## OUR TEAM AT MICHELL'S IS READY TO SERVE YOU IN ANY WAY WE CAN.

Growing your business from the ground up since 1890

**HENRY F. MICHELL**  
President + CEO

Dear Customer,

Looking back at 2019, we had high hopes for the continuation of success in 2020. The bookings started strong in July and a positive momentum carried us through Christmas into January. My last event was the MANTS show in Baltimore in early January, and there was a sense from the show that our industry was in good shape. Then things began to change, and the world began facing a new challenge in COVID-19.

Michell's had to adapt, as many companies did, to a new remote model of operating. On March 13th, following a managers' meeting, we set a plan in motion and by the following week, guided by our IT team, we began to work from home.

I am very proud of our team and how they handled the new business challenges they faced on top of the concern for COVID-19. Our customer service group did a great job not missing a beat and our product teams worked in partnership with our vendors to meet the critical needs of our customers.

As time went on, we began to hear that consumer demand was strengthening. First in the South with record retail sales, then moving northward as spring reached its peak. By April, we saw orders picking up, making May and June very strong months.

We have often heard how important our product is to our human existence. Now we have seen it! I have often said, "There is no Super Bowl commercial you will ever see that has more of an impact on the human psyche than SPRING!". We have a fabulous advertising campaign every year that was seen and maybe even appreciated more than ever this past season. AMEN!

We see a stronger demand for our products continuing well into the future. I even think we got the attention from that ever popular and important group of Millennials we talk so fondly about.

We have many new products in this catalog that will excite our audiences for years to come.

From our Sales Staff, Customer Service and Management Teams, we want to thank you for your business and your loyalty.

Have a healthy and successful 2021!

Sincerely,

Rick Michell

**FLOWERING VEGETATIVE ANNUALS**  
UNROOTED + ROOTED CUTTINGS

**NEW!** Begonia BK Collection Bonny

**NEW!** Dahlia LaBella® Grande Purple

**NEW!** Begonia BK Collection Vermillion Hot Pink

**NEW!** Fuchsia Bella Fuchsia® Evita

**NEW!** Kalanchoe Tiger® Light Orange

## BEGONIA

### **BK COLLECTION: BONNY NEW!**

Bonny is a very floriferous, stunning vibrant red begonia with double blooms, and a round, compact shape. It has excellent indoor and outdoor performance, and is heat and sun tolerant. This compact 4-6" begonia has a fast crop time and needs minimal PGRs. Bonny is a great alternative to the traditional Ilona begonia collection.

### **BK COLLECTION: VERMILLION HOT PINK NEW!**

Vermillion Hot Pink joins the sun-tolerant, Dreams® Garden collection, one of the most eye-catching vegetative begonias. These vibrant double rose-type blooms are profuse on a vigorous upright habit, with a round shape, short internodes and dark foliage. It is extremely heat tolerant and its garden performance is outstanding. Vermillion has been bred especially for the outdoors.

## DAHLIA

### **LABELLA® GRANDE PURPLE NEW!**

A perfect addition to the Grande series, Purple has larger blooms and overall increased vigor. The gorgeous purple flowers contrast beautifully with the dark stems and leaves. The LaBella Grande series is ideal for a 7" pot and only one liner per pot is necessary; great outdoor performance.

## FUCHSIA

### **BELLA FUCHSIA® EVITA NEW!**

Bella Fuchsia Evita grows more compact than Tinny or Ernie, it also branches better and flowers abundantly. An upright Fuchsia, Bella Fuchsia Evita is the perfect variety for a patio pot or part of a mixed planter. Bred for easy branching, less day length sensitivity and are very early to flower with little to no PGRs required.

## KALANCHOE

### **TIGER® NEW!**

Introducing the new Tiger® Kalanchoe to the North American market! The bold, dark eye tiger stripes contrast with the lighter color of the petals. **Colors:** Light Orange, Red and Yellow.

Snapdragon Up White

## FUCHSIA *upright*

### FUCHSITA® NEW COLORS!

A uniform, early blooming series with numerous, smaller flowers. Richly branched, ideal for growing in pots with an easy and robust cultivation. Fuchsita® XL is early flowering and compact; very well-branched, ideal for premium, quality performance. Lot of medium-sized flowers grow above the foliage; easy to grow. Fuchsita® Special is an attractive addition with slightly different growth characteristics. Bred by Volmary. **New colors:** Magenta-Purple, Rose-Blue, Scarlet-White.

## NEMESIA

### HONEY NEW COLORS!

These small yet fragrant, snapdragon-like flowers will grow early in abundance over a long season, and are best in cool weather. Plant in containers and the landscape in full sun to partial shade. Height 12-14"; spread 10". Zone 8. **New colors:** Dark Purple, Dark Red, Sky Blue.

## PETUNIA

### CRAZYTUNIA® NEW COLORS!

While the sheer and shimmery classic shades remain best sellers, there is a great alternative range of 'crazy colors' including stone-washed, star-burst, neon brights, velvety blacks, pulsating duo-tones and bold confetti splashes. Plants grow vigorously from the center all the way to the edges. Place in part to full sun. Height 6-10"; spread 18-24". Zones 9-11. **New colors:** Pinkadelic, Raspberry Lemonade.

## SNAPDRAGON

### CLASSIC + UP NEW!

Bred by Breier in Israel, exclusively for Cohen. Snapdragon Classic and Up is a renewed line, with all new introductions for 2021. This line has two different habits – upright and classic. This is a fast growing, uniform series with equal growth and flower size. It has natural basal branching with no breaking of the tips. Classic and Up flower all summer with strong flushes in spring and fall.

## IMPATIENS, NEW GUINEA

### HARMONY COLORFALL®

**NEW COLORS!**  
A breakthrough in trailing New Guinea Impatiens! Dependable Harmony® genetics, with a new plant habit bred to trail in hanging baskets. Harmony Colorfall® has large flowers that bloom early and sit on a compact habit; does well in the shade. **New colors:** Light Coral, Neon Red, Pink, and White.

### SOL LUNA™ NEW!

Plant anywhere for a ball of bright color! Sol Luna™ does well in both the sun and shade! A compact, well matched series with bright colors, large, early flowers; plant in 5-6" pots. **Colors:** Candy Apple, Dark Lavender, Pink, Tropical Punch.

## PETUNIA *hybrid*

### AMORE™ HEART & SOUL NEW!

You will love Amore™ and its abundance of large flowers with a stable, unique, heart shaped pattern on every bloom. Early flowering with a mounded habit; use in 5" pots and larger.

### CAPELLA™ NEW COLORS!

Capella™ blooms early and performs well in propagation. Capella™ is naturally compact in the greenhouse and continues to grow and perform in the home garden. Plant in 4-4.5" pots, and hanging baskets. **New colors:** Cherry Vanilla, Salmon, Soft Yellow, Purple.

### HIPPY CHICK™ VIOLET NEW!

The unique bloom shape and bright color make Hippy Chick Violet a stand out Petunia! It has a semi-trailing habit and is well suited for 5-6" premium hanging baskets.

## VERBENA *x hortensis*

### VANESSA™ BICOLOR INDIGO NEW!

Trialed and selected for mildew tolerance and cycling of color. Vanessa holds its color into the heat of summer. Recommended for 4.5-5" pots and larger; trailing habit.

## CALIBRACHOA

### HULA GOLD MEDAL NEW!

Unstoppable flower power and bold bicolor blooms cannot be missed! Hula Gold Medal has large flowers with bright golden yellow color and a rich, contrasting orange eye. These medium vigor plants work well in mono-culture baskets or in combination planters.

## COLEUS

### MAIN STREET BEALE STREET NEW!

The first coleus to ever win the AAS Award! Main Street Beale Street is the only true red coleus proven to handle full sun or full shade and maintain a consistent, clean color. This premium large foliage variety is extremely late to flower, keeping a strong habit all season long. It is low-maintenance and high impact.

## DAHLIA

### HYPNOTICA LIMONCELLO NEW!

Hands down, the most vibrant bicolor dahlia on the market today. Hypnotica Limoncello was a top pick in all of our trials throughout the last year with the vivid "highlighter yellow" on pure white bicolor blooms. Hypnotica varieties are outstanding in combination containers and in the garden.

## IMPATIENS, NEW GUINEA

### MAGNUM XL ORANGE NEW!

The largest flower in our largest flowering series! XL Orange boasts an enormous flower size with a vivacious orange color. Magnum is impressive in the garden with early, huge flowers that bloom all summer, and brighten up shade gardens.

## PETUNIA *interspecific hybrid*

### DURABLOOM NEW!

A new interspecific hybrid of petunias! This new species' root structure allows for a much more durable petunia that handles heat and drought a lot better through the summer. The thick petals are impervious to summer rains and stay colorful.

Colors: Blue Vein, Electric Lilac, Hot Pink, Soft Pink, Purple, Royal Pink, Watermelon.

## BEGONIA

### REX CURLY™

The most popular leaf shape in a Rex Begonia is the snail or escargot leaf type. In 2021, Green Fuse will introduce an entire series that captures a curly design. This all new breeding concept will be available in the first year in four stunning colors. Curly™ White, Chocolate, Cherry and Peppermint. The Curly™ series maintains the same strong vigor as the Dibs® and Bewitched® series.

### REX BEWITCHED™ NEW COLORS!

Our spellbinding Rex Begonia Bewitched™ series features distinctive cut leaves in a variety of colors. All have strong vigor and are heavily branched and uniform. This means the Bewitched™ are perfect for faster turns in your Begonia Rex program; year-round availability gears this series for indoor use as well as spring plant sales. These iridescent cultivars will brighten the living room just as easily as the front porch. Vigorous, cut leaf selections are available in URC and RC. Joining Red-Black, White and Wintergreen are **New colors: Cherry, Pink, Lavender and Silver.**

## FUCHSIA

### WINDCHIMES® BASKET PINK-LILAC

New addition Basket Pink-Lilac is daylength neutral and has larger flowers. Excellent landscape plant with an upright, branched habit and tolerance of high light and heat. Good in mixed containers.

## IPOMOEA

### SWEET GEORGIA®

Trials this year around the country have found Ipomoea Sweet Georgia® has superior uniformity. The entire series of Sweet Georgia is all new for 2020-2021. With nine uniform colors, the series is great for mono and combo pots. Sweet Georgia features heart, palmate and bicolor leaf types and also include the unique jet black, Black Maple. Bred for consistent performance among all color selections.

Petunia Blanket® Pink Halo

## PETUNIA

### BLANKET® PINK HALO

A small-flowered variety with beautiful blossoms, Petunia Blanket® quickly grows to fill containers or hanging baskets. This trailing petunia has great weather tolerance and blooms all season! Blanket petunias attract hummingbirds and butterflies too. Use in mixed containers and landscape/bedding use. Pink Halo has been added, bringing the series to 17 colors.

## RUDBECKIA

### DAKOTA™ GOLD

Yet another entirely new class for Green Fuse is the Rudbeckia Dakota Gold. This Rudbeckia hirta is not only daylength neutral, allowing year round sales without day extension, but is also a true perennial with zone 5 hardiness from root stock. Developed over 9 years of breeding, Dakota Gold sets a new standard in perennial programs. Produced by an unrooted cutting the crop time is amazingly quick and completely consistent. We know you will enjoy these six inch wide flowers all year and for many years to come.

### RISING SUN CHESTNUT GOLD

A true Rudbeckia hirta that produces an abundance of massive, bicolored blossoms all season long. Unlike traditional Rudbeckia, Rising Sun is not an obligate long day plant, it is a class first, as it is the first ever daylength neutral Rudbeckia hirta. This revolutionary attribute allows for spring finishing just as easily as summer or fall without the need for supplemental lighting. Due to the thickness of the flower petal, Chestnut Gold's blooms will last beautifully for five to six weeks per flower. This equates to excellent hold time should the crop finish before the season opens. USDA hardy to Zone 7, it will overwinter easily in the Southern regions of North America.

## VINCA

### QUASAR™ NEW!

Vinca Quasar are out of this world! The series features a selection of unique colors that will leave you star-struck. All have the exceptionally large flowers you would expect of a hybrid Vinca. Hybrid vigor and intensive breeding selections insure excellent summer disease resistance. Check out Deep Space Blue as well as our Target Orange for industry first colors.

## BASIL (OCIMUM) *basilicum*

### COLDASIL™ NEW!

Working in collaboration with a breeding company that specializes in spice cultivation, we have cultivated the first and only Sweet Genovese type Basil resistant to Downy Mildew! Coldasil™ has dark green foliage, medium size leaves and vigorous growth. This fantastic new basil is extremely aromatic and produces pink flowers! Available in organic form, Coldasil™ is compact and suitable for pot growers! Exclusive to Hishtil.

## LAVANDULA *angustifolia*

### BEEZEE™ NEW COLORS!

**New in 2019!** A hardy, compact and exciting angustifolia series with similar characteristics and tons of flowers that will attract and keep the bees busy during the long flowering season. All five colors share the same growth habit, height, and flowering window. perfect for mix planting of two-three colors in the same pot. **New colors:** Dark Blue, Light Blue, Pink, Power Blue, White.

## LIPPIA *citriodora*

### GIANT™ NEW!

A Giant form, with bigger and broader leaves compared to the commercial variety. Furthermore, Giant grows a bit faster and taller than other Lippia citriodora varieties.

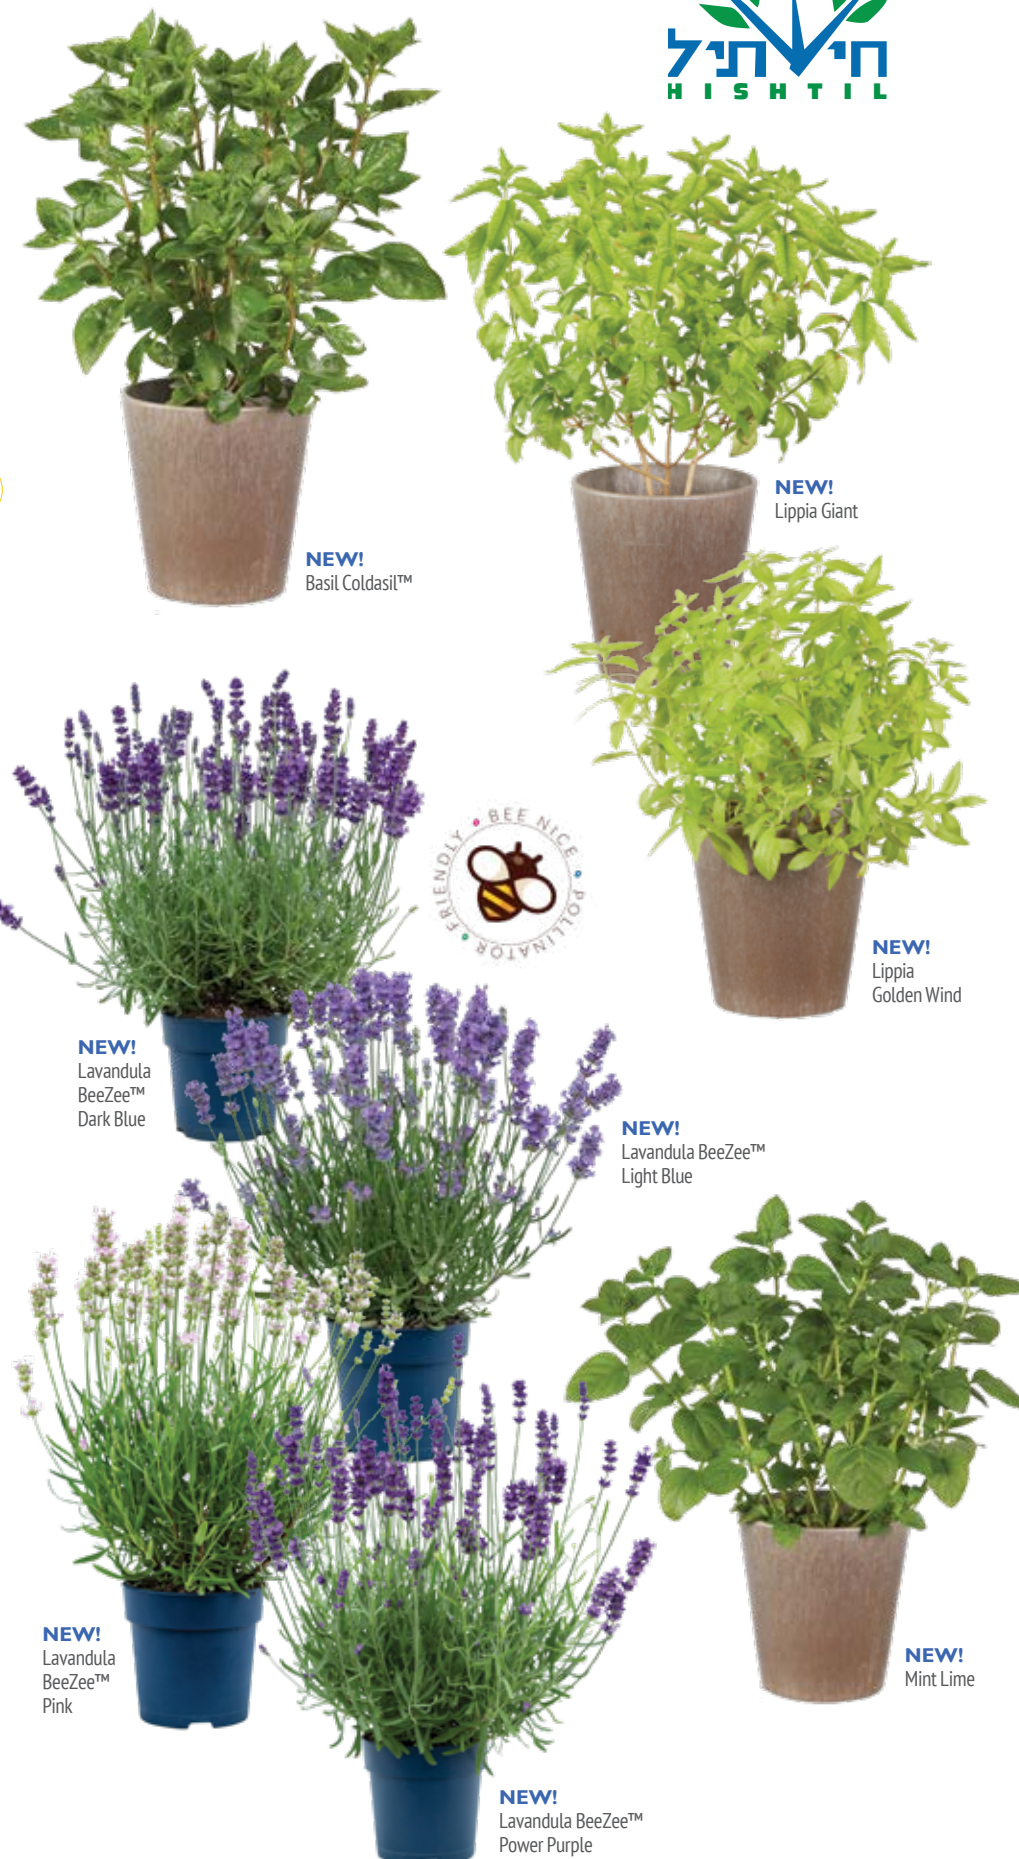

### GOLDEN WIND™ NEW!

Named after the South American Inca tribe king, Gold Wind is a unique Lippia with pure Golden leaves! Originating from South America, this PPAF variety is new to the market and has the same aroma and taste as the commercial Lippia citriodora.

