

Keweenaw Mine Lichen Study

Report

Clifford Wetmore
Dept. of Plant Biology
University of Minnesota
St. Paul, MN 55108
wetmore@umn.edu

Nov. 2005

During July, 2005 complete lichen collections were made on and near the abandoned copper mines in Keweenaw County, Michigan. About 1000 collections were made at 21 localities. One collection site was at each mine site and another within about one km from the mine. The locality at the Audubon Sanctuary was used as a control site. An attempt was made to select sites for the off-mine sites in vegetation as similar to the mine as possible. At each site all species of lichens observed were collected.

Collections were identified and entered in the University of Minnesota Herbarium and the label data were entered into a MS Access database.

Table 1 lists all species found during this study. Table 2 gives locality data for all localities. Table 3 is a comparison of the species collected in this study and those known from the Keweenaw Peninsula based on NPLICHEN. The species collected at each locality are given in an MS Access database file.

Table 1

Total species list of lichens collected.

<i>Acarospora americana</i>	<i>Caloplaca holocarpa</i>
<i>Acarospora fuscata</i>	<i>Candelaria concolor</i>
<i>Amandinea punctata</i>	<i>Candelaria fibrosa</i>
<i>Arthonia caesia</i>	<i>Candelariella aurella</i>
<i>Arthonia didyma</i>	<i>Candelariella efflorescens</i>
<i>Arthonia fuliginosa</i>	<i>Candelariella vitellina</i>
<i>Arthonia patellulata</i>	<i>Cetraria americana</i>
<i>Arthrosporum populorum</i>	<i>Cetraria oakesiana</i>
<i>Aspicilia caesiocinerea</i>	<i>Cetraria pinastri</i>
<i>Bacidia bagliettoana</i>	<i>Cetraria sepincola</i>
<i>Bacidia laurocerasi</i>	<i>Cetrelia olivetorum</i>
<i>Bacidia rubella</i>	<i>Chaenothecopsis debilis</i>
<i>Bacidia sabuletorum</i>	<i>Cladonia borealis</i>
<i>Bellemerea cinereorufescens</i>	<i>Cladonia botrytes</i>
<i>Biatora epixanthoides</i>	<i>Cladonia cenotea</i>
<i>Biatora helvola</i>	<i>Cladonia cervicornis</i> subsp. <i>verticillata</i>
<i>Biatora longispora</i>	<i>Cladonia chlorophphaea</i>
<i>Bryoria capillaris</i>	<i>Cladonia coniocraea</i>
<i>Bryoria furcellata</i>	<i>Cladonia cornuta</i>
<i>Bryoria trichodes</i>	<i>Cladonia crispata</i>
<i>Buellia alboatra</i>	<i>Cladonia cristatella</i>
<i>Buellia disciformis</i>	<i>Cladonia decorticata</i>
<i>Buellia stillingiana</i>	<i>Cladonia digitata</i>
<i>Calicium trabinellum</i>	<i>Cladonia fimbriata</i>
<i>Caloplaca ahtii</i>	<i>Cladonia floerkeana</i>
<i>Caloplaca arenaria</i>	<i>Cladonia furcata</i>
<i>Caloplaca cerina</i>	<i>Cladonia gracilis</i>
<i>Caloplaca chrysophthalma</i>	<i>Cladonia macilenta</i> var. <i>bacillaris</i>
<i>Caloplaca citrina</i>	<i>Cladonia merochlorophphaea</i>

- | | |
|--|----------------------------------|
| <i>Cladonia mitis</i> | <i>Lecanora thysanophora</i> |
| <i>Cladonia multiformis</i> | <i>Lecanora wisconsinensis</i> |
| <i>Cladonia phyllophora</i> | <i>Lecidea atrobrunnea</i> |

| <i>Lecanora intricata</i> | <i>Peltigera collina</i> |
| <i>Lecanora muralis</i> | <i>Peltigera degenerii</i> |
| <i>Lecanora polytropa</i> | <i>Peltigera didactyla</i> |
| <i>Lecanora pulicaris</i> | <i>Peltigera elisabethae</i> |
| <i>Lecanora rugosella</i> | <i>Peltigera evansiana</i> |
| <i>Lecanora strobilina</i> | <i>Peltigera horizontalis</i> |
| <i>Lecanora symmicta</i> | <i>Peltigera malacea</i> |
| | <i>Peltigera polydactylon</i> |

