Industry-Leading PRODUCTS

SOLVE Tomorrow's Challenges TODAY

Thank you for choosing Leviton for your network connectivity.

We have been a global leader in network cabling systems for three decades now, and we're excited to introduce innovations in this catalog that will help you prepare for data demand in the years to come.

Atlas-X1™ **Category 8** connectivity for 25/40GBASE-T networks

Expanded **high-density fiber patching** options for data centers

SDX Wall-Mount Enclosures with unique features and varying sizes

Control systems for IT/AV networks in classrooms and conference rooms

Connecting Customers **AROUND THE GLOBE**

Leviton manufactures products to meet global requirements, and we place those products strategically around the world. With distribution locations on every continent, we're ready to serve customers in every location and every industry. So whether you are in California, Colombia, Denmark, or Dubai, you can expect the same exceptional quality and service.

Outstanding **RETURN ON** Infrastructure **INVESTMENT**

Companies need fast, reliable, and scalable IT networks. Leviton designs and manufactures cables and connectivity that expand network possibilities. Add great global service and technical support, and we help your ambitious strategies become a reality.

A CULTURE OF INGENUITY AND INNOVATION

We're continuously inventing the solutions that drive next-generation networks. These pioneering solutions include the first independently-verified Cat 8 system, the first 24-fiber MTP® cabling system, and the first UTP jack with a solid metal body for greater performance.

QUALITY AND PERFORMANCE IN EVERY SOLUTION

We put our products through rigorous testing for high-performance margins in the field. Plus, our systems are tested and certified by third-party labs, with reports posted on our website.

SAFETY AND SECURITY COME FIRST

Safety is a top priority at Leviton. We create technologies that meet important safety codes and standards, add physical security options, and give customers greater peace of mind.

COMMITTED TO CUSTOMERS THROUGH UNPARALLELED SERVICE

Every Leviton installation is backed by responsive customer support. This includes a variety of technical teams, including specification engineers, data center designers, and more.

— Premier — **END-TO-END SOLUTIONS**

Whether it's for a server room, conference room, operating room, or classroom, Leviton has complete end-to-end cabling systems for your specific network application. With robust connectivity built in ISO-certified facilities, the widest selection of patch panels on the market, and cable assemblies for every type of network, our infrastructure systems give customers access to a broad set of solutions.

COPPER SYSTEMS

Leviton copper systems combine category-rated performance with high-density, user-friendly designs to deliver the industry’s most innovative family of solutions. Whether you are supporting a large enterprise, data center, or small business infrastructure, Leviton has the system to fit your needs. Refer to the system features below and on the following pages for an overview of Leviton’s three copper system brands: Atlas-X1, eXtreme, and GigaMax.

System Features:	Category 8 solutions
	Plenum rated
	High-performance wireless and AV support
	High-density shielded shorter-depth jack for better bend radius
	Advanced features (icons, shutters) for clear network ID and protection
	Unified form factor (Cat 5e to Cat 8) and termination style for easy migration
	Shielded systems for EMI/RFI protection
	Performance exceeds the standard
	Margin guarantees for confidence in performance
	Component-rated products available
	Up to 100-watt PoE support
	Third-party tested and verified
	13 color options
	Limited Lifetime Warranty

Atlas-X1

Mission Critical

Premium category-rated system that delivers the highest level of verified performance and reliability. Supports high-performance wireless, high-definition AV and high-power PoE applications.

eXtreme

Enterprise

Pairs high quality and performance with a user-friendly design to support fast, easy installations.

GigaMax

Light Commercial, MDU

Delivers proven performance with the reliability you have come to expect from Category 5e applications.

COPPER SYSTEMS

Leviton copper systems are designed to give customers the right level of performance and value to fit their needs. These systems have been tested and verified by third-party labs to meet or exceed industry-standard performance. And they all include a limited lifetime warranty when installed by Leviton certified installers.

FEATURED PRODUCTS

Atlas-X1
Component-Rated
UTP & Shielded
Jacks **A8**

Jacks

Leviton copper jacks go through rigorous third-party testing to ensure the highest levels of quality and reliability. Whether supporting mission-critical applications with Atlas-X1™, a large enterprise with eXtreme®, or a small business infrastructure with GigaMax®, Leviton has the connectivity solution for your needs.

ATLAS-X1 COMPONENT-RATED UTP & SHIELDED JACKS

- Innovative wire manager and door-release levers support quick, repeatable terminations
- Unified form factor and termination method, from Cat 5e to Cat 8
- Tool-free design requires no specialized termination tool
- Patented Retention Force Technology (RFT) protects against tine damage and maintains contact force between plug and jack, preventing arcing from intermittent disconnects in PoE applications
- Each jack includes interchangeable icons (voice, data, AV, and blank), color-coded to match the jack face
- Jack with internal shutter is available to protect ports from dust, debris, and contaminants
- Shielded jacks provide additional EMI/RFI protection, signal isolation, and alien crosstalk (AXT) suppression
- Tested and approved for use in air-handling spaces (plenum rating) in accordance with UL Standard 2043
- PoE optimized tine geometry prevents arcing damage where plug and jack make contact, extending jack life and ensuring maximum performance (see specification sheets for full PoE capabilities)
- Solid metal body dissipates 53% more heat than plastic, minimizing damage from excess heat in PoE applications
- Made in the USA

Atlas-X1 Cat 8:

CATEGORY-RATED JACKS | eXtreme® & GigaMax®

EXTREME UTP QUICKPORT® JACKS

- Patented Retention Force Technology (RFT) protects against damage from 4- or 6-pin plugs
- Pair Separation Towers facilitate quick, effective termination
- Compatible with Fluke JackRapid™ Punchdown Tool for quick and easy terminations
- Cat 6A jack includes a patented Cone of Silence® for additional alien crosstalk (AXT) suppression
- Patented large-format, tear-away, dual-layer wiring guide
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities
- Made in the USA

GIGAMAX UTP QUICKPORT JACKS

- Single T568A or T568B wiring labels simplify terminations
- Narrow jack profile for high-density installations
- Compatible with Fluke JackRapid™ Punchdown Tool for quick and easy terminations
- Durable one-piece frame built for longevity
- Supports Power over Ethernet (PoE) — see specification sheet for full PoE capabilities
- Made in the USA

SPOTLIGHT GreenPack®

Leviton Atlas-X1™ Cat 6 and Cat 6A, and eXtreme Cat 6A jacks are now available in GreenPack bulk packaging. The convenient packages of 12 jacks, available in shielded and UTP, provide contractors with an efficient option for large-scale projects and installations, with fewer individual parts to manage and less jobsite waste. Each bulk pack features:

- Easy to open, reusable packaging
- Protection for all included components
- Choice of three jack colors for better network planning

Atlas-X1 and eXtreme jacks are compatible with all Leviton QuickPort products.

CATEGORY-RATED JACKS | Plugs & Voice Grade

Adapter Bezels work with all QuickPort Jacks.

CAT 6A & CAT 6 PLUGS

- Cat 6A Universal Tool-Free plug offers easy field termination without special tools and terminates from 26- to 22-gauge solid or stranded conductors, supporting shielded and UTP applications
- Cat 6 plug provides quick UTP wire terminations, with clear housing for wire sequence verification and cable feedthrough plug opening for crimp precision

CAT 5 & USOC UTP QUICKPORT® JACKS

- Fit into all QuickPort wallplates and housings
- Full support of voice and low-speed data applications
- Cat 5 and 8P8C USOC accept RJ-45 plugs; 6P6C USOC accepts RJ-11 plugs

QUICKPORT BLANK INSERTS & JACK ADAPTER BEZELS

- QuickPort Blanks secure unused ports in wallplates and housings for future expansion
- Allow QuickPort jacks to be installed into third-party wallplates and surface-mount boxes
- Bezel color will be visible after installation
- Packaged individually and sold separately from jacks
- CommScope bezels fit SYSTIMAX® or Uniprise® wallplates and surface-mount boxes

FEATURED PRODUCTS

Composite Patch Panels **A15**

1RU 48-Port QuickPort® High-Density Flat & Angled Panels **A14, A16**

e2XHD Snap-In Cassette Patching System **A18**

Patch Panels & Cross Connect

Choose Leviton for all your patch panel needs. Our e2XHD high-density panels make patching easier than ever, using snap-in copper and fiber cassettes. Other popular styles include the 1RU 48-port, component-rated Cat 6A 110-style, and composite panels with a customizable face. Additional UTP and shielded panels, the patented Zero-U Vertigo®, die-cast high-density panels, recessed panels for close quarters, and two angled styles round out the industry's largest selection of patch panels.

Flat 48-Port

Angled 48-Port

e2XHD Snap-In Cassette Patch Panels ▶ A18

These high-density panels are designed for data center applications where fast, single-click deployment and simple maintenance are important. They accept UTP and shielded copper as well as fiber e2XHD snap-in cassettes in the same panel.

Available Styles: Flat | Angled

Flat 48-Port

Flat Composite Patch Panels ▶ A15

Leviton composite panels have the same profile as standard metal panels, but feature polymer composite construction. Customizable faces are ideal for data centers, telecommunications rooms, and other showroom-style environments.

Available Styles: 110-Style | QuickPort®

Flat 24-Port

Flat Patch Panels ▶ A13-A15

Traditional, flat profile works well in almost any application. Most flat panels include rear cable management bars.

Available Styles: 110-Style | QuickPort | Shielded

Die-Cast High-Density 48-Port

Angled 48-Port

Angled Patch Panels ▶ A16

Recommended for use in racks to optimize patch cord management and rack space utilization.

Available Styles: 110-Style | QuickPort | Shielded

Recessed-Flat 24-Port

Recessed-Angled 48-Port

Recessed & Recessed-Angled Patch Panels ▶ A17

Designed primarily for data center cabinet applications, recessed-flat and recessed-angled panels are ideal where a low-profile appearance and minimal depth in front of the panel is required.

Available Styles: QuickPort

VertiGO® Zero-U

Zero-U Patch Panels ▶ A19

VertiGO panels are recommended for use in data center cabinets, or for any application that needs connectivity outside of the traditional 19-inch rack space. Vertical channel models provide cable routing and protection.

Available Styles: QuickPort | SDX

Cross-Connect 110-Style Wiring Block

Cross-Connect ▶ A21

Dependable, flexible, and cost-effective, Leviton 110-style and 66-block cross-connect products are ideal for telecommunications rooms and distribution frames. 110-style wiring blocks are available in Cat 6A, 6, and 5e, and can be mounted to the wall or plywood backboard. Rack-mount solutions are also available.

Available Styles: Cat 6A | Cat 6 | Cat 5e

PATCH PANELS | Flat Metal 110-Style > UTP

COPPER Patch Panels

FLAT UTP 110-STYLE PATCH PANELS

- 1RU 12- or 24-port, 2RU 48-port, and 4RU 96-port configurations
- 6-port RJ-45 modules on front, and 110-style punchdowns on rear
- Includes color codes for T568A and T568B wiring schemes
- Cat 5e and Cat 6 include 25-pair wiring schemes
- Silk-screened port numbers and paper label holders included
- Select panels include patented magnifying lens label holders for easy reading
- Patented Retention Force Technology (RFT) protects against time damage from 4- or 6-pin plugs, saves on costly repairs, and increases system longevity (select panels only)

SPOTLIGHT | New Cable Management Clip from Leviton

Manage up to 24 individual cables with the new, easy-to-install Cable Management Clip. The user-focused design is engineered to speed deployment, quickly snapping onto Leviton cable management bars without any tools to streamline installation and maintenance.

The cable management clip is compatible with flat and recessed QuickPort® and 110-style panels, with no cable ties or wraps required. The result is easier, neater, more efficient network management, with improved density for larger diameter cables and discrete cable retention at the rear of the patch panels.

See page E6 for more information.

FLAT UTP QUICKPORT PATCH PANELS

- Standard-density 24- and 48-port panels are available with white blocks or patented magnifying lens label holder
- Silk-screened port numbers on panel front
- High-density 1RU 48-port and 2RU 72-port options maximize rack space and reduce costs in high-density applications
- 1RU 48-port panel available in standard (stamped) or patented robust die-cast aluminum

ATLAS-X1™ FLAT SHIELDED QUICKPORT PATCH PANELS

- Shielding protects against electromagnetic interference (EMI) and radio frequency interference (RFI), and provides excellent alien crosstalk (AXT) suppression
- Includes appropriate grounding hardware
- High-density 1RU 48-port option maximizes rack space and reduces costs in high-density applications

"Composite Patch Panel"

SPOTLIGHT Composite Patch Panels

- Protective Overlay Cover
- Custom Insert
- Patch Panel

Patch panels combine strength and durability with a unique style and customizable faces, providing a uniform look when installed with 2000i SDX Fiber Enclosures and Versi-Duct Cable Managers.

- Under applied force tests, the panel was 10 percent stronger than standard 16-gauge metal patch panels
- Panels come kitted with two patch cord managers that attach directly to the panel face, saving up to 50 percent of rack or cabinet space and reducing obstruction of center label
- Clear label holders create a "window" to easily view centralized port numbers and custom designs

ANGLED UTP 110-STYLE & QUICKPORT® PATCH PANELS

- Angled design conserves rack space by routing patch cords directly into vertical cable management
- Angled design facilitates proper bend radius and simplifies termination
- 110-style angled panels include a snap-in plastic label holder and card stock labels
- QuickPort angled panels include white write-on blocks
- Select panels include patented magnifying lens label holders for easy reading

ATLAS-X1™ ANGLED SHIELDED QUICKPORT PATCH PANELS

- Shielding protects against electromagnetic interference (EMI) and radio frequency interference (RFI), and provides excellent alien crosstalk (AXT) suppression
- Include appropriate grounding hardware
- High-density 1RU 48-port option maximizes rack space and reduces costs in high-density applications

PATCH PANELS | Recessed-Flat & Recessed-Angled > UTP

Patch Panels

COPPER

A

B

Recessed-flat and recessed-angled patch panels are a great option for rack and cabinet installations with minimal front depth, and where rear cabinet doors are in close proximity to the back rail.

RECESSED-FLAT QUICKPORT® PATCH PANELS

- 3-inch recessed design allows improved access and maintains proper cable bend radius
- All recessed-flat panels include a screwless cable management bar that fastens directly to the back of the panel

RECESSED-ANGLED QUICKPORT PATCH PANELS

- Conserve rack space by routing patch cords directly into vertical cable management
- Unique dual-angled design greatly improves punchdown accessibility

AVAILABLE CABLE MANAGEMENT:

See Section E for product details and ordering information.

SPOTLIGHT

Magnifying Lens Label Holder

Available with a wide selection of Leviton patch panels, Leviton patented magnifying lens label holders ensure visibility of port labels for easy identification of individual port designations.

The e2XHD Snap-In Cassette Patching System includes 1RU panels, copper and fiber snap-in cassettes, and accessories for additional cable protection and management. The e2XHD cassettes quickly snap in and pull out of the high-density panels, making installation, moves, adds, and changes easier than ever.

- Panels allow a mix-and-match of Leviton UTP, shielded, or fiber snap-in cassettes
- Cassettes are available empty or on pre-terminated trunks (see Leviton.com/configurator)
- Copper jacks easily snap into cassette after termination
- System accessories include rear cable managers, blank cassette inserts for unused cassette openings, and a cover for the angled panel, minimizing dust or debris

SPOTLIGHT

Leviton eXtreme® Cat 6 High-Flex Patch Cords

Leviton eXtreme Cat 6 High-Flex Patch Cords reduce patch cord density in a 24-port patch panel by 38% when compared to typical Cat 6 patch cords. These versatile cables support high-speed data applications, are Power over Ethernet compatible, and are tested and verified to meet ANSI/TIA-568.2-D component requirements.

The snagless plug design with integrated strain-relief boot, narrow 0.60 bend radius, and dual-rated cable jacket (CM/LSZH) offer flexible patching and superior performance for high-density switches, routers, and other electronics.

Learn more on page A29.

PATCH PANELS | VertiGO® Zero-U QuickPort® UTP & SDX

VERTIGO ZERO-U PATCH PANELS

- Zero-U panels can be mounted to a ladder tray, wire basket, under a raised floor, or onto modular furniture
- QuickPort or SDX-style openings for copper and fiber installations
- Low-profile design fully covers connections
- Improves cabinet center airflow by routing rear cable along outer edges
- Styles with 3-inch channels provide additional cable management space
- Hinged doors provide easy access to termination field
- Patented magnifying lens label holders facilitate easy reading

RECOMMENDED APPLICATIONS:

- Any Size Cabinet
- Ladder Tray
- Wire Basket
- Raised-Floor Enclosure
- Modular Furniture
- Wall-Mount

SPOTLIGHT Mounting Options for Mini Wall-Mount Enclosure

The Opt-X SDX Mini Wall-Mount Enclosure provides simple deployment and flexible mounting options for remote network hubs, non-traditional network areas, and other areas with extreme space constraints. It accepts six copper ports by using a QuickPort adapter plate (5F100), or up to 24 LC fibers or 12 SC fibers using an SDX cassette or adapter plate.

CAT 6A 110-STYLE WIRING BLOCKS

- Supports high-frequency data signals up to 500 MHz
- Can be used as a consolidation point (CP) in a TIA-defined 90-meter permanent link
- Designed to mitigate alien crosstalk (AXT)
- Independently tested and verified by Intertek (ETL) to meet all TIA component, permanent link, and channel requirements
- Available in 64-pair wall-mount block

CAT 6 110-STYLE WIRING PRODUCTS

- Supports voice, data, and security applications
- Wall-mount and rack-mount wiring block kits available in 96-, 192-, and 288-pairs
- 110-style patch cords in 110-110 and 110-T568A/B configurations
- Connector clips withstand 200 re-terminations

66 CONNECTING BLOCKS

- Install individually or in pairs in cross-connect system
- High-impact fire-retardant UL 94V-0 plastic
- Phosphor bronze quick-connect insulation displacement 66-clips
- 25-pair and split 50-pair styles
- Accessories include covers, brackets, wire distribution spools, adapters, and bridging clips

SURFACE-MOUNT MINI PATCH PANELS

- Excellent for tight spaces and simple breakout patching
- Combine two or more panels for in-line cross connect
- Use with 25-pair cable assemblies
- Wall mountable

Visit Leviton.com/ns/support for detailed termination diagrams.

Patch Cords & Pre-Terminated Trunks

Leviton copper patch cords and pre-terminated trunks are designed to ensure the highest levels of performance, reliability, and longevity whether supporting mission-critical, large enterprise, or small business applications. And Leviton makes it easy to configure custom solutions. With factory testing and no need for field terminations, you can reduce installation time by up to 75 percent.

ATLAS-X1™ CAT 8 PATCH CORDS

- Part of a complete Atlas-X1 Cat 8 shielded system for 25/40GBASE-T networks
- Provides excellent alien crosstalk suppression and EMI/RFI protection
- Outside diameter of 6.2 mm ensures ease of management
- Dual listed CMR and LSHF/LSZH materials as standard

For Cat 8 jacks, see page A8.

