

**Ceiba Foundation for Tropical Conservation**  
**Bosque Seco Lalo Loor (BSLL) -- Lalo Loor Dry Forest Reserve**  
**List of Endangered Plant Species**  
**Lista de Plantas en Peligro de Extintion**

**IUCN Status of Plant Species at Bosque Seco Lalo Loor**

Compiled by Catherine Woodward, May 22, 2018

This list is extracted from the species encountered in first QCNE survey and subsequent permanent one hectare plots established in 2005 as well as additional species added to the list by Catherine Woodward, Joe Meisel, and reserve staff from 2006-2018

All other species currently on the BSLL plant list with full scientific names (genus and species) are listed as UNASSESSED on the IUCN Red List

Plant inventory at BSLL is incomplete, and many species on the list are not fully identified thus it is likely additional threatened species occur there.

IUCN Legend (see 2001 IUCN Red List Categories and Criteria version 3.1)

Extinct (EX), Extinct in the wild (EW), Critically endangered (CR), Endangered (EN), Vulnerable (VU), Near threatend (NT), Least concern (LC), Data deficient (DD), Not evaluated (NE)

#	Common Spanish Name	Family	Scientific Name	Site	Notes	Collector	Date	Date of verification	Determined by	IUCN Status
1	cedro	Areaceae	<i>Aniva hotmaniana cf</i>	Bosque Seco Lalo Loor		Anelio Loor	22 August 2018	22 Octubre 2018	Anelio Loor	Genero no aparece en la lista roja IUCN
2		Lauraceae	<i>Armatocereus cartwrightianus</i>	Bosque Seco Lalo Loor				22 Octubre 2018	Catherine Woodward	LC
3	mocora	Theophrastaceae	<i>Astrocaryum standleyanum</i>	Bosque Seco Lalo Loor		Anelio Loor	22 August 2018	22 Octubre 2018	Anelio Loor	La especie standleyaum no aparece en la lista roja IUCN
4	chonta	Asteraceae	<i>Bactris gasipaes</i>	Bosque Seco Lalo Loor		Anelio Loor	22 August 2018	22 Octubre 2018	Anelio Loor	La especie gasipes aparece en la lista roja IUCN, pero no tiene criteria
5		Fabaceae	<i>Carapa guianensis Aublet</i>	Lalo Loor hacienda		David Neill & QCNE botany interns	25 August 1998	23 Octubre 2018	D.A. Neill, 1998%11400#%	LC
