGTON MODEL 710 BOLT ACTION RIFLE** serial #71068383, 270 Win, 22" barrel with a bright excellent bore. The metal surfaces retain about 99% plus original matte blue finish with no visible wear. The textured gray synthetic stock rates excellent and has a factory solid rubber recoil pad. Mounted to the receiver is the Bushnell 3-9X40 sharpshooter scope supplied and bore sighted by the factory. A single magazine and a set of lens covers are included. An excellent example of these Sportsman series rifles. (47960-21) {MODERN} (250/450)

2061. **UBERTI MODEL 1858 NEW ARMY PERCUSSION REVOLVER** serial #A35016, .44 Caliber Percussion, 8" octagon barrel with a very good bore that is mostly bright, but has some areas of minor oxidation and pitting which is mostly visible toward the muzzle. The barrel, frame and cylinder retain about 95% original blue with a few light handling marks and some areas of light surface oxidation present. There is a light turn ring around the cylinder. The hammer retains much of its original case-hardened color and the brass trigger guard has a mild tarnish. The walnut grips rate excellent and have a few light handling marks as well. The original box and manual are included. A very good to near excellent example overall. (47874-4) {ANTIQUÉ} (75/150)

2062. **RUGER AMERICAN BOLT ACTION RIFLE** serial #692-17266, 223 Rem, 22" hammer-forged barrel with a bright, excellent bore. The metal surfaces retain about 99% original matte blue with a few light handling marks visible. The black synthetic stock rates excellent and is equipped with a factory solid rubber recoil pad. Rifle's features include an adjustable Marksman series trigger, a tang safety and a detachable five round rotary magazine. A set of Weaver style bases and 1" scope rings are mounted to the receiver. An excellent example of these quality utility rifles. (47918-2) {MODERN} (300/400)

2063. **RUGER PC4 CARBINE SEMI-AUTO RIFLE** serial #480-022865U, 40 S&W, 16 1/4" barrel with a bright, excellent bore. The metal surfaces retain about 97-98% of the factory parkerized finish with light handling wear throughout. The black composite stock rates excellent and has a few light scratches. Carbine features the factory sights and integral scope mounts, however the magazine and scope rings are not present. An excellent example overall of these popular "police" carbines. (48048-6S20146) {MODERN} (300/500)

2064

2064. **WINCHESTER MODEL 88 LEVER ACTION RIFLE** serial #14419, 308

Win, 22" barrel with an excellent bore. The metal surfaces retain about 97-98% original blue that has some high edge wear and a few areas of very light surface oxidation. The checkered walnut stock has been modified with an added ebony forend tip with white spacer, a white spacer added under the steel grip cap and a Pachmayr vented recoil added at the butt. The stock has a length-of-pull that measures about 13 1/4" and is in near excellent condition overall with some light dings and scratches and some minor flaking to the lacquer finish. Rifle appears to have the original sights, though the front sight hood is not present and the screw holes for the receiver sight are vacant. Included are two concave base magazines, both with small amounts of light oxidation. Made in 1955, this is first year production Model 88 with a stock that has some practical modifications and is in near excellent condition overall. (48014-1) {MODERN} (400/600)

2065. **BROWNING BPS SLIDE ACTION SHOTGUN** serial #08947PW152, 12ga, 26" ventilated rib barrel with single bead sight, screw-in choke and an excellent bore. The metal surfaces retain about 70% of the original blue. The loss appears to be from contact to a caustic substance which has eroded the finish in a textile type pattern and affects the top and sides of the receiver and the sides of the barrel. The checkered walnut stocks rate excellent and have a few light handling marks. The buttstock is fitted with a solid rubber recoil pad. A single full Win-Choke is included. A great all-purpose field shotgun with some minor cosmetic issues. (47960-14) {MODERN} (200/400)
2066. **THOMPSON/CENTER CONTENDER BREAK ACTION CARBINE** serial #423355, 22 Hornet, 19" barrel with a bright, excellent bore. The metal surfaces retain about 95% original blue that has some light edge wear, some wear on the sides of the frame and a few light handling marks. The frame features the cougar perched on a precipice game scene on both sides. The walnut stocks rate excellent and have some light handling marks as well, along with some exquisite figure to both the grooved forearm and buttstock. The barrel is without sights but has a Redfield style one-piece mount with 1" rings mounted to the rear. A lovely little single shot small bore carbine in excellent overall condition. (47928-1) {MODERN} (300/500)
2067. **THOMPSON/CENTER CONTENDER BREAK ACTION CARBINE** serial #348605, 22 LR, 16 1/4" threaded barrel with muzzle cap and a bright, excellent bore. The metal surfaces retain about 98% original blue with a few light scratches along both the barrel and frame which features the cougar perched on a precipice game scene on both sides. The smooth walnut stocks rate excellent and have some light dings. The original sights are intact, the front sight has been remounted to accommodate the threaded muzzle. Mounted behind the rear sight is a Weaver one-piece scope base. An excellent condition example overall ready and waiting for your suppressor or muzzle adapter. (46520-3077) {MODERN} [Richard "Stretch" Kennedy Collection] (300/500)
2068. **THOMPSON/CENTER CONTENDER BREAK ACTION CARBINE** serial #418377, 45 Colt/410, 16" ventilated rib, rifled screw-in choke barrel with a very good bore that is mostly bright but has some light oxidation toward the breech. The metal surfaces retain about 90% original blue with light handling wear throughout. The frame bears the precipice perched cougar on either side. The walnut forearm rates excellent while the buttstock rates about very good. Both have light handling marks, the buttstock has some minor dings and a few small cracks and what appears to be a repair at the top of the wrist on the right side by the frame. The original bead front and "V" rear sights are intact and a green Hi-Viz fiber optic sight has been mounted to the front. The choke is missing from the muzzle but carbine is in very good overall condition. (46520-3135) {MODERN} [Richard "Stretch" Kennedy Collection] (200/400)
2069. **ROSSI RIO GRANDE LEVER ACTION RIFLE** serial #5GU084091, 30-30. 20" round barrel with a bright, excellent bore. The metal surfaces retain about 99% original blue with only a few very light handling marks present. The walnut stained hardwood stocks rate excellent and have a few dings. The buttstock has a ventilated rubber recoil pad. The original sights are intact and mounted to the receiver is a Weaver style one-piece scope base. An excellent example of these western style lever rifles. (47963-5) {MODERN} (300/500)
2070. **HENRY MINI-BOLT BOLT ACTION RIFLE** serial #MB14212, 22 LR, 16 1/4" barrel with a bright, excellent bore. The matte stainless steel metal surfaces rate excellent with little visible wear and only a few spots of light oxidation staining. The black synthetic stock rates excellent as well and features a beavertail forend and Monte Carlo style butt. Rifle is equipped with a set of fiberoptic sights. The original box with manual is included. An excellent example overall of these youth style single shot rifles. (47960-22) {MODERN} (150/200)
2071. **REMINGTON MODEL 742 WOODSMAN SEMI-AUTO DELUXE CARBINE** serial #113032, 308 Win, 19" barrel with a very good lightly freckled bore. The metal surfaces retain about 80% original blue with handling wear along the bearing surfaces and areas of speckled light surface oxidation throughout. There are some light abrasions at the muzzle along the outer edge as well. The receiver has factory game scenes on either side featuring a running deer on the right and bounding grizzly on the left. The walnut stocks rate very good and appear to have been lightly cleaned with finish added. The forearm has a repaired crack running along the right side and both have small dings and light handling marks. The sling swivels are present. The original front sight is intact, the rear sight has been removed and a Williams FP series aperture sight has been mounted to the receiver. A single magazine is included. A functional carbine with very little wear internally that should make a good woods gun. (48013-10) {C&R} (200/400)
2072. **BSA CF-2 CLASSIC SPORTER BOLT ACTION RIFLE** serial #12P2889, 7mm Rem Mag, 22" barrel with an excellent bore. The metal surfaces retain about 99% original blue that is lightly flaking to a pleasing plum color and has a few light handling marks and specks of light surface oxidation. The checkered walnut Monte Carlo stock rates excellent and features a rosewood forend tip and grip cap, skip line checkering, and a factory vented recoil pad that has hardened with age. The wood has a few light dings and sling swivel studs are installed. The original sights are intact and mounted to the receiver via a set of Weaver pivot mount bases and rings is a Balvar 8B 2.5-8X riflescope. The scope features a tapered crosshair reticle and has very good optics. A terrific large game sporting rifle that was imported by Eagle Arms in NY. (47967-64) {MODERN} (300/500)
2073. **RUGER MODEL 10/22 CANADIAN CENTENNIAL SEMI-AUTO RIFLE** serial #C2651, 22 LR, 18 1/2" pre-warning barrel with an excellent bore. The metal surfaces retain about 99% original blue with little to no visible signs of wear. The top of the receiver is factory engraved with the Canadian Centennial logo. The deluxe grade walnut stock rates excellent and features a wide beavertail forend and raised comb, a capped pistolgrip, deluxe swivels and has the Canadian Centennial medallion inlaid on the right side. The original sights are intact and included are the original two-piece box with manual and a single detachable ten round rotary magazine. A near-new-in-box example of these commemorative rimfire rifles, only 2,000 were produced and only offered for one year in 1967. (47997-6) {C&R} (250/450)
2074. **MEXICAN MODEL 1897 ROLLING BLOCK RIFLE BY REMINGTON** serial #4684, 7mm Mauser, 30" barrel with an excellent bore. The metal surfaces are overall a mottled brown with light silvery and gray peeking through and blending with some areas of light surface oxidation, light pitting and tool marks. The walnut stocks rate very good and have added finish over light dings and small chips on the buttstock, handguard and near full-length forearm. The original military sights are intact and the factory markings are crisp. There is no crest atop the frame but a cleaning rod is included. A very good example overall. (47907-6) {C&R} (350/550)

2075. **U.S. MODEL 1884 TRAPDOOR CADET STYLE SINGLE SHOT RIFLE BY SPRINGFIELD ARMORY** serial #564877, 45/70 Govt, 29 5/8" barrel with a fair bore that shows oxidation throughout its length but it still has visible rifling. The metal surfaces have turned a dull brown patina with pitting on the buttplate, scattered silvering on barrel, freckling and oxidation staining scattered throughout bands, barrel, Buffington rear sight, lockplate, hammer, breechblock, lower tang, upper tang and triggerguard. The walnut stock rates very good with a 1/2" chip at toe, a faded "(Circle)P" firing proof, a strong 1893 inspector's cartouches, a crisp "61" rack number on left side of butt, scattered dings, handling marks and scratches. The cleaning rod and barrel are the correct length for a cadet but there is no definitive way to tell if this is the original configuration and there is a sling swivel at triggerguard and two sling swivels at front. An interesting Trapdoor rifle overall. (207837-2) {ANTIQUÉ} (350/550)
2076. **U.S. MODEL 1888 TRAPDOOR SINGLE SHOT RIFLE BY SPRINGFIELD ARMORY** 45/70 Govt, 32 5/8" barrel with a very good bore that shows scattered frosting and pitting but strong rifling. The metal surfaces have turned a dull gray patina and show pitting throughout with most of the markings being indiscernible and only the eagle on lockplate is partially visible. The walnut stock rates very good with an armory dark oil finish, an area of 2" flaking on either side of butt at rear, a 3/4" chip at toe, a strong "(Circled)P" firing proof, a partially visible inspector's cartouche that shows a large abrasion on it, scattered dings, abrasions, scratches and handling marks. The lock appears to function and the sling swivels and rod bayonet are intact. The rifle is equipped with a Buffington rear sight that appears to be missing its rear screw. A salty late-model Trapdoor that may be a good wallhanger. (207827-1) {ANTIQUÉ} (300/500)
2077. **UNIVERSAL ENFORCER SEMI-AUTO PISTOL** serial #433562, 30 Carbine, 11" barrel with a bright excellent bore. The metal surfaces of this Hialeah made pistol retain 95% original gloss blue finish with some silvering and fading on barrel, silvering on magazine well, rear plate and bolt. The hardwood stock rates very good showing scattered flaking of the factory varnish, a 1/4" chip at back, some minor white paint staining at front of left side, scattered dings, scratches and handling marks. The rear portion of the stock has been inletted for a channel and shows two vacant screw holes. The pistol is sighted with an open rear sight and no magazine is included but they are widely available. An interesting commercial M1 carbine style pistol. (207958-43) {MODERN} (300/500)
2078. **CHARTER ARMS AR-7 EXPLORER SEMI-AUTO RIFLE** serial #A44919, 22 LR, 16" barrel with a very good plus bore that shows some minor frosting. The metal surfaces retain 97% original enamel finish with some scattered light silvering scratches. The black synthetic stock rates very good showing scattered scratches and scuff marks. A very good plus example of these interesting survival rifles. (207644-92) {MODERN} [Kevin Williams Collection] (100/200)
2079. **INTRATEC TEC-9 SEMI-AUTO PISTOL** serial #12326, 9mm, 5 1/2" barrel with an excellent bore. The metal surfaces retain 97% original phosphate finish with scattered areas of light silvering. The black synthetic pistol grip rates very good plus showing a few handling and scuff markings. An aftermarket nylon sling and two 32-round magazines are included with this pistol. An excellent condition TEC-9 overall. (207758-30) {MODERN} (300/500)
2080. **INTRATEC CAT-45 SEMI-AUTO PISTOL** serial #000414, 45 ACP, 4" barrel with a very good bore that shows some frosting in the grooves. The slide metal surfaces retain 97% armory grade phosphate finish with some silvering and wear on the exposed edges and the remnants of a sticker on left side. The polymer frame rates poor with an amateurishly repaired crack running the circumference of the grip and some handling marks. A single factory magazine is included and all parts appear to be present. The pistol has been disassembled and it is sold for parts value only. No thought should be given to loading or firing this arm due to the cracked frame. (207666-133) {MODERN} (25/50)
2081. **WINCHESTER MODEL 1897 SLIDE ACTION SHOTGUN** serial #467397, 12 Ga, 26" plain barrel choked cylinder with a very good bore that shows some oxidation on the left side. The metal surfaces have mostly turned a dull gray patina and show scattered oxidation staining throughout. The trap stock and forend rate good plus showing scattered dings, handling marks, a few large abrasions, a 5" crack on forend and the initials "ER" on the butt. The butt is outfitted with a Jostam recoil pad that shows crazing and wear throughout and it gives the shotgun a 14 1/2" length of pull. Included with this shotgun is a second 30" plain barrel, full choked with a very good bore that shows some oxidation staining. The barrel includes the magazine tube assembly and forend and is numbered to the gun. The barrel and magazine tube have turned a gray patina and show scattered oxidation staining and silvering, while the forend shows scattered handling marks and dings. The forends of both barrels and the stock are checkered indicating that they are trap grade but the breechblock is unmarked which is incorrect for a trap grade gun. An interesting Winchester 1897 overall. (207249-9) {C&R} (150/300)
2082. **WALTHER P.38 SEMI AUTO PISTOL** serial #049605, 9mm, 5" barrel with a bright excellent bore. The metal surfaces of this 1960 vintage pistol retain 95% armory parkerized and enamel finish with the slide showing scattered silvering scratches and some light wear on frame. The hard rubber grips rate about very good showing several handling marks, light dings and scratches. The slide and barrel are stamped numbered "605" while the locking block is electropenciled numbered "605". Two blued unmarked magazines and a leather holster are included. The holster is dated 1959 and has a faint maker's marking and shows scattered flaking and crazing. There is a small "PTR 91 Inc." import mark on the frame. An excellent post-war P38 that should be a great shooter. (206520-3235) {C&R} [Richard "Stretch" Kennedy Collection] (300/400)
2083. **RUSSIAN M44 MOSIN NAGANT BOLT ACTION CARBINE BY IZHEVSK** serial #SA8057, 7.62x54 Russian, 20" barrel with a bright very good bore that shows some scattered frosting in the grooves. The metal surfaces of this 1945 vintage carbine retain 98% arsenal quality blue with a couple oxidation spots on the barrel shank. The laminated stock rates very good showing scattered dings, handling marks and a few abrasions. The serial numbers are arsenal stamped matching and there is a small Century Arms import mark on the barrel. An excellent as-refurbished M44 that will likely make a good shooter. (206520-2255) {C&R} [Richard "Stretch" Kennedy Collection] (150/300)
2084. **WINCHESTER MODEL 1910 SEMI AUTO RIFLE** serial #4947, 401 Win, 20" barrel with a very good bore that shows some scattered frosting. The metal surfaces retain 98% reapplied blue finish with some blued over oxidation and pinprick pitting and heavier pitting on the magazine. The walnut stock and forend rate fair with an added oil finish, an added rectangular sling hole on bottom of pistol grip, scattered dings, handling marks, a couple abrasions, a 2" crack at upper tang and four 4-5" cracks on forend. There are two added holes on the bottom left side of the receiver, there are two filled holes on upper left side of receiver and the rifle is sighted with standard Winchester open sights and the front sight is off-center. A good example piece of these early Winchester self-loading rifles. (206520-1734) {C&R} [Richard "Stretch" Kennedy Collection] (100/200)
2085. **WINCHESTER MODEL 1907 SEMI AUTO RIFLE** serial #34604, 351 Win, 20" barrel with a very good plus bore that shows some minor freckling. The receiver area shows oxidation throughout over a reapplied blue finish. The barrel and band retain 93% reapplied blue with some scattered fading and light freckling. The walnut stock and forend rate very good with an added varnish finish and some scattered dings and handling marks. A good entry level 1907 for the collector or possibly shooter. (206520-1369) {C&R} [Richard "Stretch" Kennedy Collection] (100/200)
2086. **DSM-34 BOLT ACTION RIFLE BY JGA** serial #8521, 22 LR, 26" barrel with a bright excellent bore. The metal surfaces of this Thuringin marked rifle retain 90% original blue with scattered freckling and fading on the barrel and receiver, oxidation staining on buttplate and part of the last two letters in "SPORTMODELL" being obscured. The walnut stock rates very good with scattered dings, handling marks and a couple scratches near front band. The cleaning rod and safety assembly are missing and the bolt has been disassembled and is separate from the gun. A reproduction sling is included and this may prove to be a good project gun. (207841-2) {C&R} (350/550)

2087. **GERMAN G33/40 BOLT ACTION RIFLE BY BRNO (SPORTERIZED)** serial #2789d, 8mm Mauser, 19" barrel with a very good bore that has strong rifling but some scattered light pitting in the grooves. The metal surfaces of this 1942 dated, dot coded rifle retain 95% commercial reapplied blue finish with some fading at muzzle end of barrel and on floorplate and oxidation on bolt handle. The checkered walnut Monte Carlo stock rates about excellent with a few scattered handling marks and light dings and scuff marks on endcap. The rifle is sighted with a Lyman peep sight and a white-dot peep front sight. The rear of the receiver bridge has three added holes on top and the front of the receiver has two added holes with screws. The rifle is equipped with a modified bolt handle and a two position safety with the safety not allowing the opening of the bolt when engaged. Really a nice sporterized G33/40 that will likely make a great hunting rifle. (206520-529) {MODERN} [Richard "Stretch" Kennedy Collection] (200/400)
2088. **THOMPSON CENTER 22 CLASSIC SEMI AUTO RIFLE** serial #13582, 22 LR, 22" barrel with an excellent bore. The metal surfaces retain 99% original blue and the walnut stock rates excellent showing a few handling marks and a couple minor dings. The rifle is equipped with Weaver rings and the standard Thompson dot sights. A couple of the scope ring screws show slot damage and a single 5 round factory magazine is included. An excellent condition rifle that will likely be an accurate shooter. (206520-1041) {MODERN} [Richard "Stretch" Kennedy Collection] (150/300)
2089. **JAPANESE TYPE 99 ARISAKA BOLT ACTION RIFLE BY NAGOYA** serial #54868, 7.7 Arisaka, 25 1/2" barrel with a near very good bore that shows some scattered small areas of oxidation and pitting. The metal surfaces of this no-series rifle show a balance between a fading arsenal blue finish and oxidation. The beech stock rates about very good showing handling marks, dings, scratches and abrasions throughout. The Chrysanthemum has been ground but all numbers including the firing pin and cocking knob are matching and the rifle is equipped with an adjustable non-anti-aircraft rear sight. The rear sling plate and hardware and rear lower tang screw are missing. The rifle has a commercial cleaning rod with a brass head and the magazine spring and follower have been replaced with a block of wood. A good parts gun or wall-hanger overall. (207874-10) {C&R} (50/100)
2090. **PLAINFIELD PM30P SEMI AUTO CARBINE** serial #88261, 30 Carbine, 18" barrel with a bright excellent bore. The metal surfaces retain 97% original blue with some operational wear on bolt, silvering on wire stock and front sight and light wear on triggerguard. The walnut collapsible stock rates near very good with a 2 3/4" crack at right rear in front of stock, a 4" crack at left rear in front of stock, a further 1" crack at left rear in front of stock, a few handling marks and light dings. The carbine is equipped with a wire collapsible stock with both a front and rear pistol grip and a blued heatshield handguard. The rear pistol grip shows a bit of movement and a single unmarked blued magazine is included with this carbine. An interesting carbine overall. (208002-164) {MODERN} [Charles Hadley Collection] (300/500)
2091. **BUDAPEST M95 MANNLICHER BOLT ACTION CARBINE** serial #4295S, 8x50mm Mannlicher, 19" barrel with a very good plus bore that shows some light frosting in the grooves. The metal surfaces show a fading arsenal blue finish with some scattered light oxidation and oxidation staining. The walnut stock rates near very good with dings, abrasions, scratches, divots and stains scattered throughout. The buttplate appears to be numbered "PR/27491" and this likely a unit marking but the stock and barrel are matching to the receiver and the remaining parts are unnumbered. The barrel is also marked "Wn 17" and the carbine is equipped with two sling swivels. Many Mannlicher Carbines have been converted but this one appears to be in its original configuration. (207877-43) {C&R} (100/200)
2092. **BRITISH NO. 5 MK 1 BOLT ACTION "JUNGLE CARBINE" BY FAZAKERLEY (SPORTERIZED)** serial #K3172, 303 British, 19" barrel with a very good bore that shows a couple small areas of frosting. The metal surfaces of this March 1945 vintage carbine have mostly turned a dull gray patina with some scattered oxidation stains, a spot of light pitting on right side of barrel and generous traces of the original enamel finish on left side of receiver. The cut-down walnut stock rates very good as cleaned with scattered handling marks, dings and scratches. The flash hider, front sight ears and bayonet lug are still intact and the carbine is marked with British export and proof markings. The magazine is numbered matching but the bolt number is partially indiscernible but the first half reads "K31". A good restoration candidate overall. (207877-44) {MODERN} (150/250)
2093. **RUSSIAN M38 MOSIN NAGANT BOLT ACTION CARBINE BY IZHEVSK** serial #CHK534, 7.62x54 Russian, 19 1/2" barrel with a very good lightly pitted bore. The metal surfaces of this 1945 vintage carbine retain 85-90% armory quality blue with some silvering on magazine, some scattered fading and light oxidation and oxidation on buttplate. The birch stock rates good plus with some crackling near bands, a 1" chip missing at front sling slot, dings, handling marks, abrasions, scratches, a 2" rivet repair on left side of receiver and a 5 3/4" crack on left side of stock near front sling slot. The carbine is equipped with wire sling hangers and the serial numbers are all numbered differently. The cleaning rod is missing, the buttplate fit is loose as are the bands and there are no import markings. 1945 dated M38s are hard-to-find and this is an interesting Mosin carbine that could very well be a bringback. (207877-45) {C&R} (100/200)
2094. **JAPANESE TYPE 38 ARISAKA BOLT ACTION CARBINE BY NAGOYA** serial #19533, 6.5 Arisaka, 19" barrel with a very good bore that shows a few scattered areas of pitting. The metal surfaces of this 4th series carbine show a fading arsenal blue with the receiver area retaining the most blue while showing some light oxidation and the triggerguard and barrel turning a silver pewter with scattered oxidation staining. The beech stock rates good plus as cleaned with an added varnish finish, a 7" crack on handguard, scattered dings, abrasions, scratches and handling marks. The Chrysanthemum is ground, the bolt and front band are not matching to each other but the bolt parts are all numbered alike. The magazine and floorplate assemblies are missing and an original cleaning rod is included. A good source of parts or restoration candidate. (207877-46) {C&R} (75/150)
2095. **J.P. SAUER 1913 SEMI AUTO PISTOL** serial #20403, 25 ACP, 2 1/2" barrel with a very good plus bore that shows some freckling in the grooves. The metal surfaces retain 65-70% original blue with scattered freckling and fading throughout. The checkered black plastic grips rate very good showing a few handling marks. The back of the slide is marked "GERMANY" and there are two "(Crown)/N" proof marks which are partially faded, one on the slide, the other on frame. A single factory magazine and a Bianchi clip-on leather holster are included. A good plus Sauer 1913 that may prove be a great carry gun still. (207892-1) {C&R} (150/300)
2096. **AUSTRALIAN MKIII\* ENFIELD BOLT ACTION RIFLE BY LITHGOW** serial #F13967, 303 British, 25" barrel with a bright excellent bore. The metal surfaces of this 1943 vintage rifle retain 98% of an arsenal grade parkerized finish with some silvering scratches and an oxidation spot on left side of receiver and rear band. The hardwood stock rates near excellent with a few handling marks and light dings and a crisp "SLAZ 44" marking on the underside of pistol grip. The bolt number is matching but it appears to be in a different font than the receiver and the other parts appear unnumbered but they appear to be of Lithgow manufacture. There are no visible import markings on this rifle and it may prove to be a good shooter. (207927-93) {C&R} (200/400)
2097. **ITALIAN MODEL 38 CAVALRY CARBINE** serial #OL831, 6.5 Carcano, 17" barrel with a very good bore that shows a couple areas of minor frosting. The metal surfaces of this Gardone marked Carcano carbine retain 95% of an arsenal blue finish with some light fading on the front sight, barrel, receiver and magazine, some silvering on bolt and buttplate and oxidation staining on the folding bayonet. The hardwood stock rates very good with an armory varnish finish, two 3/4" chips at toe, a strong 1940 dated cartouche, scattered dings, handling marks and scratches. The stock number matches that of the receiver and there do not appear to be any other serialized parts. A nice example of an interesting Italian carbine. (207922-9) {C&R} (150/250)

2098. **JAPANESE TYPE 99 ARISAKA BOLT ACTION RIFLE BY TOKYO KOGYO** serial #16353, 7.7 Arisaka, 25 1/2" barrel with a good bore that shows evident rifling but some oxidation near the muzzle. The metal surfaces of this 27th series "Last Ditch" rifle retain about 60% original blue with oxidation spots throughout the barrel, receiver, rear sight lower tang, and bands. The hardwood stock rates very good with a 1" crack on left side of buttplate, a 1" area of chipping at right recoil bolt, the remnants of a white sticker on right side of butt, scattered smaller chips, dings, handling marks and scratches. The front band is unnumbered as is typical for late war guns but the bolt, extractor, firing pin and cocking knob are matching. The Chrysanthemum is fully intact but the floorplate, follower and front floorplate screw are missing. The rifle has many late features such as the short handguard, lack of front sight protectors, fixed rear sight, welded cocking knob and lack of grasping grooves on stock. A good candidate for some light restoration. (207908-8) {C&R} (150/250)
2099. **JAPANESE TYPE 99 ARISAKA BOLT ACTION RIFLE BY NAGOYA** serial #61822, 7.7 Arisaka, 25 1/2" barrel with an excellent bore. The metal surfaces of this 8th series "Last ditch" rifle show a fading original blue with scattered oxidation staining and oxidation on the floorplate, lower tang and triggerguard. The hardwood stock has an unrepaired duffle cut at the rear band but otherwise rates very good as cleaned with a 3/4" crack at rear of handguard, a few scattered deep scratches, further scattered lighter scratches, dings, handling marks and abrasions and some chipping around buttplate. The rifle has a fully intact Chrysanthemum, and the bolt, extractor, cocking knob, and firing pin are matching to the receiver, while the rear band is unnumbered. The rifle has late features such as a fixed rear sight, no front sight ears, a short handguard, welded cocking knob and wooden buttplate. An interesting late-war Arisaka overall. (208028-17) {C&R} (200/400)
2100. **JAPANESE TYPE 99 ARISAKA BOLT ACTION RIFLE BY NAGOYA** serial #50446, 7.7 Arisaka, 25 1/2" barrel with a very good bore that shows a couple pits. The metal surfaces of this 8th series "Last Ditch" rifle retain about 80% original blue with scattered fading and silvering, freckling on the rear of the barrel, receiver, triggerguard, floorplate, bands and oxidation on rear sight, lower tang and upper tang. The hardwood stock rates very good with a 1/2" abrasion on right side of butt, a couple deep 1" scratches on handguard, a 1" deep scratch on right side of stock at front, scattered dings, handling marks, moderate abrasions, chips and scratches. The front band is unnumbered as is typical for late war guns, the bolt, extractor, firing pin and cocking knob are all matching and the rifle has late war features like the short handguard, fixed rear sight, wooden buttplate and the stock lacks grasping grooves. The Chrysanthemum has been ground and the rear band screw is missing and as a result the rear band is loose. A solid late-war Arisaka for your collection. (207942-6) {C&R} (100/200)
2101. **SPANISH CIVIL WAR MOSIN NAGANT 91/30 BOLT ACTION RIFLE BY TULA** serial #160101, 7.62x54 Russian, 29" barrel with a fair bore that shows oxidation and pitting throughout its length but evident rifling. The metal surfaces of this 1935 dated hex receiver rifle show a fading arsenal blue finish with perhaps 60% blue, with scattered oxidation staining on buttplate, further light oxidation on magazine, barrel and receiver. The hardwood stock rates good as arsenal sanded with a partially faded Tula star on right side of butt, a 4" crack on handguard, a 2" crack at upper tang, a 3" crack at front right of stock, a thin 5" crack on left side of receiver, scattered dings, abrasions, handling marks and scratches. The buttplate and floorplate are matching, while the Izhevsk bolt is mismatched. The bands are marked with Tula stars and the receiver is marked with a faint "MADE IN USSR" export mark indicating that it was sold by Franco's Spain in the 1950's. A well-used 91/30 that likely saw its share of use by the Republicans against Franco. (208028-16) {C&R} (125/250)
2102. **GERMAN K98K KREIGSMODELL BOLT ACTION RIFLE BY WAFFEN WERKE BRUNN** serial #4621, 8mm Mauser, 24" barrel with a dark bore that shows oxidation and pitting throughout. The metal surfaces of this "dou 45" coded rifle show a fading arsenal blue finish with the barrel, bands and receiver turning a dull brown patina with scattered freckling and oxidation staining, while the floorplate shows silvering and oxidation staining throughout. The buttplate and triggerguard also show oxidation staining throughout and the laminated stock rates very good with an added oil finish, a 1/4" crack at front of handguard, scattered dings, handling marks, scratches and chips. The serialized parts are mismatched and most of the Nazi markings have been removed with a tool mark on rear of barrel. There is a faint Century Arms import mark on the end of the barrel that appears to have some added finish over it. The rifle has late war features such as the lack of a bandkeeper and stock disc and stamped sheet metal bands. A well-used K98k that may make a good example piece for the budding collector. (207922-8) {C&R} (250/450)
2103. **BRITISH NO. 5 MK 1 BOLT ACTION "JUNGLE" CARBINE BY FAZAKERLEY** serial #Y9945, 303 British, 19" barrel with a very good bore that shows some scattered frosting. The metal surfaces of this 1/47 dated carbine show a thinning original enamel finish that has mostly turned a dull brown patina and some pitting on the bands, and oxidation on magazine. The rubber buttplate shows scattered chips, flaking, wear, dings and crazing throughout. The walnut stock rates very good with a 2"x1" armorer repair at the heel, a 1 1/2" abrasion on right side of butt below sling cut, a 1" chip behind safety, a repaired 3" crack on underside, a few abrasions on right side of butt, some minor chipping in front of magazine, a 1/2" chip in front of receiver, further scattered dings, scratches, handling marks and abrasions. The left side of band is marked "ENGLAND" and the barrel is marked with British export and proof markings and the bolt and magazine are matching but there are no other visible serial numbered parts. The flash hider and bayonet lug are still intact and the carbine has the correct 800-meter rear sight and hollowed-out bolt handle. A solid Jungle Carbine that will make a great addition to any collection. (208009-5) {C&R} (250/450)
2104. **CANADIAN NO. 4 MK 1\* ENFIELD BOLT ACTION RIFLE BY LONG BRANCH** serial #37L9397, 303 British, 25" barrel with a very good bore that shows some scattered frosting. The metal surfaces of this 1943 vintage rifle show a fading arsenal blue finish that is turning to a brown patina with the floorplate showing a few pits and light oxidation. The brass buttplate is turning a dull brown patina with scattered oxidation and oxidation staining and the walnut stock rates very good with a thickly added coat of varnish, a 1"x1" armorer repair at heel, a large area of flaking varnish on right side of butt, scattered dings, handling marks, lighter flaking, abrasions and scratches. The receiver is marked "ENGLAND", the rifle has a dual aperture flip sight and the bolt and magazine are matching to the receiver. The rear sling hardware is missing, the buttplate appears to be British made and the floorplate appears to be Savage made. A solid example of a wartime Canadian No. 4 rifle that may prove to be a good shooter. (207951-56) {C&R} [Tweed Herendeen Collection] (200/300)
2105. **U.S. MODEL 1903 BOLT ACTION RIFLE BY ROCK ISLAND ARSENAL (SPORTERIZED)** serial #27074, 30-06, 24" 1918 dated Avis barrel with a poor bore that shows oxidation and pitting throughout. The metal surfaces show an arsenal applied parkerized finish that is beginning to fade and it retains perhaps 60% finish with thinning along the barrel and receiver and some light oxidation and silvering on floorplate and triggerguard. The aftermarket walnut Monte Carlo stock rates good plus with an added varnish finish, a 1 1/2" triangular crack at upper tang, scattered flaking, dings, handling marks and scratches. The rifle retains its original GI sights and the stock has a Colt made black plastic buttplate. As with all low-numbered 1903 rifles this is sold as a collectible and no thought should be given to the loading or firing of this arm. A salty sporterized 03 that may be a good restoration candidate. (207942-26) {MODERN} (100/200)
2106. **INTERESTING U.S. MODEL 1896 KRAG CARBINE RIMFIRE CONVERSION** serial #56820, 22 LR, 22 1/4" shortened barrel with a good bore that shows scattered pitting but strong rifling. The metal surfaces have mostly turned a dull gray patina with areas of oxidation throughout. The modified walnut stock rates very good as lightly cleaned with an added oil finish, a 1/2" chip at upper tang, a further 1/2" chip at heel, a repaired 1/2" chip at heel, scattered scratches, dings and handling marks. This carbine was converted to 22 LR at some point in its life likely after its military service, it is equipped with a Model 1901 rear sight and the magazine box is loose. An interesting gun for the Krag collector. (207147-229) {ANTIQUE} [Terry Buffum Collection] (250/450)

2107. **GERMAN GEW 88/05 "COMMISSION" BOLT ACTION RIFLE BY ERFURT** serial #6209g, 8mm Mauser, 29" barrel with a dark oxidized bore. The metal surfaces of this 1890 vintage rifle show a reapplied blue that is fading to a dull brown patina, and oxidation staining on buttplate. The walnut stock rates very good with an added dark oil finish, a couple 1" abrasions on butt, partially visible Imperial cartouches, a couple small chips along barrel, scattered dings, handling marks and scratches. The serialized parts are mismatched, there is a crossed out unit marking on the front band and there is no bolt assembly present. The receiver is "S" Marked and it has been updated for stripper clips and a USGI style canvas green sling is included. There are no visible import or Turkish markings on this rifle and it may be a good project gun. (207951-205) {ANTIQUE} [Tweed Herendeen Collection] (50/100)
2108. **U.S. MODEL 1892 KRAG BOLT ACTION RIFLE BY SPRINGFIELD ARMORY (SPORTERIZED)** serial #2331, 30-40 Krag, 22 1/4" shortened barrel with a very good bore that shows scattered light frosting. The metal surfaces have turned a dull gray patina with oxidation scattered oxidation staining and freckling. The cut-down walnut stock rates about very good with an added pistol grip, a repaired 1/3" crack at upper tang, a 1/2" crack at heel, a further 1/4" crack at heel, scattered dings, handling marks and scratches. The stock has an added cut-out for a sling at rear but with no hardware and a screw hole at front with a flat head screw that exhibits slot damage. There is a checkered Winchester buttplate installed that shows scratches and a couple 1/4" cracks on the edges and there is no buttplate tab. The rifle's military sights have been removed with two holes present on barrel from the old sights and a Lyman peep rear and gold dot front sight have been installed. An interesting Krag sporter overall. (207951-66) {ANTIQUE} [Tweed Herendeen Collection] (200/300)
2109. **VOLUNTEER ENTERPRISES COMMANDO MKIII SEMI AUTO RIFLE** serial #18183, 45 ACP, 16" barrel with a very good bore that shows some scattered frosting. The metal surfaces of this Thompson style rifle retain 70% original blue and enamel with silvering and oxidation staining throughout the barrel, scattered flaking and silvering enamel on lower receiver, and some silvering and oxidation staining on the upper receiver and buttplate. The hardwood stock and vertical foregrip rate very good with a few dings, scratches, handling marks and a 2 1/2" thin crack on right side of foregrip. The vertical foregrip is loose and moves freely, while the gray phosphate magazine shows wear and requires extra force to fully remove. A good project gun for the Thompson enthusiast. (207963-4) {MODERN} (200/400)
2110. **U.S. MODEL 1903 BOLT ACTION RIFLE BY SPRINGFIELD ARMORY (SPORTERIZED)** serial #578223, 30-06, 24" barrel with a very good bore that shows scattered light pitting. The metal surfaces retain perhaps 50% arsenal blue with fading and silvering throughout and some scattered freckling and oxidation staining on barrel, receiver, floorplate and receiver area. The unmarked walnut pistol grip stock rates very good with an added varnish finish, a 1" repaired crack at upper tang, an added splice at buttplate tab, scattered dings, handling marks, scratches and flaking varnish. The stock has an added unmarked red rubber buttplate that gives the rifle a 12 3/4" length of pull and shows a 1" chip at both top and bottom and scattered flaking with heavier flaking at chips and the front of the stock has an added sling stud and swivel. The floorplate is marked "TO FRANK C. HAMM/FROM MARK FISHERBERG/1937" and the rifle is sighted with a Lyman peep rear and dot front sight. As with all low numbered 1903 rifles this arm is sold as collectible only and no thought should be given to firing or loading of this arm. An unmarked brown leather sling that has one loose end and shows flaking and crazing is included with this rifle. An interesting sporterized 1903 rifle overall. (207932-4) {MODERN} (200/300)
2111. **REMINGTON 1885 LEE NAVY MODEL BOLT ACTION RIFLE (SPORTERIZED)** serial #52368, 45-70 Govt, 23" shortened barrel with a very good bore that shows scattered frosting and light pitting. The metal surfaces retain 95% reapplied blue with scattered fading spots and silvering on barrel, magazine and receiver area and some tool marks on barrel and light oxidation spots on magazine and trigger-guard. The nicely-figured aftermarket Monte Carlo walnut stock rates very good with a 1/2" crack on left side of receiver, some stains, scattered dings, small chips and handling marks. The rifle has a sling stud mounted on the barrel, the rear sling stud is missing. The rifle is sighted with open sights and there is a scope mount on the left side of receiver which is properly marked with an anchor and it has a second serial number of "29888". An interesting sporterized Lee that may still prove to be a good hunting rifle. (207942-13) {ANTIQUE} (200/400)
2112. **REMINGTON 1899 LEE BOLT ACTION RIFLE (SPORTERIZED)** serial #100067, 30-40 Krag, 24" shortened barrel with a good plus bore that shows scattered pitting but strong rifling. The metal surfaces show a balance between a fading reapplied blue and a dull brown patina. The cutdown walnut stock rates very good with an added oil finish, a circular repair to a 3/4" crack on comb and scattered dings, scratches and handling marks. The stock has a ribbed black plastic buttplate that shows scattered scratches and dings, and the rifle is sighted with Williams open sights and there are two 1/4" holes on the left rear of receiver and a 1/4" hole with flat head screw on barrel. There is a 1"x1" cutout on left side of stock below holes that were likely for a peep sight and the sling swivel on the triggerguard is missing. An interesting sporterized Lee rifle. (207942-5) {MODERN} (200/400)
2113. **SMITH & WESSON VICTORY MODEL DOUBLE ACTION REVOLVER** serial #V635830, 38 Special, 4" barrel with an excellent bore. The metal surfaces retain 93% of the original parkerized finish with scattered silvering scratches and fading and a couple tool marks on the right side of barrel at muzzle. The hammer and trigger still retain some of their original case-hardened finish with scattered silvering from operation. The smooth walnut grips rate very good as lightly cleaned with some added oil, scattered dings, scratches and a 1/2" chip at bottom of right panel. All serial numbers on this revolver are matching and the S&W monogram and "US" and inspector's markings appear partially faint. This is a very good plus example overall. (208002-58) {C&R} [Charles Hadley Collection] (300/500)
2114. **SMITH & WESSON VICTORY MODEL DOUBLE ACTION REVOLVER** serial #V306913, 38 Special, 4" barrel with an excellent bore. The metal surfaces retain 95% of the original parkerized finish with scattered silvering and fading. The case-hardened trigger and hammer show remnants of their original finish with silvering and oxidation staining. The smooth walnut grips rate very good showing some added oil finish, scratches, dings and handling marks. The grips are unnumbered but all other serialized parts are matching. A very good plus Victory Model for the military or Smith collector. (208002-57) {C&R} [Charles Hadley Collection] (300/500)
2115. **U.S. MODEL 1903 BOLT ACTION RIFLE BY SPRINGFIELD ARMORY** serial #1524718, 30-06, 24" 1-38 dated Springfield barrel with a near excellent bore that shows a few minor pits. The metal surfaces show a fading gray-green parkerized finish with a large 2" area of oxidation staining at rear of barrel, further oxidation staining on floorplate, heavy oxidation on buttplate and some scattered silvering scratches. The handguard is missing but the walnut stock rates very good as cleaned with a 2" crack at upper tang, the remnants of a sticker on right side of butt, a partially visible "SA/SPG" inspector's cartouche, a faint "(Circled)P" firing proof on pistol grip, a 1/2" chip at front and scattered dings, abrasions, handling marks and scratches. The sling hardware, bayonet lug, front sight, band-keeper, rear sight assembly and bands are missing. A good restoration candidate. (207908-19) {C&R} (200/400)
2116. **IAC 1897 RIOT SLIDE ACTION SHOTGUN** serial #0202350, 12 Ga, 20 1/2" cylinder bore barrel with an excellent bore. The metal surfaces of this Chinese made 1897 Winchester clone retain 98% original blue with some light operational silvering on magazine tube and slide rails. The walnut stock and forend rate excellent with a few scattered handling marks. There is an "IAC" import mark on the barrel and this is an excellent 1897 that will likely be great for cowboy action shooting. (208002-197) {MODERN} [Charles Hadley Collection] (200/400)
2117. **NATIONAL ORDNANCE MODEL 1903A3 BOLT ACTION RIFLE** serial #5002738, 30-06, 24" "8-44" dated Remington 4-groove barrel with a good plus bore that shows scattered pitting and oxidation. The metal surfaces of this commercial 1903A3 clone retain 93% original parkerized finish with silvering scratches on buttplate, and fading on bands and barrel. The scant walnut stock rates very good as-cleaned with the upper tang being proud of wood, a 1/2" repair at comb, scattered dings, minor chips, stains and handling marks. In addition to the barrel the bolt is "R" marked indicating that it is of USGI Remington manufacture. An interesting 1903A3 clone overall. (207915-2) {MODERN} (200/400)

2118. **WINCHESTER MODEL 1910 SEMI AUTO RIFLE** serial #18900, 401 WSL, 20" barrel with a good plus bore that shows scattered oxidation and a few pits. The metal surfaces retain 97% reapplied blue with silvering on operating rod, freckling on rear sight and magazine. The walnut stock and forend rate good plus with a thick coat of varnish, a 10" crack along right side of forend, four more scattered smaller cracks on forend, scattered dings, flaking varnish, handling marks and scratches. The upper tang has two added 1/4" holes and the rifle is equipped with a Marbles open rear sight. The consignor notes that this rifle was restored and refinished by John McKinney of Shortsville in 1997. A neat 1910 rifle overall. (207951-26) {C&R} [Tweed Herendeen Collection] (200/400)
2119. **GERMAN G29/40 BOLT ACTION RIFLE BY STEYR (SPORTERIZED)** serial #7191a, 22 CF, 23" unmarked heavy barrel with an excellent bore. The barrel appears to be in-the-white with scattered oxidation staining while the receiver and bolt-stop area retain about 90% arsenal blue with scattered fading. The triggerguard and floorplate have turned a dull brown patina with scattered scratches and the buttplate shows oxidation and oxidation staining throughout. The cutdown beech stock rates very good with a 1" added cut to the bolt, scattered large abrasions, dings, chips, scratches and handling marks. The floorplate and triggerguard are matching to the receiver and the rifle is sighted with a Lyman All-American 6x power scope. The scope tube retains about 70% original blue with a couple large areas of silvering loss at front and it has a fine crosshair reticle with slightly cloudy optics. As with any arm of unknown caliber it is imperative to get this rifle checked out prior to firing. An aftermarket leather sling that shows crazing and flaking throughout is included with this rifle. An interesting Mauser target rifle overall. (207951-68) {MODERN} [Tweed Herendeen Collection] (200/400)
2120. **U.S. MODEL 1898 KRAG BOLT ACTION RIFLE BY SPRINGFIELD ARMORY (SPORTERIZED)** serial #185617, 30-40 Krag, 25" shortened barrel with a very good lightly pitted bore. The metal surfaces retain 95% of a reapplied blue finish with some scattered light oxidation and fading. The Bishop Monte Carlo stock rates very good with an added varnish finish, a 1" crack between the bolt cutout and magazine box, a couple 3/4" abrasions and a small hole at front and a few dings, scratches and handling marks. The rifle is sighted with a Redfield peep rear and gold dot front sight and there are two sling swivels that have been added. An interesting Krag sporter overall. (208027-9) {MODERN} (200/300)
2121. **U.S. MODEL 1896 KRAG BOLT ACTION RIFLE BY SPRINGFIELD ARMORY (SPORTERIZED)** serial #45808, 30-40 Krag, 23" shortened barrel with a very good lightly frosted bore. The barrel, bands, rear sight assembly and receiver retain 95% reapplied blue with some scattered silvering scratches and light fading. The extractor shows traces of the original fire blue finish, while the triggerguard, sideplate and magazine box are turning a dull gray patina with scattered oxidation staining. The cutdown stock rates very good as cleaned with an added oil finish, a partially visible "(Circle)P" firing proof, stains, scattered dings, handling marks and flaking varnish. The stock appears to have the base for a saddle ring bar and a band keeper so it may have been from an 1896 carbine but the rifle itself is slightly longer than the commonly accepted dimensions for Model 1896 carbines. The rifle has a Type II 1902 rear sight and no handguard is present. An interesting sporterized Krag overall. (207942-2) {ANTIQUUE} (250/450)
2122. **JAPANESE TYPE 38 ARISAKA BOLT ACTION RIFLE BY NAGOYA** serial #29491, 6.5 Arisaka, 31 1/4" barrel with a very good bore that shows a couple areas of oxidation. The metal surfaces of this 26th series rifle have mostly turned a dull brown patina with oxidation staining throughout, scattered oxidation on buttplate and scattered freckling. The hardwood stock rates good with a dark oil finish, a 1" crack at rear of handguard, several large abrasions and chips, scattered dings, scratches and handling marks throughout. The Chrysanthemum is ground and the front band is matching while the other parts are mismatched and no cleaning rod is included with this rifle. A salty Arisaka that may prove to be a good project or parts donor. (207944-1) {C&R} (100/200)
2123. **CZ-83 SEMI AUTO PISTOL** serial #11792, 380 ACP, 3 3/4" barrel with an excellent bore. The metal surfaces of this 1987 vintage pistol retain about 95% original phosphate and blue with some light fading on front and backstrap, silvering on slide and some light freckling on frame. The checkered hard plastic grips rate very good showing scattered dings, handling marks, scratches and an area of dirt staining on the left panel. The pistol features an ambidextrous safety, a white dot rear sight and a white ramp front sight. The barrel and slide are numbered matching and the slide is marked "MADE IN CZECHOSLOVAKIA" and no magazine is included with this pistol. An excellent CZ-83 that will likely make a reliable and affordable carry gun. (207879-338) {MODERN} [Craig Brown Collection] (200/300)
2124. **UNIVERSAL FIREARMS M1 CARBINE** serial #44393, 30 Carbine, 18" barrel with an excellent bore. The metal surfaces of this commercial carbine retain 95% original blue with some operational silvering on bolt, fading on triggerguard, barrel and band and some scattered freckling and silvering on band. The walnut stock rates very good showing a couple abrasions, scattered flaking of the factory varnish, dings, scratches and handling marks. A single aftermarket 5 round blued magazine that is marked "SC" on the baseplate and shows some light oxidation is included with this carbine. A nice Universal carbine that may make a fun plinker. (207942-9) {MODERN} (250/450)
2125. **RUSSIAN MOSIN NAGANT 91/30 BOLT ACTION RIFLE BY IZHEVSK** serial #SN8146, 7.62x54 Russian, 29" barrel with a dark bore that shows oxidation and pitting throughout. The metal surfaces of this 1942 vintage rifle have turned a silver pewter and they show scattered oxidation staining and the typical wartime rough machining. The hardwood stock rates good as cleaned with a 2" armorer repair at right below bolt, a 1/2" crack at rear of handguard, a "1x1/2" repair in front of magazine, a 2" crack at front bandkeeper, scattered dings, handling marks, abrasions and chips. The bolt and floorplate are matching to each other but not the barrel shank with the floorplate being lined-out matching and the buttplate is matching to the barrel shank. The rifle has a small Century Arms import mark on right side of barrel and an unmarked canvas sling is included but no cleaning rod is present. A well-used 91/30 that likely saw its share of service. (207944-3) {C&R} (100/200)
2126. **JAPANESE TYPE 38 ARISAKA BOLT ACTION CARBINE BY KOKURA** serial #50399, 6.5 Arisaka, 19" barrel with a very good bore that shows some scattered frosting. The metal surfaces of this 2nd series rifle retain about 75% original blue with oxidation and fading on bands and barrel, oxidation and silvering throughout the triggerguard, lower tang and floorplate, heavy oxidation on butt plate and lighter oxidation on receiver and rear of barrel. The hardwood stock rates good plus with an added oil finish, dings, abrasions, scratches, chips and handling marks throughout. The Chrysanthemum is ground, the lower tang appears to protrude downward and the serialized parts are mismatched with the bolt components matching each other. A well-used T38 carbine that may make a good example piece for the Japanese collector. (207932-9) {C&R} (125/250)
2127. **HUNGARIAN FEMARU P37 SEMI AUTO PISTOL** serial #60538, 32 ACP, 4" barrel with a very good plus bore that shows a couple minor pits. The metal surfaces of this "jhv 43" coded pistol retain about 90% original blue with scattered light oxidation spots on the slide, silvering on triggerguard and some further light oxidation spots on the backstrap. The ribbed grips rate very good with a 3/4" abrasion on left panel and a couple smaller abrasions on right panel and scattered handling marks. The barrel and frame are numbered alike and the slide is marked with a Nazi eagle, while the right side of triggerguard is marked with an "(Eagle)/WaA175" Waffenamt. No magazine is included with this pistol but overall this a very good plus example. (208014-19) {C&R} (200/450)
2128. **SWEDISH MODEL 1887 NAGANT DOUBLE ACTION REVOLVER BY HUSQVARNA** serial #10540, 7.5mm Swedish Nagant, 4 1/2" barrel with a near excellent bore that shows some light freckling. The metal surfaces retain 90% original polished blue with scattered freckling, silvering and fading and the cylinder showing fading. The strawed hammer, cylinder release, trigger and cylinder release bar show much of their original finish with light silvering scratches and oxidation staining. The checkered grips rate very good showing some scattered dings, handling marks, moderate abrasions and flattening of the points. All of the visible serialized parts are matching and there is a unit marking on the left side of frame which reads "L No 809/A". A very good plus example sure to please any Swedish collector. (208047-5D31167) {C&R} (200/400)

2129. **SWEDISH MODEL 1887 NAGANT DOUBLE ACTION REVOLVER BY HUSQVARNA** serial #3147, 7.5mm Swedish Nagant, 4 1/2" barrel with a near excellent bore that shows some light freckling. The metal surfaces retain about 85% original polished blue with scattered silvering scratches, fading and freckling throughout. The strawed cylinder release trigger, hammer and cylinder release bar show a fading finish with scattered oxidation staining. The checkered grips rate very good showing scattered minor chips, dings, handling marks and flattening points. All visible serial numbers are matching and there is a unit marking on right side that reads "L No 5831/A". A very good example for the Swedish or revolver collector. (208047-8D31183) {C&R} (200/400)
2130. **BELGIAN MADE SWEDISH MODEL 1887 NAGANT DOUBLE ACTION REVOLVER** serial #1203, 7.5mm Swedish Nagant, 4 1/2" barrel with a very good plus bore that shows scattered light frosting. The metal surfaces of this Brevet Nagant marked revolver retain 95% original bleu with scattered light freckling and silvering. The strawed ejector rod housing, hammer, cylinder release and cylinder release lever show much of their original finish with some scattered oxidation staining, while the trigger shows a balance between silvering and straw and some light oxidation staining. The checkered grips rate very good with scattered dings, minor chips and flattening points. All visible serial numbers are matching and there is a unit marking on left side of frame that reads "L No 5792/A". Really an interesting Nagant for the Swedish collector. (208047-4D31181) {C&R} (250/450)
2131. **U.S. MODEL 1879 TRAPDOOR SINGLE SHOT RIFLE BY SPRINGFIELD ARMORY** 45-70 Govt, 32 5/8" barrel with an about very good bore that shows scattered pitting and frosting throughout its length but strong rifling. The metal surfaces have turned a dull brown patina with oxidation and oxidation staining throughout, some scattered pitting and a few tool marks around the rear sight. The walnut stock rates good with an added dark oil finish, a partially visible inspector's cartouche, a faint "(Circled)P" firing proof, three indiscernible rack markings on left side of butt, a 3" crack protruding from upper tang to left rears crossbolt, a large 3 1/2" crack with a 1" chip on left side of stock at front crossbolt, a 2" crack at front of sideplate, a couple 1/2" cracks at heel, a 3" chip area at toe, a 2" chip area on each side of rear of buttplate and many dings, abrasions, scratches, chips and handling marks throughout. The sideplate markings are mostly indiscernible and the Buffington rear sight appears bent. The lock appears to function and the rear sight knobs are stiff and the rear sight does not appear to adjust properly. There is no cleaning rod and the rifle appears to have an extra sling swivel at front. A well-used Trapdoor that may make a good project or wall hanger. (207819-2) {ANTIQUÉ} (300/500)
2132. **STAR MODEL B SEMI AUTO PISTOL** serial #481773, 9mm, 5" barrel with an excellent bore. The metal surfaces retain 98% original blue with a couple minor impact marks on slide, some light silvering, the Spanish proof marks on frame appearing lightly faint and some oxidation staining on hammer. The checkered grips rate very good plus showing a few scattered handling marks and light chips on the right panel. Included with this pistol is a single "STAR" marked magazine that shows scattered silvering scratches. An excellent condition Star Model B overall. (207992-8) {MODERN} (300/500)
2133. **REMINGTON MODEL 660 BOLT ACTION RIFLE** serial #6268973, 308 Winchester, 20" barrel with a very good bore that shows some scattered frosting. The metal surfaces retain 99% original blue. The checkered walnut Monte Carlo stock rates excellent retaining nearly all of its factory varnish and showing sharp checkering and also showing a few minor handling marks and light scratches. The pistol grip cap, end cap and buttplate show a few scuff marks, dings and handling marks but rate very good plus overall. The rifle has two added sling studs one at front and the other at rear, as well as an added scope mount that is marked "170" with two 1" Weaver rings. A near excellent Model 660 overall. (207927-88) {MODERN} (300/500)
2134. **ATI GSG-5 SEMI AUTO RIFLE** serial #A340422, 22 LR, 16 1/4" barrel with an excellent bore. The metal surfaces of this pre-lawsuit rimfire MP5 clone retain 98% original phosphate finish. The polymer buttstock, frame, handguard and pistol grip rate excellent displaying a few light stains, minor handling and scuff marks. The rifle is fitted with a long faux suppressor and a single factory 22 round magazine is included. An excellent condition rimfire MP5 clone that will likely make a fun tactical plinker. (208010-5) {MODERN} (200/300)
2135. **BRITISH NO. 5 MK1 BOLT ACTION "JUNGLE CARBINE" BY ROF FAZARKERLEY (SPORTERIZED)** serial #G4846, 303 British, 18" shortened barrel with a very good bore that shows some scattered areas of pitting but strong rifling. The barrel shows oxidation staining throughout its length and has turned a gray patina, while the receiver, magazine and rear band area retain about 60% original black enamel with heavy thinning on triggerguard and band and scattered thinning on the receiver area. The blue magazine shows some staining, silvering, oxidation staining and some scattered pitting spots, while the aftermarket hardwood Monte Carlo stock rates near excellent showing a few dings, scratches and handling marks. The butt is loose and there is a sling stud at front but the rear sling stud is missing, the military sights, bayonet lug and flash hider have been removed and the carbine is sighted with an open rear sight and a gold dot front sight. The magazine is unnumbered and likely a replacement, while the bolt and barrel are matching to the receiver. An interesting sporterized Jungle carbine. (208009-6) {MODERN} (100/200)
2136. **RAF MARKED ENFIELD NO 2 MK 1 DOUBLE ACTION REVOLVER** serial #C777, 38 S&W, 5" barrel with an excellent bore. The metal surfaces of this 1935 vintage revolver retain 97% of an arsenal dark parkerized finish with some light silvering on the exposed edges, oxidation on cylinder, scattered freckling and light fading. The checkered grips rate about very good with several small chips on the right panel, a few other chips on left panel, scattered scratches, dings and handling marks. The cylinder, frame and barrel are matching and the right side of frame is marked "R.A.F." for the Royal Air Force and there is an "ENGLAND" marking on right side of frame, as well as a "BNP" marking on right side of frame and a few "BNP" markings on the cylinder. There are also British ton markings on left side of the frame. An excellent Enfield revolver with the added bonus of RAF markings. (208014-18) {C&R} (300/500)
2137. **GSG AK-47 SEMI AUTO RIFLE** serial #A351122, 22 LR, 19" barrel with an excellent bore. The metal surfaces retain 99% original phosphate and the hardwood stock, handguard and pistol grip rate excellent showing a couple minor handling marks. Included with this rimfire Kalashnikov clone are a factory 24 round magazine in excellent condition, the manual, combo tool, trigger lock and the factory box that is correctly end-labeled to the gun. An excellent condition rimfire Kalashnikov style rifle that will likely make a fun plinker. (207960-5) {MODERN} (200/300)
2138. **BRITISH P14 BOLT ACTION RIFLE BY WINCHESTER (SPORTERIZED)** serial #W99090, 303 British, 22" shortened barrel with a very good bore that shows some scattered small areas of pitting and frosting. The metal surfaces retain 90% arsenal blue with oxidation staining, fading and silvering on buttplate, light oxidation staining and silvering on floorplate and triggerguard, some light freckling on receiver and scattered light fading and a 3/4" spot of pitting on barrel. The cutdown walnut stock rates very good with an armory oil finish, showing a crisp Winchester roundel, other crisp British cartouches, the cutout for the front volley sight on front and left sides, the remnants of tape on right side of butt, a 2" abrasion on right side of butt, a further 2" deep scratch on right side of butt, scattered dings, handling marks, scratches, abrasions, chips and dings. The barrel is matching to the receiver and the bolt appears unnumbered but is marked "W" for Winchester. The stock is marked with a "(Five Pointed Star)/Z" on the pistol grip, the barrel has British proofs and the stock disc is marked with a unit marking which reads "RAF 21BC/28". The rifle's military sights are removed and a Weaver KV60 scope has been installed which has a thin crosshair reticle with cloudy optics. The scope tube retains 98% original blue and it is mounted on Weaver rings. An interesting sporterized Pattern 14 rifle overall. (207951-69) {MODERN} [Tweed Herendeen Collection] (100/200)

2139. **RUSSIAN IJ-70 MAKAROV SEMI AUTO PISTOL** serial #BB1610, 9x18 Makarov, 3 3/4" barrel with an about very good bore that shows some scattered oxidation but strong rifling. The metal surfaces of this Big Bear Arms imported pistol retain 95% original blue with some freckling and fading on front strap and scattered light silvering. The factory grips rate very good with scattered dings, stains and handling marks, while the added Uncle Mike's fingergroove rubber grips rate very good showing scattered stains and handling marks. This pistol is equipped with factory adjustable sights and it includes two magazines, a holster, combo tool and cleaning rod. An excellent commercial Marakov that may prove to be a good shooter. (207936-6) {MODERN} (150/250)
2140. **RUSSIAN MOSIN NAGANT 91/30 BOLT ACTION RIFLE BY TULA (SPORTERIZED)** serial #13471, 7.62x54 Russian, 28" barrel with a dark oxidized bore. The metal surfaces of this 1937 vintage rifle retain 60% of an arsenal blue finish with oxidation throughout the buttplate, scattered oxidation on magazine and triggerguard, scattered fading and freckling on the barrel and receiver area. The cutdown stock rates very good as cleaned, with the sling slots and recoil bolts being filed over, a couple plug repairs at front, scattered dings, scratches and handling marks. The rifle's front sight and barrel are intact, and the rear sight does not have the later added pin, with the date of this rifle and the lack of the reinforcement pin, it is possible that this rifle served in the Spanish Civil War on the Republican side but there are no "MADE IN USSR" markings. The floorplate and buttplate are matching but the Izhevsk marked bolt is mismatched. An interesting Mosin that may be a good restoration candidate. (207929-1) {MODERN} (50/100)
2141. **GERMAN GEHA BOLT ACTION SHOTGUN** serial #3318, 12 Ga, 27" cylinder bore barrel with a good bore that shows frosting throughout and a ring oxidation near muzzle. The metal surfaces are turning a dull brown patina with oxidation and oxidation staining throughout. The walnut stock rates good with an added varnish finish, a 1 3/4" crack at upper tang, two 1 1/2" cracks on left side, a 1 1/2" chip on right side of receiver, a 1/2" crack on right side of butt, a deep 2 1/2" scratch on left side of upper tang, a couple 1/2" chips at upper tang, a minor area of paint staining on left side of receiver, scattered dings, handling marks, scratches, abrasions and chips. The right side of butt has the letters "CL" carved into and the left side of butt is marked with a heart cartouche and there is a disc inletted which shows two screws and oxidation staining. The right side of receiver has two screws and this shotgun only has a front bead for sighting. An interesting piece of history overall. (207951-15) {C&R} [Tweed Herendeen Collection] (100/150)
2142. **RUGER 10/22 SEMI AUTO RIFLE** serial #820-28979, 22 LR, 18" barrel with an excellent bore. The metal surfaces retain 99% original blue and the birch stock rates about excellent with a few scratches on the left side of pistol grip. This rifle includes a single factory 10 round magazine and this is an excellent condition 10/22 overall. (208047-27D30814) {MODERN} (150/250)
2143. **ARGENTINE MODEL 1891 BOLT ACTION CARBINE BY LUDWIG LOEWE** serial #B2879, 7.65 Argentine, 21" barrel with a good bore that shows a large area of oxidation near muzzle and some scattered smaller areas of oxidation but strong rifling. The metal surfaces show fading, oxidation and oxidation staining throughout with the heaviest oxidation on the buttplate. The walnut stock rates very good as lightly cleaned with an added varnish finish, a 1" crack at upper tang, some staining on butt, a couple small abrasions on comb, scattered dings, scratches, handling marks and flaking. The stock is mismatched but all other parts are matching and there is no handguard, front sight ears and one of the nose cap screws is missing. The bolt has been swept back and this carbine may be either an Argentine military or civilian conversion. An aftermarket leather sling in very good condition is included and this is a well-used Argentine carbine overall. (207978-2) {ANTIQUÉ} (100/200)
2144. **JAPANESE TYPE 38 ARISAKA BOLT ACTION RIFLE BY KOKURA** serial #86309, 6.5 Arisaka, 31 1/4" barrel with a dark oxidized bore. The metal surfaces are turning a dull brown patina with oxidation and oxidation staining scattered throughout and some scattered pitting and white paint stains on buttplate and end of barrel. The hardwood stock rates good plus with an armory dark oil finish, a wide 2" crack at lower tang, a 1" crack on right side of butt, a 1 1/2" crack on left side of butt, a couple scattered smaller cracks at butt, a "1x1" large chip at toe, a 2" deep scratch on right side of butt, a deep 3" scratch on below right grasping groove, a couple 1/4" cracks at rear of handguard in front of rear sight, a deep 2" scratch on handguard, further scattered scratches, chips, dings, abrasions and handling marks. The series number is indiscernible due to oxidation but it appears to be a 22nd series marking and the Chrysanthemum is fully intact. The front band and firing pin appear to be unnumbered, while the cocking knob and bolt are matching to each other but not the receiver or any other number and no cleaning rod is included with this rifle. A well-used Arisaka that may make a good wall hanger or parts donor. (208028-12) {C&R} (100/200)
2145. **JAPANESE TYPE 38 ARISAKA BOLT ACTION RIFLE BY KOISHIKAWA** serial #1645137, 6.5 Arisaka, 31 1/4" barrel with a poor pitted bore. The metal surfaces of this early no-series rifle show a thinning arsenal quality reapplied blue with a couple small areas of pitting at the receiver, oxidation on the receiver, barrel, buttplate and bands, silvering and oxidation staining on floorplate and triggerguard and scattered fading throughout. The hardwood stock rates very good with an armory varnish finish, a couple large 1" chips on left side of stock, a 3/4" chip on each side of stock, a thin 1" crack at rear of handguard on left side, scattered smaller chips, dings, handling marks, abrasions and scratches. The serial numbers are mismatched and the Chrysanthemum is fully intact and an unmarked military style sling and an original blued cleaning rod are included with this rifle. A well-used early Type 38 Arisaka rifle. (208028-10) {C&R} (100/200)
2146. **JAPANESE TYPE 38 ARISAKA BOLT ACTION RIFLE BY KOKURA** serial #69104, 6.5 Arisaka, 31 1/4" barrel with a dark poor bore that shows oxidation and pitting throughout its length. The metal surfaces of this 24th series rifle show a fading arsenal blue finish with oxidation spots along the length of barrel and bands, oxidation throughout bolt and extractor, fading and freckling on rear of barrel, rear sight assembly and receiver area and the triggerguard and floorplate have turned a silver pewter with oxidation staining throughout. The buttplate has turned a dull brown patina with oxidation staining throughout and the hardwood stock rates good plus as-cleaned with a 1/8" gap between handguard and stock, a solid glue repaired 4" duffle cut behind the rear band, a 2" crack at front of handguard, a 2" crack to left of upper tang, scattered light stains, dings, scratches, handling marks, chips and abrasions. The serial numbers are mismatched and the Chrysanthemum is fully intact and an in-the-white cleaning rod is included. A well-used T38 that will likely make a good wall hanger. (207963-11) {C&R} (100/200)
2147. **JAPANESE TYPE 38 ARISAKA BOLT ACTION CARBINE BY NAGOYA** serial #93020, 6.5 Arisaka, 19" barrel with a bright excellent bore. The metal surfaces of this 5th series carbine retain 85% of an arsenal blue finish with oxidation throughout the buttplate, further light oxidation on lower tang and triggerguard, scattered fading on triggerguard, floorplate, receiver area, bands and barrel. The hardwood stock rates very good with an armory varnish finish, a strong Japanese inspection stamp on pistol grip, a 1 1/2" crack at rear left of handguard, a 3/4" chip at heel with a 1" thin crack protruding from it, further scattered chips, abrasions, dings, scratches and handling marks. The Chrysanthemum is fully intact, the extractor appears unnumbered, but the bolt handle, firing pin, bolt knob, floorplate and front band are matching to the receiver. Both the lower and upper tang screws exhibit slot damage and the front floorplate screw is missing and this carbine includes an original blued cleaning rod. A very good and mostly original example of a Japanese carbine. (207997-10) {C&R} (250/450)

2148. **JAPANESE TYPE 99 ARISAKA BOLT ACTION RIFLE BY TOYO KOGYO** serial #31555, 7.7 Arisaka, 25 1/2" barrel with a bright and excellent bore. The metal surfaces of this 35th series rifle retain about 50% original blue with fading running the length of the barrel and on bands and some oxidation and fading on the triggerguard and lower tang, and further light oxidation and fading on the receiver, upper tang and bolt. The hardwood stock has an unrepaired duffel cut underneath the lower band but otherwise rates very good with an armory added varnish, a couple small strong Japanese inspection stamps on pistol grip, a 1 1/2" chip on left side, a further couple 1" abrasions on left side, scattered dings, handling marks, scratches and smaller abrasions. The Chrysanthemum has an "X" through it, the front band appears unnumbered and the cocking knob is mismatched but the extractor, bolt and firing pin are matching. There are two small pieces one on each sling swivel, with one having a small wooden block attached that shows a couple Japanese characters. The rifle has late war features like a fixed rear sight, wooden buttplate, stamped bands, front sight without protectors, welded cocking knob and short handguard. The extractor appears bent, the floorplate is missing and the follower is being held to the gun by a piece of string. Included with this rifle is an original dust cover that appears to be unnumbered and shows oxidation and fading throughout. An interesting late-war Arisaka overall. (207932-7) {C&R} (75/150)
2149. **JAPANESE TYPE 38 ARISAKA BOLT ACTION RIFLE BY KOISHIKAWA** serial #604555, 6.5 Arisaka, 31 1/2" barrel with a fair bore that shows oxidation throughout its length but evident rifling. The metal surfaces of this early no-series rifle show a fading arsenal blue finish that is turning a dull gray patina with floorplate and triggerguard showing heavy oxidation staining and silvering. The buttplate shows heavy oxidation, while the remaining metal parts show freckling and oxidation staining throughout and the hardwood stock rates good plus with an armory added varnish finish, a 2" chip below receiver, a 3/4" chip on right side of butt, further scattered chips, stains, dings, handling marks and scratches. The Chrysanthemum is intact with several dot markings on the pedal possibly indicating that the rifle was sold or let out of service and the serialized parts are mismatched. The lower tang is slightly proud of the stock and one of its screws exhibits slot damage, and included with this rifle are an original in-the-white cleaning rod and an original dust cover that is mismatched and shows scattered freckling and oxidation staining. A well-used T38 Arisaka overall. (207997-12) {C&R} (125/250)
2150. **JAPANESE TYPE 38 ARISAKA BOLT ACTION CARBINE BY MUKDEN** serial #38823, 6.5 Arisaka, 19" barrel with a very good bore that shows some scattered pits. The metal surfaces of this 6th series carbine retain 80% original blue with some heavy oxidation on buttplate, light scattered oxidation and fading on floorplate, floorplate, receiver area, bolt and barrel. The bolt stop, trigger, magazine release and rear sight show much of their original straw with some scattered oxidation staining and the Chrysanthemum is ground. The underside of the bolt, front band and cocking knob are matching to the receiver, while the bolt stop and top of bolt handle are numbered "754", the rear sight is mismatched and the floorplate and firing pin appear unnumbered with the firing pin showing oxidation throughout. The hardwood stock rates very good with an armory varnish finish, a couple strong inspection stamps one on pistol grip the other on right grasping groove, a deep 1" scratch on right side underneath bolt, a 1" chip between bands on right side, further scattered chips, abrasions, scratches, dings and handling marks. An original dust cover is included that is numbered to a different gun and shows oxidation throughout and an in-the-white cleaning rod is also included. A very good example of a T38 carbine from an uncommon arsenal. (207956-10) {C&R} (200/400)
2151. **JAPANESE TYPE 99 ARISAKA BOLT ACTION RIFLE BY KOKURA** serial #38289, 7.7 Arisaka, 25 1/2" barrel with a bright excellent bore. The metal surfaces show a fading original blue finish with oxidation staining throughout, some pitting on rear of barrel and receiver and some tool marks on buttplate and receiver. The hardwood stock rates good with three individual 1/4" cracks at upper tang, a 1" chip on right side of butt, and showing smaller chips, dings, abrasions, scratches and handling marks throughout. The series marking on the rifle is indiscernible and the Christendom is ground, the front band, extractor and firing pin appear unnumbered but the bolt and cocking knob are numbered "288". One of the rear tang screws is a replacement, and the right grasping groove is inscribed "125 7318 SEABEES", and the left "31257318 SEABEES", while the floorplate appears to be marked "31357318" and the buttplate is marked with the same number carved into it with several tool marks. An original dust cover is included with this rifle that shows oxidation, pitting and several tool marks and another "31357318" added number on top and it is serial numbered "288". A salty Arisaka with possible ties to the Seabess. (207908-9) {C&R} (100/200)
2152. **CZECH K98K BOLT ACTION RIFLE BY CZ** serial #7921H, 8mm Mauser, 24" barrel with a very good bore that shows a couple small areas of light pitting. The metal surfaces of this post-war K98k retain 70% of an arsenal blue finish with fading on barrel, bands, floorplate and receiver area and scattered oxidation on rear of barrel, floorplate, triggerguard and buttplate. The hardwood stock rates good with an armory added varnish finish, a 2" crack at lower tang, two deep 1" chips at upper tang with one having a 1" crack and the other a 2" crack protruding from them, a thin 6" crack at front of floorplate, a large area of flaking on left side of butt, a 1"x1/2" abrasion on left of stock in front of rear band, scattered further abrasions, chips, areas of flaking varnish, dings and handling marks. The top of the receiver is blank, and the stock is mismatched but the bolt is matching to the receiver. The triggerguard is the enlarged type, no cleaning rod is included with this rifle and there are no visible import markings. A solid Czech K98k overall. (208028-18) {C&R} (200/300)
2153. **U.S. MODEL 1917 ENFIELD BOLT ACTION RIFLE BY EDDYSTONE** serial #793297, 30-06, 24" 6-18 dated Eddystone barrel with a dark, poor oxidized bore. The metal surfaces show an arsenal blue finish that is turning a gray gunmetal patina with scattered freckling and oxidation staining. The walnut stock is marked "T" at front and rates very good with an armory oil finish with a 3/4" abrasion at left rear of handguard, scattered dings, handling marks and scratches. The bolt is marked "W" indicating that it is of Winchester manufacture, while the remaining parts appear unmarked. The rear sight and front floorplate screws are missing but this rifle includes an unmarked tan leather sling that shows flaking and crazing throughout. A well-used example that will likely make a good wall hanger. (207932-12) {C&R} (250/450)
2154. **JAPANESE TYPE 38 ARISAKA BOLT ACTION RIFLE BY NAGOYA** serial #57183, 6.5 Arisaka, 31 1/4" barrel with a very good bore that shows scattered frosting. The metal surfaces of this 26th series rifle show fading, oxidation and oxidation staining throughout with the heaviest oxidation on the floorplate and triggerguard. The hardwood stock rates good plus with an added oil finish, a 1" crack at heel, a 3" deep scratch on handguard, a large 1" chip on left side of butt, several areas of flaking, scattered dings, chips, abrasions, scratches and handling marks. The Chrysanthemum is fully intact, the bolt handle and front band are matching, while the rear sight and bolt stop are matching to each other and the firing pin and cocking knob are mismatched. The triggerguard assembly is protruding out and the cleaning rod, floorplate and follower assembly are missing. An original dust cover that is mismatched and shows freckling and fading is included and also included is a tan leather M1907 style sling that shows flaking and crazing throughout. A well-used T38 that may make a good restoration candidate or parts donor rifle. (207908-10) {C&R} (100/200)
2155. **BELGIAN PINFIRE PEPPERBOX REVOLVER** 8mm Pinfire, 2 1/2" six-barrel cluster with oxidized bores. The blued cylinder shows a balance between reapplied blue and fading original blue with some scattered oxidation staining. The frame has faded to a dull gray gunmetal patina with scattered oxidation staining with evidence of a weld repair at front. The trigger and hammer show traces of original blue with oxidation staining and the smooth walnut grips rate good with an added varnish, scattered dings, chips and handling marks. Unfortunately, the loading gate is broken with only part of the top and bottom still being present. An interesting piece of firearms history overall. (207535-68) {ANTIQUE} (50/100)

2156. **SWISS MODEL 1889 BOLT ACTION RIFLE (SPORTERIZED)** serial #39059, 7.5x53, 5 Swiss, 21 1/2" shortened barrel with a very good plus bore that shows a few areas of minor frosting. The metal surfaces retain 90% of arsenal blue finish with light fading on barrel and heavier fading and oxidation staining along magazine, lower tang and triggerguard. The cut down walnut stock rates very good as lightly cleaned with an added oil finish showing a couple strong Swiss cartouches on the comb, a faint Swiss cannon cartouche and scattered dings, handling marks, scratches and light stains. The buttplate shows oxidation staining throughout and the unnumbered bolt knobs have cracks running around the circumference of each knob. The rifle lacks a handguard and the original sights have been removed and the rifle has a Lyman peep sight at the rear of receiver and the buttplate is mismatched, while the barrel, magazine and receiver are matching. An Uncle Mike's leather sling is included with this rifle. An interesting 1889 that may prove be a unique hunting or project rifle. (208028-11) {ANTIQUÉ} (50/100)
2157. **ITALIAN 1891 CARCANO BOLT ACTION RIFLE (SPORTERIZED)** serial #1M14444, 6.5 Carcano, 20" barrel with a poor oxidized and pitted bore. The metal surfaces retain 70% of an arsenal blue finish with oxidation throughout the buttplate, oxidation staining on bolt, an 1/8" ding on right side of receiver, fading and freckling on the magazine, rear sight assembly, barrel and receiver. The cut-down stock rates good with a 2" crack at upper tang, a further 1/2" crack at upper tang, a 1/4" crack at heel, a 1/4" crack at toe, scattered dings, scratches, light stains and handling marks. The rear sling hardware is still intact with the sling swivel being bent and the upper tang is proud of wood by a 1/4". A well-used sporterized Carcano that may make a good project gun. (208028-9) {MODERN} (25/75)
2158. **K.B.I. / F.E.G. MODEL PA-63 SEMI-AUTO PISTOL** serial #AG3915, 9mm Makarov, 4" barrel with an excellent bore. The metal surfaces retain about 99% original blue and silver anodized finishes with a few light scratches present. The checkered thumb rest plastic grips rate excellent. This pistol is loosely fashioned after the Walther PP series and includes a factory box that is correctly end labeled and numbered to the gun, a single magazine with finger rest, cleaning rod, trigger lock with key and a manual. The pistol appears to have seen little if any use. (87898-4) {MODERN} (150/250)
2159. **STEVENS DIAMOND NO. 43 SINGLE SHOT PISTOL** serial #32957, 22 RF, 6" barrel with a light to moderately frosted bore. The barrel is not numbered to the gun (#32919) but is very close. The frame of this second issue gun retains about 98% factory nickel plate with light handling marks and few oxidation blemishes. The hammer and trigger retains strong blue with moderate operational wear. The barrel retains about 75% blue that is fading to purple with silvering at the muzzle, scratches, minor pitting and a few oxidation blemishes. The smooth walnut factory grips rate very good plus and are correctly numbered to the gun with light handling wear present. The barrel to frame fit exhibits slight play but the little gun remains fully functional. The rear sight blade is square notched and the front sight is a blade. (87898-2) {C&R} (200/400)
2160. **PIETTA REMINGTON 1 OF 5000 PERCUSSION REVOLVER** serial #SG1400, .44 cal., 8" octagon barrel with an excellent bore. The frame, barrel and cylinder have light floral engraving with a few wedges on the loading lever, hammer and triggerguard. The right side of the frame, forward of the window, is engraved "Limited Edition 1 of 5000". The frame retains about 99% plus original nickel plate with the same amounts of original gold colored plate on the cylinder, trigger and hammer along with a few light handling marks. The brass triggerguard remains in excellent condition and there is no turn ring present on the cylinder. The faux ivory grips rate excellent and are assembly numbered to the grip frame. This should make a great "Bar-b-que" gun for the well-dressed S.A.S.S. member or Civil War reenactor. (87898-3) {ANTIQUÉ} (250/350)
2161. **IVER JOHNSON BOSTON-BULLDOG REVOLVER** serial #5780, 38 S&W, 2 1/2" octagon barrel with a frosted bore. The metal surfaces retain about 96% original nickel plate with scattered light oxidation, scratches, bubbling and a few stray pits. The checkered hard rubber grips with bulldog head rate excellent. The mainspring has been removed but is provided and the single action sear and the base pin retention lever is in need of attention. (87899-1) {C&R} (50/150)
2162. **STAR SUPER MODEL A SEMI-AUTO PISTOL** serial #371275, 9mm Largo, 5" barrel with a lightly pitted and frosted bore. The metal surfaces of this importer marked pistol retain about 80% original blue with scattered pitting, high edge wear, grip frame wearing to brown, thinning finish and handling marks. The hammer retains strong case-hardened colors but shows moderate operational wear. The checkered walnut grips rate fair to good with scattered dents, dings, flattened diamond points and handling marks. The hammer and mainspring have been removed from the pistol but are provided. (87899-2) {C&R} (100/200)
2163. **TRADITIONS "TENNESSEE" PERCUSSION RIFLE** serial #14-13-059898-04, .50 cal., 24" octagon barrel with an excellent bore and rifled 1:66". The metal surfaces retain about 99% original blue and case-hardened finishes. The brass furniture rates excellent with few handling marks. The one-piece hardwood full length "Kentucky" style stock rates excellent with a few minor handling marks. The rifle has single acting double set triggers and includes a fiberglass ramrod. This rifle appears to have seen little if any use and is ready for the range with the addition of appropriate shooting supplies or would even make a handsome wall hanger. A light load with a patched round ball makes an easy shooting gun for the novice shooter, ladies or an easy day of paper punching. (87898-15) {ANTIQUÉ} (100/200)
2164. **THOMPSON CENTER HAWKEN PERCUSSION RIFLE** serial #462108, .50 cal., 29" octagon barrel with an excellent bore. The metal surfaces retain about 99% original blue and case-hardened finishes with slight oxidation blemishing around the nipple. The brass furniture is in excellent condition with the occasional spot of verdigris or tarnish. The one-piece walnut stock rates excellent with several minor dings on the forend. The rifle is equipped with double acting double set triggers, original bead front sight and wood ramrod. It has been fitted with a Holden Iron Sighter one-piece "See-Thru" scope mount base that incorporates a fully adjustable "V" notch rear sight. Mounted on the rifle is a Simmons 3-9x40mm scope with clear optics, "Truplex" reticle and a set of Butler Creek flip open scope covers. This rifle appears to have seen very little use. A nice "Hawken" for the traditional hunter who needs or prefers optics. (87898-14) {ANTIQUÉ} (150/350)
2165. **MARLIN MODEL 336 LEVER ACTION RIFLE** serial #25053087, 30-30 W.C.F., 20" micro groove barrel with an excellent bore. This rifle retains about 95% original blue with light oxidation stains, thinning finish from carrying, high edge wear and light handling marks. The pistolgrip buttstock rates good to very good with moderate scattered dents, dings and scratches. The forend matches the buttstock. The rifle has the original sights, quick detachable sling swivel studs, Holden Iron Sighter two-piece "See-Thru" scope mounts and a Clearfield 3-9x40 wide view scope with duplex reticle and clear optics. (87898-8) {MODERN} (250/350)
2166. **J.C. HIGGINS MODEL 103.18 BOLT ACTION RIFLE**, 22 LR, 24" barrel with an excellent bore. This rifle retains about 75% original blue finish with scattered freckling, some oxidation blemishes and handling marks. The bolt retains about 85% nickel plate with oxidation stains, worn finish, scratches and operational marks. The one-piece pistol grip stock with later applied finish and lightly sanded wood rates near excellent. The finish is not professionally applied but adequate and exhibits light handling wear. Non-detachable sling swivels are installed and the original factory sights are present. If you need a shed or barn gun this is a good choice. (87898-10) {C&R} (25/50)
2167. **JAPANESE TYPE 99 RIFLE BY KOKURA (SPORTERIZED)** serial #16852, 7.7x58mm Arisaka, 25" barrel with an excellent bore. The metal surfaces are mostly brown to smoky gray on the bolt with traces of original blue finish plus freckling and handling marks. The stock has been cut down into a sporter configuration and rates fair to good with moderate dings, dents, scratches and a crack forming at the juncture of the two piece buttstock. The Chrysanthemum has been removed, barrel has been lightly re-crowned, only the 300-yard battle sight remains, sling swivels are present and the bolt is not correctly numbered to the gun. (87898-12) {MODERN} (50/100)