SPOTLIGHT Atlas-X1 Cat 8: Built For Demanding Mission-Critical Networks

Category 8 cabling systems will play a major role in data centers and mission-critical environments upgrading to 25/40GBASE-T. Leviton engineered its Atlas-X1 Category 8 system with additional quality and flexibility to meet these new demanding applications. The Cat 8 system performance has been verified by independent testing labs. It is also the first system to support shielded applications from Category 5e to 8 using the same RJ-45 jack form factor, creating a smart, simple migration path.

Patch Cords

COPPER

ATLAS-X1™ CAT 6A SLIMLINE BOOT PATCH CORDS

- Provide exceptional alien crosstalk (AXT) suppression and EMI/RFI protection in Cat 6A channels
- Atlas-X1 Cat 6A cord can be used for UTP or shielded installations
- Cords feature narrow-profile boot for less congestion in high-density applications
- Tested and verified to meet ANSI/TIA-568.2-D component requirements
- Strain-relief boot ensures long-term network performance
- Snagless design prevents tab breakage
- Ergonomic release tab allows for quick and easy connections and disconnects
- Outside diameter of .240 inches is easier to manage
- Supports Power over Ethernet (PoE) — see specification sheet for full PoE capabilities

EXTREME® CAT 6A STANDARD PATCH CORDS

- Strain-relief boot ensures long-term network performance
- Snagless design prevents tab breakage
- Provide exceptional alien crosstalk (AXT) suppression and EMI/RFI protection in Cat 6A channels
- Tested and verified to meet ANSI/TIA-568.2-D channel requirements
- Color-matched cords and boots
- Low-Smoke Zero-Halogen (LSHF/LSZH) cords available
- Cat 6A standard patch cords use the same cord for UTP or shielded installations
- Supports Power over Ethernet (PoE) — see specification sheet for full PoE capabilities

PATCH CORDS | Cat 6 High-Flex & Cat 5e

COPPER Patch Cords

EXTREME® CAT 6 HIGH-FLEX PATCH CORDS

- Bend radius is a narrow 0.60 inches, versus 1.0 inch for typical Cat 6 patch cords
- Snagless plug design with integrated strain-relief boot
- Dual-rated cable jacket (CM/LSZH)
- Tested and verified to meet ANSI/TIA-568-2.D component requirements
- Supports Power over Ethernet (PoE) — see specification sheet for full PoE capabilities

CAT 5E SLIMLINE-BOOT UTP PATCH CORDS

- Narrow-profile boot reduces congestion in high-density applications
- Supports Power over Ethernet (PoE) — see specification sheet for full PoE capabilities

CAT 5E STANDARD UTP PATCH CORDS

- Matching color cords and boots
- Supports Power over Ethernet (PoE) — see specification sheet for full PoE capabilities

CAT 5E UTP & SHIELDED COMPONENT-RATED SLIMLINE-BOOT PATCH CORDS

DESCRIPTION	PART NO.
Atlas-X1 Cat 5e UTP Component-Rated SlimLine-Boot Patch Cord, CM (PVC) (country of origin: USA)	5D560-xx*
[B] eXtreme Cat 5e UTP Component-Rated Slimline-Boot Patch Cord, CM (PVC)	5D460-xx*
GigaMax® Cat 5e UTP Channel-Rated Standard Patch Cord, CM (PVC)	5G460-xx*

xx = Length in feet

* = Color: White (W), Yellow (Y), Blue (L), Green (G), Grey (S)

All Leviton Cat 5e patch cords are RoHS Compliant.

Additional custom lengths available; for assistance please visit Leviton.com/MTOCords or call Tech Support at (800) 824 3005

SECURE RJ SYSTEM

- Compatible with industry-standard RJ ports in most network equipment, devices, patch panels, and work area outlets
- Same-color extraction tool disengages color-matched patch cords and port blockers
- Transparent housing allows color-coding without blocking visibility to link/status LEDs on electronic equipment
- Port blocker prevents unauthorized network connection and protects open, unused ports
- Cat 6A and Cat 6 Secure RJ Patch Cord options available

SECURE RJ SYSTEM

DESCRIPTION	PART NO.
[A] Cat 6 SlimLine-Boot Patch Cord, with Secure RJ housing on both ends (country of origin: USA)	SRJ6 ⁺ -xx*
[B] Secure RJ Port Blocker, pack of 12	SRJPB-00 ⁺
[C] Secure RJ Extraction Tool, pack of 1	SRJET-00 ⁺

xx = Length: Defined in table below. Minimum orders and extended lead time may apply. Contact Inside Sales at (800) 722 2082 for more details.

⁺ = Patch cord housing, port blocker, and extraction tool colors: Choose from the transparent colors shown in (C) above.

* = Patch cord jacket colors: White (W), Yellow (Y), Red (R), Blue (L), Green (G), Grey (S), Black (E)

Make-to-Order! SECURE RJ PATCH CORD OPTIONS

CATEGORY	CABLE RATING	CABLE COLOR	CABLE LENGTH	SECURE HOUSING COLOR	SECURE HOUSING PLACEMENT
Cat 6A FTP	CM (PVC)	White, Yellow, Red, Blue, Green, Grey, Black	3-72 feet	White, Yellow, Red, Blue, Green, Purple, Black, Orange	Both Ends or One End
Cat 6 UTP	CM (PVC)	White, Yellow, Red, Blue, Green, Grey, Black	1-72 feet	White, Yellow, Red, Blue, Green, Purple, Black, Orange	Both Ends or One End

All patch cords utilize stranded cable.

PRE-TERMINATED TRUNKS | Make-to-Order

UTP jack to plug

RECOMMENDED APPLICATIONS:

- Data Center Cabinets
- Telecommunications Racks
- Quick Network Deployment

PRE-TERMINATED COPPER TRUNKS

- Custom configured for length, jack type, and more
- Fast and easy installation with reduced labor costs
- 100% factory tested, with test results available
- Cat 6A trunks all use component-rated jacks, which provide guaranteed performance in short lengths
- Atlas-X1™ pre-terminated copper trunks provide the option of having jacks with shutters and/or icons
- Customized breakout length from braided sleeve improves installation flexibility and appearance
- Optional pulling eye protects jacks and eases installation
- Pre-terminated assemblies are eligible for limited lifetime product, system, and performance warranties
- Noise-Canceling XTP Technology cable available for Cat 6A assemblies to reduce bundle size and improve alien crosstalk (AXT) suppression
- Braided sleeve colors come in white for riser environments and black for plenum or LSHF/LSZH

Make-to-Order!		PRE-TERMINATED COPPER TRUNK OPTIONS				
CABLE TYPE	CABLE RATING	# OF CABLES	CABLE LENGTH	CABLE COLOR*	INDIVIDUAL JACK ZCOLOR	TERMINATION OPTIONS
Cat 6A UTP	CMP, CMR, LSHF/LSZH	2-12	10-295 ft (3-90 m)	Blue	White, Light Almond, Ivory, Yellow, Orange, Crimson, Purple, Blue, Green, Grey, Black, Brown	Jack, Plug, Open
Cat 6A XTP^ UTP				Grey	Black*	Jack, Open
Cat 6A FTP	CMP, CMR		6-295 ft (2-90 m)	Blue	White, Light Almond, Ivory, Yellow, Orange, Crimson, Purple, Blue, Green, Grey, Black, Brown	Jack, Plug, Open
Cat 6 UTP	CMP, CMR, LSHF/LSZH					
Cat 5e UTP	CMP, CMR					

* = Additional cable and shielded jack colors are available, but may require additional lead-time. Contact Inside Sales at (800) 722 2082 for more details.

^ = Noise-Canceling XTP Technology
Available with Atlas-X1 or eXtreme® Jacks.
All trunks utilize solid conductor cable.

For assistance customizing your trunks, please visit Levicon.com/configurator or call Tech Support at (800) 824 3005.

e2XHD COPPER TRUNKS

- e2XHD cassettes terminated to trunks in Cat 6A and Cat 6 work exclusively with e2XHD Flat or Angled patch panels (see page A18)
- Available with Atlas-X1™ or eXtreme® Jacks
- Custom configured for length, jack type, and more
- Fast and easy installation with reduced labor costs
- 100% factory tested, with test results available
- Cat 6A trunks all use component-rated jacks, which provide guaranteed performance in short lengths

FEATURED PRODUCTS

Palm Termination Tool **A34**

Wire-Punchdown Termination Tool **A34**

Copper Tools & Labeling

Leviton has everything you need to terminate and test our copper solutions. The ergonomic Palm Termination Tool, designed by and for installers, offers comfort-grip or rack-mounted positioning for termination, a sturdy jack holder, and a wire-supporting retainer. The Wire-Punchdown Termination Tool enables one-step punchdown of 110-style or 66 connecting block IDCs with a single push on the handle. Specialized termination tools, test equipment, crimping tools, and other accessories complete the collection.

PALM TERMINATION TOOL

- Overmolded ergonomic soft grip
- Easy-to-see wiring labels
- Jack holders provide stability for punchdown
- Incorporated retainer supports cable during termination
- Integrated holes allow rack-mounting of the Palm Tool for patch panel terminations
- Compatible with eXtreme®, GigaMax®, and QuickPort® AVJacks

MULTI-PAIR TERMINATION TOOL

- Designed for 110-style wiring blocks
- High-impact, spring-loaded handle for one-punch termination of multiple pairs
- “Blade-in” and “blade-out” options
- Includes 4-pair, Cat 6 head
- Cat 5e and 6 heads available individually

WIRE-PUNCHDOWN / TERMINATION TOOL

- Punches and trims each wire with just a single push of the handle
- Adjustable impact setting for minimal physical effort
- Spare blade storage in handle chamber
- Available in 110 IDC and 66 IDC
- Terminate 22-, 24-, or 26-gauge wire

CUTTING TOOLS

- Klein Tools® Electrician’s Scissors are excellent for cutting and stripping copper cable as well as trimming center splines and rip cords
- Klein Tools Flush Cutter neatly trims individual cable wires flush to jack body to prevent shorts in metal housings (recommended for Atlas-X1™ Jacks)

TERMINATION TOOLS & BLADES

DESCRIPTION	PART NO.
[A] Palm Termination Tool	47615-PTT
[B] Wire-Punchdown/Termination Tool (blades sold separately)	49553-814
[C] 110 IDC Blade	49553-110
[D] 66 IDC Blade	49553-066
[E] EZ-RJ45 Crimp Tool	40989-ACT

MULTI-PAIR TERMINATION TOOLS & ACCESSORIES

[F] Mass-Termination Multi-Pair Tool Handle with Cat 6, 4-pair head	49553-TTH
Mass-Termination Replacement Head, Cat 6, 4 pair	49553-64H
Mass-Termination Replacement Head, Cat 5e, 5 pair	49553-55H

TONE TEST SET

- Low-voltage tester for continuity, shorts, and opens
- Talk battery for a communications line on a vacant pair
- Identifies tip and ring polarity, and line condition for clear line with dial tone, busy line, and ringing line
- Generates continuous or warble tone to trace pairs and locate broken pairs or cables in walls — use with Inductive Speaker Probe (below)

INDUCTIVE SPEAKER PROBE

- Detects audible frequency tones for accurate tracing and identification of wires, cables, and metallic circuits

MODULAR PLUG BREAKOUT ADAPTER

- For testing any six- or eight-position modular jacks
- Works with the Tone Test Set

COAXIAL JACK TOOLS

- Crimp coax onto RG-59 or RG-6 cables
- Rugged metal construction with cushioned handles

MASTER COMPRESSION TOOL

- Terminates all Leviton coaxial compression jacks, including RCA and F-connectors
- Radial-style crimp compresses uniformly around jack body

TONE TEST SET, INDUCTIVE SPEAKER PROBE & KITS

DESCRIPTION	PART NO.
[A] Tone Test Set (includes 9-volt battery)	49560-TTS
[B] Inductive Speaker Probe (includes 9-volt battery, one duckbill tip, and one needlepoint tip)	49561-SSP
[C] Kit containing One Tone Test Set with Belt Holster, and one Inductive Speaker Probe with Belt Holster	49562-TSK

MODULAR PLUG BREAKOUT ADAPTER

[D] Modular Plug Breakout Adapter	40070-MDP

WORK-AREA LABELING SOLUTIONS

DESCRIPTION	PART NO.
[A] QuickPort® Shutter Kit (50 shutters) White Label Kit	51084-ICN 51084-XLB
[B] Color Label Kit includes grey, orange, red, yellow, green, blue, purple, and brown (2 sheets of each color)	51084-CLB
[C] Labels and Windows for Housings and Wallplates on page D6	41080-IDW
Labels and Windows for Stainless-Steel and Angled Wallplates on pages D7 and D8	43080-IDW
Pre-printed Port Labels, black ink, 10 sheets per package	41080-LEB

PATCH PANEL LABELING SOLUTIONS

[D] Adhesive Holder and Labels Kit for QuickPort Panels (supports 24 ports)	49257-QHD
[E] Adhesive Holder and Labels Kit for 110-Style Panels (supports 24 ports)	49257-I24
[F] Designation Kit Replacement for 110-Style Panels (supports 24 ports)	69585-IDL

110-STYLE LABELING SOLUTIONS

DESCRIPTION	PART NO.
Cat 6 Label Kit, 6 label strips per kit	41LBL-60W
Cat 5e Label Kit, 6 label strips per kit	41LBL-00W
Label Holder, 6 holders per kit	41100-HLD

SPOTLIGHT

Leviton Palm Termination Tool

Use the **Leviton Palm Termination Tool** (page A34) to quickly and easily punchdown jacks at the job site. The Palm Termination Tool was designed with contractor input and offers an ergonomic comfort grip, increased connector stability, and integrated holes that allow rack mounting for QuickPort panel terminations. The Palm Termination Tool is compatible with eXtreme® and GigaMax® Cat 6A/6/5e and QuickPort AV jacks.

FIBER SYSTEMS

Whether your installation is small or large, simple or complex, you can rely on Leviton for a network patching platform that meets your requirements. From cloud data center to remote telecom room, from service provider to enterprise office building, Leviton solutions are versatile enough to meet specific customer demands, ensuring migration options for future bandwidth growth and strong return on infrastructure investment.

FIBER
Fiber Systems

SYSTEM FEATURES:	Ultra high density (144 fibers per RU)
	High density (96 fibers per RU)
	Standard density (72 fibers per RU)
	Angled panel eliminates need for patch cord cable manager
	Individual sliding trays minimize impact on surrounding fibers
	TAP Cassette option to monitor networks for performance and security
	One-handed, single-click cassette installation for easy deployment
	10/40/100/200/400 Gb/s Unity migration to simplify tech upgrades
	OM3 / OM4 / OS2 fiber types for backward compatibility
	Precision-molded adapter plates for durable network connections
	Allows mix of copper and fiber for network flexibility
	Cassettes with adjustable rear MTP® adapters for improved bend radius
	Field splicing capability

Opt-X® HDX
Mission Critical

Ultra-high-density platform to help meet increasing network demands in data centers.

e2XHD
Mission Critical

High-density snap-in cassettes allow a mix of fiber or copper patching for large enterprise applications.

Opt-X SDX
Enterprise

Versatile solutions in multiple sizes and styles for small data centers and enterprise applications.

PRE-TERMINATED SOLUTIONS

Leviton recommends using pre-terminated trunks and harnesses whenever possible. With 100 percent factory testing and no need for field terminations or splices, installation time is reduced by up to 70 percent. Pre-terminated MTP® cassettes feature a space-saving design with a notched back for a smaller footprint and excellent radius control. All Leviton pre-terminated solutions are made to your specifications: fiber and cable type, fiber count, connector type, breakout leg types, length, and more. See more information on page B42.

TRUNK CABLES (see pages B43-B46)

- MTP to MTP, including 12- and 24-fiber MTP connectors
- Discrete to discrete (LC, SC)*
- MTP to discrete*
- Single-mode, multimode, and laser-optimized multimode types available

HARNESSES (see pages B47-B48)

- MTP-to-MTP connectors
- MTP-to-discrete connectors (LC, SC)*
- Single-mode, multimode, and laser-optimized multimode types available

MTP CASSETTES

- Available in HDX, SDX, and e2XHD form factors
- 12- or 24-fiber MTP connectors on the back
- MTP connectors or discrete connectors on the front, including LC and SC*
- Single-mode, multimode, and laser-optimized multimode types available

* = LC/APC and SC/APC available for OS2.

SPOTLIGHT

Core & Edge Cassettes

In order to achieve proper polarity when using Method B with two cassette configurations, core and edge cassettes must be used in pairs. This will simplify the design requirements for trunks and patch cords. For consistency, core cassettes are typically placed at the main connection point, at or close to the main switching equipment. Edge cassettes are placed at the end connection point, near access layer equipment. For easy identification, core cassette casing and pins are black, while edge cassette casing and pins are white.

FIBER Pre-Terminated

PREPARE FOR 40, 100, 200, AND 400 GB/S WITH THE OPT-X UNITY CABLING SYSTEM

Leviton pre-terminated Opt-X Unity multimode and single-mode systems offer an ideal migration path up to 400 Gb/s speeds. They also meet IEEE 802.3ba/bm/bs/cd standards, which respond to the needs of data centers and enterprise networks. The Opt-X Unity system features pre-terminated trunks, harnesses, array cords, and MTP® cassettes to help you future-proof your networks. See pages B43, B47, and B49 for detailed product information.

- System of trunks, harnesses, and cassettes
- Industry-leading 24-fiber MTP system
- System uses best-in-class MTP premium multi-fiber connectors
- Ultra-low-loss 8- and 12-fiber MTP connectors
- Available in laser-optimized multimode (OM3/OM4)
- Third-party verification of 40/100 Gb/s channel performance

MULTIMODE CHANNEL REQUIREMENTS (IEEE 802.3BA AND IEEE 802.3BM)					
APPLICATION	IEEE STANDARD	OM3		OM4	
		Max Channel LL	Reach	Max Channel LL	Reach

HDX Systems

144 LC Fibers Per RU

Data centers and telecommunications rooms are rapidly outgrowing their footprints as they attempt to meet increasing network demands. Leviton UHD systems offer optimum patching capacity in areas where space is at a premium. Using HDX Adapter Plates, Cassettes, and Splice Modules, the enclosures and panels allow up to 144 fibers with LC connectors, or 1,728 fibers with 24-fiber MTP® connectors — the highest density per rack unit available.

