**BG** Специално издание на Официалния Бюлетин на Службата на бщността за сортовете растения (ЦПВО) с информация за крайните срокове за заявки и изискванията за предоставяне на растителен материал (Страница 25)

*Целта на специалното издание на официалния бюлетин е да се предостави на заявителите консолидирана версия на крайните срокове за кандидатстване и изискванията за подаване на растителен материал с оглед на неговата техническа проверка.*

*Специалното издание на официалния бюлетин се извлича веднъж годишно (в средата на февруари) от публикуваната база данни S2/S3, достъпна на уебсайта на Службата. От 15.10.2020 г. публикуваната база данни S2/S3 се актуализира ежедневно на уебсайта на Службата.*

*На разположение е инструмент за търсене, чрез който могат да се следят промените на уебсайта на Службата.*

*За да има възможност да се разгледа историята на записите, всяко специално издание на официалния бюлетин се запазва като pdf документ и остава на разположение за справки на интернет потребителите.*

*От заявителите се изисква да се свържат с ЦПВО, ако информацията за видовете, за които те подават заявление, не е налична. Не забравяйте, че е отговорност на заявителя да се запознае в достатъчна степен с всички аспекти на процедурата за подаване на заявление, включително подробностите относно предоставянето на растителен материал за провеждането на техническата проверка. При подаване на заявление заявителят трябва да е в състояние да предостави растителен материал от сорта си в рамките на срока, с качеството и в количеството, определени от ЦПВО. В противен случай той рискува да получи отказ на заявлението си.*

- 1: Вид възлагане и вид култивиране
- 2: Такси по групи
- 3: Предвидени вегетационни периоди
- 4: Страна
- 5: Изпитващ офис
- 6: Краен срок
- 7: Начална дата на предоставяне
- 8: Крайна дата на предоставяне
- 9: Количество и качество на семената/растенията

#### Важни забележки:

— От заявителя се очаква да предостави растителен материал, едва след като получи писмено искане от ЦПВО. Неспазването на горното указание може да изложи на риск цялата процедура.

— Заявителите се приканват настоятелно да не оставят изпращането на заявките или растителния материал за последния момент.

— Заявките могат да се подават по всяко време. ЦПВО предвижда да започне техническата проверка през периода на отглеждане, който следва крайния срок, при условие че преди изтичане на крайния срок е получена валидна заявка.

— Крайната дата определя началото на техническата проверка. За заявления, носещи дата, която е не по-късно от крайната дата, техническата проверка ще започне през предстоящия период на отглеждане. Ако крайната дата се пада в ден, в който ЦПВО не е отворена за получаване на документи, изпратени по пощата, тогава първият ден, в който ЦПВО е отворена за получаване на документи, изпратени по пощата, става крайна дата. Крайната дата за подаване на заявления по пощата се отнася и за заявленията, подадени по електронен път.

— В случай че растителният материал бъде предоставен след определената дата за подаване, заявката може да бъде отхвърлена съгласно член 61 от Регламент (ЕО) н° 2100/94 на Съвета от 27 юли 1994 година.

— Ако крайният срок изтича на ден, на който ЦПВО не работи и не може да получава документи, срокът се удължава до първия следващ работен ден, на който ЦПВО може да получава документи и на който се доставя обикновена поща, съгласно член 71 от Правилат а за прилагане на Регламент 874/2009 на Европейската комисия от 17/09/2009 година.

— Ако крайният срок изтича на ден, в който службата не работи и не може да получава растителен материал, срокът се удължава до първия следващ работен ден, на който службата за проверка може да получава растителен материал, съгласно член 71 от Правилат а за прилагане на Регламент 874/2009 на Европейската комисия от 17/09/2009 година.

— Предоставеният растителен материал трябва да бъде видимо здрав, да изглежда свеж и да не е засегнат от никакви значителни вредители или болести.

## **CS** Zvláštní vydání úředního věstníku CPVO obsahující informace o datech uzávěrek pro žádosti a požadavky na zasilání rostlinného materiálu (Strana 25)

Účelem zvláštního vydání úředního věstníku je poskytnout žadatelům konsolidované znění zahrnující uzávěrky pro podání žádosti a požadavky na předložení rostlinného materiálu k technickému zkoušení.

Zvláštní vydání úředního věstníku vychází jednou ročně (v polovině února). Jedná se o výtah z věstníku S2/S3 zveřejněného na internetových stránkách úřadu. Od 15. října 2020 je věstník S2/S3 každý den aktualizován na internetových stránkách úřadu.

Při podání žádosti musí být žadatel schopen dodat rostlinný materiál v termínu, kvalitě i množství požadovaném úřadem CPVO. V opačném případě se vystavuje nebezpečí, že jeho žádost bude zamítnuta.

## **DA** Særudgave af EF-Sortsmyndighedens Officielle Tidende indeholdende tidsfrister for ansøgninger og betingelser for indgivelse af plantemateriale (Side 25)

Formålet med særudgaven af den Officielle Tidende er at give ansøgerne en konsolideret udgave af ansøgningsfristerne og kravene til indsendelse af plantemateriale i forbindelse med den tekniske undersøgelse.

Særudgaven af den Officielle Tidende opstilles hvert år (medio februar) på grundlag af S2/S3-publikationen på Sortsmyndighedens websted. Fra den 15. oktober 2020 opdateres S2/S3-publikationen dagligt på Sortsmyndighedens websted.

Der er et søgeværktøj til at finde ændringerne på Sortsmyndighedens websted.

For at gøre det muligt at se registreringshistorikken gemmes særudgaverne af den Officielle Tidende som et PDF-dokument, der fortsat er tilgængeligt for webbrugerne.

Ansøgerne opfordres til at kontakte EF-Sortsmyndigheden, hvis oplysningerne for de ønskede arter ikke er tilgængelige. Husk, at det er ansøgnernes eget ansvar at være bekendt med alle aspekter af ansøgningsproceduren, herunder de nærmere oplysninger om indsendelse af plantemateriale til den tekniske afprøvning. Ved indgivelsen af en ansøgning skal ansøgerne kunne indsende plantematerialet i den mængde og kvalitet samt inden for den tidsfrist, som EF-Sortsmyndigheden anfører. Ellers kan ansøgningen afvises.

- 1: Overdragelsestype og dyrkningsform
- 2: Gebyrgruppe
- 3: Forventede dyrkningsperioder
- 4: Land
- 5: Prøvningsmyndighed
- 6: Frister
- 7: Startdato for indsendelse
- 8: Slutdato for indsendelse
- 9: Mængde og kvalitet af frø/plante

### Vigtigt:

— Ansøgeren skal kun indgive materialet efter skriftlig anmodning fra Sortsmyndigheden. Tilsidesættelse af ovenstående anvisninger kan bringe hele proceduren i fare.

— Det tilrådes kraftigt, at ansøgeren ikke venter til sidste øjeblik med at sende ansøgningen eller plantematerialet.

— Ansøgninger kan indgives på et hvilket som helst tidspunkt i løbet af året. Sortsmyndigheden har til hensigt at påbegynde den tekniske afprøvning i dyrkningsperioden efter ansøgningsfristens udløb, hvis der er modtaget en gyldig ansøgning inden fristens udløb.

— Ansøgningsfristen afgør, hvornår den tekniske afprøvning påbegyndes. For ansøgninger, hvor ansøgningsdatoen ligger inden for ansøgningsfristen, påbegyndes den tekniske afprøvning i den kommende dyrkningsperiode. Falder ansøgningsfristen på en dag, hvor EF-Sortsmyndigheden har lukket for modtagelse af dokumenter, der sendes pr. post, vil fristen være den første efterfølgende dag, hvor EF-Sortsmyndigheden har åbent for modtagelse af dokumenter, der sendes pr. post. Fristen for elektronisk indgivne ansøgninger er den samme som for ansøgninger indgivet pr. post.

— Hvis plantematerialet indsendes efter den fastsatte indsendelsesfrist, kan ansøgningen afvises i henhold til artikel 61 i Rådets forordning (EF) nr. 2100/94 af 27. juli 1994.

— Udløber en frist på en dag, hvor Sortsmyndigheden har lukket for modtagelse af dokumenter, forlænges fristen til den nærmeste hverdag dag, hvor Sortsmyndigheden har åbent for modtagelse af dokumenter, og hvor almindelige postforsendelser udbringes, i henhold til artikel 71 i Kommissionens forordning nr. 874/2009 af 17. september 2009 om gennemførelsesbestemmelser.