2168. **JAPANESE TYPE 99 RIFLE BY NAGOYA (SPORTERIZED)** serial #82489, 7.7x58mm Arisaka, 25" barrel with a lightly frosted bore. The metal surfaces are mostly brown to smoky gray on the bolt with strong splashes of original blue finish on the barrel in addition to freckling, oxidation stains and handling marks. The stock has been cut down into a sporter configuration and rates good with light handling marks but the wrist area has been rasped to reduce its diameter. The Chrysanthemum has been removed, the tangent rear sight is present but the aircraft wings are not, sling swivels are missing and the bolt is correctly numbered to the gun. (87898-11) {MODERN} (25/75)
2169. **STEVENS CRACKSHOT NO.26 TAKEDOWN SINGLE SHOT RIFLE**, 22 LR, 20" barrel with a lightly frosted and bulged bore. The metal surfaces are predominately gray with most of the remaining black finish on the lever plus splashes on the receiver. The surfaces have scattered freckling, light handling marks and pinprick pitting. The buttstock and forend have been lightly cleaned and sanded with moderate dings, dents and other handling marks still visible. The action still functions but the lever has considerable play with its retention spring needing attention. (87898-16) {C&R} (25/75)
2170. **TURKISH MODEL 1938 BOLT ACTION RIFLE BY ANKARA ARSENAL** serial #49925, 7.92x57mm Mauser, 29" barrel with a near excellent but slightly frosted bore. The metal surfaces of this importer marked rifle have been lightly cleaned to pewter with scattered pitting and a few stray oxidation stains. The stock rates very good with scattered light to moderate dings, dents, scratches and evidence of a light repair to a group of dings on the right rear butt section. The bolt is not correctly numbered to the gun but all other appropriate parts are. This gun should make a good shooter. (87898-13) {C&R} (100/200)
2171. **BRITISH PERCUSSION FOWLER**, 10 gauge, 45" part-octagon part-round London marked barrel with an oxidized and pitted bore. The metal surfaces are a blend of pewter and brown with scattered oxidation blemishes, even pitting and limited handling wear. There are a few traces of blue finish on the steel buttplate but it generally matches the rest of the metal surfaces. There are light wedges of floral engraving on the lock and triggerguard with the lock's engraving still fairly crisp but the triggerguard has softened from pitting. The one-piece buttstock rates fair with a number of cracks and splits that have been repaired on the wrist and forward of the lock. There are also two professionally applied metal repairs, one on each side of the wrist. The forend end section, running forward of the barrels wedding band is a later replacement piece of wood with a single ramrod ferrule mounted about midway. It is separated from the forend by about 1/2" and is broken off about 6" from the muzzle. The lock remains fully functional and a period wood ramrod is present. The top of the barrel is marked "LONDON" with several proof marks and the side of the lock is marked "LONDON WARRANTED". This should make a great wall hanger. (7898-6) {ANTIQUÉ} (300/500)
2172. **NORTH AMERICAN ARMS NAA-32 GUARDIAN SEMI-AUTO PISTOL** serial #AA7907, 32 ACP, 2 3/16" barrel with an excellent bore. The stainless steel surfaces rate excellent with a few minor handling marks. The pebble grain black factory synthetic grips with North American Arms logo rate excellent. This handy double action only pistol includes a factory box correctly end labeled and numbered to the gun, (3) magazines, factory soft case / holster combo made by DeSantis and a manual. This would make an excellent concealed carry gun or backup gun. (87876-2) {MODERN} (250/350)
2173. **BROWNING BUCK MARK FIELD SE SEMI-AUTO PISTOL** serial #515MM13258, 22 LR, 5 1/2" bull barrel with an excellent bore. The metal surfaces retain about 97% original dull blue and anodized finishes with light scratches along the barrel. The smooth walnut factory "pro target" thumb rest grips with the iconic Buck Mark laser etched into the left panel rate excellent. The pistol features a full length rail for mounting optics and includes fully adjustable rear sight with Patridge front sight. Included are a factory hard case that is correctly end labeled and numbered to the gun, a pair of magazines, manual and paperwork. This is a nice gun for field or range use, especially if you prefer to mount optics on your belt guns. (87874-1) {MODERN} (300/500)
2174. **COLT DETECTIVE SPECIAL REVOLVER** serial #836342, 38 Special, 2" barrel with an excellent bore. This 1963 made revolver retains about 96% non-factory reapplied blue finish with light high edge wear, turn ring on the cylinder, finish on the sideplate wearing to a mix of pewter and brown, old pitting visible under the new finish and other light handling wear. The unnumbered checkered factory walnut grips with silver Colt medallions rate good with moderately worn diamond points on the right panel but lighter on the left. Timing and lockup remain excellent. (87907-10) {C&R} (300/500)
2175. **THOMPSON CENTER CONTENDER SINGLE SHOT PISTOL** serial #4346, 221 Remington Fireball, 10" octagon barrel with an excellent bore. The metal surfaces retain about 98% original blue finish with light handling and operational marks. The replacement checkered rubber Pachmayr grips and forend rate near excellent with light handling wear. The original front sight is present but the rear sight has been removed. A Thompson Center 1.5X RP extended eye relief pistol scope with clear optics and duplex crosshairs is mounted in a Weaver style base. This is an earlier frame that utilizes the screwdriver selector for the rimfire or centerfire mode. The pistol is equipped with a hammer extension and quick detachable sling swivel stud on the butt of the grip. (87889-117) {MODERN} (300/500)
2176. **THOMPSON CENTER CONTENDER SINGLE SHOT PISTOL** serial #402273, 7x30 Waters, 15" bull barrel with an excellent bore. The metal surfaces retain about 99% original blue finish with light handling and operational marks. The smooth walnut and rubber factory grip and walnut forend rate very good with light handling wear on the grip, and scratches and dents on the forend. A Thompson Center 2.5-7x28mm extended eye relief pistol scope with clear optics and lighted duplex crosshairs is mounted in a Weaver style base. The crosshairs work but a battery will be needed. This is a later frame that utilizes a selector lever mounted on the top of the hammer for the rimfire or centerfire mode. The pistol is equipped with a hammer extension and quick detachable sling swivel stud on the butt of the grip and forend. (87874-12) {MODERN} (300/500)
2177. **COLT POLICE POSITIVE TARGET REVOLVER** serial #37241, 22 LR, 6" barrel with an excellent bore. This 1929 made revolver retains about 90% plus original blue finish with high edge wear, thinning grip frame, turn ring on the cylinder and a few handling marks. The checkered walnut factory grips with silver Colt medallions are correctly numbered to the gun and rate excellent. The revolver has correct standard windage adjustable rear sight and elevation adjustable Patridge front sight. Timing and lockup are excellent and this gun should make a great shooter or starter gun for a collector. (87751-23) {C&R} (300/500)
2178. **SMITH & WESSON MODEL 36 CHIEFS SPECIAL REVOLVER** serial #58J938, 38 Special, 1 7/8" pinned barrel with an excellent bore. The metal surfaces retain about 90% plus original blue with high edge wear, turn ring on the cylinder and scattered light scratches. The standard hammer and standard trigger retain bold case-hardened colors with light operational marks. The checkered walnut square butt factory grips with silver S&W medallions rate very good with a few minor dents and a small chip on the border of each panel around the checkering pattern. The revolver includes a factory box that is correctly end labeled and numbered to the gun and a manual. (87879-341) {MODERN} (300/500)
2179. **COLT OPEN TOP POCKET REVOLVER** serial #9678, 22 Long, 2 7/16" barrel with an near excellent bore exhibiting limited oxidation blemishes. The metal surfaces of the frame are ochre with no silver plate left. The metal surfaces of the barrel have worn to purple with original blue on the lower protected areas of the barrel. The cylinder is a mottled mix of purple, blue and pewter. All surfaces exhibit light scratches, dents and dings. The trigger retains strong Nitre blue but the hammer is starting to fade to purple with oxidation stains. The smooth walnut factory grips rate very good plus with some worn or flaking finish. (87904-7) {ANTIQUÉ} (250/450)

2180. **HOOD FIREARMS COMPANY CONTINENTAL #24 SINGLE ACTION REVOLVER** serial #1487, 32 RF, 3" barrel with a pitted and oxidized smooth bore barrel. The company was known for cutting false rifling grooves into the muzzle but saved money by not actually rifling the barrels. The metal surfaces retain about 85 - 90% original nickel plate with high edge wear, scratches, pitting and oxidation stains. The right and left side of the receiver have amateur outline of gothic letters. The star checkered hard rubber grips are numbered to the gun and rate near excellent overall. Timing is in need of attention. (87425-20) {ANTIQUE} (50/100)
2181. **BACON ARMS CO. DEAD SHOT REVOLVER** serial #188, 22 RF, 2 3/8" barrel with a heavily oxidized and pitted bore. The markings on the barrel read "Dead Shot" but the last three letters of "Shot" are heavily worn. The metal surfaces retain about 96% nickel plate with scattered light oxidation, flaking, bubbling, dents and dings. The smooth rosewood factory grips rate near excellent and are numbered to the gun. The revolver's timing, lockup and trigger mechanism are in need of attention and there is a crack in the frame where the base pin passes through. The screws used to hold the barrel assembly to the frame are ad-hoc replacements. (87425-23) {ANTIQUE} (10/30)
2182. **IVER JOHNSON DEFENDER 89 SINGLE ACTION REVOLVER** serial #1878, 22 RF, 2 1/4" octagon barrel with an excellent bore exhibiting a few minor oxidation marks. The metal surfaces retain about 60% nickel with most of the loss on the receiver which has been cleaned to pewter with scattered pitting. The hard rubber factory grips are marked "Defender 89" in a banner with a loose foliate and scroll design. The right panel has a repaired chip. The mechanism no longer functions. (87425-22) {ANTIQUE} (10/30)
2183. **REMINGTON-SMOOT NEW MODEL NO. 1 SINGLE ACTION REVOLVER** serial #2587, 30 RF, 2 13/16" barrel with a pitted and oxidized smooth bore barrel. The metal surfaces have been cleaned to gunmetal gray with pitting, stains from oxidation and handling marks. The ivory grips rate good with a few light checks around the top of both panels. The ejector rod assembly is missing, the gun has a fixed recoil shield and the gun still times and locks up correctly. (87425-24) {ANTIQUE} (300/500)
2184. **UNMARKED EUROPEAN SIDELOCK DOUBLE HAMMER SHOTGUN** serial #80, 12 ga, 27" matted rib barrels choked cylinder and improved cylinder having very good lightly pitted bores. The barrels have toned to a dull brown patina having some light scattered specks of surface oxidation. The frame and locks have toned to a dull gray patina displaying some oxidation stains. The locks are embellished in a light scroll engraving having some faint geometric borders. The long tang triggerguard has toned to a dark brown patina having some light silvering on the edges. The checkered walnut straight grip buttstock rates about very good as refinished many years ago displaying numerous scratches and having two chips on both sides of the triggerguard where the wood meets the frame. The checkered walnut forend rates very good displaying some light dings and scratches along with having some light slivers missing on the high edges; the metal is proud of the wood. The buttstock is fitted with a steel buttplate. The stocks are fitted with sling swivels but the forend swivel has broken off and there is a stud hole present. The gun will require mechanical attention as the left hammer is missing. (177728-1) {C&R} (100/200)
2185. **MERIDEN FIREARMS COMPANY SIDELOCK DOUBLE SHOTGUN** serial #65590, 12 ga, 30" solid rib barrels choked full and full having very good lightly pitted bores. The metal surfaces have toned to a dark brown patina having near full coverage of moderate pitting. The checkered walnut pistolgrip buttstock rates good to about very good displaying two moderate repaired cracks on the toeline along with some light cracks emanating from the locks and behind the upper tang. The checkered walnut forend rates very good displaying some light slivers missing from the edges. Both stocks display some added finish and worn checkering. The buttstock is missing its buttplate; there is a length of pull of 13 3/4". The gun locks up slightly loose but functions well mechanically. (177837-6) {C&R} (75/150)
2186. **CRESCENT ARMS LAKE SIDELOCK DOUBLE HAMMER SHOTGUN** serial #254622, 12 ga, 30" matted rib damascus barrels choked modified and modified having very good lightly pitted bores. The barrels have toned to a dark brown patina having some scattered scratches and light silvering on the edges and having a faint damascus pattern. The locks and frame have toned to a dull gray patina having some light traces of original case-hardened colors in the protected areas. The checkered walnut pistolgrip buttstock rates very good displaying some scattered dings and scratches along with having some extremely light scratches emanating from the frame and upper tang. The checkered walnut forend rates very good displaying some scattered dings along with having a 1" chip on the right side of the forend. The buttstock is fitted with a hard rubber buttplate which provides a length of pull of 14". The gun functions well mechanically and the barrels lock up somewhat tight. (177674-19) {C&R} (150/250)
2187. **MARLIN MODEL 1893 LEVER ACTION RIFLE** serial #404711, 32-40, 26" octagon barrel with a good bore having pitting its full length and having a bulge about 3" from the muzzle. The metal surfaces have toned to dull pewter gray having brown oxidation stains and surface oxidation present. The smooth walnut straight grip buttstock and forend rate very good displaying a few light chips around the edges of the lower tang, scattered dings, scratches and a few very light cracks on the left and right side of the buttstock along with some light repairs; the buttstock to frame fit is loose. The upper tang appears to have cracked from the frame and has been rewelded long ago; it is missing three of its tang screws and the gun will require mechanical attention as the hammer's main spring is missing. Rifle is fitted with its original sights and three of the tang screws are not present. (177323-42S18691) {C&R} (100/200)

2188

2188. **RICHLAND ARMS BOXLOCK DOUBLE SHOTGUN TWO BARREL SET**

serial #27003, 20 ga, 22" matted rib barrels choked cylinder and improved cylinder having bright near excellent bores. The barrels have toned to a pleasing even gray patina having some scattered rub marks and light oxidation stains. The second set of barrels are 20 ga, 27 3/4" matted rib barrels choked modified and full having bright near excellent bores. The barrels retains about 85% original blue which is slightly fading to a gray. The boxlock frame is embellished in a light scroll engraving retaining about 65% original blue which shows loss to due rub marks and possible light water spotting. The checkered walnut pistolgrip buttstock with a round left side cheek piece rates near excellent displaying some dings and scratches along with having a light added varnish. The checkered walnut beavertail forend rates very good plus having some added finish along with some handling marks. The buttstock is fitted with a White Line recoil pad which provides a length of pull of 14 1/4". The gun features double triggers, automatic safety and extractors. A really nice and affordable two barrel set field gun. (177818-10) {MODERN} (150/250)

2189. **SAVAGE MODEL 775A SEMI-AUTO SHOTGUN** serial #237121, 12 ga, 30" plain barrel choked full having a bright near excellent bore. The barrel retains about 70% original blue which is fading to a gray with some light oxidation stains present. The receiver is embellished in a light scroll engraving having two ducks in flight on the right and two pointers on the left surrounded by open scroll. The checkered walnut pistolgrip buttstock rates about very good displaying a large chip on the left cheek, along with having some scattered dings and scratches. The checkered walnut forend rates very good displaying some light scattered dings and scratches. The buttstock is fitted with a Pachmayr hard rubber buttplate. The gun functions well, but it will require mechanical attention as it fails to fire. (177785-38) {MODERN} (75/150)

2190. **PARKER SIDE LEVER DOUBLE HAMMER SHOTGUN** 12 ga. 28 3/4" matted rib damascus barrels both choked improved cylinder, having very good bores with some light pitting primarily near the breech ends. The barrels have toned to a dark brown patina having some scattered dings, scratches, rub marks and specks of surface oxidation. The locks and frame have toned to a dark brown patina having light traces of original case colors in the protected areas. The smooth walnut pistolgrip buttstock rates about very good having been refinished long ago displaying some dings, scratches and having some separation around the locks and tangs. The checkered walnut forend rates good displaying a 3" crack on the belly emanating from the forend iron which has been repaired with a thin piece of wire. Both stocks show some added varnish and the buttplate is proud of the wood. (177591-17) {C&R} (250/450)
2191. **UNMARKED DOUBLE HAMMER PERCUSSION FOWLER** 12 ga, 27 1/2", matted rib barrels choked about cylinder and improved cylinder having dark moderately oxidized bores with scattered pitting. The metal surfaces have toned to a dark brown patina having some moderate specks of surface oxidation and light pitting. The long triggerguard pineapple finial front extension has toned to a dark brown oxidized patina. The checkered walnut straight grip stock rates about very good as lightly refinished many years ago displaying some moderate dings and scratches over a dark added varnish. The stock is fitted with a fancy steel buttplate which has toned to a brown patina. The hammers function well mechanically and the barrels are fitted loose. (177789-11) {ANTIQUÉ} (75/150)
2192. **RUGER MODEL 10/22 SEMI-AUTO RIFLE** serial #127-83429, 22 LR, 18 1/2" barrel with a bright excellent bore. The metal surfaces retain 98% original blue finish displaying just a few very light handling marks. The smooth walnut pistolgrip stock rates excellent with the exception of having a few light handling marks here and there. The rifle is fitted with original sights and included is a Weaver style base and 10-round magazine. (178047-28D31225) {MODERN} (100/200)
2193. **WINCHESTER MODEL 67A BOLT ACTION RIFLE** 22 LR, 27" barrel with a very good bore having some light frosting near the muzzle. The barrel retains 90% original blue finish displaying some light surface oxidation and blemishes here and there. The chrome bolt handle remains bright and the triggerguard displays moderate surface oxidation. The smooth walnut pistolgrip stock rates very good displaying many dings and light scratches. The stock is fitted with its original hard rubber buttplate and the original sights are present. (178047-33D31948) {C&R} (75/150)
2194. **MAVERICK MODEL 88 SLIDE ACTION SHOTGUN** serial #MV75838U, 12 ga, 18 1/2" barrel with a bright excellent bore. The metal surfaces retain 99% original blue finish displaying a light scratch here and there. The black synthetic pistolgrip buttstock and grooved forend rate excellent displaying just a few light handling marks. This shotgun is in excellent condition. (178048-2S20083) {MODERN} (150/250)
2195. **MOSSBERG MODEL 500 TURKEY SLIDE ACTION SHOTGUN** serial #U093700, 12 ga, 20" ventilated rib barrel with extra full screw-in choke having a bright excellent bore. The metal surfaces retain 97% original RealTree hard woods camouflage which is fading to a dark brown, likely from a contaminate. The camouflage six position adjustable buttstock with right side shell holder and forend rate very good displaying some light oxidation and fading. (178028-15) {MODERN} (150/250)
2196. **REMINGTON MODEL 141 SLIDE ACTION RIFLE** serial #56770, 35 rem, 24" barrel with a bright excellent bore. The barrel retains 98% original blue finish displaying just a few light handling marks. The receiver retains 97% original blue finish, also displaying just a few light handling marks and having some light silvering on the high edges; there are four drilled holes on top of the receiver. The smooth walnut pistolgrip buttstock and grooved flat-bottom forend rate excellent displaying just a few light handling marks over a thinning varnish. Rifle is sighted with its original sights. (177968-3) {C&R} (300/500)
2197. **MOSSBERG MODEL 500 SLIDE ACTION SHOTGUN** serial #T174352, 20 ga, 24" rifled ported cantilever barrel with a bright excellent bore. The metal surfaces retain 98% original blue finish displaying just a few light scratches. The checkered walnut pistolgrip buttstock and forend rate excellent with the exception of having just a few light handling marks. Included is a pair of 1" rings. (178028-13) {MODERN} (150/250)
2198. **REMINGTON MODEL 722 BOLT ACTION RIFLE** serial #231094, .300 Sav, 24" barrel with a bright excellent bore. The metal surfaces retain 97% of their original blue finish displaying just a few light scratches and having some light silvering around the muzzle. The checkered bolt handle retains 98% original blue finish and the jeweled bolt body remains bright. The checkered walnut pistolgrip stock rates excellent displaying just a few light handling marks; the stock has robust checkering. The rifle is fitted with its original front sight, the rear sight has been fitted with a slot blank and two Weaver style scope bases are attached to the receiver. (177927-47) {MODERN} (350/550)
2199. **SAVAGE MODEL 64 SEMI-AUTO RIFLE** serial #1366784, 22 LR, 20" medium heavy barrel with a bright excellent bore. The metal surfaces retain 98% original blue finish displaying some light loss due to previously mounted scope rings. The laminate thumbhole stock rates excellent displaying just a few light handling marks. No magazine is included. (178047-36D31530) {MODERN} (150/250)
2200. **SAVAGE MODEL 3D BOLT ACTION RIFLE** 22 LR, 24" barrel with a bright excellent bore. The metal surfaces retain 90% original blue finish having loss due to light surface oxidation and scratches. The smooth walnut pistolgrip stock rates very good displaying some light scratches over a lightly added varnish. A nice rifle that should make a great shooter. (178003-5) {C&R} (50/100)
2201. **REMINGTON MODEL 870 EXPRESS SLIDE ACTION SHOTGUN** serial #A085315M, 12 ga, 21" ventilated rib barrel Rem-choked having a bright excellent bore. The metal surfaces retain 95% original blue finish having loss due to scratches and high edge wear. The checkered walnut pistolgrip buttstock and forend rate very good plus displaying just a few light handling marks over a thinning varnish. The right side of the safety has a slight 1/4" extension that has been nicely welded. The included choke is improved cylinder. (177963-6) {MODERN} (150/250)
2202. **RUGER MODEL 10/22 SEMI-AUTO SHOTGUN** serial #113-80519, 22 LR, 18 1/2" barrel with a bright excellent bore. The metal surfaces retain 97% original blue finish displaying a few light scratches and some light specks of surface oxidation. The smooth walnut pistolgrip stock rates excellent with the exception of having a few light handling marks. The rifle is sighted with its original sights and included is a factory 10-round magazine. (177938-2) {MODERN} (100/200)
2203. **HARRINGTON AND RICHARDSON MODEL 162 SINGLE BARREL SHOTGUN** serial #BA448447, 12 ga, 24" barrel with a bright excellent bore. The barrel retains 99% original blue finish having a faint speck of surface oxidation here and there. The frame retains 99% original vivid case-hardened colors. The smooth walnut Monte Carlo pistolgrip buttstock and forend rate excellent displaying just a few light handling marks. This shotgun is in excellent condition. (177938-1) {MODERN} (75/150)
2204. **REMINGTON MODEL 514-P BOLT ACTION RIFLE** 22 LR, 24" barrel with a bright excellent bore. The metal surfaces retain 95% original blue finish having loss due to scattered specks of light surface oxidation and handling marks. The stainless bolt handle and body remain somewhat bright having some oxidation stains present. The smooth walnut pistolgrip stock rates very good having an added finish along with some light handling marks. (177960-29) {MODERN} (50/75)
2205. **ITHACA LEFEVER NITRO SPECIAL BOXLOCK DOUBLE SHOTGUN** serial #330600, 16 ga, 28" solid rib barrels choked full and modified with bright excellent bores. The barrels have toned to an even gray-brown patina having some silvering on the sides and some light oxidation staining. The boxlock frame displays a pleasing brown patina displaying an engraved flying duck on both sides. The checkered walnut pistolgrip buttstock rates very good as refinished long ago displaying some light dings, scratches and having flat and worn checkering; there is a very thin crack emanating from the upper tang. The buttstock is fitted with a hard rubber buttplate which provides a length of pull of 13 1/4". The gun features a single trigger, automatic safety and extractors. This shotgun locks up tight and functions well mechanically. (177907-7) {C&R} (100/200)

2206. **ITHACA FIELD GRADE BOXLOCK DOUBLE SHOTGUN** serial #214731, 16 ga, 26" solid rib barrels choked full and improved cylinder with very good bores having just a couple of light pits. The barrels have toned to a pleasing brown patina displaying two tiny dings on the left tube and a few light clusters of pinprick pitting. The boxlock frame has toned to a gray brown patina having some light oxidation stains. The checkered walnut pistolgrip buttstock rates very good as refinished long ago displaying some moderately scattered dings, scratches and having a 1/2" crack emanating from the upper tang. The splinter style forend rates very good displaying some light dings and scratches; both stocks display some lightly added varnish. The buttstock is fitted with a hard rubber buttplate which provides a length of pull of 14". The gun features double triggers, automatic safety and extractors. (177907-2) {C&R} (100/200)
2207. **BELGIAN GUILD GUN BOXLOCK DOUBLE SHOTGUN** serial #37341, 16 ga, 29 1/2" solid rib barrels choked modified and modified with very good pitted bores. The barrels retain 80% of their original blue finish which are toning to a dark brown patina having scattered scratches and rub marks. The breeches display nice golden leaf inlaid geometric borders. The boxlock frame has toned to a dull gray patina and is embellished with two running dogs on the right and a dog hunting a wild boar on the left, all done with natural habitat backgrounds surrounded by open foliate scroll. The fences and top of the frame show nice stippling. The triggerguard displays an open scroll engraving with a dog's head in the center. The checkered walnut pistolgrip buttstock with a shadow lined left side cheekpiece rates very good as refinished long ago, having a hole on the toeline from a removed sling swivel and having scattered dings and scratches. The splinter forend rates excellent displaying some lightly scattered dings and having a 3" chip on the right side that have been nicely rounded; both stocks exhibit worn and flat checkering and have a glossy added varnish. The buttstock is fitted with a red rubber recoil pad which provides a length of pull of 14 3/4". The gun features an engraved grip cap, automatic safety, cocking indicators and extractors. The gun will require mechanical attention and the right barrel fails to fire. A nicely engraved Belgian double shotgun. (177764-1) {C&R} (400/600)
2208. **MOSSBERG MODEL 340T BOLT ACTION RIFLE** 22 RF shot shell, 24" smooth bore rifle with a bright excellent bore. The metal surfaces retain 97% original blue finish with loss due to extremely faint scattered specks of surface oxidation. The metal surfaces retain 97% original blue finish displaying just a few light handling marks and having some silvering on the high edges. The smooth walnut straight grip buttstock and forend rate excellent displaying a few light handling marks. (177917-4) {MODERN} (300/500)
2229. **WINCHESTER MODEL 94 TRAPPER LEVER ACTION CARBINE** serial #4901438, 30-30 Win, 16" barrel with a bright excellent bore. This saddle ring carbine's refinished metal surfaces retain 99% blue with a couple of faint handling blemishes. The walnut stock and forearm rate excellent with original finish, a couple of small dings on the forearm and also on the buttstock. Comes with its manual and original box that is showing a bit of wear with torn corners and edges. (128002-203) {MODERN} (300/500)
2230. **WINCHESTER MODEL 94 GOLDEN SPIKE COMMEMORATIVE LEVER ACTION RIFLE** serial #GS33783, 30-30, 20" barrel with a bright excellent bore. The metal surfaces retain 98% original blue on the barrel, magazine tube and action with a spot of oxidation and pitting on the barrel and a couple of other specks of oxidation. The gold colored finish on the receiver, buttplate and barrel bands rate very good to near excellent with a few light handling marks and a couple of small spots and a few specks of oxidation. The walnut stock rates near excellent with a few minor handling marks and is fitted with a Promontory Point medallion. The gun comes with its original factory box that is correctly end-labeled and numbered to the gun. (127997-7) {C&R} (300/500)
2231. **RUGER SINGLE-SIX SINGLE ACTION REVOLVER** serial #75857, 22 LR, 5 1/2" barrel with a bright excellent bore. The metal surfaces on this 1957 production revolver retain 98-99% original blue with a couple of light handling marks, a small spot of silvering by the muzzle and front of the extractor housing, and the frame showing a nice rich plum tone. The checkered black plastic grips with inset Ruger medallions rate excellent. This revolver appears to have seen very little if any use. (127942-160) {C&R} (300/500)
2232. **RUGER SPEED-SIX DOUBLE ACTION REVOLVER** serial #155-83298, 357 Magnum, 2 3/4" barrel with a bright excellent bore. The brushed stainless steel surface rates about excellent with several minor handling marks and a light turn ring on the cylinder. The checkered black rubber Pachmayr Compac grips rate near excellent with a small cut and a couple of light handling marks. (128048-11S20085) {MODERN} (250/450)
2233. **BERETTA MODEL 9000S SEMI-AUTO PISTOL** serial #SZ010999, 9mm, 3 1/2" barrel with a bright excellent bore. The metal surfaces retain 99% original blue with some operational wear on the barrel. The black synthetic grip-frame rates excellent. The gun features an ambidextrous decocking safety and fixed three-dot sights. Included is a single 10 round magazine. (128048-13S20088) {MODERN} (200/400)
2234. **SMITH & WESSON MODEL CS45 CHIEFS SPECIAL SEMI-AUTO PISTOL** serial #VJD6779, 45 ACP, 3 1/4" barrel with an excellent bore. The matte stainless steel finish on the slide rates excellent with a couple of light handling marks. The silver colored alloy frame rates near excellent with several minor handling marks. The textured black rubber grips with S&W logos rate about excellent showing some light handling marks. The gun features a three-dot sight and a decocking safety. No magazine is present. (128048-5S20147) {MODERN} (300/500)

2235. **RUGER NEW MODEL SUPER BLACKHAWK SINGLE ACTION REVOLVER** serial #81-65346, 44 Magnum, 7 1/2" barrel with a bright excellent bore. The metal surfaces retain 98% reapplied blue with an area of light pitting towards the muzzle and on the front sight, and a light turn ring on the smooth cylinder. The walnut grips rate near excellent with a couple of minor handling marks and a fading finish. Comes with a red Ruger box that is correctly end-labeled and renumbered to this gun. (127997-15) {MODERN} (300/500)
2236. **RUGER MODEL P95DC SEMI-AUTO PISTOL** serial #311-49799, 9mm, 4" barrel with an excellent bore. The matte stainless steel slide rates excellent. The black polymer grip-frame rates near excellent with some very light handling marks. The gun features 3-dot sights and an ambidextrous decocker. It comes with a total of two magazines, loading tool, manual and a gray plastic Ruger box. (127950-7) {MODERN} (200/400)
2237. **SMITH & WESSON MODEL 66 COMBAT MAGNUM DOUBLE ACTION REVOLVER** serial #4K51346, 357 Magnum, 4" pinned and ribbed barrel with an excellent bore. The satin stainless steel surfaces rate very good to near excellent with spotty handling wear most prominent on the cylinder. The gun is sighted with a red ramp front and white outline adjustable rear sights, and is fitted with a pair of checkered hardwood Original Mustang fingergroove grips that are in about excellent condition with a couple of light handling marks. (127942-43) {MODERN} (300/500)
2238. **MARLIN GLENFIELD MODEL 30 LEVER ACTION RIFLE** serial #AC56391, 30-30, 20" barrel with Ballard rifling and an excellent bore. The metal surfaces retain 97% original blue with some scattered spotty oxidation and light handling marks. The walnut stained birch pistolgrip stock and forearm rate very good plus with multiple light dings and scratches and some areas of thinning finish. This rifle is fitted with its original sights and is factory drilled and tapped for scope bases and for a side mounted receiver rear sight. (127908-14) {MODERN} (100/200)
2239. **WINCHESTER MODEL 1904 BOLT ACTION SINGLE SHOT RIFLE** 22 S,L,XL, 21" barrel with a very good lightly frosted bore. The metal surfaces are primarily gray with some light oxidation and oxidation staining and with multiple light dings and scratches. The walnut stock rates good to very good with a crack in the forend and it also has multiple light dings and scratches. The crescent buttplate hangs proud of the wood at the toe. Comes with a wood case. (127889-122) {C&R} (75/150)
2240. **MOSSBERG MODEL 142-A BOLT ACTION RIFLE** 22 S,L,LR, 18" barrel with a bright excellent bore. The metal surfaces retain 97% original blue with some scattered light oxidation. The walnut pistolgrip Monte Carlo stock rates very good to near excellent with several minor handling marks and some discoloration towards the buttplate. The factory front sight is present; the rear sight is missing. A Weaver B4 scope is mounted to the grooved receiver. The gun features a plastic folding forend and has only one of its sling swivels present and the mounting hole in the side of the stock is bare. (127929-2) {C&R} (100/200)
2241. **WINCHESTER MODEL 57 BOLT ACTION RIFLE** serial #24005, 22 LR, 22" barrel with a bright excellent bore. The metal surfaces are a fading blue toning towards brown with about 40% original blue still present. The walnut pistolgrip stock rates about excellent with a few minor handling blemishes. The gun is sighted with an unmarked replacement front blade sight and a Marbles folding leaf rear. There is a Lyman (42W) aperture sight mounted to the side of the receiver. There are sling swivels on the barrel band and on the toe-line of stock. A nice rifle that would likely make a good shooter. (127904-16) {C&R} (250/450)
2242. **REMINGTON MODEL 6 TAKEDOWN SINGLE SHOT RIFLE** serial #S-356886, 22 S,L,LR, 20" barrel with a lightly pitted gray bore. The metal surfaces are gray and brown with oxidation staining and some scattered pinprick pitting. The walnut buttstock rates near excellent as refinished with a few minor dings and scratches, and the nicely made amateur replacement forearm rates very good as is. The brass buttplate is shimmed with a 1/8" piece of rubber and hangs slightly proud of the wood. The gun is sighted with its factory barrel mounted sights and also includes a tang mounted folding peep sight. (127904-20) {C&R} (200/400)
2243. **SAVAGE MODEL 72 CRACKSHOT SINGLE SHOT FALLING BLOCK RIFLE** serial #B144065, 22 S,L,LR, 22" octagon barrel with a bright excellent bore. The barrel retains 90% original blue fading towards brown with some light oxidation. The frame shows strong case colors with some fading on the bottom side, freckling throughout and the lever has toned to brown. The walnut stock and forearm rate near excellent as refinished with a few minor handling marks. The sights appear original. (127904-22) {MODERN} (75/150)
2244. **STEVENS MODEL 1915 FAVORITE SINGLE SHOT FALLING BLOCK RIFLE** serial #W291, 22 LR, 24" octagon barrel with a gray lightly pitted bore. The metal surfaces are primarily faded to a brown patina with about 40% original blue still present with a few spots of oxidation and light pitting along the barrel and light pitting throughout the frame. The walnut stock and forearm rate very good with multiple light dings and scratches and having likely been lightly cleaned leaving the lower tang and hard rubber "Stevens Favorite" buttplate hanging slightly proud of the wood. The gun is sighted with a brass blade Rocky Mountain front and rear leaf sights. (127904-24) {C&R} (75/150)
2245. **STEVENS FAVORITE FALLING BLOCK RIFLE** serial #P521, 22 LR, 24" barrel with a lightly frosted bore. The metal surfaces have primarily toned to a brown and gray patina with some spotty oxidation staining, a little oxidation and multiple minor dings and scratches. The walnut stock and forearm rate very good with a faded finish and multiple light dings and scratches. The gun is fitted with a Rocky Mountain front sight and a rear leaf sight. (127904-23) {C&R} (100/200)
2246. **SAVAGE SPRINGFIELD MODEL 120A SINGLE SHOT BOLT ACTION RIFLE** 22 S,L,LR, 23 1/2" barrel with a bright excellent bore. The metal surfaces retain 95% original blue with spotty light oxidation and freckling throughout and a few minor handling blemishes. The pistolgrip hardwood stock has been cleaned and is currently devoid of any finish, rating very good to near excellent as is and showing some very minor blemishes and cleaning marks. The black hard rubber buttplate has a couple of chips and hangs proud of the wood. The gun is sighted with its original sights. (127908-16) {MODERN} (50/100)
2247. **SAVAGE MODEL 24B OVER-UNDER COMBINATION GUN** 22 Magnum/410 Bore, 24" barrels with excellent bores. The barrels retain 90-95% original blue with some fading to brown and scattered light oxidation and light handling marks. The fading case colors on the frame rate very good, fading in places towards gray with light freckling and oxidation. The walnut pistolgrip stock and forearm rate very good to near excellent with multiple minor handling blemishes. The gun is fitted with a hard rubber buttplate and its original sights. (127908-17) {MODERN} (200/400)
2248. **JC HIGGINS MODEL 31 SEMI-AUTO RIFLE** 22 LR, 24" barrel with a bright excellent bore. The metal surfaces retain about 99% original blue with a few minor handling marks. The hardwood pistolgrip stock and beavertail forearm rate about excellent with several minor handling blemishes. This tube magazine-fed semi-auto rifle is fitted with its original sights and a JC Higgins 4x rifle scope with cloudy optics and mounted to the grooved receiver. (127942-20) {C&R} (100/300)
2249. **REMINGTON MODEL 4 TAKEDOWN ROLLING BLOCK RIFLE** serial #J240593, 22 RF, 22 1/2" octagon barrel with a gray lightly pitted bore. The barrel has toned to a brown and gray patina with some scattered oxidation and minor handling marks. The frame is an about even mix of a brown patina and faded case colors that are primarily gray. The walnut stock and forearm rate near excellent as refinished with a tiny crack in the edge of the forearm and a few minor dings and scratches. The crescent metal buttplate hangs slightly proud of the wood in a couple of places and is a brown patina with a little spotty oxidation and some overrun varnish. (127904-19) {C&R} (200/400)
2250. **WINCHESTER MODEL 100 SEMI-AUTO RIFLE** serial #13456, 308 Win, 22" barrel with a bright excellent bore. The metal surfaces retain 98% original blue with a couple of specks of oxidation and a few minor handling marks. The alloy triggerguard and receiver are hand marked with numbers. The checkered walnut pistolgrip stock rates very good with multiple minor dings and scratches. This 1961 production rifle is fitted with sling swivels and its original sights. (127932-5) {C&R} (350/550)

2251. **WINCHESTER MODEL 1906 SLIDE ACTION RIFLE** serial #444737, 22 S,L,LR, 20" barrel with a gray lightly pitted bore. The barrel and magazine tube are primarily gray and brown with some spotty oxidation and oxidation staining and remnants of original blue in protected areas. The receiver is 70% original blue with spots worn to silver and several minor handling marks; the triggerguard and tangs having toned to gray with some light oxidation and oxidation staining. The walnut stock and grooved forearm rate very good with multiple dings and scratches scattered about and a long crack in the forearm. The sights appear original with the front blade sight slightly bent to one side. (127932-11) {C&R} (150/350)
2252. **WINCHESTER MODEL 1903 SEMI-AUTO RIFLE** serial #90498, 22 Win Auto, 20" barrel with an excellent bore. The barrel retains 95% original blue with some areas fading towards brown, some light freckling and a few minor handling marks. The receiver is a mix of brown and gray patinas with some light pinprick pitting and oxidation staining, and a few remnants of original blue in protected areas. The walnut stock and forearm rate very good plus with a couple of small cracks by the upper tang and another by the buttplate, multiple light dings and scratches, and an added finish. The gun is fitted with original sights. (127888-6) {C&R} (400/600)
2253. **BROWNING BUCKMARK SEMI-AUTO PISTOL** serial #655NR10172, 22 LR, 5 1/2" bull barrel with a bright excellent bore. The metal surfaces rate excellent, retain 99% original matte black finish on the steel barrel and slide and alloy frame. The right-handed walnut target grips with thumbrest Browning logo rate excellent. The gun is fitted with an integrated scope rail, an adjustable rear sight, gold trigger and has an ATN Ultra Sight red-dot sight mounted to the rail. A great little gun that is ready for bullseye or plinking and comes with a black plastic case. (127998-10) {MODERN} (250/450)
2254. **GERMAN FLOBERT BOLT ACTION SINGLE SHOT RIFLE** serial #29, 22 RF, 18" barrel with an excellent bore. The metal surfaces are primarily an oxidized brown mixed with about 30% original blue. The plain hardwood semi-pistolgrip stock rates good with a chip in the toe and multiple dings and scratches. The gun is unmarked except for "Flobert" and two German proofmarks on the barreled action and "29" on the bolt and bottom of the barrel. The extractor is not present. (127728-6) {MODERN} (25/50)
2255. **BAYARD SINGLE SHOT BOLT ACTION RIFLE** serial #51947, 22 RF, 19 1/2" barrel with a bright lightly frosted bore. The metal surfaces retain 95% original blue with some thinning towards brown, some scattered light freckling, a couple of small spots of oxidation and several minor handlings marks. The hardwood stock rates near excellent showing a few minor dings and scratches. The gun is sighted with a front bead and v-notch rear sights. (127888-7) {C&R} (40/60)
2256. **WINCHESTER MODEL 69A BOLT ACTION RIFLE** 22 S,L,LR, 25" barrel with a bright excellent bore. The barrel retains 98-99% original blue with scattered light specks of oxidation. The receiver has been polished and reblued retaining 98% blue with some specks of oxidation. The walnut pistolgrip stock rates very good to near excellent with several light dings and scratches and a couple of areas of worn finish. The gun is fitted with sling swivels and the rear sight is replaced with a blank. It is sighted with a front globe and a Lyman 57RS rear aperture and comes with a single magazine. (127992-13) {C&R} (100/300)
2257. **MARLIN MODEL 336 LEVER ACTION RIFLE** serial #25125552, 35 Rem, 20" barrel with a bright excellent bore. The metal surfaces retain 99% original blue with a faint handling mark or two and a bit of oxidation on the rear sight. The hardwood pistolgrip stock and forearm rate excellent with a couple of tiny blemishes. The gun is fitted with factory sights and comes with its original box. (127960-7) {MODERN} (250/450)
2258. **REMINGTON MODEL 4 ROLLING BLOCK RIFLE** serial #J304281, 22 S,L, 22 1/2" octagon barrel with very good lightly frosted bore. The barrel retains 90% original blue with some thinning towards brown and some light freckles and small spots of oxidation throughout. The case-hardened colors on the frame remain strong with toning to brown on the top of the frame and upper tang and light freckling throughout. The walnut stock and forearm rate very good with multiple light dings and scratches and areas of flaking and thinning finish. The original sights are intact. There is a slight play in the barrel-to-frame fit on this takedown rifle. (127956-6) {C&R} (300/500)
2259. **WINCHESTER MODEL 94 LEVER ACTION RIFLE** serial #2552375, 30-30, 20" barrel with a very good bore. The metal surfaces retain 85-90% original blue with spotty oxidation throughout, a few handling and tool marks, some light pitting primarily on the right side of the receiver and the lever is in-the-white toning to brown. The walnut stock and forearm rate very good plus with one moderate ding on the forearm, multiple superficial handling marks, and some flaking and fading finish. The original sights are intact minus the front hood. (127928-3) {C&R} (300/500)
2260. **WINCHESTER MODEL 94 LEVER ACTION RIFLE** serial #4425887, 30-30, 20" barrel with a bright excellent bore. The metal surfaces retain 97-98% original blue with several light handling marks on the barrel and magazine tube and moderate freckling on the receiver. The walnut stock and forearm rate near excellent with several minor handling blemishes. The original sights are intact. A good mid-70's gun that appears to have seen little use. (127992-11) {MODERN} (200/400)
2261. **REMINGTON MODEL 742 WOODSMaster SEMI-AUTO RIFLE** serial #A7206632, 30-06, 22" barrel with a bright excellent bore. The metal surfaces retain 99% original blue with a couple of very light handling marks. The basketweave press-checked pistolgrip Monte Carlo hardwood stock with right-handed cheekpiece rates excellent with a couple of minor blemishes and light superficial scratches. The stock is fitted with a black rubber ventilated recoil pad, black forend nose cap and grip cap and sling swivels. The gun's factory sights are intact and a Bushnell Banner 3-9x rifle scope with clear optics is mounted to the receiver on see-through bases. This rifle appears to have seen little use and comes with a total of two magazines, leather sling, manual, scope cover and a green plastic hard case. (127960-27) {MODERN} (200/400)
2262. **FN BROWNING AUTO 22 SEMI-AUTO RIFLE** serial #19541, 22 Short, 19 1/4" barrel with a bright very good bore showing a little light frosting. The metal surfaces retain 80-85% original blue with multiple light scratches, other minor handling marks, and some toning to brown on the barrel and the bulk of the upper receiver and lower receiver and triggerguard primarily toned to brown with multiple scratches. The walnut pistolgrip stock and forearm rate very good with multiple light dings and scratches and some minor chips on the back of the forearm. The buttplate hangs slightly proud of the wood and there is some minor play in the barrel-to-frame fit. (127972-2) {C&R} (300/500)
2263. **REMINGTON WOODSMaster MODEL 742 SEMI-AUTO CARBINE** serial #184951, 30-06, 18 1/2" barrel with a bright excellent bore. The metal surfaces retain 95-97% original blue with a few tool and light handling marks and some light oxidation scattered about. The press-checked hardwood stock and forearm rate good to very good with multiple minor dings and scratches and spots of flaking finish and large areas where a fabric had adhered to the wood, leaving a textured appearance. The gun is fitted with sling swivels, its original sights are intact; it comes with a total of two magazines, and mounted to the receiver is a Weaver K1 rifle scope with lightly cloudy optics. (127936-12) {MODERN} (150/350)
2264. **RUGER MODEL 10/22 SEMI-AUTO RIFLE** serial #233-69787, 22 LR, 18 1/2" barrel with a bright excellent bore. This rifle appears to have been in an overly close proximity to extreme heat. The metal surfaces retain 70% original blue with the bulk of the finish on the alloy receiver flaked off and the barrel showing scattered light to moderate oxidation with some moderate pitting. The hardwood stock rates good with the bulk of the wood looking good but the butt showing some singeing with the finish lifting from the wood. (127938-3) {MODERN} (25/75)
2265. **STEVENS SPRINGFIELD MODEL 56 BOLT ACTION RIFLE** 22 S,L,LR, 24" barrel with an excellent bore. The metal surfaces retain 90% original blue with some thinning towards brown and some light spotty oxidation. The hardwood pistolgrip stock with grooved forend and added amateur checkering was once likely refinished and rates very good to near excellent as is with a small chip in the toe and a hole in the front of the forearm (likely once had a swivel). The gun is fitted with an aperture front sight; the rear sight has been replaced with a blank; the receiver has been drilled and tapped and the stock modified to fit a Lyman 57TS rear aperture sight. No magazine is present. (127963-14) {C&R} (50/150)

2266. **MAS MODEL 45 BOLT ACTION RIFLE** serial #F30834, 22 LR, 24" barrel with a bright excellent bore. The metal surfaces retain 98% original parkerized finish with a couple of light handling marks. The nicely refinished hardwood pistolgrip stock with rosewood grip-cap rates about excellent as refinished with a couple of faint handling marks. The metal buttplate is in-the-white and hangs slightly proud of the wood. The gun is sighted with its factory front post and tangent rear sights. The bolt and receiver have matching numbers. The gun comes with a leather sling and three magazines. (127978-3) {C&R} (200/400)
2267. **MOSSBERG MODEL 146B BOLT ACTION RIFLE** 22 S,LR, 26" barrel with an excellent bore. The metal surfaces are primarily gray and brown with scattered light oxidation and oxidation staining and a few minor tool marks with strong remnants of blue in protected areas and on the magazine tube and receiver. The walnut pistolgrip Monte Carlo stock with right-handed cheekpiece and schnabel forend rates near excellent with a few minor handling marks. The stock is fitted with swivel bases and the gun is sighted with its factory front aperture sight with three folding apertures and a Mossberg S-130 rear aperture target sight. The barrel mounted rear leaf sight is not present. (127966-41) {C&R} (50/150)
2268. **MARLIN MODEL 782 BOLT ACTION RIFLE** serial #21661389, 22 Magnum, 22" barrel with a bright excellent bore. The metal surfaces retain 95% original blue with couple of spots and some freckling oxidation. The checkered walnut pistolgrip Monte Carlo stock rates near excellent with multiple dings and scratches, some small chips by the front swivel stud and the Marlin target logo is not present in the toeline. The gun is sighted with factory sights and has a Weaver V-22A rifle scope with clear optics mounted to the grooved receiver. The gun comes with a single magazine and a Marlin leather sling. (127966-38) {MODERN} (50/150)
2269. **SAVAGE MODEL 29 SLIDE ACTION RIFLE** serial #129627, 22 S,L,LR, 24" octagon barrel with a bright excellent bore. The metal surfaces retain 90% original blue fading towards brown with a couple of scratches on the receiver and several other minor handling marks. The checkered walnut pistolgrip stock and forearm rate very good plus with multiple light dings and scratches and some areas of fading finish. The gun is sighted with its factory front bead and folding leaf sights and also has a tang mounted rear aperture sight. A very nice pre-war model 29. (127968-7) {C&R} (100/300)
2270. **MARLIN MODEL 336SC LEVER ACTION CARBINE** serial #H29354, 30-30, 20" barrel with a bright excellent bore and Ballard rifling. The metal surfaces retain about an even mix of original blue and gray-brown patina with scattered oxidation, light to moderate pitting and some cleaning marks. The pistolgrip walnut stock with fluted comb and the semi-beavertail forearm rate near excellent with multiple superficial scratches and dings. The gun is sighted with its factory front bead sight sans the hood and a Lyman 66LA rear aperture sight. The rear leaf sight has been replaced with a slot blank. (128027-5) {C&R} (150/350)
2271. **WINCHESTER MODEL 67 BOLT ACTION SINGLE SHOT RIFLE** 22 S,L,LR, 27" barrel with a bright excellent bore. The metal surfaces retain 70% original blue fading towards brown with a few light handling marks and a couple of specks of oxidation. The walnut pistolgrip stock has likely been lightly cleaned and with added finish and rates about excellent as is with a couple of light scratches and a couple of tiny cracks by the rear of the action. It is sighted with a front bead and rear leaf sights. (128000-3) {C&R} (100/300)
2272. **WINCHESTER MODEL 94 "WINCHESTER CLASSIC" LEVER ACTION RIFLE** serial #3003970, 30-30, 20" octagon barrel with a bright excellent bore. The metal surfaces on this 1967 production rifle retain 90% original blue with some scattered spots and some small areas of oxidation. The walnut stock and forearm appear to have been lightly cleaned with an added finish and rate very good to near excellent as is with several light dings and scratches and a branded mountain lion head on the left side of the butt. The receiver has light scroll engraving outlining the sides and the checkered metal buttplate hangs slightly proud of the wood at the heel. The gun is sighted with a Lyman front white bead and a Marble's rear buckhorn sight. (127949-8) {MODERN} (100/300)
2273. **SMITH & WESSON MODEL 64-3 MILITARY AND POLICE REVOLVER** serial #ADH1612, .38 Special, 3" barrel with bright excellent bore. The stainless steel finish on this revolver rates very good with several light handling marks and scratches visible. The left side of the frame is marked "CYA" centered under the cylinder. This was likely once a California Youth Authorities duty weapon. The standard hammer and smooth combat style trigger have hard chrome finishes that remain excellent. The revolver has two-piece checkered rubber combat grips from Uncle Mike's with 1/8" serrated front ramp and square notch rear sights. The gun times well and lock-up remains tight. (108002-99) {MODERN} [Charles Hadley Collection] (200/400)
2274. **SMITH & WESSON MODEL 36 CHIEFS SPECIAL REVOLVER** serial #437337, .38 Special, 1 7/8" pinned barrel with excellent bore. The metal surfaces retain about 95% original nickel finish with loss due to flaking and oxidation. The side plate is neatly engraved with the following name: Ramon Colon Vazquez and the "#69,476" is added below it with the same font. The standard hammer and trigger show strong case hardened colors and the revolver has a serrated 1/10" ramp front sight with square notch rear. The original checkered walnut diamond Magna grips are numbered to the gun and rate near excellent showing a few light handling marks and wear along the bottom edges. Further research into Ramon Vazquez may prove fruitful. (108002-59) {MODERN} [Charles Hadley Collection] (300/500)
2275. **SMITH & WESSON MODEL 13-1 MILITARY & POLICE REVOLVER** serial #D882363, .38 Special, 4" pinned heavy barrel with bright excellent bore. The metal surfaces of this square butt revolver retain 50-60% original blue finish with areas toning to a mix of pewter and brown patinas. The most prevalent areas are along the backstrap, right side of the frame and near the muzzle. The standard hammer and trigger show bold case-hardened colors and the revolver has standard 1/8" serrated front ramp sight with square notch rear. The checkered walnut factory Magna grips with silver S&W medallions rate excellent showing a few minor handling marks and are numbered to another gun. The included factory letter confirms the configuration of this revolver and states that this special caliber configuration was shipped from the factory on March 9, 1976 to Bob Smith Sporting Goods in Boston MA. This is a neat variation that still times and locks up well and would make a nice addition to any collection. (107969-1) {MODERN} (200/400)
2276. **ROSSI MODEL M971 VRC STAINLESS REVOLVER** serial #F289039, .357 Magnum, 6" full lug and ported barrel with bright excellent bore. The stainless steel surfaces of this revolver rate excellent showing a few light scratches and spots of fine oxidation staining. The revolver features a red ramp front sight with black blade white outlined adjustable rear sight and rubber combat style grips with gold colored Rossi medallions. The revolver times well and lock-up remains tight. (107971-1) (150/250)
2277. **RUGER MKIII 22/45 TARGET MODEL SEMI-AUTO PISTOL** serial #272-45034, 22LR, 5 1/2" bull barrel with excellent bore. The metal surfaces retain 97% original blue finish with only a few light handling marks visible. The black Zytel polymer frame rates excellent as do the laminate checkered grips with red and silver phoenix medallions. The pistol has a fixed front sight with adjustable rear sight and does not come with a magazine. These magazines are still readily available and the pistol remains in excellent condition. (108002-114) {MODERN} [Charles Hadley Collection] (150/250)

2278. **WALTHER P22 SEMI-AUTO PISTOL** serial #L058977, 22LR, 3 3/8" barrel with bright excellent bore. The matte black anodized finish rates excellent on the aluminum slide and polymer frame. The pistol features ambidextrous magazine release, three dot sight system with adjustable rear sight, internal trigger lock, and Walther laser sight. Included with this pistol are: correctly numbered and labeled factory hard case, two 10 round magazines, key for trigger lock, manual, tools, additional backstrap, and sight inserts. (108002-8) {MODERN} [Charles Hadley Collection] (200/400)
2279. **MARLIN MODEL 336RC LEVER ACTION CARBINE** serial #M2393, 30-30 Win., 20" barrel with excellent bore. The metal surfaces retain 85% thinning blue with plum-colored undertones and there are several spots of light, fine oxidation staining with silvering along the high edges. The smooth walnut pistol grip buttstock and beavertail style forend rate near excellent with numerous light handling marks. The carbine is features a Marbles buckhorn rear sight and gold dot front sight and would make a great thick woods gun. (107942-18) {C&R} (200/400)
2280. **MARLIN MODEL 336 LEVER ACTION CARBINE** serial #69112896, 35 Rem., 20" barrel with bright excellent bore. The metal surfaces retain 98% original blue finish with a few light superficial scratches on the receiver. The receiver has been drilled and tapped and includes a set of Weaver 1" rings and one piece base. The smooth walnut pistolgrip stock and forend rate excellent showing a few minor light handling marks. The rifle features a hammer spur extension, gold dot front sight and sporting rear sight that is missing the elevator. This cowboy action style rifle remains in excellent condition. (107951-131) {MODERN} [Tweed Herendeen Collection] (300/500)
2281. **WINCHESTER MODEL 77 SEMI-AUTO RIFLE** serial #31420, 22 LR, 22" barrel with bright excellent bore. The metal surfaces retain 95% blue finish with sporadic spots of light oxidation staining. The rifle features a sporting rear sight with silver bead front sight, and detachable box magazine. The smooth pistol grip walnut stock rates excellent showing a few minor light handling marks. An excellent example overall. (107951-21) {C&R} [Tweed Herendeen Collection] (200/400)
2282. **MARLIN MODEL 39 CENTURY LTD. LEVER ACTION RIFLE** serial #2859, 22 rimfire, 20" octagon barrel with bright excellent bore. The metal surfaces retain 85% original blue finish with overall light scratches, spots of fine oxidation staining and silvering along some of the high edges. The rifle features a brass plated trigger and forend cap, commemorative oval plaque on stock with horseman medalion on receiver and an added hammer spur. It has a sporting rear sight with brass bead front sight. The straight walnut buttstock and forend rates very good overall with numerous light handling marks and areas of flaking varnish. This rifle still has a lot of life left and would make a great plinker. (107949-19) {MODERN} (200/400)
2283. **SMITH & WESSON BODY GUARD 380 SEMI-AUTO PISTOL** serial #EAM5878, 380 ACP, 2 3/4" barrel with excellent bore. The steel slide retains 99% of its original black melonite finish and the polymer frame with integral laser sight rates excellent. The pistol features fixed sights and Insight laser with solid and flashing option, comes with a single six round magazine and would make a great little carry gun. (108048-1S20087) {MODERN} (250/450)
2284. **RUGER LC 380 SEMI-PISTOL** serial #323-65064, 380 ACP, 3" barrel with bright excellent bore. The steel slide retains 99% of its original blue finish and the polymer frame rates excellent. The pistol has adjustable three dot sights, internal lock, and comes with a correctly numbered and labeled box, manual, internal lock key, pad lock, rug, fired casing and single seven round magazine. This is a like-new-in-the-box pistol that would make a great carry gun. (108002-135) {MODERN} [Charles Hadley Collection] (200/400)
2285. **WALTHER TPH SEMI-AUTO PISTOL BY INTERARMS** serial #T025305, 22 LR, 2 1/4" barrel with bright excellent bore. The stainless steel surfaces of this pistol rate excellent showing a few minor handling marks. The pistol features adjustable rear sight with fixed front, checkered black plastic grips with banner logo all in excellent condition. This U.S.A. made pistol comes with a single 6 round magazine, factory hardcase, manual and related literature and remains in excellent condition. (108002-6) {MODERN} [Charles Hadley Collection] (300/500)
2286. **WALTHER P22 SEMI-AUTO PISTOL** serial #L031338, 3 3/8" barrel with bright excellent bore. The matte black anodized finish rates excellent on the aluminum slide and polymer frame showing a few light handling marks. The pistol features ambidextrous magazine release, three dot sight system with adjustable rear sight and internal trigger lock. The pistol comes with a correctly labeled and numbered factory hardcase, 2 magazines, extra grip strap, tools, internal lock key and sight inserts. A fun little plinker that remains in excellent condition. (108002-41) {MODERN} [Charles Hadley Collection] (200/400)
2287. **TAURUS PT-22 SEMI-AUTO PISTOL** serial #Y116938, 22 LR, 2 3/4" barrel with bright excellent bore. The metal surfaces retain 98% original blue and gold finishes. The blue finish on the frame and slide rates excellent showing a few minor handling marks. The Gold plating on the barrel release, trigger, magazine catch, safety and grip screws rates excellent showing some minor flaking along some of the edges. The pistol features a serrated front ramp sight with square notch rear and the faux mother-of-pearl grips remain in excellent condition. Included with this pistol is a correctly end labeled and numbered factory hardcase. (108002-25) {MODERN} [Charles Hadley Collection] (100/200)
2288. **WALTHER TPH SEMI-AUTO PISTOL BY INTERARMS** serial #H001220, 22 LR, 2 1/4" barrel with bright excellent bore. The metal surfaces of the U.S.A. made pistol rate excellent retaining 99% of their original blue finish. The pistol has fixed sights and checkered black plastic grips with Walther banner and rate excellent. Included with this compact pistol is a single 6 round magazine correctly end labeled and numbered factory hardcase with manual, hang tag and related literature. (108002-9) {MODERN} [Charles Hadley Collection] (300/500)
2289. **NORTH AMERICAN ARMS PUG SINGLE ACTION REVOLVER** serial #PG1474, 22 Magnum, 1" barrel with bright excellent bore. The stainless steel surfaces rate excellent showing some light scratches along the surface. The mini revolver has fixed sights and textured rubber grips. It comes with a factory box that is numbered to another gun, lock, manual and three gun rugs. (108002-7) {MODERN} [Charles Hadley Collection] (100/200)
2290. **E.A.A. CORP., SMALL BORE BOUNTY HUNTER SINGLE ACTION REVOLVER** serial #Z4976, 22 LR / 22 Magnum, 4 3/4" with bright excellent bore. The nickel finish on this revolver rates excellent showing a few light handling marks. It has a blade front sight with square notch rear sight and smooth walnut grips that rate excellent. Included with this revolver is a spare cylinder, correctly labeled and numbered factory box, manual, and trigger lock with key. (108002-138) {MODERN} [Charles Hadley Collection] (200/400)
2291. **BERETTA MODEL 21-A BOBCAT SEMI-AUTO PISTOL** serial #BAS34833V, 25 ACP, 2 3/8" barrel with excellent bore. The nickel finish on this compact pistol rates excellent showing only a few minor handling marks. This pistol has fixed sights and smooth walnut grips with PB medallions. The grips show light impact marks along the right panel and this pistol comes with a single eight round magazine. This double action pistol remains in overall excellent condition. (108002-139) {MODERN} [Charles Hadley Collection] (150/250)
2292. **NORTH AMERICAN ARMS 22 MAGNUM SINGLE ACTION REVOLVER** serial #Z37094, 22 Magnum, 1 5/8" barrel with excellent bore. The two tone matte black and stainless finish on this mini-revolver rates very good with areas of light loss around the muzzle and front of the frame. The five shot revolver has fixed sights with laminate grips and remains in excellent condition. Included with this revolver are a holster, pistol rug, correctly labeled and numbered factory box, and manual. (108002-12) {MODERN} [Charles Hadley Collection] (100/200)

2293. **BRITISH BULLDOG DOUBLE ACTION REVOLVER** 32 S&W, 2 1/2" barrel with dark pitted bore. The revolver retains 65% flaking nickel finish and is marked "British / Bulldog" along the top of the frame and has Belgian black powder proofs on the cylinder. The checkered walnut grips rate very good overall showing flattening of the points and other related light handling marks. The revolver will need mechanical attention as it does not function properly. (107425-18) {ANTIQUE} (75/150)
2294. **NORTH AMERICAN ARMS 22 MAGNUM SINGLE ACTION REVOLVER** serial #Z37094, 22 Magnum, 1 5/8" barrel with excellent bore. The stainless steel surfaces rate excellent showing only a few minor light handling marks. The revolver has fixed sights and smooth rosewood grips that rate excellent. A fine example of these little pocket revolvers. (108002-17) {MODERN} [Charles Hadley Collection] (100/200)
2295. **H&R PREMIER BICYCLE TOP BREAK REVOLVER** serial #7644, 32 S&W, 2" barrel with good bore that shows scattered pitting down its entire length. The revolver's metal surfaces retain 98% reapplied finishes. The blue finish on the barrel and cylinder rates excellent showing a few light handling marks and a light turn ring. The frame is a plum color and shows a few spots of light pitting underneath. The checkered hard rubber grips with target emblems rate very good overall with flattened points and a few light scratches. This first model hammerless revolver times and locks up correctly and remains in very good condition. (108002-154) {C&R} [Charles Hadley Collection] (75/150)
2296. **H&R PREMIER TOP BREAK REVOLVER** serial #356844, 32 S&W, 2" barrel with bright, about excellent bore with a couple of light spots of pinprick pitting in the grooves. The revolver retains 90% of its original nickel finish with loss due to operational wear, spots of flaking and areas of light oxidation staining. This fifth model double action revolver has fixed sights with checkered black hard rubber grips with target logo that have overall softened points and a few light scratches along the bottom edges. The revolver functions well mechanically. (108002-111) {C&R} [Charles Hadley Collection] (75/150)
2297. **IVER JOHNSON SAFETY AUTOMATIC REVOLVER** serial #A7857, 32 S&W, 3" barrel with bright very good bore that shows scattered light pitting along some of the grooves. The barrel, frame, and cylinder retain 90% of their nickel finish with loss due to flaking, spots of light oxidation staining and a turn ring around the cylinder. The hammer and trigger show mottled case-hardened colors and the triggerguard retains 95% blue finish with spots of light fine oxidation staining. The checkered hard rubber owl grips have toned to a brown color with softened points but remain in near excellent condition. This fourth model revolver times well but lock up is slightly loose. (108002-36) {C&R} [Charles Hadley Collection] (100/200)
2298. **IVER JOHNSON PROTECTOR SEALED EIGHT DOUBLE ACTION REVOLVER** serial #L13189, 22 rimfire, 2 1/2" barrel with excellent bore. The metal surfaces retain 90% thinning blue finish along the barrel, frame, cylinder and triggerguard with areas of light fine oxidation staining, silvering along the high edges and at the muzzle. The barrel latch, trigger and hammer show mottled case-hardened colors with some light operational wear in the finish. The revolver has fixed sights and a set of checkered hardwood grips with mostly crisp points that show a few light handling marks. The revolver times well and lock-up remains tight. (108002-146) {C&R} [Charles Hadley Collection] (200/400)
2299. **RUGER STANDARD MODEL SEMI-PISTOL** serial #68689, 22 LR, 4 3/4" barrel, with bright excellent bore. The metal surfaces of this pistol retain 80% thinning and flaking blue with silvering along the high edges and areas of loss consistent with holster wear and use. The pistol has a fixed front sight with dovetailed square notch rear sight and has smooth aftermarket walnut grips that are in excellent condition. A single magazine is included with this pistol. (108002-147) {MODERN} [Charles Hadley Collection] (200/400)
2300. **SMITH & WESSON 32 SAFETY HAMMERLESS REVOLVER** serial #167156, 32 S&W, 1 1/2" barrel with very good lightly pitted bore. The metal surfaces on this revolver show light cleaning marks under an added nickel finish with several handling marks and a deep scratch on the left side of the frame. The cartridge markings are shallow but fully visible and the S&W logo is mostly washed out on the right side of the frame. The barrel appears to have been shortened and the front blade sight is not correct for the gun and is covering the remains of the old barrel address. The checkered hard rubber grips with S&W logos have faded to brown and rate excellent with slightly rounded points. The gun times correctly and locks up tight and remains in near excellent condition. (108002-101) {MODERN} [Charles Hadley Collection] (150/250)
2301. **WALTHER MODEL PP SEMI-AUTO PISTOL** serial # 333924p, 32 ACP, 3 7/8" barrel with very good bore that shows spots of light pinprick pitting in some of the grooves. The metal surfaces are a blend of gunmetal gray and brown patinas with spots of light pitting and handling marks. The barrel, slide, and frame all have German acceptance stamps. The checkered hard rubber Walther banner grips rate very good with a couple of heavy scratches and a split along the right side panel and a deep groove in the left. The fit is slightly loose and it appears to have a replacement grip screw. This war-time pistol is a little rough around the edges but still seems to function properly and would likely have some amazing stories if it could talk. (108002-50) {C&R} [Charles Hadley Collection] (200/300)
2302. **MANURHIN P1 SEMI-AUTO PISTOL** serial #239252, 5" barrel with excellent bore. The metal surfaces retain 95% original blue finish with some light silvering at the muzzle and along the high edges. The pistol has fixed military style sights and a lanyard loop on the left side of the frame that extends through the grip panel. The black plastic checkered grips rate excellent, with a few light handling marks and crisp points. A single magazine is included and this pistol remains in excellent condition. (108047-17D31760) {MODERN} (200/400)
2303. **RUGER NEW MODEL SINGLE-SIX REVOLVER** serial #261-63845, 22 rimfire, 6 1/2" barrel with bright excellent bore. The stainless steel surfaces rate very good overall with scattered spots of light oxidation staining. The revolver features fixed ramp style front sight with adjustable rear, and has the transfer bar safety. The smooth walnut grips with silver phoenix medallions rate excellent. Included with this revolver are a correctly end labeled box that is in fair condition and an interchangeable 22 magnum cylinder that is scratch-numbered with the last three digits of the serial number. The box has the end label attached with tape and there is a large water spot along the top where the box has partially deteriorated and it appears to have white overspray spots as well. The revolver times and locks well and likely will still be a great shooter. (108002-115) {MODERN} (150/250)
2304. **H&K MP5-A5 SEMI-AUTO RIFLE** serial #HR007963, 22 LR, 16 1/4" barrel with faux suppressor and bright excellent bore. The matte black finish on this as-new-in-the-box dealer-stock rifle rates excellent. The rifle features retractable stock, 25 round magazine, H&K adjustable front and rear sights. The Carl Walther made rifle was imported by Umarex and comes with a correctly labeled and numbered factory box, additional front sight insert, tools, lock, manual and related literature. (107958-17) {MODERN} (300/500)
2305. **H&K MP5-A5 SEMI-AUTO RIFLE** serial #HR007859, 22 LR, 16 1/4" barrel with faux suppressor and bright excellent bore. The matte black finish on this as-new-in-the-box dealer-stock rifle rates excellent. The rifle features a retractable stock, 25 round magazine, and H&K adjustable front and rear sights. The Umarex import is made by Carl Walther and comes with a correctly labeled and numbered factory box, additional front sight insert, tools, lock, manual and related literature. (107958-16) {MODERN} (300/500)
2306. **H&K MP5-A45 SEMI-AUTO RIFLE** serial #HR007773, 22 LR, 16 1/4" barrel with faux suppressor and bright excellent bore. The matte black finish on this as-new-in-the-box dealer-stock rifle rates excellent. The rifle features a retractable stock, 25 round magazine, and H&K adjustable front and rear sights. The Umarex import is made by Carl Walther and comes with a correctly labeled and numbered factory box, additional front sight insert, tools, lock, manual and related literature. (107958-18) {MODERN} (300/500)

2307. **SMITH & WESSON SW40VE SEMI-AUTO PISTOL** serial #DTJ5886, 40 S&W, 4" barrel with excellent bore. This two tone finish pistol has a stainless steel slide with black polymer frame and they rate excellent showing a few light handling marks. The pistol has standard three dot sights and comes with a correctly end labeled and numbered factory hardcase, four 10 round magazines, related literature and fired casing. This pistol appears to have seen limited use and remains in excellent condition. (108048-12S20086) {MODERN} (200/400)
2308. **MOSSBERG MODEL 500 ATP SLIDE ACTION SHOTGUN** serial #J170983, 12 ga., 18 1/8" plain barrel choked cylinder with excellent bore. The barrel and magazine tube are mostly a plum color patina with overall light fine oxidation staining and areas of light pitting. The matte black finish on the receiver rates near excellent with numerous light handling marks and spots of fine oxidation staining. The shotgun features a single brass front bead, matte black finish hardwood grooved forend and checkered synthetic pistol grip with sling swivel and remains in very good overall condition. (108028-7) {MODERN} (150/250)
2309. **KAHR CW40 SEMI-AUTO PISTOL** serial #FD9302, 40 S&W, 3 1/2" barrel with bright excellent bore. The matte stainless finish on the slide and trigger rates excellent showing a few light scratches and a couple spots of light fine oxidation staining. The polymer frame with textured grips and checkered front and back straps rates excellent. The pistol features Trijicon night sights, however they no longer illuminate. A nice compact 40 caliber pistol with a compact price that comes with a single magazine. (108047-16D31582) {MODERN} (150/250)
2310. **CHARTER ARMS UNDERCOVER REVOLVER** serial #55893, 38 Special, 1 7/8" barrel with excellent bore. The metal surfaces are an overall plumb color patina showing several spots of fine pinprick pitting heaviest along the right side of the frame and cylinder. There is a visible turn ring and numerous light impact marks along the left side of the barrel. The revolver has a fixed ramp front sight with square notch rear sight and smooth walnut grips with silver Charter Arms medallions. This would make a great shed or tackle box gun. (108047-19D31954) {MODERN} (75/100)
2311. **ROHM RG10S DOUBLE ACTION REVOLVER** serial #30691, 22 LR, 3 1/8" barrel with excellent bore. The matte black finish on this revolver rates excellent showing a light turn ring along the cylinder and a few light handling marks. The checkered white plastic grips rate very good overall showing some light discoloration with slightly rounded points. An inexpensive German made pistol in overall excellent condition. (107914-3) {MODERN} (75/150)
2312. **HI-POINT FIREARMS MODEL 4095 SEMI-AUTO RIFLE** serial #H57392, 40 S&W, 17 1/2" barrel with excellent bore. The matte black surfaces of this semi-rifle rate excellent showing a few minor light handling marks. The rifle features tactical stock with shock absorbing buttpad, accessory rail top and bottom, adjustable ring rear sight with fixed post front and also has a compensator. This tactical style carbine is in a readily available caliber and should be a lot of fun to throw lead down range with and comes with a single ten round magazine. (108028-2) {MODERN} (150/250)
2313. **ITHACA MODEL 49 LEVER RIFLE** 22 rimfire, 18" barrel with excellent bore. The original blue and enhanced matte black enamel finishes rate excellent showing a few light handling marks. The straight grip walnut buttstock and forend rate excellent, showing a few light scattered dings and scratches. This martini style action rifle remains in excellent condition. (108047-32D31462) {MODERN} (75/150)
2314. **DAISY MODEL 2201 BOLT ACTION RIFLE** serial #AA0014850, 22 rimfire, 19" barrel with excellent bore. The metal surfaces retain 90% of their matte black enamel finish with overall light handling marks and scratches. The plastic imitation wood pistol grip stock with left side cheekpiece rates excellent showing a few minor handling marks. The rifle will need mechanical attention as the bolt release doesn't always catch allowing the bolt to fall out when opening. (107904-21){MODERN} (75/150)
2315. **THOMPSON CENTER ARMS GREY HAWK PERCUSSION RIFLE** serial #9401, 50 cal. percussion, 24" barrel with excellent bore. The metal surfaces have a matte stainless finish that rates excellent showing a few minor spots of oxidation staining along the barrel. The rifle has an adjustable rear sporting sight with dovetailed bead front sight. The black synthetic stock with "TC" marked rubber buttpad rates excellent. A wooden ramrod with stainless tip is included and this black powder beauty is ready for the fall woods. (107904-25) {ANTIQUUE} (150/250)
2316. **SAVAGE MODEL 101 SINGLE SHOT PISTOL** serial #14135, 22 rimfire, 5 1/2" barrel with bright excellent bore. The metal surfaces retain 98% of their blue and flat black enamel surfaces rate excellent showing a few light handling marks. The smooth hardwood grips with embossed Savage Indian rate excellent showing a spot of added finish along each panel's bottom. This neat little single shot is fashioned after the Colt Single Action Army revolvers and features a flip out barrel with faux cylinder and comes with an original factory box that is missing both side flaps. The revolver remains in excellent condition. (108047-22D31912) {MODERN} (100/200)
2317. **HIGH STANDARD MODEL D-101 DERRINGER** serial #2314489, 22 rimfire, 3" barrel with bright excellent bore. The Deringer's metal surfaces retain 98% of their original blue finish with silvering near the barrel latch and some light fine oxidation along the trigger. The smooth white plastic grips rate excellent and included with this pistol is an unmarked hinged maroon color fitted case that remains in very good condition. (108047-24D31858) {MODERN} (150/250)
2318. **SEECAMP MODEL LWS32 SEMI-PISTOL** serial #027182, 32 ACP, 2" barrel with excellent bore. The stainless steel surfaces on this compact pistol rate excellent showing a few minor light scratches. There are no provisions for sights and the double action only pistol has a set of checkered black synthetic grips that rate excellent overall. Included with this pistol is a correctly end labeled box that is pencil-numbered to the gun and a single 6 round magazine. (108047-25D31717) {MODERN} (200/300)
2319. **FOREHAND ARMS COMPANY TOP BREAK REVOLVER** serial #316533, 32 S&W, 3 1/4" barrel with lightly frosted bore. The metal surfaces retain 95% of their nickel-plated finish with light handling marks and specks of oxidation staining scattered near all over. The barrel address reads Forehand Arms Co., Worchester Mass. U.S.A. / Pat. Jan. 11 Nov. 29 '87, Jan.8 '88. The double action revolver has a blade front sight with notch rear sight and has a set of checkered walnut grips with crisp points that remain in excellent condition. A Hunter open-top russet colored leather holster with silver snaps is included with the revolver. (107874-5) {MODERN} (75/150)
2320. **REMINGTON MODEL 33 BOLT ACTION RIFLE** 22 rimfire, 24" barrel with bright excellent bore. The metal surfaces are an overall plum color patina showing a few light handling marks and spots of light fine oxidation staining. The bolt handle and trigger show bright nickel plate and the rifle has a sporting rear sight and silver bead front sight. The smooth pistol grip buttstock with finger groove forend rates about very good. It appears to have been lightly cleaned and has added finish, light handling marks, and flaking varnish. (108003-6) {C&R} (100/200)
2321. **RANGER MODEL 101.2 BOLT ACTION SHOTGUN** 20 ga., 26" barrel choked improved cylinder with a bright excellent bore. The metal surfaces are an overall plum color patina with spots of light silvering along the high edges and near the muzzle with spots of fine oxidation staining heaviest near the receiver and bolt cutout. The smooth pistol grip stock has been lightly cleaned and a repair has been made at the wrist where a large chip is missing from the top. A single 2 round detachable box magazine is included. (107963-10) {MODERN} (75/150)
2322. **IVER JOHNSON EXCEL SINGLE BARREL SHOTGUN** serial #16597, 16 ga., 30" plain barrel choked full with a bright excellent bore. The metal surfaces, are mostly a mix of plum and brown patinas with scattered spots of fine oxidation staining. There is a single brass bead sight and barrel to frame fit remains tight. The smooth pistol grip walnut stock and forend rates about very good, with overall light handling marks, scattered light dings and areas of flaking varnish. The lever rests at center and this break action shotgun remains in very good condition. (107908-18) {C&R} (50/100)

2323. **SEARS ROEBUCK & COMPANY MODEL 101.10041 SINGLE BARREL SHOTGUN** serial #A611789, 12 ga., 30" plain barrel choked full with excellent bore. The hammer, trigger, lever and barrel retain about 85% original blue finish with scattered spots of light oxidation staining, numerous superficial scratches and a few spots with plum colored undertones near the muzzle. There is a single silver bead front sight and the frame and attaching iron show strong case-hardened colors with some light oxidation staining. The smooth walnut pistol grip buttstock and forend rate very good overall with numerous handling marks, scratches and areas of flaking varnish. The forend is slightly loose but barrel to frame fit remains tight. (107908-22) {MODERN} (50/100)
2324. **WESTERN AUTO / REVELATION MODEL 312AKB BOLT ACTION SHOTGUN** serial #1270432, 12 ga., 26" plain barrel with O-Lect-Choke and bright excellent bore. The metal surfaces retain 90% original blue finish with overall spots of light oxidation staining and several superficial light scratches. The bolt has a manual safety and a large area is covered with fine oxidation staining. The smooth hardwood Monte Carlo style stock rates about excellent with numerous light handling marks and a few areas of flaking varnish. Included with this shotgun is a single detachable magazine. (107963-13) {MODERN} (75/150)
2325. **IVER JOHNSON CHAMPION SINGLE BARREL SHOTGUN** serial #BTHX, 20 ga., plain barrel choked improved modified with excellent bore. The frame, hammer and trigger show mottled case-hardened colors with spots of light fine oxidation staining. The barrel and lever retain 85% of their original blue finish with numerous light scratches and an area of silvering at the forend tip. The shotgun has a single brass bead front sight. The smooth walnut pistolgrip buttstock and forend rate very good overall. The forend appears to be a replacement and has an oiled rubbed finish and fits the gun nicely. The buttstock shows numerous light scratches, dings, tiny drying cracks at the receiver along the right side and has a custom wooden buttplate that fits the stock fairly well. (107976-1) {MODERN} (50/100)

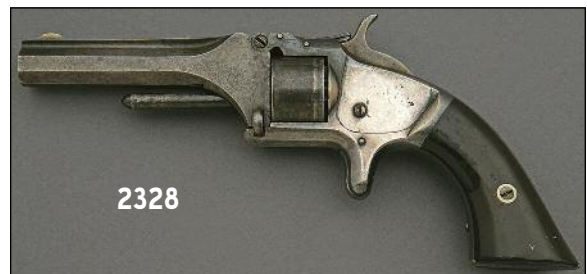

2326

2326. **NEW YORK STATE CHILD'S PERCUSSION HALF STOCK RIFLE BY SCOTT** 34 cal, 27 1/2" octagon barrel with a very good lightly oxidized bore. The barrel has toned to an even plum brown patina having some light scattered scratches and surface oxidation as well as displaying some light tool marks around the rear sight. The top flat near the breech end is marked "W.J. & R.H. SCOTT/ALBANY". The lock and hammer have toned to a pleasing brown patina having some light surface oxidation displaying a light scroll engraving; the lock is marked "WARREN/&STEELE/ALBANY". The drum and nipple exhibit a brown oxidized patina having some pinprick pitting. The triggerguard and rear ramrod tailpipe display a pleasing goldenrod patina. The smooth walnut straight grip stock with pewter noseclip rates very good as lightly refinished long ago displaying some scattered dings and scratches over a thinning varnish; the right side of stock is missing its fancy diamond inlay around the wedge and the toeline is marked "J.B. HOGAN". The stock is fitted with a crescent buttplate and toe plate which has toned to a pleasing goldenrod patina. The rifle is fitted with a blade front sight and elevation buckhorn style rear and a threaded peep sight is mounted to the tang. W.J. & R.H. Scott were active makers in Albany New York in 1848-1874; lock makers Warren and Steele were active 1844-53. A really nice petite percussion rifle built with quality craftsmanship. (1X177771-4) {ANTIQUE} (400/600)

