The Honorable Robert Nation, Mayor of Chesterfield
And Members of the Chesterfield City Council
Chesterfield City Hall
690 Chesterfield Parkway West
Chesterfield, MO 63017

Dear Mayor Nation and Members of the City Council,

Please allow this letter to serve as my formal request for consideration of the position of City Attorney for the City of Chesterfield, Missouri ("Chesterfield"). Enclosed for your consideration you will find a draft agreement for services.

Municipal and Local Government Experience

My path to becoming a municipal attorney began much differently than most: it started when I became an assistant prosecuting attorney in Warren County, Missouri in 2002. I initially took the job so that I could gain real trial experience on serious felony cases; however, because Warren County was a county of the fourth classification at the time, the elected prosecutor's office was required to perform all civil work for the County as well. While I was prosecuting child abuse and child molestation cases, I was also representing the County's Planning and Zoning Commission and the County's interest on property tax appeals in front of the Board of Equalization and, ultimately, the State Tax Commission. During my time with Warren County I not only became an experienced trial attorney, I oversaw a re-draft of the County's zoning code, and I was self taught the basic fundamentals of local government law.

In 2006 I was appointed to serve as the attorney for the City of Warrenton, Missouri. The City of Warrenton employs approximately 55 full time employees and also has municipal owned water and sewer utilities. The approximate annual budget of the City is nine million dollar (\$9,000,000.00). I have served in this

capacity since 2006. I have also served as municipal attorney in the Village of Riverview since 2007, the Village of Innsbrook since 2007 and the City Attorney for Marthasville, Missouri from 2008 – 2016. In my ten (10) years of experience serving multiple municipalities, I have participated in rewrites of entire municipal codes, including the zoning ordinances where applicable, for Warrenton, Riverview, Innsbrook and Marthasville. I have experience in dealing with all types of employment and employment discrimination issues, EPA and DNR compliance, FEMA and SEMA compliance and review, economic development, administrative hearings, sunshine law issues, policy and procedure manual drafting and rewrites of comprehensive city and street plans.

I have also represented the Warren County Ambulance District since 2010. My services to the district include: representation on pay disputes for services, intergovernmental relations, policy and procedure drafting and ballot/election issues.

Municipal Litigation Experience

I have not only advised cities and governmental entities over the last 14 years; I also have significant litigation experience on behalf of government entities. The following list is not exhaustive, but rather, samples from different areas of law of municipal interest:

Engelage v. City of Warrenton, 378 S.W.3d 410 (Mo. Ct. of Appeals, 2012). A case in which the City of Warrenton prevailed in requiring Warren County to obtain and pay for a building permit for the construction of their new administration building. The City prevailed.

450 N. Lindberg Legal Fund, LLC v. City of Creve Coeur, 477 S.W.3d 49 (Mo. Ct. of Appeals 2015). A case in which a challenge was brought to the issuance of a conditional use permit for the construction and operation of an assisted living facility. I represented the developer of the facility, however, we worked very closely with the City of Creve Coeur because our interests were aligned. The City and Developer prevailed.

Warren County Ambulance District of Warren County v. Barb Daly, Warren County Clerk and Election Officer, 14BB-CC00007, Warren County, Missouri 2014. A petition filed on behalf of the ambulance district to place a property tax matter on the regular municipal election ballot. The District prevailed.

In Re: Creation of City of Warrenton Interchange Project Transportation and Development District, 13BB-CC00016, Warren County, Missouri, 2014. A Petition on behalf of the City of Warrenton to create a TDD; challenged by property owners on TDD boundaries and constitutional grounds. The City prevailed.

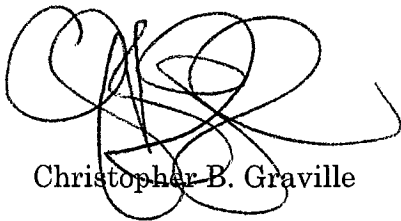

Professional Organizations

I currently serve as the Co-Chair of the Missouri Bar's local government committee. I also was asked by the Missouri Bar and am currently in the process of re-writing the local government Missouri Bar CLE desk book on police departments (including their structure and consideration for municipalities in dealing with police officers post-Ferguson). I am also a member the Municipal Court Improvement Committee, which was recently recognized for its work by the Missouri Supreme Court's Chief Justice in her annual speech to the Missouri Bar.