UHDHX RACK-MOUNT ENCLOSURES

- Accept HDX Adapter Plates, Cassettes, and Splice Modules
- Up to 144 fibers with LC connectors or 1,728 fibers with 24-fiber MTP® connectors per RU
- Individual sliding trays allow easy access to fiber connectors in dense applications
- 20-inch depth, with hinged or removable rear doors for accessibility to rear cable routing
- Hinged front door provides easy means to install, remove, and update port ID labels
- Highly visible port locators in the front and rear of the enclosure help easily identify specific ports

RECOMMENDED APPLICATIONS:

Data Centers

Entrance Facility

19" and 23" Racks and Cabinets

UHDHX 1RU FLAT & ANGLED PANELS

- Accept HDX Adapter Plates, Cassettes, and Splice Modules
- Angled panel eliminates the need for horizontal patch cord cable managers
- Open access to patch cords and trunks
- One-hand installation and removal of HDX and HDX2 cassettes or adapter plates
- Up to 144 fibers with LC connectors or 1,728 fibers with 24-fiber MTP® connectors

ACCESSORIES

- Cable clamp kits minimize excessive pulling, bending, and crushing
- Brush guards minimize dust buildup in rear of enclosure
- Rear cable manager (sold separately) supports fiber cables and snaps directly into panel without tools
- 0RU, 1RU, and 2RU cable managers provide protection and routing of patch cords for flat panel
- 1RU and 2RU cable managers mount directly over existing panels

HDX SYSTEMS | MTP®, Conversion & TAP Cassettes

FIBER HDX Systems

HDX & HDX2 MTP CASSETTES

- Easy to migrate from 10 to 40, 100, 200, and 400 Gb/s when used with Opt-X® Unity trunks, harnesses, and patch cords
- Configure up to 48 fibers for 24 channels (10 Gb/s) and 6 channels (40 Gb/s or 100 Gb/s)
- Pre-terminated fiber eliminates the need for complicated field terminations and splices

HDX2 & HDX CONVERSION CASSETTES

- Manage polarity to maintain, transmit, and receive connections between parallel optics and SFP connectivity
- Connect to electronics with LC-style ports and aggregate SFP ports to a QSFP28 or PSM4 (100 Gb/s), QSFP+ (40 Gb/s), or CXP (120 Gb/s) port

HDX2 TAP CASSETTES

- Traffic analysis points (TAPs) provide real-time monitoring in network or SAN environments
- Support monitoring of 10 Gb/s and 40 Gb/s channels (QSFP)
- BiDi TAP available for 40 Gb/s

HDX ADAPTER PLATES

- Connect to field-terminated backbone cabling or pre-terminated trunks
- Visible sequential numbering to identify ports (for Tx and Rx)

HDX LC & MTP® SPLICE MODULES

- Modules integrate fiber adapter bulkhead (12 or 36 fibers) and splice holders, eliminating need for splice trays
- Innovative 12-fiber color-coded pigtail offers fusion splicing to either single fiber or ribbon fiber constructions
- LC internal shutters minimize dust and provide eye protection
- Splice Sleeves included in accessory kit
- MTP Splice Module offers field termination option to migrate from 10 to 40, 100, 200 or 400 Gb/s

12-fiber OM4 HDX Splice Module
(Cable sold separately)

HDX FIBER OPTIC DISTRIBUTION FRAME (3,168 CAPACITY)

- Integrated cable management and routing solutions for minimum bend radius, better slack storage, and protection
- Holds up to 22 patch and/or splice decks
- Lockable rear doors included to protect and conceal trunk cabling
- Optional front door kit (sold separately) with transparent door is lockable for additional security
- Occupies only one 2 x 2-foot tile
- Seismic rated to GR-63-CORE, Zone 4, UL 2046 Listed

PATCH DECK

- Accepts HDX adapter plates, cassettes, and splice modules
- 2RU height for up to 144 fibers (using LC) capacity
- Holds 6 independent sliding trays and accepts up to 12 HDX or 6 HDX2 adapter plates, cassettes, or splice modules
- Magnifying port identification label holders for better visibility
- Integrated minimum bend radius protection

SPLICE DECK

- Modular 3.5-inch-high deck accepts up to three independent splice deck trays
- Sliding trays are removable for ease of splicing
- Heat-shrink fusion splicing of individual 250 μ m or 900 μ m tight-buffer fibers for up to 144 fibers per deck
- Each tray accepts up to two 24-fiber molded Splice Trays
- Splice Sleeves included with Splice Tray

INDUSTRY-LEADING DENSITY

One HDX Frame holds up to 22 patch decks, and occupies only one 2 x 2-foot floor tile.

BUILT-IN CABLE MANAGEMENT & ROUTING

The frame keeps pathways clean and organized, using integrated cable management for minimum bend radius, better slack storage, and protection within the frame.

SUPERIOR SCALABILITY

HDX frames can be ganged together to handle future growth with easy pass-through cross-frame routing kits. And with 24-fiber MTP connectivity, they are ideal for migration from 10 to 40 to 100 Gb/s and beyond.

EASY ACCESSIBILITY

The frame's open design greatly reduces time and labor for maintenance, as it allows unobstructed access to patch cord connections. The one-tile footprint makes it easier to access the space beneath a raised floor.

ROii Savings Calculator

By reducing overall floor space, the HDX Fiber Distribution System creates significant yearly cost savings over a traditional main distribution area. Calculate your return on infrastructure investment (ROii) when installing the HDX Frame, and estimate your long-term savings over standard 19" cabinets or racks. Go to apps.leviton.com/HDXcalculator.

SDX Systems

72 LC FIBERS PER RU

The SDX System, part of the Opt-X® family of fiber optic solutions, is a flexible solution designed for easy installation and maintenance. Whether it's the 2000i for data centers or 1000i and 500i for medium and small enterprise applications, each comes packed with features for better cable organization and maintainability. In addition, precision-molded SDX adapter plates, MTP® cassettes, and cable assemblies offer the flexible connection and storage options to meet any project need.

2000i SDX RACK-MOUNT ENCLOSURES

- Accepts SDX adapter plates, MTP® cassettes, splice trays, and splice modules
- Removable transparent hinged doors
- Sliding tray provides accessibility to front and rear of bulkhead after installation, and removes completely to facilitate field terminations and splicing
- 17-inch depth for high-density fiber termination and/or splicing
- Stackable and adjustable fiber rings simplify cable management
- Constructed of durable polycarbonate plastic and black powder-coated 16-gauge steel
- 19- or 23-inch rack-mount options (23-inch 1RU mounting bracket sold separately)
- 1RU and 2RU accept the HDX Retrofit Tray (sold separately) for higher density applications using HDX MTP Cassettes and Adapter Plates

RECOMMENDED APPLICATIONS:

- Data Centers
- Equipment Room
- Entrance Facility
- Telecommunications Room
- 19" and 23" Racks and Cabinets

SPOTLIGHT

Fiber Optic Patching: Open vs. Closed Environments

The choice of open patching using patch panels or closed patching in enclosures depends on a number of considerations related to the particular network environment and applications including:

- Network security requirements
- Accessibility for ease of deployment or maintenance
- Frequency of moves, adds, and changes (MACs)
- Protection for field terminations and splicing

Leviton has a wide range of open and closed fiber patching systems. From the HDX platform to the e2XHD® Snap-In Cassette Patching System to the SDX platform, we have a solution for your network's unique needs.

1000i SDX RACK-MOUNT ENCLOSURES

- Accepts SDX adapter plates, MTP® cassettes, splice trays, and splice modules (pages B23-B25)
- Sliding tray in 1RU and 2RU removes completely for easy field terminations and splicing
- 15-inch depth for high-density fiber termination and/or splicing
- 19- or 23-inch enclosure rack-mount option (23-inch 1RU mounting bracket sold separately)
- Enclosures protrude 4.5 inches from mounting ears to align with Versi-Duct® Cable Management System
- Included accessory kit consists of cable ties, mounting-ear screws, and port ID label
- 1RU and 2RU accept the HDX Retrofit Tray (sold separately) for higher density applications using HDX MTP Cassettes

RECOMMENDED APPLICATIONS:

- Equipment Room
- Telecommunications Room
- 19" and 23" Racks and Cabinets

° = Vertical adapter plate/cassette orientation ^ = Horizontal adapter plate/cassette orientation
 * = Maximum splice tray capacity is limited by height of selected splice tray. Installation of multiple splice trays may require not installing tray covers.
 See pages B23-B25 for list of SDX adapter plates and cassettes.

500i SDX FLUSH-MOUNT RACK ENCLOSURES

- Accepts SDX adapter plates, MTP® cassettes, splice trays, and splice modules (page B23-B26)
- Flush-mount adapter bulkhead makes moves, adds, and changes easy
- One-piece removable cover allows for complete accessibility to the back of the enclosure
- Accepts injection-molded splice trays and 4-inch x 7-inch metal splice trays
- Enclosure can store up to 3 meters of 900 μm tight-buffered fiber per adapter
- Included accessory kit consists of cable ties, mounting-ear screws, and port ID label
- 1RU and 3RU flush-mount panels accept SDX adapter plates and cassettes, and mount to 19-inch racks and cabinets
- Optional add-on patch cord cable management tray (sold separately) uses existing rack unit

RECOMMENDED APPLICATIONS:

- Equipment Room
- Telecommunications Room
- 19" Racks and Cabinets

SPOTLIGHT

Patch Cord Management Tray

Patch Cord Management Trays help route and organize cables on 500i SDX enclosures. The trays feature identification labels and front saddles that pivot for easier routing. Because they mount directly to the front of the enclosures, they do not require additional rack space. Available in 1RU and 2RU sizes, the trays can be used with any Leviton 1RU flush-mount MTP enclosure, and 2RU trays can be used with 3RU 500i SDX enclosures. **See page B27.**

C

D

SDX WALL-MOUNT ENCLOSURES

- Four sizes available (mini, small, medium, large) to accommodate from 24 LC to 288 LC fibers
- Locking doors and dual-door access to separate user and service sides
- Cable and patch cord protection make it easier for contractors to dress-out and protect cable and jackets from damage and pinching
- Field splicing options include both splice trays and self-contained splice modules
- Mini mounting options: wall-mount, DIN rail, zero-RU, or cubicle wall installations
- Optional adapter allows enclosures to accommodate both Leviton SDX and HDX patching platforms
- Accepts 6 copper ports using Quickport Adapter Plate, 5F100-6QP

SPOTLIGHT

Mounting Options for Mini Wall-Mount Enclosure

With a capacity of one SDX cassette or adapter plate — up to 24 LC fibers or 12 SC fibers — the Opt-X SDX Mini Wall-Mount Enclosure provides simple deployment and flexible mounting options for remote network hubs, non-traditional network areas, and other areas with extreme space constraints. It also accepts copper ports by using a QuickPort adapter plate (5F100-6QP).

Numerous mounting options include wall-mounting, DIN-rail mounting, zero-RU rack mounting, ganging multiple mini enclosures, and even placement inside of a cubicle wall for easy and manageable network expansion.

SDX ADAPTER PLATES

- Work with SDX Enclosures, including 2000i, 1000i, 500i, VertiGO®, and wall-mount
- Captive push/pull fasteners allow for quick, tool-free installation and removal
- Precision-molded LC and SC adapter plate colors designate fiber type, per TIA standards
- Available in 6- to 24-fiber plates for LC, SC, and ST
- Available in 72- to 192-fiber plates for MTP®
- MTP and LC adapter plates with shutters available by custom order
- 6-position QuickPort® Adapter Plates (item T) accept all QuickPort Jacks and Adapters

Additional adapter plate configurations available. Please contact Tech Support at (800) 824-3005 for more information.

SPOTLIGHT

SDX Precision-Molded Adapter Plates

Traditional adapter plate construction typically uses independent couplers inserted in a metal plate that often results in a “rattling” of components. Leviton SDX Adapter Plates eliminate rattling and loose-fitting adapters by using precision molding and integrated adapters, improving the overall performance, functionality, and quality of construction. All multimode and single-mode SDX plates feature zirconia ceramic sleeves, providing high performance and low insertion loss (recommended for applications requiring 10 Gb/s and higher).

SDX Cassette MTP-LC Singlemode

SDX MTP CASSETTES

- Plug-n-play cassettes eliminate the need for field termination or splices
- Bend-insensitive fiber used in OM3/OM4 cassette
- All premium 12-fiber MTP cassettes use low-loss MTP connectors
- Low insertion loss of 0.5 dB maximum
- 100% factory tested with test results included with each cassette

SDX CASSETTES, COMMON CONFIGURATIONS

PRECISION-MOLDED SPLICE TRAYS

- 12-fiber mini and 24-fiber high-density splice trays
- Protect and manage heat-shrink-style spliced fibers
- Heat-shrink splice sleeves included
- Ratchet-action clamps with foam-rubber padding minimize damage to fibers
- Compatible with Leviton SDX 2000i and 1000i Enclosures, plus SDX and LightSpace® Wall-Mount Enclosures
- 24-fiber splice tray (T5PLS-24F) compatible with HDX frame splice deck
- 12-fiber splice tray compatible with Leviton network interface devices (NIDs); when stacking splice trays, only use lids on top tray

SDX 12- & 24-FIBER SPLICE MODULES

- Integrate fiber adapter bulkhead (12 or 24 fibers) and splice holders, eliminating the need for splice trays
- Individual compartments provide slack storage and bend radius guides for respective backbone cable, 900 µm tight-buffer pigtails, and fusion-spliced fibers
- Modular design allows for ease of maintenance of individual spliced fiber and allows for scaling up without impacting existing fibers

SPLICE TRAYS

DESCRIPTION	PART NO.
[A] 12-Fiber Mini Splice Tray, 3.74" W x 5.59" L x 0.56" H (includes 14 heat-shrink splice sleeves)	T5PLS-12F

SPOTLIGHT

SDX Fiber Splice Modules

SDX 12- and 24-Fiber Splice Modules protect and organize heat-shrink fusion-spliced fibers inside a fiber enclosure. Splice modules eliminate the need for individual splice trays within a fiber enclosure and provide optimal organization and slack management of fibers. Plus, the modular design enables faster field splicing and simple management of pigtails within the housing.

UNIVERSAL CABLE CLAMP KITS

- Minimize excessive pulling, bending, and crushing
- Enclosure-mount kits make cable identification easy and decrease need for tie-wraps inside enclosure
- Rack-Mount Kit ideal for vertical strain relief and strain relief at top or bottom of rack
- Compatible with UHDx and SDX rack-mount enclosures

SDX ENCLOSURE CABLE MANAGEMENT

- Fiber Cable Management Rings secure fiber slack; come in kit of four quarter-round rings
- Patch Cord Bend Radius Brackets protect against macro bending in 2000i SDX enclosures
- Patch Cord Management Trays route and organize cables
- Trays mount directly to enclosures and do not require additional rack space

HDX RETROFIT TRAY & HDX-TO-SDX ADAPTER BRACKET

- Retrofit trays allow upgrade of SDX enclosures to accept HDX cassettes and adapter plates
- Trays allow for up to 96 LC fibers per RU
- Tray available for 1RU and 2RU 2000i and 1000i SDX enclosures
- HDX-to-SDX Adapter Bracket upgrades SDX Enclosures to accept two HDX cassettes per bracket

UNIVERSAL PATCH CORD CABLE MANAGERS

- 0RU cable managers transition patch cords from horizontal to vertical pathway
- 1RU and 2RU cable managers provide protection and routing of patch cords for flat panels

SPOTLIGHT

Cable Clamp Kits

Cable clamp kits minimize excessive pulling, bending, and crushing forces on cable. The Enclosure-Mount Universal Clamp Kit makes it easy to identify cables and decreases the need for tie-wraps inside the enclosure. The kit also creates a transition point from jacketed cable to buffered fiber or subunits. The Rack-Mount Universal Clamp Kit is ideal for vertical strain relief and strain relief at the top or bottom of a rack/cabinet. Use it for installations with minimal vertical cable pathways and little space for an enclosure-mount cable clamp kit.

e2XHD Snap-In Cassette Patching System

The e2XHD Copper and Fiber Patching System is an easy-to-connect, high-density solution for enterprise and data center applications, where fast deployment and simple maintenance are critical. The system includes 1RU high-density panels, copper and fiber snap-in cassettes, and accessories for additional cable protection and management. The e2XHD cassettes quickly snap in and pull out of the panels, making installation, moves, adds, and changes easier than ever. **For copper cassettes, see page A18.**

e2XHD Patching System
FIBER

e2XHD HIGH-DENSITY PATCH PANELS

High-density panels allow patching for up to 48 duplex fiber channels in a 1RU panel.

e2XHD MTP-MTP Pass-Through Cassette

e2XHD MTP-MTP Fiber Cassette, Core

e2XHD FIBER CASSETTES

Fiber MTP® Cassettes provide a simple migration path to 40 or 100 Gb/s networks. The cassettes are pre-terminated and available in 12 or 24 fibers, OM3, OM4, or OS2 single-mode.

The e2XHD Fiber Cassette features an MTP adapter that swivels to three positions for easier cable routing. Used in conjunction with the patching system's rear cable manager and cable management rings, the adapter delivers an ideal solution for eliminating cable tension and ensuring proper bend radius.

e2XHD 12-Fiber QuickPort® LC Cassette, OM3/OM4

e2XHD SNAP-IN CASSETTE PATCHING SYSTEM | Panels, Cable Managers, Covers & Tools

HIGH-DENSITY PANELS

- Allows for UTP, shielded, and fiber in the same panel
- 1RU panels hold up to 8 single-height fiber cassettes (48 fiber channels)
- Alignment tabs on panels ensure upright insertion of cassettes
- Mount on standard 19-inch racks or cabinets

ANGLED PANEL COVER

- Uses no additional rack space
- Minimizes dust and debris behind panels
- Attaches directly to e2XHD Angled Panel
- Can be retrofitted after panel is installed
- Can be used for top and bottom of panels

REAR CABLE MANAGERS

- Support both fiber and copper cables
- Cable management rings included to help manage and route incoming fiber cables
- Built-in VELCRO® Brand tie-downs secure cables
- Optional Clamp Kits available to provide cable strain relief for incoming cables
- Flat Panel Manager mounts to rack or cabinet; screws included
- Angled Panel Manager attaches directly to panels

FIBER CASSETTES

- Easy to migrate from 10 to 25, 40 and 100 Gb/s when used with Opt-X® Unity trunks, harnesses, and patch cords
- Used exclusively with e2XHD panels
- Available in MTP-MTP or MTP-LC
- Available in 12- or 24-fiber, OM3, OM4, OS2
- MTP® adapter swivel allows for easy cable routing and proper bend radius
- QuickPort® MTP-LC Cassette uses QuickPort modular fiber adapters; can be removed with QuickPort Connector Removal Tool
- All cassettes use either 24-fiber or 12-fiber low-loss MTP connectors
- Conversion cassettes for 40 to 100 Gb/s channels connecting QSFP+ to SFP+ transceivers, or 120G to 10G channels connecting MXP ports to SFP+ transceivers

LightSpace® System

Leviton offers a wide range of enclosures designed to protect, manage, and organize fiber splices across various indoor and outdoor environments. Specifically designed to meet the requirements of service providers large and small, LightSpace enclosures are ideal for central-office, outside-plant, and fiber-to-the-premises applications.

KEY FEATURES

- Constructed of high-strength aluminum, powder-coated central-office white
- Mounts on standard 19- and 23-inch racks and cabinets
- Accepts LightSpace adapter plates (see page B36)

RECOMMENDED APPLICATIONS:

Central Office or Head End, CLEC
19" and 23" Racks and Cabinets

DP SERIES OPTICAL DISTRIBUTION ENCLOSURES

- Removable front door
- Rear door with key lock option
- Upper and lower patch cord bend radius brackets

DPS & DPC SERIES OPTICAL SPLICE ENCLOSURES

- Front accessibility to splice trays
- Removable front door with key lock option
- Rear door with key lock option

LIGHTSPACE NETWORK INTERFACE DEVICES (NIDS)

- 3500 and 502H models have upper-hinge doors
- 530 model has a left-hinge door
- 502H and 3500 models have padlock provision for added security
- Accepts LightSpace adapter plates (see page B36)
- Accepts 12-fiber molded splice tray T5PLS-12F
- Ideal for MDUs or single-family home environments

RECOMMENDED APPLICATIONS:

- Demarcation Point
- Telecommunications Room
- Equipment Room
- Wall Mount

Flush-Mount Enclosures & Panels **B40**

Flush-Mount Enclosures & Panels

Leviton high-density Flush-Mount Enclosures and Panels are ideal for data center server, zone, or MDA cabinet applications where space is crucial. These enclosures utilize MTP® connections on the back with choice of fiber connectors on the front, or can be pre-assembled with harnesses. Panels can accommodate up to 576 multimode or single-mode fibers, depending on connector style, and mount on standard 19-inch racks and cabinets.