— Udløber en frist på en dag, hvor prøvningsmyndigheden har lukket for modtagelse af plantematerialer, forlænges fristen til den nærmeste hverdag dag, hvor prøvningsmyndigheden har åbent for modtagelse af plantematerialer, i henhold til artikel 71 i Kommissionens forordning nr. 874/2009 af 17. september 2009 om gennemførelsesbestemmelser.

— Plantematerialet skal være sundt og frisk uden spor af skadedyr og sygdomme.

Kui andmed asjakohase liigi kohta puuduvad, tuleb võtta sordiametiga ühendust. NB! Taotleja peab teadma taotlusmenetluse kõiki aspekte, samuti taimse materjali registreerimiskatseks saatmise üksikasju. Kui taotleja esitab taotluse, peab ta olema võimeline saatma tähtajaks Ühenduse Sordiametile oma liigi taimset materjali nõutud kvaliteediga ja nõutud koguses. Vastasel juhul võib Ühenduse Sordiamet taotluse tagasi lükata.

### Tähelepanu:

— Taotlejad saavad taimse materjali alles pärast Ühenduse Sordiametilt kirjaliku nõude saamist. Selle juhise eiramine võib kahjustada kogu menetlust.

— Soovitame tungivalt taotlejatele mitte jätta taotluste või taimse materjali saatmist viimasele hetkele.

— Taotlusi võib esitada igal ajal. Juhul kui kehtiv taotlus on laekunud tähtajaks, alustab Ühenduse Sordiamet registreerimiskatsetega tähtajale järgneval kasvuperioodil.

— Registreerimiskatsete algus sõltub lõpptähtajast. Kui taotluse kuupäev on lõpptähtajast varasem, algavad registreerimiskatsed järgmisel kasvuperioodil. Kui lõpptähtaeg langeb päevale, mil Ühenduse Sordiamet ei ole posti teel saadetud dokumentide vastuvõtuks avatud, on lõpptähtaeg esimene päev, mil sordiamet on posti teel saadetud dokumentide vastuvõtuks avatud. Posti teel saadetud taotluste tähtaeg kehtib ka elektrooniliselt esitatavatele taotlustele.

— Kui taimne materjal saadetakse pärast esitamise tähtaega, võidakse taotlus tagasi lükata, vastavalt nõukogu 27. Juuli 1994. aasta määruse (EÜ) nr 2100/94 artiklile 61.

— Kui tähtaeg lõpeb päeval, mil Ühenduse Sordiamet ei ole dokumentide vastuvõtuks avatud, pikendatakse tähtaega sellele järgneva esimese päevani, mil Ühenduse Sordiamet on dokumentide vastuvõtuks avatud ja mil kantakse laiali harilikku posti, vastavalt Euroopa Komisjoni 17/09/2009 aasta määruse nr 874/2009 (rakenduseeskirjad) artiklile 71.

— Kui tähtaeg lõpeb päeval, mil kontrolliasutus ei ole taimse materjali vastuvõtuks avatud, pikendatakse tähtaega sellele järgneva esimese päevani, mil kontrolliasutus on taimse materjali vastuvõtuks avatud, vastavalt Euroopa Komisjoni 17/09/2009 aasta määruse nr 874/2009 (rakenduseeskirjad) artiklile 71.

— Esitav taimne materjal peab olema nähtavalt terve, elujõuline ning olulistest kahjuritest ja haigustest puutumatu.

Σκοπός της δημοσίευσης της ειδικής έκδοσης της επίσημης εφημερίδας είναι να παράσχει στους αιτούντες ενοποιημένη έκδοση των καταληκτικών ημερομηνιών υποβολής αιτήσεων και των απαιτήσεων υποβολής φυτικών υλικών ενόψει της τεχνικής τους εξέτασης.

Η ειδική έκδοση της Επίσημης Εφημερίδας εξάγεται μία φορά ετησίως (μέσα Φεβρουαρίου) από τη δημοσίευση S2/S3 που είναι διαθέσιμη στον δικτυακό τόπο του Γραφείου. Από 15.10.2020, η δημοσίευση S2/S3 επικαιροποιείται καθημερινά στον δικτυακό τόπο του Γραφείου.

Διατίθεται εργαλείο αναζήτησης για τον εντοπισμό των τροποποιήσεων στον δικτυακό τόπο του Γραφείου.

Προκειμένου να καταστεί δυνατός ο έλεγχος του ιστορικού των αρχείων, κάθε ειδική έκδοση της Επίσημης Εφημερίδας αποθηκεύεται ως έγγραφο pdf και παραμένει διαθέσιμη για αναζήτηση στους χρήστες του διαδικτύου.

Οι αιτούντες καλούνται να επικοινωνήσουν με το ΚΓΦΠ εάν δεν είναι διαθέσιμες οι πληροφορίες για τα είδη για τα οποία ενδιαφέρονται. Υπενθυμίζεται ότι είναι ευθύνη του αιτούντος να εξοικειωθεί επαρκώς με όλες τις πτυχές της διαδικασίας υποβολής αίτησης, συμπεριλαμβανομένων των λεπτομερειών σχετικά με την υποβολή φυτικού υλικού για τη διεξαγωγή της τεχνικής εξέτασης. Κατά την κατάθεση της αίτησης, ο αιτών πρέπει να είναι σε θέση να υποβάλει φυτικό υλικό της ποικιλίας του εντός της προθεσμίας και στην ποιότητα και ποσότητα που ορίζει το ΚΓΦΠ. Διαφορετικά, διατρέχει τον κίνδυνο να απορριφθεί η αίτησή του.

- 2: Ομάδα τελών
- 3: Προβλεπόμενες περίοδοι καλλιέργειας
- 4: Χώρα
- 5: Γραφείο εξέτασης
- 6: Καταληκτική ημερομηνία
- 7: Ημερομηνία έναρξης υποβολής
- 8: Ημερομηνία λήξης υποβολής
- 9: Ποσότητα και ποιότητα σπόρου / φυτού

**Σημαντικές επισημάνσεις:**

— Οι αιτών θα υποβάλει το φυτικό υλικό μόνο αφού λάβει σχετικό γραπτό αίτημα από το ΚΓΦΠ. Σε περίπτωση μη συμμόρφωσης με την ανωτέρω οδηγία ενδέχεται να ακυρωθεί ολόκληρη η διαδικασία.

— Συνιστάται ρητώς στους αιτούντες να αποφεύγουν την αποστολή των αιτήσεων και του φυτικού υλικού την τελευταία στιγμή

— Οι αιτήσεις μπορούν να υποβάλλονται οποτεδήποτε. Το ΚΓΦΠ θα ξεκινήσει την τεχνική εξέταση κατά την περίοδο καλλιέργειας μετά την ημερομηνία λήξης της προθεσμίας, εφόσον παραλάβει έγκυρη αίτηση εντός της συγκεκριμένης προθεσμίας

— Η καταληκτική ημερομηνία καθορίζει την έναρξη της τεχνικής εξέτασης. Για τις αιτήσεις των οποίων η ημερομηνία υποβολής αιτήσεων δεν είναι μεταγενέστερη της καταληκτικής ημερομηνίας, η τεχνική εξέταση θα αρχίσει κατά την επόμενη καλλιεργητική περίοδο. Εάν η προθεσμία εκπνέει την ημέρα κατά την οποία το ΚΓΦΠ δεν είναι ανοικτό για την παραλαβή εγγράφων που αποστέλλονται ταχυδρομικώς, η πρώτη ημέρα κατά την οποία το ΚΓΦΠ ανοίγει για την παραλαβή εγγράφων που παραδίδονται ταχυδρομικώς θεωρείται ως η προθεσμία υποβολής. Η προθεσμία υποβολής αιτήσεων μέσω ταχυδρομείου ισχύει και για τις αιτήσεις που υποβάλλονται ηλεκτρονικά.

— Εάν το φυτικό υλικό υποβληθεί μετά τη λήξη της προθεσμίας υποβολής, η αίτηση απορρίπτεται, σύμφωνα με το άρθρο 61 του κανονισμού (ΕΚ) αριθ. 2100/94 του Συμβουλίου, της 27ης Ιουλίου 1994.

— Εάν μια προθεσμία εκπνέει ημέρα κατά την οποία το ΚΓΦΠ δεν είναι ανοικτό για τη παραλαβή εγγράφων, η προθεσμία παρατείνεται μέχρι την επομένη ημέρα κατά την οποία το ΚΓΦΠ ανοίγει για τη παραλαβή εγγράφων και διεξάγεται η διανομή του κανονικού ταχυδρομείου, σύμφωνα με το άρθρο 71 των διαδικαστικών κανόνων, κανονισμός (ΕΚ) αριθ. 874/2009 της Επιτροπής της 17/09/2009.

