The Shire of York is fortunate to have many reserves where wildflowers have been protected for future generations to enjoy. This brochure contains photographs of a small number of species which are well represented in each of the reserves listed below. Many are found in all, some are extra special and may only be seen for a short time. Please note the flowering months when they are likely to be seen.

Photo Credits; Audrey Sole & Bruce McGregor. Produced by the Shire of York in partnership with the York River Conservation Society.