1RU Enclosure, 48-fiber OM3, MTP®-LC, front and rear

1RU Panel, 72-fiber OM3, LC

1RU Panel, 72-fiber, OS2, MU

HIGH-DENSITY FLUSH-MOUNT ENCLOSURES & PANELS

- Staggered, ergonomic design allows easy access to connectors
- Incorporates logical port management (LPM) using custom silk-screening (modular, numeric, and hexadecimal) for easy port identification
- Constructed of 16-gauge steel, powder-coated black
- Panel mounts on standard 19-inch racks and cabinets
- Accepts 1RU Patch Cord Management Tray (5R1UX-CMT)
- Larger enclosures (up to 10RU) are available; contact Inside Sales to order

RECOMMENDED APPLICATIONS:

- Data Center Server, Zone, or MDA
- Equipment Room
- Telecommunications Room
- 19" Racks and Cabinets

Premium & Economy Fiber Optic Cable Assemblies **B51**

Pre-Terminated Cable Assemblies

Simplify fiber connection and termination with Leviton cable assemblies. Choose from a wide selection of patch cords, and take advantage of our Opt-X® Unity assemblies to future-proof your critical networks. Pre-terminated trunk cables and harnesses, plus multimode, single-mode, and pigtail assemblies are all made to customer specifications. Choose cable type, connector combinations, length, mode, and more. **Configure online at [Leviton.com/configurator](https://www.leviton.com/configurator).**

BUILD YOUR OWN PRODUCTS WITH THE LEVITON MAKE-TO-ORDER PROGRAM

We've made building the exact solution for your network quicker and easier than ever. Rely on our innovative online custom configurators for a wide variety of fiber and copper products.

OPT-X UNITY PRE-TERMINATED TRUNK CABLES

- Multimode and single-mode MTP-to-MTP trunk cables support 40 to 100, 200, and 400 Gb/s speeds
- Terminations available in 8-, 12-, and 24-fiber configurations
- Migration solution to 40, 100, 200, and 400 Gb/s from existing 10 Gb/s networks
- Up to 70% faster install than field-terminated trunks
- MTP polarity options are TIA methods A, B, or C (Method B is standard)
- 100 percent factory tested, with test results included for each assembly
- All assemblies labeled with serial number and length for traceability and easy re-order

See page B8 for Opt-X Unity system overview.

SPOTLIGHT Multimode Migration Path to 40 and 100 Gb/s

Leviton pre-terminated MTP solutions offer an ideal migration path from 10 to 40 and 100 Gb/s channels. The Opt-X Unity system features MTP trunks, harnesses, array cords, adapter plates, and cassettes to help future-proof your networks. The Opt-X Unity system is fully compatible with UHDX, HDX, SDX, and e2XHD (shown) footprints.

10G
Leviton components for a 10 Gb/s channel include MTP-LC SDX, e2XHD, or HDX cassettes, and LC duplex patch cords.

40G
Migration from 10 to a 40 Gb/s system replaces LC with MTP components, such as 2x12-fiber to 3x8-fiber MTP cassettes and 8-fiber MTP array cords.

100G
Moving from 40 to 100 Gb/s replaces MTP cassettes with MTP adapter plates and uses 24-fiber MTP array cords.

SPOTLIGHT

Before you Connect – CL.I.C.

[For more information, visit Leviton.com/CLIC]

Per ANSI/TIA-568.3-D, all fiber optic assemblies, test jumpers, and the ports under test should be inspected, cleaned, and free of damage in accordance with IEC-61300-3-35, which sets the requirements for connector quality. Adherence to this standard and best cleaning practices during and after installation is required to meet all Leviton product warranty criteria.

SPOTLIGHT Pulling Eye

Heavy-duty high-tensile load option used for 125 feet and more

The pulling eye protects fiber connectors on 12- through 144-fiber trunk cables. It completely covers the breakout length, transferring any pulling force from the assembly to the pulling eye sleeve. Customers can specify which end to have the pulling eye installed. Also available: a high-tensile load option that attaches to Kevlar®.

PRE-TERMINATED CABLE ASSEMBLIES | MTP® Array Harnesses > Opt-X® Unity

Pre-Terminated Cable Assemblies
FIBER

OPT-X UNITY MTP ARRAY HARNESSSES

- For use in attaching directly to 40 and 100 Gb/s transceivers
- Pre-terminated MTP-to-MTP connectors in laser-optimized multimode and single-mode fiber
- Custom short-length cable for cabinet/rack patching
- Custom staggering available
- MTP polarity options are TIA method A, B, or C (Method B is standard)
- Used in conjunction with MTP brackets (Zero-U) or adapter plates
- 100 percent factory tested, with test results included for each assembly
- All assemblies labeled with serial number and length for traceability and easy re-order
- Color-coded boots

OPT-X UNITY 4-TO-1 CONVERSION FIBER HARNESSSES

- Available with multimode or single-mode fiber for channels connecting QSFP+ to SFP+ transceivers
- Small diameter cable for dense connectivity
- Uses bend-insensitive fiber; lowers risk for pinched cables
- Available with optional reversing polarity LC Uniboot
- Low-loss MTP connector 0.35 dB Max IL
- Includes options for HDX and e2XHD systems

PRE-TERMINATED CABLE ASSEMBLIES | Opt-X® Enterprise Harnesses

OPT-X ENTERPRISE HARNESSSES

- Enterprise array harnesses use pre-terminated MTP-to-MTP connectors in Laser Optimized Multimode
- Pre-terminated MTP-to-discrete connectors (LC, SC) in all fiber types
- Custom short-length cable reduces congestion in cabinet or rack patching applications
- Custom staggering available
- Used in conjunction with Flush-Mount Series MTP 1RU panels
- Used as direct connect into SAN equipment
- 100 percent factory tested, with test results included for each assembly
- All assemblies labeled with serial number and length for traceability and easy re-order
- Small diameter cable for dense connectivity
- Available with optional reversing polarity LC Uniboot

PRE-TERMINATED CABLE ASSEMBLIES | Opt-X® Unity Array Cords

OPT-X UNITY MTP ARRAY CORDS

- Available in laser-optimized multimode and single-mode fiber
- 8-, 12-, and 24-fiber MTP array cords offer migration path from 10 to 40, 100, 200, and 400 Gb/s networks
- Available in lengths of 1, 2, 3, 5, and 10 meters
- See page B8 for Opt-X Unity system overview
- Insertion loss: 0.2 dB per 8- and 12-fiber mated pair, 0.35 dB per 24-fiber mated pair

SPOTLIGHT Conversion Harnesses

Conversion Harnesses connect to electronics with LC-style ports. Ideal for channels connecting QSFP+ and SFP+ transceivers, the harnesses can aggregate 10G ports to 40G ports and 25G ports to 100G ports. Available in 50/125 µm OM3 and OM4 multimode fiber, conversion harnesses feature a small diameter cable for dense connectivity and bend-insensitive fiber to lower the risk of pinched cables. Conversion cassettes are available in HDX and e2XHD footprints.

FEATURED
PRODUCTS

FastCAM
Connectors **B56**

Connectors & Housings

Leviton has everything you need to properly terminate your fiber network. FastCAM® and Fast-Cure® connectors are available in LC, SC, and ST styles. To extend fiber to the workstation, we also offer QuickPort® footprint fiber adapters that fit into our standard wallplates and Multimedia Outlet System (MOS) housings. Go to the Wallplates & Housings section to see our extensive wallplate selection.

FASTCAM CONNECTORS

- Pre-polished, field-installable connectors
- Use precision zirconia ferrules
- Require no polishing or epoxy curing; provide immediate termination
- Precision mechanical termination uses molded v-groove technology to retain and align the fiber
- Terminated on 250 µm or 900 µm buffered fiber and/or 2 or 3 mm jacketed fiber
- Higher yields with Visual Fault Locator (VFL)-compatible LC, SC, and ST connectors
- Available in OM1, OM2, OM3, OM4, OS2 UPC, and OS2 APC (SC only)

FASTCAM CONNECTORS - 1 PER BAG

SPOTLIGHT

Visual Fault Locator (VFL)

The Leviton Visual Fault Locator (VFL) uses a bright red laser to locate faults in optical fiber, such as bends, breaks, and defective connectors. The VFL comes with a 2.5 mm interface for ST and SC type connectors, a 1.25 mm adapter for LC connectors, and a soft carrying case. Use with LC, SC, and ST FastCAM prepolish connectors, as it provides real-time visual feedback on success of fiber-to-fiber coupling just prior to activating the clamps.

See page B63.

FAST-CURE CONNECTORS

- Anaerobic adhesive-style, field-installable connectors
- Hand polishing required
- Most robust connection; ideal for inside and outside plant applications
- Available in LC, SC, and ST connector styles
- 900 µm and 3 mm boots included with SC and ST connectors

Fast-Cure Components

FAST-CURE ADHESIVE CONNECTORS

See pages B61-B64 for Fast-Cure tools and consumables.

SPOTLIGHT Ceramic vs. Polymer Ferrules

Fiber optic ferrules, which ensure accurate alignment of fiber-to-fiber core interfaces, can be constructed of zirconia ceramic or polymer composites. While the two materials offer comparable performance in several areas, ceramic ferrules are superior in the key attributes of reliability (withstanding day-to-day environmental stressors) and durability (withstanding repeated matings/moves, adds, and changes). Leviton builds its connectors using only ceramic ferrules, so our customers can be assured of the best fiber connector performance in any application.

FIBER OPTIC FAN-OUT KITS

- Protect bare fiber and prepare loose-tube cable for direct termination to industry-standard connectors
- Separate 250 µm fibers and route into color-coded 900 µm buffer tubes with no proprietary tools
- Available in 6- or 12-strand kits and 24- or 36-inch lengths
- Works with cabling from any manufacturer (will accommodate maximum buffer-tube diameter up to 3.5 mm)

QUICKPORT FIBER ADAPTERS

- Snap into all QuickPort openings and Multimedia Outlet System (MOS) housings
- Tool-free plug-n-play installation
- Offered with precision phosphor bronze or zirconia ceramic alignment sleeve

FEATURED PRODUCTS

Visual Fault Locator (VFL) **B63**

Cleaver **B63**

Tools & Consumables

Different termination technologies require unique tools. Leviton has everything you need to terminate Fast-Cure® (adhesive polish) and FastCAM® (pre-polished) connectors. We also offer cleaning tools for LC, SC, and MTP® connectors. Choose from complete kits, or mix and match individual tools and a wide variety of consumables.

VISUAL FAULT LOCATOR (VFL)

Quickly locate optical fiber damage with the Leviton Visual Fault Locator (VFL). The pocket-sized tool uses a bright red laser to locate faults, including tight bends, breaks, and defective connectors. The VFL comes with a 2.5 mm interface for ST and SC type connectors, a 1.25 mm adapter for LC connectors, and a soft carrying case. Use with FastCAM® LC and SC connectors for enhanced terminations. The VFL is an ideal tool for first time users of FastCAM prepolish connectors, as it provides real-time visual feedback on success of fiber-to-fiber coupling just prior to activating the clamps. **See page B63.**

FIBER

LEVITON 200X INSPECTION SCOPES

Reduce the chances of over-polishing with Leviton's high-powered inspection scopes. View single-mode and multimode end-face polishes safely with our oblique viewing technology. Full laser eye protection is provided through wavelengths of 850-1550 nanometers (nm). Rugged metal and rubber construction stands up to job-site abuse while offering an ergonomic grip. **See page B63.**

FASTCAM TERMINATION TOOLS

FastCAM terminations and fusion splicing both require precision cleaving. Get the accuracy you need with the cleaver. A cleave angle of 90 degree +/- .5 degree is guaranteed. The 16-position blade remains sharp through approximately 48,000 cleaves. Clean-up is eliminated with the built-in waste holder. For a self-contained workspace, mount the cleaver to the optional work tray and use the gooseneck LED for task lighting. The Leviton APC Angled Cleaver is required for APC single-mode FastCAM connectors. **See page B63.**

ONLINE TRAINING VIDEOS

Increase your expertise with Leviton's online fiber training. Step-by-step instructions on terminating FastCAM 250 µm or 900 µm fiber, using our fan-out kits, or terminating Fast-Cure® connectors are all available with just a click of the mouse. All of Leviton's training videos feature clear, easy-to-understand images and instructions for maximum effectiveness. **Visit Leviton.com/ns/videos.**

FIBER OPTIC BASIC TOOL KIT

- Essential tool set for quick field-termination of multimode and single-mode Fast-Cure® connectors
- Includes compact, lightweight case, inspection scope, polishing pad, standard 2.5mm and LC 1.25mm polishing fixture, fiber optic crimp tool, scissors, and jacket stripper

FIBER OPTIC FAST-CURE TOOL KIT

- All the tools you need for terminating multimode or single-mode LC, SC, or ST Fast-Cure adhesive connectors
- Includes compact, lightweight case, inspection scope, polishing pad, standard 2.5mm and LC 1.25mm polishing fixture, LC scope adapter, fiber optic crimp tool, safety glasses, scissors, jacket stripper, and music wire

FIBER OPTIC FASTCAM® TOOL KIT

- Precision cleaving for guaranteed FastCAM connector performance
- Includes Opt-X fiber cleaver, Opt-X work tray, Opt-X flex LED light, fiber jacket stripper, lint-free wipes, and alcohol moistened cleaning wipes

Consumables sold separately. See page B64.

SPOTLIGHT

GigaCenter Attracts Cloud and Colocation Clients with Efficient Design, Ideal Location

The GigaCenter in British Columbia serves more than 1,800 customers, who use from a single cabinet to an entire GigaVault. When choosing network connectivity, the GigaCenter network engineers decided on Leviton for their products, experienced people, strong logistics support for moving product fast, and the capability to fulfill unique needs for non-standard equipment and make-to-order products. They also took advantage of the Leviton data center team, getting help with network infrastructure design.

UNIVERSAL CONSUMABLES KIT

All the basic supplies needed to clean and polish fiber optic connectors. Set includes:

- 50 lint-free dry wipes
- 50 alcohol pads
- 30 sheets 12 µm lapping film
- 30 sheets 3 µm lapping film
- 30 sheets 0.3 µm lapping film
- Piano wire

ADHESIVE/ACCELERATOR KIT

Sufficient supplies for approximately 200 terminations. Set includes:

- Loctite 680 adhesive
- Loctite 7649 accelerator with syringe
- Two needles

FAST-CURE® CONSUMABLES KIT

Everything from the Universal Kit, plus specialized supplies for approximately 200 Fast-Cure terminations. Additional included items:

- 25 syringes
- 25 needles
- Adhesive and accelerator

FAN-OUT CONSUMABLES KIT

Kit terminates a minimum of 10 Fiber Optic Fan-Out Kits.

Set includes:

- 20 lint-free dry wipes
- 10 alcohol pads
- 10 D'Gel® packets
- Sealant
- Talc powder

AV SOLUTIONS

Leviton IT/AV systems combine category-rated structured cabling with audiovisual signal extenders to create plug-and-play solutions with no programming required. The enterprise-grade systems allow contractors to extend AV signals over twisted-pair cabling with the same tools used for installing datacom infrastructure. They can then test and certify the installation to Ethernet standards to ensure high signal performance after they leave the jobsite.

EXTENDING HIGH-QUALITY AV SIGNALS OVER CATEGORY CABLE

Deliver the high-quality audio and video required for today’s technologies with Leviton IT/AV Systems, which include signal extenders for long distance transmission of HD video. We offer extenders for a variety of connection types that increase cable distance and retain high signal performance.

Below are recommended maximum lengths using Leviton extenders, compared to maximum lengths for different AV cables.

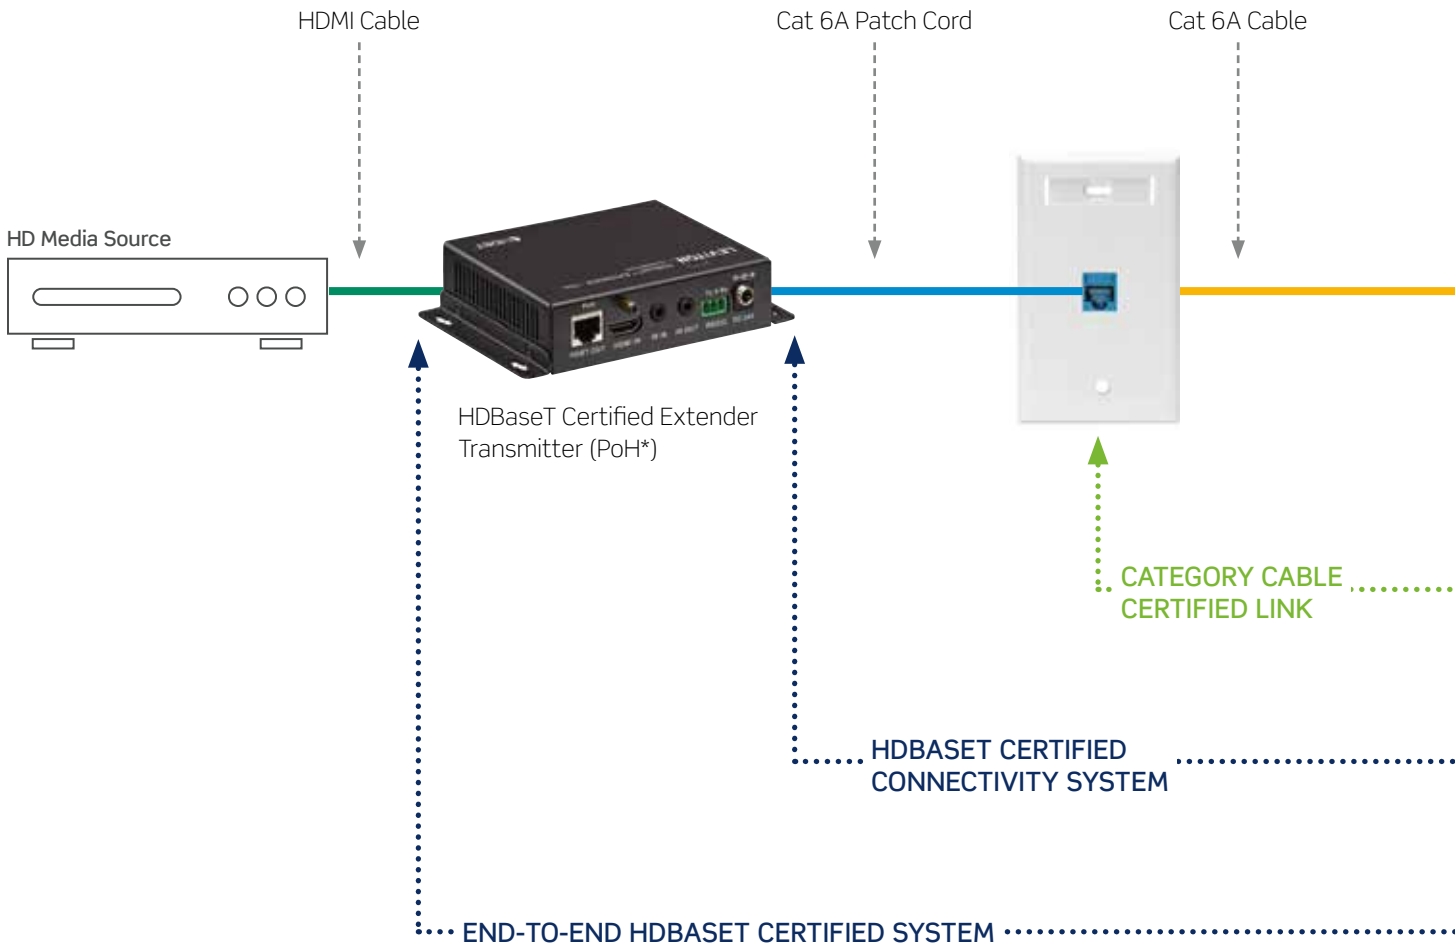

END-TO-END TESTED AND CERTIFIED AV SYSTEMS

The increasing convergence of AV and data networks has positioned low-voltage, BICSI RCDD contractors as the next generation of AV integrators. Leviton's new IT/AV Systems help these contractors be the AV experts for their customers and use an easy-to-install solution that requires no programming and little-to-no training.

