THE UNITED STATES OF AMERICA

TO ALL TO WHOM THESE PRESENTS SHALL COME:

Pioneer Hi-Bred International, Inc.

Whereas, THERE HAS BEEN PRESENTED TO THE

Secretary of Agriculture

An application requesting a certificate of protection for an alleged distinct variety of sexually reproduced, or tuber propagated plant, the name and description of which are contained in the application and exhibits, a copy of which is hereunto annexed and made a part hereof, and the various requirements of LAW in such cases made and provided have been complied with, and the title thereto is, from the records of the PLANT VARIETY PROTECTION OFFICE, in the applicant(s) indicated in the said copy, and Whereas, upon due examination made, the said applicant(s) is (are) adjudged to be entitled to a certificate of plant variety protection under the LAW.

Now, therefore, this certificate of plant variety protection is to grant unto the said applicant(s) and the successors, heirs or assigns of the said applicant(s) for the term of TWENTY years from the date of this grant, subject to the payment of the required fees and periodic replenishment of viable basic seed of the variety in a public repository as provided by LAW, the right to exclude others from selling the variety, or offering it for sale, or reproducing it, or importing it, or exporting it, or conditioning it for propagation, or stocking it for any of the above purposes, or using it in producing a hybrid or different variety therefrom, to the extent provided by the PLANT VARIETY PROTECTION ACT. (84 STAT. 1542, AS AMENDED, 7 U.S.C. 2321 ET SEQ.)

CORN, FIELD

'PH11V8'

In Testimony Whereof, I have hereunto set my hand and caused the seal of the Plant Variety Protection Office to be affixed at the City of Washington, D.C. this thirtieth day of July, in the year two thousand and thirteen.

Attest:

Commissioner
Plant Variety Protection Office
Agricultural Marketing Service

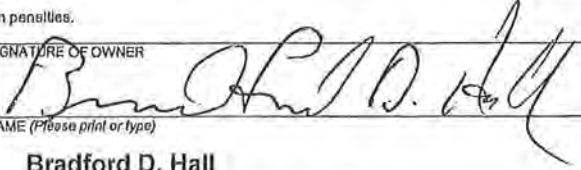

Secretary of Agriculture

U.S. DEPARTMENT OF AGRICULTURE
 AGRICULTURAL MARKETING SERVICE
 SCIENCE AND TECHNOLOGY - PLANT VARIETY PROTECTION OFFICE

The following statements are made in accordance with the Privacy Act of 1974 (5 U.S.C. 552a) and the Paperwork Reduction Act (PRA) of 1995.

APPLICATION FOR PLANT VARIETY PROTECTION CERTIFICATE
 (Instructions and Information collection burden statement on reverse)

Application is required in order to determine if a plant variety protection certificate is to be issued (7 U.S.C. 2421). Information is held confidential until certificate is issued (7 U.S.C. 2426).