## MINT (MENTHA) *x piperita f. citrata*

### LIME NEW!

A new variety in our wide mint assortment. This hardy perennial has a rounded plant shape, and dark bronze leaves which have a fruity, lime scent. This Lime mint complements all types of cooking.

## AJUGA

### PRINCESS NADIA **NEW!**

Unique structure and color plants, low growing dense perennials, with cream, gray-green, purple and pink, miniature foliage. Blue flower spikes are displayed early and abundantly. Cold tolerant, easy to grow and low maintenance. Excellent used in containers, alone or in combinations, as a ground cover, an edging, and in rock gardens.

## CENTAUREA

### MERCURY

Wonderful intense color effect, Silvery white rosettes of decorative, wavy, rounded lobed leaves with a cushion shape and mounding habit. Superb foliage combo item, ideal for large containers, but can also be used as an edging, in group plantings, and in rock gardens.

## ERODIUM

### SPANISH EYE

A great value plant producing many lavender-pink flowers with purple veins and purple markings at the base of the 2 upper petals for a long flowering period. Use as small ground cover, in rock gardens, gravel beds, crevices, front borders; mixes well with other low growing alpines, large containers.

## GAURA

### GAMBIT® VARIEGATED ROSE

Exceptionally long season of bloom Gaura, profuse bloomer, erects tall spikes of bright pink flowers with attractive variegated foliage: green, cream margins, dark pink marking in cool conditions and dark red- pink stems. Stunning edging plant, back of perennial border, beds, wildflower garden, rockery ledges, lining paths, large containers.

## SALVIA

### AMIGO

A tender perennial, Amigo blooms early and repeatedly, producing spikes of large two-tone, violet and pink tubular flowers with black calyces from spring till first frosts. Heat and humidity tolerant, easy to grow, responds well to trimming. Great centerpiece for mixed planters, large containers, combination with other trailing varieties, adds a splash of color to summer borders, beds, garden and patio planting.

## SALVIA *nemorosa*

### CARADONNA PINK

Big dark pink flowers with darker calyces. A hardy perennial, and long bloomer, producing spikes of flowers from late spring to autumn. Caradonna Pink is drought, heat and humidity tolerant, is low maintenance and easy to grow. Showy plants for containers, borders, beds, gardens, combinations, mass planting, cut flowers, and dried flowers. Attracts bees, butterflies and hummingbirds.

*greggii* hybrid

### DAYGLOW

An old favorite, Dayglow displays glowing bright pink flowers, attracting butterflies, hummingbirds and bees. Once established the plants are drought tolerant and easy to care for. Use in beds, containers, borders, in water wise garden plantings, and meadow gardens.

### MAUVE LIPS

Dark purple blooms with light purple edges are lovely. The flowers attracts bees and butterflies. Drought tolerant once established, easy to care for and deer tolerant. Use in medium to big containers, borders and small beds, gardens; great value for water wise garden planting.

### ROYAL BUMBLE

Used for color effect, Royal Bumble showcase masses of big, hot red flowers with dark calyces on darker stems. Easy to care for and drought tolerant once established. Attracts bees, butterflies and tolerates deer. Great value for water wise garden plantings, beds, big containers and borders.

*microphylla* hybrid

### PINK PONG

Flowering with an abundance of eye catching, large raspberry pink flowers with dark calyces on darker stems. Drought tolerant once established, easy to care for, deer tolerant, attracts butterflies, hummingbirds and bees. Use in big containers for patio and decks, mix borders, water wise garden planting, cottage and meadow gardens and beds.

## SEDUM *takesimensis*

### ATLANTIS®

An outstanding structure and color plant, low growing, dense mounding hardy perennial, with attractive variegated, dark green, creamy- yellow margins, tinged pink in cold, succulent leaves. Heat and drought tolerant, low maintenance. Great color effect in container, contrasting small ground covers, rock gardens, borders and more.

Salvia Royal Bumble

Salvia Dayglow

Salvia Pink Pong

Salvia Mauve Lips Purple Bicolor

Sedum Atlantis®

Cuphea Blackberry Sparkler

## CUPHEA

### BLACKBERRY SPARKLER

Cuphea Blackberry Sparkler is an outstanding new annual, covered in white and red-black tipped flowers. Blooming non-stop, this beauty provides color all summer-fall! For warmer climates, you will see flowers all year-round adding color to the winter landscapes. Blackberry Sparkler has a wonderful, tidy, round habit reaching 24" x 36" at maturity. This variety is a perfect addition to your pollinator gardens attracting hummingbirds, bees, and butterflies. Use in containers, garden borders, and mass landscape plantings. Zone 8 hardy.

### HUMMINGBIRD'S LUNCH

An outstanding new annual, covered by bright cherry-red two-toned flowers. Blooming non-stop, this beauty provides color all summer-fall! For warmer climates, you will see flowers all year-round adding color to the winter landscapes. Hummingbirds Lunch has a wonderful, tidy, round habit reaching 24" x 36" at maturity. Like its namesake, this variety is a perfect addition to your pollinator gardens attracting hummingbirds, bees, and butterflies. Use in containers, garden borders, and mass landscapes. Zone 8 hardy.

Dahlia Electro™ Pink

Cuphea Hummingbird's Lunch

## DAHLIA

### ELECTRO™ PINK

The worlds first, dark leaved Cactus Dahlia! Stunning, glossy, mahogany-black foliage in full sun with elegant, 4" diameter, electric-pink cactus flowers. Blooms face outwards adding to the impulse retail appeal. Excellent branching habit, no staking required. Nectar rich blooms are perfect for attracting beneficial pollinating insects. Use in containers, garden borders, cut flower gardens, and mass landscape plantings. Zone 9 hardy.

## DIANTHUS

### AMERICAN PIE® CHERRY PIE

A must-have new Dianthus for every gardener! Eye-catching vibrant cherry-red blooms are carried on sturdy stems that do not flop. Signature WHETMAN® silver-blue foliage highlights the large single red petals. Bred for beautifully scented flowers and excellent garden performance. Great for picking, long-lasting cut flowers. Deadhead and fed regularly to encourage fast repeat blooming. Use in pots, containers, garden borders, and modern landscapes. Zone 5 hardy.

Dianthus American Pie® Cherry Pie

## DIANTHUS

### STAR SINGLE™ NEON STAR IMP

A new improvement of a classic, tried and true, an industry icon. Same amazingly iridescent, vivid, neon-pink color, with a new elegant central pattern. Increased flower count and more compact than the original, resulting in a closer matched collection. Flower stems are sturdy and do not flop. Deadhead and fed regularly to encourage fast repeat blooming. Bred for beautifully scented blooms and excellent garden performance. Pollinator magnet! Use in containers, borders, and mass landscape plantings. Zone 5 hardy.

Dianthus Star Single™ Neon Star Improved

## FUCHSIA

### SKYROCKET

Skyrocket is blasting off and skyward bound! Narrow upright columnar habit is ideal for impressive vertical containers up to 48" high. Traditional red and white single blooms decorate the plant, flowering on the entire stem, not just terminal shoots. Great impulse retail appeal. Outstanding heat and humidity tolerance. Use in containers and landscape plantings. Zone 9 hardy.

**NEW!**  
Fuchsia  
Skyrocket

## HEDERA

### TROPICAL BLIZZARD

A stunning new large leaved, Algerian Ivy. Unique highly variegated leaves, gold to pure white marbling and flecking with shades of green in between. Bright pink-red stems add an additional pop of color. Excellent for house plants, hanging/seasonal baskets, and ground cover in warmer climates. This evergreen climber is happy in sun to full shade and in any soil that is not waterlogged. Zone 8 hardy.

**NEW!** Hedera Tropical Blizzard

## WEIGELA

### TOWERS OF FLOWERS® APPLE BLOSSOM

An upright flowering shrub. Boasting large shell-pink flowers, blooming in clusters along the entire stem, not just the terminal shoots -truly a tower of flowers! The full bloom season lasts 3-4 weeks during late spring with partial blooms occurring throughout the summer. Weigela Towers Of Flowers® Apple Blossom is a quick-growing shrub. Foliage color is a strong medium-green with bronzing on new growth. Excellent as an informal screen for vertical living and great for small yards and color in the landscape. Zone 6 hardy.

**NEW!** Weigela Towers of Flowers® Apple Blossom

**NEW!** Begonia Double Delight™ Blush Rose

**NEW!** Begonia Double Delight™ Primrose

## BEGONIA *semperflorens*

### DOUBLE DELIGHT™ BLUSH ROSE + PRIMROSE

A spectacular new lightly fragrant variety of begonia which makes the ideal hanging basket plant. It produces an abundance of citrus-scented double blooms on 8 to 14" sun-tolerant plants, all summer long. Blush Rose - Pastel pink shades, Primrose - Light primrose yellow with apricot accents.

### DOUBLE UP™ PINK + RED + WHITE **NEW!**

This new vegetative wax begonia makes an outstanding 4" crop in production; it blooms early and goes long. The excellent vigor, dense, dark foliage and double flowers are sure to be a big hit! Foliage is peppered with loads of double flowers all season in both sun and shade making it ideal for borders and patio containers.

## CALIBRACHOA *hybrid*

### SUPERBELLS® CORAL SUN **NEW!**

Bicolor tropical coral blossoms with a sunny yellow center are easy to mix with other sun-loving plants in recipes. A beautifully mounded habit blanketed in color makes it irresistible at retail. The extensive series creates endless combinations for baskets and containers.

## CALADIUM

### HEART TO HEART™ WHITE WONDER

New in 2019! Described as nothing less than elegant, 'White Wonder' is a beautiful lance-leaved (strap) variety that can stand full sun. Due to its stature, 'White Wonder' makes an excellent border to intermediate plant in the landscape. It is adapted to both sun and shade. Caladiums are also generally considered to be houseplants where they prefer bright light or a sunny window.

## EURYOPS *pectinatus*

### HIGH NOON™ **NEW!**

A new genus for Proven Winners. We've taken Euryops and refined it for today's growers by making it more colorful, compact, and easier to flower for spring in the North. Its semi-succulent, thick leaves are perfectly uniform and handled dry down better than other Euryops in our trials. Excellent garden performance through the hottest "dog days" of summer.

## IPOMOEA *batatas*

### PROVEN ACCENTS® SWEET CAROLINE MEDUSA™

**NEW!**

An exclusive new foliage form with distinctive palm-shaped, thick, chartreuse leaves on tight internodes that form a unique compact, mounded to slightly trailing plant. Ideal for tight spaces, or hanging baskets. It will thrive in both sun or shade and requires less water. Great foliage component plant in combinations; excellent heat tolerance and good vigor.

## LANTANA *camara*

### LUSCIOUS® ROYALE RED ZONE™ **NEW!**

Large clusters of fragrant, pollinator-friendly blossoms emerge red and orange bicolor, then transition to pure red on compact, upright plants. Well-branched, with an upright globe shape, performing well in containers and landscapes, tolerating heat and drought with ease. Certified sterile selection; non-invasive.

## LOBULARIA

### MOONLIGHT KNIGHT

Masses of fragrant soft yellow blooms cover green foliage from planting to hard frost. Very heat tolerant, great in landscapes and containers. Long blooming, continuous bloom, rebloomer. Attracts bees and butterflies.

## SCAEVOLA *aemula*

### WHIRLWIND STARLIGHT **NEW!**

This novel bicolor fan flower features blue and white striped flowers on densely branched plants with short internodes for a concentrated show of color. Amazing heat, humidity and drought tolerant. Perfect in containers and as a low maintenance, flowering ground cover in the landscape.

## SUPERTUNIA

### ROYAL VELVET IMP

Fancy, yet unfussy. Supertunia petunias are vigorous with slightly mounded habits that function as both fillers and spillers in containers. Royal Velvet now has an improved spring habit and presentation, durable season-long performance, and a rich royal purple color that will not fade.

## CALIBRACHOA (x hybrida)

### CALIPETITE® YELLOW IMP **NEW!**

A true breakthrough in calibrachoa breeding; Calipetite® is naturally compact requiring no growth regulators or supplemental lighting. This sweet series is ideal for 3-in-1 combos, quart, multi-pack or 7-8" color bowls. Calipetite® grows into a dense ball of color, not like typical leggy Calibrachoa. Ideal for shipping with long lasting retail shelf appeal and high sell-through.

## COLEUS (Solenostemon hybrid)

### PARTYTIME™ **NEW!**

PartyTime™ Coleus offers intoxicating colors like Lime, Sangria and Pink Berry that will complement any mixed container. Compact plants are dense and well-branched and feature trailing to semi-trailing habits. All colors offer full sun to shade tolerance. **Colors:** Lime, Pink Berry, Pink Fizz, Red Bolero, Ruby Punch, Sangria, Reggae Salmon.

## IMPATIENS (x hybrida)

### SUNPATIENS® COMPACT ROSE GLOW + HOT PINK **NEW!**

A breeding breakthrough: robust, sun-loving, and heat-loving, thriving in full sun or part shade and offering an impressive 3-to-1 coverage in the garden. SunPatiens® are bred for a mounding, spreading habit and offer unrivaled three-season flower power and non-stop color from spring through hard frost. A great alternative to seed impatiens, offering Downy Mildew resistance.

## PETUNIA (hybrid)

### SUPERCAL® ROSE + ROYAL RED **NEW!**

SuperCal® is uniquely superior to all other petunias. Known for their large, vibrant flowers and superior outdoor performance, SuperCal® is part petunia, part calibrachoa. These all-weather performers stand up to cold and heat and even withstand heavy rains and bounce right back with little to no damage, and no deadheading needed!

## MECARDONIA

### MAGIC CARPET™

Tough, durable, and low-growing, Magic Carpet™ is loaded with a continuous supply of bright yellow flowers all season long. It also features a semi-mounding habit, heat and cold tolerance, and disease resistance. It is daylength neutral and works great in mixed containers or as a border.

## DAHLIA

### DALAYA FIREBALL

Green-leaf, garden dahlia features big blooms and exotic bicolors; bright orange, non-fading with clean, green foliage. Early to flower, and slow to fade with excellent garden performance that beats the competition across all varieties. Dalaya is well-branched with an exceptional habit, ideal for 2.5-qt. and larger pots. This variety features a new anemone flower form that is shatter resistant.

## PETUNIA

### HEADLINER CRYSTAL SKY + ELECTRIC PURPLE SKY

This medium-vigor, mounded petunia is early flowering for a fast finish and features a dramatic color range. The result: eye-catching finished baskets and pots with large blooms! Crystal Sky is a perfect match in timing, habit and vigor to Night Sky®. Electric Purple Sky is earlier to flower than Night Sky; its vigor and habit match the series.

### MAIN STAGE GLACIER SKY

Our most vigorous, trailing petunia line! Excellent garden and in-ground performance, while still looking great on balconies. The eye-catching colors in the Main Stage series will boost retail sales and attract customers to endcaps of trailing, full hanging baskets. Glacier Sky is the first Sky-type variety to join the Main Stage series! Features huge blooms with a deep blue hue and a white picotee edge, speckled with white stars.

## PHLOX

### GISELE **NEW COLORS!**

Bred for reliable rooting, heat tolerance and large, attractive flower clusters. Tried all over North America, Gisele is a top performer across all areas; great in gardens, continuously producing colorful blooms in Hot Pink, Light Pink, Light Violet, Light Pink, and White. **New colors:** Light Pink + Eye, Purple, Red, and Scarlet.

## VERBENA

### LASCAR™ PURPLE

Excellent color range in a uniform, reliable series. Early-flowering with a mounded, trailing habit and medium vigor. Lascar varieties have full centers and make fantastic mixed containers, pots, gallons or mono baskets. Huge flowers and more vigorous when compared to the rest of the series.

**GRANVIA GOLD** **NEW!**

Offered in 2020 on a trial basis, Granvia Gold is a super sized strawflower – a vigorous plant with large golden blooms. Perfect for large patio pots. Stunning in beds. Outstanding summer performance, even in the South. Suitable for spring, summer and fall sales. 1 gallon pot recommended.

**CATHARANTHUS** *hybrid*

**SOIREE KAWAII BLUEBERRY KISS + CORAL REEF** **NEW!**

Pucker up for the new Soiree Kawaii color, Blueberry Kiss! Denim blue flowers with dark purple eyes offer a great new hue for summer landscapes and combination plantings. Kawaii Coral Reef is an improvement to Coral that is more compact to match the series. (The original Kawaii Coral is the most vigorous, and will continue to be offered). Soiree Kawaii goes the distance all summer!

**PERICALLIS** *hybrid*

**SENETTI VIOLET** **NEW!**

A vibrant new color joins the Senetti line. 'Senetti Violet' has deep violet blue flowers with white radiating from the center eye for dramatic effect. Plants are more compact than top selling Senetti varieties, Magenta Bicolor and Blue Bicolor. Habit is similar to 'Senetti Ruby Red.' Perfect for early spring sales, Senetti delivers cool colors for the cool season!

**SCAEVOLA** *hybrid*

**SURDIVA PURPLE** **NEW!**

Purple joins Suntory's amazingly compact and colorful Surdiva scaevola series! Plants are covered with amethyst colored fan shaped flowers. Great to mix in combinations with other heat-loving summer annuals.

**ROSE** *hybrid*

**BRINDABELLA PINK PRINCESS** **NEW!**

Brindabella Roses offer the best of both worlds – modern disease resistance and performance, but old fashioned flowers and fragrance! Flowers are fully petaled, like a hybrid tea. New Pink Princess produces gorgeous frosting pink blooms. Breeding is related to the top-selling Purple Prince.

