## CONSERVATION CODES FOR WESTERN AUSTRALIAN FLORA

may also be referred to as Declared Rare Flora).

have been gazetted as such.

The assessment of the conservation status of these species is based on their national extent.

(which may also be referred to as Declared Rare Flora). Species\* which have been adequately searched for and there is no reasonable doubt that the last individual has died, and have been gazetted as such.

Threatened flora are ranked according to their level of threat using IUCN Red List categories and criteria. For example *Acacia splendens* is specially protected as Declared Rare Flora under the Wildlife Conservation Act 1950 and is a threatened species with a ranking of Critically Endangered.

### **Ranking:**

CR: Critically Endangered - considered to be facing an extremely high risk of extinction in the wild.

EN: Endangered – considered to be facing a very high risk of extinction in the wild.

VU: Vulnerable - considered to be facing a high risk of extinction in the wild.

animals/threatened-species-and-communities/.

(Rare Flora) Notice, are added to the Priority Flora List under Priorities 1, 2 or 3. These three categories are ranked in order of priority for survey and evaluation of conservation status, so that consideration can be given to their declaration as threatened flora. Species that are adequately known and are rare but not threatened, or meet criteria for near threatened, or that have been recently removed from the threatened list for other than taxonomic reasons, are placed in Priority 4. These

into adjacent States, as defined by the known spread of locations.

### **1: Priority One: Poorly-known species**

managed for conservation, e.g. agricultural or pastoral lands, urban areas, road and rail reserves, gravel reserves and active mineral leases; or otherwise under threat of habitat destruction or degradation. Species may be included if they are comparatively well known from one or more locations, but do not meet adequacy of survey requirements and appear to be under immediate threat from known threatening processes. Such species are in urgent need of further survey.

### **2: Priority Two: Poorly-known species**

parks, conservation parks, nature reserves and other lands with secure tenure being managed for conservation. Species may be included if they are comparatively well known from one or more locations, but do not meet adequacy of survey requirements and appear to be under threat from known threatening processes. Such species are in urgent need of further survey.

### **3: Priority Three: Poorly-known species**

population size or significant remaining areas of apparently suitable habitat, much of it not under imminent threat. Species may be included if they are comparatively well known from several locations, but do not meet adequacy of survey requirements and known threatening processes exist that could affect them. Such species are in need of further survey.

### **4: Priority Four: Rare, Near Threatened and other species in need of monitoring**

(a) Rare. Species that are considered to have been adequately surveyed, or for which sufficient knowledge is available, and that are considered not currently threatened or in need of special protection, but could be if present circumstances change. These species are usually represented on conservation lands. qualifying for Vulnerable.

(c) Species that have been removed from the list of threatened species during the past five years for reasons other than taxonomy.

The conservation codes for Western Australian flora and fauna can be downloaded from the Department's website at:

<http://www.dpaw.wa.gov.au/plants-and-animals/threatened-species-and-communities/listing>

variety or forma).

## KEY TO CODES USED IN LIST

<b>STATUS</b>	Conservation status of taxon - refer to definitions.	
T	Threatened Flora (Declared Rare Flora - Extant)	
X	Presumed Extinct (Declared Rare Flora - Extinct)	
1	Priority One - Poorly known Species	
2	Priority Two - Poorly known Species	
3	Priority Three - Poorly known Species	
4	Priority Four - Rare, Near Threatened and other species in need of monitoring	

<b>RANK</b>	The threat category the taxon is recognised as in Western Australia (see definitions)	
CR	Critically Endangered	
EN	Endangered	
VU	Vulnerable	
EX	Extinct	

**CRITERIA** The criteria that the taxon meets to be listed under the category of threat. Categories and criteria follow IUCN guidelines.  
<http://www.iucnredlist.org/technical-documents/categories-and-criteria>

**EPBC** The category that the taxon is listed under the Commonwealth's Environmental Protection and Biodiversity Conservation Act 1999. Note this list is maintained by the Commonwealth and the official list should be sourced at the Commonwealth's website  
<http://www.environment.gov.au/cgi-bin/sprat/public/publicthreatenedlist.pl?wanted=flora>

CR	Critically Endangered
E	Endangered
V	Vulnerable
X	Extinct

### DPaW REGION

GOLD	Goldfields
KIMB	Kimberley
MWST	Midwest
PILB	Pilbara
SCST	South Coast
SWST	South West
SWAN	Swan
WARR	Warren
WHTB	Wheatbelt

Listed according to the nearest town/place name. Includes historical records. NP=National Park, NR=Nature Reserve, Stn=Station, Mt=Mount, Is=Island, Rg=Range

**DISTRIBUTION**

**RECOVERY PLAN** Whether the taxon has a Recovery Plan (RP), Interim Recovery Plan (IRP) or Multiple Species Plan (MSP).