An IT/AV System combines Leviton HDBaseT™ HDMI® Extenders, Atlas-X1™ Cat 6A connectivity, and approved Cat 6A cable and patch cords for a complete end-to-end solution. The Cat 6A infrastructure link can be installed, tested, and verified like any other Cat 6A 10GBASE-T link. This system is also certified to HDBaseT Alliance standards.

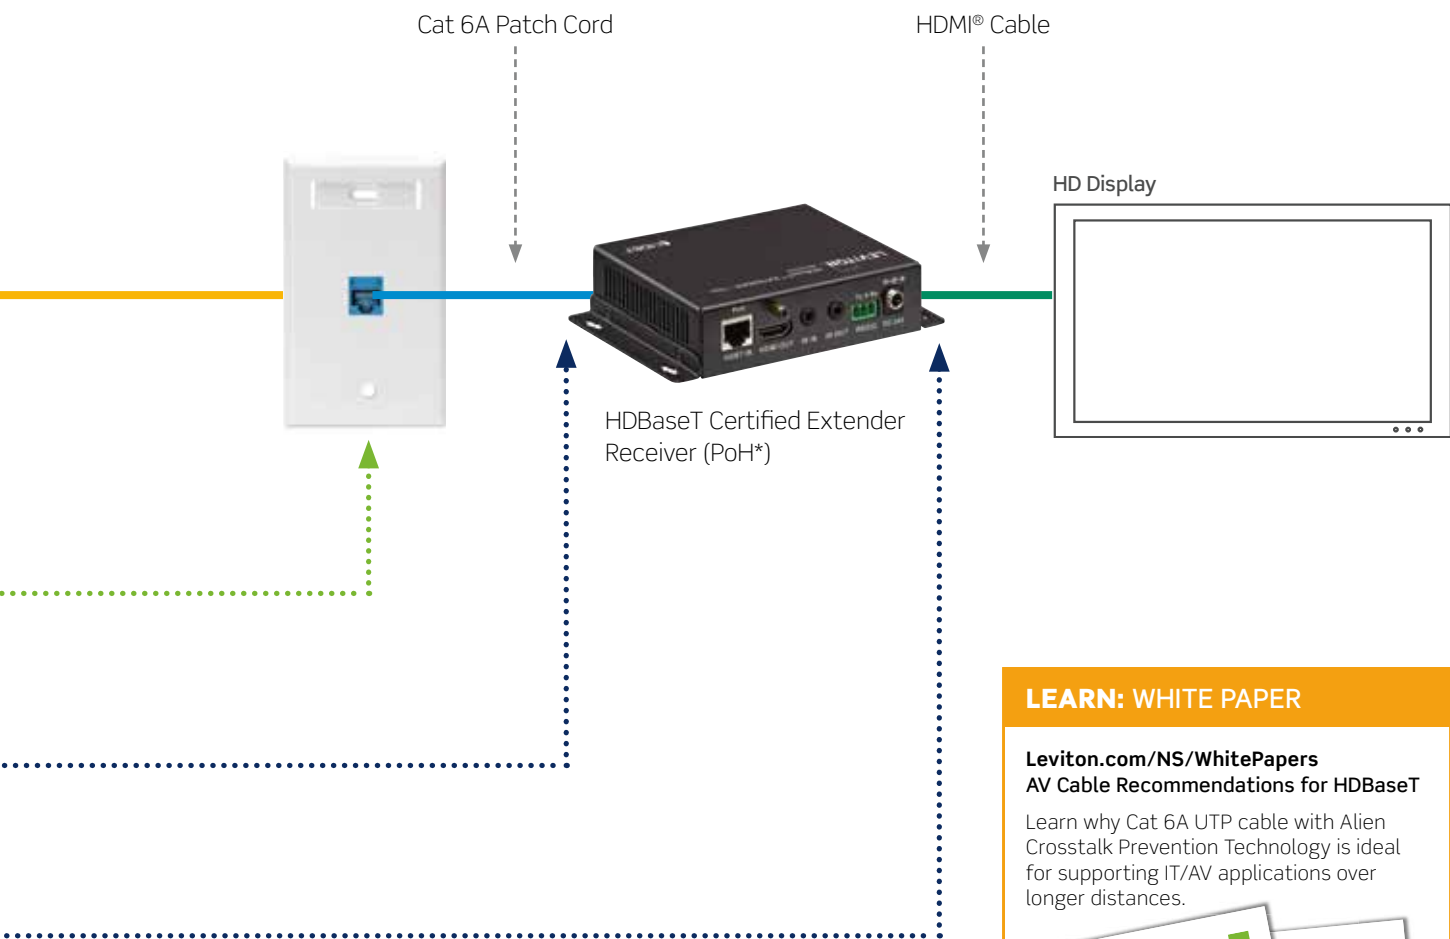

IT/AV System
AV SOLUTIONS

*PoH = Power Over HDBaseT

HDBaseT™ certification offers important benefits:

- System longevity capable of supporting future HD video signal performance requirements
- Installation and testing using the same tools used for datacom infrastructure
- Peace of mind that comes from third-party verification and certification of AV signal transmission performance
- Compatibility with other manufacturers' equipment supporting the same HDBaseT features
- Limited lifetime warranty on the structured cabling system when installed by a Leviton certified contractor

AV Cable Recommendations for HDBaseT

Learn why Cat 6A UTP cable with Alien Crosstalk Prevention Technology is ideal for supporting IT/AV applications over longer distances.

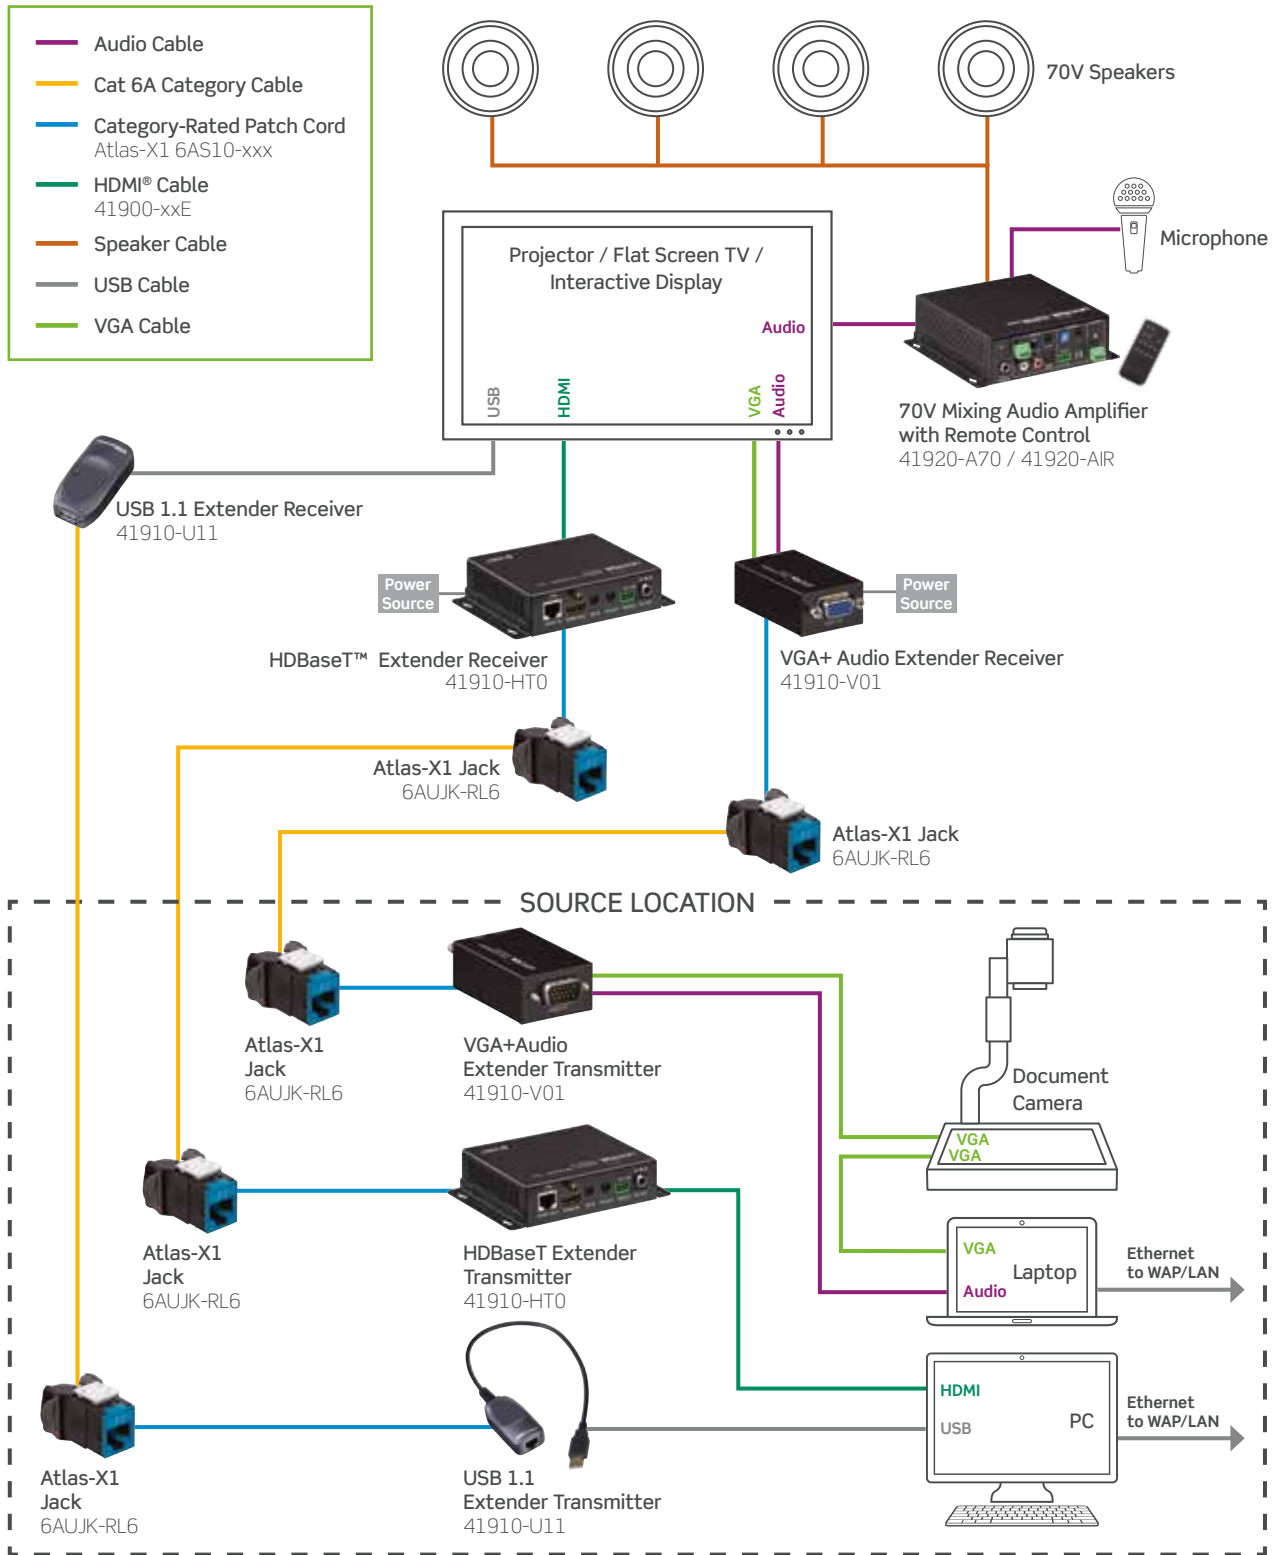

CLASSROOM APPLICATION

Today's classrooms have evolved from using chalkboards and overhead projectors to connected tools like interactive whiteboards and document cameras. Leviton solutions allow contractors to easily extend HDMI®, VGA, and USB signals from teachers' desks to the latest devices anywhere in the room, all networked over easy-to-install, category-rated cable. Classrooms can also integrate IT/AV controls for an interface that's easy to use (see "Conference Room" diagram on C10). These solutions help ensure a quality learning environment throughout all types of learning areas, including lecture halls, libraries, and computer labs, and they prepare schools for more advanced technologies to come.

CLASSROOM/CONFERENCE ROOM APPLICATIONS WITH SIGNAL EXTENSION & 70V AUDIO

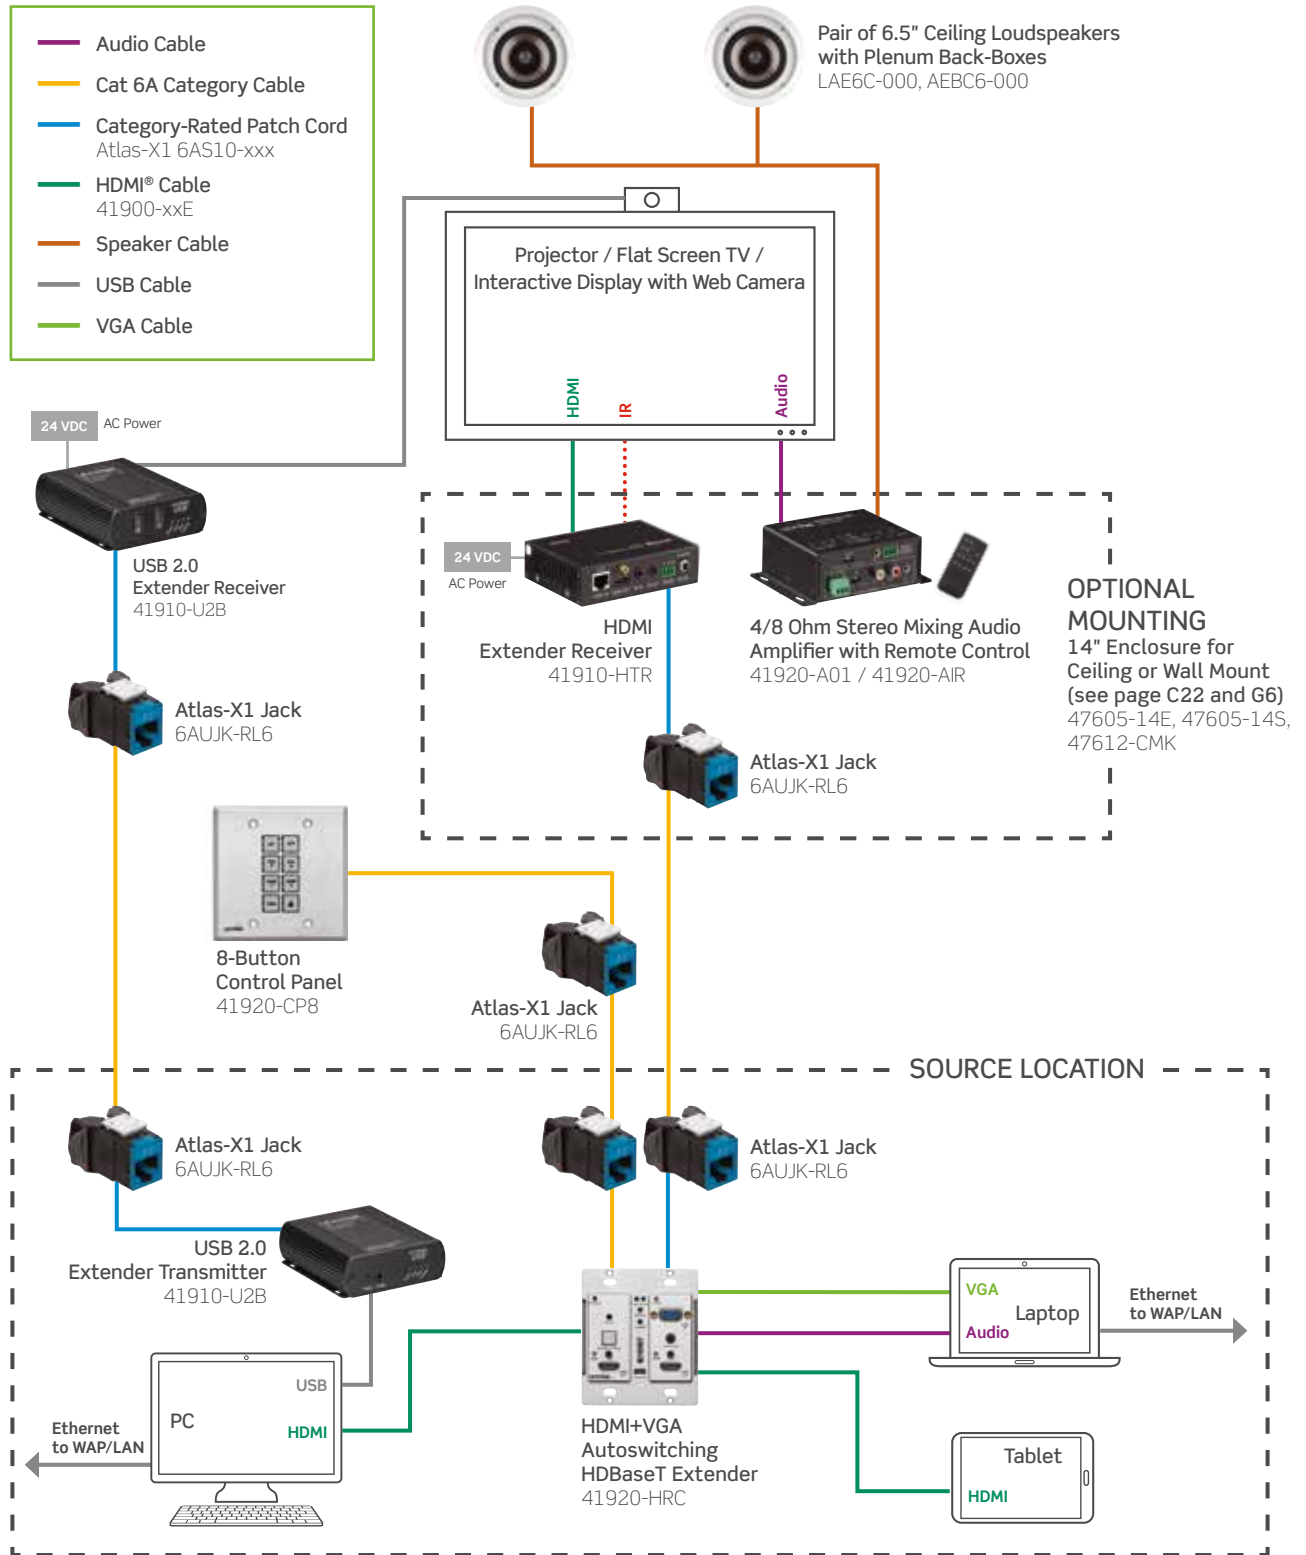

CONFERENCE ROOM APPLICATION

The best AV installations for conference rooms can adapt to handle future multimedia devices while maintaining a low profile in the room. With help from Leviton AV Signal Extenders, IT/AV Controls, audio amplification, and in-ceiling connectivity for wireless access points — all connected over versatile category-rated cable — you create extra flexibility and a clean look in business, school, or hotel conference rooms. See the following page for typical conference room AV applications with Leviton solutions.

