Ellington notes:

There are notes on place & cause of death for four soldiers but info is so contradictory with previous information it was impossible to decipher what data belonged to which soldier. This is best interpation we could make:

George Lawrence died of starvation 2 Feb 1865 while a prisoner in Salisbury NC; survived by parents; buried at Salisbury.

Kingsley McDonald died of unknown disease at Camp Stoneman Hospital near Washington 29 March 1864; buried at Washington.

Edward Shulton died at Fort Monroe 10 June 1864 as result of battle wounds; survived by parents; burial not listed.

Charles Fisk died in Salisbury prison in February 1864; survived by parents, wife and one minor child; buried at Salisbury.

Censor taker's note: There were five or six other soldiers from Ellington who died or were killed whose history we cannot get.

INTRODUCTION

This extraction of the New York State Census for 1865 was undertaken to make more accessible the information from this census for the benefit of those, who like ourselves, love the pursuit of family history. We make no claim for accuracy, but this is our best attempt at extracting the information written by those oh-so-human enumerators 134 years ago. For example, if you find a name that begins with an L or an S, be sure to reason that it may have begun with it's opposite. There were times when we had no clue which was which, no matter how long we puzzled over the matter. We put down our best solution to each name. We admit to altering some information, but did our best to be true to the original. In the town of Poland, the enumerator had nearly 100 individuals named Wilyum, even a family named Wilyums, and I admit, William is the spelling used in this edition. Also, when we have done research on a particular family, or received help from a direct descendant, we used the corrected spelling. Example: Palmer was recorded for all the Parmers enumerated in the Town of Cherry Creek. For most, we just did the best we could and the researcher is advised to use this as an index to go the original on microfilm at various libraries or in books at the County Court House to double-check.

The 1865 NYS Census contains a great deal of information divided into ten sections. This work contains the extractions of seven of those sections, but did not touch sections VIII, IX and X--the extensive Agricultural Statistics and information on other businesses and organizations in each town. The Agricultural statistics include entries for each head of household engaged in farming and give wonderful details of the production on the farm for the year ending 1 June 1865. The census taker was also asked to record his opinions of the current status of each town and to give subjective opinions on the effect of the war on the community. Including these would have made the work much more cumbersome and we recommend that serious researchers look at the originals whenever and wherever possible.

The sections we have included herein are those headed:
I Population
II Additional Inquiries Relating to the Deaf and Dumb, Blind, Insane and Idiotic
III Additional Inquiries Relating to Officers and Enlisted Men ***now*** in the Military or Naval Service of the United States.
IV Additional Inquiries Relating to Officers and Enlisted Men, ***who have been*** in the Military or Naval Service of the U S, in the Present War
V Marriages that have occurred during the year ending June 1, 1965
VI Deaths occurring during the year ending June 1, 1865, excepting those of persons in the service of the United States, or from wounds or disease acquired in said service.
VII Deaths of Officers and Enlisted Men, which have occurred while in the military or naval service of the United States, or from wounds or disease acquired in said service since April 1861, reported by the families to which the deceased belonged when at home.

The information from part I, population, makes up the main body of this work. See explanation of the column headings at the end of this section. If there was information about an individual in sections II, III, or IV, it follows here, within the population schedule, noted in *italics*. Information from schedules V, VI, and VII follows at the end of the population schedule for each town in Chautauqua County.

The population schedule listed the county of birth if within NYS. These are given three letter abbreviations as follows:

