### FOREWORD

Outdoor forest recreation brings to mind many wonderful moments. We hope the Gopher Peavey brings back many wonderful memories of the School of Forestry. May you enjoy reading it as much as we have enjoyed publishing it for you.

# 1965

annual publication of the FORESTRY STUDENTS

University of Minnesota

St. Paul

# *Dedication*

**PROF. RANDOLPH M. BROWN**

*Because of his many years of service and dedication to the advancement of the forestry profession and his devotion to his students, the School, the University, and the State, we welcome this opportunity to dedicate this Peavey to "Brownie."*

# *In Memoriam*

**HENRY SCHMITZ (1892-1965)**

*Alumni of the School of Forestry and his abundant friends and admirers in forestry, forest products, education, and public affairs were saddened by the death of Dr. Henry Schmitz during a hunting accident in the Puget Sound area on January 30, 1965.*

*Those who came in contact with Dr. Henry Schmitz became infected with his optimism and enthusiasm. As a University of Minnesota leader he contributed greatly to the building of the University from 1925 to 1952. As Dean of the College of Agriculture, Forestry and Home Economics, from 1943 to 1952 he gave leadership to all the instructional programs of the St. Paul Campus during the critical war years and the following period of rapid growth. As Director of the School of Forestry from 1925 to 1947 he led the effort that resulted in the building of Green Hall, in the development of sound study programs, and in initiating added research. A stimulating and effective teacher, he was loved and respected by students. As Editor of the Journal of Forestry (1937-1941) and President of the Society of American Foresters (1942-1945) he contributed to the growth and development of the profession of forestry. His research efforts spanned the areas of forest production and forest products, with special concentration in the field of wood preservation in which he was a recognized leader and to which he contributed an abundance of excellent scientific papers. From 1952-1958 he served as President of the University of Washington.*

*At the 1964 annual meeting of the Society held in Denver last September, he was awarded the Sir William Schlich Memorial Medal for distinguished service to forestry. In making the presentation, President Briegleb said:*

*"Henry Schmitz exemplifies in his life and character the qualities that we like to think are attributes of the forester: personal integrity, independence of outlook, loyalty to professional ideals, dedication of self to the advancement of society, and an abiding faith in the fundamental American virtues.*

*"Henry Schmitz' life and career have added lustre to our profession. The prestige that forestry enjoys, the recognition accorded our Society and our Journal of Forestry throughout the world, have been won through the good works and personal character of foresters like him. Should we not be thankful that our profession has been gifted with the addition of such men to our ranks?"*

*May his example, contributions, and accomplishments, which are everywhere about us so abundantly evident, serve to stimulate all of us to greater achievements.*

# Report on the School of Forestry

by F. H. Kaufert  
Director

The preparation of the School of Forestry report is normally a pleasant opportunity to report to alumni and friends on progress and developments. However, this year the preparation of this report is more difficult and the occasion is saddened by the recent loss and passing of Dr. Henry Schmitz.

The School of Forestry owes much to Dr. Schmitz. Working with a very small staff and under circumstances far from conducive to development, Dr. Schmitz, together with his associates, Professors E. G. Cheyney, J. H. Allison, L. W. Rees, and R. M. Brown, accomplished the construction of Green Hall, which was at that time without question one of the outstanding forestry school buildings of the nation. This was not a simple accomplishment. It took more than just normal dedication; ability, courage, and resolve. Dr. Schmitz during his stay at Minnesota (1925-1952) not only led the building of the School of Forestry within the University, but, as editor of the *Journal of Forestry* and later president of the Society of American Foresters, brought national and international recognition to our institution. During all those busy years, years of varied, abundant and productive activity, he always had time for new students, graduates, and a host of friends in the community. Additionally, during all of these years, he carried on an active research program in which various members of the staff and graduate students were engaged. As a matter of fact, plans were being made to have Dr. Schmitz return to Minnesota during the coming year to complete a long-term wood preservation study initiated in 1935. Shortly before his unfortunate death in a hunting accident, he had completed a book on the history of the College of Forestry of the University of Washington.

We are saddened by his loss but appreciate and are thankful for his contributions to Minnesota forestry, and particularly for his genuine friendship and never-failing encouragement. A Henry Schmitz Memorial Scholarship program is being established in his honor. Through this and the existing Henry Schmitz Student Leadership Award program, we hope that we can honor his memory and encourage young men and women to achieve in scholarship and leadership, goals which he encouraged and promoted throughout his productive career as a teacher, researcher, administrator, and friend to so many from every walk of life.

## *Facilities*

We are happy to report that the second unit of the Forest Products Laboratory has been completed and is presently in use for both teaching and research. We are very pleased with this second unit which is a fine addition to our facilities. However, before we can put this unit to maximum use, additions to our forest products research staff will be needed. This matter is presently of real concern and is being given attention by our Administration and State Legislature.

Dr. Sucoff's proposal to the National Science Foundation, which involved a request for funds with which to construct a new greenhouse and to construct and remodel laboratories on the south end of Green Hall, was successful. Although all of the funds requested were not received, the NSF will provide us with \$63,000, which, when matched with State funds, will provide us with an excellent greenhouse and adjoining research laboratories for work in forest biology — physiology, ecology, genetics, and related areas.

The remodelling of Green Hall still continues and will not be completed until some time in 1966, when we hope to have all of our laboratories as well as the new greenhouse in full operation. Out of the remodelling have come several new classrooms and far better housing for graduate students and staff.

We invite all alumni and friends to visit the Forestry Center on the St. Paul Campus to view the structures involved: the remodelled School of Forestry building (Green Hall), the new Lake States Forest Experiment Station Headquarters building, and the three-story first unit and the one-story second unit of the Forest Products Laboratory.

## *Enrollment*

Undergraduate enrollment in the School of Forestry continues to rise. Enrollment last fall was 343, which is the highest since 1949. Graduate enrollment climbed by about 20% and is the highest in the history of the School. Graduate enrollment during the fall quarter was 61, which filled to overflowing practically all of the space vacated when the Lake States Forest Experiment Station moved to its new building.

With 9 foreign students enrolled, we also have the largest number of foreign students ever enrolled in the School of Forestry.

## *Staff*

We are happy to report that Drs. Hugo John and Dave Thorud joined us as Assistant Professors in the areas of forest measurements and watershed management. These are new positions provided the School during the past several years. We are most fortunate to have Hugo and Dave on our staff.

Also, during the past year, Lee Wensel, who has his B.S. degree from Penn State and his M.S. from Purdue, joined us as an Instructor in the field of forest measurements.

The problem of retaining the outstanding young staff members who make up the School of Forestry faculty becomes increasingly difficult. Offers of attractive positions are received by all of them. By providing the top-quality young men we so fortunately presently have on our staff with opportunity for research, travel, and foreign experience, to supplement what we can provide in terms of salary, we hope to maintain the strength we have developed and build it with added individuals of the same quality. If present requests for added staff come to fruition, we hope to make considerable progress in the next few years.

This July will see the retirement of Professor R. M. "Brownie" Brown. The students at Itasca last summer honored him by hanging his photograph in the assembly hall besides those of S. B. Green, E. G. Cheney, T. Schantz-Hansen, Walter Nelson and Erick Wallin—the builders of the Itasca Forestry and Biological Station. The Minnesota Forestry Alumni Association plans to make its spring meeting an occasion for additional recognition of Brownie's long service and contributions to the School. No two people have so willingly and effectively done more for the School and its ongoing program than Brownie and Mrs. Brown. All this has been done with their usual good humor and friendliness. We will miss Brownie as an active staff member, but he will have an office in Green Hall which he can occupy when and if he feels the urge. If he follows in J. H. Allison's footsteps, we will see much of him. I know that all alumni of the School since 1927, the year Brownie came to Minnesota, will join me in this expression of thanks and appreciation for being the friendly, helpful, and productive individual he has been in the overall functioning of the School. The Minnesota School of Forestry would not have been as friendly a place without him.

As indicated above, J. H. "Pop" Allison still is actively engaged in his several research projects, particularly that concerned with the Lake Vadnais Plantations, now the John H. Allison Forest. Although slowed down for a time last year by several

minor operations, J. H. is back in his usual good form and working as hard as ever.

Dr. T. Schantz-Hansen frequently comes to the Forest Research Center from his home in Cloquet and occupies his office and desk at that location. Schantz is still very active on the Cloquet School Board, of which he has been Chairman for many years, and also serves as a board member of the Northwest Paper Foundation. The School has been fortunate to be the recipient of Northwest Paper Foundation Fellowships for the past seven years. Schantz will receive the University's Outstanding Achievement Award on April 24, during the annual banquet of the College of AFHE Alumni Association, a reward he richly deserves because of his many contributions to the School, Itasca Forestry and Biological Station, Cloquet Forest Research Center, and forestry in Minnesota generally.

Dr. Merle Meyer spent November and December in Argentina on an aerial survey project for FAO (Food and Agriculture of UN). Dr. Skok plans a trip to northern Europe this summer to study the potential of that area as an outlet for Minnesota fiber products.

## *Employment of Graduates*

The employment situation for graduates seems to change annually. During the past year when Federal employment was not as active as formerly, the Minnesota Division of Forestry employed a number of graduates and provided summer employment for a considerable number of undergraduates. The overall employment situation has been reasonably stable, with some particularly bright spots. The employment of those with graduate training and M.S. or Ph.D.'s has been particularly active. The same situation prevails in the Forest Products Engineering and Forest Products Merchandising fields. Also, there is more and more employment developing in the area of outdoor recreation and related fields.

The greater diversity of forestry training as well as the greater diversity of job opportunities which appear to be developing for foresters should provide good insurance and assurance relative to employment opportunities in the future.

## *Miscellaneous*

Under the leadership of Assistant Director Don Duncan some real improvements have been made in our undergraduate Forest Resources Management curriculum.

Research has been begun on five new projects financed with funds under the new McIntire-Stennis Cooperative Forestry Research program.

The staff always looks forward to visits from alumni and you will always be welcome.

# SENIORS

**DAVID A. ANDERSON**, St. Paul, Minnesota.  
Forest Resources Management Alpha Zeta, 63-65; Xi Sigma Pi, 64-65, Forester; Society of American Foresters, 63-65; Subcommittee on Forestry Curriculum, 64-65. Summer Jobs: 1963 - Forestry Aid, USFS, Chequamegon National Forest, Hayward, Wisconsin; 1964 - Laborer, School of Forestry.

**HENRY P. ANDERSON**, Meadowlands, Minnesota.  
Forest Resources Management Forestry Club, 62-65; St. Paul Campus Gun Club, 63-65, President 63-64; Minnesota Rovers, 63; I-M Sports. Summer Jobs: 1964 - Forestry Aid, USFS, Sierraville, California. Transferred from U.M.D. 1962.

**HOWARD A. AUNE**, Grand Rapids, Minnesota.  
Forest Products Merchandising Lignum Club, 63-64, Vice-president, 64; Summer Jobs: 1964 - Sales Trainee, Potlatch Forests, Inc., Lewiston, Idaho. Transferred from Itasca Junior College, 1963.

**GERALD J. BACH**, Wisconsin Rapids, Wisconsin.  
Forest Resources Management Forestry Club, 64-65; Queen Committee Chairman, Foresters' Day 65; I-M Sports, 64-65; College Committee on Relationships with Prospective Students, 64-65; Forestry Club Representative to Student Council, 64-65. Summer Jobs: 1962 - Assistant City Forester, Wisconsin Rapids, Wisconsin; 1964 - Forest Inventory, Effie, Minnesota. Transferred from the Colorado State University, 1964.

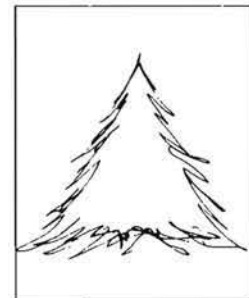

**KENNETH F. BAUMGARTNER**, Bird Island, Minnesota.  
Forest Resources Management I-M Sports, 62-64; IMC, 62-64. Summer Jobs: 1964 - Survey Crew, Minnesota Forest Service, Littlefork, Minnesota. Transferred from the College of St. Thomas, 1962.

**ROBERT M. BAYLY**, Duluth, Minnesota.  
Forest Resources Management I-M Sports, 64; Phi Kappa Psi, 62-63; Summer Jobs: 1963 - Geologist Assistant, University of Colorado, Colorado Plateau, Colorado. Transferred from the University of Colorado, 1963.

**ERWIN R. W. BERGLUND**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club, 63-65; Xi Sigma Pi, 64-65, Forest Ranger; Alpha Zeta, 63-65; Farm House, 61-65. Summer Jobs: 1963 - Blister Rust Control, USFS, Eldorado National Forest, California; 1964 - CFI re-measurement, University of Minnesota, Cloquet, Minnesota.

**DAVID P. BERGQUIST**, St. Paul, Minnesota.  
Forest Resources Management Forestry Club, 61-63; Society of American Foresters, 64-65. Summer Jobs: 1963 - Fire Patrol, Western Lane Forest, Veneta, Oregon.

**GARY C. BERGSTROM**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club, 60-65; Summer Jobs: 1962 - Smoke Chaser, USFS, Prescott, Arizona; 1963 - C. F. I. Crew Chief, USFS, Prescott, Arizona; 1964 - Planting Site Evaluator, Minnesota Forest Service, Brainerd, Minnesota.

**LEE O. BITNER**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club, 63-65; St. Paul Campus Gun Club, 64-65, President 64-65. Summer Jobs: 1963 - Blister Rust Control, Minnesota Forest Service; 1964 - Lookout, USFS, Washington. Transferred from Macalester College 1963.

**THOMAS G. BONGARD**, No. St. Paul, Minnesota.  
Forest Resources Management Upper Mid-West Golden Gloves, 62-63, Champion 63; I-M Sports, 62-64; Alpha Gamma Rho, 63-64; Forestry Club, 62-65. Summer Jobs: 1964 - Forestry Aid, USFS, Mt. Hood Forest, Oregon. Transferred from College of St. Thomas, 1962.

**DAVID J. BOOKS**, Eau Claire, Wisconsin.  
Forest Resources Management Forestry Club, 63-64; Society of American Foresters, 64-65; I-M Sports, 63-65. Summer Jobs: 1964 - Forestry Assistant, Eau Claire Parks & Recreation Department, Eau Claire, Wisconsin. Transferred from the Colorado State University, 1963.

**BRUCE L. CASEY**, Brainerd, Minnesota.  
Forest Resources Management Forestry Club, 63-65; Society of American Foresters, 63-65; Xi Sigma Pi, 64-65; Walter C. Coffey Scholarship, 1962. Summer Jobs: 1962-63, Blister Rust Control, Walker, Minnesota; 1964, Recreation Aid, USFS, Aspen, Colorado. Transferred from Brainerd Junior College, 1962.

**BJORN M. DAHL**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club 64-65; I-M Sports, 63-64; U of M Ski Club, 62-65; Society of American Foresters, 64-65. Summer Jobs: 1963 - Fire Control Aid, USFS, Choteau, Montana; 1964 - Timber Management Assistant, USFS, Choteau, Montana. Transferred from Mortuary Science, 1962.

**HERBERT RICHARD DEVRIES**, Puposky, Minnesota.  
Forest Resources Management Summer Jobs: 1960-61 - Forestry Aid, Kimberly-Clark, Two-Harbors, Minnesota; 1962-64, Minnesota Forest Service, Red Lake, Minnesota. Transferred from Bemidji State College, 1961.

**WAYNE J. DUNN, JR.**, Brownsville, Texas.  
Forest Resources Management Forestry Club, 61-65. Summer Jobs: 1963 - Fire Control Aid, USFS, Wyoming; 1964 - Forestry Aid, USFS, Wyoming. Transferred from Texas Southmost Jr. College, Brownsville, Texas, 1961.

**THOMAS EMERSON**, Milwaukee, Wisconsin.  
Forest Resources Management Forestry Club, 63-65; I-M Sports, 63-64. Summer Jobs: 1963 - Fire Control Aid, USFS, Ely, Minnesota. Transferred from the University of Wisconsin.

**MARTIN A. ERICKSON**, Grand Rapids, Minnesota.  
Forest Products Merchandising.

**RICHARD W. GEARY**, Owatonna, Minnesota.  
Forest Resources Management Forestry Club, 61-65; Society of American Foresters, 63-65; I-M Sports, 61-63; Inter-darm council, 61-64. Summer Jobs: 1962 - Blister Rust Control, USFS, Clearwater National Forest, Orofino, Idaho; 1964 - C. F. I., Gallatin National Forest, Bozeman, Montana.

**ROLLIN R. GEPPERT**, Lake City, Minnesota.  
Forest Resources Management Society of American Foresters, 64-65; St. Paul Campus Gun Club, 63-65. Summer Jobs: 1963 - Forestry Aid, Apache National Forest, Black River District, Alpine, Arizona; 1964 - Forestry Aid, USFS, Lassen National Forest, Chesten, California. Transferred from Winona State College 1962.

**HERBERT G. GIEFER**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club, 61-65; Vice President, 64-65; Sergeant-at-Arms, 63-64; Christmas Tree Project Chairman, 62; Fall Bonfire Co-Chairman, 62; Foresters' Day Sub-Chairman, 63, 65; Midwest Foresters' Conclave, 61-65, Chairman 64; I-M Sports, 61-65; Society of American Foresters, 64-65; Xi Sigma Pi, 64-65; Student Council, 63-64; Student-Faculty Intermediary Board, 64-65. Summer Jobs: 1963 - USFS, Recreation Aid, Encampment, Wyoming. 1964 - N.S.P. Co., Forestry Assistant, Minneapolis.

**ROBERT R. GILBERTSON**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club, 59-62; Society of American Foresters, 64-65; I-M Sports, 61, 64. Summer Jobs: 1961 - Fire Guard, USFS, Clifton, Arizona; 1962 - General Manager, North Star Trees, Waconia, Minnesota.

**JOEL F. GORANSON**, St. Paul, Minnesota.  
Forest Products Engineering Lignum Club, 62-65, Secretary 62-63. Summer Jobs: 1962 - Wood Technologist, Waldorf Paper Co., St. Paul, Minnesota.

**PHIL TEDD GRIMM**, Hector, Minnesota.  
Forest Resources Management I-M Sports, 64; Alpha Zeta, 63-65; Xi Sigma Pi, 64-65. Summer Jobs: 1963 - Forestry Aid, USFS Mt. Hood National Forest, Oregon; 1964 - Planting site survey, Minnesota Forest Service, Minnesota.

**ROBERT J. GUSTAFSON**, Red Wing, Minnesota.  
Forest Resources Management Forestry Club, 64-65; Music Hours Student Center, 64-65; Midwest Foresters' Conclave, 64-65; Student-Faculty Intermediary Board, 64-65; Skeewaksurs, 63-65; I-M Sports, 63-65; Archery Club, 62-63; Society of American Foresters, 63-65; Foresters' Day Button Chairman, 65. Summer Jobs: 1962-64 Survey Aid, USFS, Mt. Hood National Forest, Estocada, Oregon. Transferred from the University of Chicago, 1962.

**AIRIC HAHN**, Coon Rapids, Minnesota.  
Forest Products Engineering Summer Jobs: 1963 - Lab Technician, Jason Associates, Inc. Fort Collins, Colorado. Transferred from University of Minnesota, Institute of Technology, 1962.

**PAUL H. HANSON**, Winger, Minnesota.  
Forest Resources Management Forestry Club, 64-65; Summer Jobs: 1963 - Survey Aid, USFS, Burns, Oregon. Transferred from the University of North Dakota, 1963.

**LARRY M. HETREY**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club, 62-64; Alpha Delta Phi, 60; Society of American Foresters, 64-65. Summer Jobs: 1963 - Forest Worker, Chippewa National Forest, Remer, Minnesota; 1964 - Forestry Aid, Wenatchee National Forest, Ellensburg, Washington.

**THOMAS W. HOLTEN**, Montevideo, Minnesota.  
Forest Resources Management Forestry Club, 62-65; I-M Sports, 62-65; Student Council, 64-65; Honor Case Commission, 63-65. Summer Jobs: 1963-64 - Forestry Aid, USFS, California.

**MICHAEL G. HORNER**, Minneapolis, Minnesota.  
Forest Products Engineering Lignum Club, 64-65, Treasurer, 64-65; Xi Sigma Pi, 64-65; Summer Jobs: 1964 - Pole Inspector, Minnesota.

**EUGENE F. KAREL**, St. Paul, Minnesota.  
Forest Resources Management Forestry Club, 64-65; Christmas Tree Project Chairman, 65. Summer Jobs: 1964 - Timber Survey and Inventory, Minnesota Forest Service, Grand Marais, Minnesota.

**RAYMOND C. LAITALA**, Calumet, Minnesota.  
Forest Resources Management Forestry Club, 62-65; St. Paul Campus Gun Club, 63-65; St. Paul Chorus, 62-65; Gopher Peavey Staff, 64-65. Summer Jobs: 1963 - Plantation Release Crew, Crew Boss, Itasca County Land Commission, Grand Rapids, Minnesota; 1964 - Forestry Aid, USFS, Cordova, Alaska. Transferred from Itasca Junior College, 1962.

**JEROME L. LICARI**, Madison, Wisconsin.  
Forest Resources Management Army ROTC, 60-64, 2nd in command 63-64; Evan's Scholars, 60-65, Executive Vice-president, 64-65; I-M Sports, 60-65; Intercollegiate Baseball (U. of Wisconsin) 60-61; Summer Jobs: 1963 - National Park Service, California. Transferred from the University of Wisconsin.

**DAVID C. LOTHNER**, Red Wing, Minnesota.  
Forest Resources Management M Club, 60-65; Varsity Football, 60-62; Sigma Chi, 60-65; Alpha Zeta, 64-65; I-M Sports, 63-65. Summer Jobs: 1964 - Forest Survey, Minnesota Forest Service, Grand Marais, Minnesota. Transferred from the University of Minnesota Business School, 1963.

**DWIGHT MEDBERY**, Browns Valley, Minnesota.  
Forest Products Engineering I-M Sports, 64. Transferred from the University of Minnesota Institute of Technology, 1961.

**GEORGE P. MILLER**, St. Paul, Minnesota.  
Forest Resources Management Forestry Club, 60-65; Christmas Tree Cutting, 60-63; Bonfire Co-chairman, 63; Midwest Foresters' Conclave, 61-62; Bird Watchers, 60-65, Chairman 63; 21 Club, 60-65, President 63-64; Society of American Foresters, 64-65. Summer Jobs: 1961 - Forestry Aid, USFS, Quincy, California; 1962 - Laborer II, USFS, Togo, Minnesota; 1963 - Forestry Aid, BLM, Medford, Oregon; 1964 - Forestry Aid, BLM, Casper, Wyoming.

**DAVID R. MILNER**, St. Croix Falls, Wisconsin.  
Forest Resources Management Summer Jobs: 1963-64 - Forest Naturalist, USFS, Sonora, California.

**RICHARD P. MONSON**, Washington, D. C.  
Forest Resources Management Summer Jobs: 1963 - Assistant Forester, Consolidated Papers Inc., Little Marais, Minnesota.

**J. MICHAEL MORTENSSON**, South St. Paul, Minnesota.  
Forest Resources Management Forestry Club, 61-65, Sargent-at-Arms, 63-64; Gopher Peavey, 61-65, Editor 64-65; Student Center Board of Governors, 63-64; Homecoming Dance Chairman, 64; Foresters' Day Stumpjumpers Ball Chairman, 64; F-Day Exhibits Chairman, 63; Son of Paul, 65; I-M Sports, 61-64; Alpha Zeta, 63-65; Xi Sigma Pi, 64-65; Society of American Foresters, 63-65; Student Center Board Proxy, Spring 65, Vice President. Summer Jobs: 1963 - Forestry Aid, USFS, Plumas National Forest, Milford, California; 1964 - Planting Site Survey, Minnesota Forest Service, Bemidji, Minnesota.

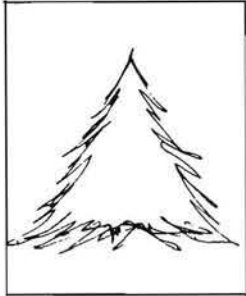

**STEPHEN L. MORTON**, Duluth, Minnesota.  
Forest Resources Management Forestry Club, 63-65; I-M Sports, 64-65; Summer Jobs: 1964 Recreation site survey, Wenatchee National Forest, Washington. Transferred from the University of Minnesota, Duluth, 1963.

**ROSS E. NELSON**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club, 61-65; President of Itasca Corporation, 63; Canoe Trip Chairman, 63; Bonfire Co-chairman, 63; Forestry Club representative to Minnesota Student Association, 64-65; Foresters' Day Awards Chairman, 65; AFROTC, 61-65; Arnold Air Society, 63-65; Society of American Foresters, 64-65; Gopher Peavey, 64-65. Summer Jobs: 1964 - Forestry Aid, White River National Forest, Colorado. Transferred from the University of Maryland, (branch in Ramstein, Germany), 1961.

**GARY B. NORDIN**, St. Louis Park, Minnesota.  
Forest Resources Management Society of American Foresters, 64-65. Summer Jobs: 1964 - Forest Worker, USFS, Clarkia, Idaho. Transferred from the University of Minnesota, CLA, 1963.

**EUGENE N. NORSTROM**, Pine City, Minnesota. Forest Products Engineering.

**DAVID S. NOVITZKI**, Brainerd, Minnesota.  
Forest Resources Management Forestry Club, 63-65; Newman Club, 63-65; I-M Sports, 63-64. Summer Jobs: 1963 - NW Paper Company, Brainerd, Minnesota; 1964 - Lookout and Timber Cruiser, USFS, Hamilton, Montana. Transferred from the Brainerd Junior College, 1963.

**JOHN D. O'CONNELL**, Hopkins, Minnesota.  
Forest Resources Management Forestry Club, 64-65.

**DAVID S. PARENT**, Minneapolis, Minnesota.  
Forest Resources Management Army ROTC, 61-65; Gun Club, 64-65. Summer Jobs: 1964 - Forestry Aid, USFS, Chippewa National Forest, Minnesota. Transferred from the University of Minnesota Institute of Technology, 1961.

