## At Beekenkamp, we are excited to introduce you to our 2023/2024 offerings.

We are on a continuous journey to find the crops that have added value for all links in the supply chain. This is, for example, why we have created the cost-effective LaBella® Dahlia range for you, which offers a perfect Dahlia for every pot size - from big to small.

Discover our day length neutral Petunia Tea® series, suitable for production in wide range of containers and sizes, from a 10.5 cm pot to a hanging basket. Petunia Tea® varieties have a controlled growth and are very rain tolerant, making them ideal plants for the end consumer as they flower all season long.

Our latest introduction is the Begonia Spacestars™ collection. These begonias can be grown under cooler conditions and are also great as outdoor summer plant.

Our BKX tray is cost effective in logistics and a sustainable and environmentally friendly tray solution. The range of BKX trays for seed and cutting raised starting material has been expanded.

At Beekenkamp, we are committed to the choices we have made in our breeding efforts and partnerships, but it is the trust you have in us that will truly strengthen those choices.

Your Beekenkamp team is dedicated to Growing For The Future with you.

## Wir bei Beekenkamp freuen uns, Ihnen unser Angebot 2022/2023 vorstellen zu können.

Wir sind ständig auf der Suche nach Pflanzen, die allen Beteiligten in der Produktions- und Absatzkette einen Mehrwert bieten. Auf diesem Hintergrund haben wir beispielsweise das kosteneffiziente Dahliensortiment LaBella® für Sie entwickelt, das für jede Topfgröße – von groß bis klein – eine perfekte Dahliensorte zu bieten hat.

Entdecken Sie unsere tagneutrale Petunia Tea®-Serie, die sich für die Kultur in einer Vielzahl Topf- und Containerarten und -größen eignet, vom 10,5 cm Topf bis zur Blumenampel. Petunia Tea®-Sorten haben einen kontrollierten Wuchs und sind sehr unempfindlich gegen Regen, was sie zu idealen Pflanzen für die Konsumenten macht, da sie darüber hinaus die ganze Saison über blühen.

Unsere aktuellste Neuheit ist die Begonia Spacestars™-Kollektion. Diese Begonien können unter kühleren Bedingungen kultiviert werden und eignen sich auch hervorragend für eine Sommerbepflanzung im Freien.

Unsere BKX-Trays sind kosteneffizient in der Logistik und eine nachhaltige und umweltfreundliche Paletten-Lösung. Das Angebot an BKX-Trays als Anzuchtpaletten für die Saatgut- und Stecklingskultur wurde erweitert.

Wir bei Beekenkamp stehen im Hinblick auf unseren Einsatz für die Züchtung und in Bezug auf unsere Partnerschaften zu unseren Entscheidungen, aber es ist Ihr Vertrauen in uns, das diese Entscheidungen wirklich stärkt und trägt.

Ihr Beekenkamp-Team engagiert sich für Growing For The Future – gemeinsam mit Ihnen.

## Beekenkamp a le plaisir de vous proposer ses offres pour 2023/2024.

Nous recherchons en permanence des cultures qui apportent une valeur ajoutée à tous les maillons de la chaîne commerciale. Ainsi, nous avons notamment créé la gamme rentable de dahlias LaBella®, qui offre un dahlia optimal pour chaque taille de pot - du plus grand au plus petit.

Découvrez notre série Petunia Tea® à jour neutre, adaptée à la production dans une vaste gamme de conteneurs et de tailles, du pot de 10,5 cm à la suspension. Les variétés Petunia Tea® présentent un port contrôlé, une très bonne tolérance à la pluie et une floraison tout au long de la saison, et sont ainsi des plantes idéales pour le consommateur final.

Notre dernière nouveauté est la collection Begonia Spacestars™. Ces bégonias peuvent être cultivés dans des conditions plus fraîches et conviennent aussi parfaitement comme plante estivale d'extérieur.

Notre plateau BKX est rentable au niveau logistique et représente une solution durable et écologique. La gamme de plateaux BKX pour le matériel de base issu de semences et de boutures a été étendue.

Chez Beekenkamp, nous nous attachons à respecter les choix que nous avons effectués dans notre recherche génétique et nos partenariats, mais c'est la confiance que vous nous accordez qui consolidera absolument ces choix.

Votre équipe Beekenkamp vise à se développer avec vous à l'avenir.

## Wij van Beekenkamp laten u graag kennismaken met ons aanbod voor 2023/2024.

We zijn voortdurend op zoek naar gewassen met een toegevoegde waarde voor alle schakels in de keten. Daarom hebben we bijvoorbeeld het rendabele LaBella® Dahlia-assortiment voor u ontwikkeld: dit biedt een perfecte Dahlia voor elke potmaat - van groot tot klein.

Ontdek ook onze daglengte neutrale Petunia Tea®-serie, geschikt voor productie in de meest uiteenlopende pot- en containersoorten en -maten, van een 10,5 cm pot tot een hanging basket. Petunia Tea®-rassen kenmerken zich door een gecontroleerde groei en zijn zeer regenbestendig. Het zijn daarmee ideale planten voor de consument, omdat ze het hele seizoen bloeien.

Onze nieuwste introductie is de Begonia Spacestars™ collectie. Deze begonia's kunnen onder koelere omstandigheden worden geteeld en zijn uitstekend geschikt als zomerplant voor buiten.

Onze BKX-tray is een rendabele, duurzame en milieuvriendelijke oplossing in de logistiek. Het assortiment BKX-trays voor uitgangsmateriaal uit zaad en stek is uitgebreid.

