

## Archidendron hendersonii (White Lace Flower)

Rare plant listed as vulnerable. Corky bark. Up to ten fragrant, fluffy creamy-white flowers are bunched in heads in spring. Woody orange pods to 11cm develop, splitting and curling to reveal glossy black seeds displayed against the red or yellow interior of the pod.

**Type:** Tree to 15m  
**Aspect:** Part Shade  
**Soil:** Fertile, Well-drained  
**Habitat:** Riverine & Dry Sclerophyll