2327. **SWEDISH M96 MAUSER BOLT ACTION RIFLE BY CARL GUSTAFS** serial #474855, 6.5x55 Swedish, 29" barrel with fair bore that has scattered pitting but strong rifling. Receiver is dated "1919", buttplate, bolt parts, and rear sight are all matching, but remaining parts are mismatched. An aftermarket flash suppressor has been installed, and an aftermarket leather sling is included. Stock disc shows a "3" for bore condition, and stock rates very good overall with scattered handling marks and a 1/2" hairline split at tang. Overall an interesting Swedish Mauser. (207264-1) {C&R} (200/400)

2328. **SMITH & WESSON NO. 1 SECOND ISSUE TIP-UP REVOLVER** serial #96642, 22 short, 3 3/16" octagon barrel with an oxidized and pitted bore. The barrel is brown with scattered oxidation stains, and remnants of original blue in the protected areas. The cylinder is a purple-pewter mix with light handling marks; the last patent date is 1860 but the patent markings have softened. The frame retains about 97% original silver plate with high edge wear, bubbling, flaking finish and light scattered tarnish. The hammer has strong case-hardened colors with light operational marks and the trigger has worn to pewter. The smooth rosewood factory grips are correctly numbered to the gun and rate very good to excellent with light dents, dings and scratches. All appropriate parts are correctly assembly numbered to the gun, barrel-to-frame fit is slightly loose; and lock up is in need of attention but timing is excellent. A very fine example of a Number One. (87535-75) {ANTIQUE} (300/500)

2328

2329. **SMITH & WESSON MODEL 1905 MILITARY & POLICE HAND EJECTOR REVOLVER** serial #606913, 38 Special, 6" pinned barrel with a lightly pitted bore. This 4th change revolver retains about 96% original nickel plate with limited high edge wear, worn finish on the cylinder and barrel toning to brown as well as scattered light freckling and pinprick pitting. The standard hammer and standard trigger retain robust case-hardened colors with light operational marks. The diamond checkered walnut factory grips rate near excellent with some light handling marks and a scuff on the base of the right panel. All appropriate parts and the grips are correctly numbered to the gun which has excellent timing and lock up. (87721-63D31503) {C&R} (350/550)

2329

2330. **KAHR MODEL K9 SEMI-AUTO PISTOL** serial #AE4051, 9mm, 3 1/2" barrel with a bright excellent bore. The metal surfaces retain 99% original matte black finish with a few scattered specks of surface oxidation. The textured black rubber grips rate excellent. This pistol appears to have seen little use and comes with a total of two magazines and a black plastic Kahr box. (127791-21) {MODERN} (350/550)
2331. **COLT ARMY SPECIAL DOUBLE ACTION REVOLVER** serial #421668, 38 Special, 4" barrel with a near very good bore that shows some scattered pitting in the grooves. The metal surfaces retain about 40% later applied blue finish with fading and silvering throughout. The hard rubber Colt grips rate very good showing handling marks, light scratches, and dings. There is a rack number "207" on the left side of the frame and this revolver may make a good shooter. (207865-33) {C&R} [Donnie Albin Collection] (300/500)

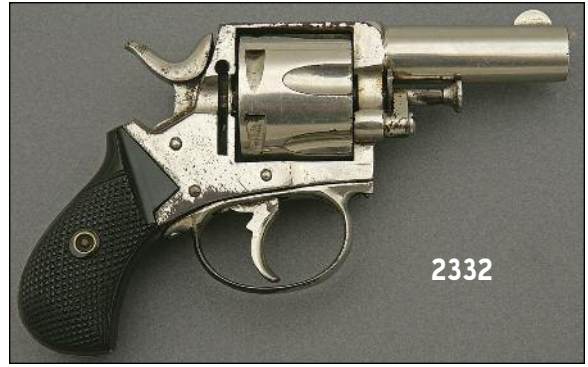

2332. **FOREHAND & WADSWORTH BRITISH BULLDOG DOUBLE ACTION REVOLVER** serial #19053, 38 Webley, 2 1/3" barrel with a fair bore that shows heavy oxidation in the grooves. The metal surfaces retain 85% original nickel with scattered areas of oxidation. The hard rubber checkered grips rate very good showing a few handling marks. The cylinder latch is matching and the top strap is marked "BRITISH BULLDOG". A very good example overall. (207865-30) {ANTIQUÉ} [Donnie Albin Collection] (300/500)

2333. **SAVAGE MODEL 110E BOLT ACTION RIFLE** serial #E295057, 7mm Rem Mag, 24" barrel with a bright excellent bore. The metal surfaces retain 97% original blue finish which exhibits some light handling marks and scattered specks of surface oxidation. The checkered walnut Monte Carlo pistolgrip buttstock rates about excellent displaying a few light handling marks over a re-applied high gloss finish. The rifle is not drilled and tapped for sights but mounted to the receiver is a Bushnell Sport view rifle scope with a duplex reticle having bright excellent optics. Included is a camouflage protective stock cover. A nice ready-to-shoot rifle. (177785-11) {MODERN} (350/550)

2334. **BUDDIE ARMS DOUBLE DEUCE DERINGER** serial #12901, 22 LR, 3" super-posed barrels with excellent bores, but the bottom barrel exhibits factory tool marks. The metal surfaces retain about 99% chrome plate with light handling marks. The white checkered plastic grips rate good to very good with scattered soiling and light handling wear. The left panel has a small check forming at the top and the barrel-to-frame fit is slightly loose. (2X87870-5) {MODERN} (25/75)

2335. **STAR FIRESTAR PLUS SEMI AUTO PISTOL** serial #2160214, 9mm, 3" barrel with a bright excellent bore. The metal surfaces have been cleaned to bare steel. The rubber factory grips rate very good showing minor staining and handling marks. There is an Interarms import mark on frame and a single 9 round magazine is included. A very good condition affordable pistol. (1X207666-200) {MODERN} (100/200)

2336. **HARRINGTON & RICHARDSON SAFETY HAMMERLESS DOUBLE ACTION REVOLVER** serial #142188, 32 S&W, 3" barrel with an about very good bore that shows a few scattered pits and some frosting. The metal surfaces retain 85% original nickel finish with scattered oxidation, staining and fading. The checkered hard rubber grips rate very good showing a couple spots of staining and a few handling marks. The cylinder serial number is matching to the frame. A very good condition vintage pocket revolver. (1X207865-16) {C&R} [Donnie Albin Collection] (25/75)

2337. **MOORE'S PATENT FIREARMS COMPANY FRONT-LOADING REVOLVER** serial #13826, .32 caliber teat fire, 3 1/4" round barrel with an about good lightly oxidized bore. The barrel, cylinder and hammer are all primarily a dull gunmetal gray patina, the barrel with only remnants of its original marking. There is light engraving present on the barrel, as well as a few dings and handling marks around the barrel wedge and some spots of light pitting, the German silver front sight still fully intact. The patent markings are present on the cylinder which also shows some lightly scattered oxidation and sparse pinprick pitting. The frame has toned to a dull goldenrod patina and shows very good engraving on both flats with light geometric engraving on the trigger sheath and bottom of frame; there are some generous traces of original silver plate present. The smooth burl walnut grips rate very good as lightly cleaned many years ago, they are assembly numbered to the gun on their interior. Barrel-to-frame fit is slightly loose but the gun seems to function well mechanically, this example made without the hook-style extractor. (1X37781-4) {ANTIQUÉ} (275/375)

2338. **HARRINGTON & RICHARDSON ARMS COMPANY 32 SAFETY HAMMERLESS REVOLVER** serial #204001, 32 S&W, 3" ribbed round barrel with an oxidized poor bore. The metal surfaces are an overall dull gray-blue with overall light oxidation and surface rust with numerous scratches, dings and handling marks. The checkered hard rubber H & R "target" logo grips rate very good. The gun is not mechanically functional and is missing parts. (1X37849-68) {C&R} (10/20)

2339. **HOPKINS & ALLEN ARMS COMPANY RANGE MODEL DOUBLE ACTION REVOLVER** serial #A527, 22 RF, 4 1/2" octagon barrel with oxidized bore. The metal surfaces retain about 60% original nickel, the areas of loss toned to a dull gray and brown oxidized patina. Hammer exhibits very good color case-hardening with light oxidation. Smooth target style walnut grips rate very good. Gun does not function mechanically. (1X37762-54) {C&R} (20/40)

2340. **IVER JOHNSON MODEL 1900 DOUBLE ACTION REVOLVER** serial #7845, 38 CF, 6" barrel with a very good bore that shows scattered pits. The metal surfaces have turned a silver pewter and show scattered oxidation staining. The hard rubber grips rate near good showing scratches, dings, handling marks and 1/2" x 1/2" chip at front. The revolver is not cocking properly, the mainspring has been removed but included and the revolver will require mechanical attention. A good project gun overall. (2X207666-137) {C&R} (10/20)

2341. **UNMARKED SPANISH BASQUE 380 CAL. SEMI-AUTO PISTOL** serial #87339, 380 ACP, 3 3/16" barrel with an excellent bore. The pistol retains about 96% original blue and anodized finishes with scattered scratches, dings and high edge wear. The left grip panel is missing and the right has been crafted in white plastic with stains and light tool marks visible. The trigger assembly is missing and the pistol includes a single 380 ACP magazine. Also included is a second Spanish marked magazine for an unknown 22 LR pistol. (1X87789-5) {MODERN} (25/75)

2342. **IVER JOHNSON ARMS & CYCLE WORKS 32 SAFETY HAMMERLESS REVOLVER** serial #I29754, 32 S&W, 3" ribbed round barrel with a very good plus to near excellent bore. The metal surfaces are an overall deep gray and lightly oxidized brown patina with numerous handling marks and scratches, most prominent on the cylinder, with lots of tiny dings on the butt. The checkered hard rubber owl grips rate very good (r) and fair, with the left grip showing a large chip at its leading lower edge. The gun seems to function for the most part but the extractor needs mechanical attention. (1X37849-67) {C&R} (10/20)

2343. **THAMES ARMS CO. TOP-BREAK REVOLVER** serial #4551, 38 S&W, 3 3/16" barrel with an oxidized and pitted bore. The metal surfaces are brown from oxidation with small sections of nickel plate still present. The checkered hard rubber grips rate good with the exterior in fine condition but the right panel has a large check on the underside which has caused the exterior to curve inwards slightly. All appropriate parts including the grips are correctly numbered to the gun. The trigger mechanism is in need of attention. (1X87762-50) {C&R} (10/20)

2344. **RIGARMI MODEL 1957 SEMI-AUTO PISTOL** serial #93720, 25 ACP, 2 1/4" barrel with a near excellent bore that appears mostly bright but may have a few slight pits toward the muzzle. The metal surfaces retain about 70% original blue, the balance fading to gray. Pistol is equipped with a set of ivory colored composite grips which have warped slightly away from the frame. The right grip has been repaired with a small chip missing, both of the inner lugs have become separated but might be able to be re-epoxied into place. A single detachable magazine is included. No date codes or importer marks are present. A decent little Italian made pistol. (1X47666-196) {MODERN} (40/60)

2345. **PHOENIX ARMS MODEL HP22A SEMI-AUTO PISTOL** serial #4227296, 22 LR, 3" barrel with an excellent bore. The metal surfaces retain about 98% original dull chrome finish with most of the loss due to flaking at the muzzle. The checkered black synthetic factory grips rate excellent with light handling wear. The pistol includes a single magazine and a leather belt holster marked "CHL" on the belt loop. (1X87857-7S19875) {MODERN} (25/75)
2346. **BELGIAN TOP-BREAK DOUBLE ACTION REVOLVER**, 32 S&W 2 7/8" barrel with a lightly frosted bore. This revolver has no maker markings but is equipped with an unusual manual safety. The metal surfaces retain about 60% blue finish with the grip frame and lower frame worn to pewter with similar wear on the sides of the barrel. The revolver has "4R4" hand-scratched on both sides of the frame along with scattered light scratches, oxidation blemishes and pinprick pitting. The checkered hard rubber grips rate very good with minimal wear but have been painted white. The trigger return spring is broken but timing and lock-up are good and barrel-to-frame fit is tight. (2X87421-38) {C&R} (5/15)
2347. **RUGER NEW MODEL BLACKHAWK DOUBLE ACTION REVOLVER** serial #32-75425, .357 Magnum, 6 1/2" barrel with a bright excellent bore. The metal surfaces retain about 95% original blue, the loss is due primarily to some muzzle wear, scratches and scuffing on the edge of the ejector rod housing and on cylinder and smatterings of surface oxidation; also with a number of scars, scuffs and scratches, the bright-polished sides of the hammer showing light staining. The cylinder is too short for this revolver leaving a large cylinder gap (in excess of .060") and the gun is completely disassembled. The smooth walnut Ruger medallion grips rate about excellent. (1X37721-64D31358) {MODERN} (100/200)
2348. **L.C. SMITH FIELD GRADE SIDELOCK DOUBLE SHOTGUN** serial #FW102684, 12 ga, 28" solid rib barrels choked full and modified with very good bores that exhibit some extremely light pinprick pitting and have a small ding on the left tube. The barrels have toned to an even brown patina having some scattered scratches and light specks of surface oxidation and light pitting primarily near the muzzles. The locks and frame have toned to a tarnished gray-brown patina having a light coating of surface oxidation and generous traces of case-hardened colors in the protected areas. The checkered walnut pistolgrip buttstock rates very good having numerous dings, scratches and a 2" crack on the left side of the triggerguard emanating from the belly of the frame and there are also two 2 1/2" cracks emanating from the upper tang to the right lock. The checkered walnut forend rates near excellent displaying just a few light handling marks. Both stocks appear to have a lightly added varnish. The buttstock is fitted with a plain grooved hard rubber buttplate that has a chip missing on the upper left side; it provides a length of pull of 14" with drops of 1 1/2" and 2 3/4". The gun features double triggers, automatic safety and extractors. The gun functions well mechanically and should perform well afield. (177802-4) {C&R} (400/600)
2349. **ERRASTI 7.65 MODEL SEMI-AUTO PISTOL** serial #40440, 32 ACP, 2 1/2" barrel with an excellent bore. The metal surfaces retain a small amount of original nickel finish and have mostly faded to a brown patina. Both slide and frame have factory foliate and geometric line border engraving. No grips or magazine are present. Pistol has been completely disassembled, and it is not known if all parts are present. (1X47666-155) {C&R} (10/20)
2350. **HASKELL JS-45 SEMI-AUTO PISTOL** serial #018223, 45 ACP, 4 1/2" barrel with an excellent bore. The metal surfaces retain about 60% of their original black enamel type finish with moderate wear, scratches and other handling marks along the bearing surfaces. The checkered composite grips rate excellent. A single detachable magazine is included. Pistol has been completely disassembled and it is not known if all the parts are included. This is the early variation of the common Hi-Point model with the same designation. Haskell also produced pistols for Hi-Point during production. (1X47666-128) {MODERN} (40/60)
2351. **CHINESE MODEL 21 BOLT ACTION RIFLE** serial #165864, 8mm Mauser, 23" barrel with a dark poor, pitted bore. The metal surfaces have turned a dull gray patina with oxidation staining scattered throughout with the buttplate showing the heaviest. The stock rates fair with several dings, abrasions, chips and bruises throughout. The butt has a 2" chip missing at the toe, and the handguard has a tight 6" crack at front and two large 2" cracks at rear. The large cracks were previously repaired and that repair has come undone with the rear of the handguard showing movement. The trigger is bent and the serial numbers are mismatched. The bolt requires a great amount of extra force both to close and open and it may be incorrect for the rifle. No cleaning rod is included and there is an import mark on the end of the barrel. A salty example that will make a good wall hanger. (207787-4) {C&R} (25/75)
2352. **PERCUSSION HALFSTOCK SPORTING RIFLE BY FOLSTAD** .36 cal., 33 1/8" octagon barrel with a very good bore having light oxidation within the grooves. The iron surfaces have a dark brown and gray patina with scattered fine oxidation with moderate oxidation at the breech and bolster, the top of the barrel is marked "J.Folstad \*". The brass double forward spur triggerguard, pendulum patchbox and hardware are a lightly mellowed goldenrod with a few light impact marks and patches of tarnish. The maple half stock rates about very good having nice fiddleback with a 6 1/2" thin crack in the left stock flat and a smaller repaired crack above the bolt, a 3/4" chip between the hammer and bolster where the lock was fitted, it also looks like the front tip of the lock was removed to aid in fitting the lockplate along with long thin drying marks at the buttplate. The buttplate is a bit proud of the wood and the nose cap is no longer present. The tailpipe is made of brass, the two ramrod pipes are iron replacements and the two piece ramrod rib appears to have been added at a later time. The barrel is sighted with a simple V-notch rear sight and a long thin blade German silver front sight mounted on a 1 1/2" rectangular brass dovetail. The barrel was mistakenly mounted off-center of the frame forcing the shooter to aim to the left and a short brass tip iron ramrod is present. An interesting modified half-stock that should make a good conversation piece or wall hanger. (1X57535-7) {ANTIQUÉ} (200/400)
2353. **PERCUSSION FULL STOCK SPORTING RIFLE BY CONESTOGA RIFLE WORKS** .50 cal., 35" octagonal barrel with an oxidized and pitted bore. The metal surfaces are predominately a brown patina with scattered dents and scratches especially around the breech end of the barrel. The lock is a dark smoky gray patina with hammer mostly a lighter gunmetal gray. The brass furniture has turned to a pleasing golden ocher patina. The lock and the barrel are both marked "Conestoga Rifle Works Lancaster PA". The hardwood stock rates good overall with a thin 3" crack through the wrist and long repairs approximately 16" from the muzzle along the barrel with a few light handling marks and marks from being cleaned. Some of the stock pins and hardware are modern replacements and do not fit the wood properly. The lock still functions but the brass tipped wooden ramrod is obviously not correct and is short. These rifles were reported to be economy rifles for the local trade marketed by Henry Leman under his trade name Conestoga Rifle Works. (1X57535-6) {ANTIQUÉ} (100/200)
2354. **UNMARKED BACK ACTION PERCUSSION HALFSTOCK FOWLER** About 12 bore, 42" round barrel with a dark bore. The iron surfaces are an overall pale brown and gray patina with some scattered fine oxidation, moderate on the bolster and hammer shroud and a handful of tiny impact marks behind the single bead front sight and some slight discoloration and solder where the iron ramrod pipe has been attached. The walnut stock rates about very good with a few thin cracks in both sides at the buttplate, a thin crack in the corner at the lock bolt, the rear of the lockplate and a thin 2 1/2" chip and crack in the left forend. The stock has numerous light handling marks and the forend tip has been shortened to 28 1/2" from the muzzle, has been roughly rounded and is darker than the rest of the stock. The brass triggerguard, buttplate and tail pipe have an ochre patina with light pitting and impact marks in the buttplate and a latter brass tipped wooden ramrod is included. The hammer is loose but functional and part of the hammer skirt is chipped and missing. (1X57674-21) {ANTIQUÉ} (20/40)

2355. **SPANISH 1893 BOLT ACTION RIFLE (SPORTERIZED)** serial #RE1846, 7mm Mauser, 29" barrel with a very good bore that shows some minor pitting near muzzle. The metal surfaces retain 85% arsenal blue with oxidation on floorplate and buttplate, fading on barrel and silvering on floorplate. The cutdown stock rates very good as lightly cleaned with a few handling marks, dings and a 1" repaired crack at tang. The bent bolt and all other numbered parts are matching and the rifle is sighted with a Swift 4-12x40 scope with a crosshair reticle. The scope tube retains 98% original blue and the optics are crisp and clear. An interesting sporterized Mauser that will likely shoot very well once the headspace is checked. (1X207711-22) {MODERN} (100/200)
2356. **MOSSBERG MODEL 185D BOLT ACTION SHOTGUN** 20 ga, 26" plain barrel choked improved cylinder having a bright excellent bore. The metal surfaces have toned to a brown patina and display a moderate coating of surface oxidation. The bolt body has toned to a dull gray and displays moderate surface oxidation. The smooth walnut Monte Carlo stock rates very good plus displaying just a few light dings and scratches. The buttstock is fitted with a hard rubber recoil pad which has some chips missing. (1X177249-151) {C&R} (25/75)
2357. **WINCHESTER MODEL 1911 SEMI-AUTO SHOTGUN TWO BARREL SET** serial #20205, 12 ga, 26" nickel steel plain barrel choked cylinder having a very good bright bore with a few very light specks of surface oxidation. The barrel retains 75% original blue finish having moderate scratches and surface oxidation and loss due to operational use. The second barrel is a 12 ga, 26" nickel steel plain barrel choked full having a very good bore with some light oxidation. The barrel retains 70% original blue having some light surface oxidation and light pitting. The receiver retains 75% original blue finish having some scattered surface oxidation. The smooth walnut pistolgrip buttstock rates very good displaying some light scattered dings and handling marks. Both forearms rate very good having a few cracks emanating from the frame. The buttstock is fitted with an added hard rubber recoil pad which provides a length of pull of 14". (1X177470-13) {MODERN} (200/400)
2358. **HUNGARIAN M95/30 BOLT ACTION CARBINE** serial #9154E, 8x56mm, 19" barrel with a very good bore that shows some scattered frosting in the grooves. The metal surfaces of this Budapest-marked carbine show oxidation throughout with scattered areas of arsenal blue. The stock rates good with an added varnish finish, a couple 4" cracks at rear of grasping rooves, scattered handling marks, stains, scratches and dings. The stock is matching to receiver and the bolt and other parts appear unnumbered. The stacking swivel appears slightly bent and overall this is a good project gun. (1X207837-11) {C&R} (15/30)
2359. **BRITISH NO. 4 MK 1 ENFIELD (SPORTERIZED)** serial #BB14806, 303 British, 25" barrel with a bright excellent bore. The metal surfaces retain 90% arsenal applied parkerized finish with even thinning on barrel and in the receiver area and silvering at muzzle. The cut-down walnut stock rates very good with an added oil finish, several dings and handling marks and an "FR" marking on right side of butt. The bolt number is matching to wrist serial number and there are four added holes on left side of receiver. The front sight ears are intact and a reproduction canvas Enfield sling is included. An interesting sporterized Enfield overall. (1X207849-53) {MODERN} (100/200)
2360. **SAVAGE MODEL 755A SEMI AUTO SHOTGUN** serial #581816, 12 Ga, 20" shortened plain barrel unchoked, with an excellent bore. The barrel retains 98% reapplied black enamel finish while the receiver retains 98% original blue with oxidation on triggerguard and scroll engraving. The walnut stock rates near very good with an added varnish finish, handling marks, finish loss, scratches, dings and a 2 1/2" crack on right side of butt. The stock is equipped with a loose fitting Gunpad recoil pad which shows scratches and wear throughout. The barrel has an amateurishly added permanently affixed breaching device. An interesting shotgun overall. (1X207666-9) {MODERN} (50/100)
2361. **ITHACA FIELD GRADE BOXLOCK DOUBLE SHOTGUN** serial #342184, 12 ga, 30" solid rib barrels choked full and improved modified having very good lightly pitted bores. The barrels have toned to a gray brown patina having some scattered oxidation stains. The boxlock frame has toned to a silvery brown patina. The checkered walnut pistolgrip buttstock rates very good as refinished long ago displaying some dings and scratches. The grip cap and buttstock shows some light chips. The checkered walnut forend rates very good displaying just a few light dings. The barrels crossbolt locking lug is broken from the rear of the barrels but is still present. The gun features double triggers, automatic safety and extractors. (1X177592-85D31081) {MODERN} (100/200)
2362. **BELGIAN NEW IMPROVED NEW CENTURY RIFLE** serial #91813, .22 RF, 18" barrel with a lightly pitted and frosted bore. The metal surfaces have toned to an even gray-brown patina having some lightly scattered pinprick pitting. The smooth walnut straight grip buttstock rates very good as refinished displaying just a few light dings; the left side of the stock is stamped "REGISTERED TRADE-MARK". The gun will require mechanical attention as the bolt is not present. (1X177712-13) {C&R} (10/20)
2363. **CRESCENT ARMS MOHAWK SLIDE ACTION SHOTGUN** serial #1898, 12 ga, 30" solid rib barrel choked full having a good pitted bore. The metal surfaces have toned to a dark oxidized brown patina while the frame exhibits some light silvering; the frame is missing a screw. The checkered walnut pistolgrip buttstock rates very good displaying scattered dings and scratches over a dark varnish. The grooved forend rates very good displaying a few dings. The buttstock is fitted with a hard rubber buttplate which has chipped on the toeline. (1X177249-100) {C&R} (10/20)
2364. **MARLIN MODEL 1898 SLIDE ACTION SHOTGUN** serial #63977, 12 ga, 21" shortened barrel, un-choked having a very good bore with light pitting present. The barrel, which is numbered to a different gun, has toned to a dull brown patina having scattered specks of surface oxidation and stains. The receiver has toned to a light gray patina having some scattered brown freckles and silvering on the edges. The smooth walnut pistolgrip buttstock rates very good displaying just a few light dings and scratches along with a 1/4" x 1" sliver removed from the right side of the upper tang. The grooved walnut forend rates very good displaying just a few light dings. The stock is fitted with a Pachmayr hard rubber recoil pad. (1X177249-67) {MODERN} (50/100)
2365. **STEVENS NO. 27 FALLING BLOCK RIFLE** serial #N772, 22 Long, 24" octagon barrel with a very good lightly frosted bore. The barrel retains about 40% original blue which is toning to a brown patina having scattered specks of surface oxidation and the high edges exhibit some silvering. The frame displays a silvery gray patina which exhibits some moderate surface oxidation. The smooth walnut straight grip buttstock rates very good displaying some light handling marks and having a 2" chip on the toe line with a thinning varnish. The smooth walnut forend rates very good displaying dings and scratches. The stock is fitted with a hard rubber buttplate which displays a chip on the toeline. Rifle is fitted with its original sights. (1X177682-18) {C&R} (100/200)
2366. **REMINGTON MODEL 11-A SEMI-AUTO SHOTGUN** serial #198484, 12 ga, 28" plain barrel choked full having a bright excellent bore. The metal surfaces retain 90% added matte blue finish displaying some scattered scratches, rub marks and speck of surface oxidation. The smooth walnut pistolgrip buttstock rates about very good as refinished long ago, displays some dings and shows a 3" with-the-grain crack on the right side emanating from the receiver. The smooth walnut forend rates about very good displaying four with-the-grain full length drying cracks, that do not appear to flex. The buttstock is fitted with its original hard rubber buttplate. (1X177682-35) {C&R} (100/200)
2367. **ESCORT MARINE GUARD SLIDE ACTION SHOTGUN** serial #240610, 18 1/2" barrel with a bright excellent bore. The matte stainless steel surfaces rate excellent displaying just a few light to moderate handling marks. The checkered black synthetic pistolgrip buttstock rates excellent displaying just a few light handling marks. Included is the original box and manual. A great marine slide action shotgun. (1X177789-20) {MODERN} (75/150)

2368. **JAPANESE TYPE 99 ARISAKA BOLT ACTION RIFLE BY TOYO KOGO** serial #17543, 7.7 Arisaka, 25" barrel with a poor oxidized bore. The metal surfaces of this 35th series rifle have turned a dull brown patina with oxidation on floorplate, triggerguard, lower tang and receiver. The stock rates good plus with scattered handling marks, dings and two cracks at wrist. The initials "CC" are inscribed on the right side on the stock underneath the receiver. The serial numbers are mismatched and the cocking knob, firing pin and spring are missing. The Chrysanthemum has been ground as well. A salty Last Ditch Arisaka overall. (2X207712-20) {C&R} (15/30)
2369. **SYRACUSE ARMS COMPANY BOXLOCK DOUBLE SHOTGUN** serial #2447, 12 ga, 28" Damascus matted rib barrels choked full and full with very good bores having just a few light pits. The barrels have toned to a pleasing brown patina having a strong damascus pattern with scattered specks of surface oxidation. The frame has toned to a dark brown patina having some light scratches and a few light pits. The smooth walnut round knob pistolgrip buttstock and forend rate very good as refinished long ago having a few light dings and scratches over a glossy lacquer finish. The buttstock is fitted with a hard rubber buttplate which provides a length of pull of 14". The gun features double triggers and extractors. The barrels are slightly off-face and have some light play. (2X177147-209) {C&R} [Terry Buffum Collection] (75/150)
2370. **REMINGTON 1894 BOXLOCK DOUBLE SHOTGUN** serial #121376, 10 ga, 30" damascus matted rib barrels with very good bores having light to moderate pitting their full length. The barrels have toned to a bright pewter patina having some light dings and scattered oxidation and staining present. The boxlock frame is a bright pewter patina having some scattered light scratches and having some oxidation stains present. The checkered round knob pistolgrip buttstock rates about very good displaying numerous dings and scratches along with having two repair pins above the wrist from two cracks emanating from the upper tang, a crossbolt repair through the cheeks that have been filled with wood filler, there is also a 2" repair on the right side cheek. The splinter forend rates good plus displaying moderate to heavy dings having some edge wear and chipping. The buttstock is fitted with an added Pachmayr recoil pad which provides a length of pull of 14". This shotgun was once fitted with ejectors leaving the barrel flats bare from some parts. A very good gun to bring back to life. (2X177147-210) {MODERN} [Terry Buffum Collection] (300/500)
2371. **ITHACA FIELD GRADE BOXLOCK DOUBLE SHOTGUN** serial #275537, 12 ga, 28" matted rib barrels choked modified and full with bright excellent bores. The barrels retain 99% reapplied blue finish. The frame has toned to a dull pewter-brown patina with strong traces of original case-hardened color here and there. The checkered pistolgrip roundknob buttstock and splinter forend rate very good with some light dings and handling marks as well as some added finish. The length of pull to the black plastic buttplate is 14 1/4" with drops of 1 7/8" and 3 1/4". (3X157053-6) {C&R} (275/375)
2372. **LEFEVER SIDELOCK G GRADE DOUBLE SHOTGUN** serial #47236, 12 ga, 30" matted rib barrels choked full and improved cylinder with very good bores having light pitting throughout. The barrels have been cleaned to a dark patina displaying a poorly re-blued finish leaving a streaked finish and some scattered specks of surface oxidation and a few light dings. The sidelocks and frame retain 80% of their added finish having some edge wear and some scattered surface oxidation. The checkered walnut pistolgrip buttstock rates very good as refinished displaying a few light dings with moderate sanding marks. The forend rates very good as refinished having some rough sanded edges; the forend metal has been refinished and displays moderate pitting. The buttstock is fitted with an added white line recoil pad which provides a length of pull 14 1/4". The gun features double triggers, cocking indicators and extractors. (2X177147-206) {MODERN} [Terry Buffum Collection] (200/400)
2373. **HARRINGTON & RICHARDSON MODEL 765 PIONEER BOLT ACTION RIFLE** serial #26502, 22 S,L,LR, 24" barrel with a bright excellent bore. The metal surfaces retain 40% original blue toning toward brown with multiple minor handling marks and a little light oxidation. The walnut pistolgrip stock rates good with multiple dings and scratches, a couple of chips in the butt and a chipped buttpad. The triggerguard, loading platform and sights are not present. (1X127712-19) {MODERN} (20/40)
2374. **WARDS WESTERN FIELD NO. 47 BOLT ACTION RIFLE** 22 S,L,LR, 21" barrel with an about excellent bright bore. The metal surfaces are polished to gray with some light oxidation present and a few remnants of blue here and there. The hardwood pistolgrip stock with finger grooved forend has been cleaned leaving the metallic buttplate slightly proud of the wood and showing scattered specks of splatter and multiple light handling marks. The barrel on this gun has been cut, the receiver has four (possibly added) drilled and tapped holes, and the bolt is missing. (1X127722-18S19463) {MODERN} (5/10)
2375. **SAVAGE FOX STERLINGWORTH BOXLOCK DOUBLE SHOTGUN** serial #81017, 12 ga, 28" matted rib savage barrels choked improved modified and modified with bright excellent bores. The barrels retain 95% professionally added blue finish having just a few light handling marks along with a few rub marks. The boxlock frame displays a simple border engraving and has tarnished to a dull pewter patina. The checkered walnut pistolgrip buttstock and forend rate very good as refinished displaying just a few light handling marks and worn checkering; there has been an added 1 1/4" piece of walnut to the butt. The buttstock is fitted with a hard rubber recoil pad which provides a length of pull of 14". The gun features double triggers, extractors and an automatic safety. The gun functions well mechanically and lockup is tight. (2X177402-13) {MODERN} (175/275)
2376. **J.C. HIGGINS MODEL 42 BOLT ACTION RIFLE** 22 S,L,LR, 22" barrel with a bright excellent bore. The metal surfaces retain 97% original blue with some minor toning toward gray and some scattered light oxidation. The pistolgrip hardwood stock rates very good with multiple light handling marks and large areas of a flaking/worn finish. (1X127666-29) {C&R} (25/75)
2377. **REMINGTON MODEL 12 SLIDE ACTION RIFLE** serial #100979, 22 S,L,LR, 22" barrel with a good bore showing some light to moderate pitting. The metal surfaces are primarily gray and brown with some remnants of original blue still present and spotty light oxidation throughout. The walnut stock and forearm rate good to very good with a couple of chips, a small repair and several minor handling blemishes. The bolt and other small parts are missing from the action and the buttplate is not present. (1X127712-24) {MODERN} (50/100)
2378. **SAVAGE MODEL MARK IY BOLT ACTION SINGLE SHOT RIFLE** serial #435834, 22 S,L,LR, 19" barrel with a bright excellent bore. The metal surfaces retain 95-97% original blue with spots of oxidation and some light to moderate pitting. The hardwood pistolgrip stock rates near excellent with a few minor handling blemishes. This youth rifle appears to have seen light use. (1X127857-15S19870) {MODERN} (25/75)
2379. **SEARS & ROEBUCK TED WILLIAMS SINGLE SHOT SHOTGUN** serial #552861, 12 Ga, 30" plain barrel choked full with an excellent bore. The metal surfaces of this Brazilian made shotgun retain 90% original blue with some scattered freckling and fading on the barrel. The walnut stock and forend rate about good with some added varnish, scuff marks, handling marks and a 3" crack on left side of wrist. The connector between the forend and receiver is missing and a large part of the plastic buffer has also broken off. The shotgun has an added sling swivel at butt and a Williams clamp on sling swivel on barrel. A camouflage soft case is included. A good project or parts donor shotgun. (1X207857-29S19986) {MODERN} (10/20)
2380. **SAVAGE MODEL 775A SEMI-AUTO SHOTGUN** serial #252588, 12 ga, 24" plain barrel, poly-choked, with a bright excellent bore. The barrel retains 85-90% evenly thinning original blue finish displaying some light scratches and having scattered specks of surface oxidation. The alloy frame is etched in game scenes and scroll and exhibits about 95% original blue finish. The checkered walnut pistolgrip buttstock and forend rate very good displaying just a few light handling marks along with some spilled varnish that has dripped onto the stock. (1X177857-39S19999) {MODERN} (75/150)

2381. **DAVIS WARNER BOXLOCK DOUBLE SHOTGUN** serial #E9865, 12 ga, 29" shortened solid rib barrels choked full and improved cylinder with very good bright bores. The barrels retain 85% original blue finish displaying some scattered scratches and specks of surface oxidation and displaying a brown patina around the surfaces of the breech ends. The boxlock frame retains 45% case-hardened colors with the balance toning to a dark brown patina. The checkered walnut round knob buttstock and forend rate very good displaying scattered dings and scratches over a reapplied varnish. The length of pull to the added hard rubber buttplate is 13 1/2". The gun features double triggers, automatic safety and extractors. (1X177732-3) {C&R} (100/200)
2382. **E&L AMERICAN 180 SEMI AUTO RIFLE** serial #V-1125, 22 LR, 18" barrel with an excellent bore. The metal surfaces retain 99% original matte blue and the walnut stock and forend rate about excellent displaying a few light handling marks and dings. This is a semi-automatic clone of the American 180 submachine gun and this rifle includes four drum magazines, a reloading stand and instruction sheet for the loading stand is also included. A very neat and unique firearm that will be sure to turn some heads at the range. (208010-6) {MODERN} (800/1200)
2383. **NAZI ISSUED BERETTA MODEL 1935 SEMI AUTO PISTOL** serial #553532, 32 ACP, 3 1/2" barrel with an excellent bore. The metal surfaces of this 1944 vintage pistol retain 95% original phosphate with some light silvering and oxidation staining on the exposed edges and silvering on front and backstrap. The "PB" marked grips rate very good showing scattered scratches, dings and handling marks. The slide and frame are matching and left rear of slide is marked with a "4/UT" indicating acceptance by the Italian Social Republic, a puppet Nazi government. This pistol includes two magazines and a brown leather holster in very good condition with scratches, flaking and a large dent on top left of flap. Also included with this pistol is a Beretta factory letter that confirms that this pistol was sold to the German Army on October 31st, 1944. A nice example of a late war Beretta pistol. (207879-320) {C&R} [Craig Brown Collection] (300/500)
2384. **RHODE ISLAND ARMS MORRONE OVER UNDER SHOTGUN** serial #153, 12 Ga, 28" plain improved & modified barrels with bright excellent bores. The metal surfaces retain 97% original blue with light fading on barrels, receiver area and lower tang. The walnut stock rates very good with the butt being shortened to accommodate a recoil pad, scattered flaking, dings, handling marks and scratches. The Pachmayr recoil pad shows some paint staining but rates very good plus and it gives the gun a 13 1/2" length of pull. The gun features a non-automatic safety, single trigger and extractor. The gun functions well mechanically but the top-lever is slightly off-center and the barrels lock a bit loose. An interesting vintage shotgun that may perform well at the trap or skeet range. (207942-21) {MODERN} (300/500)
2385. **GERMAN GEW 88/05 "COMMISSION" BOLT ACTION RIFLE BY SPANDAU** serial #1140b, 8mm Mauser, 29" barrel with a very good bore that shows some scattered light pitting. The in-the-white bolt, buttplate and receiver of this 1891 vintage rifle show scattered oxidation staining and light pitting. The blued surfaces show an arsenal blue finish that have turned a dull brown patina with scattered freckling, light pitting, a couple minor dents on barrel and some blued-over areas of pitting on barrel. The hardwood stock rates very good as lightly cleaned with an armory added oil finish, flaking oil finish, some abrasions and chips on butt, scattered dings, further abrasions, scratches and partially faded Imperial cartouches. The serial numbers are mismatched, the receiver is "S" marked, the receiver has been updated for stripper clips and there is a unit marking on the rear band which reads "Ldst. II St. 5.18". The rifle has no import markings, there is no Crescent moon marking but a couple of the rear sight numbers look to have over-stamps which be in Farsi indicating possible Turkish use. An unmarked correct muzzle cap and an original leather sling with crazing throughout and it appears to be marked "JS". A solid Commission rifle that may prove to be a good shooter. (207879-225) {ANTIQUÉ} [Craig Brown Collection] (200/400)
2386. **FEATHER INDUSTRIES AT-22 SEMI AUTO RIFLE** serial #B5118, 22 LR, 17" barrel with an excellent bore. The metal surfaces retain 95% original blue with a couple medium sized areas of oxidation on left side of barrel and some scattered light silvering scratches on the collapsible wire stock and receiver area. The polymer frame and pistol grip rate near excellent with a few light handling marks. This rifle includes a single 20 round magazine. A neat rimfire rifle overall. (208010-1) {MODERN} (200/400)
2387. **HARRINGTON & RICHARDSON DEFENDER DOUBLE ACTION REVOLVER** serial #6564, 38 S&W, 4" barrel with an excellent bore. The metal surfaces retain 95% original blue with some silvering spots on barrel and freckling on frontstrap and triggerguard. The hard rubber grips rate good showing stains throughout, what appears to be the remnants of a sticker on bottom and scattered dings and handling marks. The right side of barrel is marked "38 S&W CTGE" and the left side of barrel is marked "DEFENDER 38". A very good plus example of an interesting H&R revolver. (208021-7) {C&R} (150/300)
2388. **SAVAGE 1917 SEMI AUTO PISTOL** serial #241412, 32 ACP, 3 3/4" barrel with an excellent bore. The metal surfaces have turned a dull gray patina with scattered freckling and the case on trigger and hammer have faded showing scattered oxidation staining. The "Savage Quality" marked hard rubber grips rate very good showing scattered dings, light chips, scratches and handling marks. No magazine is included with this pistol. A solid Savage 1917 that may prove to be a good shooter once a correct magazine is obtained. (207958-13) {C&R} (150/250)
2389. **SMITH & WESSON VICTORY MODEL DOUBLE ACTION REVOLVER** serial #V14334, 38 S&W, 3 1/2" shortened barrel with a very good bore that shows scattered frosting. The metal surfaces retain 90% reapplied nickel with scattered freckling on the right side of frame, oxidation on grip and some scattered scratches. The smooth walnut grips rate very good with a 1/2" chip on right panel near screw hole, a few scattered smaller chips, dings, scratches and handling marks. The grips are mismatched but all of the metal parts are matching and the revolver includes a modern blue S&W hard case very good condition with light wear. A neat modified Victory Model overall. (208002-160) {MODERN} [Charles Hadley Collection] (200/300)
2390. **JAGER AP-74 SEMI AUTO RIFLE** serial #57208, 22 LR, 20" barrel with an excellent bore. The metal surfaces of this M16 lookalike retain 95% original enamel with scattered flaking on the magazine well, upper and lower receiver and some fading along the barrel. The black synthetic pistol grip, handguard and buttstock rate very good showing scattered scuff markings, scratches, dings and handling marks. Included with this rifle is a single 15 round magazine. A neat retro-style M16 rimfire clone. (208010-8) {MODERN} (200/300)
2391. **WALTHER MODEL 5 SEMI AUTO PISTOL** serial #627, 25 ACP, 2 1/4" barrel with an excellent bore. The metal surfaces retain 95% original blue with scattered light freckling. The "W" marked grips rate very good showing light wear, scratches dings and handling marks. The frame and slide are matching and the pistol is marked with "(Crown)/N" proofs. Included with the pistol are two magazines in very good condition and a Bucheimer 14C-1HS inside-the-waistband holster in near excellent condition. An excellent condition early Walther pistol. (208014-14) {C&R} (250/450)
2392. **BERETTA 1934 SEMI AUTO PISTOL** serial #F35062, 380 ACP, 3 1/2" barrel with a very good bore that shows scattered light pitting and frosting. The metal surfaces of this "RE" marked pistol retain 90% reapplied nickel with scattered oxidation on the slide and frame and silvering scratches throughout. The "PB" marked hard plastic grips rate very good showing scattered dings and handling marks and there is the remnants of a piece of cellophane tape on backstrap. The slide and frame are matching and a single unmarked magazine that has turned a dull brown patina and shows oxidation and silvering throughout is included. An interesting World War Two era Beretta overall. (208002-155) {C&R} [Charles Hadley Collection] (150/250)
2393. **ITHACA MODEL 37 FEATHERLIGHT SLIDE ACTION SHOTGUN** serial #726745, 12 Ga, 28" plain choked modified barrel with a very good bore that shows some scattered light oxidation. The metal surfaces retain 95% original blue with some operational wear on magazine tube and scattered freckling on receiver and barrel. The walnut stock and forend rate good with some added varnish, a 2" crack on left side of pistol grip, scattered flaking varnish, scratches, dings and handling marks. The shotgun is fitted with an Ithaca rubber recoil pad that shows a couple abrasions and it gives the shotgun a 14" length of pull. A solid Ithaca 37 that may be great field. (208047-29D31952) {C&R} (200/300)

2394. **V. BERNADRDELLI STANDARD MODEL SEMI AUTO PISTOL** serial #4425, 22 LR, 3 1/2" barrel with an excellent bore. The metal surfaces retain 95% original blue with scattered silvering and some scattered oxidation on the left side of slide. The walnut thumbrest grips rate very good with some added varnish finish, scattered dings, scratches and handling marks. A single unmarked magazine in excellent condition is included with this pistol. (208021-9) {MODERN} (75/150)
2395. **SMITH & WESSON 2ND MODEL TIP UP DOUBLE ACTION REVOLVER** serial #16966, 32 S&W (Short), 2 7/16" shortened barrel with a good bore that shows scattered oxidation and light pitting. The metal surfaces retain 97% reapplied nickel with some oxidation at rear of barrel, silvering on cylinder and oxidation on trigger. The unnumbered factory grips rate very good showing a few handling marks, scratches and dings. An interesting revolver overall. (208002-148) {ANTIQUÉ} [Charles Hadley Collection] (100/200)
2396. **JAGER AP-74 SEMI AUTO RIFLE** serial #30697, 22 LR, 20" barrel with a bright excellent bore. The metal surfaces of this Italian made M16 style rimfire rifle retain 98% original enamel and the hardwood stock, pistol grip and handguard rate near excellent retaining much of their original varnish, a 1/3" chip on toe, scattered handling marks, scratches and dings. This rifle includes an aftermarket black leather sling in excellent condition and a factory 15 round magazine in very good plus condition. A neat M16 style rimfire rifle sure to appeal to the retro AR enthusiast. (208010-12) {MODERN} (100/200)
2397. **SMITH & WESSON 32 SAFETY FIRST MODEL DOUBLE ACTION REVOLVER** serial #28548, 32 S&W, 3 1/2" barrel with a fair bore that shows oxidation throughout much of its length. The metal surfaces retain 75% original nickel with scattered flaking and oxidation staining, while the triggerguard and trigger have turned a dull gray patina with oxidation staining throughout. The hard rubber S&W grips rate very good plus showing a few light dings and handling marks. The top latch and the cylinder are both correctly matching numbered to the gun and one of the right-side screws exhibits minor slot damage. A solid example overall. (208007-17) {C&R} (150/300)
2398. **FN MODEL 1900 SEMI AUTO PISTOL** serial #72599, 32 ACP, 4" barrel with an excellent bore. The metal surfaces retain 75-80% original blue with fading throughout and some scattered silvering and oxidation staining and the trigger retains much of its fire blue but it shows scattered oxidation. The right grip panel is missing but the left grip panel rates very good showing some chipping near screw hole, some flattening points and dings. All serial numbers are matching and an unmarked magazine in very good condition and an unmarked pebbled leather holster in very good plus condition are included. A solid FN 1900 Browning pistol that may still make a great carry gun. (207938-4) {C&R} (200/300)
2399. **STERLING ARMS 25 AUTO SEMI AUTO PISTOL** serial #032343, 25 ACP, 2 1/2" barrel with a very good plus bore. The metal surfaces retain 93% original blue with scattered spots of surface oxidation and the hard plastic "SA" marked grips rate very good plus with a few light handling marks and dings. No magazine is included with this pistol. (207908-1) {MODERN} (50/100)
2400. **NORTH AMERICAN ARMS NAA-22 SINGLE ACTION REVOLVER** serial #D86842, 22 Magnum, 1 3/4" barrel with an excellent bore. The stainless metal surfaces rate about excellent with some minor staining on hammer, scattered scratches and handling marks. The walnut grips rate near excellent with a few light scratches and handling marks. This revolver includes a wooden display case and it is a neat and very compact revolver. (208002-38) {MODERN} [Charles Hadley Collection] (100/200)
2401. **WINCHESTER MODEL 1911 SEMI AUTO SHOTGUN** serial #32049, 12 Ga. 25 1/2" plain full choked barrel with a near excellent bore. The metal surfaces have turned a dull gray patina with scattered traces of original blue, silvering and oxidation staining and light pitting throughout. The walnut stock and forend rate good plus with the stock being shortened to accommodate a recoil pad, added varnish finish, a 4" crack on right side of forend, scattered flaking varnish with heavy flaking on the butt, dings, handling marks and scratches. The Pachmayr red recoil pad shows flaking, dings and chips and it gives the shotgun a 14 1/4" length of pull. A well-used "Widowmaker" shotgun overall. (207951-77) {MODERN} [Tweed Herendeen Collection] (100/200)
2402. **SAVAGE MODEL 19 NRA MATCH BOLT ACTION RIFLE** serial #28248, 22 LR, 25" barrel with an excellent bore. The metal surfaces have turned a dull gray patina with some freckling on triggerguard and scattered small areas of oxidation staining. The walnut stock rates very good showing a few scattered dings and handling marks. The barrel is marked "NRA/MATCH RIFLE" and there is a small 1/4" added hole on barrel with a flat head screw. There is an added sling hole on the underside of butt and the rifle has the base for a Lyman peep sight but it lacks the top half of the sight. The rifle is sighted with a Bushnell Sportview 3-7x20mm scope that has a duplex reticle and clear optics. The scope is mounted on a left side mount and the tube retains 95% original blue with scattered fading. A neat vintage rimfire rifle that may prove to be a good plinker. (207951-168) {MODERN} [Tweed Herendeen Collection] (75/150)
2403. **REMINGTON 7400 SEMI AUTO RIFLE** serial #8088187, 30-06, 23" barrel with a very good bore that shows a few small pits half-way down. The metal surfaces retain 97% original blue with scattered freckling on the receiver. The walnut stock and forend rate excellent with a few minor areas of flaking of the factory varnish and some light handling marks. The pistolgrip cap is missing and the rifle is equipped with a scope mount and open sights. A near excellent 7400 that will likely be great in the fall woods. (207878-2) {MODERN} (200/400)
2404. **WINCHESTER MODEL 1911 SEMI AUTO SHOTGUN** serial #76827, 12 Ga, 27 1/2" plain full choked barrel with an excellent bore. The metal surfaces have turned a dull gray patina with scattered oxidation staining and an area of pitting on rear sight groove. The walnut stock and forend rate good with the butt being shortened to accommodate a red Pachmayr recoil pad and giving the shotgun a 13 1/4" length of pull. The stock also shows an added varnish, a couple small cracks at heel, a 5 1/2" crack on right side of forend, scattered flaking varnish, a few abrasions, dings, scratches and handling marks. An interesting shotgun overall. (207951-76) {MODERN} [Tweed Herendeen Collection] (100/200)
2405. **REMINGTON NO. 4 FALLING BLOCK RIFLE** serial #175216, 25 RF, 22 1/2" barrel with a good plus bore that shows scattered pitting and oxidation but strong rifling. The barrel's metal surfaces have turned a dull brown patina with scattered oxidation staining and some added enamel finish along its length. The frame, hammer and triggerguard area have turned a dull brown patina showing oxidation staining and a couple spots of some enamel. The buttplate shows oxidation throughout and the hardwood stock and forend rate very good with an added varnish finish, a couple small chips, a 1" crack at upper tang, flaking varnish throughout, scattered dings, scratches, stains and handling marks. A neat single shot Remington rifle. (207951-144) {C&R} [Tweed Herendeen Collection] (200/300)
2406. **EXCAM GT-27 SEMI AUTO PISTOL** serial #M131924, 25 ACP, 2 1/2" barrel with an excellent bore. The metal surfaces retain 95% original blue and phosphate with silvering and freckling to the exposed edges. The hard plastic checkered grips rate very good showing light dings and handling marks. A single magazine is included with this pistol. (208021-6) {MODERN} (50/100)
2407. **MOSSBERG 185-KB BOLT ACTION SHOTGUN** 20 Ga, 26" plain polychoked barrel with a very good bore that shows a minor area of pitting near muzzle. The metal surfaces show a balance between freckling and the original blue. The hardwood stock rates very good showing some added oil finish, scattered dings and handling marks and the rubber butt pad shows scattered dings, scratches and handling marks and a single magazine is included. (207902-1) {MODERN} (50/100)
2408. **COLT FOURTH MODEL DERRINGER SINGLE SHOT PISTOL** serial #61547D, 22 Short, 2 1/2" barrel with an excellent bore. The metal surfaces retain 95% original nickel with some scattered silvering and oxidation staining. The walnut grips rate very good showing some added varnish, stains, scattered flaking, dings, scratches and handling marks. This pistol includes an original Colt pocket leather holster in about excellent condition. A neat modern Derringer that may make a good shooter. (208002-13) {MODERN} [Charles Hadley Collection] (50/100)

2409. **STEVENS MODEL 15 DREADNAUGHT SINGLE SHOT SHOTGUN** serial #740, 12 Ga, 30" plain full choked barrel with a very good plus bore. The metal surfaces have turned a dull brown patina with scattered frecking and light oxidation. The walnut stock and forend rate good plus with the forend appearing sanded, a 1" crack at upper tang, a 1" crack on right side of butt, scattered chips, dings, scratches and handling marks. The Stevens buttplate shows scratches, dings, wear and a crack throughout its center and the hammer requires a bit of extra force to operate. An interesting shotgun overall. (207951-108) {C&R} [Tweed Heredeem Collection] (50/100)
2410. **UNMARKED BRITISH DOUBLE ACTION REVOLVER** serial #G12E, 44 CF, 4 3/4" barrel with an about very good bore that shows scattered oxidation and pitting but strong rifling. The metal surfaces show a fading blue finish that is turning a dull brown patina with some scattered oxidation staining, pitting and some tool marks on frame. The checkered grips rate very good showing a few handling marks and scratches. The revolver appears similar to the early Webley or Bulldog revolvers and it bears British proof markings on the barrel, cylinder and frame. The cylinder exhibits some play and as with any arm of unknown caliber it is imperative that this arm be checked out prior to firing or loading. An interesting gun and further research may provide proof to its origins. (208047-1D31192) (MODERN) (150/300)
2411. **SAVAGE MODEL 19 NRA TARGET BOLT ACTION RIFLE** serial #45450, 22 LR, 25 1/2" heavy barrel with an excellent bore. The metal surfaces have mostly turned a dull brown patina with the barrel retaining traces of the original blue finish and the remaining surfaces show scattered sparse oxidation spots. The walnut stock rates very good plus with a few scattered dings, handling marks and light stains. There are four added holes on the barrel, two with flat head screws and two without screws and the rifle is sighted with a diopter rear sight and a globe front sight. A solid Savage that will likely shoot very well. (207951-165) {MODERN} [Tweed Heredeem Collection] (150/250)
2412. **ITHACA MODEL 37 DEERSLAYER SLIDE ACTION SHOTGUN** serial #371443609, 12 Ga, 20" plain modified choked barrel with an excellent bore. The metal surfaces retain 90% original blue with scattered silvering, fading and oxidation staining. The walnut stock and forend rate very good as-sanded with scattered dings, scratches and handling marks. The shotgun is sighted with rifle sights and a red blade front sight and an aftermarket nylon sling is included. A very good shotgun that will likely perform well afield. (208048-16S20153) (MODERN) (150/250)
2413. **RAVEN MP-25 SEMI AUTO PISTOL** serial #1044389, 25 ACP, 2 1/4" barrel with a very good bore that shows some scattered oxidation but strong rifling. The metal surfaces retain 98% original nickel with some oxidation staining on triggerguard. The smooth hardwood grips rate very good with a couple small chips, dings and handling marks. A single magazine is included with this pistol. (208021-5) {MODERN} (25/75)
2414. **SAVAGE MODEL 1917 SEMI AUTO PISTOL** serial #240657, 32 ACP, 3 3/4" barrel with an excellent bore. The metal surfaces retain 93% reapplied blue with scattered silvering, freckling and fading. The "Savage Quality" marked grips rate good showing a fading logo, scattered dings, handling marks, chips, scratches and abrasions. An interesting Savage that may prove to be a good shooter. (208002-158) {C&R} [Charles Hadley Collection] (150/250)
2415. **GERMAN P.640 (B) SEMI AUTO PISTOL BY FN** serial #171743, 9mm, 4 5/8" barrel with a near very good bore that shows light pitting throughout but strong rifling. The metal surfaces of this fixed sight and "WaA140" marked pistol retain 97% reapplied nickel with a few scattered small oxidation specks and some oxidation staining in the slide ribs on both sides. The checkered walnut grips rate good with a 1/4" chip at bottom right panel, a 3/4" crack at top of right panel, three other smaller chips, scattered dings and handling marks. All serial numbers are matching and a single renickeled "WaA140" marked magazine in near excellent condition is included. A post war embellished Nazi Hi Power that may prove to be a fun shooter. (208002-161) {C&R} [Charles Hadley Collection] (300/500)
2416. **SAVAGE 1917 SEMI AUTO PISTOL** serial #244255, 32 ACP, 3 3/4" barrel with a very good bore that shows scattered light oxidation and pitting but strong rifling. The metal surfaces retain 97% reapplied nickel with some pitting on safety and scattered oxidation and oxidation staining. The "Savage Quality" marked grips rate very good showing a few scattered dings, minor chips and handling marks. This pistol includes a single unmarked magazine that has turned a dull brown patina. An interesting Savage pistol. (208002-149) {C&R} [Charles Hadley Collection] (100/200)
2417. **STEVENS "FAVORITE" NO. 17 SINGLE SHOT RIFLE** serial #D862, 32 RF, 24" part-octagon part-round barrel with a very good plus bore that shows some scattered minor pitting. The frame, breechblock, lever and trigger have turned a dull gray patina with some scattered tool marks on frame and oxidation staining on lever. The barrel retains 70% original blue with some scattered fading and silvering. The walnut stock and forend rate very good as-cleaned with an added oil finish, some stains, small chips, dings, scratches and handling marks. The stock has a brass buttplate that shows some stains and is amateurishly fitted with glue and the rear sight appears slightly bent. A very good Favorite rifle. (207951-175) {C&R} [Tweed Heredeem Collection] (150/250)
2418. **SMITH & WESSON 32 SAFETY SECOND MODEL DOUBLE ACTION REVOLVER** serial #99258, 32 S&W, 2" barrel with an about very good bore that shows scattered frosting and light pitting. The metal surfaces retain 95% reapplied blue with some fading on cylinder, backstrap and frontstrap and the case-hardened hammer has turned a dull gray patina with scattered oxidation staining. The S&W marked hard rubber grips rate very good showing scattered light dings and handling marks. An interesting revolver that may prove to be a good example piece for the S&W collector. (208002-35) {C&R} [Charles Hadley Collection] (200/300)
2419. **WINCHESTER MODEL 67 BOLT ACTION RIFLE** 22 Short, 27" barrel with a bright excellent bore. The metal surfaces have turned a dull gray patina and show oxidation staining throughout. The walnut stock rates very good with an added dark oil finish, scattered flaking, dings, chips, scratches and handling marks. The hard plastic Winchester buttplate shows staining throughout and the stock is a bit loose. A well-used Model 67. (207951-41) {C&R} [Tweed Heredeem Collection] (50/100)
2420. **WEST GERMAN WALTHER P.38 SEMI AUTO PISTOL** serial #018298e, 9mm, 5" barrel with a bright excellent bore. The slide retains 97% original parkerized finish with scattered silvering to the exposed edges, while the aluminum frame retains 98% black enamel. The hard rubber grips rate very good showing scattered scratches, dings, handling marks and a couple chips. The frame is the only serialized part and it is marked "MADE IN WEST GERMANY" on the left side and "63" on the right side. This pistol includes two magazines and a brown leather holster in a very good plus condition. An excellent post-war P.38 that will likely make a great shooter. (208002-129) {C&R} [Charles Hadley Collection] (300/400)
2421. **GERMAN P.38 SEMI AUTO PISTOL BY SPREWERKE** serial #5620t, 9mm, 5" barrel with an excellent bore. The metal surfaces retain 90% reapplied nickel finish with scattered silvering scratches, oxidation and oxidation staining. The ribbed plastic grips rate very good showing scattered scratches, handling marks and dings. All serial numbers are matching a single magazine that had its bottom renickeled and shows scattered oxidation is included. An interesting post-war embellished P.38 overall. (208002-162) {C&R} [Charles Hadley Collection] (200/400)
2422. **RUSSIAN TT-33 TOKAREV SEMI AUTO PISTOL BY TULA** serial #PO417, 7.62x25 Tokarev, 4 3/4" barrel with a fair bore that shows oxidation staining throughout. The metal surfaces of this 1940 vintage pistol retain 93% reapplied satin nickel with scattered oxidation and pitting spots. The hard plastic Tula marked grips rate about very good with scattered handling marks, dings, chips and scratches. The slide and frame are matching and there is no added safety or import markings on this pistol and a single magazine included that is mismatched and shows oxidation and oxidation staining. A decidedly different take on this classic Soviet pistol. (208002-156) {C&R} [Charles Hadley Collection] (100/200)

2423. **SMITH & WESSON 32 SAFETY THIRD MODEL DOUBLE ACTION REVOLVER** serial #219027, 32 S&W, 3" barrel with a very good bore that shows a few pits. The metal surfaces retain 85% original nickel with scattered large areas of oxidation and flaking, while the triggerguard shows a generous amount of the original case-hardened finish and some scattered oxidation spots and fading. The hard rubber grips rate good with flattening throughout the checkering, scattered dings, scratches and handling marks. The scratch number on the grips is indiscernible but the cylinder serial number is matching to the frame. A solid "Lemon Squeezer" revolver that may still make a good shooter or carry gun. (208002-152) {C&R} [Charles Hadley Collection] (150/250)
2424. **MAUSER HSC SEMI AUTO PISTOL** serial #783474, 380 ACP, 3 1/4" barrel with a very good bore that shows some oxidation and pitting near muzzle. The slide retains 90% reapplied nickel with the Mauser markings appearing faint, scattered oxidation and oxidation staining, while the frame retains 95% reapplied blue with strong "(Eagle)/N" and "(Eagle)/135" markings and some scattered oxidation. The cream-colored plastic grips rate very good plus with some light handling marks, stains and scratches. This pistol includes a single Mauser Banner marked magazine that shows some pitting on baseplate and oxidation staining on body. An interesting HSC that may be a great carry gun. (208002-51) {MODERN} [Charles Hadley Collection] (200/300)
2425. **JAPANESE TYPE 94 SEMI AUTO PISTOL BY NAMBU RIFLE COMPANY** serial #45134, 8mm Nambu, 3 5/8" barrel with a very good bore that shows scattered pitting and oxidation but strong rifling. The metal surfaces retain 75% reapplied nickel with scattered oxidation, oxidation staining and gray staining throughout. The smooth hardwood grips rate very good showing some added oil and scattered dings and handling marks. The pistol has a date marking of "18.12" and a single magazine that shows oxidation staining throughout is included. An interesting post-war embellished Japanese Type 94. (208002-150) {C&R} [Charles Hadley Collection] (150/250)
2426. **KEL TEC PF9 SEMI AUTO PISTOL** serial #R5E75, 9mm, 2 3/4" barrel with an excellent bore. The slide and barrel metal surfaces of this two-tone pistol rate near excellent with some scattered silvering and some light oxidation staining at rear right side of slide. The polymer frame rates excellent with a few light handling marks and the pistol has an overmold thumb grip that shows some light dirt stains. This pistol includes a single factory 7-round magazine in near excellent condition with a few minor oxidation spots. An excellent condition Kel Tec that may make a fine carry gun. (2028-3) {MODERN} (150/250)
2427. **SAVAGE MODEL 1907 SEMI AUTO PISTOL** serial #200663, 32 ACP, 3 3/4" barrel with an excellent bore. The metal surfaces retain 98% original blue with some scattered light freckling and silvering spots and a few minor tool marks on the slide. The trigger and hammer show some light oxidation staining with traces of the original case-hardened finish. The "Savage Quality" marked grips rate near excellent with some light handling wear and this pistol includes a single unmarked magazine that has turned a dull brown patina with silvering and freckling. A nice Savage pistol overall. (207997-25) {C&R} (300/500)
2428. **COLT POLICE POSITIVE FIRST ISSUE DOUBLE ACTION REVOLVER** serial #40334, 32 Colt, 3 1/2" barrel with a very good plus bore that shows some minor pits. The metal surfaces of this "NEW POCKET" marked revolver retain 60-70% original blue with fading and freckling throughout and some silvering to the exposed edges. The hard rubber grips rate very good showing a few handling marks and dings. The grips are penciled; matching to the number on the inside of the frame and this appears to be a "Transitional" model due to the "NEW POCKET" markings. A black leather Buheimer holster in excellent condition is included with this revolver. (207929-3) {C&R} (200/300)
2429. **WALTHER MODEL 4 SEMI AUTO PISTOL** serial #216972, 32 ACP, 3 1/2" barrel with a very good plus bore that shows some light frosting and a minor pit. The metal surfaces retain 90% original blue with scattered fading on the exposed edges, silvering and freckling. The hard plastic grips rate good showing a few scattered chips, holes, stains dings and handling marks. Included are two magazines and an unmarked PPK style holster that shows scattered crazing and flaking and is marked with a "U.S." insignia. A very good example overall. (207998-6) {C&R} (200/300)
2430. **KASSNAR 116 MK1 SEMI AUTO RIFLE** serial #A320940, 22 LR, 18" barrel with an excellent bore. The metal surfaces of this Filipino made M16 style rifle retain 95% original phosphate finish with scattered silvering on carry handle and barrel and the black polymer frame rates near excellent with a few scuff markings. The synthetic pistol grip, stock and handguard rate very good plus with dings, handling marks, scuff marks, and scratches throughout. Two factory magazines in excellent condition and a brown leather sling in very good plus condition are included with this rifle. A neat rimfire rifle that may make an affordable and fun plinker. (208010-40) {MODERN} (100/200)
2431. **UNIVERSAL M1 CARBINE** serial #147888, 30 Carbine, 18" barrel with a very good bore that shows some minor oxidation. The metal surfaces retain 80% original blue with light oxidation throughout and some fading on the barrel and band. The walnut stock rates very good showing some scattered flaking of the factory varnish, scattered dings, handling marks and scratches. The carbine has a wooden oiler in the rear sling cut, and the carbine does not appear to be equipped with a bolt hold open lever like some Universal carbines. Included with this carbine is a single blued 15 round magazine that shows scattered silvering and is marked "G-Q". A solid commercial carbine that may make a fun plinker. (207958-30) {MODERN} (250/450)
2432. **PLAINFIELD M1 CARBINE** serial #9515, 30 Carbine, 18" barrel with a near excellent bore that shows some minor frosting. The metal surfaces retain 97% original blue with some light wear on blued heatshield handguard, bolt, triggerguard and barrel. The walnut stock rates very good showing a minor chip at upper tang, scattered scratches, flaking varnish, dings and handling marks. The carbine is equipped with a Williams peep rear sight and an unmarked aftermarket front sight base that lacks a sight. The recoil plate is marked "SG" indicating it is of USGI Saginaw manufacture and a blued 30 round magazine marked "M2" and an aftermarket brown leather sling both in excellent condition are included. A very good plus commercial carbine that will likely make a fun plinker. (207958-38) {MODERN} (200/400)
2433. **PLAINFIELD M1 CARBINE** serial #65024, 30 Carbine, 18" barrel with an excellent bore. The metal surfaces retain about 98% original blue with some silvering on bolt, light silvering on barrel, rear sight, triggerguard and blued heatshield handguard. The walnut stock rates very good showing the remnants of tape on butt and some scattered dings, handling marks, scratches and stains. This carbine includes a 30 round magazine marked "M2" that shows some scattered light silvering. An excellent commercial carbine that will likely be a fun shooter. (207958-36) {MODERN} (300/500)
2434. **U.S. M1 GARAND RECEIVER BY SPRINGFIELD ARMORY** serial #3234604. This lot consists of an M1 Garand receiver, clip release, complete "-19 SA" bolt assembly and a complete sight of T105E1 rear sights. The metal surfaces of this assembly retain about 80% of an arsenal gray-green parkerized finish with silvering scratches throughout, three spots of paint on the right rear receiver leg, and some fading on the receiver leg. There is a faint electropencil marking at the front of the receiver markings which appears to read "60-W" and this may be a rebuild marking. This receiver purportedly came from the H&R factory possibly when they were launching their Garand program and needed a reference. This receiver will likely be a great base for a Garand build. (208029-1) {MODERN} (200/300)
2435. **STEVENS "MAYNARD JUNIOR" NO. 15 SINGLE SHOT RIFLE** 22 RF, 18" part octagon part round barrel with a fair bore that shows oxidation throughout. The metal surfaces show heavy oxidation throughout and the hardwood stock rates good showing a few cracks on butt, a couple chips on forend, scattered dings, handling marks, further chips and scratches. The lever is loose and will need mechanical attention to fix. An interesting single shot rifle overall. (207951-120) {C&R} [Tweed Herendeen Collection] (50/100)

2436. **SMITH & WESSON MILITARY & POLICE HAND EJECTOR REVOLVER** serial #C422888, 38 Special, 6" barrel with an excellent bore. The metal surfaces of this late 1950's made gun retain about 97% original blue with high edge wear, thinning finish on several areas, scratches and minor freckling. The standard trigger and hammer retain bold case-hardened colors with light freckling and operational marks. The diamond checkered walnut factory Magna grips are correctly numbered to the gun and rate very good with a few compressed diamond points and handling marks. Timing and lock-up are excellent and it will make a great shooter. (87942-78) {C&R} (300/500)
2437. **COLT OFFICERS MODEL SPECIAL REVOLVER** serial #62275, 22 LR, 6" barrel with excellent bore. The metal surfaces of this 1951 made revolver retain about 50% factory blue with the grip frame, barrel and top strap worn to a mix of pewter and brown along with, scattered scratches and light dings. The checkered "Coltwood" factory grips rate near excellent with light handling wear. The revolver has the correct Coltmaster rear sight but the blade has been replaced with a "U" notch and the front sight is a white bead. Timing and lock-up are as tight as the day it left Colt. (87927-112) {C&R} (300/500)
2438. **AMT BACK UP SEMI-AUTO PISTOL** serial #DA20587, 380 ACP, 2 3/4" barrel with an excellent bore. The stainless steel surfaces rate very good with light handling wear. The checkered black plastic factory grips rate very good with light handling wear. The pistol features double action only, a gutter or trough style sight and no external controls. This Irwindale California made gun includes a single magazine. (88047-18D30460) {MODERN} (300/500)
2439. **ITALIAN MODEL 1934 SEMI-AUTO PISTOL BY BERETTA** serial #838324, 380 ACP, 3 3/8" barrel with an excellent bore. The metal surfaces of this 1940 dated and army marked pistol retain about 50% factory blue on the frame with the slide primarily a mottled mix of blue, brown and pewter. There is evidence of cleaning on the surfaces of the slide and triggerguard with the grip frame worn to gunmetal gray. The plastic metal backed grips with Beretta monograms rate very good with light handling wear. The pistol includes a single finger extension magazine and a near excellent condition unmarked flap holster with built in magazine pouch. (87914-14) {C&R} (100/200)
2440. **COLT MODEL 1877 LIGHTNING REVOLVER WITH BRITISH PROOFS** serial #4989, 38 Long Colt, 3 1/2" barrel with a pitted and oxidized bore. This 1878 production revolver retains about 50% non-factory reapplied blue finish with the strongest amount remaining on the frame and portions of the barrel. There are remnants of original nickel plate on the grip frame and protected areas of the frame. The surfaces are pitted with scattered scratches and dings. The unnumbered checkered hard rubber grips with Rampant Colt monograms rate very good with light handling wear and compressed diamond points. The cylinder, front strap and backstrap are numbered to the gun. There are British proof marks on the cylinder and barrel. Double action timing and operation are working but the single action function and lock up are in need of attention. (87927-16) {ANTIQUE} (200/400)
2441. **SMITH & WESSON FOURTH MODEL DOUBLE ACTION HAMMERLESS TOP-BREAK REVOLVER** serial #133836, 38n S&W, 6" barrel with an oxidized and pitted bore. The metal surfaces are gray and brown with a few traces of reapplied blue finish along with surface pitting, oxidation blemishes and handling marks. The diamond checkered hard rubber grips rate fair with moderate to heavy diamond point compression and scratches. The left panel has a chip missing on the base and the right panel is cracked with a portion of the toe and base missing. The grips are not correctly numbered to the gun but the other appropriate parts are. The serial number is no longer legible on the barrel and 4R4 is scratched on the right side of the receiver. Barrel to frame fit is loose with trigger mechanism, the extractor pins are missing, timing and lock up in need of attention. The revolver is stamped with a factory refurbish mark and is dated "8/1" on the grip frame. (87421-23) {C&R} (50/150)
2442. **COLT POLICE POSITIVE TARGET REVOLVER** serial #9149, 22 LR, 6" barrel with a lightly pitted bore. The barrel is marked "22 W.R.F." but the cylinder is chambered for the long rifle cartridge. This 1913 made Model G revolver retains about 70% original blue with the grip frame worn to pewter, the barrel a mottled mix of blue, purple, brown and pewter in addition to light scratches, freckling, scattered pitting and evidence of light cleaning. The checkered hard rubber grips are correctly numbered to the gun and rate fair with crisp a monogram and fleur-de-lis border but both panels have moderate chips on the base (left) and backstrap (right). There is a factory rework number on the barrel and frame but are struck off center and difficult to read. A non-factory circular sleeve dressed flush with the cylinder has been installed to the face which effectively countersinks the heads of the cartridge when the cylinder is closed and the firing pin is slightly relieved at the top to clear the sleeve. Timing and lock up are excellent. (87996-2) {C&R} (250/450)
2443. **COLT POCKET POSITIVE REVOLVER** serial #108091, 32 Police Positive (S&W Long), 2 1/2" barrel with a few oxidation stains and pits in the bore. The metal surfaces of this 1922 made gun retain about 85% factory blue with the grip frame worn to brown, high edge wear, brown finish on the topstrap and barrel areas, and a few handling marks. The checkered hard rubber factory grips are correctly numbered to the gun and rate excellent. The little gun still times and locks up correctly. (87997-16) {C&R} (300/500)
2444. **FREEDOM ARMS MODEL FA-S-22M IRONSIDES MINI-REVOLVER** serial #B06789, 22 Magnum, 1 3/4" barrel with an excellent bore. The polished and matte stainless steel surfaces rate very good with light scratches and a turn ring on the cylinder. The smooth black synthetic grips rate very good with light handling wear. The tiny "four shooter" still functions mechanically. The knife includes a good condition leather sheath designed for a large folding knife that makes a low profile holster for the gun. (88048-4S20150) {MODERN} (100/200)
2445. **GERMAN MODEL PP AC AND POLICE MARKED SEMI-AUTO PISTOL BY WALTHER** serial #377936P, 32 ACP, 3 7/8" barrel with an excellent bore. This pistol has an "[eagle] / F" mark on the frame along with the commercial proof marks and "ac" marked slide. This pistol retains about 50% original blue with the grip frame worn to pewter, the slide is predominately brown and pewter with traces of blue in the protected areas, pitting and scattered light oxidation stains. The checkered black synthetic grips with Walther logo rate very good to excellent with light handling wear. The pistol features a 60-degree safety, frame mounted magazine release and includes a single Walther marked magazine. Also included is an unmarked green dyed, flap holster in excellent condition. (87936-5) {C&R} (150/250)
2446. **LASERAIM SERIES III SEMI-AUTO PISTOL** serial #G00284, 45 ACP, 5" ported barrel with an excellent bore. The bead blasted stainless steel surfaces rate very good to excellent with light scratches and handling marks. The black textured factory synthetic grips also rate very good to excellent with a small blemish of glue on the left panel. The pistol features a drift adjustable white outline rear sight, red ramp front sight, slide mounted safety, serrations on the slide and extended slide stop. The pistol includes a factory box correctly end labeled and numbered to the gun and a single magazine. (88028-6) {MODERN} (300/500)
2447. **THOMPSON CENTER CONTENDER SINGLE SHOT "SUPER 14" PISTOL** serial #201811, 35 Remington, 14" barrel with an excellent bore. This pistol retains about 99% factory blue with scattered light handling marks. The thumbrest finger groove walnut factory grip and walnut forend rate very good to excellent with a few light dents, dings and scuffs. The pistol has a factory front sight, barrel mounted quick detachable sling swivel mount; Thompson Center model 2.5 RP, 2.5X-20mm long eye relief scope with clear optics; scope mount and quick detachable sling swivel stud on the butt of the grip. Also included with the pistol is a plywood foam lined carry case in very good condition but the brass latches need some attention and the exterior has light handling mark. The latches should be easily fixed by substituting small brass screws for the brads. Also included are two boxes of Remington brand .223 Remington fired cases totaling 35 rounds, Remington brand .223 Remington 55 grain full metal jacket ammunition totaling 4 rounds and a somewhat crudely cut inner tube scope lens cover. This gun is "just the ticket" for your next big game hunt or silhouette match. (87936-7) {MODERN} (300/500)

2448. **COLT AUTOMATIC CALIBER .25 SEMI-AUTO PISTOL** serial #OD118254, 25 ACP, 2 1/4" barrel with an excellent bore. This diminutive pocket pistol retains about 99% factory blue finish. The checkered walnut factory grips with silver Colt medallions rate excellent. The pistol includes a single factory magazine. (87752-6) {MODERN} (250/350)
2449. **COLT FRONTIER SCOUT SINGLE ACTION REVOLVER** serial #3111Q, 22 LR, 4 3/4" barrel with an excellent bore. This first year production dual tone revolver retains about 85% factory blue and anodized finishes with moderate to heavy high edge wear, scratches, tool marks from cleaning on the left recoil shield, minor pitting and oxidation stains. The smooth aftermarket hardwood resin impregnated grips rate near excellent with light scratches. This gun should make a great shooter. (87996-6) {MODERN} (150/250)
2450. **RUGER P345 SEMI-AUTO PISTOL** serial #664-00254, 45 ACP, 4 1/4" barrel with an excellent bore. The stainless steel surfaces rate very good to excellent with light handling marks. The polymer frame rates very good to excellent with light handling marks. The pistol features three dot Novak style sights, ambidextrous slide mounted safety / de-cocker and loaded chamber indicator. The pistol includes a pair of factory magazines and a Lepers Model TLP28 combination laser / flashlight unit is mounted on dust covers rail. It is unknown if the unit is functioning but does lack CR123A batteries at this time. (87936-3) {MODERN} (300/500)
2451. **HIGH STANDARD MODEL H-D MILITARY SEMI-AUTO PISTOL** serial #188761, 22 LR, 4 1/2" heavy barrel with an excellent bore. This pistol retains about 90% plus original blue with the grip frame starting to thin, high edge wear, pitting, oxidation blemishes and handling marks. The checkered walnut factory grips have scattered compressed diamond points and handling marks. The gun has been refitted with a fully adjustable Micro rear sight and a higher serrated ramp front sight. The pistol includes a pair of magazines. (87936-4) {C&R} (250/350)
2452. **STEVENS NO. 41 TIP-UP POCKET PISTOL** serial #9707, 22 RF, 3 1/2" part round part octagon barrel with an about good having pitting and oxidation throughout. The barrel retains about 85% original blue, the balance toning to brown with light silvering around the muzzle. The frame retains about 98% original nickel with light flaking at the heel. The walnut grips rate very good with lightly rounded edges and handling marks at the butt and are pencil-numbered to the gun on each panel. (57904-12) {C&R} (100/200)
2453. **BUSHMASTER XM15-E2S SEMI-AUTO RIFLE** serial #L280085, 223 Rem./5.56 mm, 20" H BAR barrel with 1/9 rate of twist and a bright excellent bore equipped with a non-threaded four prong flash hider. The metal surfaces retain 98% original matte finish with a few minor light rub marks. The black Zytel fixed stock and Hogue soft rubber grip rates excellent. Rifle is equipped with an A2 fixed carry handle with adjustable rear sight and includes a single ASC magazine. An overall near excellent target/competition rifle. (57749-10) (800/1000)
2454. **ATI 1ST. ANNIVERSARY GSG-5 SEMI-AUTO RIFLE** serial #A331134, 22 LR, 16 1/4" barrel with a bright excellent bore. The metal surfaces retain 99% of its smokey gray stainless surfaces with "1ST Anniversary GSG-5" etching on the left side of the frame. The black synthetic buttstock and forend rate excellent displaying a few light handling marks. The factory 22 round magazine is not included. The proper ATF barrel shroud is included. (57749-11) (350/550)
2455. **COLT POLICE POSITIVE TARGET MODEL DOUBLE ACTION REVOLVER** serial #1033, 22 WRF, 6" barrel with an about good bore showing moderate pitting with good rifling the entire length. The metal surfaces retain about 75% original blue fading to brown and gray with scattered patches of oxidation, a light cylinder ring and an area of light scratches and oxidation on the left side of the frame above the cylinder. The factory checkered brown hard rubber grips rate good to very good with a chip to the heel of the left panel and are scratch-numbered to the gun on the right panel. There appears to be a light decorative "C" behind the Rampant Colt etched on the left rear of the frame. Equipped with adjustable sights, a well used but not abused Police Target revolver. (57927-105) {C&R} (300/500)
2456. **COLT MODEL 1908 VEST POCKET SEMI-AUTO PISTOL** serial #317904, 25 ACP, 2" barrel with a bright excellent bore. The slide and frame retain 95-98% original blue with light edge wear, the surface of the barrel has spots of fine oxidation. The trigger retains strong original case colors with specks of fine oxidation, the slide stop lever is toning to pale brown with light traces of case colors still present, the grip safety had muted to pewter gray. The factory checkered brown hard rubber grips rate very good plus showing very minor wear. Included is a single factory magazine. (57963-1) {C&R} (300/500)
2457. **U.S. MODEL 1901 NEW ARMY REVOLVER BY COLT** serial #126022, 38 LC, 6" barrel with a bright excellent bore. The metal surfaces retain about 95% original blue, loss due to edge wear along with light fading, surface wear and a light turn ring on the cylinder. The smooth walnut grips rate excellent and have Rinaldo A. Carr initials on the butt. The cylinder latch, crane and frame are appropriately numbered and "R.A.C." marked. The lanyard ring is present and included is a black leather flap holster showing modest crazing and scuffing primarily on the flap with any markings no longer visible. The revolver still times and looks up correctly. An overall very good 1901 Army revolver. (57927-108) {C&R} (400/600)
2458. **STEVENS MODEL 87D SEMI-AUTO RIFLE** 22 S,L,LR, 24" barrel with a bright excellent bore. The metal surfaces retain about 97-98% original blue with a few sparse specks of fine oxidation staining on the barrel and light flaking and edge wear on the triggerguard. The plain hardwood pistolgrip stock rates very good plus with a few minor handling marks and light flaking black finish at the forend tip. (57951-179) {MODERN} [Tweed Herendeen Collection] (50/100)
2459. **MOSSBERG MODEL 500A SLIDE ACTION SHOTGUN** serial #P114095, 12 ga., 28" ventilated rib Accu-Choke barrel with a bright excellent bore. The metal surfaces retain 95-98% original blue with some very light edge wear and minor contact wear on the slide arm and magazine tube. The checkered hardwood pistolgrip buttstock and forearm rate very good plus with some light dents and handling marks primarily at the wrist. The buttstock is fitted with a Pachmayr Decelerator solid rubber recoil pad providing a 14" length of pull, the spacer still needing proper fitting. The included choke tube is marked full. (57951-172) {MODERN} [Tweed Herdeen Collection] (75/150)
2460. **REMINGTON MODEL 550-1 SEMI-AUTO RIFLE** 22 S,L,LR, 24" barrel with a bright excellent bore. The metal surfaces retain 98% evenly thinning original blue with a couple spots of light oxidation on the factory shell deflector. The plain walnut pistolgrip stock rates excellent with a couple light blemishes. (57951-159) {C&R} [Tweed Herendeen Collection] (100/200)
2461. **MOSSBERG MODEL 151M (A) SEMI-AUTO RIFLE** 22 LR, 20" barrel with a bright excellent bore. The metal surfaces retain about 98% thinning original blue with some fine oxidation on the hooded front sight. The plain walnut pistolgrip stock rates very good with a handful of light handling marks and blemishes. (57951-169) {C&R} [Tweed Herendeen Collection] (100/200)
2462. **JAPANESE FLINTLOCK HOLSTER PISTOL** serial #2688, .50 cal. flint, 10" round barrel with a very good bore. The barrel retains 98% original original blue with some superficial light scratches and faint very fine oxidation at the breech. The lock retains equal bright case coloring with some light strike marks and oxidation staining on the frizzen. The hardwood stock rates very good with well defined edges and a small thin crack on the right side of the butt. The brass furniture has pleasing ocher patina. The lock remains crisp and a proper brass tip wooden ramrod is present. (57917-7) {ANTIQUe} (100/200)
2463. **SEARS MODEL 41-103 BOLT ACTION RIFLE** 22 S,L,LR 22" barrel with a bright excellent bore. The metal surfaces retain about 98% original blue with some scattered very fine oxidation staining. The plain hardwood pistolgrip stock rates very good plus to near excellent with a handful of light marks and blemishes. Equipped with a brass bead front sight and adjustable sporting rear sight, installed is a Glenfield 4x15 mm scope with fine crosshair reticle and clear optics in two piece rings. A great choice for a youngster's first rifle or backyard fun. (57917-2) {MODERN} (75/150)

