QUESTIONS AND AREAS OF CONCERN FOR MEETING WITH U.S. IMMIGRATION AND
CUSTOMS ENFORCEMENT MEETING TO TAKE PLACE ON 24 AUGUST 2017

- 1. Follow up from February.** In our meeting of 06 February 2017, the Borderland Immigration Council submitted a number of requests for data to ICE regarding issues that continue to be areas of concern, such as family separation and the detention of asylum seekers. ICE representatives committed to a response within two weeks time. When will those answers be forthcoming?
- 2. Discretion.** The exercise of discretion by your officers and your office is one way, historically, that ICE has sought to exercise its duties in an efficient way that meets ethical, moral and humane standards. Since the new administration, the community has witnessed and documented the use of discretion by ICE El Paso coming to a halt; e.g.: the detention of asylum seekers without criminal histories from detention; denials of stays of deportation. What does ICE El Paso currently deem sufficient exigent circumstances to warrant the exercise of discretion on humanitarian and moral grounds? Have the standards for the exercise of discretion in the El Paso area changed since January 2017?
- 3. Detention Center Conditions.** In early 2017, the Detained Migrant Solidarity Committee (DMSC) detailed several areas of concern to local ICE leadership regarding conditions of detention, including accounts of physical and verbal abuse, severe health violations such as detainees being given rotten or insufficient food, and the use of solitary confinement as retribution for complaints. In recent weeks, national human rights organizations (Human Rights First and Women's Refugee Commission) have substantiated similar findings in independent reports regarding systemic civil rights and human rights abuses that have taken place in ICE detention facilities. In response to the documentation provided by DMSC to ICE in early 2017, your response was that the accounts could not be confirmed. Absent filing a complaint with the Office of Inspector General, what type of information or documentation would be sufficient to provide to ICE that would prompt ICE to address these issues? This is particularly important given that ICE has opened new detention facilities within the El Paso Area of Responsibility, which fall under the authority and control of El Paso's ICE Field Office Director.
- 4. Ongoing Engagement.** Accountability, transparency and ongoing engagement are values important to the community in which ICE exercises significant responsibilities for enforcing immigration laws. Will ICE El Paso commit to quarterly meeting with community stakeholders?
- 5. Arrests.** Can ICE provide the number of arrests made in the ICE El Paso Sector on a monthly basis? Can ICE provide data on the locations in the ICE El Paso Sector where those arrests have been made?

6. **Collateral Arrests.** ICE officials locally and nationally have indicated that ICE is engaging in “collateral arrests” during targeted enforcement operations; i.e.: arrests of undocumented persons encountered in the course of operations targeting other individuals. Since January 2017, how many such “collateral arrests” have been arrested by ICE El Paso in the course of enforcement operations targeting other individuals?
7. **Detention Beds.** What is the detention bed capacity per diem in those facilities which fall under the authority and control of the El Paso Field Office Director.
8. **Hiring.** The administration has signalled its intent to hire additional ICE officers. What are the plans of ICE locally for additional hiring? If additional agents are to be hired, how will ICE ensure the integrity of hiring standards?
9. **Warrants.** How many warrants are signed and executed on the same day in the El Paso Sector?
10. **Detainers.** On an average monthly basis, how many detainers does ICE issue? What are the criteria for issuance? What information is provided to you by El Paso County and El Paso County Sheriff authorities that is used in the determination to issue a detainer?
11. **Targeting of Sponsors.** Are potential sponsors of UACs being vetted or targeted by ICE for investigation/arrest/deportation in manner different in the current administration?
12. **Family Separation.** The El Paso Federal Defender’s Office has registered an increase in the separation of children and parents in immigration-related proceedings. Have policies regarding maintaining or prioritizing family unity changed in the new administration? What is the current policy on family separation?
13. **Collaboration to make El Paso safer.** How can civil society and ICE collaborate to make El Paso a safer community?

Report Date: 10/24/2017

Executive Summary

Operatio (b) (7)(E) (b) (7)(E) operation, Department of Homeland Security (DHS), Customs and Border Protection (CBP)/Rio Grande Valley Sector (RGV) enforcement initiative scheduled to commence on October 29, 2017 and continue through September 30, 2018. This operation outlines the RGV's efforts to support the RG (b) (7)(E) operations which is responsible for the processing and detention demands created by illegal cross border traffic.

