Dear Valued Customer,

For the 2019 season, we are excited to bring you many new and innovative vegetable seed products. Whether it be for the commercial grower, or for the garden enthusiast, we have the right products to fit your needs. Through extensive research at our trial farms, thousands of products go through substantial evaluation by our 24 sales representatives, 8 full-time trial specialists, and 7 product managers. After the initial trialing, promising varieties are advanced to trials with growers throughout our sales territory - from the Rocky Mountains to the eastern seaboard, north to Ontario, Canada and along the Westcoast into Mexico.

With this accrued knowledge, we believe our selections offered here are truly the cream of the crop. The end result? PLANT. PICK. PROFIT.

On behalf of the entire SEEDWAY staff, we thank you for your business and hope that you continue to be satisfied with our seed and service.

John Bozeman,
Chief Operating Officer

BEANS

GREEN POD FRESH MARKET BUSH BEANS *Listed By Maturity - See Pricing On Page 5*

| Code | Variety | Days | Pod/Size | Pod Color | Seed Color | Disease Reaction | Comments |
|-------|-------------------------------|------|-----------------|-----------------|------------|-------------------------------------|---|
| 5242C | LEWIS | 53 | 5" - 5½" round | Med-dark green | White | R: BCMV, BCTV, Psp, Ua IR: Pss | Glossy pods and dark color fit well with fresh market use. Plants are very upright and easily hold pods off the ground. Comprehensive disease package. |
| 7802C | NEW PV857 | 53 | 5½" round | Dark green | White | HR: BCMV, Cl IR: Ua:90 | The best heat set bean we have seen! Plant for mid summer flowering. Erect bush, concentrated sets of 3 - 4 sieve pods. |
| 7914C | COLTER | 53 | 5½" round | Dark green | White | HR: BCMV, BCTV, Ua | High yielding early bean that sets well in heat. 3 - 4 sieve. |
| 5392C | NEW LASALLE (HMX 5107) | 54 | 5½" - 6" round | Dark green | White | HR: BCMV IR: Psp, Pss, Xap | This erect and open bush provides more airflow over the long straight pods. A 4 sieve bean that harvests cleanly. |
| 7930C | BARRON | 54 | 5½" round | Very dark green | White | HR: BCMV, BCTV, Psp, Pss IR: Xap | High pod placement in a very upright plant. Good heat set. The darkest pod color on the market. |
| 9662C | BA0958 | 55 | 5½" - 6" round | Dark green | White | R: BCMV | High yielding plant with a large bush which produces straight pods and a very concentrated set. Has shown field tolerance to root rot fungal complex. GR:SE |
| 8450C | COMPER <i>Small sieve</i> | 55 | 4 ½" - 5" round | Dark green | White | HR: BCMV, Cl, Psp IR: Xap | Dark green pods are 2 - 3 sieve. Upright plant habit with good pod distribution throughout the plant. Adapted to both fresh market and processing, with straight pods that are tender and low in fiber. |

BARRON^

| | | | | | | | |
|-------|----------------------|----|-----------------|-----------------|-------|----------------------------------|--|
| 6804C | VALENTINO | 55 | 5½" round | Very dark green | White | R: BCMV | Produces straight, very dark green, medium diameter pods (3 - 4 sieve). Concentrated set, picks clean and grades well. GR:SE |
| 6540C | NEW GREENBACK | 56 | 5½" - 6" round | Dark green | White | HR: BCMV | Widely adapted, high yielding, clean harvest (less broken pods). Uniform pod color and size. SEEDWAY EXCLUSIVE! |
| 9349C | CAPRICE | 56 | 5 ½" - 6" round | Med-dark green | White | R: BCMV, Cl, Psp, Xap IR: Pss | Glossy pods give a great appearance and quality for direct sales or shipping. Upright plants provide concentrated set in upper 2/3 of the bush. |
| 7622C | NEW AFFIRMED | 56 | 5½" - 6" round | Dark green | White | HR: BCMV, Cl, Psp:1,2 IR: Pss | Consistent performance. The plant sets straight pods high off the ground. GR:SE |
| 8785C | SYBARIS | 56 | 5½" round | Dark green | White | HR: BCMV IR: Ua:90 | Pod straightness and placement are excellent. Plants show good standability and pod placement is high on plants, promoting high quality pods. GR:SE |

BEANS

YELLOW BUSH BEANS *Listed By Maturity - See Pricing On Page 5*

| Code | Variety | Days | Pod/Size | Pod Color | Seed Color | Disease Reaction | Comments |
|-------|------------|------|-------------|-----------|------------|-------------------------------|--|
| 9384C | CARSON | 53 | 5 ½", round | Yellow | White | HR: BCMV, CI IR: BCTV, Pss | Early easy setting, dependable producer. Sets and yields when others fail. Nice, straight pods with excellent uniformity. Plants are upright and open, allowing for easy, clean harvest. |
| 7974C | SV1003GF | 55 | 5 ½", round | Yellow | White | HR: BCMV IR: Pss | Produces straight, high quality pods for easy picking and packing. Concentrated set. Mature pods grade in 3 - 4 sieve ranges. GR:SE |
| 6581C | GOLDEN ROD | 58 | 6", round | Yellow | White | HR: BCMV | Popular and standard variety for fresh market wax beans. Widely adapted, grows well in short day conditions. Large bush. |

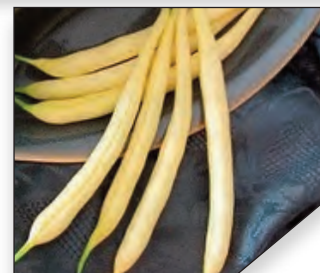

Cruiser seed treatment is used on bean seed to control a variety of soil insect pests: Wire worm, seed corn maggot, & white grubs. Cruiser insecticide is our standard seed treatment for bush beans. Shell, pole, limas, southern peas and runners will not have Cruiser treatment.

ROADSIDE RECOMMENDATIONS *For Hand-Pick Operations - Seed Pricing On Page 5*

| Code | Variety | Days | Pod/Size | Pod Color | Seed Color | Disease Reaction | Comments |
|-------|---------|------|-------------|-----------|------------|----------------------|---|
| 7140C | JADE | 60 | 6 ½", round | Med green | White | HR: BCMV IR: BCTV | Jade is the choice for growers or home gardeners looking for an extended harvest for hand pick. Jade produces long pods and continuous set. |

JADE^

| BEANS | | HORTICULTURAL BEAN <i>See Pricing On Page 6</i> | | | | |
|-------|--------------|---|--------------------|--------------|--------------------|---|
| Code | Variety | Days | Pod Length & Shape | Pod Color | Seed Color | Comments |
| 6237 | SUPREMO PLUS | 72 | 7", oval | Red speckled | Red buff, speckled | Beans are buff colored with bright red speckling. Supremo Plus is an improvement over Supremo. It has longer pods with better color and higher tolerance to bacterial blight. |

SUPREMO PLUS[^]

| SOUTHERN PEAS | | COW PEAS <i>Listed By Maturity - See Pricing On Page 6</i> | | | | |
|---------------|----------------------------|--|--------------------------|------------------|---------------------------|---|
| Code | Variety | Days | Pod Color | Seed Color | Use | Comments |
| 6423NT | TOP PICK PINKEYE | 60 | Green/ Light Purple/ Red | White w/ Pinkeye | Fresh market, can, freeze | Very early, concentrated pods on top of plant. |
| 5103 | SUMMERTIME PINKEYE | 65 | Green | Bright green | Fresh market | Semi-bunching plant, pods on top of plant. High-yielding and easy shelling. Peas retain bright-green color after cooking. |
| 8064 | QUEEN ANN | 68 | Green-tan | Blackeye | Fresh market | Compact vines, machine harvest, bright seed color. Bred in Virginia for growing in somewhat cooler regions. |
| 9513NT | MISSISSIPPI PURPLE CROWDER | 70 | Purple | Brown Crowder | Fresh market, can, freeze | Extremely high yields, resists Fusarium, Nematodes and many viruses. |
| 9087 | QUICKPICK | 70 | Purple | Pinkeye | Fresh market, canning | Compact bush produces 8" purple pods. Easy harvest by hand or machine. Excellent for drying or canning. Small to medium size peas. |
| 6450NT | TOP PICK CREAM | 70 | Green-tan | Creamy white | Fresh market, can, freeze | Upright bush. Pods are produced in the top part of the plant; set is concentrated. Pods are pale silver-green in color when ready to pick at the green pea stage. Good virus & disease tolerance. |
| 8414 | CALIFORNIA BLACKEYE #5 | 75 | Green-tan | Blackeye | Fresh market | Tall, bushy plants bear pods level with foliage. <i>A favorite with Southern growers!</i> |

For varieties sold by seed count, M = 1,000 seeds. To calculate price, multiply the number preceding the "@" sign by the price.

EXAMPLES: 10 M @ \$2.00 To find the price of 10,000 seeds multiply
 $10 \times \$2 = \20.00
 20 lb. @ \$3.00 To find the price of 20 lb. of seeds multiply
 $20 \times \$3 = \60.00

Please note that our prices may change without notice to reflect changes in supplier pricing. RETURN POLICY - All seed is sold on a NO RETURN basis.

BEETS

Listed By Maturity - See Pricing On Page 8

| Code | Variety | Days | Root Shape | Interior Color | Top Height | Use | Comments |
|------|---------------------|------------------------|-----------------------|----------------------------|------------|--------------------------|--|
| 8314 | AVALANCHE | 45 | Round | White | 12" | Fresh market, specialty | Bulbs are round and show off snow white flesh with excellent sweet flavor. Tops are healthy with good disease resistance. <i>IR: Cercospora LS.</i> |
| 6335 | SOLO F1 | 49 | Globe to Top - shaped | Dark red | 13" - 14" | Fresh market, baby | Mono-germ. Early, uniform beets accented by dark green, glossy tops. |
| 5039 | BORO F1 | 51 <i>full size</i> | Globe | Dark red | 12" | Fresh market, processing | Our favorite for baby beets, since Boro is quick to size up with smooth, fancy skin and a small refined leaf attachment. Vigorous tops are clean and tender. Can be used whole for pickling beets. Great flavor. <i>IR: Cercospora leaf spot</i> |
| 6790 | NEW BOHAN F1 | 52 | Round | Dark red | 14" - 16" | Fresh market | This eye catching new beet has very smooth skin and a round shape. It has vigorous, strong, clean tops. |
| 8076 | RED ACE F1 | 53 | Globe | Deep red, no zoning | 10" | Fresh market | Early maturing, extremely smooth skin, high sugar content, heat resistant. <i>IR: Cercospora LS.</i> |
| 6301 | RED CLOUD F1 | 53 | Round | Deep red, no zoning | 14" | Fresh market, processing | Red Cloud is not only productive, but is also the sweetest beet we know. Roots are smooth with a perfect round shape that doesn't taper at base. |
| 8073 | PABLO F1 | 60 | Round | Dark red | 12" | Fresh market, processing | Pablo is favored by customers, including processors, who want a beet that is perfectly round, deep red, and holds its shape without oversizing. |
| 8896 | GUARDSMARK Chioggia | 60 | Globe | Purple & white zones | 10" | Fresh market, specialty | Appealing to fresh market and specialty growers! Novel interior color is zoned white with vivid purple. Sweet flavor! Short tops. |
| 6972 | MONETA | 60 | Round | Deep red, no zoning | 14" | Fresh market | Mono-germ beet for precision seeding. Good bolting tolerance. |
| 7455 | TOUCHSTONE GOLD | 60 | Round | Bright gold, slight zoning | 12" | Fresh market | Touchstone is the most refined golden beet, with smooth skin and a solid, non-fibrous interior. Light green, semi-savoy leaves contrast well with golden roots. Very little zoning. |
| 7927 | FALCON F1 | 60 | Blocky | Deep red | 16 - 18" | Fresh market | Falcon is a high quality beet with better than usual ability to handle heat. It has medium tall tops. |

BROCCOLI *Listed By Days From Transplant - See Pricing On Page 10*

| Code | Variety | Days | Head Traits | Color | Market Season | Comments |
|------|---------------|------|--------------------------------------|------------|---------------------------|---|
| 9740 | LIEUTENANT | 58 | Smooth dome, med-small beads | Dark green | Spring | Lieutenant is an early maturing variety for spring seeding that rivals main season broccoli in quality. It holds better than others in its class and is less likely to have problems. It may work in fall, but not if early growth is during hot weather. |
| 5232 | EMERALD CROWN | 60 | High smooth dome, med-small beads | Blue green | Spring, late summer, fall | Produces a uniform, solid and heavy head for crown cut. Heads resist purpling in cooler weather. Emerald Crown handles warmer weather well, allowing for later spring harvest and summer seeding for late summer harvest. Most widely adapted variety for climates with weather extremes. |
| 6330 | GREEN MAGIC | 62 | Domed, mostly smooth, med-fine beads | Green | Spring, fall | Widely adapted and dependable, fancy quality heads. Sturdy and heavy. Good uniformity and holding ability. Pictured on page 10. |

BROCCOLI

Listed By Days From Transplant - See Pricing On Page 10

| Code | Variety | Days | Head Traits | Color | Market Season | Comments |
|-------|--------------|------|--------------------------|-----------------|----------------------|--|
| 6764X | DIPLOMAT | 67 | Semi-dome | Dark blue green | Spring, summer, fall | Offers a good combination of heat tolerance and head quality. A long clean stem makes Diplomat good for bunching. |
| 8237 | IMPERIAL | 71 | Medium dome, small beads | Dark green | Spring, summer, fall | Imperial produces fancy quality in warm weather and is good for spring, summer and early fall crops (and winter in the South). If you think your conditions are too warm to grow broccoli, give Imperial a try. Best for crown cut. Imperial maturity may be affected by heat/day-length. |
| 7892 | ASTEROID | 73 | Medium dome, small beads | Deep green | Spring, fall | With excellent uniformity, and good heat tolerance, Asteroid is widely adapted for both spring and summer seeding. It is a good choice for bunching. |
| 7809 | EMERALD STAR | 74 | Tight dome, fine beads | Blue green | Warm, Hot to cool | This is an exciting variety, maturing a few days after Imperial. It can handle extreme temperatures better than most other varieties and brings a new level of heat to a later maturing slot. Field holding is excellent. The plant is vigorous and tall. It is used mostly for crown cut. |
| 5114 | AVENGER | 80 | Smooth dome, fine beads | Blue green | Fall, late fall | Avenger is for mid to late fall harvest in cool to cold weather. Heads are large with a dense, high, smooth dome. Avenger matures mid-season in early fall plantings, and very late in mid to late fall plantings. |

BROCCOLI

RAAB / RAPINI See Pricing On Page 10

| Code | Variety | Comments |
|--------|--------------------------|---|
| 5366 | NEW SPRING RAPINI | 52 days. Nice balance between vigor and slow bolting, this classic is an all around nice broccoli raab. |
| 6521NT | SPIGIARELLO "Iron" | 55 days. This ancient Roman and Etruscan green has wavy twisted leaves that will attract attention at farm markets, CSA's and specialty retailers. It is very nutritious, but we enjoy this for its flavor, which is milder and more tender than kale or collard greens. It tastes good raw, but it is traditionally cooked. Grows like kale. |

Leading the Way with Improved Cabbage Varieties

Our hybrid cabbage varieties are bred by Bejo Seeds, the international leader in cabbage seed. Bejo cabbage is very reliable, widely adapted, dense and round. Uniformity is exceptional, contributing to excellent yields. Bejo cabbage typically features taller stems and leaves that are shaped to drain water readily; both help to ensure clean heads.

GREEN FRESH MARKET HYBRIDS

Listed By Days From Transplant - See Pricing On Page 19

| Code | Variety | Days | Head Type | Head Size / Weight | Plant Size / Color | Disease / Abiotic Reaction | Comments |
|------|--------------------------|------|-----------------------------------|---|-------------------------------------|----------------------------|---|
| 6013 | TIARA | 62 | Round | 1½ - 2 lbs., 5" | Compact, medium green | | Tiara looks and tastes like a small iceberg lettuce if harvested before the heads become solid. We have used it just like lettuce in salads and even sandwiches. The small heads are very uniform, and have an appetizing fresh green color and have a wonderful "crackly" texture. |
| 8399 | FARAO | 63 | Round | 2 - 3 lbs. | Dark green | AB: TB | This very early variety makes dense, sturdy heads that hold up well in the field. Very good uniformity of head size and maturity. Can be crowded. |
| 5602 | CARAFLEX pointed head | 68 | Pointed head | 1½ - 3 lbs., 10" - 13" | Medium frame, dark green wrap | | Caraflex, if crowded to an 8" row spacing, will make a smaller, slender head that resembles romaine lettuce. It increases in girth with wider spacing. This type has excellent flavor and is a traditional first green of spring in many parts of Europe. It stores for up to 10 weeks. |
| 9386 | ARTOST | 68 | Round, short core | 3 - 6 lbs., 14 - 20 count, 7" | Medium frame, medium green | HR: Foc AB: TB | Uniform with excellent density and holding ability. Good yields; cut early for a boxed cabbage or later for slaw. Adapted to most growing regions of the US and Canada. |
| 8829 | BENELLI | 78 | Slightly flattened to round | 4 - 10 lbs., 12 - 18 count, 7" - 9" | Medium frame, dark blue-green | HR: Foc AB: TB, TT | Benelli is a good choice if you are looking for large size and flavor with some Black Rot resistance. It makes excellent slaw with a mild and sweet yet true cabbage flavor. Head size is readily controlled with spacing. |
| 8989 | BRONCO | 80 | Round, short core | 3 - 6 lbs., 12 - 20 count, 6" - 7" | Medium frame, blue-green | HR: Foc AB: TB, TT | Very fancy heads are protected by waxy leaves. Bronco sets the standard for excellent yields and shipping quality. Bronco is your best choice if you need heads to stay small enough for boxing. The heads can get very dense without oversizing. |

CABBAGE

GREEN FRESH MARKET HYBRIDS *Listed By Days From Transplant - See Pricing On Page 19*

| Code | Variety | Days | Head Type | Head Size/Weight | Plant Size/Color | Disease/Abiotic Reaction | Comments |
|------|------------------|------|----------------------|--|---------------------------------------|----------------------------------|---|
| 8920 | BRUNO | 81 | Round | 2½ - 4½ lbs., 16 - 22 count, 6" - 7" | Medium-large frame, dark green | HR: Foc IR: Xcc | Bruno features a tight wrap and good head density. It is the best bet if you want a smaller head for boxing and need good Black Rot resistance. |
| 9681 | GUNMA | 83 | Flat | 4 - 8 lbs., 8" x 13" | Large frame, green | AB: TT | Large diameter. Exaggerated, flat heads produce thin, crisp leaves with a mild flavor. Great for stuffing and salads! This type of cabbage is preferred by some Asian markets and is fabulous for making whole sour-head fermented cabbage. It is crisp-tender. |
| 6866 | RAMADA | 83 | Round, short core | 4 - 6 lbs., 12 - 18 count, 7" | Medium-large frame, blue- green | HR: Foc AB: TB | Ramada is well wrapped, dark, classy, and uniform. The dense heads stand upright on strong stems. It is widely adapted and used for fresh market boxing and will store short term. Does very well in heat, including the Southeast. |
| 5503 | EXPAT | 85 | Round, short core | 3 - 6 lbs., 12 - 18 count, 6.5" | Medium-large frame, blue- green | HR: Foc AB: TB | Expat has excellent stress tolerance and can handle heat, cold and too much or too little water better than other varieties in its slot. A protective wrap keeps the dense head clean. |
| 5206 | CAPTURE | 85 | Round | 3 - 8 lbs., 14 - 20 count, 6" - 7" | Medium-large, green | HR: Foc IR: Xcc | An excellent choice if you need flavorful, fancy heads and very good Black Rot resistance. When grown at high density, Capture makes attractive, dense heads for fresh market boxing. Widely adapted. |
| 9071 | SUPERSTAR | 85 | Round | 20 count, 6"-7" | Large frame, dark green | HR: Foc | SuperStar has a fancy, dense head with blue-green leaves, and it is reliable, widely adapted and uniform. SuperStar is primarily used for boxing and is appreciated for good holding both in the field and after harvest. |

CABBAGE**GREEN STORAGE HYBRIDS** *Listed By Days From Transplant - See Pricing On Page 19*

| Code | Variety | Days | Storage Rating | Head Type/Size | Plant Size/Wrap | Plant Color | Disease/Abiotic Reaction | Comments |
|------|--|------|----------------|--------------------------------|----------------------------|----------------------|---|---|
| 6971 | REACTION | 100 | Long term | Round to oval, small to medium | Medium frame, good wrap | Gray-green | HR: Foc | Developed for high density planting to produce uniform, small, dense heads. Medium head size at traditional spacing. |
| 6856 | PARADOX | 105 | Long term | Round, large | Medium, well wrapped | Gray-green | HR: Foc AB: TB | Nice, large heads have a short core with attractive, fresh appearance out of storage. Handles heat well. |
| 5458 | EXPECT <i>also used for fresh market</i> | 108 | Very long term | Round, large | Medium, good wrap | Gray-green | HR: Foc AB: TT | Beautiful, fresh green color out of storage coupled with dense, perfectly round heads and heat tolerance have quickly made Expect a favorite variety. Very uniform, productive and easy to trim. Because it does so well in warmer areas, it is also being used for fresh market. |
| 5288 | SIRCON | 110 | Long term | Round, medium-large | Medium-tall, leafy | Gray-green | HR: Foc AB: TT | Medium-large heads have good recovery after storage and are easy to trim. Clean and nicely wrapped with a good frame. |
| 8245 | AMTRAK | 115 | Very long term | Round, large | Medium-tall, leafy | Medium to dark green | HR: Foc IR: BLS AB: TB, TT | Large, very clean out of storage. High recovery, short core, easy trim. A favorite in areas where storage cabbage is traditionally produced. |
| 8260 | BARTOLO | 115 | Very long term | Round, large | Short stem, excellent wrap | Dark green | IR: BLS AB: TB | Proven high yields. Waxy, thick, serrated leaves. Excellent storage. Late, fresh market boxing. |
| 8285 | ZERLINA | 125 | Long term | Round, large | Tall, nice wrapper leaves | Medium to dark green | IR: BLS AB: TB, TT | Sweet, easy trim, very productive if planted early. High recovery. |

CABBAGE

PROCESSING KRAUT/SLAW

Listed By Days From Transplant - See Pricing On Page 19

| Code | Variety | Days | Holding Ability | Dry Matter | Head Size/Density | Disease/Abiotic Reaction | Comments |
|------|------------------|------|-----------------|------------|---------------------------------|-------------------------------------|--|
| 7129 | PADOC | 70 | Good | Low-medium | Large, very dense | HR: Foc | Padoc is vigorous and uniform, producing large round heads with short cores and a white interior. Widely adapted for early kraut and slaw. Padoc is a very good choice if your cabbage needs to grow through some hot days. It has strong seed vigor for direct seeding. |
| 9933 | EXCALIBUR | 78 | Good | Medium | Large | HR: Foc IR: Xcc | Early processing cabbage with good uniformity, a large frame and good Black Rot resistance. Excalibur holds well in the field without splitting or purpling. Mild and sweet flavor. |
| 8169 | CECILE | 80 | Excellent | High | Large, extremely dense | HR: Foc AB: TB | Round, high dry matter, very short core. Attractive blue/green, vigorous, widely adapted. Reliable, high yields for kraut or slaw. |
| 7726 | NIXON | 83 | Excellent | Medium | Very large, very dense | HR: YR IR: TB | Nixon quickly became one of our top-selling kraut cabbage varieties due to great vigor, extra-large heads and clean plant. Does well in warm (or cool) weather. Strong seed vigor makes Nixon suited for direct seeding. |
| 9931 | PASSAT | 85 | Very good | High | Medium-large, dense, short core | HR: Foc AB: TB, TT | A healthy, clean and upright plant produces dense heads that are suitable for processing or fresh market. The flavor and internal quality are very good. Passat handles heat well and is widely adaptable. Good for mechanical harvest since it has a longer strong stem. It has the highest amount of vitamin C content of our processing cabbage. This helps keep the kraut white. |
| 8218 | MEGATON | 85 | Excellent | Medium | Very large, very dense | HR: Foc AB: TB | Short cored, vigorous growing, capable of holding over extended periods. Widely adapted and aptly named because of the large heavy heads. |

