Mycological Writings
OF
C. G. LLOYD.

VOL. IV.

1913-1916.

CINCINNATI, OHIO, U.S.A.

PREFACE.

(Binding is advised in this order.)

Index Vol. IV.

Mycological Notes, 38-41.

Synopsis of the Genus *Cladoderris*, July, 1913.

Synopsis of the Stipitate Stereums, December, 1913.

Synopsis of the Genus *Fomes*, January, 1915.

Synopsis of the *Cordyceps* of Australasia. March, 1915.

Synopsis of the Section *Apus* of the Genus *Polyporus*, June, 1915,
Letters 39-61. (Including two No. 39.*)

Missing numbers to complete sets will be sent as long as the supply lasts, on request to the Lloyd Library, Cincinnati, Ohio. Missing numbers will only be sent, however, to the exchanges of the Lloyd Library, to those who supply specimens for study, or those who for some other reason we think are entitled to them.

*Through an error there were two letters issued and numbered 39. The notes Nos. 24 to 28 were also numbered in duplicate. In requesting copies of these duplicate letters indicate the regular letter as No. 39. No. 39 bis refers to the letter, *Fungi of Madagascar*.

INDEX TO CONTRIBUTORS' NAMES.

The liberality with which my friends and correspondents have sent specimens for study has been the chief means of advancing my knowledge of the subject. It is only through an abundance of specimens from various localities that any subject can be learned. The numbers in the following list refer to the letters where detailed account of the specimens will be found.