— Εάν μια προθεσμία εκπνέει ημέρα κατά την οποία το γραφείο εξέτασης δεν είναι ανοικτό για τη λήψη φυτικού υλικού, η προθεσμία παρατείνεται μέχρι την επομένη ημέρα κατά την οποία το γραφείο εξέτασης ανοίγει για τη λήψη φυτικού υλικού, σύμφωνα με το άρθρο 71 των διαδικαστικών κανόνων, κανονισμός (ΕΚ) αριθ. 874/2009 της Επιτροπής της 17/09/2009.

— Το φυτικό υλικό που υποβάλλεται πρέπει να είναι εμφανώς υγιές, εύρωστο και να μην έχει προσβληθεί από σημαντικούς επιβλαβείς οργανισμούς ή ασθένειες

**FR** Edition spéciale du Bulletin officiel de l'Office Communautaire des Variétés Végétales signalant les dates de clôture pour les demandes et les conditions requises pour la soumission du matériel végétal (Page 25)

L'objectif de cette édition spéciale du Bulletin officiel est de fournir aux demandeurs une version consolidée reprenant les dates de clôture des demandes et les conditions requises pour la soumission du matériel végétal en vue de son examen technique.

La publication S2/S3 disponible sur le site web de l'Office propose une fois par an (mi-février) l'édition spéciale du Bulletin officiel. Depuis le 15 octobre 2020, la publication S2/S3 est mise à jour quotidiennement sur le site web de l'Office.

Pour identifier les modifications apportées au site, un outil de recherche est mis à disposition.

Chaque édition spéciale du Bulletin officiel est sauvegardée dans un document au format .pdf qui reste accessible en ligne pour permettre aux internautes de consulter les archives.

Les demandeurs sont invités à prendre contact avec l'OCVV si les informations concernant les espèces qui les intéressent ne sont pas disponibles. N'oubliez pas qu'il appartient au demandeur de se familiariser suffisamment avec tous les aspects de la procédure de demande, y compris les détails sur la soumission du matériel végétal pour la conduite de l'examen technique. Lors du dépôt d'une demande, le demandeur doit être en mesure de soumettre le matériel végétal de sa variété dans les délais, en respectant la qualité et la quantité prescrites par l'OCVV. Dans le cas contraire, il court le risque de voir sa demande rejetée.

- 1: Type d'habilitation et type de culture
- 2: Groupe de taxes
- 3: Nombre de périodes de culture prévues
- 4: Pays
- 5: Office d'examen
- 6: Date de clôture
- 7: Début de soumission
- 8: Fin de soumission
- 9: Quantité et qualité de graines/plants

**Remarques importantes:**

— Le demandeur ne peut présenter le matériel végétal qu'après réception d'une demande écrite de l'OCVV. Le non-respect de l'instruction susmentionnée peut compromettre l'ensemble de la procédure.

— Il est fortement recommandé aux demandeurs de ne pas introduire des demandes ou de ne pas envoyer du matériel végétal à la dernière minute.

— Les demandes peuvent être déposées à tout moment. L'OCVV envisage de débiter l'examen technique lors de la saison de culture suivant la date de clôture, si une demande valide a été reçue avant la date de clôture.

— La date de clôture détermine le début de l'examen technique. Pour les demandes déposées au plus tard à la date de clôture, l'examen technique débutera lors de la saison de culture à venir. Si la date de clôture correspond à un jour où l'OCVV n'est pas ouvert pour recevoir les documents envoyés par la poste, cette date est reportée au premier jour d'ouverture de l'OCVV. La date de clôture des demandes envoyées par la poste s'applique également aux demandes soumises par voie électronique.

— Si du matériel végétal est présenté après la date de fin de présentation, la demande pourrait être rejetée conformément à l'article 61 du règlement (CE) n° 2100/94 du Conseil du 27 juillet 1994 instituant un régime de protection communautaire des obtentions végétales.

— Si un délai expire un jour où l'OCVV n'est pas ouvert pour recevoir des documents, le délai est prorogé jusqu'au premier jour suivant où les documents peuvent être déposés et où le courrier normal est distribué, conformément à l'article 71 du règlement d'application, Règlement de la Commission Européenne No 874/2009 du 17 septembre 2009.

— Si un délai expire un jour où on ne peut présenter de matériel végétal auprès de l'office d'examen, le délai est prorogé jusqu'au premier jour suivant celui où l'office d'examen est ouvert pour le dépôt de matériel végétal, conformément à l'article 71 du Règlement de la Commission Européenne No 874/2009 du 17 septembre 2009.

— Le matériel végétal fourni doit être visiblement sain, vigoureux et exempt d'organismes nuisibles ou de maladies.

**HR** Posebno izdanje Službenog lista Ureda Zajednice za zaštitu biljnih sorti obavješćuje o datumima zatvaranja predaje zahtjeva te preduvjetima za prijavu biljnog materijala (Stranica 25)

Svrha je Posebnog izdanja Službenog lista podnositeljima zahtjeva dostaviti pročišćeni tekst rokova za podnošenje prijave i zahtjeva za podnošenje prijave za biljni materijal s obzirom na njihovo tehničko ispitivanje.

Posebno izdanje Službenog lista objavljuje se jednom godišnje (sredinom veljače) iz publikacije S2/S3 dostupne na mrežnom mjestu Ureda. Od 15. listopada 2020. publikacija S2/S3 svakodnevno se ažurira na mrežnom mjestu Ureda.

Dostupan je alat za pretraživanje kako bi se utvrdile promjene na mrežnom mjestu Ureda.

Kako bi se omogućila provjera povijesti evidencije, svako posebno izdanje Službenog lista pohranjuje se kao PDF dokument (.pdf) i dostupan je korisnicima interneta.

Podnositelji zahtjeva trebaju se obratiti CPVO-u ako informacije za vrste koje razmatraju nisu dostupne. Imajte na umu da je podnositelj zahtjeva odgovoran za to da se u odgovarajućoj mjeri upozna sa svim aspektima postupka podnošenja zahtjeva, među ostalim s pojedinostima o dostavljanju biljnog materijala za potrebe provođenja tehničkog ispitivanja. Pri podnošenju zahtjeva podnositelj zahtjeva mora biti u mogućnosti dostaviti biljni materijal za svoju sortu do isteka roka i u skladu sa zahtjevima u pogledu kakvoće i količine koje je propisao CPVO. U protivnom, njegov zahtjev može biti odbijen.

- 1: Vrsta ovlaštenja i uzgoja
- 2: Skupina naknada
- 3: Predviđena razdoblja rasta
- 4: Država
- 5: Ispitivački ured
- 6: Rok za dostavu
- 7: Datum početka dostavljanja
- 8: Datum završetka dostavljanja
- 9: Količina i kakvoća sjemena/biljke

**Važne napomene:**

— Od podnositelja zahtjeva očekuje se da biljni materijal dostavi tek nakon primitka pisanoga zahtjeva Ureda Zajednice za zaštitu biljnih sorti (CPVO). Nepridržavanje gornjih uputa može ugroziti cijeli postupak.

— Podnositeljima zahtjeva savjetuje se da slanje zahtjeva ili biljnog materijala ne ostavljaju za posljednji trenutak.

— Zahtjevi se mogu podnijeti bilo kada. Ured Zajednice za zaštitu biljnih sorti predviđa početak tehničkog ispitivanja u razdoblju rasta nakon datuma zatvaranja postupka podnošenja zahtjeva ako je važeći zahtjev zaprimljen prije isteka roka za podnošenje zahtjeva.

— Početak tehničkog ispitivanja određuje se prema datumu isteka roka. Za zahtjeve koji su podneseni prije datuma isteka roka tehničko ispitivanje započet će se u predstojećem razdoblju uzgoja. Ako datum isteka roka pada na dan kada CPVO nije otvoren za primanje dokumenata koji se šalju poštom, datum isteka roka bit će prvi dan nakon toga na koji je CPVO otvoren za primanje dokumenata koji se dostavljaju poštom. Odredba o datumu isteka roka za zahtjeve koji se podnose poštom primjenjuje se i na zahtjeve koji se podnose u elektroničkom obliku.

