

## Wednesday Walk – Trip to Nerriga Road – Bulee Pass and Touga Road – 26 October 2011

We drove from Bungendore via Tarago and Oallen Ford to the Nerriga Road. There was a lot flowering en route but we didn't stop which was just as well because the display that we found at Bulee Pass and then at the start of Touga Road was outstanding. We were in sandstone country at first in the pagodas above Endrick River with many plants flowering – *Leptospermum rotundifolium*, *Dampiera stricta*, *Hakea dactyloides*, *Philotheca scabra* ssp. *latifolia*, *Grevillea patulifolia*, *G. bauera* ssp. *asperula*, *Dillwynia sericea*, *Calytrix tetragona*, *Calochilus platychilus* and many others. We then drove further to the start of Touga Road where we found many more species flowering including *Phyllota phyllicoides*, *Aotus ericoides*, *Daviesia acicularis*, *Pultenaea capitellata*, *Boronia algida*, *Kunzea parvifolia* – just a wealth of colour. Some interesting orchids at this site were *Calochilus campestris*, *Simpliglottis chlorantha* and some very tall *Thelymitra ixioides*.