I have been a member of the Missouri Municipal Attorney's Association since 2007, a member of the International Municipal Lawyers Association since 2009 and a member of the Metropolitan Municipal Attorneys association since its formation in 2014.

Thank you for your time and consideration. I am happy to provide any references upon request. As a graduate of Parkway West High School, I take a lot of pride in where I grew up. I look forward to the opportunity and challenge of being a part of Chesterfield's team.

MEMORANDUM

TO: Members – F&A Committee
FROM: Michael G. Herring, City Administrator
DATE: March 29, 2016
SUBJECT: Minutes – 3-28-16

The Finance and Administration Committee met on March 28, 2016. Those in attendance included: Chairperson Barry Flachsbart, Ward I; Council Committee Member Elliot Grissom, Ward II; Council Committee Member Dan Hurt, Ward III; Council Committee Member Bruce DeGroot, Ward IV; Director of Public Services Mike Geisel; Finance Director Craig White; and Interim City Attorney Harry O'Rourke. Those also in attendance included: Mayor Bob Nation, Councilmember Barbara McGuinness, Ward I; Councilmember Bridget Nations, Ward II; Councilmember Mike Casey, Ward III; Councilmember Connie Fults, Ward IV; Management Analyst James Mello Jr and 2 members of the public.

Chairperson Barry Flachsbart called the meeting to order at 5:30 p.m.

1. Approval of Minutes from February 22, 2016

Chairperson Flachsbart asked if there were any comments or changes to the February 22, 2016 F&A Committee Minutes. Hearing none, Chairperson Flachsbart motioned to approve the Minutes. Councilmember DeGroot seconded the motion. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

2. Report from Sub-Committee Reviewing City Ordinances

Director of Public Services, Mike Geisel, advised that the designated sub-committee met and performed a word by word review comparing the Official City Code to Ordinances #7, 8 and 11 as was directed by the full committee. However, as was separately directed, Staff and Legal Counsel conducted a comprehensive review of the entire Administration Chapter of the City Code. Chapter Two of the City Code provides the full framework for administration of the City. While the complete review of Chapter Two will be provided separately, the aforementioned sub-committee of the F&A Committee recognized that the content of Ordinances #7, #8, and #11 were incorporated into Chapter Two.

Accordingly, other than limiting the sub-committee review to the narrow text of these three ordinances, there were clearly related provisions in Chapter Two of the City Code that could impact, or should at least be considered in conjunction with any review of Ordinances #7, #8, and #11. Mr. Geisel noted that Ordinance 398, passed in 1990, was the original codification ordinance and included a relatively few number of discrepancies when compared to the originally adopted ordinances – specifically Ordinances #7, 8, and 11. The nature, intent, and source of these changes could not be determined by the sub-committee. Mr. Geisel stated that his presentation would include any and all differences

between original ordinances and the codification – including language changes, additions, or omissions.

Councilmember DeGroot made a motion that all recommendations voted on by the Committee regarding agenda items 2a and 2b be deferred and reviewed by the new Finance and Administration Committee as appointed after the upcoming April 2016 elections. Councilmember Grissom seconded the motion. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

Mr. Geisel proceeded with a presentation about the sub-committee findings, citing several considerations for the Committee to act on at the conclusion of his presentation. After Mr. Geisel had presented an overview of the discrepancies, the Committee began discussion on specific proposed reconciliation options.