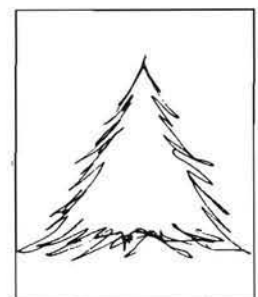

**RICHARD J. PETERSON**, Lake Elmo, Minnesota.  
Forest Resources Management Forestry Club, 64-65; Delta Theta Sigma, 63-65; Secretary, 63-64; Lutheran Student Choir, 63-65, President, 63-64. Summer Jobs: 1964 - TSI Crew, USFS, Hot Creek, California; 1964 - Helitack Crew, USFS, Fall River, California. Transferred from the Concordia College, Moorhead, Minnesota, 1962.

**MARVIN C. RUDE**, Grand Marais, Minnesota.  
Forest Resource Management Forestry Club, 63-65; Society of American Foresters, 64-65; Foresters' Day Coffee Hour Co-chairman, 65; Co-chairman Forestry Club Homecoming Activities, 64. Summer Jobs: 1960-61 - Pulpwood Logger; 1963-64 - Fire Control Aid, USFS, Superior National Forest, Minnesota. Transferred from the University of Minnesota, Duluth, 1962.

**RODNEY W. SANDO**, Ogilvie, Minnesota.  
Forest Resources Management Forestry Club, 63-64, Historian, 64; St. Paul Campus Gun Club, 63-64, Executive Officer, 63-64, Vice President, 64. Summer Jobs: 1964 - Fire Control Aid, USFS, Missoula, Montana; 1962-63 - Forestry Aid, Lake States, Grand Rapids, Minnesota; 1961 - Fire Control Aid, USFS, Angeles N.F., California. Transferred from U of M Institute of Technology, 1960.

**DARYL SAUER**, Minneapolis, Minnesota  
Forest Products Engineering Lignum Club, 64-65.

**CHARLES M. SELANDER**, St. Paul, Minnesota.  
Forestry Resources Management Forestry Club, 61-65; Inter-  
Varsity Christian Fellowship, 62-65, President, 64-65. Summer  
Jobs: 1963 - Game Research Assistant, State of Minnesota; 1964  
- Wildlife Aid, Bureau of Sports, Fisheries & Wildlife, St. Paul,  
Minnesota.

**CRAIG SMITH**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club, 60-64; Foresters'  
Day Committee Chairman, 61-64; Skewaksurs, 64-65; I-M Sports,  
62-63. Summer Jobs: 1961 - Forestry Aid, USFS, Plumas National  
Forest, California; 1962 - USFS, Coeur D'Alene National Forest,  
Idaho; 1963 - Timber Inventory, Clearwater National Forest, Idaho;  
1964 - Research Technician, USFS, Lake States, St. Paul, Minne-  
sota.

**ROBERT J. STRICKER**, Braham, Minnesota.  
Forest Resources Management Forestry Club, 63-65; Foresters'  
Day Dance Chairman, 65; I-M Sports, 63-65; University of Minne-  
sota Football Marching Band, 60-62; Itasca Foresters' Day Dance  
Chairman, 63; Midwest Forester's Conclave, 64-65; Punchinello  
Players, 62-65; Student Center Board of Governors, 63-65, Vice  
President, 63-64, President, 64-65; Student Council, 64-65, Ex-  
officio. Summer Jobs: 1964 - Surveyor's Aid, USFS, Mt. Hood  
National Forest. Transferred from the University of Minnesota,  
SLA, 1962.

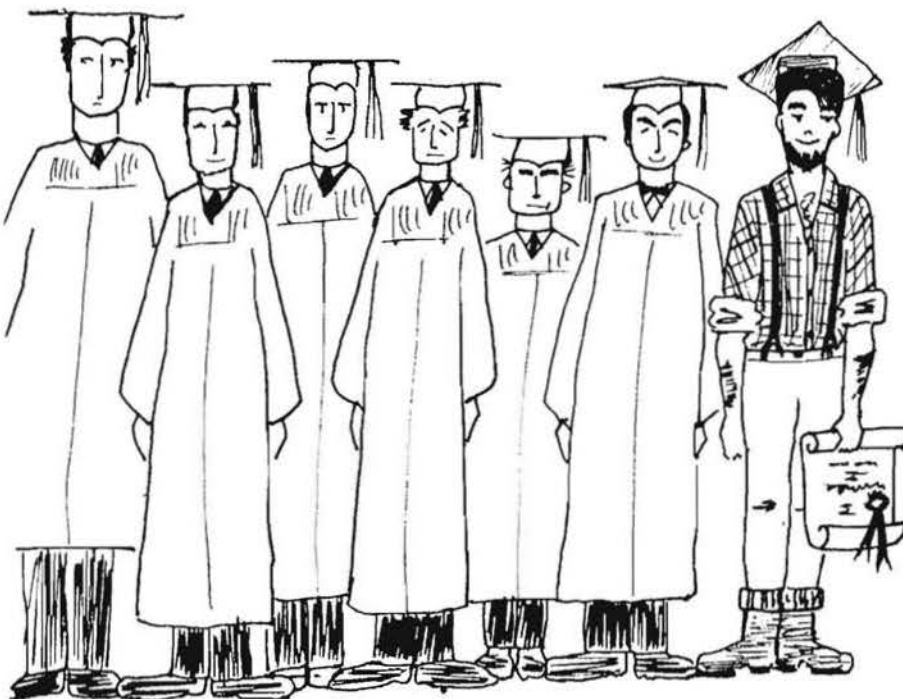

**BARRY W. WELCH**, Hopkins, Minnesota.  
Forest Resources Management Forestry Club, 61-65, President,  
64-65; Foresters' Day Co-chairman, 64; Xi Sigma Pi, 64-65,  
Associate Forester, 64-65; Alpha Zeta, 63-65; Xi Sigma Pi Fresh-  
man Honor Roll, 61-62; Gopher Peavey, 62-64, Out of Town Ads,  
63-64. Summer Jobs: 1963 - Forestry Aid, USFS, Oakridge, Ore-  
gon; 1964 - Forestry Aid, BLM, Durango, Colorado.

**HAROLD A. WICKMAN**, Minneapolis, Minnesota.  
Forest Resources Management Forestry Club, 64-65; Society of  
American Foresters, 64-65; Commuter's Club, 64-65. Summer Jobs:  
1964 - Forestry Aid USFS, Superior National Forest, Minnesota.

**BRUCE T. YOUNGBERG**, Richfield, Minnesota.  
Forest Resources Management I-M Sports, 63. Summer Jobs:  
1963 - Forestry Aid, USFS, Grand Marais, Minnesota; 1964 - Sur-  
vey Crew, Minnesota Forestry Service, Tower, Minnesota. Trans-  
ferred from University of Minnesota, SLA, 1961.

## FORESTRY CLUB

*by Barry Welch*

I was surprised and pleased to be elected president of Forestry Club at the end of last winter quarter. I was in for a bigger surprise when the new Exec Board was entertained at Roseville. Little Mike Noel drove me home. Thanks Mike!

With Jim Potton graduating at the end of winter quarter and most of the new and old Exec Boards up at Cloquet, Dave Miller and Tom Holten ran the Club for spring quarter. They did an excellent job with the Canoe Trip and providing hot dogs and beans during Careers Day at Green Hall. While up at Cloquet, Gene Karel was given the job of heading up the 1964 Christmas tree project.

Fall quarter of '64 began with a turnout of almost 200 students in Rouser Rooms A&B. (Don't you wish everyone used Dial?) Gene Karel presented his report on what was done on the Christmas tree project during the summer. There was still a lot to do, but thanks to Gene and the willing F-Club members, we ended up with cash in the Club's coffer. We also had two freshmen girls join the Club. I had to give up my gavel for a hammer to keep order.

The Fall Bonfire was the second meeting with Paul Lundberg taking care of everything—the faculty entertained. Nobody needed Pepto-bismol; I guess the food agreed with everybody, Paul.

Gary Jensen and John Sulerud were Co-chairmen of Foresters' Day. Xi Sigma Pi handled the Special Event Friday night before F-Day. They secured Sigurd Olson of Ely who had the people packed into the North Star Ballroom. Thanks to some sun dances by a few friends, January 23 was quite warm and nice for the big day. The Wild-lifers challenged us to a tug-of-war on F-Day, and even though they had three professional wrestlers, the Foresters won. I guess Mannings has benefited the Club by giving some of the members a little weight. Mike Mortensson came away with the Son of Paul award and presided over a very successful Stumpjumper's Ball.

The Bull-of-the-Woods kept the students and the faculty informed on what was going on within and without Green Hall. Paul Lundberg, as editor of the Bull, ran it very efficiently.

*The Club listens intently as Pat West speaks.*

Thanks to Chad Converse, after every meeting we had some very interesting and enjoyable programs. They ranged from Dr. Meyer's trip to Argentina to type range land to Gary Bergstrom's trip "up north" to bring home the meat (DEER).

The second to last meeting of winter quarter brought us around to elections again. After the elections, a motion was made to table the agenda and to adjourn to the tables of the Peacock. It was seconded about 40 times and unanimously passed. Dave Miller did a lot better job of bending the elbow than I did last year. Good luck in 1965-66, Dave.

I am now a lame duck; before I was called a ruptured duck. As I limp along through my last quarter, I want to thank all the card carrying members and yo-yo's for their attendance, and in making the best Club on campus the most fun of my year as a senior.

*21 Clubers decide where to meet*

**EXEC. BOARD**

## Bull of the Woods

*by Paul Lundberg*

The Bull of the Woods is now in its third year of publication and it still hasn't achieved University wide recognition. Winter quarter I asked a coed what the "Bull of the Woods" was; she replied she thought it was some kind of Northwoods Playboy.

That might not be such a bad idea, but the Bull has another purpose. The Bull keeps the faculty, students, and alumni posted on the latest activities of the Club and other information pertinent to the School of Forestry. Our goals are simple enough and we do our best to attain them.

I'd like to thank my staff for the help they have given me and I hope my readers have enjoyed the Bull this past year as much as I have enjoyed putting it out.

# XI SIGMA PI

## Delta Chapter

by Dave Anderson

Xi Sigma Pi, the National Forestry Honor Fraternity, was founded at the University of Washington in 1908. Twelve years later the Delta Chapter was established at the University of Minnesota. The fraternity's objectives are to secure a high standard of scholarship in forestry education, to work for the upbuilding of the forestry profession, and to promote fraternal relations among earnest workers engaged in forestry activities.

During the past year the Delta Chapter has strived to meet the objectives through its activities. Last spring quarter Xi Sigma Pi co-sponsored a banquet with the Cloquet Diners Club. The banquet, which was held at Gillettes Supper Club in Cloquet, was followed by a fine talk given by Dr. Erik Bjorkman, visiting professor from Sweden. Xi Sigma Pi also sponsored the special event program of Foresters' Day. Sigurd F. Olson gave a very interesting and informative talk on "The Voyageurs."

Early in winter quarter, candidates for initiation

were selected on the basis of scholastic ability, interest and activity in work pertaining to forestry, and the promise of attaining high professional achievement. This year we initiated seventeen new members. Following the initiation and the banquet Dr. John Haygreen spoke to us on potential developments in the forest products industries.

Our Freshman Honor Roll award for 1963-64 was given to two students. Congratulations to Darryl Anderson and John Menge on their achievement.

It is our hope that Xi Sigma Pi will continue to be an incentive for all forestry students as it has been for us in the past.

### OFFICERS 1964-65

<i>Forester</i>	Dave Anderson
<i>Associate Forester</i>	Barry Welch
<i>Secretary-Fiscal Agent</i>	Bruce Casey

# WIVES OF PAUL

by Nancy Bradley

This past year the Forestry Wives established permanent residence in Green Hall for our meetings. It is there that many activities are planned.

Spring quarter found the club gathering and selling bakery goods for our first project. During the month of May, our Graduation Tea was held at Mrs. Irving's home. The graduating wives were presented P.H.T. (Putting Hubby Through) diplomas. Our final spring gathering was the annual family picnic at Como Park. This was a great success — until the rains came.

During the summer our club was chosen Publication Editor of the National Association of the Forestry Students' Wives Newsletter. The success of this project is due to our hard-working and creative V.P. Thanks, Mickey, for a fine job!

The fall term started with a get acquainted party at Dr. and Mrs. Kaufert's home. We toured the United States via slides and topped the evening off with their delightful cider and doughnuts. In December we had a couples' progressive dinner party and exchanged Christmas gifts at the last home.

Everyone enjoyed Foresters Day — the weatherman sparkled and our club increased its assets. Hidden skill and strength were revealed by our fellow men.

A French coiffeur highlighted the Faculty Wives Tea in March. The latest in hair fashions and coiffure was demonstrated.

As another year passes our club is becoming more of a functioning unit. Acquaintances and friendships are established that will last a lifetime. Good luck and success to the Wives of Paul next year.

# LIGNUM CLUB

by David Daniels

The Lignum Club is composed of students in the Forest Products Merchandising and the Forest Products Engineering curriculums.

The purpose of the club is to promote the field of forest products. This is accomplished by a guest speaker program. Prominent men in the forest products field are invited to speak on their phase of the industry. The program enables the students to familiarize themselves with forest products industries and various types of employment. Fellowship among the students in the two curriculums is also promoted. The program allows prospective employers to view the facilities of the school and the quality of instruction the students receive.

The club's activities for the year are the refreshment bar at the Stumpjumper's Ball and the spring steak fry.

## ITASCA 1964

*by Paul Noreen*

As tradition has so well established over the past years, the end of July brought smiles to the faces of the owners of Quallies and the Headwaters. These smiles were the result of the anticipated arrival of the Forestry Session and all of those thirsty fellows. The owners were definitely not disappointed by the 1964 Itasca Session.

Sunday, the second of August, was typical for the first day of an Itasca Session. Ken Winsness was trying to get fellows set up for fall quarter amid the chaos of fellows checking in, playing football, going fishing, and generally enjoying the only day of the session free from study.

The 1964 session had the traditional soil pits, mil-acre plots, botany exams, and mensuration re-

ports, as well as the traditional evening swim by all of the fellows of the camp, whether they wanted it or not.

The session was not completely traditional. There was that terrible 'wildcat' roaming the woods at night letting out those crying screams. Most of us wondered what it was, but none of us had enough guts to go out into the woods to find out. But we finally found out what it was, didn't we, Cabin 33? Then there was Foresters' Day without the traditional nice weather, but we still had a good crowd watching us students get wiped out by the botany instructors. The night of Foresters' Day was made unforgettable by the singing of "Forester's Utopia" (a song which can only be appreciated by students of an Itasca Session) composed by Pat West and Paul Lundberg.

The event that will always be unique to the 1964 session is the retirement party for Prof. R. M. Brown. After 37 years of fellows studying for

ecology exams during periods designated for Project 20 "Brownie" decided there was no hope and retired. To those of us who have been to Itasca, it is rather disheartening to realize that future sessions may not have to fight through hazelbrush and swamps in what is commonly called "running that #&\$%& diagonal." It just isn't fair, is it fellows! ?

# CAMP CLOQUET, 1964

## Better than the average camp

*by Jim Sparke*

As president of the Cloquet group, I knew I would have to write a follow-up of the session for the Peavey. With this in mind, I started a diary which lasted about two weeks. It was abandoned because of the possibility that this juicy piece of literature might fall into wrong hands.

Many records were set by the 1964 Cloquet foresters. The first of which was the size of our group. We were the largest group to attend the spring session. Many problems were envisioned because of the large size of the group, but because of a great bunch of foresters, very few ever arose.

Seven full teams participated with the team named Casey's Mets outshining all others. Hummmmmmmmmmm.

Another record was set by George Miller and Gary Bergstrom. They devised the first horizontal spar tree while doing their thinning project. This may prove to be the greatest invention since the wheel.

Camp Cloquet was hit with a wind of record proportions this year. The wind blew a canoe onto the roof of one of the cabins and rolled a large concrete sod roller up the steps of another cabin to block the door. This unusual wind also blew a 150 pound goshawk into the trunk of Al Wolter's old Ford.

Bjorn Dahl has the honor of setting many records. But because of Federal regulations, they cannot be listed in this great publication. His

Many record setting snowball fights occurred during the first three weeks of the quarter. It was not safe to move about camp unescorted. Many of the guys are still wondering if John Eschle was that brave or just plain stupid for making those one man "banzai" charges. A record snowfall, according to one snow gauge, made possible massive snowball fights.

The greatest softball league ever to appear at Camp Cloquet was organized by Jerry Bach.

buddy, Ernest Books, left many a sore spot in areas surrounding Cloquet.

Craig Smith, the Betsy Ross of Camp Cloquet, made the battle flag which always flew at the classroom entrance. Our fearless leader, Mickey Mouse, was vividly portrayed on our banner. Everyone was very sad when our flag was lowered for the last time as we broke camp and headed for our respective summer jobs or graduation ceremonies.

*What, No Snow?*

*Camp Barber, etc.*

*April Playmate?*

*Hummmmmmmmmmm  
(A Hummer)*

*Beer Can Disposal Area*

*I still think they're too close!*

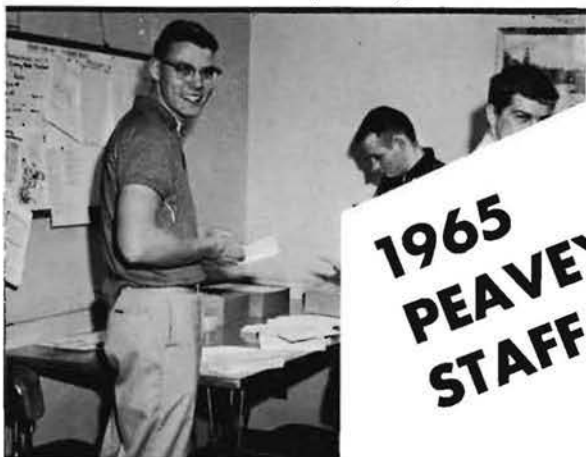

*What a party!*

*We have to return*

# CHRISTMAS TREE PROJECT

1964

*by Gene Karel*

The 1964 Christmas tree project got under way several weekends before Thanksgiving when we went up to Dr. Henry Hansen's plantation near Anoka. We spent two weekends spraying red pine with Greenzit to keep the needles green. Not only did the fellows spray the trees, but they also bundled them on the stump. A group of foresters did the cutting of the red and Scotch pine. Del Johnson invented a new method of Christmas tree harvesting. When he wasn't pheasant hunting, Del shot down a few trees. (We suspect Mr. Hallgren would like to know about your method of harvesting, Del.)

Sales were very good this year but due to some unexpected bills the profits were not as great as usual. As in previous years we sold Scotch and red pine that were sheared and balsam fir and spruce. We sold 875 of 925 trees with balsam fir the only species left.

Due to various reasons we could not use the gym parking lot for the project, but we were given permission to use the little white schoolhouse on the corner of Larpenteur and Cleveland. We had an ideal spot and proceeded to set up the lot. Leo Lukas, Jim Trusten, Ron Floria and Ken Johnson gave me much help in setting up the racks for the trees. We had Plant Services electricians wire the lights for us. We might say that their bill was really electrifying. What a shock!

With the lot all set up, we began the rough job of hauling the trees. Paul Stegmier got us a big truck to haul the trees. Everything went fine except the truck wasn't as big as we thought it was and we had to make four trips instead of two.

I would like to take this opportunity to thank all the fellows who helped make the Christmas tree project a success. Thanks to Morrie Mittness of Plant Services for the use of the schoolhouse area. I would thank Dr. Hansen for his cooperation. I would especially like to thank Dr. Don Duncan who generously donated boughs from a thinning at Rosemount. And finally, good luck to next year's chairman.

*by Don Westerman*

The annual canoe trip took place on Sunday, May 25th. It was a cloudless, warm day as we started out and it remained so all day. About twelve foresters and as many coeds left Green Hall at 8:30 and reached Marine-on-the-St. Croix at 9:30. By 11:00 all our gear had been transported to Taylors and we were on our way.

After an hour on the water we decided to stop on an island to have lunch. Most people had sandwiches of some sort, but the beverages ranged from pop to liquids potent enough to make one's eyeballs look like road maps.

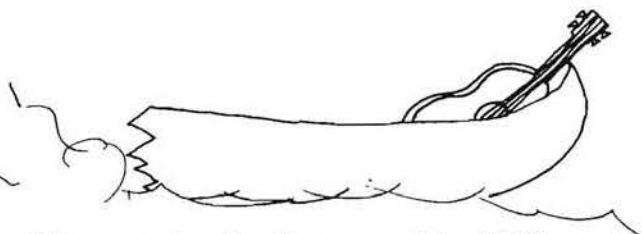

It was rather amusing to watch the flotilla dis-

appear and reappear whenever the opportunity presented itself. From Taylor's Falls to Marine, the St. Croix surely presents enough of such opportunities.

Duane Hanson tried his hand at a little fishing with a lure he found. Much to his surprise, he did catch a fish which he wanted to eat for supper, but his date told him that fish was not on the planned menu.

We reached O'Brien State Park at about 4:30, ate supper, and by 6:30, everyone had landed at Marine Ferry.

Because of the perfect weather, it wasn't hard to spot those who had gone on the canoe trip. A few distinguishing characteristics were a painful sunburn, stiff shoulders from paddling, and a pleasant smile that told everyone a good time was experienced by all.

## Midwest Foresters Conclave 1964

*by Herb Giefer*

Five hairy foresters crawled out of their Cloquet bunkhouses at 3 a.m. one Friday in early May. Then, amidst the dark and cold, they piled three bucking saws, two peaveys, two axes, a plug of tobacco, and themselves into a Valiant.

Their spirits were high all that day as they traveled through the fog of northern Michigan. They had a tradition to uphold they told themselves: after all, both Paul Bunyan and the Jolly Green Giant were native Minnesotans.

After leaving five pounds of recap and three quarts of oil along the freeways, these fearless warriors finally got to stretch their legs at Cedar Lake Recreation Area near Chelsea, Michigan. This was the site of the Eleventh Annual Midwest Foresters Conclave hosted by Michigan State University.

That evening, in the true spirit of Minnesota foresters, we led the troops of plaid-shirted monsters from seven other schools into town to fill up on courage for the next day's activities.

The night was short but we all managed to get up in time for the boot-camp-style breakfast at 7 a.m. The field events started at 8 a.m. — there's not too much to say about them except that we were generous enough to lend a compass to Iowa State who used it to win enough points to tie us for eighth and consequently last place.

Somehow we managed to get our second wind in time for the evening's activities, and for the fourth straight year our contingent sang the loudest, told the raunchiest jokes, and drank the most beer.

In all seriousness, such a dismal showing in the field events year after year is a poor reflection on our fine school and club. I sincerely hope that more interest will be shown in future conclaves.

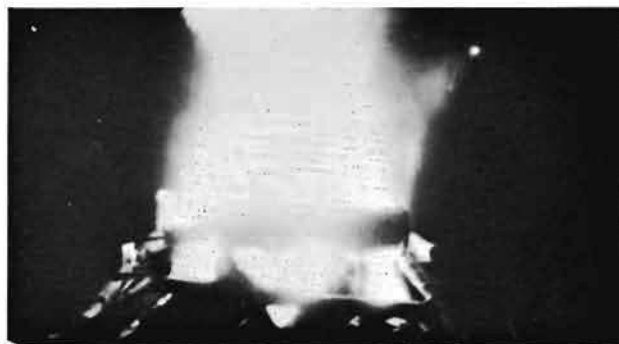

# 1964 Fall Bonfire

*by Paul Lundberg*

The weatherman was good to us again this year and gave us a beautiful evening for our 1964 Fall Bonfire. A new touch of atmosphere was added by the presence of the Forestry Club's Paul Bunyan. After the fire finally got started (second try) an endless line of over 100 starving foresters filed past the serving tables to get their fill of tube steaks, beans, and pop.

When everyone was filled to the gills, they settled back on the grassy hill next to the new Lake States building. Barry Welch started the evening's program by welcoming the freshmen and then introducing Dr. Kaufert who gave a speech and then introduced the staff.

Mr. Hallgren gets the award for the most memorable joke of the evening with the one his daughter told him. "What do you call men who love each other?" "Christians." After the program the guitars came out and everyone had a good time

*The guys forgot to get in the picture*

singing along to "Logger Lover," "Hey Lidy Lidy Lo," and all the other old favorites.

When the fire started getting low and voices were getting hoarse we realized another fall bonfire was coming to a close, for some, their first and for others, their last. In any case it was one that will be remembered for a long time.

---

## Intramural Sports '64-'65

*by Paul Lundberg*

As usual, the Forestry Club has participated very actively in the area of sports. In some sports — basketball, volleyball, and bowling — the Club has entered two teams. This shows the great interest the Club members have in sports. Keep it up, guys.

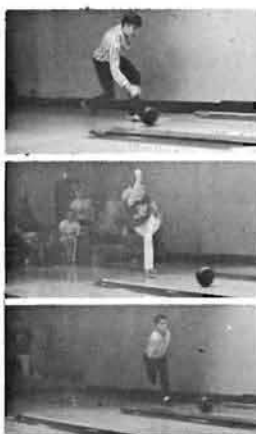

**FOOTBALL:** The football team, captained by Herb Giefer, had enough players to make an offensive and a defensive unit this year. The team came in second place in Class C in the St. Paul

Campus league. John Sulerud and Jerry Bach shared the quarterbacking of the grid team.

**BOWLING:** The Forester's bowling team rolled their way into second place in Class A on the St. Paul Campus. Foresters II wasn't far behind; in fact, rumor has it that Foresters II defeated the first team several times this year.

*Did you blow it, Gus?*

*Jim, Tony, Dave*

*Jump Ball*

*Up for the rebound*

**BASKETBALL:** Vince Mann did a fine job of organizing the two basketball teams this winter. Although they fought hard, they were lacking in height and neither team placed.

**HOCKEY:** The hockey team kept up their traditional fine showing in the all-University league. The pucksters took third place in Class B but only with a few casualties. How's your head, Dewey?

*They played hard . . .*

*and collapsed later*

**ARCHERY:** The Club was well represented at the Archery Tourney this year. Top archers in the Club are Rodney Oshiro, third place Class A Free Style, and John Sulerud who took second place in Class B Instinctive competition.

*"Skirts" Hanson serves*

**OTHER TEAM SPORTS:** The volleyball season is still underway with both teams making good showings. The Mississippi Swim is also still in progress with our team presently in third place.