RED FRESH MARKET *Listed By Days From Transplant - See Pricing On Page 20*

| Code | Variety | Days | Head Type | Head Size/Count | Plant Type | Disease/Abiotic Reaction | Comments |
|------|----------------------|------|----------------------|-------------------------------|---------------------------|------------------------------|---|
| 8100 | OMERO | 71 | Round, compact | 2 - 3 lbs., 18 - 24 count | Small-medium frame | IR: BLS AB: TB | An improved Primero with better uniformity. Omero is a nice variety in what is becoming a preferred size. For an early variety, Omero holds incredibly well in the field. |
| 5373 | ALFARO NEW | 74 | Round | 3½ - 6 lbs., 16 - 22 count | Medium frame | HR: Foc AB: TB | This new mid-early red cabbage has a medium to large sized, deep red, dense head. Wrap leaves are easy to trim off. |
| 8097 | AZURRO | 78 | Round, slightly flat | 3 - 4 lbs., 14 - 22 count | Medium frame | IR: BLS AB: TB, TT | Uniform, reliable and vigorous grower with good wrap. Ideal for boxing. |
| 9320 | CAIRO | 85 | Round, dense | 3 - 6 lbs., 12 - 20 count | Medium frame good wrap | HR: Foc IR: BLS AB: TB | Uniform, dense red for summer and fall production. This is the darkest and roundest fresh market red cabbage available. Great yields and good for short term storage. Very uniform in head size and maturity. |

SAVOY HYBRIDS *Listed By Days From Transplant - See Pricing On Page 20*

| Code | Variety | Days | Color/Savoy | Head Shape | Head Size | Disease Reaction | Comments |
|------|----------|------|---------------------------------------|------------|-----------------|-------------------|---|
| 9183 | ALCOSA | 62 | Dark green, medium savoy | Round | Small to medium | HR: Foc AB: TB | Earliest and widely adapted with compact, dense heads. For spring and early summer production. |
| 6524 | CLARISSA | 78 | Deep green, medium fine savoy | Round | Medium | AB: TB | Early, compact, and dense internal structure. Short core, finely savoyed leaf, ideal for close spacing. Outstanding uniformity contributes to excellent yield. |
| 8084 | MELISSA | 80 | Dark green, medium fine savoy | Round | Medium | HR: Foc | Melissa is an easy-to-grow, widely adapted, reliable, and uniform variety with a medium-fine savoy. It tolerates crowding for a 3-4 lb. head. Melissa and Clarissa can both be grown spring and fall. |
| 8047 | PRODUSA | 90 | Medium green, deep savoy | Round | Medium | | High yielding for fresh market or short term storage. Like Wirosa, it is best for harvest in cool to cold weather. |
| 8096 | WIROSA | 110 | Gun metal dark green, fine full savoy | Round | Medium | AB: TB | Frost tolerant, solid heads are popular for late fall harvest. Ideal for fresh market and storage. |

CABBAGE

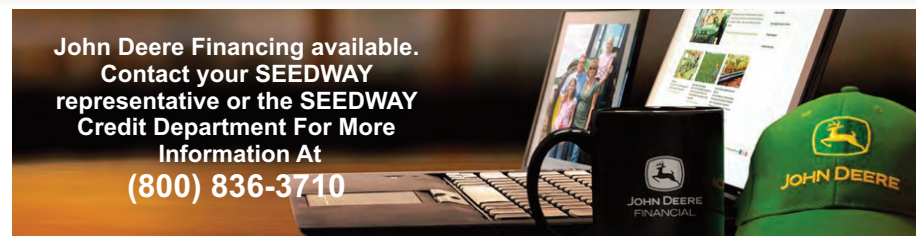

CHINESE CABBAGE HYBRIDS *Listed By Days From Transplant - See Pricing On Page 20*

| Code | Variety | Days | Head Size | Disease Reaction | Comments |
|------|---------------------------------|------|-----------|----------------------------|---|
| 5154 | EMIKO | 55 | 13" x 6" | HR: BLS, Pb, Foc AB: TB | Dark green wrappers showcase high quality, tall oval heads, 3-6 lbs. Good for spring and fall production. Resists headrot caused by soft rot bacteria. Uniform size and maturity, and relatively slow bolting. Resistant to Club Root, Pepper Spot and tipburn. |
| 6046 | PACIFIKO | 56 | 13" x 7" | HR: BLS, Pb, Foc AB: TB | Pacifiko shares Emiko's uniformity, disease and rot resistance while adding an appetizing buttery yellow center. You can see the color difference in the photo to the left. |
| 5316 | WAWA TSAI <small>NEW</small> | 52 | 10" x 5" | HR: Pb | This mini Napa cabbage is just the right size for farm stands and CSA's. It is easy to grow and uniform. Make sure to space closer than standard Napa. We suggest 8' in row in a double or triple row. Wawa Tsai is uniquely sweet and tender. |

| ASIAN GREENS | | OTHER <i>See Pricing At Right</i> |
|--------------|--------------------------------|---|
| Code | Variety | Comments |
| 5938 | MIZUNA | 45 days. Vigorous growth of light green serrated leaves. Flavor is mild when young; mustard flavor develops as leaves mature. Prolific branching habit. |
| 7898 | MIZ AMERICA MIZUNA | 47 days. Beautiful nearly solid purple-wine color with frilly leaves. Slow bolting. This is a hybrid but priced so that it can be used as baby leaf. It has a delicious zingy mustard flavor and is excellent to spice up a salad. |
| 7673 | LI REN CHOI Pak Choi | 41 days. This green stem Pak Choi is smaller, earlier and even more uniform than Mei Qing Choi. Bolt resistance is very good. |
| 6390 | MEI QING CHOI Baby Pak Choi | 43 days. Popular miniature, green stem Pak Choi. Vigorous growth with uniform maturity. Good tolerance to both heat and cold, and very bolt resistant. |
| 9103 | BOPAK Pak Choi | 46 days. This fast growing, white stemmed Pak Choi has unusually dark green glossy leaves and makes a dense, heavy, erect head. The compact plant can be crowded and still make a large head. It is slow bolting and uniform. |
| 7641NT | WINE COLOR Pak Choi | 40 days. This had a true Pak Choi shape with a beautiful burgundy red leaf surface. Medium sized sturdy stems, and a slender profile. It is relatively slow bolting and will get about 10" tall if desired. |
| 8291 | JOI CHOI Pak Choi | 50 days to full-size head. Classic white stem Pak Choi. Upright plant habit with wide white petioles and dark green leaves. Uniform, slow bolting and cold tolerant. |
| 5725NT | OSAKA PURPLE Mustard | 40 days full size, 25 days baby. Shaped something like an open romaine lettuce with a backrolled margin and shallow savoy, Osaka Purple has purplish-red coloring over a green base. The flavor when raw is like spicy prepared mustard. It is one of the most cold tolerant greens and is very good in high tunnels. |

NAPOLI F1^

BEJO & SEEDWAY: LEADING THE WAY WITH IMPROVED CARROT VARIETIES

CARROTS *Daucus carota var. Sativus 10,000 to 24,000 seeds/oz.*

Generally, stone-free sandy loam or organic soils are best to insure good yields and uniform carrot shape. Planting into well drained soil will help avoid water stress and soil disease such as Phythium. Raised beds are recommended to help maximize root length and overall yield.

Carrots prefer a pH between 6.2 and 6.8 and good fertility. Typical per acre fertilization rates are 75 lb. N, 100 lb. P₂O₅, and 200 lb. K₂O for muck soils, and 120 lb. N, 75 lb. P₂O₅, and 150 lb. K₂O on mineral soils.

Seed should be sown into a well prepared seedbed 1/4" deep. Avoid soils with a tendency to crust. Light irrigation may be required to keep the seedbed moist for germination. After emergence, avoid over irrigation; grow on the dry side and allow seedlings to elongate to reach moisture.

| Intended use | Seeds per Row Foot | Approx. Seeds per Acre |
|-------------------------|--------------------|------------------------|
| Dicer processor | 8 - 10 | 250,000 |
| Early bunching | 16 - 18 | 500,000 |
| Jumbo fresh market | 18 - 20 | 550,000 |
| Slicing processor | 22 - 24 | 600,000 |
| Cellopak fresh market | 24 - 28 | 700,000 |
| Cut-n-peel fresh market | 35 - 45 | 1,100,000 |

PROCESSING DICER/SLICER *Listed By Maturity - See Pricing On Page 27*

| Code | Variety | Days | Root Size | Shape | Interior | Tops | Use | Comments |
|------|-------------|------|------------------|------------------------|---------------|-----------|---------------------|--|
| 6571 | BELGRADO F1 | 74 | 10" x 2" | Slight taper | Bright orange | 12" - 14" | Slicer, dicer | Big yields for early production areas! Roots are long and bulky. Tops are small, but have strong attachment. |
| 6633 | BASTIA F1 | 85 | 9" x 2" | Slight taper, blunt | Dark orange | 14" - 18" | Dicer, jumbo sticks | Smooth jumbo. Excellent internal color, strong tops. Stores well. |
| 8322 | BERGEN F1 | 85 | 8" - 9" x 1 1/2" | Cylindrical, blunt tip | Orange | 12" - 16" | Slicer | Full season, extra heavy yields, strong tops. Stores well. |

CARROT VARIETIES ARE GENERALLY IN STOCK AS PELLETTED. OTHER VARIETIES AVAILABLE COATED ON CUSTOM BASIS. MINIMUM PER LOT CHARGE WILL BE APPLIED. PLEASE INQUIRE ABOUT CHARGES AND MINIMUMS.

For varieties sold by seed count, M = 1,000 seeds. To calculate price, multiply the number preceding the "@" sign by the price.

EXAMPLES:

To find the price of 10,000 seeds multiply

10 x \$2 = \$20.00

To find the price of 20 lb. of seeds multiply

20 x \$3 = \$60.00

CAULIFLOWER **HYBRIDS** *Listed By Maturity - See Pricing On Page 30*

| Code | Variety | Days | Head Description | Plant | Self Wrapping | Comments |
|------|---------------------|------|----------------------------|----------------------------|---------------|---|
| 8534 | MINUTEMAN | 53 | 6" - 7", Domed | Medium, vigorous | No | An early variety with good head density and weight. Good early performance and widely adapted for all but the hottest season. |
| 7643 | FUJIYAMA | 64 | 6" - 8", Domed | Med-large | Partial | Get a jump on summer cauliflower with this tropical type. Fujiyama needs heat to make a big plant, but in heat it will make a medium-sized sweet tasting head. Maturity is outstandingly uniform. When slotted right, the plant gets nice and big, but should be tied for a truly white head. In South Central PA, we do not seed earlier than the 1st week in June for crops beginning mid-August. |
| 6449 | NEW BERMEO | 65 | 6", Dome dense | Med-large | Excellent | Bermeo features the best inner wrap we have seen on an early maturing, heat tolerant cauliflower. It also has excellent uniformity with high domed, dense, medium-sized heads. |
| 8983 | STEADY | 66 | 6" - 7", Domed, dense | Medium | Partial | Offers improved uniformity for its maturity, with solid white heads. Steady has good heat tolerance and performs well in spring and fall. Good inner wrap. |
| 5381 | NEW CLARIFY | 66 | 7" - 8", Medium dome | Very large | Very Good | Early main-season variety that is heat tolerant and has the biggest plant in its maturity. It is one of the few varieties with Club Root resistance, but even if that isn't a problem, Clarify is well worth trying. |
| 5077 | FREEDOM | 67 | 6" - 7", Domed, dense | Medium | Partial | Spring-fall, vigorous, self blanching, high quality. <i>The standard for heat tolerance!</i> |
| 7599 | NEW AQUARIUS | 69 | 6" - 8", Domed, dense | Large, vigorous | Good | Aquarius offers a large leafy plant and very good uniformity. It is widely adapted, does well in warm weather, and can get large heads. |
| 6690 | FLAMENCO | 71 | 7" - 9", Domed, dense | Med-large, erect, vigorous | Very Good | Our favorite variety for fall production with an excellent wrap and fancy dense heads. Widely adapted, including the Southeast in winter. The outer frame leaves are long and erect for added shading from the sun. |
| 5391 | NEW TOLEDO | 75 | 7", High dome | Extra large | Excellent | Toledo is a fantastic new variety for maturing in cool weather. With a very large plant and complete inner wrap, Toledo has a pure white, heavy head and excellent uniformity in its maturity. |
| 6367 | ABSOLUTE | 75 | 6" - 8", Domed, dense | Med-large, erect, vigorous | Very Good | Absolute features excellent uniformity and bright white color, even if the wrap pulls away from the head. In cooler areas, Absolute can be used in spring. |
| 8340 | AMAZING | 75 | 7" - 8", Deep domed, dense | Large | Very Good | Vigorous plant. Wide wrappers provide good protection. Amazing is good if you don't want everything to mature at one time. It is best for harvesting during cool weather and not for spring. |

CAULIFLOWER

ROMANESCO *See Pricing On Page 30*

| Code | Variety | Days | Comments |
|------|----------|------|---|
| 9244 | VERONICA | 77 | 7" - 8". Spiraled heads are uniform in size and maturity. Veronica has good heat tolerance and can be planted to mature in late summer through late fall. Romanesco has a very dense head with a mild and nutty flavor. It is grown like cauliflower. |

VERONICA^

CAULIFLOWER

COLORED *Listed By Maturity - See Pricing On Page 30*

| Code | Variety | Days | Head Description | Plant | Comments |
|------|-----------|------|---|--------------|---|
| 6368 | CHEDDAR | 67 | 6" - 7", Domed, orange | Small-medium | Appealing orange curd. Tastes great raw or cooked! Recommended for fall or early spring. Not heat tolerant but otherwise <i>very easy to grow</i> . |
| 7899 | DePURPLE | 67 | 6" - 7", Medium dome, brilliant violet purple | Large | DePurple produces a large, heavy head with early maturity. The florette stems are white and are very attractive when cut. Some heat tolerance and works in early spring sowing and fall. It tastes good raw and holds its color reasonably well when cooked. While in spring DePurple is a vivid dark purple, but it may be more lavender colored when maturing in cool weather. Handle the heads carefully at harvest to avoid bruising. |
| 7642 | FLAMESTAR | 70 | 7" - 9", High dome, creamy orange | Med-large | This easy to grow, golden orange cauliflower makes a large, heavy head that is nearly problem free with great uniformity. Compared to Cheddar, the color may be lighter, but the weight and size is better. |
| 8351 | SUSANA | 84 | 6" - 7", Medium dome, minty to chartreuse | Large | With green cauliflower becoming more popular, you will like the quality for mid to late fall harvest. Susana will "wait out" hot weather before forming a head, so don't expect it early in hot climates. |

SWEET CORN

Definitions Describing The Reaction Of Plants To Pests, Pathogens, And Abiotic Stresses (as defined by the International Seed Foundation)

The following definitions are meant to clarify the level or degree to which plants are able to respond to or protect themselves against insect, bacterial, fungal, viral, or other pests in the environment:

Immunity: Not subject to attack or infection by a specified pest or pathogen. *No claims of true immunity are made on any variety sold in this catalog.*

Resistance: The ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure.

Two levels of resistance are used in this catalog:

High resistance (HR) or Resistance (R) (specified as per vendor preference): Plant varieties that highly restrict the growth and development of the specified pest or pathogen under normal pest or pathogen pressure when compared to susceptible varieties. These plant varieties may, however, exhibit some symptoms or damage under heavy pest or pathogen pressure.

Intermediate resistance (IR): Plant varieties that restrict the growth and development of the specified pest or pathogen, but may exhibit a greater range of symptoms or damage compared to highly resistant varieties. Moderately resistant plant varieties will still show less severe symptoms or damage than susceptible plant varieties when grown under similar environmental conditions and/or pest or pathogen pressure.

Tolerance: The ability of a plant variety to endure *abiotic stress* without serious consequences for growth, appearance, and yield.

Susceptibility: The inability of a plant variety to restrict the growth and development of a specified pest or pathogen.

GR:SE = Geographical restriction; due to vendor agreement, we may not be able to supply large quantity orders in Southeast states.

Supersweet or SH₂ Hybrids contain the shrunken gene (sh2) and have higher sugar content than Su and Se genotypes. The SH₂ gene greatly blocks the conversion of sugar to starch; thereby allowing supersweet hybrids to hold their sweetness much longer than Su or Se types. As a result, supersweets are ideally suited to 3 to 5 day long distance shipping. Supersweet hybrids have greatly improved in the last couple of years. You will notice increased tenderness, higher sugars and better eating quality. Several names are being used in the industry to denote high quality supersweets, i.e. Augmented, Xtra Tender, Gourmet Sweet, Multi-Sweet.

Growing Tips: Supersweet hybrids generally require warm soil (60 degrees or higher) for optimum germination. Supersweets should be isolated from Su, Se, and field corn varieties to ensure sweetness, tenderness, and flavor. Distances of about 50', plus the use of border rows, and varieties with at least an 8 day difference in maturity keep contamination to a minimum.

SWEET CORN BICOLOR SH₂ *Listed By Maturity - See Pricing On Page 36*

| Code | Variety | Days | Ear Length | Row Count | Husk | Plant Habit | Disease Reaction | Comments |
|-------|---|------|------------|-----------|-------------------------|-------------|--------------------------|---|
| 7807C | KICKOFF XR | 69 | 8" | 16 - 18 | Med. green, great cover | 5 ½' | HR: Ps (Rp1G) | A first early, high quality with an excellent husk package. Great seed quality. Strong tipfill. |
| 7806C | HERO XR | 71 | 7 ½" | 16 | Dark green, med. tight | 5' | HR: Ps (RpGDJ) | An early shipper ear that is widely adapted. Good cold soil vigor. Good snap. |
| 9794C | ANTHEM XR | 72 | 8" | 18 - 20 | Dark green, good cover | 6' | HR: Ps (Rp1G) | Widely adapted with excellent eating quality. Suitable for shipping or local sales. Clean, sturdy plant, easy snap and attractive snapped ear. |
| 7910C | ANTHEM II <small>Performance</small> | 72 | 8" | 18 | Dark green | 6' | | All the characteristics of Anthem with added Performance Series traits. See page 43 for Performance Series information. <i>License Number is required. GE. GR:SE</i> |
| 7662C | ROSIE <small>QUALITY</small> | 74 | 8" | 16 - 18 | Med-dark green | 6 ½' | | Large, attractive ears for a second early. Glossy kernels. |
| 9991C | AWESOME XR | 74 | 8" | 14 - 16 | Dark green, good flags | 5 ½' - 6' | HR: Ps (Rp1G) IR: Pst | Awesome type with added rust resistance and more plant vigor. Has excellent yield potential. Can be used all season in Northern regions. |

WHITE SH2 *Listed By Maturity - See Pricing On Page 37*

What is the sh2i gene? The sh2i gene is a naturally occurring gene discovered by the University of Florida. It is not genetically modified. The sh2i gene gives you the same eating quality as a normal sh2/supersweet. The sh2i gene when put in the proper genetic background does not affect the eating quality or shelf life.

What is the benefit? The sh2i gene promotes a larger, denser kernel. A harder kernel translates to harder seed that provides better seedling vigor and uniformity.

SEEDWAY carries 2 SH2i hybrids: Nirvana (bicolor sh2) and Eden (white sh2)

| Code | Variety | Days | Ear Length | Row Count | Husk | Plant Habit | Disease Reaction | Comments |

SWEET CORN

BICOLOR Se Listed By Maturity - See Pricing On Page 40

Sugary Enhanced Hybrids contain the sugary enhancer (se) gene, significantly raising the sugar content above standard su's while retaining the tenderness and creamy texture of standard varieties. High initial sugar allows them to hold sweetness longer and are best suited for local or one day shipments. Se's can be either homozygous (both parents carry the se gene) or heterozygous (only one parent carries the se gene). Homozygous hybrids are sweeter and more tender with all kernels having elevated sugars. Heterozygous hybrids, while sweet, tend to have stronger vigor, especially in cool soils. Se hybrids have been greatly improved in the last couple of years to increase sweetness, corn flavor, and offer improved eating quality. Several names are being used in the industry to designate these improved se hybrids, ie Synergistic, TripleSweet, TripleSweet Plus, Quad Sweets. **Growing tips:** No isolation from standard su's is necessary. **Synergistic hybrids** are homozygous for either the su or sh2 gene and heterozygous for the other. Synergistics are utilized primarily to increase sugar levels in the su/se types while maintaining the tender pericarp and creamy texture that make se's desirable. Seed quality is not generally affected and will be similar to hybrids within the class they are compatible with. **Growing tips:** All synergistic hybrids that we presently carry are su/se compatible and can be planted with su/se hybrids, but need to be isolated from sh2 types.

SWEET CORN PERFORMANCE SERIES™

Performance Series™ corn varieties aids in weed and insect control. Insect protection covers both above-ground and below-ground pests. Plus, Performance Series™ varieties are tolerant to RoundUp WeatherMAX® and Roundup PowerMAX®. Although Performance Series™ sweet corn varieties reduce the need for chemical insect control, they do not entirely replace IPM controls. Performance Series™ does not control cutworm, aphids, flea beetles or western bean cutworm. Fields need to be scouted for these pests to prevent economic loss. Performance corns are an IPM tool. Not a cure all.

Aids In Control Against The Following Pests

- | | |
|-------------------------------|------------------------------|
| Fall Armyworm | Corn Earworm |
| European Corn Borer | Southwestern Corn Borer |
| Sugarcane Borer | Southern Cornstalk Borer |
| Common Stalk Borer | Western Corn Rootworm Larvae |
| Northern Corn Rootworm Larvae | |

SWEET CORN ATTRIBUTE™

Attribute™ sweet corn varieties provide control of European Corn Borer and aids in the control of Corn Earworm. Although Attribute™ sweet corn varieties reduce the need for chemical insect control, they do not entirely replace IPM controls. Attribute™ does not control corn rootworm, fall armyworm, cutworm, western bean cutworm, aphids or flea beetles and fields need to be scouted for these pests to prevent economic loss. Attribute™ corns are an IPM tool. Not a cure all. These hybrids are tolerant to glufosinate herbicides approved for application over the top of Attribute™ Sweet Corn.

CORN **ORNAMENTAL** *Listed By Maturity*

| Code | Variety | Days | Comments |
|-------------------|--|------|--|
| 5350NT NEW | EARTH TONES (hybrid) | 90 | This early dent flour corn variety has an ear 8 - 10" in length. The remarkable trait of this dent corn lies in the beautiful muted colors in the ear. The kernels of the corn are NOT the shiny, deep intense colors found in Indian Corn. The ears contain many of the soft colors found in nature near harvest time. The beautiful ears can be used for fall decorations, ground into flour, or used as feed for birds and other animals. (1,500 seeds per pound) |
| 8465 | FIESTA (hybrid) | 95 | Early maturity hybrid; shorter, stouter plants are less susceptible to wind damage. Ears are 7 - 10" in length with 20% - 30% purple husks. Colors of yellow, red, white, blue, purple and variegated kernels. (1,700 seeds per pound) |
| 5328 NEW | HOCUS POCUS (hybrid) SEEDWAY EXCLUSIVE | 100 | This orange/black hybrid is great for Halloween or anytime in the fall. It produces a sturdy 7.5' plant and 8" ears. The husk and cob have a reddish tint when mature. Clean single stalk, great for bunching. (1,800 seeds per pound) |
| 5349NT | RAINBOW MINI INDIAN CORN | 100 | Ears are 3 - 6" long. Nice percentage of red husks in this blend. Wide variety of kernel colors on the ear, including many pastels. Stalks are 6-8' tall and stand well. Harvest when husks are dried. (5,000 seeds per pound) |
| 9215 | AUTUMN EXPLOSION (hybrid) SEEDWAY EXCLUSIVE | 102 | Hybrid flint with improved lodging resistance. 8 - 9" ears have varied combinations of red, white, pink, yellow, purple and variegated kernels. Approximately 25% red husks. (1,500 seeds per pound) |
| 9574 | BROOM CORN MIXED COLORS | 105 | Heads/plants look much like sorghum; heads traditionally used for brooms. Colors include gold, deep brown, rusted wheat and white. Attractive for dry arrangements, crafts and brooms. (16,000 - 20,000 seeds per pound) |
| 5347NT NEW | SHADES OF BLUE | 105 | Ears are 3 ½ - 5 ½" long. Several blends of blue shades including sky blue and violet blue. Harvest when husks are dried. (5,000 seeds per pound) |

*Different seed lots and different growing seasons will effect seed size and seeds per pound. The numbers listed here are estimates based on our history with these varieties.

