Races 1/6**13 mins + 1 lap****750 Motor Club Formula Vee Championship**

The 750 Motor Club Formula Vee championship is ideal for beginner and 'expert' alike, looking for competitive single seater racing on a low budget. It has been run by the 750 Motor Club since 1980 and is probably the cheapest way to go single seater racing in the UK. Engine, gearbox and much of the suspension and braking system is from the VW 1300 Beetle and this, along with a Dunlop 'control' tyre puts the emphasis on driver ability to win races.

Races 2 & 8**13 mins + 1 lap****750 Motor Club Toyota MR2 Championship**

The 750 Motor Club Toyota MR2 Championship started in 2008 & is for production based sports cars run as near standard specification as possible allowing for safety requirements. There are separate classes. Class A for the Mk1, class B for the Mk2 and class C for the Mk3. Very few modifications from standard are allowed to keep costs down and maintain its aims as a budget series. All cars run on a control Toyota tyre and there are minimum weights in classes to even-out the performance.

Races 3/9 & 11/13**13 mins + 1 lap****Demon Tweeks/Yokohama Stock Hatch Championship**

The Stock Hatch Championship, is in its 12th year & continues to be the most popular championship in the UK. Modifications are strictly limited to basic rebore and blueprinting along with the use of standard gearbox; ignition systems are 'free'; suspension mods are limited to lowering and uprating of springs and dampers; brakes remain standard with free pad materials; a 'control' Yokohama tyre and a weight penalty for leading cars ensures close racing at very affordable cost.

New, as a pilot series for 2009, is VAG Trophy, which caters for any two-wheel drive model from VAG (Volkswagen, Audi, SEAT and Skoda) produced up to the end of 2005. Cars likely to be included as the series grows will not only be constructed specifically for VAG Trophy, but will also have been previously competing in the Vento Challenge, Polo G40 Cup, Slick 50, VW Cup; SEAT cars are expected as are VAG cars usually used on 'track days'. The ethos of the series is to promote highly competitive racing within power-to-weight ratio classes, good driving standards and good value for money.

Demon Tweeks/Yokohama Locost Championship

The 750 Motor Club Locost Championship is for cars built to the same basic design and using a standard Ford 1300 cc crossflow engine, gearbox and many other standard components. All cars run with a 'control' camshaft from Kent Cams; modifications are limited to a rebore and basic 'blue-printing'. There is also a 'control' tyre, the Yokohama A539. There is free choice of spring rates and anti-roll bars; dampers must be steel-bodied and single-adjustable.

Race 16**13 mins + 1 lap****Premier Choice Group 750 Formula Championship**

750 Formula is for two-seater sports racing cars, introduced by the 750 MC in 1949, as its first racing formula. The regulations provide ample scope for the amateur to design and build his own car, and to develop his skills in chassis / suspension design and engine tuning within carefully controlled limits. There are two engine options, either the highly-tuned Reliant 850cc or the unmodified Fiat 'FIRE' 1108cc, the latter introduced in 2003 due to the diminishing supply of spares for the Reliant engine. All cars run on a control Yokohama slick tyre.