Win, lose, or draw the Foresters are always in there fighting. The high caliber of play and sportsmanship displayed by our teams this past year have been a tribute to the character of the Forestry Club as a whole.

# Odds and Ends

*Summer Jobs*

# A SUMMER IN ASPEN

*by Bruce Casey*

I was fortunate this past summer to be able to work in famous "Aspen," the doorway to one of the most fabulous outdoor playgrounds in the Colorado Rockies. Aspen is located in the Roaring Fork River valley and is almost completely surrounded by the Aspen Ranger District of the White River National Forest. Within the boundaries of the district some 90 miles of prime trout streams and 435 acres of snow-fed trout lakes are found. The mountain scenery is some of the most photographed in Colorado. Six 14,000 ft. peaks of the Elk Range are located within the district.

In this setting recreation is by far the largest management function faced by the U.S. Forest Service. Hikers and horsemen enjoy the district's 181 miles of developed mountain trails; jeeping enthusiasts enjoy the challenge of approximately 75 miles of rugged roads; mountain climbers, from Europe as well as the U.S., are challenged by the dangerous climbing on the crumbly sandstone formations known as the Maroon Bells (these peaks claimed the life of one experienced climber this summer); hundreds of car-campers stop overnight in the nine forest service campgrounds provided for this purpose; and, from about Thanksgiving to Easter, thousands of ski enthusiasts journey to Aspen to enjoy the unexcelled powder snow skiing on three privately developed slopes.

It probably need not be said that my job there was that of a recreation aid. I was public-relations man and campground custodian for the Maroon Creek campgrounds. Good old vehicle #523 and I started off each morning with a nose count of the visitors present in the four campgrounds. The rest of the day I kept busy doing everything from fixing busted water lines to cleaning out fireplaces. Occasionally I got a special assignment like putting in sign posts, which provided an even greater range of variety. All in all, the work was very interesting, being interrupted by frequent visits with campers' daughters (technically known as public relations contacts).

Not being much of a fisherman, I usually took to the hiking trails with a rucksack and a borrowed slide camera on days off. Because I had Tuesdays and Wednesdays off, I often got to ride with other Aspen F.S. employees to many parts of the district.

One weekend I was allowed to drive a new F.S. jeep to Glenwood Springs for its 1000 mile check-up, and spent the day swimming in the world's largest outdoor heated pool. The biggest highlight of the summer came on Labor Day, when the assistant ranger and I climbed three of the district's

14,000 ft. peaks in the middle of a snowstorm.

In my opinion, this past summer's experiences cannot be surpassed. To express it in the words of the assistant ranger, it was a "smashing" summer.

# Summer in the Sierras

by David Miller

It all began one pleasant spring day, when Prof. Brown called me into his office and asked, "How would you like a real wilderness experience?" The next thing I knew I was heading west for my summer job in my trusty VW.

My work was in the Kings River District of the Sierra National Forest. The district headquarters was Dinkey Creek, which is in the mountains about fifty miles east of Fresno, California. I arrived at Dinkey Creek on June 20 and was assigned to a trail crew of four.

Our crew was building a new trail, located about 30 miles from district headquarters, at an elevation of 8500 feet. We had to walk sixteen of those thirty miles to reach our camp — 5½ hours of walking. We would be in the "backcountry" for 10 days then would be off duty 4 days. The trail we were building went 2½ miles up the side of a mountain. Our job consisted of removing the rocks, drilling holes for blasting, trimming trees on the edge of the trail, putting in water bars, and making trail tread. In other words, hard physical labor!

Our camp was located on the north fork of the Kings River, which supplied us with our water for cooking and bathing. The camp consisted of two army pup tents, two tables, a kitchen tarp, "Miss July," and "Miss August" (*Playboy* mag.) — believe me, about the 9th day of the tour they looked real good!

The daily work schedule would go something like this: up at seven, eat breakfast, on the trail around 8 o'clock (we never made it until 9 unless the district ranger was in camp), and work until

four. After work we would clean up, fix supper and then sit around the campfire and talk or play cards. One guy brought his guitar so we would sing a few verses of "Hey Lidy Lidy" or "Banging Away on LuLu" before hitting the sack.

Thus, the summer slipped by and soon it was time to say good-bye to the friends that had shared in my summer's experiences. I had a wonderful summer and hated to leave the Sierras, but as the VW headed east I began to look forward to getting back.

# COLORADO CFI

by Barry "Durango Kid" Welch

The end of Cloquet found me anxious to get to my summer job in Durango, Colorado. This was to be my first time in southwestern Colorado and my first job with the Bureau of Land Management. My old '51 Dodge was loaded down with my junk, along with Henry Johnson's, who was to work in Monte Vista, Colorado, and Gary Nordstrom's possessions. Although we had to use a little tape and coat-hanger wire we made it there.

Gary and I were to report for work on June 14. After attending a week's inventory training session in Lake City, Colo., we returned to Durango to start taking our CFI plots. Jerry Zamber, 1961, was head of the inventory project.

CFI plots didn't constitute the whole summer however. We had beautiful fireworks on the 4th of July weekend—about 360 acres of them. We spent five days on the fire.

Gary and I then went to Norwood, Colo., for 6 weeks to take inventory plots around there. The BLM provided a trailerhouse. For excitement at night we went into Norwood and watched the neon light flash off and on.

When Gary and I got back from Norwood, we

spent two nights, along with other BLM personnel, building a float. We became "Tissue-Tucking Aids, GS-00.01." After we had all the tissue tucked, we proceeded to take in the town (but enough of that).

One day found me in Monticello, Utah, helping the radio engineer from the State Office of the BLM. We ate supper in Monticello. Those enchiladas were really hot. The waitress wasn't so bad either.

It was really an enjoyable summer. We traveled all over southwestern Colorado, and worked with a great bunch of guys in the Durango District Office. But it was fun to get back.

## HELITACK IN NORTHERN CALIFORNIA

by Richard Peterson

On Sunday, June 15th, Mickey Hall and I started on a trip that would mark the beginning of a most interesting summer. Mickey was headed for his job with the BLM in Medford, Oregon while I was going to my job with the U. S. Forest Service in Hat Creek, California.

After we reached Hat Creek, Mickey continued on to Medford. The Assistant District Ranger then took me to where the TSI crew was working. From that day until the middle of July we worked on everything from wilderness trails to station maintenance. In mid-July our district was notified of a job position with a helitack fire crew on the forest. I was picked for the position and from that time on I spent two days a week at the Black's Mountain Helibase, training as a prospective helijumper.

The training program for helijumping was both rigorous and extensive. The principles and safety of helicopter operation were the first topics covered. When these were satisfactorily completed, we were taught how to use helijumper, the drop-bag, and paracargo equipment. Finally we started jump training.

Our jump training began with learning how to fit the jumpsuit to give ourselves the utmost protection. Next came the actual jump training. We started by jumping off 50 gallon barrels placed on end. After having conquered the fundamentals of hit and roll, we graduated to building roofs. Finally we were ready for a jump from the helicopter.

Needless to say, I was quite nervous with anticipation of my first jump, but before long, there I was in the open doorway of the helicopter in jumping position. With a final nod from the pilot, I stepped into space, hit, and rolled. After two more jumps I was accepted as a helijumper.

Throughout the summer I was sent on 9 fires covering more than 22,000 acres. Beyond a doubt, the experience I gained was priceless, particularly that concerning fire. When the summer came to a close I returned home but I will always remember the mountains and the friendships made there.

## PRESIDENT'S MESSAGE

Dear Alumni:

Annually your President is called upon to present a short message to all of you concerning the activities of the MFAA and of its close association with your School of Forestry.

Having been president for the past year has given me an excellent chance to renew old friendships and to meet many of you for the first time. This year has been a stimulating and rewarding experience and it has also been a pleasure to see the continued success of our "Stag Banquets." The reward to me best becomes evident, however, when I see efforts of individuals and of our MFAA collectively in giving service to the school.

Your Alumni Association has now been functioning for nine years as a loosely knit social organization. As a social organization, we annually hold a Fall and a Spring Banquet, and these are usually stag meetings with attendance of well over one hundred persons. Last fall we had our banquet at the American Legion Hall in St. Paul. On our program we had a motion picture about fire in a metropolitan area which brought forth some very lively discussion and arguments from the floor.

As a special for our Spring Banquet this year, we have invited the wives and it is planned for May 22. It will be held in the North Star Ballroom on the St. Paul Campus and at that time we plan to pay honor to Professor R. M. "Brownie" Brown upon his well deserved retirement. A second feature of the evening will be the awarding of the E. G. Cheyney Memorial Scholarships to three young Foresters who have excelled in the writing and public speaking areas. Your subscription to the Gopher Peavey and Alumni News is doubly appreciated as fifty cents of each alumni subscription goes into the E. G. Cheyney fund.

Your MFAA has a two sided face, one being the social organization and the other being one of lending support to your School of Forestry. The MFAA has been able to lend considerable weight and support in the past to the legislative programs of the school, when help was needed to get the program through. In the next decade this continuing support is going to have to be assured the School when one considers the predicted growth of the University.

The MFAA is your association and your Executive Board is always looking for your ideas and suggestions on how to make the association more serviceable to you. At this time, I wish to give special thanks to Ken Winsness (Secretary-Treasurer) for his continued superb service to your President and to our Executive Board. It has been a pleasure to work with the 1964-1965 Executive Board, and in parting, I am looking forward to the continued success of our MFAA when the new president takes over.

## T. SCHANTZ-HANSEN—'15 RECEIVES OUTSTANDING ACHIEVEMENT AWARD FROM THE UNIVERSITY OF MINNESOTA

T. SCHANTZ-HANSEN '15

Dr. T. Schantz-Hansen—'15, internationally known professor of forestry at the University of Minnesota and now living in retirement at Cloquet, Minnesota, was presented the University of Minnesota's Outstanding Achievement Award at the annual banquet of the College of Agriculture, Forestry, and Home Economics Alumni Association on April 24, 1965.

Schantz-Hansen served in a dual capacity as the director of the University's 3,700-acre Cloquet Forest Research Center, which is part of the School of Forestry, and as director of the Itasca Forestry and Biological Station. At Cloquet he was in charge of a large forestry research program and he also supervised classes of forestry students

from the St. Paul Campus each spring quarter. At Itasca he coordinated the many courses provided for teachers, students, and other groups such as the Boy Scouts, which attend the Itasca Station for a portion of the summer.

He is a native of Cedar Falls, Iowa and he attended Iowa State Teachers College at Cedar Falls. He later attended the University of Minnesota School of Forestry where he received his B.S. degree in 1915.

After graduation he worked for two years as a forestry assistant for the U. S. Forest Service at Priest River, Idaho and Flagstaff, Arizona. In 1917 he received his Master of Forestry and in 1935, he received his Ph.D. at Yale University.

After serving in the U. S. Army in 1918, he joined the University of Minnesota staff as an instructor in forestry at the Cloquet Station. In 1924, he was placed in charge of the Cloquet Research Center which he developed into one of the finest forestry research centers in the world. He became director of the Itasca Forestry and Biological Station in 1940.

His research and publications in the field of silviculture and forest management have given him a world-wide reputation. His fundamental studies on jack pine, an increasingly important species in Minnesota, are regarded as among the best studies of this type in the United States.

His latest research was in cooperation with the Wood Conversion Company of Cloquet, on the marketing of pulpwood on a weight basis. This work has resulted in the purchase of wood on a weight basis by several companies in Minnesota and in other parts of the nation.

Schantz-Hansen has reported his works in more than 100 articles and papers and he has also co-authored the book—"This Is Our Land" with E. G. Cheyney.

Schantz-Hansen's contributions have not been confined to serving only the University. He served for many years as chairman of the Cloquet School Board and was instrumental in establishing the city's fine elementary and secondary school system. He was also chairman of the forestry committee for the Arrowhead Association for many years and served as chairman of the Minnesota Section of the Society of American Foresters. In 1955 he received the Keep Minnesota Green "Senior Conservationist Award" for his outstanding contributions to forestry and other areas of conservation.

Schantz-Hansen has been a member and a leader in several civic and professional groups including Sigma Xi, Alpha Zeta, and Xi Sigma Pi.

## 8th ANNUAL E. G. CHEYNEY MEMORIAL SCHOLARSHIPS AWARDED

The alumni of the School of Forestry can be sure that their contributions to the E. G. Cheyney Memorial Scholarship Fund are much appreciated. The young men that are chosen to be the recipients of these awards are once again outstanding in their ability to communicate in the areas of writing and public speaking.

Steve Thorne, Minneapolis, David Miller, Minneapolis, Minnesota, and Barry Welch, Hopkins, Minnesota were awarded the E. G. Cheyney Memorial Scholarships for 1964-65 at the May 22nd MFAA Banquet.

The selection of winners for the E. G. Cheyney Memorial Scholarships is based on excellence in the field of writing and speaking. As most of our alumni know, Professor "Bill" Cheyney constantly stressed this aspect of a professional forester's training. Qualifying students must be juniors or seniors registered in the School of Forestry curricula. The Rhetoric Department on the St. Paul Campus makes a broad selection of those forestry students who might qualify and from this list, the School of Forestry Scholarship Committee (Robert Thompson, K. E. Winsness and R. M. Brown, chm.) make the final selection of the award winners.

As you know, the price of the Gopher Peavey-Alumni News was raised from \$3.50 to \$4.00 with the additional \$.50 going to the E. G. Cheyney Memorial Scholarship Fund. With approximately 500 sales this year, we will be able to add \$250.00 to the Fund. Once again, our very sincere thanks to all of our alumni for making this scholarship possible.

## ALUMNI ATTEND 1964 FPRS MEETING AT CHICAGO

Dwight Bensend '37  
Roy Carter '35  
Fred Dickinson '38  
Orcutt Frost '23

Fred Wongaard '33

# The Alumni Spotlight

**DENNIS ERICKSON** — '64, son of Mr. and Mrs. Martin Erickson, 330 Georgia Avenue, No., Minneapolis, Minnesota, is one of 10 Peace Corps Volunteers leaving for Pakistan. They will serve as foresters, nurses and secretaries in the western Province of Pakistan.

The group will join nearly 200 other Volunteers already at work throughout both Provinces of Pakistan in the fields of agricultural extension, rural community action, public works, health and secondary education. Like previous groups, these Volunteers were specifically invited by the Government of Pakistan.

The foresters will assist in the Pakistani government's national forestry project — which includes the planting of new forests, watershed control, building roads for timber removal, and the implementation of scientific forestry management methods.

The Volunteers have undergone 11 weeks of very intensive training at Portland State College, Oregon. Major emphasis was placed on learning Urdu, one of the principal languages of Pakistan. They were given additional training in their own skills, according to their individual experience and how these skills will be used in Pakistan. Other courses included a comprehensive study of the history and culture of this country and continent, plus refreshers on U. S. history, government and world affairs.

**JOHN CHILDS**, Asst. Chief, Forest Management and Sales, has completed 35 years of service with the state, and Director Prout presented him with his 35-year pin August 25.

**LEO A. ISAAC** — '20, is Exec. Secretary of Columbia River and Puget Sound at Portland, Oregon. He writes — "Once more I am back in the harness as Exec. Secretary of the Columbia River and Puget Sound Sections of the Society of American Foresters. To improve the image of the Society in the eyes of the public and the forest industry and to facilitate their business activities these two large sections decided to join forces and set up a joint office with a permanent secretary here in Portland, Oregon. This has been done and the address of the new office is: Society of American Foresters, 920 American Bank Bldg., Portland, Oregon. It is a good feeling to get out of retirement and back in circulation."

**YALE WEINSTEIN** — '37 is Forester-Production Mgr. for the Duke City Lumber Co. at Albuquerque, New Mexico. He writes — "(1) Daughter, Jane, is Freshman at University of Wisconsin. We all had pleasant visit with Dr. B. F. Kukachka and Joe Chern, when we drove up to Madison. (2) Wonderful reunion with Minnesota Alumni at the National meeting S.A.F., Denver, Colorado. (3) Had the great pleasure of representing U of M at St. John's College dedication.

**DANIEL M. BENJAMIN** — '39 is Associate Professor for the Dept. of Entomology, University of Wisconsin, at Madison, Wisconsin. He writes — "Presented two reports on research at XIth International Congress of Entomology at London, England in July, 1964. Also was United States delegate to Symposium on internationally dangerous insects and diseases of forest trees at Oxford, England."

**JOHN A. ZIVNUSKA** — '47 is Professor of Forestry at the Univ. of California at Berkeley, California. He writes — "Appointed Dean of School of Forestry, Univ. of California, effective 7/11/65."

---

## REMEMBER TO SUPPORT YOUR SCHOOL OF FORESTRY SCHOLARSHIP FUND

## TALES FROM THE TONGASS TIMBER

As I sit down to write this letter a few days before Christmas here in Petersburg, I see a beautiful Winter Wonderland of snow and ice, with the temperature down around zero. We just returned from a very stormy trip out to a few logging camps; cutting the trip short by a couple days because of treacherous seas. This has been an interesting year with difficulties and problems yet with some rewarding and fruitful experiences. The first three months I had to travel by airplane because of the illness of the Skipper of the Anna Jackman.

Many of you have inquired about the earthquake and its affect on us and our ministry. We were 900 miles from the epicenter of the Quake having a Communion Service in a logging camp at the very time of the Tremor. We did not feel anything nor did we know of the earthquake until the next morning. We were very fortunate in that we had no appreciable damage in Southeast Alaska. Distances are so great in this vast state that it is difficult for people who have never been here to understand the problems of communication and transportation. This creates difficulties in trying to carry out a ministry like ours. We had six very fine Vacation Bible Schools in three salmon canneries, two logging camps and the native village of Klukwan. Along with the Bible Schools we ran a recreation program for the children and young people. The biggest part of our ministry has been visiting in hundreds of homes, to counsel, leave Christian literature and endeavor to point people to an all sufficient Saviour.

We had a four month furlough this year in which we traveled about 18,000 miles to tell supporting churches of our work and to visit many friends and loved ones. We were grateful for the opportunity to see many of you and regret the fact that we didn't have a chance to visit with the rest of you. I had the privilege of speaking some 35 times and showing our slides of beautiful Southeast Alaska.

We are both in good health and looking forward to a little different type of ministry in 1965. This will be a larger or a cooperative type of parish on Prince of Wales Island, the largest island in the Alexander Archipelago. It will center around the Indian communities of Craig and Klawock and the logging camp at Thorne Bay. We have plans drawn for a chapel at Thorne Bay to be built in early Spring. The idea of this type of ministry is to bring a more regular and deeper Spiritual impact on this area. I will be using the boat part of the time to go to other camps and communities on the island. Dr. Walter Saboleff, our Native Evangelist will use the Anna Jackman at other times to visit communities in the northern part of S. E. Alaska. We trust that you will continue to pray for our efforts for Christ in this particular area of His Vineyard.

Jack and Dee Anderson — '47

## A HENRY SCHMITZ SCHOLARSHIP FUND HAS BEEN INITIATED AT THE SCHOOL OF FORESTRY—PLEASE SUPPORT THIS FUND IN ANY WAY YOU CAN!

# ALUMNI NEWS NOTES

## 1903

**MARTIN L. ERICKSON** is retired at San Diego, California. He writes — "I am 84 years of age. Still drive a car, play shuffle-board, bridge, walk 1½ miles per day. Attend dinners when invited, give a few. I like the San Diego climate for all year living. So now take life easy as a retired citizen should." Sounds like a lot of fun, Martin.

## 1906

**SAMUEL B. DETWILER** is retired at Arlington, Virginia. He writes — "I've been blessed with good health. My hobby of collecting autumn leaves and treating them to retain their natural beauty has paid off in healthful walking and live interest." Like we said to Martin Erickson, '03 — Sounds like a lot of fun!

**DILLON P. TIERNEY** reports from Chisago City, Minnesota where he is retired. We missed you at the Fall Banquet ('64) of the MFAA, Dillon.

## 1909

**WALTER M. MOORE** reports from Fairborn, Ohio where he is retired.

## 1910

**ROBERT L. DEERING** sends us word from Sacramento, California where he is retired.

**CHARLES L. LEWIS** is Treasurer and Manager of the Midwest Cranberry Co. at Shell Lake, Wisconsin. He writes — "Still active and healthy and enjoy relationship with Forestry School. Best accomplishment of the year: Finally receiving our reserved seats for U of M football games under cover in South Stands after over 50 years. My wife and I can still make the 54th row altho we do puff and rest a bit enroute. Cheerial!!" We look forward to your visits to Green Hall, Charles.

## 1911

**J. V. HOFMANN** is Manager for the North Carolina Forestry Foundation at Raleigh, North Carolina. He writes — "I have retired from teaching. Spend my time managing 90,000 acres of School forest which I acquired on a self graduating basis while I was head of the school. My wife (Ella 1912) and I go on as usual in our home in Raleigh."

**ARTHUR F. OPPEL** reports from St. Paul, Minnesota where he is retired. We enjoy your visits to Green Hall, Art.

**J. PAUL YOUNG** is retired at Seattle, Washington. He writes — "After an absence of seven years, my wife and I revisited Honolulu and had a wonderful time in that beautiful place. There have been many changes there but the ocean and mountains remain as beautiful as ever."

## 1912

**JOHN A. STEVENSON** is retired at Washington, D.C. He writes — "John A. Stevenson and Katherine T. Stevenson (Katherine Thompson — 1912) celebrated their 50th wedding anniversary Sept. 24, 1964. Three sons, three daughters-in-law and eight grandchildren and Mr. and Mrs. Paul French (Prof. French's parents)." Congratulations!

## 1913

**E. HOWARD HALL** sends us word from Eugene, Oregon where he is retired.

**THOMAS A. GRIFFIN** is retired at Minneapolis, Minnesota. He writes — "Greetings to the old timers. Was sorry none of the 1913 class was at the 50th Anniversary to keep me company. It was a grand occasion. Am still in good tune, also my wife."

## 1915

**HIRAM E. WYMAN** passed away on March 16, 1964. We extend our deepest sympathies.

## 1917

**JOHN D. BURNES** writes to us from Minneapolis, Minnesota where he is retired.

## 1920

**SHIRLEY C. BRAYTON** is retired from the U.S. Forest Service. He writes — "We presume that you have information of the death of Rudolph Grabow For. '20 but in case that you didn't notice the item in the November issue of the U. of M. Alumni News I am enclosing a clipping from the North Central Region's Contact. I am also enclosing a clipping from the Des Moines, Iowa, Register telling of the naming of Cedar Falls, Ia. high school football field after George Hauser who went to high school and played football at Cedar Falls. It

was sent to me by C. M. Fruden For. '20 now living at Greene, Iowa." Thanks!

**CLYDE M. FRUDDEN** reports from Greene, Iowa where he is Owner of the Frudden Lbr. Co.

**R. H. GRABOW** passed away July 29, 1964 of a heart attack. He was vacationing in California at the home of his daughter, Mrs. R. L. Swan, in Melborne, Calif. We extend our deepest sympathies.

**LEO A. ISAAC** is Exec. Secretary — Columbia River & Puget Sound Section (SAF), at Portland, Oregon. He writes — "Once more I am back in the harness as Exec. Secretary of the Columbia River and Puget Sound Sections of the Society of American Foresters. To improve the image of the Society in the eyes of the public and the forest industry and to facilitate their business activities, these two large sections decided to join forces and set up a joint office with a permanent secretary here in Portland, Oregon. This has been done and the address of the new office is Society of American Foresters, 920 American Bank Bldg., Portland, Oregon. It is a good feeling to get out of retirement and back in circulation."

**PAUL R. PALMER** sends us word from Duncan, Oklahoma. He writes — "Old Palmer retired February 1. He and his wife set out (on February 2) for a freighter trip around the world, to be gone about a year." Sounds great, Paul — enjoy yourselves!

## 1921

**FRANCIS V. OSTROWSKI** writes to us from St. Paul, Minnesota where he is retired.

**ALBERT E. WACKERMAN** reports from Durham, North Carolina where he is Professor of Forest Utilization at the School of Forestry, Duke University.

## 1922

**OTIS C. MCCREERY** is Executive Director of the Alcoa Foundation at Pittsburgh, Pennsylvania. He writes — "I have retired from Alcoa but I am staying on as Executive Director of Alcoa Foundation until June 1965. I was appointed last year as Chairman of the Pennsylvania State Board of Education. This is keeping me very busy. We have a big, difficult, interesting program. My very best to the Forestry faculty and all the alumni." Thanks very much and the same to you, Otis.

**RALPH M. NELSON** reports from Asheville, North Carolina, where he is Research Forester for the Southeastern Forest Experiment Station.

## 1923

**ORCUTT W. FROST** is Director of Research & Development and a member of the Board of Directors at Chicaga, Ill. He writes — "Research and development activity with Masmite Las Proveu is an exciting and rewarding experience."

**CLARENCE W. SUNDAY** is Proprietor of the Marshall Lumber Company at Marshalltown, Iowa.

## 1924

**HAROLD OSTEGAARD** reports from St. Paul, Minnesota where he is living in retirement.

**MAXON Y. PILLOW** is in charge of Wood Structure-Wood Property Research for the Forest Products Laboratory (USFS) at Madison, Wisconsin. He writes — "Not outstanding but news items as follows: Family has reached stage to be enjoyed, continue to assist H. L. Mitchell with crises as they develop — primary interests include extension of concept of Wood Quality as a professional function — have enjoyed our annual visits with Ralph M. Nelson and family at Asheville about once a year."

**NELSON W. UPTON** reports from Park Falls, Wisconsin where he is Forester for the Wisconsin Realty Co.

## 1925

**CLEMENT M. FLANAGAN** reports from Tupelo, Mississippi where he is retired (disability).

**VICTOR JENSEN** sends us word from Laconia, New Hampshire where he is with the USFS. He writes — "Enjoyed seeing a lot of Minnesotans at the SAF meeting, Denver, and later at Green Hall. Pop Allison looks younger every time I see him. Paid my first visit to the U of M, Duluth, where my son, Sigurd, teaches in the Speech Department."

## 1926

**EUGENE T. ERICKSON** reports from Spring Valley, Calif. where he is in the Plant Engineering Department for I.B.M.

**RALPH M. LINDGREN** sends us word from St. Paul, Minnesota. He writes — "Had a fine salmon fishing excursion this summer on Vancouver Island with Dale Chapman, '29, his two boys and Lyle Salquists' son. No records were set but it certainly was fun and brought

back old camping-out days. Have just returned from about a 3 months jaunt in the South Pacific Polynesian and Melanesian Islands, which explains my late reply."