— Ako je biljni materijal dostavljen nakon utvrđenoga roka za dostavu, zahtjev se može odbiti u skladu s odredbama članka 61. Uredbe Vijeća (EZ) br. 2100/94 od 27. srpnja 1994.

— Ako rok istječe na dan kada Ured Zajednice za zaštitu biljnih sorti (CPVO) nije otvoren za zaprimanje dokumenata i kada se dostavlja obična pošta, vremenski rok produljuje se na prvi slijedeći dan kada je Ured (CPVO) otvoren, u skladu s odredbama članka 71. Provedbenih pravila, Uredba Europske komisije br. 874/2009 od 17. rujna 2009.

Provedbenih pravila, Uredba Europske komisije br. 874/2009 od 17. rujna 2009.

**LV** Kopienas Augu šķirņu biroja Oficiālā Vēstneša īpašais izdevums, kas informē par pieteikumu iesniegšanas termiņiem un augu materiāla iesniegšanas prasībām (Lappuse 25)

Oficiālā Vēstneša speciālizlaiduma mērķis ir sniegt iesniedzējiem konsolidētu pieteikumu iesniegšanas termiņu un augu materiāla iesniegšanas prasību versiju, ņemot vērā to tehnisku izskatīšanu.

Oficiālā Vēstneša īpašo izdevumu reizi gadā (februāra vidū) sagatavo no S2/S3 publikācijas, kas pieejama Biroja tīmekļa vietnē. Kopš 2020. gada 15. oktobra S2/S3 publikāciju Biroja tīmekļa vietnē katru dienu atjaunina.

Lai apzinātu izmaiņas Biroja tīmekļa vietnē, ir pieejams meklēšanas rīks.

Lai varētu pārbaudīt ierakstu vēsturi, katrs Oficiālā Vēstneša speciālizlaidums tiek saglabāts kā .pdf dokuments un ir pieejams konsultācijām tīmekļa lietotājiem.

Ja informācija par pieteikuma iesniedzēju interesējošām sugām nav pieejama, viņi tiek lūgti sazināties ar CPVO. Jāatceras, ka pieteikuma iesniedzēja pienākums ir pietiekami rūpīgi iepazīties ar visiem pieteikuma iesniegšanas procedūras aspektiem, tostarp informāciju par augu materiāla iesniegšanu tehniskās pārbaudes veikšanai. Iesniedzot pieteikumu, pieteikuma iesniedzējam jāspēj iesniegt pieteiktās šķirnes augu materiālu CPVO noteiktajā termiņā, kvalitātē un daudzumā. Pretējā gadījumā pastāv risks, ka viņa pieteikums tiks noraidīts. Informācijas un prasību struktūra dalījumā pa sugām, kas darīta pieejama pieteikuma iesniedzējiem.

- 1: Pilnvarojuma veids un audzēšanas veids
- 2: Maksas grupa
- 3: Paredzamie audzēšanas ciklis
- 4: Valsts
- 5: Pārbaudes iestāde
- 6: Termiņš
- 7: Iesniegšanas datuma sākums
- 8: Iesniegšanas datuma beigas
- 9: Sēklu/augu daudzums un kvalitāte

**Svarīgas piezīmes:**

— Iesniedzējs iesniedz augu materiālu tikai pēc CPVO rakstiska pieprasījuma saņemšanas. Minētā noteikuma neievērošana var apdraudēt visu procedūru.

— Pieteikumu iesniedzējiem neiesaka kavēties ar pieteikumu vai augu materiāla nosūtīšanu līdz pēdējam brīdim.

— Pieteikumus var iesniegt jebkurā laikā. KAŠB paredz sākt tehnisko pārbaudi nākamajā veģetācijas periodā pēc iesniegšanas termiņa, ja derīgs pieteikums ir saņemts pirms attiecīgā iesniegšanas termiņa beigām.

— Iesniegšanas termiņš nosaka tehniskās pārbaudes sākumu. Pieteikumiem, kuru piemērošanas datums ir ne vēlāks kā iesniegšanas termiņš, tehniskā pārbaude tiks sākta nākamajā audzēšanas periodā. Ja termiņš iekrīt dienā, kad CPVO ir slēgts pa pastu nosūtītu dokumentu pieņemšanai, tad par beigu datumu kļūst pirmā diena, kurā CPVO ir atvērts pa pastu nosūtītu dokumentu pieņemšanai. Iesniegšanas termiņš pieteikumiem, ko sūta pa pastu, attiecas arī uz pieteikumiem, ko iesniedz elektroniski.

— Ja augu materiāls iesniegts pēc noteiktā iesniegšanas termiņa, pieteikumu var noraidīt saskaņā ar 1994. gada 27. jūlija Padomes Regulas (EK) Nr. 2100/94 61. pantu.

— Ja termiņš izbeidzas dienā, kad CPVO dokumentus nepieņem, tas tiek pagarināts līdz pirmajai nākamajai dienai, kad CPVO pieņem dokumentus un kad saņem parasto pastu, saskaņā ar 2009. gada 17. septembra Eiropas Komisijas regulas Nr. 874/2009 Īstenošanas noteikumu 71.pantu.

## **LT** Bendrijos augalų veislių tarnybos oficialiojo biuletenio specialusis leidimas, informuojantis apie galutinę paraiškų pateikimo datą ir augalinės medžiagos pateikimo reikalavimus (Puslapis 25)

Oficialiojo žurnalo specialiojo numerio paskirtis - pateikti pareiškėjams galutinių datų, iki kurių reikia pateikti paraiškas ir įvykdyti augalų medžiagos pateikimo techninei ekspertizei reikalavimus, konsoliduotą versiją.

Oficialiojo žurnalo specialusis numeris rengiamas vieną kartą per metus (vasario viduryje). Tam naudojamas Tarnybos svetainėje skelbiamas leidinys S2/S3. Nuo 2020 m. spalio 15 d. leidinys S2/S3 Tarnybos svetainėje atnaujinamas kasdien.

Tarnybos svetainėje padarytus pakeitimus galima rasti pasitelkiant joje pateiktą paieškos priemonę.

Kad būtų galima peržiūrėti įrašų istoriją, kiekvienas Oficialiojo žurnalo specialusis numeris išsaugomas .pdf formato dokumente, kuris skelbiamas svetainėje.

Jei informacijos apie reikiamą rūšį nėra, pareiškėjai raginami susisiekti su BAVT. Primename, kad pats pareiškėjas privalo pasidomėti visais paraiškos teikimo procedūros aspektais, taip pat smulkiai išsiaiškinti, kaip pateikti augalinę medžiagą techninei ekspertizei atlikti. Teikdamas paraišką pareiškėjas privalo turėti galimybes iki nustatyto termino pateikti BAVT nustatytus kokybės bei kiekio reikalavimus atitinkančią norimos veislės augalinę medžiagą. Priešingu atveju jo paraiška gali būti atmesta.

- 1: Patikėjimo rūšis ir auginimo būdas
- 2: Mokesčio grupė
- 3: Numatomi auginimo laikotarpiai
- 4: Šalis
- 5: Ekspertizės tarnyba
- 6: Galutinė data
- 7: Pateikimo pradžios data
- 8: Pateikimo pabaigos data
- 9: Sėklų (augalo) kiekis ir kokybė

### Svarbi informacija:

— Pareiškėjas augalinę medžiagą gali pateikti tik tuomet, kai BAVT to pareikalauja raštu. Nesilaikant šio reikalavimo, procedūra gali būti nutraukta.

— Rekomenduojama paraiškas ir augalinę medžiagą pateikti laiku (nelaukiant iki paskutinės dienos).

— Paraiškas galima užpildyti bet kuriuo metu. BAVT numato pradėti techninę ekspertizę auginimo laikotarpiu po galutinės paraiškų pateikimo dienos, jei ji galiojančią paraišką gavo iki galutinės paraiškų pateikimo datos.

— Techninės ekspertizės pradžia priklauso nuo galutinės datos. Paraiškų, kurių pateikimo data yra ne vėlesnė nei galutinis terminas, techninė ekspertizė bus pradėta per kitą auginimo laikotarpį. Jeigu galutinis terminas sutampa su diena, kurią BAVT negali priimti paštu siunčiamų dokumentų, tuomet galutiniu terminu bus laikoma pirmoji diena, kurią BAVT gali priimti paštų atsiųstus dokumentus. Galutinis paštu teikiamoms paraiškoms galiojantis terminas taikomas ir elektroniniu būdu teikiamoms paraiškoms.