Race 20**13 mins + 1 lap****750 MC Toyo Tires Golf GTI Championship**

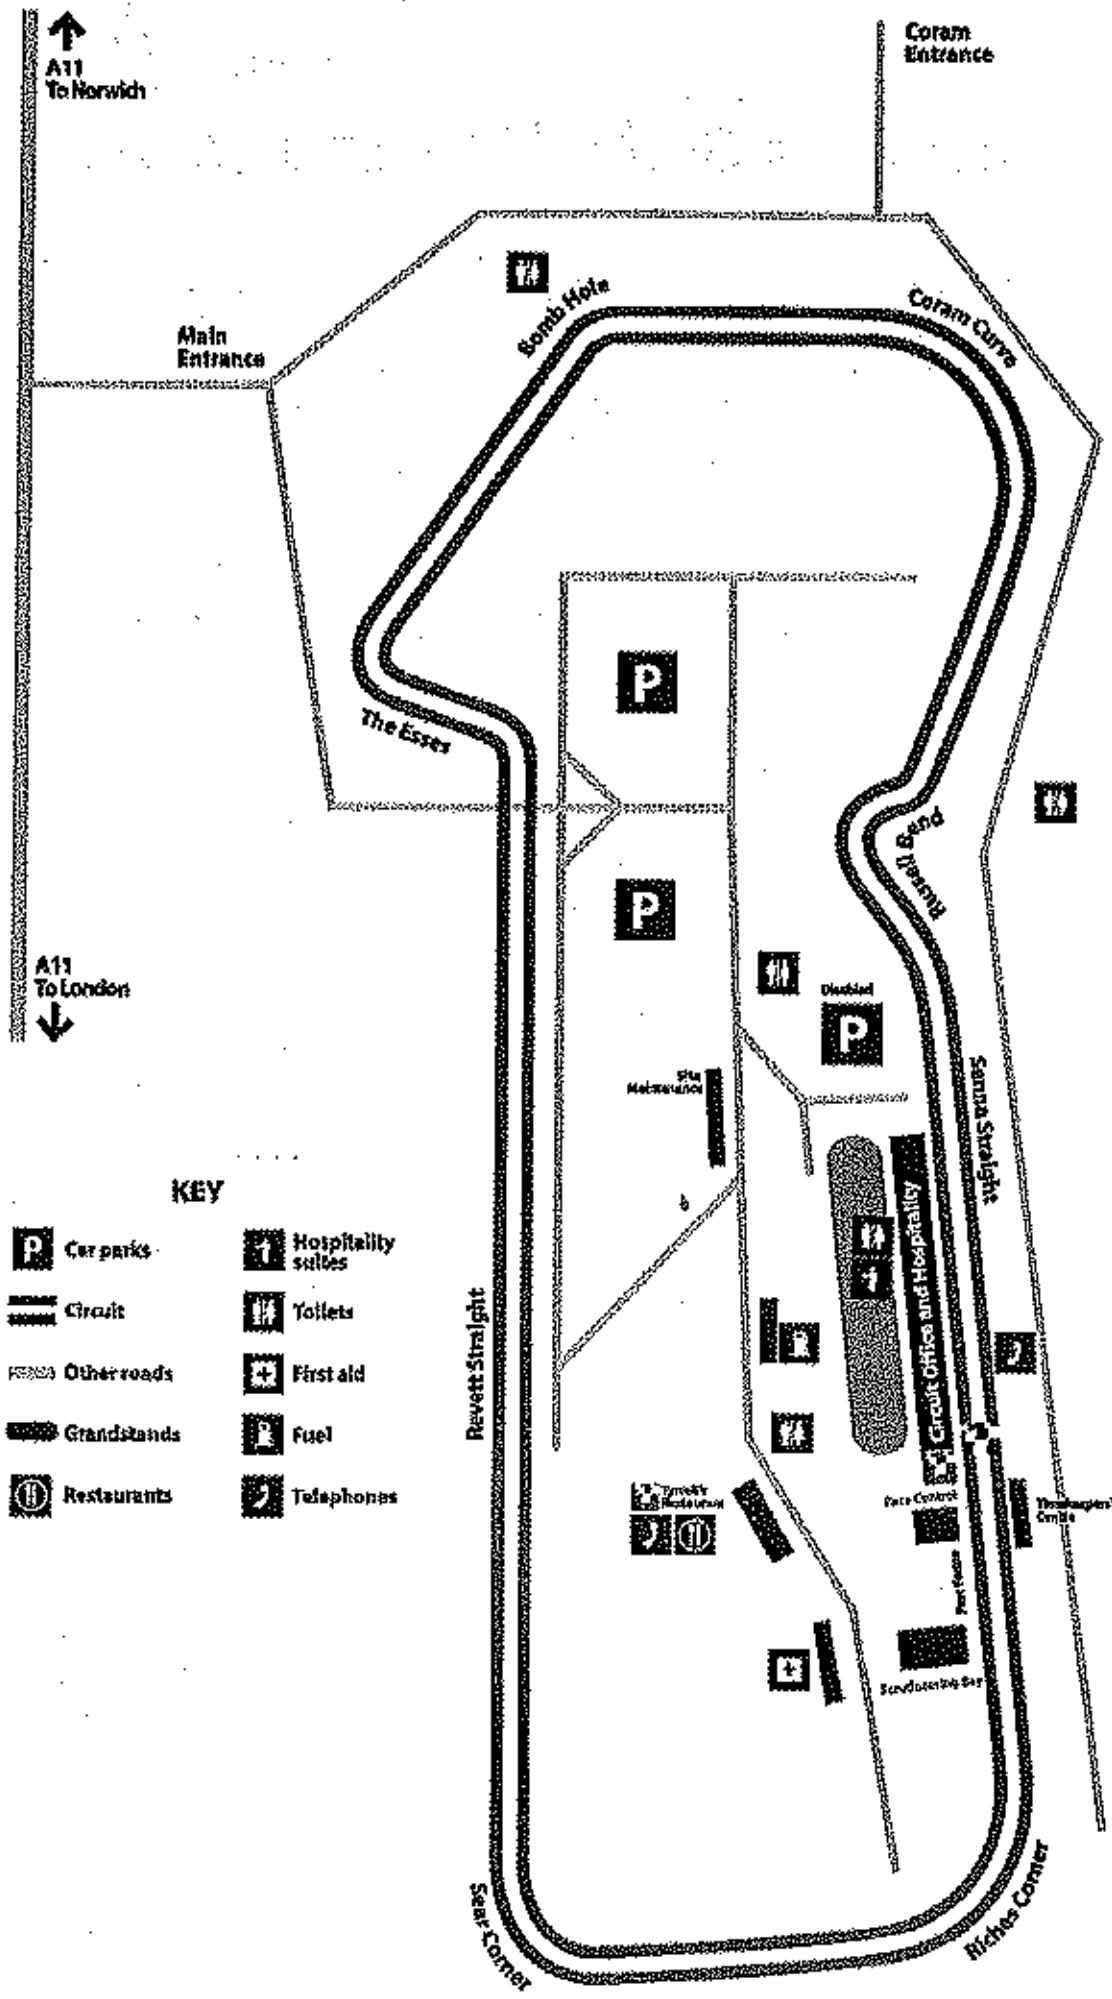

Originally run as a series of races in 2007, which gained championship status in 2008, the Golf GTI championship is for the VW Golf GTi Mk2, in both 8 valve and 16 valve versions. Tuning is very restricted – a 'control' Newman camshaft in an otherwise standard engine, standard gearbox, 'control' Toyo tyres, uprated suspension, all of which are intended to keep the costs of preparing a competitive car under control but which also have the effect of ensuring that the racing is close.