<i>Peltigera praetextata</i>	<i>Ramalina farinacea</i>
<i>Peltigera rufescens</i>	<i>Ramalina intermedia</i>
<i>Pertusaria alpina</i>	<i>Rhizocarpon badioatrum</i>
<i>Pertusaria amara</i>	<i>Rhizocarpon geographicum</i>
<i>Pertusaria consocians</i>	<i>Rhizocarpon lecanorinum</i>
<i>Pertusaria macounii</i>	<i>Rhizocarpon petraeum</i>
<i>Pertusaria ophthalmiza</i>	<i>Rhizocarpon reductum</i>
<i>Pertusaria trachythallina</i>	<i>Rinodina polyspora</i>
<i>Pertusaria velata</i>	<i>Scoliciosporum chlorococcum</i>
<i>Phaeophyscia chloantha</i>	<i>Sphinctrina turbinata</i>
<i>Phaeophyscia ciliata</i>	<i>Stereocaulon dactylophyllum</i>
<i>Phaeophyscia melanchra</i>	<i>Stereocaulon paschale</i>
<i>Phaeophyscia pusilloides</i>	<i>Strigula stigmatella</i>
<i>Phaeophyscia rubropulchra</i>	<i>Strigula submuriformis</i>
<i>Phlyctis argena</i>	<i>Trapeliopsis flexuosa</i>
<i>Physcia adscendens</i>	<i>Trapeliopsis granulosa</i>
<i>Physcia aipolia</i>	<i>Usnea cavernosa</i>
<i>Physcia dubia</i>	<i>Usnea filipendula</i>
<i>Physcia stellaris</i>	<i>Usnea hirta</i>
<i>Physconia detersa</i>	<i>Usnea lapponica</i>
<i>Physconia leucoleiptes</i>	<i>Usnea subfloridana</i>
<i>Placynthiella dasaea</i>	<i>Xanthoparmelia angustiphylla</i>
<i>Platismatia glauca</i>	<i>Xanthoparmelia conspersa</i>
<i>Platismatia tuckermanii</i>	<i>Xanthoparmelia cumberlandia</i>
<i>Porpidia crustulata</i>	<i>Xanthoparmelia somloensis</i>
<i>Porpidia herteliana</i>	<i>Xanthoria elegans</i>
<i>Protoblastenia rupestris</i>	<i>Xanthoria fallax</i>
<i>Pseudevernia consocians</i>	<i>Xanthoria hasseana</i>
<i>Punctelia perreticulata</i>	<i>Xanthoria ulophylloides</i>
<i>Punctelia rufecta</i>	<i>Xylographa opegraphella</i>
<i>Pyxine sorediata</i>	<i>Xylographa vitiligo</i>
<i>Ramalina americana</i>	

Total - 212 species.

Table 2

Localities where collections were made for the study. The numbers at the beginning of each locality are the collection number for that locality. All localities were in Keweenaw County, Michigan.

93251,93292. Around Clark Mine (2 mi SSE of Copper Harbor). Around mine tailings with balsam fir, quaking aspen, and white birch, elev. 915 ft. Sec. 9, T58N, R28W. 47°26'42"N, 87°51'37"W. 20 July 2005.

93293,93330. 1.5 mi N of Clark Mine (1.7 mi SSE of Copper Harbor). Along logging

road in mixed forest of white pine, balsam fir, quaking aspen, sugar maple, and white birch, elev. 970 ft. Sec. 4, T58N, R28W. 37°47'27"08"N, 87°51'43"W. 20 July 2005.

93331,93363. Townsite of Manganese Mine N of Manganese Lake (1 mi SSE of Copper Harbor). Clearing with rock outcrops, crabapple, quaking aspen, and chokecherry, elev. 765 ft. Sec. 5, T58N, R28W. 47°27'28"N, 87°52'44"W. 20 July 2005.

93364, 93393. N of Manganese townsite (0.7 mi SSE of Copper Harbor). Ridge with red oak, white pine, and white birch, elev. 700 ft. Sec. 32, T59N, R28W. 47°27'42"N, 87°52'48"W. 20 July 2005.

93394,93435. Mandan Mine (6.5 mi SW of Copper Harbor). Around mine tailings in forest with sugar maple, red oak, and few pines and spruce, elev. 1080 ft. Sec. 17, T58N, R29W. 34°47'25"36"N, 88°00'31"W. 21 July 2005.

93436,93489. Half mile N of Mandan Mine (5.7 mi SW of Copper Harbor). Ridge with red oak, sugar maple, and few dead quaking aspen, elev. 1150 ft. Sec. 16, T58N, R29W. 42°47'25"47"N, 87°59'38"W. 21 July 2005.