1. NAME OF OWNER Pioneer Hi-Bred International, Inc.		2. TEMPORARY DESIGNATION OR EXPERIMENTAL NAME		3. VARIETY NAME PH11V8	
4. ADDRESS (Street and No., or R.F.D. No., City, State, and ZIP Code, and Country) 7100 NW 62nd Avenue P.O. Box 1014 Johnston, Iowa 50131-1014 USA		5. TELEPHONE (include area code) (515) 535-6975		FOR OFFICIAL USE ONLY PVPO NUMBER 200900474	
7. IF THE OWNER NAMED IS NOT A "PERSON", GIVE FORM OF ORGANIZATION (corporation, partnership, association, etc.) Corporation		8. IF INCORPORATED, GIVE STATE OF INCORPORATION Iowa		6. FAX (include area code) (515) 535-2125	
10. NAME AND ADDRESS OF OWNER REPRESENTATIVE(S) TO SERVE IN THIS APPLICATION. (First person listed will receive all papers) Bradford D. Hall Pioneer Hi-Bred International, Inc. Crop Genetics Research and Development PO Box 85 Johnston, Iowa 50131-0085 USA		9. DATE OF INCORPORATION March 5, 1999		FILING DATE 09/17/2009	
11. TELEPHONE (Include area code) (515) 535-6975		12. FAX (Include area code) (515) 535-2125		FILING AND EXAMINATION FEES: \$ 4382.00 DATE 09/17/2009	
14. CROP KIND (Common Name) Corn		16. FAMILY NAME (Botanical) Gramineae		RECEIVED DATE	
15. GENUS AND SPECIES NAME OF CROP Zea mays		17. IS THE VARIETY A FIRST GENERATION HYBRID? <input type="checkbox"/> YES <input checked="" type="checkbox"/> NO		CERTIFICATION FEE: \$ DATE	
19. CHECK APPROPRIATE BOX FOR EACH ATTACHMENT SUBMITTED (Follow instructions on reverse) a. <input checked="" type="checkbox"/> Exhibit A. Origin and Breeding History of the Variety b. <input checked="" type="checkbox"/> Exhibit B. Statement of Distinctness c. <input checked="" type="checkbox"/> Exhibit C. Objective Description of Variety d. <input type="checkbox"/> Exhibit D. Additional Description of the Variety (Optional) e. <input checked="" type="checkbox"/> Exhibit E. Statement of the Basis of the Owner's Ownership f. <input checked="" type="checkbox"/> Exhibit F. Declaration Regarding Deposit g. <input checked="" type="checkbox"/> Voucher Sample (3,000 viable untreated seeds or, for tuber propagated varieties, verification that tissue culture will be deposited and maintained in an approved public repository) h. <input checked="" type="checkbox"/> Filing and Examination Fee (\$4,382), made payable to "Treasurer of the United States" (Mail to the Plant Variety Protection Office)		20. DOES THE OWNER SPECIFY THAT SEED OF THIS VARIETY BE SOLD ONLY AS A CLASS OF CERTIFIED SEED? (See Section 83(a) of the Plant Variety Protection Act) <input type="checkbox"/> YES (If "yes", answer items 21 and 22 below) <input checked="" type="checkbox"/> NO (If "no", go to item 23) <input type="checkbox"/> UNDECIDED		21. DOES THE OWNER SPECIFY THAT SEED OF THIS VARIETY BE LIMITED AS TO NUMBER OF CLASSES? <input type="checkbox"/> YES <input type="checkbox"/> NO IF YES, WHICH CLASSES? <input type="checkbox"/> FOUNDATION <input type="checkbox"/> REGISTERED <input type="checkbox"/> CERTIFIED	
23. HAS THE VARIETY (INCLUDING ANY HARVESTED MATERIAL) OR A HYBRID PRODUCED FROM THIS VARIETY BEEN SOLD, DISPOSED OF, TRANSFERRED, OR USED IN THE U. S. OR OTHER COUNTRIES? <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO IF YES, YOU MUST PROVIDE THE DATE OF FIRST SALE, DISPOSITION, TRANSFER, OR USE FOR EACH COUNTRY AND THE CIRCUMSTANCES. (Please use space indicated on reverse.)		24. IS THE VARIETY OR ANY COMPONENT OF THE VARIETY PROTECTED BY INTELLECTUAL PROPERTY RIGHT (PLANT BREEDER'S RIGHT OR PATENT)? <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO IF YES, PLEASE GIVE COUNTRY, DATE OF FILING OR ISSUANCE AND ASSIGNED REFERENCE NUMBER. (Please use space indicated on reverse.)		22. DOES THE OWNER SPECIFY THAT SEED OF THIS VARIETY BE LIMITED AS TO NUMBER OF GENERATIONS? <input type="checkbox"/> YES <input type="checkbox"/> NO IF YES, SPECIFY THE NUMBER 1,2,3, etc. FOR EACH CLASS. <input type="checkbox"/> FOUNDATION <input type="checkbox"/> REGISTERED <input type="checkbox"/> CERTIFIED (If additional explanation is necessary, please use the space indicated on the reverse.)	
25. The owners declare that a viable sample of basic seed of the variety has been furnished with application and will be replenished upon request in accordance with such regulations as may be applicable, or for a tuber propagated variety a tissue culture will be deposited in a public repository and maintained for the duration of the certificate. The undersigned owner(s) is (are) the owner of this sexually reproduced or tuber propagated plant variety, and believe(s) that the variety is new, distinct, uniform, and stable as required in Section 42, and is entitled to protection under the provisions of Section 42 of the Plant Variety Protection Act. Owner(s) is (are) informed that false representation herein can jeopardize protection and result in penalties.					
SIGNATURE OF OWNER		SIGNATURE OF OWNER 			
NAME (Please print or type)		NAME (Please print or type) Bradford D. Hall			
CAPACITY OR TITLE		CAPACITY OR TITLE Sr. Research Associate		DATE 11/14/2012	