2464. **WINCHESTER MODEL 77 SEMI-AUTO RIFLE** serial #157240, 22 LR, 22" barrel with a bright excellent bore. The metal surfaces retain about 85% original blue toning to brown with some sparse spots of very fine oxidation staining, the majority of loss towards the rear of the receiver. The plain walnut pistolgrip stock rates very good plus to near excellent with a few minor light blemishes. Equipped with a box magazine, a single factory magazine is included. (57951-42) {C&R} [Tweed Herendeen Collection] (175/275)
2465. **SAVAGE MODEL 6 SEMI-AUTO RIFLE** 22 LR, 24" barrel with a bright excellent bore. The metal surfaces retain 95-98% original blue, loss due to overall thinning light surface wear marks and scattered very fine oxidation staining. The checkered walnut pistolgrip stock rates very good with scattered light dents and handling marks. (57951-167) {MODERN} [Tweed Herendeen Collection] (75/150)
2466. **SAVAGE MODEL 23A BOLT ACTION RIFLE** serial #93953, 22 LR, 23" barrel with a bright excellent bore. The metal surfaces have faded to gun metal with some scattered fine staining and areas of dried protective grease and moderate surface oxidation on the steel buttplate. The plain walnut pistolgrip stock rates very good overall with two swivel stud holes at the schnabel forend and one in the buttstock. A single lanyard ring base factory magazine is included. (57951-192) {C&R} [Tweed Herendeen Collection] (50/100)
2467. **MARLIN MODEL 55 BOLT ACTION SHOTGUN** 12 ga., 28" single bead plain barrel with an oxidized bore choked full. The metal surfaces retain about 60% original blue under a covering of light surface oxidation becoming moderate in areas. The plain hardwood pistolgrip stock is equipped with a dried ventilated rubber recoil pad and rates good overall with flaking varnish and holes in the underside of the stock from swivel stud removal. The detachable magazine is no longer present. (57951-57) {C&R} [Tweed Herendeen Collection] (25/50)
2468. **SAVAGE MODEL 23C SPORTER BOLT ACTION RIFLE** 32-20 Win., 24 1/2" barrel with a bright excellent bore. The metal surfaces retain 98% thinning original blue. The plain walnut pistolgrip stock rates very good with a couple light handling marks and a thin drying crack in the right side of the buttstock. The steel buttplate shows moderate surface oxidation and is a bit proud of the wood. The front sight has been replaced with a brass blade insert, there are two sets of drilled and tapped holes in the left side of the receiver and a single detachable factory magazine is included. (57951-166) {C&R} [Tweed Herendeen Collection] (175/275)
2469. **REMINGTON MODEL 510-P BOLT ACTION RIFLE** 22 S,L,LR, 25" barrel with a bright excellent bore. The metal surfaces retain about 98% evenly thinning original blue with a few sparse specks of very fine oxidation, the bolt retains equal bright case colors. The plain walnut pistolgrip stock rates very good overall with a handful of light scratches and handling marks. (58047-35D31659) {C&R} (150/250)
2470. **WINCHESTER MODEL 67 BOLT ACTION RIFLE** 22 LR Shot only, 24" smoothbore barrel with a very good bore. The metal surfaces retain about 95% evenly thinning original blue with scattered specks of fine oxidation and few spots of more modest oxidation about 4" from the muzzle on the left side of the barrel. The bolts remains overall bright with some scattered light freckling and staining. The plain walnut pistolgrip stock rates very good plus with a few light handling marks. The toe of the hard rubber buttplate has cracked at the lower screw but is include and the double beads are no longer present, leaving two tiny holes in the top of the barre. (58009-1) {C&R} (75/150)
2471. **REMINGTON MODEL 24 SEMI-AUTO RIFLE** serial #30670, 22 LR, 19" barrel with a very good bright bore. The metal surfaces retain about 80% thinning original blue toning to brown with light edge wear, scattered fine oxidation staining and spots of more moderate surface oxidation behind the rear sight. The plain walnut pistolgrip stock and schnabel forend rate about very good with a small chip in the rear right edge of the forend and a handful of dents, handling marks and possibly some flaking added varnish on the buttstock. Mounted on the rear of the receiver is a Lyman R24 receiver sight. (58014-6) {C&R} (300/500)
2472. **WINCHESTER MODEL 94 TRAPPER SADDLE RING CARBINE** serial #5072213, 30-30 Win., 16" barrel with a bright excellent bore. The metal surfaces retain about 95% original blue, loss due to scattered fine flaking on the receiver. The plain walnut stock and forend rate very good plus with a few light handling marks. Equipped with open sights; the saddle ring is present and intact. (58002-174) {MODERN} (300/500)
2473. **WINCHESTER MODEL 94 WRANGLER SADDLE RING CARBINE** serial #5115777, 32 Win. Spl., 16" barrel with a bright excellent bore. Carbine features roll engraved western scenes on both sides of the receiver and is equipped with a standard loop lever. The metal surfaces retain 95-98% original blue, the loss due to moderate oxidation staining on the receiver and lever link. The plain American walnut stock rates excellent with a tiny light blemish here and there. Equipped with open sights, the saddle ring and stud are no longer present. (58002-182) {MODERN} (275/375)
2474. **THOMPSON CENTER RENEGADE SMOOTHBORE PERCUSSION RIFLE** serial #191101, .56 cal., 26" octagon barrel with a very good bore having some scattered specks of oxidation staining and tiny surface scratches. The lock retains about 98% original case colors with some very fine oxidation staining on the hammer. The walnut stocks rates very good overall with light handling marks and tiny spots of flaking varnish. (57837-13) {ANTIQUÉ} (100/200)
2475. **WESSON & HARRINGTON NO. 4 SPUR TRIGGER REVOLVER** serial #86, 38 cal., 3 1/2" octagon barrel with a good to very good bore showing pitting and oxidation but good rifling the entire length. The metal surfaces retain 90% original nickel, loss due to scattered light flaking and oxidation staining. The numbers are matching on the frame, barrel and cylinder. The rosewood birdshead grips rate very good plus with light handling marks, spots of flaking varnish and are stamp-numbered to the gun on both panels. (57456-7) {ANTIQUÉ} (300/500)
2476. **WESSON & HARRINGTON NO. 2 SPUR TRIGGER REVOLVER** serial #6535, 22 Short, 2 5/8" octagon barrel with a very good bore having some scattered light pits and oxidation. The metal surfaces on this second type revolver retain about 85% original nickel with scattered patches of oxidation staining, fine pinprick pitting and light impact marks on the butt. The numbers are matching on the frame, barrel and cylinder and the birdshead rosewood grips rate very good with tiny bruises at the butt and both are stamp-numbered to the gun. The cylinder times properly but the hammer will not stay cocked. (57456-5) {ANTIQUÉ} (100/200)
2477. **WESSON & HARRINGTON NO. 3 SPUR TRIGGER REVOLVER** serial #4528, 32 Short, 2 5/8" octagon barrel with a bright excellent bore having one small pit at the rear of the barrel. The metal surfaces on this third type revolver retain 98% original bright nickel with some very light flaking along the front edge of the cylinder which also shows a very light turn ring. The frame, barrel and cylinder are numbered alike and the birdshead rosewood grips rate excellent and are numbered to the gun. The action times and advances nicely. (57456-6) {ANTIQUÉ} (200/400)
2478. **WINCHESTER MODEL 190 SEMI-AUTO RIFLE** serial #532073, 22 LR, 20" barrel with a bright excellent bore. The metal surfaces retain 90% thinning original blue finish having loss due to scattered specks of surface oxidation, scratches and light pin prick pitting here and there. The smooth walnut pistolgrip buttstock and forend rate very good displaying some scattered dings and scratches. (177917-3) {C&R} (75/150)
2479. **HARRINGTON AND RICHARDSON TOPPER M48 SINGLE BARREL SHOTGUN** serial #F19894, 12 ga, 30" plain barrel choked full with a bright excellent bore. The barrel retains 85% original blue finish displaying some scratches and specks of surface oxidation. The frame retains 85% of its dark fading case-hardened colors displaying some light oxidation. The smooth walnut pistolgrip buttstock and forend rate very good displaying some moderate dings and scratches as well as having a 1" hairline crack emanating from the upper tang. (177917-6) {MODERN} (50/100)

2480. **MARLIN MODEL 90 OVER UNDER SHOTGUN** serial #1933, 20 ga, 28" plain barrels choked full and improved modified with bright excellent bores. The barrels retain 90% original blue finish displaying some light scratches and specks of surface oxidation. The frame retains 80% thinning original blue finish having loss on the belly and some light edge wear. The checkered walnut pistolgrip buttstock and forend rate very good displaying some dings and scratches; the right cheek is slightly raised where the wood meets the frame. The stock is fitted with a hard rubber buttplate which provides a length of pull of 14 1/2". (177927-68) {C&R} (250/450)
2481. **WINCHESTER MODEL 12 SLIDE ACTION SHOTGUN** serial #1041504, 12 ga, 26" plain barrel with added Poly-choke having a bright excellent bore. The metal surfaces retain 85-90% evenly thinning original blue finish displaying some loss on the high edge, scratches and operational loss. The smooth walnut pistolgrip buttstock and grooved forend rate very good displaying moderate dings and scratches over a flaking varnish. The buttstock is fitted with a sling swivel on the toeline and a hard rubber buttplate is present. (177951-81) {C&R} (200/300)
2482. **REMINGTON MODEL 11 SEMI-AUTO SHOTGUN** serial #119673, 12 ga, 28" plain barrel choked full with a bright near excellent bore having just a few light pits present. The metal surfaces have toned to a pleasing brown patina which is mixing with a gray, having some silvering on the high edges. The smooth walnut round knob buttstock rates very good displaying a 1/2" crack emanating from the upper tang along with having some light dings. The smooth walnut finger groove forend rates very good displaying just a few light handling marks; both stocks exhibit some added varnish. The stock is fitted with its original hard rubber buttplate which displays some light dings. (177927-77) {C&R} (200/300)
2483. **UBERTI MODEL 1885 CUSTOM HIGH WALL FALLING BLOCK RIFLE** serial #10895/1444, 32-40 Win, 27" heavy round barrel with an excellent bore. The barrel retains about 95% of a matte blue finish that has some light handling wear and fine tool marks throughout. The frame, lever, hammer and block retain about 90% of factory smoky gray case color that is more gun metal gray along the edges. The forearm is missing but the factory straight grip walnut buttstock rates excellent and has a few light scratches. The stock features a blued crescent steel buttplate with storage compartment. A few of the screws have minor slot damage. The barrel has target blocks mounted with additional holes tapped for variability, two of the holes have been filled in. An excellent single shot project rifle that is in excellent condition and in a great caliber, awaiting your finishing touches. (47966-17) {MODERN} (200/400)
2484. **WINCHESTER MODEL 1906 SLIDE ACTION RIFLE** serial #486835, 22 LR, 20 3/4" barrel with threaded muzzle having a very good lightly pitted bore. The metal surfaces have toned to a dull brown patina having some light silvering due to light cleaning and exhibiting some pinprick pitting. The smooth gum wood straight grip stock and grooved forend rate very good displaying moderate dings and scratches. The rifle is sighted with its original sights and a Lyman No 1 sight is attached to the tang. (178013-6) {C&R} (75/150)
2485. **BROWNING AUTO-5 SEMI-AUTO SHOTGUN** serial #8M24823, 12 ga, 27" plain barrel choked modified with a bright excellent bore. The metal surfaces retain 98% of their quality re-applied blue finish having just a few light handling marks and some oxidation blemishes. The checkered walnut round knob buttstock and forend rate excellent as lightly refinished displaying just a few light handling marks. The buttstock is fitted with an original FN Browning horn buttplate. (178042-4) {C&R} (200/400)
2486. **ERA BOXLOCK DOUBLE SHOTGUN** 12 ga, 28" solid rib barrel choked modified and improved cylinder with bright excellent bore. The barrels retain 99% original blue finish displaying just a few light handling marks. The boxlock frame retains 98% original dark gray finish. The checkered birch wood pistolgrip buttstock and beavertail forend rate excellent displaying just a few lightly scattered handling marks; there is a 1/2" crack emanating from the upper tang. The gun features double triggers and extractors. (177966-34) {MODERN} (200/300)
2487. **ITHACA MODEL 37 FEATHER LIGHT SLIDE ACTION SHOTGUN** serial #955114, 16 ga, 28" plain barrel choked full with a bright excellent bore. The metal surfaces retain 95% original blue finish having loss due to some scattered scratches and surface oxidation. The checkered walnut pistolgrip buttstock and grooved forend rate excellent with the exception of having a few light handling marks. (177960-30) {MODERN} (250/450)
2488. **STOEGER COACH GUN BOXLOCK DOUBLE SHOTGUN** serial #494900-01, 12 ga, 20" solid rib barrels choked modified and improved cylinder with bright excellent bores. The stainless surfaces remain bright displaying some light tarnishing and blemishes. The checkered black synthetic pistolgrip buttstock and beavertail forend rate very good displaying some light handling marks and having an etched cougar on the left and a buffalo on right side of the buttstock. The gun features double triggers, automatic safety and extractors. (178002-200) {MODERN} (150/250)
2489. **A.M. ARMS COMPANY SIDE-SWING BREECH-LOADING DOUBLE BARREL SHOTGUN** serial #2445, 12 ga, 30" matted rib damascus barrels choked cylinder and cylinder with very good lightly pitted bores. The barrels display a dark brown damascus pattern exhibiting some light dings and some light silvering due to light cleaning. The locks, frame and hammers display a dark brown patina having some dark oxidation stains present. The checkered walnut round knob buttstock rates very good displaying some dings and having some scattered water spotting in the varnish; there is a large repaired chip on the toeline that has been repaired with a screw. The walnut forend rates very good displaying some light handling marks. The buttstock is fitted with a steel widow's peak buttplate. The gun functions well but the barrels lock up loose and are off-face. (177927-40) {ANTIQUÉ} (150/350)
2490. **HOPKINS AND ALLEN SIDELOCK DOUBLE SHOTGUN** serial #1354, 28 ga, 26" solid rib barrels choked cylinder and improved cylinder with very good bores showing some light pitting. The barrels have toned to a pleasing gray patina displaying some light tarnishing and having some light oxidation stains. The locks and frame have toned to a bright gray patina. The checkered walnut pistolgrip buttstock and forend rate very good displaying some light dings and having a few light cracks emanating from the frame. The buttstock is fitted with a hard rubber buttplate which provides a length of pull of 13 3/4". The gun features double triggers, automatic safety and extractors. The gun functions well mechanically and the barrels lock up slightly loose. (178013-8) {C&R} (200/300)
2491. **WINCHESTER MODEL 37 SINGLE BARREL SHOTGUN** .410 bore, 26" barrel choked full with a bright excellent bore. The metal surfaces have toned to a gray patina having moderate scattered brown freckles and light surface oxidation. The smooth walnut pistolgrip buttstock rates excellent as replaced; there is no buttplate present. The original smooth forend rates very good displaying scattered dings and scratches. This shotgun functions well mechanically. (177951-34) {C&R} (100/200)
2492. **WINCHESTER MODEL 12 SLIDE ACTION SHOTGUN** serial #83276, 12 ga, 30" plain barrel choked full with a bright excellent bore. The barrel retains about 90% reblued finish having loss due to fading. The receiver retains 80% reappplied blue finish having some silvering on the belly, scattered scratches, specks of surface oxidation and high edge wear. The smooth walnut pistolgrip buttstock rates very good having moderate dings and scratches as well as having a crack on the right side near the center of the stock. The grooved forend rates very good as refinished displaying some light dings. The buttstock is fitted with its original hard rubber buttplate which has a small chip at the toe. A nice rainy day gun. (177951-80) {C&R} (100/250)
2493. **WINCHESTER MODEL 12 SLIDE ACTION SHOTGUN** serial #777984, 16 ga, 26" plain barrel with Poly-choke having a bright excellent bore. The barrel retains 98% original blue finish having slight loss due to handling marks. The receiver has lost nearly all of its finish displaying a bright gray patina having some strong silvering on the high edges. The smooth walnut pistolgrip buttstock and grooved forend rate very good displaying scattered dings and scratches over an added varnish that is flaking. (178007-15) {C&R} (200/400)
2494. **CUSTOM WINCHESTER MODEL 94 SADDLE RING CARBINE** serial #848341, 44 Mag, 18 1/2" custom barrel with a bright excellent bore. The metal surfaces retain 98% of their quality reappplied blue finish displaying some light rub marks and having loss on the high edges. The checkered walnut straight grip stock and forend rate excellent displaying just a few light handling marks. The rifle is sighted with its original white bead front sight, rear sight has been replaced with a slot blank and a Williams rear sight is mounted to the left side of the frame. The original saddle ring is present. (177927-38) {MODERN} (350/550)

2495. **REMINGTON MODEL 17 SLIDE ACTION SHOTGUN** serial #14155, 20 ga, 28" plan barrel choked cylinder with a bright excellent bore. The barrel retains 95% original blue finish having loss due to scattered specks of surface oxidation. The receiver retains 85% original blue finish having loss on the high edges and some light specks of surface oxidation. The smooth walnut pistolgrip buttstock and grooved forend rate very good displaying just a few light handling marks over a flaking varnish. (177951-154) {C&R} (200/300)
2496. **STEVENS CRACK SHOT SINGLE SHOT RIFLE** 22 RF, 20" barrel with a very good lightly pitted bore. The barrel has toned to a even gray patina which is slight blending with a slight brown. The frame retains 75% of its dark case-hardened colors having some light surface oxidation. The smooth walnut straight grip buttstock and forend rate very good plus displaying some light handling marks. The buttstock is fitted with its original steel buttplate. The rifle will require mechanical attention as the hammer is stuck in the cocked position. (178027-7) {C&R} (75/150)
2497. **BERETTA SILVER PIGEON SLIDE ACTION SHOTGUN** serial #001173, 12 ga, 26" plan barrel with a bright excellent bore. The metal surfaces retain 95% original blue finish having just a few light handling marks preset. The checkered walnut pistolgrip buttstock and forend rate very good displaying some scattered dings and scratches over a moderately flaking varnish. (177951-90) {MODERN} (150/250)
2498. **WINCHESTER MODEL 12 SLIDE ACTION SHOTGUN** serial #868553, 12 ga, 30" plain barrel choked full with a bright excellent bore. The metal surfaces retain 97% original blue finish having loss around the muzzle and displaying some light scattered scratches; the left side of the receiver displays two professionally added holes. The smooth walnut pistolgrip buttstock and grooved forend rate excellent displaying just a few light handling marks. The buttstock is fitted with its original hard rubber buttplate. (177927-71) {C&R} (350/550)
2499. **WINCHESTER MODEL 25 SLIDE ACTION SHOTGUN** serial #79940, 12 ga, 28" plain barrel choked modified with a bright excellent bore. The barrel retains 85% evenly thinning original blue finish which is thinning more modernly towards the breech end of the barrel. The receiver retains 80% original blue finish having moderate silvering on the high edges and along the belly. The smooth walnut pistolgrip buttstock and grooved flat bottom forend rate excellent with the exception of having a few light handling marks. The buttstock is fitted with its original hard rubber buttplate. (177951-86) {C&R} (250/450)
2500. **REMINGTON MODEL 48 SPORTSMAN SEMI-AUTO SHOTGUN** serial #3111614, 12 ga, 25 1/2" ventilated rib barrel with a Poly choke; barrel marked skeet with a bright excellent bore. The barrel retains 90% original blue finish displaying some light rub marks and having light specks of surface oxidation. The receiver retains 80% original blue finish displaying some scattered specks of surface oxidation and having some surface oxidation and light pitting. The checkered walnut pistolgrip buttstock rates good plus displaying some light dings and scratches along with having two 3" cracks on both sides of the wrist emanating from the receiver. The checkered walnut forend rates very good displaying just a few light dings and scratches; both stocks exhibit major flaking from the varnish. The buttstock is fitted with its original hard rubber buttplate. (177951-155) {C&R} (100/300)
2501. **STEVENS MODEL 5100 BOXLOCK DOUBLE SHOTGUN** 12 ga, 30" solid rib barrels choked full and modified with very good bores that exhibit a small ding on the right tube 5 1/5" from the muzzle. The barrels retain about 85% evenly thinning blue finish which is toning to a brown patina having some light scratches and specks of surface oxidation. The boxlock frame retains 60% original case-hardened colors with the balance displaying a smokey gray patina. The checkered synthetic pistolgrip buttstock and forend rate very good displaying scattered scratches from the years of use. The gun features double triggers, automatic safety and extractors. The gun will require slight mechanical attention as the top lever returns to center when the barrels are opened. (177942-28) {MODERN} (150/350)
2502. **HENRY TOLLEY SIDELOCK DOUBLE HAMMER GUN** serial #3166, 12 ga, 29 3/4" damascus barrels choked cylinder and modified with very good bores having some light pitting present. The barrels display a lovely brown damascus pattern displaying some light silvering around the muzzles. The top of the rib is marked "HENRY TOLLEY LONDON FINE DAMASCUS". The locks and frame retain about 20% of their case-hardened colors with the balance displaying a bright smokey patina. The locks are embellished in an open foliate scroll engraving with two engraved dogs on both sides. The checkered walnut round knob buttstock and splinter forend with fancy push button release rates excellent as refinished long ago displaying just a few light handling marks. The buttstock is fitted with a horn widow's peak buttplate that displays a few light dings. This nice double functions well mechanically. (177984-2) {ANTIQUÉ} (350/550)
2503. **REMINGTON MODEL 29 SLIDE ACTION SHOTGUN** serial #33486, 12 ga, 27" barrel choked modified with a bright near excellent bore. The metal surfaces retain 85% evenly thinning original blue finish having moderate silvering on the belly and on the high edges. The checkered walnut pistolgrip buttstock and forend rate very good as refinished showing worn checkering and some scattered dings. The buttstock is fitted with a rubber Pachmayr recoil pad. (177951-152) {MODERN} (150/250)
2504. **WINCHESTER MODEL 12 SLIDE ACTION SHOTGUN** serial #1349115, 12 ga, 28" plain barrel choked full with a bright excellent bore. The metal surfaces retain 90% original blue finish having some light silvering around the muzzle and having loss on the belly and high edges. The smooth walnut pistolgrip buttstock and grooved flat bottom forend rate very good displaying just a few light handling marks. The buttstock is fitted with a rubber recoil pad. The gun has been drilled and tapped on the left side of the receiver which holds a Weaver side mount that supports a telescope M82 scope. (177951-83) {C&R} (200/300)
2505. **RUGER MODEL P94 SEMI-AUTO PISTOL** serial #308-26947, 9mm, 4 1/4" barrel with a bright excellent bore. The matte stainless steel slide over gray anodized alloy frame rate about excellent with a few light handling marks and several light freckles on the slide. The checkered black synthetic grips with Ruger medallions also rate about excellent with a few faint handling marks. This pistol features an integrated laser sight (function not verified), ambidextrous decocking safety, three-dot sights and comes with a single magazine and a Ruger pamphlet. (127997-30) {MODERN} (200/400)
2506. **SAVAGE ANSCHUTZ MODEL MARK 10D SINGLE SHOT BOLT ACTION RIFLE** serial #946682A, 22 LR, 26" heavy barrel with a bright excellent bore. The metal surfaces retain 95% original blue with scattered freckling and a little light oxidation. The hardwood pistolgrip Monte Carlo stock with right-handed cheekpiece rates very good to near excellent with multiple light scratches and dings and a few small spots of flaking finish. The gun is fitted with a handstop on a short rail under the forend, sling swivels, front globe sight and a Redfield rear aperture sight. (128014-3) {MODERN} (250/450)
2507. **MOSSBERG MODEL 144 US BOLT ACTION MILITARY TRAINING RIFLE** serial #US3671, 22 LR, 27" heavy barrel with a bright excellent bore. The metal surfaces retain 97% original blue with several minor handling marks and a little light freckling. The hardwood pistolgrip stock with right-handed cheekpiece rates very good with multiple light to moderate dings and a few light scratches. The gun is fitted with sling swivels, a Lyman 17A front globe sight and a Mossberg S-130 rear aperture sight. (128044-6) {MODERN} (100/300)
2508. **REMINGTON MODEL 510 TARGETMASTER SINGLE SHOT BOLT ACTION RIFLE** 22 S.L.L.R, 25" barrel with a bright excellent bore. The metal surfaces retain 95% original blue with some fading towards brown, a few spots of oxidation and some light freckling. The walnut pistolgrip stock rates near excellent with multiple light dings and scratches. The gun is fitted with its original sights. (128014-4) {C&R} (75/150)
2509. **WINCHESTER MODEL 94 LEVER ACTION RIFLE** serial #3038084, 30-30, 20" barrel with a bright excellent bore. The barrel retains 98% original blue with a few scattered specks of oxidation and a couple of light handling marks. The refinished receiver retains 98% reapplied blue showing a few light superficial scratches and some pinprick pitting and handling marks under the new finish. The hardwood stock and forearm rate near excellent as refinished with a few minor handling blemishes and leaving the surrounding metal slightly proud of the wood in places. The gun is sighted with its factory sights. A decent gun that will likely make a good shooter. (128048-9S20145) {MODERN} (150/250)

2510. **WINCHESTER MODEL 94 LEVER ACTION RIFLE** serial #874290, 30 WCF, 20" barrel with a gray lightly frosted bore. The metal surfaces are primarily gray with light to moderate pitting and some oxidation. The Boyd replacement walnut buttstock with Boyd butt pad and the forearm rate near excellent with a few light handling marks. The action works stiffly, the front barrel band is not present and the magazine tube has an added notch cut into it. Overall a good parts or project gun. (128002-186) {C&R} (40/80)
2511. **RUGER MODEL 22/45 MKIII SEMI-AUTO PISTOL** serial #272-41569, 22 LR, 4 1/2" bull barrel with threaded muzzle and a bright excellent bore. The metal surfaces retain 98% original blue with a couple of light handling and operational marks. The synthetic frame rates about excellent with a handling mark or two. The black textured rubber grips rate excellent. The gun is fitted with a Bushnell Trophy red dot sight mounted to a rail on the top of the receiver and a Streamlight TLR-2 light with integrated laser sight mounted to an accessory rail under the barrel. The light and red dot are functioning; the laser operation is not verified. Comes with a single magazine. (128028-4) {MODERN} (250/450)
2512. **REMINGTON MODEL 341-P SPORTSMAN BOLT ACTION RIFLE** serial #77582, 22 S,L,LR, 24" barrel with a bright near excellent bore showing a tiny pit or two. The metal surfaces are a brown patina with some scattered oxidation. The walnut pistol grip stock rates good to very good with multiple scuffs, scratches and dings, a couple of small cracks in the grip, and a fading worn finish. The gun is fitted with a front aperture sight and an adjustable rear aperture sight. (128039-1) {C&R} (50/100)
2513. **GREAT WESTERN ARMS FRONTIER SIX SHOOTER REVOLVER** serial #6W3449, 22 rimfire, 5 1/2" barrel with bright very good bore and thin rifling. The barrel and trigger guard retain 90% evenly thinning blue finish with spots of silvering at the muzzle, high edges and along the ejector rod housing likely due to holster wear. The cylinder retains 85% blue with loss due to wear consistent with use. The frame, trigger, and loading gate show strong case-hardened colors and the hammer is mostly a bright gray with areas of mottled case-hardened colors left in protected areas. The revolver has a blade front sight with notched groove rear and is fitted with a set of faux stag grips. The grip to frame fit is slightly off and they remain in excellent condition. This single action army style revolver has likely seen a lot of cowboy shoots, however it still locks up and times correctly. (107927-98) {MODERN} (300/500)
2514. **REMINGTON SPORTSMAN 48 SEMI-AUTO SHOTGUN** serial #3101815, 12 ga., 28" plain barrel choked modified with bright excellent bore. The metal surfaces are an overall plum color patina with spots of light fine oxidation staining near all over. There is a single silver bead front sight. The checkered pistol grip buttstock and forend rate about very good with overall flaking varnish, numerous light dings, and scratches. The shotgun appears to function well mechanically and would make a great foul weather field gun. (107976-2) {C&R} (150/250)
2515. **AMT BACKUP SEMI-AUTO PISTOL** serial #09872, 380 ACP, 2 1/2" barrel with bright excellent bore. The stainless steel surfaces rate very good overall showing several light scratches with spots of light fine oxidation staining. The pistol has fixed sights and black checkered carbon fiber grips that remain in good condition with slightly rounded points, a small chip missing from the bottom of the left panel and numerous light dings. Included with this pistol is a Bianchi right hand #18B leather holster. The holster has a few scuffmarks and the leather is starting to crack along the tie down strap but remains in good overall condition. (108048-#S20149) {MODERN} (50/100)
2516. **STEVENS MODEL 94 BREAK ACTION SHOTGUN** serial #C357255, 12 ga., 26" plain barrel choked cylinder with bright excellent bore. The barrel has an overall plum color patina showing a few light scratches. The hammer, trigger and frame show mottled case-hardened colors with spot of light fine oxidation staining. The barrel has been drilled and tapped for a one piece Weaver that anchors a Bushnell Banner 1.5-4.5X scope with duplex reticle and clear crisp optics. The press-checkered pistol grip buttstock and forend rate excellent showing a few light handling marks, a small chip by the added rear swivel stud and two small stable drying cracks at either side of the wrist. This break action single barrel shotgun has a padded camouflage sling and remains in near excellent condition. (108028-8) {MODERN} (75/100)
2517. **SMITH & WESSON / EASTFIELD MODEL 916 SLIDE ACTION SHOTGUN** serial #B80764, 12 ga., 18" plain barrel choked cylinder with bright excellent bore. The metal surfaces retain 90% original blue finish with areas of silver along the magazine tube and some sporadic spots of light fine oxidation staining. The shotgun has a single brass bead front sight and the smooth hardwood pistol grip buttstock and finger groove forend rate excellent having a few light handling marks. (107963-7) {MODERN} (100/200)
2518. **J.C. HIGGINS MODEL 583.1 BOLT ACTION SHOTGUN** 12 ga., 28" plain barrel choked improved cylinder with bright excellent bore. The metal surfaces are an overall brown color patina with spots of blue showing in protected areas. There are numerous light handling marks and areas of oxidation staining visible and the gun is sighted with a single brass bead front sight. The smooth hardwood pistol grip stock rates excellent showing a light cleaning, a small spot of filler on the right side, and several light handling marks. The shotgun remains in very good overall condition. (108048-17S20154) {MODERN} (75/100)
2519. **TAURUS PT-22 SEMI-PISTOL** serial #06024Z, 22 LR, 2 3/4" barrel with a bright very good bore showing thin rifling. The metal surfaces on this polymer framed pistol retain 85% thinning blue finish with areas of dull gun metal gray showing along the slide and some silvering along the high edges. The pistol has fixed sights and black synthetic grips with Taurus logo that rate excellent. The gun features the Taurus security system and reverse fish scale slide and comes with a correctly labeled factory hardcase, keys, and manual. (108006-1) {MODERN} (100/200)
2520. **NORTH AMERICAN ARMS GUARDIAN SEMI-PISTOL** serial #BC04188, 2 1/2" barrel with excellent bore. The stainless steel finishes on this pistol rate excellent showing only a few minor handling marks. This double action only pistol features fixed sights, black synthetic dimpled grips and a six shot magazine with finger grip extension. Included with this item are two in-the-pocket leather holsters, nylon pistol rug with belt clip, trigger lock, manual, and correctly labeled factory box numbered to the gun. The accessory items are in excellent condition and the box is in very good condition having a few scuffs and a split seam along the top edge. (108021-1) {MODERN} (150/250)
2521. **H&R MODEL 04 LARGE FRAME DOUBLE ACTION REVOLVER** serial #52269, 32 S&W, 2 1/2" barrel with about very good lightly frosted bore. The metal surfaces retain 95% of their nickel finish showing some sporadic light fine oxidation staining and a few light handling marks. The revolver has a fixed blade front sight and black checkered hard rubber grips with the target logos that remain in very good condition having slightly rounded points. This revolver functions in double action only and will need some mechanical attention. (107908-4) {C&R} (75/100)
2522. **H&R AUTOMATIC EJECTING FIRST MODEL REVOLVER** serial #4826, 32 S&W, 3 1/4" barrel with bright very good bore that shows areas of light pitting in the grooves. The nickel finish on this top break revolver rates near excellent showing a few spots of flaking near the muzzle and along the front of the cylinder with some sporadic spots of light fine oxidation staining and has a light turn ring on the cylinder. The double action revolver has a fixed front blade and v-groove rear sight and the barrel-to frame-fit is slightly loose. The black checkered hard rubber grips with target logos rate excellent showing some light wear and rounded points. A very good second variant example overall. (107936-2) {ANTIQUÉ} (100/200)
2523. **H&R AUTOMATIC EJECTING FIRST MODEL REVOLVER** serial #1284, 38 S&W, 3 1/4" barrel with bright very good bore that has spots of pinprick pitting scattered down its length. The nickel finish rates very good with overall spots of flaking, light handling marks, and a turn ring along the cylinder. The double action revolver has a fixed front blade sight with v-groove rear and has a set of mother-of-pearl grips that are nicely fitted to the frame. The grips rate very good overall with some light discoloration and two small chips missing from the left panel. The barrel-to-frame fit remains tight but lock up is slightly loose on this top break second variant revolver. (108006-3) {ANTIQUÉ} (75/150)

2524. **IVER JOHNSON ARMS & CYCLE WORKS SECOND MODEL SAFETY AUTOMATIC REVOLVER** serial #88921, 32 S&W, 3" barrel with dark pitted bore. The nickel finish on this double action hammer revolver rates very good with areas of flaking, oxidation staining, and a turn ring along the cylinder. The hammer and trigger show mottled case-hardened colors and the triggerguard retains near all of its blue finish. The owl heat checkered hard rubber grips rate excellent showing a few light handling marks and slightly rounded points. This would make a good project gun for the budding gunsmith. (107908-5) {C&R} (50/100)
2525. **IVER JOHNSON ARMS & CYCLE WORKS SECOND MODEL SAFETY AUTOMATIC REVOLVER** serial # 95491, 38 S&W, 3 1/4" barrel with dark pitted bore. The revolver retains about 30% nickel finish with loss due to flaking and near overall oxidation. This revolver features a double post latch, fixed sights and has hard rubber checkered owls head grips that rate very good with slightly worn points. The revolver will need mechanical attention as it does not function correctly. This would make a great project for the budding gunsmith to test their abilities with a complete restoration effort. (107893-6) {C&R} (25/50)
2526. **HOPKINS & ALLEN MFG. COMPANY XL DOUBLE ACTION REVOLVER** serial #1066, 32 S&W, 2 3/4" barrel with about good bore showing spots of pitting along its length. The metal surfaces retain about 60% nickel finish with large areas that have flaked and toned to brown. The cylinder is an overall dull gray and brown patina mix with areas of oxidation staining near all over. The revolver will need mechanical attention as it does not always cycle properly. The black hard rubber checkered grips rate excellent with crisp points and a few light handling marks. (107893-2) {ANTIQUÉ} (25/50)
2527. **HOPKINS & ALLEN "LEADER" SPUR TRIGGER REVOLVER** serial # 120, 22 short, 2 1/4" barrel with about good bore that has patches of light pitting down its length. This tiny seven shot revolver is mostly bright gunmetal gray with overall patches of fine oxidation staining and some areas of light pinprick pitting with no original finish left. The hammer and trigger show remnants of case-hardened colors with light fine oxidation and silvering along the edges. The revolver will need mechanical attention as it does not function and the smooth walnut birdshead style grips rate near excellent. (107893-3) {ANTIQUÉ} (25/50)
2528. **IVER JOHNSON MODEL 1900 DOUBLE ACTION REVOLVER** serial #7493, 32 S&W, 2 1/4" barrel with overall dark rusted bore. The revolver retains about 30% flaking and cloudy nickel finish with overall patches of oxidation staining. The revolver still functions occasionally and will require mechanical attention. The hard rubber owl head checkered grips rate very good overall with worn points and a few light handling marks. (107893-7) {C&R} (25/50)
2529. **HARRINGTON & RICHARDSON YOUNG AMERICAN REVOLVER** serial #1246, 22 rimfire, 2 1/4" barrel with dark rusted bore. This third variant double action revolver retains 70% of its original nickel finish with overall handling marks, oxidation staining and flaking. The gun does not function properly and will need mechanical attention. The revolver comes with a set of fancy checkered hard rubber grips that rate very good overall with slightly rounded points and a few light handling marks. (107893-4) {C&R} (25/50)
2530. **IVER JOHNSON AMERICAN BULLDOG REVOLVER** serial #2551, 32 S&W, 32 S&W, 2 7/16" octagon barrel with dark rusted bore. The revolver retains about 70% original nickel finish with loss due to flaking, oxidation and light pitting. The revolver does not function and will need mechanical attention. The eagle design hard rubber grips rate excellent. (107893-5) {ANTIQUÉ} (75/100)
2531. **STOEGER ARMS LLAMA SPECIAL SEMI-AUTO PISTOL** serial #540853, 22 LR, 3 1/4" barrel with bright excellent bore. The metal surfaces retain 85% thinning blue finish with light silvering at the muzzle and along the high edges. The pistol features a fixed front sight with adjustable rear, grip and thumb safety. The brown checkered plastic grips with finger rests and LLama embossed logos rate excellent showing a few light handling marks with overall crisp points. (107752-4) {MODERN} (150/250)

## Edged Weapons

2532. **IMPORTED EAGLEHEAD MOUNTED ARTILLERY OFFICERS SABER** 32 3/4" straight blade, etched and gold washed. The blade has toned to pale brown with scattered fine oxidation, being moderate in areas. The blade has gold gilt etchings of shield, trophies and floral designs and has a slight bend the last 8" of the blade. The brass eaglehead hilt has a single branch guard with curved counter guard, downward quillon and a small brass ring at the top of the guard below the beak. The hilt is decorated with five round beads at the center of the knucklebow and counter guard. The fluted brown horn grip rates excellent with a few light handling marks. The leather buffer washer and scabbard are no longer present. A nice looking Artillery Officers Saber appearing to be of English manufacture. (57526-55) (350/550)
2533. **RANDALL FIREMAN SPECIAL FIXED BLADE KNIFE** This non-cataloged offering measures 8 5/8" overall with a 4" extra thick full tang stainless steel blade equipped with thumb serrations. The blade remains bright and unsharpened. The brass single hilt and lanyard hole bushing remain bright as well and the brown micarta finger grip wraparound handle. Knife includes a Sullivan's high-rise Model B leather sheath with Randall Made marked snap. (57979-1) (400/600)

2534. **RANDALL MODEL 5 CAMP & TRAIL KNIFE** This larger version Camp & Trail Knife measures 10 3/4" overall with a 6" carbon steel blade equipped with thumb serrations. The blade remains unsharpened and bright as does the exposed nut Duralumin butt cap, the brass single hilt shows light tarnish and staining at both ends from years of sheath storage. The stacked leather washer handle rates excellent and is centered between thin red, white and fading blue (black) spacers. Included is a Sullivan's Model A leather sheath with hone in pocket and plain bright snaps. (58012-10) (400/600)

2535. **RANDALL MODEL 2-5 "LETTER OPENER"** This compact stiletto measures 9 1/2" overall with a 5" double edge stainless steel blade. The blade remains unsharpened bright, the brass double hilt and exposed nut buttcap have a tarnished patina with a couple spots of fine pitting from sheath storage. The commando shape stacked leather handle rates excellent and is centered between thin red, white and blue spacers. Included is a Johnson Roughback Model B leather sheath with a plain bright snap. (57895-4) (400/600)

2536. **RANDALL MODEL 5 CAMP & TRAIL KNIFE** This larger version Camp & Trail Knife measures 11 1/8" overall with a 6" carbon steel blade equipped with thumb serrations. The blade remains unsharpened and bright as does the exposed nut Duralumin buttcap, the brass single hilt shows light sheath staining. The stacked leather washer handle rates excellent and is centered between thin red, white and black spacers. Included is a Sullivan's Model A leather sheath with hone in pocket and Randall Made marked snaps. (57895-2) (400/600)

2537. **AL MAR QUEST KUKRI MACHETE KNIFE** This modern Kukri style knife measures 19 3/8" overall with a 13 3/4" curved stainless steel blade equipped with a 11 3/8" sharpened top edge. The blade retains all its bright finish, is maker marked behind the upper cutting edge on the obverse side and is marked "SEKI-JAPAN" on the reverse ricasso. The thick brass guard has a lightly tarnished goldenrod patina and the black Zytel handle rates excellent and is equipped with dual lanyard holes. Included is a black nylon scabbard equipped with a Velcro belt loop and two front accessory pockets having some minor dirt staining. (56019-24J)

2538. **LARGE STAG HANDLE BOWIE KNIFE** This is an unmarked bowie knife with sheath measuring 20" overall with a 15" carbon steel bowie style blade. The blade is unmarked and has a bright pewter patina with scattered fine oxidation staining and scratches along the main edge from being sharpened. The thick oval brass guard has a tarnished ocher patina and the stag handle rates excellent having darkened nicely with age, is fastened by two small brass pins and is separated by a red, white and black spacer collar. Included is an unmarked heavy duty open-throat leather sheath having some light scuffs and stains, the seams remain tight and stitching intact. (56019-24J)

2539. **BUCK CUSTOM 976 DAGGER** This is a Buck Custom 976 dagger with sheath measuring 12 1/2" overall with a 7 1/2" double edge high carbon steel blade. The blade retains all its high polish finish, is numbered "0098" on one of the ricassos with "Buck / CUSTOM / U.S.A." maker marks on both ricassos. The nickel silver guard and domed pommel remain bright and the commando shaped rosewood handle rates excellent with a couple very tiny blemishes. Included is a factory natural colored leather sheath. (56019-24J)

2540. **RH RUANA MODEL 20B FIXED BLADE KNIFE** This is an older Bonner Montana Skinner knife with sheath measuring 9 3/4" overall with a 5" hollow ground high carbon trailing point blade equipped with thumb serrations. The blade remains overall bright with some scattered specks of very light staining and is signed "RH Ruana" along the upper rear edge of the obverse side. The aluminum finger-groove handle remains bright and is marked "RH RUANA / BONNER / MONTANA" on the reverse guard. The polished stag finger grip panels rate near excellent with a couple drying checks and are fastened to the handle with two large bright pins. Knife includes a heavy duty leather sheath with hone in pocket, having a few light stains and verdegriis forming on hardware. (56019-24K)

2541. **VINTAGE REMINGTON MODEL R1253 FOLDING LOCKBACK** This "Guide" knife measures 5 1/4" with a 4 1/4" stainless steel clip point blade. The blade has toned to a smoky gray with scattered oxidation staining, the etched logo and model number remaining only faintly visible. The jugged brown Delerlin scales rate very good plus and are fastened by four bright pins. The scales are centered between lightly mellowed aluminum double bolsters, the obverse scale is decorated with an aluminum bullet shield. An overall very good older Guide knife. (57623-15)

2542. **U.S. MODEL 1855-70 BAYONET** This is a U.S. model 1855-70 socket bayonet commonly used on Civil War rifle-muskets. The bayonet measures 21" overall with a "18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The bayonet has an overall smoky gray patina with areas of brown along the tip and on the socket which also shows some fine pitting and oxidation staining. The face is stamped with an inverted "I.C." above "U.S." and the clasp functions properly, there is no scabbard present. This bayonet came off the Norris & Clement Rifle-Musket in the live auction. (57967-14A) [Larry & David Holmes Collection]

2543. **U.S. MODEL 1855-70 BAYONET BY COLLINS & CO.** This is an original socket bayonet maker marked "C & Co." on the socket. The bayonet measures 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The metal shows marks from being lightly cleaned with some light spots of oxidation staining and the tip is slightly rolled rearwards. "U.S." and "C & Co." markings remain clean with only the lower part of the "S" faded. The clasp rotates freely and there is no scabbard present. A very good maker marked socket bayonet belonging to the Model 1861 contract musket in the live auction. (57967-27A) [Larry & David Holmes Collection]

2544. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet used on Civil War muskets. The bayonet measures 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The bayonet has a bright pewter patina with overall scattered pinprick pitting and oxidation staining with a clear "U.S." marking on the face. The clasp rotates freely and there is no scabbard present. An overall very good musket bayonet that was removed from the Charles Hoard musket in the live auction. (57967-13A) [Larry & David Holmes Collection]

2545. **U.S. MODEL 1855-70 BAYONET** This is an original socket bayonet with scabbard for the 1861 Special rifle-musket. The bayonet measures 21" overall with a "18" blade that is 3/4" wide, has a 3" socket, and a 1 3/16" shank. The bayonet remains bright overall having muted only slightly with scattered fine oxidation staining. The "U.S." marking on the face remains crisp and the clasp rotates freely. Included is a second variation leather scabbard with brass tip chape and leather collar and frog reinforced with copper rivets. The leather shows some light bends and scuffs, the seam remains secure and the tip has loosened but still remains attached. A nice special rifle-musket bayonet and scabbard that was removed from The Colt 1861 Special Rifle-Musket in the live action. (57967-2A) [Larry & David Holmes Collection]

2546. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet with scabbard. The bayonet measures 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The bayonet shows light marks from being cleaned and has toned to bright pewter with scattered specks of light oxidation staining. The face has a large "U.S." and the clasp rotates freely. Included with the bayonet is a second variation leather scabbard with brass tip chape, smooth body, a rough leather collar and frog reinforced with copper rivets. The brass has a lightly tarnished goldenrod patina and the leather shows some light scuffs and minor crazing, the seam remains intact. A very good overall musket bayonet and scabbard removed from the 1861 Springfield musket in the live auction. (57967-16A) [Larry & David Holmes Collection]

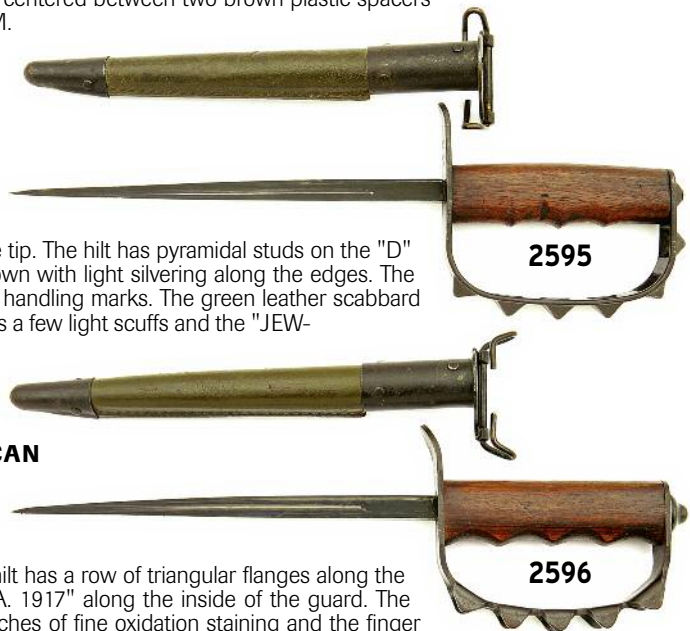

2547. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet used on 1861 & 1863 muskets. The bayonet measures 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The bayonet has an overall brown patina with areas of gray and scattered oxidation staining with a patches of more moderate oxidation in the back flutes and on the socket also showing some fine pinprick pitting. The face is marked with a small "S" under an all but faded "U.S." and clasp rotates freely. There is no scabbard present, an overall very good socket bayonet removed from the E. Robinson 1861 musket in the live auction. (57967-42A) [Larry & David Holmes Collection]
2548. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet commonly found on 1861 and 1863 rifle-muskets. The bayonet measures 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The bayonet shows moderate freckling and pinprick pitting along the face flute, the rear of the flute and face retaining most of its bright finish. The back flutes show matching freckling mainly along the edges and the socket shows light oxidation staining with patches of light flaking and pinprick pitting. The face is marked with a sharp "U.S." and the clasp rotates freely. There is no scabbard present, an overall very good socket bayonet removed from the 1861 Springfield rifle-musket in the live auction. (57967-18A) [Larry & David Holmes Collection]
2549. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21 1/8" overall with an 18 1/8" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The blade has toned to an overall dull pewter with scattered patches of of oxidation staining, the socket and shanks more of a pale brown. The face is marked "I.C. / U.S." and the clasp rotates freely. There is no scabbard present. A nice variation 55-70 bayonet removed from the 1863 type II musket in the live auction. (57967-20A)
2550. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 bayonet with scabbard. The bayonet measures 21" overall with an 18" blade that is 3/4" wide with a 3" socket and a 1 3/26" shank. The blade has a smoky gray patina with scattered oxidation staining and patches of moderate surface oxidation along the edges, the socket and shank have a darker brown patina with patches of gray. The face is marked with a prominent "U.S." and the clasp rotates freely. Included is a Holt's black leather scabbard with brass tip chape and leather frog and collar fastened by two copper rivets. The leather shows light scuffing and crazing with ingrained dirt staining, the collar is marked "HOLT'S" between the two rivets. The seam remains intact, the tarnished brass tip chape is missing the front of the tip and the edges are peeling back. A very good socket bayonet removed from the 1861 Whitney Connecticut contract musket in the live auction. (57967-37A) [Larry & David Holmes Collection]
2551. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and a 1 3/16" shank. The bayonet has an overall brown patina with scattered light oxidation staining becoming moderate in areas. The face is marked with a punch-dot above "U.S." and the clasp rotates freely. There is no scabbard present, a good Civil War socket bayonet that was removed from the "Philadelphia" contract musket in the live auction. (57967-60A) [Larry & David Holmes Collection]
2552. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide with a 3" socket and a 1 3/16" shank. The blade has an overall smoky gray patina with scattered oxidation staining, the socket more of a pale brown. The face is marked "U.S." and the clasp rotates freely. There is no scabbard present, an overall very good socket bayonet removed from the Eagleville 1861 musket in the live auction. (57967-61A) [Larry & David Holmes Collection]
2553. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide with a 3" socket and a 1 3/16" shank. The bayonet has an overall dark brown patina with patches of gray, silvering along the edges and scattered pinprick pitting and oxidation. The face is marked "U.S." and the clasp still rotates freely. There is no scabbard present, a good to very good condition Civil War bayonet removed from the Parker Snow 1861 musket in the live auction. (57967-15A) [Larry & David Holmes Collection]
2554. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and a 1 3/16" shank. The bayonet has a pleasing dark brown patina with a few traces of gray and scattered patches of oxidation staining. The face is "U.S." marked and the clasp rotates freely. No scabbard present, a nice Civil War socket bayonet removed from the Union Arms musket in the live auction. (57967-57A) [Larry & David Holmes Collection]
2555. **ENFIELD STYLE SOCKET BAYONET** This bayonet has the appearance of the standard Pattern 1853 socket bayonet measuring 20 1/4" overall with a blade measuring only 17 1/8" that is 7/8" wide and has a 2 7/8" socket with a rounded 1 1/8" shank. The tip of the blade is slightly bent and could have been professionally shortened during the period of use. The blade is equipped with shallow flutes and ends at a distinct right angle at the shoulder. The bayonet has toned to a smoky gray patina with traces of brown and scattered oxidation staining and pinprick pitting. The face has a fading marking with only what appears to be "\_ &WA" visible. The clasp rotates freely, the screw however shows light slot wear. An interesting import bayonet that was removed from the Whitney smoothbore musket in the live auction. (57967-50A) [Larry & David Holmes Collection]
2556. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet most commonly found on Civil War muskets. The bayonet measures 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and an 1 3/16" shank. The bayonet has an overall smoky gray patina with scattered fine oxidation staining, sparse spots of pinprick pitting and more moderate surface oxidation on the socket, shanks and edge of the blade. The face is "U.S." marked and the clasp is cracked and no longer functions properly. A good to about very good socket bayonet removed from the Whitney Model 1861 "Humpback" musket in the live auction. (57967-47A) [Larry & David Holmes Collection]
2557. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1-55-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and an 1 3/16" shank. The bayonet has an overall brown patina with light scratches and surfaces oxidation primarily in the face flute. The face is marked "U.S." and the clasp is numbered "16" and rotates freely. An overall very good socket bayonet removed from the the 1861 Trenton contract musket in the live auction. (57967-29A) [Larry & David Holmes Collection]
2558. **U.S. MODEL 1873 RIFLE BAYONET** This is a socket bayonet with scabbard for the 45-70 trapdoor rifle. The bayonet measures 21" overall with an 18" shallow face flute blade, a 1 3/16" shank and 3" socket. The blade retains much original blue with some scattered patches of oxidation, the majority of loss due to edge wear and some fading in the back flutes and the right side of the socket. There is a small dot stamped above "U.S." on the face and the clasp rotates freely. Included with the bayonet is a steel scabbard retaining about 60% original black enamel with the exposed metal a pale brown patina. The black leather frog and belt loop show modest crazing but remains intact and is equipped with a "N.G.P." marked brass escutcheon. An excellent bayonet that came off the 1884 Trapdoor rifle (S.N.426179) in the live auction. (57967-43A) [Larry & David Holmes Collection]
2559. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet with scabbard. The bayonet measures 21" overall with a 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The bayonet shows light marks from being cleaned and has toned to bright pewter with scattered specks of light oxidation staining. The face has a large "U.S." and the clasp rotates freely. Included with the bayonet is a second variation leather scabbard with brass tip chape, smooth body, a rough leather collar and frog reinforced with copper rivets. The brass has a lightly tarnished goldenrod patina and the leather shows some light scuffs and minor crazing, the seam remains intact. A very good overall musket bayonet and scabbard removed from the 1861 Springfield musket in the live auction. (57967-16A) [Larry & David Holmes Collection]

2560. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet with scabbard. The bayonet measures 21" overall with an 18" blade that is 3/4" wide, is equipped with a 3" socket and a 1 3/16" shank. The bayonet retains much original blue toning to a mottled brown and gray, the socket is a brighter pale gray with brown highlights. The face is marked "U.S." with a smaller "25 / c" closer to the shank and the socket is marked with a small "R". The scabbard is the second variation with a black leather body, brass tip chape and black leather collar and frog reinforced with copper rivets. The body is moderately crazed and flaking leaving a dark brown rough surface, the seam remains intact. The tip chape has a nice ochre patina and the collar and frog is a much thicker dark leather and possibly a later replacement. A nice socket bayonet with scabbard that was removed from the 1864 dated Providence rifle-musket in the live auction. (57967-22A) [Larry & David Holmes Collection]
2561. **U.S. MODEL 1855-70 BAYONET** This is a modified U.S. Model 1855-70 socket bayonet measuring 18 1/2" overall with a shortened 15 1/4" blade that is 3/4" wide with a 3" socket and a 1 3/16" shank. The formed tip is slightly rounded and the bayonet has an overall brown patina with light tip and edge wear and scattered surface oxidation. The face is "U.S." marked, the clasp rotates freely and there is a small hairline crack in the lower left corner of the mortise. There is no scabbard present, a good to very good shortened socket bayonet removed from the Schubarth contract musket in the live auction. (57967-21A) [Larry & David Holmes Collection]
2562. **U.S. MODEL 1855-70 BAYONET BY COLLINS & CO.** This is an original socket bayonet maker marked "C & Co." on the socket. The bayonet measures 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The metal shows marks from being lightly cleaned with some light spots of oxidation staining and the tip is slightly rolled rearwards. "U.S." and "C & Co." markings remain clean with only the lower part of the "S" faded. The clasp rotates freely and there is no scabbard present. A very good maker marked socket bayonet belonging to the Model 1861 contract musket in the live auction. (57967-27A) [Larry & David Holmes Collection]
2563. **U.S. MODEL 1855-70 BAYONET BY COLLINS & CO.** This is a Model 1855-70 socket bayonet maker marked "C & CO" on the socket. The bayonet measures 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The bayonet has a pale gray patina with scattered oxidation staining, a couple patches of more moderate oxidation along the edges and light cleaning marks on the face flute. The face is marked "U.S." with the "U" fading slightly and the clasp rotates freely. There is no scabbard present, an overall very good maker marked Civil War bayonet removed from the Whitney Manton rifle-musket in the live auction. (57967-49A) [Larry & David Holmes Collection]
2564. **U.S. MODEL 1835-1842 SOCKET BAYONET** The blade measures 18" with full flutes and a wide back flute measuring 16 1/2" ending with a large "U.S.". The socket measures 2 5/8" in length with a 3/4" diameter bore and a straight 1 1/2" shank. The surfaces have toned to gray with patches of brown within the flutes and a few sparse spots of fine pinprick pitting and oxidation staining. There is no scabbard present, a nice socket bayonet for the model 1835 and 1842 musket. (57586-108)
2565. **U.S. MODEL 1835-1842 BAYONET** This is a modified U.S. Model 1835-1842 socket bayonet measuring 18" overall with a shortened 15 1/4" blade that is 7/8" wide and has a 2 5/8" socket and a straight 1 7/8" shank. The bayonet has toned to gray with scattered fine oxidation, the socket is a slightly darker pale brown. The face is "U.S." marked and the clasp rotates freely. An overall very good shortened socket bayonet removed from the 1842 Springfield musket in the live auction. (57967-9A) [Larry & David Holmes Collection]
2566. **U.S. MODEL 1855-70 BAYONET BY COLLINS & CO.** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and a 1 3/16" shank. The blade has a pale gray patina with scattered light staining, the socket, shank and rear of the face is a mixture of pale gray and brown. The face is "U.S." marked and "C & Co." is marked on the socket. A good to very good maker marked socket bayonet that was removed from the 1861 Norfolk contract musket in the silent auction. (57967-24A) [Larry & David Holmes Collection]
2567. **U.S. MODEL 1855-70 BAYONET** This is a Model 1855-70 Civil War socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The bayonet is toning to an overall pale gray with scattered oxidation staining and a mixture of brown on the shank and socket. The face is "U.S." marked and the clasp rotates freely. A very good condition socket bayonet overall removed from the 1863 Type I Springfield musket in the live auction. (57962-11A) [Larry & David Holmes Collection]
2568. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and a 1 3/16" shank. The bayonet has an overall dark brown patina with some scattered surface oxidation and traces of silver paint on the rear of the socket. The face is "U.S." marked and the clasp rotates freely. An overall very good socket bayonet removed from the Robinson contract musket in the live auction. (57967-23A) [Larry & David Holmes Collection]
2569. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and a 1 3/16" shank. The bayonet has a mottled smoky gray patina with traces of brown on the socket. The face is marked with a punch dot over "U.S. / S" and there is a small "A" at the rear of the socket and the clasp rotates freely. A very good plus socket bayonet that was removed from the 1864 dated Mowry musket in the live auction. (57967-63A) [Larry & David Holmes Collection]
2570. **U.S. MODEL 1855-70 BAYONET** This is an U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and a 1 3/16" shank. The socket is toning to bright pewter with traces of brown along with some scattered oxidation staining a little more prevalent on the socket. The face is marked with a light "U.S." and the clasp rotates freely. Overall a very good socket bayonet removed from the Whitney Flush Lock musket in the live auction. (57967-39A) [Larry & David Holmes Collection]
2571. **U.S. MODEL 1855-50 BAYONET** This is a U.S. Model 1855-70 socket bayonet commonly used on .58 caliber Civil War muskets. The bayonet measures 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and a 1 3/16" shank. The bayonet is toning to an overall bright gray with scattered light oxidation staining and thin brown highlights on the socket. The face is "U.S." marked and the clasp operates freely. A nice looking socket bayonet removed from the 1855 rifle-musket in the live auction. (57967-3A) [Larry & David Holmes Collection]
2572. **U.S. MODEL 1855-70 BAYONET BY AMOSKEAG** This is a U.S. Model Model 1855-70 socket bayonet with Amoskeag Mfg. markings. The bayonet measures 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and a 1 3/16" shank. The bayonet has to toned to a pale gray patina with scattered spots of light oxidation staining, the socket and shank are a more pale brown and gray. The face is marked "U. [star] S"; and the clasp rotates freely. A very good plus socket bayonet removed from the Amoskeag Special 1861 musket in the live auction. (57967-6A) [Larry & David Holmes Collection]
2573. **U.S. MODEL 1855-70 BAYONET BY COLLINS & COMPANY** This is a U.S. Model 1855-70 socket bayonet maker marked "C & CO" on the socket. The bayonet measures 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and a 1 3/16" shank. The bayonet has toned to a bright silver patina with some scattered oxidation staining, a little more prevalent on the socket which also shows some fine pinprick pitting. The face is "U.S." marked and the clasp rotates freely. Included with the bayonet are remnants of a heavily crazed black leather scabbard with separating seam missing the tip chape and frog. A very good plus Collins & Co. socket bayonet that accompanied the Whitney Model 1855 musket. (57967-53A) [Larry & David Holmes Collection]

2574. **U.S. MODEL 1855-70 BAYONET BY COLLINS & COMPANY** This is a U.S. Model 1855-70 socket bayonet with scabbard. The bayonet measures 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and an 1 3/16" shank. The bayonet has a mottled gray patina with scattered pinprick pitting along the edges of the blade and on the socket which along with the shanks has toned to a pale brown. The face is marked "U.S.", the socket has "C & CO" maker mark and the clasp rotates freely. Included with the bayonet is a second variation leather scabbard with brass tip chape, smooth body, a rough leather collar and frog reinforced with copper rivets. The brass has a lightly tarnished goldenrod patina and the leather shows some light scuffs and minor crazing, the seam remains intact. A very good overall musket bayonet and scabbard removed from the 1861 Norwich musket in the live auction. (57967-40A)
2575. **U.S. MODEL 1855-70 BAYONET BY COLLINS & COMPANY** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and an 1 3/16" shank. The bayonet has toned to a pale gray and brown with some scattered fine oxidation staining and light pinprick pitting on the socket. The face is marked "U.S.", the right side of the "S" has faded, the socket is marked "C & CO" and the clasp rotates freely. An overall very good Collins socket bayonet removed from the Whitney Enfield style musket in the live auction. (57967-36A) [Larry & David Holmes Collection]
2576. **U.S. MODEL MODEL 1855-70 BAYONET BY COLLINS & COMPANY** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and a 1 3/16" shank. The blade has a smoky gray patina with scattered oxidation staining, slightly more modest in areas; the socket and shank a much darker chocolate brown. The face is marked with a light "U.S." the S all but gone and the socket has "C & CO" Collins maker mark. A very plus Collins socket bayonet removed from the 1862 dated Windsor Locks musket in the live auction. (57967-56A) [Larry & David Holmes Collection]
2577. **U.S. MODEL 1863 RIFLE BAYONET** This is a U.S. Model 1863 Zouave rifle bayonet with scabbard. The bayonet measures 24 13/16" overall with an 20 3/16" blade that is 1 1/16" wide and has a 4 3/4" brass hilt equipped with a grooved grip and a muzzle ring guard ending with a disk shaped finial. The unstopped fuller blade has toned to a gray patina with moderate surface oxidation at the tip. The hilt has a tarnished ochre patina with some tiny light impact marks and is marked "B.H." on the upper grip flat. Included is a black leather scabbard with a brass frog stud collar and tip chape. The leather shows light scuffing and staining and the brass ends have a pleasing dark ochre patina, the leather backed tip has separated but is present. An overall good to very good 1863 rifle bayonet removed from its Zouave rifle in the live auction. (57967-8A) [Larry & David Holmes Collection]
2578. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and an 1 3/16" shank. The bayonet has acquired an overall brown patina with some light pinprick pitting and oxidation primarily on the socket. The face is "U.S." marked, the center of the face flite is lightly etched " \_ \_ Rand" in script, the first two letters can not be determined. The clasp rotates freely, an overall very good socket bayonet removed from the Savage 1861 contract musket in the live auction. (57967-41A) [Larry & David Holmes Collection]
2579. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and an 1 3/16" shank. The bayonet has a gray-brown patina with scattered fine oxidation and patches of pinprick pitting. The face is marked "U.S." and the clasp rotates freely. An overall very good socket bayonet removed from the Lamson, Goodnow & Yale special 1861 musket in the live auction. (57967-10A) [Larry & David Holmes Collection]
2580. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and an 1 3/16" shank. The bayonet has an overall dark brown patina with scattered fine oxidation. The face is marked "U.S." and the clasp rotates freely. An overall very good socket bayonet removed from the 1864 dated Lamson, Goodnow & Yale Special 1861 musket in the live auction. (57967-7A) [Larry & David Holmes Collection]
2581. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide and has a 3" socket and an 1 3/16" shank. The blade has toned to a mottled gray patina with some scattered very fine oxidation staining, the shank and socket a darker pale brown. The face is marked "U.S." and the clasp rotates freely. An overall very good plus socket bayonet that was removed from the Alfred Jenks Bridesburg musket in the live auction. (57967-19A) [Larry & David Holmes Collection]
2582. **U.S. MODEL 1851 CADET BAYONET** This is a U.S. model 1851 Cadet socket bayonet measuring 17 3/8" overall with a 14 1/2" blade that is 3/4" wide and has a 2 5/8" socket and a 1 3/8" shank. The bayonet is unmarked with no face markings and is lightly fading to gray and brown with scattered patches of light oxidation, the clasp rotates freely. A very good bayonet removed from the 1853 dated cadet musket in the live auction. (57967-4A) [Larry & David Holmes Collection]
2583. **U.S. MODEL 1841 BAYONET** This is a Model 1841 Saber bayonet measuring 24 7/8" overall with a 20" yataghan style blade and a one piece solid brass hilt. The blade is toning to bright pewter with scattered fine staining and is unmarked. The grooved brass hilt has a nicely tarnished patina with a few light impact marks and is numbered "495" on the topstrap. A near excellent Mississippi bayonet that was removed from the Whitney 1841 rifle in the live auction. (57967-55A) [Larry & David Holmes Collection]
2584. **U.S. MODEL 1855-70 BAYONET** This is a U.S. Model 1855-70 socket bayonet measuring 21" overall with an 18" blade that is 3/4" wide, has a 3" socket and an 1 3/16" shank. The blade is mottled gray with scattered oxidation and pinprick pitting, the socket and shank are a much darker brown. The face is marked "U.S." and the clasp rotates freely. A good to very good bayonet removed from the Sarson & Roberts musket in the live auction. (57967-54A)
2585. **BRITISH PATTERN 1856 ENFIELD BAYONET** This is a Pattern 1856 Enfield saber bayonet with scabbard used by both sides during the Civil War. The bayonet measures 28 1/8" overall with a 22 5/8" yataghan style blade and is equipped with an iron hilt. The metal surfaces have toned to pewter with scattered pinprick pitting and oxidation staining. The blade is marked with a knight head maker mark on one side of the ricasso and crown over "20" on the other ricasso. The checkered black plastic grips show moderate wear with smooth checkering, numerous chips and areas of loss at the spring mounting point. The black leather scabbard with iron ends show moderate crazing a scuffing to the leather and the ends fading to gun metal with patches of modest oxidation staining. A fair to good saber bayonet removed from the Whitney Enfield style musket in the live auction. (57967-35A) [Larry & David Holmes Collection]
2586. **U.S. MODEL 1855 BAYONET** This is a Model 1855 saber bayonet measuring 30 1/8" overall with a 25 1/4" blade and a cast brass hilt. The blade has toned to pewter with light marks from being cleaned, still showing modest pinprick pitting the first 12" of the blade and on the ricasso; the blade is unmarked. The cast brass hilt is bright goldenrod with some scattered light handling marks and spots of pitting, the topstrap is numbered "1". There is no scabbard present, an about very good condition saber bayonet that was removed from the Confederate altered Whitney Mississippi rifle in the live auction. (57967-17A) [Larry & David Holmes Collection]
2587. **U.S. MODEL 1855 BAYONET** This is an unmarked 1855 saber bayonet measuring 24 3/8" overall with a 19 5/8" blade with a squared broken tip and a cast brass hilt. The blade has toned to bright pewter with scattered fine oxidation becoming moderate at the tip. The hilt has a lightly tarnished ochre patina. An about good condition 1855 saber bayonet that was removed from the Robbins, Kendall & Lawrence Mississippi rifle in the live auction. (57967-25A) [Larry & David Holmes Collection]
2588. **U.S. MODEL 1835 & 1842 BAYONET** This is a socket bayonet for both U.S. Model 1835 & 1842 muskets. The bayonet measures 20 5/8" overall with an 18" blade that is toning to gray and brown with scattered oxidation staining becoming moderate in areas. The face is "U.S." marked and the clasp shows modest oxidation but rotates freely. A good condition socket bayonet removed from the 1842 Harpers Ferry musket in the live auction. (57967-32A) [Larry & David Holmes Collection]

2589. **ENFIELD STYLE SOCKET BAYONET** This bayonet has the appearance of a standard Pattern 1853 socket bayonet measuring 20 7/6" overall with a 17 1/2" blade that is 3/4" wide, has a 3" socket and a rounded 1 3/8" shank. The blade is equipped with shallow flutes and ends at a distinct right angle at the shoulder. The blade has toned to pale gray with brown highlights and scattered oxidation staining, the socket and shank an overall pale brown with a couple spots of oxidation. The face is marked "J II" and the shoulder is marked "TD" at the end of the blade; the clasp rotates freely. An overall very good plus Enfield bayonet that was removed from the Orson Blunt Enfield musket in the live auction. (57967A) [Larry & David Holmes Collection]
2590. **U.S. MODEL 1862 BAYONET** This is a Model 1862 socket bayonet for the H&P converted 1816 musket. The measures 21 1/4" overall with a 17 7/8" blade that is 7/8" wide, has a 3" socket and a 1 7/16" shank. The bayonet remains bright overall with scattered traces of brown and fine oxidation staining. The blade is equipped with a shallow full face flute and is marked "U.S." at the rear of the face. An overall very good plus socket bayonet that was removed from the Hewes & Phillips converted 1816 musket in the live auction. (57967-62) [Larry & David Holmes Collection]
2591. **U.S. MODEL 1917 BAYONET** This is a U.S. Model 1917 bayonet by Winchester with scabbard. The bayonet measures 21 5/8" overall with a 16 7/8" unstopped fuller blade marked "1917 / W" in circle on the reverse side and eagle head next to ordnance bomb / "U.S. and "X" bend test mark on the obverse side. The blade has a dull pewter patina with a couple light stains and the ricasso retains all its original blue. The hilt retains 95-97% original blue, loss due primarily to edge wear; pommel is equipped with a cleanout hole. The double groove walnut grips rate excellent with a couple minor blemishes. The green painted leather scabbard with steel throat and tip rate near excellent with intact seams and light scuffing and flaking on the leather and metal. (56019-24A)
2592. **U.S. MODEL 1917 BAYONET** This is an U.S. Model bayonet by Winchester with scabbard. The bayonet measures 21 5/8" overall with a 16 7/8" unstopped fuller blade marked "1917 / W" in circle on the reverse side and eagle head next to ordnance bomb / "U.S. and "X" bend test mark on the obverse side. The blade has been cleaned and is now bright pewter with evidence of scattered pinprick pitting and some light staining and the ricasso is lightly toning to a pale brown patina with patches of flaking black enamel. The pommel and guard retain about 90% added green enamel with edges and contact points toning to gray with traces of original blue. The pommel is equipped with an oil hole and is numbered "261" on the obverse side. The double groove walnut grips rate very good plus with light handling marks. The green painted leather scabbard with steel throat and tip rate excellent with intact seams and a couple scuffs to the leather. (56019-24C)
2593. **U.S. MODEL KRAG BAYONET** This is a U.S. Model 1892-1898 Krag bayonet with scabbard. The bayonet measures 16 1/8" overall with an 11 1/2" stopped fuller blade. The 1898 dated bright steel blade is mellowing slightly with scattered staining light scratches and a bent tip. The pommel and guard have an overall dull brown patina with scattered specks of oxidation staining and an occasional impact mark. The walnut grips rate very good plus with a few light handling marks and are numbered "293" on the right panel. The scabbard is of the second type with a closed spring belt hook. The scabbard retains about 90% original blue toning to brown with scattered oxidation staining and a couple patches of more moderate oxidation at the throat and on the spring clip. (56019-24B)
2594. **U.S. M4 BAYONET BY KIFFE** This is a U.S. M4 bayonet by the Kiffe Co. in Japan with scabbard. The bayonet measures 11 1/2" overall with an 6 5/8" spear point blade. The metal surfaces retain about 95% original blue with scattered light oxidation, the blade has toned to a plumb brown with light scabbard wear and there is a little more modest oxidation on the guard. The reverse ricasso is marked "KIFFE / JAPAN". The stacked leather washer washer handle is centered between two brown plastic spacers and rates near excellent with a scuff in the middle band. The B.M. Co. U.S. M8 green bodied scabbard is a Type I style without hook attachment on the O.D. canvas frog. The scabbard rates very good plus with a small chip along the edge and the steel throat toning to a pale brown patina. (56019-24D)
2595. **U.S. MODEL 1917 TRENCH KNIFE BY L.F. & C.** This is a WWI trench knife by L.F. & C. with scabbard and measures 14 1/4" overall with a 9 1/4" triangular blade. The blade retains about 95% original blue with loss due to light scabbard marks on the facets and tiny light dings along the edges about 2" from the tip. The hilt has pyramidal studs on the "D" shaped guard and retains about 80% original blue toning to brown with light silvering along the edges. The walnut fingergroove grips rate near excellent with a couple light handling marks. The green leather scabbard with steel throat and chape rate near excellent. The leather shows a few light scuffs and the "JEWELL-1918" marking has all but faded with date lightly visible. The metal ends are lightly fading to brown and one of the tip chape pins is loose but intact. A near excellent Landers, Frary & Clark trench knife. (56019-24E)
2596. **U.S. MODEL 1917 TRENCH KNIFE BY AMERICAN CUTLERY CO.** This is a WWI trench knife by the American Cutlery Co. with scabbard and measures 14 1/8" overall with a 9" triangular blade. The blade retains about 85% original blue lightly thinning to brown, loss due to scabbard wear on the facets and some minor oxidation staining along the edges. The hilt has a row of triangular flanges along the edges of the "D" shaped guard and is marked "A.C. CO. U.S.A. 1917" along the inside of the guard. The guard retains about 90% original blue toning to brown with patches of fine oxidation staining and the finger groove walnut grips rate excellent. The green leather scabbard with steel throat and chape rate excellent with a few minor scuffs, oxidation staining and crisp "JEWELL-1918" marking. An excellent A.C. Co. variation trench knife. (56019-24F)
2597. **U.S. MODEL 1910 BOLO KNIFE** This is Model 1910 bolo knife by Springfield Armory with scabbard. The knife measures 15" overall with a 10 1/4" full tang blade. The blade rates about very good retaining about 40% original blue toning to gray and brown with scattered oxidation staining and pinprick pitting, a couple light chips and modest scuffing along the main edge from being sharpened and moderate dents and impact marks along the spine from use. The blade is marked "S A / [ordnance bomb] / 1917" at the obverse rear of the blade while "U.S. / 42301" is marked on the reverse side. The guard and pommel have toned to a brown patina and the thumb release catch has been removed. The finger groove walnut grips rate about very good showing modest wear, light chips and dents along the spine and "EPH" incise carved in the left panel. The scabbard is of the first type with brass body and a tan canvas covering with leather tip and wire hook attachment. The scabbard rates very good overall with light staining, fading cartouche on the tip and previous owners name written on the rear of the webbing. (56019-24G)

2598. **U.S. MODEL 1904 HOSPITAL CORPS KNIFE** This Hospital Corps knife measures 17 1/4" overall with a 12" full tang round point blade. The blade has toned to a bright patina with some scattered spots of fine staining, some minor scuffing along the main edge from being lightly sharpened and some tiny impact marks along the spine; the tang has toned to gray with fine oxidation staining. The obverse ricasso is dated "1905 and the reverse side is marked "U.S. / 4080" at the rear of the blade. The "S" shaped brass guard has a nicely mellowed goldenrod patina with some tiny impact marks and spots of staining. The one piece finger groove walnut handle rates excellent with a couple light handling marks and is equipped with a brass buttcap and brass lined lanyard hole. The handle is fastened by three large brass rivets, the center washer is missing on the obverse side and has a poured lead repair. The heavy duty brown leather scabbard is of the early style equipped with a leather belt loop and a brass throat. The scabbard is in near excellent condition with intact seams, light staining and scuffing, the belt loop shows minor crazing but leather remains soft and flexible; the brass throat and hardware have a darkened brown patina. The rear of the belt loop is stamped "ROCK ISLAND / ARSENAL / 1908. / H.E.K." and "HRT" is stamped on the body just below the belt loop. (56019-24H)
2599. **U.S. BAYONET LOT** This lot consists of a Collins made bayonet for the Remington Zouave rifle. The blade measures 22 1/2" and it appears lightly cleaned and shows scattered light pitting and freckling and it is marked "COLLINS & CO./HARTFORD/CONN". The brass handle is turning a mottled yellow patina with scattered oxidation staining and light dings. No scabbard is included with this bayonet. (207536-76)
2600. **FRENCH BAYONET LOT** This lot consists of a French Model 1866 bayonet for the Chassepot rifle. The blade measures 22 1/2" and is turning a dull brown patina throughout with scattered oxidation stains. The French markings on top of the blade are partially visible and the crossguard is marked "E15928". The brass handle is turning a mottled yellow patina and shows oxidation staining and light dings. No scabbard is included with this bayonet. (207536-80)
2601. **TURKISH BAYONET LOT** This lot consists of a Turkish M1874 bayonet for the Martini-Peabody rifle. The blade measures 22 1/2" and has been cleaned and its finish is turning a brown patina with scattered oxidation staining, pitting and a few chips on the underside. The crossguard and pommel are turning a silver pewter with oxidation staining and pitting. The checkered walnut grips rate fair showing a poor fit, several missing chunks, chips and areas of flattened checkering. No scabbard is included with this bayonet. (207536-79)
2602. **MARBLES SAFETY AXE** This lot consists of a Marbles No. 2 Safety Axe. The axe measures 10 1/2" in length and the axe shows scattered scratches, oxidation staining and some wear at front from safety guard. The hard rubber grips rate very good showing a few handling marks, flattening points and dings. The safety handle markings are partially obscured but the patent date appears to be 1898 and the address is Gladstone, Michigan. A fine condition vintage Marbles Safety Axe. (206643-8)
2603. **U.S. BAYONET LOT** This lot consists of a U.S. M4 Bayonet for the M1 Carbine and M8A1 scabbard. The M4 bayonet blade measures 11 1/2" overall with a 7" blade. The blade rates very good plus overall showing a minor oxidation stain and scattered silvering. The crossguard is maker marked by Conetta and it also rates very good plus showing light silvering as does the pommel which shows silvering and light oxidation stains. The black plastic handles rate near excellent showing a few light handling marks. The M8A1 scabbard is maker marked "PWH" and the metal parts show light silvering, while the canvas parts show edge wear and light staining. (207399-9B)
2604. **U.S. BAYONET LOT** This lot consists of a U.S. M1905 shortened bayonet made by Utica Cutlery. The blade measures 10" and is dated 1943 and it has a faint Ordnance Wheel marking on the opposite side of the date. The blade shows a balance between silver pewter and a brown patina with some light oxidation stains and it appears to have sharpened. The pommel shows oxidation staining and light pitting throughout, while the crossguard has turned a silver pewter with scattered oxidation staining. The ribbed plastic handles rate about very good showing some scattered stains, handling marks and dings. The metal parts of the scabbard appear to have been polished armory bright and show oxidation staining. The hard plastic scabbard shows scratches, stains and wear from the years. (207399-9C)
2605. **U.S. BAYONET LOT** This lot consists of an 1855/70 socket bayonet, scabbard and frog. The bayonet has turned a dull brown patina and shows scattered light oxidation spots. The blade is marked "US" and there are the remnants of a piece of cellophane on socket. The leather frog has a brass button marked "USN" and this button shows oxidation staining. The frog shows crazing and creasing throughout. The steel scabbard has turned a dull brown patina and also has oxidation staining throughout. (206754-11A)
2606. **U.S. BAYONET LOT** This lot consists of an 1855 cadet style bayonet, frog and scabbard. The bayonet has turned a brownish patina and shows scattered oxidation and oxidation staining. The blade is marked "JD/SN" and the blade measures 16", while the face flute measures 13 3/4" and it is likely a cut down version of a standard 1855 bayonet to cadet length. The leather frog appears to be missing a large part of leather, and it exhibits tears, creases and crazing throughout. The leather scabbard shows crazing throughout, while the brass scabbard tip has turned a brown patina with oxidation staining throughout. (206754-11B)
2607. **U.S. BAYONET LOT** This lot consists of an 1835/42 socket bayonet and scabbard. The bayonet has turned a dull brown patina and shows scattered silvering, staining and some oxidation. The blade is marked "US" and there are the remnants of cellophane tape on top of the socket. The brass parts of the scabbard have mostly turned a dull brown patina showing oxidation staining throughout with the tip being bent. The top brass part shows four dents and the leather scabbard is bent and shows crazing and wear throughout. (206754-11C)
2608. **U.S. BAYONET LOT** This lot consists of an 1873 bayonet, leather frog and steel scabbard. The bayonet retains 85% of the original blue with freckling on socket and blade and some silvering on underside of blade. The leather frog has a brass "US" marked button that is turning a mottled yellow patina and it shows some light oxidation staining. The leather frog shows crazing and flaking throughout. The steel scabbard is missing its tip but it has turned a dull brown patina with scattered oxidation staining. (207665-10A)
2609. **REPLICA SWORD LOT** This lot consists of two Spanish made replica side swords. Both swords are maker marked "M. Garcia" and "Toledo" and they measure 38" in length with 31" blades. The first sword is a plain in-the-white blade and scabbard that shows scattered scuff markings and scratches. The black nylon handle shows some fibers and it has an area of scotch tape added for stability and the leather scabbard shows scattered dents and scratches. The second sword is half in-the-white and half florally engraved and it shows scattered light oxidation staining and freckling. The black string nylon handle appears mostly intact, while the brass tips of the scabbard show oxidation staining and the leather scabbard shows scattered dents, dings and flaking finish. (207240-57)
2610. **BAYONET LOT** This lot consists of three various socket bayonets. The first bayonet is similar in style to the British P.1842 Sergeants bayonet and it measures 20" in length with a 15" in blade and 3 3/4" socket. The bayonet lacks a locking ring and it has turned a dull brown patina with oxidation and staining throughout. The second bayonet is similar in style to the 1842 Austrian bayonet, lacks a locking ring and it measures 22 1/4" overall with a 18 3/4" blade and a 3 1/3" socket. The blade has turned a dull brown patina with oxidation throughout. The third bayonet appears to be some sort of cadet bayonet and it has been chrome plated. This bayonet appears to have once had a locking ring but it is now missing and it measures 17" overall with a 14" blade and 3" socket and the finish shows scattered oxidation staining. (206754-11)
2611. **U.S. BAYONET LOT** This lot consists of a U.S. Model 1892 bayonet and scabbard for the U.S. Krag family of rifles. The blade is dated 1898 and shows scattered light oxidation staining, dried grease and silvering scratches. The crossguard and pommel are turning a dull gray patina with oxidation staining throughout. The rivets also show oxidation staining throughout, while the walnut handle rates very good with an armory added oil finish, two 1" long scratches on right panel, scattered dings, handling marks, smaller scratches and abrasions. The steel scabbard is turning a dull brown patina with oxidation staining throughout, some scattered scratches and silvering. This bayonet and scabbard would go well with any of the Krag rifles in the live auction. (207967-46A)