CORN **POPCORN**

| Code | Variety | Days | Comments |
|--------|-------------------------|------|---|
| 9787 | R400MR | 110 | Yellow popcorn with tolerance to Goss's wilt. Large single ears promote high yield potential. This is a mushroom type flake with good expansion and popping percentage. |
| 8474 | ROBUST YELLOW | 98 | Produces large yellow kernels with 145 kernels per ounce. High yielding variety with very large popped flakes. Makes excellent candied popcorn ears. |
| 5351NT | NEW CHERRY BERRY | 98 | Larger, longer ears than standard strawberry making for a good pack out. Husk colors are a mixture of beige, burgundy, reds, and streaked. 5 - 6' stalk height with good standability. Fantastic yields. Harvest when husks are dried. (5,000 seeds per pound) |
| 6446 | ROBUST WHITE | 100 | Large ears with large, white kernels. Popped flakes are large and tender. |
| 5352NT | NEW CALICO | 100 | Calico popcorn ears are larger than our miniature popcorn varieties, but smaller than Indian corn. The ears range in size from 5 - 8". The kernels of seed are multi-colored with reds, yellows, and calicos most common. There are also ears with shades of brown, black, green, blue, pink, and orange kernels. The seed can be popped or used for decorations. (3,000 seeds per pound) |
| 6938 | MINIATURE COLORED | 105 | Red, yellow, black, gray, brown, purple, pink, blue, white, orange and many different calicos. Most ears are combinations of many colors. (7,500 seeds per pound) |

PARTHENO-CARPIC *Parthenocarpic: Ability to produce fruit without pollination* *Listed By Maturity - Pricing On Page 48*

| Code | Variety | Days | Fruit Size | Disease/Abiotic Reaction | Comments |
|------|---------------------------------|------|-------------|-----------------------------------|--|
| 6081 | LISBOA Slicer | 45 | 8" | IR: Ccu, CMV, CVYV, Pcu, Sf | Parthenocarpic slicer. Does well in tunnel/low tunnel production producing smooth, dark green fruit. Does not need insect pollination to set fruit. Productive, potential to set up to two fruit per node. |
| 6977 | LAGOS Slicer | 45 | 8" - 9" | HR: CMV, CVYV, Ccu, Cca Sf | American slicer type cucumber recommended for tunnel, greenhouse or isolated early field production. Fruit is dark-skinned and smooth. Parthenocarpic habit does not require bees for pollination and can offer the advantage of a consistent harvest on days when honeybees are not prone to work the fields. |
| 5464 | EXCELSIOR Pickle | 52 | 4 1/2" - 5" | HR: Cca, Ccu IR: CMV, CVYV, Sf | Produces for a long season, does not need insect pollination for fruit set if grown as a protected crop. Great flavor and a true American-style pickle. |
| 5230 | PICOLINO Mini Greenhouse | 52 | 4 1/2" | HR: Cca, Ccu IR: CMV, CVYV, Sf | Early! A mini or salad cucumber with dark green, smooth, glossy skin. A nice fit where high quality, smaller sized fruit is needed. Fruit is uniform and maintains its consistency and quality. Parthenocarpic, so no insects needed in protected cropping. |

LISBOA^

LAGOS^

EXCELSIOR^

PICOLINO^

Monoecious: Male and female flower grow on the same plant.

Gynoecious: Plants produce female flowers only; typically 15% of the seed as packaged will be a variety, with similar appearance, that provides the male flowers that are needed to produce fruit.

Parthenocarpic: Ability to produce fruit without pollination.

EGGPLANT

Listed By Type and Maturity From Transplant - See Pricing On Page 52

DAIRYU^

SLIM PURPLE^

NADIA^

A1014^

MEGAL^

| Code | Variety | Days | Fruit Shape/Type | Fruit Color | Comments |
|------|---|------|-------------------------------------|------------------------------|--|
| 7933 | A1014 Estelal SEEDWAY EXCLUSIVE  | 55 | Medium-sized, smooth teardrop | Purple/black | A1014 brings an entirely new level of quality, earliness and yield to the "American" style of eggplant. It is up to 10 days earlier than any other variety and will provide a lot of fruit early. The fruit has a refined look, is firm and glossy, and a "just right" size for most grocery stores. The calyx are totally spineless and won't scratch the fruit, your customers or harvest crew. Fruit separates easily from the plant with a gentle tug. The plant is compact but stays healthy and productive for a full season. Most growers will not need to stake A1014 and plants can be crowded. |
| 9581 | MEGAL | 60 | Long, tapered | Purple/black | Green calyx, long Italian type, 7" - 9" long, 3" diameter. Moderate resistance to TMV. |
| 8764 | DAIRYU | 60 | Med-long, slender, Japanese | Purple/black & glossy | Not only is this traditional Japanese eggplant early, but it will produce for a long season. Very reliable! Harvest 7" - 10" long. |
| 6817 | SLIM PURPLE | 61 | Long, slender, Chinese | Light purple | Long, slim fruit grows from 8" - 12" long and stays perfectly cylindrical. The calyx is a matching light purple with green shading. Tender. |
| 8034 | FAIRYTALE | 61 | Medium-sized, smooth teardrop | Violet with white streaks | Fairytale is a favorite for plant sales since the compact, strong plant can be grown in containers. The slender striped fruit is borne in clusters and makes loads of fruit. GR:SE |
| 6373 | NADIA | 62 | Teardrop | Black | Heavy early set, large fruits held high. Sets when cool. |

EGGPLANT

Listed By Type and Maturity From Transplant - See Pricing At Right

| Code | Variety | Days | Fruit Shape/Type | Fruit Color | Comments |
|---------|--|------|------------------------------|-------------------------------|--|
| 7686 NT | LITTLE PRINCE | 63 | Petite, egg-shaped Indian | Violet | The sturdy plant loads up with small oval/egg shaped fruit, usually in clusters of two or three. It is one of many Indian eggplant types and also can work for Middle Eastern and Bosnian markets looking for small fruited eggplant to stuff and/or pickle. The small cap is spineless and fruit is easy to pick. |
| 6531 | LUCILLA Zebra Stripe  | 63 | Smooth teardrop | Purple/black & glossy | Our favorite feature of Lucilla is a small, spineless cap, along with the super glossy skin that is darker than Nubia with bright white stripes. Yields are excellent. Fruit can get quite large and still hold quality. |
| 5497 | NUBIA Zebra Stripe  | 64 | Medium-size, smooth teardrop | Wine & cream streaks | Beautiful striped, glossy and firm fruit will dress up your eggplant offerings! Dark wine streaks overlay a cream background. |
| 8118 | SANTANA SEEDWAY EXCLUSIVE  | 65 | Extra large, teardrop | Purple/black | Versatile in size, Santana can get quite large and hold quality. A healthy plant supports high yields over a long season. The fruit stem and calyx are nearly spineless. Sets freely in adverse conditions. |
| 5496 | BARBARELLA | 65 | Round, pleated Sicilian | Violet w/ large white shading | Vigorous, healthy plant bears heavy fruit with dense, delicious white flesh. Barbarella is from Italy and has an authentic Sicilian look with a white halo and shading. Nearly spineless calyx. |
| 5495 | IMOLESE BIANCA | 66 | Medium size, blocky | White | Sturdy and upright plants bear pearly white fruit with a green calyx. Very firm fruit can be harvested at 7" - 9" in length. Holds white color well. Imolese has broader, blockier fruit than other white varieties. |

| Code | Variety | Comments |
|--------|-------------------------------------|--|
| 6658XZ | RHODOS Endive | 60 days. Also called Tres Fine Maraichere and used in salad mix, this type has finely curled, narrow leaves. Unlike baby lettuce, it is grown as separate heads and pulled apart. Space closely so the center will naturally blanch to a pale lemony color. Mildly bitter and crunchy. |
| 9587XZ | FULL HEART NR 65 Escarole | 60 days from transplant. Healthy, vigorous, dark green plants. Great uniformity and color. |
| 7861XZ | OLMOS Escarole | 60 days. Olmos is a real step up in escarole, with broad, green, wavy leaves that are more upright than usual. Heads are uniform, fast growing but very slow bolting, tipburn tolerant and readily make a blanched heart. Very uniform |
| 8502XZ | SALAD KING Endive | 63 days from transplant. Fast growing, uniform and attractive. Outside leaves are very dark green. |
| 6639 | TASOS Endive | 65 days from transplant. This is the classic Italian style endive with heavy, widely serrated, dark green leaves and a self-blanching center. |
| 6605NT | ITALICO RED STEM Dandelion | 60 days from transplant. This dandelion shaped chicory has appealing magenta colored stems and veins. |
| 5590Z | PUNTO F1 Catalogna Dandelion | 55 days. Tall, dark green, erect leaves grow vigorously. Unlike wild dandelion, it will not go directly to flower and can be grown later in the season, including as a fall crop. Can be transplanted and good for multiple cuttings. <i>IR: Powdery Mildew.</i> |

Herbs are great "fillers" in high tunnels, grown between your tomatoes at the beginning and ends of the season. Watch for basil, though, since it is very cold sensitive.

HERBS

See Price List At Bottom Right and Page 55

| Code | Variety | Comments |
|--------|--|--|
| 8337NT | Basil ELEONORA Genovese type | Eleonora has Downy Mildew resistance with medium-sized, lightly serrated leaves. It is good for the open field and containers. Pricing on pg 55. |
| 7962NT | Basil ELIDIA Genovese type | Genovese type with <i>intermediate resistance to Fusarium</i> . Growth is semi compact but it is high yielding (just shorter internodes). Leaves are shiny and dark green. Slow to bolt. Pricing on pg 55. |
| 5043 | Basil EMILY Plant sale type | Bred especially for live-plant sales. Emily comes up fast, smells heavenly, and has short internodes to facilitate packaging and shipping. It also does well in the field, being quite productive in leaves (only with shorter stems). |
| 5498NT | Basil TUSCAN Lettuce leaf type | This supersize lettuce leaf basil is a darker green color than other strains with a nice clean flavor. |
| 7658 | Basil PICCOLINO | This mini-Greek basil features excellent uniformity and a fabulous fragrance. It is slow bolting for this type of basil and forms a high, smooth mound with small leaves. |
| 4768OR | Basil PROSPERA | This new variety has a vigorous, upright habit with medium sized leaves. It has a high resistance to Downy Mildew and some resistance to Fusarium |
| 7228 | Cilantro LEISURE | Leisure is a Santo type at a better price point. We offer a strain that is carefully tended by the producer in the desert Southwest. |
| 8335 | Cilantro SANTO | Reliable quality. 45,000 seeds/lb. |
| 9791 | Cilantro CALYPSO | Calypso is very slow bolting and extra leafy with lots of sprigs from each plant. Multiple cuttings are possible. It is very cold tolerant. Calypso is around 6 weeks slower to bolt than any other cilantro we have seen. |
| 5045 | Chives STARO | Fast growing with thick, blue-green leaves. Staro's early vigor makes it excellent for live-plant sales. Staro can be grown over winter in greenhouses and for typical open field production. PERENNIAL. 28,000 seeds/lb. |
| 8283 | Dill BOUQUET | Bouquet is mostly used for seed heads- if you want a lot of the ferny green, Green Sleeves is a better choice. 12,000 seeds/lb. |
| 8519 | Dill DUKAT | Early with heavy foliage and large umbels. Anthocyanin free (non-purple). |
| 7938 | Dill ELLA Plant sale type | Ella is the perfect dill for selling live plants. It is slow bolting and makes lots of ferny, dark green stems. It is also good for anyone choosing to sell greens only and not needing flowers. |
| 5022 | Dill GREEN SLEEVES | Your best choice for greens (bunches) since it is very vigorous and also very slow to make a seed head. It does, however, make a nice large seed head to sell bunched for during pickle season. |

| Code | Variety | Comments |
|--------|-------------------------------------|--|
| 6414 | Fennel ORION Bulbing type | 80 days from seed, but can be transplanted. Orion forms uniform round bottoms that hold well after bulbing. This is a semi-long day Florence type. In Pennsylvania, we reliably grow good bulbs in spring and fall. Further North it should be seeded mid-June or later. Fennel is very cold tolerant and has little need to be grown in a tunnel, but if it is, it will stay perfectly clean. |
| 7235 | Parsley ARAT Root type | Arat has smooth, parsnip shaped roots that are strongly flavored when roasted or used in soups. This is a nice item to take to Farmer's Markets, especially around Northern European populations. Flat leaves are dark green. |
| 7753 | Parsley WEGA | Wega is an improved, double curled parsley with excellent uniformity, vigor and dark green color. It is an excellent replacement for Forest Green and a good choice for pots, hydroponic and open field. |
| 9438 | Parsley DARK GREEN ITALIAN | Medium-large, wide, flat leaf. Leaf type is dark green and moderately cut. Smooth and shiny. Upright with more vigorous growth than Italian Flat Leaf. |
| 7940 | Parsley PEIONE Gigante d' Italia | Peione is a Gigante d' Italia type with dark green color, thick stems and large glossy leaves. Extra stems and extra branching results in excellent yield. It is very uniform. <i>Intermediate resistance to Downy Mildew.</i> |
| 7868OR | Stevia CANDY | Stevia, the natural sweetener, is excellent for plant sales or to sell cut and bunched. It is a tender perennial. |

KALE **TRONCHUDA** Portuguese Kale - See Pricing Below

| Code | Variety | Comments |
|------|---------|---|
| 9394 | BIERA | 85 days from seed. Portuguese kale forms large, wavy, mint-colored leaves on thick, fleshy petioles. The leaves form a very loose head. Harvest most of the whole plant, up to 7 lbs. The leaves are a favorite for Portuguese kale soup "Caldo Verde". Beira is an easy-to-grow hybrid, both for spring and fall plantings. Direct seeding helps avoid tipburn. Great to juice! Makes much more juice and is sweeter and milder than curly kale. |

KALE **HYBRIDS** All Green Varieties Are Ready To Strip In About 50 Days, Red Varieties Grow More Slowly - See Pricing Below

DARKIBOR^

WINTERBOR^

STARBOR^

REDBOR^

SCARLET^

| Code | Variety | Leaf Color | Height | Comments |
|--------|-----------|-----------------|-----------|---|
| 8535NT | DARKIBOR | Medium green | 18" - 24" | The preferred variety for chopping- thinner ribs make for a fancier product. Somewhat looser curl. Despite the name it is not as dark green as Winterbor and Starbor. |
| 8361 | WINTERBOR | Dark green | 18" - 24" | With a tall plant and stout, straight leaf (petiole) stems, Winterbor is the preferred hybrid kale for bunching. |
| 8435 | STARBOR | Dark blue green | 12" - 18" | Uniform stems of even length facilitate a 1-cut bunch, no need to strip and bunch. Classy, very dark green, curly leaves resist yellowing. Good for spring planting since the bolt resistance is excellent and shows good vigor as the weather gets colder. Our most cold tolerant variety. |
| 8693 | ROGUE | Dark green | 15" - 20" | We like Rogue for growing in warmer weather. It has a nice, dark color and can be stripped and will regrow. It is slightly less vigorous than Winterbor. It is uniform and has a deep curl to the leaves. The pricing makes Rogue appealing to garden plant growers. |
| 9600 | REDBOR | Dark purple red | 24" - 26" | Tall, dark red version of Winterbor. Redbor is blueish-green while growing and turns a beautiful purple red when mature. Redbor has the best vigor of any red kale. |
| 7617 | SCARLET | Dark purple red | 24" - 36" | This open pollinated, purple-red, curly kale is slow growing with medium-short central stem. It is red even when small. |

KALE

SPECIALTY and OPEN POLLINATED

| Code | Variety | Comments |
|--------|--|--|
| 8531 | BLUE SCOTCH aka VATES | This is the original curly leaf kale with stems radiating from a central stalk. If you are cutting smaller leaves or not stripping, this is a nice standard kale. It will not regrow well like hybrid kale. <i>Sized seed comes from our preferred source, Sakata, and is recommended if you are growing full-sized plants. Unsized seed is appropriate for baby and teenage kale.</i> |
| 7151 | LACINATO KALE <i>Dinosaur/ Tuscan Kale, Cavolo Nero</i> | Also known as dinosaur kale for its dark and primitive look, Lacinato is an Italian kale with a rich, mild flavor and tender texture. It is feather shaped and usually picked at 10" or smaller. We offer three types and this is the "generic" version, priced for salad mix. Lacinato is one of the best varieties to grow in cold weather in a high tunnel. |
| 6027NT | BLACK MAGIC <i>Lacinato selection</i> | Black Magic is a lacinato selection that is very uniform and erect and good for bunching. |
| 7765NT | ETHIOPIAN/ HIGHLAND | Have you ever examined a bag of baby kale mix and actually looked for kale? You might see lacinato, but you are unlikely to see curly green kale. What you are likely to see are some flat mystery leaves... enter Ethiopian or Premier Kale. These are both just mustards with small leaves with serrated margins. They actually taste better than kale. Ethiopian kale is also known as Highland kale and is common in Ethiopia. |
| 8385NT | ROULETTE <i>violet, lavender and blue green</i> | Roulette is the only red kale we know of with a good flavor... the downside is that it is slow growing, but a little goes a long way to dressing up a mix! The plant has a short central stem and is so attractive that it would be a nice item for garden plant sales. It will color regardless of the weather. |
| 8392 | RED RUSSIAN SELECT | A very nice improvement over generic Red Russian, this strain has a finer cut to the leaf and shows a bit more color for more of the year. It is more vigorous than Red Russian and very slow bolting. |
| 6026 | FIZZ | Long narrow leaves are nearly as dark as Lacinato kale, with the addition of a silvery sheen. The deeply lobed leaves are tender. Fizz can be grown as a teen-sized kale or full sized with leaves up to 14". Grows from a central rosette. |
| 7058 | SIBERIAN DWARF | 12 - 14" tall plants with light blue-green leaves and ruffled margins. Cold tolerant and more tender than other kales. Siberian Dwarf is minutely hairy so not a good choice for baby leaf. It has a good mustardy flavor and very vigorous. |
| 8987NT | SOUTHERN CROSS  | This is a new hybrid mix of different leaf shapes and colors. All are both ornamental and tasty. In addition to being a natural for making mixed kale bunches, it is GREAT for garden plant sales for fall color. It shows some colors in spring, mostly in the stem and veins. |
| 7057 | PREMIER | Premier has a very good mustard taste and is a kale in name only, but shows up in many "kale" salad mixes. It is less bothered by flea beetles than other mustards that might be used for baby leaf. Also known as "Hanover kale". If grown to a larger size, the plant will be upright with medium green, medium-small leaves with finely serrated edges. |

LETTUCE

ROMAINE *See Pricing On Page 62*

| Code | Variety | Days | Head Description | Leaf Type | Comments |
|----------|--|---|---|---|--|
| 9612Z | STRYKER | 73 | Dark green, mostly erect, tall | Wavy edges | A dark green romaine that produces large, heavy heads with excellent internal quality and leaf texture; it grows tall and upright with straight ribs. Good for general boxing, processing and hearts. Slot for spring and fall. Nice sweet flavor. Highly tipburn tolerant and bolt-resistant. Resistant to BL 1-16, 19, 21, 23 and Corky Root. |
| 8875XZ | INFERNO | 75 | Very tall, narrow and leafy | Slightly blistered | If you need an extra vigorous and leafy romaine that can handle heat, Inferno is an excellent choice. It has outstanding dark color and has tipburn and bolt resistance. It grows very erect and is excellent for hearts. Your customers will like the fancy appearance and extra-heavy weight. Good for spring and moderate summers, and over-winter in the Southeast. For same plant type, we suggest Rawhide for fall harvest. HR: BL 1-16, 18-20, 22-24, 27-28, 30-31, TBSV. |
| 5193XZ | DOV <i>Summer Romaine</i> | 76  | Dark green, large, open | Wide, blistered, wavy | Dov is a darker green and more "normal" looking romaine than other super-heat tolerant varieties. It is leafy, and sweet tasting because it is very bolt resistant. If left in the field, it will get very heavy. |
| 8766XZ | CALSHOT <i>Red Romaine</i> | 74  | Medium sized, erect | Crisp but flexible, smooth | Calshot is the first red romaine with sturdy leaves and good weight. The glossy, coppery colored leaves have just enough green to allow for vigorous growth. The plant is compact and upright with applicable texture to facilitate packing. Calshot is also used for baby leaf red romaine, where it is appreciated for its sturdy, thick, glossy leaves and even size. Mildew Resistance: BL 1-16, 19, 21 and 23. |
| 8741XZ | FUSION <i>Special cross Romaine & Leaf</i> | 70 | Large, erect, leafy | Elongated with a shallow pucker and wavy margin | Fusion grows tall and erect, like romaine, but it doesn't make a heart. The leaves look and taste like romaine, but each leaf will be roughly the same size and shape. When harvested young, Fusion is more like leaf lettuce, and when more mature, it will be more romaine-like. It is very easy to grow, handles heat well, and is slow to bolt. |
| 6065 | MONTE CARLO <i>Mini Green Romaine</i> | 53  | Dark green, semi glossy, compact, heavy | Large puckers, thick, supple leaves | This outstanding mini romaine weighs a lot for its small frame. Great shelf life, mild flavor with a romaine and butterleaf texture. Fast and easy to grow, holds well, becomes heavier without bolting. Heads are 8" - 10" tall. Grows well even in short days in high tunnels. Recommended for hydroponic growers. IR: BL 1-16, 19, 21, 23 |
| 7725XZOR | NEWHAM <i>Mini Green Romaine</i> | 53  | Slightly open 9" head | Wavy, medium green | Newham is an attractive and slow bolting medium-green, mini romaine. It looks great paired with Pomegranate Crunch. With good tipburn resistance, Newham handles heat well. The flavor and texture is a combination of romaine and butterhead. HR: BL: 16-21, 23-26, 28-32/CA1-8/Nr:0/Pb IR: LMV: 1/5s |
| 6064OR | POMEGRANATE CRUNCH <i>Mini Red Romaine</i> | 54  | Burgundy, lime green, compact | Puckered, thick, buttery-crunchy | The wine red color extends into the head through most of the leaves and is accented by lime green ribs. The red color is maintained even in high tunnels and other low light situations. HR: BL 1-27 |

| Code | Variety | Days | Head Description | Leaf Type | Comments |
|--------|---------------------------------|------|--------------------------|-------------------------------|--|
| 8411 | NEW RED FIRE | 48 | Medium large, medium red | Wavy margins, ruffled | Loose leaf with full center. Slow bolting, uniform and holds color well. The key to New Red Fire's long standing success is that it has a good combination of color, vigor and weight. |
| 7977 | RED MAGMA | 48 | Medium large, medium red | Wavy margins, ruffled | From the same breeding line as New Red Fire, Red Magma is more erect and heavier, plus a shade darker red. Red Magma tolerates heat as well as NRF and it does exceptionally well in cold weather. |
| 9559 | CANTARIX Red Oakleaf | 50 | Compact mound | Wavy lobed leaves | Dark burgundy colored, thick, glossy and supple leaves grow quickly into a compact, swirled mound. Unlike old fashioned oak leaf, Cantarix has good shelf life and is slow to wilt. Handles heat well. HR: BI 1-23, 28/Nr0 |
| 5757XZ | HOJA VERDE NEW | 55 | Vigorous mound | Thick, dark green, wavy | Hoja Verde offers growers a large, high quality, green leaf lettuce with strong holding ability in the field and resistance to Tomato Bushy Stunt. Intermediate resistance to Fusarium, also. |
| 8711 | BERGAM'S GREEN | 56 | Compact but weighty | Dark green, very curly margin | Bergam's has proven to be very reliable, making uniform, heavy heads with sturdy, supple dark green leaves. Performs well in heat and is excellent against tipburn and bolting. Holds well in the field. Has Corky Root resistance. Although "Bergam's" sounds like an old-fashioned name, this is a newer variety. HR: BI: CA 1-4/Ss IR: LMV, TBSV. |

| 9561 | DEUCE Iceberg | 77 | Early and a "sure header", Deuce is the iceberg with the broadest adaptability to the Eastern half of the U.S. and Canada. With a medium-small plant, it has a good-sized head with great flavor. Deuce is slow bolting and has a low incidence of tipburn. | | |
|------|-------------------------|----|---|--|--|

CANTARIX^

DEUCE ICEBURG^

BABY GREENS TIPS

- (1) Make sure a good portion of your mix has frilly or wavy leaves to add volume and keep the flatter leaves from sticking together.
- (2) Sow each variety in a separate bed. You may be able to take several cuttings. In cool weather, all of these greens will grow rapidly and be ready to harvest in a month or less.
- (3) If using brassicas, such as Mizuna or an Arugula, insects may be a problem. Some growers use floating covers for protection.
- (4) Chill immediately after harvesting, usually with a cool water rinse (or your vacuum cooler!).