93490,93551. Delaware Mine (10.3 mi SW of Copper Harbor). Mixed forest with red oak, red maple, sugar maple, elm, and quaking aspen, elev. 1190 ft, Sec. 15, T58N, R30W. 47°25'26"N, 88°05'44"W. 22 July 2005.

93552,93595. 1 mi NW of Delaware Mine (11 mi SW of Copper Harbor). Hill with red oak, sugar maple, and elm, 1200 ft. Sec. 16, T58N, R30W. 47°25'31"N, 88°06'55"W. 22 July 2005.

93596,93629. Central Mine (4.5 mi ESE of Eagle River). Around edge of mine tailings in white birch, quaking aspen, pines, and white spruce, elev. 1180 ft. Sec. 23, T58N, R31W. 47°24'24"N, 88°11'52"W. 22 July 2005.

93630,93669. East of Central Mine (5.1 mi ESE of Eagle River). In forest of white spruce, red pine, balsam fir and hardwoods with large *Amelanchier*, elev. 1150 ft. Sec. 24, T58N, R30W. 47°24'30"N, 88°11'10"W. 23 July 2005.

93670,93728. Arnold Mine (3.1 mi E of Eagle River). Around mine tailings above stream with balsam fir, *Thuja*, white birch, and quaking aspen, elev. 1090 ft. Sec. 15, T58N, R31W. 47°25'05"N, 88°13'48"W. 23 July 2005.

93729,93779. Half mile SW of Arnold Mine (2.7 mi E of Eagle River). Hardwood forest with red oak, sugar maple, red maple, quaking aspen, and some balsam fir, elev. 1125 ft. Sec. 21, T58N, R31W. 47°24'55"N, 88°14'12"W. 23 July 2005.

93780,93851. Audubon Brockway Mt. Sanctuary (5.9 mi W of Copper Harbor). Hillside with ridges and mixed conifers and hardwoods of red oak, quaking aspen, balsam fir, and *Thuja*, elev. 800 ft. Sec. 5, T58N, R30W. 47°27'58"N, 88°00'51"W. 24 July 2005.

93852,93899. Phoenix Mine (1.8 mi SSE of Eagle River). On mine tailings with white birch, quaking aspen, and balsam poplar, elev. 990 ft. Sec. 30, T58N, R31W. 47°23'26"N, 88°16'49"W. 24 July 2005.

93900,93939. N of Phoenix Mine (1.5 mi SSE of Eagle River). Hillside with quaking aspen, sugar maple, and *Amelanchier*, elev. 925 ft. Sec. 30, T58N, R31W. 47°23'44"N, 88°16'55"W. 24 July 2005.

93940,93985. Cliff Mine (3.1 mi SSW of Eagle River). On and around mine tailings with white birch, balsam fir, and tamarack, elev. 980 ft. Sec. 1, T57N, R32W. 47°22'20"N, 88°18'50"W. 25 July 2005.

93986,94034. W of Cliff Mine (3.5 mi SSW of Eagle River). At lower end of gully with white birch, sugar maple, few white pine, and balsam fir, elev. 1035 ft. Sec. 2, T57N, R32W. 47°22'03"N, 88°19'23"W. 25 July 2005.

94035,94091. N of Seneca Mine (6.1 mi NE of Calumet). Hardwood forest with white birch, red maple, sugar maple, and red oak, elev. 960 ft. Sec. 21, T57N, R32W. 47°18'56"N, 88°22'18"W. 25 July 2005.

94092,94140. Seneca Mine (6.2 mi NE of Calumet). Around mine tailings with white birch, quaking aspen, and balsam fir, elev. 1020 ft. Sec. 28, T57N, R32W. 47°18'44"N, 88°21'49"W. 26 July 2005.

94141,94192. Town of Gay. Around stamp sands along Lake Superior with white birch, quaking aspen, and balsam fir, elev. 625 ft. Sec. 30, T56N, R30W. 47°13'31"N, 88°09'41"W. 26 July 2005.

94193,94243. 1.4 mi NE of Gay. Mixed forest near Lake Superior with white birch, red maple, balsam fir, white spruce, and *Thuja*, elev. 630 ft. Sec. 20, T56N, R31W. 47°14'19"N, 88°08'01"W. 26 July 2005.

Table 3

Comparison of species collected during the 2005 mine study and the species reported from the Keweenaw Peninsula in NPLICHEN, a database of all of the lichens in the National Parks. The species in the Keweenaw Peninsula are those listed for Keweenaw National Park in NPLICHEN were obtained from Thomson (1951 & 1954) and the University of Minnesota Herbarium.

The shaded names in each column are those not found in the other column.