On July 9, 2017, RGV Sector transitioned centralized processing operations from th (b) (7)(E) Station to the completed RG (b) (7)(E) site. Since the transition occurred, apprehensions have increased from a daily average of 240 to 340. From July 9, 2017 through September 30, 2017, RGV has apprehended 22,953 IAs. UACs and FMUAs continue to be a significant percentage of all Illegal Aliens (IA) apprehended in the RGV AOR. This class of IAs calls for additional/stringent processing and holding requirements due to policy and directives resulting from ongoing litigation. UACs and FMUAs account for 46% of all IAs apprehended (UAC 3,444 / FMUA 7,181).

With an emphasis on front line border security operations, RGV Command Staff has instructed the RG (b) (7)(E) (b) (7)(E) allowing for the re-deployment of assets to the field in order to affect the impactable traffic within RGV. B. Terrain/Weather:

The terrain of the targeted area is primarily ne (b) (7)(E) within the immediate border area, and is made up of flat, agricultural land with isolated brushy areas surrounded by

small rural neighborhoods situated on unimproved roadways. There are also heavily populated metropolitan urban areas within a 5-10 mile radius of some river border locations.

Weather during the year is hot and humid with little precipitation expected. Daily temperatures are expected to average in the mid-70s to the low 100s. Low temperatures may range from the 30s to the 80s.

C. Criminal Element:

There are numerous Transnational Criminal Organizations (TCO) operating within the RGV Area of Responsibility (AOR). These TCOs are exploiting the UAC and FMUA population, also known as Non-Impactables, and smuggling them into the United States, where they will surrender to law enforcement

The Honorable Ron Wyden
United States Senate
Washington, DC 20510

Dear Senator Wyden:

This is in response to your November 13, 2017 follow up letter from October 15, 2017, which I understand U.S. Immigration and Customs Enforcement (ICE) Director Homan has responded to previously. Acting Secretary Duke asked that I respond on her behalf.

The *William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008* (“TVPRA”) provides certain protections for vulnerable minors, including requiring agencies to promptly take steps to notify the Office of Refugee Resettlement (ORR) of the U.S. Department of Health and Human Service (HHS), and erring on the side of involving ORR for the protection of the minor. Indeed, the TVPRA leaves no discretion for any federal agency to decline to turn over a Unaccompanied Alien Child (UAC)¹, in its custody to ORR, or to otherwise transfer custody of that UAC to any individual or entity other than ORR. U.S. Customs and Border Protection (CBP) takes its obligations under the TVPRA and our responsibility to screen and protect children for human trafficking and compliance with the Flores Settlement Agreement very seriously.

Many press reports regarding t (b) (6), (b) (7)(C) encounter have been inaccurate (b) (6), (b) (7)(C) (b) (6), (b) (7)(C) was traveling in a white sedan with an adult male driver and adult female passenger. Agents subsequently determined th (b) (6), (b) (7)(C) was a UAC, since she (a) had no law immigration status, (b) is under the age of eighteen, and (c) had no parent or legal guardian in the United States available “to provide care and physical custody.” (b) (6), (b) (7)(C) parents were not present or able to assume custody at the checkpoint or durin (b) (6), (b) (7)(C) scheduled medical care at the hospital, CBP was obligated by law to take the child into custody until such time as she could be transferred to the HHS ORR for proper care and placement.

During any law enforcement operation, preservation of life and safety of the public are the first considerations. U.S. Customs and Border Protection (CBP) routinely transports persons in its care or custody, including thousands of persons a year rescued from the elements or smugglers,

¹ The Homeland Security Act of 2002 defines an “unaccompanied alien child” as a child who has no lawful immigration status in the United States, has not attained 18 years of age, and there is no parent or legal guardian in the United States or no parent or legal guardian in the United States is available to provide care and physical custody.

for medical evaluation and care at hospitals and other medical facilities. U.S. Border Patrol has seen various methods of smuggling through checkpoint (b) (7)(E) common carriers, commercial vehicles, etc., CBP understand the nature and sensitivity (b) (7)(E) (b) (7)(E) vehicles traveling through USBP checkpoints. At U.S. Border Patrol checkpoints, agents routinely work with medical providers and emergency transportation companies to coordinate an expedite inspection when provided advanced notice. These actions are conducted with strict adherence to policy and regulations found in, but not limited to the Border Patrol Handbook and local agreements guided by national policy.