GENERAL INSTRUCTIONS: To be effectively filed with the Plant Variety Protection Office (PVPO), ALL of the following items must be received in the PVPO: (1) Completed application form signed by the owner; (2) completed exhibits A, B, C, E, F; (3) for a tuber reproduced variety, verification that a viable (in the sense that it will reproduce an entire plant) tissue culture will be deposited and maintained in an approved public repository; and (4) payment by credit card or check drawn on a U.S. bank for \$4,382 (\$518 filing fee and \$3,864 examination fee), payable to "Treasurer of the United States" (See Section 97.6 of the Regulations and Rules of Practice). **NEW:** With the application for a seed reproduced variety or by direct deposit soon after filing, the applicant must provide at least 3,000 viable untreated seeds of the variety *per se*, and for a hybrid variety at least 3,000 untreated seeds of each line necessary to reproduce the variety. Partial applications will be held in the PVPO for not more than 90 days; then returned to the applicant as un-filed. Mail application and other requirements to Plant Variety Protection Office, AMS, USDA, Room 401, NAL Building, 10301 Baltimore Avenue, Beltsville, MD 20705-2351. **Retain one copy for your files.** All items on the face of the application are self explanatory unless noted below. Corrections on the application form and exhibits must be initialed and dated. **DO NOT** use masking materials to make corrections. If a certificate is allowed, you will be requested to send a payment by credit card or check payable to "Treasurer of the United States" in the amount of \$768 for issuance of the certificate. Certificates will be issued to owner, not licensee or agent.

NOTES: It is the responsibility of the applicant/owner to keep the PVPO informed of any changes of address or change of ownership or assignment or owner's representative during the life of the application/certificate. The fees for filing a change of address; owner's representative; ownership or assignment; or any modification of owner's name is specified in Section 97.175 of the regulations. (See Section 101 of the Act, and Sections 97.130, 97.131, 97.175(h) of the Regulations and Rules of Practice.)

Plant Variety Protection Office
Telephone: (301) 504-5518 FAX: (301) 504-5291
General E-mail: PVPOmail@usda.gov
Homepage: <http://www.ams.usda.gov/science/pvpo/PVPindex.htm>

SPECIFIC INSTRUCTIONS:

To avoid conflict with other variety names in use, the applicant must check the appropriate recognized authority and provide evidence that the permanent name of the application variety (even if it is a parental, inbred line) has been cleared by the appropriate recognized authority before the Certificate of Protection is issued. For example, for agricultural and vegetable crops, contact: U.S. Department of Agriculture, Agricultural Marketing Service, Livestock and Seed Programs, Seed Regulatory and Testing Branch, 801 Summit Crossing Place, Suite C, Gastonia, North Carolina 28054-2193 Telephone: (704) 810-8870. <http://www.ams.usda.gov/lsg/seed.htm>.

ITEM

- 19a. Give: (1) the genealogy, including public and commercial varieties, lines, or clones used, and the breeding method; (2) the details of subsequent stages of selection and multiplication; (3) evidence of uniformity and stability; and (4) the type and frequency of variants during reproduction and multiplication and state how these variants may be identified
- 19b. Give a summary of the variety's distinctness. Clearly state how this application variety may be distinguished from all other varieties in the same crop. If the new variety is most similar to one variety or a group of related varieties:
- (1) identify these varieties and state all differences objectively;
 - (2) attach replicated statistical data for characters expressed numerically and demonstrate that these are clear differences; and
 - (3) submit, if helpful, seed and plant specimens or photographs (prints) of seed and plant comparisons which clearly indicate distinctness.
- 19c. Exhibit C forms are available from the PVPO Office for most crops; specify crop kind. Fill in Exhibit C (Objective Description of Variety) form as completely as possible to describe your variety.
- 19d. Optional additional characteristics and/or photographs. Describe any additional characteristics that cannot be accurately conveyed in Exhibit C. Use comparative varieties as is necessary to reveal more accurately the characteristics that are difficult to describe, such as plant habit, plant color, disease resistance, etc.
- 19e. Section 52(6) of the Act requires applicants to furnish a statement of the basis of the applicant's ownership. An Exhibit E form is available from the PVPO.
20. If "Yes" is specified (*seed of this variety be sold by variety name only, as a class of certified seed*), the applicant **MAY NOT** reverse this affirmative decision after the variety has been sold and so labeled, the decision published, or the certificate issued. However, if "No" has been specified, the applicant may change the choice. (See Regulations and Rules of Practice, Section 97.103).
23. See Sections 41, 42, and 43 of the Act and Section 97.5 of the regulations for eligibility requirements.
24. See Section 55 of the Act for instructions on claiming the benefit of an earlier filing date.
22. CONTINUED FROM FRONT (Please provide a statement as to the limitation and sequence of generations that may be certified.)

