GROUNDCOVERS & VERY LOW GROWERS

**MYOPORUM
PARVIFOLIUM
'Boobialla'**

Prostrate x W.1.5m Lush groundcover with pale pink star flowers mainly in spring. Will root at the nodes as it spreads. Full sun to semi-shade. Effective as a spill-over as well. **Tumblers \$5 each**

Chrysocephalum apiculatum – 'Velvet Grey'.

Prostrate x W.1.5m

A stunning soft, grey-foliaged groundcover with bright yellow pom-pom type flowers from early spring. Best in an open, sunny spot. Very hardy once established. Best to remove dead flowers. This form is not widely available. **6"/140mm pots \$10 each**

**BRACHYCOME
PACIFIC REEF**

Prostrate x W.1.5m

Striking groundcover with bright pink 'daisy' flowers most of the year. Full sun to semi-shade and suckers over time to fill a larger area. Keep well watered during dry spells. **Tumblers \$5 each**

CHRYSOCEPHALUM APICULATUM

Prostrate x W.1.5m A very tough groundcover with dense foliage and bright yellow 'button' type flowers most of the year. Suckers as it spreads. Full sun to semi-shade. Can suffer in extended dryness but always bounces back. **Tumblers \$5 each**

Austromyrtus dulcis – Midgen Berry

H. 30cm x W 2m. Wonderful bush-tucker plant & effective ground cover with small white flowers followed by delightful edible berries. Full sun to heavy shade & very hardy. Fruit often sought by Bower Birds. **Tumblers \$5 each**

HELICHRYSUM SILVER DOME

H.20 x W.1m Just like a grey dome with soft, downy foliage & small, white flowers late winter & spring. Best in ample sun and extremely hardy & drought tolerant. **Tumblers \$5 each**

Goodenia ovata

Prostrate x 1.5m Groundcover with glossy, almost succulent foliage & masses of yellow flowers mainly spring. Very hardy in reasonable drainage and suitable in shade to full sun. **Tumblers \$5 each**

**PULTENAEA
PEDUNCULATA**

Compact groundcover 1m across with lush foliage & masses of small yellow flowers early spring. Full sun to semi-shade. Very hardy. Suits a hanging basket. **Tumblers \$5 each**

Scaevola aemula Bombay

Trailing groundcover with masses of bright pink fan-shaped flowers spring to summer. Full sun to semi-shade. Cut back as necessary. Easily propagated from cuttings. **Tumblers \$5 each**

Thryptomene repens

Prostrate W. 1.5m Low-growing shrub from Shark Bay, WA with small pink flowers; best in good drainage & ample sun. Tends to root at the nodes as it spreads. Not widely available
Tumblers \$5 each

Grevillea thelemmiana – Form

H.40cm x W.2.5m Dense semi-prostrate spreading shrub with deeply divided leaves & bright red flowers winter to summer. Hardy in reasonable drainage & best in ample sun. Great for birds. Can be pruned heavily. **Tumblers \$5 each**

Dampiera trigona

H.0.3m x W.0.3m Low, weeping plant with masses of purple flowers through spring. Best in a sheltered spot with reasonable drainage. Very attractive in flower. **Tumblers \$5 each**

HIBBERTIA PEDUNCULATA

Prostrate x W. 1m Compact groundcover with intricate foliage & masses of bright yellow flowers ten cent piece size early spring to summer. Full sun to semi shade. **Tumblers \$5 each**

DARWINIA TAXIFOLIA 'Dinkum Devil'

Prostrate x W.1.5m Dense groundcover with grey/green foliage and masses of red, upright flowers during winter & spring. Lovely in flower and takes sun or semi-shade and hardy once established. Not widely available **Tumblers \$5 each**

ISOTOMA AXILLARIS Fizz N' Pop

H.0.3m x W.0.5m Stunning low-growing plant with bright green foliage & masses of star-shaped pink flowers spring to autumn. Full sun to semi-shade. Great in a pot **6"/140mm pots \$15 each**

SMALL SHRUBS TO 1m

Chorizema cordatum (WA Flame Pea)

H.1m x W.1.5m

This plant provides great colour for a shaded or semi-shaded spot late winter to spring. Prune after flowering and protect from snails. A W.A. beauty that does well over this side. Stunning in flower.