It is CBP's policy and practice that we should endeavor to assist other agencies when possible, and close coordination with emergency medical services and local hospitals is key to ensuring that both CBP and other agencies continue to operate effectively and efficiently to accomplish their missions, especially in regard to providing lifesaving medical treatment of any person that we may encounter.

If we may offer further assistance, please contact me (b) (6), (b) (7)(C) or have members of your staff contact M (b) (6), (b) (7)(C) Assistant Commissioner, Office of Congressional Affairs, (b) (6), (b) (7)(C)

Subject: OMB Final Settlement: \$14.8M Unspecified Offset Options

Commissioner,

As noted in yesterday's email regarding final settlement with OMB, CBP needs to identify \$14.8M in unspecified offsets that is due to DHS on Thursday. Finance has prepared three options for your consideration below. With the exception of travel funding, we recommen (b) (5)

(b) (5)

Options:

- 1. **Travel Funding Reduction:** Reduce the overall CBP travel budget by \$14.829 million

This option would provide funding for travel in FY 2019 at a level of about \$127 million.

| CBP Travel Budget Funding History | FY 2015 Enacted | FY 2016 Enacted | FY 2017 Enacted | FY 2018 President's Budget | FY 2019 Passback |
|-----------------------------------|-----------------|-----------------|-----------------|----------------------------|------------------|
| Operations and Support | \$119,019 | \$110,183 | \$141,787 | \$134,500 | \$141,503 |

- 2. **Travel and RevMod Reductions** Apply the \$14.8 million reduction equally to both travel and the Revenue Modernization initiative.

This option would sustain CBP-wide travel funding at FY 2018 President's Budget levels and reduce the Revenue Modernization Program by the balance of the required DHS across-the-board offset. For travel, there was no specific attribution/justification for the increase from FY 2018 to FY 2019 so the impact to offices would likely be negligible. This minimizes the impact of both reductions to their respective areas. Additionally, the CFO has indicated that the RevMod reduction is feasible.

| Reduction Split | FY 2019 Final Settlement |
|----------------------------------|--------------------------|
| CBP-Wide Travel Budget Reduction | (\$7,003) |
| RevMod Program Reduction | (\$7,826) |
| Total Reduction | (\$14,829) |

Option 3. Partial Travel Reduction spread across CBP + RevMod (b) (7)(E) Procurement

- Travel Reduction spread across CBP program offices (flat line FY 2018 President's Budget level) : \$7.003 million
- The remaining \$7.8M reduction could be taken from a combination of the following FY19 enhancements:
 - Revenue Modernization: (\$26.4M)
 - (b) (7)(E)
 - (b) (7)(E)

Other FY 19 enhancements are OFO facilities Improvements (LPOE modernization) and Weapons, Maintenance and Procurement, but we believe (b) (7)(E)

Please let us know your recommendation or if you would like to discuss further. For reference, we have included a table below depicting the approved FY 2019 increases.

Commissioner/Deputy,

We were successful in receiving an additional \$62.3M in additional funding, as a result of the CBP passback appeal, addressing our top 3 priorities (as shown on the table below). However, we also received an unspecified \$14.8M reduction, which was applied to all DHS agencies. We will have to decide by Thursday, where to take the unspecified cut & Finance is working on options for your review tomorrow.

EAC Kolbe,

We have received notification from DHS Budget that the Department and OMB have reached final settlement on the FY 19 Passback. While it appears DHS received very minimal top line relief, CBP received about \$47.5 million additional topline from the Passback. This includes funding for our top three priorities, as well as our share of an across the board cut to DHS components (which we will need to identify by Thursday). The following table shows the three areas and amounts we successfully appealed, and the unspecified \$14.8 million cut. This is considered final settlement on the FY 19 budget. The attached document summarizes all of DHS appeals and settlement. DHS believes CBP fared well in the settlement process.

