selection of close to 2,500 covers (over 2,000 FDCs cacheted some addressed some without an addressee) housed in two large cartons. The selection covers the period starting in the 1940s and goes well into the late 1980s covering the period in great detail and housed in over twenty volumes in total. The lot is almost entirely an American collection, but also includes some very small percentage of international and United Nations FDCs and covers. This is a perfect lot for anyone interested in American postal history of the late 20th century.

Made of high quality archival paper and in a spring back binder, the album has spaces for all the stamps of Great Britain including all the various plate numbers on the early issues and numerous Gibbons shades. This collection, carefully and lovingly made over several decades, is highly complete and in nearly uniform VF quality ( two stamps- #90 & #142 have perf initials of the firms that bought and used them in the nineteenth and early twentieth century when the postage sums these stamps represented were such a lordly sum that the companies needed to control employee theft). This is a beautiful selection representing the philately of Congo as well as the entire continent, as modern souvenir sheets from Africa (often printed by European contractors) boast strikingly beautiful and bold designs that stand out very well indeed. However several countries suffer from uncertain political status of the government throughout Africa and the issues of People's Republic of Congo are no exception as Scott catalog would not list them for the every same reasons of uncertainty. But ultimately this lot should be appreciated by modern International/African collectors since while these issues come up here and there, rarely does it happen in such quantities in one place, VERY FINE, og, NH (We only took a sample of over view shots to give you an idea about the lot) | SB | 1,500.00 | <u>FR. The collection represents approximately 1,500 pages of philatelic blissfulness as it covers literally every French colonial possession and offices abroad from Afars & Issas going all the way to Wallis & Futuna. The early period in every subsection is covered to a great extent and with true philatelic dedication including many minor varieties, but also as importantly the major varieties are generally of very high quality whether  |    |          |

| <p>talking about centering or gum. The collection is mostly focused on the proper colonial period as it includes a plethora of complete mint sets from the 19th century and goes on into the mid 1970s terminating once the mass de colonization process took place in the 1960s. Due to the vastness of the collection it is hard to adequately present its beauty and such an accumulation of highly desirable philatelic rarities, we scanned 260 pages (roughly 1/6 of the lot), but this only showcases some of the more desirable sets as the remaining 1,300 pages are all of extremely high standard as well. If one is inclined to go down a rabbit hole seeking out specific sets included, we include by no means an exhaustive list of premium sets and singles with catalogue value exceeding hundred dollars. Important to note that this list covers only half of the collection as it goes from Afars &amp; Issas to Gabon (the list includes only half of collection and only mint versions with the remaining two books covering Grand Comoro Islands going to Wallis and Futuna are of extremely high standard) [all mint - Alaouites #1-15, 46-49, Algeria #33-67, 78a (imperf pair), B14-26, Anjouan #1-19, Annam &amp; Tonkin #7-9, Benin #1, 2, 3, 5, 9, 10,11, 12, 14, 16, 20-32, 33-45, Cambodia #1-17, 15a-17a, Cameroun #102, 103, 104, 108, 110, 111, 115, 116, 117, 118, 122, 124, 125, 126, 127, 128, 129, 170-211, B7-B9, B14-15, B21-25, Chad #1-18, Congo People's Republic #208-13, C10, Dahomey #1-16, 17-31, Diego Suarez #16, 25-37, 38-50, France Offices in China #65-73, J38, Canton #2A, 14, 48-64, 65-81, Hoi Hao #1-15, 47, Kwangchowan #17, 35, Mongtseu #1-15, 49, 50, Pakhoi #12, Tchongking #13, 16, 33, 34-50, Yunnan Fou #11, Offices in Crete #16-20, Offices in Egypt Alexandria #15, 16-30, 43, 44, 45, Port Said #1-15, 49-50, 56-69, J8a, Offices in Turkey #7, 32, Cavalle #1-8, Port Lagos #5, 6, Offices in Zanzibar #11, 12, 13, 16, 17-28, 39-49, French Colonies #1-6, 13, 33, 46-59, J1-14, French Congo #2, 3, 11, 18-34, 52, French Equatorial Africa #B10-11, B12-21, C9-16, French Guiana #5, 6, 8, 13, 15, 16, 17, 28, 28a, 29, 30, 32-50, French Guinea #1-17, 33-47, French India #1-19, 54-79, 115, 117-23,124-34, 191-209, French Morocco #6, 7, 8, 11-22, 55-71, C1-11, J6-J9, French Polynesia #1-20, 21-54, 72-75, 126-35, C17-19, C89-93, C107-11, French Sudan #3-19, Gabon #1, 2, 3, 47, 124-47]. This is a fantastic collection of a lifetime put together by a dedicated collector as no expense was spared in order to form this gem of a collection. | 1772 | *0 | [GERMANY & COLONIES - SUPERB COLLECTION] Germany as unified national state came into being while postage stamps were in its infancy, thus the history of German philately reflects the history and development of Germany, and considering just how central Germany was events of the 20th century in Europe - German stamps tell the story of an entire continent. This is a fascinating, extensive collection of roughly 10,000 different mostly mint issues (very high number of sets have parallel mint & used sets) housed in three Scott Specialty albums. The collection is put together with true philatelic passion for completeness and detail as Germanic history is traced from the early period German States to the early 1990s when Germany was reunited once again. It is hard to overstate the quality of the collection as it includes virtually complete Germany proper with the regular section |  |  |  |
|------|----|---|--|--|--|

