Cestrum corymbosum 'WNCESCORYEL'

- **Use:** Add a fun new option to your pollinator garden with Juiced Orange jessamine. It produces hundreds of orange-creamsicle-colored tubular flowers, conveniently bunched into cheerful little balls. Hummingbirds and butterflies can enjoy quite a long visit with this long summer bloomer. After it's established, you'll appreciate its easy-care nature. It's happy to grow through periods of high heat and drought.
- **Exposure/Soil:** Plant in full sun to partial sun. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** Super fast growing! To 4-5 feet tall and 3-4' wide. Orange Cestrum can be grown as a container plant where not hardy but regular pruning may be required to keep this tropical shrub in bounds.
- **Hardiness:** Zone 7/8-11; Annual, Tender Perennial, May be perennial in mild winters with protection.
- **Foliage:** Deciduous. Green foliage. Pinch back tips occasionally for a super bushy plant.
- **Flower:** Displays golden-orange, trumpet-shaped flowers that are highly fragrant from spring through frost. The flowers are sweetly fragrant at night and likely attract hummingbird moths.