Subject: FW: FY 2019 DHS Passback Appeals

Deputy,

We just received the DHS decision on the Passback appeals along with the transmittal to OMB. Overall, DHS is submitting appeals totaling \$1.3B (out of the \$2.9B requested by components) for consideration. S1 continues to advocate for additional top line to achieve these objectives. For CBP, DHS is appealing 10 of the 14 items we sent forward. Specifically, DHS accepted all of our appeal items that were originally included in the "at target" request to OMB. DHS has also identified "additional unfunded requests" in an enclosure to OMB, which includes our four "above guidance" items that we appealed. This puts them on the table for discussion, but do not carry the same priority as the items labeled "appeals", and are therefore much less likely to be considered by OMB during the settlement process. Also, as discussed at the S1 meeting, there are no offsets identified in this Passback (just that we will look for efficiencies), and DHS has asked that we do not share our proposed offsets with OMB at this time.

I have recapped the "appeal" items and "additional unfunded requests" below. DHS does consider these our "priority" rankings. I do believe we fared as well as we could have expected for this phase of the process. We now enter the settlement phase which will take a couple of weeks to play out on the final decisions.

| Included in DHS appeal to OMB | Amount |
|--|----------|
| Restore Recruitment and Applicant Processing | \$34,000 |
| Restore MEA Procurement | \$28,370 |
| (b) (7)(E) | \$7,800 |

| | |
|--|------------------|
| Restor (b) (7)(E) Procurement | \$5,000 |
| Restore P-3 Aircraft Tech Refresh | \$7,900 |
| Restore TFTEA Implementation | \$2,079 |
| Restore ACE Post-Core Development | \$2,000 |
| High Risk Cybersecurity Remediation | \$25,000 |
| Restore End-of-Life Infrastructure Request | \$10,185 |
| Restore Facilities Maintenance | \$43,245 |
| Sub-Total | \$165,579 |

| Identified as Additional Unfunded Requests | Amount |
|--|-----------------|
| Above Guidance - Risk Based Bonding | \$5,428 |
| Above Guidance (b) (7)(E) Staffing | \$43,957 |
| Above Guidance - Fentanyl Detection | \$15,107 |

Subject: APHIS Premium Pay Settlement Back Pay

Kevin:

In the seven months since you and I last discussed this topic, agreement has still not been reached and payments have not been issued. I know that the two of us are fully interested in getting this off of our respective plates. Unfortunately, I am once again asking that you put a charge in your staff to get this process moving forward and brought to immediate conclusion.

After you and I spoke on May 2 (b) (6), (b) (7)(C) spoke on June 12. On June 16, NTEU sent to CBP a complete set of documents an agreement and draft notices to employees that would fully implement settlement. CBP did not reply with responsive drafts until September 8. NTEU then quickly responded with its suggestions to the drafts on September 15 and met with CBP lawyers on September 18 to review the documents.

Since then, despite numerous NTEU inquiries, only slight progress has been made. It took until October 24 for CBP to provide NTEU a counter proposal regarding the draft agreement. CBP lawyers stated that NTEU should receive the agency's response to the draft employee notices the following week. In an effort to expedite things, on November 8, despite not having CBP's response to the draft employee notices, NTEU responded to CBP's draft settlement agreement. NTEU has yet to hear back from CBP on the draft agreement or employee notices. CBP introduced further delay and uncertainty when, on October 19, agency counsel informed NTEU that back pay figures computed and sent to NTEU in January 2016 had to be "verified" by CBP's payroll office. CBP counsel initially stated that this verification was to have been completed in mid-November.

Most recently, we were informed that payroll's "verification" efforts had been delayed. CBP counsel now hopes to provide responses to the draft agreement and employee notices sometime this week, contemporaneously with the expected completion of the payment "verification" process. Based on what has transpired since our last conversation, NTEU is not confident that, without your intervention, that will actually happen.

I'm sure you won't be surprised to hear that these continuing delays are the source of great frustration to CBP Technicians. In fact, they certainly raise it with me wherever I travel. I am requesting that you instruct your staff to expedite (1) CBP's response to the proposed agreement and employee notices; and (2) the conclusion of the payroll office's review of the previously-computed settlement payment amounts.