and back-of-the book covered in great detail including the expected high value sets like the Numeral and Post Horn issues from 1951-52, complete semi-postals to 1990 (700), but most importantly complete run of highly prized semi-postal souvenir sheets from the 1930s including #B58 & B68 (catalog value \$2,300 just for those two!), complete airmails with Zeppelin overprints and so much more. German offices abroad and colonial issues are among the most desired subsections of German philately and this collection boasts impressive sections within the collection as the former adds up to just under \$15,000 in catalog value (including standouts like Offices in Morocco [#7-19A,] (catalog value of the set \$2,643!) Offices in Turkish Empire [#1-6, #13-24B,]) while the colonial subsection is close to \$12,000 in catalog value. Similarly this collection covers in great detail issues of individual states, plebiscites, occupations alongside beautiful collection of Germany proper, GDR and Berlin issues. The collection includes so much premium content, that due to restrictions of time and space it would be futile even attempt to list every better set as the collection quite literally follows Scott catalog listings to 1990, so the best way to appreciate the quality of the collection is by looking at the attached scans (We only scanned a sample section covering the pages with higher concentration of premium content, even 200+ pages constitute only but a fraction of the collection)

ITALY & COLONIES

1962 \*0 [ITALY & COLONIES - SUPERB COLLECTION] The collection of roughly 4,000 different mostly mint issues housed in two pristine Scott Specialty albums covering the philatelic history of Italy and areas under Italian influence. This is an exceptional collection put together with true passion for philately as a plethora of premium issues including numerous major and minor varieties covers the philatelic history of Italy and of its imperial ambitions. The collection covers Italy proper starting with a comprehensive selection of Italian States and goes up to 1987 and all the areas that would fall under Italian influence. The quality of the collection is truly astonishing as the collector spared no expense in putting the collection together, as the collection includes well over a hundred complete sets or individual stamps with catalogue value of over \$500 (overall catalog value would be astronomical as the number of mint complete sets worth \$200-\$300 is in high hundreds). It is very rare that such quality material is encountered in a massive collection, not parceled out into individual subsections. Especially scores of individual stamps exceed \$1,000, like never hinged official airmail semi-postal from Somalia [#CBO1,]

signed by Enzo Diena (catalogue value \$5,250!) certificate included along with eight other certificates for early period high value issues. Practically every area associated with Italy is covered in this collection to a great extent be it colonial possessions in Africa, Aegean Islands, Offices Abroad and so much more. The collection is meticulously put together by a true philatelist with painstaking attention to not just major varieties, but also inverted overprints, different shades, perforations and so many premium footnoted sheets and sheetlets. The quality of the collection is bolstered further by inclusion of 18 certificates of authenticity for the early premium issues. The collection includes virtually every high value souvenir sheet, most never hinged, released in the 1940s in Portugal, each with catalog value in hundreds of dollars. The lot is a very comprehensive representation of the late 19th early 20th century Venezuelan issues with catalog value well in excess of \$30,000! While many issues include

duplication, all the issues are meticulously accounted for and housed in a very neat manner in catalog order. This is one of those lots that would provide an exceptionally strong core to start a Venezuelan collection, and if one was inclined to extend his philatelic interests in that direction - this is the lot that will accommodate it. Alternatively due to very well organized manner of the lot and the fact that much of the content if duplicated, is duplicated in similar numbers, this lot should equally appeal to dealer looking for break down and resale potential, though purely form philatelic point of view it would be preferable to keep a lot like this together, F-VF, mint og (We scanned only one of the four books, roughly 1/5 of the lot, but gives a rather good idea of the entire lot)