In addition to the varieties listed here, you may want to use SALAD BOWL or BLACK SEEDED SIMPSON for light green color and BUTTERCRUNCH for medium green. PARRIS ISLAND is a decent inexpensive baby romaine. Red Salad Bowl is good for medium to light red. These varieties are tender and may not provide the shelf life of the other varieties listed below.

BABY LEAF See Pricing On Page 62

| Code | Variety | Comments |
|---|----------------------------------|--|
| <i>Use these green lettuce varieties as the foundation of your mix.</i> | | |
| 5158OR | AEROSTAR Romaine | Smooth, medium-dark green romaine. Leaf folds in a bit to keep leaves from packing down. BL 1- 27; LMV. |
| 7766 | SMERALDO Wavy Oak | Smeraldo has a dark, glossy green, wavy leaf that is very similar to Bolsachica, which it replaces. It is medium-slow growing so it does well in heat. Pricing on page 63. |
| 5038 | GREEN MILES Tango Type | Leaves are an even shape and size. Very erect with excellent body. Fan shaped leaves have a dark minty green color and a jagged edge. Tango type. Pricing on page 63. |
| <i>Use these red lettuce varieties sparingly for brilliant contrast.</i> | | |
| 6491NT | FIGUEROA Red Romaine | This stunning, dark red, baby romaine has thick texture and frilly leaf margin. Medium-fast growth. |
| 7983NT | RED HOT Tango Type | Red Hot provides cherry red, fan shaped, frilly leaves for your mix. |
| 5379NT NEW | CARMELITA Red Oak | With slightly wavy wine red lobed leaves, Carmelita features an erect habit for easy cutting. Although it is vigorous growing, the leaves have a wonderful, heavy texture. |

BABY LEAF BLENDS See Pricing On Page 63

| Code | Variety | Comments |
|--------|------------------------|--|
| 8950 | SPICY MIX BLEND | These baby brassicas include Red Russian Kale, Red Komatsuna, Mizuna, Oasaka Purple and Tatsoi. We have not included Arugula, Beets or Chard in this mix. If needed, please purchase separately. |
| 8967 | HIGH TEST BLEND | Includes Smeraldo, Aerostar, Green Miles, Red Hot and Figueroa. Selected for intense color, uniform leaves and sturdy texture. |
| 8962NT | BUDGET BLEND | This blend uses mostly home garden varieties with a bit of true, dark red baby leaf for visual interest. We offer this for "lettuce bowl" plant sales or for local markets where shelf life isn't important. "Budget Blend" is not as intensely colored, and plants will grow faster than our "High Test Blend". |

ARUGULA *See Pricing On Page 64*

| Code | Variety | Days | Shape | Leaf Color | Comments |
|------|------------------------------|------|-------|------------|--|
| 8332 | ASTRO "cultivated" | | | | Astro is the preferred variety of "cultivated" arugula, which is fast growing and has larger seed, around 140,000 seeds per pound. This type is often sold bunched. Astro leaves are a mix of lobed, round larger lobed, and oval leaves. |
| 7937 | BELLEZIA "wild" | | | | Bellezia adds field tolerance to Downy Mildew to the preferred wild arugula type (below) Grazia. Wild arugula is slower growing than Astro but has improved shelf life. If you are unfamiliar with wild arugula, be prepared for dust-fine seed, around 2 million seeds per pound. |
| 8369 | GRAZIA "wild" | | | | Grazia has become the "go to" variety for wild arugula due to good stands and good color. It is slow bolting (for wild arugula). |

MELONS

CANTALOUPE HYBRIDS

Listed By Maturity From Transplant - See Pricing On Page 68

| Code | Variety | Days | Shape/Size | Netting/Sutures | Cavity/Flesh | Disease Reaction | Comments |
|------|---|------|--|---------------------------------|--|---|---|
| 6982 | GODDESS | 69 | 4 - 6 lbs., 7" x 5" | Fine net, shallow sutures | Medium cavity, med- orange flesh | HR: Fom (0,1,2), Sf (1,2) | <i>Early!</i> Fragrant and juicy flesh tastes like it's right out of the garden! Large size for an early melon. Best if harvested at 1/2 slip. |
| 9172 | APHRODITE | 72 | Round/oval, 6 - 8 lbs., 8" x 7" | Refined net, slight sutures | Medium cavity, firm, med- orange flesh | HR: Fom (0,1,2), Sf (1) | Earlier, larger Athena type. More refined net. Use where large melons are preferred. |
| 5460 | AVATAR | 72 | Oval, 8 - 10 lbs., 8½" x 7" | Coarse net, shallow sutures | Medium cavity, dark orange flesh | HR: Fom (0,1,2), Sf (1) IR: Sf(2) | This is the largest melon we list; sizes large consistently. Netting is complete and attractive; interior color is dark. Flavor balances sweet and musky tastes. |
| 5317 | SUGAR RUSH <small>NEW</small> | 72 | Round, 4 lbs. | Medium net, no sutures | Small cavity, orange flesh | IR: Fom (0,1,2), Sf (1,2) | The "big sister" to Sugar Cube, Sugar Rush has the same top notch eating quality that Sugar Cube is known for. Sugar Rush is ready for roadside market with its homegrown melon flavor and sweetness. |
| 9627 | ATLANTIS | 73 | Round/oval, 6 - 8 lbs., 7" x 6½" | Medium net, shallow sutures | Medium cavity, med-dark orange flesh | IR: Fom (0,1,2), Sf (1,2) | Excellent interior quality for fresh market appeal and firm flesh for shipping. Produces consistently high sugar; holds sweetness well. Strong vines lend adaptability. Shows uniformity in size and shape. |
| 7680 | ACCOLADE | 74 | Oval, 5 - 6 lbs., 7½" x 6½" | Fine net, shallow sutures | Small, med- orange flesh | HR: Px;1, Px2US, Fom (0,1,2) IR: Ag, Px3,5, T;S | Improved holdability and storage - also has firmer flesh and a smaller cavity. Netting is consistent and refined. Suited for early to main season plantings in the Southeast, Midwest and Northeast. Resistant to cotton aphid. |
| 7679 | ASTOUND | 75 | Oval, 5 - 6 lbs., 7½" x 6½" | Fine net, shallow sutures | Small | HR: Px:1,Px2US, Fom (0,1,2) IR: Ag, Px3 ,5, T;S | Eastern shipper that promotes improved holdability and storage - has firmer flesh and a smaller cavity. Netting is consistent and refined. Suited to main-late season plantings in the SE and main season plantings in the Midwest and Northeast. Cotton aphid resistant. |
| 8922 | ATHENA | 75 | Oval, 5 - 7 lbs., 7" x 6½" | Refined net, shallow sutures | Small cavity, firm, med-orange flesh | HR: Fom (0,1,2), Sf (1,2) | Firm flesh, good sweetness, excellent for shipping. The industry standard. |
| 8867 | SUGAR CUBE Personal size | 77 | Round, 2 - 4 lbs. | Medium net, no sutures | Small cavity, med-orange flesh | IR: Fom (0,1,2), Sf (1,2), PRSV, WMV, ZYMV | A sweet treat with plenty of homegrown melon flavor and high sugars. We see 13 - 14% brix. Uniform round shape and plenty of fruit to harvest! |
| 7669 | AFTERGLOW | 80 | Oval, 5 - 7 lbs., 6½" x 8" | Fine net, true sutures | Small cavity, med-orange flesh | HR: PM 1,2 Fom (0,1,2) | Afterglow has a thicker flesh than traditional sutured melons and will hold better in the field. Enjoy the blend of sweetness and melon flavors as well as a uniform harvest of refined looking fruit. |

CAMPOSOL^

CAMINO EUROPA^

| Code | Variety | Days | Shape/Size | Netting/Sutures | Cavity/Flesh | Disease Reaction | Comments |
|------|------------------------------|------|----------------------------------|---------------------------|--|---------------------|---|
| 6459 | VISA (Galia) | 69 | Round, 4 - 5 lbs., 6" x 6" | Full net, no sutures | Small cavity, green flesh | HR: Sf (1,2) | High sugar and sweet green, softer flesh makes Visa a good choice for fresh market/roadside use where consumers are looking for high quality, flavorful items. |
| 7474 | PIXIE (Palm) | 76 | Round, 2 - 3 lbs., | Sparse net, no sutures | Small cavity, deep orange flesh | HR: Sf | <i>Exceptional flavor!</i> Dense, deep orange flesh boasts the highest sugars you'll ever taste. Mini melon develops yellow blush at maturity; does not slip. Shelf life is good when harvested at the ideal stage. |
| 8744 | CAMPOSOL (Canary) | 80 | Oval, 5 - 6 lbs., 8" x 6" | Wrinkled | Medium cavity, bright white flesh | IR: Sf | Firm flesh is complemented by exceptionally sweet, juicy flavor. Holds well in the field. Harvest when rind is a dark golden yellow; you will also notice "sugar cracks" or "checking". |
| 5191 | CAMINO EUROPA (Canary) | 84 | Oval, 5 lbs., 8½" x 5½" | Wrinkled | Medium-large cavity, bright white flesh | HR: Fom (0,1,2), Sf | An excellent canary for field-holding ability. Fruit tends to resist cracking. Sweet flavor and firm texture, approximately 13-15% brix. |

MELONS LSL (Long Shelf Life) / HARPER *Listed By Maturity - See Pricing Below*

| Code | Variety | Days | Shape/Size | Netting/Sutures | Cavity/Flesh | Disease Reaction | Comments |
|------|-----------|------|---------------------|---------------------|---|----------------------------|---|
| 7958 | SHOCKWAVE | 85 | Oval, 4 - 6 lbs. | Refined, no sutures | Small cavity, medium-dark orange flesh | IR: Fom(0,1,2), Sf(1,2) | LSL's have firm flesh that holds well in the field. Shockwave is both visually and physically easier to harvest than many LSL's as it both slips and also shows gold flecking on the rind at maturity. Easy to enjoy the flavor and 15% brix. |

Listed By Maturity From Direct Seed- See Pricing Below

| Code | Variety | Days | Leaf Characteristics | Comments |
|------|----------------------|------|---|---|
| 8933 | SAVANNAH Hybrid | 30 | Dark green spinach or Tendergreen type | Spinach mustard type with large glossy oval leaves. A hybrid variety, Savannah works well for multiple cuts with its strong uniformity and fast growth. Savannah has tolerance to heat and cold and is slow to bolt. |
| 7060 | TENDERGREEN OP | 40 | Dark green spinach type | Produces dark green leaves on an upright plant. Tendergreen is best placed for fresh market applications and bunching. Shows moderate bolt resistance. |
| 8442 | SOUTHERN CURLED OP | 50 | Dark green heavily curled India type | Dark green and distinctly curled leaves on an upright plant. Plant structure lends itself to easy harvest for bunching, or can also be used for processing or other fresh market applications. Shows high bolt tolerance. |
| 6392 | FLORIDA BROADLEAF OP | 55 | Medium green oval & serrated India type | Commonly used for bunching, baby leaf, or processing. Susceptible to bolting. |

Emmylou F1

Emmylou is a new TSWV and TYLCV resistant tomato variety from Bejo Seeds. It has a strong determinate plant with a continuous heavy yield and a high percent-age of extra-large fruits. Jolene has exceptional red color and firmness. Suitable for mature green or vine ripe production. Performs well in the Quincy fall and spring slots. An excellent choice for North Florida, Georgia, and the Carolinas. HR: V, Fol(1,2), TSWV, TYLCV

Jolene F1

Jolene is a new introduction from Bejo Seeds for the Florida market. It produces attractive large to extra-large fruits with deep dark interior on a determinate plant. Early maturing, fruits are firm with a clean blossom end and uniform smooth shoulders. Jolene is suitable for mature green or vine ripe production. With TYLCV and Fusarium crown rot resistance, it is well suited for South Florida but has also proven widely adapted for production in NC and the Eastern U.S. HR: V, Fol(1,2), TYLCV, FOR

Mountain Vineyard F1

Mt. Vineyard is the first of its kind—this grape tomato contains the crimson gene for high lycopene as well as resistance to TSWV and Fusarium 3. The fruit are a glossy dark red color with appealing red locular gel. The green fruit have a dark green shoulder, but the mature fruit do not develop "yellow eye" on shoulder. They are firm with a balanced sweet flavor. This exceptional grape tomato is produced on a compact indeterminate vine, the short internodes make for a manageable plant on a 72" stake. We recommend heavy pruning early. HR: V, Fol(1,2,3), TSWV

Resolute F1

72 Days. Our latest TSWV and nematode resistant release. Resolute is a main season, large-fruited variety with vigorous plant cover and exceptional flavor. Resolute has a wide range of adaptability, and has performed very well in the spring slot in Florida, as well as the main season in NC, KY, TN and PA. Fruits weigh between 9.5-15 ounces, with small blossom end scar and firm red interior. Also has Verticillium Wilt 1 and F1, 2 resistance.

Nixon F1

85 Days. Processing cabbage. Very large heads, short core. Vigorous plant. Highly uniform. YR. Improved MEGATON type.

Expect F1

100 Days. Storage cabbage. Round and dense heads, very healthy plants, productive. Easy cut. Fresh green look from storage. Good tolerance to thrips. YR. Resistance: HR: Foc/IR: Tt

Istanbul (B-2951) F1

82 Days. Emperor type. Freshmarket, processing carrot for cello, slicing, or bunching. Very uniform and high yielding. 9" x 1 1/4" tapered roots with deep orange interior. Strong and erect 18" dark green tops. Well-adapted; good performance on both muck and mineral soils. Resistance: IR: Ad, Ar, Cc

Biker F1

90 Days. Leek for summer production. Good field holding, good resistance to foliar diseases and thrips, long shelf life.

Cartier (B6S-322) F1

102 Days. Early Long Day onion. Refined neck, strong root system, good seedling vigor. Strong skin, long storage. Excellent uniformity. Good yields of pre-pack onions!

Marte F1

107 Days. Brussels sprouts for late summer and fall production. Vigorous, tall stems, high quality sprouts with good uniformity. New variety. YR. Resistance: HR: Foc

Bejo Seeds offers a full line of processing and fresh market vegetable seeds for the professional grower and discriminating home gardener! Bejo's breeders focus on strong root systems, optimum nutrition, enhanced disease resistance, and outstanding flavor.

Bejo is a family-owned company with worldwide operations, and is the world's largest producer of True Organic Hybrid Seed. Bejo maintains organic breeding programs which are regionally and locally focused.

Non-GMO. All registered and commercially available Bejo varieties were obtained by using traditional plant-breeding methods. Bejo has no genetically modified varieties available for commercial use. See the Bejo assortment at bejoseeds.com, and the full lineup of 120 organic varieties at organicseedfinder.com Try Bejo Seeds and see why we say...

| 7397 NEW | FORUM | 90 | 2 1/2" - 3" | Dark Bronze | Medium | Long day set onion for early summer harvest. Sets can be planted as soon as ground can be worked and develop quickly into medium/large bulbs. Can be overwintered for areas with mild winters. |

Onion Set Ordering and Shipment

All onion sets are drop shipped directly from our producer in Bourbonnais, IL.

Sets are packed in 32 lb. bags but sold by count, priced per 1000. Orders will be adjusted to the closest full bag count based on average count and sizing of the current crop. Examples: Order is for 5,000 sets if the average full bag count is 3800 then order will be adjusted to 3800 (1 full bag), if full bag count is 3100 order will be adjusted to 6200 sets. Customer is responsible for paying for "over order" amounts created by bag count increases.

Sets are sold as harvested, meaning larger orders will receive a mix of size grades and small orders will receive size grades available at time of shipment. Count can range from 50 - 150 sets/lb. depending on the grade size and crop year.

Prices do not include freight. Freight will be billed at standard United Postal Service rates in effect at the time order is placed. For orders over 100,000 sets, please contact your local SEEDWAY sales representative for a price quote and freight arrangements.

SWEET BELL HYBRIDS - GREEN TO RED *Listed By Maturity - See Pricing On Page 87*

| Code | Variety | Days | Fruit Class | Plant Type | Disease Reaction | Comments |
|------|--|------|------------------------------|-------------------------------|--|--|
| 6711 | RED KNIGHT (X3R) | 64 | Large, 3 3/4" x 4" | Compact, sturdy | R: Xcv 1,2,3; PVY | Intended for an early red, Red Knight will turn red up to ten days earlier than the varieties listed below. GR:SE |
| 9154 | GALILEO <i>SEEDWAY EXCLUSIVE!</i> | 70 | Jumbo/XL, 4 1/2" x 4 3/4" | Compact, good vigor | R: Xcv 1,2,3 IR: Pc | This SEEDWAY exclusive sets freely for excellent early yields. Unlike Aristotle, and other varieties with concentrated set, Galileo's fruit won't jam in the crown since the fruit radiates out from the center, like a fountain. Fruit is dark green, firm, and generally blocky with four lobes. |
| 9138 | ARISTOTLE (X3R) | 71 | XL, 4" x 3 1/2" | Compact, medium vigor | R: Xcv 1,2,3; Tobamo, PVY | Heavy early and total yields of good quality, smooth, uniform size and shape fruit. Very good green and red color. GR:SE |
| 9962 | KARISMA | 71 | XL, 4 1/2" x 4" | Medium-size, strong | HR: Xcv 1,2,3; TMV PepMoV; PVY-0,1,2 IR: CMV | Karisma provides very good yields of attractive, blocky, dark green fruit. It also makes a classy red. It has a more continuous set compared to other early varieties. Widely adapted. |
| 9788 | HUNTER  | 71 | Medium, 4" x 3 3/4" | Medium-size, good vigor | HR: Xcv 1-5 7-9; TEV; TMV | A very fancy, smooth shape and a dark green color make Hunter perfect for place pack. Hunter's smaller size makes it good for stuffing. |
| 5157 | ISLAMORADA | 72 | XL, 4 1/2" x 4" | Large, lanky | HR: Xcv 1-5 | Dark green glossy fruit is smooth, extra large, uniform in size, and protected with good canopy. The distinctive plant is large, with a continuous set, and will produce a lot of fruit over a long season. Very high yielding in the Southeast. |
| 6157 | REVOLUTION | 72 | Jumbo/XL, 4 1/2" x 4 3/4" | Large, good canopy | R: Xcv 1,2,3,5; IR: CMV, Pc | Growers like Revolution for the disease package (including Phytophthora) and proven yield with extra large fruit. Widely adapted. |
| 7623 | PLAYMAKER X10R® | 71 | Large | Large, bushy, medium size | HR: Tm:0 IR: Pc, Xcv 0-10 | First commercial variety with resistance to Phytophthora and 1-10 of Bacterial Leaf Spot. Bred and developed for the Northeast region. Heavy set and large fruits. High yield potential. GR:SE |
| 5273 | VANGUARD | 72 | XL, 4 1/2" x 4 3/4" | Medium tall, vigorous | R: Xcv 1-5 IR: CMV, Pc | Vanguard produces extra large to jumbo size fruit with a continuous setting habit. The fruit is darker green and smoother than Revolution. |
| 7903 | TURNPIKE | 72 | Large/XL, 4" x 3 3/4" | Sturdy, bushy, medium size | HR: Xcv 0-5, 7-9 IR: Pc | Turnpike combines very strong Phytophthora resistance with high yields of dark green, firm fruit. A uniform size and a good, blocky shape makes Turnpike ideal for place pack. Compared to "1819", the fruit is fancier and the plant is sturdier with an improved canopy. GR:SE |
| 7572 | NINJA S10™ | 72 | XL | Medium | HR: Tm:0 IR: Xcv 0-10 | Well suited for production where Bacterial Leaf Spot is a concern and large size is appreciated. Very high yields with good quality. Good fruit setting ability. Strong and vigorous plants. |
| 7571 | SAMURAI S10™ | 72 | XL | Medium, good canopy | HR: Tm:0 IR: Xcv 0-10 | The fruit have good size uniformity and are very firm, glossy dark green, and mature to red color. Widely adapted. |

SWEET BELL HYBRIDS - GREEN TO RED *Listed By Maturity - See Pricing On Page 87*

| Code | Variety | Days | Fruit Class | Plant Type | Disease Reaction | Comments |
|------|---|------|------------------------|---------------------------------|--------------------------------------|---|
| 8223 | SV3964PB | 72 | Jumbo/XL, 4½" x 4¾" | Very large, erect and strong | HR: Xcv 1-3, CMV IR: Pc | With an unstoppable, robust plant, "3964" will yield loads of fruit over a full season. Expect mostly jumbo, dark green, heavy, smooth fruit. The first fruit will likely be jumbo. |
| 7858 | BOCA <i>SEEDWAY EXCLUSIVE!</i> | 73 | Jumbo/XL, 4½" x 4" | Sturdy, good cover | HR: Xcv 1-10, IR: TSWV | This SEEDWAY exclusive is impressing growers where Xcv 1-10 races are needed. The fruit is very dark green, with thick, firm walls. Boca is unique in that it has TSWV in addition to Bacterial Leaf Spot resistance. |
| 7621 | LABELLE <i>SEEDWAY EXCLUSIVE!</i> | 73 | Jumbo/XL, 4½" x 4¾" | Large, good canopy | R: Xcv 1-10 | Newest SEEDWAY exclusive has Xcv 1-10 resistance with very smooth, dark green and blocky fruits. LaBelle is proven to have high yield potential. |
| 6772 | OUTSIDER | 73 | Jumbo/XL | Large, vigorous | R: Xcv 1-10 | "Box-filling pepper" variety that delivers strong yield and quality. Its broad disease package reduces field risk while its early, concentrated sets of jumbo and XL fruits give producers a fast return on investment. |
| 6718 | SKYHAWK | 72 | XL | Medium-tall, vigorous | IR: Xcv 1-10 | This Xcv 1 - 10 resistant bell pepper has looked good in the Northeast, producing uniform, blocky, glossy green, place-pack sized fruit. |
| 5018 | PS 0994-1819 | 73 | XL, 4½" x 4" | Sturdy, medium large | HR: Xcv 1-5, IR: Pc | "1819" has dark green fruit with a strong plant for extended production and good performance against Phytophthora. It is a proven producer of attractive smooth fruit. GR:SE |
| 8525 | SDY 48 | 73 | Jumbo, Large/XL | Medium | HR: Xcv 1-10 | Beautiful, perfectly blocky fruit makes an attractive place pack presentation. Fruit is firm, glossy, and uniform. Good foliage coverage and excellent yields. |
| 5319 | NEW STANDOUT | 75 | Jumbo/XL | Sturdy, good cover | HR: Xcv 1-10, TMV IR: TSWV | High yields of uniformly-shaped, extra-large to jumbo-sized dark, glossy fruit. |
| 5378 | NEW MERCER | 75 | XL | Sturdy, good cover | HR: TMV, Xcv 0-3, 7, 8 IR: TSWV | Mercer is a widely adapted green-to-red bell pepper well suited for the North Eastern U.S. growing regions. The maturity is mid-early, with high yields of extra-large fruit with good quality. Mercer matures to a very attractive deep red color. |
| 7570 | NEW TRIOLOGY | 75 | XL, blocky | Medium-tall, good canopy | HR: Xcv 1-5/Pvy: 0, Tm:0 IR: TSWV | Main season bell with intermediate resistance to Phytophthora. The medium/tall plant is well-covered and produces, blocky, attractive green fruit with high yield percentage of 4 lobes. |
| 5539 | ARCHIMEDES | 76 | Jumbo/XL, 4½" x 4¾" | Medium large, good canopy | HR: Xcv 1-3, TmPO IR: Pc | Strong Phytophthora resistance (along with BLS/Xcv), Archimedes offers a good package. Tall plant with large leaves provides extended harvest. Fruit size is typically quite large. GR:SE |