23. CONTINUED FROM FRONT (Please provide the date of first sale, disposition, transfer, or use for each country and the circumstances, if the variety (including any harvested material) or a hybrid produced from this variety has been sold, disposed of, transferred, or used in the U.S. or other countries.)
Transferred for experimental use in United States in 2009.

24. CONTINUED FROM FRONT (Please give the country, date of filing or issuance, and assigned reference number, if the variety or any component of the variety is protected by intellectual property right (Plant Breeder's Right or Patent).)

USPTO 6/23/2009 Application No. 12/489,514. EU CVPO 8/26/2011 File No. 20112032 Grant No. 32238.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0581-0055. The time required to complete this information collection is estimated to average 1.4 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 785-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

Exhibit A: Origin and Breeding History for PH11V8

Pioneer line PH11V8, *Zea mays* L., a yellow corn inbred, was developed by Pioneer Hi-Bred International, Inc. from the single cross hybrid PH8ER (PVP Certificate No. 200700433) X PH890 (PVP Certificate No. 200300224) using the pedigree selection method of plant breeding. Varieties PH8ER and PH890 are proprietary inbred lines of Pioneer Hi-Bred International, Inc. Selfing was practiced from above hybrid for 8 generations using pedigree selection. During line development, crosses were made to inbred testers for the purpose of estimating the line's combining ability. Yield trials were grown at Princeton, IN, USA as well as other Pioneer research locations. After initial testing, additional hybrid combinations have been evaluated and subsequent generations of the line have been grown and hand-pollinated with observations again made for uniformity.

Variety PH11V8 has shown uniformity and stability for all traits as described in Exhibit C – “Objective Description of Variety.” It has been self-pollinated and ear rowed for 6 generations with careful attention paid to selection criteria and uniformity of plant type to assure the variety is genetically homozygous and phenotypically stable. The line has been increased both by hand and in isolated fields with continued observations for uniformity and stability, and for 5 generations during the final stages of inbred development and seed multiplication. Very high standards for genetic purity have been established morphologically using field observations and using sound laboratory methodologies.

No variant traits have been observed or are expected in PH11V8.

The criteria used in the selection of PH11V8 were yield, both per se and in hybrid combinations. Late season plant health, grain quality, and stalk lodging resistance, were important criteria considered during selection. Other selection criteria include: ability to germinate in adverse conditions, disease and insect resistance, pollen yield and tassel size.

Exhibit A: Developmental History for PH11V8

<i>Pedigree</i>	<i>Year Grown</i>	<i>Generation</i>
PH8ER/PH890	2002	F1
PH8ER/PH890)X	2003	F2
PH8ER/PH890)X2	2004	F3
PH8ER/PH890)X21	2005	F4
PH8ER/PH890)X211	2005	F5
PH8ER/PH890)X2113	2006	F6
PH8ER/PH890)X21131	2006	F7
PH8ER/PH890)X211312	2007	F8
PH8ER/PH890)X211312X		F9 (Seed)

PH11V8 was selfed and ear-rowed from F3 through F8 generation. Uniformity and stability were established from F4 through F8 generation and beyond when seed supplies were increased.

Exhibit B: Novelty Statement

Variety PH11V8 mostly resembles Pioneer Hi-Bred International, Inc. proprietary inbred line PH09B (PVP Certificate No. 9700218). Table 1 shows two sample t-tests on data collected primarily in North America in 2008. Table 2 shows isozyme profiles. The traits collectively show measurable differences between the two varieties.