2612. **FOLDING KNIFE LOT** This lot consists of (3) folding knives and (1) fixed blade. Included are (2) Frost Cutlery model 15-327B "The Ventilator" folding lockback knives in the factory box featuring 2 1/2" half serrated clip style blades with the elongated thumb hole for easy opening. They rate near excellent with light handling marks and stains. Also included is (1) unmarked drop point knife model #1501 in unused but good condition. It features a 2 1/4" drop point blade with a few light handling marks. The left scale is lifted at the rear and starting to warp towards the front. (1) unmarked partially completed bowie style knife made from a file with an 8 1/4" clip point blade and 3 5/8" x 9/16" tang with light oxidation stains and tool marks. (86945-8R)
2613. **MONTERO MACHETE AND SHEATH LOT** This lot consists of a single 24" Montero machete with black synthetic handle held on with four rivets. The edge is not sharpened but should work up to a great edge with a little effort. The machete includes a well-constructed leather sheath with decorative leather rosettes and tassels. The word "HONDURAS" is stamped on the face of the sheath. The sheath exhibits light storage wear but should clean up nicely. The perfect combination for your next trip into the pucker brush. (87899-7)
2614. **BRITISH MODEL 1907 BAYONET LOT** This lot consists of a single British sword-bayonet Pattern 1907, MKI by Sanderson with Remington MkII sheath numbered 144 on the frog stud. The bayonet measures 21 1/2" overall with a 17" blade. The blade has been lightly cleaned to pewter with scattered dark stains from oxidation and pinprick pitting with the pommel brown. The wood grips rate very good too excellent with a few light dings and handling marks. The sheath has a blue steel locket and external chape with about 95% finish remaining with light high edge wear and a few handling marks. The leather rates very good too excellent with light handling marks. (87899-3)
2615. **JAPANESE TYPE 30 BAYONET LOT** This lot consists of a single Japanese Type 30 bayonet with hooked quillon by Toyada Jidoshoki Seisakusho under Nagoya Arsenal supervision and with sheath. The bayonet measures 20" overall with a 15 5/8" blade. The metal surfaces retain about 95% original blue with light operational wear on the blade and the pommel fading to purple. The wood grip rates very good with light dents, dings and scratches. The metal sheath retains about 95% blue finish with light oxidation blemishes and handling marks but is starting to fade to purple from handling. A nice example of an Arisaka bayonet. (87899-4)
2616. **JAPANESE TYPE 30 TRAINING BAYONET** This lot consists of one unmarked straight quillon Japanese Type 30 training bayonet with no arsenal markings and sheath. The gunmetal gray unsharpened blade has been lightly cleaned with scattered pitting, stains from oxidation, scratches, dents and dings from use. The metal on the handle is mostly brown with traces of original blue finish on the cross-guard. The wood grips rate very good with light handling wear but there is a light repair to the grip screws. The metal sheath retains about 97% original black finish with light handling marks. (87898-5)
2617. **U.S. MODEL 1873 SOCKET BAYONET LOT** This lot consists of a single U.S. marked model 1873 socket bayonet. The metal surfaces retain a few traces of blue on the blade with the remainder worn to pewter. The metal surfaces have scattered pitting, stains from oxidation and the socket is brown with a few traces of blue. The blade measures 18" with an overall length of 21". The locking ring is present and the blade is marked "US / J". No sheath is present. (87898-8)
2618. **CONTEMPORARY GERMAN "SA" BAYONET** This lot includes a K98 bayonet with scabbard. The bayonet measures 14 1/2" overall with 9 3/8" etched blade. The metal surfaces retain most of their nickel-plated finish that has turned cloudy with areas of oxidation staining and flaking. The blade has post war modern style etching on both sides, with "SA Standarte-"Feldherrnhalle-"(swastika) on one and "SA- Ulles Fur Deutchland-SA" on the other. The pommels etched with (swastika) / "SA", and the ring cut and a heat shield added along the spine. The blade number does not match the guard and the handles were cleaned, leaving them shy of the metal. Included with this bayonet is a blued finish metal scabbard that has several light scratches and spots of oxidation staining. Both items remain in very good condition. (107536-56)
2619. **WINCHESTER MODEL 1866 SOCKET BAYONET**  The metal surfaces on this angular bayonet rate near excellent showing overall scattered spots of oxidation staining with numerous light handling marks visible. There are no markings visible and the overall measurement is 17 3/4" with 14 1/8" full-face fluted blade. The inside socket diameter is .625" and it measures 2 21/32" overall in length. This is an overall excellent example. (107934-2A)
2620. **CHINESE AKS 56-1 BAYONET** This 80's era import bayonet is a copy of the Russian made variation that is without the saw back and measuring 10 5/8" overall with an unmarked bowie style blade that measures 5 1/4". The edge shows light hone marks and the blade shows numerous little scratches from use and a couple spots of light oxidation staining. The hard black plastic sheath and molded handle rate excellent. (107885-22A)
2621. **MODEL 1863 SOCKET BAYONET** This lot includes a C. & CO., marked bayonet for a Sharps Model 1863 percussion rifle. The bright finish bayonet measures 20 3/4" overall with a 3" socket that has an L shaped mortise and .830" bore. The angular blade measures 17 7/8" with a 16 7/8" flute along the face and has a 1 1/16" shank. There are spots of light fine oxidation staining scattered near all over and this bayonet remains in excellent condition. (107967-1A)
2622. **GERMAN K98 BAYONET** This lot includes a W.K.C. marked bayonet with scabbard and leather frog which accompanied lot 277 in the live auction. The German G41(W) that was brought back by James Boyd, USN, from Algeria Africa while aboard the U.S.S. Lakehurst. The bayonet is numbered 4319n and has several Waffenam markings along the handle. There are several small handling marks along the handles with two small chips missing near the rear screw on the left side. The scabbard has been cleaned and is numbered "8735j" and remains a dull grey color. The leather frog shows some light flaking and is dated "1940". The stitching is tight and the leather supple and the lot remains in overall excellent condition. (107769-1A)
2623. **LOT OF KNIVES** Three total: (1) NRA lockback measuring 3 1/8" with a 2 1/4" stainless steel drop point blade. The blade remains unsharpened, bright and is etched "National Rifle / Association" next to NRA logo in the center of the obverse blade. The red, white and blue Delrin scales rate excellent decorated with American flag motifs; (1) brass blade utility knife measuring 8 3/8" overall with 4 1/2" full tang brass blade with a rounded spey style point. The brass remains bright with a few light storage marks, is marked with a small "EL" in circle on the rear reverse side of the blade and has some light tarnish and staining along the tang. The brass oval double guard matches the blade and the soft hardwood handles rate excellent and are fastened by six bright copper pins. An interesting knife, quite possibly for saltwater use; (1) limited edition Luger knife manufactured by Track Knives of Whitefish MT, this knife is No. 55 of only 100 made. The knife measures 4 1/2" with a 3" drop point stainless steel blade. The blade remains unsharpened and bright except for a 1" area of surface oxidation along the spine and top edge of the obverse side which is also etched "Luger / # 55 of 100 / Knife" next to a bear paw print. The handles are thick brass with cocobolo panels fastened by small aluminum screws. The brass has a dark tarnished patina with light oxidation staining also present on the screw heads. The locking mechanism is an aluminum elbow which resembles the toggle on a luger pistol. The interior parts are numbered to the blade. A neat, scarce knife whose production ceased before all 100 knives were finished. (56020-K77)

2624. **LOT OF KNIVES** Two total: (1) Japanese woodworking knife This "fish-shaped" knife measures 7" overall, somewhat resembling a Mokume knife. The metal is acid etched leaving a smooth stippled-like finish with a bright angled cutting edge on the top side and a bright smooth finish the first 2 3/4" on the bottom side. The top side is decorated with Japanese symbols along the body and three angled grooves at the "tail". The knife includes a two piece wood case with a maroon felt-lined interior, red and black Japanese symbols on the lid and "Mikisho Co. / Style A / High Speed Steel" on the bottom of the case; (1) Wildcat Obsidian hunting knife by Callahan This attractive little knife flintknapped by Errett Callahan PhD. of Piltown Productions measures 5" overall with a 2 3/4" drop point style blade knapped from a dark, almost root beer colored, obsidian. The blade is inserted into a semi-triangular handle of either bocote or bubinga and secured by tightly wrapped sinew. The handle is in excellent condition as well and the underside of the handle is lightly incise carved "WILDCAT 87-10 / CALLAHAN", most likely created in October of 1987. A great looking modern knife having a nice primitive appearance. (56020-K35)
2625. **LOT OF KNIVES** Five total: (1) Gerber French Kitchen Knife One of the Legendary Series, this kitchen knife measures 13 3/8" overall with a 8" chrome plated high speed tool steel blade. The blade remains unsharpened and bright with a few light storage marks. The chromed cast aluminum handle retains all its original satin finish and is marked "GERBER-FRENCH" next to sword trademark logo along the bottom edge; (1) unmarked copy of a Green River Works deck knife measuring 9 7/8" overall with a 5 1/4" full tang spear point blade with a partially serrated top edge on one side only. Most likely made from a Green River Works blank, the blade remains overall bright with light vertical hone marks on the blade and unpolished dark surface wear along the tang edges. The rosewood grips rate very good plus with a couple light impact marks and are fastened by six large brass pins, no sheath present; (1) Unmarked hunting knife measuring 8 5/8" overall with a 4 3/4" full tang clip point blade equipped with a sawtooth false edge. The blade retains about 60% flaking nickel, loss due to areas of surface oxidation along the edges of the tang, the double guard is equipped with an integral cap lifter and can opener. The faux jugged bone black plastic grips rate very good showing light wear, no sheath present; (1) souvenir miniature Kris measuring 5 5/8" overall with a 3 5/8" forged curved steel blade. The blade is a pale gun-metal with scattered patches of staining and oxidation. The Asian hardwood handle shows a carved Malaysian ceremonial figure. Included is an Asian hardwood scabbard with the body covering no longer present; (1) Khalsa Kirpan fixed blade arm knife This interesting knife measures 6 5/8" overall with a unique 3 1/8" full tang double edged stainless steel blade equipped with a long ricasso having a fingergroove along one side. The blade retains about 98% original matte anodized finish with a few patches of surface oxidation and Khalsa logo maker-mark on the obverse side. The single finger swell center, black linen micarta grips rate excellent and are fastened by four small brass pins. Knife includes an open throat brown leather sheath with dual Velcro elastic arm straps. The dual metal retention pins show light oxidation. (56020-K199)
2626. **LOT OF KNIVES** Two total: (1) Unmarked fixed blade fighting knife resembling a cross between a San Francisco Bowie and a Scottish Sgian Dubh. The knife measures 9 1/4" overall with a 5" spear point blade equipped with file work thumb serrations. The blade remains unsharpened, bright and free from any maker markings. The handle is European walnut with a raised circular pommel and a carved woven reed and bead body fastened by two small bright pins and is centered between a grooved circular bolster and pommel cap. There is no scabbard present; (1) Scottish Sgian Dubh, this a larger Scottish knife that measures 12 5/8" overall with a 7 3/4" carbon steel spear point blade equipped with light file marks along the rear of the obverse side only. The blade remains unsharpened and is a pale pewter with pinprick forging marks mainly along the tip and edges, the obverse side of the blade is marked with a large "M" at the rear of the blade. The dark rosewood handle has lovely carved woven scroll and is centered between an oval iron collar and buttcap which match the finish of the blade. No scabbard present, a nice-looking, somewhat larger, Sgian Dubh. (56020-K170)
2627. **LOT OF UNMARKED FARRIER KNIVES** These two unusual looking knives measure 10 1/4" and 10 3/8" overall with 5 3/8" and 5 1/2" curved steel point tool steel blades equipped with beveled cutting edges and simple rudimentary thumb serrations on the top side of the blades. The swell-center shaped soft hardwood handles rate excellent having a mottled brown color and are fastened by three small brass pins. Knives include hand laced natural color leather pocket sheaths. (56020-K286)
2628. **LONG WOOD HANDLE BOWIE** This is a rather interesting looking unmarked bowie measuring 17 1/4" overall with a 9 1/2" high polished full tang double edge spear point blade. The blade remains unsharpened and bright with some faint pits along the guard. The brass guard remains bright and is engraved "SP8" on one side. The handle is composed of narrow soft hardwood panels having a blonde and reddish color and a flared semi-heart shaped maple pommel with triangular mother-of-pearl inlays. The narrow panels have a couple light checks that are extending on one side and are fastened by four small brass pins while the pommel panels are separated by black and brass spacers and are fastened by eight small brass pins. The knife is housed in a hinged handmade hardwood presentation case with a red felt-lined fitted interior. The wood has a few light handling marks and the front clasp is no longer present. A neat bowie that closely resembles a "hand-in-a-half" Arkansas toothpick. (1X56020-K105)
2629. **KNIFE LOT** This lot consists of a Sundang style knife with scabbard. This Polynesian style knife measures 19 1/4" long with about a 14 1/2" curved blade. The blade's edge has been recently sharpened and the metal surfaces overall are a gray patina with areas of light surface oxidation. The wood grip has a rough carved Pacific Islander shape as does the two-piece wood scabbard. The scabbard is held together with a simple braided cord and appears unfinished, the back half leaves the tip of the blade exposed. A very good example overall. (1X47871-3)
2630. **LOT OF KNIVES** This lot includes two folding combination knives. First is a two blade Henkel multi-tool measuring 3 1/2" with overall open length of 6" to the tip of the Pen-style blade with bottle opener. There is a 5/16" square cutout in the handle, likely for turning a gate valve that is missing its handle. Its second blade is an interesting claw style that is likely for pulling tacks or brads. Second is a four-blade multi-function pocketknife with 2" drop point blade, bottle opener, screwdriver, nail file and grooming hook, and scissors. The item is unmarked and the instruments all remain in very good to excellent condition. (107536-110,111)

2631. **LOT OF HANDCRAFTED SHRAPNEL KNIVES** This lot includes two hand crafted variations of knives. First is a small clip point style blade measuring 6 1/8" overall with 2 5/8" blade. The blade is mostly a dull gray patina with overall oxidation staining. The handle is part of an unmachined chunk of shrapnel that has been left untouched with sharp jagged edges and has an added 1" brass oval that is engraved "Longary / 1914". Second is an 8 1/2" toothpick-style knife with 4 1/2" blade. The blade is mostly gray with scattered spots of fine oxidation staining along the untouched edges. The handle is also integral with the blade and has been left untouched and has overall sharp jagged edges but sits comfortably in one hand. There is a square waffle head hammer mark likely for thumb placement and this is a neat toothpick-style custom knife in very good overall condition. (1X106229-A23AA)

2631

2632. **LOT OF FOLDING KNIVES** Two total: (1) multi-tool knife by Hoffritz measuring 3 1/8" overall, the panels have a wavy checkered grip pattern, and the six different tools include: large and small blades, file, scissors, can and bottle opener. The main blade is marked "HOFFRITZ" on one side of the ricasso and "INOX / SOLINGEN / GERMANY" on the other side. Excellent condition overall; (1) custom Linerlock folder by Gilbreath Handcrafted by Randall Gilbreath of Dora, AL., this lovely folder measures 2 7/8" with a 2 1/8" stainless steel blade equipped with a checkered thumb stud. The blade remains unsharpened, bright and the obverse side of the blade is etched "R. GILBREATH / Dora. AL.". The handle is composed of stag scales and an orange peel titanium bolster fastened by six tiny stainless steel bolts and the liner is jeweled titanium. A beautiful compact pocket folder. (56020-K254)
2633. **LOT OF BAYONETS** Two total: (1) Austrian Model 1912 bayonet for the Chilean M1912 Mauser rifle. The bayonet measures 15" overall with a 10" blade. The blade is marked "CE/WG" and shows scattered oxidation staining. The blade appears to have been sharpened and cleaned at some point with some dings along the underside. The hilt and pommel are turning a brown patina with oxidation staining and scattered pitting and the pommel is numbered "04989". The walnut handles show a couple bruises, chips, dings, hairline cracks and handling marks. A nonmatching scabbard is included which shows fading finish, a few small dents, oxidation staining and light pitting; (1) Czech VZ-24 export bayonet measuring 16" overall with an 11" blade. The blade is unmarked and shows oxidation staining throughout with a few nicks to the underside. The pommel and hilt have turned a dull brown patina with oxidation staining throughout and the pommel is numbered "0586". The walnut handles rate good with a 1 1/4" crack on the left side, several scratches, handling marks and dings. A steel scabbard is included which is turning a brown patina, has a slightly bent button, a large dent on bottom of both sides and oxidation staining throughout. (207702-12,14)
2634. **LOT OF BAYONETS** Two total: (1) Austrian Model 1912 bayonet for the Chilean M1912 Mauser. The bayonet measures 15" overall with a 10" blade. The blade is marked "CE/WG" and shows some sparse oxidation staining, light pitting and a few nicks. The hilt and pommel are turning a brown patina with oxidation staining and pitting. The walnut handles rate good with a few chips missing, dings, handling marks and a 1/2" crack on the left side. A non-matching scabbard is included which shows light oxidation staining, heavy silvering and a couple large dents; (1) Czech VZ-24 export bayonet measuring 17" overall with a 12" blade. The blade shows oxidation staining throughout and the pommel and hilt are turning a dull brown patina with oxidation staining. The walnut handles rate good showing a few missing chips, dings, handling marks and a couple minor cracks. A non-matching scabbard is included which shows noticeable finish loss, several dings, a couple dents, oxidation and pitting. (207702-11,16)
2635. **LOT OF SOCKET BAYONETS** Four total: (1) British 1853 socket bayonet that has an indiscernible maker's mark. The blade measures 17 1/2" while the socket measures 3", and the bayonet has turned a brown patina with oxidation and pitting throughout. The locking ring is frozen in place and will not move; (1) U.S. Model 1882 Lee Socket Bayonet. The blade measures 21" while the socket bayonet measures 2 5/8". The blade finish has turned a dull brown patina with oxidation throughout. The locking ring is broken, its screw missing and it is being held together by an amateurish repair. No scabbard is included with this bayonet; (2) U.S. Model 1873 Trapdoor socket bayonets. The blades measure 18" while the sockets measure 2 3/4". The markings are indiscernible on these bayonets and there is oxidation throughout. (207702-21D)
2636. **U.S. BAYONET LOT** This lot consists of a U.S. Model 1873 Trapdoor socket bayonet. The blade measures 16 3/4" while the socket measures 3". The blade has a crisp "US" marking and the finish has turned a plum patina with scattered pitting. No scabbard is included with this bayonet. (1X207702-21F)
2637. **MOSIN NAGANT BAYONET** A second variation M1891/30 socket bayonet without locking ring. The bayonet is 21 3/4" overall and is a mix of brown and plum color patinas. It is numbered "3086" and has a small split in the socket near the front. This bayonet remains in good overall condition. (1X107807-5)
2638. **ERSATZ BAYONET** This lot includes a metal handle bayonet measuring 15 1/4" overall with fullered blade measuring 9 3/4". The cross guard is straight and an additional barrel band has been added to the rear of the handle. The handle is numbered "75657" and the metal surfaces are an overall gray-brown mix. A metal scabbard with round button, that is mostly a brown patina with overall light dings is included. (1X107536-52)
2639. **GERMAN FASCHINENMESSER** This is a third model steel hilted Faschinenmesser with 18 1/4" blade. The blade is a dull gunmetal gray and shows overall light and moderate pitting with some areas very similar to blood protein, the handle is a bright silvery gunmetal also with light sparse pitting. The guard is regimentally marked "122.R.(cursive)H.147." In the past, these have been attributed to the Kingdom of Wurttemberg, there is no scabbard present. (2X36980-7)
2640. **SPANISH EXCALIBUR PROP SWORD** This is a neat reproduction of "Excalibur", legendary sword of King Arthur and Camelot with an aluminum blade commonly associated with movie swords. The blade measures 28 3/8" and is equipped with an 8 3/4" narrow fuller centered between two smaller fullers, 36 5/8" overall length. The blade remains unsharpened and retains nearly all its bright polish finish with scattered fine staining. The hilt has a brass straight double guard with flat quillons and a cross-hatch center wheel pommel marked "EXCALIBUR" along the outer edge and has a wrapped stainless steel grip. The guard and pommel retain about 90% flaking gold wash and one of the panels is missing on the pommel exposing the hex-nut beneath. The wood scabbard is covered with decorative brown leather and is equipped with a decorative gold colored aluminum tip and throat with inlaid ruby-glass gemstones. The mounts retain about 85% flaking gold plate and one of the glass stones is missing. (2X57694-7)
2641. **REPRODUCTION JAPANESE KATANA** The blade measures 26 1/2" to the nickel plated copper sleeve; tang is unsigned. The blade remains unsharpened and bright for the most part with scattered light scratches and fine staining and the collar retains most of its nickel plate with light diagonal scratches and specks of light flaking. The solid iron Tsuba and pommel cap retain 98% black enamel with spots of light paint along the edges. The shagreen-covered handle is wrapped in faded orange linen with patches of old white paint. The bamboo scabbard is wrapped in black painted leather with light scuffing, a large chip missing along the top edge between the collar and hanger leaving the collar loose fitting. (1X57740-3)
2642. **CHINESE DAMASCUS BLADE JIAN BY HANWEI** 28 1/4" dual edge damascus blade, 37 1/2" overall length. The blade is in fabulous condition retaining all its pale gray wavy damascus pattern. The hilt is composed of a large copper guard with raised yin-yang symbol on an oriental-decorated background and a rounded spade-shape pommel decorated with oriental scroll and a cigar-shaped Asian hardwood grip. Attached to the pommel is a red double tassel attached to a nylon cord. The matching Asian hardwood scabbard rates excellent as well and is equipped with decorative copper mounts. (2X57698-13) (100/200)
2643. **COBRA HEAD SWORD CANE** This Pakistani sword cane measures 36 3/8" overall with a 21 5/8" single edge stainless steel blade and a cast pewter Cobra head with faux ruby eyes. The blade retains all its bright finish while the head has a patinated gray finish with light scuffs and scratches on the aluminum collar. The steel shaft retains about 98% original black enamel with scattered scuffs and stains and is equipped with an aluminum collar and rubber tip. (2X57473-10)
2644. **BRITISH BAYONET LOT** This lot consists of a British Pattern 1913 bayonet and scabbard for the P14 rifle. The blade is dated 1917 and it has the British markings on right side crossed out and underneath them it is marked "US". The blade shows oxidation and oxidation staining throughout and has turned a dull brown patina. The crossguard and pommel have also turned a dull gray patina and show oxidation staining throughout. The ribbed walnut handle shows two chips on left panel, one 1/4" the other 1/2", with scattered scratches, dings, smaller chips and handling marks. The leather body of the scabbard shows crazing, flaking and wear throughout, while the steel parts have turned a dull gray patina and show oxidation staining throughout. A good lot for the collector of British militaria. (207630-34E)

2645. **GERMAN MUNICIPAL POLICE DRESS BAYONET BY COPPEL**

This is a very nice example of an officers dress bayonet with a 13" single edge blade with near full-length fuller. The blade is bright showing excellent original bright plating with some scattered light scabbard marks and fine oxidation staining the first 4" from the tip. The reverse ricasso has a small "AC / S" with scale centered in a "ALEXANDER COPPEL / SOLINGEN" lozenged shaped logo, the obverse ricasso has a nice large "AC / S" with scale Coppel maker mark. The hilt retains all its nickel plate and features an eaglehead pommel and oak leaf guard. The stag grips rate excellent and are fastened by irons pins, the rear pin showing light oxidation, the state eagle and wreath emblem appears properly centered. There are no unit markings on the hilt or blade. Included with the bayonet is a black leather scabbard with metal tip chape and throat and a black leather frog. The leather body rates very good overall with light scuffs and crazing and the ends remain bright with a few light dings and scratches. The right side of the collar is marked "7/63". The bayonet rates very good plus with some light crackling to the body, the rear of the frog is marked "TIWO / HEIDELBERG / 1942". A nice unmarked Police dress dagger. (57841-4) (400/600)

2646. **FRENCH BAYONET LOT** This lot consists of a French Model 1886/35 bayonet and scabbard. The 1886/35 bayonet was made for the R35 Lebel Carbine and it measures 18" overall with a 13" blade. The cruciform blade shows sparsely scattered oxidation staining and a few dents, the crossguard and locking ring are turning a dull brown patina with oxidation staining throughout. The silver alloy handle shows some scattered oxidation staining and scattered small impact markings. The inside of the bayonet mount is numbered "21 50" and the scabbard has turned a dull brown patina with oxidation staining throughout. A neat item for the French military collector or owner of an R35 Lebel. (207841-3)

## Ammunition

2647. **AMMUNITION LOT** This lot consists of eight sealed boxes of 30 5.56mm NATO M855 ammunition. The boxes are sealed in a plastic sleeve and were manufactured by TAAS – Israel Industries Ltd and distributed by the Hansen Cartridge Company. All are in as-new condition. (46295-2)
2648. **AMMUNITION LOT** This lot consists of two boxes of Remington 375 H&H Mag 270 grain soft points (R375M1). The boxes and ammunition are as-new and the boxes have retail sales labels on them. One box is full with 20 rounds, the other partial with 16 live rounds and four fired casings. (46295-3A)
2649. **AMMUNITION LOT** This lot consists of two boxes of Remington 300 Win Mag 180 grain pointed soft points (R300W2). The boxes and ammunition rate excellent, the boxes have retail sales labels on them and one end flap is torn. One box is full with 20 rounds, the other partial with 16 live rounds and four fired casings. (46295-3B)
2650. **AMMUNITION LOT** This lot consists of two boxes of Federal Premium 7mm Mauser 140 grain Nosler Partition ammunition. The ammunition rates excellent, the boxes have retail sales labels affixed to them and the corners of one box have been lightly crushed. Both boxes are full and contain 20 rounds apiece. (46295-3C)
2651. **AMMUNITION LOT** This lot consists of 25 full twenty round boxes of 7.62x39 hollow point and one 19 round 7.62x39 hollow point ammunition. The ammunition is of Russian manufacture, is non-corrosive and it is housed in a .50 caliber ammunition can. (207849-69B)
2652. **ASSORTED AMMUNITION LOT** This lot consists of one partial 20 round box of 7.62x39mm, six full 20 round boxes of 7.62x39mm and ten full boxes of 7.62x51mm NATO. The partial box of 7.62x39mm contains 19 rounds of Russian made hollowpoint ammunition. The full boxes are as follows: two boxes of Chinese made ball ammunition, one box of Norinco softpoint ammunition and three boxes of Russian ball ammunition. The 7.62x51mm NATO ammunition is of Indonesian manufacture and is brass cased ball ammunition. The 7.62x51mm ammunition appears to have 1980's dates and it appears to be Berdan-primed. (207849-69C)
2653. **COLLECTIBLE AMMUNITION LOT** This lot consists of a single Remington made 25 round cardboard box of 12 Gauge shotshells. The box is marked on front "25 SHELLS SHOTGUN/12 GAGE PAPER/SMOKELESS POWDER/NO. 8 CHILLED SHOT/FOR USE IN HUNTING SMALL GAME/LOT RA 5703". The box is brown cardboard and it appears unopened. The box shows scattered soiling, a few light tears at edges, creases and crazing. A good lot for the vintage ammo collector. (207738-13F)
2654. **VINTAGE AMMO BOX LOT** This lot consists of seven empty vintage ammunition boxes. The first is a Remington Kleanbore 300 Savage which exhibits wear, flaking and soiling, and one of the inner flaps is missing and there is writing on the inside of the outer flaps with a date of "1955". The next box is a Winchester Silvertip 300 Savage box that is missing all its flaps and it exhibits flaking, crazing and tears at the edges. The next box is a Winchester Silvertip 250 Savage that is missing its flaps and shows creases, crazing, flaking and tears. The fourth lot is a Western 250 Savage box that is missing its flaps, and shows tears, flaking, creases, crazing and there is writing on top that reads in part "1951". The fifth box is a Western 32-20 box that is missing its flaps on right side and the box shows some stains, a small tear on cardboard insert, some creasing and crazing. The next box is a Winchester 22 automatic 50 round box which shows crazing, soiling, and staining but its flaps remain intact. The final box is a 50 round Winchester 9mm Luger box that shows crazing, soiling and some flaking. (206643-12A)
2655. **COLLECTIBLE AMMUNITION LOT** This lot consists of one full box of Winchester 32 S&W and a UMC box that contains approximately 22 rounds of 32 Short. The Winchester 32 S&W box is marked with a S&W revolver on front and it reads "Manufactured expressly for Smith & Wesson .32 Caliber Revolver". The box exhibits minor tears and minor soiling and its tape seal has been broken but overall appears to be in very good condition. There are 50 rounds of solid lead bullet ammunition and they appear to show oxidation staining on the cases. The UMC 32 Short box shows crazing and flaking throughout with some scattered tears at the edges. There are four pieces of cellophane added and there are a couple dents on bottom. The ammunition is headstamped "H" which is a Winchester headstamp and the cases exhibit scattered oxidation staining. (206643-12B)

2656. **COLLECTIBLE AMMUNITION LOT** This lot consists of one full 20 round and one partial 20 round box of USGI 45 ACP ammunition, one full 20 round box of 7.62x51mm NATO ammunition and one partial 20 round box of 7.62x51mm NATO ammunition. The first 45 ACP box contains 20 rounds of Frankford Arsenal 1968 production ammunition but two rounds are loose due to the right side box being opened. One of the inside flaps on the right side appears missing and there is some scattered flaking, creases and crazing. The canvas flap on the right side is sticking out, "FA 68" is penciled on front of box and the rounds are in very good to very good plus condition overall. The partial 45 ACP box contains approximately 13 rounds of Frankford Arsenal 1968 production ammunition. The top half of the box is torn and it moves freely. The label has a couple tears and shows some stains, and there is scattered flaking and crazing on the box and the canvas pull tabs are present. The full 7.62x51mm NATO box is missing its top flap and one of the edges has a piece of scotch tape added. This ammo is of Frankford Arsenal manufacture and it is dated 1956. There are scattered light stains and some flaking and the rounds exhibit varying levels of oxidation staining but rate good to very good. The partial box of 7.62x51mm NATO is also 1956 Frankford Arsenal production and it contains 19 rounds of ammunition and one primed case. The box retains its top flap which is open and scotch taped on and the box shows scattered soiling, crazing and creases. The label has the ammunition information such as powder and bullet weight penciled on front. The M14 and M60 were not adopted by the U.S. military until 1957 making this ammunition very early. (206643-12C)
2657. **AMMUNITION LOT** This lot consists of a partial box of Winchester Super X 25-20 83 grain soft point ammunition. There are approximately 48 rounds in this box and they are in very good to excellent condition. The white box shows light wear and light staining. (206643-12D)
2658. **COLLECTIBLE AMMUNITION LOT** This lot consists of a partial box of Remington UMC BB caps, a partial box of Remington UMC 32 S&W and a partial box of Western 32 S&W. The Remington UMC BB cap box contains 28 caps in very good condition with the rounds exhibiting some light oxidation staining. The box is marked "100 PIM FIRE CARTRIDGES\KLEANBORE" and the top flap has broken off but is still present. The box shows a crease at top and some scattered crazing and soiling. The Remington UMC 32 S&W partial box contains 16 rounds of UMC 32 S&W lead bullet ammo and 8 rounds of Peters lead bullet ammo. The box exhibits scattered soiling and crazing and a couple minor areas of flaking. The Western 32 S&W box contains 41 rounds of Western 32 S&W lead bullet ammunition. One of the edges of the box is torn and there is scattered flaking, crazing and creases and the label seal has been broken. (206643-12E)
2659. **AMMUNITION LOT** This lot consists of four 20 round assorted boxes of 30-06 hunting ammunition. The first box is Federal Power-Shok 180 grain soft point, the second box is Winchester Silvertip 150 grain and the other two boxes are Remington Core-Lokt 180 grain soft point. The condition is very good plus to excellent. (207407-10)
2660. **MIXED MILITARY AMMUNITION LOT** This lot consists of approximately 60 rounds of 6.5x55 Swedish and 45 rounds of 7.5 French. The 6.5x55 Swedish ammunition is of Swedish military manufacture with 40 rounds being in their boxes and 15 rounds being on stripper clips in a tan canvas pouch. Some of the rounds exhibit oxidation staining on their cases and one round has a white tipped bullet. The 7.5 French ammunition is of Syrian military manufacture and they are in correct boxes. The boxes exhibit stains and two of the boxes are opened, also the rounds are in very good condition with some light oxidation staining on a few of the rounds. (207849-69A)
2661. **AMMUNITION LOT** This consists of 135 rounds of assorted 30 Carbine ammunition. 85 rounds are 110 grain Winchester Whitebox FMJ in their original boxes and the rounds appear to be in very good to excellent shape overall. 50 rounds are Remington 110 grain soft-point in their original box with some rounds exhibiting oxidation staining. (207849-69B)
2662. **LOT OF COLLECTIBLE AND MODERN SHOTSHELLS** This lot consists of (5) boxes of assorted 12 and 20 gauge shotshells. Included are (1) two-piece Herters plastic box with 25 rounds Remington 12 gauge, 2 3/4" Express Rifled Slugs loaded in plastic hulls. (1) two-piece Herters plastic box with 14 rounds of Remington 12 gauge, 2 3/4" Extra Long Range "00" Buckshot; 5 rounds of Remington 12 gauge, 2 3/4" Magnum "00" Buckshot; and 6 rounds of Remington 12 gauge, 2 3/4" Extra Long Range "0" Buckshot, all loaded in paper hulls. (1) two-piece Herters plastic box with 17 rounds of Remington 12 gauge, 2 3/4" Extra Long Range rifled slug, all loaded in paper hulls. (1) two-piece Herters plastic box with 4 rounds of Remington 12 gauge, 2 3/4" Express 1 1/4 ounce #6 shot; 2 rounds Winchester 12 gauge 2 3/4" Super Speed long range load #6 shot; 5 rounds Winchester 12 gauge 2 3/4" Super Speed long range load #4 shot; 5 rounds Winchester 12 gauge 2 3/4" Super Speed load #6 shot; 3 rounds of Peters 12 gauge 2 3/4" High Velocity load #4 shot, all loaded in paper hulls and 1 round of Remington 12 gauge 2 3/4" Express loaded with #4 shot in a plastic hull. (1) box of 17 rounds of Winchester 20 gauge 2 3/4" Super X long range load #6 shot and 23 rounds of Remington-UMC 20 gauge 2 3/4" Long Range Nitro Express #7 1/2 shot, all are loaded in paper hulls. All ammunition rates very good to excellent. (86945-4A)
2663. **LOT OF 41 COLT AMMUNITION** This lot consists of one full and one partial box of Remington 41 Colt ammunition. Included is (1) green box with large R and red Remington banner containing 50 rounds of Remington 41 Long Colt, 195 gr. lead bullet index #4341, in excellent condition. The box has a few minor scuffs. Also included is (1) dark green box with Kleanbore on white background and double red Remington-UMC dots containing 25 rounds of Remington 41 Long Colt, 195 gr. lead bullet. The ammunition has scattered minor tarnish and the box has scattered scuffing with minor tearing in the corners, repair to the inner tray and one dust flap missing. (86945-4B)
2664. **MIXED LOT OF SHOOTING AND COLLECTIBLE HANDGUN AMMUNITION** This lot consists of (4) boxes of ammunition. Included is (1) box of 50 rounds of Remington 357 Magnum, 158 lead semi-wadcutter ammunition in excellent condition. (1) Flambeau two-piece box of mixed 38 Special ammunition including: 13 rounds of Winchester Western jacketed hollow points +P, 11 rounds of Remington-Peters jacketed hollow point, 2 rounds of Winchester Western lead semi-wadcutter hollow points, 11 rounds of assorted Remington and Winchester headstamp 158 round-nose lead, 2 rounds of Winchester, possibly 200 grain round nose lead Lubaloy ammunition, 5 rounds of 38 Special of what appear to be the old "Exploder" bullets from Bingham Ltd. loaded in Super-Vel cases. (1) Dillon Precision plastic ammo box with 4 rounds of Remington-Peters 38 S&W ammunition 146 gr. round-nose lead and 6 rounds of blue tip Glaser 357 Magnum Safety Slugs. (1) Dillon Precision plastic ammo box with 16 rounds of mixed headstamp 38 Special 158 gr. round-nose lead, 1 round of Remington-Peters 38 Special jacketed hollowpoint, 8 rounds of Remington-Peters 38 ACP FMJ (gilding metal jacket), 5 rounds of Remington-UMC 38 ACP jacketed soft point (cupro nickel jacket), 1 round of Winchester Repeating Arms 38 ACP jacketed hollowpoint (gilding metal jacket), 8 rounds of Remington-UMC 38 ACP FMJ (cupro nickel jacket with brass case) and 10 rounds of Remington-UMC 38 ACP FMJ (cupro nickel jacket with nickel plated cases). All ammunition is in excellent condition. (86945-4C)
2665. **LOT OF COLLECTIBLE 44 RUSSIAN AMMUNITION** This lot consists of (2) partial boxes of ammunition. Included is (1) Dillon Precision ammunition box with 21 rounds of W.R.A.Co. 44 S&W Russian, 246 gr. round-nose lead with one cartridge exhibiting a firing pin mark on the primer; 1 round of 44 Russian with no headstamp with round-nose lead bullet; and 21 rounds of U.M.C. 44 S&W Russian, 246 gr. round-nose lead bullet. Except as noted all are in very good to excellent condition. Also included is (1) "Remington Kleanbore" marked green and red box with 42 rounds of Remington-UMC 44 S&W Russian 246 gr. round-nose lead and two fired cases with the same headstamp (balloon head). The box is near excellent condition and the ammunition rates excellent. (86549-4D)
2666. **LOT OF COLLECTIBLE AMMUNITION** This lot consists of (5) boxes. Included is (1) empty 20 round J&J brand plastic rifle box for up to 30-06 size cartridges. (1) plastic container with 14 rounds of Remington UMC 32 ACP, 71 gr. FMJ (cupro nickel jacket) with "REM-UMC / 32-762" headstamp in excellent condition. (1) "The Remington Arms Union Metallic Cartridge Company" marked light green two-piece box with 27 rounds of Rem-UMC 32 S&W (short) 88 gr. round-nose lead ammunition. The box rates very good to excellent with a few areas of the label peeled away and the ammunition has light tarnish with scattered light oxidation stains. (1) 20 round box of Frankford Arsenal 45 ACP Ball ammunition with non-corrosive primers. The canvas opening tab has been taped in place on one end of the box which has 1/2" tear to the label but the box has not been fully opened. (1) Dillon Precision plastic cartridge box with 37 rounds of W.R.A. Co. 45 ACP 230 gr. FMJ ammunition in very good plus condition overall with light tarnish and a few scattered oxidation blemishes. (86945-4E)

2667. **MIXED LOT OF COLLECTIBLE AND SHOOTING AMMUNITION AND RELOADING COMPONENTS** This lot includes (7) items. Included is (1) Midway USA plastic cartridge box with 48 new Remington 30-30 W.C.F. cartridge cases. (1) Herters two-piece plastic ammo boxes with 10 rounds of Winchester Super Speed 222 Remington pointed soft point ammunition. (2) red and green boxes of 20 rounds each Remington 222 Rem. primed cartridge cases. All of these are in excellent condition. (1) bag with 9 five round model 1903 Springfield stripper clips containing a total of 45 rounds of "FA / 21-R" headstamp 30-06 FMJ ammunition (cupro nickel jackets). This ammunition rates fair to good with tarnish and moderate oxidation blemishes. (1) bag with 13 U.S. 30 Carbine stripper clips. (1) tin of 81 rounds mixed headstamp 25-20 Single Shot ammunition in good to very good condition with light to moderate tarnish and scattered light oxidation blemishes. (86945-4F)
2668. **LOT OF COLLECTIBLE 30-06 AMMUNITION** This lot consists of (2) bags of assorted headstamp 30-06 cartridges. Included is (1) bag with approximately 27 rounds of assorted Rem-UMC, W.R.A. Co., U.S.C. Co., Western and Peters headstamped commercial 30-06 FMJ ammunition. (1) bag of approximately 52 rounds of assorted Frankford Arsenal, U.M.C., W.R.A. Co., R.A. and U.S.C. Co. headstamped 30-06 ball ammunition with manufacture dates ranging from July, 1907 to 1918. All of these cartridges exhibit moderate tarnish, light to moderate scattered oxidation blemishes and scattered verdigris. (86945-4G)
2669. **LOT OF COLLECTIBLE CARTRIDGES** This lot consists of 3 rounds of 44-40 shotshells, 7 rounds of 44 XL shotshell cartridges and 1 round of brass cased 410 bore shotshells. Included are (3) rounds headstamped "REM-UMC / 44 W.C.F." shot ammunition. The cartridges rate very good with some stains from oxidation and overshot wads intact. The cartridge case is necked down and heavily crimped to retain the overshot wad. (7) rounds of Rem-UMC 44 XL ammunition with red round-nose paper shot capsule in very good condition overall. They exhibit light tarnish, occasional oxidation stains and one shot capsule has light damage to the nose. (1) round of 410 bore shotshell headstamped "U - S / 410-12MM / All Brass". The cartridge rates poor with the front half of the body heavily dented and deformed but the overshot wad remains intact. (86945-4H)
2670. **LOT OF COLLECTIBLE 44 GAME GETTER CARTRIDGES** This lot includes (14) rounds of ammunition. Included are (13) rounds of W.R.A. Co. 44 Game Getter round-ball ammunition with "W.R.A. Co. / 44 G.G." headstamps that rate near excellent. Also included is (1) Rem-UMC 44 W.C.F. round-ball round with "REM-UMC / 44 WCF" headstamps in very good condition with light tarnish and handling marks. (86945-4I)

Mag., (3) 30-30 W.C.F., (2) 300 Savage, (2) 250-3000 Savage, (2) 308 Win., (3) 30-06 Springfield (one with a 1918 date), (8) 8mm Mauser, (8) 243 Win., (2) 22 W.R.F., (20) 45 ACP, (6) 32 ACP, (8) 38 Special, (15) 32 S&W (short), (1) 25-20 Win., (2) 25-20 cartridge cases, (7) 9mm Luger, (1) 30 R.F. short, (1) 32 R.F. short, (1) 32 R.F. long, (8) 38 R.F., (5) 32 R.F. blank and (22) 32 S&W blanks. (86945-4J)
2672. **MIXED LOT OF COLLECTIBLE AND SHOOTING SHOTSHELLS** This lot consists of a total of approximately (77) shotshells of various gauges, headstamps and rate from good to excellent with varying amounts of handling wear. The shotshells are found in various configurations such as birdshot loads, buckshot loads, slug loads and pumpkin ball loads. Included are: (2) 410 bore 2 1/2" paper hull shotshells, (2) 410 bore 3" paper hull shotshells, (2) 28 gauge 2 3/4" plastic hull shotshells, (2) 20 gauge 2 3/4" paper hull shotshells, (29) 16 gauge 2 3/4" paper hull shotshells, (30) 12 gauge 2 3/4" vintage paper hull shotshells and (10) 12 gauge 2 3/4" modern plastic and paper hull shotshells. (86945-4K)
2673. **LOT OF COLLECTIBLE AMMUNITION** This lot consists of a single red and green box of Peters "Improved Semi-Smokeless" 22 Long Rifle ammunition No. 2221. The box contains 48 rounds of ammunition that rate very good to excellent. (87981-7A)
2674. **LOT OF AMMUNITION** This lot consists of ten full 50 rd. boxes of Federal Classic 22 lr. bird shot in excellent condition. (77524-2A)
2675. **LOT OF AMMUNITION** This lot consists of two full 500 rd. size bricks, each containing ten 50 rd. size boxes of 22 lr., 40 gr. in bright excellent condition: (1) of Federal Champion high velocity solid; (1) of CCI standard velocity round nose. (77524-2B)
2676. **LOT OF AMMUNITION** This lot consists of eleven boxes of 22 lr.: (1) virtually full 500 rd. of Remington 22 Thunderbolt high velocity round nose; (10) full 50 rd. constituting a full brick of Aguila super maximum, hyper velocity 30 gr. HP. The ammunition is in excellent condition. (77524-2C)
2677. **LOT OF AMMUNITION** This is a lot seven full boxes of 22 lr. including the first five that are 50 rd.: (2) of Eley target; (1) of Armscor standard velocity 40 gr. solid; (1) of Aguila Super Extra 40 gr. lead; (1) of Aguila 20 gr.; (2) 100 rd. of Remington high velocity. The lot is in excellent condition. (77524-2D)
2678. **LOT OF AMMUNITION** This lot consists of 13 full containers: (1) 50 rd. box of CCI 22 WMR Maxi Mag Gold Dot HP; (2) 50 rd. boxes of Winchester Supreme 22 Win. mag. JHP; (1) 50 Rd. of Armscor 22 Magnum 40 gr. JHP; (6) 50 rd. canisters of Precise 22 cal. extra loud crimped blanks; (2) 250 rd. canisters of Gamo .177 magnum pellets; (1) 5000 rd. box of Copperhead premium grade BB's. Several of the containers remain factory sealed and the opened ones reveal excellent condition ammunition. (77524-2E)
2679. **LOT OF AMMUNITION** This lot consists of seven full 50 rd. boxes of 380 auto: (4) of PMC Bronze 90 gr. FMJ; (3) of Blazer 95 gr. FMJ. The ammunition rates bright excellent. (77524-2F)
2680. **LOT OF AMMUNITION** This lot consists of five full 25 rd. boxes of Remington Golden Saber 357 magnum, 125 gr. brass jacketed HP in excellent condition. (77524-2G)
2681. **LOT OF AMMUNITION** This lot consists of four full boxes of 357 magnum: (3) 25 rd. of Remington Golden Saber 125 gr. brass jacketed HP; (1) 20 rd. of Buffalo Bore heavy, 158 gr. JHC. This is an excellent condition lot. (77524-2H)
2682. **LOT OF AMMUNITION** This lot consists of three full 50 rd. boxes of Federal Premium law enforcement, Tactical Bonded 40 S&W, 155 gr. JHP in excellent condition. (77524-2I)
2683. **LOT OF AMMUNITION** This is a lot of two full 50 rd. boxes of Federal Premium law enforcement 40 S&W: (1) Hydra-Shok 165 gr. JHP; (1) Tactical Bonded 155 gr. tactical HP. The lot rates excellent. (77524-2J)
2684. **LOT OF AMMUNITION** This lot consists of five full 50 rd. boxes of PMC Bronze 40 S&W, 165 gr. FMJ rating excellent. (77524-2K)
2685. **LOT OF AMMUNITION** This is a lot of six 50 rd. size boxes of Winchester 40 S&W target, 180 gr. FMJ: (5) full; (1) containing 14 rds. The ammunition rates bright excellent. (77524-2L)
2686. **LOT OF AMMUNITION** This lot consists of five full boxes of 44 magnum: (1) 20 rd. of Buffalo Bore heavy, 270 gr. JFN; (4) ten rd. of CCI 44 Spl./Mag. shotshells (approx. 170 pellets). The lot rates excellent. (77524-2M)
2687. **LOT OF AMMUNITION** This is a lot of three full boxes of 44 Rem. Mag. in excellent overall condition: (1) 50 rd. of Magtech 240 gr. SJSP-flat; (2) 20 rd. of Winchester Super X 240 gr. HSP. (77524-2N)
2688. **LOT OF AMMUNITION** This lot consists of three full 20 rd. boxes of excellent condition Hornady Light Mag 308 Win InterLock: (2) of 165 gr. BTSP; (1) of 150 gr. SST. (77524-2P)

2689. **LOT OF AMMUNITION** This is a lot of two full 20 rd. boxes of 308 Win: (1) of Hornady Zombie Max 168 gr. Z-Max; (1) of Federal Premium High Energy Trophy Bonded Bear Claw 165 gr. This lot rates excellent. (77524-2Q)
2690. **LOT OF AMMUNITION** This lot consists of four full 20 rd. boxes of 30-30 Win: (2) of Ultramax 165 gr. round nose flat point; (1) of Remington Express Core-Lokt 170 gr. HP; (1) of Winchester Power Point Plus high velocity 150 gr. The lot rates excellent overall. (77524-2R)
2691. **LOT OF AMMUNITION** This lot consists of three full 20 rd. boxes of excellent condition 270 Win.: (1) of Winchester Ballistic Silvertip 130 gr.; (1) of Hornady Custom 140 gr. BTSP Interlock; (1) of Remington Core-Lokt 150 gr. SP. (77524-2S)
2692. **LOT OF AMMUNITION** This lot consists of three full 20 rd. boxes of Federal 270 Win. 150 gr.: (1) of Fusion; (1) of Power-Shok SP RN; (1) of Classic Hi-Shok SP RN. The lot rates excellent. (77524-2T)
2693. **LOT OF AMMUNITION** This is a lot of three full 20 rd. boxes of Winchester Super X 32 Win. Spl., 170 gr. Power-Point in near excellent condition. (77524-3A)
2694. **LOT OF AMMUNITION** This lot consists of three full 20 rd. boxes of Remington Core-Lokt 32 Win. Spl. 170 gr. SP rating excellent overall. (77524-3B)
2695. **LOT OF AMMUNITION** This is a lot of three full 20 rd. containers of Remington 32 Win. Spl.: (2) boxes of Core-Lokt 170 gr. SP. rating excellent; (1) Styrofoam tray of JHP rating near excellent. (77524-3C)
2696. **LOT OF AMMUNITION** This lot consists of four full 20 rd. boxes of excellent condition Hornady 30-06 Sprg., 180 gr. InterLock: (2) of Light Mag BTSP; (2) of Custom SST. (77524-3D)
2697. **LOT OF AMMUNITION** This is a lot of 30-06 Sprg. beginning with about 100 rds. of loose PMC PSP contained in a metal military ammunition can. Next is a black nylon bandolier containing 39 rds. of Speer Nitrex JSP. Next are approximately 60 rds. of very good to excellent condition Lake City armor piercing with mainly 1969 dated headstamps. Lastly is a full 20 rd. box of Nosler Custom Trophy Grade 165 gr. AccuBond. Unless otherwise noted the condition rating is excellent. (77524-3E)
2698. **LOT OF AMMUNITION** This lot consists of two full 120 rd. boxes of American Eagle 5.56 NATO, 55 gr. FMJ. The excellent condition cartridges are housed in the original plastic containers designed to simulate a military ammo can. (77524-3F)
2699. **LOT OF AMMUNITION** This is a lot of ten full 20 rd. boxes of PMC X-TAC 5.56 NATO, M855, 62 gr. green tip LAP in excellent condition. (77524-3G)
2700. **LOT OF AMMUNITION** This is a lot of 5.56 NATO, M885 green tip beginning with two full 40 rd. boxes of Portuguese manufactured cartridges with headstamps and box labels that include "93-2". Also included are approximately 80 rds. of loose Lake City cartridges with 1984 and 1997 headstamps. The overall condition is excellent. (77524-3H)
2701. **LOT OF AMMUNITION** This lot consists of four factory sealed five rd. packages of Extreme Shock 223 Rem, 62 gr. fragmenting high velocity in excellent condition. (77524-3I)
2702. **LOT OF AMMUNITION** This lot consists of three full boxes: (1) 120 rd. of American Eagle 5.56 NATO, 55 gr. FMJ plastic "ammo can"; (1) 20 rd. of Remington Express 223 Rem. Power Lokt, 55 gr. HP; (1) 20 rd. of Winchester Power Point Plus high velocity 223 Rem., 64 gr. The ammunition is in excellent condition. (77524-3J)
2703. **LOT OF AMMUNITION** This lot consists of twelve 20 rd. size boxes of 223 Rem., 55 gr.: (10) full and (1) containing 15 rds. of Armscor FMJ; (1) full of Hornady TAP FPD. The ammunition rates excellent and is housed in a metal military can. (77524-3K)
2704. **LOT OF SHOTSHELLS** This lot consists of eleven packages including the first ten of 12 ga., 2 3/4": (8) ten rd. boxes of Focchi Exacta buck shot, 9 pellet and housed in the original plastic carry case; (1) three rd. pack of Firequest pepper blast (filled with cyenne pepper); (1) three rd. pack of Firequest blanks. The last package is a bag containing 21 rds. of Federal 20 ga. game load, 2 1/2", 6 shot. This is an excellent condition lot. (77524-3L)
2705. **LOT OF AMMUNITION** This lot consists of four full boxes: (1) 50 rd. of Focchi 45 auto, 230 gr. FMJ; (1) 20 rd. of Winchester Super X 41 Rem. Mag. 175 gr. Silvertip; (1) 20 rd. of Hornady Varmint Express 222 Rem. 50 gr. Moly coated; (1) 20 rd. of Winchester Super X 223 WSSM 55 gr. PSP. The ammunition rates excellent. (77524-3M)
2706. **LOT OF AMMUNITION** This lot consists of seven full 50 rd. boxes of CCI Stinger 22 lr., 32 gr. plated lead HP in excellent condition. (77826-1A)
2707. **LOT OF AMMUNITION** This is a lot of seven full 50 rd. boxes of excellent condition CCI Stinger 22 lr., 32 gr. plated lead HP in excellent condition. (77826-1B)
2708. **LOT OF AMMUNITION** This is lot of five full boxes of 22 Win Mag rimfire: (2) 50 rd. of CCI Maxi Mag solid point; (1) 50 rd. of CCI Maxi Mag HP; (1) 10 rd. of CCI shotshells; (1) 50 rd. of Winchester Western Super X extra power 40 gr. JHP expanding bullet. The condition rating is excellent. (77826-1C)
2709. **LOT OF AMMUNITION** This lot consists of 14 full 50 rd. boxes of 22 lr. including the first 13 of Remington: (7) of HiSpeed Kleanbore; (3) of HiSpeed Kleanbore HP; (2) of Yellow Jacket hyper velocity; (1) of standard velocity target; (1) of Winchester Super X extra power. Also included are approximately 30 rds. of mixed loose 22 lr. This is an excellent condition lot overall. (77826-1D)
2710. **LOT OF AMMUNITION** This lot consists of twelve full 20 rd. size boxes of 5.56mm/223 Rem., 55 gr. and all but the first one that are FMJ: (1) of Winchester Super X PSP; (2) of Winchester in the white "Made in USA" style box; (1) of American Eagle; (8) of UMC and (1) bag containing 15 rds. of UMC. This lot rates excellent and comes in a large green metal military style ammunition can. (77826-1E)
2711. **LOT OF AMMUNITION** This lot consists of four full 20 rd. sizes of excellent condition 357 magnum: (1) of Winchester Black Talon 180 gr., SXT; (1) of Remington Golden Saber high performance jacket 125 gr. JHP; (1) of PMC Eldorado Starfire 150 gr. JHP; (1) of Federal Premium 158 gr. JHP Hydra Shok. (77826-1F)
2712. **LOT OF AMMUNITION** This is a lot of five full 50 rd. boxes of 357 magnum 158 gr.: (3) of Remington high velocity semi-jacketed HP; (1) of Western Super X Lubaloy in the yellow box with red and blue graphics with light wear and exhibiting a price sticker and a number written in ink; (1) of CCI Lawman 140 gr. JHP. The lot rates excellent and comes in a large green metal military style ammo can. (77826-1G)
2713. **LOT OF AMMUNITION** This lot consists of five full boxes of 38 special: (1) 20 rd. of Federal Premium low recoil 110 gr. Hydra-Shok JHP; (1) 20 rd. of Federal Premium (+P), 129 gr. Hydra-Shok JHP; (1) 20 rd. of PMC Eldorado Starfire Classic (+P), 125 gr. JHP; (1) 20 rd. of Remington Golden Saber (+P), 125 gr. JHP; (1) 50 rd. of Remington 158 gr. round nose The ammunition rates excellent. (77826-1H)
2714. **LOT OF AMMUNITION** This is a lot of five 50 rd. size boxes of 38 special: (2) full and (1) containing 38 rds. of Remington Kleanbore 158 gr. lead; (1) full of S&W (+P), 158 gr. JHP; (1) full of German manufactured Geco 158 gr. lead bullet. The lot is in excellent overall condition. (77826-1I)
2715. **LOT OF AMMUNITION** This lot consists of five boxes of Winchester 45 auto: (1) full 20 rd. of Black Talon 230 gr. SXT; (1) full 20 rd. of Winchester Super X 185 gr. Silvertip HP; (2) full and (1) containing 43 rds. of 230 gr. ball in the "Made In USA" style boxes. The condition is excellent. (77826-1J)

2716. **LOT OF AMMUNITION** This lot consists of a wide range beginning with the following boxes: (1) full 50 rd. of excellent condition Remington Kleanbore 32 S&W 88 gr. lead; (1) apparently full 50 rd. of Winchester 32 S&W blanks; (1) full 25 rd. of excellent condition Sears 12 ga. 2 3/4" magnum, 4 shot shotgun shells; (1) full 25 rd. of Eley Grand Prix 12 ga. 2 3/4", 8 shot rating excellent overall. 2728. **LOT OF PMC AMMUNITION** This lot includes two full 50 round boxes of 45 ACP, 230 gr., full metal cased bullets. The brass is mostly bright with some showing light tarnish in overall excellent condition. (107373-2)
2729. **LOT OF WINCHESTER WESTERN AMMUNITION** This lot includes seven full 50 round boxes of 25 ACP, 50 gr., full metal cased bullets. The brass cartridges show varying levels of light tarnish along the casings and remain in very good overall condition. (107373-11A)
2730. **LOT OF AMMUNITION** This lot includes five boxes of 25 ACP from multiple manufacturers. First are two full 50 round boxes of PMC 50gr., FMJ cartridges in excellent condition. Second are two full 50 round boxes of Remington High Velocity 50 gr., metal cased bullets in overall very good condition. Third is a full 50 round box of Winchester Western 45 gr., expanding point cartridges in excellent condition. (107373-11)
2731. **LOT OF REMINGTON RIFLE AMMUNITION** This lot includes a full 500 round brick of Mohawk Hi-Speed 22 LR rimfire cartridges. The cartridges have mostly bright brass with some of the lead showing varying light amounts of white oxidation. The cartridges are in ten 50 round packs with an outer sleeve that has a taped end flap and a 2" diagonal tear along the back edge. Item is in overall very good condition. (107373-7)
2732. **LOT OF 30 CALIBER BALL AMMUNITION** This lot includes a 600 round sealed spam can of 30 Carbine. The can is labeled in yellow stencil as follows: "600 Cartridges / Cal. 30 Carbine / Ball M1 / 10 RD Clips Bandoleers / LOT RA 5341" and includes the key. The lot is in excellent condition. (107885-23)
2733. **LOT OF 30 CALIBER BALL AMMUNITION** This lot includes a 240 round sealed spam can of (30-06) 30 M2 ball cartridges. The can is stenciled in yellow and labeled as follows: 240 Cartridges / Cal. 30 Ball M2 / In Cartons and includes the key and is in excellent condition. (107885-15)
2734. **LOT OF FLARES** This lot includes a full 10 round box of what appears to be 26.5mm signal flares (actual diameter 26.51mm). The natural color box is labeled in German text and is in excellent condition. The flares have bright bodies with some overall light rub marks but remain in excellent condition as well. (1X106019-1H1)
2735. **LOT OF SHOTSHELLS** Eight full and/or partial boxes total: (3) full boxes of Remington Sport Loads 20 ga., 2 3/4", 7/8 Oz., No 8 shot; (1) near full mixed box of 20 ga., shotshells containing fifteen rds. of Remington Express No. 6 shot, five Federal Duck & Pheasant No. 6 shot, two Winchester Super-X No. 6 shot, and two Remington Peters No. 8 shot; (1) partial 25 round box containing 22 rds. of Focchi High Velocity 2 3/4", 1 Oz., No. 6 shot; (1) partial 25 round box containing 17 rds. of Focchi Field 2 3/4", 1 Oz., No 6 shot; (2) full 25 round boxes of Focchi Field 2 3/4", 1 Oz., No. 6 shot. All in very good to excellent condition. (107619-2A)
2736. **LOT OF SHOTSHELLS** This lot includes 11 full and/or partial boxes of 12 ga., shotshells from various manufacturers: (2) full five round boxes of Winchester Super-X 12 ga., 2 3/4", 1 Oz., HPRS; (1) sealed box of Eley Grand Prix 12 ga., 2 1/2", 1 1/16 Oz., No. 6 shot; (1) partial box containing 18 rds. of Remington Express Long Range 12 ga., 2 3/4", 1 1/4 Oz., No. 6 shot; (1) partial box containing 22 rds. of Federal Field Load 12 ga., 2 3/4", 1 1/8 Oz., No. 6 shot; (1) mixed box of Federal Magnum steel containing 12 rds. of 12 ga., 3", 1 3/8 Oz., No. 2 steel shot and 10 rds. of 12 ga., 2 3/4", 1 1/4 Oz., No. 2 steel shot; (1) full 10 round box of Remington SPBBX2 12 ga., 2 3/4", 1 1/4 Oz., BBx2 steel shot; (1) full 25 round box of Focchi 12 ga., 2 3/4", 1 1/4 Oz., No. 3 steel shot; (1) full 25 round box of Federal Steel 12 ga., 2 3/4", 1 1/4 Oz., No. 4 steel shot; (1) full 25 round box of Winchester Super Steel 12 ga., 2 3/4", 1 1/4 Oz., No. 3 steel shot; (1) full 25 round box of Focchi Steel (goose and duck load) 12 ga., 2 3/4", 1 1/8 Oz., No. 3 steel shot. All in excellent condition. (107619-2F)

2737. **LOT OF AMMUNITION** This lot includes four full and/or partial boxes of 40 S&W. First is a partial 50 round box (46) of Winchester 40 S&W, 180 gr., FMJ cartridges. Second is a partial 100 round value pack (94) of Winchester 40 S&W, 160 gr., FMJ cartridges. Third is a full 50 round box of Tulaamo steel cased 40 S&W, 180 gr., FMJ cartridges. Fourth is a full 50 round box of Tulaamo Brass Max 40 S&W, 170 gr., FMJ cartridges. The ammunition in this lot rates excellent. (1X107441-29-S18788A)
2738. **LOT OF SHOTSHELLS** Five boxes total: (1) Winchester Super Speed, 410 bore, 3", 6 shot containing 24 original rds. with red paper hulls and modest oxidation occurring to brass. The shells rate good to very good overall and the yellow box with red and black graphics and stamped "R1096C" shows mild soiling in areas, edge wear, a 1" split and the remnants of an applied label; (1) Peters High Velocity Long Range, 20 ga., 2 3/4" containing 14 rds. of correct paper hulled shells rating excellent, as does the box with light isolated wear; (1) Peters High Velocity Long Range, 2 3/4" containing 16 mixed rds. of 2 3/4" consisting of 13 assorted Remington and 3 Western Super X and in very good to excellent condition while the box shows mild creasing and wear; (2) 25 rd. size boxes of Winchester Super Speed, 12 ga., 2 3/4", 4 shot in the light yellow box with red, blue and dark yellow graphics: (1) full with light brown paper hulls; (1) with 23 rds. with dark red paper. Also included are three mixed rds. of Western 2 3/4". The overall condition of the lot is very good to excellent with the boxes showing a few penciled in notes. (76643-14K)
2739. **AMMUNITION LOT** Five boxes total: (1) partial Military style off-white box by Remington containing 40 rounds of the 38 Special FMJ Ammunition. The label reads "50 Cartridges / BALL / Caliber .38 Special M41 / Lot RA 5402 / Remington Arms Company, Incorporated". The box has some minor foxing and light soiling and the enclosed rounds all have varying amounts of tarnish. The contents are mostly of Remington manufacture but there are a few Winchester rounds as well; (1) partial box of Remington Kleanbore 38 New Colt Police 150 grain LRN containing 45 rounds. The green and red box is in poor condition with end flaps missing and the top having become separated from the body on three sides. The included ammunition is a mix of Remington and Winchester manufacture and is in very good condition with varying amounts of tarnish; (1) full box of 50 Remington 45 Automatic 185 grain FMJ Wad Cutter (6745) ammunition. The green box features red "Targetmaster" banners on the sides and has only some very light fraying on the edges and corners, and is otherwise in excellent condition; (2) boxes are Frankford Arsenal 20 round boxes of 45 ACP FMJ 230 grain ball ammunition. The boxes feature red labels that have some very light soiling, one has a small tear at one corner. The end flap at one side of each box has been opened and one box only contains 19 rounds, the other is full. (45953-45B)
2740. **LOT OF FEDERAL AMMUNITION** This lot includes a full 20 round box of Premium 375 H&H Magnum, 300 gr., Nosler Partition nickel-plated cartridges in five round belt holders in excellent condition. (1X107848-20L)
2741. **LOT OF FEDERAL AMMUNITION** This lot includes a full 20 round box of Premium 458 Win. Mag., 500 gr., solid nickel-plated cartridges in five round belt clips in excellent condition. (1X107848-20W)
2742. **LOT OF FEDERAL AMMUNITION** This Lot includes a full 20 round box of Premium Cape-Shok, 458 Win. Mag., 500 gr., Barnes Triple-Shock nickel-plated cartridges in five round belt clips in overall excellent condition. (1X107848-20S)
2743. **LOT OF FEDERAL AMMUNITION** This lot includes a full 20 round box of Premium 416 Rigby, 410 gr., Weldcore SP nickel-plated cartridges in five round belt clips in overall excellent condition. (1X107848-20R)
2744. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 375 H&H Mag., 300 gr., solid African Grand Slam nickel-plated cartridges in five round "Pocket Packs" in excellent condition. (1X107848-20Q)
2745. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 375 H&H Mag., 300 gr., solid African Grand Slam nickel-plated cartridges in five round "Pocket Packs" in excellent condition. (1X107848-20M)
2746. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 458 Win. Mag., 500 gr., soft point African Grand Slam nickel-plated cartridges in five round "Pocket Packs" in overall excellent condition. (1X107848-20X)
2747. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 458 Win. Mag., 500 gr., soft Point African Grand Slam nickel-plated cartridges in five round "Pocket Packs" in overall excellent condition. (1X107848-20Y)
2748. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 375 H&H Mag., 300 gr., solid African Grand Slam nickel-plated cartridges in five round "Pocket Packs" in excellent condition. (1X107848-20N)
2749. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 375 H&H Mag., 300 gr., solid African Grand Slam nickel-plated cartridges in five round "Pocket Packs" in excellent condition. (1X107848-20P)
2750. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 375 H&H Mag., 300 gr., solid African Grand Slam Bullets. These cartridges come in four packs of five to a box and are in excellent condition. (1X107848-20)
2751. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 375 H&H Mag., 300 gr., solid African Grand Slam Bullets. These cartridges come in four packs of five to a box and are in excellent condition. (1X107848-20A)
2752. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 375 H&H Mag., 300 gr., solid African Grand Slam Bullets. These cartridges come in four packs of five to a box and are in excellent condition. (1X107848-20B)
2753. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 458 Win. Mag., 500 gr., soft Point African Grand Slam nickel-plated cartridges in five round "Pocket Packs" in overall excellent condition. (1X107848-20T)
2754. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 458 Win. Mag., 500 gr., soft Point African Grand Slam nickel-plated cartridges in five round "Pocket Packs" in overall excellent condition. (1X107848-20U)
2755. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 458 Win. Mag., 500 gr., soft Point African Grand Slam nickel-plated cartridges in five round "Pocket Packs" in overall excellent condition. (1X107848-20V)
2756. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 458 Win. Mag., 500 gr., SP African Grand Slam cartridges. The cartridges come in five round "Pocket Packs" and are in excellent condition. (1X107848-20I)
2757. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 458 Win. Mag., 500 gr., SP African Grand Slam cartridges. The cartridges come in five round "Pocket Packs" and are in excellent condition. (1X7848-20J) x107848-20J)
2758. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 458 Win Mag., 500 gr., SP cartridges in four five round pocket packs in excellent condition. (1X107848-20G)
2759. **LOT OF SPEER AMMUNITION** This lot includes a full 20 round box of Nitrex, 458 Win Mag., 500 gr., SP cartridges in four five round pocket packs in excellent condition. (1X107848-20H)
2760. **LOT OF REMINGTON AMMUNITION** This lot includes three full 20 round boxes of Express 30 Remington AR, 150 gr., Core-Lokt PSP cartridges in excellent condition. (1X107848-20E)
2761. **LOT OF REMINGTON AMMUNITION** This lot includes three full 20 round boxes of Express 30 Remington AR, 150 gr., Core-Lokt PSP cartridges in excellent condition. (1X107848-20C)

Unless otherwise noted the ammunition is in excellent condition. (1X76031-16X)
2798. **AMMUNITION LOT** This lot consists of two rounds of vintage Rem-Umc 12 ga 00 buck brass case shotshells. The brass hulls have light tarnish and the paper wads have minor crazing and cracking to the membranes. Two very good examples overall. (1X44132-1F)
2799. **COLLECTIBLE AMMUNITION LOT** This lot consists of a partial box of Remington Kleanbore Shur Shot 12 ga 2" #7 1/2 paper hull shotshells. The vintage brown paper box features a red dot "Remington" over "KLEANBORE" logo, the label has some minor foxing and staining and some minor to moderate tears. The box contains 11 of the original paper hull shotshells. Some have minor to moderate oxidation on the bases, but are overall in very good condition. (1X45953-60)
2800. **COLLECTIBLE AMMUNITION LOT** This lot consists of a vintage partially full box of Western 351 WSL ammunition. There are 49 rounds in total and the ammunition appears to be a mix of both softpoint and a few full metal jacket rounds and there are both Winchester and Western headstamped. The ammunition exhibits some scattered tarnish and the box has been opened on both sides with one end having some tape and the other showing a broken tab. One side shows a price tag of "\$40" and a black stamping on the inside tab that reads "30B". The box shows a few small tears at the edges and some scattered flaking, staining and wear and some black marker on one of the large sides. A neat item that will make a good addition to a cartridge collection. (207714-87)
2801. **ORIGINAL PACKAGE OF JAPANESE NAMBU AMMUNITION** Lot contains an unopened natural colored paper package containing 15 rds. of 8 mm Nambu ammunition. The package rates excellent to fine with one seam separating with age. The linen pull cord and label remain fully intact with Japanese kanji symbols fully legible on top and bottom of package. (58000-31A)
2802. **ORIGINAL PACKAGE OF JAPANESE NAMBU AMMUNITION** Lot contains an unopened natural colored paper package containing 15 rds. of 8 mm Nambu ammunition. The package rates excellent to fine with one seam separating with age. The linen pull cord and label remain fully intact with Japanese kanji symbols fully legible on top and bottom of package. (58000-31B)

2803. **ORIGINAL PACKAGE OF JAPANESE NAMBU AMMUNITION** Lot contains an opened natural colored paper package containing 15 rds. of 8 mm Nambu ammunition. The package rates about very good with the top of the package and one side opened to expose contents. The linen cord has been lifted but remains present and the opened package reinforced with cellophane tape. Japanese kanji symbols present on top of package only. (58000-31C)
2804. **LOT OF HORNADY AMMUNITION** This lot includes three 20 round boxes of Varmint Express 204 Ruger, 32 gr., V-Max cartridges with bright brass in overall excellent condition. (107300-4)
2805. **LOT OF WINCHESTER AMMUNITION** This lot includes two full 50 round boxes of Super-X 38 Super Automatic, 130 gr., FMC nickel-plated brass cartridges in overall excellent condition. (107300-8)
2806. **LOT OF WINCHESTER AMMUNITION** This lot includes two full 50 round boxes of Super-X 9x23 Winchester, 125 gr., Silvertip HP cartridges with overall all bright brass in excellent condition. (107300-7)
2807. **LOT OF REMINGTON AMMUNITION** This lot includes three full 20 round boxes of Premier 300 Rem. S.A. Ultra Mag cartridges. There is one box of 165 gr., Core-Lokt PSP cartridges with mostly bright brass and some showing light spots of tarnish and two boxes of 180 gr., Nosler Partition cartridges that have mostly bright brass and some showing spots of light tarnish all in excellent condition. (107300-5)
2808. **LOT OF REMINGTON AMMUNITION** This lot includes three full 20 round boxes of Premier 7mm Rem. S.A. Ultra Mag cartridges. There is one box of 150 gr., Core-Lokt PSP and two boxes of 140 gr., PSP Core-Lokt Ultra all have mostly bright brass showing varying amounts of light tarnish on the brass in excellent condition. (107300-6)

## Magazines

2809. **LOT OF SAVAGE HANDGUN MAGAZINES** Five total: (3) solid blued 10 rd. 32 ACP single slot magazine for later manufactured Model 1907 & Model 1917 pistols; (2) two-tone 10 rd. single slot magazines for the early manufactured wide serration Model 1907 pistol. The magazines are in excellent condition showing minimal contact wear. (58000-12)
2810. **LOT OF MAGAZINES** This lot consists of four 30 round M1 Carbine magazines, four 15 round M1 Carbine magazines and two M1 Carbine 10 round stripper clips. All of the 30 round magazines are "Split back" type and two are unmarked while the other two are marked "M2". One magazine has a rubber plate at bottom, and each magazine rates good plus to very good exhibiting various levels of silvering, flaking paint wear and sticker wear. One of the 15 round magazines is Inland made and marked "AI", the second one is Union Hardware made and marked "U", the third is Quality Hardware made and marked "UQ" and the fourth is National Postal Meter made and marked "UN". The Inland made magazine exhibits oxidation throughout, while the remaining magazines exhibit some light oxidation and silvering. The two 10 round stripper clips show light oxidation and scattered silvering. (207399-9A)
2811. **MAGAZINE/AMMO LOT** This lot consists of approximately 55 rounds of 9mm Speer hollowpoint ammunition, three 15 round CZ-75 magazines and a small leather pouch. The 9mm ammunition is loose, the CZ-75 magazines rate very good to near excellent showing scattered silvering and the leather case measures 8 1/2" by 4 1/2". (207823-13)
2812. **MAGAZINE LOT** This lot consists of seven magazines. The first magazine is an unmarked aftermarket 40 round AK-47 style magazine in excellent condition. The other six magazines are Gen2 Magpul PMag 30 magazines with three being desert tan and the other three being black. Each magazine is a windowed model in excellent condition and they all have their factory dust covers. (207407-9)
2813. **MAGAZINE LOT** This lot consists of two magazines. The first is an M3 Grease Gun 30 round magazine and a 7 round 45 ACP Marlin Camp Carbine magazine. The M3 Grease Gun magazine shows scattered silvering but is very good plus condition overall. The Marlin Camp Carbine magazine appears to be of aftermarket manufacture and it is stainless steel in near excellent condition with light wear and scratches. (206626-14A)

The magazine shows overall light scratches in the finish and silvering along the contact parts and high edges consistent with use. It is simply marked "Cebe" along the lower right rear corner and remains in excellent condition. (106247-49)
2862. **SUOMI M31 MAGAZINE** This lot includes a 50 round, 9mm, phosphate finish, steel body "Coffin" style magazine for the M31 sub machinegun. The magazine rates excellent showing overall light scratches and spots of silvering along the high edges and contact points consistent with use. There are two light impressions in the middle of the front face that don't appear to affect its performance. The magazine is marked "Cebe" along the lower right rear corner. (106247-49A)
2863. **SUOMI M31 MAGAZINE** This lot includes a 50 round, 9mm, phosphate finish, steel body "Coffin" Style magazine for the M31 sub machinegun. The magazine is in overall excellent condition showing a few light impressions on the face, light scratches, silvering along the high edges and contact points, with spots of hardened oil staining. These imperfections do not appear to hinder its function and it is simply marked "Cebe" along the lower rear corner. (106247-49B)
2864. **BETA COMPANY HIGH CAPACITY MAGAZINE** This lot includes a 100 round C-Mag system for an M-16 / AR-15 style rifle. The system includes a black nylon carry pouch with belt clip, two tubes of graphite, dust cover, magazine, speed loader and manual. These items are in excellent condition. (106247-49C)
2865. **BETA COMPANY HIGH CAPACITY MAGAZINE** This lot includes a 100 round C-Mag system for a Ruger Mini-14 rifle. The system includes a magazine, black nylon case with belt clips, dust cover, two tubes of graphite, speed loader and manual. These items come in their original shipping box and are in excellent condition. (106247-49D)
2866. **AK-47 MAGAZINE LOT** This lot includes six steel body blue finish magazines. The magazines are unmarked; four are 30 round capacity and the other two are 20 round capacity. The 20 round magazines have made in Hungary stamps and are in clear plastic bags and are often referred to as "Tanker Mags". They all remain in excellent condition. (106247-49E)
2867. **MINI-14 MAGAZINES** This lot includes four aftermarket Ruger Mini-14 magazines. These are 30 round capacity magazines by Precision Mag and are in their sealed original plastic wrap. The magazines are in like-new condition. (106247-49F)
2868. **HIGH CAPACITY GLOCK MAGAZINES** This lot includes two factory Glock 17, 9mm magazines. These magazines have a 31 round capacity and remain in excellent condition. (106247-49G)
2869. **COLT MAGAZINE LOT** This lot includes four, 20 round, AR-15 magazines marked Colt AR-15 / cal. 5.56mm / Colts Pt. F.A. MFG. Co. Inc. / Hartford, Conn. U.S.A. The magazines remain in excellent condition. (106247-49H)
2870. **COLT MAGAZINE LOT** This lot includes four, 20 round, AR-15 magazines marked Colt AR-15 / cal. 5.56mm / Colts Pt. F.A. MFG. Co. Inc. / Hartford, Conn. U.S.A. The magazines remain in excellent condition. (106247-49I)

2850

2851

2861

2871. **LOT OF AR-15 MAGAZINES** This lot includes six, 30 round magazines, from the following companies: (3) B.F.I., (1) Adventure Line MFG. Co., (1) Parsons Precision Products, and (1) Cooper Industries. The magazines all have a grey phosphate finish and remain in excellent condition. (106247-49J)
2872. **LOT OF AR-15 MAGAZINES** This lot includes six total. There are three unmarked 20 round blued finish magazines and three, 40 round, blue finish magazines. One is marked Precision Prods the other two are unmarked and all are in excellent condition. (106247-49K)
2873. **LOT OF COLT MAGAZINES** This lot includes five various caliber and capacity AR-15 magazines. First are two, 30 round, 5.56mm Colt marked magazines with grey phosphate finish that show overall light scratches and use marks. Second is a 20 round 7.62X39mm Colt marked magazine with grey phosphate finish that shows overall light scratches. Third is a 20 round .223 Colt marked magazine devoid of finish in overall good condition. Fourth is a 10 round Colt marked 5.56 / .223 with a two tone black and grey finish. These magazines are in overall excellent condition. (106247-49L)
2874. **LOT OF AK-47 MAGAZINES** This lot includes six, steel body blue finish 30 round magazines. The magazines are not maker marked and remain in excellent condition. (106247-49M)
2875. **LOT OF AK-47 MAGAZINES** This lot includes four, steel body, 30 round, unmarked blued finish magazines. These magazines are in clear plastic wrap and come with an East German military style canvas magazine pouch and all items are in excellent condition. (106247-49N)
2876. **LOT OF AK-47 MAGAZINES** This lot includes four, steel body, 30 round, unmarked blued finish magazines with East German military style canvas magazine pouch. The pouch has a small tear in the front and the magazines remain in excellent condition. (106247-49P)
2877. **LOT OF AK-47 MAGAZINES** This lot includes four, steel body, 30 round, unmarked blue finish magazines and an East German military style canvas pouch. The items remain in excellent condition. (106247-49Q)
2878. **MWG COMPANY HIGH CAPACITY MAGAZINE** This lot includes a "Ninety-Rounder" snail drum magazine for a Ruger Mini-14 rifle. This polymer magazine comes with its original box, manual, and pusher and is in excellent condition. (106247-49R)
2879. **MWG COMPANY HIGH CAPACITY MAGAZINE** This lot includes a "Ninety-Rounder" snail drum magazine for an AR-15 / M-16 style rifle. This polymer magazine comes with its original box, two pushers, speed loader, and manual. The items are in excellent condition. (106247-49S)
2880. **ALPHA TRADING COMPANY DRUM MAGAZINE** This lot includes a steel body, blue finish 100 round AK-47 style drum magazine. The Magazine appears unused and is in excellent condition. (106247-49T)
2881. **NORINCO DRUM MAGAZINE** This lot includes a 120 round AR-15 / M16 steel bodied drum magazine. The magazine retains 99% of its original blue finish and appears to have seen little if any use. It is marked only with a "36" (inside triangle) near the winding lever and remains in excellent condition. (106247-49U)
2882. **NORINCO DRUM MAGAZINE** This lot includes a 75 round AK-47 magazine. This steel bodied blued finish magazine remains in its original seal plastic wrap and is in like-new condition. (106247-49V)
2883. **TIKKA DRUM MAGAZINE** This lot includes a 71 round, 9mm drum magazine for the Suomi M31 sub-machinegun. The blue finish magazine rates excellent with a few light scratches and spots of oxidation staining. It is numbered 74646 on the backside with Finnish armory markings and 17934\* on the front. (106247-49W)
2884. **TIKKA DRUM MAGAZINE** This lot includes a 71 round, 9mm drum magazine for the Suomi M31 sub machinegun. The blue finish magazine rates excellent with a few light handling marks and spots of oxidation staining. It is Finnish armory marked and numbered 43268 along the back and 12753\* on the front. (106247-49X)
2885. **TIKKA DRUM MAGAZINE** This lot includes a 71 round, 9mm drum magazine for the Suomi M31 sub-machinegun. The blue finish magazine rates excellent showing several light scratches in the surfaces with Finnish arsenal markings and is numbered 10700 on both the front and back. (106247-49Y)
2886. **HOTCHKISS HEAVY MACHINEGUN MAGAZINE** This lot includes a single 25 round magazine for the Japanese Hotchkiss 13.2mm machinegun. The magazine is French made and has the crossed cannons logo along floorplate. The magazine measures 14"X6" retaining near all of its blue finish and it remains in excellent condition. (106247-49Z)
2887. **LOT OF MAGAZINES and Ammo Pouches** This lot includes three East German military style canvas magazine pouches and three blued steel AK-47 style magazines. There are two 30 round and one 20 round magazine and all items are in excellent condition. (106247-7, 49AA)
2888. **DRUM MAGAZINE LOT** This lot includes a 75 round steel drum for an AK-47 style rifle. The German made magazine rates excellent and is numbered K0535 near the winding lever. Included with this lot is an East German style two pocket canvas magazine pouch. (106247-7A, 49AB)
2889. **NORINCO DRUM MAGAZINE** This lot includes a blued steel 75 round drum magazine for an AK-47 style rifle. The magazine retains all of its finish and is marked with "396" (in oval) along the back side. The magazine comes with a green canvas pouch with shoulder strap and both items remain in excellent condition. (106247-49AC)
2890. **LAHTI L-39 MAGAZINE** This lot includes a blued finish steel 10 round magazine for the L-39 anti-tank gun. The magazine has Finnish proofs and overall light handling marks with some areas of silvering along the contact points but remains in excellent condition. Included is an inert 20mm projectile and these items are in excellent condition. (106247-49AD)
2891. **WALTHER MAGAZINES** This lot includes two P22 factory magazines. These are 10 round blued finish finger rest magazines with gold lettering. One magazine remains in its original sealed packaging and the other is loose both are in excellent condition. (106247-49AE)
2892. **WALTHER MAGAZINES** This lot includes two magazines and a spare parts kit. The magazines are original factory 10 round capacity one with finger rest floorplate the other flat. One is blued finish the other has a anodized finish and both are in excellent condition. The parts kit includes a internal lock key, wrench, back strap, and three front sight inserts all parts are in excellent condition. (106247-49AF)
2893. **DPMS MAGAZINES** This lot includes two 10 round polymer magazines for an AR-15 rifle with DPMS operations manual in its original sealed packaging. The items are in like-new condition. (106247-49AG)