PEPPERS

SWEET BELL HYBRIDS - MIXED COLORS *Listed By Maturity - See Pricing On Page 87*

| Code | Variety | Color | Days | Fruit Size Class | Plant Type | Disease Reaction | Comments |
|--------|--|--------------|------|------------------|-----------------|------------------------------------|--|
| 7477 | FLAVORBURST | Green Yellow | 65 | 4 ½" x 3¼" | Medium/strong | | This slightly tapered bell is unique in both earliness and sweet, juicy, thick flesh. The immature color is bright <i>apple green</i> which rapidly turns sunny, <i>waxy yellow</i> . Not only is this the earliest variety to make colored fruit, but will continue to produce all season with fewer culls than usual. If you grow only one colored pepper, we recommend Flavorburst. |
| 9200 | TEQUILA | Cream Purple | 69 | 3½" x 3½" | Medium, open | | Tapered, somewhat wavy fruit display a tropical twilight mix of colors, as the fruit matures from <i>pale lemon</i> , to <i>lavender</i> , to <i>light, bright orange</i> . |
| 9449 | SANDPIPER | White Red | 69 | 3½" x 3½" | Medium/strong | | Sandpiper is blockier and smoother than other white to red bells. Many sunset colors from one variety; starts <i>creamy ivory</i> , turns through <i>apricot</i> to <i>bright red</i> . |
| 5492 | MILENA  | Green Orange | 70 | 3½" x 3½" | Medium/large | HR: TMV 0,1,2,3 IR: TSWV; PVY-0 | Reliable, classy fruit, turns a true <i>orange</i> quickly. <i>Works in tunnels and open field</i> . Milena is the place-pack size you see in grocery stores. Excellent yield and nearly all fruit is marketable. |
| 8914 | ABAY  | Green Yellow | 72 | 4¼" x 4¼" | Strong, bushy | HR: XCV 1-5 | Blocky <i>yellow</i> fruit, mostly extra large. Reliable and widely adapted. The fruit is large, heavy, and fancy with a good early yield and a second set. |
| 7919NT | DAZZLE | Green Yellow | 72 | 3¾" x 3¾" | Medium, compact | HR: Xcv 1-5 | This beautiful, smooth and blocky pepper is very uniform with the ideal yellow (not gold) color. It is not as early to turn yellow as Abay, but will deliver fancy fruit and excellent yields. |
| 5549 | DELIRIO | Green Orange | 74 | 4¼" x 4¼" | Medium/large | IR: TSWV | While Milena is our first choice for early <i>orange</i> color and classy, blocky fruit, Delirio offers a reasonably priced orange bell for farmstands and garden plant growers. |

SWEET SPECIALTY HYBRIDS *Listed By Maturity - See Pricing On Pages 87-88*

| Code | Variety | Days | Fruit Size/Color | Plant Type | Disease Reaction | Comments |
|------|---|------|--------------------------------------|-------------------------------|---|--|
| 6468 | ARUBA Cubanelle | 64 | 7½" x 2¼", Light green/red | Tall, upright, good canopy | | Our best selling Cubanelle. Matures from pale green to orange to red. |
| 5456 | GRENADA Cubanelle | 65 | 7½" x 2¼", Light green/red | Tall, upright, good canopy | HR: Xcv 0-3, 7, 8 | Compared to Aruba, Grenada has slightly thicker flesh and Bacterial Leaf Spot resistance. It is equally productive and attractive. Red to orange when mature. |
| 6603 | ZSA ZSA Hungarian Stuffing | 65 | 5" x 3", Creamy ivory, strong red | Medium and open | | Very thick smooth walls, tapered to a blunt end. Although your Slavic/Hungarian customers will prefer Zsa Zsa while still vanilla white, it is one of the earliest peppers to turn red. |
| 9030 | NATASHA Sweet Banana | 68 | 7¾" x 1¾", Light yellow, red | Large, tall | HR: Xcv 1 - 3 | Natasha is early with long, straight fruit on a big strong plant. If you need Bacterial Leaf Spot resistance, we think Natasha is your best choice. Fruit has thick walls. |
| 7798 | BEACON Sweet Banana | 70 | 8" x 1¾", Light yellow, red | Strong, upright | HR: Xcv 1 - 3, TSWV | This new sweet banana pepper combines excellent disease resistance with great early yield of straight, heavy, thick walled fruit. It is great for processing. |
| 9960 | SWEET DELILAH Italian Shepherd/ Marconi type | 70 | 8" - 10" x 2½", Green/red | Large, very up- right | IR: TSWV | This large, thick-fleshed, flashy pepper usually has a small "sheep's nose" rather than a blunt tip. As the season progresses, it may lose the "nose". It has a nice dark apple green color when immature, but is usually sold when deep, glossy red. It's tasty fried or roasted. |
| 7821 | YELLOW BARDO | 70 | 8" x 2" | Medium | HR: Xcv 1 - 3 IR: TSWV | This large, heavy, thick fleshed sweet yellow Italian roaster is an improved version of Canario with a better early yield. |
| 9688 | TOPEPO ROSSO F1 Cherry-Cheese, OP | 73 | 2¾" x 3", Dark green/red | Spreading, good canopy | | This is a large, flat, sweet cherry-cheese pepper with scalloped lobes. The flavor when red is rich and sweet. It is great for stuffing, or pickling. |

SWEET SPECIALTY HYBRIDS *See Pricing On Pages 87*

| Code | Variety | Days | Fruit Size/Color | Plant Type | Comments |
|--------|------------------------------|------|-------------------------------------|-------------------------------------|--|
| 8768 | SWEETY | 70 | 4½" x 1¼" | Stocky | This Sweety (with a "Y") looks good in mixes or by itself. It has more seeds and a nice but "normal" flavor as compared to Yummy or Sweetie TZ. |
| 6821 | YUMMY-Orange Snack pepper | 73 | 2½" x 1¼" Light green, orange | Medium large, strong dense cover | Apricot-orange fruit is tender-crisp, sugary sweet, and nearly seedless. Keeps well. Market in clamshells or berry boxes. Great for vegetable trays. Continuous setting, excellent for tunnels. |
| 7916NT | YELLOW SWEETIE TZ | 72 | 3¼" - 3¾" x 1½" | Spreading, bushy | Erect sturdy plant, great flavor, nearly seedless fruit, and a sturdy, upside down V-shaped plant. Somewhat slow to turn color. |
| 7917NT | RED SWEETIE TZ | 73 | 2½" - 3¼" x 1½" | Tall, narrow | Good early yield from a large but sturdy plant. The fruit size is bigger than other red snack peppers, but still a little smaller than the yellow and orange. |
| 7915NT | ORANGE SWEETIE TZ | 73 | 2¾" - 3½" x 1½" | Medium, erect-bushy | Perfectly formed fruit combines with excellent early yield. This is a very good match for Yellow and Red Sweetie. |
| 7638 | SWEETIE MIX | 73 | | | Orange, Red, and Yellow Sweeties in equal parts. |
| 7911 | TAKARA Shishito | 73 | 3" - 4" x 1½" | Small, spreading | Chefs are loving this tasty, thin-fleshed Japanese pepper. They sauté it quickly in olive oil and serve it as an appetizer. For added excitement, 1/10th of the fruit may be slightly hot... it's a tradition. |

POBLANO *Listed By Maturity - See Pricing On Page 88*

| Code | Variety | Days | Fruit Size/Color | Plant Type | Comments |
|------|-------------------|------|----------------------------|---------------------------------|--|
| 6501 | SAN ARDO | 75 | 6" x 3", Dark green/red | Medium-tall, good cover | Early, uniform, and productive. Sets freely in hot and cool weather; Poblanos in general don't like heat. Very dark green with mildly hot, firm flesh. Widely adapted. HR: Tobamo |
| 7755 | BARON | 80 | 7½" x 3" | Tall, strong | Baron is similar to Masivo with big, thick-walled, flat, two-lobed fruit, and a nice shallow neck. Growers should try both. Performs best in Mid-Atlantic and the North. |
| 5338 | NEW HITMAN | 80 | 4½" x 2" | Wide, bushy | Hitman is a new open field Poblano pepper that has an attractive, dark green, glossy color. The well-covered plant offers protection for the fruit from the sun and produces high yields of uniformly large, dark-green fruit. Its medium-early maturity and high percentage of 2 lobe peppers make this an excellent choice for growers throughout the Eastern U.S. |
| 8438 | SEQUOIA | 84 | 6½" x 2½" | | Sequoia is the only poblano that holds up to Phytophthora. It makes nice large fruit, mostly two-lobed with some three-lobed. Outstanding in slightly cooler weather areas such as mountains and the Northeast |
| 7482 | MASIVO | 84 | 7" x 3", Dark green/red | Tall, stong, excellent cover | "Knock-your-socks off" size plus the ideal, flat two-lobed shape will satisfy your fussiest customers. Shallow indent at stem. Prefers somewhat cooler nights but otherwise easy to grow. |

| Code | Variety | Days | Fruit Size/Color | Plant Type | Comments |
|--------|-------------------------|------|-------------------------------------|---------------------|---|
| 8795 | HELIOS Hybrid Orange | 85 | 2" x 1½", Dark apricot orange | Medium size bush | Reliable and early to color, Helios produces large, slightly elongated, apricot orange fruit. |
| 7655NT | GOLDEN GHOST Cayenne | 86 | 3½" - 4" x ¾" | Very large | Early, free setting and with excellent yields of relatively large golden yellow peppers, Golden Ghost offers a wallop of flavor enhanced by slightly less heat than red Ghost peppers. |
| 7778 | RED LAVA Ghost | 87 | 3" - 3½" x ½" | Very large | Phone for availability. Red Lava is a hybrid ghost or Dorset Naga pepper. It makes loads of fruit, relatively early, from a giant but strong plant. |
| 7637 | FLAMETHROWER MIX | 88 | 1¾" x 1¾" | Med-large | Here is a fabulous mix of new colors of hybrid habanero! The brown and white are extra hot and the white has a racy flavor. All also available as separate colors. The beautiful yellow is especially unique. |
| 8602 | HABANERO ORANGE (OP) | 100 | 1¾" x 1½", Orange | Large, spreading | Very hot, fragrant pepper. |

|------|------------------------|------|---|------------------------|-------------------------------------|--|
| 5455 | CENTELLA | 68 | 3¼" x 1½", Dark green | Semi-compact, erect | HR: Xcv 1-3, PepMoV, PVY:0, Tm:0 | For a very early, concentrated harvest of large, uniform fruit, Centella is an excellent choice. The fruit is firm and smooth. |
| 7609 | BALUARTE | 71 | 4¼" x 1¾", Dark green and glossy | Wide, bushy | HR: Xcv 1-3 | One of our newest and most exciting jalapeño varieties. This hybrid offers a great combination of large size, quality, and yield. Fruits are smooth, uniform, and very thick walled. Consistent large fruit from the bottom to the top of the plant with low cracking. |
| 8884 | LEXUS | 70 | 4¼" x 1", Very dark green and glossy | Strong, medium size | HR: Xcv 1-3 | Lexus features a mostly concentrated set of very large fruit relatively early in the season, but it will continue to produce fruit for an entire season. The plant is unstoppable, but strong enough to not usually need staking. The fruit quantity and quality is exceptional. It is uniform, cylindrical, and glossy dark green. 1700-2500 scovilles. |
| 6389 | TORMENTA | 72 | 3¾" x 1½", Dark green | Large, upright | HR: Xcv 1-3 IR: TEV | Glossy, dark green fruit that won't purple and will not check unless overmature. Good traditional heat level. Your harvest crew will appreciate the large, sturdy, easy-to-pick plant. Tormenta is easy to grow in stressful conditions. |
| 5468 | CICLON | 73 | 4¼" x 1¾", Medium dark green | Very large, strong | HR: Xcv 1-3 | Giant fruit from a giant plant... the first harvest can be as early as 73 days but this is mostly a main-season variety with top-notch yield expectations over a long season. Classy, slender, cylindrical fruit destems very easily. 3500-4000 scovilles. |
| 8883 | UNIQUE "nacho" type | 73 | 4¾" x 1¼", Medium dark green | Tall, strong | IR: Pc, CMV, TMV | Low heat, cylindrical, slender hot-dog shaped jalapeño intended for processing into "nacho" rings. The plant is stronger and yield potential is better than similar varieties. The plant shape allows for fast harvest. Approximately 1200 scovilles. |
| 7479 | COMPADRE | 74 | 3½" x 1½", Bright green | Large and tall | | Used in the Southeast where it sets freely, even in cool weather. A vigorous plant produces heavy yields over multiple harvests. Fruit has a traditional look. |
| 6865 | MAMMOTH | 77 | 4¼" x 1¾", Medium dark green | Large, very upright | HR: TMV, PVY | Enormous smooth fruit has a soft sheen. With very thick flesh and a pleasing milder heat level, this is the jalapeño you will want to take home for dinner. Excellent stuffed with cheese, baked, or grilled. Very continuous in set. |

PEPPERS

HOT PEPPER HYBRIDS *See Pricing On Page 88*

| Code | Variety | Days | Fruit Size/Color | Plant Type | Comments |
|-----------------|--|------|---|-----------------------------------|--|
| 8924 | INFERNO Hot Banana | 63 | 7½" x 1½", Light yellow/red | Medium-large | Very good yield and great flavor in addition to the heat. GR:SE |
| 6839 | ASTRY semi-hot Hungarian Stuffing | 70 | 4" x 3", Conical Ivory with green cast/red | Medium- branched | With a pleasantly mild, delicious heat level and smooth, thick, dark red flesh, Astry is perfect for stuffing. It can also be roasted and peeled. |
| 5175 | IBERIA Cayenne Long Hot  | 71 | 11" x 2", Dull green/red | Medium-tall strong | So early you will be able to harvest a few 11" Iberia fruit when Mesilla is only 4" long. It is extra long with outstanding total yield. Iberia is slightly hotter than Mesilla with thicker flesh. In the photo to the right, the Iberia pepper is as long as a pepper box. |
| 7750 | EL DORADO Santa Fe | 60 | 4" x 1¾", Sturdy | Short, spreading | One of the most delicious hot peppers, this extra-large and extra-early Santa Fe/Caribe type. El Dorado has thick crisp flesh that makes a great pickle. It is also good for stuffing and salsa. Depending how well it is cleaned of membrane, heat can vary between mild and 3000 Scovilles. |
| 6958 NEW | FRESNO 3429 | 74 | | Medium, tall | Produces extra large fruit. High yielder with medium-tall plant. Very nice deepred color at maturity. Very firm and thick walled. Great shipper. Very adaptable. |
| 7737 | HIGH FLY Thai Chile | 95 | 2½" x 5" | Tall, upright branches | This improved Thai Chile is both ornamental and flavorful. Clusters of 2" long bright red fruit grow from the top of medium-long stalks like a palm tree. Compared to OP Thai pepper, High Fly is earlier to red and more compact. Market it tied into a bunch, fresh or dried. It can also be sold as an ornamental for plant sales or as a cut-flower. |
| 7884 | CHERRY HOT 102 Hot Cherry Flat | 70 | 2" x 1¾", Green/red | Medium size, open | Cherry Hot 102 is a perfect shape for stuffing with most fruit round to semi-flat. Nice heat level without being blazing hot. Good size uniformity. |
| 7144 | DEVIL SERRANO | 73 | 3¾" x ½", Very dark green/red | Semi- indeterminate, strong | Devil Serrano is early, large, and very dark glossy green; by far the most attractive serrano we have seen. High yields and easy to pick with somewhat concentrated set. For continuous harvest, seed early and late. Serranos are quite hot with a complex, earthy flavor. The small leaves are faintly fuzzy. HR: TMV, PVY IR: TEV |
| 5574 | CHARGER Anaheim | 75 | 7½" x 1½", Dull green | Medium large, erect | Smooth, flat, and thick-walled fruit is mildly hot. Charger is larger, heavier, and a darker green than most Anaheims. It roasts and peels well. IR: TSWV |
| 6388 | GOLDEN HEAT Cayenne Finger Hot | 76 | 5" x ½", Green/red | Tall, branched | A very high yielding "finger hot" pepper. Despite its name, the thin flesh turns from dark green to bright red. Very hot when red and a somewhat concentrated set that is early for the type. |

Kratos

Strong, powerful pumpkin

- Large, firmly attached handle
- Strong vine
- Good yield, grower-friendly
- Large, flat-round, medium-ribbed fruit
- 25-30 pound average

Specter

Exciting white pumpkin with a true Harris Moran handle

- High yield potential
- Uniform shape and size
- Large, firmly attached handle
- Semi-hard shell keeping color longer

Zeus

Olympic quality pumpkin

- Large, firmly attached handle
- Good yield on a strong vine
- Attractive, medium-sized fruit
- 16-20 pound average
- Consistent size for shipping

Miniwarts

Frighteningly warted

- Perfect for pumpkin patches and roadside stores
- Smaller version of warty goblin
- Distinctive Harris Moran handle
- Very uniform shape and size

Field Trip

Perfect for school pumpkin patch

- Distinctive long handle
- Flat and ribby
- Very uniform in shape and size
- Intermediate resistance to powdery mildew

Tallon

Tall, strong pumpkin with a gorgeous handle!

- Large size
- Deep orange color
- Strong, thick, green handle
- Consistent setting with uniform size

Technical data and disease resistance ratings shown are averages of results from observations at various locations, under different conditions, and laboratory tests. It is not a prediction of future performance but a summary of past results. Seed performance, yield, and crop results will vary depending on geographic areas, environment conditions and pressure, field growing and management practices, and the presence of pests or pathogens. New, unknown, and/or atypical pathogen strains may overcome the resistance of the seed. Acceptance of the HM.CLAUSE Limitation of Warranty and Liability and Use Restriction, included with our seed packages or available at www.hmclause.com, is a condition of use of all our products.

GOURDS

SMALL TYPE *Maturity Approximately 95 to 110 Days - See Pricing On Page 91*

| Code | Variety | Comments |
|--|--|---|
| 9236 | AUTUMN WINGS SMALL  | Mixture of small gourds, mostly winged. Most have 2 ½" bulbs with 4" - 5" necks. |
| 9237 | AUTUMN WINGS MEDIUM  | Medium sized mixture, mostly winged gourds. 2 ½" - 3" bulbs with 6" necks. |
| <i>AUTUMN WINGS come in many colors and shapes, most with wings. The shapes are novel and like nothing else. To avoid bruising at harvest and during handling, AUTUMN WINGS should be planted early and allowed to cure before harvest. When immature wings become damaged, they will rot.</i> | | |
| 5065 | DAISY GOURD  | A colorful collection of "daisy-like" gourds! All in all, there are 14 variations of "Daisy" that account for different sizes, colors, and warted or nonwarted fruit. Average fruit weight = 0.25 - 0.5 lb. Full vine, 110 days. Recommended spacing = 3000 - 3500/acre for best yield. |
| 6900 | KOSHARE YELLOW | <i>Unique!</i> Bicolor green and gold bands add a festive look to any display! Shape resembles Bicolor Spoon. Approximately 3 ½" long by 2" wide. |
| 8513 | FANCY MIX | Carefully blended to assure some small fruited ornamental gourds in all popular shapes and colors. Smooth skinned and warted types. Sow seeds to avoid thinning, so slower growing types are not eliminated. |
| 5586 | GALAXY OF STARS  | A colorful blend of star-shaped fruit! You will find both smooth and warted fruit in bright bicolor patterns of green, gold, orange, and cream. |
| 6912 | SMALL WARTED PROFESSIONAL | <i>Fancy!</i> A mix of improved strains of warted gourds. Includes solid and bicolored fruit. Approximately 3" long. |
| 8321 | TURK'S TURBAN (BIN) | Ornamental, hard and fairly durable if not bruised at harvest. 7" - 8" fruit streaked with orange, white, red and green. |
| 7634 | CARLE'S KALEIDOSCOPE | A medley of color, Carle's Kaleidoscope produces smooth and warted fruit in an array of green, gold, orange, and white. Fruit measures 3" - 4". |

| Code | Variety | Comments |
|------|----------------------------|---|
| 9497 | APPLE SPECKLED | Shaped like an apple, but the size of a softball or larger. Dark green with white specks. |
| 8319 | BIRDHOUSE / BOTTLE | 12" to 14" tall, 5" in diameter. Size/shape will vary somewhat on the same plant. |
| 9395 | SPECKLED SNAKE | 4' to 5' long with a 4" diameter, dark green with white speckles. |
| 9592 | SWAN SPECKLED | Necked fruit looks like a swan's head. 14" - 18" long, 6" - 8" base. Also called Goose Gourd. Dark green with white specks. |
| 9591 | LARGE ELITE MIXTURE | Mix of large types including: Birdhouse, Snake, Bottle, Caveman's Club, Swan, Dipper and many more. |
| 7529 | LUNCH LADY (BIN) | You haven't seen anything like this! A mix of large warted gourds in an array of shapes and sizes! Allow plenty of time for warts to develop, approximately 120 days. 5 - 15 lbs. |

HALF PINT[^]

BLAZE[^]

JACK SPRAT[^]

FLATSO[^]

TIFFANY[^]

| Code | Variety | Days | Fruit Size/HxW | Skin Color/Texture | Vine Type | Disease Reaction | Comments |
|------|-----------------------------|------|---------------------------------------|-----------------------------------|--------------------|------------------|--|
| 7689 | SPARK | 90 | 2" x 3 1/2", 1/2 lb. | Bicolor yellow and orange stripes | Restricted | IR: Sf | A unique companion to orange and white minis, Spark's bicolor pattern dresses up displays. Size is well suited to be mixed with small gourds and other mini pumpkins. Productive, with uniform fruit. |
| 5362 | NEW ORANGITA | 90 | 2" x 4", 1 - 1 1/2 lbs. | Medium orange, deep ribs | Restricted | IR: Sf | A larger mini type; pairs well with Casperita. Fruit is deeply ribbed and uniform with a concentrated set on a semi-bush type plant. Also edible, quality compares to an acorn. |
| 7690 | FLAME | 90 | 3" x 4 1/2", 1 lb. | Bicolor yellow and orange stripes | Restricted | IR: Sf | A mini pumpkin with an acorn-like shape, Flame shows great coloring and is both ornamental and edible. |
| 6672 | KANDY KORN PLUS | 90 | 3 1/2" x 3 1/2", 1 lb. | Bright orange, smooth | Very restricted | IR: Sf | So much like the original Kandy Korn, it will be hard for you to tell the difference! Has the added benefit of Powdery Mildew resistance with the same early maturity. True pumpkin look in a miniature. |
| 9015 | NEW HALF PINT | 85 | 4" x 4", 2 lbs. | Bright orange | Bush, single stem | IR: Sf | Smooth fruit is lightly ribbed and ready to paint. Matures quickly and offers a concentrated set of uniform fruit. A sturdy handle tops it all off! |
| 7879 | BLAZE | 100 | 3 1/2" x 7", 3 lbs. | Bicolor yellow and orange stripes | Vigorous semi-bush | IR: Sf | Decorative and fun, Blaze is larger than a true mini and has a bright, colorful pattern. Plant is a vigorous semi-bush that holds up late in the season. Productive. |
| 6574 | TOUCH OF AUTUMN | 90 | 5" x 5", 2 - 4 lbs. | Medium orange, ribbed | Restricted | IR: Sf | Touch of Autumn has a slightly tall shape and will produce some smaller fruit in the 2 lb. range. |
| 6088 | JACK SPRAT | 95 | 6" x 6", 3 - 4 lbs. | Medium-dark orange | Restricted | IR: Sf | Uniform with classic round shape. Slight ribs, perfectly rounded shoulder and long handle. |
| 9929 | LITTLE GIANT | 105 | Round, 5" - 6", 2 - 4 lbs. | Dark orange | Semi-vine | IR: Sf | Small pie pumpkin with distinctive shape and a long, sturdy handle; lends itself easily to school groups. Fruit is very uniform in size and shape. |
| 8408 | TIFFANY | 95 | Slightly tall, 7" x 6", 3 - 5 lbs. | Dark orange | Semi-bush | | Quick to mature, Tiffany yields darkly colored and slightly tall fruit, perfectly sized for bins or the roadside trade. |
| 8911 | HYBRID PAM | 90 | 7" x 7", 5 - 7 lbs. | Deep orange, distinct ribs | Restricted | | <i>High yield!</i> Long, deep green handles, dark orange color, and distinct ribs combine to create a look that catches the eye. A longtime SEEDWAY favorite. |
| 6096 | FLATSO | 90 | 6 - 8 lbs. | Medium orange, ribbed | Semi-bush | | A truly flat fruit, Flatso is consistent in size and shape and is well placed at roadsides and farm stands. A specialty item, but highly ornamental and appealing. Perfect for stacking! |

All medium and large pumpkins listed below are treated with Farmore® 400 seed treatment.