Thank you, Kevin.

Current FMUAs prosecution procedures for EPT Texas and New Mexico Stations:

From: (b) (6), (b) (7)(C)
Sent: Saturday, August 05, 2017 3:35:32 AM
To: EPT-PAIC
Subject: NM Family Units Prosecution

New Mexico Stations,

The USAO of the District of New Mexico has sent forth new guidance that will have an impact on the processing and prosecution of family units entering in New Mexico.

Effective immediately, the USAO will accept for prosecution violations of 8 U.S.C. 1325 or 8 U.S.C. 1326 when adults are traveling with minor children if either of the following circumstances are present:

1. there is a minor child in the group and USBP cannot confirm that the child is with a parent, grandparent, adult sibling, or other close relative, and, pursuant to USBP policy, the child will be processed through the Office of Refugee Relocation (“ORR”); or
2. there is a minor child in the group with a parent, grandparent, adult sibling or other close relative, the child is at least 10 years old, and, pursuant to USBP policy, the child will be processed through ORR.

If neither of these circumstances are present, but the agent believes that there are aggravating circumstances that may justify prosecution of adults apprehended with minors, then agents must obtain prior approval from the duty attorney before charging 8 U.S.C. 1325 or 8 U.S.C. 1326.

With the anticipation that the duty attorney may receive an increased number of phone calls from the NM Border Patrol Stations, we ask the stations that they limit after hours calls for these types of cases whenever possible.

This guidance impacts only adults that are claiming to be part of a family group/unit. Current prosecutorial guidance on single adults remains in place.

Subject: Field Guidance on FMUA

Good Afternoon,

Texas Stations, we are now clear to begin the process below.

Effective immediately, the following steps must be followed when family groups are encountered in Western District of Texas.

- The US Attorney's office will be contacted to seek prosecution for the adults of every family unit arrested.
- There is no longer a requirement for the adult to have an immigration or criminal history.
- The name of the attorney, and the disposition will remain a requirement for all narratives. If prosecution is declined, the reason for the declination must also be documented.
- If prosecution of the parent/s is approved, the family separation request will be sent to (A)ACP (b) (6), (b) (7)(C) for final approval.
- Please have your agents conduct their due diligence when verifying the documentation provided by the adults of the family units
- (b) (7)(E)

With the probable increase in calls to the AUSA, it was requested that discretion be used when deciding to call the duty attorney. Every effort should be made to call the attorneys during or close to normal business hours.

- The best practice for subjects arrested during the day should be to immediately collect the information needed to present the case and call the duty attorney as soon as the information is available.
- For those subjects arrested in the late evening or very early morning, it is not unreasonable to wait until business hours to contact the attorney.
- It should not be common practice for the processing agents to contact the attorney in the middle of the night for a disposition request that could wait a matter of a few hours.

We all understand that we operate 24/7; however; there are several agencies contacting these attorneys for a variety of cases that need immediate attention. It is also understood that should

there be a more complex case that needs attention, or if guidance is needed regarding a case, there should be no hesitation to contact the duty attorney.

Family Separation:

When a family unit is separated:

The adults are processed through the court system

The children are processed as Unaccompanied Juveniles and remanded to ORR (Office of Refugee Relocation)

- Parents are provided with ORRs contact information and explained how they can get information on their children

ORR provides complete services for the children, to include: medical screening and care, education and counseling (as needed) to deal with any separation issues

ORR identifies potential suitable sponsors for the children

- Sponsors are limited to immediate family members (uncle/aunt, grandfather/grandmother, older brother/sister, etc...)

- Sponsors are vetted to ensure they can adequately care for the child/children

If a sponsor is identified and approved, travel arrangements are made and the children are set up with the necessary support and assistance (Medicaid, food stamps, etc...)