2005 Study	NPL
Acarospora americana	Acarospora badiofuscata
Acarospora fuscata	Acarospora fuscata
Allocetraria oakesiana	Amandinea punctata
Amandinea punctata	Anaptychia palmulata

<i>Arthonia caesia</i>	<i>Arthonia radiata</i>
<i>Arthonia didyma</i>	<i>Arthonia spadicea</i>
<i>Arthonia fuliginosa</i>	<i>Arthopyrenia analpta</i>
<i>Arthonia patellulata</i>	<i>Arthopyrenia punctiformis</i>
<i>Arthrosporum populinum</i>	<i>Aspicilia caesiocinerea</i>
<i>Aspicilia caesiocinerea</i>	<i>Aspicilia cinerea</i>
<i>Bacidia bagliettona</i>	<i>Bacidia bagliettoana</i>
<i>Bacidia laurocerasi</i>	<i>Bacidia laurocerasi</i>
<i>Bacidia rubella</i>	<i>Bacidia rubella</i>
<i>Bellemerea cinereorufescens</i>	<i>Bacidina inundata</i>
<i>Biatora helvola</i>	<i>Bellemerea cinereorufescens</i>
<i>Biatora longispora</i>	<i>Biatora botryosa</i>
<i>Bryoria capillaris</i>	<i>Biatora helvola</i>
<i>Bryoria furcellata</i>	<i>Biatora vernalis</i>
<i>Bryoria trichodes</i>	<i>Bryoria capillaris</i>
<i>Buellia stillingiana</i>	<i>Bryoria furcellata</i>
<i>Calicium trabinellum</i>	<i>Bryoria implexa</i>
<i>Caloplaca ahtii</i>	<i>Caloplaca caroliniae</i>
<i>Caloplaca arenaria</i>	<i>Caloplaca cerina</i>
<i>Caloplaca cerina</i>	<i>Caloplaca cinnabarina</i>
<i>Caloplaca chrysophthalma</i>	<i>Caloplaca holocarpa</i>
<i>Caloplaca citrina</i>	<i>Caloplaca invadens</i>
<i>Caloplaca holocarpa</i>	<i>Caloplaca sideritis</i>
<i>Candelaria concolor</i>	<i>Candelaria concolor</i>
<i>Candelaria fibrosa</i>	<i>Candelariella aurella</i>
<i>Candelariella aurella</i>	<i>Candelariella reflexa</i>
<i>Candelariella efflorescens</i>	<i>Candelariella vitellina</i>
<i>Candelariella vitellina</i>	<i>Catillaria glauconigrans</i>
<i>Cetrelia olivetorum</i>	<i>Cetraria islandica</i> subsp. <i>islandica</i>
<i>Chaenothecopsis debilis</i>	<i>Cetrelia cetrariooides</i>
<i>Cladonia borealis</i>	<i>Chaenotheca brunneola</i>
<i>Cladonia botrytes</i>	<i>Cladonia apodocarpa</i>
<i>Cladonia cenotea</i>	<i>Cladonia arbuscula</i>
<i>Cladonia cervicornis</i> subsp. <i>verticillata</i>	<i>Cladonia cariosa</i>
<i>Cladonia chlorophaea</i>	<i>Cladonia cenotea</i>
<i>Cladonia coniocraea</i>	<i>Cladonia cervicornis</i> subsp. <i>verticillata</i>
<i>Cladonia cornuta</i>	<i>Cladonia chlorophaea</i>
<i>Cladonia crispata</i>	<i>Cladonia coccifera</i>
<i>Cladonia cristatella</i>	<i>Cladonia coniocraea</i>
<i>Cladonia decorticata</i>	<i>Cladonia crispa</i>
<i>Cladonia digitata</i>	<i>Cladonia cristatella</i>
<i>Cladonia fimbriata</i>	<i>Cladonia cryptochlorophaea</i>
<i>Cladonia floerkeana</i>	<i>Cladonia digitata</i>
<i>Cladonia furcata</i>	<i>Cladonia farinacea</i>
<i>Cladonia gracilis</i>	<i>Cladonia fimbriata</i>
<i>Cladonia macilenta</i> var. <i>bacillaris</i>	<i>Cladonia floerkeana</i>
<i>Cladonia merochlorophaea</i>	<i>Cladonia furcata</i>
<i>Cladonia mitis</i>	<i>Cladonia gracilis</i>
<i>Cladonia multiformis</i>	<i>Cladonia grayi</i>
<i>Cladonia phyllophora</i>	<i>Cladonia macilenta</i> var. <i>bacillaris</i>

