Spring Plant Market – 2023

The 2023 Spring Plant Market will be held at the Urrbrae Agricultural High School on Saturday 16th September.

Individual growers will each have their own tables and will be selling their own plants directly to our customers. As a result, prices may vary slightly between the growers, but should still represent good value for money. When purchasing plants, please pay the grower at table that they came from.

Following is a list of species that growers have indicated that they are bringing to the sale. Some of these will be in small numbers and may sell quickly. There may also be other species that have not been listed. The list has been divided (roughly) into several size categories to assist selecting suitable plants, but errors may have been made, so each plant needs to be considered on its merits.

The last column in the grid is an indication of which grower(s) indicated that they expected to have that species. A key to the growers is given at the end of the list.