If a suitable sponsor cannot be found, the children remain in the care of ORR until:

1. Reunification and repatriation can be coordinated with the parent(s) ORR and ERO will coordinate
2. If re-unification cannot occur due to venue and/or time limitations, ORR will search for a family member in the home country, if found, the children will be repatriated to the family member in the home country ORR and ERO will work with the home country's consulate to coordinate
3. If a family member cannot be located in the home country, ORR and ERO will work with the home country's consulate for repatriation purposes
4. If arrangements cannot be made with the consulate, ORR has the ability to place the child/children into long term foster care

If the separated parents need to locate their children, they must contact ORR directly at the number listed below and ORR will assist them in locating their children.

Subject: S1 Talking Points on NVC

Sir,

Per your request for an email to prep S1 for an engagement with (b) (6), (b) (7)(C) please see below message.

START OF MESSAGE

Secretary Nielsen,

Please see below talking points for your engagement with (b) (6), (b) (7)(C) on the National Vetting Center (NVC).

We appreciate your support in advocating with (b) (6), (b) (7)(C) to quickly bring the paper Principal Committee (PC) process to a conclusion. The NSC issued the paper PC today via JWICS with a suspense for comments of December 22nd. The below talking points are intended to advocate for the creation of the NVC, and to house the capability within DHS/CBP. Please let me know if you have any questions.

Why the NVC?

- The NVC concept was first raised as part of the discussions supporting the EO 13780 Sec 5 60 day report. The concept was recommended by the interagency in that report as well as the 100 and 200 day reports. It was validated by departments and agencies as the most comprehensive way to address (b) (7)(E) automated checks against intelligence community data.
- Current intelligence community vetting processes are disorganized and disjointed. This is in part because vetting is and will always be an incidental mission for most intelligence community elements, including CIA and NSA. Mission-focused centers like NCTC, NCSC, NCPC, and a TOC center within the intelligence community are important for addressing those missions in a holistic way, but primarily via traditional analysis. Vetting is not analysis in the eyes of the IC and will always be a secondary mission that competes for resources and attention.
- We need a center of gravity for the *function* of vetting, with collocated personnel, common technology and business processes, and robust governance driven by dedicated staff focused on this issue.
- The NVC concept has already been through both an in-person Deputies Committee meeting and paper Principals Committee meeting. Both times the concept was validated and further refined.

Why housed at DHS?

- We need to ensure that departments and agencies with an adjudication mission are seeing all relevant data, simplifying the processes to obtain the data, using the same standards to adjudicate individuals using the data, and deconflicting their use of the data with intelligence community elements and law enforcement partners. These departments and agencies need unfettered, direct access to intelligence community results in order to better enable the adjudication decisions at the speed of business.

- The primary purpose of the vetting is not to inform policy-makers or even other intelligence activities, but rather to bar the entry of or remove individuals who would exploit our open borders or immigration system to do us harm. This is fundamentally a DHS and State mission.
- As negotiated during multiple rounds of NSPM review at the PCC level, placing the vetting center at DHS while maintaining a separate support element within the intelligence community strikes a balance between the competing equities of DHS and DNI.
- The goal of vetting is to identify individuals who should not be allowed to enter or remain in our country because they pose a threat to national security or public safety. This requires a comprehensive understanding of the individual being vetted (a “person-centric view”). It’s easier for DHS to access, maintain, and use data from state and local partners than it is for DNI.

U.S. BORDER PATROL
Guatemala Asylum Cooperative Agreement (ACA)
Oct 24, 2019

Program for removals of aliens to Guatemala under a safe third country model.

CURRENT STATUS

Under DHS guidance for the development and implementation of this program, CBP, ICE, and USCIS, are under continued collaboration to produce final guidance and implementation plan for this pathway.

GUATEMALA ACA PILOT LOCATION

The USBP is coordinating with ICE and USCIS to recommend El Paso as the possible pilot location for Guatemala ACA. Given this pathway will work in complement with the Interim Final Rule for Asylum (IFR also known as the Prompt Asylum Claim Review PACR), which is currently operational in El Paso.

DOCUMENTS IN PRODUCTION

- Guatemala ACA Guidelines
- Tear Sheet
- Threshold /Exception Interview Questions

At this time, DHS has consolidated all components comments to the guidelines and the questions. The goal is to finalize all documents by end of the week, 10/25/19.

It is assumed that both USCIS and CBP are in alignment of how this pathway will be executed and do not foresee any issues moving forward.