AUTOSWITCHING & 8-BUTTON CONTROL PANEL WALLPLATES

The Leviton Autoswitching HDBaseT Extender Wallplate connects, switches, and extends HDMI and VGA signals to displays or projectors in conference rooms, classrooms, and control centers. Complete the system with an optional 8-button control panel for simple push-button controls.

- Extends signals up to 70 meters (230 feet) over a single category cable
- Uses certified HDBaseT technology for a complete professional plug-and-play installation.
- PoH (Power over HDBaseT) powered from the receiver at the display end
- Autoswitching Extender accepts any Decora® dual-gang wallplate (sold separately, see page D11)
- Optional 8-button Control Panel has pre-configured buttons for display or projector on/off, volume up/down, and source selection
- 8-button panel powered by, and communicates with, the Autoswitching Wallplate via category cable

HDBASET™ EXTENDER TRANSMITTERS & RECEIVERS

HDBaseT twisted-pair extenders with Power over HDBaseT (PoH) deliver HDMI®, Ethernet, IR, and RS232 signals for classrooms, conference rooms, command centers, restaurants, and more. The paired transmitter and receiver require only one power adapter that can be connected at either end.

- Class A Extenders (41910-HTE) deliver 328 ft (100 m) transmission for HDMI, Ethernet, bi-directional IR, RS232
- Class B Extenders (41910-HT0) deliver 230 ft (70 m) transmission for HDMI, bi-directional IR, RS232
- Support key features of HDMI 1.4, including 3D and 4K x 2K, CEC pass through and HDCP compatible
- Locking power supply and HDMI cable connectors
- Power supply, RS-232 cables, and mounting brackets included
- Compact metal housing for mounting with flatscreen displays
- Plenum rated

IR EMITTER AND RECEIVER KITS

Kits work with Leviton HDBaseT Transmitters and Receivers.

- IR Emitter and IR Target Kit delivers 5V signal transmission; connects over 5-foot cords
- IR Y-Cable and Emitter Kit splits IR output from the receiver to two emitters

VGA EXTENDER TRANSMITTER & RECEIVER

- Extends distance between AV source and display up to 328 feet (100 meters) over one category cable
- Screen resolutions include:
 - 1920 x 1200 @ 60 Hz (30 meters)
 - 1600 x 1200 @ 60 Hz (100 meters)
 - 1280 x 1024 @ 60 Hz (150 meters)
- Adjustable Gain Control lets you manually adjust signal strength to compensate for distance
- Audio enabled (mono)
- No external power supply needed for transmitter
- Receiver powered either by included USB power cable or DC adapter
- Convenient docking on the display device
- Plenum rated

70 VOLT MIXING AUDIO AMPLIFIER

- 40-watt mono output, 70V or 100V constant voltage
- Three inputs: two stereo audio and one balanced mic, which support EQ control and mic mixing
- Mic input supports 48V phantom power
- Volume, bass, treble, and mute control
- LED indicators for power and control function feedback
- Plenum rated

4/8 OHM MIXING AUDIO AMPLIFIER

- 2 X 20W stereo, 1 X 40W bridge mono, and 2 X 20W dual mono
- Three inputs: Two stereo audio and one balanced mic
- Mic input supports 48V phantom power
- Volume, bass, treble, and mute controls
- Plenum rated

INFRARED REMOTE CONTROL KIT

- Controls Mixing Audio Amplifiers
- Includes a remote control and IR target
- A kit is also available that includes only the IR target

USB EXTENDERS

- Plug-and-play extenders reach up to 328 feet (USB 2.0) and 164 feet (USB 1.1) over a single category cable
- USB 2.0 Extender includes transmitter, 2-port receiver, power supply, 6-foot (2 m) cable, mounting brackets
- USB 1.1 Extender includes transmitter with attached 1-foot (0.3 m) cable and receiver
- 2.0 Extender supports USB 480 Mb/s and also connects to USB 3.x devices; 1.1 Extender supports USB 12 Mb/s

HDMI® EXTENDER TRANSMITTER & RECEIVER

The HDMI Extender Transmitter and Receiver extends your HD display up to 130 feet (40 meters) away from your HDMI source using two category cables. They are capable of supporting DVI-D (Single-Link) equipment when used with a HDMI-to-DVI adapter, providing greater flexibility and installation options.

- 8-segment equalization adjustment switch
- Extend 1080p by 40 meters; extend 1080i (HDTV) by 60 meters
- Superior video quality — 1920 x 1200, up to 1080p
- Supports Dolby True HD® and DTS HD Master Audio™
- DDC and HDCP 1.1 compatible
- For commercial use only
- Locking HDMI connector
- Compact metal housings
- Transmitter and receiver power supplies and mounting brackets included
- Plenum rated

HDMI CABLES

Leviton high-speed HDMI Cables with Ethernet and Audio Return Channel are ideal for supporting in-wall and permanent installations for education, health care, enterprise, government, and residential applications.

- cULus listed
- CL2 rated for in-wall installation
- Compact connector body and flexible cable accommodate common box depths while maintaining minimum bend radius
- Commercial-grade, 28-gauge construction
- Gold-plated connectors for long-lasting performance
- HDMI Cable Lock Kit secures cable to Leviton Signal Extension devices for permanent installations
- Includes two universal adapters, two tie wraps, M3X05, and 4-40 UNC screws

The Leviton HDMI Cable Lock Kit provides a secure connection to all Leviton HDMI Signal Extension devices, making it ideal for in-wall and permanent-system installations.

The kit includes two sets of universal adapters and screws to secure the cable from either the top or side of the connector body.

AV COUPLERS, JACKS & INSERTS

- HDMI® coupler works with HDMI Type A connectors
- Binding Post and Banana Jack couplers are excellent for advanced audio
- QuickPort Blanks secure unused ports in wallplates and housings for future expansion
- 3.5 mm Stereo Jack facilitates classroom, workstation, and computer audio applications
- Use BNC couplers for commercial CCTV or commercial video signals
- S-video for enhanced video streams available in coupler and 110 termination
- Decora® wallplate inserts with HDMI couplers provide high-definition video with in-wall wiring
- Decora brush passthrough offers a clean, professional appearance when cables need to pass through a wall opening

RCA & F-CONNECTORS IN FEEDTHROUGH & 110-STYLE

Leviton carries a comprehensive selection of RCA and F-connectors in both couplers and 110 termination. Body colors match Leviton housings; barrel colors are industry standard.

- RCA Jacks use standard identification colors for component and composite video
- Coax F-Connectors are SCTE-compliant and support signals up to 3 GHz

Compression & Crimp-On Connectors
AV SOLUTIONS

SPOTLIGHT In-Ceiling System for Wireless Access Points

An In-Ceiling System provides a fixed location for terminating a data connector, creating a more reliable and consistent connection than a direct connect plug. This fixed connection also reduces the possibility of damage during construction.

The system of plenum-rated cable, jacks, patch cords, surface-mount boxes, and brackets provides a testable permanent link in drop ceilings to WAPs, while allowing the flexibility to move the In-Ceiling Bracket to refine Wi-Fi® coverage or WAN placement without needing to retest the link.

Plenum-Rated

QuickPort® In-Ceiling WAP Kit

See pages D3-D4 for product information.

LEVITON ARCHITECTURAL EDITION® POWERED BY JBL IN-WALL & IN-CEILING SPEAKERS

- Signature JBL Loudspeaker performance creates room-filling sound with clean powerful highs
- Long-throw woofers with rubber surrounds provide high output with low distortion
- Paintable, nearly invisible zero-bezel magnetic grilles seamlessly blend into wall or ceiling architecture
- High Definition Imaging (HDI) waveguide technology and computer-optimized driver positioning results in ideal performance and life-like soundstage imaging throughout the entire room, regardless of location
- Engineered for the custom installer with a whole-room, seamless audio and visual design in mind
- Superior XL-2 installation bracket
- Sturdy, reliable design fit for easy installation in walls up to a full 2 inches thick
- Specialty mechanical grip designed to minimize vibration regardless of installation format
- Handles custom installation better than typical 1½" bracket designs

LEVITON ARCHITECTURAL EDITION POWERED BY JBL ALL WEATHER SPEAKERS

- Two-way weatherized speakers sold in pairs with professional grade grilles and inputs
- Features 5.25-inch woofer and 1-inch tweeter
- Rotatable mounting brackets for angling towards listener or mounting horizontally

PRE-CONSTRUCTION KITS

- Pre-construction kits ensure that speaker locations and wiring are preserved and protected during construction, allowing for a cleaner, faster, and more precise installation during the trim-out stage
- Fire-Rated Back Box meets fire code for MDU and residential installations

LEVITON ARCHITECTURAL EDITION POWERED BY JBL IN-WALL AND IN-CEILING SPEAKERS

DESCRIPTION	PART NO.
[A] In-Wall Speaker with 6.5" Woofer, silk-dome 1" tweeter, zero-bezel magnetic grille, rated for 8 Ohms, 80 watts, sold in single units	LAE6I-000
[B] In-Wall Speaker with 8" Woofer, 1" silk-dome tweeter, zero-bezel magnetic grille, rated for 8 Ohms, 100 watts, sold in single units	LAE8I-000
[C] In-Ceiling Speaker with 6.5" Woofer, 1" silk-dome tweeter, zero-bezel magnetic grille, rated for 8 Ohms, 80 watts, sold in single units	LAE6C-000
In-Ceiling Speaker with 8" Woofer, 1" silk-dome tweeter, zero-bezel magnetic grille, rated for 8 Ohms, 100 watts, sold in single units	LAE8C-000
[D] In-Ceiling Stereo Speaker with 6.5" Woofer, two ¾" silk-dome tweeters, zero-bezel magnetic grille, rated for 8 Ohms, 80 watts, sold in single units	LAE6D-000

LEVITON ARCHITECTURAL EDITION POWERED BY JBL OUTDOOR SPEAKERS

[E] Pair of Leviton Architectural Edition® Powered by JBL® Indoor/Outdoor/All Weather Loudspeakers	LAEAW-000
---	-----------

PRE-CONSTRUCTION KITS

6.5" Pre-Construction Speaker Kit for In-Wall Installations	AEPI6-KIT
6.5" Pre-Construction Speaker Kit for In-Ceiling Installations (LAE6C, LAE6D)	PCC55-KIT
8" Pre-Construction Speaker Kit for In-Wall Installations	AEPI8-KIT
8" Pre-Construction Speaker Kit for In-Ceiling Installations (LAE8C)	AEPC8-KIT
Fire-Rated Back Box (for use with 6.5" In-Ceiling Speakers, LAE6C and LAE6D)	AEBC6-000

SPEC-GRADE SOUND SPEAKERS

- AeroNylon tweeter diaphragm provides crystal-clear treble response and exceptionally accurate tracking of even the most challenging musical transients
- Built-in AutoSurge® circuit protection helps prevent speaker damage
- Advanced phase/time alignment guide properly aligns sound without misaligning the tweeters
- Precision dividing network ensures total audio signal electronic integrity up to the last microsecond before the signal is converted into sound
- Inert mounting frame with “dogleg” installation points eliminates any transmitted vibrations that could alter in-wall or in-ceiling sound quality
- Acoustically transparent, paintable grills

PRE-CONSTRUCTION KITS

- Fire-Rated Back Box meets fire code for MDU and similar commercial installations

SPEC-GRADE SOUND IN-WALL/IN-CEILING INDOOR SPEAKERS

DESCRIPTION	PART NO.
[A] Pair of 6.5" Spec-Grade Two-Way In-Ceiling Loudspeakers, 120 W peak/ 60 W RMS, 8 Ohms	SGC65-00W
[B] Pair of 6.5" Spec-Grade Two-Way In-Wall Loudspeakers, 120 W peak/ 60 W RMS, 8 Ohms	SGI65-00W

SPOTLIGHT

AV Cable Recommendations for HDBaseT

Using HDBaseT™ technology you can transmit HDMI® signals over category-rated cable, delivering the high resolution needed over distances up to 100 meters. In the white paper “AV Cable Recommendations for HDBaseT,” you’ll learn why Cat 6A UTP cable with Alien Crosstalk Prevention Technology is ideal for supporting IT/AV applications over longer distances. Plus, you’ll also gain a better understanding of HDBaseT standards and applications, as well as be able to review comprehensive test results for different category-rated cables used in HDBaseT certified links.

To read the white paper, visit leviton.com/ns/whitepapers.

SOUNDBAR AND SUBWOOFER COMBO

- All-in-one wireless Bluetooth® home speaker solution provides virtual surround sound in sleek package
- JBL SoundShift allows user to easily switch between wireless audio from a mobile device and the TV audio
- Independent volume control on wireless subwoofer allows custom bass response
- Two-way dual driver left and right speaker modules each with 2.25-inch full range driver and 1.25-inch dome tweeter, along with 6.5-inch ported wireless subwoofer

IN-WALL SPEAKERS

- Dual 5¼-inch two-way speaker designed for full sound dispersion with a shallow mounting depth
- Nearly invisible zero-bezel and fully paintable magnetic grille blends into environment
- Utilize as a low-profile installed front center channel and/or as an extreme performance left/right or surround sound speaker

SHELF-MOUNT CENTER CHANNEL SPEAKER

- Dual 5¼-inch polycellulose woofers and 1-inch soft dome tweeter
- Bass-Reflex enclosure with Rear-Firing Ports
- Minimalist grilles and brushed metal trim offers a contemporary, sophisticated appearance

SUBWOOFER

- Dual port, 10-inch, 100W high-efficiency subwoofer
- High-performance transducer and built-in amplifier deliver powerful and dynamic low-frequency performance
- Variable level, crossover, and phase controls for easy setup and integration into a wide range of listening rooms and systems

[D] Leviton Architectural Edition Powered by JBL® Powered Subwoofer in Bass-Reflex Enclosure	LAESW-000
Pre-Construction Kit, in-wall center channel shelf for use with LAES1-001	AEPIS-KIT

DECORA® STRAUSS™ TRANSFORMER-FREE VOLUME CONTROLS

- Contemporary slider design brings precision and elegance to any installed audio system
- Available in standard and impedance-matched versions
- Volume control uses standard Decora wallplate in a standard J-Box or low-voltage mounting ring
- Color-change kits ensure the right finishing touch for every application

SYSTEM MATCHING MODULE

- Combine with non-impedance-matching volume controls to control up to six speaker pairs (cannot be used with impedance-matching volume controls)
- AutoSurge® circuit technology protects speakers from potentially damaging transients
- Designed to mount in Leviton Structured Media® Enclosures

1X6 AUDIO DISTRIBUTION MODULE

- Combines with impedance-matching volume controls to control up to six speaker pairs from an amplifier or receiver
- Designed to mount in Leviton Structured Media enclosures and connect to six rooms/zones

AUDIO SYSTEM VOLUME CONTROLS

DESCRIPTION	PART NO.
[A] Decora Strauss Transformer-Free Slider Volume Control, white, analog, 200 watts peak, 100 watts RMS, 4-16 Ohms, 8 Ohm nominal (for use with SGAMP-000) (Decora wallplate sold separately, see page D11)	SGVST-00W
[B] Decora Strauss Transformer-Free Impedance-Matching Slider Volume Control, white, analog, 200 watts peak, 100 watts RMS, 4-16 Ohms, 8 Ohm nominal (for use with 48211-06A)	SGVSM-00W
Decora Strauss Color-Change Kit, converts to light almond	SGVCK-0LA
Decora Strauss Color-Change Kit, converts to ivory	SGVCK-00I
Decora Strauss Color-Change Kit, converts to black	SGVCK-00E

SYSTEM MATCHING MODULE

[C] System Matching Module for Impedance-Matching Passive Two-Channel Multi-Room Audio Systems (for use with SGVST-00W)	SGAMP-000
--	-----------

1X6 AUDIO DISTRIBUTION MODULE

[D] 1x6 Passive Audio Module (for use with SGVSM-00W)	48211-06A
--	-----------

SPOTLIGHT | Impedance Matching Difference

When installing an audio system, it is important to have an impedance-matching component paired with a standard component. Failure to do so may have a negative effect on the audio system.

Do not use an impedance-matching volume control with an impedance-matching module, and do not use a standard volume control with a passive audio module. Doing so, in either instance, could damage the amplifier.

HOME THEATER, MULTI-ROOM & SPEAKER WALLPLATES

- Designed for easy installation of cables using low-voltage rings and standard low-voltage junction boxes
- Home Theater Interface wallplate (AEHTK) accommodates 5.1 to 7.1 channel surround-sound systems, and features RCA jacks for subwoofer connection and two extra QuickPort® openings
- Multi-Room Audio wallplate (AEMRK) accommodates left and right audio speakers (± connections), and two extra QuickPort openings (e.g., adding a subwoofer or 3.5 mm stereo phone jack)
- Speaker wallplate allows for simple, solderless connections to any home entertainment speaker system

RECESSED ENTERTAINMENT BOX (REB)

- Affordable solution manages home theater electronics in a single location
- Ideal for new construction (stud-mounted) and retrofit (wall-mounted) applications
- Low-profile frame provides neat, recessed installation
- Optional high-profile cover includes sliding plastic front panels, and channels all wires through the bottom of the unit

RECESSED RECEPTACLES

Recessed Single-Gang Receptacle

- Fits most standard electrical boxes
- Supplies AC power for one or two components (flat panel TVs and video receiver)
- cULus approved, code-compliant solution

Recessed Dual-Gang Duplex Receptacle with Six QuickPort Openings

- Centralizes connection points for AC power, audio, video, data, and phone
- Includes plastic electrical box for use in new and retrofit construction
- UL approved, code-compliant solution

MOBILE DEVICE STATION

- Turns a receptacle outlet into a convenient storage location for smartphones and MP3 players
- Installs without creating any new holes in the wall
- Available in both Decora® and Renu® styles
- Integrated cable management keeps charging cables organized and protected
- Requires a Leviton wallplate, sold separately
- Ideal with Leviton USB charger/tamper-resistant receptacle

USB CHARGER/TAMPER-RESISTANT RECEPTACLE

- USB ports with a combined power of 3.6 amps, ideal for charging tablets and other high-draw devices
- Compact design fits in a standard wallbox, is compatible with standard wallplates, and can be multi-ganged with other standard Leviton devices
- Back and side wired for easy installation
- Smart chip designed for recognizing and optimizing the charging requirements of your device
- Tamper-Resistant NEC® Compliant shutter mechanism blocks access to contacts from most foreign objects

HOME THEATER AND MULTI-ROOM WALLPLATES

DESCRIPTION	PART NO.

