ISSN 1471-4833

Introduction

This Index builds on the previous work of Orkney Field Club members Paul Hepplestone and Alan Skene.

The Index was compiled by Marcus Love, trainee on attachment to Orkney BRC. Technical support and programming was provided by Sheena Spence, overall project supervision by Ross Andrew, Orkney BRC Manager.

The following Orkney Field Club members assisted with production of the Index, their help is gratefully acknowledged: Ross Andrew, Lynda Bartlett, Chris Booth, Elaine Bullard, John Crossley, Sydney Gauld, Eric Meek, Alan Skene.

With the exception of obvious errors, entries, including scientific names, are given as originally published in the *Bulletin*.

Index Entries

Each entry has an associated **context** given beneath, together with a *Bulletin* reference which may contain a **part number** (at one time more than one *Bulletin* was published each year), followed by the **year** of publication and a **page number**. **BRS** refers to Biological Records Supplement (originally intended as a serial publication but produced only once in 1992).

Updating

It is intended to publish the next Orkney Field Club Bulletin Index after an appropriate interval.

Readers discovering any errors or omissions are urged to contact Orkney Biodiversity Records Centre c/o The Orkney Library, Kirkwall, Orkney. By these means, corrections can be incorporated in future updates to the Index.