## BEGONIA

### FLORENCIO™

A striking range of vibrant colors paired with upright habits makes Florencio™ the go-to Begonia hybrida. Bred for outstanding outdoor performance, Florencio™ holds up to the rigors of the season and provides season long value.

### GRACE™

Unique pendulous double flowers give a high-end look to containers and baskets, providing strong garden performance which flowers all season long.

## DAHLIA

### DAHLEGRIA®

With a more upright habit, Dahlegria® Dahlias are great in both landscape and container applications. Large, colorful, single flowers stand out on the almost-black foliage with great powdery mildew tolerance.

### HAPPY DAYS™

Nearly black, dissected foliage makes the bright flowers really pop! Happy Days™ Dahlias are ideal for containers and landscape, come in a complete range of bright flower colors, and are a favorite among consumers and bees.

### SINCERITY

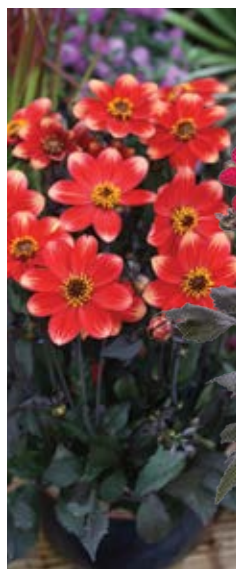

Big. Bold. Beautiful. Noted for its 3-4" pink and white bicolor flowers, this variety is truly eye-catching. Compact, well-branched plants make a shapely backdrop for the showy blooms. A perfect choice for the landscape and high-end patio containers.

## LANTANA

### HOT BLOODED™

If you pick just one, pick this one! Hot Blooded™ is naturally well-branched with more vigor than Bandana®, making it a great choice for gardens across the country. Medium-sized flowers give amazing color coverage. A sterile selection that has been a top-pick in development trials.

## OSTEOSPERMUM

### TRADEWINDS® SUNSET

The toughest plants for early spring color! Tradewinds® Sunset offers a novel iridescent color addition to the series to create unique landscape designs that will sure to be a customer favorite.

## PETUNIA

### DEKKO™ BANANA

Dare to be different with this exceptional garden petunia. Dekko™ Banana has beautiful yellow flowers that add eye-catching color to any design. Versatile habit and outstanding garden performance works great for small pots all the way to landscapes.

### ITSY™

A "must have" new variety for 2021! Tons of tiny magenta blooms form a blanket of color providing undeniable retail appeal. With exceptional branching, color coverage and a controlled habit, Itsy™ is sure to be a hit with growers and consumers alike!

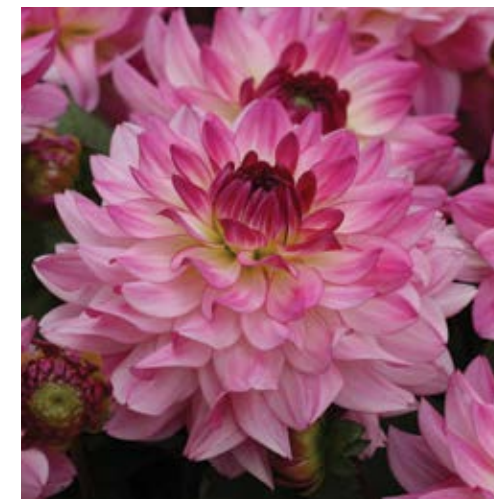

## SCAEVOLA

### BOMBAY® YELLOW

Bombay® is a down under wonder that thrives through extreme heat. With the addition of Bombay Yellow to this series, consumers can create unique baskets that will thrive even when temperatures are at their hottest.

## BEGONIA *hybrid*

### MAHOGANY NEW COLORS!

Intense flower colors, dramatically contrasted against dark foliage define this new series of Begonias. Plants are upright growing, making the Begonia Mahogany series ideal for the centerpiece in a shade combination planter or high-density small pots production. **New colors:** Cherry and Orange.

## BEGONIA *tuber hybrida*

### PRISM NEW!

A tuberous Begonia from seed, Prism has the biggest blooms, heads above the foliage. Nine colors in this series, make it the most exciting tuberous Begonia released in years. Plugs are available at Natural Beauty. Seed is available in short supply. Get your hands on them quick! **Colors:** Brilliant Red, Crimson, Dark Rose, Orange Shades, Rose Shades, Salmon Rose, Scarlet, Sunset, Velvet Red, White and Yellow.

## CALBRACHOA *hybrid*

### CALITASTIC® NEW COLORS!

Incredibly uniform in habit and flower timing, these calibrachoa set a new bar for grower expectation. Very early to flower, all varieties flower at 11 hours critical day length and stay open and in flower under low light conditions making these a great line for retailing from early spring throughout the season. **New colors:** Aubergine Star, Blood Orange, Golden Sun, Orange Imp, Raspberry.

### CHAMELEON® NEW COLORS!

Chameleon marks an industry first for calibrachoa breeding. The plants continually change throughout the season, reacting to light levels, daylength and other seasonal factors. Chameleon has a unique blend of colors on a single plant with outstanding garden performance and season-long durability. **New colors:** Blackberry Pie (*Medium*), Frozen Ice (*Compact*), Milky Pink (*Medium*).

## MECARDONIA

### GOLD FLAKES

This creeping annual shows good tolerance to heat and drought, and is covered all summer long with bright yellow flowers nearly twice the size of previous Mecardonia introductions. Growers will appreciate its suitability for 306 packs, 4" pots, and combinations, while consumers will love it as a ground cover, along borders, in window boxes, hanging baskets and in container combinations.

## NEMESIA *hybrid*

### ESSENTIAL™

**New in 2020!** Living up to their namesake, these nemesias are essential for scent in the garden. Large flowers with bold colors and intense fragrance make these a staple in the garden. Essential™ varieties are the most heat-tolerant nemesia on the market today, providing endless color from early spring through autumn. **Colors:** Banana Split, Blackberry, Blueberry Custard, Bumbleberry, Pinkberry, Raspberry Lemonade, Strawberry, Sugarberry.

## PETUNIA

### CRAZYTUNIA® NEW COLORS!

The world's most popular novelty Petunia series continues to grow an even broader range of unique colors and patterns to create custom combinations. Crazytunia® ranges from shimmery and sheer, to stonewash, starburst, neon brights, velvety blacks, pulsating duo-tones and bold confetti splashes! **New colors:** Amarena Cream, Blackberry Jam, Cosmic Pink, Frisky Red, Frisky Violet, Peach Bellini, Pink Frills Imp.

## THUNBERGIA

### TOWERPOWER™ GOLD NEW!

A big step forward for Thunbergias. They have the vigor, heavy flowering, and summer performance we expect, but this five color series is also up to four weeks earlier to flower than any other series which allows for Mother's Day sales. **New colors in 2020:** Orange, Red, White, Yellow.

## VERBENA

### ESTRELLA IMPERIAL BLUE + MAGENTA NEW!

Westhoff's breeders have cracked the code for avoiding cyclical flowering, so all of their new Estrella introductions will flower continuously. Last year Hot Pink and Lobsterfest were introduced. **New for 2021** are Magenta and Imperial Blue.

NEW! Geranium Rosalie™ Antique Salmon

## CALIBRACHOA

### CALITASTIC® AUBERGINE STAR NEW!

Incredibly uniform in habit and flower timing, these calibrachoa set the new bar for grower expectation. Very early to flower, all varieties flower at 11 hours critical day length and stay open and in flower under low light conditions making these a great line for retailing from early spring and continuing throughout the season.

## DAHLIA

### MEGABOOM BERRY BLAST NEW!

Designed for their oversized blooms and tidy, well branched plants, MegaBoom Berry Blast outshines them all with its vivid bicolor splashes on the petals. Outstanding disease resistance; perfect for landscapes or large container gardens.

## GERANIUM Zonal

### ROSALIE™ ANTIQUÉ SALMON NEW!

A novel and irresistible double flower that adds a new twist to geranium programs, big and small. Soft pink rosebud-like flowers make Rosalie™ a unique variety that stands out. Controlled habits work well with small-to-medium sized containers.

**NEW!** Petunia Crazytunia® Pink Frills Imp

## BRACTEANTHA *bracteatum*

### GRANVIA GOLD **NEW!**

This great Bracteantha from Suntory outperforms all strawflowers on the market. Granvia Gold is much more impressive than a standard bracteantha. Full, vigorous plants and flowers are twice the size! Stunning in landscape beds and large patio pots. Resistant to mildew. Grow in gallon pots or larger. The gigantic flower size turns heads wherever it is shown.

## CALIBRACHOA

### CALITASTIC® AUBERGINE STAR **NEW!**

This new Calibrachoa from Westhoff stuns with its star shaped pattern in the flower center. The wide edge with the dark middle makes a great contrast to the yellow star pattern. Like all Calitastic® varieties. Aubergine Star has a compact, free flowering habit and will bloom early and stay open under low light conditions (11 hours critical daylength).

## GAILLARDIA *x grandiflora*

### FANFARE PHOENIX II **NEW!**

REALFLOR® Fanfare Phoenix has unique pinwheel flowers in bold fire tones. Fanfare Phoenix blooms over an exceptionally long period with a compact mounding habit 21" x 16". Drought tolerant once established, this sun-loving, floriferous variety is ideal for containers, beds and borders.

## OSTEOSPERMUM

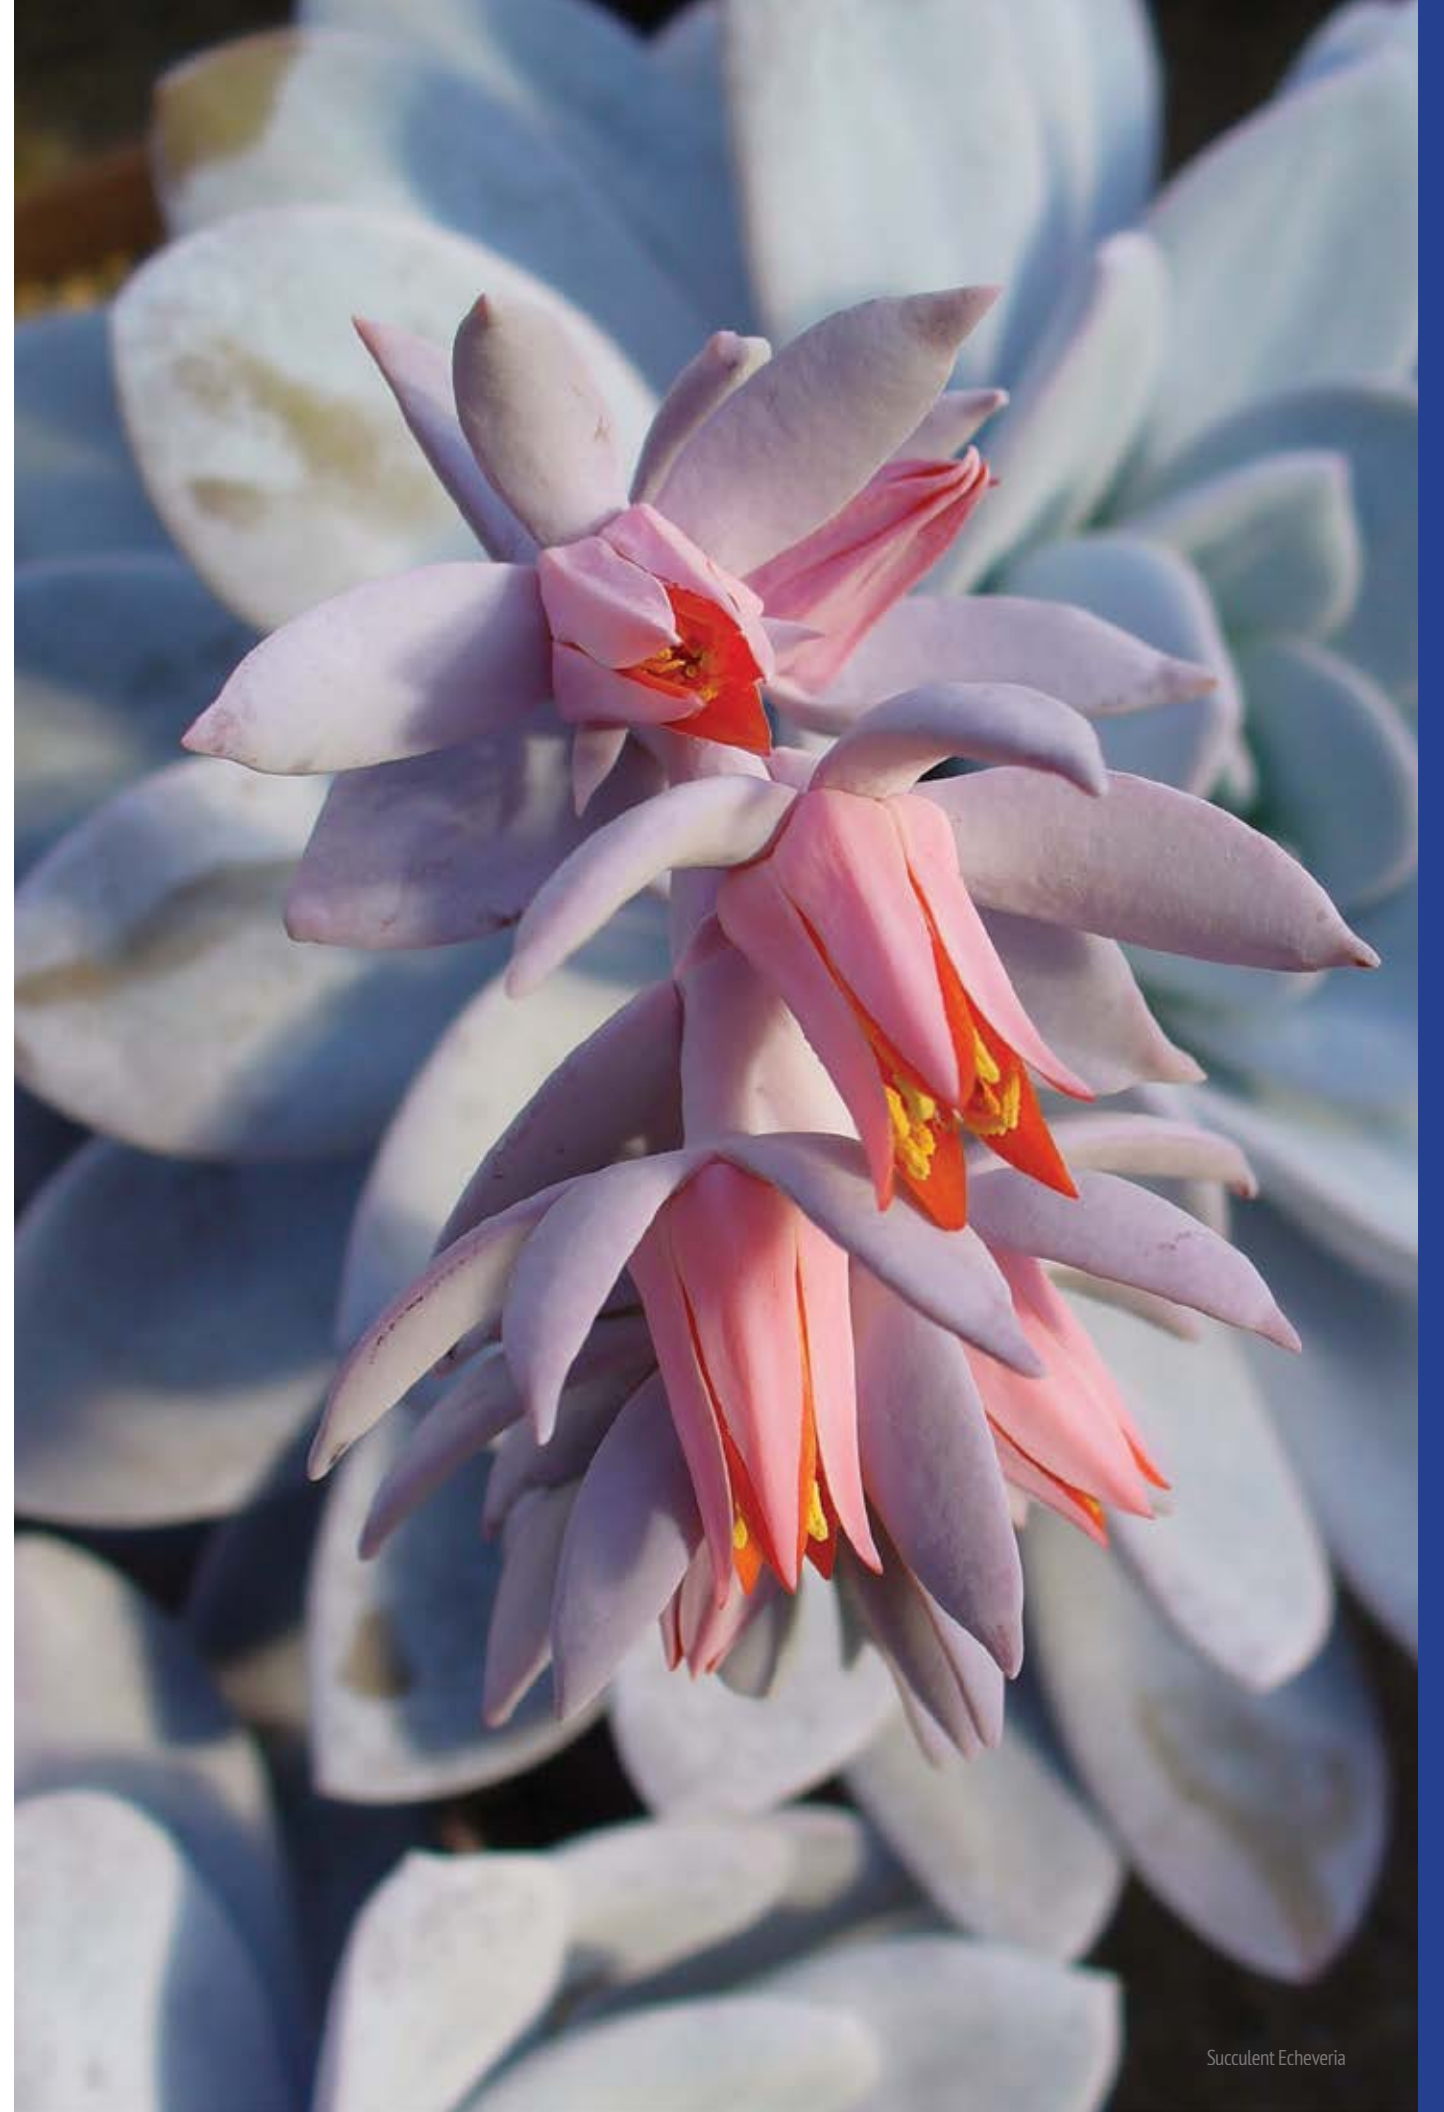

### GELATO **NEW!**

Westhoff has expanded their early spring collection with the addition of the new Gelato series Osteospermum. The series consists of 6 colors, well-matched for habit, timing, and prolific flower production. **Colors:** Almond, Candy Apple, Cranberry, Pineapple, Pink Cuberdon, Prune.