**RONALD M. MANUEL** reports from Sao Paulo, Brazil. He writes — "Not space enough to give full account of my unusual family."

## 1927

**GERALD S. HORTON** is retired at Wellton, Arizona. He writes — "Still located in Wellton, Arizona — a stone's throw from U.S. 80 — easy for the travelers to find. Hope someone stops to see me. The Gopher Peavey is very stimulating and of great help in keeping track of other classmates." Thank you for those kind words, Gerald.

**ERNEST L. KOLBE** reports from Portland, Oregon where he is Director of Forestry Services for the Western Wood Products Association, Portland, Oregon.

**CARL G. KRUEGER** is Forest Supervisor for the Coeur d'Alene National Forest (USFS) at Coeur d'Alene, Idaho. He writes — "Na change. Still in Coeur d'Alene and like it."

**THOMAS LOTTI** reports from Washington, D.C. where he is Ass't. to the Deputy Chief, Research for the U.S. Forest Service.

**HARRY E. PATTERSON** is Safety Coordinator for the Wood Conversion Company at Cloquet, Minnesota. He writes — "Am still trying to uphold the traditions of the '20's. Extracurricular activities are — District Governor of the National Exchange Club, Boy Scouts, bowling and hunting. Here's to another fine Gopher Peavey! Best regards!" Thanks for those kind words, Harry.

## 1928

**MERRILL E. DETERS** is Professor of Forestry for U. of Idaho, College of Forestry at Moscow, Idaho. He writes — "Ralph and Betty Lorenz spent a couple of days with us this summer at Lake Coeur d'Alene and Paul Blotter dropped by for a brief visit. Had the pleasure of seeing Frank Kaufert, Paul Rudolph and Gus Limstrom at the S.A.F. meet in Denver."

**WILLIAM H. FISCHER** is retired at Atlanta, Georgia. He writes — "Retired May 1, 1964 from position of Assistant Regional Forester, Timber Management, R-8 of U.S. Forest Service. Offer total of 36 years service." Good luck to you in your retirement.

**ERNEST J. GEORGE** reports from Mandan, North Dakota where he is Research Forester for the Northern Great Plains Research Center. Thanks for your help on the UMW Forester, Ernie.

**GEORGE M. HALVORSON** reports from Chicago, Ill. where he is Supervisor for Western Electric Co., Inc.

**FRANK H. KAUFERT** reports from St. Paul, Minnesota where he is Director of the School of Forestry.

**D. P. KIRKHAM** reports from New York, New York where he is Forestry Extension Advisor, AID, c/o American Consulate General.

**RAY W. KNUDSON** is District Forest Ranger (USFS), Athens, Ohio. He writes — "In the spring of 1964 we made a 7200 mile auto trip to California, Oregon, Washington, Montana, Minnesota, and Michigan. We have 3 granddaughters living in California and a grandson here in Athens. Plan to retire here in Athens in a couple of years. So I hope some Minnesota foresters will stop in to see us. Van Alstine, also 1928 graduate, stopped this past summer."

**GUSTAF A. LIMSTROM** reports from Columbus, Ohio where he is Research Forester for the Central States Forest Experiment Station (USFS).

**J. NEIL VAN ALSTINE** is retired at Center Conway, New Hampshire. He writes — "I am enjoying retirement. There still isn't time to do all the things I hope to do."

**BENJAMIN M. WHITEHILL** reports in to us from Knox, Pennsylvania.

## 1929

**WALDEMAR R. ANDERSON** reports to us from St. Paul, Minnesota that he is now retired.

**A. DALE CHAPMAN** reports from Palo Alto, California where he is Chairman of the Board for the Chapman Chemical Company. Thanks for your continued support of the Chapman Freshman and Sophomore Scholarships at the School, Dale — they are very much appreciated!

**CLYDE M. CHRISTENSEN** reports from St. Paul, Minnesota where he is Professor in the Dept. of Plant Pathology.

**WILLIAM E. HALLIN** reports from Roseburg, Oregon where he is Project Leader for the U. S. Forest Service.

**JOHN R. NEETZEL** reports from St. Paul, Minnesota where he is Research Associate for the School of Forestry, University of Minnesota.

**LAWRENCE B. RITTER** is Consulting Forester at St. Paul, Minnesota. He writes — "As a consulting forester, my principal client is the Dept. of Administration, State of Minnesota — Appraising and buying land for the Minnesota Memorial Hardwood State Forest and for State Parks within the area. Ray Matson '35, Right-O-Way Agent, State Highway Dept. has been loaned to the Administration Dept. to head up the Section, whose work includes acquisition for the Forest and essentially all the State Parks in the State. Working with me in the S.E. corner of Minnesota are Ed Iverson '33 and Maynard Under

Bokke, Iowa State. I also continue to be a Registered Representative of Robert L. Smith Co., Securities Dealer."

**DANFORD THOMAS** is in General Insurance at Minneapolis, Minnesota. He writes — "Still selling the best insurance coverages available. Still very much interested in all things pertaining to forestry."

**DAVID M. WILLIAMS** reports from Redding, California where he is Logging Supervisor for the United States Plywood Corp.

## 1930

**CARL E. BENSON** is Lands Assistant (USFS) at Russellville, Ark. He writes — "Still have wife, Marian — Minnesota (1930) Music. Son Charles — Electrical Engineer — Canoga Park, California. Son Harvey — Forester — Eustis, Florida. Daughter Marian — business major — husband, (PhD), business school — U of Arizona, Tucson. Daughter Evelyn — Home Ec — husband, Electrical Engineer, Wright-Patterson, Dayton, Ohio, 1 girl. Son Charles — 3 boys and son Harvey — 1 girl."

**WILLIAM H. BRENER** reports from Wisconsin Rapids, Wisconsin where he is Supervisor of Nurseries for the Wisconsin Conservation Department.

**RALPH W. LORENZ** is Professor of Forestry at the University of Illinois at Urbana, Illinois. He writes — "This is my 27th year in the Dept. of Forestry at the University of Illinois. I had the good fortune of attending the Minnesota luncheon at the SAF meetings in Denver last fall and enjoyed visiting with Dr. and Mrs. Henry Schmitz again. Minnesota Foresters were real proud of Henry winning the Sir William Schlich medal."

**ROLAND C. LORENZ** is Agriculture Advisor at Urbana, Ill. He writes — "I plan to leave Addis Ababa about April 1st and proceed to Washington, D.C. where I shall retire from Government Service. I'll complete 31½ years with Uncle Sam and have spent 25 years outside of the States in the field of foreign agriculture." Congratulations on a remarkable record, Rolland.

**EWALD T. MAKI** is Schenck Professor and Head, Department of Forest Management for the School of Forestry at Raleigh, North Carolina. He writes — "I received my '64 Peavey in late summer but it was certainly worth waiting for. Best wishes for continued success." Thanks for those very kind words, T. Ewald.

**HAROLD L. MITCHELL** reports from Madison, Wisconsin where he is Chief, Division of Wood Quality Research, Forest Products Laboratory (USFS).

**HUGO J. PAWEK** reports to us from Eutawville, South Carolina.

**ARVID TESAKER** reports from Beulah, Michigan where he is Soil Conservationist for the U. S. Department of Agriculture.

## 1931

**JOHN K. CHILDS** reports from St. Paul, Minnesota where he is Ass't Chief, Forest Management and Sales, Minnesota Forest Service. Thanks for all of your cooperation and help on the MFAA, John — and on that Kabetogama Peninsula trip also.

**MAURICE W. DAY** is with the Dunbar Forest Experiment Station at Sault Ste. Marie, Michigan. He writes — "I enjoyed returning to Green Hall in Sept. to attend dedication of new headquarters for the Lake States F.E.S. and to see the many changes that have taken place in the St. Paul Campus." We enjoyed your visit, Maurice.

**SAMUEL A. FRISBY** is Area Forest Supt. for the International Paper Co. at Pineville, Louisiana. He writes — "Minnesota graduates are scarce in this area. During the past year I have talked with: Bab Clark — Fordyce, Ark., Georgia Pacific, Red Oliver — Carthage, Texas, I.P. Co. Also met Otis Hall at a computer training session at Louisiana Tech in November."

**BERNARD J. HUCKENPAHLER** is Forester for the U. S. Dept. of Agriculture at Washington, D.C. He writes — "Had a very enjoyable visit with Dr. Kaufert, Professor Brown, and others in Oct. 1964. Green Hall is sumptuous compared to the old Horticulture Bldg. Son, Jim, finished Georgetown University in June; started working for National Science Foundation same month; married in Sept. Time flies. We like living in Washington, D.C. and I enjoy my work with foreign visitors in the Foreign Forestry Service's Unit, Branch of Foreign Training."

**HENRY F. KEEHN** sends us word from Lewisville, Minnesota where he is living in retirement.

**LYALL E. PETERSON** is Rural Development Officer for an Agency for International Development at Washington, D.C. He writes — "Seems to me that former Peavey editors (I was it in '31) should get free copies but since Cheyney was a favorite professor, I pay gladly. This assignment is lovely; progressive Mexico marks over 20 years working in Latin American affairs, mainly in agriculture and rural developments — including Forestry. I have run into many foresters in LA, doing many different things and as a professional group they show up very well. Best Wishes." And the same to you, Lyall.

**ARTHUR E. SCHNEIDER** reports from Litchfield Park, Arizona where he is Vice President and General Manager of Cordón Ranches, Inc. It sure would be nice to sit down and chat with you for a while, Art.

**PAUL J. ST. AMANT** is Ass't Regional Forester for the U. S. Forest Service at Milwaukee, Wisconsin. He writes — "Changed duties since last year, moving from State and Private Cooperative Forestry Division

to Div. Chief in Charge of Timber Management Programs for Region Nine. Also moved and changed address in Milwaukee, otherwise the same."

## 1932

**ROAN C. ANDERSON** reports from Colorado Springs, Colo. where he is District Ranger for the Pike National Forest of the U. S. Forest Service.

**HAROLD E. ENGSTROM** reports from Placerville, California where he is on the Eldorado N. F. (USFS).

**DONALD H. FERGUSON** reports from Duluth, Minnesota where he is Staff Officer for Fire Control, Superior National Forest, USFS. I sure do enjoy those talks when I am up at Cloquet, Don.

**ALEXANDER B. KARKULA** reports from St. Louis Park, Minnesota where he is Lumber Yard Superintendent.

**LAURITS W. KREFTING** is Wildlife Research Biologist for the U. S. Bureau of Sports, Fisheries & Wildlife, St. Paul, Minnesota. He writes — "I am located in Room 201 Green Hall since Room 204 was made into a classroom. This was a small classroom and is now subdivided into two offices. I am enjoying the best office facilities I ever had. My family is much the same but older. Sandra is a Cadette Scout. Wayne received the Eagle Scout Award and the religious award, "Pro Deo Et Patria." Attended the Northeast Fish and Wildlife Conference at Harrisburg, Penn. in January and gave a paper on "The Great Lakes Deer Group." A similar group will be established in the northeast. At the Denver SAF Meeting in Sept. I was elected Secretary, Division of Forest Wildlife. Have been busy helping the chairman line up the speakers for the Detroit Meeting next September."

**ALAN F. LAIDLAW** is Asst State Conservationist for the Soil Conservation Service at St. Paul, Minnesota. He writes — "Had a fine trip (6500 miles) to the West Coast this past summer and ran into Don Williams (ex-Minn. forester and now with USFS at Missoula, Mont.) up along the Clearwater River in Idaho." Thanks for your fine cooperation on the MFAA, Alan.

**NEIL J. McKENNA** is Regional Forester for the Kimberly-Clark of Minnesota, Inc. at Two Harbors, Minnesota. He writes — "Nothing new — just a year older!"

**LEONARD H. MOORE** sends us word from Milwaukee, Wisconsin where he is with the U. S. Forest Service.

**STANLEY B. OLSON** reports from Seattle, Washington where he is on Reservation and Land Uses Staff for the U. S. Forest Service.

**ARTHUR L. ROE** reports from Missoula, Montana where he is Research Project Leader for the U. S. Forest Service.

**WALTER M. ZILLGITT** is Director, Southern Forest Exp. Sta. (USFS) at New Orleans, La. He writes — "Greetings — from the other end of the River."

## 1933

**WILLIAM E. ACKERKNECHT** reports from Washington, D.C. where he is Assistant Chief for the Div. of Wildlife Refuges, Bureau of Sport Fisheries and Wildlife.

**STANLEY J. BUCKMAN** reports from Memphis, Tennessee where he is President of the Buckman Laboratories, Inc. Thank you for supporting the School on its Henry Schmitz Student Leadership Program, Stanley.

**HARRY T. CALLINAN** reports from Minneapolis, Minnesota. He writes — "Leaving for Buea, West Cameroon, West Africa on December 26th to visit 2 sons who are located there. One is teaching in a native College, the other is a missionary priest about 250 miles from the college or Buea. Will spend several weeks sightseeing in Europe on return."

**RALPH H. CHRISTOPHERSON** reports from Milwaukee, Wisconsin where he is with the U.S.F.S. — Division of Lands.

**DAVID R. GIBNEY** reports from Eugene, Oregon where he is Forest Supervisor for the Willamette National Forest, USFS.

**ARTHUR G. HORN** reports from Minneapolis, Minnesota where he is Market Analyst for the Lake States Forest Experiment Station, USFS.

**EDWARD S. IVERSEN** reports from Waseca, Minnesota where he is a Consulting Forester.

**JOHN M. McMILLEN** is Project Leader for the U.S. Forest Products Laboratory (USFS) at Madison, Wisconsin. He writes — "I have been in charge of drying research at FPL the past 3 years. The major accomplishment has been a reorientation of the FPL program in this field, placing considerably more emphasis on fundamentals while developing new aspects on equipment and processes and maintaining liaison with industry. A principal new area of basic research is permeability of green wood to water. Technology in this area has benefited greatly from the work of Kelso, Gertjeansen, and Hossfeld in the Minn. laboratories. Other areas of basic research will include sorption, shrinkage and swelling, drying stresses and stains, moisture indicating properties, submicroscopic anatomy, heat and energy transfer, and chemical and biological factors."

**GEORGE W. PLANT** reports from Minneapolis, Minnesota where he is Industrial Engineer for Honeywell, Inc.

**DONALD E. PRICE** reports from Eagle, Colorado where he is District Ranger for the White River National Forest, USFS.

**JOHN A. RUNDGREN** reports from Custer, South Dakota where he is Deputy Supervisor of the Black Hills National Forest, USFS.

**VICTOR O. SANDBERG** is with the U. S. Forest Service at Missoula, Montana. He writes — "No change in address or status except that for some reason or another the past year zipped by and I'm not sure which way she went! Maybe it's because it was the thirty second (impart) since graduation! 1964 will be remembered in the Sandberg tribe for TRAVEL. My daughter Norma is aboard the Floating University of the Seven Seas and is at the writing of this note on board a camel viewing the Pyramids in Egypt. When she docks in February\* she will have circled the globe. Last Feb. Audrey and I joined the tourists in old Mexico and returned much wiser, lighter in pesos and confirmed travelers. Am pleased to know of your plans to increase the E.G. Cheyney Memorial Scholarship Fund. This way it pinches nobody and it could not be for a worthier cause. Prof. Cheyney was a favorite of mine. Good luck to all of the Peavey Staff." Thanks, and the same to you, Vic.

**HOWARD B. SMITH** sends us word from Washington, D.C. where he is with the U.S. Forest Service.

## 1934

**FLOYD COLBURN** is Extension Forester for Itasca County at Grand Rapids, Minnesota. He writes — "Not much news to report since the last time. Still 'beating the bush' up here in Northern Minnesota. Manage to get in some of the hunting and fishing that they mentioned when they trapped me in forestry school back in '01 (almost). Have been lending an interested ear to the fellows like Parker Anderson who retell the virtues of the 'green pastures of retirement.' Best regards to all of my old classmates who I hear of only through the Gopher Peavey. Foresters never were much at writing." Congratulations on receiving the Achievement Award from the Forestry Club, Floyd — it was well deserved.

**GEORGE A. HERION** reports from Klickitat, Washington, where he is Forest Manager of the St. Regis Paper Company.

**TED M. HOLT** reports from Sacramento, California where he is Area Forester for the Bureau of Indian Affairs, USDA.

## 1935

**THOR K. BERGH** reports from St. Paul, Minnesota where he is Forester for the Soil Conservation Service.

**ROY M. CARTER** is Professor of Wood Science & Technology for the School of Forestry at Raleigh, North Carolina. He writes — "I visited Lake-of-the-Woods and the most northern point in the United States during last summer."

**ROBERT H. CLARK** is Forest Manager for the Georgia Pacific Corp., at Fordyce, Arkansas. He writes — "The world's first southern pine plywood plant has been in operation for nearly one full year. We are pleased to state that expansion of the original plant is already underway."

**ROBERT A. DELLBERG** is Woodland Specialist for the Soil Conservation Service at Ukiah, California. He writes — "Same job as last year — same place. My 3-year-old grandson takes most of my spare time. Best wishes for another successful Peavey." Thanks for those kind words, Bob.

**BIRGER W. ELLERTSEN** reports from Norris, Tennessee where he is Supervisor for the Forest Influences Section, TVA.

**ROY J. ERSERON** is Cartographer for ACIC at St. Louis, Mo. He writes — "Moved from Eveleth, Minnesota to St. Louis in 1963 having accepted positions as cartographer at the U.S. Air Force Chart and Information Center. Have two sons in College, one son in high school and daughter in junior high school. We enjoy being away from the cold winter and snow but miss the lakes."

**ARTHUR E. FERBER** is Regional Forester, U.S. Soil Conservation Service at Denver, Colorado. He writes — "Am working on the 30th year with the SCS. My work territory has been realized to include the Lake States and will soon be headquartered at the Regional Technical Service Center, Lincoln, Nebraska."

**HENRY L. HANSEN** reports from St. Paul, Minnesota where he is Professor at the University of Minnesota, School of Forestry.

**ARTHUR L. HAWKINSON** reports from Minneapolis, Minnesota where he is in the home building business.

**RUSSEL W. JOHNSON** is Assoc. Prof. of Biology at Bethel College, St. Paul, Minnesota. He writes — "Stephen, oldest son, is freshman in Bethel College. Daniel, next son, will be in Bethel College next year. With sons in college, I am advancing in age. Besides teaching Biology and Botany in Bethel College, I also have a class in Microbiology with student nurses from Mounds — Midway School of Nursing (Spring Quarter). What a change — from once teaching student foresters at Michigan Tech in 1949-1951 to student nurses in microbiology."

**OSWALD K. KROGFOSS** reports from Fort Madison, Iowa where he is Sales Manager for Crandan Mill Division, Consolidated Packaging Corp.

**WILFRED H. LAUER** reports from Winona, Minnesota where he is Owner of the W. H. Lauer Co., Forest Products Brokerage.

**ROBERT W. MERZ** reports from Carbondale, Illinois where he is Project Leader for the U.S. Forest Service.

**FRANCIS I. MOORE** is Vice President of the M. J. Salisbury Company at Grand Rapids, Minnesota. He writes — "Richard, my son, now 3rd year in Engineering at U. of M. Two married daughters — one in Minneapolis, both she and husband welfare agents — one teaching 3rd grade at Grand Rapids. Her husband is an Engineer at Blandin Paper Company. One girl 8th grader still livens up the house. Busy hunting, fishing, skiing, square dancing."

**MARIUS A. MORSE** is on the St. Mary's College Staff (part-time) and also a Commercial Fruit Grower at Dakota, Minn. He writes — "Oldest boy, Joseph, worked on Miss. Summer Project — Civil Rights, and obtained leave of absence from college to continue work there for a whole year. Have recently expanded our apple orchard operation but still manage as a family project."

**LINCOLN A. MUELLER** is Chief, Div. of Forest Products Utilization Res. for the Rocky Mt. Forest & Range Exp. Station, USFS at Fort Collins, Colorado. He writes — "Your action on the Cheyney Memorial Scholarship was good news. No changes in the Mueller household — job, family or otherwise. I guess that I reported that my wife, Dorothy, had returned to her old profession of Journalism — Minn. '32 and Editor for the Colorado State University Research Foundation. We joined the Denver Alumni group last year and saw the Minn.-Neb. game on our first meeting. Planning a group meeting for the Minn.-Colo. College hockey game in Colo. Springs in Feb. Best regards!" Thanks, and the same to you, Lincoln.

**NORMAN O. NELSON** reports from Milwaukee, Wisconsin where he is Branch Chief for Timber Sales & Appraisals, U.S. Forest Service (Region Nine).

**LANSING A. PARKER** sends us word from Washington, D.C. where he is Associate Director for the Bureau of Sport, Fisheries and Wildlife.

**SULO V. SIHUONEN** reports from Crossett, Arkansas where he is Forest Mgr. of the Crossett Div., Georgia-Pacific Corp. He states — "No change from last year."

## 1936

**DONALD R. AMBROSEN** reports from Virginia Beach, Virginia where he is Wildlife Refuge Manager for the U.S. Sport, Fisheries & Wildlife Service.

**EARL J. ADAMS** reports from St. Paul, Minnesota where he is Deputy Director, Division of Forestry for the Minn. Conservation Department. Thanks for all of your assistance in the summer and permanent employment area, Earl.

**GEORGE B. AMIDON** is Vice President for M. O. Paper Company at International Falls, Minnesota. He writes — "I now have six grandchildren and am beginning to feel my age. Best wishes to all my old friends." And the same to you, George.

**EDWIN J. BENDER** reports from Waconia, Minnesota where he is Conservation Aid, Soil Conservation Service, USDA.

**SIGURD J. DOLGAARD** is with the U.S. Forest Service at Springfield, Penn. He writes — "Nothing new — same job — same place — same family."

**THOMAS R. EVANS** reports from Springfield, Illinois where he is Game Management Supvr. for the Dept. of Conservation.

**KARL G. KOBES** reports from Albuquerque, New Mexico where he is Fish & Wildlife Biologist for the Bureau of Sport, Fisheries & Wildlife, USDI.

**RAYMOND NERMOR** reports from Wahpeton, North Dakota where he is Soil Conservationist for the Soil Conservation Service.

**MYRON D. OSTRANDER** is Wood Technologist for the N.E. Forest Experiment Station, USFS, at Upper Darby, Penn. He writes — "Still plugging along here at the Northeastern Station. Spent considerable time during the past two years on the Chippewa National Forest and Red Lake Indian Reservation conducting a series of red, jack and white pine log grade studies. Family pretty well grown up now with a married daughter (and grandson). Oldest boy graduating from Penn State this June and another one in the Navy. Two left at home yet, but not for many more years. Keep up the good work." Thanks, Myron.

**L. J. PULKRABEK** reports from Grand Rapids, Minnesota where he is Forester for Maurice J. Salisbury Co., Inc. We'll be looking forward to having your son at the School of Forestry, Leonard.

**KERMIT SJOQUIST** reports from South Bend, Indiana where he is with the U.S. Rubber Co.

**DEL W. THORSEN** reports from Jackson, Mississippi where he is Deputy Forest Supervisor for the National Forests in Mississippi.

## 1937

**AXEL L. ANDERSEN** is on the Research Program Development and Evaluation Staff, United States Dept. of Agriculture at Washington, D.C. He writes — "Moving to Silver Spring, Maryland on April 1, 1965 to assume new duties with the USDA in Washington, D.C. Leaving our oldest girl, Nancy, at M.S.U. where she is a freshman. Has been an eventful year. First a full professor at M.S.U. in June, then a promotion

to Colonel in U.S.A.R. in Sept. and now a move to Washington, D.C."

**DWIGHT W. BENSEND** is Professor for the Dept. of Forestry at Iowa State University, Ames, Iowa. He writes — "When my oldest daughter, Winifred, got married last August, it reminded me that a good many years have gone by since I left Minnesota. I enjoyed taking my turn at Iowa State Forestry Camp near Franklin, North Carolina last summer."

**VINCENT W. BOUSQUET** reports from Springfield, Oregon where he is Production Manager for the Weyerhaeuser Company.

**ROY W. EGGEN** reports from Norway, Michigan where he is with the Kimberly Clark Corporation.

**C. F. GRAFTON** is General Sales Manager for the Wood Treating Chemicals Co. at St. Louis, Missouri. He writes — "As a subsidiary to Monsanto Company, we are getting a 'new look' that will in the years ahead, make Wood Forestry Chemicals Company an aggressive competitor and a more important part of the wood preserving industry. Wife, Irene, and children all fine. They are delighted with St. Louis and are pleased that I still have an opportunity to visit the St. Paul campus at fairly frequent intervals."

**E. ARNOLD HANSON** is Asst. Chief, Div. of I & E at Missoula, Montana. He writes — "Hope to stop briefly at Campus next spring on way to daughter's graduation from U of Penn. Son, Greg, accepted scholarship at Montana State University here in Missoula. Had many offers of both athletic and academic scholarships. Son, Keith, started high school this fall. Time keeps slipping away. Have fully recovered from heart attack of 7/4/62 and feeling fine."

**GUY W. HAWKINS** is District Agent — Northwestern Mutual Life at Walla Walla, Washington. He writes — "Two grown sons selling real estate in Seattle. One son a sophomore in college in California. Youngest son graduates from H. S. this spring. Live on 21 acre farm outside of Walla Walla and raise 14 acres of asparagus as a hobby. Made the Million-Dollar Round Table in '62 and '63." Congratulations, Guy!

**RAYMOND A. JENSEN** reports from Cloquet, Minnesota where he is Assistant Scientist for the Cloquet Forest Research Center.

**CHARLES H. KIRK** is a Forester at Salem, Mo. He writes — "Forester (Management) 135,000 acre pioneer forest privately owned by Lee A. Drey of St. Louis, Mo. Largest privately owned forest holding in Missouri. Two daughters, one grandson, and two saddle horses. Best regards." Thanks, and the same to you, Charles.

**HARRY S. MOSEBROOK** reports from New York, New York where he is Manager-Public Affairs for the Weyerhaeuser Company.

**THEODORE O. MYREN** is Work Unit Conservationist for the St. Croix County Soil and Water Conservation District at Baldwin, Wisconsin. He writes — "Sorry to have missed the Alumni dinners this year. Have had conflicts for the last two. No special news — same job — same place. Presume son, Donald, will write from Madison regarding his graduate work in Pathology there and the Masters degree he received in North Carolina State last spring (1964)."