PUMPKINS

MEDIUM-LARGE *Listed By Size From Smaller To Larger - See Pricing On Page 101*

| Code | Variety | Days | Fruit Size/HxW | Skin Color/Texture | Vine Type | Disease Reaction | Comments |
|------|---------------------|------|----------------------------|------------------------------------|-----------------------------|------------------|--|
| 7629 | ORANGE SUNRISE | 90 | 10" x 12", 12 - 18 lbs. | Medium orange, medium ribs | Restricted | IR: Sf | An early maturing pumpkin with a precocious background. Color develops darker than what is typically seen for precocious types; allow fruit to be fully mature for best color development. Uniform with nice, consistent, round shape. Fast maturity promotes use for gap fill and late plantings. |
| 6434 | SECRETARIAT | 105 | 15 - 20 lbs. | Medium orange, deep ribs | | IR: Sf | Offers a truly unique and distinctive appearance with deep ribs and a slightly flat to round-flat shape. Handle quality is excellent; handles are thick and extra-sturdy. A fun complement for roadside markets. |
| 8187 | ZEUS | 110 | 11" x 12", 16 - 20 lbs. | Dark orange, medium ribbing | | IR: Sf, ZYMV | Fruit size lends itself to bin applications. Classic round shape and strong handle characteristics appeal to consumers everywhere. |
| 7632 | JASON | 105 | 18 - 22 lbs. | Dark orange, medium ribbing | Full | IR: Sf | Jason's trademark is a slightly taller shape that will satisfy customers looking for a taller style. Distinctive ribbing and dark orange color complete the look along with a longer 3" to 5" length handle that is easy to carry. |
| 7795 | NEW HANNIBAL | 100 | 18 - 22 lbs. | Dark orange, medium ribbing | Full | IR: Sf | Fruit is slightly tall in shape with a firmly embedded, dark handle. A nice addition to complement a display of traditionally round pumpkins. Matures early. |
| 5121 | MUSTANG PMR | 100 | 12" x 10", 22 lbs. | Medium orange, slight ribs | Vigorous restricted vine | HR: Sf | Superior Powdery Mildew resistance; vines hold up well to Powdery Mildew, even late in the season. Sturdy handle on uniform fruit. |
| 6673 | SPARTAN | 100 | 20 - 25 lbs. | Dark orange, deep ribs | Restricted | IR: Sf | Combines dark orange color, flared handle, and distinct ribbing for a look that has plenty of "character." Notable for earliness in its size class. Our most commonly used "gap filler" pumpkin. |
| 7833 | BELLATRIX | 105 | 14" x 12", 20 - 25 lbs. | Medium-dark orange, medium ribs | Restricted | IR: Sf | Bellatrix produces a consistent round shape with smooth shoulders. Trials have shown Bellatrix to be consistent in size and one to try for bin applications. Handle quality is good, with sturdy marketable handles. |

PUMPKINS MEDIUM-LARGE *Listed By Size From Smaller To Larger - See Pricing On Page 101*

| Code | Variety | Days | Fruit Size/HxW | Skin Color/Texture | Vine Type | Disease Reaction | Comments |
|------|-------------------|------|----------------------------|---------------------------------------|-----------------------------------|------------------|--|
| 5251 | CHALLENGER PMR | 110 | 11" - 13", 22 - 27 lbs. | Medium-dark orange, medium ribs | Vigorous restricted vine | HR: Sf | Uniformly shaped round fruit is that just-right shape & size! Sturdy, well-attached, spineless handle and medium-dark color make Challenger roadside-ready. Plants stand up strong to Powdery Mildew. |
| 8755 | RHEA | 110 | 20 - 30 lbs. | Dark orange, deep ribs | Full vine | IR: Sf | With its round-flat shape and distinctly long handle, Rhea is a complement to Cronus in a smaller size. Showcases the dark orange color and well defined ribs. |
| 8188 | ARES | 120 | 16" x 12", 22 - 28 lbs. | Dark orange, medium ribbing | | IR: Sf | Tall shape is unique and satisfies those customers looking for a different look. Fruit is consistent in its appearance and sizing and sports a sturdy and long handle for easy carrying. Adds diversity to traditional orange pumpkin displays. |
| 8190 | KRATOS | 115 | 14" x 13", 20 - 30 lbs. | Medium-dark orange,medium ribbing | | IR: Sf | Good looking fruit is round to round-flat in shape and sports deep ribbing. Sizes well on a strong vine that promotes good yield. The thick handle will not disappoint! |
| 5318 | NEW TALLON | 110 | 13" x 12", 30 lbs. | Dark orange, medium ribbing | Restricted vine | IR: PM | A nice fit to fill the slot for a taller pumpkin. Shape is round-tall to tall with a blocky shape and distinctive shoulder. Longer 5-6" handle is slightly flared and sturdy. |
| 5477 | CAPTAIN JACK | 100 | 30 lbs. + | Dark orange, medium-deep ribs | Full vine | | A specialty pumpkin for those wanting an extra-large pumpkin with an extra-large flared and embedded handle. Handle is about 4" in length. Will get your attention! Vines need extra space to maximize size. To maintain best handle integrity, cut the vine around the stem, leaving a nub where vine meets the stem. |
| 9904 | BIG DORIS | 105 | 30 - 35 lbs. | Dark orange, deep ribs | Full vine | | Deep ribs, and plenty of them make Big Doris a standout in its size class. Round to tall fruit with a thick and embedded handle. |
| 7878 | BIG LORETTA | 100 | 25 - 50 lbs. | Medium-dark orange, medium ribbing | Medium vine | | A pumpkin to grow for that extra-large size, fruit can reach 50 lbs. in size. Matures early for its size class. Tall fruit is uniform in shape; handle is well-proportioned to size of fruit. |
| 9484 | CRONUS | 115 | 25 - 60 lbs. | Dark orange, deep ribs | Full vine, needs 48 sq. ft./plant | IR: Sf | Looking for an extra-large pumpkin and lower bin count, Cronus makes round to round-flat fruit with an exceptionally long handle and distinctly flared attachment. |

For varieties sold by seed count, M = 1,000 seeds. To calculate price, multiply the number preceding the "@" sign by the price.

EXAMPLES:

10 M @ \$2.00

To find the price of 10,000 seeds multiply
10 x \$2 = \$20.00

20 lb. @ \$3.00

To find the price of 20 lb. of seeds multiply
20 x \$3 = \$60.00

Farmore is a combination insecticide & fungicide seed treatment. It provides control against *Alternaria*, *Aspergillus*, *Botrytis sp*, damping off, *Fusarium*, *Penicillium*, *Pythium*, *Rhizoctonia*, and *Sclerotinia*. It also provides control against insect pests, including aphid, cucumber beetles, flea beetles, leaf miners, seedcorn maggots, thrips, whiteflies and wireworms.

Please note that our prices may change without notice to reflect changes in supplier pricing. RETURN POLICY - All seed is sold on a NO RETURN basis.

PUMPKINS **WHITE** *Listed By Size From Smaller To Larger - See Pricing On Page 102*

| Code | Variety | Days | Fruit Size/HxW | Skin Color/Texture | Vine Type | Disease Reaction | Comments |
|-----------------|---|---------|---|-----------------------|-----------------|------------------|--|
| 9648 | BABY BOO | 90 | 2" x 3", mini | White, ribbed | Full vine | | Novelty, pure white Jack-Be-Little type. |
| 6076 | CASPERITA  | 90 | 3 1/2" x 4 1/2", mini 1 - 1 1/2 lbs. | White, ribbed | Semi-bush | IR: Sf, WMV | A bright white mini comparable to our Bumpkin in size. Holds white color well in the field. Vine is vigorous and strong. |
| 9705 | SNOWBALL  | 90 | 2 - 4 lbs. | White, slight ribs | Vine | IR: Sf | Bright white with a round shape and a super long handle, Snowball is eye-catching and fits right into the "must have" category! Harvest when mature to protect from sun. |
| 6343 | COTTON CANDY  | 110 | 8" x 10", 5 - 12 lbs. | White, slight ribs | Full vine | | A "true" white pumpkin. Harvest pumpkins promptly when mature and store inside to avoid yellowing from sun exposure. |
| 8816 | LUMINA (PVP)  | 100 | 8" x 10", 12 lbs. | White, smooth | Full vine | | A novel white pumpkin. Excellent for painting and carving. Vigorous vine. |
| 8420 | BLANCO  | 110 | 4 - 8 lbs. | White, scalloped | Restricted vine | | Bright white pumpkin with an appealing round to round-flat shape. Blanco holds its white color very well in the field. |
| 9879 | MOONSHINE  | 110 | 8 - 12 lbs. | White, medium ribs | | | True pumpkin look with a handle to match! Handle is embedded and pairs well with size of fruit. Harvest when mature and protect from the sun. |
| 5397 | FLAT WHITE BOER  | 120 | 6" x 12", 10 - 14 lbs. | White, ribbed | Full vine | | A unique, flat, white pumpkin; this is a must-have for decorating! White color holds well. Part of the Maxima family, flesh is medium orange and is edible. |
| 5376 NEW | SPECTER  | 95 | 9-12" high by 9-12" wide, 15 lbs. | White, lightly warted | Semi-bush | IR: Sf | White fruit has a semi-hard shell and lightly warted. Uniform in shape and size with an easy-to-cary handle and plenty of eye appeal. |
| 7480 | NEW MOON | 80 - 90 | 16" x 24", 35 - 45 lbs. | Bright white, smooth | Full vine | | This white pumpkin is uniform in shape and size! Maintains bright white color well - resists discoloration from sun exposure. Stores for 2 - 3 weeks after harvest. Fruit is heavy for its size. |

PUMPKINS

HARRIS MORAN *Listed By Size From Smaller To Larger - See Pricing On Page 101*

LIL' PUMP-KE-MON^

MUNCHKIN^

IRON MAN^

MISCHIEF^

CANNON BALL^

FIELD TRIP^

| Code | Variety | Days | Fruit Size/HxW | Skin Color/Texture | Vine Type | Disease Reaction | Comments |
|------|---|------|------------------------------------|---------------------------------------|--------------------|------------------|---|
| 6265 | MUNCHKIN | 100 | ½ lb. mini | Medium orange, ribs | Full vine | | Munchkin is as cute as the name implies! Vines are productive and yield uniform, cookie-cutter like fruit. |
| 6269 | LIL' PUMP-KE-MON  | 100 | 1 - 2 lbs., Flat mini | White, bright orange stripes, ribs | Full vine | | <i>Eye-catching!</i> Miniature fruit is "flat" in shape and boasts colorful orange stripes on a white background. Unique for fall decorating! |
| 6337 | IRON MAN  | 115 | 4 lbs., Round | Medium-dark orange | Restricted | IR: Sf | Iron Man's hard shell and smaller size makes it an easy choice for a painting pumpkin. Iron Man has a sturdy handle that complements its look and makes it easy to carry and handle. |
| 9556 | MISCHIEF  | 105 | 2 - 4 lbs., Tall, Round | Dark orange | Semi-vine | IR: Sf | Mischief has a unique appearance and yields slightly tall fruit. Strong fruit set and uniformity. Appealing as well, with its distinct ribs and great handle. |
| 6622 | CANNONBALL  | 110 | 5 lbs., Round | Dark orange, slight to medium ribs | Full vine | IR: Sf | Pie size fruit complements any pumpkin line-up! Fruit is round and smooth with a heavy handle for its size. Vigorous plant yields well. |
| 9017 | FIELD TRIP  | 100 | 5 - 7 lbs., Round to round-flat | Deep orange, distinct ribs | Restricted vine | IR: Sf | Perfect for school trips to the pumpkin patch! Uniform fruit is round-flat in shape with a distinctive long handle. Plenty of ribs give jack-o-lantern type character to an easy-to-handle smaller fruit. |

All pumpkins listed below are treated with Farmore® 400 seed treatment.

PUMPKINS **HARRIS MORAN** *Listed By Size From Smaller To Larger - See Pricing On Page 101*

GLADIATOR^

MAGICIAN^

MAGIC WAND^

MAGIC LANTERN^

ALADDIN^

APOLLO^

| Code | Variety | Days | Fruit Size/HxW | Skin Color/Texture | Vine Type | Disease Reaction | Comments |
|------|---------------|------|-----------------------------------|---------------------------------|---------------------------|------------------|--|
| 6268 | MAGICIAN | 110 | 8 - 16 lbs., Round | Dark orange, distinct ribs | Restricted vine | IR: Sf, ZYMV | A standout with dark color and distinct ribs! Fruit size varies and lends itself to variety for roadside stands. Fruit is round to slightly flattened. |
| 9285 | MAGIC LANTERN | 110 | 15 - 25 lbs., Round | Dark orange, medium ribs | Semi-bush | IR: Sf | Classic dark orange and round fruit is easy to harvest from bush-like plants. |
| 8481 | MAGIC WAND | 110 | 15 - 25 lbs., Round to round-flat | Dark orange, heavy ribs | Semi-bush | IR: Sf | A standout for heavy ribbing on round to slightly flat fruit. Fruit is uniform in size and shape. Handle is heavier than Magic Lantern. Vigorous bush. |
| 6493 | GLADIATOR | 115 | 15 - 25 lbs., Round | Dark orange, distinct ribs | Restricted vine/semi-bush | IR: Sf | The perfect roadside pumpkin and the industry standard. Decorative dark orange color, distinct heavy ribs, and thick sturdy handle complete the look! |
| 5461 | APOLLO | 110 | 18 - 32 lbs., Round to tall | Medium-dark orange, Medium ribs | Semi-vine | IR: Sf | A complement to Aladdin with improved handle size and handle attachment. Surface is slightly rough. |
| 9354 | ALADDIN | 110 | 25 - 35 lbs., Tall | Medium-dark orange, medium ribs | Restricted vine/semi-bush | IR: Sf | Reliable and productive, fruit is similar in color and handle quality to Magic Lantern but is larger in size. |

RADICCHIO

Listed By Size From Smaller To Larger - See Pricing Below

| Code | Variety | Days | Comments |
|------|----------|------|--|
| 6793 | INDIGO | 68 | Early maturing with intensely colored, round 5" heads. The compact plant is quite uniform. Indigo is the best choice for spring seeding and is widely adapted. |
| 9840 | LEONARDO | 81 | The large, vigorous plant produces dark red, large heads. Best for fall crops. |
| 9081 | FIERO | 110 | Treviso type (elongated, pointed shape) for fall production. Forms dense heads of dark red colored leaves with white midrib. Very productive and slow to bolt. Healthy plants are easy to grow from direct seed or from transplants. |

SPINACH

SPECIALTY

Listed In Order Of Vigor - Fastest Growing First - All Work For Baby And Full Leaf Unless Noted - See Pricing On Page 106

| Code | Variety | Pucker/Savoy | Warm/Hot | Cool/Cold | Disease Resistance | Comments |
|------|-----------|--------------|----------|-----------|-------------------------------|--|
| 9664 | RESPONDER | semi savoy | | ✓ | R: Pfs: 1-11 | This variety is perfect for your coolest season. With a unique combination of bolt resistance and vigor, it is our best choice for overwintering. The round-oval leaves develop savoy with size. |
| 5474 | ASHLEY | semi savoy | | ✓ | R: Pf: 1-10, Ua (multi) | Ashley is back! This dark green variety is widely adapted for both baby leaf and larger bagged leaves. This is a favorite variety for all but the hottest seasons. |
| 7625 | AZTEC | slight savoy | ✓ | ✓ | R: Pfs: 1-15 | Aztec does well in most seasons except mid-summer. It has good vigor for cooler weather. Leaves are dark green, thick, flexible and glossy with a slight savoy. It is mostly used for baby or teen size but can also be bunched. |
| 7848 | SIOUX | slight savoy | ✓ | ✓ | R: Pfs: 1-15 | Sioux is proving to be widely adapted, looking great everywhere we have seen it. It is dark green, with very thick, supple leaves and a medium savoy. It will grow full sized if needed, although it is mostly used for baby leaf. This is your best choice for warm and hot weather |
| 9669 | BANJO | slight savoy | ✓ | ✓ | R: Pf: 1-12,14, 15 Ua 4410 | Banjo is an all-around reliable choice for all but the warmest seasons. Consistent leaf shape and stem length, coupled with a dark green color, makes this a very attractive variety. Longer stems are good for bunching. The leaves are backrolled, adding to volume and keeping the leaves from sticking together. Banjo has an unusually thick leaf for a fast-growing spinach. |

FLAMINGO^

| Code | Variety | Pucker/Savoy | Warm/Hot | Cool/Cold | Disease Resistance | Comments |
|------|---|--------------|----------|-----------|-----------------------------|---|
| 9679 | PIANO | flat | ✓ | ✓ | R: Pfs: 1-12 | Nice, dependable, flat leaf spinach with a dark green, backrolled, round-oval leaf for extra volume. The stems are long for easy cutting. Medium vigor. Used for baby, teen, and bunched. |
| 9416 | SEASIDE | flat | ✓ | ✓ | R: Pfs: 1-12 IR: Pfs: 14 | Seaside has dark green, thick, oval leaves and has good heat and cold tolerance. It is slow growing with very thick leaves and very erect. We have had success with overwintering Seaside. |
| 9619 | MANDOLIN <i>Baby only</i> | semi savoy | ✓ | | R: Pfs: 1-12, 14, 15 | This is a very fancy, slow-growing variety for use in the warmest weather. It has a heavy and supple dark green oval leaf. |
| 9823 | HUDSON <i>Processing</i> | flat | ✓ | ✓ | R: Pfs: 1-11, 13 | Hudson makes a lot of weight and volume fast and is favored for processing; however, it is attractive enough to work for fresh market. It is fast growing and a medium green. Best in cool seasons. |
| 6104 | FLAMINGO <i>Oriental type</i> | nearly flat | | ✓ | R: Pfs: 1-11,13 IR: 12 | This specialty type is preferred by some Asian markets. The large leaves are mostly triangular in shape and the stems are magenta "Flamingo" colored near the base. |

SPINELESS PERFECTION^

RESPECT^

GR:SE = Geographical Restriction; due to a vendor agreement, we may not be able to supply large quantity orders in Southeast states.

PLEASE NOTE: The "GE" designation refers to varieties that have been genetically engineered.

PLEASE NOTE: GE varieties are NOT available for shipment to Vermont and/or other states restricting, or considering restricting the sale of GE items; or mandating comprehensive reporting requirements. GE squash purchases require a license number.

| Code | Variety | Days | Shape | Color | Plant Type | Disease Reaction | Comments |
|------|--|------|-------------|------------------------------------|--------------------|----------------------------|---|
| 5334 | CASH MACHINE  | 42 | Cylindrical | Medium-dark green, light flecking | Semi open, upright | IR: Px, ZYMV, WMV, PRSV | Cash Machine produces very high quality medium dark green zucchini with light flecking and a small blossom scar. Cash Machine sets fruit prolifically on a compact to medium, upright, semi open plant, and when combined with its excellent disease package, promises to deliver high yields of uniform fruit. |
| 6522 | EVERGLADE  | 43 | Cylindrical | Medium-dark green, light flecking | Open | IR: CMV, WMV, ZYMV, Sf, Px | Everglade is a medium-dark green zucchini for the Eastern U.S. market with robust virus and disease resistance and strong yield capability. It features an open, upright plant and offers improved fruit quality with desirable color and flecking. |
| 9663 | GREEN ECLIPSE  | 44 | Cylindrical | Dark green, glossy, light flecking | Open bush, compact | | Fruit twists off with few breaking, very high yield, may be earliest and most productive. |
| 8570 | GREEN MACHINE  | 44 | Cylindrical | Medium-dark green, light flecking | Open, upright | IR: CMV, WMV, ZYMV, Sf | Early and productive, Green Machine produces smooth cylindrical fruit that are lightly flecked. An easy fit for quality and color in Eastern markets. Maintains even cylindrical shape as fruit sizes up. |
| 5469 | SPINELESS PERFECTION  | 44 | Cylindrical | Medium-dark green, light flecking | Open, upright | IR: Sf, WMV, ZYMV | Comparable to Spineless Beauty in shape with more refined flecking and darker green color. Spineless plants promote less bruising at harvest time. |
| 8779 | RESPECT  | 44 | Cylindrical | Medium-dark green, light flecking | Open, upright | IR: PRSV, Sf, WMV, ZYMV | Plant is nearly spineless and yields smooth fruit that is lightly flecked with a refined appearance. Well adapted to growing in the East and meeting market trends for color and appearance. |

| Code | Variety | Days | Shape | Color | Plant Type | Disease Reaction | Comments |
|------|---|------|------------------------------|-----------------------------------|---------------|------------------------|--|
| 6172 | PAYROLL <small>FARMORE</small> | 45 | Cylindrical, medium flecking | Medium-green, medium flecking | Open bush | IR: Sf, WMV, ZYMV | Very smooth fruit, attractive. Reduced spines and a good disease package. |
| 9029 | PAYCHECK <small>FARMORE</small> | 45 | Cylindrical, heavy flecking | Medium-green, heavy flecking | Open bush | IR: ZYMV, WMV, CMV, Px | Attractive and uniform fruit with a glossy appearance. Upright, open plant with reduced spines. Comparable yields to Payroll, but with an earlier harvest. Minimal fruit damage during harvest helps reduce loss and maximize harvest. |
| 5483 | SPINELESS KING <small>FARMORE</small> | 45 | Cylindrical | Medium-dark green, light flecking | Open, upright | IR: Sf, WMV, ZYMV | Combines productivity with great qualities for easy harvest - strong open bush, spineless plant, and firm fruit. Shows the medium-dark color the market demands as well as a glossy, fresh appearance. |
| 6691 | LEOPARD <small>FARMORE</small> | 45 | Cylindrical | Medium-green, light flecking | Open | IR: PRSV, ZYMV | Reduced wind breakage. High quality fruit that is easy to pick! Glossy, medium green color. |
| 8849 | SPINELESS BEAUTY <small>FARMORE</small> | 50 | Cylindrical | Medium-green, heavy flecking | Open | | Easy harvest and minimal fruit scarring. A consistent performer for yield and high quality glossy fruit. |

SUMMER SQUASH

YELLOW STRAIGHTNECK HYBRIDS *Listed By Maturity - See Pricing On Page III*CONQUERER III[^]GOLDPRIZE[^]LAZOR[^]GRANDPRIZE[^]ENTERPRISE[^]LIONESS[^]

| Code | Variety | Days | Shape | Color | Plant Type | Disease Reaction | Comments |
|------|--|------|--------------|-----------------------------|---------------|--------------------------------|---|
| 9343 | CONQUERER III  | 41 | Straightneck | Yellow, Green stem | Vigorous | HR: CMV, WMV, ZYMV IR: PRSV | Strong virus resistance in a semi-open plant. <i>License Number is required. GE. GR:SE</i> |
| 5562 | GOLDPRIZE  | 42 | Straightneck | Yellow, Green stem | Open | IR: ZYMV, WMV | Goldprize delivers a very productive, high-quality yield with the advantage of improved yellow color in smaller fruit that consumers demand. Higher yields for better profitability. |
| 9801 | LAZOR  | 42 | Straightneck | Light yellow, Green stem | Vigorous bush | IR: ZYMV | Exceptionally firm, smooth fruit alleviates some of the "roughness" typical of first picks. Thick and sturdy neck promotes easy handling. Attractive glossy skin. |
| 6584 | GRANDPRIZE  | 42 | Straightneck | Deep yellow, Green stem | Vigorous bush | IR: ZYMV, WMV, Px | Grandprize is a straightneck squash variety that produces high quality fruit with a glossy, deep yellow appearance and green peduncle. It boasts an enhanced disease package and vigorous plant that delivers solid yield performance over other yellow straightneck varieties. |
| 8853 | ENTERPRISE  | 44 | Straightneck | Yellow, Green stem | Vigorous bush | | Vigorous, high yielder with green stem. |
| 9342 | LIONESS  | 52 | Straightneck | Light yellow, Green stem | Vigorous | IR: PRSV, WMV, ZYMV | Green stems, unique plant. Pretty smooth and glossy fruit gives a fancy look. |