## PETUNIA *hybrid*

### CRAZYTUNIA® **NEW COLORS!**

New additions to the core Crazytunia® Petunia collection meet the demand to provide a larger range of unique colors and patterns for custom combinations. While the sheer and shimmering classic shades remain best sellers, the alternative: stone-washed, star-burst, neon brights, velvety blacks, pulsating duo-tones and bold confetti splashes are winners too! Plants grow vigorously from the center out to the edges. **New colors:** Cosmic Pink, Frisky Red, Frisky Violet, and Pink Frills Improved

Succulent Echeveria

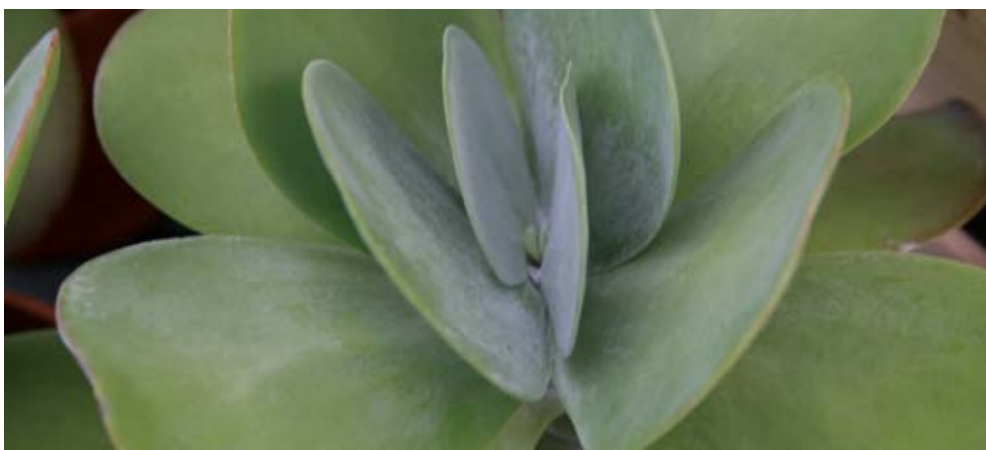

Aeonium Kiwi Tricolor

Echeveria Lola

Echeveria Topsy Turvy

Kalanchoe Flapjack

Echeveria Black Prince

Sempervivum Cobweb Buttons

## AEONIUM

### KIWI TRICOLOR

Multi-colored rosettes grow similar in form to a bush. The rosette center is pale yellow and the larger leaves become progressively greener as they work from the center out, culminating in a brilliant red edge. Kiwi produces yellow flowers in the summer, is drought tolerant, prefers bright sun and is cold hardy to about 25-30 degrees. Water thoroughly but allow the soil to dry out.

## ECHEVERIA

### BLACK PRINCE

Deep purple, almost black rosettes, start out greenish but darken with age. Black Prince produces orange-red flowers in the late fall to early winter. Full sun produces the best color, cold hardy to 25 degrees. This variety needs well drained soil with only occasional waterings.

### LOLA

A beautiful, grayish-blue leafed rosette tinged in pink with yellow, peach, or salmon flowers; blooms in summer on 6" stalks. Lola multiplies easily and will be surrounded by offsets that can be left in place or propagated. Grow in pots and bring inside when temperatures near freezing.

### TOPSY TURVY

With its origins in Mexico, this fast-growing runyonii succulent has silver-gray leaves which curve out and up. The leaf tips point back to the center of the plant, earning its nickname 'Topsy Turvy'. It produces orange/apricot-colored flowers on tall, arching stems in late summer/early fall. It is cold hardy and drought tolerant. Water at regular intervals. Keep in a well-drained soil.

## KALANCHOE *(thysiflora)*

### FLAPJACK

This variety has a host of nicknames, including Flapjack, Paddle Plant, Dog Tongue, Desert Cabbage, and Ice Sculpture. The fleshy, paddle-like gray green leaves develop a red tinge with full sun. The mature plants produce a yellow flower in the spring. They are drought tolerant, cold tolerant to about 30 degrees, but won't tolerate a frost.

## SEMPERVIVUM

### COBWEB BUTTONS

Slow growing, tight, pale green rosettes form a gray webbing over their center leaves and produce pink flowers in the summer. Cobweb Buttons is drought tolerant, prefers sun or light shade in well drained soil, infrequent waterings.

## AGLAONEMA

### ASSORTED

One of the most widely used and easily cared for interiorscape plants, commonly known as Chinese Evergreen. Our assortment typically includes 3 or more attractively variegated varieties. 6", 8", and 10" pots.

## DIPLADENIA

### BELLA + MADINIA

Controlled, upright habit with little to no vining. Compact plants display large 3" trumpet-shaped blooms in abundance, in rich, clear colors. These heat lovers will flower all summer long in full sun with minimal care. Colors: Pink, Red, White. 6" bush, 10" bush, and 10" hanging baskets. (White is only available in 10" baskets.)

### SUMMER ROMANCE YELLOW

Large neon yellow, trumpet-shaped blooms are displayed against the clean, glossy green foliage, all summer long. Can be maintained as a shrub with light pruning, or trained on a trellis to 5 ft. or more. Be sure to include this eye-catcher in your tropical assortment! 6" or 10" trellis.

## EUGENIA

### 2 OR 3 BALL TOPIARY

This ornamental topiary is characterized by its small, green leaves and delicate branches. Eugenia is a resilient shrub that is easily trimmed to retain the desired form, and grows best in full sun. Performs best when kept moist.

## FERN

### BOSTON

The Boston Fern is prized for its long arching fronds that cascade gracefully as the plant matures. This classic favorite requires bright indirect light and high humidity to flourish, especially indoors. Great for outdoor shaded areas during the summer in urns, planters and 10" hanging baskets.

### KIMBERLY QUEEN

Distinguished by its upright form, bushy habit, and greater sun tolerance than the classic Boston fern, Kimberly Queen's toughness and versatility make this one of our top selling foliage items, year after year. Perfect in large urns or patio containers in any partly shaded outdoor space. 6" pots, 10" pots, and 10" hanging baskets.

Ficus Fiddle Leaf Fig

Hibiscus Braid

Hibiscus Hollywood

Gardenia

Hibiscus 10" Bush

Mandevilla SP Giant Crimson 10" Trellis

## FICUS *lyrata*

### FIDDLE LEAF FIG

Ficus lyrata is known for its huge, leathery, violin-shaped leaves up to 15" long by 10" wide. Native to the African tropics, Fiddle Leaf Figs will thrive in warm, high light locations, in well drained soil, given as much humidity as can be provided. Develops a dramatic stature as it matures, but can be tip-pruned to induce branching and maintain a desired size. Order early to insure availability! **10" bush, 10" standard and, 14" Standard - New!**

## GARDENIA

### BUSHES, BRAIDS & STANDARD

Gardenias are known for their unmistakable fragrance and white to cream colored large blossoms showcased against dark green, shiny foliage. They require regular watering and full sun to partial shade. Gardenias are a great choice for containers or raised beds. **6" and 10" bush, 10" braid and 10" standard.**

## HIBISCUS

### ASSORTED BRAID

Bring the tropics to you with lovely small hibiscus trees with braided trunks. The braided hibiscus topiary forms a slender trunk with a closely cropped ball of foliage and flowers at the top. A work of art, braided plants take years to mature in a greenhouse. **10" pot.**

### ASSORTED BUSH

Producing huge, colorful, trumpet-shaped flowers over a long season. Flowers may be up to 6" in diameter, with colors ranging from yellow to peach to red. They are extremely easy to grow. Plant in full sun and enjoy a summer full of spectacular blooms. It attracts butterflies and hummingbirds. **6" bush, 10" bush.**

### HOLLYWOOD

Outstanding series with a wide range of unique colors, bred by the J. Berry Nursery and grown to perfection by CLI Colors. These ship in a Hollywood branded pot. **10" bush.**

## MANDEVILLA

### SP GIANT CRIMSON

Even more gorgeous than the Giant Crimson, Red Emperor® is a premium Mandevilla with 3-5" large, striking red flowers. Outstanding disease resistance, large flowers and vigorous growth. **6" trellis and 10" trellis.**

## MONSTERA *deliciosa*

### SPLIT LEAF PHILODENDRON

Commonly referred to as Split Leaf Philodendron, Monstera deliciosa exemplifies the best that indoor plants can provide. The large, leathery, dark green, shield-shaped leaves develop deep cuts as the plant matures, giving it the characteristic look that has made it a classic indoor plant choice for decades. Given bright indirect light, an upright support, and minimal care, it will contribute an air of tropical grandeur to any indoor space, to be enjoyed for years to come. **10" pot.**

Monstera Split Leaf Philodendron

## MUSA

### SIAM RUBY

An ornamental banana with striking large red leaves splashed with green. Adds a tropical look to a deck, patio, or poolside. Can be brought indoors as a houseplant before the first frost in cold winter areas. **10" pot.**

## PALM

### MAJESTY PALM

Bearing long green, feathered fronds, on a stately, flared form, this tropical plant does wonderfully indoors or outdoors. Majesty Palm grows 20-40' tall outdoors in the tropics, but as a houseplant it can stay quite small. To maintain deep green leaves and healthy growth, this palm needs regular fertilizer and water during the growing season.

## SANSEVIERIA

### SNAKE PLANT

Also known as Mother-in-Law's Tongue or Snake Plant, Sansevieria is striking and remarkably easy-to-care-for. This popular houseplant has near indestructible qualities, and an upright and erect leaf habit which works well in many different types of spaces.

## STRELITZIA *nicolai*

### WHITE BIRD OF PARADISE

Add a touch of the tropics with this exotic indoor plant and its large, glossy, dark green foliage. Dramatic, long, arching leaves really make a statement. White Bird of Paradise needs lots of sunlight to grow, so put on the porch or patio in the summer months.

White Bird of Paradise

Alocasia Regal Shields

Ginger Variegated 6" Pot

Cordyline Hot Pepper 10" Pot

Assorted Hibiscus

Croton Petra 10" Pot

Jasmine Sambac 6" Pot

## ALOCASIA

### REGAL SHIELDS

This showy foliage plant features giant, heart-shaped, green-black leaves with a reddish underside. Great for indoors or outdoors, this quick grower certainly lives up to its regal name. Other Alocasia offered include Borneo Giant, Calidora, Odora California, Portadora, and Assorted. **10" Pots.**

## CORDYLINE *fruticosa*

### HOT PEPPER

A Hawaiian Ti Plant, Cordyline Hot Pepper has long, narrow leaves which are green with bright red tips and edges. Shade grown; height 2-2.5' high. **3 gallon and 10" pots.** Cordyline Red Sister and Florica are also available in 10" pots.

## CROTON *variegatum*

### PETRA

A very colorful shrub from the tropics! Petra exhibits large oval leaves that are variegated with colors of deep green, yellow, red and orange. Whether in a tropical garden or as a house plant, Petra Croton adds color and delight wherever it grows. **6" and 10" pots.** Also available: Croton Mammy 10" Pot, Croton Assorted in a 10" or 14" Pot.

## GINGER *Zerumbet*

### VARIEGATED

Commonly known as shell ginger, *Alpinia Zerumbet* is a perennial species of ginger native to East Asia. It is best grown in rich medium-wet to well drained soil in full sun to part shade. Indoors, the plant must have bright light and humid conditions. **6" pot and 10" pot.**

## HIBISCUS

### ASSORTED

Huge, trumpet-shaped blooms to 6" in diameter range in color from yellow to peach, orange, pink, and red. The spectacular blooms will not only turn heads, they will also attract butterflies and hummingbirds. Full sun and ample moisture will insure abundant flowering all summer long. **10" braid, 10" standard, 10" bush, 14" bush, 14" standard; Hibiscus Fiesta in 10" bush and 10" standard; Hollywood assortment in 10" bush.**

## JASMINE

### SAMBAC

Also called Arabian Jasmine, Jasmine Sambac is a semi-vining shrubby plant with 1" white, waxy flowers. Though small in size, the blooms are exceptionally fragrant, reason enough to include this plant in your tropical assortment. **6" pot, 10" bush or 10" braid.**

## KALANCHOE *(thyrsiflora)*

### FLAPJACKS, PADDLE PLANT

Large paddle-shaped fleshy green leaves, edged in red which grow in a beautiful rosette leaf pattern. Flapjacks are a tender succulent, and should be held in the greenhouse if spring temperatures linger below 50F. **6" and 10" pots.**

## MUSA

### ZEBRINA ROJO

An attractive banana plant with green and red mottling on the top of its broad leaves and solid maroon coloring on the bottom, growing 5-8' tall. Zebrina is wind and cold resistant and does well in large patio containers or in the landscape. **10" pot.**

## MONSTERA *deliciosa*

### SPLIT LEAF PHILODENDRON

Large, leathery, dark green, leaves develop "splits" as the plant matures, giving Monstera the characteristic look that has made it a classic indoor plant choice for decades. Given bright indirect light, an upright support, and minimal care, it will contribute an air of tropical grandeur to any indoor space. **10" pot.**

## SCHAUERIA *flavicom*

### YELLOW DANCER

This recent introduction was awarded "Favorite New Flowering Plant" at the 2020 TPIE show. Unusual fuzzy yellow flower clusters displayed against dark green foliage make this a plant to be enjoyed up close on a deck or patio. **10" pot or 10" standard.**

## TIBOUCHINA *dwarf*

### JULES

Royal purple 2" blooms stand out against the velvet-textured foliage of this 2' to 3' shrub. Use as an accent plant in a mixed garden bed, or in a container in full sun to part shade. **10" pot or 10" standard.**

## GERANIUM *Interspecific*

### BIG EEZE SALMON + WATERMELON NEW!

An interspecific geranium series engineered with all the benefits of zonal and ivy geraniums but keeping the classic look of a zonal geranium that consumers want. Consumers will enjoy the ultra large flowers, full canopies of blooms and dark green zoned foliage. Big Eeze has stronger habits and more heat and drought tolerance for superior summer performance. An excellent choice for containers, hanging baskets or landscape plantings. Colors: Dark Red, Foxy Flamingo, Fuchsia Blue, Neon, Pink.

### PATRIOT ROSALINDA NEW!

An absolutely stunning variety for the garden center. Massive, vivid pink blooms with fully double flowers will really wow consumers for impulse purchasing. These very vigorous plants will easily fill out large containers and baskets.

*Zonal*

### SARITA WHITE NEW!

A Pelargonium zonal type, Sarita White will shine in your garden, outdoor containers or hanging baskets. Bright white single blooms stand out on dark green foliage with a semi-trailing habit that looks beautiful in combination pots. In the landscape, the foliage will remain dense to the ground. Plant in full sun to partial shade in average to moist soil. Height 16" tall, spread 18" wide.

### SAVANNAH NEW COLORS!

A Pelargonium zonal type, Savannah will brighten up your garden, outdoor container or hanging basket. With its semi-double blooms on dark green foliage and an upright habit, Savannah looks lovely in combination pots when paired with trailing-type plants. In the landscape, the foliage remains close to the ground. Plant in full sun to partial shade in average to moist soil. Height 20" tall, spread 20" wide. **New colors:** Hot Rod Red, Ruby Sizzle Imp, Bright Eyes 2018 Imp.

### SURVIVOR BRIGHT RED

A Pelargonium zonal type, Survivors are known as the classic zonal with exceptional heat tolerance and summer performance for the garden. Survivor Bright Red has a classic bright red color with strong zoning on the foliage for a very traditional look. With its upright habit, Survivor is suited for use in combination pots; in the landscape, its foliage remains close to the ground. Plant in full sun to partial shade in average to moist soil. Height 20" tall, spread 20" wide.

## GERANIUM *Interspecific*

### CALLIOPE MED DARK RED NEW!

Intense Color That Lasts™. All the benefits of Calliope® Large in a more space efficient package. Ideal for 1.25 -2.5 qt. pots, Calliope® Medium targets the core volume of the market and is the go-to interspecific geranium series for premium programs. Calliope® Medium's wide range of colors and unique novelties makes it a one-stop option for building the ideal geranium program.

### MOJO DARK RED NEW!

A bold combination of dark foliage and brilliant color. Brilliant colors and large flower heads set against dark green foliage deliver a striking combination. Medium vigor and a mounded, very well-branched habit make Mojo the ideal choice for 1.25 qt. to 2.5 qt. pots. A must-have series that works across a range of container sizes and is ideal for bold combination containers.

*Ivy*

### IVY LEAGUE CHERRY BLOSSOM NEW!

Color ahead of its class. Exceptional heat tolerance, raises the bar for the ivy geranium class. Strong branching and pot fill builds better baskets. A broad range of core and novelty colors makes Ivy League the go-to ivy geranium series.

*Zonal*

### ROSALIE ANTIQUE SALMON NEW!

A double flower that is irresistible! Soft pink rosebud-like flowers make Rosalie a unique variety that stands out at retail and in the garden. Controlled habits work well across a range of small-to-medium sized containers. A novel variety that adds a new twist to all geranium program.

### SAVANNAH OH SO ORANGE NEW!

Lightly-scented orange flowers balance in delicate orbs above vibrant green colored, round plate leaves with a dashing stripe of bronze. Savannah Oh So Orange is perfect for cuttings, in the garden or in planters and blooms from late spring to early fall. rowth habit is upright and spreading.

### SUPER MOON RED NEW!

Big ball-shaped blooms, sit on strong stems with a better branching angle than other geraniums. It has big fan-shaped leaves and a bushy habit; Super Moon Red perfectly refers to its unique coloring. This large red geranium has subtle chocolate hints in the stems and leaves which blocks the heat and infuses a bronze cast in the plant. The natural heat management in zonal geraniums was perfected in this variety.

### BALCON **NEW!**

A sea of colorful, large, single flowers cascades over the edge of large hanging baskets and window boxes on this heat-tolerant, trailing ivy. It is naturally self-cleaning to keep gardens looking fresh long into the Summer. A novel color for the series.