# Optics

2894. **BAUSCH & LOMB LOT** This lot consists of a Balfour A scope with adjustable mount for the Winchester Model 88 & 100 series rifles by Bausch & Lomb. The scope features a crosshair reticle and has excellent optics. (47889-24A)
2895. **ANTIQUE TELESCOPE LOT** This lot consists of a JH Steward "The Lord Bury" telescope and leather carrying case. The telescope itself has cloudy, dark optics with scattered specks and it is a draw type and it is marked on a brass plate with an address of "406 & 457 Strand. 7 Gracechurch". The leather cover of the outer scope tube has a 3" missing chip at top, and shows flaking leather, the scope tube itself shows couple dents, chips, oxidation staining and some fading. The leather scope tube shows scratches, light dings, some faded finish and stains. (207575-3)
2896. **LEUPOLD SCOPE LOT** This lot consists of a Leupold 4x Power Mountaineer scope and a leather case. The scope tube retains 95% original blue with scattered freckling, silvering and fading and it is equipped with a set of scope rings. The scope has a fine crosshair reticle and the optics are crisp and clear. The leather scope case rates very good showing scattered stains, scratches and handling marks. (206673-6)
2897. **U.S. NAVY C-3 INFRARED TELESCOPE** This lot consists of a World War Two era C-3 infrared telescope made by RCA and a carrying case. The scope uses two "D" cell batteries to operate and we are unable to determine if it functions properly. The telescope tube retains scattered staining and oxidation staining but is in very good condition overall. The scope is fitted with two leather straps which may be of later manufacture and the optics appear cloudy. This type of telescope had several uses such as signaling and one use was to assist the Underwater Demolition Teams (UDT's) in signaling vessels for pickup. The hard plastic case shows scattered stains but appears very good plus overall and it has a black leather strap which may be a later replacement. The case has an instruction sheet on the inside of the lid which shows a few tears but it appears in very good condition overall. A very good example of a hard-to-find early infrared telescope. (207738-11)
2898. **PECAR 8X40 BINOCULARS OWNED BY JOE FOSS** This lot consists of a pair of Pecar 8x40 binoculars, leather case and letter of authenticity. The binoculars appear to have crisp and clear optics and show some scattered silvering. The leather Pecar case shows some scattered scratches and scuff marks but is in very good condition overall. The inside of the leather flap is signed with Joe Foss's signature however we are unable to verify the authenticity of the signature. These binoculars were purportedly owned by the famous World War Two Marine fighter ace and Medal of Honor winner Joe Foss. A letter of authentication is included written by Robert J. Greene USMC retired states that these binoculars were originally purchased from Mr. Foss's stepson. A neat lot for the military collector. (207249-342)
2899. **LEUPOLD SCOPE LOT** This lot consists of a Leupold Vari-X 2x7 scope and rubber scope caps. The scope tube retains 99% original blue and the optics are crisp and clear with a duplex crosshair reticle. The rubber scope caps show light wear from the years and it is marked "Bikini Cover". (206520-1041A)
2900. **WEAVER B4 SCOPE LOT** This lot consists of a single Weaver B4 3/4" rimfire scope with standard crosshairs and Weaver 22 tip-off mount. The exterior exhibits light handling wear but retains about 99% original black finish. The optics rate very good with a slight hint of cloudiness. The original factory box correctly end labeled to the scope is included. The cover of the box has some handwriting on it but remains in near excellent condition. (86945-8S)
2901. **WEAVER SCOPE LOT** This lot contains a Weaver 4.5x1 rifle scope that measures 10 1/2" overall. The surfaces retain about 96% original dark blue finish having some marks due to previously mounted scope rings and having some scattered light surface oxidation. The scope has a duplex reticle with bright near excellent optics. (177625-2A)
2902. **LOT OF SCOPES** This lot consists of two scopes suitable for 22 cal. rifles beginning with a Weaver B4 measuring 11 1/2" in length and retaining about 97% blue. The scope features a crosshair reticle and the optics remain clear. Attached is a Tasco #699VFM3-7x20 with a length of 11 1/2" and retaining about 98% gloss black finish. It features a crosshair reticle and very good optics. (77569-13A)
2903. **BUSHNELL SCOPE** This lot includes a Trophy 1.75-5X Wide Angle rifle scope with duplex reticle and crisp clear optics. The scope measures 10 1/4" overall with 1" diameter tube and glossy black finish. The turret caps show light tool marks along the ribbed sides and the B insert is missing from the cap. There are very light ring marks visible on the tube and this scope remains in very good overall condition. (107554-20A)
2904. **LEUPOLD SCOPE** This lot includes a Vari-X II 3-9X rifle scope with duplex reticle and crisp clear optics. The scope measures 12 1/2" overall with a glossy black finish. There are light ring marks along the 1" diameter tube and a few light scratches along the outer edge of the objective bell and along the turret caps. The scope remains in very good condition with plenty of use left in it. (107854-2A)
2905. **WEAVER SCOPE** This lot includes a V9-1, 3-9X rifle scope with range finding reticle and clear optics. The scope measures 14" overall with 1" diameter tube and gloss black finish. There are a few light handling marks and the scope remains in overall very good condition. (107951-131A) [Tweed Herendeen Collection]
2906. **HENSOLDT SCOPE** This lot includes a Fero-Z24 IR 4-6X scope with Swan G3 claw mount and reticle illuminator. The scope measures 8 1/2" overall with military style M1 reticle and crisp clear optics. This is a completely functioning unit, ready for use in excellent condition and includes an illumination kit for a Hensoldt illuminated reticle scope. The kit comes with four spare bulbs, small inspection light and cable for connecting to scopes. It derives its power from D size batteries, appears to be in excellent condition. (107885-13)

2897

2906

2907. **ARMSPORT SCOPE LOT** This lot includes a 3-9X Star rifle scope with duplex reticle and clean clear optics. The scope measures 12 1/4" overall and shows multiple small scratches and ring marks in the glossy black finish along the 1" diameter tube. (1X107721-35D31592A)
2908. **WEAVER B4 SCOPE** This lot consists of a Weaver B4 scope and Weaver mount. The scope tube retains 99% original blue and it is equipped with a fine crosshair reticle. The optics have a slight green tint and the scope is mounted on a Weaver side mount. (1X207828-2A)
2909. **WEAVER SCOPE LOT** This lot consists of a Weaver B6 rifle scope with crosshair reticle and lightly cloudy optics showing 90% blue finish with a couple of spots of light cleaning, a little minor oxidation, and some light pitting. Comes with a Weaver 22 Tip-Off mount. (2X127626-2)
2910. **WEAVER SCOPE** This lot includes a B6 rimfire rifle scope with 22 tip-off base. The scope measures 13 1/2" with crosshair reticle and the optics are cloudy. The scope is in need of a professional cleaning but is serviceable. It retains all of its original finish with a few light scratches. (3X107486-7)
2911. **WEAVER SCOPE** This lot includes a Marksman 3-9X rifle scope with crosshair reticle and slightly cloudy optics. The scope measures 13 1/4" overall with a fading gloss finish that shows several light scratches and faint ring marks along the 1" diameter tube. (2X107665-3A)
2912. **RED-DOT SIGHT LOT** This lot consists of an Adco Mirage Red-Dot sight with red and green dot selection, 30mm tube, 25mm objective lens and a flat black exterior in excellent condition. It comes without a battery; dot illumination does work. (1X127790-16H)
2913. **SIMMONS SCOPE** This lot includes a 2.5X20mm shotgun scope with duplex reticle and clear optics. This compact scope measures 7 1/2" overall and includes a set of 1" rings. There are several light scratches in the matte black finish and this scope remains in very good condition. (1X107334-50D)
2914. **UNERTL SCOPE LOT** This lot consists of a Unertl 12x Power target scope, rings and scope caps. The scope is 1 1/2" diameter tube with a fine crosshair reticle and there is a number below the Unertl logo that reads "61835". The scope tube retains 98% original blue with some light silvering spots and scratches and the optics appear to be clear. The scope rings are marked "J. Unertl" and show light oxidation staining and the scope caps are in excellent condition. A great optic for the vintage target rifle. (208008-2A)
2915. **LYMAN ALASKAN SCOPE LOT** Lyman Alaskan All-Weather 2 1/2X rifle scope with clear optics and crosshair reticle. The scope is 11 1/2" overall length, 7/8" tube and an excellent finish retaining 99% original matte blue showing a couple of faint handling and ring marks. It comes with a set of Buehler rings and bases. (127889-57A)
2916. **LOT OF BAUSCH & LOMB SCOPES** This lot consists of two Bausch & Lomb Balvar scopes. First is a Balvar 8A, 2 1/2-8X rifle scope with clear optics and tapered crosshair reticle. Second is a Balvar 4, 4X rifle scope with clear optics and crosshair reticle. Both scopes retain about 99% original matte black finish showing a couple of minor handling marks. These scopes have no windage or elevation adjustments and require adjustable bases. (127889-60A,62A)
2917. **LOT OF BAUSCH & LOMB SCOPES** This lot consists of two Bausch & Lomb Balvar scopes. First is a Balvar 5, 2 1/2-5X rifle scope with clear optics and tapered crosshair reticle. Second is a Balvar 8A, 2 1/2-8X rifle scope with clear optics and crosshair reticle. Both scopes are 12 3/4" overall length and retain about 99% original matte black finish showing a couple of minor mounting and handling marks. These scopes have no windage or elevation adjustments and require adjustable bases. (127889-58A,63A)
2918. **LOT OF BAUSCH & LOMB SCOPES** This lot consists of two Bausch & Lomb Balvar scopes. First is a Balvar 8, 2 1/2-8X rifle scope with clear optics and tapered crosshair reticle. Second is a Balvar 8A, 2 1/2-8X rifle scope with clear optics and crosshair reticle. Both scopes are 12 3/4" overall length and retain 98-99% original matte black finish showing some of minor mounting and handling marks. These scopes have no windage or elevation adjustments and require adjustable bases. (127889-56A,61A)
2919. **LYMAN ALASKAN SCOPE LOT** Lyman Fixed Alaskan 2 1/2X rifle scope with clear optics and crosshair reticle. The scope is 11 1/2" overall length retaining 98% matte blue finish with some light handling and mounting marks. Comes with a Buehler one-piece adjustable base and ring set. (127889-53A)
2920. **BAUSCH & LOMB SCOPE LOT** Bausch & Lomb Balvar 5, 2 1/2-5X rifle scope with clear optics and a tapered crosshair reticle. The scope is 12 3/4" overall length and retains 99% matte black finish with a couple of faint ring and handling marks. (127889-55A)
2921. **WEAVER SCOPE LOT** Weaver K3, 3X rifle scope with post and crosshair reticle and clear optics. It is 10 1/2" overall length retaining 98% matte blue finish with light ring marks. Comes with a set of Stith Master adjustable mounts. (127889-55A)
2922. **LEUPOLD SCOPE LOT** Leupold M8-2X pistol scope with excellent optics and a duplex reticle. It is 8 1/2" overall with a 1" tube retaining 99% gloss black showing a couple of faint ring marks. (127951-199A)
2923. **UNERTL SCOPE LOT** Unertl Small Game 6X rifle scope with clear optics and crosshair reticle. It is 18" overall length retaining 97% original blue with a scuff on the ocular bell, several minor handling and operational marks, and a little light freckling. The scope is fitted with adjustable mounts and comes with threaded lens covers. (128008-8)
2924. **RIMFIRE RIFLE SCOPE LOT** Kmart All-Pro 4X rifle scope with a crosshair reticle lightly foggy optics. It is 10 1/2" overall length, 3/4" tube retaining 99% original black finish. This scope appears unused and comes with its original box, instruction sheet and lens covers. (127929-4)
2925. **KAHLES SCOPE** This lot includes a Helia S 4-32X rifle scope with No.4 reticle and crisp clear optics. The scope measures 11 1/4" overall with a matte black finish that shows light ring marks along the 1" diameter tube. This scope comes with a set of clear bikini style lens covers and remains in excellent condition. (107960-23A)
2926. **BUSHNELL SCOPE** This lot includes a Sportview 3.5-10X rifle scope with duplex reticle and clear crisp optics. The scope measures 12 1/2" overall with a 1" diameter tube and glossy black finish. There are several light scratches in the finish and faint ring marks along the tube. This scope remains in excellent condition. (107914-10A)
2927. **BAUSCH & LOMB SCOPE** This lot includes a Balvar 2.5-5X rifle scope with tapered crosshair reticle and clear crisp optics. The scope measures 12 3/4" overall with 1" diameter tube and glossy black finish. There are a few light scratches and ring marks along the tube and this scope still remains in excellent condition. (107889-54A)
2928. **BAUSCH & LOMB SCOPE** This lot includes a Balvar 2.5-8X rifle scope with tapered crosshair reticle with clean crisp optics. The scope measures 12" overall with 1" diameter tube and has a dulled glossy black finish. There are several scattered light scratches in the finish and faint ring marks. This scope remains in near excellent condition. (107889-56A)
2929. **SIMMONS SCOPE** This lot includes a Presidential 6.5-20X rifle scope with duplex reticle and clean crisp optics. The scope measures 15 1/2" overall with a glossy black finish with white lettering and 1" diameter tube. There are light ring marks and a single Butler Creek flip up lens cover is included. The scope remains in excellent condition. (107968-5A)
2930. **LEUPOLD SCOPE** This lot includes a Vari-X III 1.75-6X rifle scope with duplex reticle and clear crisp optics. The scope measures 11 1/4" and has a matte black finish with 1" diameter tube. There are faint ring marks on the tube and this excellent condition scope comes with a set of rubber bikini style lens covers. (107590-13)

2931. **BAUSCH & LOMB SCOPE** This lot includes a Balvar 2.5-8X rifle scope with tapered crosshair reticle with clear crisp optics. The scope measures 12" overall with a glossy black finish that shows numerous light scratches and evident ring marks along the 1" diameter tube but remains in near excellent condition. (107927-91A)
2932. **LEUPOLD SCOPE** This lot includes a 12X AO rifle scope with crosshair reticle and clear crisp optics. The scope measures 14 3/4" overall and has toned an overall plum color with light ring marks along the 1" diameter tube. A set of flip up Butler Creek Lens covers are included with this excellent condition scope. (107951-137A)
2933. **REDFIELD SCOPE** This lot includes a fixed 4X rifle scope with duplex reticle and clear crisp optics. The scope measures 9 1/2" overall with a glossy black finish and has light ring marks on the 3/4" diameter tube. The scope remains in excellent condition. (107960-26A)
2934. **THOMPSON CENTER SCOPE** This lot includes a Hawken Hunter Series 1 1/2-5X percussion rifle scope with duplex reticle and clear crisp optics. The scope measures 10 1/2" overall with a matte black finish and 1" diameter tube. There are a few scattered light handling and ring marks on this overall very good condition scope. (108028-13A)

## Sights

2935

2935. **VERNIER TANG SIGHT** This is a long range tang sight complete with eye cup with graduations up to 250 along the left side of the tower. The metal surfaces are mostly a plum color with silver and brown undertones. The sight is unmarked however the number 73 is stamped on the underside at the spring. The center to center measurement is 2 3/16" and this sight would likely mount to any Winchester '66 or '73 with ease and remains in near excellent condition. (107889-75A)

2936. **LOT OF MILLET GUN SIGHTS** 14 total: (1) white bar, .312"; (1) orange bar, .200"; (2) orange bar, .312", stake-on; (2) plain post, .312", stake-on; (2) plain post, .225", stake-on; (2) serrated ramp, .225", stake-on; (1) serrated ramp, .312"; (1) orange bar, .340", dual-crimp; (1) orange bar, .360" dual crimp. The last one is from the Series 100 Adjustable Sight System, a Custom Combat Low Profile for rear and with white bar and comes with instruction sheet. The sights in this lot rate as new in original box with the exception of the first one listed that is in factory package without box. (76031-5B)

2937. **FRONT SIGHT LOT** Includes two items, first is a C.R. Pederson & Son ramp kit for a Krag rifle with peep, still in its original packaging, in excellent condition. Second is an unmarked front ramp with removable hood, similar in design to a Lyman No. 17AXNB, in very good condition. (3X107023-2L)

## Miscellaneous

2939

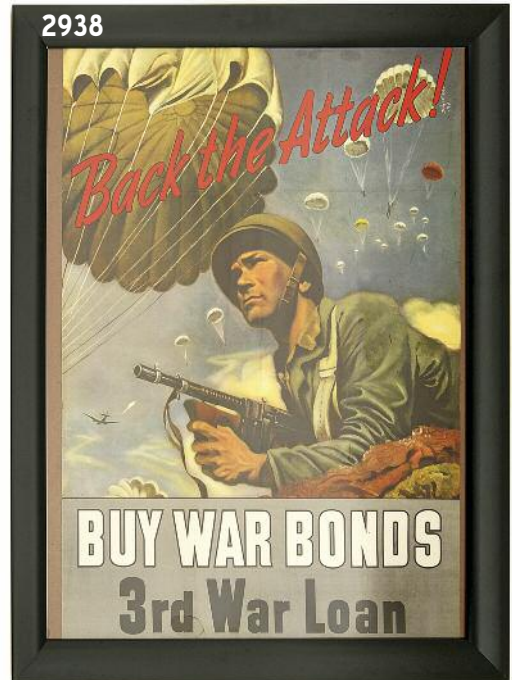

### 2938. UNITED STATES GOVERNMENT WAR BONDS POSTER

This one of many works by Georges L. Schreiber (1904-1977), commissioned by the United States Army and Navy. The battle scene shows a U.S. soldier with his Thompson at the ready with opened parachutes in the sky and his comrades descending around him. The top reads in red: "Back the attack!" with bold "BUY WAR BONDS / 3RD War Loan" at the bottom. This 1943 poster remains in fine condition with original folds and only a couple spots of very minor edge wear. The image remains quite vivid showing very little if any fading from light. The poster measures 20" by 28" and is housed in a modern black vinyl frame with cardboard backing and a clear acrylic front. Schreiber was quite an artist and known for some of the most colorful liberty posters. They are seldom encountered in this fine state of condition. (58016-13) (500/700)

### 2939. U.S. M1920 MILITARY SMALL ARMS RACK

This is a US military barracks storage rack that will accommodate 20 1903-style rifles and 20 1911-style pistols. The metal surfaces retain 98-99% refinished O.D. green paint. The adjustable rack is cast iron and steel weighing approximately 110 lbs and measuring approximately 27" in diameter at the base. The top tier which locks 20 1911-style pistols by their triggerguards measures approximately 18 1/2" in diameter. The center tier locks 20 1903-style rifles by their barrels, just to the rear of the front sight and measures about 19" in diameter. The tiers are joined together with a steel tube running through the center of each, for an overall height of about 48 1/2". Each tier features a circular locking device secured by a padlock, (not included). Really an impressive rack that is certain to be a centerpiece in your arms room, rating in excellent condition overall. (Due to size and weight extra shipping and crating charges will apply) (58016-7) (600/800)

2940. **DISPLAY LOT** This lot consists of a carved wood rifle or rod holder that measures 33 1/2" long and is about 12" high. The single item rack has a carved eagle motif with wings outstretched in center and two small brass mounting brackets on the back. The back is lightly inscribed "Zebra Wood / R.H. Effinger / Freyburg, ME", likely the composition and creator of this fine piece. Effinger is a well known artist and has examples displayed in the Boston Museum Of Fine Arts. A finely made piece of Americana art, worthy of a quality custom rifle or rod. **See image at rear of catalog on page 104.** (46284-1)

2941. **TRENCH ART LOT** This lot consists of a trench art lamp made from a naval artillery shell. The lamp measures about 37" tall, 42" with the shade assembled and has a round wood base with a minor crack through one side. The body of the shell casing has been carved with foliate design and Greco-Roman figures, a few of the original military markings are still visible near the base. The shade is off-white with beige and brown upper trim and is 18 1/2" tall and about 15" in diameter. There is no bulb included but lamp does function correctly. Overall a very good condition piece of military trench art that would make a fine addition to a den or library. (44395-5A)
2942. **TRENCH ART LOT** This lot consists of a trench art lamp made from a military artillery shell. The lamp measures about 27" high without the shade and has a round, stepped wood base. The body has been polished and stippled with a carved rose below "M / 1925" on one side and a female portrait on the other. An 18 1/2" by 15" off-white shade is included, the inner lining is cracked and the attachment mount is missing. Lamp is double switched and features two bulb sockets. No bulbs are included but lamp is fully functional. A very nice piece of military art that would make a good project for restoration. (44395-5B)
2943. **LOT OF CLEANING RODS** This is a lot of three military cleaning rods, consisting of a pair of two section rods and a one-piece. The rods are in excellent condition and range from 29" to 48" in length. (44395-2R1)
2944. **LOT OF CLAY BIRDS** This lot consists of a box of about 110 White Flyer clay pigeon targets. The clays are of different vintage but are all intact. [Due to fragility this item cannot be shipped]. (43746-2J1)

2945. **WINCHESTER BROADSIDE PRINT**

This lot consists of a framed and drybacked Winchester advertising poster. The top of the poster is faded with much of the words being indiscernible. The poster reads "Here is a remedy: Locate the Trouble. Use Winchester Goods" and it features an 1886 lever action rifle. The viewing area measures 10" by 20 1/2" and the poster is in good condition overall showing a few tears, mildew, foxing, fading, creasing, crazing and staining. A great decoration for your gun room. (207421-50)

2946. **WWII CAMILLUS MARK 1 KNIFE SHIPPING BOX**

This lot consists of an empty Camillus Cutlery Mark 1 knife shipping container for 20 knives. The box has been sealed in plastic wrap and it shows scattered tears and wear. The tape at the edges show wear and the tape across the top has been broken. The label remains mostly intact with a few areas missing and it reads in part: "From CAMILLUS CUTLERY CO/Camillus, New York, U.S.A./ To SUPPLY OFFICER IN CHARGE/NAVAL SUPPLY DEPOT/Norfolk, VA./Contents: Lot 1- Item 1- Mark/20 Each 5" Utility Knife/20 Each Plastic Sheath". An uncommonly seen item that will fit in well with any military collection. (207738-13B)

2947. **EAST GERMAN VR-27M AIRCRAFT RADIO BY ELECTRO SPECIAL** This lot consists of an East German VR-27M aircraft radio. The radio is finished in a light gray enamel and it shows scattered areas of light silvery scratches and some light stains and one of the adjustment knobs is missing. We are unable to determine if the radio works properly but the knobs appear to function as they should. A neat piece of Cold War memorabilia. (207738-13A)

2948. **GERMAN HELMET LOT** This lot consists of a German M16 steel helmet with no liner. The helmet shows a fading Feldgrau finish with scattered oxidation, both inside and out with heavier oxidation on the inside. The right side of helmet is fitted with a later applied SS decal on the right side that shows some light wear and oxidation staining. The helmet is numbered "64" on the inside and all the rivets appear present. A good restoration candidate or display item for the military collector. (207407-8)

2949. **NAUTICAL LOT** This lot consists of a submarine dive horn, a cannon ball mould and a canvas holster. The submarine dive horn is marked "Benjamin Electric" and it has the model number 8170. The horn's gray finish shows scattered light wear and some light oxidation staining and it is mounted on a 13'x7" piece of wood. The horn also includes an electrical cord, and switch. The cannon ball mould is maker marked by C. Palmer of Newton, Pennsylvania and it is also marked "801". The mould shows scattered silvery, oxidation staining and scratches but it appears functional. The canvas holster appears to be of British Commonwealth manufacture and it features a button with a bird over an anchor surrounded by 13 stars. The holster fits an Enfield No. 2 Mk 1 revolver and it appears to be in very good shape overall with a few small stains and some light holes on the back side. (207407-7)

2950. **FRENCH MEDALLION LOT** This lot consists of a bronze French medal from 1804. The bronze medal has turned a brown patina and shows scattered oxidation staining. The obverse of the medal features the likeness of Napoleon Bonaparte with the words: "EMP. ET ROI", meaning emperor and king. The back of the medal shows a man battling a hound and the script reads "En LAN XII 2000 BARQUES SONT CONSTRUITES", meaning in the 12th year of Napoleon's reign 2000 ships were to be built. This medal was meant to commemorate a 2000 ship fleet that was intended to be used to invade England but this fleet was never fully completed nor was the invasion. A very neat piece of history. (207391-5A)

2951. **FRENCH MEDAL LOT** This lot consists of a bronze Napoleonic era French medal. The metal is turning a brown patina and shows scattered light oxidation stains and the bottom of rim on obverse shows a very small bend. The obverse of the coin features the likeness of Napoleon Bonaparte over the engraver's name "Andrieu F.". The back of coin shows the French Legion of Honor medal and above it the words "AUSPIECE NEAPOLEONE GALLIA RENOVATA". A neat piece from a pivotal time in Europe's history. (207391-5B)

2952. **GERMAN COIN LOT** This lot consists of a bronze German states memorial coin to the Grand Duke of Baden. The coin is turning a brown patina and it shows scattered light oxidation staining. The obverse of the coin features the likeness of the Duke with this full title near the rim. The back of the coin reads "DANKT SEINEM VERKLAERTEN BESCHUTZER 24 APRIL 1852" and the edges of the coin the Duke's title. A neat coin overall. (207391-5C)

2953. **BRITISH COIN LOT** This lot consists of death memorial for the Duke of Wellington. The coin exhibits scattered light oxidation staining. The obverse shows the likeness of the Iron Duke with his name and title near rim. The back of the coin lists his birthday and death day in 1852 and this a great piece of memorabilia to the leader who bested Napoleon at Waterloo. (207391-5D)

2954. **BRITISH COIN LOT** This lot consists of a memorial coin for the Duke of Wellington. The coin exhibits some scattered light oxidation staining. The obverse shows the likeness of the Duke, his title and the engraver's name "ALLEN & MOORE BIRM". The back of the coin reads "BRITANNA MOURNS HER HERO NOW AT REST" and in the center is a tomb with Wellington's birth and death dates and an angel. The bottom also reads "WATERLOO/JUNE 18 1815" in commemoration of Wellington's famous victory over Napoleon. (207391-5E)

2955. **FRENCH MEDAL LOT** This lot consists of a single sided French medal commemorating the French retreat across the Danube River at the Battle of Essling. The back of the medal lacks markings and the medal shows scattered oxidation staining and dings on the rim. The obverse of the medal shows French troops being guided by an angel crossing a bridge. A neat medal commemorating a great escape by Napoleon's troops. (207391-5F)

2956. **BRITISH COIN LOT** This lot consists of a coin commemorating King George III. The bronze coin is turning a dull brown patina and shows scattered oxidation stains and some wear. The obverse of the coin is marked with the likeness of King George III and it reads "GEORGIUS III D G MAGN BRIT FR ET HIB REX". The back of the coin shows a crypt with a single eye over it and at top it reads "REGE INCOLUM POPULUS LAETUS" and at bottom it reads "A SICARIO SERVATUS/MAI XV MDCCC". A tribute to one of Britain's most famous kings. (207391-5G)

2957. **SWISS COIN LOT** This lot consists of an 1822 Swiss coin commemorating the Gathering of the Officers. The brass coin is turning a brown patina and shows scattered light oxidation stains. The obverse of the coin features three officers coming together and holding their hands toward the sky over the words "GRUTLI DEN XVII NOV MCCCVII". The back of the coin shows several flags underneath and the Swiss cross and it reads on the edges "DER GEIST UNSRER VATER SEY MIT UNS". On the bottom of the back side the coin reads "LANGENTHAL DEN 18 JULI 1822". Really a neat coin. (207391-5H)

2958. **GERMAN MEDAL LOT** This lot consists of a German medal commemorating Otto Von Bismarck. The medal shows a few spots of oxidation and oxidation staining and some scratches. The obverse of the medal shows the likeness of Bismarck under the words "Furst Bismarck". The back of the coin shows a crest underneath several words which reads in part "Allezeit true bereit ju des Reiches Herrlichkeit". A neat coin commemorating one of Germany's prominent leaders. (207391-5I)

2959. **SHOOTING MEDAL LOT** This lot consists of a 10 karat gold shooting medal. The medal shows some light wear and the obverse shows a pilgrim type character holding a blunderbuss under the words "PALE FACE". The back side of the medal reads "JUNE 10-11th 1910/90% CLASS/WON BY/W.F. CLARKE". An interesting coin for the collector. (207391-5J)

2960. **GERMAN SHOOTING MEDAL LOT** This lot consists of a 1927 dated German shooting medal. The silver medal shows scattered flaking and light oxidation staining. The obverse shows a man in a top hat shooting a Schutzen rifle and underneath him is a target with a reef around it. The back of the coin shows a reef around the words "Standeinweihung des Burger Schutzen-Verein e.V. Schewrte 3/727" A neat coin for the collector. (207391-5K)

2961. **SWISS SHOOTING MEDAL LOT** This lot consists of a silver Swiss shooting medal. The medal shows some light wear and light oxidation stains. The obverse shows a Swiss guard in front of a cannon and village under the words "TOUT POUR LA PATRIE" and underneath him are the dates "1519-1526" and "1584-1814". The back Shows an eagle underneath a key and Swiss cross underneath the words "Un POUR TOUS", "TIR FEDERAL A GENEVE 1887" and "TOUS POUR UN". A neat lot for the Swiss collector. (207391-5M)

2962. **GERMAN SHOOTING MEDAL LOT** This lot consists of a German shooting medal. The medal shows scattered oxidation stains and scratches. The obverse shows a man in a hat shooting a Schutzen rifle and a reef over a target on the right side. The back of the medal shows a reef over the words "VERBAND DER SCHIESKLUBS/VON LUDENSCHIED UND UMGEGEND 5 SIEGER". A neat shooting collectible. (207391-5N)

2963. **GERMAN SHOOTING MEDAL LOT** This lot consists of a German shooting medal. The brass medal is turning a brown patina and shows some scattered oxidation stains. The obverse features the German coat of arms and a soldier firing a match lock. The rear features an inscription which reads in part "VERGESSE NIE DU SCHUTZE BEI JEDEM BRECHENDEN SCHUSS AN DIEN BEDRANGTES VATERLAND ZU DENKEN...". A neat coin for the shooting enthusiast. (207391-5O)

2964. **BRITISH COIN LOT** This lot consists of an 1844 dated coin commemorating the Duke of Wellington Statue at the Royal Exchange in London. The coin shows some light oxidation stains and the obverse shows the Duke of Wellington Statue underneath the words "WELLINGTON STATUE ERECTED 1844". The back of the coin shows the Royal Exchange building underneath the words "ROYAL EXCHANGE LONDON". A neat coin commemorating two very import London landmarks. (207391-5P)

2965. **SWISS COIN MEDAL** This lot consists of a Swiss medal commemorating the Battle of St. Jakob an dir bers. The medal shows scattered oxidation stains and the rim has a couple chips and one minor bend. The obverse shows a falling warrior with a sword in one hand and a flag in the other under the words "EIDGENOSSISCHES FREISCHHESSEN 1844 ZU BASEL". The back of the medal shows several Swiss symbols over the words "DER SCHILD ZERBROCHEN LAS SCHWERT ENTZEL DAS BANNER IN STERBBENDER HAND TRIUMPH DAS VATERLAND BLEIBT FREI. GOTT SEGNE DAS VATERLAND". This battle was fought between 1500 Swiss fighters and 40,000 French mercenaries and it was a French tactical victory but a strategic failure and today the battle is considered very important in Swiss history. (207391-5Q)

2966. **GERMAN SHOOTING MEDAL LOT** This lot consists of a German silver shooting medal dated 1893. The medal's markings are fading and show scattered scratches and oxidation staining. The obverse of the coin shows the likeness of the Prince of Bavaria Von Bayern under the words "LUITPOLD PRINZREGENET VON BAYERN PROTEKTOR". The back of the medal shows the shooting gallery under the words "DIE NEUE SCHIESSTATTE DER KGL PRIVIL HAUPTSCHUTZEN GESELLSCHAFT MUNCHEN" commemorating the opening of a shooting gallery in Munich. A neat coin for the shooting enthusiast or historian. (207391-5R)

2967. **WINCHESTER RELOADING TOOL** This lot consists of a Winchester 1894 reloading tool for the 32-40 cartridge. The tool exhibits scattered oxidation staining throughout and some flaking but the Winchester markings and patent date remain mostly clear. (207844-6)

2968. **ORDNANCE CRATE LOT** This lot consists of a wooden M40A1 case for two 106mm recoilless rifle rounds. The case measures 12 3/4" in width, 7 1/2" in height and 46" in length. The case shows dings, abrasions, large chips and handling marks throughout. There is also dust and wear from the years. The ordnance markings appear intact and there are some areas of penciled markings. A neat display piece for the military collector. [please note extra shipping will apply]. (207240-56)

2969. **GAS MASK LOT** This lot consists of a new-in-wrapper U.S. M17A1 gas mask and several accessories. The gas mask is in a white wrapper and it is assumed to be in very good to excellent condition. Included is an original manual, OD green bag, new-in-wrapper canteen cap, new-in-wrapper outsert eyelens, two new-in-wrapper filter element sets, a new-in-wrapper field protective mask M6 and a new-in-wrapper M17A1 disk valve. A neat lot for the militaria collector. (207373-14)

2970. **HELMET LOT** This lot consists of two US military helmets the first is a WW2 era Navy "Talker" Style helmet and the second is a Gentex flak type fiber pot helmet. The Navy helmet shows scattered handling marks, light stains and some thinning paint. It also has a liner which is marked "LARGE" for the size and there is writing in yellow marker "PAUL S". This helmet lacks a liner and it has a textured appears with flaking finish and it shows some scattered sawdust staining. The Gentex label remains mostly intact with a few minor tears at the edges. (206984-2)

2971. **RELOADING LOT** This lot consists of 2 bags total. (1) bag of approximately 2.2 lbs. of pulled .30 caliber bullets of varying weights and configurations displaying light tarnish, some oxidation and scattered verdigris. Also included is (1) bag of approximately 1.2 lbs. of deprimed 38 Special ammunition of varying makes. (86945-3D)

2972. **DIAL DEPTH GAUGE LOT** This lot consists of a single unmarked dial depth gauge that ranges from .01" to 1.0" and includes a removable dial depth gauge base. The dial still functions and rates excellent overall. (86945-8L)

2973. **LOT OF SILVER SOLDER** This lot consists of (1) 1/2-ounce package of Brownells Silvaloy 355, #080-538-405 silver solder ribbon and (1) 1/2-ounce package of Brownells Silvaloy 355, #080-538-432 silver solder wire. The solder does not appear to have been used. (86945-8T)
2974. **GUNSMITHING LOT** This lot consists of (4) items. Included are (1) Brownells Manson No Go HS gauge for 243/308/7mm-08, part #513-100-261, (1) Brownells Manson Go HS gauge for 243/308/7mm-08 part #513-100-260, (1) 1-ounce package of Brownells Hi-Force 44 Solder ribbon part #080-649-301 and (1) 1/4-pound package of Brownells Hi-Force 44 Solder wire part #080-649-250 which appears to be used but still weighs approximately .245 lbs. Everything appears unused except as noted in the text. (86945-8U)
2975. **TASCO BORE SIGHTER LOT** This lot consists of (1) bore sighter and (1) stud set. Included is a Tasco No. 30 "Shot Saver" bore sighter in the original box end labeled to the product, felt lined leatherette case and the instructions. Also included is a Tasco bore stud set in a leatherette "tool roll" style package with provided studs covering the following calibers: .17, .22, 6mm, .25, 6.5mm, .27, 7mm, .30, .32, .338, .35, .375, .44 and .45. The roll has room for a spare stud and instructions for use are incorporated into the "Shot Saver" instructions. Both items are in excellent condition. If you mount a lot of scopes, this is a handy tool to have. (86945-8V)
2976. **IRON SIGHT LOT** This lot consists of (5) assorted sporting rear, receiver and front sights with accessories. Included are (1) Lyman model 66LA receiver sight with base, slide and 1/2" aperture for Marlin 336 and 1894 rifles that are drilled and tapped on the side of the receiver, plus (1) .211 height Redfield sourdough post front sight with gold insert. (1) Lyman long slide marked with an "M" and "U36" on the rear of the slide. The scales are inscribed on the polished side of the slide and it is equipped with a 5/8" aperture. There are two screws and a spare unmarked windage thumb knob also included with this sight. (1) rear sight assembly for Remington rifle and (1) tin of Lyman #17A sight inserts for Lyman 17A globe front sight with 8 varying sight inserts. The original box and paperwork are also included with the sight inserts. (86945-8Y)
2977. **MIXED RELOADING LOT** This lot consists of (43) pieces to include the Akro-Mils plastic cabinet they are stored in. Included are (9) packs of CCI #500 small pistol primers containing about 873 primers, (1) pack of Remington #6 1/2 small rifle primers containing about 74 primers, (2) pack of Remington #9 1/2 large rifle primers containing about 143 primers and (1) pack of CCI #550 magnum small pistol primers containing about 100 primers. Also included are the following C&H swaging dies and tools: (1) spanner wrench, (1) C&H .452 half-jacket die, (1) C&H .452 ejector punch, (1) C&H 45 ACP .452 semi-wadcutter bullet nose punch, (1) C&H 45 Colt wadcutter bullet nose punch, (1) C&H .357 half-jacket die, (1) C&H .357 ejector punch, (1) C&H 38 .357 semi-wadcutter bullet nose punch, (1) C&H 38 .357 wadcutter bullet nose punch, (1) C&H 38 .357 semi-wadcutter hollowpoint bullet nose punch and (1) C&H 38 .357 cup point bullet nose punch. Also included are (1) W.S. Vickerman .22 caliber in-line bullet seater, (1) Lyman large primer pocket reamer, (2) unidentified vintage RCBS threaded units with square bodies that are possibly seating stems, (1) unmarked extended #2 shell holder, (1) 45 caliber seating stem for round-nose bullets, (1) 45 caliber seating stem for wadcutter bullets, (1) 38 caliber seating stem for semi-wadcutter bullets, (1) 30 caliber seating stem for pointed bullets, (1) packet of eight RCBS large decapping pins, (1) packet of nine RCBS small decapping pins, (2) old style RCBS 25 caliber expander plugs, (2) #09706 RCBS 25 caliber expander plug, (1) #09702 RCBS 22 caliber expander plug and (2) #09612 RCBS small expander / decapping rods. Everything is in very good to excellent condition. (86945-2I)
2978. **IVER JOHNSON BOX LOT** This lot consists of a single hinged Iver Johnson box end labeled to a 32 Safety Hammerless, double action, automatic ejection, blued bicycle model. The cover has a tear on the right corner and toward the center. The exterior cover has the patent statement and the inside includes the instructions. Overall the box rates good to very good with the aforementioned tears being the only detractors. (86945-8AB)
2979. **MCKEEVER FOURTH TYPE CARTRIDGE BOX LOT** This lot consists of a single U.S. marked McKeever type four cartridge box in good to very good condition. The seams and stitching remain tight with the leather exhibiting light crazing, high edge wear and moderate wear of the finish around the brass finial. The interior rate very good to excellent with strong stitching and light soiling from use. The brass hardware exhibits moderate verdigris where it contacts the leather. A well-used but not abused cartridge box. (86945-5A)
2980. **LOT OF POWDER FLASK BY BATTY AND W. SYKES** This lot consists of (2) powder flasks. The first is a 3 1/4" X 7" copper bodied flask showing a crisply stamped depiction of an Indian standing by a tree with his musket and a fallen deer at his feet. The top of the flask is marked "Batty". The charger is adjustable but the graduations are not marked. The cut-off spring is not functioning and the seam is separating at the base of the body. The second is a 4" X 7 3/8" brass bodied hanging flask with a crisp depiction of a dogs head in the center of radiating pedals. The top of the flask is marked "W. Sykes / Patent" and the cut off still functions but the spring is weak. The body has scattered light dents and handling marks but the seams remain solid. The charger is adjustable but not marked for the graduations. (86945-5B)
2981. **LOT OF POWDER FLASK** This lot consists of (2) powder flasks. The first is an American Flask & Cap Co. that is marked "AMFLASK&CAP CO" on the charger and measures 3 1/2" x 6 1/4". This a hanging copper flask design with 2 to 2 3/4-dram adjustable charger. The body has four hanger studs with split rings but one is missing, leaving a small round hole in the side of the body. The body has crisply stamped foliage and dot design, and the cutter and spring are operational. The second is an unmarked 3 1/8" x 5 7/8" brass bodied flask with crisply stamped foliage design. The flask is equipped with a fast charger, the bottom of the seam is starting to separate and the top spring is broken but the cutter is operational. Both flasks exhibit light to moderate tarnish with moderate oxidation on the top spring of the unmarked flask. (86945-5C)
2982. **J. MATTHEWMAN FLASK AND UNMARKED BALL AND CAP CHARGER FLASK LOT** This lot consists of (2) flasks. Included is a "J. Matthewman" marked, 3 1/4" x 6 3/4" hanging brass flask with unmarked adjustable charger. The inside of the flutes on the body are highlighted with raised dots that are progressively larger toward the base. The cutter and top spring are operational and is equipped with four hangers consisting of a stud with a split ring. The exterior appears to have been painted white with the high areas worn to brass. The second unmarked 2" x 4 1/4" ball and cap charger style brass flask has crisply stamped foliage design. The plain charger has light tool marks from an attempt to remove it but the cut off and spring remain functional. The base has two brass swivel gates with raised center covering a ball and cap compartment. Both flasks show light tarnish. (86945-5D)
2983. **AMERICAN FLASK & CAP CO. SHOT POUCH AND G.W. INGRAM POWDER FLASK LOT** This lot consists of (2) pouches. The first pouch is an American Flask & Cap Co. 3 1/4" x 6 1/4", 3 pound, firm leather hanging shot pouch. It is marked "AMFLASK&CAP CO." on the 1 & 1 1/4 ounce fully functional adjustable charger. The firm leather body is in excellent condition with tight seams and a crisp depiction of a bird dog on point. The second flask is 3 1/4" x 6 1/2" brass G.W. Ingram hanging powder flask with 2 1/4 to 3-dram adjustable charger. The body has a crisply stamped depiction of a hound's head surrounded by a floral motif. The patina in the high areas has worn to a goldenrod colored brass. The cutter is operational but the top spring is missing. (86945-5E)
2984. **LOT OF POWDER FLASK** This lot consists of (5) assorted powder flasks. Included is an unmarked 3 5/8" x 6 5/8" wood powder flask with a turned charger of what appears to be ivory and wooden stopper affixed to the flask with line. There are two checks about 2" long on both sides of the neck. The second unmarked 3 3/8" x 6" flask has a copper body with crisp depiction of a running deer surrounded by fowl with foliate borders. This hanging flask has an unmarked adjustable charger with a fully functional top spring and cutter. The third unmarked 3 1/4" x 6" plain body brass flask is equipped with an adjustable charger and fully functional cutter and top spring. The body of the flask has numerous small dents, the bottom of the seam is starting to separate from an impact and the adjustable charger is missing the adjustment stop screw and does not move. The fourth is a 1 7/8" x 3 5/8" brass pistol pocket flask has been lightly crushed and the seams are starting to fail from the stress. The flask has a plain charger, operational cutter but a broken top spring. The last 3 3/8" x 5 5/8" tin hanging flask has been lightly crushed with several stress holes on the body. One of the hangers is missing as is the top spring. The flask features an unmarked adjustable charger and operational cutter. (86945-5F)

2985. **LOT OF SHOT FLASK** This lot consists of (4) shot flask. Included is a 3 5/8" x 6 1/4" American Flask & Cap Co. marked 4-pound hard leather hanging shot pouch with an impressed pointing dog on the body. The adjustable 1 1/4 to 1 1/2-ounce adjustable charger is missing the cutter and spring mechanism, the bottom loop to hang the pouch is missing and the seams have several repairs. The second American Flask & Cap Co. marked, 3 3/8" x 6", 3-pound hard leather hanging shot pouch has a softened impression of a running hare and birds. The 1 to 1 1/4-ounce charger is fully operational with tight seams and intact hanger. There are a few light handling marks and the leather is worn and cracked around the charger retention screws. The third flask is an unmarked 3 3/8" x 6 1/4" hard leather hanging flask with 1 1/4 to 1 1/2-ounce adjustable charger. The body has impressed depiction of a running hare and birds, and exhibits repairs to the seams, the hanger is missing and there is an added piece of leather sewn around the neck areas. The last flask is a 2 3/4" x 5 1/2" hanging hard leather shot flask with 1 to 1 1/4-ounce adjustable charger with the front of the body now concave from applied force and a repair on a stamped marking. The repair partially covers the marking but it appears in a circle as "...GRANTED SOLID" with "LEATHER" in the center. The original seams are intact as is the hanger but the cutter spring is missing and the leather has light crazing and handling wear. (6945-5G)
2986. **LOT OF POWDER HORNS** This lot consists of (4) powder horns. Included are a 6 1/2" powder horn with one turn ring by the neck, flat wood base and plain wood plug in the tip. The letters "L.A.F." are carved on the base plug. The second horn is 8 1/2" long with a single turn ring by the tip, no base plug or tip plug. It has a 3" crack running from the base at a hole drilled for the plug. The third horn is a 7 1/4" long horn with a single turn ring by the neck, flat wood base plug and plain wood plug in the tip. The last horn is 6 1/4" long with a single turn ring on the neck, flat wood base and plain wood plug at the tip. There are three initials carved into the body but one is not visible. The remaining two are "G.E.". This last horn should be great for priming a "flinter" or for a small bore rifle. (86945-5H)
2987. **LOT OF VINTAGE TINS** This lot consists of (3) tins. The first tin is 1 3/4" x 3 3/4" x 2 5/8" with about 60% nickel plate remaining. There are two partial labels left on the sides but the base has a full label remaining. The label depicts a stag with "PROTECTIVE TRADE-MARK" in bold at the bottom and "GREEN MOUNTAIN / ASTHMA CURE / TRADE MARK" in the center of the label. (2) unmarked 2 3/4" x 3" x 1 1/8" oval tins with black japanned finish. One tin has only 40 - 50% remaining finish with the remainder flaked to silver, light handling marks, dents and the screw-in cap is present. The other tin retains about 90 - 95% japanned finish with light handling wear, dents, oxidation blemishes, a small crack by the neck and no screw cover is present. (86945-5I)
2988. **VINTAGE FISHING EQUIPMENT AND MARLIN SIGHTING-IN GUIDE LOT** This lot consists of (12) items. Included are (1) Union Hardware Co. telescoping fishing rod with attached Sterling level wind reel. The rod shows light to moderate handling but still properly extends and the guides are intact. (1) Abbey & Imbrey fly fishing handle with reel seat and ferrule. (1) Rainbow fly fishing reel seat with handle and ferrule. (1) unmarked chrome plated reel seat. (1) unmarked #2 fly fishing reel seat. (1) Allan fly fishing threaded reel seat, and (1) wood fighting butt for casting rod constructed of wood with coarse diamond pattern. (1) pair Whittemore & Co. improved "Regular" rod carrier with original box and instructions. The pair appears unused and were designed to be attached to a car's "rain gutter". (2) bait tins with attached safety pins to fasten to the clothing and perforated hinged cover. One tin is red, retaining about 40% red paint with complete safety pin welded to the rear. The second is identical but green with about 50% remaining paint but the guard portion of the pin has broken off. (1) red oval shaped flat bait box with hinged perforated cover with about 30-40% remaining finish and the top of the cover starting to separate from the base. (1) Marlin firearms company sighting-in guide. (86945-5J)
2989. **LOT OF VINTAGE SHOTSHELL RELOADING TOOLS** This lot consists of (7) vintage 12 gauge shotgun reloading tools. Included are one each of the following tools: Union Hardware Co. B77 roll crimper (a.k.a. closer) for 12 gauge shotshells, homemade wad cutter, unmarked wood de-capping base, Union Hardware Co. 1 oz. shot / 2 1/2-dram powder dipper, unmarked wood combination decapping rod and wad seat, 12-gauge resizer, and an unmarked wad guide. All these tools rate very good to excellent except the resizer which has broken in the past and was given an ad-hoc repair. (85694-16D9)
2990. **LOT OF BULLET MOLDS** This lot consists of (2) bullet moulds and (1) set of handles. Included is (1) Lyman #44537, single cavity .445" round-ball mould that has not been used and remains in excellent condition. It includes the original factory box. Also included is (1) Lyman #445599 single cavity hollow base flat nose Minie bullet and a set of Lyman small mould handles. The handles show light use and the blocks moderate use but should cast good bullets. (85694-16D10)
2991. **LASERLYTE LOT** This lot consists of a single Laserlyte bore sighting kit and (2) Ruger patches. The specific model number is not marked. The kit includes a nylon sheath, laser, (4) different size bore arbors, Allen wrench and Laserlyte daytime target. The unit is working and appears in excellent condition. Instructions are not provided but are available online. Also included are (2) Ruger shoulder patches. (85694-16D11)
2992. **SHOOTERS LOT** This lot consists of (2) magazines, (4) slings and (1) holster. Included are a single Thompson Center leather holster for a scoped Contender pistol with a barrel of about 8 - 10" in length. The shoulder straps and harness are in need of attention as some of the fasteners are missing or broken. Also included are (1) magazine for a S&W Model 39 and (1) magazine for a Beretta Model 92 semi-auto pistol. Both are in excellent condition. Also included are three assorted leather slings to include one each of the following: (1) unmarked suede leather sling in excellent condition for a muzzleloading rifle such as a Hawken or similar that has a butt cuff and is designed to fasten around the barrel, (1) AA&E Leather Craft padded cobra leather sling with nicely carved whitetail deer in used but very good condition and (1) reproduction Japanese Arisaka sling in excellent condition with reproduction Tokyo Juki Kogyo markings. (87899-9, 11, 6 / 7898-14, 8, 12)
2993. **DAISY NO. 25 BB GUN LOT** This lot consists of a single Daisy No. 25 slide action BB gun. The metal surfaces retain about 80% original paint with scattered light scratches, oxidation blemishes, high edge wear and handling marks. The smooth plastic buttstock and grooved plastic forend rate good to very good with light wear, scattered paint staining and handling marks. The action is not operable and in need of attention, and the pivot screw on the receiver is not original. (87899-10) (NON-GUN)
2994. **BEAUTIFUL WOOD PRESENTATION CASE FOR A S&W REVOLVER** This lot consists of a single presentation case constructed of gorgeous burl wood with brass hardware. The case measure 9" x 15" x 3 5/8" with the interior lined in red velvet and cut out for a Smith & Wesson N frame revolver with 6 1/2" barrel. The front mounted brass lock is functional and includes a single "skeleton" key. The wood is finished in a hard urethane gloss and overall rates excellent with a few minor handling marks. If you are looking for a something a little extravagant to display your favorite "Smith" in, look no further. (87950-2A)
2995. **WALTHER 22 CALIBER CONVERSION KIT FOR 1911 STYLE PISTOLS** This lot consists of a single 22 L.R. single shot conversion kit designed for 1911 style 45 ACP pistols. The box is marked "Einstecklauf Kal. 22 L.R. Fur Pistole" by Lothar Walther along with caliber and pistol model markings. The kit consists of a single threaded barrel with lock washer and knurled brass nut, 45 ACP firing pin, brass rod with knurled steel handle to eject casings and nylon bore brush. All parts rate excellent and appear to have little use. (87644-71)
2996. **COLT SECOND GENERATION SINGLE ACTION ARMY STAGECOACH BOX** This lot consists of a single original Colt factory stagecoach box factory marked for a 5 1/2" second generation single action army. The cover has later added hand written information on the gun it originally contained. The box rates near excellent overall with light scuffing on the edges and light cracking on two of the corners. The original cardboard factory insert with cylinder cut-out is included. (87751-20A)
2997. **COLLECTIBLE SIGHT ADJUSTMENT TOOL LOT** This lot consists of (3) items. Included is a Colt six sided sight adjustment tool for the Woodsman series in excellent condition. Also included are a pair of 8 1/2" long nylon bristle bore cleaning rods in good to very good condition. (87981-7B)

2998. **WOOD PRESENTATION CASE LOT** This lot consists of a homemade wood presentation box sized for a Colt 1st series Woodsman Match. The box rates good to very good with scattered light dents, dings and scratches. The interior rates excellent with felt lining and three dividers in addition to the main compartment. The box measures 12" x 7 5/8" x 2 5/8". The cover has a key lock that works and includes a single key. (87981-7C)
2999. **GUN CASE LOT** This lot consists of a sling and a Stack-On black plastic large pistol sized hard gun case that measures 19" x 10 1/2" x 4 3/4". The interior is set up for two layers of handguns or accessories with two smaller un-foamed compartments in the front for smaller accessories. You should be able to get pistols that do not exceed 18 1/2" overall length into this case. The case also includes a 1" x 62" long nylon sling with quick detachable sling swivel studs. (87874-12C)
3000. **LOT OF ACCESSORIES** This lot begins with a set of Ruger stainless steel factory scope rings suitable for a Redhawk or Mini-14 Ranch Rifle and rate excellent and come with original factory packaging. Next is an excellent black nylon pistol belt with snap-in buckle, four accessory pouches, and a padded right handed holster by Hip Line and capable of housing a revolver with a 7" barrel. Also included is a 2" brown leather pistol belt measuring 47" in length, marked "120" and showing light usage, with fully intact brass hardware exhibiting moderate verdigris. Rounding out the lot are three green metal military style ammunition cans, each measuring 11"x6"x10" and showing very light wear. (77826-1M)
3001. **LOT OF GUN CASES** This lot consists of seven soft cases for long arms including four thickly padded examples by Assault Systems for tactical style rifles that feature exterior pockets for extra magazines and accessories. The overall condition of the cases in this lot which have lengths ranging from 34" to 49" is excellent with light wear and some with minor dirt stains. (77016-6B)
3002. **ACCESSORY BOX** This is an excellent condition all-purpose stainless steel case measuring 36"x5"x4" and features dual metal closure latches, four heavy-duty support hinges, rubber molding running the perimeter of the upper edge of the bottom compartment and drilled holes at the center of the top for handle installation. (77155-18)
3003. **GUN CASE LOT** This is a Browning model 1915 hard rifle case measuring 47"x9 1/2"x4 1/2" with a dark brown vinyl cover and faux fur lined interior. The excellent condition luggage style case has an exterior featuring heavy duty stitching, brass reinforced corners, three latches, also of brass and single carry handle. The fitted interior is suitable for a scoped gun and has two end compartments for accessories. The key is missing and there is no Browning logo but the model tag is affixed at the back. (76467-1)
3004. **GUN CASE LOT** This Beretta takedown shotgun case measures 31 1/2"x9 1/2"x3" with a hard exterior covered in light tan vinyl and a green velour, three compartment interior that displays the company logo and features a Velcro secured strap. The case rates excellent with very light wear and also features two lockable brass latches and a heavy duty and padded carry handle. Included are two keys. (76467-2)
3005. **DISPLAY CASE LOT** This is an unmarked walnut display box for a long arm and measuring 47 1/2"x8 1/2"x9 1/2". The hinged lid opens at the front by way of two brass knob handles and there are also inlaid carry handles at each end of the bottom portion. The case retains about 99% original dark brown finish with a few scattered scratches and dings and the bottom panel is fitted with a brown felt protective cover. The maroon velour interior shows areas of very light dirt and is virtually free of wear. The case is equipped with two staggered and fully intact attractive wood mounts for placement of the firearm. This is an impressive high-end case weighing in at 29 lbs. and comes with its original cardboard shipping box. (75905-1)
3006. **GUN CASE LOT** This is a Browning model 4015 luggage style hard case for a four barrel shotgun and measuring 33"x13"x4 1/2" with a dark brown wood grain vinyl exterior cover reinforced with heavy duty edges and brass corners. The case features a single carry handle is secured by three brass latches including the two lockable ends. The dark brown faux fur lined interior has individual stations for the four barrels and a heavily padded main compartment and also features two auxiliary sections. The case rates excellent and appears to have seen little if any use. Included are the two original keys and cardboard shipping box. (75905-4)
3007. **LOT OF ACCESSORIES** This is a lot of optical accessories beginning with a set of Parker Hale "Roll-Off" rings with wrench and in original box. There are also seven Weaver 1" scope rings including a pair attached to a Weaver side mount. Also included are 13 assorted mounts and seven sets of various bikini style scope covers. The overall condition of the lot is excellent. (77569-15A)
3008. **LOT OF ACCESSORIES** This is a lot of two items beginning with a Bushnell laser bore sighter with six expandable adaptors which cover .22 to .50 cal. and 12 and 20 ga. Also included are batteries, instruction manual, wrench and black nylon case. The sighter appears to be fully functional and in excellent condition. The other item is an excellent condition Swiss manufactured analog micrometer by Brown & Sharpe and measuring 8 1/2" in length. (77569-14)
3009. **CARTRIDGE BOX LOT** This is a single model 1874 McKeever New Jersey cartridge box for pistols. The black leather shell rates near excellent with nice suppleness, very minor wear, the onset of light cracking in isolated areas and predominantly on the top "Watervliet Arsenal" marked closure flap and is virtually free of scratches or handling marks. All stitching loops and hardware are fully intact including the oval "NJ" box plate with a pleasing goldenrod appearance and crisp lettering. The interior is in a similar state of condition including the twenty mainly dark brown canvas webbing loops. (77569-12)
3010. **FLY ROD LOT** This is a Cabela's Stowaway 7 pack rod featuring moderate fast action 40 million modular graphite, cocobolo wood reel seats, nickel silver hardware and titanium guides. The 8', 5 wt., seven piece bronze colored rod is housed in its compartmentalized sleeve and the accompanying reel in Velcro closing case rate excellent. All of the components fit nicely in the original plastic back pack measuring 21"x7" with green canvas shell with extra pocket, loop, hanger and zippered closure. This lot appears to have seen little if any use. (77569-11)
3011. **LOT OF GUN CASES** This is a lot of two unmarked hard cases for takedown shotguns beginning with a luggage style example measuring 29"x9 1/2"x3 1/4" with a maroon canvas covered exterior with metal reinforced corners, three metal latches including a combination lockable middle one and a plastic carry handle. The outer shell is essentially free of handling marks and shows some small spots of dirt. The gray faux fur lined interior also shows little indication of use and is conformed to house a single barreled shotgun and features a small compartment for accessories and a Velcro closure strap for securing the frame. Included are the combination lock instructions. The other case is a leg-o-mutton-style measuring 33"x7"x3" with a brown canvas exterior with hinged leather top and muzzle ends with fully intact straps and hardware, a heavy duty leather carry handle and metal loops for a shoulder strap. The outer shell shows light handling marks and minor stains and the felt lined interior rates excellent with little indication of use. (77569-16A, B)
3012. **LOT OF PISTOL CASES** This lot consists of 5 single pistol hard cases made by Duskocil. The cases measure 7 1/2" by 11" and are in very good to excellent condition. (206873-44)
3013. **LOT OF PISTOL RUGS** This lot consists of three pistol rugs and a pistol sock. The pistol rugs are very good plus to near excellent showing light stains and wear and with functional zippers. The pistol sock is marked "North American Hunting Club" and it shows scattered stains. (206224-3)

3014. **LONG GUN SOFT CASE LOT** This lot consists of three long gun soft cases. The first is a black tactical style case that has five magazine pouches and one large pouch and measures 40x10 1/2" and it appears to be in near excellent to excellent condition overall. The next case is a traditional style green leather case that measures 39"x7" in very good condition. The last case is a black tactical style case that has a large pocket in the middle and measures 44"x9" and it is very good condition with a few light stains. (207779-13)

3015. **U.S. MODEL 1950 DROP CASE** This lot consists of an original OD green M1950 drop case for the M1/M1D Garand rifle. The case measures 49" in length and 10" in width and it is in very good shape overall showing a few scattered dirt stains and one snap is missing. (207419-7)

3016

3016. **VINTAGE CLEVELAND TARGET COMPANY BLUE ROCK TRAP THROWER**

This lot consists of an original Cleveland Target Company Blue Rock Trap Thrower. The trap thrower's finish has mostly turned a nice brown patina with scattered oxidation stains but it retains much of the original blue enamel finish. The trap is marked "BLUE 2 ROCK TRAP" and the trap appears to have all the proper parts, however it is unclear if it functions properly but is a really nice vintage trap thrower that will make a great decoration for the trap or skeet shooter. (207725-1)

3017. **HOLSTER LOT** This lot consists of a post-war black leather West German Border Guard Hi-Power holster and an unmarked blued magazine. The holster exhibits, finish wear, light stains, scratches and crazing throughout. The back of the holster is numbered "32538" and the unmarked blued magazine shows freckling and silvering throughout. A good lot for a Hi-Power collector. (207865-19A)

3018. **CONTEMPORARY AMERICAN ENGRAVED POWDER HORN** This is a lovely curved horn measuring 15 3/4" across the outside edge and has a reduced nozzle with two wide carved rings for lanyard attachment and a thin medial ring collar at the transition. The body has a pleasing creamy beige color and is engraved with floral patterns, birds as well as rows of buildings along a road. The base plug is bulbous hardwood with nicely turned rings, an iron nail in the center and is affixed by five small iron brads. There is a thin hair-line crack extending from one of the pins and the nozzle plug is carved softwood. An excellent example emulating an early American style engraved powder horn. (57546-143B) [Bleeker Williams Collection] (300/500)

3018

3019. **HK HOLSTER** This lot includes a black leather duty style holster for a USP Pistol. There are a few light superficial marks in the smooth black leather. The right hand holster appears unused and remains in excellent condition. (107999-30C)

3020. **TIPPING & LAWDEN ACCESSORIES** This lot includes three items for a cased Tipping & Lawden Pistol. First is a nickel-plated oiler measuring 3/4" in diameter and 1" tall with a thin cork washer seal. The nickel finish is nearly flaked off leaving the oiler a pleasing dull pewter color overall. Second is an ebony tipped bore wipe measuring 4" overall in length with a couple of very small impact marks on the handle. Third is an ebony handle turnscrew by Peter Dyson. These items remain in excellent condition. (106229-A23A) [Elliot Riggs Collection]

3021. **TIPPING & LAWDEN ACCESSORIES** This lot includes two items for a cased Tipping & Lawden pistol. First is an ebony handle turnscrew by Peter Dyson measuring 2 3/4" overall in length with a bright nickel finish. Second is a nickel-plated oiler with cork washer seal measuring 3/4" in diameter standing 1" tall. The nickel is cloudy and there are blotches of pewter colored undertones. A nice pairing of accessories which would add flare to any cased set and is in overall excellent condition. (106229-A23G) [Elliot Riggs Collection]

3022. **TIPPING & LAWDEN ACCESSORIES** This lot includes three items for a cased Tipping & Lawden Pistol. First is a nickel-plated oiler measuring 3/4" in diameter and 1" tall with a thin cork washer seal. The nickel finish is mostly bright with spots of flaking and pewter undertones blending through. Second is an ebony tipped bore wipe measuring 3 3/4" overall in length with a couple of very small handling marks on the handle. Third is an ebony handle turnscrew by Peter Dyson. These items remain in excellent condition. (106229-A23B) [Elliot Riggs Collection]

3023. **BULLET MOULDS** This lot includes two dual cavity Manhattan Firearms Co., bullet moulds. First is a .36 caliber round ball and single groove conical shape mould that retains trace amounts of its original fading and flaking blue finish. The mould is mostly a gun metal gray with traces of blue finish left in protected areas around patches of fine oxidation staining. There are patches of fine pin-prick pitting along the sprue cutter and the pin appears to have been removed and improperly re-installed out of alignment with the nubs flattened. This is an overall very good condition .36 caliber mould. Second is a smooth two cavity 31 caliber round ball and conical shaped mould. The mould has been wire brushed and is mostly a bright metal with heavy patches of oxidation staining still present. The cavities have oxidation in them and the sprue cutter has been modified with six dots added to the face. An interesting mould in about good overall condition. (106229-29, 99) [Elliot Riggs Collection]

3024. **MANHATTAN BULLET MOULD** This lot includes a dual cavity 36 caliber Manhattan Firearms Co., bullet mould. The mould is a pleasing plumb color patina with spots of light fine oxidation staining. There are multiple light impact marks along the sides of the body with patches of light pin-prick pitting along the back of the body, face of the sprue cutter and on the sides of the body. The round ball and single groove conical shape cavities are clean and remain free of any defects. The sprue cutter screw shows minor slot wear and the Manhattan Firearms logo remains crisp and legible. A very good to near excellent example overall. (106229-95) [Elliot Riggs Collection]

3025. **UNMARKED MANHATTAN FIREARMS BULLET MOULD** This lot includes a dual cavity .36 caliber round ball and single groove conical shape bullet mould. The metal surfaces retain about 70% thinning and flaking blue with spots of light fine oxidation staining. The cavities are free of any defects and were identified by Mr. Riggs as being a Manhattan Fire Arms Co., mould. A near excellent example that would pair well with any cased 36 caliber Manhattan revolver. (106229-93) [Elliot Riggs Collection]

3025

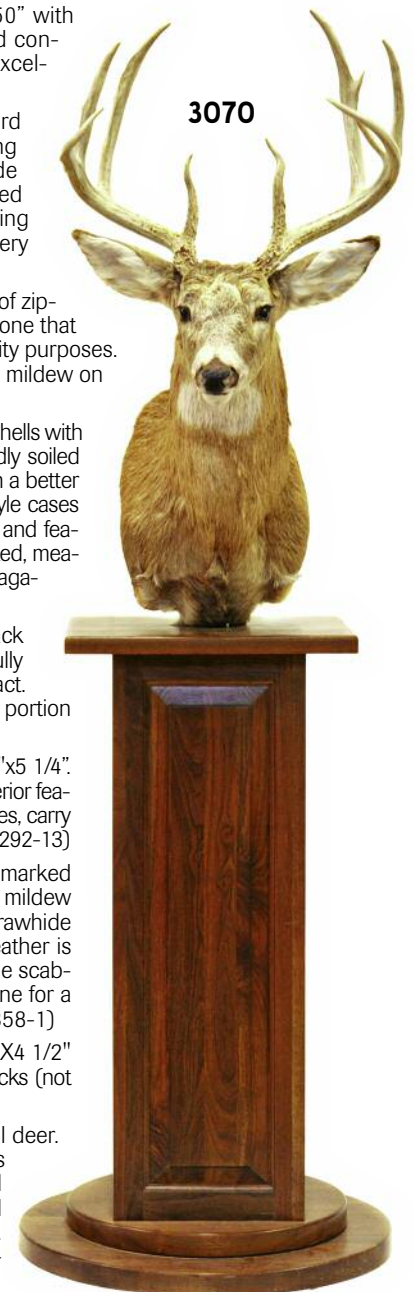

3026. **MANHATTAN BULLET MOULD** This lot includes a .36 caliber dual cavity round ball and single groove conical shape bullet mould. The metal surfaces retain about 60% thinning and flaking blue with overall spots of light fine oxidation staining and areas of fine pin-prick pitting. The sprue cutter screw shows minor slot damage. The cavities have spots of light oxidation staining and remain free of defects. The body has multiple light impact marks and the Manhattan Firearms logo remains crisp and legible. A very good example overall. (106229-24) [Elliot Riggs Collection]
3027. **MANHATTAN BULLET MOULD** This lot includes a .36 caliber dual cavity round ball and single groove conical shape bullet mould. The metal surfaces are a blend of brown, plum and pewter patinas with overall light oxidation staining and areas of fine pin-prick pitting. The back of the body has several light impact marks and there is light oxidation in the cavities. The Manhattan logo remains crisp and legible and this mould is in good overall condition. (106299-66) [Elliot Riggs Collection]
3028. **MANHATTAN BULLET MOULD** This lot includes a .36 caliber dual cavity round ball and single groove conical shape bullet mould. The metal surfaces are mostly a gray-brown color patina with overall light fine oxidation staining and spots of pin-prick pitting. There are multiple light impact marks along the sides and back of the body and the sprue cutter screw shows minor slot wear. The cavities are lightly oxidized and should clean up nicely. The Manhattan Firearms logo remains crisp legible and this mould remains in near very good condition. (106229-98) [Elliot Riggs Collection]
3029. **MANHATTAN BULLET MOULDS** This lot includes two .36 caliber bullet moulds. First is a dual cavity round ball and single groove conical shape mould. The first mould has been cleaned and is now starting to darken in color due to oxidation staining. There are areas of light pitting near all over and the cavities show light fouling and the Manhattan Firearms logo is slightly washed out. The second mould is a dual cavity round ball and single groove conical shape mould. The metal surfaces are mostly an even brown color patina and there are areas of moderate pitting with overall light oxidation staining visible through out. The cavities remain clean and the Manhattan logo is slightly washed out. This mould is in fair to about good overall condition. (106229-17, 60) [Elliot Riggs Collection]
3030. **LOT OF BLACK POWDER ACCESSORIES** This lot includes four items. First is a pistol bore wipe with oak handle measuring 6" overall for barrels up to 3 1/2" in length. The ball shape handle has a red tinted stain finish with copper tip that shows mild tarnish. The steel shaft has spots of light oxidation and staining present and remains in good overall condition. Second is an assortment of three combination turn screws and nipple wrenches. These "L" shaped tools have blued finishes in varying degrees of condition from good to excellent. (106229-A23DB) [Elliot Riggs Collection]
3031. **OILER LOT** This lot includes four brass oilers likely for a cased Tipping & Lawden set measuring 3/4" in diameter and 1" tall with leather washer seals. Three of the oilers are a bright goldenrod color and the fourth is dark ochre. They remain in excellent condition. (106229-A23HA) [Elliot Riggs Collection]
3032. **OILER LOT** This lot includes four brass oilers likely for a cased Tipping and Lawden style pistol measure 3/4" in diameter and 1" tall with leather washer seals. Three of the oilers are a bright goldenrod color and the fourth an ochre color. They remain in excellent condition. (106229-A23HB) [Elliot Riggs Collection]
3033. **LOT OF M1 CARBINE ACCESSORIES** This lot includes eight items. First is an OD green canvas U.S. marked magazine pouch. The inside flap is marked "74-P-142-705 / Pocket, Magazine / Carbine, 30-Round / J.Q.M.D. 1950" and includes 4 unmarked 30 round magazines with 100 rounds of CCC 82 / 30 M1 marked ball cartridges. Second is a steel T3-A1 magazine holder. This is used for double stacking 30 round magazines. Third are two full 50 round boxes of PMC 30 carbine ball cartridges in the natural colored box with black stenciled lettering. The items included in this lot are in overall excellent condition. (107393-9)
3034. **LOT OF 1911 ACCESSORIES** This lot includes a variety of items for a Model 1911 pistol. First are ten bronze bristle cleaning brushes in excellent condition. Second is a J.A.M.-5564102 marked cleaning rod measuring 8 1/2" overall with a few light scratches in the phosphate finish in overall very good condition. Third are two phosphate finish grip screws in excellent condition. Last is a 5" barrel simply marked "45 Auto" with a bright near excellent bore with some light oxidation near the chamber. The barrel retains most of its phosphate finish with loss due to silvering from use and remains in very good overall condition. Fourth are two barrel bushings with phosphate finish in excellent condition. (107373-5, 6)
3035. **LOT OF MAGAZINE POUCHES** This lot includes three canvas two pocket magazine pouches. First is marked "P.B. & Co / 1918 / A. I." in very good condition. Second are two Boyt "44" dated pouches marked with "U.S.M.C." along the backside in good overall condition. (107373-4)
3036. **NOVA STUN GUNS** This lot includes two complete Nova XR5000 stun guns with rechargeable Nickel-Cadmium battery and Model BC3 wall charger. The units come in white shipping boxes with manual. It is uncertain if they work as the batteries are dead and will need a charge before an attempt to use can be made. (107373-13)
3037. **LOT OF AMMO CANS** This lot includes four large OD green munitions cans measuring 18 1/2"X14 1/2"X8" overall with yellow stenciled lettering. The cans remain in very good condition and would be ideal for storing ones personal collection of 20mm cartridges. (107373-15) [Extra Shipping Will Apply]
3038. **LOT OF MISCELLANEOUS ITEMS** This lot includes a hodge-podge of militaria. First are an assortment of 11 military and lapel style pins in configurations to include bars, eagles leafs and a castle, all in good overall condition. Second is a small tin case with a pair of military style clear goggles with elastic strap in good overall condition. Third are two black leather modern production K98 frogs marked "Carl Hepting & Co / STGT FEUERBACH / 1941" in overall good condition. Fourth is a U.S. Navy marked cartridge pouch containing six ball 38 caliber cartridges with "WCC" headstamps in very good condition. Fifth is a brass grenade discharger cup measuring 3 3/4" tall with .206" diameter barrel sleeve and 1.912" diameter cup. There are no markings and this item remains in very good condition. Sixth is custom bolt style assembly likely to aid in cleaning of a bore. This item measures 8" overall with 2 1/4" straight bar handle and 3/8"X3 3/16" lug at the front end. The body is hollow and item remains in good overall condition. (107546-154)
3039. **SHOOTERS LOT** This lot includes three items. First is a protective spectacles system from American Optical Corp. The kit includes two sets of safety glasses, additional nose pads, and green tinted lenses. Second is a field cleaning kit in a plastic Hubola case that includes military style rope bore brushes and plastic oiler. Third is an unmarked vinyl roll-up style military field cleaning kit that includes multiple brushes, oilers, and related cleaning supplies. All items in this lot are in excellent condition. (107885-25)
3040. **TOMMY-GUN TRAVEL CASE** This lot includes a modern foam lined violin shaped black leather covered hardcase with lockable brass closures. There are five clasp style closures with one that is lockable and the key is provided. The foam inserts are unblemished and this case measures 43" in length and would provide adequate space for your Tommy-Gun, two drum magazines, multiple stick magazines and accessories. (107885-18)
3041. **TOMMY-GUN TRAVEL CASE** This lot includes an F.B.I. style travel case measuring 33"X10"X6" with interior partitions and blue baize lining. The lid secures with the help of five brass closure latches of which one is lockable and a key is provided. The case is covered in black vinyl and there are a few small tears near the right side clasp and some scattered scuffs. The case is otherwise in excellent condition. (107885-17)

3042. **DISPLAY CASE** This lot includes a glass front hand crafted display case with blue baize lining. The case measures 19 1/4"x15 1/4"x3 1/2" with access only from the back. The hardwood is stained a dark brown color and shows a few light handling marks and touch-up in the finish. The interior of the case has a small plaque that reads "Navy Dueling Pistol /H. Nock . 50 Calibre Percussion Cap / Circa 1825 Great Britain" with a strip of Velcro and two large brass hooks that protrude through the back of the case for hanging a pistol. This is an interesting display in overall very good condition. (107845-6)
3043. **LEATHER HOLSTER AND OILERS** Five items total: (4) brass plated oilers. The oilers are unmarked and measure 1" tall with a 3/4" diameter. There are three bright brass oilers and one that appears to have been "aged" with a slightly duller and darker hue on the brass. These are excellent condition oilers that would make a nice addition to any cased set or oiler collection; (1) vintage leather flap holster that likely fits a 3" barreled Manhattan or similar style percussion revolver. The custom made black colored leather holster is hand stitched with the stitching tight and complete. There are areas where the leather has flaked to brown, heaviest along the flap. A military style brass shirt button is the closure pin and this neat old flap holster remains in very good condition. (106229-A26) [Elliott Riggs Collection]
3044. **DUTCH M1 CARBINE BLANK FIRING ADAPTER** This lot consists of a single Dutch M1 carbine blank firing adapter. The adapter shows some light oxidation staining, silvering and red paint at bottom. It is marked with "Eagle/BM/Vidg/186". A unique lot for the M1 carbine collector. (1X207647-42)
3045. **TRIUSS TRAP LOT** This lot consists of a Trius Model E56 clay thrower. This classic trap is in excellent condition and appears to be functioning. It is mounted to a "T" shaped wood base and is ready to toss some clay birds downrange. (1X45953-67)
3046. **RELOADING LOT** This lot consists of a Pacific DL-150 shotshell reloader set up for 12 gauge reloading. The press appears operational and is complete with powder and shot tubes. Other than possibly benefiting from a light cleaning, this press appears ready to go. A manual and container with spare parts to convert the press to 20 gauge are included. (1X45953-1)
3047. **LOT OF PRIMERS** This lot includes 34 assorted packages of primers: (5) full 100 count packs of Federal No. 155 magnum large pistol primers. The primers come in a red, white, and blue sleeve with pull out tray; (5) full 100 count packs of Winchester No. WSR small rifle primers. The primers come in a white sleeve with horse logo; (5) five full 100 count packs of Winchester No. WSP small pistol primers for standard loads in a white sleeve with horse logo; (19) packages of 150 RWS No. 6507 primers in plain green and tan cardboard packages. The primers are from three different lot numbers with most remaining sealed. The primers are in excellent condition. Second are four full 150 piece boxes of RWS No. 5620 primers in overall in excellent condition. Third are six full 150 piece boxes of RWS No. 6504. All in excellent condition (106019-1H)
3048. **LOT OF LEATHER** Two items total: (1) contemporary Civil War style ammunition pouch with "CS" brass plated oval on the flap and a round brass plate with eagle clutching olive branch and arrows on the shoulder strap. There is a wooden insert drilled to accommodate 18 cartridges inside the pouch. The leather is black in color with brass and nickel-plated hardware that has some oxidation on the buckles, and the leather shows multiple light scratches and scuff marks but remains supple; (1) Don Hume black leather basket weave style belt for a size 38" waist. The belt comes with an H216 black basket weave holster, (2) D410 cartridge holders and a Safari Land No. 80 cartridge holder. These items are in very good to near excellent condition. (107536-94,99)
3049. **REPRODUCTION LUGER P.08 HOLSTER** This lot includes an unmarked reproduction black leather hardshell holster for a Luger pistol. The holster is complete with inner pull strap present and has light staining from what appears to be a leather conditioner along the stitching. This unmarked reproduction holster remains in very good condition. (1X107851-11A)
3050. **POWDER HORN** This lot includes a 14 1/2" powder horn with wooden base missing the spout plug. The horn is a lovely mix of yellows and browns with a nicely fitted wood bottom fastened in place with tacks and remains in very good overall condition. (1X107536-26)
3051. **DAISY POWERLINE 008 CO2 SEMI-AUTO AIR PISTOL** serial #7K02769, .177 Cal BB / pellet. This matte black air pistol is in excellent condition with a couple of minor handling marks. This gun features an eight shot rotary magazine. (1X127592-53S19421W)
3052. **RELOADING LOT** This lot consists of a vintage Saeco lead melting furnace. The furnace seems to be in about very good condition with light to moderate surface oxidation throughout. It features a variable temperature control from 450-850 degrees. The pot is roughly 3 1/4" in diameter and features a bottom pour spout, the mounting screw is missing for the handle pivot. An excellent accessory for the home caster. [Extra Shipping Will Apply] (1X45953-54)
3053. **LOT OF TAKEDOWN CASES** Two total: (1) aluminum case measuring 36"x8"x5" with black faux fur lining section to accommodate 4 sets of over / under barrels up to 34" in length. The case remains in excellent condition and has a Presto combination lock that remains uncoded; (1) Americase aluminum takedown lockable travel case (keys provided). The case measures 37"x11"x7" with gray foam interior. The case remains in excellent condition and has a black nylon cover that secures with Velcro. (1X107465-8C,8CB)
3054. **GUN CASE LOT** This lot consists of two items. First is a Kolpin hard gun scabbard that measures about 54" long and is adaptable to an ATV or similar mount. Case has a fleece style lining and is in excellent condition. Second is a simple vinyl soft case with zippered end that measures about 46" and has a few small tears and general soiling but is in very good condition overall. (1X45953-56)
3055. **LOT OF PISTOL CASES** This lot includes two black plastic Doskocil pistol cases measuring 12"x9"x2 3/4" with sliding closures and foam inserts. The cases are in very good overall condition. (1X107282-17)
3056. **LOT OF PISTOL CASES** This lot consists of three hard pistol cases. The first two are aluminum hard cases by Plano measuring 18" x 13" and are 4 1/2" deep. These foam lined cases have light handling marks and locking latches and keys are included. The third is a smaller Berty's black plastic case, 11 1/2" x 7" and is 3" deep. It is also foam lined and is marked "22" in paint on one side. All are in excellent condition. (1X44113-11A)
3057. **LOT OF GUN CASES** This lot consists of three hard plastic long gun cases beginning with two Kolpin Gunboots that are molded in the configuration of a rifle, measuring 51" x 9" (at its widest point) x 3" and with a higher molded area to allow for a bolt rifle. These two piece "boots" with black outer shells are secured by way of a clip-on heavy duty chain with plastic cover and doubles as a carry handle. It is here that the sections disengage to reveal a red faux fur lined interior. These two cases rate excellent with a few minor stains and scuffs. The third case is also black, a DoskoSport measuring 48" x 10" x 2 1/2" with four hinged plastic latches, egg crate style foam inserts showing a few small stains and tears and an outer shell showing a 6" lower section missing and a 3" split at the top on one end and some areas of tape residue. (2X75242-44)
3058. **LOT OF GUN CASES** This lot consists of seven sleeves for long arms highlighted by two impressive leather examples measuring 47"x6" with no maker name but exhibit "120" at the riveted muzzle caps and also have "L.M.G." inscribed at the centers. They feature flip-over and strap closure lids, brass hardware, shoulder slings and soft faux fur lined interiors and certainly qualify for protecting and transporting the finest of long arms. Next is a nicely padded 46"x7" canvas sleeve by Boyt, also with a leather sling and with dual zipper closure. The last of the padded sleeves is a brown vinyl one with dual handles and a tape repair on one side at the muzzle end. Next is a canvas sleeve with strap closure and two others that are secured by drawstring. The last five listed in this lot rate about very good overall with light to mild soiling and wear. (1X77463-11)