**CHANGE CODE** Type of change that has occurred:

- ADDITION Added to list – new entry to State (WCA or Priority) or Commonwealth list (EPBC). If already on one state list and needs to be changed to another see either upgrade or downgrade.
- UPGRADED Species that is on the Priority list has been upgraded to Threatened or Presumed Extinct under the *Wildlife Conservation Act*.
- CAT\_CHG The category under which a species is listed (e.g. EPBC Act VU to EN or Priority 1 to P3) has been changed.
- DOWNGRAD A Species has been downgraded from Threatened or Presumed Extinct under the *Wildlife Conservation Act* to the Priority list.
- NAME\_CHG Species has undergone a name change.
- OTHER Records a change to other details not related to Conservation status (e.g. Location and Recovery Plan details).
- DELISTED Species removed from the particular list it was on.
- RELISTED Species has been added to the list which it was once previously listed on.

**LIST CODE**

- Priority Priority Flora List
- WCA\_1991 Wildlife Conservation Act 1950 DRF Schedule [1991 ammendments]

# RECOMMENDING CHANGES TO THE LIST

## Threatened Flora

Threatened flora listings are reviewed annually and changes are recommended by the Threatened Species Scientific Committee (TSSC). Nomination forms to add species to, or delete species from the current Threatened (Declared Rare Flora) lists or recommend a change in category can be downloaded from the Department's Website on the 'Call for public nominations for listing (and delisting) of threatened plants and animals' page <http://www.dpaw.wa.gov.au/plants-and-animals/threatened-species-and-communities/listing/118-call-for-public-nominations-for-listing-and-delisting-of-threatened-plants-and-animals> . Further information on the listing process and nomination guidelines can also be downloaded from this page.

TSSC meetings are usually held near the end of the first quarter of the calendar year. The closing date for nominations for TSSC meetings is the last Friday of January that year.

Species will remain listed under their current status until the recommendations are approved by the Minister for Environment and are listed in the next Wildlife Conservation (Rare Flora) Notice which is published in the government gazette.

## Priority Flora

You do not have to fill out a nomination form to nominate a species for the DPAW Priority list as it is not considered by the TSSC.

To nominate a species for priority listing, contact the Department's Senior Botanist, Species and Communities Branch with your recommendation or email [flora.data@dpaw.wa.gov.au](mailto:flora.data@dpaw.wa.gov.au) . Your email should contain the information required to demonstrate how the species meets the Priority category you recommend. Nominations for Priority species may be sent at any time of year, and changes may be made to the Priority Flora list at any time of year.

Changes to Priority Flora are done frequently as new information is received and reviewed. A combined Threatened and Priority Flora List is "published" after changes to the Threatened Flora list are made as a way of disseminating information and providing a reference point for such a dynamic list. As changes to the Threatened Flora list only occur once or twice a year, the published version of the Priority List soon becomes out of date due to the changes since publication and is hence not available on the web. However, due to the need to have this information readily accessible to the public, the WA Herbarium updates the conservation status of species on its FloraBase website to be aligned with Species and Communities Branch's official Priority list and hence can be referred to for the currency of conservation codes.

<http://florabase.dpaw.wa.gov.au/>

For further information on listing of Threatened or Priority Flora please contact Species and Communities Branch on 9334 0455.

# SUMMARY OF PLANT TAXA WITH PRIORITY FOR CONSERVATION BY DPAW ADMINISTRATIVE REGIONS

4 December 2014

REGION	THREATENED	PRESUMED EXTINCT	PRIORITY 1	PRIORITY 2	PRIORITY 3	PRIORITY 4	TOTAL TAXA
KIMBERLEY	5	0	273	113	132	8	531
PILBARA	3	0	72	41	89	12	217
SWAN	68	2	51	60	102	67	350