### DECORA **NEW!**

Cascades of vibrantly colored, large, single blooms spill out of large hanging baskets and window boxes. Heat-tolerant, trailing ivy features unique variegated foliage. Plus, it is naturally self-cleaning, so it keeps plants looking fresh all Summer long.

### ROYAL™ **NEW!**

Early flowering makes for quick turns, and excellent oedema resistance results in clean foliage at retail. This double-flowered ivy geranium with a medium-vigor, well-branched, trailing habit is terrific in baskets. This variety has been upgraded to thrive longer throughout the Summer.

*Zonal*

### MOONLIGHT ORANGE **NEW!**

Dark foliage, compact and uniform series for pot-tight production and bench runs. This is a true orange color and perfect for quart and gallon programs. Moonlight Orange is early to flower with three to four flowers at first flush!

### SUPER MOON RED **NEW!**

This stunning, large-flowered zonal geranium features dark red blooms on a very strong, vigorous plant. It has unique, very dark stems that provide contrast. Heat-tolerant variety is perfect for the landscape.

### SUNRISE ROSE + BIG EYE **NEW!**

Green foliage, medium upright series. This is perfect for quarts, gallons, baskets, and used as a thriller item in mixed containers. Rose + Big Eye has a terrific bicolor pattern with large flowers and great heat performance!

**NEW!** Geranium Sunrise Rose + Big Eye

# Best-in-class breeding keeps getting better.

## Mojo™

### A bold combination of dark foliage and brilliant color.

Mojo™ is the ideal choice for medium vigorous, dark leaf interspecific geraniums. Large flowers set against dark foliage delivers a striking combination along with excellent outdoor performance.

## Moxie!

### Innovation just got efficient.

Moxie!™ is the only compact interspecific geranium series perfectly suited for space-efficient production in small pots and with unique brilliant colors.

**CALDERA™ NEW!**  
Caldera stands out all summer long with a striking combination of dark foliage and vibrant blooms. Flower intensity and exceptional heat tolerance like Caliente geraniums, but with a spreading habit.

**MOJO™ NEW!**  
Mojo has brilliant colors and large flowers set against dark green foliage that deliver a striking combination. A must-have series with an upright habit that works across a range of container sizes.

**CALLIOPE® MEDIUM CHERRY NEW!**  
Intense Color That Lasts™. With a new addition to its color palette, Calliope is known for its stellar performance in both landscape and containers.

**MOXIE!™ NEW!**  
The first and only interspecific geranium series bred specifically for brilliant flowers, unique bicolors, and small efficient plant habit. It has excellent heat tolerance making it the ideal series for small to medium size containers with superior flowering all season long.

*Ivy*  
**IVY LEAGUE™ CHERRY BLOSSOM NEW!**  
Exceptional heat tolerance, raises the bar for the ivy geranium class. This unique variety offers a bicolor bloom with curly edges creating interest in hanging baskets.

*Zonal*  
**AMERICANA® SCARLET FIRE NEW!**  
A color addition to North America's #1 zonal geranium series. Scarlet Fire offers a new, bright red color and is great for combinations and landscapes.

**ROSALIE™ NEW!**

### LEMONA NEW!

Grown for their distinct foliage and strong lemon scent, Lemona is a great addition to your garden, patio container, hanging basket or as groundcover. Delicate rose colored flowers top crinkly leaves on stiff stems with an upright mounding habit. A tender perennial, blooms May-July. (Westflower®)

hybrid

### TALL DARK HANDSOME™ BLOOD ORANGE NEW!

Black colored leaves create a stunning contrast to the bright fire-red flower. Blood Orange needs a trellis or tomato planter to stay upright. Once pinched, it will build many side shoots that will fill out big pots easily and create a fantastic eye-catching display.

x hortorum

### ELANOS® DEEP RED NEW!

Pelargonium Elanos® adds to the strong growth vigor series. A classic choice for summer annual containers, beds, borders or combination planters. Bright bloom clusters provide color all season. PAC® Elsner.

### MRS. POLLOCK NEW!

A famous heirloom variety dating back to 1858, Mrs. Pollock is renowned for its tricolor foliage. From early summer to frost, double scarlet-red flowers are enhanced by large leaves with green centers, gold edges and brilliant dark red splashes.

zonal

### DARKO® VELVET RED NEW!

A gorgeous dark red flower blooms in the midst of dark green leaves (without zoning), on a compact growth habit. It is disease resistant and has a very long shelf life and the strong habit protects the plants during transport. Plant in 4-6" pots. Many customers use the Darko series for direct stick propagation. (PAC® Elsner)

### VANCOUVER CENTENNIAL NEW!

A Fancy Leaf Collection top pick! Vancouver Centennial is a Stellar pelargonium with clusters of brilliant orange-red, star-shaped flowers and chocolate-brown leaves with lime-green edging. Perfect for spring and fall combinations; in pots, on the patio, or as a border. Vigorous, ever-blooming, easy to grow, and low maintenance. (Vivero)

HYDRANGEAS  
HYDRANGEAS

Hydrangea Early® Rosa

NEW! Hydrangea Caipirinha®

## HYDRANGEA

### CAIPIRINHA® NEW!

This award winning variety is dependable and long lasting. Caipirinha® is a chameleon, changing color from green to white and back to green again! Excellent flower count; a great well branched mop head variety. Suitable for 4" and 6" pots; forcing period is 10 weeks.

### CURLY® SPARKLE BLUE & PINK NEW!

Unique ruffled edges! Curly® Sparkle Blue finishes to purple and Sparkle Pink finishes to a hot pink. A medium-strong habit, and well branched with a strong, curled leaf mop head variety. Excellent flower counts, suitable as a 4" and 6" pots. Separate field and finishing treatments are necessary for this variety. Forcing period is 11 weeks.

### EARLY® BLUE & ROSA

A very reliable lighter blue and lighter pink variety with excellent flower counts, with a great well branched mop head, Early® is compact with a medium-strong habit. Suitable for 4" and 6" pots; forcing period is 10 weeks. The same variety has separate field and finishing treatments.

### HOT RED & RED/PURPLE

A bright red color and dependable purple variety with a great well branched mop head type. Excellent flower counts suitable for 4" and 6" pots; forcing period is 10 weeks. Separate field and finishing treatments.

### JIP BLUE & PINK NEW!

Jip offers a striking deep blue and an impressive clear medium pink bloom with a great well branched mop head. This variety has excellent flower counts. Suitable for 4" and 6" pots; forcing period is 10 weeks.

### DITTO DARK ORANGE + DARK PINK NEW!

Ditto Dark Orange and Ditto Dark Pink join the perfectly matched Ditto family which features a full range of colors, well-suited for monoculture or combinations. Predictable and highly resilient, Ditto is an easy solution for both shaded and natural season production. Ditto is also featured in the early season Confetti Garden® collection.

### GOAL LIGHT BRONZE + YELLOW NEW!

Goal Light Bronze and Goal Yellow join Goal Orange for a new mid-season family. The Goal family glows with rich autumn colors, and was bred for strong color retention, large flowers, and a fast 6-week response time for black out production. With vigor that's versatile for all pot sizes, Goal has a round habit for the perfect mum look.

### HOMERUN NEW COLORS!

The new Homerun series features large flowers and bred from a family mutation for a perfectly matched mid-season program. Homerun has a fast blackout response time of six weeks and excellent shelf life. The four new Homerun varieties are suited for combination mixes and are featured in the mid-season Confetti Garden® collection. **New colors: Orange, Pink, Yellow, White.**

## CHRYSANTHEMUM

### ADURO

New in 2019! Aduro is great for indoor black cloth production and is a complement to Jasoda and Staviski. They have medium vigor and are suitable for all pot sizes with great color retention. Aduro will flower in early October. **Colors: Bicolor Pink, Orange, Purple.**

### POSSIDI NEW!

Very unique decorative spider flowers bloom in late September. Possidi has excellent color retention!

### SOUL SISTERS NEW!

Soul Sisters are searching for a way into your heart. They do well indoors and outdoors giving extra color and atmosphere. Designed for finish under black cloth in small pots without PGRs and have one of the longest lasting flowers that bloom from mid to late October (in natural season). These jazzy sisters exist in 6 bright colors: yellow, orange, pink, dark pink, red and white.

**ADRIANA™ PURPLE NEW!**

Rich purple color that seems to last forever. Best for natural season crops with response that is similar to the Gigi™ family.

**CHERYL™ PINK IMP**

A better match to the Cheryl family with lighter pink color with a more compact habit than the original Cheryl™ Pink.

**DEMI™ PINK**

Bright lavender daisy with Very Early natural response that is perfectly timed for late summer sales.

**HAILEY™ GOLD IMP**

More yellow than the original Hailey™ Gold to create more of a bud color difference with Hailey™ Orange. Also, vigor and flower response more in line with the other Hailey™ colors than the original.

**NIKKI™ PEARL**

Great white option for the Nikki family.

**RIHANNA™ RED NEW!**

Eye catching red and yellow contrast of the daisy flower on a well-rounded plant habit.

**SELENA™ RED**

Deep Red color that lasts. Our replacement for Brandi™ Burgundy with improved plant habit.

**TINA™ GOLD**

Very interesting fall yellow with bronze tips on every petal. Colored tips express more in cooler temps but are there even in the heat of the south.

### PAVILION™ BLUE + WHITE **NEW!**

1st year flowering. Blue, and White join existing Pink! Pavilion™ has small, semi-double flowers that bloom from late summer to early fall. Well branched and very compact; vernalization not required. Hardy to Zone 5. The compact and upright habit makes it ideal for 6-7" pots or larger and containers.

## COREOPSIS grandiflora

### SOLANNA™ SUNSET BURST + SUNSHINE **NEW!**

1st year flowering. Solanna™ is early, with large double blooms and unique coloring that changes depending on temperature. Prolonged flowering from spring through fall. Solanna™ is well branched and self cleaning. No vernalization or bulking needed. Hardy to Zones 4-9. Perfect for 5-6" pots and larger, landscapes, and gardens.

## GAURA lindheimeri

### STEFFI DARK ROSE

**New in 2019!** 1st year flowering. Gaura Steffi is a new series of Gaura which has a nice compact habit and an abundance of very large flowers, good heat tolerance, and requires no bulking or cooling to get a nice sized plant into flower. Steffi Dark Rose will grow in short days. Zone 6 perennial.

## LAVENDER angustifolia

### LAYLA™ BLUE **NEW!**

1st year flowering. Layla™ is a perennial with small, fragrant, semi-double blooms that flower from summer to fall. Layla™ is well branched with a compact and upright habit, little to no PGRs needed. Recommended for quarts, gallons, and landscapes. Hardy to Zone 5.

## SALVIA nemorosa

### APEX™ WHITE **NEW!**

1st year flowering. White joins last years introductory colors: Blue and, Pink. This perennial can be sold as a bedding annual. Apex™ is early with a uniform medium-sized flower that reblooms; enjoy the color all summer long. This compact, upright plant habit has short and narrow foliage and is well branched, with a strong and radial body. No bulking or vernalization requirements. Pot size: 5-6", use as ground cover. Hardy to Zones 4-9.

## ANDROPOGON gerardii

### HOLY SMOKE **NEW!**

This ornamental grass has very erect flower stems that grow up to 5' above 30" stands of upright, arching foliage. Beautiful purple and pink fall coloring. Zones 3-9. From Intrinsic Perennial Farm. PPAF

## CHLOROPHYTUM saundersiae

### STARLIGHT **NEW!**

Constellations of starry white flowers dance above brightly variegated 40" grass-like blades. A cheery show in beds or containers; zones 8b-11. PP28477

## ECHINACEA

### ARTISAN™ RED OMBRE + SOFT ORANGE **NEW!**

The first F1 hybrid Echinacea series from seed! Heavy-flowering varieties with enhanced uniformity for consistent cropping. Red Ombre has single flowers that open in a rich red color, developing subtle antique shades over time. Soft Orange flowers open a deep orange and soften in color as they mature. Plants grow 16-28" high; zones 5-9.

## LAVANDULA

### SENSATIONAL **NEW!**

Full, fat spikes of purple flowers, the biggest of this hybrid group, rise from bright silver foliage for a gorgeous striking contrast. Height 2-3'; does well in zones 4-9; deer resistant.

## LOMANDRA confertifolia

### WINGARRA™ **NEW!**

This ornamental grass has dense weeping tussocks of very fine blades, glaucous blue-green, with purple basal sheaths grow 16-20" high. Small yellow/orange flowers bloom in the spring. Zones 9-11. PP19049

## SORGHASTRUM nutans

### GOLDEN SUNSET™ **NEW!**

This is an early-flowering, ornamental grass form with wide, olive-green blades, a tight upright habit and full golden plumes. Sorghastrum grows 4-5' tall and does well in zones 3-10. Selected at Minnesota Landscape Arboretum. PPAF

### DREW'S FOLLY **NEW!**

Soft dark green foliage features spikes of light pink flowers that are heavy to flower in May through June. Little maintenance is required for this hardy Snapdragon! Light/Water: Full sun to part shade; moderate to low moisture, adaptable to clay soils. Height: 12"; Spread: 16". USDA Zone: 5-9. From Plant Select.

## AQUILEGIA *x hybrida*

### EARLYBIRD™ **NEW!**

Bred for flowering with less cold treatment, the EarlyBird series is easy to grow in warmer winter climates. Large flowers bloom on compact plants with interesting color combinations. Light/Water: Part Sun to Full Sun, well-drained soil with average moisture. Height: 9-11"; Spread: 10-12". USDA Zone: 3-9. From PanAmerican Seed.

## ECHINACEA

### SUNSEEKERS APPLE GREEN **NEW!**

Double rows of ruffled petals are truly green, surrounding green center cones that mature to yellow. This unique flower is a show-stopping addition to any cut-flower or perennial garden! Light/Water: Full sun; well-drained soil with low to average moisture. Height: 18-24"; Spread: 18-24". USDA Zone: 5-8. From Innoflora.

## HEUCHERA

### FRILLY **NEW!**

Rosettes of frilled leaves are caramel-orange in color with rosy red undersides. The world's first fringed foliage Heuchera! Light/Water: Part Sun to Fully Shade. Height: 8-12"; Spread: 12". USDA Zone: 4-9. From Concept Plants.

## HYDRANGEA

### GAMECHANGER® **NEW!**

Changing the Hydrangea game forever, the GameChanger® series is the first to market that does not need cooled or vernalized and is day-length neutral. Intricate lace-pattern flowers bloom in 4 color choices! Light/Water: Part Sun to Full Shade; well-drained soil with average moisture. Height: 14-20"; Spread: 16-20". USDA Zone: 5-9. From GreenFuse Botanicals.

## LUPINE (LUPINUS)

### WESTCOUNTRY **NEW COLORS!**

These aren't your grandmother's lupines! The Westcountry varieties, collected by Westcountry Nurseries in the UK, have been selected for their unique and vibrant colors and are like lupines on steroids! Propagated by tissue culture, the distinctive bloom patterns have been preserved through the process, and the overall plant strength is increased, thanks to a dependable tissue culture sourced from Gulley Greenhouse. New additions to the Westcountry lineup are Polar Princess, Salmon Star, and Towering Inferno. Polar Princess is perfectly snow-white, flowers form tall, regal spikes above dark green foliage. Multiple flowers per plant create a stunning display in late spring / early summer. Salmon Star, aptly named, has salmon petals seem to shimmer along tall stems. Towering Inferno has extra-large flower spikes feature burning hot salmon-orange petals alternating with bright yellow inner petals tucked along the flower stem. Truly a flower you have to see to believe! Flowers fade to a darker salmon color creating a gorgeous multi-hued display on each flower stem. Light/Water: Full sun; average moisture. Height: 24"-36"; Spread: 24". USDA Zone: 5. From Must Have Perennials.

## COREOPSIS

### ENCHANTED EVE

A David Probst Hybrid from the Li'l Bang series- Only half the height of regular Tickseed, the yellow blooms with reddish-orange hearts will last all season with no fuss needed, aside from gathering cuttings for your bud vase.

## DIANTHUS

### SWEETIE PIE **NEW!**

A Proven Winner Introduction, Sweetie Pie is truly well named. With its perfectly pink, sweet scented, semi-double blooms, and its drought tolerant, trouble free performance, this charmer is bound to become a quick favorite!

## HELIOPSIS

### SUNSTRUCK **NEW!**

An early blooming Heliopsis, Sunstruck's large yellow flowers are perfectly offset by dark green and white variegated foliage, a beautiful combination for your garden. Sunstruck will continue to bloom all season with dead-heading. A favorite of our pollinator friends!

## HEMEROCALLIS

### MIGHTY CHESTNUT

A real stunner, Mighty Chestnut daylily has big, reddish-orange blossoms with a purplish eye and yellow throat and is not to be outdone. A hardy and fragrant addition to any garden.

## LILIUM

### SUNNY KEYS **NEW!**

A dwarf Oriental lily proudly displaying sensational reddish-pink blooms with a creamy white edge, Sunny Keys will add color and fragrance to your summer garden. Its stout stems help it withstand summer rains and temperatures as well.

## RUDBECKIA

### SMILEYZ™ SUNNY **NEW!**

An AB Cultivars introduction, Sunny boasts lemon-yellow petals atop compact and trouble-free green foliage. This Rudbeckia is truly hard to beat.

Andropogon Blackhawks

Iris Purple Flame

## ANDROPOGON *gerardii*

### BLACKHAWKS

A seedling of Andropogon gerardii 'Red October', this exciting new release from Intrinsic Perennial Gardens has dark green upright foliage that begins to turn red in the cool nights of August and becomes a deep, nearly black color by September.

## ATHYRIUM *otophorum*

### ATHYRIUM

The new limey-pastel foliage adds drama to the overall appearance of this fern. The fronds mature to a medium green, creating a unique two-toned cast throughout the season. A fresh new look for the shade garden is sure to catch your eye.

Athyrium

## HELLEBORUS

### VICTORIA

Part of the Joie de Vivre (ViV) collection from noted Belgian plant breeder Het Wilgenbroek. Victoria is a durable and long-blooming selection specifically bred to begin blooming in autumn and withstand full sun. Masses of purple flowers bloom September into April—unusual and resilient!

Helleborus Victoria

Phlox Rose Bouquet

## IRIS

### PURPLE FLAME

Welcome spring with this show stopper! Deep purple foliage emerges in March, announcing spring. The vibrant flame-like fans provide unparalleled vivid coloring followed by an encore of abundant flowers; foliage transitions to a smoky-green. A Mt. Cuba Center introduction.