3059. **LOT OF GUN CASES** This is a lot of five soft cases for long arms starting with a Featherlight 646 with a brown vinyl outer shell showing just a few small scuffs, measuring 42"x9"x3" allowing for a scoped gun, heavy duty zipper, dual carry handles and foam and fabric interior. The second item is an interesting scabbard style case suitable for attachment to a harness as it is equipped with two sets of side loops attached to its nylon body which has an open ended top, detachable shoulder strap and additional quick release outer strap. This generously padded OD green case measuring 29"x6" shows virtually no use and rates excellent plus. Next is a very large (63"x12") black nylon sleeve with a sloped design with Velcro closure fold-over lid with additional quick release strap. The nicely padded case shows tape residue at the flap and minor scattered dirt stains. The next item is also nicely padded, a tan canvas shelled sleeve by Sears with vinyl and reinforced muzzle end, sturdy carry handle and zipper and showing virtually no interior wear but the 49"x8" outer shell shows some brown spotting, possibly from contact with liquid and other areas of ingrained dirt. The last item is a 54" long thinly padded sleeve with drawstring and showing light wear and soiling. (1X75242-45)
3060. **LOT OF GUN CASES** This lot consists of three cases with hard plastic outer shells beginning with a black one measuring 52"x12"x5" with interior featuring a total of four foam inserts showing mild soiling and minimal wear. The exterior shows a few light handling marks and the case features four metal latches and plastic carry handle. The second one is for hand guns but virtually identical in color and construction with a ribbed aluminum frame but with two latches. There are three layers of foam showing mild soiling and the exterior shows light handling marks. The last one, unlike the others, is maker marked (Gun Guard) and features a tan 38"x11"x4 1/2" exterior and green egg crate style foam inserts, two metal latches and dual plastic carry handles. This is an excellent condition hard case. (1X77016-6)
3061. **LOT OF GUN SLEEVES** This lot includes a variety of 11 long gun cases to include: (7) suede Koplin gun cases with tie closures, (1) Koplin padded zipper case for a takedown rifle or shotgun and measuring 34 1/2" in length, and (3) assorted manufacture zippered long gun cases measuring about 48" each. The cases range from good to excellent. (2X107465-8)
3062. **LOT OF SOFT CASES** total 8 includes seven zippered rifle cases ranging from 42" to 50" with five made from fabric, one from vinyl and one from leather and vinyl in like-new to very good condition. Also included is a large (22") suede pistol rug marked "Contender Hunter" that is in excellent condition. (1X127762-86)
3063. **LOT OF GUN CASES** This lot consists of eight long gun cases including one with a hard plastic shell, an excellent condition Plano model 1501 from the Protector series measuring 52"x8" with a sloped configuration and shows extremely little use. Next is an impressive suede shelled example by Hunter with a thick faux fur interior. Also thickly padded is an excellent Red Head with a black vinyl shell and a near excellent condition Folsom-Shooter F.18 47-49. Rounding out the lot are four thinner vinyl sleeves in varying lengths. The overall condition of the lot is very good to excellent. (2X77544-24)
3064. **LOT OF GUN CASES** This lot consists of 20 soft sleeves for long arms including 11 that are of zipper closure, four of which that are not fully functional. There are two with strap closure including one that is missing a portion of the top part and also included are seven that feature drawstrings for security purposes. The overall condition is good to very good with some showing mild staining and soiling including mildew on a few and interior wear that has resulted in tearing on some. (1X77243-26)
3065. **LOT OF GUN CASES** This lot consists of four cases for long guns including two with hard plastic shells with foam lined interiors and metal latches beginning with an unmarked one rating very good with a mildly soiled interior and measuring 37"x10". The other one is larger (51"x11") and also with no maker name but in a better state of condition including a cleaner interior. The other two are impressive thickly padded tactical style cases with black nylon exteriors beginning with a sloped example by Assault Systems, measuring 48"x12" and featuring individual outer pockets for five magazines and a large accessories pocket. The other is unmarked, measuring 44"x14" constructed to carry two long arms including a main compartment with five interior magazine pouches. Both feature carry handles and shoulder straps and rate excellent. (2X77630-33)
3066. **LOT OF GUN CASES** This lot consists of four hard plastic gun cases for long arms. The black cases each measure approximately 48"x9"x3 1/2" with minor soiling and handling marks. All are fully equipped with foam inserts showing mild wear in some instances and handles and latches intact. Manufacturers include Gun Guard, Bushmaster and one by Hoppe's which has a small crack and a portion of the rib beginning to separate. This is a very good to near excellent lot overall. (1X76915-55B)
3067. **GUN CASE LOT** This is an aluminum case by Lewiston Welding Fabrication measuring 53"x17 1/4"x5 1/4". The exterior shows several scratches, minor handling marks and remnants from tape application. The interior features three layers of foam inserts showing virtually no wear and the case also features four lockable latches, carry handle and leather ID case. This is a very structurally sound heavy duty case suitable for air travel. (1X76292-13)
3068. **GUN CASE LOT** This is a leather rifle scabbard measuring 48"x7" (at its widest point) and marked "C. G. v S.". The thick brown leather is rigid with the surface showing scattered light scuffing and mildew staining and there are a couple of sections showing creasing. The body is attached by fully intact rawhide stitching. The fabric stitching is beginning to separate at the muzzle where a small section of leather is missing; it does appear to be sufficiently structurally sound to allow for effective carry of a rifle. The scabbard features fully intact heavy leather attachment loops for manual carrying and an additional one for a separate buckle for attachment to the flap-over lid. An about very good example overall. (1X76358-1)
3069. **CONTICO TRAVEL CASE** This lot includes a black hard plastic travel case measuring 52"x12"x4 1/2" with grey egg crate style foam lining. This case has four clasp style closures with two spots for pad locks (not provided). The case is in very good overall condition. (1X105268-3)
3070. **WHITETAIL MOUNT** This is a custom mount on pedestal base of a typical 10 point whitetail deer. The deer's tip to tip measurement is 12 1/2" with an outside spread of 20". There are four tines on the viewer's left and six on the right. The deer sits on a custom hardwood base that has a steel shaft for the mount to securely rest on which allows it to be swiveled in any direction. The round base has a 23" diameter with a 12"x12"x36" raised panel midsection with 18"x18"x1 3/4" top. The pedestal has a dark walnut finish and is handsomely crafted and with the mount in place measures almost 78" tall. (1X107820-10) [Please note: crating and freight shipping will apply]

3071. **COL. WHELEN'S RANGE BOX** This lot includes a metal range box made by Kennedy Kits, according to the consignor purportedly belonged to Col. Whelen. The box measures 16"x8"x9 1/4" overall with snap style closures and two removable trays. The contents of the kit include: (1) photograph of an engraved floor pate and trigger guard, (1) photo copy of notes from a shoot dated August 1946, (1) Silva Compass in original box, fired casings, (1) two sided hone in leather pouch, (1) dented copper funnel, and an assortment of cleaning rods and related materials. The box is lockable, however a key is not provided and the items remain in good to very good condition. (1X107493-62)
3072. **SHOOTERS LOT** This lot includes a variety of black powder shooting accessories, tools and parts. The items list as follows: wire framed shooting glasses with set of extra tinted lenses, Uncle Mikes sling swivels, small brass oiler, (2) powder measures, brass bullet swage, Belding & Mull single cavity 54 cal. round ball bullet mould, (90 +/-) 54 caliber round balls, various small tools, sights, and plugs, all housed in a green plastic Plano tackle box measuring 15" x 8" x 7 1/2". The lot is in very good overall condition. (2X107465-4C)
3073. **COLLECTORS LOT** This lot includes a vintage ammo case, ammunition boxes and some vintage shotshells. First are two full one-piece boxes of Peters 20 ga., 2 3/4" No. 6 shot paper hull shotshells. The shotshells are in good overall condition with some of the brass showing light tarnish. The boxes remain complete with overall scuffing and rounded corners. Second is a two-piece box of Remington Nitro Express Buck Shot Loads. This box is in fair condition showing numerous repairs, scuffs, and tears. It houses 26 assorted configured paper hull shotshells in fair condition. Third is a partial 20 round two piece box of U.M.C. 45-70-405 center fire cartridges. The box is in poor condition with most of its labels missing, split seams, tape repairs, and has writing in red ink on the bottom. There are six cartridges with overall dark colored brass and spots of varying oxidation. Fourth is an outer sleeve of a Western Bear box that is missing the end flaps with writing in wax pencil on the illustrated cover. Fifth is a full five round box of Remington Express paper hull 16 ga., 2 9/16", rifled slugs in excellent condition. Seventh is a full 50 round box of Remington Kleanbore 32 S&W, 88 gr., lead bullets in overall good condition. The cartridges have varying amounts of light oxidation and the box has two separated inner flaps that are present. Last is a wooden ammunition crate measuring 14 1/2"x9 1/2"x9" with the Remington Express Logo on the sides. The crate is lettered with red and green text and is missing its cover but remains in excellent condition. (1X107807-3)
3074. **LOT OF BIRD CARVING BLANKS** This lot consists of (9) units for carving various species of birds. Included are (1) Mallard body and (1) Mallard head, (1) black duck with head, (1) blue jay, (1) evening grosbeak, (1) woodcock with head, (1) unidentified duck that has been partially carved with head, (1) saw-whet owl and (1) partially shaped and inletted walnut Monte Carlo buttstock for a Savage 99 rifle. (1X86945-6B)
3075. **LOT OF RELOADING WADS** This lot consists of an assortment of 12 and 20 gauge wads for shotgun reloading including eight containers in total. Included are five boxes of Alcan wads, three 20 gauge and two 12 gauge, two bags of Remington 20 gauge power piston wads and one bag of 12 gauge AA wads. All are in excellent condition. (1X45953-2,3)
3076. **CLEANING ROD LOT** This lot consists of five cleaning rods. Included are three aluminum rifle rods and two wood shotgun cleaning rods. The aluminum rods measure between 30" and 32" and are each equipped with cleaning jags. The wood rods are 32" long not including their handles, one is fitted with a 12 ga. bore brush the other a brass patch holder. All are in very good, useable condition. (1X42882-9)
3077. **CLEANING ROD LOT** This lot consists of three vintage, wood shotgun cleaning rods. Each measures about 34", one has a bore brush attachment, another has a patch holder. All three are in excellent condition. (1X45953-57)
3078. **CLEANING ROD LOT** This lot consists of 12 items. Included are one Marbles three-piece brass rod with patch holder, one T/C aluminum cleaning/loading rod with jag, one .22 cal. 34" J. Dewey rod, two U.S. military steel rods, and an assortment of other generic cleaning rods and rod segments. All appear to be in very good useable condition, one stainless steel one-piece rod measures about 44" long but is missing a handle. (1X44113-11)
3079. **REPRODUCTION LUGER P.08 HOLSTER** This is a black hard-sided holster for the Luger P.08 pistol. The hard sided holster has intact seam stitching around its periphery and rates very good plus to excellent. The rear features facsimile "P.08" markings as well as facsimile maker markings along with a 1941 date and facsimile Waffenamt 170 stampings. The interior shows a modern reproduction loading/takedown tool. (2X37546-45A)
3080. **BRUNI BBM ME 38P 8MM K BLANK**, This blank-firing replica is an overall dark gray phosphate-type finish. This is a P-38 clone made of a lightweight alloy in Italy. The ribbed plastic grips rate fair each missing a chip, the right side very prominent. There is a blued steel magazine included. (1X37740-10) (NON-GUN)
3081. **LOT OF ACCESSORIES** This lot includes a variety of items. First is a green canvas Bianchi M-12 holster. Second is a brass pointer made from the casing of a 50 caliber bullet, measuring 16" overall and with braided leather strap. Third is a century straight razor with original box. The etched blade has several small nicks and a 3/8" long chip missing. The resin multi-colored green and yellow handle rate excellent. Fourth are an assortment of decorative vent hole picks to include: (1) rot iron, (2) brass plated axe head, and (1) eagle head. Fifth is a WWII era campaign bar marked "Burma with (circle around 101) / (lightning bolt)". Sixth is a bronzed handmade letter opener measuring 4 5/8" with ribbed and waffle design integral handles. Last is a damascus broad head measuring 2 3/4" in length with a 1" wide blade. These items are in very good to excellent condition overall. (1X106229-A23AC) [Elliott Riggs Collection]
3082. **LOT OF PISTOL SCOPE MOUNTS** Two total: (1) metal Cal Grip mount for what appears to be a Smith & Wesson Model 52 pistol in near excellent condition with a small section on the rear edge of the grip lightly polished and a couple of specks of loss here and there; (1) B-Square mount with a Weaver-style rail that appears to go on a pistol and rates excellent with two Tasco 30mm rings affixed to the rail. Also included is the original box for the rings as well as an Allen wrench and extra parts for the rings. (156924-12,13)
3083. **LOT OF ACCESSORIES** This lot consists of the following items that appear unused and in original factory or distribution packaging: (1) of four AR-15 magazine dust covers by Advanced Technology Inc.; (2) two packs of Armsport 12 ga. protective snap caps; (2) National Tech Labs World's Finest Gun Bore Cleaner consisting of one for 22 rifle and one for 357, 38 or 9mm pistol; (1) Snake Oil weapons grade lubricant combo pack; (1) ten pack of AR 15 or M16 223 stripper clips; (1) bore light. (1X76825-2B,7)
3084. **LOT OF BRASS** This lot includes 750 +/- unprimed 40 S&W brass casings from multiple manufacturers. The brass is mostly bright and in excellent condition. (1X107282-8B)
3085. **LOT OF BRASS AND PAPER SHELLS** 13 items total: (4) boxes of 20 rounds each Norma 7x57R Mauser unprimed, unfired, boxer cartridge cases in excellent condition; (9) 5 or 6 gauge 4" long primed unfired paper shotshells with brass heads. They are head-stamped "J.P&S / (triangle)" with one shell headstamped "N / V". Several of the shells are stamped "MADE IN ENGLAND" on the body. Dimensions of the brass head at the rim juncture is approximately 1.078", paper hull forward of the brass head is approximately 1.024" and inside diameter at the mouth are roughly .940" but the mouths are out of round. (86019-1CN)
3086. **ACCESSORY LOT** This lot consists of three wooden loading accessories. First are two custom made blackpowder loading items with the first being a percussion revolver loading vise, the other appears to be a blackpowder drop tube holder that is bench mountable. The third item is a Cabela's Blackpowder drop tube with stand. The brass tube features a funnel at the top which allows the user to pour the powder, static free, for even and compact distribution into a casing. A must have for the serious blackpowder cartridge reloader. (1X44113-12,14)

3087. **LOT OF ACCESSORIES** This is a diversified lot of muzzle loading equipment beginning with a full 100 rd. box of Hornady Blackpowder 50 cal. round bullets, one of 32 cal. and a bag with about 80 rds. of 32 cal. Next is an RMC CO2 blow-off inflator and discharge kit consisting of a cartridge holder, discharge extension and tip, blow-off tip and three 16 gm. CO2 cartridges. There is also an additional three pack of 16 gm. CO2 cartridges also by RMC. Next are the following of Ox-Yoke Originals 100 pc. packages of Wonder Wads pre-lubed patches: (6) of .50-.59 cal.; (8) of .30-.39 cal.; (1) of .36 cal. Other items are a 44 pack of Long's brush pipe cleaners, a package of 100 Thompson Center patches for .45 & .50 cal., the following Remington percussion cap 100 rd. size tins: (1) factory sealed and (1) virtually full of no. 11; (1) apparently full of No. 10. Other items by Thompson Center are a flintlock field kit, a tube of Bore Butter, a nearly full 100 pc. jar of cleaning and seasoning patches for .45-.58 cal. and a three pack of agate flints. There is also a fourth flint, two nipple wrenches, two bullet starters, a powder measure, a pan primer and several small threaded tools. This is an excellent condition lot overall. (1X7214-3,4)
3088. **LOT OF BULLETS** This lot consists of twenty-eight factory sealed boxes and one opened box of muzzle loading bullets: (3) 20 rd. of Hornady 45 cal. Sabot with 357. 158 gr. JHP/XTP; (6) 16 rd. of Buffalo Bullet Company 58 cal., 525 gr. HP, hollow base; (2) 20 rd. of Buffalo Bullet 54 cal., 390 gr. HP, hollow base; (1) 20 rd. of Buffalo 45 cal., 325 gr. HP, flat base; (4) of 36 cal. 128 gr.; (5) of 45 cal. 220 gr.; (4) of 50 cal. 370 gr.; (3) of 54 cal. 430 gr. The last box contains 19 rds. of 54 cal. 430 gr. rating excellent. (76031-13B)
3089. **BRUNING & WALLACE AIRCRAFT PROTRACTOR** This lot includes a vintage WWII era aircraft protractor and case. The case is constructed with finger joints and is labeled in black stencil "Aircraft Protractor / Mark 3-B, A.A.F. / Order No. DA 42-2822 / Spec. No. 18-P-5 / Manufacturer's DRWG No. 2832 / Bruning-Wallace Chicago". The case has a with-the-grain crack along the left side that has allowed the fingers to slide apart but could be easily repaired. The case contains the drafting arm, one blade, (2) slide rulers, Mars 700 technical pen, (4) assorted lead refills. The items remain in very good to near excellent condition. (3X107241-142) [Larry Kaufman Collection]
3090. **SCABBARD LOT** This lot consists of an unmarked brown leather rifle scabbard. This quality leather scabbard measures about 28" long and appears suitable for a lever action rifle similar to a Winchester 94 or Marlin 336. There are two straps included which would enable the user to secure to a saddle or other transportation device. An excellent condition example overall that has a few light scuffs and mild handling marks. (1X46816-12B)
3091. **MIXED SHOOTERS LOT** This lot consists of 9 items. Included is: (1) Outers stock finishing kit containing combo stain and filler, gunstock oil and a polishing cloth in a plastic case; (1) "6-stock size" jar of "Lin-speed" gunstock oil; (1) 1 ounce can of Hoppe's oil, (1) Tomlinson type bore cleaner for 410 bore; (1) Tomlinson type cleaner for 16 gauge, (1) nickel plated M-1 carbine flash hider marked "Made in Spain"; (1) Pachmayr tip-off scope mount for Savage Model 99 and (1) Ashley Isles #5 bottoming chisel. All are in excellent condition with little apparent use. (1X86019-6B)
3092. **LOT OF SCOPE BASES** This lot consists of three Redfield model JR-4-6 one-piece scope bases. These blued finish bases fit the Remington model 4, 6, 74, 7400 & 7600 series rifles and are in like new condition in their original packaging. (1X46524-3)
3093. **DUMMY ORDNANCE LOT** This lot consists of 295 linked rds. of dummy 7.62mm (308) ammunition. The rounds each have varying amounts of tarnish and surface oxidation with the links having areas of light surface oxidation as well. Two spare links are also included. (1X44132-1C)
3094. **ACCESSORY LOT** This lot consists of a non-maker marked trigger pull gauge. This rudimentary designed blued steel accessory features a solid "L" shaped bar attached to a 2 lb. weight and comes with a 1 lb., (2) .5 lb and a .25 lb additional weights. A simple and easy-to-use trigger pull tester. (1X44113-1C)
3095. **ACCESSORY LOT** Nine items total: (1) Beretta Exomesh pistol security bag constructed of canvas and nylon and featuring an adjustable cable closure system with padlock and keys, carry handle and removable padded shoulder strap. This is a good looking and rugged case capable of holding several hand guns as it measures 39"x18", is unused and in excellent plus condition; (2) examples of U.S Marine Corps issued Type M-53 lower torso fragmentation protective body armor with OD green nylon shells, fully functional heavy duty zippers and adjustable cords. One has its ID label stamped size "S57" and exhibits an uneven color pattern at the rear, the other, "M57" with minor staining from liquid and minor ingrained dirt but the overall condition of the lot remains excellent; (6) East German items with rain pattern camo shells beginning with a complete thermos with cup and an insulated backpack with shoulder harness. Also included are a pair of four cell AK 47 mag pouches and a pouch capable of carrying three hand grenades. The last item is a backpack and equipment harness. All of the items in this lot appear unused and are in excellent condition. (75242-41BA)
3096. **CLAY TARGET TRAPS AND TARGET LOT** This lot consists of (5) items. Included is (1) Trius Model 73X clay target trap (1) Remington automatic hand trap and (3) packages of turkey head Shoot-N-C targets. All rate excellent. (1X86945-6A)
3097. **ASSORTED MILITARY LOT** This lot consists of three military items. The first is a black leather Vietnam era M1916 Holster for the 1911 pistol. The holster is maker marked by Bolen Lea Products and is in very good condition overall showing scattered crazing. The other two items are military pouches that are likely East German. They have two big pockets likely for documents or maps and measure 12 3/4" in length and 4 3/4" in width. They appear in near excellent condition and they are made of pebbled leather. (1X206924-17)
3098. **REPRODUCTION WWI HELMET LOT** This lot consists of a reproduction M1917 Doughboy helmet in very good overall condition. The metal surfaces retain 97% original OD green finish with light scratches and scuffs as well as a bit of surface oxidation around the interior brim and under the liner. The interior liner rates very good with light wear around the edge of the green headband. A tan canvas adjustable chinstrap is affixed to the helmet. A nice reproduction doughboy helmet. (1X155945-15)
3099. **LOT OF FIREARM ACCESSORIES** This lot consists of 16 various firearm accessories: (1) unmarked stripper clip guide for a FN/FAL magazine; (1) 5 round magazine assembly for an SKS rifle; (3) stripper clip guides for an AR-15 / M-16 magazine; (1) plastic AR-15 / M-16 magazine loader; (2) Glock marked magazine loaders; cobra style slings consisting of the following leather slings: (3) Bianchi brand slings, (1) Gunskins, (1) Hunter, (1) Torel and also includes (2) unmarked nylon Cobra style slings (one black and one camouflaged). The leather slings are made with suede and smooth finishes plus one with stamped animal head designs. All exhibit light use and rate near excellent overall. (87647-22)
3100. **SHOOTERS LOT** This lot includes several items. (5) .535 diameter round balls, (5) .530 diameter round balls, a wooden starter, and a conical shaped Lyman #533476 bullet mould head as well as patches and what appears to be a small sear spring. The items are in very good overall condition. (3X107023-14I)
3101. **LOT OF ACCESSORIES** This is a lot of four items beginning with a Gun-Tote Rifle & Shotgun Carrier Model 1511, capable of carrying two guns within vehicle. These are fabricated of mild steel frames with spring steel gun hooks and then covered with a soft, resilient red coating. Item appears unused and in excellent condition with screws and in original packaging. Next in the lot are two Poly-Choke Gunner's Guides gun-stock compasses. Each kit rates excellent and includes compass, screws, drill bit, instruction manual and plastic storage box. The last item is a six rd. ammunition clip for 7.5 mm that has a small tear at the bottom but otherwise intact. (3X75497-11,10)
3102. **VINTAGE HANDCUFFS** This lot includes a set of H&R Arms Company handcuffs with key. These are vintage U.S.A. made double lock cuffs that retain about 80% nickel plate with some loss to wear and the balance flaking. There are patches of fine oxidation staining and they have a 2 1/2" pivoting hinge chain. Both locks function and these cuffs remain in very good condition. (1X107241-147Y) [Larry Kaufman Collection]

3103 **EPHEMERA OF BILL JORDAN** This is a very interesting lot consisting of many many letters, copies of articles and miscellaneous documents, all once-belonging to the late Bill Jordan, U.S. Marine, Border Patrol Agent and writer who had a tremendous impact in the firearms community. Many of the articles are pre-press manuscripts of Mr. Jordan's Point Blank column for Shooting Times, as well as a letter and response from Mr. Jordan regarding testifying as an expert witness in a California double murder trial. Numerous pieces of correspondence with various shooting clubs; advertising fliers with Jordan featured; numerous pen and ink sketches and cartoons and many articles on Jordan himself. Really an interesting lot of ephemera from the late quick-draw legend of the west. [Bill Jordan Collection from his Estate; J.C. Devine sale 1998] (1X157114-2,2A)

3104. **GIMBALED COMPASS LOT** This lot contains one Gimbaled ship compass. The brass compass rates very good as it sits on a left leveling arm. The compass sits in a wooden case that displays just a few light handling marks. (1X47536-107)

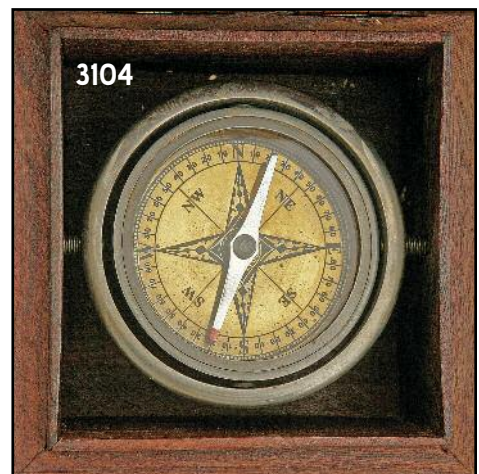

3105. **WORLD WAR TWO LETTER** This lot consists of a framed reproduction letter from General George Patton to General Troy Middleton. The letter praises Middleton's Crops performance at the Battle of the Bulge and the invasion of Germany. The letter is in very good condition with some scattered crazing and a piece of scotch tape. The wooden frame measures 11" in width and 14" in length and is in very good condition showing scattered light wear from the years. On the back on the frame there is a print of Samuel Colt that shows scattered creasing and crazing and a couple minor tears. (1X207241-154) {Larry Kaufman Collection}

3106. **U.S. PATTERN 1874 BELT PLATE** This eagle and wreath pattern appears to be cast and measures 2"x3" with a slight curve across its length. The buckle has toned to rich ochre patina and the tongue looks like it has been brazed in place versus soft solder and is likely an older repair. This is an overall very good condition plate. (3X107244-147AE)

3107. **REDFIELD FLIP-UP PEEP SCOPE BASE SETS** This lot contains an older set of Redfield No. 70-A, 1" two-piece rings and bases equipped with a flip-up aperture mounted to the back of the rear base for a Winchester Model 70 rifle. The mounts are in excellent condition retaining nearly all of their original blue finish with only some very minor handling marks from prior use, mounting hardware is included. (2X56161-14C)

3108. **LOT OF CIVIL WAR PROJECTILES** This lot consists of three projectiles. Included are (1) approximately .640" diameter lead round ball, (1) approximately .525" diameter rebated base, single lube groove conical ball believed to a .52 caliber sharps and (1) .58 cal. Williams Cleaner Minnie ball. The projectiles show light to moderate oxidation along with dents, dings and other handling marks and are purported to be battlefield pick-ups. (1X86019-1CA)

3109. **TFA MODEL B21 SIDE LEVER TARGET AIR RIFLE** .177 Cal, 19" barrel with bright excellent bore. The metal surfaces retain 99% original blue with a faint handling mark or two. The hardwood Monte Carlo pistolgrip target stock rates excellent showing a couple of minor blemishes. The gun is fitted with a black rubber butt pad, scope rail, adjustable trigger and an adjustable U-notch rear and globe front target sights. (2X127523-31)

3110. **1903 SPRINGFIELD DUMMY TRAINING RIFLE** This lot consists of an unmarked 1903 Springfield style bolt action dummy training rifle. The metal shows oxidation throughout and the beech stock shows handling marks, chips and dings throughout. There are several scattered cracks in the stock including a few at butt, two on handguard and one at upper tang and there are a couple small holes in the underside of stock. The rear band, sights and buttplate are absent but the bolt opens and closes cocking the trigger. An interesting piece overall. (1X207789-8) {NON-GUN}
3111. **DAISY NO. 102 MODEL 36 AIR RIFLE** register #A543372, BB/.175 cal, 16" barrel with an excellent bore. The metal surfaces retain 92-95% original blue finish with a handful of spots worn to silver atop the barrel, light ingrained dirt staining here and there and a bit of surface oxidation scattered about. The letters "AT" are scratched into the left side of the frame. The checkered straight grip brown plastic stock rates very good showing light staining here and there and minor scuffs and blemishes. The action does not appear to function properly. (1X157704-2) {NON-GUN}
3112. **CROSMAN 2100 CLASSIC REPEATING AIR RIFLE** 177 cal BB/Pellet, 21 1/2" barrel with an excellent bore. The metal surfaces retain 98-99% original blue finish/black enamel on the frame with a couple of tiny specks missing. The checkered pistolgrip black synthetic buttstock and forend rate excellent. Mounted to the receiver is a fixed power scope. The air gun seems to function properly. (1X157523-32) {NON-GUN}
3113. **DAISY POWERLINE 856 REPEATING AIR RIFLE** 177 cal BB/Pellet, 20" barrel with an excellent bore. The barrel retains 97% original blue finish with a few silver specks here and there. The black synthetic frame rates about excellent showing light scuffs here and there. The checkered pistolgrip synthetic stock and forend rate excellent showing a light ding or two here and there. The arm appears to function properly and the original box is included. (1X157704-3) {NON-GUN}
3114. **CHINESE SEA LION AIR RIFLE** 177 cal Pellet, 17 1/2" barrel with an excellent bore. The metal surfaces retain 97-98% original blue with light wear here and there. The plain pistolgrip hardwood buttstock with grooved forend rate near excellent with a small crack on the underside of the grip and a few minor dings and dents here and there. The action appears to function properly and the arm is sighted with standard front and rear sights. (1X157704-5) {NON-GUN}
3115. **CROSMAN 760 PUMPMaster AIR RIFLE** .177 Cal, 19" barrel with a very good bore that shows strong rifling. The plastic receiver retains 98% original finish with some light wear and the barrel and tube show oxidation running throughout over original blue finish. The faux wood stock and handguard rate very good plus showing a few handling marks from the years. (1X207670-9)
3116. **UNMARKED SLIDE ACTION BB GUN** .175 Cal. with a black repainted barrel and tube magazine. It has a brown plastic stock and forearm that are in very good condition. The mechanical function of this air rifle is unknown. (3X127592-6S19422A)
3117. **CROSMAN MODEL 66 POWERMASTER UNDER-LEVER AIR RIFLE** .177 Cal. 21" barrel with a very good bore. The barrel is primarily brown with some remnants of blue with oxidation scattered about. The black alloy receiver has areas worn to gray. The brown plastic pistolgrip stock and forearm rate very good to near excellent with some light handling marks and the grip cap not present. (1X127544-23)
3118. **FISHING LOT** This lot consists of four fishing rods, three with reels. First is a 4' 10" Montague fiberglass boat rod with wood grip and a Pflueger Capitol bait casting reel. The reel has a leather tab brake system and is wound with vintage braided line. Both the reel and metal rod parts have varying amounts of oxidation and corrosion, but are in very good condition overall. Second is a South Bend KwikStix Competitor 6 1/2' two-piece graphite composite rod with a Mitchell 300 series reel. It has some areas of light corrosion, and the knob has become separated from the handle, but is in otherwise good condition. Third is an unmarked two-piece fiberglass composite rod that measures 6' 1" long but is missing its tip. Lastly is a Berkley Buccaneer B-73 6' one-piece composite rod in excellent condition, with some light corrosion on the eyes. It is equipped with a Mitchell 320 series reel and is in otherwise very good condition. (1X43727-14A)
3119. **EUROPEAN CAPE LOT** This lot consists of a frock style unmarked cape. The cape is made out of wool and is light blue in color similar to the French horizon blue uniforms of World War One. The cape shows a couple spots of light staining but appears to be in very good plus condition overall. There are two buttons at the collar of the cape which show a male lion frowning and the buttons are linked by a chain across the collar. The cape measures 46" in height and 22" in width. The cape is French style and possibly was made for medical personnel during the interwar years. A neat lot for a military collector. (1X206647-15)
3120. **LOT OF DAISY TOY RIFLES** This lot includes two model 960 toy guns. Both toys are in similar condition with a tan colored enamel barrel that shows overall scratches, dings, and spots of oxidation and/or staining. The cocking levers retain much of their gold enamel finish with areas of flaking visible. The plastic wood grain stocks rate good overall with numerous light handling marks and small dings along the edges. A neat addition to the kids toy chest or make it a part of your air gun collection. (1X107358-8,15)
3121. **CLEANING ROD LOT** This lot consists of an antique wood shotgun cleaning rod by the U.H. Co in Torrington, CT. The three-piece rod measures about 35" long and has a patch holder tip. The brass parts have a rich patina and rod is in excellent condition overall. (1X42923-89)
3122. **STOCK LOT** This lot consists of a Czech VZ-24 walnut stock in near very good condition. The stock shows dings, abrasions, handling marks and scratches throughout. There is also a minor crack in the barrel channel on the right side. The stock includes the buttplate, two rear sling swivels, stock disc, nose cap and front band keeper. The stock has two sets of serial numbers that are indiscernible and the stock disc is marked "10HN/770" both of which are lined out. (1X204337-8)
3123. **CHINESE UNDER LEVER AIR RIFLE** 4.5mm (.177 cal.), 18" barrel with bright very good rifled bore. The metal surfaces retain 95% blue finish with a few small specks of oxidation staining present. The Monte Carlo style hardwood stock rates near excellent and the air rifle remains in very good plus to near excellent condition. (1X107358-3)
3124. **DAISY MODEL 25 SLIDE ACTION AIR RIFLE** this .177 cal., air rifle retains much of its original enamel finish with spots of oxidation and areas of silvering present near the working parts. There are remnants of a gold painted game scene on either side of the action and a small circular copper Daisy emblem along the right side flat forward of the trigger guard. The two-piece smooth plastic stock and grooved forend rate near excellent with a few scattered light handling marks and the original safety sticker is still present. (1X107358-16)
3125. **AIR RIFLE LOT** This lot consists of an unmarked break-barrel air rifle .177 cal, 15 3/4" barrel with a bright excellent bore. The metal surfaces retain 97% original blue with a little light freckling, a few minor handling marks and a little operational wear. The wooden pistolgrip stock is painted brown with a couple of cracks in the paint over some hidden blemishes in the wrist area. (2X127424-2)
3126. **BEN PEARSON STRATO JET TARGET RECURVE BOW** 40 Lb. cream colored fiberglass recurve bow measuring 64" equipped with a brown vinyl handle capable of shooting right or left handed, no string present. (1X56854-3)
3127. **CHRONOGRAPH LOT** This lot consists of a single Oehler Model 35P Proof Ballistic Chronograph. The unit includes the Chronograph with built in printer that appears to be in excellent condition with no battery but a partial roll of thermal printer paper. The unit includes three sets of side rails for the diffuser, manual and paperwork. The unit needs the mounting rail and triple sky screen units. The Oehler's are well known for their accuracy due to the triple sky screens and double velocity reading on each shot. (1X86643-11)
3128. **TROUT CARVING** This lot includes a carved wooden depiction of swimming brook trout. The carving measures 17"X9"9" overall. The fish are slightly worn and are missing fins but have vibrant colors from an airbrush finish. The carving was done by Alan Dudley and remains in overall good condition. (1X105901-1)

3129

3129. **FULL COYOTE MOUNT** Features a perched coyote over a woodland cover base measuring 38"x18"X46". The coyote is perched on a large rock with ears pinned upward as if sensing danger or sizing up its next meal. The colors of the hide are still bold and the pelt remains full. The custom oak base is topped with various sized rocks, pieces of log, moss and other vegetation and remains in excellent condition. (1X107858-3) [Please note: crating and freight shipping will apply].

3130. **WHITETAIL MOUNT** This is a traditional style mount of a typical 8 point whitetail deer with 5 3/4" tip to tip and 15 1/2" outside spread measurements. The deer's neck is turned to the viewer's right and its head points sharply downwards. The hair appears matted in some spots but the mount remains in very good to excellent condition. (107858-7E) [Please note: crating and extra shipping will apply]

3130

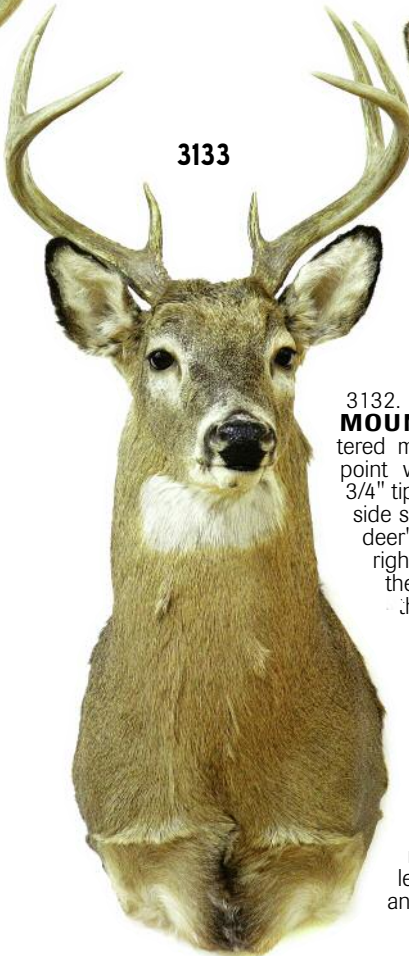

3131. **WHITETAIL MOUNT**

This is a quartered mount of a non-typical 9 point whitetail deer with 12" tip to tip and 17 1/2" outside spread measurements. There is a 4 3/4" spike on the right side protruding before the main beam. The deer's head looks to the viewer's left and the mounting block is on the right side of the neck. The left side base of the neck is covered with a piece of tan leather and is attached with large brass head upholstery tacks. (1X107858-7L) [Please note: crating and extra shipping will apply]

3131

3133

3132

3132. **WHITETAIL MOUNT**

This is a quartered mount of a typical 7 point whitetail deer with 8 3/4" tip to tip and 14 1/4" outside spread measurements. The deer's head looks to the viewer's right and the mounting block is on the left side. The right side base of the neck is covered with tan colored leather attached with large brass head upholstery tacks. The hair is lifting in spots and may be able to be retrained to lay flat and this mount remains in very good plus condition. (1X107858-7A) [Please note: crating and extra shipping will apply]

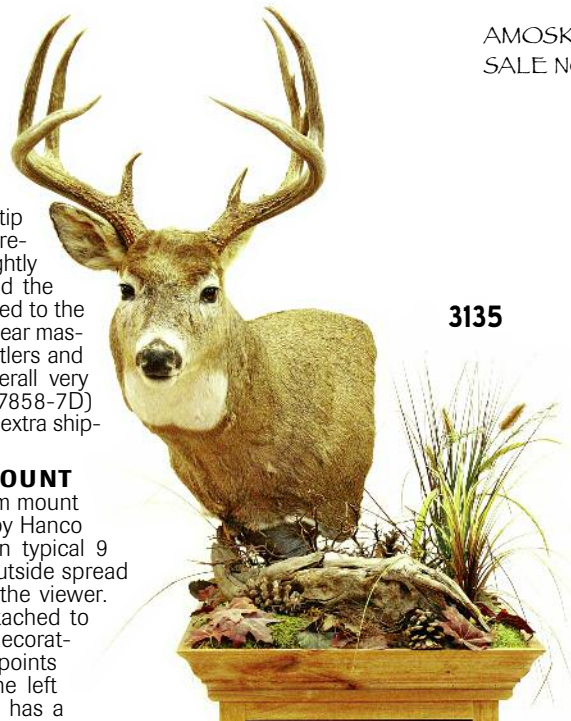

3133. **WHITETAIL MOUNT** This is a traditional mount of a typical 8 point whitetail deer with 6 5/8" tip to tip and 15" outside spread measurements. The forward facing mount remains in excellent condition. (1X107858-7I) [Please note: crating and extra shipping will apply]

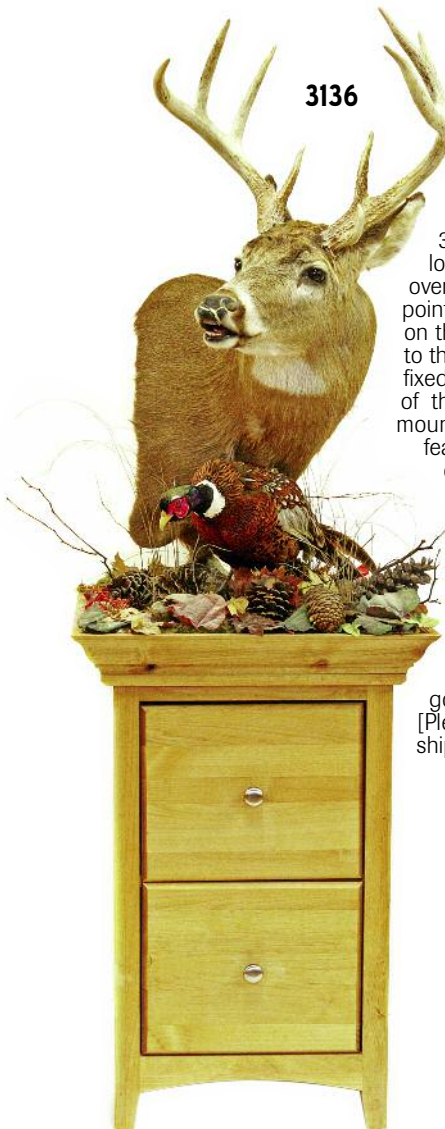

3134

**3134. WHITETAIL MOUNT**  
This is a traditional forward facing mount of a typical 8 point whitetail deer with 3 1/4" tip to tip and 13 1/4" outside spread measurements. The deer's head tips slightly towards the viewer's right side and the antlers are loose but remain affixed to the mount. The neck and head appear massive in comparison to the antlers and this mount remains in overall very good condition. (1X107858-7D) [Please note: crating and extra shipping will apply]

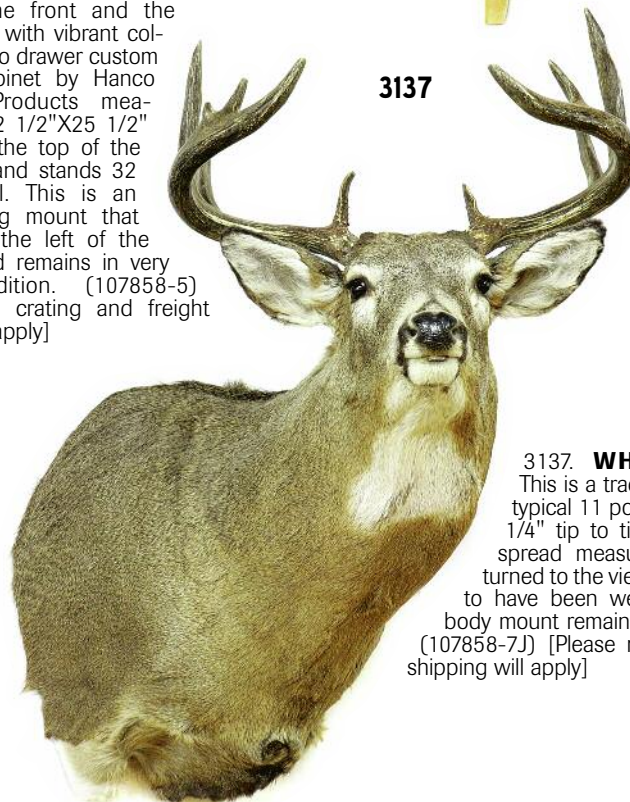

3135

**3135. WHITETAIL MOUNT**  
This lot includes a custom mount on a hardwood cabinet by Hanco wood products. The non typical 9 pointer has an 18 3/4" outside spread and faces to the right of the viewer. The shoulder mount is attached to the top of the woodland decorated cabinet. The deer has 4 points on the right side and 5 on the left however; one could argue 6 as it has a small fork on one tine that a wedding ring will hang on. The hide remains full and soft to the touch. The two drawer hardwood cabinet measures 22 1/2"X25 1/2" and stands 32 1/2" tall. The top of the cabinet is arranged in a woodland pattern with branches, leaves, pine cones and moss. This mount will take up a space roughly 23"X36"x70" and would pair nicely with the following mount. (107858-6) [Please note: crating and freight shipping will apply]

3136

**3136. WHITETAIL AND PHEASANT MOUNT** This lot includes a custom mount on a hardwood cabinet with overall dimensions of 23"X36"X70". The deer is a non typical 9 point whitetail with outside spread of 17 1/2" having four points on the right and 5 on the left. The hide still is full and feels soft to the touch. There is a split across its nose that could be easily fixed by a taxidermist. The shoulder mount is attached to the top of the woodland decorated cabinet. A walking pheasant is mounted to the front and the feathers pop with vibrant colors. The two drawer custom made cabinet by Hanco Wood Products measures 22 1/2"X25 1/2" across the top of the crown and stands 32 1/2" tall. This is an interesting mount that faces to the left of the viewer and remains in very good condition. (107858-5) [Please note: crating and freight shipping will apply]

3137

**3137. WHITETAIL MOUNT**  
This is a traditional style mount of a typical 11 point whitetail deer with 7 1/4" tip to tip and 19 3/4" outside spread measurements. The head is turned to the viewer's right and appears to have been well groomed. This thick body mount remains in excellent condition. (107858-7J) [Please note: crating and extra shipping will apply]

3138. **LOT OF FRAMED AVIATION PHOTOS** This lot consists of (2) US Army Air Corps framed F-2 aircraft photos with views measuring 19 1/2" x 23 1/2": (1) is marked "F-2 VICINITY MT. RAINIER WASH." and it shows an F-2 flying over snow covered mountains. The photo shows a few specks of dust and dirt but is in very good to near excellent condition overall; (1) is marked "F-2 VICINITY MT. MC KINLEY" and it shows an F-2 flying over snow covered mountains and a valley. The viewing area measures 19 1/2" by 23 1/2". The photo rates near excellent overall with a couple minor specks. The F-2 was pre-World War Two era photo recon plane that was based on the Beechcraft B18. In the photo the aircraft lacks any tail numbers possibly indicating it as a test or experimental plane. A great display piece for the World War Two or aviation collector. (207738-9,10)

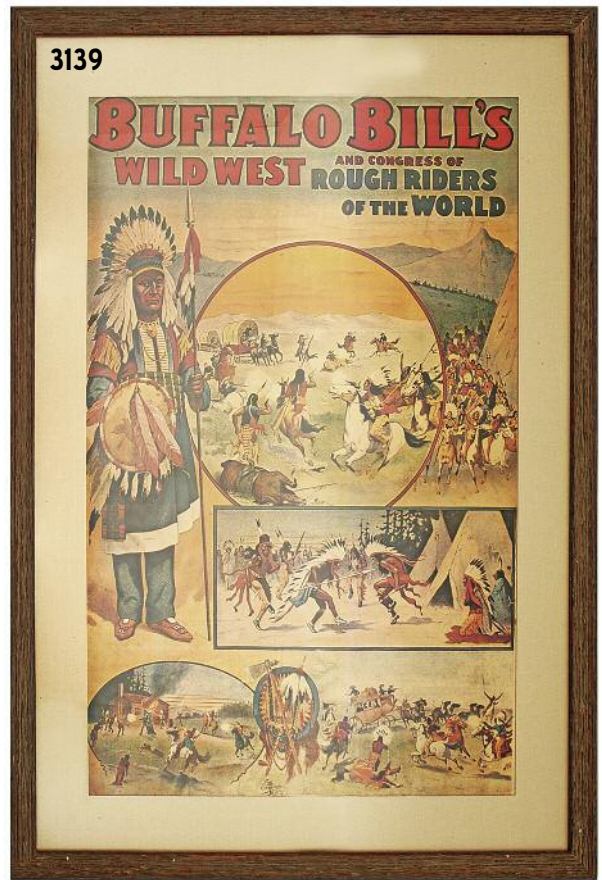

3139. **FRAMED BUFFALO BILL POSTER** This lot includes a hand-somely framed "Buffalo Bill's Wild West and Congress of Rough Riders of the World" poster. This is an antique reprint of an original poster. There reveals images of actual tears and folds, as well as a water stain, present on the original poster from-which this image was taken. The frame measures 42"X 31" with a viewing area of 33"X22". The poster is bordered with a grass paper design and is illustrated with several Native American characters involved in battle and ceremonial scenes. This is a nicely displayed piece of Americana. (2X107631-14)

3140. **GUN ART** This lot includes a framed representation of an 1860 style percussion revolver. The cast gun is in two sections showing a left side and right side view. The frame measures 21"X15" and has a red felt backing. This is a neat representation in very good overall condition. (1X107202-2)

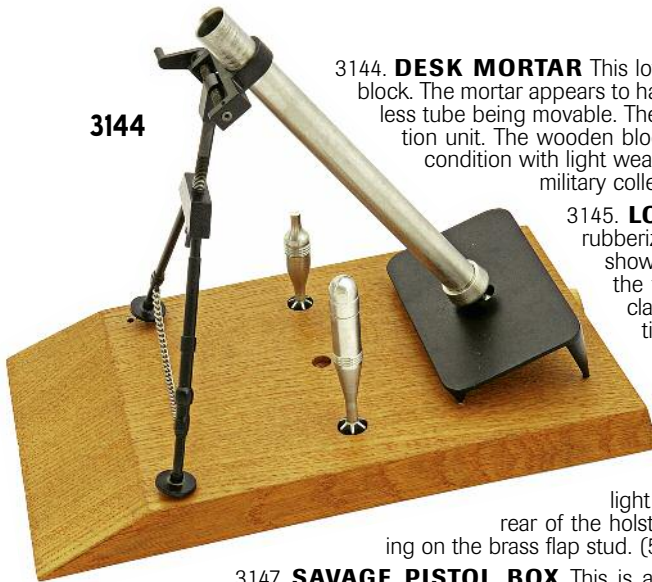

3141. **SMITH & WESSON M4505 SPRING POWERED AIRSOFT PISTOL** This lot consists of a new-in-box Smith & Wesson M4505 Airsoft pistol, a target, two magazines and two bags of pellets. The pistol fires plastic airsoft 6mm pellets and it is rated at 302 feet per second. The pistol is a licensed copy of a S&W M4505, it operates by manually moving the slide back and it is finished black. A nice affordable airsoft pistol that will likely prove to be an affordable way to plink. (207738-1) {NON-GUN}

3142. **EAST GERMAN LP-1 FLARE PISTOL BY ERNST THALMANN** serial #15540, 26.5mm, 7" barrel with a very good bore that shows some scattered oxidation stains. The metal surfaces retain 95-97% original enamel finish with scattered silvering and wear to the exposed edges. The black plastic checkered grips rate very good showing show scattered handling marks, scratches and flattening points. An original leather holster and lanyard are included. A neat item for the Cold War collector. (207407-5) {NON-GUN} (50/100)

3143. **PARRIS DUNN 1903 SPRINGFIELD STYLE TRAINING RIFLE** This lot consists of a dummy 1903 Springfield training gun and an unmarked black leather sling. The rifle retains about 95% of a black enamel finish with some flaking on bolt, barrel, bands and triggerguard. The buttplate is marked with Parris Dunn markings and shows oxidation staining throughout and the hardwood stock rates very good as-cleaned with an added varnish finish and showing the remnants of white tape of right side of butt, scattered dings, handling marks, flaking varnish and scratches. The bolt operates like a real 1903 and the trigger also can be pulled when the bolt is cocked. The rear band is slightly loose, the front band is missing its lower screw and the rear sight moves up and down freely. The unmarked black leather sling shows crazing and flaking throughout its length. A neat item for the military enthusiast. (207908-7) {NON-GUN}

3144

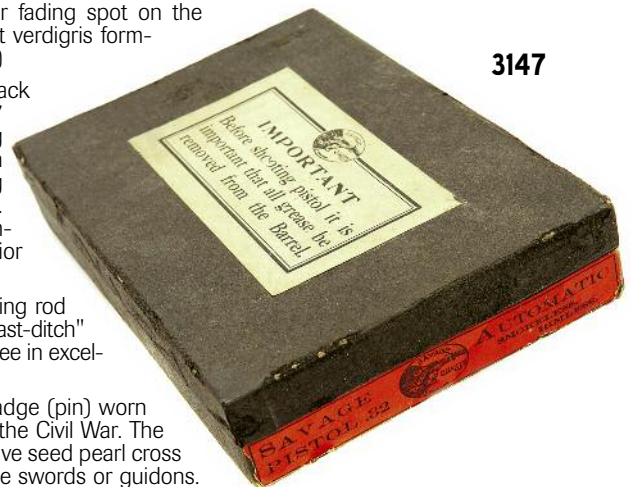

3144. **DESK MORTAR** This lot consists of a very nicely machined model mortar mounted on a wooden block. The mortar appears to have been made from common items and is posable with the legs and stainless tube being movable. The tripod has a stainless chain and features a functional traverse and elevation unit. The wooden block has two replica mortar rounds and the whole assembly is in excellent condition with light wear to the tripod and some staining on mortar tube. A very neat item for the military collector. (207915-1)

3145. **LOT OF NAMBU SHOULDER STRAPS** Two total: (1) tan colored rubberized canvas shoulder strap for a latter manufacture Type 14 clamshell holster showing modest scuffing but remains intact with the edges starting to separate the first 19" from the buckle; (1) brown leather shoulder strap for a Type 14 clamshell holster with a repair about 35" from the buckle where the two sections were professionally stitched together. (58000-33)

3146. **HOLSTER LOT** This is a brown leather flap holster for a Savage Model 1907 pistol. The holster is unmarked except for a large "A.E." stamped above the stitching at the rear right edge. The holster is equipped with a dual brass wire belt hook, and interior cleaning rod sleeve and flap covered magazine pouches on the front equipped with brown round Lucite button closers. The holster is in excellent condition with a

light rectangular fading spot on the rear of the holster and light verdigris forming on the brass flap stud. (58000-13B)

3147. **SAVAGE PISTOL BOX** This is a hinged black cardboard box with tan top label and red endlabel for a .32 Model 1907 style pistol. The box is in excellent condition with very minor age staining intact corners and very minor scuffing along the edges. The labels remain 98% intact with a couple thin tears along the edges; the top label stating barrel cleaning caution and the end label listing pistol caliber information. The bottom of the box has light water and age staining with light serial number and other pencil markings. The interior rates excellent as well, the interior lid label listing caliber size and factory locations. (58000-13A)

3147

3148. **LOT OF NAMBU CLEANING RODS** Three total: (1) 6 1/2" cleaning rod retaining 98% plus original mid-war blue finish; (2) 6 1/2" unfinished "last-ditch" cleaning rods which have darkened to a smooth gray patina with age. All three in excellent overall condition. (58000-30)

3149. **CIVIL WAR CORPS BADGE** This is a lovely Maltese Cross style badge (pin) worn by soldiers of the 1st, 2nd, 3rd, 5th, 6th and 14th corps traveling during the Civil War. The pin is red enamel accented with brass gilt and a five seed pearl cross in the center on a starburst of appears to be swords or guidons. Each arm of the cross is decorated with a brass colored symbol of the different corps. The locking clasp is soldered on the black of the badge and the top pearl is missing in the center. A nice looking Corps badge in very good condition overall. (57623-7)

3149

3150. **SHERIDAN SILVER STREAK AIR RIFLE** 5mm (20 Cal.) 19" barrel with a bright excellent bore. The metal surfaces nickel finish is a little dull with some tarnishing and rates very good to near excellent overall. The walnut pistolgrip stock with forend pump handle also rates very good to near excellent with multiple minor handling blemishes and areas of fading finish. This air gun appears to be an early 50's gun and features a working thumb safety and a rear sight with the knurled knob windage adjustment. (127951-198) [Tweed Heredeem Collection]

3151. **SHERIDAN BLUE STREAK AIR RIFLE** serial #244058, 5mm (20 Cal), 19" barrel with a bright excellent bore. The metal surfaces retain 98% original matte black finish with a few minor handling marks and a couple of specks of superficial oxidation. The walnut pistolgrip stock and pump handle forend rate about excellent with a few minor scratches. The gun is fitted with scope rings and base. (127951-199) [Tweed Heredeem Collection]

3152. **LOT OF SCOPE BASE AND RING SETS** Total of 9 sets. First are four Bausch & Lomb Custom scope base and ring sets with 1" rings and two-piece bases. How to Raise and Train a Beagle, by Mary A. Ward & Sara M. Barabares; c. 1958 Sterling Publishing Co. Inc. 64 pages softcover. Enjoy Your Puppy, edited by Earl Schneider; this 2nd printing 1967 (no c. info.). 31 pages staple bound softcover. Hunting with Scent Hounds, by Joe Stetson; c. 1968 T.F.H. Publications, Inc. 64 pages. Hunting with Sight Hounds, by Joe Stetson; c. 1968 T.F.H. Publications Inc. 64 pages softcover. The conditions of the books in this lot range from very good to excellent with mainly light wear and staining. (76012-1D)
3196. **LOT OF BOOKS** Eight total. Shotgun Psychology, by Lawrence B. Smith; c. 1938 Charles Scribner's Sons. 295 pages hardcover showing mild wear and the spine with a bit more and some sun fading. Guns and Gunning, edited by Dan Beard; c. 1908 J. Stevens Arms & Tool Co. 109 pages softcover rating good to very good with separation and tape repairs at spine and a penciled in name at the top of the front cover. Shotguns & Shooting, by E.S. McCawley Jr.; c. 1965 E.S. McCawley Jr. 145 pages softcover. Automatic and Repeating Shotguns, by Richard Arnold; c. 1958 Nicholas Kay Limited. 173 pages hardcover with jacket and protective plastic sleeve. Excellent condition with very light wear and fading and an ID stamp on back inside cover. Animal Life and Lore, by Osmond P. Breland; c. 1948, 1957, 1963 Osmond P. Breland. 388 pages hardcover with jacket. The Varmint and Crow Hunter's Bible, by Bert Popowski; c. 1962 Bert Popowski. 185 pages softcover. The Upland Game Hunter's Bible, by Dan Holland; c. 1961 Dan Holland. 192 pages softcover. The Deer Hunter's Bible, by George Laycock; c. 1963 George Laycock. 154 pages softcover. The last three listed above constitute a set by Doubleday & Co., show nice crisp edges, light stains and are housed in their original wood grain cardboard sleeve. Unless otherwise noted the overall condition is very good to excellent with small jacket tears, light fading and mild wear. (76012-1E)
3197. **LOT OF BOOKS** Five total. Wild Animals I Have Known, by Ernest Thompson Seton; c. 1898 Ernest Thompson Seton. This second printing of the Bantam edition, 1957. 150 pages paperback rating near very good with wavy profile, some tears and moderate staining. Animals, by Ernest Thompson Seton; c. 1909, 1925, 1926 Ernest Thompson Seton. 295 pages hardcover rating near excellent with illustrated frontis piece and a library generated pocket affixed to the inside back cover. A Forest World, by Felix Salten; c. 1942 Bobbs-Merrill Company. 274 pages hardcover with weakened and separating spine with an area of tape residue, several library stamps and moderate edge wear. Wild Animals I Have Known, by Ernest Seton Thompson; c. 1898 Ernest Seton Thompson, this fifth impression 1899. 358 pages hardcover with gilt top and deckled main and bottom edges. The front cover corners show light impressions, the spine some separating and there is a note on the front end paper indicating that this was a Christmas gift in 1899. Also evident are some scattered ingrained spots of dirt and a slightly uneven and wavy profile but overall a wonderful example from the period. When Animals Change Clothes, by Charles Paul May; c. 1965 Charles Paul May. 56 pages softcover showing some scribbling on front cover and scattered liquid stains. (76012-1F)
3198. **LOT OF BOOKS** Three total. Fur, Feathers and Steel: of Feathers, Hackles, Fishhooks and Other Materials Used in Tying Trout Flies, by Rueben R. Cross; c. 1940 Dodd, Mead & Co. Inc. 78 pages hardcover showing little wear with blue ink notations on inside cover and front end paper, some scattered foxing along top edge and a red smudge on the front cover and other areas of mild ingrained dirt. This Reckless Breed of Men: The Trappers and Fur Traders of the Southwest; c. 1950 Alfred A. Knoff, Inc., this fourth printing 1963. 361 pages hardcover with a somewhat compromised structural stance, an embossed title on the slightly sun faded spine and scattered mild foxing. Kit Carson: Folk Hero and Man, Noel B. Gerson; c. 1964 Noel B. Gerson. 255 pages hardcover with jacket and rating near excellent with minor scattered dark spots and discoloration. (76012-1G)
3199. **LOT OF BOOKS** Total of six. Small Game Hunting, by Clyde Ormond; c. 1967, 1977 Clyde Ormond. 126 pages softcover. In Search of the New England Coyote, by Peter Anderson; c. 1982 Peter Anderson. 219 pages softcover. The Art of Successful Deer Hunting, by Francis E. Sell; c. 1964 Francis E. Sell, this Rubicon Book edition, 1971 (hardcover originally published as The Deer Hunter's Guide). 192 pages softcover. Wild Mammals of New England, by Alfred J. Godin; c. 1977 Johns Hopkins University Press, this Field Guide Edition, c. 1981 DeLorme Publishing Co. 207 pages softcover. Animal Treasure, by Ivan T. Sanderson; c. 1937 Ivan T. Sanderson. 325 pages hardcover with jacket showing small tears and a few spots of foxing and light dirt. Wildlife in America, by Peter Matthiessen; c. 1959 Peter Matthiessen. 304 pages hardcover with front end paper showing the onset of separation and a large handwritten note in blue ink marker. The book shows very light wear and some minor dirt stains. Overall the books in this lot rate very good to excellent. (76012-1H)
3200. **LOT OF BOOKS** Three total. A Naturalist in Alaska, by Adolph Murie; c. 1961 Devin-Adair Company. 301 pages hardcover with jacket with a 4" section missing at the spine and scattered areas of tears and creasing. The book has a deckled main edge and the top exhibits mild foxing. Sportsmen Say, by Gene L. Letourneau; c. 1975 Guy Gannett Publishing Co., this second printing 1976. 215 pages hardcover with jacket that is missing nearly the entire front section, the cover rates excellent and the main and bottom edges have some large brown liquid stains. The Time of the Buffalo, by Tom McHugh; c. 1972 Tom McHugh. 339 pages hardcover with jacket and library stickers on the front and rear end papers. The edges show some areas of dirt and discoloration and the corners show moderate wear. The overall condition of the lot is about very good plus. (76012-1I)

3201. **LOT OF BOOKS** Total of six. The Care and Handling of Dogs, by Jack Baird; c. 1948 Garden City Publishing Co., Inc., this printing 1950. 243 pages hardcover with a name and 1951 dated notation in ink on the front end paper and three small holes formed on top edge. The Man Killer of the Foothills, by Elliott Whitney; c. 1936 Reilly & Lee Co. 295 pages hardcover with jacket and notation on front end paper indicating that this was a 1937 Christmas gift. Wild Animals at Home, by Ernest Thompson Seton; c. 1913 Ernest Thompson Seton. 225 pages hardcover with illustrated frontis piece, a 1934 dated penciled in name on the front end paper, light wear and scattered areas of dirt. Never Cry Wolf, by Farley Mowat; c. 1963 Farley Mowat. 247 pages hardcover with jacket and rating near excellent with areas of light dirt. Bullet and Shell: War as the Soldier Saw it, by George F. Williams; c. 1882 George F. Williams. 454 pages hardcover with areas of moderate wear, particularly at the corners, some foxing or small liquid stains on the beginning pages where there is also the beginning of separation from the spine. The last book in the lot is a reproduction of Betty Babcock's Illustrated Hunting Diary originally produced in 1936-1937, an approximately 100 page hardcover rating very good to excellent. (76012-1J)
3202. **LOT OF BOOKS** Six total and all copy no. 267 of 1500 from the Wolfe Library Classics Limited Edition and are all hardcovers with gilt edges, ribbed leather spines, fabric page keepers and illustrated frontis pieces. Hunting the Alaska Brown Bear by John W. Eddy; originally published 1930. 253 pages. Recent Hunting Trips in British North America, by F. C. Selous; originally published 1907. 393 pages. Modern American Pistols and Revolvers, by A. C. Gould ("Ralph Greenwood"). Originally published 1888. 222 pages. Advanced Gunsmithing, by W. F. Vickery; originally published 1940. 422 pages. Wilderness Hunting and Wildcraft, by Lieut. Colonel Townsend Whelen; originally published 1927. 338 pages. The American Shotgun, by Charles Askins; originally published 1910. 321 pages. The books appear to have not been read but do exhibit some scattered light foxing and storage wear marks. The overall condition is near excellent to excellent. (76012-1J)
3203. **LOT OF BOOKS** Total of five that are all reproductions by Wolfe Publishing including the first three that are no. 267 of 1500 from the Wolfe Library Classics Limited Edition and all five hardcovers feature gilt edges, ribbed leather spines, fabric page keepers and illustrated frontis pieces. Military and Sporting Rifle Shooting, by Captain Edward C. Crossman, U.S. Army; originally published 1932. 499 pages. Practical Dope on the .22, by F. C. Ness; originally published 1947. 312 pages. The Book of the Rifle, by T. F. Fremantle; originally published 1901. 558 pages. The Rifle in America, by Philip B. Sharpe; originally published 1938. 641 pages hardcover with a slightly wavy profile. The Ultimate in Rifle Precision, by Townsend Whelen. Originally published 1958. 310 pages hardcover. The books in this lot rate about near excellent and appear to have seen little if any use but do exhibit mild foxing and some storage contact marks. (76012-1K)
3204. **LOT OF CATALOGS** This lot consists of 75 items including 73 firearms auction catalogs comprised of the following: (39) of J. C. Devine Inc. from the period of Oct. 1995 and Dec. 2009; (25) of James D. Julia, Inc. with the earliest, Nov. 1989 and the most recent being Oct. 2011; (4) of Poulin Auction from 2011 and 2012; (2) of Wm. "Pete" Harvey Auctions, Inc. from 2002 and 2003; (1) of Oliver's from 1989; (1) of Butterfield & Butterfield from 1997. Please note that the periods listed for these companies are not fully inclusive of all their respective auctions throughout and that most of the auctions represented by the catalogs include post-auction prices. The last two items in the lot are product catalogs: (1) Buckeye Sports Supply from 1982-1983; (1) Wammes Corp. Sporting Products from 1982. The overall condition of the catalogs is very good to excellent with several having realized prices written in and some showing a distorted or wavy appearance from storage. (76012-1L)
3205. **LOT OF BOOKS** Total of two. The Winchester Book, by George Madis; c. 1961, 1969, 1971, 1977, 1979, 1981, 1984 and 1985 George Madis. 654 pages hardcover signed by the author and is 1 of 1000 of The Silver Anniversary Edition featuring a royal blue pebble grain cover with silver embossed title and impressive raised image of rider on horse on lower right front cover. The silver title lettering at the spine is experiencing the onset of separation at areas of creasing but outside of that the book rates excellent with minor isolated dirt along the edges and very light corner wear. America's Premier Gunmakers: Winchester, by K.D. Kirkland; c. 1989 Brompton Books Corp. 112 pages hardcover with jacket and note on front end paper indicating that this was a gift in 1992. This is an illustration oriented offering that rates excellent with only light storage or contact marks on jacket. (77569-1A)
3206. **LOT OF BOOKS** Two total. Marlin Firearms: A History of the Guns and the Company that Made Them, by Lt. Col. William S. Brophy; c. 1989 Lt. Col. William S. Brophy. 696 pages hardcover with jacket and protective sleeve. This is an excellent plus condition example of this desirable and informative classic by the well-respected author. Colt's Variations of the Old Model Pocket Pistol 1848-1872, by P. L. Shumaketr; c. 1957 Fadco Publishing Co. 150 pages near excellent condition hardcover with jacket showing a small smudge, very light wear, creasing and tears. (77569-1B)
3207. **LOT OF BOOKS** Two total. British Gunmakers: Vol. One - London, by Nigel Brown; c. 2004 Nigel Brown. 280 pages hardcover with jacket showing an impressive high resolution close-up of a flintlock rifle. British Gunmakers: Vol. Two - Birmingham, Scotland & the Regions, by Nigel Brown; c. 2005 Nigel Brown. 459 pages hardcover with jacket exhibiting a vivid close-up of a William & Powell & Son shotgun. These exceptionally well-constructed books provide historical information from the 19th and 20th century periods of their respective regions. The condition of the lot is excellent plus with little if any indication of use. (77569-1C)
3208. **LOT OF BOOKS** Total of three. Shotguns and Gunsmiths: The Vintage Years, by Geoffrey Boothroyd; c. 1986 Geoffrey Boothroyd, this printing 1993. 240 pages hardcover with jacket. Sidelocks & Boxlocks: The Classic British Shotguns, by Geoffrey Boothroyd; c. 1991 Geoffrey Boothroyd, this third printing 1993. 271 pages hardcover with jacket. Winchester's Finest: The Model 21, by Ned Schwing; c. 1990 Ned Schwing (first edition). 359 pages hardcover rating excellent with little if any indication of use. The first two books in this lot also rate excellent but with very light wear and handling marks on the jackets. (77569-1D)
3209. **LOT OF BOOKS** Total of seven. 45/70 Trapdoor Springfields Dixie Collection; c. 1975 Pioneer Press. Approximately 400 page softcover chronicling the acquisition project undertaken by Dixie Gun Works. Springfield Shoulder Arms: 1795-1865, by Claud E. Fuller; c. 1931 Francis Bannerman & Son, this printing 1986. 176 pages softcover. Springfield Armory Shoulder Weapons: 1795-1968, by Robert W.D. Ball; c. 1997 Robert W.D. Ball. 264 pages hardcover with jacket. Arsenal of Freedom The Springfield Armory 1890-1948: A Year by Year Account Drawn from Official Records, compiled and edited by Lt. Col. William S. Brophy; c. 1991 Andrew Mowbray, Inc. 400 pages softcover. War Baby! The U.S. Caliber .30 Carbine, by Larry L. Ruth; c. 1992, 2001, 2012 Larry L. Ruth. 495 pages hardcover with jacket. War Baby! The U.S. Caliber .30 Carbine Vol. II, by Larry L. Ruth; c. 1993 Larry L. Ruth. 351 pages hardcover with jacket. The last item in this lot is a 25 page staple bound softcover titled Model 1903 Springfield Rifles; c. 1989 National Rifle Assoc. and is a compilation of offerings by several authors. The overall condition of the lot is excellent. (77569-1E)
3210. **LOT OF BOOKS** This lot includes four books. First is an 848 page soft cover title Eisenhower, by Carol D'Este, copyright 2002. The book has a few minor spots of staining and remains in good condition. Second is an illustrated 608 page hardcover title The Second World War, by John Keegan, copyright 1989. This book is complete with outer dust cover and has a personalized note with authors signature to a previous owner and remains in very good condition. Third is an illustrated 192 page hardcover title Great Land Battles of World War II, by Ian Hogg, copyright 2002. The book remains in near excellent condition with a few light scuffs and slightly rounded corners. Fourth is an illustrated 176 page hardcover title D-Day, by Dan Van Der Vat, copyright 2003. This book is complete with dust cover and remains in near excellent condition. (106522-3)
3211. **PERIODICAL LOT** This lot consists of 57 assorted issues of the Double Gun Journal from 1996-2006. Issues include: 1996 autumn, 1997 spring, 1998 spring (2), summer (2), autumn, winter (2), 1999 spring, summer, autumn (2), winter (2), 2000 spring, summer (2), autumn, winter, 2001 spring, summer, autumn (3), winter, 2002 spring (2), summer (3), autumn (2), winter, 2003 spring (3), summer, autumn (2), 2004 spring (3), summer, autumn (3), winter (2), 2005 spring, summer, autumn, winter, and 2006 spring, summer, autumn, winter. These classic reference journals range in condition from about very good to excellent, some have minor damage from the elements and pests. A good addition for the double gun enthusiast. (1X45363-1)

3212. **BOOK LOT** This lot includes a 143 page illustrated hardcover title Moran Fire & Steel, by Wayne V. Holter copyright 1982. The brown leather cover with gold embossed lettering remains in excellent condition showing a few very minor scuffs along the edges. The book has a personal inscription to the previous owner and is number 125 out of 300. The book features the work of Maryland custom knife maker William F. Moran Jr., who was a member of the Knifemaker's Guild, Master Smith, American Bladesmith's Society, and local shop owner. Also included with the book are four newspaper clippings, one picture, seven Christmas cards and a business card with company brochure. This collection of Bill Moran's memorabilia remains in excellent condition. (107946-2)

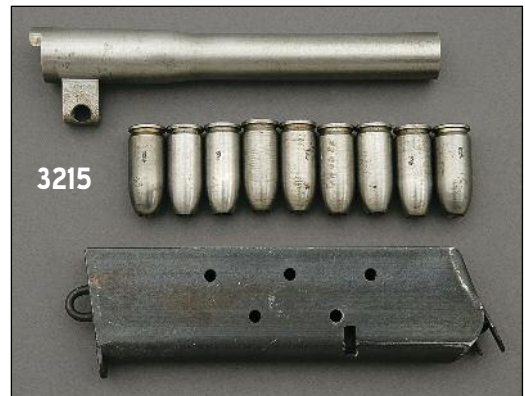

3213. **BOOK LOT** This lot includes a 293 page illustrated hardcover title The Government Models, by William H.D. Goddard copyright 1998. The plain white colored binding with blue lettering and illustrated Colt 1911's on the front and back covers rates excellent showing only a few light handling marks. The spine remains very stiff as if the book has seen very little time open. The edges of the pages have scattered small spots of dust staining likely from sitting on a shelf. This is a top notch reference book for the 1911 collector that is in as-new condition. (108002-205) [Charles Hadley Collection]

3214. **LOT OF BOOKS** This lot includes three books. First is a 146 page illustrated hardcover title Collector's Guide to Colt .45 Service Pistols, By Charles W. Clawson copyright 2003. This third edition print remains in excellent condition showing a few light handling marks with a very stiff spine that appears to have seen very little use. Second is a 230 page illustrated hardcover title Colt .45 Government Models, by Charles W. Clawson copyright 2005. This second edition print shows some overall light scuff marks with slightly rounded top corners and a small stain along the edges of the pages. The book remains in near excellent condition. Third is a soft cover military manual titled TM 9-1005-211-34 Pistol, Caliber .45, Automatic M1911A1 published by the Department of the Army dated June 22, 1964. This service manual remains in excellent condition and this group of hardcover titles would make an excellent addition to the Goddard book also being offered in this auction. (108002-206) [Charles Hadley Collection]

## Gun Parts

3215. **RARE KONGSBERG MODEL 1912/1914 RIMFIRE CONVERSION UNIT** This is a 5" 22 caliber barrel with a bright excellent bore for converting the Kongsberg 1912 and 1914 pistols to fire 22 long rifle cartridges. The barrel is chambered for proprietary steel cartridges machined like a 45 ACP, chambered for the 22 long rifle cartridge. 22 long rifle cartridges are inserted into the metal parent "cartridge" which are then inserted into a standard 45 caliber magazine. The bore and the chamber are offset so that the standard firing pin may be used, striking the rim of the 22 long rifle cartridge case. The chamber is machined just slightly different to preclude an actual 45 ACP cartridge from being chambered in it. Both the barrel and the cartridges are finished bright and rate overall excellent, some very good plus with light surface oxidation, all show single Kongsberg firing proofs. There are nine steel cartridge cases, the barrel and a blued Kongsberg lanyard loop magazine included in the kit. The magazine itself rates very good plus. Overall a nice and very rare accessory set for your Kongsberg model 1912 or 1914 pistol. (37644-88) [Kevin Williams Collection] (500/700)

3216. **LOT OF MG 42 BARRELS** This lot consists of two MG 42 spare barrels, 8mm, 20 3/4" barrel, 22 3/8" overall length. The first barrel is numbered "57879" and retains 85% of its original blue with a dark lightly pitted bore. The second barrel is numbered "50946" and retains near 75% of its original blue with a large area of loss just ahead of the number. The bore is dark and pitted near its full length and there is a bulge near halfway down its length. Neither barrel bears any visible Waffenamt markings. (2X104940-38A)

3217. **STOCK LOT** This lot consists of an unmarked walnut military stock for a 1903 style rifle. The stock is the "Scant" style with partial pistolgrip and is in excellent overall condition save a few light handling marks. There is no handguard or hardware included save two steel crossbolts. An excellent accessory to dress up or change out a tired old piece of wood for your trusty "03". (47871-3)

3218. **STOCK LOT** This lot consists of a U.S. Martial Trapdoor Cadet style buttstock. The stock is likely for the 1873 model Cadet rifle and has been cleaned and lightly sanded. It measures 41 1/2" overall and has several light handling marks and small dings. There is a faint, partial inspector's marking on the left side near the rear lock screw hole and two barrel band stops, but no inletting has been done for the retaining springs. There is no hardware of furniture present save the inner retention spring for the ramrod. An interesting martial style stock that would make a good replacement of project for a custom trapdoor. (43615-12)

3219. **STOCK BLANK LOT** This lot consists of two rough-cut walnut stock blanks for a two-piece stock set. The first block is rectangular and measures 13 1/2" long by 2 1/2" high and 2" wide. The second piece is larger and more trapezoidal in shape and measures 18 1/2" long and is also 2" wide. The forward end is 4 1/2" high while the butt end is 7 3/4" high. The grain on both are matching and have lots of wavy figure. An excellent prospect for a variety of custom stock options. (45362-2A)

3220. **STOCK BLANK LOT** This lot consists of two oil finished walnut stock blanks for a two-piece stock set. The first block is rectangular and measures 15 3/8" long by 2 1/2" high and 2 1/2" wide. The second piece is larger and wider and measures 16 7/8" long and is also 2 1/2" wide. The forward end is 6" high while the butt end is closer to 6 1/2" high. The grain on both are near matching and has lots of straight grain figure. The ends are stamped "Quaking Aspens" from California and are numbered "W-767.10", the buttstock section has a pattern traced for cutting. Two excellent examples with lots of potential. (45362-2B)
3221. **STOCK LOT** This lot consists of an antique walnut halfstock for a flintlock fowler rifle. The stock measures about 30 1/2" long and is in about very good condition with several drying cracks, small dings and other handling marks. The stock has a crude metal buttplate, wrist plate with hole for a lollipop style sight, trigger assembly, forend cap and the tang portion of the trigger guard. No other hardware or furniture is included. The stock has been cut to fit a 13 1/4" length of pull. The style appears to be that of a British Brown Bess and would likely fit a lock and parts for those rifles. (47861-1)
3222. **STOCK LOT** This lot consists of an antique walnut halfstock for a flintlock fowler rifle. The wood rates about good overall and has several light dings and handling marks along with a few small chips and various cracks. There are also a couple of small repairs and the wood appears to have been lightly cleaned with an oil finish added. An iron buttplate, trigger guard and trigger assembly are included along with the left side escutcheon and one lock plate screw. The stock measures about 28 1/2" long overall and has a length of pull of 12 1/2". The right side of the butt has been "dished" out possibly for a left-handed shooter. A good project for potential restoration. (46222-5)
3223. **STOCK LOT** This lot consists of three stocks for the 1903 series rifles. First is a military walnut stock that has been modified for sporting use. It rates very good overall with a few light dings and handling marks and a small crack near the tow. The stock measures 31" overall and included are sling swivels and the crossbolts, no other hardware is included. Next are two brown composite full-length military style training or drill stocks. Neither include any hardware or furniture. One is in excellent condition, the other rates about good and has several chips, cracks and other blemishes. (44395-2S1)
3224. **STOCK LOT** This lot consists of three stocks for the Springfield Krag series rifle. First is a full length 1898 style military walnut stock which rates about very good and has some small cracks and other minor handling marks. The wood appears to have been cleaned but a faint firing proof and 1902 dated inspector's cartouche are still visible. Next is an unmarked 1898 style military hardwood stock that rough finished and oak stained but rated near excellent overall. Lastly is a shorter 1898 style stock possibly for the Philippine Constabulary rifle. The oil finished walnut stock has a small crack at the forend tip and a few very small chips near the butt. An inspector's cartouche and firing proof are faintly visible but not legible. The first two are without any hardware or furniture, the last has a sling swivel attached. (44395-2S2)
3225. **STOCK LOT** This lot consists of three carbine length walnut stocks for the Springfield Krag rifles. The first measures 36" long and is in near excellent condition with light handling marks. The stock is without any hardware or markings. Second is a sporterized stock that measures 31" and has an added pistolgrip and added finish. There are no visible markings on this stock either but a steel buttplate and rear sling swivel are included. The last stock has a saddle ring cutout and is in fair condition. There is a repair through the wrist and a few other small cracks and chips. The inspector's cartouche is still mostly visible and is dated "1897". (44395-2S3)
3226. **STOCK LOT** This lot consists of a walnut stock for the M-14 series rifles. The stock is in excellent condition with only a few light dings and has a crisp firing proof and Federal eagle DOD cartouche. The stock is equipped with steel furniture and included are three brown composite handguards, one vented and two solid. An excellent replacement or spare stock assembly for your prized M-14 or M-1A rifle. (44395-2S4)
3227. **STOCK LOT** This lot consists of a high wood walnut M1 Carbine stock by Inland. This "IO" marked stock is in very good overall condition and has several light handling marks and a few small cracks. There is a mostly visible crossed cannons cartouche on the right side of the butt. No hardware is included. A nice substitute or replacement stock for your trusty "War Baby". (44395-2S5)
3228. **STOCK LOT** This lot consists of a two-piece stock for the Springfield Trapdoor rifle. This walnut stock measures about 51 1/2" long and has been separated at the rear barrel band stop, there is remnants of old adhesive present. The wood has several light dings and other assorted handling marks and there is what appears to be a faint "ELA" inspector's cartouche on the left side. No hardware is included. Overall a good replacement stock for your trapdoor rifle that would need a small amount of attention to be in service. (44395-2S6)
3229. **STOCK LOT** This lot consists of five items. First is a sporterized walnut stock for the 1917 series military rifle. This is a military stock that has been modified and has a vented Gun Pads recoil pad added. There is a 7 1/2" long sliver missing from the left side of the forearm and the forward swivel is present but no other hardware is included. Next is an unfinished walnut stock for a bolt action rifle. The pistolgrip stock features a left side check rest with accent line, and included is the bottom metal minus the floorplate. The inner portion has been glass bedded and the wood appears to have some great grain that could be brought out with the right stain and oils. Next is a section of forearm that measures 26 1/2" and has a beveled front edge. There is a large chip missing at the base. Lastly are the buttstock and forearm with slide for a Winchester Model 1897 slide action shotgun. The buttstock features a vented Hy-Gun recoil pad and measures about 13 1/2" long overall. It has a small crack on the right side of the wrist and added finish over other dings and handling marks. The forearm is in similar condition with added lacquer and has the slide arm portion included. Some good project wood. (44395-2S7)
3230. **STOCK LOT** This lot consists of a buttstock for a Winchester model 1873 rifle. The walnut stock features a dark oil finish with added lacquer. There are a few light handling marks throughout and an older repair is present at the top right of the wrist. The curved steel buttplate is included but no other hardware is present. A very good example overall measuring about 12 1/2" in length. (44395-2S8)
3231. **M1 GARAND PARTS LOT** This lot consists of a barrel and operating rod for the M1 Garand rifle. The barrel measures 18 1/4" long and has an excellent bore. Made by Springfield Armory it is dated "7-44" and retains most of its arsenal finish. The operating rod is in very good condition and has some light specks of oxidation and minor tool marks. It is "SA" marked as well. Two useful M1 Garand accessories. (44395-2B1)
3232. **M1 CARBINE LOT** This lot consists of two M1 Carbine barrels. First is by Winchester and is marked "W" with no date present. The barrel features a bright excellent bore and retains most of its arsenal finish. The second is by Underwood and is dated "6-43". The metal surfaces have been polished and there are areas of light to minor pitting present but the bore is bright and shiny. Two very useful M1 Carbine accessories. (44395-2B2)
3233. **WINCHESTER 1873 PARTS LOT** This lot consists of a 20" 44-40 WCF barrel with sights and a magazine tube for a Winchester 1873 rifle. The bore is gray and lightly pitted throughout. Barrel has added finish and features a carbine style rear ladder sight and has several filled dovetails, both front and rear, from previous sight mountings. The magazine tube is equipped with the end cap and rates very good with a few light specks of surface oxidation. (44395-2B3)
3234. **KRAG BARREL LOT** This lot consists of four barrels for the Springfield Krag bolt action rifle. The first two are 30" long and retain their front sight base. The bores are gray with light pitting and soft rifling throughout. The third is in similar condition but has been shortened to 22" with the front sight base having been remounted. The last measures 24" and has no sights but a better bore that is lightly frosted throughout. All have areas of light to minor pitting on the exterior and added finish. (44395-2B4)
3235. **EDDYSTONE LOT** This lot consists of an unmarked 26" sporting 30-06 barrel to fit an Eddystone 1917 square thread receiver. The barrel is in-the-white and has areas of light surface oxidation throughout. An excellent custom barrel for your sporter rifle project. (44395-2B5)

