

## Wednesday Walk – Point Hut Crossing, north – 29 July 2015

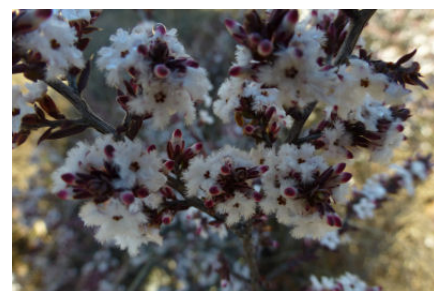

There was a lot of water flowing in the river and some good views of it. We were surprised to find many things flowering and lots of things of interest. There were still a lot of weeds, especially at the beginning of the walk but at this time of year many have died back and are not quite so noticeable. The best display was from *Leucopogon attenuatus* – with masses of it covering rocky slopes and mainly in full flower with some plants still to flower so the display will be good for a few more weeks. There were also flowers on the large population of *Grevillea lanigera* (some very tall plants) as well as *G. juniperina*. Most of the wattles were about to burst - *Acacia dealbata* and *A. rubida* - and we eventually found flowers on *Cryptandra speciosa* (formerly *C. propinqua*). *C. amara* (formerly *C. amara* var. *longiflora*) were covered in buds as were *Lissanthe strigosa*, *Pomaderris angustifolia*, *Bertya rosmarinifolia* and *Phebalium squamulosum* ssp. *ozothamnoides*. We also found a few flowers on the mistletoe - *Amyema cambagei* - on the many *Casuarina cunninghamii*. We got to the Pine Island end of the walk before lunch so decided to have a look for the rare and endangered *Muehlenbeckia tuggeranong*. We eventually found it in a rocky outcrop - all twiggy and sparse but definitely still alive. We then re-traced our steps. All images by Fran Middleton.

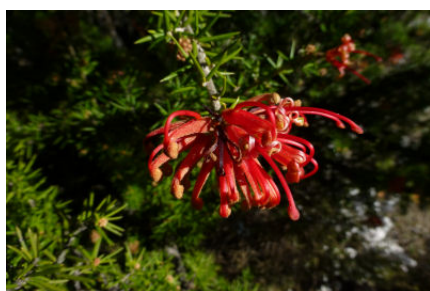

*Amyema cambagei*

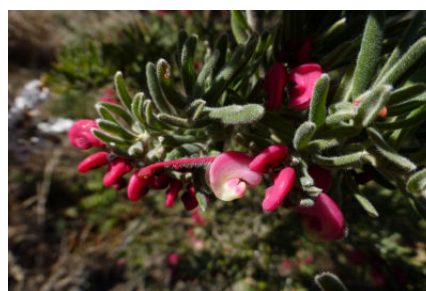

*Cryptandra speciosa*

*Leucopogon attenuatus*

*Grevillea juniperina*

*Grevillea lanigera*

## Plant List for the Walk from Point Hut Crossing, north –29 July 2015

? indicates that those present were unsure of the plant name

Acacia dealbata	Cryptandra speciosa
Acacia rubida	Dianella longifolia
Amyema cambagei	Dianella revoluta
Bertya rosmarinifolia	Discaria pubescens
Bossiaea buxifolia	Dodonaea viscosa ssp. angustissima
Bursaria spinosa	Galium gaudichaudii
Callistemon sieberi	Geranium sp.
Callitris endlicheri	Gonocarpus tetragynus
Calytrix tetragona	Grevillea juniperina
Cassinia quinquefaria	Grevillea lanigera
Casuarina cunninghamiana	Hakea microcarpa
Chrysocephalum apiculatum	Kunzea ericoides
Chrysocephalum semipapposum	Leptorhynchus squamatus
Correa reflexa	Leptospermum obovatum
Crassula sieberiana	Leucopogon attenuatus
Cryptandra amara	Lissanthe strigosa

Lomandra longifolia  
Lomandra multiflora  
Muehlenbeckia tuggeranong  
Phebalium squamulosum ssp. ozothamnoides  
Phragmites australis  
Pimelea curviflora  
Poa labillardierei  
Pomaderris angustifolia  
Senecio quadridentatus  
Stellaria pungens  
Themeda triandra  
Veronica perfoliata  
Vittadinia muelleri  
Zornia dyctiocarpa