## PHLOX

### ROSE BOUQUET

Part of the Earlibeauty series from The Primrose Path, Phlox Rose Bouquet is a floriferous, compact Phlox that is highly resistant to powdery mildew, even in the most humid conditions! Flowers begin early and keep on going - bringing a smile to your face and wildlife into your gardens.

## RUDBECKIA

### AMERICAN GOLD RUSH **NEW!**

Covered in blooms on a domed and shorter version of a black-eyed Susan. Perfect as mass plantings or in the perennial border, it hides spent blooms and provides uniform color as it blooms for weeks. Due to its thinner, hairier leaves, it is resistant to septoria leaf spot. From Intrinsic Perennials.

## CAMPANULA

### CARIBOO™ FORTE BLUE NEW!

Strong upright habits holds vibrant deep blue flowers. Cariboo™ flowers earlier and stronger than other interspecific varieties.

### SPRING BELL™ 2.0 NEW!

Nicely rounded habits that are covered in vibrant blue and white blooms. This is a great perennial for late spring to early summer.

## HELENIUM

### HAY DAY NEW!

A festive new series of Helenium with brightly colored blooms. Hay Day is the perfect summer perennial for attracting pollinators and bringing excitement into this classic prairie wildflower.

## LAVANDULA

### VINTRO™ FORTE BLUE + COMPACT BLUE NEW!

Strong habit and growth holds up to the rigors of wet and cold overwintering. Forte is great for larger containers or landscape coverage.

## PHLOX

### GOLDIPHLOX™ NEW!

A brand new series of well-matched Phlox subulate (change to subulata). GoldiPhlox™ adds series uniformity to core colors including the first ever GoldiPhlox™ Cherry!

## PLATYCODON

### TWINKLE™ NEW!

First-year flowering perennial can be sold as either a potted, patio or garden plant. Twinkle comes in a bright blue and a snow white that holds its shape and won't fall apart like other Platycodons.

New! Platycodon Twinkle™ White

## BRUNNERA

### ALEXANDRIA NEW!

Alexander's Great has finally met its match. Alexandria is the perfect companion to our favorite Brunnera. Alexandria features brilliant mirror-silver leaves with the classic Alexander's Great size and vigor. Tiny clouds of sky-blue flowers in the spring float above the foliage as it emerges. Truly a refreshing garden addition.

## ECHINACEA

### DARK SHADOWS™ WICKED NEW!

One of our best Echinacea hybrids! Very upright with glowing watermelon-pink held in a perfect bouquet pattern. Dense, pine-green foliage covers this plant right to the ground. Dark, chocolate brown stems and matching eye contrast perfectly on this amazing plant. Stunning when planted in mass and a true standout; excellent in containers.

### SUNNY DAYS™ LEMON NEW!

An exciting addition; Sunny Days™ Lemon is an exceptionally heavy flowering variety that will blow you away with the sheer number of flowers it produces. Medium, upright plants are smothered in sunny yellow double flowers. The deep, emerald green foliage goes clear to the ground and make this plant really stand out in a crowded Echinacea field. Fragrant and attracts pollinators too. Also available in Sunny Days™ Ruby!

## HELLEBORUS

### NORTH STAR™ GARNET FRILLS NEW!

Stunning ruby laced flowers with red veins on a brilliant white petal. Very hardy and easy to grow perennial that has exceptional flower count, even as a young plant. A wintertime classic. Bred for reliable tissue culture production planning. Plant in spring for flowering the following winter.

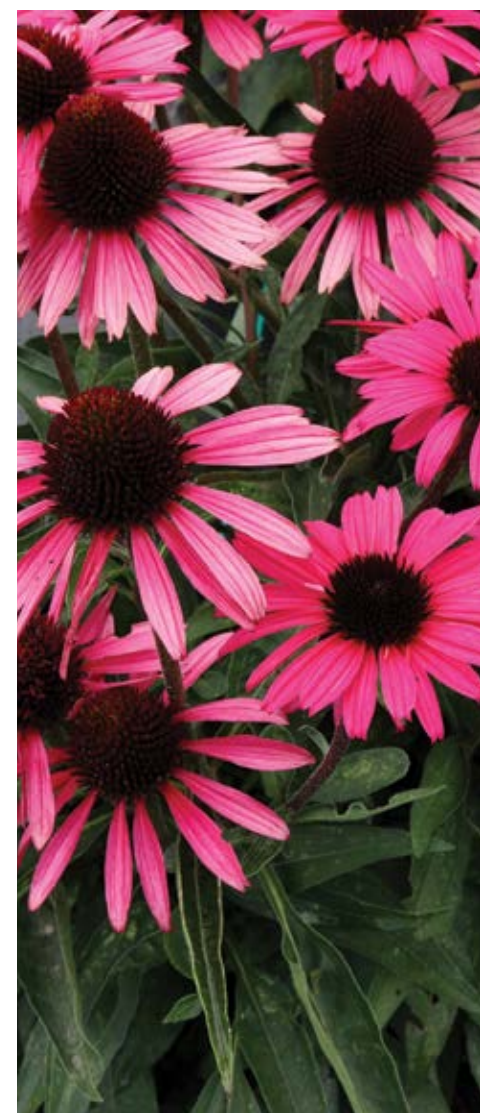

## LEUCANTHEMUM

### MT. HOOD NEW!

Large, double flowers composed of ice crystal like petals. Mount Hood has a perfect mounding habit and an enormous number of flowers throughout the season. Strong rebloom and great vigor. Each layer covers the previous bloom cycle. Multiple layers of blooms extend the season. Good foliage cover too! Destined to become a garden classic.

NEW! Brunnera Alexandria

## HIBISCUS

### SUMMERIFIC® FRENCH VANILLA **NEW!**

A breakthrough for yellow Hardy Hibiscus. Soft yellow flower buds open to 7-8" creamy custard yellow, ruffled flowers with a prominent red eye. Summerific® has a more compact habit, red stems a deeper green, more attractive foliage, retains its yellow color longer and has a very prolific floral production. *PPAF CPBRA*F

## LEUCANTHEMUM *superbum*

### ICE CREAM DREAM **NEW!**

Like little scoops of ice cream, this Shasta Daisy will charm you as it comes into focus in early to midsummer. Intense yellow buds open cream and expand to be near white, fully double, pom-pom-like flowers with small yellow centers. Blooms are 2½-3" wide and totally cover the compact dark green foliage. *PPAF*

## ORIGANUM *Origanum*

### DROPS OF JUPITER

This beautiful ornamental herb will brighten up your landscape! When planted in full sun, the leaves are chartreuse yellow. Later in the summer, mauve pink flowers are held on purple calyxes. The calyxes hold after the flowers are spent and extend the attractiveness late into fall. This ornamental herb is meant to show off in the garden. *PPAF CPBRA*F

*PPAF CPBRA*F

## PHLOX

### LUMINARY OPALESCENCE + ULTRAVIOLET **NEW!**

The new gold standard of powdery mildew resistance. In an extensive mildew trial, this was the very best variety to display resistance. Light pink flowers have dark pink eyes and are produced over dark green leaves; the darkest green we've seen on a Phlox paniculata. *PPAF CPBRA*F

## PULMONARIA *hybrid*

### SPOT ON **NEW!**

Signal the end of winter with these cheerful blooms in late spring. Spot On blooms are a unique deep salmon pink (nearly orange) that mature to a rich blue color. Silver speckling dusts the green leaves; use as an accent for other shade plants after its bloom season. One of the first Pulmonaria to have near-orange flower buds. *PPAF CPBRA*F

Sun-loving foliage celosia brings color and texture to containers. The NEW Sol™ Collection is a fantastic new foliage celosia with relatively fast production time and no downy mildew issues.

### CONCERTINA™ NEW!

This compact pot cristata has the widest color range on the market. Concertina is best for use as an indoor potted plant and in a sunny spot outdoors on the patio. Pink and Red Dark Leaf in the mix are slightly more vigorous.

NEW! Celosia Foliage Sol™ Gekko

## PETUNIA

### SHOCK WAVE® PURPLE TIE DYE NEW!

You've never seen petunia hanging baskets like these, each Shock Wave plant is blanketed with masses of color from the amazing number of petite, high-impact flowers. Variable purple-blue and white bicolor pattern is appealing to consumers. Pattern changes based on temperature and light levels.

## GLECHOMA

### DAPPLED LIGHT NEW!

This is another plant that Plug Connection was able to acquire stock plants on. This unique creeping Charlie has a "dappled" pattern of chartreuse, green and cream. Excellent for mixed containers. Available in 102 cell liners.

## HELIANTHUS

### SUNFINITY™ YELLOW DARK CENTER

Top Seller! A free branching Sunflower that produces showy blooms all summer long. Plug Connection offer 4 years expertise producing 72 cell liners with the recommended protocols for you to have success.

## OCIMUM

### BALSAMIC BLOOMS NEW!

A Texas Superstar® that is completely edible. Unlike most Basil, this one produces ornamental flowers that can be eaten. It also performs in the harshest conditions. Available as a 102 liner.

## PENNISETUM

### BLACK STOCKINGS NEW!

A vigorous broad leaf pennisetum with Dark foliage. Plug Connection has brought this Texas Superstar® back to the market. Available as a 50 cell liner.

## VEGETABLE COMBO

### KETCHUP 'N' FRIES™

Top Seller! Our grafted innovation that gives you Sweet cherry tomatoes in the summer (Sweet Million) and up to 4 lbs of Potatoes in the Fall. That's correct, there are tomatoes on top, and potatoes on the bottom! Excellent novelty, branded containers are available. Liners available in 102 cell. Purchase along with our Mighty 'Mato™ program.

## BEGONIA interspecific

### TOPHAT™

The biggest blooms and fastest finish put Tophat™ ahead of the pack. Finishes at least one week earlier than the leading competitors. Largest blooms in its class. Bred for versatility, Tophat™ is easy to finish in 306 packs up to large patio containers. The only White in its class; Pink and Scarlet also available.

## GERBERA jamesonii

### CARTWHEEL®

Large, semi-double blooms come in distinctive designer hues. Multi-blooming, vigorous plants are ideal for larger premium pot programs. Superior shelf life compared to the competition, with reduced leaf stretch or yellowing and longer flower life. Seed-produced plants are an efficient and cost-effective alternative to tissue culture liners. Available in three colors and one mix.

## IMPATIENS walleriana

### IMARA™ XDR

The first Impatiens walleriana with resistance to downy mildew. Proven landscape performance and with reliable flowering all season long. Bolster your impatiens sales with this easy and economical series, bred for high density growing in packs and pots. Available in six colors.

## PENTAS

### BEEBRIGHT™

Fastest finish for packs and small pots, about one week faster than the competition. Tight uniformity and consistent compact habit across all colors. Extremely free flowering with fast flower follow up in the greenhouse and the garden. Available in five distinct colors including best-in-class BeeBright Red. Available in five colors and a mix.

## VINCA Catharanthus roseus / upright

### CORA® XDR

The vinca that fights back. Reduced Risk: offers season-long flowering and survival in landscape plantings. Highly resistant to ten of the most virulent isolates of Phytophthora nicotianae that cause Phytophthora blight on annual vinca. Easier to grow, improved branching, uniformity, and free-flowering ideal for premium packs and small to larger pots. High consumer appeal: large showy flowers in the widest range of solid and high demand bicolor patterns of any disease resistant vinca on the market. Available in 11 colors a mix.

Cyclamen Halios Litchi Rose

Cyclamen Tianis Success Mix

Cyclamen Metalis Mix

**New!** Gerbera ColorBloom Mix

Ranunculus Maché Lemon Rose Bicolor

Ranunculus Magic Purple

## CYCLAMEN standard

### HALIOS LITCHI ROSE **NEW!**

A new Halios addition expands the range of this florist-quality, large-flowered series. The new Litchi Rose features rose-toned flowers with a lighter pink edge that contrasts nicely with the foliage. Long-lasting, abundant flowers on large plants that are suitable for 6-8" pots.

*intermediate*

### METALIS MIX

Metalis is a new midi silverleaf series that brightens any room. Metalis cyclamen can also be planted outside in an area sheltered from direct sun. Uniform mix consists of 6 colors: Bright Purple, Magenta, Red, Rose, Salmon and White. Perfect for 4-5" pots.

*intermediate*

### TIANIS SUCCESS MIX

Tianis produces an abundance of long-lasting flowers on compact, uniform plants. Great for outdoor plantings. The new Success Mix provides synchronized flowering across all 7 colors: Deep Magenta, Deep Rose, Deep Salmon, Purple, Rose, Scarlet Red and White. Nice in 4-5" pots.

## GERBERA

### COLORBLOOM **NEW COLORS!**

ColorBloom is a very uniform series with a short flower window. This series is around 10 days faster to flower than comparable series. Plants stay compact so the foliage doesn't get too leafy, allowing the colorful blooms to show through. Improved for 2021 to include all varieties in the series including two new colors and a mix. Perfect for 4" or quart pots. **New colors:** Red w/ Dark Eye, White w/ Dark Eye and Mix.