<i>Cladonia pleurota</i>	<i>Cladonia mitis</i>
<i>Cladonia pyxidata</i>	<i>Cladonia multiformis</i>
<i>Cladonia rangiferina</i>	<i>Cladonia phyllophora</i>
<i>Cladonia rei</i>	<i>Cladonia pleurota</i>
<i>Cladonia scabriuscula</i>	<i>Cladonia pocillum</i>

<i>Melanelia subaurifera</i>	<i>Leptogium cyanescens</i>
<i>Melanelia subolivacea</i>	<i>Leptogium lichenoides</i>
<i>Micarea denigrata</i>	<i>Leptogium milligranum</i>
<i>Mycobilimbia epixanthoides</i>	<i>Leptogium saturninum</i>
<i>Mycobilimbia pilularis</i>	<i>Leptorhaphis epidermidis</i>
<i>Mycobilimbia tetramera</i>	<i>Lobaria pulmonaria</i>
<i>Mycocalicium subtile</i>	<i>Lobaria quercizans</i>
<i>Myelochroa galbina</i>	<i>Lobothallia alphoplaca</i>
<i>Myxobilimbia sabuletorum</i>	<i>Melanelia fuliginosa</i>
<i>Nephroma bellum</i>	<i>Melanelia olivacea</i>
<i>Nephroma parile</i>	<i>Melanelia sorediata</i>
<i>Ochrolechia arborea</i>	<i>Melanelia subaurifera</i>
<i>Ochrolechia trochophora</i>	<i>Micarea prasina</i>
<i>Opegrapha varia</i>	<i>Mycobilimbia berengeriana</i>
<i>Parmelia squarrosa</i>	<i>Mycobilimbia carneoalbida</i>
<i>Parmelia sulcata</i>	<i>Mycobilimbia lurida</i>
<i>Parmeliella triptophylla</i>	<i>Mycoblastus sanguinarius</i>
<i>Parmeliopsis ambigua</i>	<i>Myelochroa aurulenta</i>
<i>Parmeliopsis hyperopta</i>	<i>Nephroma bellum</i>
<i>Peltigera canina</i>	<i>Nephroma helveticum</i>
<i>Peltigera collina</i>	<i>Nephroma parile</i>
<i>Peltigera degenerii</i>	<i>Ochrolechia tartarea</i>
<i>Peltigera didactyla</i>	<i>Opegrapha varia</i>
<i>Peltigera elisabethae</i>	<i>Pannaria lurida</i>
<i>Peltigera evansiana</i>	<i>Parmelia omphalodes</i>
<i>Peltigera horizontalis</i>	<i>Parmelia saxatilis</i>
<i>Peltigera malacea</i>	<i>Parmelia squarrosa</i>
<i>Peltigera polydactylon</i>	<i>Parmelia sulcata</i>
<i>Peltigera praetextata</i>	<i>Parmelia quericina</i>
<i>Peltigera rufescens</i>	<i>Parmeliopsis ambigua</i>
<i>Pertusaria alpina</i>	<i>Parmotrema perforatum</i>
<i>Pertusaria amara</i>	<i>Peltigera aphthosa</i>
<i>Pertusaria consocians</i>	<i>Peltigera canina</i>
<i>Pertusaria macounii</i>	<i>Peltigera didactyla</i>
<i>Pertusaria ophthalmiza</i>	<i>Peltigera elisabethae</i>
<i>Pertusaria trachythallina</i>	<i>Peltigera evansiana</i>
<i>Pertusaria velata</i>	<i>Peltigera horizontalis</i>

<i>Phaeophyscia ciliata</i>	<i>Peltigera lepidophora</i>
<i>Phaeophyscia pusilloides</i>	<i>Peltigera leucophlebia</i>
<i>Phaeophyscia rubropulchra</i>	<i>Peltigera malacea</i>
<i>Phlyctis argena</i>	<i>Peltigera polydactylon</i>
<i>Physcia adscendens</i>	<i>Peltigera rufescens</i>
<i>Physcia aipolia</i>	<i>Pertusaria albescens</i>
<i>Physcia dubia</i>	<i>Pertusaria alpina</i>
<i>Physcia stellaris</i>	<i>Pertusaria amara</i>
<i>Physciella chloantha</i>	<i>Pertusaria consocians</i>
<i>Physciella melanchra</i>	<i>Pertusaria leioplaca</i>
<i>Physconia detersa</i>	<i>Pertusaria ophthalmiza</i>
<i>Physconia leucoleiptes</i>	<i>Pertusaria pustulata</i>