— Jei augalinė medžiaga pateikiama po galutinės jos pateikimo datos, paraiška gali būti atmesta pagal 1994 m. liepos 27 d. Tarybos reglamento (EB) Nr. 2100/94 61 straipsnį.

— Jei nustatytas terminas yra tokia diena, kurią BAVT nepriima dokumentų, jis pratęsiamas iki kitos dienos, kurią BAVT priima dokumentus ir kurią teikiamos įprastinės pašto paslaugos, kaip nustatyta 2009 m. rugsėjo 17 d. Europos Komisijos Reglamento Nr.874/2009 įgyvendinimo taisyklių 71 straipsnyje.

— Jei nustatytas terminas yra tokia diena, kurią ekspertizės tarnyba nepriima augalinės medžiagos, jis pratęsiamas iki kitos dienos, kurią ekspertizės tarnyba priima augalinę medžiagą, kaip nustatyta 2009 m. rugsėjo 17 d. Europos Komisijos Reglamento Nr.874/2009 įgyvendinimo taisyklių 71 straipsnyje.

— Pateikiama augalinė medžiaga iš pažiūros turi atrodyti sveika, nesuglebusi ir negali būti sugadinta kenkėjų ar ligų.

**HU** A CPVO Hivatalos Közlönyének speciális kiadványa-tájékoztató a kérelmek beadásának határidejéről és a növényi minták benyújtásához kapcsolódó követelményekről (Oldal 25)

A Hivatalos Közlöny különleges kiadásának célja, hogy a bejelentőket tájékoztassa a bejelentések benyújtására vonatkozó egységesített határidőkről, valamint a növényi anyagok szakmai ellenőrzésre történő beküldésére vonatkozó előírásokról.

A Hivatalos Közlöny különleges kiadása évente egyszer (február közepén) a Hivatal weboldalán elérhető S2/S3 kiadványból kerül kivonatolásra. 2020. október 15-től az S2/S3 kiadványt naponta frissítik a Hivatal weboldalán.

A módosítások azonosítására keresőeszköz áll rendelkezésre a Hivatal weboldalán.

A korábbi bejegyzések ellenőrzése érdekében a Hivatalos Közlöny minden egyes különleges kiadásának .pdf formátumban elmentett változata betekintés céljából a webes felhasználók rendelkezésére áll.

A kérelmezőknek kapcsolatba kell lépniük a CPVO-val, ha az általuk keresett fajtákra vonatkozó információk nem állnak rendelkezésre. Kérjük a figyelmet, hogy a kérelmező felelőssége, hogy kellő mértékben megismerje a kérelmezési eljárás valamennyi aspektusát, beleértve a növényi minta szakmai vizsgálat céljából történő benyújtására vonatkozó részleteket is. A bejelentés benyújtásakor a bejelentőnek képesnek kell lennie arra, hogy a fajta növényi mintáját a CPVO által előírt határidőn belül, minőségben és mennyiségben nyújtsa be. Ellenkező esetben fennáll a veszélye annak, hogy kérelmét elutasítják.

- 1: Megbízás típusa és termesztés típusa
- 2: Díj csoport
- 3: A tervezett termesztési ciklusok száma
- 4: Ország
- 5: Ellenőrző Hivatal
- 6: Benyújtási határidő
- 7: A szaporítóanyag beküldés kezdeti időpontja
- 8: A szaporítóanyag beküldés végső időpontja
- 9: Mag/Növény mennyiség és minőség

**Fontos megjegyzés:**

— A kérelmet benyújtónak csak akkor kell elküldenie a szaporítóanyag mintát, miután a CPVO-tól írásos nyilatkozatot átvette. Az említett utasítás be nem tartása az egész eljárást veszélyezteteti.

— A kérelmezőknek nem tanácsos a kérelmek vagy a növényi szaporítóanyag minták benyújtásnak elküldését az utolsó pillanatra halasztaniuk.

— Kérelmet bármikor be lehet nyújtani. A CPVO a technikai vizsgálat megkezdését a benyújtási határidőt követő termesztési időszakra irányozza elő, ha az érvényes kérelem a benyújtási határidő lejártá előtt beérkezett.

— A bejelentési határidő meghatározza a technikai vizsgálatok kezdetét. A bejelentési határidő előtti bejelentések esetében a technikai vizsgálatok a következő vizsgálati ciklusban megkezdődnek. Amennyiben a benyújtási határidő olyan napra esik, amikor a Hivatal zárva van, a benyújtási határidő a következő olyan nap lesz, amikor a Hivatal nyitva van és át tudja venni a postai küldeményeket. A postai úton benyújtott pályázatok benyújtási határideje az elektronikus úton benyújtott pályázatokra is vonatkozik.

— A beküldési határidő lejártát követően beküldött növényi szaporítóanyag minták esetében a kérelmet az 1994. július 27-i, 2100/94/EK tanácsi rendelet 61. cikke alapján vissza lehet utasítani.

— Amennyiben egy határidő olyan napon jár le, amikor a CPVO nem fogad dokumentumokat, a határidőt -a 17/09/2009, 874/2009/EK bizottsági rendelet végrehajtási szabályainak 71. cikke szerint az első olyan napig hosszabbítják meg, amelyen a CPVO fogad dokumentumokat, és amelyen a szokványos postai küldemények érkeznek.

— Amennyiben egy határidő olyan napon jár le, amikor a CPVO nem vesz át szaporítóanyag mintákat, a határidőt -a 17/09/2009, 874/2009/EK bizottsági rendelet végrehajtási szabályainak 71. cikke szerint - az első olyan napig hosszabbítják meg, amelyen a hivatal átvesz növényi mintákat.

— A benyújtott növénymintának láthatóan egészségesnek, életerőnek kell lennie, illetve nem szenvedhet jelentős kártevő vagy kórokozó fertőzéstől.

Għall-applikazzjonijiet b'data tal-applikazzjoni li ma tkunx aktar tard mid-data tal-gheluq, l-eżami tekniku jibda fil-perjodu tat-tkabbir li jmiss. Jekk id-data tal-gheluq taħbat f'jum li fih is-CPVO ma jkunx miftuħ b'ix jirċievi dokumenti mid-għuta permezz ta' servizz postali, allura l-ewwel jum li fih is-CPVO jkun miftuħ b'ix jirċievi d-dokumenti kkonsenjati bil-posta għandu jsir id-data tal-gheluq. **PL** Specjalne wydanie urzędowej gazety CPVO informacja o ostatecznym terminie składania wniosków oraz o wymogach dotyczących przesyłania materiału roślinnego (Strona 25)

Celem wydania specjalnego Urzędowej Gazety jest przedstawienie wnioskodawcom skonsolidowanej wersji dotyczącej ostatecznych terminów składania wniosków oraz wymogów dotyczących dostarczania materiału roślinnego w celu badania technicznego.

Wydanie specjalne Urzędowej Gazety ukazuje się raz w roku (w połowie lutego), a jego treść pochodzi z publikacji S2/S3 dostępnych na stronie internetowej Wspólnotowego Urzędu Ochrony Odmian Roślin (CPVO). Od 15.10.2020 r. treść publikacji S2/S3 jest codziennie aktualizowana na stronie internetowej Urzędu.

Na stronie internetowej Urzędu dostępne jest narzędzie wyszukiwania, które umożliwia identyfikację zmian na stronie.

W celu umożliwienia sprawdzenia historii wpisów każde wydanie specjalne Urzędowej Gazety jest zapisywane jako dokument pdf i jest dostępne do wglądu dla internautów.

Jeśli informacje dotyczące określonych gatunków nie są dostępne, wnioskodawcy powinni skontaktować się z CPVO. Należy pamiętać, że wnioskodawca ma obowiązek odpowiedniego zapoznania się ze wszystkimi aspektami procedury składania wniosku, w tym ze szczegółowymi informacjami w zakresie dostarczenia materiału roślinnego do badania technicznego. Składając wniosek, wnioskodawca musi być w stanie przedłożyć materiał roślinny swojej odmiany w wyznaczonym terminie oraz w jakości i ilości określonych przez CPVO. W przeciwnym razie naraża się na odrzucenie wniosku.