**BERNIE D. PETERSON** is with the Soil Conservation Service, USDA at Ellsworth, Wisconsin. He writes — "Will round out 30 years of service in USDA in Spring of '65 (Yep, it's possible. Started work in '35, skipped school in '36 and took leave of absence to finish in winter of '37.) Have been in this location for 25 years."

**SAM S. POIRIER** is with the U. S. Forest Service, Rogue River Nat'l Forest at Medford, Oregon. He writes — "Have been in Medford seven years (Mar. 1965) continuing as 'Area Engineer.' Headed up planning and survey work for a Job Corps 100 man camp, with another possible in 1965. Son, Bob, in Air Force and daughter, Sandra, in high school."

**JOHN S. RISS** is Staff Specialist, Program Appraisals at Nyattsville, Maryland. He writes — "We trailed a Nimrod Camper 4300 miles this past summer. Up through New York to Niagara Falls, across Canada to Kenora, to Itasca Park, Cass Lake, Ely, Silver Bay, Minneapolis, and home. LaVerne and Susan are real good campers — besides they are better fishermen, than I. We camped at Itasca 4 days, rained three. It is still a good crappie lake after 32 years. LaVerne caught a crappie 15" — 2 lbs. — didn't know a contest was on until I had cleaned it. Susan had good luck — 2 sunfish, 1 lb. each. Sorry I missed the Forestry Session. Nothing but biologists when we were there. The place ain't the same either, but guess the change is for the better. We enjoyed our trip even though it rained 12 out of 20 days."

**FRANK C. SHEARER** is Owner and Manager of Mauk Oregon Lumber Co. at Eugene, Oregon. He writes — "We enjoyed current Peavey as usual and look forward to the new one. Our four young people are at an age when there is always something new — our oldest daughter, Lynne, is now living with her husband in Sydney N. S. W. Gordon is on the faculty at the University of Sydney and Lynne is teaching in the public schools. Kay is a junior at Oregon State U. Dick is a freshman at University of Oregon and playing Freshman basketball. Bob is a senior at South high school. Helen and I are in fine fettle, had the Ralph Lorenz family from Urbana here this summer. Also friends from Australia sa had a good time showing off the 'Evergreen Northwest.' We were delighted to see our old chief, Henry Schmitz, honored with the Schlick Memorial Medal for distinguished service

to our profession—a nicer thing couldn't have happened to a nicer guy. Our best to all." And the same to you, C. Frank.

**RICHARD C. SMITH** reports from Columbia, Missouri where he is Professor of Forestry at the School of Forestry, University of Missouri.

**F. MacRAE THOMSON** is General Manager for the Peninsula Plywood Corp. at Port Angeles, Washington. He writes—"I was promoted to General Manager of our company in March 1964 after being Timber Manager for several years. Very interesting work although plywood is in an extremely competitive position at present. We specialize in exterior house siding made of cedar—slip in a commercial here. Visited with Sam Poirier of our class in Medford this summer. My children see Minnesota every other summer, and they think there is nothing that can match the lakes."

**YALE WEINSTEIN** is Forester-Production Manager for the Duke City Lumber Co. at Albuquerque, New Mexico. He writes—" (1) Daughter, Jane, is Freshman at University of Wisconsin. We all had pleasant visit with Dr. B. F. Kukachka and Joe Chern, when we drove up to Madison. (2) Wonderful reunion with Minnesota Alumni at the National meeting S.A.F., Denver, Colorado. (3) Had the great pleasure of representing U. of M. at St. John's College dedication. Best of Luck, Regards to all." And the same to you, Yale.

## 1938

**JAMES A. BUSSEY** is Soil Conservationist for the Soil Conservation Service at Ashland, Wisconsin. He writes—"Our oldest daughter Susan graduated from the University of Wisconsin last June with a major in music. She is now married and living in Chicago. She and her husband, James Kowolsky, are doing substitute teaching in the Chicago schools, and are studying more music."

**CALVIN L. DELAITRE** is Owner of the DeLaitre Dixon Company, Minneapolis, Minnesota. He writes—"Still in Fuel Oil Business—in Minneapolis. Two daughters and son-in-law, attending U. of M."

**FRED E. DICKINSON** is Director of the University of California Forest Products Laboratory at Richmond, California. He writes—"I always enjoy receiving the Peavey. Past Peavey's staffs are to be congratulated for maintaining the continued high quality. I'm sure we'll see the same quality in 1964-65." Thanks for those very kind words, Fred—we will try to live up to them.

**WILLIAM J. EMERSON** is Chief, Branch of Fire Control (USFS), at Milwaukee, Wisconsin. He writes—"I guess we've hit the plateau and a lovely plateau it is—when you see that big family get small rapidly—then just as rapidly you see it get big again as you join the grandfather club. That's me!" I repeat—we sure do enjoy having your son, Tom, at the School of Forestry.

**JOSEPH P. FALBO** reports from Hibbing, Minnesota where he is Forester I for the Iron Range Resources and Rehabilitation Commission.

**JOSEPH O. GJERTSON** is District Ranger for the U. S. Forest Service at Ellensburg, Washington. He writes—"Bob Schramek, Resource Assist., Dick Haney, Timber Assist. Both are U. of Minn. graduates on the Ellensburg District."

**PHILIP C. HAMM** is Scientist for the Monsanto Chemical Co. at St. Louis, Missouri. He writes—"Two children 21-17. Work in Ag. Chemicals Pesticide Area."

**ROBERT HILLER** reports from Chicago, Ill. where he is District Manager for the American Cyanamid Plastics and Resins.

**DAVID B. KING** is Director of the Lake States Forest Experiment Station (USFS), on the St. Paul Campus, U. of M. at St. Paul, Minnesota. He writes—"I am very pleased to return to the Campus and the North Country after 25 years absence. Will welcome seeing old classmates and friends on my new assignment with the Lake States Forest Experiment Station." We are very happy to have you here as part of the Forestry Center on the St. Paul Campus, Dave.

**ALVIN E. NELSON** reports from Madison, Wisconsin where he is Assistant Supt. of the State Parks and Recreation Department, Wisconsin Conservation Department.

**RAYMOND J. WOOD** reports from Cloquet, Minnesota where he is Corporate Chief Forester for the Diamond National Corp.

**ROBERT A. ZABEL** is Associate Dean—Biological Sciences and Undergraduate Instruction at Syracuse University, Syracuse, New York. He writes—"We are enjoying new responsibilities in the Colleges Biological Sciences division very much. Considerable time is being spent in final places and equipment for a new Biological Science building and in developing a curriculum for forest biologists."

## 1939

**DANIEL M. BENJAMIN** is Associate Professor for the Dept. of Entomology, University of Wisconsin, at Madison, Wisconsin. He writes—"Presented two reports on research at XIIth International Congress of Entomology at London, England in July 1964. Also was United States delegate to Symposium on internationally dangerous insects and diseases of forest trees at Oxford, England."

**GEORGE H. BOYESEN** is District Ranger for the Ochoco National Forest (USFS) at Prineville, Oregon. He writes—"No change since last year. Enjoyed seeing some of the old gang at S.A.F. meeting in Denver this past fall. Keep up the good work on the Peavey." Thanks, and

we'll try to do that, George.

**EARL O. B. DAHL** reports from White Plains, New York where he is Pilot—Captain—American Can Company at Hangere, Westchester County Airport.

**JAMES O. FOLKESTAD** reports from Lincoln, Nebraska where he is Supervisor for Central Plains Forestry Office, U. S. Forest Service.

**GEORGE E. M. GUSTAFSON** is Townsite Trustee for the Bureau of Land Management at Anchorage, Alaska. He writes—"The 'year of the big quake' is one long to remember! I was proud of my do-it-yourself building project. Just a few broken dishes but no structural cracks. The family rode it out fine. They were real campers for the four days without utilities. I am still with BLM in Anchorage, the busiest boom town anywhere. Real progress is being made."

**LOUIS B. HOELSCHER** reports from Tacoma, Washington where he is Safety Director of the Weyerhoeuser Company.

**RICHARD D. HULTENGREN** reports from St. Paul, Minnesota where he is State Land Administrator for the Dept. of Conservation. Thanks so very much for all of your very able assistance and cooperation on the MFAA, Dick, I really enjoyed it!

**PHILIP L. HUNTLEY** reports from Norway, Michigan where he is Cost and Accounting Supervisor for the Woodlands Division, Kimberly Clark Corp.

**CHARLES E. HUTCHINSON** reports from Sacramento, Calif. where he is with the Bank of Sacramento.

**HERBERT G. JOHNSON** is Extension Plant Pathologist for the University of Minnesota at St. Paul, Minnesota.

**GOODMAN K. LARSON** reports from Minneapolis, Minnesota where he is the Regional Personnel Officer, U. S. Sport, Fisheries and Wildlife. Thanks for your assistance on the many alumni functions, Goodman.

**DONALD H. OVERHOLT** reports from Spring Valley, Minnesota where he is in the retail lumber and contracting business.

**SCOTT S. PAULEY** reports from St. Paul, Minnesota where he is Professor of Forestry, School of Forestry, U. of M. on the St. Paul Campus.

**HOWARD A. POST** is Consultant for the Natural Resources and Public Affairs at Falls Church, Virginia.

**GEORGE ROGOSHESKE** reports from St. Paul, Minnesota where he is Marketing and Utilization Staff Forester for the Minnesota Division of Forestry, Department of Conservation. We enjoy your visits to Green Hall, George.

**KEN W. SACKETT** is Insurance Salesman for New England Mutual Life Insurance Co. at St. Paul, Minnesota. He writes—"Left the retail lumber business in early 1964 and became an insurance agent with New England Mutual Life Insurance Co. in the St. Paul Agency. Two girls—One in her last year of junior high and the other a high school senior." Thanks for all of your very able support on the various alumni projects, Ken.

**CARL B. SCHOLBERG** reports from Sierraville, California where he is District Ranger for the Tahoe National Forest, USFS.

**FRANK E. TUCKER** reports from Redding, California where he is with the U. S. Forest Service.

**CHARLES H. WHITE** reports from High Point, North Carolina where he is Vice-president of Sales for the Grand Rapids Varnish Corp.

**DAVID B. VESALL** reports from St. Paul, Minnesota where he is Supervisor of the Game and Fish Division, Department of Conservation. Thanks for your very good talks to the Forestry Club, Dave.

**ALDEN L. WUOLTEE** reports from San Francisco, California where he is with the U. S. Forest Service.

## 1940

**RICHARD W. AHERN** reports from Cleveland, Ohio where he is Deputy District Director of the U. S. Immigration and Naturalization Service.

**ELDON A. BEHR** is Associate Professor for the Dept. of Forest Products of Michigan State University, Okemos, Michigan. He writes—"Real estate taxes going up, my stocks going down, but there is a silver lining to a dark cloud. Michigan State University is going to build a new building to house the Forestry, Forest Products, Wildlife, and Resources Departments. All we need now is students. We took in the New York World's Fair last summer as well as Montreal and Ottawa and Niagara Falls. Also several trips were made to Detroit to watch the 'Tigers.' The whole family is for the Detroit baseball team. I hope they are doing better when this appears."

**C. ROBERT BINGER** reports from White Bear Lake, Minnesota where he is Vice President—Operations for the Northstar Center.

**CLARENCE B. BUCKMAN** reports from St. Paul, Minnesota where he is with the Division of Forestry in the Centennial Bldg. Thanks for assisting us on that trip to the Kabetagama Peninsula back in December, Clarence.

**NORMAN H. CONRAD** reports from Milwaukee, Wisconsin where he is Regional Sign Coordinator for the U. S. Forest Service.

**ROBERT C. DOSEN** reports from Port Edwards, Wisconsin where he is Resident Forester, Nekoosa-Edwards Paper Co.

**CLARENCE T. EGGEN** is Area Forester for the U. S. Bureau of Indian Affairs at Minneapolis, Minnesota. He writes—"In Indian forest

and land resources management in a broad, multiple use sense. Daughter, Gay, graduating from Macalester College, St. Paul, this year. Son, Brad, a junior in Hopkins High."

**WALTER C. ERSON** reports from Savannah, Georgia where he is Industrial Sales Manager for the Hardwood Plywood, Georgia-Pacific Corporation.

**ROSSALIUS C. HANSON** is Flyway Biologist for the Bureau of Sport, Fisheries and Wildlife at Minneapolis, Minn. He writes—"No change. Sorry I can't put down a lot of newsy items, but just haven't done anything startling nor have I seen anyone lately. Did spend 5 months in Washington, D.C. Jan.-May 1964. Someone was trying to make an administrator out of me, but I'm still 'herding the aircraft' around and 'counting the ducks.' A few more years and I'll probably be happy to sit behind that 'Big Mahogany Desk.' My best to all." Thanks, and the same to you, Ross.

**ROBERT G. HELGESON** sends us word from the St. Regis Paper Company at Tacoma, Washington. He writes—"The 1940 Alumni News Notes seem to be getting too close to the front section! I am currently serving as Chairman of the South Project Sound Chapter Society of American Foresters—also as Cubmaster for a pack of 100 lively Cub Scouts. I'll take the Foresters any day. Best wishes to the Class of '65—the first 25 years as an alumni slip by in a hurry, fellows." Thanks for the "best wishes," Robert.

**VIRGIL O. HOGDAL** is at the Princeton State Bank at Princeton, Minnesota. He writes—"Still combination farmer and banker. Am interested in a 25th anniversary get-together. Could Peavey solicit names of 1940 grads available for anniversary?" We will give it a try, Virgil.

**CHARLES C. LARSON** is Professor of Forestry at State University College of Forestry at Syracuse, New York. He writes—"Much of my time during the past year has been taken up with administrative duties, largely with serving as Acting Director of Graduate Studies in behalf of Associate Dean S. O. Heiberg who passed away on February 5, 1965, following a prolonged illness. Otherwise, I have continued to devote most of my efforts to the world of forestry. Kerstin and my two children, Erik and Monica, returned to Finland this past fall for a visit with the family, leaving me to batch for approximately six weeks. Erik will be 3 years old in April and Monica will soon be 1½ with the result that their parents have little time for extracurricular activities."

**JAMES H. MICHELS** reports from Susanville, California where he is on the Lassen National Forest for the U. S. Forest Service.

**JOHN MILES** is Forestry Consultant at Eureka, California. He writes—"Still in Consultant business. Older son, married and in law school in Washington, D. C. Oldest daughter will be married in June. Everyone here has been repairing flood damage."

**WILMAR H. MONSON** is Major for the U.S.A.F. at Indian Head, Maryland. He writes—"Still in the U. S. Air Force, expecting to return in about three years. Present position is that of Training Officer at U. S. Naval School, Explosive Ordnance Disposal. Hope to attend graduation in June, 1965. My son, Richard, will be in the graduating class." We'll be looking for you, Wilmar.

**DONALD W. MURRAY** is Vice-President of the Thureson Lumber Co. at Howell, Michigan. He writes—"Married in 1947, have 4 children ages 15, 14, 9, 7. Have served on the official board of the Methodist Church as Steward and Chairman of the Commission on Christian Social Concerns. Have been 'father-vice-president' of PTA. At present am Treasurer of the Howell Band Boosters and Treasurer of the 60 Investment Club. Recently recognized for 19 years service to Thureson Lumber Company and promoted from Director to Vice-president of the company. Hobbies include photography, archery, canoeing, and hunting."

**GEORGE E. OLSON** reports from Midland, Michigan where he is Senior Analyst Marketing Research for the Dow Chemical Co.

**TONY F. PERPICH** is Colonel, U. S. Army commanding the 2nd Infantry Division Artillery at Fort Benning, Ga. He writes—"Since 15 July 1964 I have been commanding the 2nd Infantry Division Artillery at Fort Benning, Georgia. My oldest daughter, Ann, is a Junior at Purdue. Jeannie, my second daughter, is a freshman at the U of Arizona. Tom is a Junior in high school and Barbara is a first grader."

**MAURICE J. STEENSLAND** reports from Dothan, Alabama where he is Owner of the M. J. Steensland Company.

**W. W. TALBERT** reports from Lufkin, Texas where he is a Consulting Forester.

**WILLARD E. WEST** is with the Minnesota Division of Forestry, Department of Conservation, at St. Paul, Minnesota. He writes—"Moved from Grand Rapids to St. Paul, July 2, 1964. Presently Assistant Chief, State Forests and Recreation, which was formerly held by Harold Ostergaard who retired June 1964. Responsible for State Forest Administration, including leases, permits, easements, etc. on state Forest land, land acquisition and records. Responsible for development and administration of state forest outdoor recreational program." Thanks for your cooperation on that Kabetagama Peninsula trip, Willard. We really enjoyed it!

## 1941

**AUGUST E. BLOCK** is District Ranger for the U. S. Forest Service at White Cloud, Michigan. He writes—"I transferred to the White Cloud District of the Huron-Manistow National Forest in March 1964 after living in Ely, Minn. for nearly 10 years, and working as District Ranger on the Holdway District. The family and I enjoy our new location although we do miss the lake country of NE Minnesota." Thanks, August, for your contribution.

**WILBERT A. GRAUPMAN** reports from Albany, Oregon where he is Credit Sales Manager for the Sears, Roebuck and Company.

**VERNON HAHN** is self-employed and is at St. Charles, Ill. He writes—"We had no big vacation trip this past summer, but we had an enjoyable time showing visitors from Alberta around this urban sprawl. Mumps in the family and leaks in the pocketbook."

**ROBERT W. JOHNSON** is Forester—Reforestation for the Weyerhaeuser Company at Longview, Washington. He writes—"1. No change in family status. 2. Most activities still geared to salvage program, the aftermath of the 1962 storm."

**MYRON J. LATIMER** reports from Grand Rapids, Minnesota where he is Chief Forester for the Blandin Paper Company. Thanks for all of your cooperation on the UMW Forester, Mike.

**THOMAS M. PARTRIDGE** is Owner of Ready Mix Concrete of Cooper Concrete and Coal Company of Newton, Iowa. He writes—"This has been another most pleasant year. Our health has been excellent, the ready-mix plants have done well, and the deer, pheasant, antelope, duck and goose hunting has been great."

**ROBERT D. PETERSON** is Exec. V.P. and Gen. Mgr. of Palmer G. Lewis Co. at Seattle, Washington. He writes—"Fond greetings to the Peavey staff! All goes well for the Peterson clan in the Pacific NW. Have 3 of the 4 kids in college this fall—2 at the Univ. of Washington and 1 at Washington State University—with the 4th in his Junior year in High School. Our wholesale building materials firm continues to grow and prosper—with 5 branches in Washington and one in Alaska. Best of Luck for a wonderful 1965 Peavey." Thanks, and the same to you, Robert.

**EDWARD F. REXER** is Assistant Director at Honeywell Research Center at Hopkins, Minnesota. He writes—"Attended the International Symposium on Combustion at Cambridge Ang-England, about August—then spent about a month touring Europe with my wife."

**SEDGWICK C. ROGERS** reports from Neenah, Wisconsin where he is Research Chemist for the Kimberly Clark Corp.

**MARVIN E. SMITH** reports from St. Paul, Minnesota where he is Extension Forester for the School of Forestry, University of Minnesota.

**NORBERT A. ZAMER** reports from Kearny, New Jersey where he is Senior Engineer for the Western Electric Co.

## 1942

**BRUNO L. BERKLUND** reports from Port Edwards, Wisconsin where he is Forester for the Nekoosa-Edwards Paper Company.

**HIRAM HALLOCK** reports from Madison, Wisconsin where he is Research Technologist, Division of Wood Quality Relations, for the U. S. Forest Products Laboratory (USFS).

**ORVILLE J. HATLE** reports from Norway, Michigan where he is District Forester for the Kimberly Clark Corp.

**ARTHUR L. JANURA** reports from River Forest, Illinois, where he is General Superintendent for the Forest Preserve District of Cook County.

## 1943

**DAVID W. FRENCH** reports from St. Paul, Minnesota, where he is Assoc. Professor in the Plant Pathology Dept. at the University of Minnesota.

**GORDON C. MAXSON** is in the Life Insurance business at San Leandro, California.

**ROBERT F. NELSON** reports from St. Paul, Minnesota where he is with the Chem-Wood Corporation.

## 1944

**BOB BUCHHOLZ** reports from Asheville, North Carolina where he is Insurance Agent for Connecticut Mutual Life.

## 1945

**CECIL E. DAMRON** is Metropolitan Insurance Consultant for the Brookdale Shopping Center at Minneapolis, Minnesota. He writes—"Have been back in Minneapolis for four years now and happily engaged in one of the best jobs in the world outside of Forestry. I got a strange feeling about my age because my daughter Lyn is now a Junior in nursing at the old Alma Mater. Where did the time go?"

## 1946

**D. A. BOLLINGER** is Forester for the Townsend Lumber Co. at Townsend, Montana. He writes—"David Fischer, class of '64 is working with us obtaining valuable experience running a road crew and operation of woods machinery."

# CHAPMAN CHEMICALS

*preserve the value of forest products*

PERMATOX	Controls stain, mold and decay in hardwood or softwood lumber during air seasoning. Costs only a few cents per thousand board feet. Dip or spray.
MILLBRITE	Specialized emulsion containing a penta-derived fungicide which gives dry finished lumber water resistance and weather protection from mill to job site. Either clear or pigmented for merchandising value.
AMBRITE	Low-cost log spray reduces losses from degrade lumber due to damage by insects, stain or mold. Equally effective on hardwood and softwood. Permits safe stockpiling of logs.
AMBROCIDE	Effective insect control chemical for use on logs and lumber. Used where stain is no problem or mixed with Permatox 10-S for complete protection against insects, sap stain and mold.
SEALTITE 60	Sharply reduces losses caused by end-checking in logs and lumber by controlling and drying rate and thereby reducing internal stresses. Available in brilliant colors for identification of quality lumber.
PENTA-WR	Water-repellent preservative for control of checking, swelling, warping, mold, mildew, insect attack and rot in lumber. Clean and paintable. Widely used by millwork plants.
POL-NU	Patented formulation of pentachlorophenol for ground-line treatment of standing poles. Replaces natural loss of preservative from original treatment and adds years of life.
PENTA PRESERVATIVE	Protects wood from decay and insects. Will not evaporate or leach out. The clean, modern wood preservative widely used wherever wood is exposed to damage by weather or insect attack.

*Write for literature*

**CHAPMAN CHEMICAL COMPANY**

Memphis, Tennessee 38109

VICTOR H. CLAUSEN reports from Seattle, Washington where he is Product Planning Director for the Simpson Timber Company.

## 1947

ROBERT W. BAUCK reports from Calgary, Alberta, Canada where he is Manager for the Bell Pale Company.

GLENN H. DEITSCHMAN reports from Moscow, Idaho where he is Research Forester for the Intermountain Forest and Range Experiment Station (USFS).

CLIFFORD E. EGELAND reports from Minneapolis, Minnesota where he is Detective Captain for the Minneapolis Police Department.

JALMER J. JOKELA reports from Urbana, Illinois where he is Assistant Professor, School of Forestry, U. of Illinois.

RUSSELL V. JONGEWAARD reports from Little Falls, Minnesota where he is Soil Conservationist for the Soil Conservation Service.

WILLARD F. LEAF is Realty Officer at Bemidji, Minnesota for the Bureau of Indian Affairs.

RICHARD W. MARDEN reports from Wausau, Wisconsin where he is Wood Technologist, Lake States Forest Experiment Station (USFS). Our best to you, Nita, Mike, and Karen!

EDWIN W. MOGREN is Prof. of Forestry, College of Forestry, Colorado State University at Ft. Collins, Colo. He writes — "We were very pleased to visit with friends from Minnesota at the SAF Meetings in Denver last fall. Our boys, Paul — 14, and Eric — 4, keep us busy and involved. The program at CSU is expanding with enrollment of almost 700 students. Our Minnesota friends are always welcome — in the winter in Ft. Collins and in the summer at our Summer Campus at Pingner Park."

HOWARD E. OLSON is with Sonford Products at Minneapolis, Minnesota. He writes — "Not too much news to report. Was elected treasurer of Keep Minnesota Green and I'm enjoying that work. Looking forward to the National Forest Products Research Society meeting in Minneapolis in 1966." Thanks for all of your very able assistance in the Minnesota Alumni Association, Howard.

LEONARD ROWSON is Forest Supervisor for the Iron Range Resources and Rehabilitation Commission at Hibbing, Minnesota. He states — "Wife, Eleanor; son, Richard; and daughter, Roberta."

ROBERT WOOD reports from St. Paul, Minnesota where he is with the Chemolite Plant of Minnesota Mining and Manufacturing Company. We enjoy having your son with us, Bob.

JOHN A. ZIVNUSKA is Professor of Forestry at the University of California at Berkeley, California. He writes — "Appointed Dean of School of Forestry, University of California, effective 7/11/65." Congratulations, John!

## 1948

CLIFFORD E. AHLGREN reports from Ely, Minnesota where he is Director of the Quetico-Superior Wilderness Research Center.

JOHN F. ANDERSON is Missionary — Evangelist for Presbyterian Church at Craig, Alaska. He writes — "I am still a logging camp Missionary for the Presbyterian Church in the Pan-handle of Alaska. I spend quite a bit of time in the woods and have contact with many Foresters. Run into a few Minnesota Grads in this area. Travel is carried on by a 65-foot Mission Boat with Bush Pilots in float planes. It is a very interesting and rewarding life. We are moving from Petersburg to Craig this month." Sorry that we missed you, John.

JOHN R. BERGERON is Sales Representative for the United States Plywood Corp. at Detroit Lakes, Minn. He writes — "Purchased a lake home in Detroit Lakes. Added a new daughter to the family to keep the two boys company."

JOE CHERN is Wood Technologist for the Forest Products Laboratory (USFS) at Madison, Wisconsin. He writes — "Still in Packaging Research at Forest Products Lab. Three kids growing too quickly. Staying in shape by building another home, with Vance Setterholm. We hope to get up to our 80 acres this year and thin out some jack pine. It was a pleasure to see Dr. Kaufert last spring."

PAUL E. COLLINS reports from Brookings, South Dakota where he is Associate Forester for Horticulture — Department of Forestry, South Dakota State U.

