VOLUME VI

=====

1920 - 1921

CINCINNATI, OHIO, U. S. A.

CONTENTS

Mycological Notes Nos. 61, 62, 63, 64 and 65

ARRANGEMENT

(Binding is advised in this order.)

Index to Vol. VI.

Pages 877 to 1101.

Plates 124 to 185.

(Please correct pages 593 to 953.)

CORRECTIONS

Thamnomycetes Chamissonis, page 907, was figured by Ehrenberg, not Chamisso.

A number of typographical errors occurred, particularly in the last issue (65), which was typed by a "new girl" not familiar with the work. Thus *Xylaria* "pores," page 1030, should be spores. It is not necessary to list them as they are very evident.

INDEX TO CONTRIBUTORS' NAMES

The liberality with which my friends and correspondents have sent specimens for study has been the chief means of advancing my knowledge of the subject. It is only through an abundance of specimens from various localities that any subject can be learned. The numbers in the following list refer to pages where a detailed list of the specimens are given.

The above publications comprise those that have been issued to date. We can not supply sets of back numbers, but are often able to furnish a few missing numbers to complete sets.

C. G. LLOYD,
309 West Court Street,
Cincinnati, Ohio.

BULLETINS OF THE LLOYD LIBRARY

These are numbered consecutively from 1 to 22. Sets should be checked off by the consecutive numbers. The Bulletins have also secondary numbers referring to series, as Botanical Series, Reproduction Series, etc. In reporting bulletins missing disregard the secondary numbering.

BIBLIOGRAPHICAL CONTRIBUTIONS FROM THE LLOYD LIBRARY

Three Vols., No. 1-32, were issued and indexed. The publication was suspended with Vol. 3 (1918) but we hope to continue it as soon as arrangements can be made.

Lloyd, C. G. 1920. "[Introductory Materials including Indices, Vol. 6]."