- 1: Rodzaj upoważnienia i rodzaj uprawy
- 2: Grupa opłat
- 3: Przewidywane cykle wegetacji
- 4: Kraj
- 5: Urząd badawczy
- 6: Termin zamknięcia
- 7: Data początkowa dostarczania materiału
- 8: Data końcowa dostarczania materiału
- 9: Ilość i jakość materiału siewnego/ roślin

**Ważne uwagi:**

- Wnioskodawca winien wysłać materiał roślinny jedynie na pisemne żądanie WUOR. Niezastosowanie się do powyższych zaleceń może negatywnie wpłynąć na przebieg postępowania.
- Wnioskodawcy nie zaleca się wysyłanie wniosków lub materiału roślinnego w ostatnim momencie.
- Zgłoszenia może składać w każdym czasie. CPVO zamierza rozpocząć badanie techniczne w okresie wzrostu przypadającym po dacie zamknięcia, pod warunkiem, że ważny wniosek został złożony przed upływem ostatecznego terminu.
- Ostateczny termin składania wniosków jest datą wyznaczającą rozpoczęcie badania technicznego. W przypadku wniosków z datą złożenia przypadającą nie później niż w ostatecznym terminie składania wniosków badanie techniczne rozpocznie się w najbliższym okresie wegetacji. Jeśli ostateczny termin składania wniosków przypada w dniu, w którym w CPVO nie można odebrać dokumentów przesyłanych pocztą ze względu na zamknięcie urzędu, to ostatecznym terminem składania wniosków staje się pierwszy dzień, w którym CPVO jest otwarty i może odebrać dokumenty dostarczone pocztą. Ostateczny termin składania wniosków dostarczanych pocztą ma zastosowanie również do wniosków dostarczanych elektronicznie.
- Jeżeli materiał roślinny zostanie złożony po ustalonej dacie składania materiału, wniosek może zostać odrzucony na mocy art. 61 rozporządzenia Rady (WE) nr 2100/94 z dnia 27 lipca 1994 r.
- Jeżeli dany termin upływa w dniu, w którym WUOR nie przyjmuje dokumentów, termin ten zostaje przedłużony do pierwszego kolejnego dnia, w którym WUOR jest otwarty do celów przyjmowania dokumentów oraz w którym dostarczana jest zwyczajna poczta, zgodnie z art. 71 przepisów wykonawczych, rozporządzenie Komisji Europejskiej nr 874/2009 z dnia 17/09/2009.
- Jeżeli dany termin upływa w dniu, w którym urząd badawczy nie przyjmuje materiałów roślinnych, termin ten zostaje przedłużony do pierwszego dnia, w którym urząd badawczy jest otwarty do celów przyjmowania materiału roślinnego, zgodnie z art. 71 przepisów wykonawczych, rozporządzenie Komisji Europejskiej nr 874/2009 z dnia 17/09/2009.
- Dostarczony materiał roślinny powinien charakteryzować się wyraźnie zdrowym wyglądem i żywotnością, nie powinien też być poważnie zaatakowany przez szkodniki ani dotknięty istotnymi chorobami.

**RO** Ediție specială a Buletinului Oficial al OCSP cuprinzând informații privind termenele de depunere a cererilor și condițiile de depunere a materialului vegetal (Pagina 25)

Scopul ediției speciale a Buletinului oficial este de a oferi solicitanților o versiune consolidată a informațiilor privind termenele de depunere a cererilor și condițiile de depunere a materialului vegetal în vederea examinării tehnice a acestuia.

Ediția specială a Buletinului oficial este extrasă o dată pe an (la jumătatea lunii februarie) din publicația S2/S3 disponibilă pe site-ul Oficiului. Începând cu data de 15.10.2020, publicația S2/S3 a fost actualizată zilnic pe site-ul Oficiului.

Pentru a identifica modificările de pe site-ul Oficiului, este disponibil un instrument de căutare.

Pentru a permite verificarea istoricului înregistrărilor, fiecare ediție specială a Buletinului oficial este salvată ca document .pdf și rămâne disponibilă spre consultare pentru utilizatorii site-ului.

Solicitanții trebuie să contacteze OCSP dacă informațiile referitoare la speciile pe care le au în vedere nu sunt disponibile. Vă rugăm să rețineți că este de responsabilitatea solicitantului să cunoască suficient de bine toate aspectele procedurii de depunere a cererii, inclusiv detaliile privind depunerea materialului vegetal pentru efectuarea examinării tehnice. La depunerea unei cereri, solicitantul trebuie să poată depune material vegetal din soiul respectiv, cu respectarea termenelor, a cantității și calității prescrise de OCSP. În caz contrar, se expune riscului ca cererea sa să fie respinsă.

- 1: Tipul de încredințare a responsabilității și tipul cultivării
- 2: Grupul de taxe
- 3: Numărul prevăzut al perioadelor de de vegetație
- 4: Țara
- 5: Oficiul de examinare
- 6: Termenul de depunere
- 7: Începutul perioadei de depunere
- 8: Sfârșitul perioadei de depunere
- 9: Cantitatea și calitatea semințelor/plantelor

**Observații importante:**

— Solicitantul nu trebuie să depună materialul vegetal decât după primirea unei invitații în scris în acest sens de la OCSP. Nerespectarea acestei instrucțiuni poate compromite întreaga procedură.

— Se recomandă în mod expres solicitanților să nu amâne expedierea cererilor sau a materialului vegetal până în ultima clipă.

— Cererile pot fi depuse în orice moment. OCSP preconizează să înceapă examinarea tehnică în perioada de cultură care urmează după termenul de depunere, dacă a fost primită o cerere valabilă până la termenul de depunere.

— Termenul de depunere a cererilor determină începerea examinării tehnice. Pentru cererile care au o dată de aplicare până cel târziu la termenul de depunere a cererilor, examinarea tehnică va începe în perioada de vegetație ulterioară. Dacă termenul de depunere a cererilor cade într-o zi în care nu se pot depune la OCSP documente trimise prin poștă, atunci termenul respectiv este prima zi în care se pot depune la OCSP documentele trimise prin poștă. Termenul de depunere a cererilor trimise prin poștă se aplică și cererilor trimise pe cale electronică.

— În cazul în care materialul vegetal este depus după termenul de depunere fixat, cererea poate fi refuzată în conformitate cu articolul 61 din Regulamentul (CE) nr. 2100/94 al Consiliului din 27 iulie 1994.

— În cazul în care termenul de depunere expiră într-o zi în care nu se primesc documente la OCSP, termenul se prelungește până în prima zi imediat următoare în care se primesc documente la OCSP și în care se distribuie corespondența obișnuită, în conformitate cu articolul 71 din Normele de aplicare a Regulamentului (CE) nr. 874/2009 al Comisiei Europene din 17/09/2009.

— În cazul în care un termen de depunere expiră într-o zi în care nu se primește material vegetal la oficiul de examinare, perioada de depunere se prelungește până în prima zi imediat următoare în care oficiul de examinare primește material vegetal, în conformitate cu articolul 71 din Normele de aplicare a Regulamentului (CE) nr. 874/2009 al Comisiei Europene din 17/09/2009.

— Materialul vegetal depus trebuie să fie în mod vizibil sănătos, viguros și neafectat de dăunători sau de boli semnificative.

## **SK** Zvláštne vydanie Úradného vestníka CPVO oznamujúce dátumy uzávierky prihlášok a požiadavky na predloženie rastlinného materiálu (Strana 25)

Účelom mimoriadneho vydania úradného vestníka je poskytnúť žiadateľom konsolidovanú verziu lehôt na predkladanie žiadostí a požiadaviek týkajúcich sa predkladania rastlinného materiálu, pokiaľ ide o jeho odborné preskúmanie.

Mimoriadne vydanie úradného vestníka sa vydáva raz ročne (v polovici februára) a ide o výťah z publikácie S2/S3 dostupnej na webovej stránke úradu. Od 15. októbra 2020 sa publikácia S2/S3 na webovej stránke úradu denne aktualizuje.

Na vyhl'adávanie zmien na webovej stránke úradu je k dispozícii vyhl'adávací nástroj.

Každé mimoriadne vydanie úradného vestníka sa ukladá ako dokument vo formáte PDF a zostáva používateľom k dispozícii na nahliadnutie, aby si mohli prezrieť históriu záznamov.

V prípade, že informácie týkajúce sa určitého druhu nie sú k dispozícii, žiadame žiadateľov, aby sa obrátili na úrad CPVO. Majte prosím na pamäti, že je povinnosťou žiadateľa oboznámiť sa dostatočne so všetkými aspektami procesu podávania žiadostí vrátane informácií o predložení rastlinného materiálu pre odborné preskúmanie. Pri podaní žiadosti musí byť žiadateľ schopný predložiť rastlinný materiál jeho odrody v požadovanom termíne, v kvalite a množstve stanovenom úradom CPVO. V opačnom prípade sa vystavuje riziku, že jeho žiadosť bude zamietnutá.