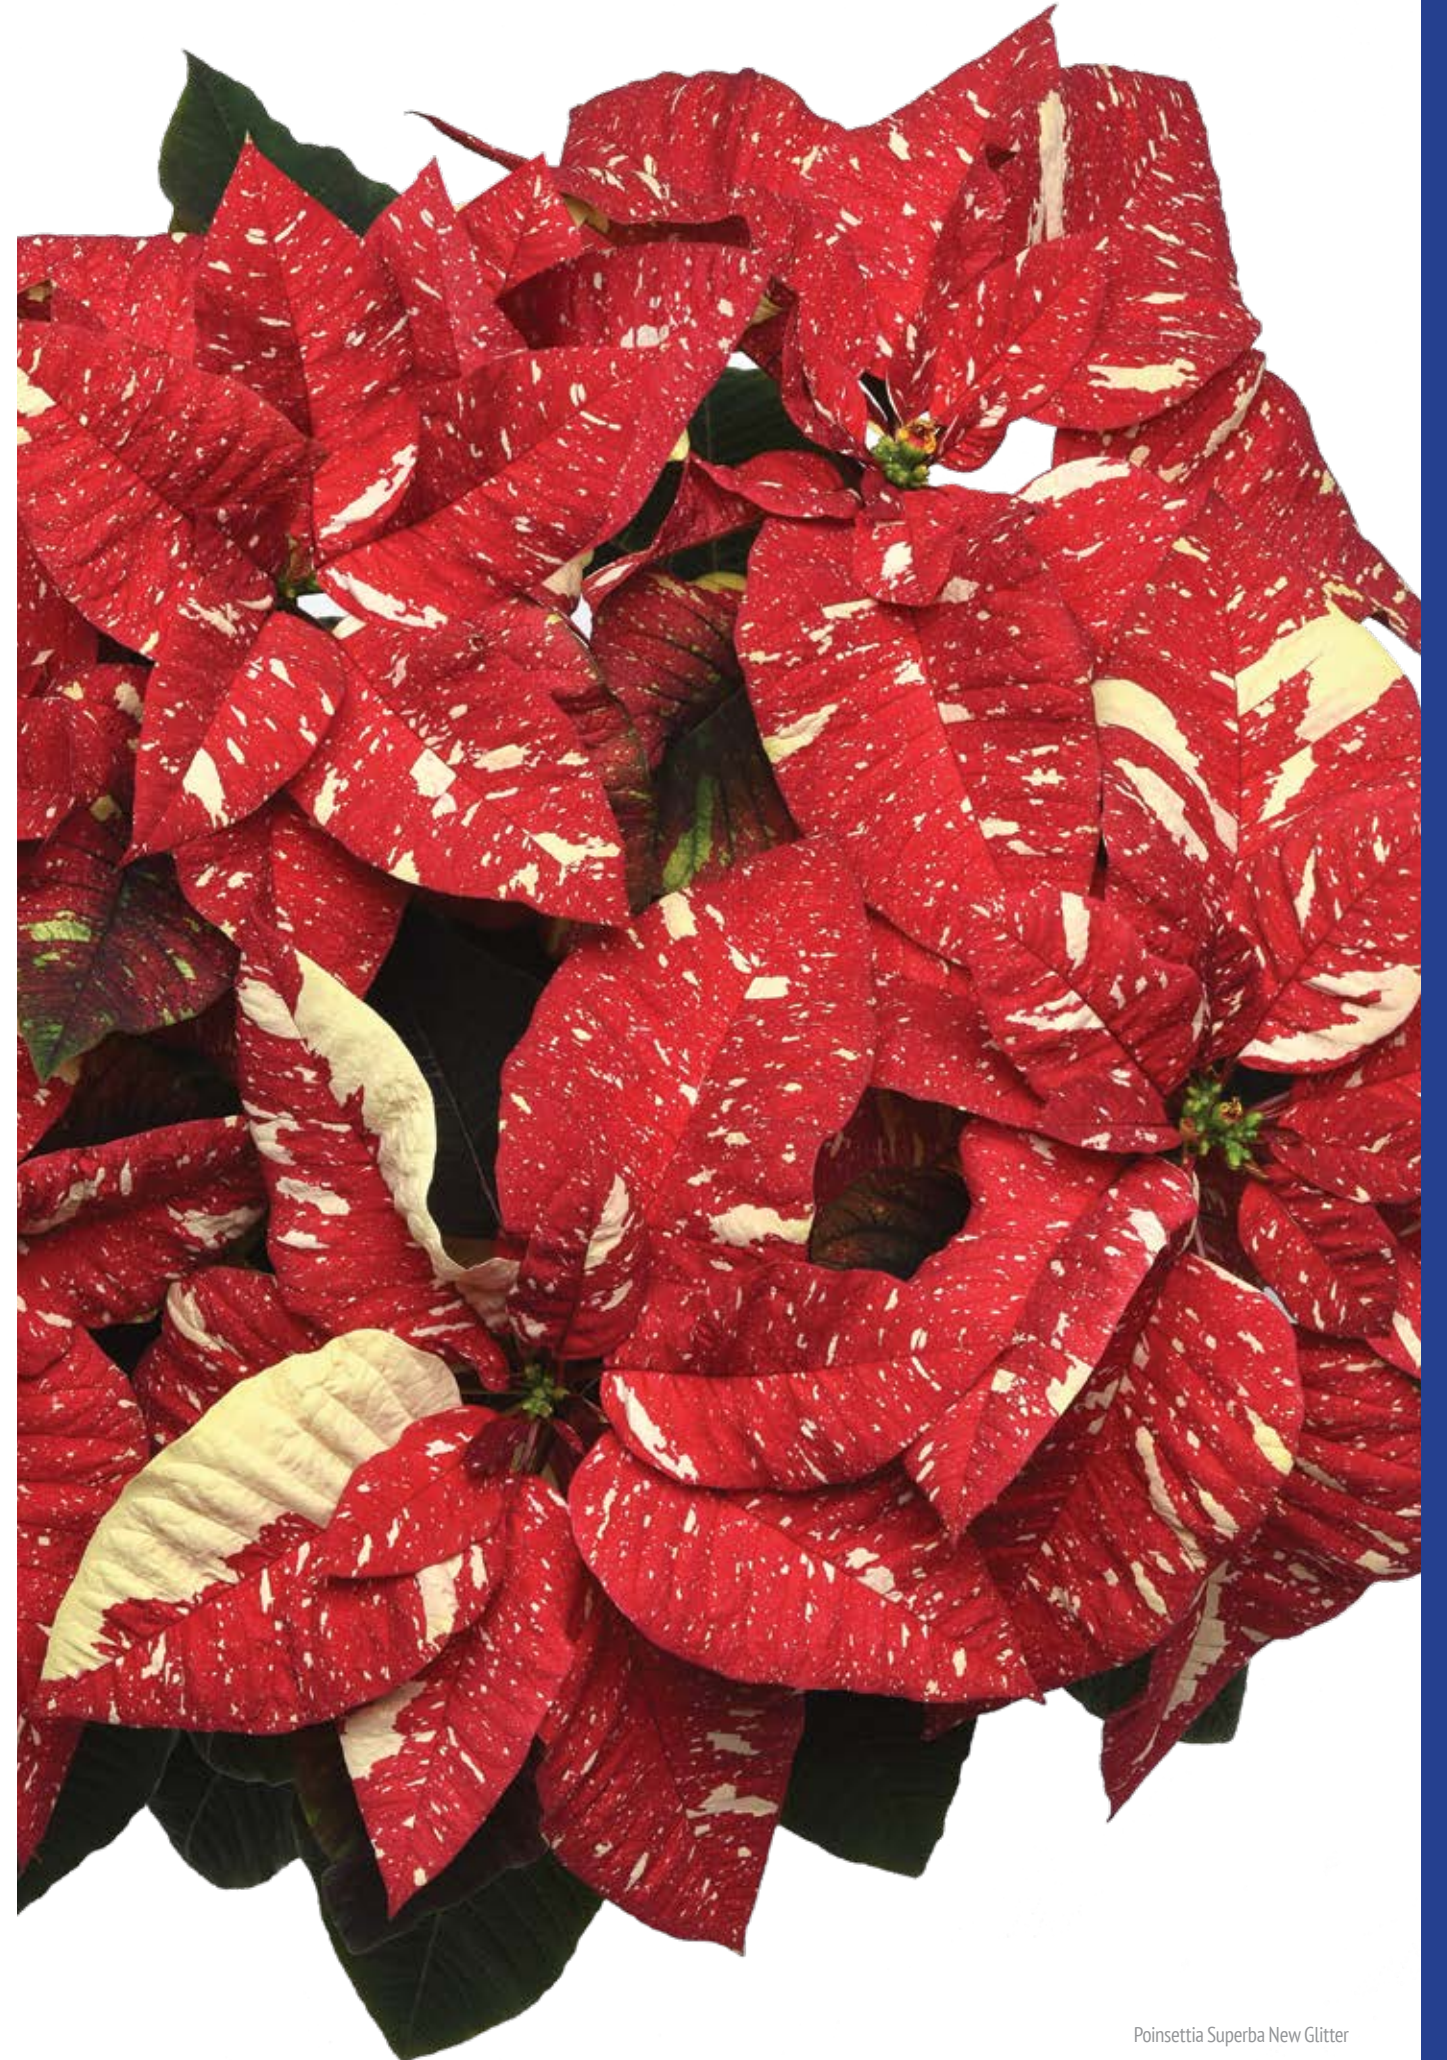

## RANUNCULUS

### MACHÉ LEMON ROSE BICOLOR

Maché is a vigorous, strong-stemmed series with large flowers. Beautiful fully-double, rose-like flowers make ranunculus the perfect retail impulse item. The new Lemon Rose Bicolor features petals in striking shades of yellow with rose pink edges. Suitable for 4" pots.

### MAGIC PURPLE

Magic has a naturally compact habit with no PGRs needed. The new Purple is a rich violet purple color that creates a stunning rose-like appearance as the flowers open. Suitable for 4" pots.

New! Poinsettia Imperial

New! Poinsettia J'Adore Dark Pink

New! Poinsettia J'Adore Soft Pink

New! Poinsettia J'Adore White Pearl

## POINSETTIA

### CANDY CANE NEW!

This red and white jingle bicolor variety is stunning with big cyathia and large, star shaped bracts. The strong stems and medium vigor make it suitable for mini up to 10" production. A complement to Red Glitter, it is half a week earlier and slightly less vigorous for early premium promotions. The earlier response time will help it fly off the production floor while the amazing color will help it sell through at retail.

### EARLY POLLY'S PINK NEW!

An alternative to the current hot pink variety, Polly's Pink, is one week earlier and retains the same hot pink hue with similar high vigor. Early Polly's Pink is vigorous but is responsive to PGR treatments for height control. The large cyathia with bright, hot pink bracts against dark green foliage make this a fantastic pink variety.

### FROZEN NEW!

One of cleanest whites to join the assortment. It is a mid-season variety with an 8 week response time that can easily time well for peak early December sales. Amazing V-shape architecture that branches very readily with crisp white bracts makes this a great white variety for consumer satisfaction. Its medium-vigorous habit makes it ideal for medium and large containers.

### IMPERIAL NEW!

A new mid-season red; the bright scarlet color paired with full florist bract against dark green foliage was a standout at multiple trials over the past two years. The 8 week response time with medium-high vigor makes it ideal for late November to early December sales. The strong V-shape architect is great for high density planting; ideal for cold finishing or northern production. The long-lasting cyathia offers great shelf life.

### J'ADORE NEW COLORS!

A Euphorbia hybrid series created from the popular J'Adore Pink. The unique bract shape provides full coverage of the canopy with distinct color. Their medium vigor allows for versatility for all container sizes from minis to tabletop planters. Also suitable for combination mixes. **New colors:** White Pearl, Soft Pink and Dark Pink.

## POINSETTIA

### ALASKA NEW!

Brightest, whitest poinsettia on the market with an ideal mid-season finish. Features attractive oak-shaped leaves and bracts. Good post-harvest performance works well in normal and cool-finish regimes.

### ALPINA NEW!

As one of the whitest poinsettias on the market, Alpina provide early-season color ideal for week 47 sales. Medium vigor works well in many pot sizes.

### CHRISTMAS ANGEL NEW!

Earliest poinsettia in the Selecta One lineup, with non-fading, deep red color. Its medium-high vigor makes Angel perfect for early, medium and large pots. Excellent cyathia retention for the best holding of any very early poinsettia.

### CHRISTMAS BELLS NEW!

Mid-to-late season poinsettia for all regions. Rich, deep red-colored bracts. Very strong, upright, V-shaped habit. Best late-season choice for northern growers, with an excellent post-harvest performance.

### HOLLY BERRY NEW!

Strong, oak-bracted, red novelty poinsettia. Its low vigor and superior branching make it ideal for small pots and dish gardens. Suitable for high-density production of smaller pots.

### SUPERBA NEW GLITTER NEW!

The new first choice for glitter novelties is here! Superba New Glitter is a medium-vigor poinsettia with large, showy bracts. Mid-season timing makes Superba a superior choice among glitter varieties on the market.

**POINSETTIA**

**ALASKA NEW!**

Setting the new standard for white poinsettias, Alaska's vibrant pure white bracts are in a class of their own. This vigorous variety is ideal for medium to large containers and mid- to late-season sales.

**ALLEGRA™ EARLY RED NEW!**

A great red for early-season sales with medium vigor and round habits. Recommended for container sizes up to 6 inches.

**ALPINA NEW!**

Alpina has the same pure white bract color as Alaska, but with less vigor, larger bracts, and earlier finishing. It is suitable for all pot sizes and is perfect for early- to mid-season sales.

**CANDY™ BUBBLEGUM NEW!**

Bright, hot pink bracts liven up the novelty category and is perfect for those who want something different. This variety is easy to grow for the early- to mid-season and is a great choice for painting and glittering.

**CARINA™ HOT PINK NEW!**

A compact, early-season variety with vibrant, hot pink bracts. Strong stems and V-shaped habit makes Carina ideal for high-density production.

**FUTURA™ RED NEW!**

A standout variety for early- to mid-season sales with large, smooth red bracts. Compact to medium habit is perfect for small to mid-sized containers.

**MIRAGE™ RED NEW!**

Vibrant red bracts with long-lasting cyathia make this award-winning variety a sure bet for Black Friday! A compact to medium habit is ideal for 4 to 6 inch pots and space-efficient production.

**SUPERBA™ NEW GLITTER NEW!**

A unique novelty variety with attractive jingle-colored bracts and early to mid-season timing. This variety is suitable in all pot sizes with excellent shelf life.

Basil Purple Ball

## BASIL *Ocimum basilicum*

### PURPLE BALL

This unique, very aromatic basil is densely packed with tiny leaves of the deepest purple color, creating a striking, ball-shaped plant. No need to pinch. The tubular flowers are late to appear and add extra color to the plant. Purple Ball performs very well under sunny and warm weather conditions and is drought resistant. The eye-catching purple foliage with some green accents is a stunning filler for window boxes, mixed containers and borders. Plant height 8-12", diameter 10-14" and spread 12". A Fleuroselect Gold Medal award winning variety bred by Dr Zoltan Kovacs from the NARIC Fruitculture Institute, Budapest. Hem Genetics is appointed by NARIC as the exclusive producer and wholesale distributor for Purple Ball.

## CELOSIA *argentea*

### ARRABONA RED

A striking orange-red beauty with an outstanding garden performance and an exceptionally long flowering season. It's tolerant to drought, loves the heat and is therefore excellent for tropical, subtropical and continental climates. Compact, sturdy and well-branched, this low maintenance plant is an excellent choice for parks and landscaping. Flowering time is from spring through late summer. Suited for pot size 4-5", height 14-16", spread 10-14". A Fleuroselect Gold Medal award winning variety bred by Dr Zoltan Kovacs from the NARIC Fruitculture Institute, Budapest. Hem Genetics is appointed by NARIC as the exclusive producer and wholesale distributor.

Celosia Arrabona Red

Lavandula Torch Minty Ice

## LAVANDULA *multifida*

### TORCH MINTY ICE

This Lavender is different in a number of ways from typical Lavenders, in that it is a very quick crop from seed – it will finish in a gallon, or 6" pot in only 15-16 weeks from sowing, and needs no vernalization to flower. It has finely divided, bipinnate leaves of gray-green color, which have the scent of Oregano – not Lavender! Torch Minty Ice has flowers of the palest blue, a good complement to its sister variety Torch Blue. These Lavandula multifidas are perennial, but not quite as hardy as other Lavenders, reliable from USDA Zone 7-11. They will take warmer summers than most other Lavandula species. Ideal for perennial gardens, but also for container use for a taller accent plant that provides texture and scent to mixed containers. Torch Lavenders grow to a height of 30-34" with a mature plant width of 20-24".

Petunia Limbo GP Blue Picotee

## PETUNIA *grandiflora*

### LIMBO GP BLUE PICOTEE

Added to our popular series of genetically compact Limbo GP series of grandiflora Petunias, Blue Picotee is the fifth picoteed color in the series. Flowers are a rich deep velvety blue with a sharp ring of pure white around the edge of the blooms. It pairs well with the other four Picotee colors in the series, Red, Rose, Purple and Violet, all with identical compact habits. Part of our Low Grow™ group of plant products, all of the Petunia Limbo GP varieties grow to a height of 5-8" and a plant width of 8-10" with no PGR normally needed.

## SNAPDRAGON

### F1 SNAPPY™ CHERRY + PINK + ROSE BICOLOR

A new color addition to our highly rated F1 Snappy™ series of Dwarf Snapdragons, Cherry is a beautiful bold Cerise-Red color that you cannot miss in the landscape. The throat of each bloom is white which really helps set off the flowers. Snappy Pink has soft light pink flower borne in profusion on the plants. Each flower has a spot of yellow on the top of the lip. Rose Bicolor has magenta rose petals, a white and magenta lip with yellow highlights, and a white throat. Snappy grows to a height of 8-10" and 12" wide, and produce flowers all season long. In a testing of all series of dwarf Snapdragons, the Dallas Arboretum found Snappy to be the best in overall performance.

Snapdragon F1 Snappy™ Cherry Rose

Snapdragon F1 Snappy™ Pink

Snapdragon F1 Snappy™ Rose & White Bicolor

## VINCA

### F1 SOLAR AVALANCHE CHERRY BRILLIANT EYE **NEW!**

The latest addition to our F1 Solar Avalanche series of trailing Vinca, Cherry Brilliant Eye is a knockout in color! We showed this as an experimental at the 2019 California Spring Trials and virtually every visitor commented on the variety and flower color. The flower color is a bright, bold cerise-red enhanced by a very large white center, the contrast is truly eye-catching. The Vinca F1 Solar Avalanche Series, now consists of 9 separate colors, and is an excellent choice for hanging baskets and containers. They perform very well throughout extreme hot and humid conditions and produce large flowers with overlapping petals. In the ground, they will get to a height of 8-12" with a plant width of 18-22".

**SOL™ GEKKO + LIZZARD NEW!**

A fantastic new foliage celosia with two distinct bicolor foliage patterns. It has relatively fast production time and no downy mildew issues. It holds well at retail and expands the options for consumers looking for sun-loving foliage accent plants for patio planters with a different texture and look, as well as for quick-growing, low, shrub-like plants that look great at the front of the border.

**IMPATIENS** (*walleriana*)

**BEACON® NEW COLORS!**

High resistance to Impatiens downy mildew! Bring Impatiens walleriana back into production without the risk of disease! Beacon impatiens provide high resistance to the currently known and widely prevalent populations of Plasmopara obducens. For lasting color, you can rely on Beacon impatiens to thrive. **New colors:** Bright Red, Coral, Orange, Salmon Shades, Violet Shades, White, Red White Mix, and Select Mix!

**PETUNIA** (*x hybrida*)

**EASY WAVE® + SHOCK WAVE® NEW!**

25<sup>th</sup> Anniversary of the 'Authentic Trailing Petunia'. Wave has set the standard for petunia landscape performance and continues to transform gardens around the globe. Pro landscapers and home gardeners alike choose low-growing, wide-spreading Wave varieties for every sunny setting: gardens, baskets, large color bowls and more. **New colors:** Easy Wave® Beachcomber Mix Imp, Easy Wave® Rose Fusion, and Shock Wave® Purple Tie Dye.

**VINCA** (*catharanthus roseus*)

**TATTOO™ BLUEBERRY + AMERICAN PIE MIX NEW!**

The art of plants comes alive on every Tattoo™ bloom – each petal looks like it is inked or airbrushed with soft brush strokes of dark purple. Adding these novelties to your lineup shows that you have your finger on the pulse of what today's gardener really wants: bold, fun, head-turning. Tattoo...without a doubt, the most unique vinca on the market today! More colors: Black Cherry, Papaya, and Raspberry.

# BACKYARD OASIS

## SOL™ FOLIAGE CELOSIA

Distinctive colors and textures create striking Summer planters! The newest plants in our Fantastic Foliage® collection, **Sol™ Foliage Celosia** features two varieties with big, color-changing leaves showing shades of green and burgundy, like the sun-loving creatures they are named after.

Get the Summer foliage superstar for adding heat-loving texture in planters and the front of the border.

### VIKING

**New in 2019!** Viking – the conquering garden performer. Discover high impact color with this all-weather begonia! The massive color is ideal for landscapes and containers. The large plants are loaded with flowers and are available in green, bronze and deep chocolate leaf colors – no other series in this class offers chocolate! Height 20-24"; width 24-28". Crop time 15 - 20 weeks. Viking includes eight bold colors!

### VIKING XL

**New in 2019!** X-large and in charge! Use this giant all-weather begonia series where fast-growing massive color is essential. Great for extra-large landscapes and containers. Viking XL offers four colors, including AAS awarded XL Red on Chocolate. Available in green and chocolate leaf colors – no other begonia series in this class offers chocolate! Height 28-34", width 32-36". Crop time 18 - 21 weeks.

## CELOSIA *argentea plumosa*

### DRAGONS BREATH **NEW!**

The industry cannot get enough of the unique green-red foliage and blazing-red, long-lasting flowers of Dragon's Breath Red celosia. Growers like that Dragon's Breath is quick, easy and economical to produce (for spring or fall) with minimal need for PGRs and fertilizer. Retailers like it for its long shelf life and adaptability—Dragon's Breath is great in containers, beds and large landscapes. Dragon's Breath exhibits even more red foliage and flowers under adverse garden conditions like heat, humidity and infrequent watering. Height 24"; width 16". Crop time 4 - 5 months for full flower plume development.

## GERBERA *jamesonii*

### MAJORETTE **NEW COLORS!**

Majorette is very uniform and perfect for quarts and larger containers with multiple plants. Abundant stems and long-lasting large flowers make for irresistible retail appeal. Gardeners LOVE daisies! Available as Slick Coat for streamlined sowing and singulation. Available in seven gorgeous colors. **New colors:** Pink Halo Imp & Yellow w/Dark Eye Imp

## PANSY *F1 Viola / x wittrockiana*

### MAJESTIC GIANTS II

**NEW COLORS!** Sakata's well-known Majestic Giants II extra-large flowered pansies have long been the preferred choice for fall and spring markets. This pansy series maintains its huge flower size of 4-in. blooms under warm conditions with excellent overwintering and rebloom in the spring. Superior lateral branching of Majestic Giants II fills pots and packs quickly, while bud and bloom are present at first flush so color is continuous through the entire distribution channel. The brand name recognition of Majestic Giants II at the retail and consumer level is unparalleled. Height 8"; width 6". Crop time fall to spring 11 - 12 Weeks. **New colors:** Clear White Improved & White with Blotch Improved

## VINCA *catharanthus roseus*

### VIRTUOSA **NEW COLORS!**

Virtuosa is a new vinca series from Sakata with a compact and uniform habit and good basal branching in pots. It performs well in the garden, even under extreme conditions, including warm and humid to cool with low light. Height 12-14"; width 12-16". Crop time spring to summer 8-11 Weeks. **New colors:** Cranberry, Deep Red, Lavender, Polka Dot, Deep Purple, Punch, Rose, and White.