Variety PH11V8 is more resistant to gray leaf spot (5.9 vs. 4.3) than variety PH09B (Table 1A).

Variety PH11V8 is more resistant to northern leaf blight (6.3 vs. 4.6) than variety PH09B (Table 1B).

Variety PH11V8 has a score of a 5 vs. PH09B score of 4 for the isozyme *phosphohexose isomerase I* PHI1 (Table 2).

In addition to the differences cited above, the database records indicate 'PH11V8' differs from 'PH09B' in leaf sheath pubescence (5 vs. 1 rated using a scale from 1=none to 9=like peach fuzz, respectively).

Exhibit B: Novelty Statement Tables

Table 1: Data from North America in 2008 presented by trait, across environments, and broken out by environment. Data are supporting evidence for differences between PH11V8 and PH09B. Varieties were grown in multiple locations that had different environmental conditions. Environments had different planting dates and were in different fields. A two-sample t-test was used to compare differences between means.

10. DISEASE RESISTANCE (Rate from 1 (most susceptible) to 9 (most resistant); leave blank if not tested; leave Race or Strain Options blank if polygenic):

A. Leaf Blights, Wilts, and Local Infection Diseases

- Anthracnose Leaf Blight (*Colletotrichum graminicola*)
- Common Rust (*Puccinia sorghi*)
- Common Smut (*Ustilago maydis*)
- Eyespot (*Kabatiella zeae*)
- Goss's Wilt (*Clavibacter michiganense* spp. *nebraskensis*)
- Gray Leaf Spot (*Cercospora zeae-maydis*)
- Helminthosporium Leaf Spot (*Bipolaris zeicola*) Race _____
- Northern Leaf Blight (*Exserohilum turcicum*) Race _____
- Southern Leaf Blight (*Bipolaris maydis*) Race _____
- Southern Rust (*Puccinia Polysora*)
- Stewart's Wilt (*Erwinia stewartii*)
- Other (Specify) _____

- Anthracnose Leaf Blight
- Common Rust
- Common Smut
- Eyespot
- Goss's Wilt
- Gray Leaf Spot
- Helminthosporium Leaf Spot Race _____
- Northern Leaf Blight Race _____
- Southern Leaf Blight Race _____
- Southern Rust
- Stewart's Wilt
- Other (Specify) _____

B. Systemic Diseases

- Corn Lethal Necrosis (MCMV and MDMV)
- Head Smut (*Sphacelotheca reiliana*)
- Maize Chlorotic Dwarf Virus (MCDV)
- Maize Chlorotic Mottle Virus (MCMV)
- Maize Dwarf Mosaic Virus (MDMV) Strain _____
- Sorghum Downy Mildew of Corn (*Peronosclerospora sorghi*)
- Other (Specify) _____

- Corn Lethal Necrosis
- Head Smut
- Maize Chlorotic Dwarf Virus
- Maize Chlorotic Mottle Virus
- Maize Dwarf Mosaic Virus Strain _____
- Sorghum Downy Mildew of Corn
- Other (Specify) _____

C. Stalk Rots

- Anthracnose Stalk Rot (*Colletotrichum graminicola*)
- Diplodia Stalk Rot (*Stenocarpella maydis*)
- Fusarium Stalk Rot (*Fusarium moniliforme*)
- Gibberella Stalk Rot (*Gibberella zeae*)
- Other (Specify) _____

- Anthracnose Stalk Rot
- Diplodia Stalk Rot
- Fusarium Stalk Rot
- Gibberella Stalk Rot
- Other (Specify) _____

D. Ear and Kernel Rots

- Aspergillus Ear and Kernel Rot (*Aspergillus flavus*)
- Diplodia Ear Rot (*Stenocarpella maydis*)
- Fusarium Ear and Kernel Rot (*Fusarium moniliforme*)
- Gibberella Ear Rot (*Gibberella zeae*)
- Other (Specify) _____

- Aspergillus Ear & Kernel Rot
- Diplodia Ear Rot
- Fusarium Ear & Kernel Rot
- Gibberella Ear Rot
- Other (Specify) _____

Note: Use chart on first page to choose color codes for color traits.