Alb	Albany	Kin	Kings	Sch	Schoharie
All	Allegany	Lew	Lewis	Sct	Schenectady
Bro	Broome	LI	Long Island	Scy	Schuyler
Cay	Cayuga	Liv	Livingston	Sen	Seneca
Che	Chenango	Mgm	Montgomery	Ste	Steuben
Chf	Chemung	Mon	Monroe	StI	Staten Island
Chs	Chester	Nia	Niagra	StL	St Lawrence
Cli	Clinton	One	Oneida	Suf	Suffolk
Col	Columbia	Ono	Onondaga	Sul	Sullivan
Cor	Cortland	Ont	Ontario	Sus	Sussex
Del	Delaware	Ora	Orange	Tio	Tioga
Duc	Duchess	Orl	Orleans	Tom	Tompkins
Ess	Essex	Osw	Oswego	Unk	Unknown
Fra	Franklin	Ots	Otsego	Usl	Uslter
Ful	Fulton	Put	Putnam	War	Warren
Gen	Genesee	Que	Queens	Was	Washington
Gre	Greene	Ren	Rensaeller	Way	Wayne
Ham	Hamilton	Ric	Richmond	Wes	Westchester
Her	Herkimer	Roc	Rockland	Wyo	Wyoming
Jef	Jefferson	Sar	Saratoga	Yat	Yates

The two letter postal abbreviations are used for states, including DC. We used the best three capital letters we could think of to designate country of birth. When there was a specific place designated such as "The Isle of Man," or even a specific village in NYS, we did our best to fit the information into the line for that individual.

These are the abbreviations used in designating the relationship of the individual to the head of household:

au	aunt	gda	granddaughter	s-da	step daughter
bd	boarder	gso	grandson	s-so	step son
br	brother	hg	hired girl	si	sister
br-I	brother in law	hm	hired man	si-I	sister in law
ch	child	lb	laborer	so	son
co	cousin	lg	lodger	so-I	son in law
da	daughter	mo-I	mother in law	sv	servant
da-I	daughter in law	ne	nephew	un	uncle
fa-I	father in law	ni	niece	wf	wife
fr	friend

Comments of our own, such as (entry crossed out), were enclosed in parentheses.
If the enumerator noted the start or end of a specific area within the town, we included this at the place it was entered in the record, usually in bold-faced type. Comments by the enumerator, were enclosed in quotation marks.

One column on the original schedule, seldom used, was intended to record the place of employment if not at the location where the family was enumerated. These were included in regular type on the line following other information about the individual.

This census also included a column to record whether the individual was White (w) Black (b) or Mulatto (m). For the few individuals designated (b) or (m) this was included in italics *black* or *mulatto.*

Explanation of column headings: Town & **fam**ily #. Here we have used a two letter abbreviation for each town or division within that town. Each section is explained in the header for that district so no list of district abbreviations is needed here. The family number was assigned by the enumerator. There was not a single district in which the enumerator could keep his numbering system straight, but we have tried to number as the enumerator did, so that this work can help the researcher find the original entry; **surname**. This is not repeated when more than one individual with that surname is listed consecutively; **given** name; **ag**e; **s**ex; **rel**ation to head of family. (see abbreviation list); **b**irth **p**lace(see abbreviation list); # of **ch**ildren. This number was given for the women but a few enumerators also gave the number for males. Number times married column is headed by an asterisk (*****); now married, widowed or single (there were a few D's entered in the Single column, which may unofficially mean divorced). In the original, there were three boxes headed by M, W, S but we used one column with the letter designation headed by double asterisk (******); **occup**ation; **cit**izenship (actually, voter status) -- native (nv) naturalized (nt) alien (a); **own**er of land (o); **other info**rmation contained within the census schedule as explained previously. There was a column in the original headed, "over 21 and cannot read or write." This was difficult to interpret as some enumerators tried to distinguish those who could read, but not write, those who read and wrote in their native language. Where the distinction was clear, we used x in the information area for those of age who could neither read nor write.

Special Thanks

This project was possible through the cooperation of Chautauqua County Clerk, Sandra Sopak, and the records consultant in the Clerk's office, Michelle Henry. We were allowed to use the three rolls of microfilm produced by the Genealogical Society of Utah from the original copies of the census in the County Court House. Through some irregularity on these films, the census schedule for the Town of Ellicott was missing. Jack Ericson, Archivist for Special Collections at Reed Library on the campus of NYSUC at Fredonia saved the project by allowing us access to the film for Ellicott from his collection. We are very grateful for this help. After the extraction was complete, we used the three original census books for 1865 to proof-read every name. We appreciate the tolerance of all those at the courthouse who were inconvenienced (perhaps severely annoyed) by our reading of every name aloud as we did this double-check.