## ZINNIA *hybrid*

### PROFUSION RED

**AAS Winner!** Profusion is the go-to zinnia series for disease resistance and uniformity. Profusion is an outstanding performer in the greenhouse, at retail in containers and in the garden. Extremely heat and drought resistant, it is an excellent choice for the landscape as well. Mix any of the colors, including singles and doubles, in packs or pots for added interest. Compact habit and flower quality combined with vigor and exceptional disease resistance contribute to Profusion's excellent performance and habit in all climates.

### F1 FIONA PINK + WHITE **NEW!**

Excellent uniformity in strong, upright, semi-double type Begonia *semperflorens*. Early flowering habit is same as standard single varieties. Plants are self-cleaning and provide continuous color throughout the summer until first frost; exceptional container performance. Also in the in series \*Red and Rose. Height 8-10"; germination 7-10 days. *Fiona Red*: 2018 *Fleuroselect* Gold Medal winner.

## DELPHINIUM *grandiflorum*

### JENNY PEARL BLUE + PEARL PINK **NEW!**

The Centurion series produces gorgeous flower spikes which make an impressive accent in large flower arrangements. It is also suitable for the garden. Stable flower color during high temperature condition. Jenny is great for both pot and cut flower production. Height 20-28". Available in Lavender, Rose, \*Sky Blue and White. \**Fleuroselect* winner.

## DIGITALIS *grandiflorum*

### F1 PANTHER

**New in 2019!** A performance power house. First year flowering, plants are quick to flower and compact for efficient shipping. Heavily branching plants produce multiple spikes at one time without a pinch. Flowers are sterile which make them long lasting. In addition to its superior flower quality, Panther's foliage is small creating a perfectly balanced plant. The overall impression roars premium plant that consumers will pounce on.

## HELIANTHUS *annuus*

### F1 SUNRICH ORANGE SUMMER DMR **NEW!**

Sunrich Orange DMR (Downy Mildew Resistant) is the first downy mildew highly-resistant ornamental Helianthus variety. It is resistant to multiple strains of downy mildew (*plasmopara halstedii*). Plant height, growing speed, as well as flower shape and color are similar to Sunrich Orange. The Sunrich series has superb quality, one of many features that help keep its leading status in the world Helianthus market. Sunrich flowers are pollenless, long lasting, densely petaled and upright facing on strong stems. Plant height is 35-59". Six other colors are available in the Sunrich series.

## PETUNIA *hybrida*

### F1 TRILOGY™ PINK LIPS **NEW!**

An F1 hybrid Petunia bred to help the grower, retailer and consumer. It requires less growth regulators, lasts longer on the retailer shelf display and performs in the garden with minimal care. A multiflora Petunia with a novel dome habit, flowers prolifically on compact spreading plants. Uniformity across all colors, a controlled habit for less tangling, and less day length sensitivity than other spreading Petunias. Height 10-12", spread 24-30". New colors in 2019: Lime and Purple Vein.

### F1 OPERA SUPREME LEMON **NEW!**

Opera Supreme Lemon, features a magnificent 36 inch spread while maintaining a low habit, no more than 10 inches in height. Plants flower from the center out so the plant is full of color from center to tip. Bred to have tight internodes, each branch is packed with flowers that have excellent rain recovery. Lemon is an exciting new color joining the 11 other varieties in the Opera Supreme series.

## SNAPDRAGON

### STATEMENT **NEW!**

Antirrhinum F1 Statement is a new dwarf series. It has excellent basal branching and features very large flowers on compact plants. **Colors:** Pink, Rose, Scarlet, White, and Yellow.

## ZINNIA *elegans*

### F1 PRECIOSA™ **NEW!**

Zinnia F1 Preciosa™ is a series with more. It is more compact, has more branching and the flowers are more double than our Dreamland series. Just like Dreamland, Preciosa™ is available in a true red. The amount of color produced by each plant adds a vibrant element to containers and gardens. **Colors:** Light Yellow, Pink, Red, Rose, Scarlet, White, Yellow, Mix, Tropical Blend Mix

## CARROT

### ORANGEBLAZE NEW!

Orangeblaze has demonstrated adaptability in muck, mineral and deep peat based soils in Ontario and Quebec, and equally good quality in the Northeast carrot market. Orangeblaze also makes a smooth, cylindrical high quality root on sandy grounds and other soil types in the Midwest States.

NEW! Carrot Orangeblaze

## ONION

### RED NUGENT NEW!

Red Nugent is a red hybrid with high yield potential that is highly adaptable for diverse soil types. It is larger in size and performs better than many other 105-day varieties, including Red Bull.

NEW! Onion Red Nugent

## PEPPER, HABANERO

### ROULETTE NEW!

Take a chance on a different kind of habanero. With all the aromatic qualities of a traditional habanero, Roulette has almost none of the heat. Mildly pungent and smoky, Roulette produces fruit with about 100 Scoville units, making it a welcome addition to mild salsas with extra character. You're a winner every time with Roulette.

NEW! Habanero Pepper Roulette

## PEPPER, SWEET MINI

### JUST SWEET NEW!

Just Sweet is one of a kind. This sweet mini pepper has a lively yellow color and crispy yet delicate skin. The flavor is sweet and tart, making a great tasting experience. Enjoy it raw off the plant or cut into salads!

NEW! Sweet Mini Pepper Just Sweet

## TOMATO

### JAMESTOWN NEW!

Jamestown is a robust tomato plant with good heat set ability. Cook it into your favorite sauce. Growers will also appreciate the high yield potential and deep red color.

NEW! Tomato Jamestown

## TOMATO, HEIRLOOM *hybrid*

### PURPLE BOY

A unique heirloom-like hybrid that offers something special to your garden. This beautiful purple tomato has the vigor and disease resistance package typically offered by a hybrid, but also comes with the rich, traditional flavor that you would expect out of heirloom types. It's a strong plant that produces ample fruit.

NEW! Tomato Heirloom Purple Boy

Turn your outdoor entertainment space into a vegetable garden! Vegetalis has a wide assortment of varieties and habits that makes them easy to incorporate into any patio setting. Patio vegetables have tidy habits, great flavor and high yields. Grow in containers combined with flowers – or on their own!

Basil Aristotle

Cucumber Petipikel

### BASIL *Greek type*

#### ARISTOTLE

Small, leaved, highly aromatic with a very neat rounded habit. Strong stems, late flowering and good tolerance to poor weather. Ideal for containers.

*Thai type*

#### FLORAL SPIRES LAVENDER + WHITE

Produces anise scented leaves are a great alternative to standard basil. Bred for its bloom, Floral Spires will not get bitter when blooming.

Basil Floral Spires Lavender

Eggplant Amethyst

### CUCUMBER *hybrid/slicer*

#### PETICUE

A short vined cucumber variety perfect for the patio. Short green fruits with good flavor and a slightly sweet taste. High yielding when regularly harvested.

*hybrid/pickling*

#### PETIPIKEL

Short vining/bush takes up 1/3 the space of standard cucumbers. Best harvested at 3-5" for pickling, though can be left on vine and harvested at 7" for fresh use.

### EGGPLANT *dwarf/compact*

#### AMETHYST

This compact, basal branching plant produces high yields of purple, egg sized fruit and virtually spineless leaves; weighing 2.75 to 3.5 ounces. Ideal for pots and containers as well as in rich and fertile borders with shelter. Few pests and disease problems but monitor the plants for build-up of aphids and whitefly.

#### PINSTRIFE

Unusual light purple fruits are streaked with white and produce virtually spineless leaves. Pinstripe is compact with a basal branching plant habit.

#### POT BLACK

Small 2-3 ounce patio grown fruit is ripe for the picking once it becomes as big as a ping pong ball and until it grows to the size of a tennis ball.

Cucumber Peticue

Eggplant Pinstripe

### OKRA *dwarf*

#### FRENCH QUARTER NEW!

A brand new Dwarf Okra series with Pink or Red fruits, and lemon colored flowers. Red has attractive dark red foliage and stems. This compact plant produces 3-5 Okra at a time and will continue to produce as picked. Fruit is best picked young. Habit is open and works well on its own or in a combination. Height 16-18"; spread 17". Matures 50-55 days. **Colors: Pink, Red**

#### GREEN FINGERS

Compact, spineless Okra with deep, glossy green leaves. A novel okra that starts producing fruit at 15" tall!

### PEPPER *hot edible/ornamental*

#### ALTER EGO

Naturally dwarf plant, upward facing fruit. Colorful fruit matures from light green, cream, light purple to bright red. It is both tangy sweet and hot in flavor. 30,000-40,000 Scoville units.

#### APACHE

Apache turns from green to bright red and fruits all summer long. Height 18". Fruit 2-3". 80,000 SHU.

#### ATOMIC

Dwarf habits producing upward facing fruit. Exceptional branching results in high yields. Has both ornamental and culinary appeal. Fruit are sun-tolerant. 90,000 Scoville units.

*hot edible/ornamental/semi-trailing*

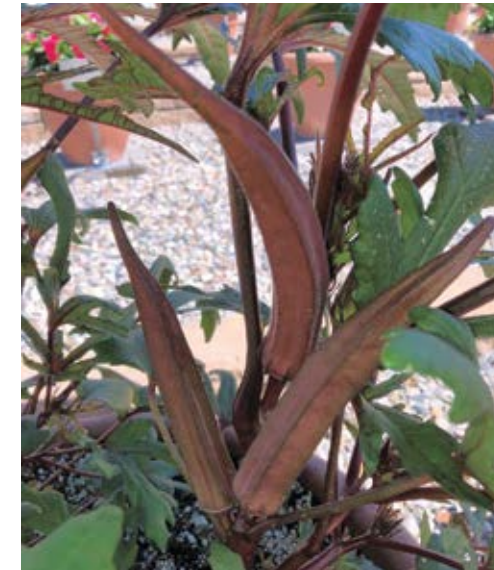

#### BASKET OF FIRE

A true hanging basket pepper with small leaves and a well rounded appearance! Branches cascade as they develop and new growth fills the top. Matures in 80 days and changes from cream to orange and finally to red as they ripen. 80,000 SHU.

*hot edible/ornamental/spreading*

#### CAYENNETTA

A cayenne type chili with a very neat, attractive habit and compact branching. Produces large crops of 4" bright red tapered fruits beneath the attractive leaf canopy. Mild fruit heat 20,000 SHU. **AAS Winner.**

Pepper Apache

Okra Green Fingers

Pepper Atomic

Pepper Basket of Fire

Pepper Chenzo

## PEPPER

*hot edible/ornamental*

### CHENZO

Compact and well branched, great in small spaces and containers. Beneath the foliage, multiple, long black peppers cascade and slowly mature to red. Ripens in 68 days. 45,000 Scoville heat units.

### CHEYENNE

A compact chili pepper, great for display or cooking. Masses of medium-sized orange fruit; perfect for a summer garden or patio and a good companion to Apache. Height 18". Fruit 4-5". 40,000 Scoville heat units.

### LOCO

Compact, low growing habit produces heavy yields of upward facing fruit. 24,000 Scoville units.

### LONGHORN

Vigorous, high yielding plants. Like its namesake cattle, the fruit exhibit a very long taper with a slight curl at the tip. 15-20,000 Scoville units.

*hybrid/sweet bell*

### LIBERTY BELLE **NEW!**

Naturally dwarf plants bear an abundance of very sweet bell peppers. Matures green to bright yellow.

### MOHAWK

A true bell pepper. Very early and high yielding on a compact, spreading plant. Great performance in packs or pots. Holds fruit well for a long shelf life. Height 12-16". Fruit 4-5".

### REDSKIN

A true dwarf bell pepper with medium sized fruit; great for cooking. Very early fruiting with excellent yield on a compact, upright plants. Ideal for pots or containers; matures to red. Height 12-16". Fruit 4-5".

## PHYSALIS *ground cherry*

### LITTLE LANTERNS

Compact umbrella shaped habit with stunning flowers, soon followed by delicious fruit. Ideal for hanging baskets.

Pepper Loco

Pepper Cayennetta (AAS Winner)

Pepper Cheyenne

Pepper Longhorn

## STRAWBERRY *Woodland/Alpine*

### MIGNONETTE

A woodland or alpine strawberry, renowned for its intense aroma and flavor. Known as an everbearing type, it produces fruits over a long harvest period. The small red fruits are attractive and hang down to form a cascading effect. Performs best if planted outdoors in a sheltered, sunny or partial shaded position and can provide fruit in early June from a March sowing. Ideal for pots, containers and hanging baskets. Height 10". Spread 16".

## TOMATO, BEEFSTEAK

*Beefsteak/Determinate*

### BIG LEAGUE

Very large true beefsteak fruits, 320g to 650g. Good flavor for a beefsteak, 6.5 brix rating. Semi-determinate habit, height approximately 3 feet and 5 to 7 fruits per truss.

## TOMATO, CHERRY

*Semi-determinate/trailing*

### CHERRY FOUNTAIN

Large, cherry sized fruit, cascades an abundance of fruit. Sweet 1.5 to 1.75 ounces of fruit ripens in 68-72 days. Great for baskets, window boxes and mixed combination pots.

*Determinate/Semi-trailing*

### PEARDROPS

Sweet tasting tomatoes with attractive, oval, golden yellow fruit. High yielding plants with a naturally trailing habit. Great in both baskets and containers. Meets the need for a deliciously sweet yellow grape tomato.

*Indeterminate*

### PINK CHARMER

Indeterminate habit, high yielding trusses, yielding, up to 40 fruits per truss. Deep rosy pink fruits 20 to 25 grams weight with very good flavor, and a 10 brix rating.

*Determinate/trailing*

### RED PROFUSION

Quick maturity makes it easy to finish for retail sales showing green fruit. Trailing, neat and tidy bushy habit is perfect for hanging gardens. Good weather tolerance.

**NEW!** Pepper Liberty Belle

Pepper Redskin

Physalis Little Lanterns

Pepper Mohawk

Strawberry Mignonette

Tomato Big League

Tomato Peardrops

## TOMATO, CHERRY

*Indeterminate*

### SUGARGLOSS

Excellent crack resistance and attractive, bright red glossy fruit make this one of the very best cherry tomatoes available. Indeterminate habit, yielding up to 60 fruits per truss. Very good flavor with a 12 brix rating and weighing 20 to 25 grams.

*Compact/Determinate*

### SWEET 'N' NEAT

A compact dwarf tomato plant that produces a strong upright plant 10-12" high. Tomato Sweet 'n' Neat bears a large crop of small, sweet cherry red fruits which will harvest over a long period throughout the summer months. Retail in 4-6" pots with green fruit 10 weeks from sowing. Available: Cherry Red, Scarlet, Yellow.

*Semi-determinate/trailing*

### TUMBLING TIGER

These unusual striped fruits have a very neat, dense, flat and basket hugging, trailing habit. A great companion to Tumbling Tom Red and Yellow.

### TUMBLING TOM YELLOW

A very high yielding tomato with a cascading, even-branching habit for ornamental container use; vines yield 15 gm/5 oz. fruit. With a sweet and delicious flavor, Tumbling Tom is a tasty addition to any dish.

Tomato Red Profusion

Tomato Cherry Fountain

Tomato Pink Charmer

Tomato Sugargloss

Tomato Sweet 'n' Neat Scarlet

## TOMATO, XL CHERRY

*Snacking/Compact/Determinate*

### SUMMERLAST **NEW!**

Dwarf patio tomato with Late Blight Resistance! Produces deliciously sweet cocktail sized fruit.

### TOTEM RED IMP

Sturdy, compact bush-type. Heavy cropping. Adaptable plant is strong and robust but will require some support when loaded with fruit.

## TOMATO, TRAILING

*Vigorous trailing/Determinate*

### RAMBLING RED STRIPE

A cascading basket type, up to 2 feet, with unusual striped fruit and a rambling habit: great for hanging baskets. Blossoms and fruit develop on the vine at the same time or continuous production. The attractive fruit has a good flavor balance of acidity and sweetness.

## USDA PLANT HARDINESS ZONE MAP

THIS MAP IS THE STANDARD BY WHICH GARDENERS AND GROWERS CAN DETERMINE WHICH PLANTS ARE MOST LIKELY TO THRIVE AT A LOCATION. THE MAP IS BASED ON THE AVERAGE ANNUAL MINIMUM WINTER TEMPERATURE, DIVIDED INTO 10-DEGREE F ZONES.

### PAYMENT TERMS

Customers with an established charge account must make payment within 30 days of the invoice date. Customers without an established charge account must remit a payment in advance. Customers with a Prepay account must place orders exceeding \$1,000.

### PRICES

Varieties are sold by seed count. Prices are listed in dollars per 1,000 seed (\$/M). NOTE: Prices are subject to change without notice.

### MINIMUM ORDERS

The minimum seed order is \$100 when shipped in the U.S. and Puerto Rico. Below minimum orders are subject to a \$10 handling fee plus freight charges. Orders below \$10 cannot be processed and will not ship.

### MINIMUM QUANTITIES

The minimum quantity for each seed item is listed at [www.michells.com](http://www.michells.com) and on the Seed Order Form. Orders for below-minimum quantities are prohibited. Seed is sold in (integer) multiples of the minimum quantity ONLY. For example, if the minimum quantity is 500 seeds, then the order quantity must be 500 or 1,000 or 1,500, etc.

### FREIGHT

Shipping charges are invoiced for all below minimum orders. All seed orders under \$200.00 will be shipped by US. Mail. FedEx Ground shipping will be no charge to the customers who are pricing volume P1 through P5 on orders exceeding \$300.00. Customers who have pricing volume P6 or P7 will not be charge Fedex Ground on orders exceeding \$400.00. Customers who have a pricing volume of P8 will not be charged Fedex ground on orders exceeding \$600.00. Freight charges are also imposed whenever overnight, next day or second day delivery is requested, or when the package weight exceeds 5 pounds. Items drop shipped from original orders are subject to shipping charges from the vendors. All Michell's shipments require a signature from a person's 18 years or older to receive the package.

### PACKAGING

Seed is available in the following package sizes: 0.5M, 1M, 5M, 10M, 25M or BULK (where M = 1,000 seed). Michell's reserves the right to fulfill seed orders using whatever packages are on hand. Requests for multiple packages incur a fee of \$1.00 per package. For example, a seed order for 5M in 1M packages would be charged and extra \$4.00 (one dollar for each extra package).

### SEED FORM

Many seed varieties are sold in more than one form. Most seed is sold in its natural (RAW) state. Other forms include: coated (CTD), de-tailed (DET), multi-pellet (MPL), pelletized (PEL), precision multi-pellet (PMPL), and primed (PRI).