SPOTLIGHT

Recessed Box

Leviton 14" Structured Media Center makes running cable and managing multimedia displays simple and more cost-effective. Designed to provide a central distribution consolidation point, the enclosure can be installed and concealed behind a display or near a projector screen.

This professional-grade enclosure is spacious for simple audiovisual device installation and management, and allows for future growth. Ideal for supporting conference room, classroom, and enterprise technologies, the enclosure accommodates the distribution of voice, data, video, audio, and IT/AV applications.

See page G6.

HOUSINGS & WALLPLATES | QuickPort® Surface-Mount & DIN Rail-Mount Boxes

QUICKPORT BOXES, MODULES & ACCESSORIES

- Surface-mount boxes and back boxes have breakouts to match common raceway systems and cable entry
- One-, two-, and four-port surface-mount boxes are plenum rated [compliant with NEC 300-22 (b)(c)]
- Mounts with screws or adhesive mounting tape (both provided), or with magnets or modular furniture brackets (sold separately, page D13)
- 4S089 products are designed to work with Leviton shielded or UTP Cat 6A jacks to allow proper bend-radius control

QUICKPORT DIN RAIL-MOUNT BOXES

- Provide an ideal network patching location for industrial automation and control panels
- Compatible with standard and low-profile 35 mm symmetrical DIN rails and 32 mm asymmetrical DIN rails
- Accept one QuickPort Decora® Insert with one, two, three, four, or six ports
- Box depth suitable for Cat 5e or Cat 6 applications

HOUSINGS & WALLPLATES | QuickPort® In-Ceiling & In-Wall Brackets

IN-CEILING BRACKET

- Creates a testable permanent link for cabling that terminates above a drop ceiling without a wallplate
- Brackets available individually or with pre-installed multi-function clip that attaches to standard drop wire or rod
- VELCRO® Brand tie-down points accommodate cabling slack loops (sold separately, see pages E8-E9)
- Plenum-rated QuickPort one-, two-, and four-port surface-mount boxes (sold separately) attach to brackets and are ideal for use in drop ceiling areas

IN-WALL BRACKET

- Helps create a testable permanent link for cabling that terminates in the wall without using a traditional wallplate
- Provides a stable mounting surface for jacks that is recessed behind the wall surface
- Ideal for Ethernet-enabled devices — such as WAPs, cameras, or clocks — that mount to electrical or low-voltage boxes or directly to the wall
- Available as a set of five brackets, or individually kitted with a single-gang wallplate mounting bracket

QUICKPORT IN-WALL & IN-CEILING BRACKETS

DESCRIPTION	PART NO.

QUICKPORT® WALLPLATES

The QuickPort System allows you to create the perfect mix of voice, data, video, and audio connections. Category-rated copper, fiber, and AV QuickPort jacks are compatible with any QuickPort wallplate or insert.

QUICKPLATE® TEMPO WALLPLATES WITH ID WINDOWS

QuickPlate Tempo wallplates allow for fast, one-piece installations. They feature patented rear wings that tighten the wallplate to wallboard, eliminating the need for a box or mounting brackets.

WATCH: INSTALLATION VIDEOS

Leviton.com/ns/videos
"How to Install a QuickPlate Tempo Wallplate"

QUICKPORT STANDARD PLASTIC WALLPLATES

- Compatible with all QuickPort Jacks and Couplers
- Manufactured from ABS plastic for superior resistance to impact, chemicals, and solvents, as compared to other plastics
- Fits NEMA openings and accommodates low-voltage box eliminators for a flush mount
- cULus Listed, fire-retardant material rated UL 94V-0
- ID windows aid in port identification
- Country of origin: USA

SINGLE-GANG QUICKPLATE TEMPO WALLPLATES WITH ID WINDOWS

- Patented rear wings tighten wallplate to wallboard, eliminating the need for a box or mounting brackets and creating a fast, one-piece installation
- Wings accommodate wallboard thickness of 5/8 inch or less
- ID windows act as marking template for cutting hole in wallboard
- cULus Listed, fire-retardant plastic rated UL 94V-0
- Country of origin: USA

QUICKPORT ANGLED, MIDWAY, LARGE JACK & HORIZONTAL WALLPLATES

- Angled and large jack wallplates are made from high-quality ABS plastic, which provides superior resistance to impacts, chemicals, and solvents as compared to other plastics
- Angled wallplates facilitate optimal cable management and ensure proper bend radius in front and back of connector
- Midway wallplates are durable nylon with a smooth finish and help hide irregular drywall cuts or flaws around outlets
- Large jack wallplates feature increased vertical spacing between ports
- cULus Listed, fire-retardant material rated UL 94V-0
- Horizontal wallplate options include single-gang 2-port and a 3-port with an ID window

See page A36 for Work-Area Labeling Solutions.

SPOTLIGHT Multimedia Outlet System

The Leviton Multimedia Outlet System (MOS) is a front-loading solution providing a clean and flexible way to integrate voice, data, audio and video into one wallplate or surface-mount box.

Ideal for applications like healthcare, education, enterprise and government buildings, the front-loading capability makes the system easy to install, maintain and update. Changes are made without removing the wallplate from the wall, and all wiring and cabling is done from the front side of the wallplate.

MOS consists of surface-mount boxes and single-, dual-, and triple-gang wallplates that accept a variety of copper, fiber, and AV modules. Install any combination of connectors including QuickPort® Jacks and larger AV modules such as 3-port composite/component RCA, HD-15 couplers and fiber modules.

See the full array of MOS options on pages D19 and D20.

DECORA TELEPHONE & VIDEO WALLPLATES

- 6P4C models feature lead-frame design for improved reliability and simple installation
- Decora inserts are compatible with Decora wallplates and Decora Plus screwless wallplates
- Decora wallplate assemblies include a Decora insert and matching Decora wallplate
- Decora Kits include a one- or two-port QuickPort® Decora insert and snap-in USOC or F-connector QuickPort Couplers
- Inserts, assemblies, and kits are cULus Listed and rated UL 94V-0

Inserts fit Decora Wallplates found on page D11.

SPOTLIGHT

QuickPort® DIN Rail-Mount Boxes

Compact QuickPort DIN Rail-Mount Boxes are ideal for network patching inside industrial automation and control panels. The boxes are available empty or with a Leviton 6-Port QuickPort® Decora® insert installed, and can be opened to install other QuickPort Decora inserts. The back panel of each box can be configured to allow cable access at either the top or bottom, increasing flexibility within tight-control enclosures. The box depth is suitable for Cat 5e and Cat 6 jacks.

HOUSINGS & WALLPLATES | Telephone & Video Wallplates

TELEPHONE & VIDEO WALLPLATES

- Provide quick at-the-wall connections for RJ-11 telephone and F-connection video applications
- High-quality ABS plastic or nylon, which provides superior resistance to impacts, chemicals, and solvents as compared to other plastics
- Midway wallplates hide irregular drywall cuts or flaws around outlets
- cULus Listed, fire-retardant material rated UL 94V-0

TELEPHONE WALLPHONE JACKS

- Wall-phone jacks available in 4- or 6-conductor models
- Screw terminal or quick-connect termination options
- Quick-connect products include plastic punchdown tool

ROUND TELEPHONE INSERTS & SURFACE-MOUNT BOXES

- Round inserts available with screw terminal or 110-style termination
- See page D14 for wallplates with round openings
- Surface-mount boxes feature 4-, 6-, and 8-conductor screw terminal connections
- Shorting bar option for use with monitored home security systems

QUICKPORT® FLOOR BOX ASSEMBLIES

- Combine voice, data, and AV couplers and jacks in convenient in-floor locations
- Floor box assemblies include brass wallplate and screw cap (floor box not included)
- Inserts and connectors are ivory

CABLE MANAGEMENT | Versi-Duct® Cable Management System

VERSI-DUCT CABLE MANAGEMENT SYSTEM

The innovative system for copper and fiber installations fits on any standard equipment rack, and accessories enable a wide range of configurations.

VERSI-DUCT 8" CHANNEL CABLE MANAGEMENT

- Ideal for today's large-scale deployments and Cat 6A installations with typical larger-diameter cable
- 80-inch channel ships in two 40-inch pieces for easier handling and installation
- Channels available with standard black cover
- Designer cover (grey) available as an accessory
- Channels include mounting bracket kit and two covers, one slack-loop organizer, and one cable retainer, per 80-inch side (front or front/rear)
- Covers feature integrated dual-hinge for easy accessibility
- Channels can be side- or center-mounted for better space utilization
- Large finger-passthrough space aligns with rack units

VERSI-DUCT 8" CHANNEL VERTICAL CABLE MANAGEMENT & ACCESSORIES

DESCRIPTION	FRONT ONLY	FRONT & REAR
Vertical 80" Length, 8" W x 8" D channel, standard black cover, hinged [A]	8980L-VFO*	[B] 8980L-VFR
Vertical 40" Cover, 8" W, black (set of 4)	—	8940L-SRC
Vertical 40" Designer Cover, 8" W, grey (set of 2)	—	89265-8DC
Vertical Center Mounting Bracket, 8" W channel (bag of 4)	—	89265-BKT
Vertical Cable Retainer, 8" W channel (bag of 6)	—	[C] 89265-WR1
Vertical Slack Loop Organizer, 8" W channel (package of 2)	—	[D] 89265-SL1

* = Rear retrofit not available.

8" VERSI-DUCT CAPACITY CHART

Use the chart below to determine maximum recommended cable capacity for 8" Versi-Duct managers, based on average cable outside diameter. To ensure proper bend radius and space for future additions, do not fill to capacity at initial installation.

FEATURE	CHANNEL DEPTH (WxD)	USABLE AREA (IN ²)	CAT 6A CAPACITY (.330" CABLE)	CAT 6 CAPACITY (.230" CABLE)	CAT 5E CAPACITY (.185" CABLE)
8" Channel Size	7.88" x 6.9"	54.3	159	327	505
Finger Spacing	5.5" x 1"	5.5	24	50	77
Large Passthrough	4.8" x 2.6"	11.2	49	101	156
Small Passthrough	2.6" dia.	5.3	23	48	74

CABLE MANAGEMENT

Versi-Duct

CABLE MANAGEMENT | Versi-Duct® Vertical & Horizontal Management

VERSI-DUCT 5" CHANNEL CABLE MANAGEMENT

- 80-inch channel ships in two 40-inch pieces for easier handling and installation
- Interlocking tabs maintain flush channel alignment
- Finger spacing aligns with rack units

VERSI-DUCT HORIZONTAL CABLE MANAGEMENT

- Fits all standard 19-inch racks
- Includes bend-radius-compliant clips
- Finger spacing aligns with patch panel port openings to better manage patch cords

Mount the Slack Loop Organizer on the duct fingers to manage excess cables.

VERSI-DUCT 5" CHANNEL VERTICAL CABLE MANAGEMENT & ACCESSORIES

DESCRIPTION	FRONT ONLY	FRONT & REAR
Vertical 80" Length, 5" W x 4" D channel, standard snap-on black cover (included)	4980L-VFO+	4980L-VFR

CABLE MANAGEMENT | Rear Cable Managers, Blanks & Transitional Covers

REAR CABLE MANAGEMENT BARS AND CLIP

- Standard Flat Cable Management Bar attaches to patch panel
- Cable Management Clip easily snaps into the standard Cable Management Bar to secure discrete cables with no ties or wraps
- Angled and recessed-angled bars attach to rack
- High-Density Cable Management Bar supports heavy loads of cable and mounts on front or rear of rack
- Rear Cable Management Bar for active equipment offers extended depth for power cord support and cutouts for air circulation
- e2XHD Rear Cable Manager for flat panel attaches to rack, includes rings to help manage and route incoming fiber cables, and supports any Leviton panel (see page A18 or B31 for more details)

BLANK PANEL INSERTS

- Provide a seamless look and designate rack space for future expansion

TRANSITIONAL COVER

- Provides clean, aesthetic transition from angled patch panels to flat equipment
- Improves thermal management

CABLE MANAGEMENT | Rings & Brackets

ORU PATCH CORD MANAGER

- Mounts on side of Leviton 1RU flush-mount enclosures and flat or angled panels
- Rigid fingers with cable retention feature to organize and protect cords

HINGED WALL-MOUNT BRACKETS

- Designed for installations where space is constrained and racks are not used
- Six-inch deep brackets allow for proper cable management

CABLE MANAGEMENT RINGS

- Vertical Management Rings are an open ring solution that can be installed in tight spaces and smaller deployments
- Mounting Tie Bracket allows rings to be positioned between racks
- Vertical Transition Rings are used for vertical and horizontal cable management and are compatible with flat and angled panels

FRONT HINGED BRACKET

- Simplifies process of terminating cables to rear of patch panels when access is limited
- Easy-access quick-release latches drop to 90-degree and 120-degree positions
- Rack or wall mountable

Cincinnati Bell Technology Solutions (CBTS) Scores with Comprehensive Data Center Services

CBTS counts several hundred Cincinnati-area businesses, from small shops to Fortune 500 companies, among its customers. And with a constant demand for colocation and virtual data center services, CBTS required a top-quality infrastructure to achieve the reliability needed for expanding its critical data center environment. After evaluating several options, CBTS chose Leviton connectivity for its quality, reliability, and outstanding performance. Plus, in addition to meeting needs, Leviton took it one step further by developing its custom solutions for unique data center applications.

ZONE ENCLOSURES

- Provide flexible consolidation points in ceiling or floor
- Simplify moves, adds, and changes (MACs)
- Plenum rated and includes fire-rated foam sealing kits
- Significant reduction in cable pathway loading
- Use as a telecom enclosure (TE) for cabling flexibility

2' X 2' PASSIVE RAISED-FLOOR ENCLOSURES

- Fit in air-handling space under 8-inch raised floors
- House two 4RU (8RU total) racks for standard 19-inch components
- Rotating patch panel mounting provides easy access to rear of panels

CEILING ENCLOSURES

- Install flush with drop ceiling
- Fully hinged drop-down doors support installed equipment and open to face technician
- Active and passive styles available
- Mount into standard 2' x 2' and 2' x 4' ceiling tiles
- Active enclosures include AC power back box and venting for active equipment

ZONE ENCLOSURES		
DESCRIPTION		PART NO.
[A]	Active Ceiling Enclosure, 2' x 2', 2RU active and 5RU passive space	Z1000-AC2
[B]	Active Ceiling Enclosure, 2' x 4', 4RU active and 10RU passive space	Z1000-AC4
[C]	Passive Raised-Floor Enclosure, 8" depth, 8RU passive space	Z1000-PF2
[D]	Passive Ceiling Enclosure, 2' x 2', 5RU passive space	Z1000-PC2

SPOTLIGHT

Zone Cabling Design Benefits

In a **zone cabling design**, cables are routed from the telecommunications room (TR) to appropriately placed telecommunications enclosures (TE). Cabling is then run from the zone enclosure to each work area (WA). In an Active Zone Enclosure System, a single fiber run can support dozens of work areas, significantly reducing cable pathway loading and TR space requirements. Zone cabling designs are ideal for open office architecture. Zone cabling benefits include:

- Maximum infrastructure flexibility
- Improved network performance
- Simplified moves, adds, and changes
- Reduced floor space usage
- Significantly reduced cost of ownership

OVERHEAD INFRASTRUCTURE PLATFORM

The Overhead Infrastructure Platform provides independent support for cabling pathways, power, lighting, and other infrastructure. Platforms can carry the load of cables and ladder trays while freeing up rack space by adding patching above cabinets or racks. Since cabinets and racks are not attached, power and cabling can be quickly disconnected without removing hardware.

FEATURES

- Eliminates the need to thread cable through ceiling supports and install suspended ladder trays
- Allows unobstructed access to overhead cabling
- Faster deployment, decommissioning, or replacement of server cabinets
- Reduced installation costs and fewer on-site problems
- Complies with TIA-569, cULus Listed, and meets ANSI STANDARD T1.336-2003 Tier 1 Universal Telecom Framework
- Includes industry-compliant bonding and grounding points

OVERHEAD INFRASTRUCTURE PLATFORM (Call Inside Sales for ordering assistance)			
DESCRIPTION	36" WIDE	42" WIDE	48" WIDE

ACCESSORIES

- **Frame Drill Template** — used to lay out Overhead Infrastructure Platform frame mounting locations
- **Channel Attachment Bracket Kit** — left/right brackets mount to standard steel channel framing to span the platform
- **Sub-Floor Mounting Kit** — plate for bottom of a raised floor tile that accepts standard threaded rod
- **Patch Panel Bracket** — mounted on the steel channel above the cabinet and accepts standard 19-inch patch panels or other fiber enclosures, providing up to 4RU of additional patching capability

A

B

Leviton P1000 Series Rack PDUs are designed for data centers, wiring closets, and other environments that require cost-effective, “always-on” power. The robust, compact design ensures that these products can be used wherever reliability and density are important.

P1000 SERIES

- All models feature circuit breaker protection to prevent current overloads
- Available in 120V or 208V versions with 15, 20, or 30 amps
- 208V PDUs come with 2-pole circuit breakers for added safety
- Surge-protected models prevent damage from transient surges
- LED indicators for power, grounding/polarity, and surge protection where applicable
- Hardwired power input cord
- 18-gauge cold-rolled steel construction
- Available in vertical Zero-U or horizontal 19-inch rack-mount styles
- Mounting hardware included; optional adjustable rack-mounting bracket available

C

D

E

Vertical P1000 units ship with flat brackets, L-brackets, backplates, mounting buttons, screws, and washers to support a variety of workstation options.

Copper Network Infrastructure in the Data Center: Why BASE-T is Here to Stay

As data centers migrate to 25G and 40G networks, twisted-pair copper structured cabling will continue to offer a flexible, cost-effective, and dependable solution to support higher bandwidths. In this white paper, you'll learn why Category 8 will play a key role in supporting next generation networks and get an overview of the latest standards defining Category 8 and 40GBASE-T.