TIVOLI^

VEGETABLE SPAGHETTI^

| Code | Variety | Days | Shape (WxL) | Exterior Color | Plant Type | Comments |
|------|--|---------|---|----------------|-----------------|---|
| 5447 | PINNACLE (Hybrid)  | 85 | 4" x 7", oval, 2.5 - 3 lbs. | Bright yellow | Semi-bush | Pinnacle has a more compact semi-bush type plant to allow for higher plant populations. Mature, bright yellow color is appealing. Internal quality is good with fine strands. |
| 9912 | PRIMAVERA  | 90 - 95 | 4" x 7", oval, 2.5 - 3.5 lbs. | Pale yellow | Restricted vine | Uniformity and ideal size make Primavera well-suited to boxing. Reduced vine habit when compared to OP types. |
| 9940 | TIVOLI (Hybrid)  | 98 | 6" x 10", oval | Pale yellow | Bush | Unique space saving bush habit with typical spaghetti squash fruits. |
| 8869 | VEGETABLE SPAGHETTI (OP)  | 100 | 5" x 10"-12", cylindrical, 3 - 5 lbs. | Pale yellow | Vigorous vine | Large fruit. Cream rind turns pale yellow at maturity. Flesh resembles spaghetti when cooked. |

WINTER SQUASH

BUTTERNUT *Listed By Maturity - See Pricing On Page 115*

| Code | Variety | Days | Shape (WxL) | Exterior Color | Plant Type | Comments |
|------|--|---------|-----------------------------|----------------|----------------------|---|
| 9674 | BUTTERBOY (Hybrid) <small>FARMORG</small> | 80 | 3" x 7-9" 2.5 - 3 lbs. | Tan | Very restricted vine | <i>Early!</i> Best interior of butternuts with dark orange flesh. Smaller size makes Butterboy a perfect fit for boxing. |
| 9120 | AVALON (Hybrid) <small>FARMORG</small> | 88 | 4" x 7-9" 4 lbs. | Tan | Vigorous vine | Consistently produces strong yields and maintains good shape and uniformity. A standard for boxing. |
| 9481 | ULTRA HP (Hybrid) | 90 | 4" x 16" 8 - 9 lbs. | Light tan | Strong vine | Originally produced to lower inbreds and off types in Ultra. Off season production in South and Mid-South. Uniform. Long neck, larger size. |
| 6317 | ATLAS (Hybrid) <small>FARMORG</small> | 100-110 | 5 1/2" x 13" 7 - 11 lbs. | Tan | Restricted vine | Fruit is larger than Waltham, making it perfect for peeling. Thick neck, exceptional uniformity and quality. |

WINTER SQUASH

BUTTERNUT *Listed By Maturity - See Pricing On Page 117*

| Code | Variety | Days | Shape (WxL) | Exterior Color | Plant Type | Comments |
|------|---|--------------|-----------------------------------|----------------|--------------------------|--|
| 7605 | SWEETMAX (Hybrid) <small>FARMORE</small> | 90 | 5" x 11", 5 - 10 lbs. | Dark tan | Full vine | A large and early maturing butternut with a blocky, square shape. Interior flesh is a deep, dark orange. Fruit ranges from 5 to 10 lbs. in size and can be used for processing applications. |
| 6780 | GRANITE (Hybrid) <small>FARMORE</small> | 95 | 3.5" x 10", 3 - 3.5 lbs | Tan | Restricted vine | A nice package of uniformity and productivity for the boxing trade. Fruit is smooth with little to no ribbing and carries a refined shape that boxes easily. |
| 6440 | YUKON (Hybrid) | 100 | 4" x 11.5", 4 - 6 lbs. | Tan | Full vine | Good size and nice orange flesh. With a longer neck, it can be used as a larger fresh market type or a processing type. This variety has great uniformity and size. Yukon is suitable for short day production. |
| 6578 | ROCHELLE (Hybrid) <small>NEW FARMORE</small> | 100 | 4" x 9 - 10", 4 - 5.5 lbs. | Tan | Full vine | The larger fruit size may lend to applications for boxing on hallenging ground. This is a smooth fruit with little to no ribbing on a vigorous full vine. |
| 9551 | ZODIAC (Hybrid) <small>FARMORE</small> | 110 | 4" x 13", 3.5 - 5 lbs. | Tan | Strong vine | Highly productive! Long fruit size with a thin neck. Fruit shape is easily handled by lathe peelers. |
| 6583 | GABRIELLE (Hybrid) <small>NEW FARMORE</small> | 100 | 4 - 5" x 11", 5 - 7 lbs. | Tan | Full vine | Large blocky fruit type is well suited to processing applications. Fruit has a traditional butternut shape with little to no ribbing that allows for efficient peeling. Dark interior color. Full vine. Uniform fruit. |
| 6043 | POLARIS (Hybrid) <small>FARMORE</small> | 100 - 105 | 4" x 9", 3 - 4 lbs. | Tan | Strong vine | Traditional shape comparable to Waltham. Fruit is uniform in size and shape and has shown good tolerance to cracking. |
| 5367 | BUTTERBABY (Hybrid) <small>NEW</small> | 100 - 105 | 3 - 4" x 4 - 6", .5 - 1.5 lbs. | Tan | Restricted vine | A true mini butternut with a traditional shape and rind color. Fruit stores for four months. We like the productivity, consistent quality, and sweet taste. |
| 9091 | BUTTERKIN (Hybrid) <small>FARMORE</small> | 105 | 6" x 4" | Tan | Full vine | Specialty item ideal for discerning consumers. Very dark interior, deliciously sweet and smooth in texture. A perfect personal or family size butternut. |
| 8864 | PURITAN BUTTERNUT (OP) | 110 | 3" x 8", 2 - 3.5 lbs. | Tan | Full vine | An OP butternut that shows good uniformity in size and shape. A reliable producer; slightly smaller than Waltham. |
| 5108 | QUANTUM (Hybrid) <small>FARMORE</small> | 110 | 5" x 10", 3 - 5 lbs. | Light tan | Strong, vigorous vine | Fresh market boxing-type squash. Very uniform in size and shape with a very thick neck and small seed cavity. Growers will appreciate vigorous vine. |
| 8708 | WALTHAM BUTTERNUT <small>FARMORE</small> | 110 | 3" x 9", 3 lbs. | Tan | Full vine | A standard in the industry. Popular favorite among growers and home gardeners alike. |
| 7717 | HONEYNUT (Hybrid) | 120 | 2.5" x 5" | Dark tan | Restricted vine | A mini or personal size butternut weighing in at about 1 lb. in size. Flesh is sweet and dark in color. This is a long season variety, and we recommend planting early. |

OTHER TYPES

Listed By Maturity - See Pricing On Page 117

| Code | Variety | Days | Shape (WxL) | Exterior Color | Plant Type | Comments |
|------|---|--------|----------------------------|-----------------------|--------------------|--|
| 8870 | SWEET DUMPLING | 100 | 4" x 3 1/2" | Cream, green stripes | Restricted vine | Ornamental type with delicious, sweet flavor. Heavy yields on a vigorous vine. |
| 9701 | DELICATA | 100 | 3" x 7" | White, green | Standard vine | Fine grained, sweet and tasty, stores well, specialty. |
| 7486 | HEAVENLY HUBBARD (Hybrid) | 100 | 14" x 18", 23 - 30 lbs. | Blue-grey | Vigorous full vine | A new introduction based on an old New England favorite! Thick, fine textured flesh with sweet flavor. Hubbard type. |
| 6647 | LA ESTRELLA (Hybrid Calabash) <small>FARMWORKS</small> | 70-100 | 14" x 14", 6 - 10 lbs. | Mottled green and tan | Med-large vine | Also known as Calabaza, Cuban pumpkin and many other names. Popular with Latin populations. Size varies on growing location: 6 lbs. in Northern areas, 10 lbs. in the South. |
| 9655 | RED OCTOBER (Hybrid) (BIN) | 100 | 6 - 10 lbs. | Red | Full vine | Striking red color is the hallmark of this variety! This smaller hubbard type exhibits productivity and uniformity and easily finds its way into ornamental applications. |
| 6175 | BUSH DELICATA | 105 | 3 1/2" x 7" | White, green | Bush | Bush version of the original full vining Delicata. Same sweet, delicious taste. Holds white color well. Space saver. Expect 4 to 6 fruits per plant. IR: Sf GR:SE |
| 9932 | CUSHAW GREEN STRIPE (BIN) | 110 | 10" x 17", 10 - 14 lbs. | Cream, green stripes | Vigorous full vine | Long neck with a bulbous end. <i>Excellent ornamental!</i> |
| 9423 | CUSHAW ORANGE STRIPE (BIN) | 110 | 9" x 15", 8 - 12 lbs. | Cream, orange stripes | Vigorous full vine | <i>Ornamental!</i> Striking contrast of bright orange and creamy white striping. |
| 8866 | GOLDEN HUBBARD (BIN) | 110 | 9" x 11", 10 - 12 lbs. | Red-orange | Vigorous | A companion to Blue Hubbard with brilliant red-orange rind. Deep orange, with dry tasty flesh. |
| 8865 | NECK PUMPKIN | 110 | 5" x 24" | Tan | Full vine | Actually a squash but a pumpkin. Thick, orange flesh with sweet flavor; best for pies. |

GR:SE = Geographical Restriction; due to a vendor agreement, we may not be able to supply large quantity orders in Southeast states.
 PLEASE NOTE: The "GE" designation refers to varieties that have been genetically engineered. PLEASE NOTE: GE varieties are NOT available for shipment to Vermont and/or other states restricting, or considering restricting the sale of GE items; or mandating comprehensive reporting requirements. GE squash purchases require a license number.

Turnpike

Large fruit with excellent internal qualities

- Large, early maturing fruit from 16-20 lbs
- Very uniform in size and shape
- Very strong plant vigor
- Excellent eating qualities

Coastal

77-day supersweet bicolor with a beautiful package

- Excellent yield, attractive flag leaves
- Strong plant with short shank for easy hand picking
- Vibrant kernel color contrast and style

Lasalle

High quality, easy-to-harvest 54-day bean with good yields.

- Strong, upright plant with good yields
- Easy-pick pods for efficient harvesting
- Upright plant keeps pods off the ground
- Uniform, straight, quality pods

Respect

Earliness and productivity for high-quality medium-dark green zucchini

- Good earliness and high yield
- Vigorous, open plant for easy picking
- High-grade fruit Intermediate resistance to powdery mildew and viruses

Skyhawk

Excellent place pack BLS 1-10 pepper

- Mid-green color with a perfect blocky shape
- Smooth, attractive fruit
- High yield

Mountain Honey

Delicious cocktail-style tomato with a semi-determinate plant habit

- Excellent disease package and yield
- Very good flavor and brix
- Uniform fruit shape
- 24-count pint / 45-count quart

Technical data and disease resistance ratings shown are averages of results from observations at various locations, under different conditions, and laboratory tests. It is not a prediction of future performance but a summary of past results. Seed performance, yield, and crop results will vary depending on geographic areas, environment conditions and pressure, field growing and management practices, and the presence of pests or pathogens. New, unknown, and/or atypical pathogen strains may overcome the resistance of the seed. Acceptance of the HM.CLAUSE Limitation of Warranty and Liability and Use Restriction, included with our seed packages or available at www.hmclause.com, is a condition of use of all our products.

SWISS CHARD

See Pricing Below For Other Varieties

| Code | Variety | Days | Days are to full size. For baby, most will be between 24 and 30 days. |
|--------|-----------------------|---------|--|
| 5161 | BALI | 45 | Glowing crimson red stems and broad veins are eye-catching in contrast to the green, glossy leaves. Vigorous. |
| 7555 | NEW FIRE FRESH | 25 - 35 | This magenta-stemmed chard is bred (and priced) for baby-leaf use. Grown larger it is also good in braising mixes. Fire Fresh has a very clean look, with bright contrast between the magenta stems and medium green leaves. Growth is erect with even length stems for machine harvest. HR: Cb IR: Pfb(1) |
| 5487 | CELEBRATION | 58 | Multi-colored chard with exotic dark orange, crimson, burgundy, and gold colors with nicely savoyed leaves. A true genetic mix, you may get two colors from each seed pod. This translates to more even germination and growth between colors. |
| 8108NT | BRIGHT LIGHTS | 55 | Alternative to Celebration, Bright Lights displays bright colors of gold, pink, orange, purple, red, and white. Bright Lights is a mix, so be careful when thinning to not favor only the most vigorous plants. |
| 5488 | ELDORADO | 55 - 60 | Stunning yellow-gold stem with clean, glossy, green leaves. |
| 9867 | PEPPERMINT | 58 | Peppermint has unique, beautiful pink and white stripes on its stems! Note that the stripes develop with size, generally when stalks reach about 8" tall. Upright growth habit of heavily savoyed leaves. Bolt tolerant. |
| 9546 | SILVERADO | 60 | Dark green, heavily savoyed leaves with broad, white stems. Compact for easy packing. Slow bolting. |
| 7734 | ION | 30 | Bred for salad or braising mixes, Ion has the qualities you look for to machine harvest; stout straight stems that stand erect. The leaf is a clean bright green. Stems and veins are cranberry colored. Tolerant to Cercospora and Downy Mildew. |
| 7733 | BARESE | 30 | Barese chard is an Italian heirloom, now used mostly for baby leaf and braising mixes where its milder flavor is appreciated. The leaves are a dark, waxy green and are held erect on stout, flat, bright white stems. |
| 7565 | ORANGE FANTASIA | 55 | Orange Fantasia has lovely, golden-orange stems and veins with clean, rich green leaves. It is used for baby leaf and will grow full-sized, although the stems will be somewhat narrow. |

Continuous setting with full clusters throughout to the top of the plant. Excellent shelf life. |
| 9158 | TAMI G | 60 | ½ oz., oval | Vigorous, indeterminate | | Very sweet, firm, pleasant texture, yields well, picks for an extended period. Green shoulder. |
| 7552 | RUBY CRUSH | 60 | ½ - ¾ oz. | Vigorous, determinate | HR: Fol (1,2), For, ToMV: 0-2 IR: Ss | Ruby Crush is blazing a new trail in the tomato world! It works in a container, it shines in the field, and the sugary-acid balanced fruits resist cracking, unlike other determinate grape varieties. Plants are strong with good leaf cover preventing sun damage. The compact plants can be grown with minimal support (2 foot high fence trellising or standard tomato cage). |
| 6049 | SOLID GOLD (Yellow) | 65 | ½ oz., oval | Indeterminate | R: Fol (1) | A sweet yellow grape making a name for flavor while also showing good shelf life, crack resistance and yields. |
| 5454 | BHN 784 | 68 | ½ oz. | Determinate | HR: Fol (1) | Comparable to BHN 785 with hot set ability. |
| 7441 | BHN 785 | 68 | ½ - ⅔ oz. | Determinate, good cover | HR: Fol (1) | Concentrated set of smooth, firm fruit. |
| 6746 | SMARTY | 69 | ½ - 1 oz. | Indeterminate, short internode | R: Fol (1), V | 25% shorter plant than Santa with the same good taste. Nice, firm, glossy fruit with good flavor. |
| 7721 | MOUNTAIN VINEYARD | 71 | ½ oz. | Semi-indeterminate | HR: TSWV, Fol (3) | Semi-indeterminate plant habit. Deep red, uniform fruit. No yellow halo around the petiole. Excellent yield and disease package. |
| 7613Z | MOUNTAIN HONEY | 71 | ½ - ¾ oz. | Semi-indeterminate | R: Pi, Fol (3), TSWV | Semi-indeterminate plant habit. Good yield. Excellent disease package. Very good flavor and brix. Deep red fruit. Uniform fruit shape. 24 count pint/45 count quart. |

| Code | Variety | Days | Size/Shape | Plant Type | Disease Reaction | Comments |
|-------|--|------|-----------------------|------------------------|---|--|
| 7663 | BRAVEHEART | 60 | ¾ oz. | Compact, indeterminate | HR: Ff (a-e), Fol1, ToMV 0, 1 IR: Ss | Deep red, richly flavored fruit are firm and slow to split. The medium-large sized fruit ripens in clusters, making it fast to harvest. While Braveheart is priced to work for garden plant sales, it has the productivity and firm fruit that professional growers appreciate. |
| 5007 | GOLDI (golden yellow) | 63 | ¾ oz. | Large, indeterminate | IR: ToMV, F | Very good flavor with uniform, firm fruit. Very productive and crack resistant. |
| 6069 | SWEET TREATS (pink) | 65 | 1 oz. | Large, indeterminate | HR: Ff (a-c), Fol 1, ToMV IR: Ss | The wonderful flavor of Sweet Treats is complemented by a lovely dark pink color. Productive and crack resistant. Firm enough for retail; unique for plant sales. The larger fruit size speeds up picking. |
| 9116 | BHN 268 | 68 | Less than 1 oz. | Tall, determinate | HR: Fol (1), V | Smooth, attractive fruits ripen to fully red. Premium, extra firm fruit hold, packs and ships well. |
| 7500Z | BHN 762 | 68 | ¾ oz. | Determinate | HR: Fol (1,2), V | Very uniform fruit size from the bottom to the top of the plant, improved red color, good firmness. Well adapted to Southern growing regions. |
| 5181 | CHOCOLATE CHERRY (OP) | 70 | 1 oz., 1" - 1 1/3" | Indeterminate | | Unique cherry "heirloom" type. Sweet and delicious, Chocolate Cherry has gourmet quality and produces 8 fruit per cluster. Grower friendly-fruit is crack resistant and holds well on plant. |
| 9716 | SUPER SWEET 100 | 70 | 1 oz. | Indeterminate | HR: Fol (1), V | This home garden favorite produces large cascades of sugary sweet, small cherry tomatoes. |
| 5473 | MOUNTAIN MAGIC (Cocktail type) | 74 | 2+ oz. | Compact, indeterminate | HR: Fol (1,2), Pi, V IR: As | An excellent choice not only for its one-of-a-kind disease package, but also for its remarkably sweet flavor and long shelf life. Expect uniform fruit and crack resistance. Late and Early Blight resistant! Just large enough to slice for a sandwich. If not pruned, can be used as a large cherry. |

| Code | Variety | Size/Shape | Disease Reaction | Comments |
|------|----------------|--------------|-----------------------------|--|
| 5183 | BLACK VELVET | 4 oz., round | | 76 days. Unlike most black or purple tomatoes, Black Velvet is firm, resists cracking, and matures early. Black Velvet has a zingy flavor that makes an excellent addition to heirloom mix salads. |
| 7330 | PINK GIRL | 8 oz. | IR: Aal, Fol (1), Ss, V | 76 days. Pearly pink fruit has a mild, sweet flavor. Green shouldered. |
| 7820 | RIBELLE | 5 ½ oz. | HR: Fol (1,2), Va, Vd, ToMV | Narrow fruit with a soft point on the end for a rustic Italian look. It sets easily and has firm, flavorful, meaty fruit. Ribelle has a very manageable compact, indeterminate vine. |
| 7659 | MOUNTAIN ROUGE | | IR: Pi, M | Heirloom-type hybrid with large, smooth, pink fruit. Probably one of the most tasteful tomatoes on the market. Mountain Rouge is resistant to Late Blight and Root Knot Nematode. |

TOMATO HEIRLOOM INDETERMINATE - OPEN POLLINATED *See Pricing On Page 133*

| Code | Variety | Days | Size/Shape | Comments |
|--------|--|------|---------------------------------------|--|
| 9377 | CHEROKEE PURPLE | 72 | 12 - 16 oz., oblate | Cherokee is one of the earliest large-fruited heirlooms to mature. The fruit is colored with a combination of purple, black, brown, red, and green both inside and out. Compact plant. |
| 8423OR | GREEN ZEBRA | 75 | 4 - 8 oz., oval to round | An easy heirloom to grow because the fruit is smaller and smoother than most. Dark green stripes on yellow-green background with tangy flavor. |
| 9635 | "RIVIERA" CUORE DI BUE  | 75 | 4 - 6 oz., fig shape with deep pleats | From Italy, this is an improved strain of oxheart tomato. It is very flashy with deep lobes but a relatively small blossom scar. It is an exceptionally heavy yielder in high tunnels. There is very little gel, so Riviera is good for stuffed tomatoes or for sauce. In the tunnel you can expect few to no culls. |
| 9375 | BRANDYWINE pink  | 78 | 1 lb. or more, oblate | Considered by many to set the standard for rich tomato flavor in heirloom tomatoes, Brandywine has an attractive "potato leaf" plant. |
| 7893 | PINEAPPLE PREMIER  | 80 | 12 oz. and up, oblate | Our strain of Pineapple has a wonderful citrusy, fruity flavor and meaty texture. The flesh has large streaks of rose and lemon-yellow colors. It keeps producing a good deal longer than many heirlooms. |

TOMATO GREENHOUSE-TUNNEL-ROOTSTOCK INDETERMINATE VINE *See Pricing On Page 133*

| Code | Variety | Size/Shape | Disease Reaction | Comments |
|-------|--|------------|---|--|
| 5537 | BIGDENA  | 8 - 10 oz. | IR: Fol (1,2), Ff (1-5), For, ToMV (0-2), V, TMV: 0 | 73 days. Most tomatoes bred specifically for greenhouse culture have the smaller type fruit popular in Europe. Bigdena is the exception in that it combines large fruit with a fancy greenhouse look. Mostly smooth with a small stem scar. The fruit is firm with very good flavor. In tunnels, it is a week later than the earliest varieties but is an overall heavy yielder. |
| 9557X | ARNOLD rootstock  | | HR: Ff: 1-5, Fol: (1, 2), For, V, ToMV: 0-2 IR: Pl / M | Arnold has the disease resistance you are looking for in rootstock with an easy-to-grow seedling. The seed germinates well, evenly and quickly. Arnold is vigorous when it comes to fruit set and seedling growth but produces a manageable, open plant that is not overly vegetative. It works well with heirlooms in high tunnels. |
| 6412 | MAXIFORT rootstock  | | IR: Ma, Mi, Mj | Gives growers maximum production and crop performance potential until the end of the crop, providing extra power for long seasons. |

TURNIP HYBRIDS
See Price List Below For Featured Varieties and Open Pollinated Varieties

| Code | Variety | Days | Comments |
|------|---------------|------|--|
| 8938 | ALAMO | 33 | Used for greens, Alamo is excellent for processing. Vigorous regrowth promotes strong yields. |
| 8756 | TOPPER | 35 | Cut leaf, Seven Top-type. Upright dark green leaves; tolerates aphids and mildew. |
| 9580 | BELLA LUNA | 40 | This white Japanese turnip is sweet and mild with excellent earliness, uniformity and a refined appearance. The medium-sized tops are a shiny dark green. With good heat and bolting tolerance, it can be grown from early spring through late fall. Has Club Root resistance. |
| 8752 | ROYAL CROWN | 40 | Improved Purple Top White Globe hybrid, suitable for both roots and tops (which are a cut-leaf type). Good bolt tolerance. Roots retain fine interior quality into larger size. |
| 5182 | PURPLE PRINCE | 45 | Vigorous hybrid suitable for root or top harvest. Uniform flat-round roots are smooth with dense white flesh. Tops are vigorous, dark green, nearly hairless and resemble strap leaf type. Multiple cuttings are possible if used for tops. |
| 6329 | WHITE LADY | 50 | Japanese-type with medium-sized white roots and a large top. |
| 6555 | JUST RIGHT | 50 | Smooth, uniform, white bulbs with semi-globe shape, reaching 4.5" - 6" in diameter. Use fall to winter only; can bolt if used for a spring sowing. |