3236. **MAGAZINE TUBE LOT** This lot consists of a blued magazine tube that measures 23 1/2" long and is about 5/8" diameter. One end is slightly flared and there are three grooves cut, two inline and one offset. Some light handling wear and specks of light surface oxidation are present but the tube is in otherwise excellent condition. No end cap or other parts are present. (44395-2B6)
3237. **BARREL LOT** This lot consists of an M249 Paratrooper SAW/MK46 barrel. The barrel is in a sealed factory bag and retains its original barrel wick. The condition of the metal and bore are assumed to be very good to excellent overall. The bag is marked with a manufacture date of December 2008 and it is marked with a cage code of "3S679" and it is marked "Short Monoblock Barrel". (207258-11A)
3238. **BARREL LOT** This lot consists of a M249 Paratrooper SAW/MK46 barrel. The barrel is in a sealed factory bag and retains its original barrel wick. The condition of the metal and bore are assumed to be very good to excellent overall. The bag is marked with a manufacture date of December 2008 and it is marked with a cage code of "3S679" and it is marked "Short Monoblock Barrel". (207258-11B)
3239. **GRIP LOT** This lot consists of two pairs of Colt factory checkered walnut grips for the Officer's Model revolver. The grips rate very good showing scattered handling marks, light dings and some minor flattening. (207494-23)
3240. **LOT OF GUN PARTS** This lot consists of a Stevens/Springfield Model 56 Bolt Assembly. The bolt assembly shows some scattered oil and oxidation staining and the original firing pin is broken but included. The bolt assembly appears to have most of the other parts included and it will likely be great for a source of parts. (207407-6)
3241. **GRIP LOT** This lot consists of two sets of Pachmayr grips for the Browning Hi Power pistol. The first pair features Pachmayr lion discs and it includes a rubber backstrap. The grips shows scattered light wear and some dust. The second pair of grips is plain and shows some minor flattening and dust and it includes a backstrap. No grip screws are included with either pair of grips. (207380-2A)
3242. **GRIP LOT** This lot consists of a Pachmayr Gripper rubber grips for Charter Arms revolvers. The grips appear to be in excellent condition in their original box with a couple tears at bottom corners. (207380-1A)
3243. **GRIP LOT** This lot consists of a Pachmayr rubber grips for L and K frame Smith & Wesson revolvers. The grips are in their original factory box and show dust stains throughout. They are marked with a Pachmayr lion and include the grip screw. (207380-1B)
3244. **GRIP LOT** This lot consists of an Uncle Mike's Custom Grade rubber grip set for Taurus revolver models 65, 66, 80, 82, 83,86,96, 669-VR, and 689 VR. The grips appear very good to excellent and are housed in their original box. (207380-1C)
3245. **GRIP LOT** This lot consists of a Pachmayr Gripper Combat Style Grips for Colt D-Frame revolvers. The grips are housed in their original box and show dust throughout. (207380-1D)
3246. **GRIP LOT** This lot consists of a Pachmayr Gripper SK-G rubber grip set for Smith & Wesson K and L Frame revolvers. The grips are housed in their original factory box and show dust throughout. (207380-1E)
3247. **GRIP LOT** This lot consists of a set of Pachmayr Signature grips for the Ruger MKII semi auto pistol. The grips appear very good plus to excellent and are in their original factory box. (207380-2B)
3248. **GRIP LOT** This lot consists of a set of Pachmayr Pro Grip handgun grips for the Taurus 65, 66, 80, 82, 83, 86 and 96 revolvers. The grips are in their original factory box and they show light dirt staining throughout. (207380-1F)
3249. **GRIP LOT** This lot consists of three pairs of grips for various semi-automatic pistols. The first is a set of ribbed hard plastic grips for Bryco/Jennings pistols in very good plus to excellent condition with their grip screw and they are loose in a plastic bag. The next set is a checkered plastic Ruger factory grips for the MKII pistol. The MKII grips are in very good condition showing some light dirt stains and handling marks and the right panel is marked with the Ruger logo and one grip screw is missing. The third pair of grips are Uncle Mike's custom molded grips for the Beretta 92 series pistol. The grips are in their factory box and appear near excellent overall. (207380-2C)
3250. **LOT OF LONDON PISTOL COMPANY PARTS** This lot consists of (1) London Pistol Company Percussion Pocket Revolver serial #140, .36 cal., 4" octagon barrel with a lightly frosted bore. The barrel retains about 50% original blue with scattered wear and handling marks. The frame and cylinder are cleaned to pewter with strong engraving and cylinder scene. The smooth walnut factory grips are numbered to the gun and rate very good with light dents, limited crazing and worn finish. There are a number of parts provided with the partially disassembled gun including the mainspring, cylinder stop, three flat springs, screw and other parts. (86229-676) {ANTIQUÉ}
3251. **BOWEN RELEASE TRIGGER FOR PERAZZI TM1 SHOTGUN LOT** This lot consists of (2) items. Included is a single Bowen release trigger for a Perazzi TM1 shotgun with light tool marks on the side of the trigger housing. The exposed metal base, triggerguard and trigger are blue finished with about 97% remaining and exhibiting light handling marks and freckling. Although the unit appears to be in operating order we cannot guarantee full function after installation. Includes a zippered leather case. (86945-8W)
3252. **HIGH STANDARD, SAVAGE, K-98 MAUSER, SMITH & WESSON AND SHOOTERS LOT** This lot consists of (21) various parts and accessories. Included are (2) packets of High Standard parts including 4 #F10461 sear springs and 4 #HS-F1255 side lock springs. (3) Savage model 99 steel buttplates, (1) Savage hard rubber buttplate that has been heavily repaired and (1) unidentified hard rubber buttplate, possibly Savage. (1) unidentified striker assembly for possibly a Stevens 410 bore shotgun, (4) Master triggerguard locks with two keys each, except the gold colored which has only one key. (1) set of Smith & Wesson diamond checkered walnut factory Magna grips with silver S&W medallions in excellent condition (serial #431399), (1) S&W two-piece cardboard box with steel reinforced corners end labeled to a Model 14 K-38 Masterpiece with 6" barrel and numbered to K431399. (1) Mauser K98k front band with number "86" on the side, (1) Mauser 98 milled lower band, (1) Mauser K98k complete sight assembly and (1) Mauser K98k upper walnut hand-guard. (1) Fort Knox "Moisture Master" de-humidifier with separate plug (so the it can be threaded into a safe). (1) Bridgeport #20 shot / powder adjustable measure calibrated from 1 to 5 drams. The drum sticks in the closed position but overall, rates very good. (1) unmarked shot / powder adjustable measure calibrated from 1 to 5 drams. The metal surfaces have about 70% nickel plate with light handling marks. The items in this lot rate very good to excellent with some light handling marks. The High Standard parts appear new, the Mauser parts are very good with light wear to the bluing, the steel Savage buttplates are excellent and the wooden Mauser forend rates very good with light handling marks. (86945-8X)
3253. **LOT OF SCOPE RINGS AND BASES** This lot consists of (28) pieces. Included are the following bases in unopened factory packaging but with handwritten notes on them: (2) Weaver #14 scope base with screws, (3) Weaver #15 scope base with screws, (1) Weaver #16 scope base with screws, (2) Weaver #19 scope base with screws and (1) Weaver #53 scope base with screws. The following are still in factory packaging but have been opened and/or used: (2) Weaver #153 pivot mount scope bases with screws and (1) Browning Model 8517, barrel mount scope base for a Browning BAR-22 rifle with screws and instructions. Also included are the following loose mounts: (1) Weaver #153 pivot mount scope base with one complete 1" ring attached, the other has the saddle present but no clamp or base screws, (1) Weaver #153 pivot mount scope base with two 1" ring saddles attached but no clamps or base screws, (1) Weaver #153 pivot mount scope base only, (2) Weaver 1" pivot rings, (1) Weaver #155 pivot scope base with 1" ring saddle attached but no clamp, (4) Weaver 1" scope rings, (2) Weaver 3/4" scope rings, (1) Weaver scope base in vintage envelope marked #56 and (1) side mount marked T1 with (2) scope ring clamps with assorted screws with note indicating they are for a Winchester model 75 Target. Most of these items are in new unused condition with the loose rings and mounts exhibiting light handling wear. (86945-8Z)

3254. **COLLECTIBLE SIGHT AND COMPASS LOT** This lot consists of (4) items. Included are (1) vintage Marlin No. 4 (a.k.a. S104) receiver sight that remains fully functional with light high edge wear on the painted surfaces and light to moderate wear on the knobs. The sight was designed to swing out of the way for use of the sporting sights on Marlin 22 caliber rifles. Also included is (1) blue finished front sight hood measuring approximately 1.189" L x .624" D with one end knurled and an approximately .212" W x .930" L slot. (1) vintage Redding receiver sight for Remington model 8 series of rifles with light handling wear, a few oxidation blemishes and screw slot damage on the two provided mounting screws. (1) unmarked vintage brass bodied "pocket watch" style compass with needle lock, top loop and light wear. The needle still moves freely and the "lock" still functions. The back of the case is hand engraved with three initials and the date "Sept 2 / 1879". (86945-8AA)
3255. **LOT OF WINCHESTER MODEL 1894 PARTS** This lot consists of (52) parts. Included are (1) finger lever attached to (1) link complete with friction stud and finger lever pivot pin. (1) breech bolt complete with extractor, ejector and appropriate springs and pins (top eject). (1) lower tang complete with trigger, trigger stop, mainspring (flat), sear, trigger stop spring and related parts. (2) hammers, (2) left cartridge guides, (2) right cartridge guides, (1) locking bolt complete with firing pin striker and pin, (1) carrier, (2) loading gates, (6) top eject firing pin, (1) carrier spring, (3) carrier screws, (3) hammer screws, (4) lever pin stop screws, (3) filler screws, (2) extractor (top eject) and (16) assorted screws, pin and flat spring. All parts rate very good to excellent. (85694-16D1)
3256. **SMITH & WESSON MODEL 52 PARTS LOT** This lot consists of (22) packets of parts for the Smith & Wesson model 52 semi-auto pistols. Included in the packets are (11) sideplates, (5) triggers, (5) mainsprings, (12) disconnectors with disconnector pins, (5) drawbars, (5) extractors, (10) extractor pins, (10) extractor springs, (4) hammers complete with stirrup and stirrup pin, (2) inserts, (12) magazine catches, (5) sears, (6) sear pins, (5) firing pin springs, (11) trigger stop screws upper, (11) trigger stop screws (lower), (17) sear springs, (17) sear spring retaining pins, (2) slide stops complete with plunger, plunger spring and plunger pin, (19) barrel bushing plunger springs, (18) barrel bushing plungers, (3) complete rear sight assemblies, (2) complete recoil spring guide assemblies, (2) recoil springs, (5) barrel bushing wrenches, (56) frame studs, (10) ejectors, (12) ejector springs, (10) drawbar plungers, (10) drawbar plunger springs and (10) barrel bushing plates. They are in like new condition and appear unused. (85694-16D2)
3257. **RUGER PARTS LOT** This lot consists of (8) packets or bags of parts for the Ruger Speed / Service Six revolver and Single Six revolvers. Included are the following Ruger Speed / Security Six parts: (2) hammer dogs, (3) hammer dog pivot pins, (3) hammer dog springs, (3) hammer dog plungers, (3) pawls (.094"), (4) pawls (.096"), (4) stainless steel cylinder latches, (2) trigger springs, (3) trigger bushings, (5) each trigger plunger and trigger springs, (4) trigger pivot pins, (2) transfer bars, (2) complete mainspring assemblies, (2) hammer pivot assemblies (blue) and (2) hammer pivot assemblies (stainless steel). All these parts are in as-new condition. Included are the following Single Six parts: (1) XR3-RED Single Six grip frame with complete hammer strut and mainspring assembly plus the trigger plunger and spring, (1) set walnut factory grips for the frame complete with grip screw and escutcheons and (1) Single Six 22 LR cylinder. The frame has about 80% original anodized finish and the cylinder has about 80 - 90% finish with handling marks and oxidation blemishes. The grips rate very good with light handling marks. Also included are the following parts for a Ruger Old Model flat gate Single Six: (1) XR3 grip frame with trigger plunger and trigger spring, (1) 5 1/2" barrel with an excellent bore and round front sight, (1) 22 LR cylinder, (1) hammer (flat faced), (1) base pin, (1) mainspring assembly complete with hammer strut and mainspring seat, (1) ejector rod housing, (1) ejector rod, (1) ejector rod spring, (1) ejector rod housing screw, (1) flat loading gate assembly, (1) trigger, (1) cylinder latch, (1) cylinder latch spring, (1) pawl, (1) base pin latch assembly (latch, nut and spring), (1) hammer pivot, (2) trigger / pawl pivots, (1) each pawl spring and plunger, (4) assorted screws for grip frame, (1) each gate detent plunger, spring and screw, (1) recoil plate, (1) each firing pin and spring, and (1) unidentified pin. These parts show light use and rate very good. (85694-16D3)
3258. **SMITH & WESSON PARTS LOT** This lot consists of (4) packets of parts for the Smith & Wesson 39 / 59 semi-auto pistols plus parts for other models and (2) boxes. Included are (1) S&W Model 15 (4" barrel - blue) box with no end label in like new condition, (1) S&W Model 10 (6" barrel - square butt - blue) box with no end label with light handling wear, (2) S&W model 39 / 59 9mm barrels with excellent bores, (4) S&W model 39 / 59 recoil spring guide assemblies, (4) S&W model 39 / 59 recoil springs and (1) set of diamond checkered round-butt factory grips for S&W J and I frame revolvers. The following parts are for a S&W N frame hand ejector probably the model 1917: (1) complete early hammer assembly with serrated sides that includes the hammer nose and sear assemblies, (1) smooth trigger assembly that includes the hand and trigger lever assemblies, (1) mainspring, (1) mainspring strain screw, (1) yoke (w/ serial #9530), (1) lanyard loop assembly, (1) yoke stop pin (spring is in yoke), (4) side plate screws (3 small round head and 1 large flat head), (1) bolt, (1) bolt plunger, (1) bolt plunger spring, (1) cylinder stop, (1) cylinder stop plunger, (1) cylinder stop plunger spring, (1) rebound slide, (1) rebound slide spring, (1) thumbpiece, (1) thumbpiece nut, (1) ejector rod, (1) ejector rod spring, (1) center pin, (1) center pin spring, (1) extractor rod collar, (1) set of early factory walnut grips with concave top and numbered "9530" along with grip screw and escutcheons, (1) cylinder stop screw and (1) unidentified pin. They are all in used but very good condition. (85694-16D4)
3259. **SMITH & WESSON, COLT AND CHARTER ARMS PARTS LOT** This lot consists of (6) packets of parts for various S&W, Colt and Charter Arms revolvers. The following parts are for various models of the S&W 32 Top-break revolver: (1) each: hammer with stirrup, trigger, sideplate (round-edge, nickel), top catch (#16517), triggerguard (round), extractor cam, front sear, mainspring, sear spring, extractor, extractor post, extractor spring, rear-sear, trigger spring, hand, hand stock (cannot determine right or left hand), barrel catch cam, barrel catch cam spring, joint pivot and screw, hammer stud nut, strain screw, barrel catch screw, set of diamond checkered hard rubber factory grips with S&W logo, grip screw and (4) unidentified pins. Also included is (1) set of K frame hand ejector diamond checkered walnut grips that rate good to very good with light handling wear and includes the grip screw (#147760). The following parts are for S&W K frame hand ejector revolvers: (1) each of the following parts: hammer assembly with stirrup and sear, thumbpiece, thumbpiece nut, bolt, bolt plunger, bolt plunger spring, smooth trigger assembly that includes the hand and trigger lever assemblies, mainspring, rebound slide, rebound slide spring, sideplate screws (3 small round head, 1 large flat head screw), cylinder stop screw, cylinder stop, cylinder stop plunger, cylinder stop plunger spring and early style target rear sight with leaf screw. The following parts are for numbered S&W K frame revolvers: (1) each of the following: hammer assembly with stirrup and sear, Magna trigger assembly that includes the hand and trigger lever assemblies, rebound slide, rebound slide spring, hammer block and a pair of sideplate screws (roundhead). The following parts are for a Colt New Pocket Double action revolver or similar: (1) each of the following: hammer assembly complete with firing pin and hammer strut, trigger, mainspring, ejector ratchet, rebound lever, latch (#541), hand assembly, safety lever, safety, bolt, bolt screw, latch pin assembly, crane lock, crane lock screws, grip screw, (2) sideplate screws, (2) assorted unidentified small springs and (2) assorted unidentified pins. The following are parts for a Charter Arms revolver and they include one each of the following: spur hammer with hammer pawl, trigger, nickel plated cylinder latch, mainspring, mainspring rod, mainspring seat, hand, cylinder stop, hammer block, crane screw, hammer screw, trigger spring, unidentified coil spring, (4) assorted screws and (5) assorted pins. All parts are in used but average about very good condition. (85694-16D5)
3260. **LOT OF ASSORTED RIFLE AND SHOTGUN PARTS** This lot consists of (29) parts. Included are (1) complete trigger plate assembly (trigger group), (1) right shell latch, (2) unidentified firing pins with hexagon firing pin bushing, (2) unidentified firing pins, (2) firing pins with split slot firing pin bushings and unidentified double coil mainspring with guide rod and seat. The following are for a Rossi revolver and include one each of the following: sideplate, hammer assembly with stirrup and sear, smooth trigger assembly that includes the hand and trigger lever assembly, rebound slide, rebound slide spring, thumb latch, bolt, mainspring, mainspring rod, mainspring swivel, cylinder stop, grip screw, hammer block, (4) sideplate screws, unidentified small coil spring and unidentified screw. The last item is a Redfield receiver sight assembly for a Model 1903 Springfield rifle (includes base and screws). (85694-16D6)

3261. **LOT OF REMINGTON NYLON 66 PARTS** This lot consists of (40) parts for a Remington Nylon 66 and similar rifles. Included are one each of the following parts: triggerguard, bolt assembly, action spring, action spring plunger, firing pin striker spring, striker spring sleeve, trigger complete, trigger assembly pin, bolt handle, safety thumbpiece, firing pin striker, barrel bracket, barrel support, sear, cartridge stop, cartridge feed insert, disconnecter insert & spring, ejector, sear spring, safety detent spring, safety detent ball, safety lever, (2) cover screws, magazine lock, cartridge stop spring, barrel lock screw, (9) assorted pins, (2) stock reinforcing bolts and (2) stock reinforcing nuts. All are in very good to excellent condition. (85694-16D7)
3262. **MIXED LOT OF WINCHESTER MODEL 12 AND OTHER MAKE AND MODEL FIREARM PARTS** This lot consists of (4) parts for various firearms. Included are (1) grip safety for a 1911A1 pistol or similar with light oxidation blemishing, (1) bolt assembly for an Enfield No. 4 Mk I that has been lightly cleaned with light oxidation blemishing, (1) Winchester model 12 adjusting sleeve and (1) Winchester model 12 trigger group. The trigger group appears fully functional but the finish is now gray / brown with minor surface pits and oxidation stains. (85694-16D8)
3263. **LOT OF SMITH & WESSON MODEL 59 PARTS** This lot consists of (14) packets of factory new parts for the Smith & Wesson Model 59 semi-auto pistol. Included are: (1) unmarked blue S&W factory box sized for a model 59 (light writing on cover), (5) drawbars (blue), (5) slide stop buttons (nickel), (1) slide stop assembly (nickel), (2) slide stop assemblies (blue), (5) magazine catches (nickel), (6) magazine catch nuts (nickel), (5) magazine catches (blue), (5) magazine catch nuts (blue), (3) magazine catch plungers (blue), (5) magazine catch plunger springs (blue), (1) insert (blue), (1) insert (nickel), (5) old style side plate assemblies (blue), (5) old style sideplates (nickel), (10) metal magazine buttplates marked "9mm / A / S&W" (nickel with light oxidation stains), (10) trigger insert pins (nickel with light oxidation stains), (10) trigger insert pins (blue), (5) sears (blue), (5) sear pins (blue), (12) sear springs (blue), (10) sear spring pins (blue), (5) slide stop buttons (blue), and (56) frame studs (blue). (85694-16D12)
3264. **LOT OF SMITH & WESSON MODEL 39 PARTS** This lot consists of (11) packets of factory new parts for the Smith & Wesson Model 39 semi-auto pistol. Included are: (1) unmarked blue S&W factory box sized for a model 39 (light writing on cover), (1) insert (blue), (1) insert (nickel), (4) drawbars (blue), (5) magazine catches (nickel), (6) magazine catch nuts (nickel), (4) complete sear assemblies (includes sear plunger, spring and pin) (blue), (5) sideplates (nickel), (5) slide stop buttons (nickel), (5) slide stop assemblies (nickel), (10) trigger insert pins (nickel), (10) metal magazine buttplates marked "S&W" (nickel), (2) slide stop assemblies (blue), and (6) magazine catches (blue). (85694-16D13)
3265. **LOT OF SMITH & WESSON MODEL 39, 52 AND 59 PARTS** This lot consists of (7) packets of excellent condition factory replacement parts for the Smith & Wesson Model 39, 52 and 59 semi-auto pistols. Included are: (41) trigger pins (factory #6031 - blue), (5) manual safeties (#6049 - blue), (24) stock screws (blue), (28) stock screws (nickel), (14) magazine catch nuts (#6040 - blue), (12) magazine catch plunger springs (factory #6042), (15) magazine catch plungers (#6041 - blue), (5) firing pins (factory #6019 - blue), (16) manual safety plungers (#6054 - blue), (17) manual safety plunger springs (#6079), (17) ejector depressor plunger (#6013 - blue) and (16) ejector depressor plunger springs (factory #6014). (85694-16D14)
3266. **LOT OF SMITH & WESSON MODEL 39 AND 59 PARTS** This lot consists of (15) packets of factory new parts for the Smith & Wesson Model 39 and 59 semi-auto pistols. Included are: (5) firing pin springs (factory #6022), (2) barrel bushings (#6005 - blue), (2) barrel bushings (#6005 - nickel), (4) barrel bushings (#6000 - nickel), (5) sear release lever (#6103 - blue), (5) ejector-depressor plunger spring (#6014), (5) ejector magazine depressor (#6015 - blue), (10) mainspring plungers (#6217 - blue), (5) mainsprings (#6149), (4) hammers with attached stirrup and stirrup pins (#s 6144, 6151, 6152 - blue), (12) slide stop buttons (#6081 - blue), (5) triggers (#6153 - blue), (2) sears (blue), (5) drawbar plungers (#6110), (5) drawbar plunger springs (#6111), (5) disconnectors with disconnecter pins (#6107 & 6108 - blue), (3) rear sight assemblies (#6057 - blue), (6) extractors (#6308 - blue), (11) extractor pins (#6078 - blue), (11) extractor springs (#6079) and (5) manual safeties (#6049 - nickel). (85694-16D15)
3267. **MIXED LOT OF REVOLVER PARTS** This lot consists of (5) packets of Smith & Wesson and Colt parts. Included are the following blued parts for a S&W J frame revolver: (4) trigger assembly to include the hand and trigger lever with related parts, (1) side plate (three screw), (3) bolts, (3) bolt plungers, (3) bolt plunger springs, (4) rebound assemblies, (4) rebound springs, (4) hammer assemblies to include the hammer nose and sear with related parts, (4) hammer blocks, (4) cylinder stops, (4) cylinder stop springs, (10) sideplate screws (four flat and six round head), (4) mainsprings, (4) stirrup and (4) mainspring rod swivels, (2) thumbpieces, (2) thumbpiece nuts and (1) flared flat latch thumbpiece. Also included are the following Colt D frame parts: (1) hammer assembly to include strut and stirrup with related parts, (1) trigger, (1) latch, (1) rebound lever, (1) hand assembly, (1) bolt with bolt spring, (1) mainspring, (1) safety, (1) safety lever, (1) latch pin assembly, (1) crane lock detent, (1) crane lock spring, (1) crane lock screw, (2) sideplate screws, (1) latch spring, (1) latch spring guide, (1) bolt screw and (1) possible rebound lever pin. All parts are used but rate very good plus overall. (85694-16D16)
3268. **LOT OF IVER JOHNSON MODEL 56A PARTS** This lot consists of (2) packets of parts for an Iver Johnson model 56A Starter or similar model revolvers. The parts are used but rate about very good overall. Included are the following parts: (3) triggers, (3) hammers, (1) set of smooth plastic grip panels, (1) triggerguard (blue), (3) levers with lever springs, (7) triggerguard pins, (2) small unidentified pins or plungers, (1) mainspring adjusting screw, (2) mainsprings, (3) mainspring plungers, (2) center pins, (2) loading gates (blue), (3) sears (two with sear springs), (3) trigger springs, (3) lifters, (1) center pin catch assembly (screw, nut and spring), (3) hammer screws, (1) loading gate screw, (2) possibly cylinder friction stud springs and (2) grip screws (one round head and one flat head). (85694-16D17)
3269. **LOT OF PARTS FOR BUFALO SEMI-AUTO PISTOLS** This lot consists of (2) bags of parts for a Gabilondo y Urresti, Eibar, Bufalo semi-auto pistols. Included are the following blued parts for a 32 ACP Bufalo semi-auto pistol that rate good to very good: (1) recoil spring, (1) set of hard rubber grips with Bufalo head and grip screws with the left panel broken in two and repaired in the past, (1) 32 ACP barrel with slightly frosted bore and numbered 782, (1) grip safety numbered 782, (1) barrel bushing, (1) magazine catch, (1) magazine catch spring, (1) sear numbered 782 with sear spring, (1) hammer numbered 782, (1) extractor, (1) thumb safety, (1) disconnecter numbered 782, (1) firing pin, (1) mainspring, (1) possible hammer spring base, (1) possible hammer spring follower, (5) assorted pins and (3) assorted springs. The following blued parts are for a 25 ACP Bufalo semi-auto pistol and they rate good to very good: (1) slide assembly with firing pin and extractor numbered 736, (1) 25 ACP barrel with an oxidized and pitted bore numbered 736, (1) grip safety, (1) set of hard rubber grip panels with Bufalo head, (1) unmarked magazine, (1) magazine release, (1) hammer numbered 736, (1) sear with sear spring, (1) recoil spring assembly, (1) possible hammer spring, (1) possible hammer spring follower, (1) disconnecter numbered 736, (4) assorted pins and (3) assorted springs. (85694-16D18)
3270. **LOT OF CHARTER ARMS AND BRAZILIAN INA TIGER REVOLVER PARTS** This lot consists of (2) bag of parts. Included are the following blue parts for a Charter Arms Undercover revolver: (1) set of walnut grips with Charter Arms medallion and screw that rate good to very good, (2) five shot 38 Special blue cylinder assemblies with extractor star, ejector rod and crane plus related springs and parts and (3) blue grip frames. These parts show light wear with 80 - 95% finish remaining along with handling marks and some oxidation staining (mostly on one cylinder). Also included are the following blued parts for a Brazilian INA Tiger revolver: (1) 38 Special cylinder with extractor star and ejector rod, (1) crane, (1) sideplate, (1) set checkered wood grips with INA medallion, (1) hammer assembly with nose and sear, (1) serrated trigger with hand and trigger lever, (1) bolt, (1) mainspring, (1) mainspring stirrup, (1) mainspring rod swivel, (1) rebound slide, (1) rebound slide spring, (1) cylinder stop, (1) cylinder stop spring, (1) thumbpiece and (6) assorted screws. (85694-16D19)

3271. **LOT OF MAUSER HSC PARTS** This lot consist of (2) bags of blue finish parts for the Mauser HSC semi-auto pistol in 380 ACP that are used but rate about very good. They appear to be mostly post 1945 parts. Included are: (3) sets of walnut grips that rate very good except one pair rates about good, (1) Mauser marked magazine with finger extension, (6) grip screws, (2) 380 ACP barrels with excellent bores, (2) recoil springs, (3) hammers, (2) backstraps, (3) triggers, (2) takedown pins, (2) takedown pin springs, (3) firing pins, (3) sears, (3) sear springs, (3) hammer spring assemblies (strut, hammer spring and magazine catch), (3) magazine safeties, (2) new style trigger bars, (1) old style trigger bars, (1) old style trigger spring, (2) new style trigger springs, (3) safety catches, (2) cartridge feed cams approximately .9" o.a.l., (1) cartridge feed cam approximately .91" o.a.l., (3) extractors, (1) disconnecter, (1) extractor spring, (3) trigger pins, (3) hammer hinge pin (two different styles), (6) assorted pins, (2) unidentified hollow pins, (9) assorted springs and (6) plungers. (85694-16D20)
3272. **MIXED LOT OF BROWNING AND MAUSER HANDGUN PARTS** This lot consists of (3) bags of parts for the Browning Hi-Power, Mauser model 1910/34 and Browning model 1906 vest pocket pistol. Parts are used but rate good to very good. Included are the following blued Browning High Power parts: (1) set of walnut grips, (2) grip screws, (1) recoil spring, (1) hammer assembly – old style round-spur (includes hammer, strut and spring), (1) slide stop, (1) trigger assembly (with trigger spring), (1) firing pin, (1) firing pin spring, (1) round-extractor, (1) magazine latch, (1) safety, (1) recoil spring guide assembly (with slide stop retaining ball), (1) ejector, (1) trigger lever, (1) firing pin retaining plate, (1) sear, (1) sear pin, (1) trigger pin and (1) sear spring with button. Also included are the following blued parts for the Mauser model 1910/34: (1) set of one-piece grips that have split along the back but should be repairable, (1) magazine catch, (1) trigger bar, (1) safety catch, (1) sideplate with "Mauser" in an oval banner, (1) trigger, (1) ejector / hold-open numbered 2351, (1) trigger bar spring, (1) safety catch, (1) takedown rod catch, (1) trigger spring, (2) grip screws and (1) disconnecter. Also included are the following blued parts for a Browning model 1906 vest pocket pistol: (1) transfer bar, (1) firing pin, (1) firing pin spring, (1) cocking indicator assembly, (1) safety, (1) trigger with spring, (1) magazine catch, (1) extractor, (1) magazine safety, (1) coil magazine catch spring, (1) sear, (1) sear spring, (1) unidentified spring and (3) assorted pins. (85694-16D21)
3273. **LOT OF MIXED PARTS** This lot consists of (4) bags of parts. All parts are used and rate from good to very good. Included are: (1) Colt 1911A1 barrel that has been poorly cut to 3 1/2" (should make a good demonstrator for a basic pistol or women on target type courses) and (1) nickel plated 22 LR High Standard cylinder with, attached crane, 1 3/4" long exposed ejector rod and no ejector rod return spring. The following blue finished parts appear to be for a Colt Model 1903 Pocket Hammerless semi-auto pistol: (1) trigger (with attached bow), (1) mainspring, (1) hammer with hammer roll and pin, (1) slide lock / safety, (1) sear (appears to be newer style for use about above serial #416,000), (1) disconnecter, (1) magazine catch and (2) assorted screws. The following are blued parts for a Walther PP / PPK and similar pistol: (1) safety catch, (1) firing pin, (1) firing pin spring, (1) cartridge indicator pin, (1) unmarked Walther 3 5/16" 32 ACP barrel with an excellent bore, (1 each) ejector, ejector plunger, ejector spring, safety catch plunger and (1) cartridge indicator spring. The following are for Armi Galesi semi-auto 22 R.F. pistol: (1) pair of faux ivory grips featuring "AG" medallions and grip screws with light to moderate handling and soiling, (1) trigger, (1) recoil spring, (1) firing pin, (1) striker spring, (1) ejector, (1) magazine catch, (1) safety catch, (1) trigger lever, (1) sear, (1) slide bolt, (1) possible sear spring and (5) assorted pins. The following are for unidentified European vest pocket semi-auto pistol: (1) 25 ACP barrel with an excellent bore, (1) recoil spring, (1) recoil spring guide rod, (1) firing pin, (1) firing pin spring and (1) pin. (85694-16D22)
3274. **MIXED LOT OF S&W MODEL 41 ACCESSORIES AND OTHER UNRELATED FIREARM PARTS.** This lot consists of (3) bags of parts. Included are: (2) 1/2-ounce Smith & Wesson model 41 aluminum barrel weights with screws, (2) 1 1/4-ounce Smith & Wesson model 41 steel barrel weights with screws, (3) Smith & Wesson model 41 aluminum muzzle brakes and (2) Smith & Wesson model 41 false muzzles, all are in excellent condition. Also included are the following mixed used parts that rate good to very good: (1) Navy Arms .44 cal. part round / part octagon barrel for a percussion revolver with an near excellent bore exhibiting a few light oxidation blemishes and includes loading lever and ram assembly, (1) model 1911A1 barrel with a frosted bore and light oxidation staining on the exterior, (1) blued crane (yoke) for a Smith & Wesson J frame revolver, (1) Pachmayr grip adapter for Colt Police Positive and similar size frame and (3) 22 short cylinders possibly for an Iver Johnson or similar starter pistol. (85694-16D23)
3275. **LOT OF SMITH & WESSON PARTS** This lot consists of (3) bags of parts. These parts are used and rate about very good overall. Included are the following blued parts for a Smith & Wesson Model 61 Escort pistol: (2) sideplates, (2) sets of woodgrain plastic grips, (2) slide assemblies complete with extractor, firing pin and their related parts, (2 each of the following): mainspring, stirrup, mainspring retainer, triggers, trigger bars, manual safety levers, sears, magazine catch (a.k.a. sear springs), disconnectors, front sights, magazine catches, ejectors, hammers, recoil spring and recoil spring guide, (3) assorted springs, (10) assorted pins and (12) assorted screws. The following are blued S&W K frame parts: (1) sideplate (three screw), (1) 38 Special cylinder assembly to include the extractor star, ejector rod and their associated parts, (1) crane (yoke), (1) set checkered walnut target grips with screw and silver S&W medallions but rates only about good. (85694-16D24)
3276. **COLT PARTS LOT** This lot consists of (5) bags of parts for Colt 25 auto, D frame, I frame and model 1917. All parts are used and rate good to very good with wear, occasional oxidation blemishes and scratches. Included are the following blued parts for the Colt model 1908 Vest Pocket semi-auto pistol and Colt Automatic Caliber 25 pistols: (1) Colt Automatic Caliber 25 slide with extractor and firing pin plus their related parts, (1) model 1908 25 ACP barrel with a lightly frosted bore, (1) set of model 1908 checkered walnut grips with screw and silver Colt medallions, (1) recoil spring guide with spring loaded plunger, (2) recoil springs, (1) recoil spring guide without plunger, (1) model 1908 sear spring, (1 each model 1908 parts): grip safety, connector, slide lock safety, magazine catch, sear, (1) firing pin, mainspring, (1) mainspring guide, extractor, (2) assorted springs and (4) assorted pins (one attached to one of the previous springs). The following blued parts are for a Colt Woodsman: (1) firing pin, (1) firing pin spring, (1) pre-war extractor, (2) unidentified screws and (1 each) unidentified plunger and spring. The following blued parts are for a Colt D frame revolver (ie. Detective Special and similar): (1) hammer assembly with strut, stirrup and their related parts, (1) smooth trigger, (1) rebound lever, (1) old style safety assembly, (1) safety lever, (1) mainspring, (1) latch, (1) hand assembly, (1) bolt, (1) bolt screw, (1) old style crane lock, (1) old style crane lock screw, (2) sideplate screws, (1) unidentified spring and (2) unidentified pins. The following blued parts are for a Colt I frame revolver (i.e. Officers Model and similar): (1) hammer assembly with strut, stirrup and their related parts, (1) checkered trigger, (1) rebound lever, (1) safety assembly, (1) safety lever, (1) mainspring, (1) latch, (1) hand assembly, (1) bolt, (1) bolt screw, (1) old style crane lock, (1) old style crane lock screw, (2) sideplate screws, (2) unidentified springs and (2) unidentified pins. The following blued parts are for a Colt 1917 revolver: (1) hammer assembly with strut, stirrup and their related parts, (1) smooth trigger, (1) rebound lever, (1) safety assembly, (1) safety lever, (1) mainspring, (1) latch, (1) latch pin, (1) hand assembly, (1) bolt, (1) bolt screw, (1) old style crane lock, (1) old style crane lock screw, (2) sideplate screws, (2) unidentified springs and (1) unidentified pin. (85694-16D25)

3277. **LOT OF HIGH STANDARD PARTS FOR DURAMATIC, DOUBLE NINE AND D-101 DERINGER** This lot consists of (4) bags of used parts that rate very good with select items showing more handling wear or oxidation. Included are the following blue finished parts for a High Standard Duramatic 101 and similar pistols: (1) 6 1/2" barrel with front sight and an excellent bore, (1 each of the following parts) triggerguard, magazine, striker, striker spring, striker sleeve, barrel screw, trigger with trigger spring, magazine catch, safety, barrel nut lock washer, drawbar, ejector, extractor, sear, sear plunger, sear spring, safety detent, grip bolt, (2) unidentified screws, (2) unidentified washers, (4) assorted pins (solid and roll) and (2) springs (one is an extractor spring with an attached plunger). The following nickel plated parts are for a High Standard Double Nine revolver: (1) 5 1/2" barrel with an excellent bore and (1) ejector rod housing less ejector and spring (attached to barrel). The following parts are for a blued High Standard D-101 & DM-101 derringer or similar pistols: (1 each of the following parts): set of smooth black plastic grips, grip housing, cover plate, hammer spring, hammer strut plate, hammer strut washer, hammer strut; (1) hammer assembly complete with ratchet, striker and hammer pawl plus their related parts, (1) 22 Magnum barrel assembly with a near excellent bore exhibiting minor oxidation stains, and it includes the latch and extractor assemblies (1) trigger, (1) actuator, (1) hammer safety block spring, (1) barrel pivot pin, (4) unidentified screws, (30 unidentified pins and (2) unidentified springs. Also included are (1) weight (1.5 ounce) for a High Standard Victor model with (5) screws in good condition. (85694-16D26)
3278. **LOT OF ASSORTED REVOLVER PARTS FOR LLAMA COMANCHE, CHARTER ARMS, S&W AND TAURUS** This lot consists of (4) bags of used parts for various revolvers that rate from good to mostly very good, exhibiting light handling marks and the occasional oxidation staining. Included are: (1) unidentified aluminum small frame size revolver grip frame, in-the-white, (1) blue finished .38 Special 5 shot cylinder assembly for a S&W Model 36 that includes the ejector star, ejector rod and related parts, (1) nickel plated 5 shot .38 Special cylinder assembly for Charter Arms Undercover or similar revolver and includes the crane, ejector rod, ejector star and related parts, (1) unidentified 5 shot nickel plated bored through cylinder for .32 caliber ammunition (32 S&W is too long) that measures 1.129" in diameter x 1.187" long with no cut for extractor star and (1) six shot .44 cal. percussion cylinder for Colt model 1860 Army with Italian proofs. Also included are the following blued parts for a Llama Comanche: (1 each of the following parts): 4" ventilated rib 357 Magnum barrel with front sight that has an excellent bore, six shot 357 magnum cylinder, crane, sideplate, (1) hammer assembly with stirrup, sear and related parts, (1) trigger assembly with hand, trigger lever and related parts, (1 each of the following parts): rebound slide, rebound spring, safety, bolt, bolt spring, bolt spring plunger, mainspring, cylinder stop, adjustable rear sight assembly, thumb latch, thumb latch screw, (2) rear sight elevation springs, (3) unidentified pins, (3) sideplate screws, (1) strain screw, (1) firing pin nose, (1) firing pin bushing, (1) bolt spring, (1) bolt spring plunger and (2) unidentified screws. Also included are the following nickel plated parts for a British Bulldog revolver: (1) hammer with sear, (1) trigger assembly, (1) mainspring, (1) crane assembly with screw and center pin, (1) hand, (3) assorted screws, (3) unidentified assorted parts. Included are the following blue and nickel plated parts purportedly for a Taurus revolver: (2) hammers with sear and firing pin nose (both for different models), (2) triggers with trigger lever (both for different models), (2) bolts, (2) bolt springs, (2) bolt spring plungers, (2) hands (both for different models), (2 each) thumb latches and thumb latch screws (one nickel and one blue and both for different models), (2) mainsprings (both for different models), (2) mainspring center pins (both for different models), (1) mainspring bushing, (2 each) rebound slide and rebound springs (both for different models), (2) cylinder stops, (2) transfer bars (both for different models), (10) assorted screws (3 nickel plated), (2) spring with plungers and (2) unidentified and slightly different shaped parts. (85694-16D27)
3279. **SMITH & WESSON MODEL 41 BARREL LOT** This lot consists of a single S&W Model 41 5 1/2" heavy barrel with an excellent bore. The barrel is complete with factory front and rear sights. It retains about 99% blue with a few light scratches. (87997-31A)
3280. **SMITH & WESSON MODEL 41 COUNTER WEIGHT SET LOT** This lot consists of a single S&W Model 41 counterweight set. Included are the main 7 1/4 oz. upper section, 4 1/4 oz. middle section and the 4 oz. lower section with all necessary screws to install them. It retains about 99% blue with a few light scratches. The weights are ready to install, adjust and start shooting. (87997-31B)
3281. **THOMPSON CENTER CONTENDER BARREL LOT** This lot consists of a single Thompson Center Super 14, 14" barrel chambered for 45 Winchester Magnum with an excellent bore. The barrel includes a fully adjustable factory rear sight and serrated post front sight on a Williams sight ramp. The barrel retains about 99% blue with light scratches and operational marks. (87874-12A)
3282. **THOMPSON CENTER CONTENDER BARREL LOT** This lot consists of a single Thompson Center Super 14, 14" barrel chambered for 45 Colt / 410 Bore with 3" chamber and an excellent bore. The ribbed barrel includes a fixed factory rear sight and silver bead front sight. The barrel retains about 99% blue with light scratches and operational marks. The barrel includes the removable choke. (87874-12B)
3283. **SHOTGUN OVER/UNDER BARREL LOT.** This lot contains one Charles Daly over/under barrels serial #S381776, 28" ventilated rib barrels choked full and modified having bright excellent bores. The barrels retain 98% original blue finish having some scattered scratches and light handling marks. The checkered walnut forend rates excellent having just a few extremely light handling marks. The barrels are in excellent condition. (177723-9C)
3284. **BROWNING BARREL LOT.** This lot contains one Browning auto-5 deer rifle barrel. The barrel is a 12 ga, 24" plan barrel with rifled sights, Invector choked and having a bright excellent bore. The metal surfaces retain 97% original blue having loss on the belly along with having some scattered handling marks. (7723-9A)
3285. **MOSSBERG BARREL LOT.** This lot contains one Mossberg 500 barrel. The barrel is a 12 ga, 24" slugster barrel choked cylinder having a bright excellent bore. The metal surfaces retain 98% original blue finish having some scattered light handling marks. This barrel is in excellent condition. (177758-21A)
3286. **BROWNING BARREL LOT.** This lot contains one Browning Auto-5 barrel. The barrel is a 12 ga, 24" barrel choked modified having a bright excellent bore. The metal surfaces retain 98-99% original blue finish having some slight loss due to handling. The barrel is fitted with rifle sights, unfortunately the rear sight is missing its leaf. (177723-9B)
3287. **MOSSBERG BARREL LOT.** This lot contains one Mossberg 500 barrel. The barrel is for a 12 ga, 18 1/2" barrel choked cylinder having a bright excellent bore. The metal surfaces retain 98% original blue finish having loss due to some scattered light handling marks. The barrel is fitted with a front post rear sight and a sporting leaf rear. (177758-21B)
3288. **ITHACA BARREL LOT.** This lot contains one Ithaca model 37 barrel. The barrel is for a 12 ga, 28" plain barrel choked modified having a bright excellent bore. The barrel retains 96% evenly thinning original blue finish having light operational use and some light specks of surface oxidation. The barrel is fitted with a fiber optic front bead. (177785-13)
3289. **REMINGTON BARREL LOT.** This lot contains one Remington 870 barrel. This barrel is a 20 ga, 23" ventilated rib choked modified having a bright excellent bore. The metal surfaces retain 98% original blue finish having loss due to scattered handling marks. (177471-7)
3290. **REMINGTON BARREL LOT.** This lot contains one Remington 870 DGRS barrel. This barrel is a 20 ga, 22" plain smooth bore barrel with rifled sights having a bright excellent bore. The metal surfaces retain 98% original blue finish displaying some light handling marks. (177665-2)
3291. **CBC BARREL LOT.** This lot contains one CBC 28" plain barrel choked modified having a bright excellent bore. The metal surfaces retain 97% original blue finish having slight loss due to handling and scratches. (177471-7)

3292. **MARLIN BARREL LOT.** This lot contains one Marlin model 24 barrel. This barrel is a 12 ga, 30" plain barrel choked full having a bright excellent bore. The metal surfaces retain 85% original blue finish displaying some scattered scratches and loss due to surface oxidation. The magazine tube has toned to a gray patina having loss due to operational use. The grooved walnut forend rates very good displaying scattered dings and scratches along with having a 3" crack on the left side. (177471-7)
3293. **L.C. SMITH BARREL LOT.** This lot contains one L.C. Smith field grade barrels. The barrels are 12 ga, 26" solid rib barrels choked cylinder and cylinder with bright excellent bores. The barrels are numbered "204625". The barrels have toned to an even brown patina having some scattered freckles and light oxidation stains. The checkered walnut forend rates about very good as lightly refinished displaying some scattered dings and scratches and having lightly worn checkering. (177015-16)
3294. **MOSSBERG BARREL LOT.** This lot contains one Mossberg 500 barrel. The barrel for a 12 ga, 17 3/4" shortened barrel, choked, cylinder having a bright excellent bore. The metal surfaces have been painted to a black and green camouflage pattern having some scattered scratches. All NFA restrictions apply if one chooses to fit this barrel to a firearm. (177342-2)
3295. **1919 BROWNING ACCESSORY LOT** This lot consists of a 1919 tripod and traverse and elevation unit. The tripod retains 95% of a later applied black enamel finish showing scattered scratches and silvering. The front tripod leg moves freely and will need mechanical attention to properly tighten and the front of tripod has a brass plaque which is marked "HMR/MOUNT, TRIPOD CAL. 30/M2/THE BINGHAM STAMPING CO. 1942". The T&E unit appears to be complete and shows a fading arsenal parkerized finish but appears functional. (206857-26)
3296. **ACCESSORY/CASE LOT** This lot consists of two long gun soft cases, four 223 Remington Snap Caps, an AR-15 combo tool, an AR-15 A2 style pistol grip and an Arsenal AK pistol grip. The first case is a black Bulldog tactical style case which measures 35"x11" and it has four magazine pouches and the case is in very good condition overall showing a few light stains. The second case is a green Allen case that measures "46x9 1/2" and it is in very good condition overall with perhaps a few light dirt stains. The four 223 Remington Snap Caps are of Triple K manufacture and they appear to have seen little use and they are housed in a Triple K box. The AR-15 combo tool is marked "C.A.T. M-4" and shows some light oxidation staining. The tool includes its original instruction manual and it lists its five functions which are: 1. Bolt Cleaning/Scrapping, 2. Firing Pin Cleaning, 3. 1/4" Hex Head, 4. Patch Hole and 5. Carrier Cleaning/Scrapping. The AR-15 A2 style black plastic pistol grip shows light wear and does not include any screws or other hardware. The black Arsenal made AK synthetic plastic pistol grips also appears to have seen little use and lack a screw or any other hardware. (207773-1A)
3297. **M1 CARBINE ACCESSORY LOT** This lot consists of a CMP hard case, two M1 Carbine magazines, a manual and a dual magazine pouch. The gray CMP hard case is in excellent condition and it measures 53.25" in length, 4.125" in width and 12" in height. The two M1 Carbine magazines are 15 rounds in capacity and are in new in the wrapper so we are unable to determine their manufacturer. The USGI style manual is in very good condition with scattered light wear, it is dated March 17th, 1942 and it is marked "Technical Bulletin No. 23-7-1". The dual magazine pouch appears to be original and it is maker marked "BISCANYNE TENT AND AWNING INC/1943" and it is in very good condition overall showing light wear. (207847-3A)
3298. **LOT OF GUN ACCESSORIES** This lot includes four items to include three sets of grips and a nipple wrench. First is an unmarked "L" shaped combination nipple wrench similar in design to that of a Colt with small straight turn screw at one end. Second is a set of smooth walnut grips for a Tipping & Lawden pistol that have been lightly sanded and had an oil rubbed finish added. Third is a pair of walnut grips likely for a Manhattan or American Standard Tool company 22 caliber pocket revolver that have much of their original finish with some light dings and chipped edges. Fourth is a set of bone grips likely for a Manhattan style 22 caliber revolver. The grips are a natural color with dark undertones and have tight cracks that do not flex along the panel bottoms. The brass screw escutcheons are a dark ochre color and one has popped out but remains present. All of these items remain in very good condition. (106229-A23DA) [Elliot Riggs Collection]
3299. **LOT OF 1911 BARRELS** This lot includes two 5" government model barrels with gray phosphate finish. The barrels are marked simply "45 Auto" and one comes with a barrel link the other does not. Both barrels have bright, about very good bores and remain in excellent condition. (107373-5)
3300. **LOT OF M1 CARBINE ACCESSORIES** This lot includes a G.I. issued muzzle break and flash hider set for an M1 Carbine rifle. The items are in a sealed plastic bag and appear to have a phosphate finish and are in excellent condition. (107546-154A)
3301. **LOT OF M1 CARBINE ACCESSORIES** This lot includes a G.I. issued muzzle break and flash hider set for an M1 Carbine rifle. The items are in a sealed plastic bag and appear to have a phosphate finish and are in excellent condition. (107546-154B)
3302. **PARA-ORDNANCE P10 PARTS** This lot includes several items for a P10-45 compact pistol. The parts include a satin stainless finish factory slide stop and grip safety, black plastic trigger, magazine release and checkered backstrap. Also included with this lot are three double stack blued 45 ACP magazines that will work with the P10-P16 series pistols. These parts and magazines are in excellent condition. (108002-34A) [Charles Hadley Collection]
3303. **HK 91 PARTS LOT** This lot includes two items for the G3 series rifle to include a hard rubber butt pad that has overall light handling marks and remains in excellent condition and a German made claw mount scope base with a dark gray parkerized finish in excellent condition. (107885-5A)
3304. **THOMPSON M1A1 PARTS KIT** This lot includes multiple parts for the beloved Tommy Gun. The parts include: buttstock, pistol grip, forend pistol grip (aftermarket), barrel, bolt assembly, trigger group, numerous internal parts and two torch-cut sections of the receiver. This parts kit includes some overall very good to excellent parts included. (107885-16)
3305. **LOT OF HK ACCESSORIES** This lot includes two manuals and three sets of grips. First are two P9S manuals complete with fold-out exploded parts diagram and a set of wrap around checkered hard plastic grips with HK logo at lower left side with lightly rounded points on the diamonds. Second are two Pachmayr Signature Model checkered rubber grips for a P9S pistol both in original boxes. These items are in excellent condition. (10799-28)
3306. **LOT OF HK PISTOL PARTS** This lot includes a variety of small parts and sights for the USP series pistol to include: (5) safety levers, (2) sets of spare sights, (13) small sleeve pins and a bag with several small internal parts. The items are in excellent condition. (107999-30D)
3307. **HK ACCESSORY LOT** This lot includes a like-new in the package scope mount for a USP series pistol. The mount comes with all needed hardware and instruction sheet and is in excellent condition. (107999-30B)
3308. **LOT OF SMITH & WESSON PARTS** Fourteen items total: (1) 3" nickel finish 22 caliber barrel with lightly frosted, about good bore. This nickel barrel appears to be refinished and remains in good overall condition; (2) 7 shot 22 caliber cylinders, one nickel finish the other blue. The blue cylinder retains about 35% blue with overall moderate amounts of oxidation and staining with dark oxidized chambers. The nickel cylinder shows several spots of flaking finish with areas of oxidation staining and also has dark oxidized chambers; (2) seven shot 22 short rimfire cylinders likely for a Smith & Wesson No.1 third issue revolver. The first cylinder is nickel plated with heavy flaking and oxidation staining present. The chambers are dark with some showing areas of oxidation and light pitting. The second cylinder is mostly a dull gun metal gray with overall light fine oxidation staining. The chambers are dark with several having spots of light pitting; (1) hammer likely for a similar revolver with overall oxidation staining and trace amounts of blue finish left in protected areas; (2) unidentified triggers, one is a spur trigger and the other is a folding trigger with (2) machine screws and (3) other related parts; (1) blued 4" Regulation Police barrel with a bright excellent bore. The barrel retains 95% blue finish with crisp barrel markings. The barrel is marked with "Smith & Wesson" along the left side and "Regulation Police / 38 S & W CTG" along the right and has a two-line address with patent dates along the top. The locking bolt assembly is missing and the pinned barrel remains in near excellent condition. All items are in good overall condition. (1X107244-25DAA)

3309. **REMINGTON MODEL 742 WOODMASTER RECEIVER ONLY** serial #6901186. Completely stripped receiver retaining 95-98% original blue with a few specks of light oxidation staining, the loss primarily along the four drilled and tapped holes on the top of the frame from prior scope base installation and light contact wear along the interior. (3X57428-1)
3310. **LOT OF COLT PARTS EIGHT ITEMS FOR MODEL 1878 DA REVOLVERS:** (1) trigger that is mostly a deep brown patina with slivers of dull gun metal gray along the contact points and high edges with spots of oxidation along the face. It does however remain in overall very good condition; (2) trigger with bright nitre blue finish with areas of silvering along the high edges in overall excellent condition. (2) stripped trigger saddles that are mostly a plum-brown color, also in excellent condition; (1) blue finished trigger with slivers of dull gun metal gray along the contact edges and in near excellent condition; (1) nickel plated trigger that is numbered "484" and has a small area of flaking present near the top loop and remains in near excellent condition; (1) complete trigger saddle with an overall brown patina with some light silvering along the leading edge but remains in overall very good condition. (1X107244-25DP)
3311. **LOT OF PARTS AND TOOLS** Nine items total: (2) Winchester steel forend caps. The first cap is a blued Model 63 forend cap. The cap retains 90% blue with some light oxidation staining on the inside with several light scratches and remains in very good condition. Second is a forend cap for a Pre-'64 Model 94 lever action rifle that remains in-the-white with overall patches of fine oxidation staining but remains in good to about very good overall condition; (3) "T" handle nipple wrenches. The wrenches are unmarked and likely for use on percussion rifles. The bodies are blued and the handles are in-the-white, each shows varying levels of finish and amounts of oxidation staining; (2) Proto key-shaped flat head screwdrivers. The items in this lot are in very good overall condition; (1) first generation Single Action Army barrel numbered "4800". The barrel now measures 4 3/4" and has been cut from the back and the forcing cone has been removed. The barrel has the italic long single line address and has a good lightly pitted bore. The barrel retains 85% blue with several light scratches and areas of light fine oxidation staining present. There is an additional drilled and tapped hole located forward of the ejector rod stud well and the barrel remains in good overall condition; (1) 2 3/4" in-the-white barrel with bright very good bore likely for an Ortgies 25 ACP pistol. The barrel has several small patches of light fine oxidation staining and remains in very good overall condition. (1X107244-25BDI)
3312. **LOT OF REVOLVER PARTS** Four items total: (2) sets of smooth walnut grips similar in shape and design to that of a Stevens Tip Up pistol. The panels have light handling marks and are pencil-numbered with no matching numbers; (2) unmarked and unnumbered back straps likely for a Model 1860 Army revolver. The first one is mostly a blue brown patina and the other is toning toward a plum color and both remain in very good condition. (2X107244-25BU)
3313. **LOT OF CYLINDERS** Four total: (1) in-the-white steel five shot cylinder likely for a Smith & Wesson Model 49 or similar revolver. The cylinder has a nominal length of 1.53" and remains in excellent condition; (1) blued cylinder in 32-20 for a Colt Army Special revolver. The cylinder retains about 70% blue with overall light scratches, scattered patches of oxidation and staining with a couple spots of light pitting too. The chambers are dark but remain smooth and a partial ejector rod assembly is present. This is an about good condition lot; (1) unmarked 6 shot blued cylinder in 45 Colt. The cylinder has nominal measurements of 1.62" and 1.70". The cylinder stops are in a Smith & Wesson pattern and interestingly the back edge of the cylinder has 1/8"x1/16" ring milled in it. The ratchet is worn and there is a faint turn ring present. The cylinder remains in overall good condition; (1) Smith & Wesson nickel finish N frame cylinder in 38 Special. The cylinder is near half covered in oxidation and most of the nickel has turned cloudy. There are moderate amounts of pitting scattered overall including light amounts at the tops of the chambers. The cylinder remains in fair to about good condition. (1X107244-29G)
3314. **SMITH & WESSON BARREL** This lot includes a nickel finish 2" 38 caliber barrel with bright excellent bore. This is a standard barrel likely for a model 64 revolver. There are faint tooling marks along either side and the barrel remains in near excellent condition. (2X107494-14D)
3315. **LOT OF 1903 SPRINGFIELD BOLT PARTS** This lot includes two bolt bodies for a Model 1903 rifle. The first one is in-the-white with overall light fine oxidation staining. The second one retains much of its black enamel finish with what appears to be a repair to the handle. These items are in good to very good overall condition. (3X107023-17M)
3316. **CUSTOM GRIPS FOR HIGH STANDARD 103 SERIES** This lot consists of a set of unmarked walnut grips that appear to be for a Herrett Automatic Target Gun model. These grips are checkered with a thumb and palm rest in near excellent condition. There are a series of very small dings on the base of the right panels palm swell that are the only marks found. The grips are sized to fit the High Standard 103 and similar series pistols. (1X86945-8B)
3317. **LOT OF ACCESSORIES** This lot includes two aftermarket accessories: First is a MSAR P/N 218 sight rail with screws and wrench, second is an unmarked swivel stud with screws for use on a Picatinny rail system. Both items are in excellent condition. (3X104427-104A,131A1A)
3318. **HOGUE GRIPS FOR K FRAME SMITH & WESSON REVOLVER** This lot consists of a single set of smooth hardwood finger groove Hogue Monogrips in excellent condition. The wood appears to be pau ferro and the grips include the frame stirrup and screw. The perfect grip for your favorite "K" frame. (1X87778-2A)
3319. **REMINGTON PARTS LOT** This lot consists of a Remington 1100 action bar assembly with forend support, an 1100 hammer, an 1100 action bar assembly, a shell catcher which shows some oxidation, and an 1100 release trigger assembly with a shelf lifter. The trigger assembly retains 97% blue finish with some operational wear and a couple light dings on the left side of the triggerguard. (1X206643-10A)
3320. **1903 SPRINGFIELD SPARE PARTS KIT AND CONTAINER** This lot contains a correct walnut 1903 Springfield container that houses an original extractor, striker and firing pin. The walnut container rates very good showing a few light dings, handling marks and a 1 3/4" crack. A great addition to any military collection. (1X207657-237)
3321. **STOCK LOT** Three total: (1) smooth pistol grip buttstock for a Savage 99 rifle. The walnut stock measures 17" overall and shows spots of flaking in the varnish its entire length. There are several light handling marks and the wooden pistolgrip cap has been broken off leaving a small chip, and the dowel it was held in place with, exposed. The stock is devoid of any hardware and remains in good overall condition; (1) Monte Carlo pistolgrip stock for a Savage 99 rifle. The buttstock measures 16 3/4" overall with raised left side shadowline cheek piece. The buttstock is devoid of any hardware and appears to have been lightly cleaned with a few light impressions and handling marks remaining; (1) semi-inletted walnut buttstock and forend for a lever action rifle. The straight grip buttstock measures 13 1/4" with a crescent style butt and has been partially inletted. The semi-inletted forend measures 10" overall and is stenciled in ink along the barrel groove "39 Mar" possibly meaning this is a semi-inlet stock for a Marlin Model 39. (107023-3D)
3322. **LOT OF GUN STOCKS** This is a lot of two rifle stocks beginning with a Herter's Model U9 that measures 29 1/2" in overall length. The classic style walnut stock rates very good to excellent, retaining about 95% finish with scattered handling marks and smudges, including a 4" white area on the left side. The stock features diamond shaped maple inlays on each side and a ventilated rubber recoil pad. The other one is a factory Weatherby Vanguard VGX measuring 32" and retaining about 97% finish. There is a crack through the wrist, stock webs and up to front screw hole bringing the overall rating to about good. Featured are rosewood forend and pistolgrip cap and rubber recoil pad. (3X76600-10A)
3323. **STOCK LOT** This lot includes a semi-inletted walnut stock with right side shadowline cheekpiece. The stock is possibly for a Howa style rifle and will likely be very attractive when finished. (2X107465-2A)

3324. **SKB STOCK LOT** This lot includes a checkered pistol grip factory buttstock for a Model 600 shotgun. The walnut stock rates excellent overall, with crisp points on the checkering, and only a few light handling marks. There is a 3/4" oval brass monogram plate inletted along the bottom near the toe that remains blank. (1X106019-7B)
3325. **REMINGTON 1863 ZOUAVE RAMROD LOT** This lot contains (2) steel ramrods for Remington 1863 Zouave rifles. The ramrods measure 32 5/8" from the tulip shaped tips to the threaded ends. The metal has mellowed slightly with some sparse fine oxidation staining. The ramrods remain straight and in in excellent condition. (3X57244-31Q)
3326. **STOCK LOT** This lot includes a smooth pistolgrip beech wood stock with high comb for a Feinwerkbau Model 124 air rifle. There are several light handling marks, minor dings, and light scratches along its length and the stock remains in very good plus condition. (2X107494-5B)
3327. **CHOATE TOOL CORP. STOCK** This lot includes a black synthetic stock for a Ruger Mini-14 Rifle. The pistol grip and forend are checkered and the stock comes with no attaching iron. Stock is in excellent condition. (1X107839-5)
3328. **STOCK LOT** This lot consists of an ATI SKS black folding stock. The stock shows a few scattered handling and scuff markings but is in very good plus condition overall. The stock mechanism folds easily without effort. A good lot for someone looking to turn their SKS into a more "Tactical" style rifle. (1X207399-9)
3329. **GRIP LOT** This lot consists of a set of unmarked custom fitted checkered walnut target grips for a C96 Broomhandle Mauser in very good condition showing a few light handling marks and a crack on the top of the right side. (3X127023-18A)
3330. **RUGER BARREL** This lot includes a 26" blued tapered barrel in 270 Win with a bright excellent bore. The barrel retains about 95% blue finish and has been drilled and tapped for a quarter rib that is not installed. One pin is in place and the other is missing and the barrel remains in about excellent condition. (2X107494-13C)
3331. **BARREL LOT** This lot includes a 30" stainless steel barrel in 6mm for a Springfield 1903 bolt action rifle. The bore is in bright excellent condition. It has been threaded and drilled and tapped for rear sights and has some scattered patches of fine oxidation staining down its length. The barrel remains in near excellent condition. (3X107023-8F)
3332. **BARREL LOT** This lot includes an unidentified maker's barrel marked 22K Hornet measuring 22" overall with a bright excellent bore. The shank is threaded with a 16 pitch and measures 3/4" overall with two extractor cut-outs. There is a dovetail slot for a rear sight and no provisions at the front of the barrel. The barrel is blued and has overall light scratches and a few spots of fine oxidation staining. There is a piece of masking tape along part of its length marked in red ink that is hard to discern but possibly lists a modification to the barrel. As with any gun part of an unknown configuration, a competent gunsmith should inspect it prior to installation and use. (1X107791-11A)
3333. **BARREL LOT** This lot includes a 23 1/2" blued finish rifle barrel marked "cal. 222" with bright excellent bore. The barrel retains 85% blue finish with overall light scratches, spots of fine oxidation staining, and silvering around the muzzle. The shank is threaded with a 16 pitch and measures 3/4" overall with extractor cut-out on the right side. There is a piece of masking tape with on the barrel with hand written notes possibly indicating a change in configuration. As with any gun part of unknown configuration, a competent gunsmith should inspect it prior to installation and use. (1X107791-11B)
3334. **RUGER BARREL LOT** This lot includes a round tapered 18 1/2" blued 10/22 barrel with bright about excellent bore. The barrel retains 95% blue finish with a few light scratches and spots of fine oxidation staining. (2X107494-13A)
3335. **LOT OF MISCELLANEOUS GUN PARTS** This lot includes five items. First is an OD green 1 1/4" canvas military style sling. The sling is not maker marked but does have a small anchor stamped in on the adjustment buckle. Second are two unmarked flash hiders likely for an AK style rifle. One threads on and the other twists on. Third is a three prong flash hider likely for an AR-15 style rifle and a Fab Defense M4-BHA sling swivel adapter. These items are in very good to excellent condition overall. (1X108282-1,2,3)
3336. **THOMPSON CENTER CONTENDER BARREL LOT** This lot consists of a single Thompson Center Contender 10" heavy barrel chambered in 223 Remington with an excellent bore. The barrel retains about 95% factory blue with oxidation staining, minor high edge wear and light operational marks. The barrel includes a Thompson Center model 2.5 RP, 2.5X-20mm long eye relief scope with clear optics, scope mount, scope cover, factory front sight, walnut forend and forend screw. The barrel is all ready to mount on your favorite Contender frame. (87936-8)
3337. **LOT OF TYPE 14 NAMBU FIRING PINS** Four total: (1) un-numbered 73 mm, .058" dia. round pin having a dark gray finish with spots of fire temper blue; (1) #185, 65 mm, .060" dia. round pin having a pale blue and brown finish; (1) #090, 65 mm, .078" dia. round pin having a brownish blue patina thinning at the ends; (1) #844 on tail, 65 mm, .078" dia. round pin having an overall grayish patina with traces of blue. All in excellent condition with intact pointy tips. (58000-29)
3338. **STOCK LOT** This lot includes an unmarked brown laminate Draganov style buttstock for an AK-47 style rifle with smooth metal buttplate with oiler well. The stock rates excellent and appears unused. (106247-15)
3339. **STOCK LOT** This lot includes a synthetic wood grain Draganov style buttstock for an AK-47 style rifle. The light colored imitation wood grain stock rates about excellent showing a few light handling marks with two small nicks on the pistol grip. (106247-15A)
3340. **COLT CYLINDER** This lot includes a genuine Colt marked blued cylinder for a Single Action Army revolver in 38 Special. The cylinder has the Rampant Colt stamped along the front face of the cylinder, appears to have never been used and is in excellent condition. (108003-12)
3341. **M-16A1 STOCK LOT** This lot includes a buttstock with trapdoor and handguard for an M-16 rifle. The black synthetic stocks show light handling marks and do not include any mounting hardware. They remain in excellent condition. (106247-15B)

**End of Silent Auction - Thank you • All Silent Auction Bids are due by 3:00 pm on November 20th, 2016  
Results will be available on Wednesday, November 23, 2016.**

# TERMS AND CONDITIONS OF SALE

## ABSENTEE BIDDING

---

- Bidders without prior credit approval are required to submit a 20% deposit prior to bids being accepted (credit cards may be used for absentee deposits). Absentee bids will be bid in a competitive manner and an absentee bidder needs only to outbid another buyer i.e. bidding will not be opened at the maximum bid unless that is the next competitive bid. Buyer is responsible for any and all shipping charges.
- Amoskeag Auction Co., Inc. will not be held responsible for errors or omissions of any type that may occur during this service.
- All Silent Auction bids are due by 3:00pm on Sunday. If you are planning on bidding on an excessive amount of items we request that your bid sheets be turned in on the Friday before the sale. Please do not call the gallery once the auction has started (after 10:00am) as we will not be able to make changes to bids. Faxed bid sheets will be accepted for the **silent auction** until 3:00pm on Sunday.
- All absentee/telephone bidder invoices are mailed within a few days of the sale, are due upon receipt, and are to be paid either by cash, check or credit card. All items not paid for within 20 business days from sale date shall be considered abandoned as well as any deposit that was made on those items and Amoskeag Auction Company, Inc. shall have sole discretion as to their disposal. **NOTE:** If paying by cash or check, the buyer's premium will be a discounted 15% versus 17.5% for those paying by credit card.

**IF YOU FAX YOUR BID SHEET INTO OUR OFFICE,  
PLEASE CALL TO CONFIRM THAT WE DID RECEIVE IT. THANK YOU. 603/627-7383**

## SILENT AUCTION VIEWING

---

Viewing will be available from Wednesday, November 2nd through Friday, November 18th, by appointment, as well as on the day of sale from 7:30am to 2:00pm. We do have a few select evenings available for viewing and those times and dates can be obtained by calling our office.

## SHIPPING

---

- Amoskeag Auction Company, Inc. will make every effort to ship items in a timely fashion; most orders are shipped within 48 hours of payment. All items, with the exception of modern handguns, are shipped via UPS Ground unless other arrangements have been made.
- All modern handguns are shipped via UPS Next Day Air service.
- Buyer is responsible for any and all shipping charges.

## PICKING UP MERCHANDISE

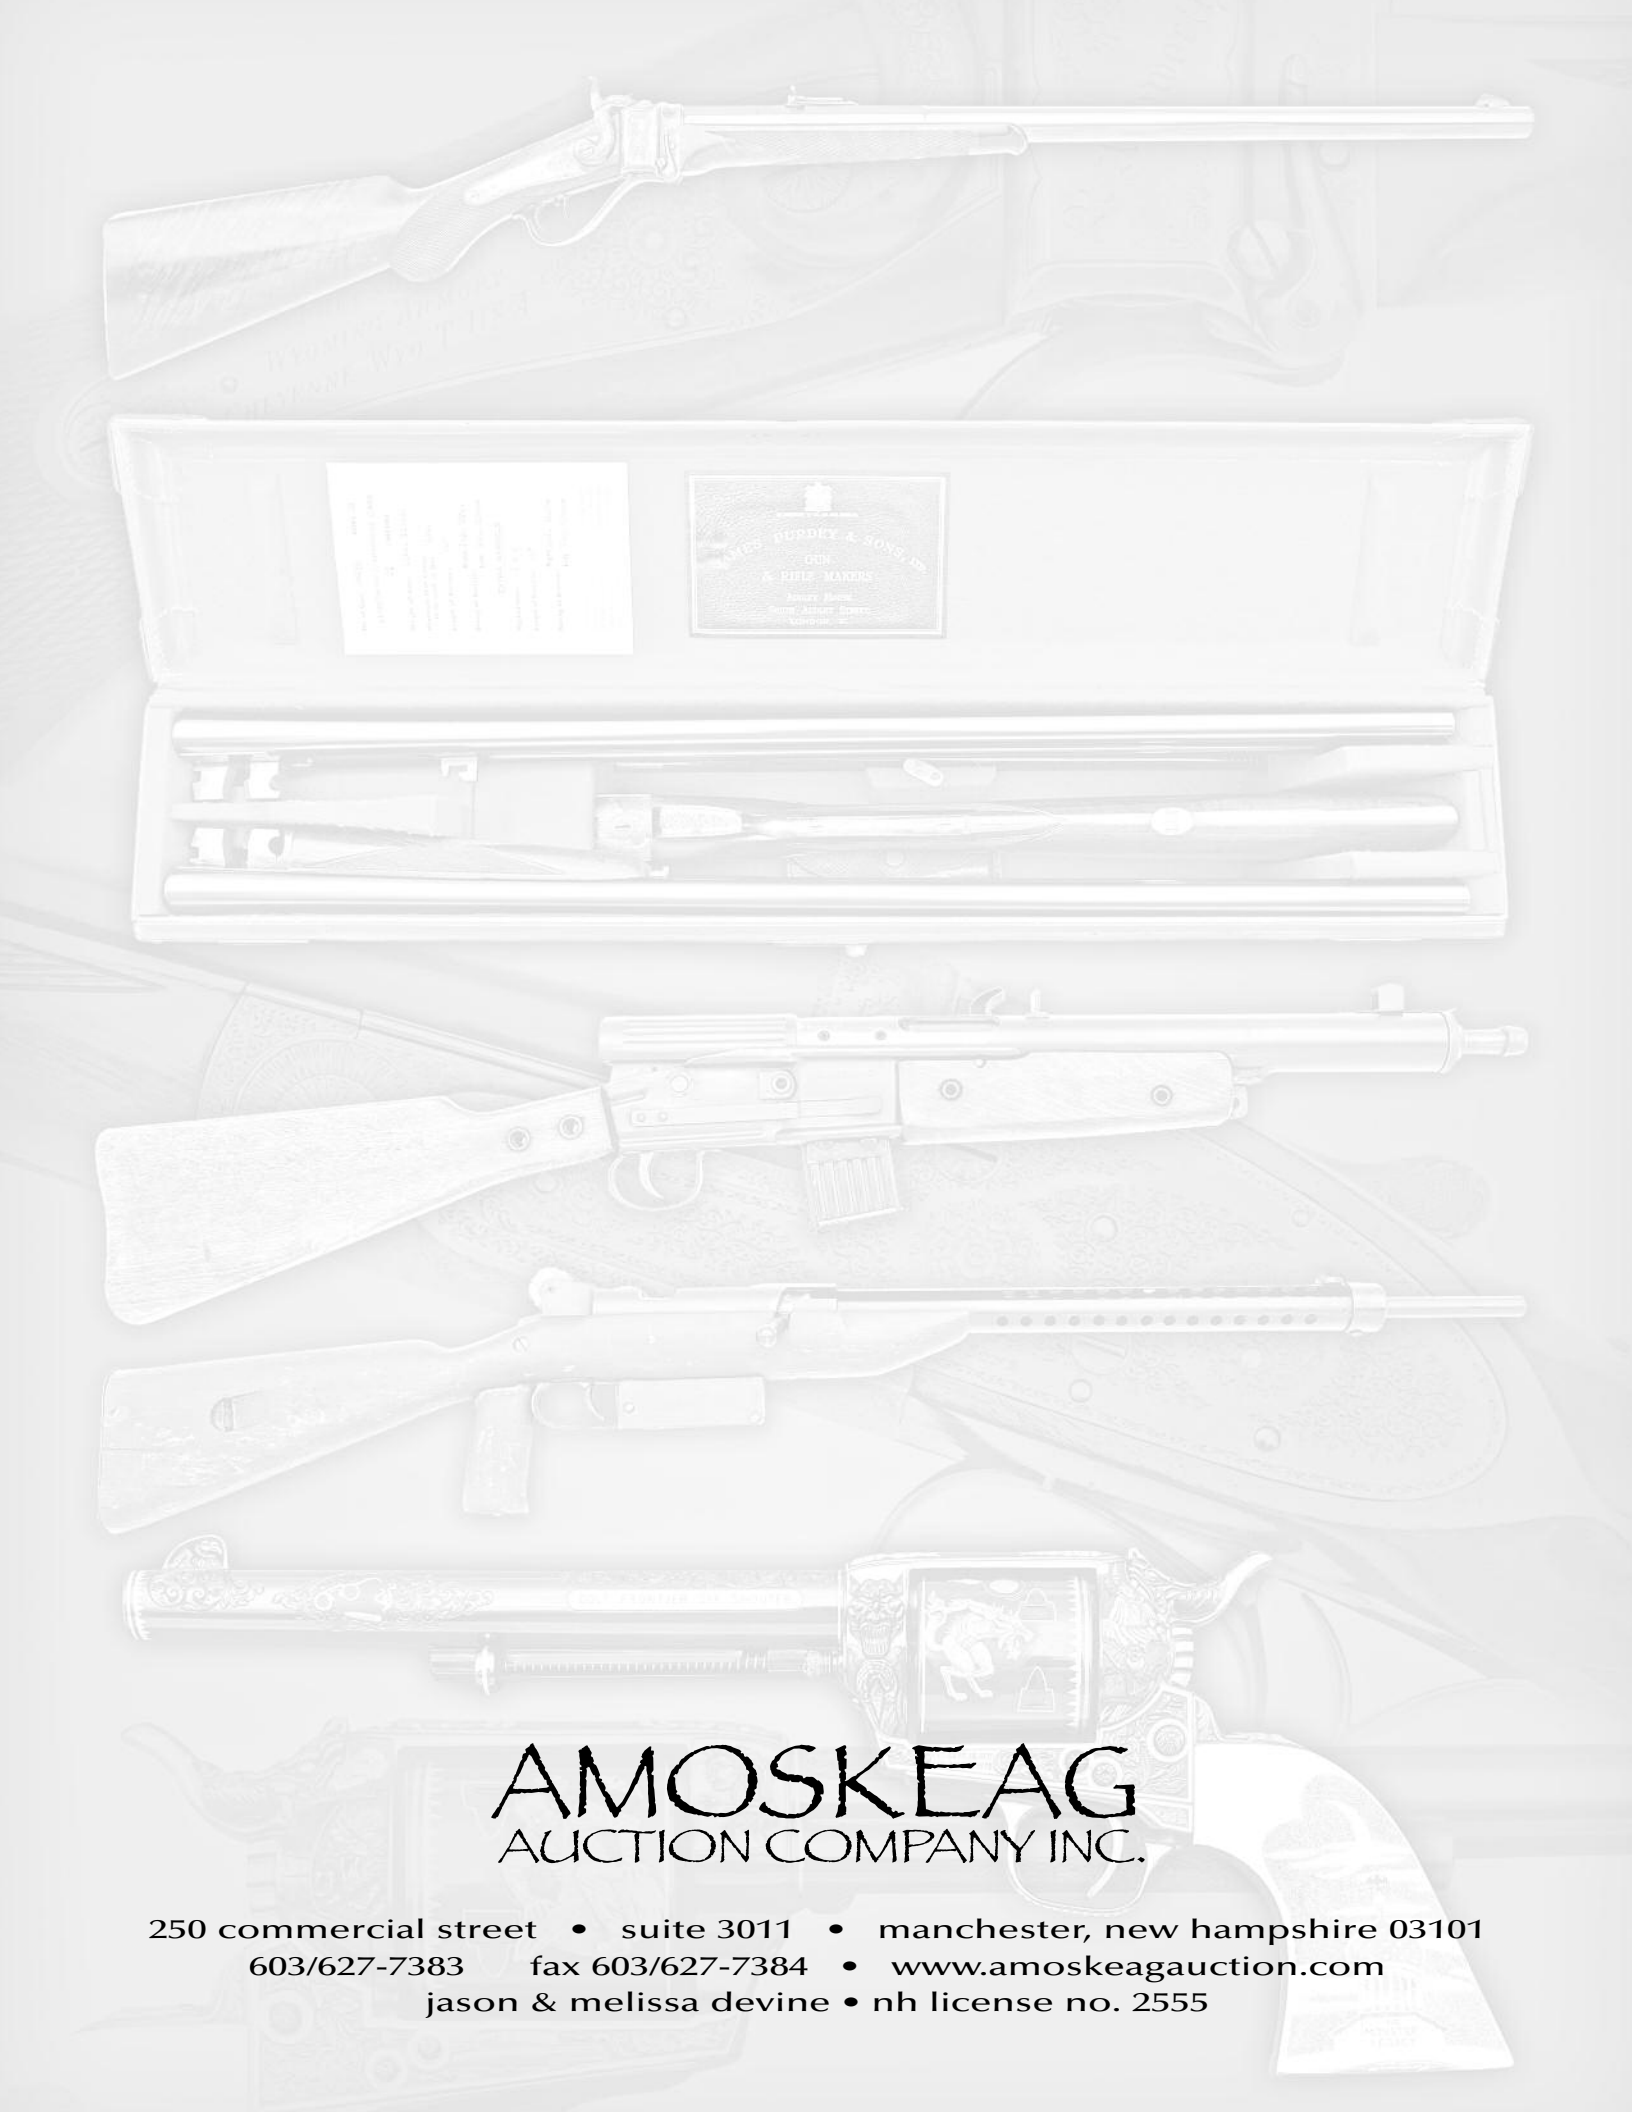

---

- **OUR OFFICE WILL BE CLOSED MONDAY AND TUESDAY FOLLOWING THE SALE.** No merchandise will be delivered on those days. We will resume normal business hours on Wednesday.
- Our office hours are Monday through Friday - 8:00 am to 4:00pm. Please call ahead prior to arriving to pickup your merchandise.

## DIRECTIONS

---

FROM SOUTH: Rt. 93 North to Rt. 101 West in Manchester to Rt. 293 North to Exit 5 (Granite Street). At end of ramp go right onto Granite Street to first set of lights. Go left on Commercial Street and we are located in the Waumbec Commercial Center, which is 1/8 mile up on the left. OR Rte. 3 (Everett Turnpike) North through Bedford tolls then off at Exit 5 (Granite Street). At bottom of ramp go right, take first left onto Commercial Street, 1/8 mile on left. FROM NORTH: Rt. 93 South to Rt. 293 South to Exit 5 (Granite Street), at end of ramp turn left onto Granite Street to first set of lights. Go left on Commercial Street and we are located in the Waumbec Commercial Center, which is 1/8 mile up on the left. ELEVATOR: Go around to the back of the building (river side), there is a set of three stairs with a glass door, enter the lobby through the door that is marked "ELEVATOR", go to 3rd floor and follow signs.