11. INSECT RESISTANCE (Rate from 1 (most susceptible) to 9 (most resistant); Leave blank if not tested)	St. Dev.	Sample Size	St. Dev.	Sample Size
___ Banks Grass Mite (<i>Oligonychus pratensis</i>)			___ Banks Grass Mite	
Corn Earworm (<i>Helicoverpa zea</i>)			Corn Earworm	
___ Leaf Feeding			___ Leaf Feeding	
Silk Feeding _____ mg larval wt.			_____	
___ Ear Damage			___ Ear Damage	
___ Corn Leaf Aphid (<i>Rhopalosiphum maidis</i>)			___ Corn Leaf Aphid	
___ Corn Sap Beetle (<i>Carpophilus dimidiatus</i>)			___ Corn Sap Beetle	
European Corn Borer (<i>Ostrinia nubilalis</i>)			European Corn Borer	
1 st Generation (Typically Whorl Leaf Feeding)			1 st Generation	
___ 2 nd Generation (Typically Leaf Sheath-Collar Feeding)			___ 2 nd Generation	
Stalk Tunneling: _____ cm tunneled/plant			_____	
Fall Armyworm (<i>Spodoptera frugiperda</i>)			Fall Armyworm	
___ Leaf-Feeding			___ Leaf-Feeding	
Silk-Feeding _____ mg larval wt.			_____	
___ Maize Weevil (<i>Sitophilus zeamais</i>)			___ Maize Weevil	
___ Northern Rootworm (<i>Diabrotica barberi</i>)			___ Northern Rootworm	
___ Southern Rootworm (<i>Diabrotica undecimpunctata</i>)			___ Southern Rootworm	
Southwestern Corn Borer (<i>Diatraea grandiosella</i>)			Southwestern Corn Borer	
___ Leaf Feeding			___ Leaf Feeding	
Stalk Tunneling: _____ cm tunneled/plant			_____	
___ Two-spotted Spider Mite (<i>Tetranychus urticae</i>)			___ Two-spotted Spider Mite	
___ Western Rootworm (<i>Diabrotica virgifera virgifera</i>)			___ Western Rootworm	
___ Other (Specify) _____			___ Other (Specify) _____	

12. AGRONOMIC TRAITS:	
<u>7</u> Stay Green (at 65 days after anthesis) (Rate on scale from 1=worst to 9=excellent)	<u>5</u> Stay Green
% Dropped Ears (at 65 days after anthesis)	% Dropped ears
___ % Pre-anthesis Brittle Snapping	___ % Pre-anthesis Brittle Snapping
<u>3</u> % Pre-anthesis Root Lodging	<u>65</u> % Pre-anthesis Root Lodging
% Post-anthesis Root Lodging (at 65 days after anthesis)	Post-anthesis Root Lodging
<u>7,863.0</u> Kg/ha Yield of Inbred Per Se (at 12-13% grain moisture)	<u>6,849.0</u> Yield

13. MOLECULAR MARKERS: (0=data unavailable; 1=data available but not supplied; 2=data supplied.)

COMMENTS (e. g. state how heat units were calculated, standard inbred seed source, and/or where data was collected. Continue in Exhibit D).

*Sample number reflects the number of plots where the trait(s) was observed and not the number of individual plants scored. Please see 'CLARIFICATION OF DATA IN EXHIBITS B AND C' for details of how plots were set up.

**For these plot-level traits, kernels from approximately 5 representative ears were sampled. 100 unsized kernels were counted and weighed. Up to 500 grams of kernels were sized by a 13/64 inch slot screen.

Insect, disease, brittle snapping, yield and root lodging data are collected mainly from environment where variability for the trait can be obtained within the experiment.

CLARIFICATION OF DATA IN EXHIBITS B AND C

Please note the data presented in Exhibit B and C, "Objective Description of Variety," are collected primarily at Johnston and/or Dallas Center, Iowa. The data in Table 1 are from two sample t-tests using data collected in Johnston and Dallas Center, IA. Table 2 shows an isozyme profile. These traits in Exhibit B collectively show distinct differences between the two varieties.