HERBERT L. FINCH reports from St. Louis Park, Minnesota where he is Plant Manager for the Republic Creosoting Co.

CARLTON A. HOLMES reports from Duluth, where he is Technologist for Halvarson Trees, Inc.

ARNOLD R. JOHNSON reports from International Falls, Minnesota where he is Land Commissioner. Thanks for your cooperation on the Kabetogama Peninsula trip, Arnold.

DONALD E. JOHNSON reports from Cottage Grove, Oregon where he is Quality Control Technician for Weyerhaeuser Co., Laminated Products Division.

ROBERT S. JORGENSEN reports from Minneapolis, Minnesota where he is Regional Supervisor for the Bureau of Sport, Fisheries, and Wildlife.

JAMES M. LINNE is Chief of the Division of Range and Forest Management for the Bureau of Land Management at Billings, Mont. He writes — "Moved again! We really like it here in Billings and hope

we can stay for awhile. The kids are growing up fast and will soon be starting to leave home and pa is turning gray! Fine thing! The biggest problem here in Montana is that the work is interfering with the hunting! Perhaps the colleges could conduct some research to solve the problem."

EDWARD J. PLANTE reports from St. Paul, Minnesota where he is Salesman for the United States Plywood Corp. Thanks for five (?) wonderful years of work, on the MFAA, Ed.

RODNEY SCHUMACHER is Sales Representative for the Masonite Corporation at Minneapolis, Minnesota. He states — "A baby boy, July 8th." Congratulations, Rod!

ROBERT N. WEBB is District Forester at Hamburg, Ark. He writes — "Our 9th child, Louise. Irene was born Nov. 17, 1964. That makes 5 girls and 4 boys. Still with Georgia-Pacific on the Berea District. We will soon be in the plywood business."

WILLIAM H. ZIEMER reports from Minneapolis, Minnesota where he is in Estimation at the American Lumber Co. It's good to have you back on the MFAA Exec. Board, Bill.

## 1949

ROBERT BURKE reports from Neenah, Wisconsin where he is Chief Forester for Lake States Woodlands, Marathon Division, Am. Can. Co.

SAMUEL K. DICKINSON, JR. is Forester for the Erie Mining Co. at Hoyt Lakes, Minnesota. He writes — "Still holding forth on the Mesabe Iron Range. Things improving considerably with the passage of the Taconite Amendment." A good job on the UMW(SAP) Policy and Program Committee Report, Sam.

OLAF C. GREITE reports from Snoqualmie Falls, Washington where he is Logging Manager for the Weyerhaeuser Company.

PAUL M. HAACK reports from Portland, Oregon where he is Research Forester (Mensurationist) for the Pacific NW Forest and Range Experiment Station (USFS).

JOHN HALL reports from Cloquet, Minnesota where he is Assistant Reg. Forester for the Minnesota Forest Service, Department of Conservation.

GEORGE W. HAMMER reports from Faribault, Minnesota where he is Area Forester for the Minnesota Conservation Dept., Division of Forestry. It's nice having you down in the "South," George.

MERDITH B. INGHAM reports from Philo, Penn., where he is Regional Naturalist for the National Park Service (USDI).

FRANK D. IRVING is Associate Professor at the School of Forestry, University of Minnesota at St. Paul, Minnesota. He states — "No significant differences detected since last year."

J. DONALD MEYER reports from Edina, Minnesota where he is Biology Teacher at Edina-Morningside High School.

MERLE P. MEYER reports from St. Paul, Minnesota where he is Professor of Forestry for the School of Forestry on the St. Paul Campus.

WILLIAM R. MILES reports from St. Paul, Minnesota where he is Extension Forester at the University of Minnesota. Glad to have you and Marv Smith up in Green Hall, Bill.

WILLIAM P. OEMIEHEN is Project Conservationist for the Soil Conservation Service, at Benson, Minnesota. He writes — "My new position has resulted in working with a wide range of resource development people and has given me far greater insight into the complexities of resource development problems. R.C.&D. is essentially a community action project carried out through the leadership and effort of local people with the co-operation of state and federal agencies. It has taught me that the road to resource development is built with, not for, people. My family remains numerically stable with one beautiful wife, Bo; 4 typical sons, Mark, Brett, Michael, Bill; 1 precious daughter, Beth; and 1 springer spaniel, Dot."

JAMES E. PETERSON reports from Crossett, Arkansas where he is Forester for the Georgia-Pacific Corp. Hi, Petel

RICHARD E. SCHAEFER reports from Salem, Oregon where he is with the Boise Cascade Corporation.

RICHARD E. SCHROEDER is Forester for the Bureau of Land Management (USDI) at Coeur d'Alene, Idaho. He writes — "I was shocked and saddened to learn of the death by drowning of Dr. Henry Schmitz. Symbolically perhaps, this happened on the day of Sir Winston Churchill's funeral. In my opinion, they were both great men, and their passing marks the end of an era. Dr. Schmitz welcomed me to the School of Forestry as an incoming freshman. A good many years later, he congratulated me when I graduated. I suggest that a memorial fund be established in his name. I will contribute as much as I can." A Memorial Fund for Dr. Henry Schmitz has been established through the Minnesota Alumni Association, Dick.

EUGENE STEINBRENNER reports from Centerville, Washington where he is with the Forestry Research Center of the Weyerhaeuser Co.

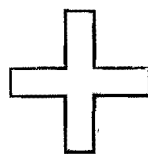

GERALD J. SULLIVAN is Soil Conservationist at Grand Rapids, Minnesota. He writes — "Transferred from Mora, Minnesota to Grand Rapids, Minnesota effective 3-1-1965. Employed by U. S. Soil Conservation Service."

## 1950

WILLIAM A. AULTFATHER is Regional Forester for the Bureau of Sport, Fisheries and Wildlife at Minneapolis, Minnesota. He writes —

**BUSAN**®

**BUSPERSE**®

---

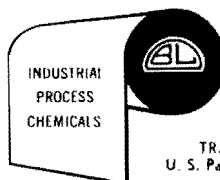

*A new  
name has  
been added...*

*...to further  
serve the paper industry  
throughout the world*

"Busperse," a new name, has been added to the familiar "Busan." Busperse covers a new line of highly effective products for the dispersion of nonmicrobiological deposits, defoaming, pulping and repulping, and continuous conditioning for paper machine wet felts. You will see it joining the familiar Busan name on drums in pulp and paper mills throughout the world.

**BUCKMAN**  
LABORATORIES, INC.

MEMPHIS, TENN., 31808, U.S.A.  
CABLE ADDRESS BULAB

TRADEMARKS REGISTERED  
U. S. Pat. Off. and in Other Countries

"Not much news to report. My wife, Mary, is in graduate school. I met Wandell Elliott (50) at a Dept. of Interior School in Arizona last January. Seem to see lots more old classmates now than I did a few years ago. Health is good, job is good, and fishing is good—what else is there? I have moved but am still in St. Paul." We enjoy your visits to Green Hall, Bill.

**ROBERT E. BERGQUIST** is President of the Building Industries, Inc. at Spirit Lake, Iowa. He writes—"Family same size. Business has been good. Hello to all."

**R. H. BRENDENMUEHL** reports from Marianna, Florida where he is Research Project Leader for the U. S. Forest Service.

**EDWARD M. CHRISTIANSON** is Forester for the Bureau of Indian Affairs at Waband, Wisconsin. He writes—"Recently accepted a position with the U. S. Bureau of Indian Affairs. My headquarters is Waband, Wisconsin. My office is my home, temporarily, until suitable space can be found in Waband. The Flat Land Forestry is for me. The mountains of Washington are best suited for 'Billy Goats.' We love it here!"

**C. EMERY FEERO** is District Forester for the Celotex Corporation at Champion, Michigan. He states—"Wife and 2 children—Forest Management and Real Estate Development, Celotex Corporation."

**LEROY F. FISH** reports from Minneapolis, Minnesota where he is Buyer for the Target Stores.

**ANTHONY G. GRUBA** reports from Portland, Oregon where he is Sales Engineer for Chapman Chemical Company.

**JOHN W. HAMILTON** is Forestry Instructor for Lassen College at Susanville, California. He writes—"After all the years of saying 'no change,' this year we made a BIG change. I left Halvorson Trees and am trying my hand at teaching a tech forestry course at Lassen College. One other instructor so we are experts (ha ha) in quite a few fields. It's really an experience. Susanville is located about 88 miles from Reno, Nevada and is right on transition from semi-desert to California Pine area. Really nice country. Stop in for coffee, Ken! Family fine, and same size as previously." Thanks—I will, John.

**WAYNE HANSON** reports from Warroad, Minnesota where he is Area Forester for the Division of Forestry, Department of Conservation.

**JACK R. HELM** reports from Denver, Colorado where he is Civil Engineer for the U. S. Geological Survey.

**MELVIN S. HOUGEN** is Ass't. Branch Mgt. for the U. S. Plywood at St. Paul, Minnesota. He writes—"Moved to Ass't. Branch Mgt.—U. S. Plywood St. Paul branch May 1, 1964. My oldest daughter graduated from the University Dec. 1964. Youngest daughter started kindergarten fall 1964—the other few—3 boys and 1 girl are in college, high school and grade school." We enjoy your visits to Green Hall, Mel.

**THEODORE M. KEPRIOS** reports from St. Louis Park, Minn. where he is Salesman for the Republic Creasoting Company. How about getting over to Green Hall, Ted.

**GORDON L. LANDPIER** reports from Spaaner, Wisconsin where he is District Forest Ranger for the Wisconsin Conservation Department.

**VERNON V. LINDHOLM** reports from Milwaukee, Wisconsin where he is with the U. S. Forest Service.

**DELMER F. MARSOLEK** is on the Supervisor's Staff for the Targhee National Forest (USFS) at St. Anthony, Idaho.

**JERALD A. MORTENSEN** reports from Minneapolis, Minnesota where he is Salesman for Flintkote Company. We sure do miss you on the MFAA Executive Board, Jerald.

**BERNARD A. PARADIS** reports from Aberdeen, South Dakota where he is Manager for the Lampert Lumber Co.

**GARRY B. RINGOLD** is Assistant Managing Forester for the Potlatch Forests, Inc. at Lewiston, Idaho. He writes—"I was promoted and moved from Potlatch, Idaho to Lewiston, Idaho this year. Now I'm involved in strict forestry and no longer do I have much to do with log production."

**PAUL C. ROEBER** reports from Broken Bow, Oklahoma where he is Chief Forester for the Dierks Lumber Company.

**GENE ROMANSKI** reports from New Brighton, Minnesota where he is Section Supervisor of Production Control, Honeywell, Inc. We enjoy your visits to Green Hall, Gene.

**HOWARD J. RUSSELL, JR.** is Forester for the Simplot DeVoe Lumber Co. at Chiloquin, Oregon. He states—"Son has gone off to college. Otherwise no change in family. Just grown older."

**WINSTON SWANSON** reports from San Carlos, California where he is with the Winston Swanson Ins. Agency.

**ROBERT B. WALLIN** is Branch Manager of the U. S. Plywood Corp. at St. Paul, Minnesota. He writes—"We are now adjusted to rural living and enjoy our new home very much. Children really growing fast 13-11-6-4. Mel Hougen '50 now Ass't. Mgr. and is doing a bang up job."

**WILLIAM B. WOOLSTENCROFT** reports from St. Paul, Minn., where he is Right of Way Officer for the Bureau of Public Roads.

**JOHN F. ZACHMAN** is M.D. at the State Bank Bldg. at Melrose, Minnesota.

**HAROLD W. BENSON** reports from Minneapolis, Minnesota where he is Chief, Wetlands Acquisition, for the Bureau of Sport, Fisheries, and Wildlife.

**PHILIP F. CORSON** is Recreation and Lands Staff Officer for the U. S. Forest Service at Porterville, California. He writes—"No new developments. My father Carlyle W. Corson '27 is moving to Paradise, California 95969, 5527 Edgewood Lane."

**ROBERT D. GARNER** is working for the Supplies Inspection Organization, Western Electric Company, Inc. at Denver, Colorado.

**STAN GRUETZMAN** reports from New Brighton, Minnesota where he is Owner for the Biocontrol Laboratory. We sure do enjoy your visits to Green Hall, Stan.

**EDWIN J. HASLERUD** reports from Norway, Michigan where he is Forest Management Supervisor for the Kimberly-Clark Corporation.

**WILLIAM A. MIKE** reports from New York, New York where he is Senior Methods Specialist for the Western Electric Co., Inc.

**DONALD W. PETERSON** reports from Asheville, North Carolina where he is Timber Mgt. Assistant for the U. S. Forest Service.

**DONALD C. RODER** reports from Albany, Oregon where he is Timber Buyer for the Simpson Timber Co.

**ROLAND E. SCHOENIKE** is Associate Professor at the School of Forestry, Clemson, South Carolina. He writes—"No change in personal status. Clemson College became Clemson University on July 1, 1964. Graduate training and instruction at the M.S. level will begin in Fall 1965. Enjoyed my visit at the school last August (1964) and saw all the changes being made." We enjoyed your visit last summer, Roland.

**RICHARD W. SHIELY** is Casualty Claim Supervisor for the Republic-Vanguard Insurance Co. at Denver, Colorado. He writes—"Dr. Kaufert who was Dean of Forestry School presented an orientation course for new students in April 1946 which I attended. In the course of his lecture he cited the successful Forestry graduates in the Insurance business. In hindsight and with the greatest admiration for Dr. Kaufert—I found myself doing respectably in the insurance field. Best regards to a Great School!" Thanks for those very kind words, Richard.

**LAWRENCE E. SMITH, JR.** is Inspection Specialist for the Western Electric Co. at Portland, Oregon.

**KENNETH G. TORGERSON** reports from Norway, Michigan where he is Forest Land Acquisition Supervisor for the Kimberly-Clark, Inc.

**WALLACE L. TRUMAN** is Forester for the Brown's Tie and Lumber Company at McCall, Idaho. He writes—"Still with Brown's Tie and Lumber Company. After 6 years we are almost considered natives. Our girls are natives. Enjoyed the Peavey and Alumni news. Always good to hear what the fellows are doing. Your time and effort is appreciated. May see you in March. If I can still find my way around." Thanks for those very kind words, Wallace.

**JACK C. TUCKER** is Forester for the U. S. Steel Corporation at Iron River, Michigan. He writes—"We have finally made the big move. The Company has transferred me here to Iron River and I will be primarily occupied with timber sales work on our company's lands in this area. After eleven years on the road, I am happy to hang up the old pack sack."

**EVERT B. WICKSTROM** is Forester for the Grand Portage Ranger Station (USDI) at Grand Portage, Minnesota. He writes—"Wife and family (3 boys) doing fine. We made the big move back to Minnesota in November. I lived in southeastern Oklahoma and worked for Dierks Forest Inc. for over eleven years. The wife and kids were starting to talk like 'Rebels' so I thought it was time to move. I am now working for the Bureau of Indian Affairs and like it."

**KENNETH A. WICKSTROM** reports from New York, New York, where he is Senior Methods Specialist for the Western Electric Co.

## 1952

**GERALD W. ANDERSON** reports from Minneapolis, Minnesota where he is Plant Pathologist for Lake States Forest Experiment Station. Congratulations on that Ph.D., Gerald.

**HAROLD O. BATZER** is Entomologist for the Lake States Forest Experiment Station on the St. Paul Campus, University of Minnesota. He writes—"Was transferred from Grand Rapids, Minnesota to the St. Paul Headquarters of the Lake States Station in February 1964 and have joined the army of commuters when we bought a home in New Brighton. All three children are in school now." Glad to have you down here, Harold.

**WILLIAM B. BAUMAN** is a Salesman at Minneapolis, Minnesota. He writes—"Wife: Gerry, Children: David 11, Diane 9, Jimmy 5. I sure appreciate seeing all the fellas at the MFAA Banquets in St. Paul and sure enjoy looking up old acquaintances in MFAA news. Thanks." Your welcome, Bill.

**WILLIAM R. BEAUFIT** is in Prescribed Fire Research for the Inter-mountain Forest and Range Experiment Station at Missoula, Montana. He writes—"Susan Anne arrived in July 1964. David 11, Paul 8, Mark 5, and mother Phyllis are pleased with the addition. Other recreational outlets include family hikes in Glacier Park and nearby wilderness areas. Work is concerned with greatly increasing use of fire as silvicultural tool in the Intermountain West."

# Andersen Windowalls

TRADEMARK OF ANDERSEN CORPORATION

## Design, materials and production

Good design, selected materials, skilled craftsmanship and a modern factory devoted solely to the manufacturing of fine windows combine to make Andersen windows far more weather-tight than required by industry standards.

## Wood a natural insulator

Wood is a natural insulator, nearly 1800 times as efficient as aluminum in reducing heat transfer by conduction, further reducing heating and cooling costs.

Wood is one of the best known and most durable of construction materials. Modern technological advances in treating allow even greater freedom for the use of wood in today's designing for better and more enjoyable living.

The natural warmth, beauty and character of wood adds to design freedom and complements any desired decor.

FOR DETAIL CATALOG 651 (SWEET'S REPRINT) AND FURTHER INFORMATION, SEE YOUR LOCAL LUMBER AND MILLWORK DEALER OR WRITE . . .

**ANDERSEN CORPORATION • BAYPORT, MINNESOTA**

**BRUCE A. BROWN** reports from Cloquet, Minnesota where he is Superintendent of the Cloquet Forest Research Center—U. of M.

**RICHARD E. BURKE, JR.** reports from Portland, Oregon, where he is Recreation and Land Staff Officer for the Mount Hood National Forest (USFS).

**ROBERT N. CAMPBELL** is Assistant Professor for the Dept. of Plant Pathology at the University of California, Davis, California.

**JOHN R. DAVIS** is an Appraiser for the U. S. Bureau of Sport, Fisheries, and Wildlife at Huron, South Dakota. He writes—"It seems like the interval between Peaveys is getting shorter every year—hardly had time to read the last one. Never-the-less, I enjoy them and think you're doing a better job every year, if that's possible. Nothing new here in South Dakota. All former acquaintances are invited to stop in on the way through. News of the outside world (where they have trees) is always welcome." Thanks for those kind words and the invite, John.

**DONALD W. ENG** reports from Rolla, Missouri where he is Timber Management Staff Officer for the Clark National Forest (USFS).

**ARLEN J. ERICKSON** reports from St. Paul, Minnesota, where he is with Bach Millwork Co.

**WILLIAM W. HAMLIN** reports from Lake Butler, Florida where he is Senior Forester for the Owens Illinois Northern Woodlands.

**PHILIP A. HEYN** reports from Portland, Oregon where he is Engineer on the Mt. Hood National Forest (USFS).

**JOHN K. HILLMAN** is Major in the U. S. Army Ordnance Corps at Ft. Bragg, North Carolina. He writes—"We are returning from Verdun, France on 9 January 1965 and are looking forward to our new assignment with the 80th Ordnance Group, Ft. Bragg, N. C."

**KENNETH J. JOHNSON** is Owner of the K. J. Johnson Construction Company at St. Paul, Minnesota. He states—"Another year, same wife, same business."

**RICHARD D. MUNDINGER** is Appraiser for the Bureau of Sport, Fisheries and Wildlife at Portland, Oregon. He writes—"I am very happy with my new position in the Portland Region. We have been here a year now and are getting used to the rain. I visited Don Scheimge in Juneau, Alaska in August. John R. Davis visited us in June. I see Jerome Heinz and John Lundgren occasionally when they get to Portland."

**JOHN F. PERRY** reports from St. Paul, Minnesota where he is Salesman for the U. S. Plywood Corp.

**DON SCHMIEGE** is Research Entomologist for the U. S. Forest Service at Juneau, Alaska. He writes—"Still working with forest insect research here in Alaska. Dick Munding 1952 was up here this summer and we showed him our field 'station' which is a floating laboratory and living quarters. I think the fish impressed him more than the lab. The season we miss the most is the fall. Instead of colored hardwood leaves we have fierce gales blowing in from the ocean. Since I last wrote to you, Ken, I have built a 20' boat so now I can take you and your friends fishing when you come up." Hey, that sounds good, Dan!

**DOUGLAS W. SHENKYR** is Forester for the U. S. Forest Service at Gainesville, Georgia. He writes—"No change in family status—visited with Doug Shaw, 1952, when he was here in December, 1964, with an IG team from Washington. Added a boat to the family to take advantage of the beautiful lake adjacent to the city of Gainesville. Hope to bother the fish."

**LEIGHTON R. WALSTROM** reports from Minneapolis, Minnesota where he is Technical Representative for National Lumber Manufacturing Association.

**DAROLD D. WESTERBERG** is working for the U. S. Forest Service at Cadillac, Michigan. He states—"Nothing new to report." (Ed. note: Darold has since been promoted to Supervisor, Chippewa N. F., Region 9). Congratulations, Darold.

## 1953

**ROBERT J. ARKINS** reports from Pierre, South Dakota, that he is State Forester for the Department of Game, Fish, and Parks, Division of Forestry and Parks.

**DON BUTLER** reports from St. Paul, Minnesota where he is with Canton Redwood Sales Company. We miss you at the MFAA Exec. Board meetings, Don.

**DAVID S. CROSS** is President of David S. Cross and Associates, Inc., at Minneapolis, Minnesota. He writes—"Opened my own real estate appraisal business with special discounts to foresters."

**ROBERT J. NIXON** reports from Bellingham, Washington where he is Highway Engineer for the Mt. Baker National Forest (USFS).

**CHARLES E. OLSON, JR.** is Lecturer and Research Associate and Student at the University of Michigan, Ann Arbor; Michigan. He writes—"Spent the summer in Costa Rica on a NSF Fellowship program in Tropical Biology under the direction of the Organization for Tropical Studies. The eight week study period was centered at the University of Costa Rica, San Jose, Costa Rica, but included several two and three day field trips."

**ROBERT A. PERSKE** reports from Darrington, Washington where he is District Ranger for the Seattle Ranger District. (USFS).

**DOUGLAS B. SHAW** is Forester-Auditor for the U. S. Dept. of Agri-

culture at Adelphi, Maryland. He writes—"Hard telling where Foresters may end up. Here I am an auditor. I left the Forest Service in Oct. 1964. I will stay in this job for three years and can then return to F. S. I will be travelling in F. S. Region 5, 7, 8 and 9 auditing F. S. offices. Hope I can renew some old acquaintances."

**HOWARD W. VENNERS** reports from Indianapolis, Indiana where he is Inspector for the Western Electric Co.

**WARREN T. WIER** reports from Los Angeles, California where he is Salesman for the Weyerhaeuser Company.

## 1954

**DONALD E. ANDREASEN** reports from New York, New York where he is Assistant Buyer for the Western Electric Co., Inc.

**DARRELL W. CRAWFORD** is Timber Management Forester for the U. S. Forest Service at Albuquerque, New Mexico.

**HARLAN G. FREEMAN** is in Adhesives Research for Weyerhaeuser Research Division. He writes—"I recently moved (wife and 2 children) to Seattle for Weyerhaeuser but am still working in adhesives research. I see Jim Oberg and Dave Furness frequently and wonder if there is enough interest to support an MFAA branch out here. You're doing an excellent job in the Twin Cities. Let me know what you think." We will, Harlan—Thanks!

**OTIS F. HALL** is Professor for the Dept. of Forestry and Conservation at Purdue University, Lafayette, Indiana. He writes—"On March 22 I had the pleasure of speaking to the 5th Annual Seminar of the Lake States Council of Industrial Foresters. It was wonderful to get re-acquainted with many Minnesota foresters there. I hesitate to try to list them, because I would be sure to leave out some, but they included Bruno Berkland, Ken Torgerson, Art Larson, Jim (?) White, Gerry Anderson, Ralph Anderson, Bob Olsen, Ray Wood, Bob Burke, Jim Benson . . . there my memory runs out. Last Nov. I was in Louisiana speaking to an SAF meeting at Louisiana Tech and there met Sam Frisbee, whom I had never met before but about whom I had heard quite a lot when I first arrived at Minnesota. Just before I got there he had been running the sawmill at Cloquet."

**RALPH G. JOHNSON** is District Forest Ranger for the Arapaho National Forest (USFS) at Kremmling, Colorado. He writes—"Had a nice visit with several of the alumni at the SAF meeting in Denver. Roger Long, Cal Smith, Dixon Sandburg, Bob Gardner, and of course the alumni from this area." Thanks for the "employment tip," Ralph.

**DAVID A. KING** reports from St. Paul, Minnesota where he is Associate Economist for the Lake States Forest Experiment Station (USFS). Congratulations on that Ph.D., Dave.

**GUY M. SCHAFFER** is Technical Assistant-Production at the M & O Paper Co. at International Falls, Minnesota. He writes—"Married former Miss Marcelle St. Pierre of Grape, Quebec, on July 6, 1963, at St. Boniface, Manitoba, Canada. First child, daughter, Louane born Nov. 9, 1964."

**EUGENE TAVONATTI** is Supervisor of Fire Insurance at Merced, California. He writes—"No changes since last year. Took our annual elk hunting trip to Idaho. Killed five deer but no elk. Family remains at four children."

**WILLIAM F. WARNER** is Engineer for Plant Structures Group, American Telephone and Telegraph Co. at New York, New York. He writes—"We have a regular Minnesota Forestry Contingent out here—all live within a 10 mile radius—Al Hanna, Ken Wickstrom, Bill Mike, Bob Kruchoski, Don Andreassen and myself—and not one of our jobs has anything to do with Forestry!"

## 1955

**THOMAS L. MIELKE** is Yacolt-Lewis River Area Forester at Yacolt, Washington. He writes—"Have been with Weyerhaeuser Co., Longview Branch 4½ years. In Yacolt, WN and Area Forester there for four years. One son—4 years. Area heavily populated with U. of Minn. grads, trying to swim around in the woods. A real difference from the snow shoes in northern Minnesota. We now get our share of snow skiing in Cascade Range. Area Forester job extremely variable and interesting. Everything from cruising to aerial seeding. Greetings to all U of M friends."

**RICHARD E. PENNINGTON** is Range and Wildlife Assistant (USFS) at Hot Springs, Ark. He writes—"The old bachelor is finally giving up the ghost. He will be married May 2, 1965 to Miss Sandra Elizabeth Putnam at Hot Springs."