WATERMELON **TRIPLOID - SEEDLESS** *Listed By Maturity - See Pricing On Page 145*

| CRIMSON SWEET RINDS <i>Light green rind with mottled, dark, wide green stripes. This is the standard seedless "look".</i> | | | | | | | | | X = Primed Seed |
|---|-------------|------|--------------------|-------------|--|------------|-----------------------|---|-----------------|
| Code | Variety | Days | Weight & Bin Count | Shape | Rind | Flesh | Disease Reaction | Comments | |
| 7951X | SWEET DAWN | 74 | 16 - 20 lbs. | Blocky oval | Light green rind with medium dark stripes | Dark red | IR: Co1 Fon:1 | Dark red, firm flesh with very smooth skin. Produces consistently high yields. Early maturing for first-to-market advantages. | |
| 8251X | POSEIDON | 77 | 16 - 20 lbs. | Round oval | Light green rind with medium dark stripes | Bright red | | Poseidon is well adapted to early and cool season slots and offers the advantage of early yields. Crisp and bright red flesh eats well. | |
| 8926X | CHARISMATIC | 80 | 16 - 20 lbs. | Round oval | Medium dark green with dark stripe | Dark red | | With an attractive, darker rind, Charismatic has crisp, firm flesh. Features a strong, vigorous vine with excellent fruit setting ability and high yield potential. It is early with red, firm flesh. Smaller in the North. | |
| 8925X | SECRETARIAT | 80 | 16 - 20 lbs. | Round oval | Light green rind with medium dark stripes | Dark red | | Secretariat quickly became a standout in our watermelon lineup providing excellent early yield of fruit with excellent quality. Crisp and firm. It is widely adapted, including cooler slots. Secretariat is a very early, true 45 count, seedless watermelon. It exhibits a nice, oval, uniform shape. Secretariat has excellent fruit setting ability. Deep red firm interior with very small pips. | |
| 5030X | MELODY | 81 | 14 - 16 lbs. | Round | Medium green with hazy, broad, darker stripe | Bright red | IR: Co 1 | Melody is very reliable for yield, uniformity, soundness, and excellent eating. Fruit ripens well to the end of the vine and holds well too. Wonderful appearance, inside and out, with a tantalizing sweet flavor and crisp flesh. | |
| 5160 | TROUBADOUR | 82 | 13 - 18 lbs. | Oval | Medium dark green rind with dark green stripes | Dark red | HR: Co 1 | Troubadour features a fresh dark rind, and a uniform oval shape. It sets reliably with stress and has extra-firm, sweet flesh. Seedlings are typically vigorous. | |
| 7875 | ROAD TRIP | 82 | 16 - 20 lbs. | Round oval | Mottled stripe | Red | HR: Co 1 IR: Fon:1 | Vigorous vine type that provides good coverage through harvest. Excellent hollow heart characteristics. Uniform in fruit shape and size. Exceptional internal and external quality. GR:SE | |

|-----------------|---------------|------|--------------------|------------|---|------------|----------------------|--|
| 7402X | LIBERTY | 82 | 16 - 18 lbs. | Oval | Light green rind with medium dark stripes | Red | | Excellent interior quality with medium red flesh and small pips. |
| 8255X | NEPTUNE | 83 | 16 - 20 lbs. | Round oval | Light green rind with medium dark stripes | Bright red | | Neptune features consistent performance and sizing in the early-main season slot. Fruit is firm and has shown good shelf life. |
| 7646X | EXCURSION | 83 | 17 - 24 lbs. | Blocky | Light green rind with medium dark stripes | Deep red | IR: Co1, Fon:1 | Excellent fruit size potential. Attractive, deep red, firm flesh with small pips. Strong vine growth. Large, oval shaped fruit with crimson striped appearance. |
| 5761 NEW | RED OPAL | 84 | 15 - 19 lbs. | Oval | Light green rind with medium dark stripes | Bright red | | Red Opal has shown itself to be a very prolific seedless watermelon with a concentrated set of fruit. The light green background with a medium dark green stripe contrasts well with the bright red internal flesh color. |
| 5858 NEW | SUMMER BREEZE | 84 | 16 lbs. | Round oval | Medium light green stripes | Bright red | HR: Co1 IR: Fon:1 | High yield potential. Attractive, deep red flesh with mottle striped rind. |
| 5763 NEW | RED GARNET | 83 | 16-20 lbs. | Oval | Medium dark rind | | | Red Garnet is a prolific, dark green, crimson type seedless watermelon that has shown wide adaptability in trials in the Eastern U.S. & Texas. |
| 5697 NEW | TURNPIKE | 84 | 16 - 20 lbs. | Blocky | Medium light green stripes | Blocky | | Large, early maturing fruit. Very uniform in size and shape. Very aggressive plant vigor. Excellent internal eating qualities. |
| 5400X | FASCINATION | 85 | 16 - 20 lbs. | Oval | Medium green with hazy stripes | Red | IR: Co1, Fon:1 | Dark crimson rind. Fascination has the reputation for delivering excellent, reliable yields along with the best flavor and internal quality. Exceptional crisp, dense, sweet flesh coupled with excellent field holding ability. |

| Code | Variety | Days | Weight & Bin Count | Shape | Rind | Flesh | Disease Reaction | Comments |
|-------------------|-----------------------|------|--------------------|--------------|--|------------|------------------|--|
| 8852X | CAPTIVATION | 89 | 14 - 17 lbs. | Blocky | Medium green crimson, darker stripe | Bright red | IR: Co:1, Fon:1 | Attractive darker rind fades just a bit to signal full maturity. Sound flesh has incredible crunch without being fibrous. |
| 8342X | 7167 | 89 | 16 - 20 lbs. | Oval | Light green rind, dark green stripes | Bright red | IR: Co:1 | Strong plant vigor. Open field production type. Bright red flesh, good flavor and texture. |
| 7835X | 7177HQ SuperSeedless® | 89 | 16 - 20 lbs. | Blocky, oval | Light green rind, medium green stripes | Bright red | IR: Co:1 | Bright red flesh, firm and tasty with great texture. Very strong plant vigor. |
| 8232X | 7187HQ SuperSeedless® | 89 | 16 - 20 lbs. | Oval | Light green rind, dark green stripes | Red | IR: Co:1 | Late maturity with very strong plant vigor. Flesh is tasty and crunchy. |
| 5762NT NEW | RED AMBER | 89 | 18-20 lbs. | Oval | Medium green, darker stripes | Dark red | | Red Amber has a strong, vigorous plant that produces a uniform set of high quality, oval fruit. The very dark red interior has a crisp texture and contrasts well with the medium green background and medium dark green stripe. |
| 9305 | EXCLAMATION | 90 | 17 - 22 lbs. | Blocky, oval | Medium green, distinct darker stripes | Red | IR: Co:1, Fon:1 | Exclamation is an excellent choice for growers wanting a very large seedless triploid with excellent firmness and interior quality. The vine is quite vigorous. Very good quality later in the season. |
| 6893 | CRUNCHY RED | 90 | 16 - 22 lbs. | Oval | Light green, medium stripes | Light red | IR: Co:1 | Crunchy Red has earned a reputation for size and yield along with ease of shipping. As the name indicates, flesh is very firm. |

WATERMELON

SEEDLESS *Listed By Maturity - See Pricing On Page 145*

BLACK, ALLSWEET, UNIQUE RINDS

X = Primed Seed

| Code | Variety | Days | Weight & Bin Count | Shape | Rind | Flesh | Disease Reaction | Comments |
|-------|------------------|------|--------------------|-------------|------------------------------------|------------|------------------|---|
| 9657X | SWEET GEM | 78 | 15 - 16 lbs. | Round | Nearly black | Deep red | | An improved "Imagination"- slightly earlier and very sweet with firm flesh. |
| 9899X | TRI-X PALOMAR | 86 | 16 - 18 lbs. | Round | Dark hazy green with narrow stripe | Bright red | IR: Co 1 | Attractive and flavorful. Very good later in the season. Palomar holds well in the field and in storage. |
| 5365X | NEW STYLE | 84 | 16 - 18 lbs. | Round, oval | Solid black | Bright red | | Developed for the open field, performs very well there, both grafted and non-grafted. Style has the ability to set fruit while providing high yields. Excellent interior quality. |

SWEET GEM^

TRIPLOID - SEEDLESS *Listed By Maturity - See Pricing On Page 145*

YELLOW FLESH

X = Primed Seed

| Code | Variety | Days | Weight | Shape | Rind | Flesh | Comments |
|-------|-----------|------|--------------|-------|---------|---------------|---|
| 9341X | AMARILLO | 80 | 13 - 15 lbs. | Round | Jubilee | Deep Yellow | Broad adaptability, producing fruit with bright, deep yellow flesh and a distinctive rind pattern. |
| 9238 | BUTTERCUP | 82 | 12 - 14 lbs. | Round | Jubilee | Bright Yellow | High yields, an ideal smaller size, refined appearance and very clean, sweet taste. Compared to other yellow varieties, the rind is not as "faded" looking and the flesh is more solid. |

AMARILLO^

PERSONAL SIZE - SEEDLESS

X = Primed Seed

| Code | Variety | Days | Weight | Shape | Rind | Flesh | Comments |
|------|--------------------|------|----------------|-------|----------------------|------------|---|
| 7741 | OCELOT | 84 | 3 - 5 lbs. | Round | Dark tiger stripe | Dark red | Outstanding internal qualities: excellent taste and texture, and deep flesh color. Produces a mix of 6 and 8 count fruit. |
| 6254 | EXTAZY | 85 | 4.5 - 6.5 lbs. | Round | Dark mottled stripes | Dark red | Extazy has a very appealing rind that is on the thick side for easy handling and shipping. It is very high yielding. |
| 7353 | LEOPARD | 85 | 5 - 8 lbs. | Round | Dark tiger stripe | Dark red | Attractive, productive, excellent flavor with firm flesh and good holding qualities. The rind is sturdy but in proportion to its size. It is easy to judge maturity by a subtle color change. |
| 5313 | NEW TIGRIS | 85 | 2.5 - 3.5 lbs. | Round | | Deep red | High yield, good firmness, deep red internal color, round uniform shape. |
| 8973 | NEW SERVAL | 85 | 4 - 6 lbs. | Round | Crimson | Dark red | Excellent uniformity and grading, excellent flesh color, very good shelf life and early behavior. |
| 5353 | NEW CHEETAH | 86 | 4 - 6 lbs. | Round | Tiger | Bright red | New tiger type with intensive red color, high uniformity and very long shelf life. |

WATERMELON

IN-ROW POLLINATORS FOR TRIPLOIDS *See Pricing On Page 145*

| Code | Variety | Comments |
|------|--------------------|---|
| 6773 | ACE | Ace has long, healthy vines that are low-growing to bring the male flowers into close proximity with the triploid, without creating competition. Fruit is small, grey-green, and brittle. Ace flowers early enough to pollinate any seedless. |
| 7640 | ACE PLUS | Ace Plus offers a very early flowering date that makes pollen available for the first female flowers produced by the triploid. Plus, it continues to flower well beyond the hybrid. IR: Fon:1, Co1 |
| 5066 | POLIMAX | Strong, vigorous plant with small, narrow leaves; long vine growth with lots of branching; short internodes allow for more male flowers; provides exceptional early and late flowering. |
| 8528 | WILD CARD | With extra long vines and an extra wallop of pollen, everyone who uses an in-row pollinator should give Wild Card a try. It flowers very late into the season. Fruit has bland yellow flesh and a tiger-striped rind. |
| 7639 | WILD CARD PLUS | Small, brittle fruit allows for easy triploid harvest. Tiger-striped rind pattern. Excellent pollen quality for maximum yield. IR: Fon:1, Co1 |
| 7822 | WINGMAN | Provides very early flowers and an extended flowering. Strong, compact vine structure that allows it to climb up triploids. Produces very small, grey, crushable fruit. GR:SE |
| 8460 | NEW PREMIUM | Very attractive Jubilee skin. Firm and great flavor, red flesh. Great interior quality. Micro Seeds. Excellent pollinizer. Good transportability. Grafting adapted. IR: Fon: 0,1 |

HELP RESTORE NUTRIENTS INCREASE YIELD POTENTIAL

COVER CROPS

SINGLE TYPES

ANNUAL RYEGRASS

CENTURION diploid annual ryegrass was developed for quick establishment, excellent Crown Rust resistance, frost tolerance and high forage yield. CENTURION exhibits excellent seedling vigor, and medium maturity, allowing consistency in forage yield throughout the season with good transition back into warm-season forage grasses. **FRIA** is a late maturing, widely adapted annual ryegrass with excellent cold tolerance. Other benefits include improved disease resistance to Crown Rust, Gray Leaf Spot and Helminthosporium Leaf Spot.

HAIRY VETCH

Purple Bounty is a new winter hardy, early maturing hairy vetch variety developed for high nitrogen fixation (up to ½ of a subsequent crop's nitrogen), increased biomass for a thicker mulch and earlier flowering for more flexibility in planting succeeding crops. Vetch forms ground cover slowly in the fall, but root development continues through the winter with substantial growth in the spring. For maximum results, Purple Bounty should be in full bloom to allow for peak nitrogen contribution and to mow, roll or spray for maximum vetch kill. Spring oats or winter grains can also be planted with Purple Bounty to act as a protective cover for improved winter survival and increased erosion control. Purple Bounty is an excellent cover crop for nitrogen fixation, erosion control, bio mass, and weed suppression.

PHACELIA

Phacelia is a plant that is native to the United States, but was adopted and improved by Europeans for use as a cover crop. Phacelia is quick to establish and will winter kill at 18° F. Phacelia is an excellent source of high quality nectar and pollen and as a result is excellent at increasing the population and diversity of beneficial insects. Phacelia will begin flowering 6-8 weeks after emergence and will continue to flower for 4-6 weeks. Phacelia is comparable to buckwheat in many ways, but is more tolerant to cold and drought. Phacelia can also be used for forage, as a green manure crop, nematode control, and a nitrogen trap crop.

OATS

Oats are very versatile as they can be planted at various times of the season and used as an excellent cover and forage crop. Oats work well alone, but especially well in mixes with radishes, turnips, berseem clover, crimson clover and Austrian winter peas. Oats perform well for erosion control and are very good nutrient scavengers. Oats (and mixes with radishes or turnips) work very well for manure nutrient management.

TRITICALE

Triticale is a hybrid small grain produced by crossing wheat with rye. The name "triticale" is derived from the combined scientific names of the two crop species wheat and rye. The versatility that triticale offers as a grain, a forage, for straw and as a cover crop adds to the economic viability that sustains the interest in the crop.

BUCKWHEAT

Buckwheat, when used as a cover crop, can reduce both the emergence and growth of weeds, thereby presenting an easy and economical alternative to herbicides. Buckwheat, a short-duration broadleaved, annual species, provides very effective weed suppression due to its rapid early growth that establishes a canopy faster than many weeds.

CRIMSON CLOVER

Crimson Clover has erect stems, grows quickly and has larger seeds than the more commonly used red clover. Crimson Clover's primary advantages are rapid growth during cool weather, shade tolerance and good reseeding potential. Crimson Clover can be planted in early spring or fall for weed control. Because of its shade tolerance and reseeding potential, crimson clover is also effective as a living ground cover in orchards. Crimson Clover has been used effectively to suppress weeds when planted in the early fall following a short-season crop such as potatoes, snap beans, vegetables or following winter wheat. Planting with a grass such as oats, which is also fast-growing, gives additional weed control in these situations.

AUSTRIAN WINTER PEAS

Austrian Winter Peas are a cool-season, annual legume with good nitrogen-fixing capabilities. Austrian winter pea is a low-growing, viney legume and has been shown to fix over 200 lbs. of nitrogen per acre per year under good conditions. It has hollow, slender and succulent stems, 2 to 4 feet long. The foliage is pale green and the flowers are colored, usually purple, pink or reddish. The leaf consists of one to three pairs of leaflets and terminal branched tendrils. Pods are 1.5 to 2.5 inches long with three to five round, dark-colored seeds. Seed color is commonly gray with purple or brown mottles.

CEREAL RYE

Cereal Rye is a fall planted, winterhardy species with deep root penetration. The extensive root system enables cereal rye to capture high levels of nitrogen and other nutrients from the soil and reduces soil compaction issues. Cereal Rye has the added benefit of late fall and early spring grazing as well as spring silage or hay.

CALIENTE 199 Mustard Blend

Mustard blend used as a green manure crop and biofumigant. Produces excellent biomass with good management. Caliente 199 glucosinolate production among mustards in its class, and as part of an integrated program, can reduce nematode populations and suppress weeds and diseases including Verticillium Wilt, Silver Scurf, and Sclerotinia. Best results require good management including flail chopping, tillage and rotation. For the biofumigant to work, irrigation or light rain is needed directly after chopping and incorporating into the soil.

SUNN HEMP

Sunn Hemp is an excellent cover crop variety which produces large amounts of biomass through warmer conditions. Sunn Hemp will scavenge available nitrogen and will fix nitrogen when nitrogen is lost. Sunn Hemp will hold and produce sufficient nitrogen to provide nitrogen credit for the following crop.

MORE BLOCKING

Better cover crops for whatever punches Mother Nature's got to throw!

To purchase these seeds (that do not ship free unless you are near a warehouse), you can order by phoning our Elizabethtown office at (800) 952-7333, or by phoning one of the SEEDWAY Sales Representatives listed on the inside cover.

CSG SW-PR - 25 lbs. per acre

80% Austrian Winter Pea 20% Eco-Till™ Radish

- Rapid establishment to prevent wind and water erosion.
- Fixes atmospheric nitrogen to increase soil nitrogen levels.
- Improves soil permeability for increased air and water penetration, reduces soil compaction, and increases root development potential.
- Recycles nutrients that would have been lost to leaching or runoff.
- Potential forage for fall grazing.

CSG SW-RyR - 25 lbs. per acre

80% Fria Annual Ryegrass 20% Eco-Till™ Radish

- Improves soil permeability for increased air and water penetration, reduces soil compaction, and increases root development potential.
- Recycles nutrients that would have been lost to leaching or runoff.
- Holds surface soil in place.
- Improves soil tilth which can benefit any crop that follows.
- Potential forage production for fall grazing.

CSG SW-RyC - 25 lbs. per acre

60% Fria Annual Ryegrass 40% Crimson Clover

- Rapid establishment to prevent wind and water erosion.
- Improves soil permeability for increased air and water penetration, reduces soil compaction and increases root development potential.
- Fixes atmospheric nitrogen to increase soil nitrogen levels.
- Potential forage for fall and spring grazing, spring silage or hay.

CSG SW-TCR - 50 lbs. per acre

80% Triticale 10% Crimson Clover 10% Eco-Till™ Radish

- Rapid establishment to prevent wind and water erosion.
- Recycles nutrients that would have been lost to leaching or runoff.
- Fixes atmospheric nitrogen to increase soil nitrogen levels.
- Improves soil permeability for increased air and water penetration, reduces soil compaction and increases root development potential.
- Best used prior to corn, wheat or other crops requiring significant nitrogen inputs.
- Potential forage for fall and spring grazing, spring silage or hay.

CSG SW-POR - 50 lbs. per acre

50% Austrian Winter Peas 40% Jerry Oats 10% Eco-Till™ Radish

- Rapid establishment to prevent wind and water erosion.
- Improves soil permeability for increased air and water penetration, reduces soil compaction, and increases root development potential.
- Recycles nutrients that would have been lost to leaching or runoff.
- Fixes atmospheric nitrogen to increase soil nitrogen levels.
- Potential forage for fall and spring grazing, spring silage or hay.

CSG SW-TRy - 100 lbs. per acre

80% Triticale 20% Fria Annual Ryegrass

- All grass mix.
- Excellent forage for fall and spring grazing.
- Improves soil tilth which can benefit any crop that follows.
- Rapid establishment to prevent wind and water erosion.

HR - High Resistance. The plant can resist the growth, development or the damage cause by the pathogen.

IR - Intermediate Resistance. The plant will show fewer symptoms than a non-resistant or susceptible variety.

Abiotic (AB) - Physiological or environmental conditions that may cause a plant to express signs of stress or limits its growth or development.

Our seed, unless specified by the customer, will be treated with our standard seed treatment. Our standard treatment can be one or multiple fungicides depending on the variety; some treatments have insecticides included with fungicides for added protection. Encrustments, pelleting and priming treatments are also available in addition to the standard treatment options. Although SEEDWAY will not guarantee in stock inventory of a variety with a specific seed treatment, treatment & pelleting can often be arranged if adequate lead time is allowed prior to delivery. Minimum order amounts will apply.

| Crop | Standard | Special Request | Crop | Standard | Special Request |
|--|---|---------------------------------------|-------------------|--------------------------------------|--|
| Bush Beans | Cruiser + Basic fungicides | Basic fungicides | Lettuce | Not Treated or Thiram | Pelleting, Organic Pelleting |
| Other beans: shell, pole, lima, southern peas and runners | Basic fungicides | Cruiser | Onion | Filmcoat Thiram | FI500, Trigard, Progro, Pellet, Priming, Encrustment |
| Cabbage | Filmcoat, Thiram, hot water treated (HWT) | Priming | Parsnip | Priming and Basic Fungicide | Pelleting |
| Carrots | Filmcoat + Apron, Thiram, Rovral | Pelleting, priming, encrustment, F300 | Peppers | Not Treated or Thiram, raw or pellet | |
| Celery | Not Treated or Filmcoat Thiram | Pelleting | Pumpkins | Filmcoat Thiram or Farmore 400 | FI400 |
| Corn | Sweet - Cruiser + Basic fungicides; Popcorn and Ornamental - Basic fungicides | | Radichio | Not Treated | Pelleting |
| Cucumber | Filmcoat Thiram or Farmore 400 | FI400 | Squash | FI400 | Thiram or F300 |
| Eggplant | Thiram or Not Treated | Pelleting | Tomato | Raw or Pellet | |
| Leek | Thiram, Priming on hybrids | Priming on OPs and/or pelleting | Watermelon | Priming or Thiram | Priming |

Please check catalog listings & price list for more complete outline of cabbage varieties generally stocked as HWT; lettuce, pepper and tomato varieties generally stocked as pelleted, watermelon varieties generally offered as primed, and corn varieties generally offered with Cruiser or Poncho as the standard treatment.

Pelleting - A coating on the seed to help increase seed size for mechanical planting. With uniform seed shape and size, planting placement is greatly improved. Within the pelleting material, seed treatments such as insecticides and/or fungicides are often added for protection against pathogens.

Encrustments - A coating that minimally increases seed size & makes irregular or disfigured seed uniform. This helps to aid with mechanical seed sowing. There is no seed treatment added to the encrustment material.

Filmcoating - A thin polymer that binds treatment to the seed; this helps reduce the removal of treatment while the seed is being handled. Filmcoat is standard on most seed. The treatment is usually a bright color that also helps to see the seed after it has been sown.

Farmore - Name brand given to a group of seed treatments that provide either fungicidal or a combination of fungicidal and insecticidal properties. Farmore treatment packages are listed below.

Farmore F300 - A fungicide seed treatment added to vegetable crops such as carrots, lettuce, melons, onions, peppers, tomatoes & squash. Protects against the following: *Alternaria, Aspergillus, Botrytis sp., Damping-off, Fusarium, Penicillium, Pythium, Rhizoctonia, Sclerotinia*.

Farmore FI400 - A combination fungicide & insecticide seed treatment applied to vegetable crops such as cucumber, pumpkin and squash, among others.

Protects against the following diseases: *Alternaria, Aspergillus, Botrytis sp., Damping-off, Fusarium, Penicillium, Pythium, Rhizoctonia, Sclerotinia* **and the following insects:** *Aphids, cucumber & flea beetles, leaf miners, seed corn maggots, thrips, white flies & wire worms*.

Farmore FI500 - A combination fungicide and insecticide seed treatment used specifically on onion seed. Spinosad insecticide is added to the FI400 formulation for control of onion pests. **Protects against the following diseases:** *Fusarium, Damping-off, Pythium, Rhizoctonia* **and the following insects:** *early season thrips, onion maggot, onion thrips & seed corn maggots*. **Due to Canadian regulations this treatment is NOT permitted in Canada.**

Trigard - Insecticide that controls onion maggots. This is added during the pelleting & encrustment process in onions.

Pro-Gro - Combination of Carboxin and thiram added to pelleted onions to control onion smut.

Cruiser/Poncho - Systemic insecticides used on beans and corn to prevent injury from flea beetles & soil insects such as wire worms, seed corn maggots, white grubs.

Priming - A technique used to jump start the germination process. This reduces the time it takes seed to germinate & also increases plant uniformity. Priming can be used on cabbage, carrots, leeks, onions, parsnips & watermelons.

HAZERA MINI SEEDLESS WATERMELONS

THE WINNING TEAM

Ocelot 
3-5 lb
Outstanding Quality

Mielheart