For any given year of data collection, our experimental design was set up in a typical complete block design commonly used in agricultural corn research experiments with one replication grown at each location. The experiment procedures generally involve two locations/environments with different planting dates, planted in 17.42 ft. rows with 2 rows for each variety. Approximately 24-30 plants emerged in each of 2 rows for a total of around 48 to 60 plants being evaluated at each location and 96 to 180 plants across locations. For plant level traits, we sampled up to 15 representative plants from the 2 rows of the 2 row plot (group) of plants at each location. For plot level traits we evaluated the 2 row plot (group) and gave a representative score or average on the 48-60 plants in the group within an experiment.

Month	GROWING DEGREE UNITS (GDUs)		PRECIPITATION (Inches)	
	2008		2008	
	Dallas Center	Johnston	Dallas Center	Johnston
May	351	380	3.36	4.54
June	606	641	8.15	13.43
July	716	771	8.26	8.14
August	600	682	1.67	1.24
September	415	469	3.12	5.57
TOTAL	2688	2943	24.56	32.92

Growing Degree Units use following formula: $GDU = ((T1+T2)/2)-50$

Where T1 = minimum temperature for a given day with 50 degrees Fahrenheit as the minimum temperature used and 86 degrees Fahrenheit is the maximum temperature used.

Where T2 = maximum temperature for a given day with 86 degrees Fahrenheit as the maximum temperature used and 50 degrees Fahrenheit is the minimum temperature used.

GDUs are calculated each day and accumulated (summed) over certain number of days.

U.S. DEPARTMENT OF AGRICULTURE
 AGRICULTURAL MARKETING SERVICE

Application is required in order to determine if a plant variety protection certificate is to be issued (7 U.S.C. 2421). The information is held confidential until the certificate is issued (7 U.S.C. 2426).

**EXHIBIT E
 STATEMENT OF THE BASIS OF OWNERSHIP**

1. NAME OF APPLICANT(S) Pioneer Hi-Bred International, Inc.	2. TEMPORARY DESIGNATION OR EXPERIMENTAL NUMBER	3. VARIETY NAME PH11V8
4. ADDRESS (Street and No., or R.F.D. No., City, State, and ZIP, and Country) 7250 NW 62nd Avenue P.O. Box 552 Johnston, IA 50131-0552	5. TELEPHONE (Include area code) (515) 270-4051	6. FAX (Include area code) (515) 334-4478
	7. PVPO NUMBER #200900474	

8. Does the applicant own all rights to the variety? Mark an "X" in the appropriate block. If no, please explain. YES NO

9. Is the applicant (individual or company) a U.S. national or a U.S. based company? If no, give name of country. YES NO

10. Is the applicant the original owner? YES NO If no, please answer one of the following:

a. If the original rights to variety were owned by individual(s), is (are) the original owner(s) a U.S. National(s)?

YES NO If no, give name of country

b. If the original rights to variety were owned by a company(ies), is (are) the original owner(s) a U.S. based company?

YES NO If no, give name of country

11. Additional explanation on ownership (Trace ownership from original breeder to current owner. Use the reverse for extra space if needed):

Pioneer Hi-Bred International, Inc. (PHI), Des Moines, Iowa, and/or its wholly owned subsidiary Pioneer Overseas Corporation (POC), Des Moines, Iowa, is the employer of the plant breeders involved in the selection and development of PH11V8. Pioneer Hi-Bred International and/or Pioneer Overseas Corporation has the sole rights and ownership of PH11V8 pursuant to written contracts that assign all rights in the variety to PHI and/or POC at the time such variety was created. No rights to this variety are retained by any individuals.

PLEASE NOTE:

Plant variety protection can only be afforded to the owners (not licensees) who meet the following criteria:

1. If the rights to the variety are owned by the original breeder, that person must be a U.S. national, national of a UPOV member country, or national of a country which affords similar protection to nationals of the U.S. for the same genus and species.
2. If the rights to the variety are owned by the company which employed the original breeder(s), the company must be U.S. based, owned by nationals of a UPOV member country, or owned by nationals of a country which affords similar protection to nationals of the U.S. for the same genus and species.
3. If the applicant is an owner who is not the original owner, both the original owner and the applicant must meet one of the above criteria.

The original breeder/owner may be the individual or company who directed the final breeding. See Section 41(a)(2) of the Plant Variety Protection Act for definitions.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0581-0055. The time required to complete this information collection is estimated to average 0.1 hour per response, including the time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