**THOMAS D. RUDOLPH** is Geneticist for the Institute of Forest Genetics at Lake States Forest Experiment Station (USFS) at Rhinelander, Wisconsin. He writes—"The past year has been a busy one with much time devoted to planning and developing radiation facilities here at the Institute of Rhinelander. A 6½ acre gamma radiation field is about completed and we plan to begin operating it April 1, 1965. Other radiation units will be added in the future and the radiation genetics research project expanded. Some early results of this work were presented at an FAO—International Atomic Energy Agency Meeting in Rome last May and June. I thoroughly enjoyed the five weeks I spent in Europe visiting forest and radiation research centers. Keep up the good work on the Peavey!" Thanks, and we'll try to, Tom!

**JAMES E. SHEPPARD, JR.** reports from Tacoma, Washington, where

## CONSERVATION EDUCATION IN ACTION

Each year hundreds of school children visit our tree nursery. Besides producing trees we are providing for an enlightened public.

he is with Supervision, Technical Control Dept.—Timberland, Div., Weyerhaeuser Company.

**ROBERT S. STORY** reports from Little Fork, Minnesota where he is Area Forester for the Minnesota Forest Service, Department of Conservation.

**EUGENE R. STROMMEN** is Executive Manager for the St. Louis Park Chamber of Commerce at St. Louis Park, Minnesota. He writes—"In order to tell the School of Forestry story to the maximum number of people, I have taken on the position of Executive Manager of the St. Louis Park Chamber of Commerce as of October, 1964. This follows five very rewarding years with Republic Creosoting Co., St. Louis Park, a firm that has believed in and supported Chamber of Commerce activities for many years themselves. While this work is a departure from wood products and forestry as a daily occupation, I am enthused by the opportunity to see closely the wide variety of business interests making our community what it is."

## 1956

**KENNETH N. ANDERSON** is Area Forester at Orr, Minnesota. He writes—"Promoted to area Forester and transferred to Orr, Minnesota in Sept. 1964."

**SIDNEY CARLSON, JR.** is Mill Sales Manager for the Weyerhaeuser Company at Everett, Washington. He writes—"Will be spending the Christmas Holidays moving from Tacoma, Washington to Everett, Washington. Enjoyed a visit with Les Netwal, 1958 and wife while they were in Tacoma this past summer. Anyone getting near Everett, Washington this coming year who would like to tour a lumber mill would be most welcome. We cut IMM per day at present and have two pulp mills."

**ROBERT COFFMAN** reports from Minneapolis, Minnesota where he is Contractor for the Loeffel Enhstrand Co.

**GORDON N. GLAIN** is Forester for the U. S. Forest Service at Mammoth Lakes, California. He writes—"Still here at Mammoth. Won't mind being here next year! Skiing started in October. Hunting is great. Enjoyed the 1964 Peavey. I always read them from cover to cover. Sure wish I could drop in for a visit, Ken." So do I, Gordie. Congratulations on your marriage!

**LYLE R. MCCUTCHEN** is Salesman for the Dow Chemical Co., at Minneapolis, Minnesota. He writes—"Back to Minnesota after travelling; living in several places since leaving school in 1956. Shirle, Janet, Jim, and I would welcome old friends at our abode as the coffee pot is always on." We enjoy your visits to Green Hall, Lyle—glad to have you back in the Twin Cities area.

**FARNUM W. NICHOLS, JR.** reports from Minneapolis, Minnesota where he is with the National Life Insurance Company.

**PHILIP M. OPSAL** is President of Jason Associates, Inc., at Fort Collins, Colorado. He writes—"Family fine, now! Wade, 10, contracted 'infectious hepatitis' last summer and had to take it very easy. Pam 12, and Claudia 8, enjoying their schooling and also their horses. Jeannine, President of Fort Collins Junior Theatre and scouting keep her busy. Business continuing to grow. Clients in most western states. Expanding into plywood industry consulting, too, in addition to wood preservation."

**BARRY G. PETERSON** reports from Carefree, Arizona, where he is District Ranger for the U. S. Forest Service, Cave Creek Ranger District.

**JOSEPH RANTA** is Sales Engineer for Formex Company at Dayton, Ohio. He writes—"Use of fabrics expanding all the time! It's becoming an important tool of the papermakers. Still working out of Dayton and still looking for visits from you. Family the same size but growing."

**MARVIN L. REINKE** reports from Rhinelander, Wisconsin, where he is with the U. S. Forest Service.

**JOHN S. RODEWALD** reports from St. Paul, Minnesota, where he is Staff Forester for Forest Development on State Forests, Division of Forestry, Department of Conservation.

**HERB ROSENBERG** reports from Seattle, Washington, where he is Forester for the U. S. Plywood Corp.

**MICHAEL J. ZELLE** reports from Red Bluff, California, where he is Assistant Ranger for the U. S. Forest Service.

## 1957

**FREDERICK J. BECKER** reports from Knoxville, Tenn., where he is Sales Representative for the Andersen Corporation.

**REINOLD C. CHASE** is with the U. S. Forest Service at Rapid River, Michigan.

**KENT CHURCHILL** is Forester for the U. S. Forest Service at Milwaukee, Wisconsin. He writes—"Best Wishes for a successful Peavey 1965. My family and I are now living in Milwaukee, Wisconsin where I am working as a Timber Management Forester out of the F. S. Regional Office. In my travels around the Region I get to meet quite a few recent Minnesota grads and renew a few old acquaintances from U. of M. The family now consists of one Jr. Forester and one girl who was born Sept. 13 this year."

**EVERETTE ELLISON** is Forest Manager for the Cons Ute Agency, U. S. Bureau of Indian Affairs, at Ignacio, Colorado. He writes—"Have one girl and one boy. Acquired a dog this summer so family is

complete. Don Mecklenberg (1959 I think) is Assistant District Ranger on Bayfield District San Juan National Forest 10 miles from here. We enjoy getting together quite often to hash over old times at the U. Deer hunting is out of this world down here, if you're looking for a trophy buck or bull elk, come on down."

**ROBERT L. HERBST** is Executive Secretary for Keep Minnesota Green, Inc., at St. Paul, Minnesota. He states—"Enjoy work, nothing new." We sure do enjoy your visits to Green Hall, Bob.

**THEODORE L. HULLAR** reports from Buffalo, New York, where he is Assistant Professor for the Department of Medicinal Chemistry.

**ROBERT E. JOHNSON** reports from Sandpoint, Idaho, where he is Logging Manager for the Hedlund Lumber Co., Inc.

**ARNE K. KEMP** reports from St. Paul, Minnesota, where he is Chief, Division Forest Products and Engineering Research for the Lake States Forest Experiment Station (USFS).

**TIMOTHY B. KNOPP** is with the Montana Dept. of Fish and Game at Havre, Montana. He writes—"No family, planning to travel then settle down to graduate school."

**THEODORE V. KUBITZA** is Forester—Lands for the U. S. Forest Service at Sonora, California. He writes—"Am working in Lands on the Stanislaus N. F."

**DICK MANLY** reports from Brainerd, Minnesota, where he is Assistant Area Forester for the Minnesota Division of Forestry. Thanks to you, Dave and Allen, for the very interesting get-well card. It was very much appreciated at that time.

**WILLIAM PETERS** reports from Gainesville, Florida. He received his M.S. in Forestry in March 1965 from the U. of Minn.

**FLOYD F. REINEMANN** is Manager for the Northern Highland State Forest, Wisconsin Conservation Department, at Boulder Junction, Wisconsin. He states—"One wife, two boys, and four girls."

**JACK STUBBS** is Associate Silviculturist for the S. E. Forest Experiment Station (USFS) at Charleston, South Carolina. He writes—"Give my regards to the group here at U. of M. I've been here at Duke University for better than a year now, working toward a Ph.D. Still a part of the Charleston S. C. branch of S.E.F.E.S. and work with bottomland hardwood primarily—general silviculture and management, especially natural regeneration and species—water relations. I see Roland Schoenike now and then. He is at Denison, as you probably know."

**RICHARD H. WARING** is Assistant Professor at Oregon State University, Corvallis, Oregon.

**ROBERT W. WILLIAMS** is District Ranger for the Boise National Forest (USFS) at Emmett, Idaho. He writes—"Still Ranger at Emmett. Would like to have some of the Alumni stop by when out this way. Wife and three boys doing fine. A DFR, Jim McKay ('58), helping keep the U. of M. image strong in this area."

## 1958

**DENIS BAKKE** is Assistant Sales Manager for the Wood Conversion Company at St. Paul, Minnesota. He writes—"Enjoying work with Wood Conversion. It's interesting with a proper amount of travel to all regions of the country. Assisting our men and customers. Denise 6, Sue 4, Phyllis are all fine. Best Wishes to All." Thanks for all of your fine cooperation and work on U. of M. alumni affairs, Denis.

**CURTIS K. BERND** is Park Manager Trainee at Richfield, Minnesota. He writes—"Am now attending a Park Management Training School put on by the State. We are expecting a new arrival to the family any day now."

**WILLIAM A. BERNDT** is Assistant Area Forester for the Minnesota Forest Service at Bemidji, Minnesota. He writes—"Not much news from here. Have same job but was transferred to Bemidji in Oct. Have same wife and two children, but had to give the dog away when we moved into town."

**MARION K. BORRELL** is Assistant District Ranger for the U. S. Forest Service at Lone Pine, California. He sends us this information—"No change in the family other than a year older."

**GEORGE A. CURTIS** is Resource Forester for the USFS at Eureka, Montana. He writes—"Place: Kootenai National Forest. GS-9 Resource Forester 2½ years. Changed to Fire Control, Grazing Recreation and Wildlife for this year. Family: Wife and five children ages 1 to 11."

**JIM EASTMAN** is Salesman for the U. S. Plywood Corp. at St. Paul, Minnesota. We miss you on the MFAA Executive Board, Jim.

**DOUGLAS ENGELSEN** is District Ranger for the U. S. Forest Service at Winona, Missouri.

**ROBERT ERICKSON** reports from Minneapolis, Minnesota where he is Instructor for the School of Forestry, U of Minnesota.

**BLAINE G. FENSTAD** reports from Kenton, Michigan where he is District Ranger for the U. S. Forest Service.

**PETER FFOLLIOTT** is Research Forester for the Rocky Mt. Forest and Range Experiment Station (USFS) at Flagstaff, Arizona. He writes—"I hope that you appreciate my typing these forms. My writing hasn't improved much since leaving, which at times causes the Forest Service to wonder if I'm doing what I'm supposed to be doing—whatever that is. Enjoyed last year's Peavey very much." Thanks, Pete—we had a hard time reading your typing though.

**GLENN W. HAWKYARD** reports from St. Paul, Minnesota, where he is Real Estate Appraiser for the Minnesota State Tax Department.

**ROBERT A. HERBKERSMAN** reports from Minneapolis, Minnesota, where he is with the Wholesale and Treating Division, G. M. Stewart Lumber Company.

**FREDERICK W. HOELZEL, JR.** is Forester—Rec. Staff (USFS) at Subport, Juneau, Alaska. He writes—"This is our fourth winter in Juneau, Alaska—the first with snow on the ground in town. A pretty mild climate. Great country—scenery, hunting and fishing. No crowds, 5 P.M. traffic jam only lasts 10 minutes.

**JOHN W. KING, JR.** reports from Hot Springs, South Dakota, where he is Assistant District Ranger for the U. S. Forest Service.

**NORMAN F. KOLLER** reports from St. Ignace, Michigan, where he is District Ranger for the U. S. Forest Service.

**TED NISKANEN** is District Forester for the Minn. Forest Service of Waconia, Minnesota. He writes—"Now have a crew of three boys. Appreciate the new Alumni directory." We enjoy your staps at Green Hall, Ted.

**CARL H. REIDEL** is Information Branch Chief for the U. S. Forest Service at Ogden, Utah. He writes—"Daughter, Kristin Dee, arrived on her sister's birthday. Am presently heading up Regional publications, press, etc. Hope to begin doctoral studies this fall (Ken wins his bet). Really enjoyed seeing those pictures from the past in the '64 Peavey!" We are looking forward to visiting with you and Jean, Carl.

**BRUCE H. ROETTERING** is Forest Entomologist for the USFS at San Francisco, California. He writes—"Transferred from R-10 to R-5 in December. Left behind the wildlife of Alaska for the 'wild' life of San Francisco. En route, I had a most enjoyable time renewing old acquaintances at Green Hall." We really enjoyed visiting with you, Bruce and that salmon was out of this world—thanks!

**RICHARD W. SCHNEIDER** is with the Northwest Paper Company at Cloquet, Minnesota. He writes—"Back in Brainerd after a stint in Grad. School. Another daughter, Gretchen Jean, added to our family on June 28, 1964." I very much appreciated that postcard that was sent from Bismarck back in January, Dick—thanks!

**NORMAN S. STONE, JR.** is Research Forester for the Consolidated Papers Inc. at Rhinelander, Wisconsin. He writes—"No earthshaking news. Hoping to get over to see everybody in the new and old facilities. Northern Wisconsin and Upper Michigan are still closest to God's country. Good hunting this fall. The door is always open."

**DAVID B. THORUD** is Assistant Professor at the School of Forestry, University of Minnesota, St. Paul, Minnesota. He writes—"Susan and I are happy that we have been able to complete our respective graduate programs this fall quarter. I have accepted a position in forest hydrology at the University of Minnesota, School of Forestry."

**RICHARD S. TOUSLEY** reports from Langmire, Washington, where he is District Ranger on the Mount Rainier National Park (USFS).

**RICHARD J. TOUTGES** reports from Mountainair, N. M., where he is Assistant Ranger for the U. S. Forest Service.

**ROBERT J. TOWLER** is Consulting Forester at Sundance, Wyoming. He writes—"Hi. Retired from the Forest Service and went into the consulting business. Yes, I even have customers. I work on long-term management agreements with ranchers. It seems to be working out. Also do forest contracting work. Still have a wife and three kids—Kathy, Kent, and Kerm."

## 1959

**ROBERT J. AABERG** is Assistant Ranger (USFS) at Craig, Colorado. He writes—"Have just transferred from Ely to Craig, Colorado. We move this month. Vern Schultz is the Ranger out there."

**EGOLFS V. BAKUZIS** reports from St. Paul, Minnesota, where he is Associate Professor for the School of Forestry, University of Minnesota.

**ROBERT BERG** reports from Cook, Minnesota, where he is Forester for the Bureau of Indian Affairs (USDI).

**PAUL L. BERGLUND** reports from Fargo, North Dakota, where he is a Contractor.

**ROBERT BODINE** is Timber Management Ass't for the USFS at Twain Harte, California. He writes—"I am enjoying my new job (2 months now) of TMA on the Mi-work District, Stanislaus N.F. During my nearly 2 years here since my discharge from the Army in '62, I have been able to renew acquaintances with quite a few other Minnesota grads. Along with enjoying my work, I enjoy life with my family which consists, recently, of only my wife and little boy—but it seems we will be having another mouth to feed sometime in 1965. Anyone heading this way please feel free to drop in and see us and bring your skis in the winter."

**HAROLD M. BOLT** is District Ranger for the Landmark District (USFS) at Cascade, Idaho. He sends us this information—"Same district as last year. No change in family. Two girls, two boys, Mamma and me. Hope to be in St. Paul in May '65."

**RODGER C. BRASK** is Park Ranger (USFS) at Page, Arizona.

**ROBERT D. DRONEN** is Redevelopment Advisor for the Minneapolis Housing Redevelopment Authority at Minneapolis, Minnesota.

**EDWIN D. GODEL** is Forester for Wisconsin Conservation Department at Alma, Wisconsin. He writes—"Family increased the past year—at least we're consistent—three girls. Enjoyed a fine hunting trip to

Montana this fall. The old Mississippi produced some good sport too—both fishing and hunting."

**CORNELIUS P. GROOTHOUSEN** reports from Ukiah, California, where he is Forester in Reforestation for the Bureau of Land Management.

**ROBERT L. HAASE** is Forester for the Lowell Ranger Station (USFS) at Lowell, Oregon. He writes—"No news is good news."

**KARL H. HAASER** is District Ranger for the U. S. Forest Service at Manti, Utah. He writes—"Things are about the same here in Manti. Family doing fine. Expecting a new manager about May. Haven't seen any of the Minnesota bunch for quite a spell. Always enjoy hearing a few words from them through the Peavey. Keep up the good work, Willie." Thanks, Karl—we'll try.

**EDWARD A. HANSEN** is Research Forester for the Rocky Mountain Forest and Range Experiment Station (USFS) at Flagstaff, Arizona. Sorry about your 1964 PV, Ed—did you ever receive it?

**RICHARD M. HUFF** is Staff Forester for the Bureau of Land Management (USDI) at Prineville, Oregon. He writes—"Other than working myself into a desk job, there are no major changes. Central Oregon still greatest country I have had the opportunity to work in. See a lot of Minnesota grads—still say we should have a convention. Expect addition to family in January. Will be back in Sept. of '65. Hope to see everybody if possible." We'll be looking for you, Dick.

**HUGO H. JOHN** reports from St. Paul, Minnesota, where he is Assistant Professor at the School of Forestry, University of Minnesota.

**HARRY D. KLAASSEN** reports from Bayport, Minnesota, where he is Plant Superintendent of the St. Croix Manufacturing Co.

**DAVID W. LINNE** is Instructor at St. Louis Park High School, Minneapolis, Minnesota. He writes—"I have been teaching senior English at St. Louis Park for four years now and enjoy it very much. I was married in June '64; my wife teaches at University hospitals. In addition to returning to the University every summer I have also been singing with the Minneapolis Apollo Club for three years."

**BENNETT R. OLSON** reports from Durango, Colorado, where he is Forester for the U. S. Forest Service.

**DALE A. RETTMANN** is Forester for the U. S. Forest Service at Oakridge, Oregon. He writes—"Bachelor days are gone. Took fateful step June 14, 1964. Oh yes, wife's name, Gemma. Still in 'Rain Forest' of Oregon. Still haven't acquired webs between toes but with rains of this year they might be helpful." We enjoyed your visit to Green Hall, Dale.

**DOUG SEASTROM** is Forester for the Sequoia Forest Ind., Inc., at Dinuba, California. He writes—"Still working for private industry and enjoying it more every year. Married a mountain loving girl, Linda, last November. Carl Reidel '58 was best man. We live inside Kings Canyon National Park, getting in plenty of skiing. Still see Bill Skovran '59 who was also married last fall."

**CLYDE A. SHUMWAY** reports from Berkeley, California, where he is Res. Forester for the P.S.W. Forest & Range Exp. Station. We enjoyed visiting with you and your wife last summer, Clyde.

**WILLIAM SKOVAN** is working in U.S. Forest Service at Porterville, California. He writes—"Married November 21, 1964, in San Francisco to Dolores Pearson of San Francisco. I'll be working in the Sequoia National Forest Supervisors Office beginning December 7th. I've had the opportunity to see Doug Seastrom—also class of '59—several times during the past two years."

**RICHARD C. TROCHIL** is Watershed Manager for the U.S. Forest Service at Springfield, Missouri. He writes—"Now have four children—one of each kind. Have been on the Mark Twain N.F. since Sept. 1964. My regards to anyone who might be interested." Thanks for your contributions to the School, Dick, and a personal "thanks" for that nice card!

**FREDERICK P. WEBER** is Research Forester for the P.S.W. Forest & Range Exp. Station (USFS) at Berkeley, California. He writes—"Vern and I are looking forward to being transferred to Berkeley, California, with the rest of our aerial survey research staff next fall, as soon as I finish graduate studies here at the University of Michigan. Our family status remains unchanged: two girls, Robyn age 4 and Kara Lea age 2."

## 1960

**KENNETH W. ANDERSON** is Forester for the USFS at Glidden, Wisconsin. He writes—"Still here at Glidden with the foresters job on the local district. Have enjoyed the job here very much. Made it to the 'Mardi Gras' last February and to Virginia in June, compliments of the U.S. Army. No vacation since then. Still single." Sorry that we could not help you with that request for technical information, Ken.

**PAUL J. AREND** reports from St. Paul, Minnesota, where he is Sales Coordinator for the Sussel Garage Company. Thanks for all of your very able assistance on the MFAA Exec. Board, Paul.

**MILES K. BENSON** is Research Aide for the Institute of Paper Chemistry at Appleton, Wisconsin. He writes—"Family grew last year. Now have Andrew and Catherine and their busy Mom. Still working with aspen and traveling around Wisconsin, Michigan, and Minnesota. Good to see foresters most everywhere."

**JAMES K. BROWN** is Research Forester for the Lake States Forest Experiment Station (USFS) at St. Paul, Minnesota. He writes—"In school working toward Ph.D. at University of Michigan."

**HERBERT C. COTTELL** reports from Cheyenne, Wyo., where he is Assistant State Forester.

**MYRON D. GRAFSTROM** is High School Teacher for the Warroad High School of Warroad, Minnesota. He writes—"Teaching high school science and coaching hockey. Family: girl, 4 years; boy, 2 years."

**SAM D. HALVERSON** is on the Ronge Staff at Camp Crook, South Dakota. He writes—"In charge of Ronge Management, Wildlife, and Recreation on the Sioux District, Custer National Forest. Wife, Dee, and two children, Sammie 4 and Shonnon 2."

**MILTON S. HAYDEN** is Educational Representative for the W. B. Saunders Co. at Philadelphia, Penn. He writes—"I left California and the Forest Service a little less than a year ago to accept employment as an educational representative with the W. B. Saunders Company of Philadelphia—publishers of text and reference books for the medical and allied sciences. Am doing promotional and public relations work in the colleges and universities of Colorado, Nebraska, Kansas, and Oklahoma. My wife, myself and two children are living in Fort Collins, Colo., and thoroughly enjoy it."

**LEE W. HINDS** is manager of the Lincoln-Oakes Nurseries of Bismarck, North Dakota. He writes—"Family is real fine. We have been transferred to Bismarck and I now manage the Lincoln-Oakes Nurseries with headquarters at Bismarck. Enjoyed visiting with old friends at the dedication last fall. Hope to see you and many others at the Sec. Meeting of SAF in Fargo this January. Best wishes for the holidays." Thanks, we enjoy your phone calls and your visits, Lee.

**GERALD L. JENSEN** is doing graduate work for the Department of Horticulture and Forestry at Brookings, South Dakota. He writes—"Will be in Brookings March 1st to start doing research work for the forestry department. Family—wife, Judith; daughter, Elizabeth Ann (2½)."

**WILLARD D. KIEFER** reports from Webster, Wisconsin, where he is Assistant District Forester for the Wisconsin Conservation Department.

**THOMAS H. KLEPPERICH** reports from Fawaskin, California, where he is Resource Officer for the U.S.F.S. Big Bear Ranger District, San Bernardino National Forest.

**FRITZ KOEPP** is with the U.S. Forest Service at Pasadena, California. He writes—"I am working in watershed management on the Angler N.F. doing erosion surveys and field studies on fire resistant plants. Mary Ann and I enjoyed visiting Green Hall last summer and talking with those who were there." We enjoyed visiting with you and Mary, Fritz.

**WILLIAM W. LeBARRON** is Forester for the Bureau of Land Management of Susanville, California. He writes—"I've been here in Susanville now for four years with the B.L.M. Hope to stay here a few more years as we just bought a new home. My wife Deanna and the two children are in good spirits."

**CHARLES (CHUCK) LOWERY** is Supt. Parks and Recreation at Mankato, Minnesota. He writes—"Our family has increased by one this year. Lois, Michelle 2½, Shawn 4 mo. and I are enjoying the work and friendly people in Mankato. Anyone coming thru this way stop in." Same to you, Chuck!

**GEORGE F. MENNEL** is Forester for the U. S. Forest Service at Brooklyn, Mississippi. He writes—"Living at Ashe Nursery, Brooklyn, Miss.—Visitors welcome! Have three children—Annette 4 years, Renee 2½ years, and Louis 1½ years."

**GARY NICKANDER** is Sales Engineer at Buffalo, New York. He writes—"My family and I are just getting settled in Buffalo, New York. The relocation is the result of accepting a position with Masonite Corp. as a Sales Engineer."

**VERNON E. OBERG** reports from Clup Creek, Oregon where he is Forester for the U. S. Forest Service.

**DUANE L. PACKER** is Forester for the USFS at Cass Lake, Minnesota. He writes—"Transferred to Cass Lake, Supervisors' office of Chippewa N. F. March, 1964. Am assistant to Timber Mgt. Staff."

**JOY M. PROBASCO** is Forester for the U. S. Forest Service at Groveland, California. He writes—"Visit you in December." We enjoyed chatting with you, Joy.

**LaVERNE G. PUNG** is Technical Development Engineer at City of Industry, California. He writes—"After 4 years devoted to research as Wood Technologist in the Masonite Laboratory in St. Charles, Illinois, we were transferred to sunny California in June, 1964. You can't beat this weather and my new position as Tech. Dev. Engineer is interesting and a challenge."

**FRANK E. SALOMONSON** is Forester—Nursery Administration for the U. S. Forest Service at Haugan, Montana. He writes—"Pat and I are enjoying ourselves here in some of the best elk country in Montana, and would like to stay put for awhile. We welcomed visits from any U of M folks traveling west on U. S. 10. We have a son Jon now 10 months old."

**LOUIS SUDHEIMER** is a Grad Student at the U. of M. at St. Paul, Minnesota. He writes—"After 3 years in the Air Force and a half a year working and touring in Europe, I'm back to the University of Minnesota, this time doing Grad work in the School of Business. This means I'm temporarily located at my old St. Paul home address and

welcome a jingle from those still in the area or those home for visits." It's nice to have you back, Louie.

**EDWARD N. THERRIEN** is Graduate Student at the U. of M. School of Forestry, St. Paul, Minn. He states—"Graduate School, U. of Minn. Still working at L.S.F.E.S. (USFS) on Recreation Research."

## 1961

**ALVIN A. ALM** is Research Assistant at the University of Minnesota for the Forest Research Center at Cloquet, Minnesota. He writes—"Graduate student at U. of Minn. Hope to complete requirements for M.S. degree soon."