- 1: Typ poverenia a typ pestovania
- 2: Skupina poplatku
- 3: Predpokladaný počet vegetačných období
- 4: Krajina
- 5: Skúšobný úrad
- 6: Dátum uzávierky
- 7: Dátum začiatku dodania materiálu

### Dôležité upozornenia:

— Prihlasovateľ dodá množiteľský materiál len vtedy, keď ho o to písomnou formou požiada CPVO. Nesplnenie tohto pokynu môže ohroziť celkový priebeh konania.

— Prihlasovateľom odporúčame, aby si zasielanie prihlášok alebo rastlinného materiálu nenechávali na poslednú chvíľu.

— Prihlášky možno predložiť kedykoľvek. CPVO plánuje začať technické preskúmanie v rastovom období po uzávierke, ak bola do uzávierky prijatá platná prihláška.

— Záverečný termín uzávierky určuje začiatok odborného preskúmania. Pre žiadosti s dátumom podania najneskôr v deň uzávierky začne odborné preskúmanie v nadchádzajúcom vegetačnom období. V prípade, že dátum uzávierky pripadá na deň, kedy CPVO neprijíma dokumenty zaslané poštou, potom sa za dátum uzávierky bude považovať prvý deň, kedy úrad prijíma dokumenty zaslané poštou. Dátum uzávierky pre žiadosti zaslané poštou platí aj pre žiadosti predložené elektronicky.

— Ak sa rastlinný materiál predloží po stanovenom dátume na predkladanie, prihláška môže byť zamietnutá v súlade s článkom 61 nariadenia Rady (ES) č. 2100/94 z 27. júla 1994.

— Ak stanovená lehota uplynie v deň, kedy CPVO dokumenty neprijíma, stanovená lehota sa predĺži do najbližšieho ďalšieho dňa, kedy CPVO prijíma dokumenty a kedy sa prijíma bežná pošta, v súlade s článkom 71 vykonávacích predpisov nariadenia Komisie č. 874/2009 zo 17. septembra 2009.

— Ak stanovená lehota uplynie v deň, kedy skúšobný úrad neprijíma rastlinný materiál, stanovená lehota sa predĺži do najbližšieho ďalšieho dňa, kedy skúšobný úrad prijíma rastlinný materiál, v súlade s článkom 71 vykonávacích predpisov nariadenia Komisie č. 874/2009 zo 17. septembra 2009.

— Dodaný rastlinný materiál by mal byť viditeľne zdravý, čerstvý a nemal by byť napadnutý žiadnymi chorobami alebo škodcami.

## **SL** Posebna izdaja Uradnega glasila Urada skupnosti za rastlinske sorte o rokih za oddajo prijave in o zahtevah za predložitev rastlinskega materiala (Stran 25)

Namen posebne izdaje uradnega lista je prijaviteljem zagotoviti prečiščeno različico rokov za oddajo prijav in zahtev za predložitev rastlinskega materiala zaradi njihovega preskušanja.

Posebna izdaja uradnega lista se objavi enkrat na leto (sredi februarja) na osnovi publikacije S2/S3, ki je na voljo na spletni strani urada CPVO. Od 15. oktobra 2020 se publikacija S2/S3 dnevno posodablja na spletni strani urada.

Za opredelitev sprememb na spletni strani urada je na voljo iskalno orodje.

Da se omogoči preverjanje zgodovine evidenc, se vsaka posebna izdaja uradnega lista shrani v obliki PDF in je še vedno na voljo spletnim uporabnikom.

Prijavitelje se poziva, da se obrnejo na urad CPVO, če informacije za zadevne vrste niso na voljo. Upoštevajte, da se je prijavitelj dolžan v zadostni meri seznaniti z vsemi vidiki postopka prijave, vključno s podrobnostmi o predložitvi rastlinskega materiala za izvedbo preskušanja. Ob vložitvi prijave mora biti prijavitelj sposoben zagotoviti in predložiti rastlinski material svoje sorte do roka in v količini ter kakovosti, kot jih predpiše urad CPVO. V nasprotnem primeru tvega, da bo njegova prijava zavrnjena.

- 1: Vrsta pooblastitve in vrsta gojenja
- 2: Razred za plačilo pristojbin
- 3: Predvideni rastni cikli
- 4: Država
- 5: Urad za preskušanje sort
- 6: Rok za oddajo
- 7: Predložitve se začne
- 8: Predložitev se konča
- 9: Količina in kakovost semena/rastlin

### Pomembno:

— Od prijavitelja se pričakuje, da predloži rastlinski material šele, ko od CPVO prejme pisno zahtevo. Neizpolnjevanje zgoraj navedenega navodila lahko ogrozi celoten postopek.

— Prijaviteljem svetujemo, da s pošiljanjem prijav ali rastlinskega materiala ne čakajo na zadnji trenutek.

— Prijave se lahko vložijo kadar koli. CPVO predvideva začetek preskušanja v obdobju rasti po roku za oddajo prijav, če je bila veljavna prijava prejeta do tega roka.

— Rok za oddajo prijav določa začetek preskušanja. Za prijave z datumom, ki ni poznejši od roka za oddajo prijav, se preskušanje začne v prihodnji rastni dobi. Če rok za oddajo prijav poteče na dan, ko urad ni odprt za sprejem dokumentov, poslanih po pošti, se kot rok za oddajo prijav šteje prvi dan, ko je urad odprt za sprejem dokumentov, poslanih po pošti. Rok za oddajo prijav, poslanih po pošti, velja tudi za prijave, predložene elektronsko.

— Če je rastlinski material predložen po roku za predložitev, se lahko prijava zavrne v skladu s členom 61 Uredbe Sveta (ES) št. 2100/94 z dne 27. julija 1994.

— Če rok poteče na dan, ko CPVO ni odprt za sprejem dokumentov, se rok podaljša do prvega dne, ko je CPVO odprt za prejem dokumentov in na katerega se opravlja dostava navadne pošte, kar je v skladu s členom 71 Uredbe Evropske komisije št. 874/2009 z dne 17. September 2009.

— Če rok poteče na dan, ko urad za preskušanje sort ni odprt za sprejem rastlinskega materiala, se rok podaljša do prvega dne, ko je urad za preskušanje sort odprt za prejem rastlinskega materiala, kar je v skladu s členom 71 Uredbe Evropske komisije št. 874/2009 z dne 17. September 2009 o uvedbi izvedbenih pravil.

— Predloženi rastlinski material mora izkazovati zdravje, vitalnost ter ne sme biti prizadet zaradi škodljivcev ali bolezni.

**FI** Kasvilajikeviraston virallisen lehden erikoisnumero, jossa on tietoa määräajoista hakemuksen jättämiseksi ja vaatimuksista kasvimateriaalin toimittamiselle (Sivu 25)

Virallisen lehden erikoisnumeron tarkoituksena on antaa hakijoille konsolidoitu versio hakemusten jättämisen määräajoista ja kasvimateriaalien toimittamista koskevista vaatimuksista teknistä tutkimusta varten.

Lehden erikoisnumero julkaistaan kerran vuodessa (helmikuun puolella välissä) ja se sisältää otteen viraston verkkosivustolla saatavissa olevasta S2/S3-julkaisusta. 15.10.2020 alkaen S2/S3-julkaisua päivitetään viraston verkkosivustolla päivittäin.

Sivustolla on hakutoiminto, jonka avulla voi havaita tehdyt muutokset.

Jotta tietuehistoria voidaan tarkistaa, jokainen virallisen lehden erikoisnumero tallennetaan pdf-tiedostona, ja ne säilyvät verkkokäyttäjien käytettävissä.

Hakijoita kehoitetaan ottamaan yhteyttä kasvilajikevirastoon, jos lajista, jonka osalta he harkitsevat hakumenettelyä, ei ole saatavilla tietoja. Hakijalla on velvollisuus perehtyä riittävässä määrin kaikkiin hakemusmenettelyn osiin, tekniseen tutkimukseen tarvittavan kasvimateriaalin toimittamisen erityispiirteet mukaan luettuna. Hakemusta tehdessään hakijan on kyettävä toimittamaan määräaikaan mennessä lajikkeestaan niin paljon ja sen laatuista kasvimateriaalia kuin kasvilajikevirasto määrää. Muussa tapauksessa hakemus saatetaan hylätä.