Bij Beekenkamp staan we achter de keuzes die we hebben gemaakt in onze veredelingsactiviteiten en partnerships, maar het is het vertrouwen dat u in ons heeft dat onze keuzes hierin daadwerkelijk bevestigd.

Ons Beekenkamp Team is gedreven en toegewijd aan onze klanten en partners. Alleen samen groeien we voor de toekomst.

The Beekenkamp Group. An established presence in the world of horticulture. A family business since 1951, we now have over 2,900 employees worldwide and produce over 2 billion young plants every year, with a total greenhouse area of 90 hectares. The Beekenkamp Group combines the forces of our three businesses.

### We work together for the best result.

De Beekenkamp Group. Een begrip in de tuinbouw. Een familiebedrijf pur sang, met sinds 1951 ruim 2.900 medewerkers wereldwijd, een productie van meer dan 2 miljard jonge planten per jaar en een totaal areaal aan kassen van 90 hectare. Beekenkamp Group bundelt haar krachten in drie bedrijven.

### Samen gaan we voor het beste resultaat.

### Corporate Social Responsibility

We see social responsibility as a crucial element in running our business. In addition to our care for all of our employees who work for us worldwide, as well as their families, we also ensure that the environmental impact of our activities is minimal. Beekenkamp also sets high standards for hygiene. We implement very strict hygiene measurements to prevent diseases and discourage pests. All of these efforts have resulted in gaining various certificates. Our provisions regarding working conditions, the environment and hygiene are subject to external monitoring.

### Maatschappelijk Verantwoord Ondernemen

We zien sociale verantwoordelijkheid als een cruciaal element bij het runnen van ons bedrijf. Naast onze zorg voor al onze medewerkers die wereldwijd voor ons werken, en hun gezinnen, zorgen we er ook voor dat de milieu - impact van onze activiteiten minimaal is. Beekenkamp stelt ook hoge eisen aan hygiëne. We voeren zeer strenge hygiënemaatregelen uit om ziekten en ongedierte te voorkomen. Al deze inspanningen hebben geresulteerd in het behalen van verschillende certificaten. Onze bepalingen inzake arbeidsomstandigheden, milieu en hygiëne worden extern gecontroleerd.

### Certifications and guarantees

Our Product Management team is testing our own genetics and breeding from partners to extend their technical knowledge for you. Improved product quality from unrooted to finished product, tolerances to pests and diseases, reducing the usage of PGR's and extending the shelf and garden life are the four main research targets. The application of modern breeding techniques is the key to success at Beekenkamp Plants today. Investments are based on a clear vision of the future needs of all the links within both contemporary ornamental horticulture production as well as in the supply chain.

Test locations in different parts of the world are very important to us, as it is Beekenkamp's goal to provide the consumer with the best product available in their climate zone. It also allows us to monitor the effects of our genetics in different growing circumstances. Beekenkamp Plants' comprehensive cultivationdatabase contains extensive information from all over the world, taking each and every growing situation into account. All this, in order to provide you with the latest advice and information. The Marketing team is lucky enough to draw inspiration from the whole chain including the consumer. If you would like any visuals or designs please contact our office. Our experience in working in partnership is what makes it successful, but it takes time to develop. It is evident that the most successful partnerships have built upon a long history of collaboration. The Marketing department, where Sales, Product Management and Breeding, come together in order to see how we can assist you in the best way.

Know that you are invited at any time to our premises in the Netherlands where you can feel free to take a look at our shelf - life testing room or trial garden. Or visit the new Beekenkamp Inspiration Center, make an appointment all year round both online and offline.

Ons Product Management team test onze eigen genetica en teelt van partners om hun technische kennis voor u uit te breiden. Verbeterde productkwaliteit van onbeworteld tot afgewerkt product, tolerantie voor plagen en ziekten, vermindering van het gebruik van PGR's en verlenging van de houdbaarheid en de levensduur in de tuin zijn de vier belangrijkste onderzoeksdoelstellingen. De toepassing van moderne veredelings technieken is vandaag de dag de sleutel tot succes bij Beekenkamp Plants. Investerings zijn gebaseerd op een duidelijke visie op de toekomstige behoeften van alle schakels binnen zowel de hedendaagse sierteeltproductie als in de toeleveringsketen.

Testlocaties in verschillende delen van de wereld zijn erg belangrijk voor ons, want het is Beekenkamp's doel om de consument het beste product te bieden dat verkrijgbaar is in hun klimaatzone. Het stelt ons ook in staat om de effecten van onze genetica in verschillende groeiomstandigheden te volgen. De uitgebreide teeltdatabase van Beekenkamp Plants bevat uitgebreide informatie van over de hele wereld, waarbij rekening wordt gehouden met elke teeltsituatie. Dit alles om u van het laatste advies en informatie te voorzien. Het marketingteam heeft het geluk zich te laten inspireren door de hele keten, inclusief de consument. Neem voor afbeeldingen of ontwerpen contact op met onze marketing afdeling. Onze ervaring met het werken in partnerschap is wat het succesvol maakt, maar het kost tijd om te ontwikkelen. Het is duidelijk dat de meest succesvolle partnerschappen zijn gebaseerd op een lange geschiedenis van samenwerking. De afdeling Marketing; waar de afdelingen Verkoop, Productontwikkeling en Veredeling samenkomen om te kijken hoe we u het beste kunnen helpen.

Weet dat u ten alle tijden welkom bent in ons pand in Nederland waar u gerust een kijkje kunt nemen in onze houdbaarheidstestruimte of showtuin. Of bezoek het nieuwe Beekenkamp Inspiration Center, maak het hele jaar door zowel online als offline een afspraak.