**ROBERT H. BARTZ** reports from Polisside, Minnesota where he is Manager of the Younghonnus Sawmill.

**BENNIE BENDTSEN** is Wood Technologist for the Forest Products Lab (USFS) at Madison, Wisconsin. He reports—"Our two oldest boys, Jim and Lee, are in school, the youngest Dan is 4 years and still at home. Carole is very active in church and FPL foundations and always on the go. Moved into a new house about a year ago—we're still walking on plywood floors—I'm building the kitchen cabinets now."

**JAMES A. BROWN** is State Form Forester at Custer, South Dakota. He writes—"Enjoyed last years Peavey especially the increased alumni coverage. We have number three on deck, Molly Anne, born July. Up to my ears in forestry, ranching, and campground named Big Pine Campground. What else? Have new TSI booklet of press now. Hope to see you next fall (if cattle prices come up." We enjoyed your "short" visit to Green Hall, Jim.

**RICHARD A. BUNDY** is with the USFS at Bridgeville, California. He writes—"After graduation I moved to California and became employed with the Forest Service at Mad River. As of now I'm working in Timber Management and really enjoy the work. Mad River is located in Northern California. Although it doesn't get as cold as it does in Minnesota we have snow, which my wife and 3 children enjoy very much."

**EDWIN W. CRAMER** is Agriculturist-Land Management for the U. S. Bureau of Reclamation at Denver, Colorado. He writes—"After being separated from the Army and returning home from Europe in the Spring of 1964, I accepted a position with the U. S. Bureau of Reclamation, Region 7, Denver, Colorado. My title is Agriculturist, but I deal with all phases of Land Management to include recreation and anything concerned with good conservation practices on the Bureau's lands and waters."

**DAVE EGGEN** reports from Park Falls, Wisconsin where he is Assistant Ranger for the U. S. Forest Service.

**PAUL V. ELLEFSON** writes—"Presently a graduate student at the U. of M. On educational leave from the Mendocino NF (USFS) in California where employed as a TMA."

**WILLIAM C. ERICKSON** is Assistant Ranger for the Superior National Forest (USFS) at Tofte, Minnesota. He writes—"Work the same as ever. Busy. Added new member to the family; Mark John joined us last June and growing like a weed."

**RICHARD R. FLANNELLY** reports from Manistee, Michigan, where he is Assistant District Ranger for the U. S. Forest Service.

**ROLAND GERTJEJANSEN** reports from St. Paul, Minnesota, where he is Instructor at the School of Forestry, Univ. of Minnesota. It's nice to have you with us, Rollie and we'll take care of those buses yet!

**DAVID L. GOSSMAN** is Park Ranger (National Park Service) at Big Bend National Park, Texas. He writes—"We're still down here in west Texas in the big pork. Very enjoyable work with lots of variety. If any of you are down this way be sure to stop in."

**GARY E. GNAUCK** reports from Whitmore Lake, Michigan.

**LARRY HENSON** is District Ranger for the Three Lakes R. S. (USFS) at Three Lakes, Wisconsin. He writes—"Moved from Illinois to Wisconsin in January. We had really learned to love the people and climate of Southern Illinois. We are no strangers to the North though and find people and places great wherever we are. Family remains steady at three children." Nice to have you visit at Green Hall, Larry.

**WARREN A. ILLI** is Forester at Roslyn, Washington. He writes—"The big news event of 1964 was my retirement from the U. S. Marine Corps. Now I'm living the leisure of a forester. I'm working for the Northern Pacific Railway, on their upper Yakima tree farm. Second big news event of 1964—my 10 point buck." Good to hear from you, Warren.

**IRVIN L. JOHNSON** is Cruiser and Appraiser for the Bureau of Land Management at Coos Bay, Oregon. He writes—"Everything is fine at our home. My wife and I were blessed with the arrival of a baby boy born on February 2, 1965."

**KENNETH J. JOHNSON** is Assistant Ranger (USFS) at Bergland, Mich. He writes—"Last year was a year of opening days insofar as hunting goes. Got limits of partridge, ducks and pheasants, but only on opening days. We acquired another dog to replace the one that died. This one's a German short-hair pointer named Sonny. Didn't get a deer in Wisconsin, but made up for it on a trip to Montana for 'Mules.' We've moved again, this time in —30° weather, to Bergland, Michigan. I'm back on snow shoes again after two winters of comparatively little snow."

Freshman class . . .

"The next three years  
are even tougher"

**RONALD D. LINDMARK** is Research Forester for the Central States Forest Experiment Station (USFS) at Columbus, Ohio. He writes — "No major changes or events to report since last year at this time. My wife and I thoroughly enjoyed the past summer with trips to Minnesota, the World's Fair, and the New England States. We toured the inland sections of New England and camped on and explored every inch of the coast from Campobello, N. B. to New Haven, Conn. Our favorite place was Boothbay Harbor, Maine. On the more serious side, I have returned to school (Ohio State) and hope to obtain a Ph.D. degree in a couple years. Best wishes to the Peavey Staff. We always look forward to receiving the latest issue." Thanks, Ron, we think we have a real good issue this year.

**KEITH McCAFFERY** is Forest Habitat Ecology Biologist (Wis. Cons. Dept.) at Rhinelander, Wisconsin. He writes — "My wife and I enjoy our new station assignment in Rhinelander. Plenty of water and good hunting. I'm presently studying the summer range and requirements of deer and more particularly the importance of forest openings to deer. Progress is slow but the research is fascinating."

**RICHARD A. MADDEN, JR.** reports from San Diego, Calif. where he is in the U.S. Navy.

**DONALD G. MROCHINSKI** is Sales Representative for the Wood Conversion Co. at Castro Valley, California.

**JAMES G. NEWSTROM** is Safety Engineer for the St. Paul Ins. Co's at New Orleans, Louisiana. He writes — "I joined St. Paul Ins. Co's as a Safety Engineer-Auditor in January 1964. Betty (my wife) and I accepted a transfer to New Orleans Oct. 1st. Here I will travel the state of Louisiana as a Safety Engineer-Auditor. We now reside in Metairie, a suburb of New Orleans."

**WAYNE R. NICOLLS** is Forester for the U.S. Forest Service at Duluth, Minnesota. He writes — "Sorry to make you wait 'til the last reminder before sending my order, but we had a news item that had to get in this year's Peavey; became the father of Heather Sue on March 2. Connie and Heather are both doing fine. So, now we are four (counting the same golden retriever) now getting a little gray around the muzzle, but still turning in outstanding performances during hunting seasons. Still on the staff of the Superior N.F. and weathering the BWCA issues with the rest of the crew. At various SAF meetings I've been running into many of the old gang, too numerous to mention all of them. Some of the pleasantly surprising rendezvous were with 'Zeke' Ravensbourg, in Ely with Iron Range Resources and Dick Manly and Jerry Murphy at the SAF Sectional meeting in St. Paul. Also, it's nice to know that Ken is 'back in the harness' down there at Green Hall." Thanks, Wayne, and we'll be stopping by to see you and Connie in Duluth.

**RUSSELL OETTEL** is District Forester for the Marathon Division of American Can Company at Amasa, Michigan. He writes — "Same place — same job — another new son. Enjoyed having Dennis Youngquist with us for a few months this past summer."

**RICHARD M. PEDERSON** is Assistant Ranger for the U.S. Forest Service at Isabella, Minnesota. He writes — "On March 1st I transferred from a job in timber management on the staff of the Forest Supervisor, Clark National Forest, Rolla, Mo., to Assistant Ranger, Isabella District, Superior National Forest." We enjoyed visiting with you, Dick.

**KENELM W. RUSSELL** is Forester for the Kimberly-Clark Corporation at Norway, Michigan. He writes — "One major item — twins! October 16. Dana (boy) and Leslie (girl) make 4 now. For those contemplating twins, that's the way to have them. Forest Research is as interesting as ever. Best wishes for a successful Peavey." Thanks, Ken, and congratulations to you and the Mrs.

## 1962

**PHIL AUS** is Wildlife Biologist for the Aberdeen AAO, Bureau of Sport, Fisheries & Wildlife at Aberdeen, South Dakota. He writes — "We were transferred to Aberdeen last August (just in time to be a non-resident hunter for all but 2 weeks of the 1964 season). I am enjoying my work as a waterfowl habitat preservation biologist very much and have fallen in love with the Dakota prairies. Family size remains the same. Same number of wives, same number of boys, same number of dogs. Aberdeen is located on U.S. No. 12 and we would appreciate visits from any and all Minnesota people travelling east or west through our town." We enjoyed your visit at Green Hall last summer, Phil.

**RICHARD P. DOUCETTE** is a Grad Student at the University of Colorado Law School, Boulder, Colorado. Good luck, Dick!

**PATRICK J. B. DUFFY** is in the Department of Forestry at Calgary, Alberta, Canada. He writes — "Attended the International Society of Soil Science Congress in Bucharest, Rumania this summer. In addition was a delegate at the International Society of Photogrammetry Congress in Lisbon, Portugal and the UNESCO Conference on 'Principles and Methods of Lufegrating Natural Resource Surveys' using aerial photographs in Toulouse, France."

**WAYNE L. GIBSON** reports from Rhinelander, Wisconsin, where he is Ass't Forest Manager for the American Legion State Forest, Wisconsin Cons. Dept.

**FRANKLIN R. JAEGER** is with the Chicago Northwestern R.R. at St. Paul, Minnesota.

**RICHARD L. JOHNSON** is an Ensign in the U.S. Navy at San Francisco, California. He writes — "Received order to VW-1 Typhoon trackers AGANA, Guam in January after a brief two-week tour in Hawaii. Have traveled over most of the Western Pacific, enjoy the Navy and flying and highly recommend Naval Air. Good luck on this year's Peavey." And the same to you, Dick.

**W. C. KELSO, JR.** reports from Gulfport, Mississippi, where he is Wood Technologist for the Gulfport Creosoting Co. When are you coming up for a visit, Bill?

**JAMES A. KLEIN** is HQ's Company Commander at APO, New York. He writes — "In Karlsruhe, Germany, with 78th Engineer Battalion. Have one girl and 19 months after over here." We have those "old PV's" waiting for you, Jim — say hello to Mary.

**LARRY L. KIRKWOOD** reports from Ogden, Utah, where he is Research Forester for the Intermountain Forest & Range Experiment Station (USFS).

**ROBERT E. LEASE** is Mensurationist for the U.S. Forest Service at Milwaukee, Wisconsin.

**IVAN D. MILLER** reports from Yosemite National Park, California, where he is Park Ranger for the Valley District.

**DONALD T. MYREN** is Graduate Research Assistant, Dept. Plant Pathology at the University of Wisconsin at Madison, Wisconsin. He writes — "Finished the work for my M.S. degree in plant pathology this past summer and am now at the University of Wisconsin continuing my studies in the same field. Added a 'Forester' to the family last summer — July 4 to be exact!"

**TED W. SCHWENKER** is Expediter for the Sussel Company at St. Paul, Minnesota. He states — "Wife, Charlotte, Tim (4), Sally Ann (3) all doing fine."

**HAROLD N. SERSLAND** reports from Pueblo, Colorado, where he is Agriculturist — U.S. Bureau of Reclamation. I'm really sorry that I missed you on your visit to Green Hall, Harold.

**BERNARD L. SKRIVSETH** is Lt. (USNR) at San Francisco, Calif. He writes — "I am presently doing my time off Viet Nam with the U.S. Navy. I will return to San Diego, via Australia, about June at which time I will only have one year left before continuing in Forestry. Greetings to all."

**BOB STRAND** is Nursery Supt. for the Gen. Andrews State Nursery (Minn. Forest Service) at Willow River, Minnesota. He writes — "I have been on the job as Nursery Supt. at General Andrews Nursery since May 1964. The work is interesting and challenging. The family is fine with an addition expected in December."

**WALLACE H. SWANSON, JR.** is Forester for the Bureau of Land Management at Battle Mountain, Nevada. He writes — "Our family has grown to two boys and two girls. Everybody is doing fine. We had a few hundred thousand acres burn up last year, which caused a little excitement around here. Our whole staff worked on fires most of the summer season. I've got a new hobby now. Brewing beer! I've got some ready if anybody cares to venture out to this part of the world."

**WILLIAM D. TORGERSEN** is Forester for the Bureau of Land Management at Prineville, Oregon. He writes — "My 'footloose days' will come to a screeching halt in September as I'm getting married to a Bend girl. I do, however, have another season ticket on Mt. Bachelor for one last fling. Gordy Gray '61 and Lynn Andrews '61 were over last fall for deer. Also saw Rog Sandquist and Bob Panek some before they went East again. Dick Huff '59 is ornery as ever and always difficult to work with."

**FRANCIS J. YURCZYK** reports from McCloud, California, where he is Forester for the U.S. Forest Service.

**MAURICE B. ZIEGLER** is working for the Bureau of Land Management at Montrose, Colorado. He writes — "Should have a family of 4 by Feb. 1965. Adopted a baby boy (David) in April and he should have a playmate before he is a year old. Job is the same but connected with an elk this fall. Next year I'll go after an antelope or big horn sheep if I'm lucky in the license drawing."

## 1963

**DUANE E. ANNIS** is Forester for the South Tongass N.F., Kasaan R.D. (USFS) in Ketchikan, Alaska. He writes — "Working as Forester, South Tongass N.F., Kasaan R.D., headquarters in Ketchikan. Fly to work on Monday, fly home Thursday. Spend a lot of time in outboard skiffs and living on wanigans (float houses). Hunting and fishing pretty good — my record 40 lb. king salmon, 60 lb. halibut. Have one wife, one boy 2 years and one gestating girl 7 months. We don't plan on moving, our web feet won't take it."

**JOHN W. AUSTIN** is at Lake States Forest Experiment Station (USFS), St. Paul, Minnesota. He writes — "Am spending the winter carrying out a timber survey of the state of South Dakota — soon I'll be moving back to Michigan. This last Christmas I became engaged to a most wonderful girl — wedding date not set yet." We enjoy your visits to Green Hall, John.

**WILLIAM F. FIEBER** is Pre-Sale Forester for the U.S. Forest Service at Hoodsport, Washington. He writes — "Ran into Bob Wiggins and Dick Harms at an Oregon State University Regeneration Short Course in May, 1964. Hoodsport District has a first for our area: Wyssen Skyline System."

**RICHARD A. FIHN** is an Appraiser for the U.S. Sports, Fisheries & Wildlife Service at Fergus Falls, Minn. He writes — "Still buying wetlands for the U.S. Fish & Wildlife Service. Completed a two-week Appraisal Course at U. of Chicago in Aug.-Sept. Nothing else new except am still single and have no designs on any one and vice versa, I hope." We enjoy your visits to Green Hall, Dick.

**LARRY L. FOSTER** is Forester for the U.S. Forest Service at Canjilon, New Mexico. He writes — "New Mexico is like another country. I find it a very challenging and interesting place to work."

**WARREN L. HOLZHEID** is Appraiser for the Branch of Realty, U.S. Fish & Wildlife Service at Minneapolis, Minnesota. He writes — "Still working as an Appraiser for the Fish & Wildlife Service. Am happy to be stationed in the R.O. in Minneapolis where I can maintain a close association with old school friends. Casey and I both say Hi to all our friends in school and out. C'mon over, you're always welcome!"

**DARREL L. KENOPS** is Forester for the U.S. Forest Service at Whitebird, Idaho. He writes — "Nothing has changed from last year except that we have one addition. A very large cat. Most of last field season was spent planning and watching the spring flood damage. Best wishes to the Peavey Staff and Forestry Club. Thanks for the Occasional 'Bull of the Woods.'" Thanks, Darrel, you can't expect perfection!

**RONALD E. MATHEWS** reports from Poplar Bluff, Mo., where he is Forester for the U.S. Forest Service, Clark National Forest.

**JAMES E. POTTON** is Park Ranger at Haleakala National Park at Kahului, Maui, Hawaii. He writes — "Aloha, I am employed by the National Park Service as a Park Ranger at Haleakala National Park. True — it is Hawaii, but living above 7,000 feet causes one to believe that it is not a tropical paradise. Fact is, we had a little snow a few thousand feet above us early this week (Jan. 20). We have a spectacular view of the valley below us and the crater itself is a spectacular site so it compensates for the coolness. Am enjoying the position and the extreme friendliness of the Mauians. Our staff consists of seven permanent and four seasonal employees." Sounds tremendous, Jim, and for that recent letter that you sent me — a large "thank you!"

**ROGER A. SANDQUIST** is Sales Representative for the Int'l Paper Company, Long Bell Div., at Des Plaines, Ill. He writes — "Our family is in the process of making its first change in number. We're expecting our first bundle of joy April 29, 1965. I enjoy my job. They've sure given us a chance to see a better part of the U.S. We've lived in 3 apartments and 2 states, Wash. and Ill. since we received the key to success (diploma)."

**BUD SWENDNER** is P.S.O. — Sale Preparation and Administration (USFS) at Placerville, California. He writes — "Survived fires, floods, and income taxes unscathed."

**JACQUES WESSON** is an Ensign on the U.S.S. Fort Marion between Hawaii and Okinawa in the Navy. Mrs. Lee Wesson writes — "My son, Jacques, is an Ensign on the U.S.S. Fort Marion, right now at sea between Hawaii and Okinawa with a load of Marines and equipment for Viet Nam, so I just didn't send this on to him. He is in the Navy for about two more years, stationed out of San Diego at present. The Fort Marion is an LSD (sort of a floating dry dock) which can transport small vehicles, land or water type, and men and material. It is used as a repair ship for small vehicles, or for ferry service as at present. Thanks very much, Mrs. Wesson."

**CONRAD R. WETZEL** is Construction Electrician for U.S. Naval Station at New York, New York, Bermuda. He writes — "Am now a qualified construction electrician in the Seabees and am stationed in Bermuda. Will be discharged April 1, 1965 and hope to return immediately to forestry work. Have been on Bermuda (22 miles by 1 mile at point) for 20 months. Go reserve or OCS — especially like Seabees or CEC." It's nice to have you back, Conrad.

**CHARLES W. ZOSEL** is in the United States Navy at FPO New York. He writes — "I will complete my tour of active duty with the USNR. In March I returned from a nine-month deployment to the Mediterranean, aboard the Forrestal. It will be good to get into my field work this summer, and to be with my wife again. A family addition is scheduled for late March — a future Forester, I hope."

## 1964

**DAVID E. ABELL** is with Timber Preservation for Northern Pacific Railway at Seattle, Washington. He writes — "The frau and I moved to Seattle last August after I got my job with N.P.R.R. We enjoy it here and hope to make this our home. No offspring yet, but I don't know how long I'll be able to make the same report. I'm working for the

Engineer of Timber Preservation, and my present job is to inventory and inspect all the ties, lumber, poles, piling, etc., that NP has treated here on the Coast. This is a sizable amount of wood and keeps me pretty busy. However, there is a little time left over for hunting and next fall I hope to try for an elk."

**DENNIS BRADLEY** reports from St. Paul, Minnesota, where he is Graduate Student for the School of Forestry, University of Minnesota.

**YUEN SAN (PETER) CHEN** is Research Assistant for the School of Forestry, University of Minnesota, St. Paul, Minnesota. He writes — "I received my B.S. in 1956 from National Taiwan University, then served one year and half as a reserve officer, then four and half years teaching assistant at Taiwan Junior Agricultural College, Formosa; Received M.S. in 1964 from U. of M. Married, three children. They are in Formosa." We enjoy having you with us, Peter.

**GARY A. ELFTMANN** is Cartographer Trainee for the Aeronautical Chart and Information Center at St. Louis, Mo.

**JAMES ENGAN** reports from Coyhaique, Chile, where he is in the Peace Corps-Forestry. Thanks for your letters, Jim.

**DENNIS J. ERICKSON** reports from Peskawar, West Pakistan, where he is with the Peace Corps.

**JOHN T. ESCHLE** reports from St. Paul, Minnesota, where he is Research Forester (temporary) at the Lake States Forest Experiment Station (USFS).

**DAVID FISCHER** is Ass't Forester for the Townsend Lumber Company at Townsend, Montana. He writes — "Presently employed as Ass't Forester for Townsend Lumber Co. Work is varied — some scaling, building, logging roads and some work with heavy equipment. Have a 2½ year old daughter — hope for a boy in Feb. All are in good health."

**ROBERT HANCE, JR.** is Forester Trainee at Red Lake Falls, Minnesota. He writes — "Since graduation last June I've been working for Minn. Dept. of Conservation Div. of Forestry as a Forester Trainee. I met a wonderful girl last summer while working in the Brainerd area. We were married last fall and spent our honeymoon on the North Shore while I worked with District Forester at Grand Marais. We are presently at Cloquet, Regional Headquarters for Region 2 and will be going to Hibbing for the Spring fire season. I hope to have a district of my own by June so we can stay in one place long enough to catch our breath."

**ROBERT E. HENNESSY** is Airline Pilot for Northwest Airlines at the Twin City International Airport at Minneapolis, Minnesota. He writes — "I took up flying after graduation last June 1964. Liked it, so went ahead and have my Commercial License, Instrument Rating and Flight Engineers Certificate. Was hired by N.W. Airlines, March 15, 1965."

**JOHN T. KAUPILA** is Superintendent of a Sawmill for the Celotex Ohio Mine Sawmill at Michigamme, Michigan. He writes — "Well, after one year out of school the future looks fairly good. My wife and I adopted a little boy last Christmas. We are sure happy with him. Not too much else going on except, boy, this state has snow."

**THOMAS K. KUPKA** reports from Germany where he is in the Foreign Student Exchange Program.

**MICHAEL D. LANQUIST** reports from Big Falls, Minnesota, where he is Assistant District Forester for the M & O Paper Co.

**GARY R. NORDSTROM** is with the Minnesota National Guard at Fort Knox, Ky., until July 1st. He writes — "Joined the National Guards January 5th and presently stationed at Fort Knox, Ky."

**JERRY OLTMAN** reports from Fairmont, Minnesota.

**DICK PIERSON** reports from Osorno, Chile, where he is with the Peace Corps. We have enjoyed your letters, Dick, and keep up the good work.

**CARL E. PROSEK** reports from Hibbing, Minnesota, where he is Forester for the Dept. of Conservation, Forestry Division.

**MIKE SHANNON** is a Graduate Student at VPI in Blacksburg, Virginia. He writes — "Am attending graduate school at Virginia Polytechnical Institute. Majoring in Forest Economics."

**DAVID V. SMITH** reports from Minneapolis, Minnesota, where he is Forester for the Realty Branch, Bureau of Sport, Fisheries & Wildlife.

**ALBERT P. WHITESELL** reports from Hastings, Nebraska, where he is Appraiser for the U.S. Sport, Fisheries & Wildlife Service.

**LAWSON L. WINTON** is Cytologist in Genetics and Plant Physiology Group for the Institute of Paper Chemistry at Appleton, Wisconsin. He writes — "Accepted position with the Institute Aug. 29, 1964. Will work on Cytology as well as continue work on tissue culture, of species of Populus. Janette and Brian are both fine."

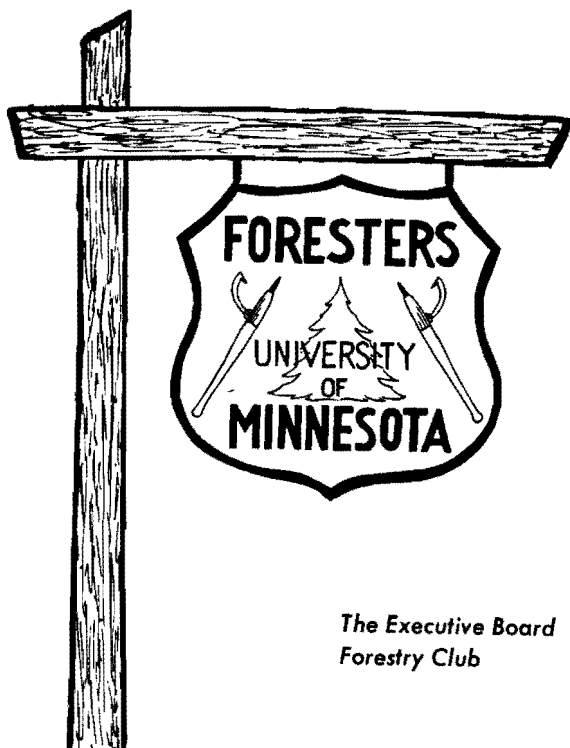

# U of M FORESTRY CLUB

Gentlemen:

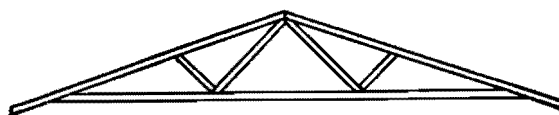

Again this year the activities of the Forestry Club have been a story of continued success. This success does not just happen; it takes cooperation and planning.

So with this in mind, we wish to sincerely thank all who participated and cooperated in the following activities:

INTRAMURAL SPORTS	FORESTERS DAY
BIRD WATCHERS SOCIETY	CANOE TRIP
UPPER MIDWEST CONCLAVE	MIXERS
CHRISTMAS TREE PROJECT	FALL BONFIRE

I hope that you have enjoyed your 1965 Peavey and that you will continue to look at it. I would like to take this space to thank My Staff, the Students, the Alumni, and the Advertisers who have helped make this book possible. Believe me, I couldn't have done it without you. Thanks,

*Mike*

## **"ODE to a FORESTER"**

*by a Female Admirer*

I think a thank you note is due  
To those I loved the most  
The ones I shall take with me  
As a private little ghost

The ones I'll miss so very much  
Wherever I may roam  
The ones who'll make the Cities  
Always seem a bit like home.

I hope that all you never change  
That you keep on standing tall  
And keep reminding campus  
What is learned up in Green Hall

Please keep the campus jumping  
Keep your love and liquor free  
So that more girls will get happiness  
Like that you gave to me.

Give yourselves to others  
But always take your share  
And when guitars are swingin'  
In your hearts please bring me there

The Lord knows the next stop for me  
But He's not about to tell  
But I'll remain a Forester  
Even to the gates of ——— Heaven.

©TNPC

*outdoor recreation is an important product of Northwest timberlands*

Harvesting of trees at just the right maturity in Northwest timberlands contributes to fire prevention and disease and insect control. And every tree harvested is replaced by *more* than one new tree through natural reseeding or by controlled planting supervised by company foresters. Scientific forest management assures thriving forests, sparkling lakes and streams and plenty of fish and game for great outdoor recreation in company woodlands . . . now and in the future.

*Manufacturers of fine printing, writing and converting papers*