POWER DISTRIBUTION | 5500 & 5505 Series

A

B

Leviton 5500 and 5505 Series Power Distribution Units (PDUs) help power and protect vital electronic equipment. These PDUs are similar to the 4500 Series, but with the added assurance of surge protection. The 5500 and 5505 Series share several key features, including:

- Resettable circuit breaker to protect against overloading
- 12 receptacles: 10 in back, 2 in front
- 20-amp versions available with either straight blade or locking input plug
- Mounts horizontally on 19-inch racks or cabinets

STANDARDS & CERTIFICATIONS

UL 1363 RECOGNIZED | #E118936

5500: UL 1449 LISTED 3RD ED. | #E118936/3/1

5505: UL 1449 LISTED 3RD ED. | #E118936/3/2

5500 SERIES WITH ENHANCED SURGE PROTECTION

- Peak surge current: 72 kA
- VPR — L-N: 400 Vpk, L-G/N-G: 500 Vpk
- EMI/RFI noise filtering: 100 kHz to 30 MHz, -10 dB to -35 dB
- Type SPD: 4
- Physical dimensions: 1.75" H x 19" W x 4.55" D

5505 SERIES WITH SURGE PROTECTION

- Peak surge current: 27 kA
- VPR — L-N: 600 Vpk, L-G/N-G: 700 Vpk
- EMI/RFI noise filtering: 100 kHz to 30 MHz, -5 dB to -40 dB
- Type SPD: 4
- Physical dimensions: 1.75" H x 19" W x 2.5" D

Leviton 4500 Series Power Distribution Units (PDUs) provide the robust and economical solutions needed to power vital electronic equipment. Similar to the 5500 series, but without surge protection, the 4500 Series offers flexibility and economy for use in diverse applications.

4500 SERIES

- Resettable circuit breaker provides overload protection
- 12 receptacles: 10 in back, 2 in front
- Available in 15- or 20-amp versions
- 20-amp versions available with either straight blade or locking input plug
- Easy-access on/off rocker switch
- Mounts horizontally on 19-inch racks or cabinets
- Physical dimensions: 1.75" H x 19" W x 3" D

POPULATING THE STRUCTURED MEDIA CENTER

The Nerve Center of the Connected Home

For every residence — single-family home, high-rise, or hotel — Leviton offers an unparalleled selection of structured wiring solutions for networking, audio, video, and more. And we offer the ideal central distribution point to manage them all.

Populating the Structured Media Encl.

MDU & HOSPITALITY

THE CONNECTED HOME

Get enterprise-grade, best-in-class broadband network performance capability with Leviton Structured Media components. These solutions are engineered to be an integrated system, providing an organized base and simplifying installation from rough-in through line activation. **For enclosure configuration assistance, go to [Leviton.com/HomeConfig](https://www.leviton.com/HomeConfig).**

1	Structured Media Centers	These versatile enclosures allow you to manage and distribute a full range of voice, data networking, audio, and video wiring from one central location. We have enclosure solutions for every construction type: wood, steel frame, concrete, and cinder block construction, and an RF Transparent Enclosure for expanding the reach of a wireless network.
2	Data Patching and Distribution	Leviton offers durable Cat 6 and 5e panels and modules for data cable distribution. The high-end Twist & Mount Panel makes installation simple and provides easy access for moves, adds, or changes in the home network.
3	Telephone Patching and Distribution	Choose from a wide selection of telephone distribution boards, modules, or panels for telephone and security systems. Our Telephone Input Distribution Panel (TIDP) supports inputs for use with “triple-play” modems and complements the look and simplicity of our Twist & Mount Patch Panels.
4	Premium and Passive CATV Splitters	Distribute the incoming RF signal to locations throughout a home via coaxial cable using Leviton passive CATV splitters, or use Premium splitters to optimize the performance of digital cable signals to handle HDTV.
5	Switches	Leviton offers a complete Gigabit solution with high-speed switches. Create a Local Area Network (LAN) in the home or office to network PCs, printers, and other connected devices.
6	High-Flex Patch Cords	High-Flex Patch Cords allow for tighter radius connections and a cleaner finished appearance inside a dressed Structured Media Center.
7	ISP Modem (provided by service provider)	The modem converts DSL, cable, or fiber optic signals for Internet access for triple-play service or pure data connections.
8	Integrated Power Supply	Structured cabling systems rely on active gear that requires low-voltage power and surge protection. Leviton offers power supplies with extra plugs that eliminate the need for bulky power adapters within enclosures.

Leviton Structured Media Centers provide a convenient termination location for wiring home runs from wall outlets, creating a distribution point for voice, data, audio, and video applications. Available in compact, 14-, 21-, 28-, 30-, and 42-inch sizes to address a broad range of capacities for single-family homes, MDUs, and light commercial applications, Leviton Structured Media Centers support new and retrofit installations.

STRUCTURED MEDIA CENTERS, COVERS & DOORS (A-F)

- Enclosures are constructed of white, powder-coated 20-gauge steel
- Covers and doors are constructed of white, powder-coated 18-gauge steel, and feature 3/4-inch overlap to hide irregular drywall cuts
- Modules mount vertically or horizontally
- Multiple knock-outs on top and bottom facilitate cable entry and routing
- Knockout in base of enclosure accommodates single- and double-gang J-boxes and power modules
- Six 3-inch self-healing foam grommets included to accommodate and protect cable bundles
- Can be surface mounted or recessed
- Mounting tabs on housing sidewalls prevent enclosure from falling through the studs during installation
- Combine two or more enclosures for larger installations or future expansion
- Optional lock and key set available for additional security
- Standards compliance: ACA and cULus Listed:
 - ANSI/UL 1863 — Communication Circuit Accessories
 - ANSI/UL 985 — Household Fire-Warning System Units
 - ANSI/UL 1023 — Household Burglar-Alarm System Units

14" & 21" ENCLOSURES, COVERS & DOORS

- Entry-level home network enclosures create a central distribution point for low-voltage cabling
- Ideal for apartments, condos, and smaller homes
- 14" enclosure accommodates basic residential networking systems and accessories
- 21" enclosure provides additional room for larger modules and equipment

COMPACT STRUCTURED MEDIA MDU ENCLOSURES (G-I)

- Economical solution for MDU connectivity
- Flexibility to accommodate a variety of telephone/video distribution configurations
- Snap-on cover requires no tools or fasteners
- Molded-in brackets provide quick snap-in convenience for expansion boards
- Angled video-splitter shelf for easy installation
- Hosts three expansion boards and one TV splitter
- Constructed of sturdy white ABS molded plastic

*STRUCTURED MEDIA ENCLOSURE END CAPS

Leviton Extender Brackets provide an additional 2 inches of depth and enhanced ventilation for active gear within Leviton 28" and 42" Structured Media Centers. The brackets attach between the enclosure and the cover to form a 2-inch deep, vented frame. The increased depth also allows space for better cable management and for larger modules, such as audio amplifiers, to be mounted within the Structured Media Center.

**Extender Bracket (enclosure sold separately)

Concrete-Mountable & RF Transparent MDU & HOSPITALITY | Structured Media® Centers

B

CONCRETE-MOUNTABLE STRUCTURED MEDIA CENTERS

- Designed to withstand added weight during concrete pouring
- Moisture-resistant powder coating binds with treated steel to provide multiple levels of corrosion protection and durability
- Knockouts on the top and bottom support conduit up to 1.5 inches in diameter and facilitate cable routing and entry
- Power knock-out located on side panel for increased vertical cable routing capacity
- Optional duplex receptacle power box constructed using same steel as enclosures for protection of electrical wiring components
- Flush-mount covers and doors overlap $\frac{3}{4}$ of an inch to hide uneven concrete/mortar finishing (sold separately); see covered doors on pages G5-G8
- Durable powder coating withstands $\frac{1}{8}$ -inch dent test (per ASTM D 522-93A standard) and minimizes scratching, cracking, or peeling during shipping or installation

C

RF TRANSPARENT WIRELESS STRUCTURED MEDIA CENTER

- Expands the reach of wireless signals by diminishing the effect of interference with the ABS polymer construction
- Improves system access with a 180-degree hinged cover, allowing for quick and easy access to network equipment
- Makes servicing and expansion easy with twelve 1-inch entry/exit ports and additional $\frac{1}{4}$ -inch knock-outs and conduit adapters
- Compatible with most Structured Media patch panels, voice, data, video, and audio quick-connect distribution modules
- Ensures safety with UL Compliant, ABS flame-retardant polymer
- Vented doors allow for better airflow and cooling of active equipment
- Accepts Structured Media Center Lock & Key Set

RF TRANSPARENT STRUCTURED MEDIA ENCLOSURE

DESCRIPTION	PART NO.
[C] RF Transparent Wireless Structured Media Enclosure with Vented Hinged Door, 30"	49605-30W

This integrated network system delivers a seamless experience that combines the wired performance of Gigabit Ethernet with the mobile-ready convenience of Wi-Fi® networking inside an innovative RF Transparent Structure Media Enclosure.

Concrete-Mountable
& RF Transparent Encl.

MDU & HOSPITALITY

FTTH POINT-OF-ENTRY BOX

- Provides convenient staging for terminating incoming fiber from service provider
- Can mount inside the Structured Media® Center or as a stand-alone unit on a wall
- Includes magnet for easy installation and place adjustments
- Includes an SC/APC adapter with two dust caps and two splice sleeves
- Made of ABS plastic

MULTI-BAY FTTH ENCLOSURES

Multi-Bay Enclosures provide excellent termination and mounting locations for both in-home structured wiring and fiber-to-the-home (FTTH) components. Structured wiring components typically mount in the upper section of the dual enclosure and optical network termination (ONT) mounts in the lower section. The dual enclosure can be surface mounted, or mounted between metal or wood wall studs using provided screws.

- Allow separate lockable sections for FTTH integration
- In a separate bay, a full Leviton structured wiring system can be easily connected and optimized up to gigabit speeds to maximize incoming fiber optic connection
- Ideal for new installations or retrofits
- Use multiple covers or doors to provide access and security
- Flush-mount cover, economy- and premium-vented doors available

GIGABIT ETHERNET SWITCH

- 10/100/1000 Mb/s data transfer rate
- Power button arrows for easy power down
- LEDs indicate power; LINK/Activity; and 10, 100, or 1,000 Mb/s
- Auto detect uplink to easily cascade additional hubs, switches, and routers from any port
- Features high-performance, store-and-forward switching architecture with CRC
- Available in eight-port version

100 MBPS ETHERNET SWITCH

- 10/100 Mb/s data transfer rate
- Network additional PCs, printers, and other peripherals beyond router capacity
- Connects to many home office Ethernet devices
- Available in five-port version

New Installation How-To Videos

Make your next Structured Media Center installation a breeze with a new series of helpful installation videos from Leviton. You'll learn practical tips and best practices to ensure optimal performance of your Structured Media Center, including:

- How to install enclosures with flush mount covers or premium doors
- The best way to terminate EZ-RJ45 connectors
- What you need to know to install a J-Box kit
- Tips for installing and terminating Twist & Mount panels

You can watch these videos, along with many other useful how-tos, at Leviton.com/ns/videos.

SURGE-PROTECTION, STANDARD AC POWER MODULES & J-BOX KITS

- Fit in standard 14"-, 21"-, 28"-, 30"- and 42"- Structured Media® Centers
- Surge-protected versions provide enhanced protection and EMI/RFI filtering per UL 1449 standard

DC BUS MODULE

- Eliminates need for more than two bulky AC/DC power adapters
- Contains six 12 VDC power outputs at up to 1500 mA total
- Contains three 24 VDC power outputs at up to 1000 mA total, including one F-connector coupler
- Output power cables included for all except 24 VDC F-connector coupler connection

VERSATILE DC POWER SUPPLIES

- 120 VAC, 60 Hz input
- Includes NEMA 5-15 AC receptacles at 15A total
- Eliminates the need for multiple bulky AC/DC power adapters

AC SURGE MODULES

- Includes six surge-protected NEMA 5-15P receptacles
- Allows six AC/DC power adapters to fit easily into Structured Media® Centers
- Powers routers, switches, modems, volume controls, camera hubs, and other Structured Media mounted devices

UNIVERSAL MINI DC POWER SUPPLIES

- 90 - 264 VAC, 50/60 Hz input
- Provides three 12 VDC outputs with surge protection at 833 mA total
- Eliminates the need for multiple bulky AC/DC power adapters

UNIVERSAL DC POWER SUPPLIES

- 100 - 240 VAC, 50/60 Hz input
- Provides nine 12 VDC outputs with surge protection at 3.34A total
- Includes one IEC AC power receptacle
- Eliminates the need for multiple bulky AC/DC power adapters

[D] Data Plastic Bracket, for mounting routers and switches	47612-DBK
[E] 12-Port QuickPort® Mounting Bracket	47600-QPB

MOUNTING BRACKETS

- Made of sturdy white ABS plastic
- Include push-lock pins
- Snap-in installation in any Leviton 14"-, 21"-, 28"-, 30", or 42"-Structured Media® Center
- Allow for cable management via routing under bracket
- Twelve-port bracket made of black polycarbonate
- Twelve-port bracket accepts all QuickPort® Jacks

EXTREME CAT 6 HIGH-FLEX PATCH CORD	
DESCRIPTION	PART NO.
[F] eXtreme Cat 6 High-Flex Patch Cord	6H460-xx*

xx = Length: 6" (6I), 1'-20' (01-20).
See copper patch cords page A29 for a complete part number chart.
* = Colors: Choose from either of the colors below.

EXTREME® CAT 6 HIGH-FLEX PATCH CORDS

- Power over Ethernet (PoE and PoE+) compatible
- Bend radius is a narrow 0.60 inches, versus 1.0 inch for typical Cat 6 patch cords
- Snagless plug design with integrated strain-relief boot
- Dual-rated cable jacket (CM/LSZH)

MULTIMEDIA ADAPTER BRACKET & MOUNTING PLATES	
DESCRIPTION	PART NO.
[G] Multimedia Adapter Bracket	47612-MMA
[H] F-Connector Mounting Plate, 6-pack, loaded	5F100-6VF
[I] QuickPort Mounting Plate, 6-pack, unloaded	5F100-6QP

MULTIMEDIA ADAPTER BRACKET & MOUNTING PLATES

- Bracket is constructed of white powder-coated steel
- Plates are constructed of black powder-coated steel
- Bracket includes push-lock pins for mounting in Structured Media Center

UNIVERSAL SECURITY & SHELF BRACKETS

- **Universal Shelf Bracket** allows security batteries and other active products to be mounted inside any Structured Media® Center
- **Universal Security Board Mounting Plate** includes four adhesive clips for mounting within any Leviton Structured Media Center
- **Universal Mounting Brackets** allow an unlimited number of upgrades (restricted only by enclosure size) to be added to an existing security system terminated within any Leviton Structured Media Center

UNIVERSAL SECURITY & SHELF BRACKETS	
DESCRIPTION	PART NO.
[A] Universal Shelf Bracket	47612-UBK
[B] Compact (6" width) Universal Security Board Mounting Plate	47612-HSB
[C] Standard (12" width) Universal Security Board Mounting Plate	47612-FSB
[D] Compact (6" width) Universal Mounting Bracket	47612-6SB

MDU & HOSPITALITY | Twist & Mount, TIDP & Compact Structured Media® Panels

TWIST & MOUNT PATCH PANELS

- Low-profile, high-density, component-rated patching for voice and gigabit ethernet connections
- Feature simple twist and mount installation
- Universal T568A and T568B wiring labels ensure compatibility in residential and commercial installations
- Available in 12- and 24-port versions

TELEPHONE INPUT DISTRIBUTION PANELS (TIDP)

- Support four-line telephone distribution
- Offer choice of inputs and outputs: one 4-pair 110-style IDC input, four industry-standard RJ-11 jack inputs, or 12 modular industry-standard RJ-45 jack outputs
- Security jack for interface with security systems
- Test and auxiliary disconnect outlet (ADO) ports for isolation and testing of telephone line connections

1x7 Bridged Telephone, security interface, and 6-way 2 GHz TV Splitter	47603-TSV

SPOTLIGHT Compact vs. Standard Structured Media Panels

Compact Structured Media Panels offer a space-saving profile that is half the size of standard panels, and is ideal when space and budget are a primary concern.

Standard Structured Media Panels combine multiple modules into a simple distribution point, and provide greater versatility when it comes time for customization or expanding.

PRE-CONFIGURED STANDARD STRUCTURED MEDIA PANELS

- Standard series (twelve-inch width) pre-configured panels combine voice, data, and TV modules into a single, simple distribution point
- Several pre-configured options are available with room for customization with additional expansion boards

PRE-CONFIGURED STANDARD STRUCTURED MEDIA PANELS		
DESCRIPTION	FEATURES	PART NO.

MDU & HOSPITALITY

PREMIUM AMPLIFIED CATV/HDTV MODULE

- Splits and/or amplifies signal to one, eight, or sixteen TVs throughout the home
- Bi-directional circuitry supports advanced interactive applications, as well as standard TV and video inputs
- Forward path internal amplifier provides equal input and output level on all ports; reverse path is not affected
- Unity gain eliminates the need to manually adjust attenuation
- HDTV and digital cable-ready SCTE- and DOCSIS-compliant

PASSIVE CATV/HDTV SPLITTERS

- Split signal to six or eight TVs throughout the home
- Provide digital cable, cable TV, and other TV services via coaxial cable
- Lightweight, strong die-cast housing
- HDTV and digital cable-ready; SCTE-compliant
- Available with and without Structured Media® Center mounting bracket

Additional video and home theater solutions located in Section C.

PASSIVE SPLITTERS			
DESCRIPTION		WITH BRACKET	WITHOUT BRACKET
1x6 Passive Video Splitter, 2 GHz	[C]	47690-6C2	[E] 47690-0G6
1x8 Passive Video Splitter, 2 GHz	[D]	47690-8C2	[F] 47690-0G8

SPOTLIGHT Popular Configurations

Whether your next project is a multiple dwelling unit (MDU), apartment, or student housing installation, Leviton can help you design the optimal network infrastructure to meet your unique requirements. Our Connected Home configurations will help you select the right components to deliver high-performance residential connectivity, including:

- Reliable, high-speed internet access
- Multi-location phone, data, and television lines
- High-bandwidth HDTV, telephone, and data distribution

You can explore Leviton Connected Home configurations, and products to support the applications and network performance you need, at Leviton.com/ConnectedHome.

RESIDENTIAL TOOLS	
DESCRIPTION	PART NO.
[A] Wire Punchdown / Termination Tool, (blades sold separately)	49553-814
[B] 110 IDC Blade	49553-110
66-Clip Blade	49553-066
[C] Master Compression Tool	40989-CPT
UTP Stripping Tool	49660-00P
[D] EZ-RJ45 Crimp Tool	40989-ACT

RESIDENTIAL ACCESSORIES	
DESCRIPTION	PART NO.
[E] EZ-RJ45 Cat 5e Plug, 50/pack	47613-EZC
EZ-RJ45 Cat 5e Plug Display Pack, 10/pack	47613-EZR
[F] EZ-RJ45 Cat 6 Plug	47613-EZ6
Push-Lock Pins for Structured Media Enclosures, 20/pack	47615-NYL
Reclosable Tie-Wrap, 5" Length, 25/pack	43105-005

SPOTLIGHT A Connected Home Begins with Planning

The number of connected devices in the home has grown significantly over the last few years. Too often, homeowners knowingly accept poor network reliability and quality for the convenience of a wireless system. While wireless technology has improved, the hunger for bandwidth outpaces it. Having a strong structured wiring backbone in an organized central hub is crucial to supporting high-bandwidth demands and optimal wireless performance.

To read more about how a well-planned structured cabling system can optimize your wireless network, visit Leviton.com/CHBackbone.