- 1: Valtuutuksen tyyppi ja viljelytyyppi
- 2: Maksuryhmä
- 3: Ennakoidut kasvukaudet
- 4: Maa
- 5: Tutkimuslaitos
- 6: Määräpäivä
- 7: Toimittamisjakson alkamispäivä
- 8: Toimittamisjakson päättymispäivä
- 9: Siementen/kasvien määrä ja laatu

**Tärkeä huomautus:**

— Hakijan odotetaan toimittavan kasvimateriaalia vasta vastaanotettuaan kasvilajikevirastolta kirjallisen pyynnön asiasta. Kyseisen ohjeen noudattamatta jättäminen saattaa vaarantaa koko menettelyn.

— Hakijaa kehoitetaan lähettämään hakemus tai kasvimateriaali hyvissä ajoin ennen määräaika.

— Hakemuksen voi lähettää koska tahansa. CPVO:n tarkoituksena on aloittaa tekninen tutkimus määräpäivää seuraavana kasvukautena, jos virasto on saanut virallisen hakemuksen määräpäivään mennessä.

— Hakemuksen määräaika ratkaisee teknisen tutkimuksen aloittamisen. Jos hakemus on jätetty määräaikaan mennessä, tekninen tutkimus aloitetaan seuraavana kasvukautena. Jos määräaika päättyy päivänä, jona kasvilajikevirasto ei voi vastaanottaa postitse lähetettyjä asiakirjoja, määräaika jatketaan lähimpään päivään, jona kasvilajikevirasto voi vastaanottaa ne. Postitse toimitettavien hakemusten määräaika koskee myös sähköisesti toimitettuja hakemuksia.

— Jos kasvimateriaali toimitetaan annetun määräpäivän jälkeen, hakemus voidaan hylätä 27 päivänä heinäkuuta 1994 annetun neuvoston asetuksen (EY) N:o 2100/94 61 artiklan mukaan.

— Jos määräaika päättyy päivänä, jona kasvilajikevirasto ei ole avoinna asiakirjojen vastaanottamiseksi, määräaika jatketaan lähimpään päivään, jona kasvilajikevirasto on auki asiakirjojen vastaanottamiseksi ja jona tavanomainen postinjakelu toimii, 17 päivänä syyskuuta 2009 soveltamisesta annetun Euroopan komission asetuksen 874/2009 artiklan 71 mukaan.

— Jos määräaika päättyy päivänä, jona tutkimusvirasto ei ole avoinna kasvimateriaalin vastaanottamiseksi, määräaika jatketaan lähimpään päivään, jona tutkimusvirasto on auki kasvimateriaalin vastaanottamiseksi ja jona tavanomainen postinjakelu toimii 17 päivänä syyskuuta 2009 soveltamisesta annetun Euroopan komission asetuksen 874/2009 artiklan 71 mukaan.

— Toimitetun kasvimateriaalin on oltava silmin nähden tervettä ja elinvoimaista eikä siinä saa olla minkäänlaisia merkkejä tuholaista tai sairauksista.

**SV** Specialutgåva av den officiella tidskriften för gemenskapens växtsortsmyndighet innehållande information om tidsfrister för ansökningar och villkor för ingivande av växtmaterial (Sida 25)

Syftet med den särskilda utgåvan av den officiella tidningen är att förse de sökande med en konsoliderad version där tidsfristerna för ansökan anges och där inlämningskraven för växtmaterial som ska genomgå teknisk provning specificeras.

Denna särskilda utgåva ges ut en gång om året (i mitten av februari) och bygger på de S2/S3-publikationer som finns tillgängliga på myndighetens webbplats. Sedan den 15 oktober 2020 uppdateras publikationen S2/S3 dagligen på myndighetens webbplats.

Där finns också ett sökverktyg som kan användas för att se vilka ändringar som gjorts.

För att det ska vara möjligt för användarna att konsultera tidigare uppgifter finns varje specialutgåva av den officiella tidningen tillgänglig som pdf-dokument.

Sökanden ska kontakta växtsortsmyndigheten om de saknar information om arten i fråga. Var vänlig kom ihåg att det är den sökandes ansvar att bekanta sig tillräckligt med alla aspekter av ansökningsförfarandet, inklusive detaljerna om inlämning av växtmaterial för genomförandet av den tekniska provningen. När en ansökan inlämnas måste den sökande vara i stånd att lämna växtmaterial av sin sort i tid, samt i den kvalitet och kvantitet som växtsortsmyndigheten föreskriver. Annars finns det risk för att ansökan avslås.

- 1: Typ av bemyndigande och odling
- 2: Avgiftsgrupp
- 3: Planerade växtperioder
- 4: Land
- 5: Provningsmyndighet
- 6: Slutdatum
- 7: Startdatum för inlämnande
- 8: Slutdatum för inlämnande
- 9: Utsädes/växternas kvantitet och kvalitet

**Observera:**

— Den sökande förväntas lämna in växtmaterialet endast efter det att denne mottagit en skriftlig begäran från växtsortsmyndigheten. Underlåtenhet att rätta sig efter instruktionerna ovan kan äventyra hela förfarandet.

— De sökande uppmanas att inte vänta till sista stund med att lämna ansökningar eller växtmaterial.

— Ansökningar kan lämnas in när som helst. CPVO räknar med att påbörja den tekniska provningen under växtperioden efter sista ansökningsdatum om en giltig ansökan har inkommit senast detta datum.

— Slutdatumet anger början av den tekniska provningen. För ansökningar med ett ansökningsdatum som infaller senast på slutdatumet, så kommer den tekniska provningen att starta i den kommande växtperioden. Om slutdatumet infaller på en dag då växtsortsmyndigheten inte är öppen för mottagande av handlingar som skickats per post ska slutdatumet bli den första dagen då växtsortsmyndigheten är öppen för mottagande av handlingar per post och då vanlig post delas ut. Slutdatumet för ansökningar skickade per post gäller även för ansökningar som skickas in elektroniskt.

— Om materialet lämnas in efter fastställd tidsfrist för inlämnande kan ansökan avslås enligt artikel 61 i rådets förordning (EG) nr 2100/94 av den 27 juli 1994.

— Om en tidsfrist löper ut på en dag då växtsortsmyndigheten inte är öppen för mottagande av handlingar ska tidsfristen förlängas till första dagen därefter då växtsortsmyndigheten är öppen för mottagande av handlingar och då vanlig post delas ut, i enlighet med artikel 71 i genomförandebestämmelserna, Europeiska kommissionens förordning nr 874/2009 av den 17/09/2009.

— Om en tidsfrist löper ut på en dag då provningsmyndigheten inte är öppen för mottagande av växtmaterial, ska tidsfristen förlängas till första dagen därefter då provningsmyndigheten är öppen för mottagande av växtmaterial, i enlighet med artikel 71 i genomförandebestämmelserna, Europeiska kommissionens förordning nr 874/2009 av den 17/09/2009.

— Det inlämnade växtmaterialet ska vara synbarligen friskt och inte sakna livskraft eller vara drabbat av några skadedjur eller någon sjukdom.

- 2 years old
- rooted in an inert medium (for example vermiculite, but no soil)
- well rooted.

Pursuant to Articles 39 and 40 of the "Regulations of the Federal Law on Plant Health", published in the Official Journal of the Federation (DOF) on 15 July 2016 and Article 9 of the "Agreement establishing the module of phytosanitary requirements for the import of goods regulated by the Ministry of Agriculture, Livestock, Fisheries and Food, in the field of plant health", published in the DOF on 7 February 2012, it is necessary to perform a pest risk analysis (PRA) to determine the risks associated with the product in question. Therefore, you should contact the National Plant Protection Organization (NPPO) of the country of origin to request that they send the necessary technical information to prepare the corresponding PRA. However, it is important to make you aware that the PRA is a documentary study of a technical-scientific nature, based on international standards, guidelines and recommendations, and is subject to the information provided by the NPPO of the country of origin or origin of the commodity. Therefore, there is no defined timeline for its completion.

For details see: <https://sistemasssl.senasica.gob.mx/mcrfi/ConsultaCatalogos.xhtml>

For material obtained in vitro, the following must be complied with:

- Phytosanitary Certificate issued by the phytosanitary authority
- Phytosanitary inspection at the point of entry into the country.

The Phytosanitary Certificate must indicate: "The material was produced by cultivation of meristem or other parts of the plant and is free from pests".

In vitro vegetative material is that plant material which is grown in an artificial nutrient culture medium under aseptic conditions, and contained in a container (test tubes, flasks, glass jars or other equivalent), previously sterilized.

The imported plants, their products and by-products must be free from soil.