Chairperson Flachsbart made a motion to recommend that staff draft language for review by Interim City Attorney Harry O'Rourke draft language to repeal Section 9 of Ordinance 7, leaving only the guiding State Statute (RSMO 77.450) as the governing law. Mr. Geisel suggested that staff would draft the legislation to be reviewed by Interim City Attorney O'Rourke, and Chairperson Flachsbart amended his motion accordingly. During discussion, it was clarified by Mr. O'Rourke that Section 9 of Ordinance 7 was not in conflict with 77.450, and could be harmonized with it if it was left in place. Several hypothetical situations were discussed and interpreted through various iterations of both state law and Section 9 of Ordinance 7. Councilmember Hurt seconded the motion. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

Chairperson Flachsbart made a motion to recommend an ordinance to reconcile both Section 9 of Ordinance 8 and City Code Section 2-74 to read "The Administrator shall be the Chief Administrative Officer of the City and shall serve as the Chief Administrative Assistant to the Mayor. He shall be responsible for the administration and management of the business and employees of the City subject to the direction and supervision of the Mayor and City Council. To that end, he shall have the following duties and powers: ...". Councilmember Hurt seconded the motion. General discussion ensued about a balance of power between the Office of Mayor and the City Council as well as potential conflicts in directives given by the Mayor and/or City Council. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

Chairperson Flachsbart made a motion to reconcile Section 9(c)1 of Ordinance 8 and City Code Section 2-74(3)(a) to refer to a "City Council", removing "aldermanic" language. The motion was seconded by Councilmember DeGroot. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

While considering a reconciliation, between City Code Section 2-82 and Section 17 of Ordinance 8, which dealt with who designates a temporary City Administrator during the City Administrator's absence, a discussion ensued about the timeframe by which approval would be needed, or in the instance of longer terms of absence, a greater level of approval.

Councilmember Grissom made a motion to recommend that a reconciliation between City Code Section 2-82 and Section 17 of Ordinance 8 state that the City Administrator shall appoint a temporary City Administrator in the event of absence, and, in the event that the absence is expected to last 5 or more consecutive business days, such an appointment would require the consent of the Mayor. Councilmember Hurt seconded the motion. Discussion continued about the level of involvement the Mayor should or should not have in these temporary appointments. A voice vote was taken, with a result of 3-1 with Councilmember DeGroot voting against the motion, and the motion was approved.

Chairperson Flachsbart made a motion to recommend amending City Code Section 2-5 to read that Notice of Claim prior to institution of suit for damages against the City be sent to both the Mayor and City Administrator. Councilmember Grissom seconded the motion. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

Chairperson Flachsbart made a motion to recommend that Council strike the sentence of City Code Section 2-29 reading "The Mayor shall execute on behalf of the City all contractual and legal documents approved by the City Council." Councilmember DeGroot seconded the motion. During discussion, Councilmember DeGroot asked Chairperson Flachsbart and Mayor Nation, both of whom had or presently are serving as Mayor, how they felt about striking the language and both agreed they had no issues. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

Councilmember Grissom made a motion to recommend that Staff develop language to replace Section 2-47 of the City Code to reflect current practices of scheduling regular meetings. Councilmember DeGroot seconded the motion. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

Mr. O'Rourke confirmed that there was no conflict with State Statute on Rule 1 of City Code Section 2-50. No action was taken.

Chairperson Flachsbart made a motion to recommend the elimination of Rule 3 of City Code Section 2-50. Councilmember DeGroot seconded the motion. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

Chairperson Flachsbart made a motion to recommend that the Council consider the all recommendations to reconcile Section 9 of Ordinance 8 and City Code Section 2-74 at the same time and to include consistent language with regard to the City Administrator's accountability to the Mayor and City Council. Councilmember Grissom seconded the motion. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

After discussion regarding City Code Section 2-80, Chairperson Flachsbart asked Mr. Geisel to develop more specific recommendations for changes to the language.

Councilmember Grissom made a motion to recommend that City Code Section 2-91 be modified to remove the existing termination language regarding the City Clerk and replace it with: "The City Clerk may be removed from office by the City Administrator with the approval of Council." Chairperson Flachsbart seconded the motion. During discussion, it was confirmed that State Statute does not have any governing language regarding termination of a City Clerk. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

3. Further Inputs on Ordinances

Chairperson Barry Flachsbart asked if there were any additional inputs. There was no discussion or input.

4. Update on Changes to the Elected Officials' Email Retention

Finance Director Craig White explained that, per previous Council direction, the email retention policy for Elected Officials had been extended to seven years.

Councilmember Hurt inquired what the retention policy for employees was, and was informed that employee emails are retained for 30 days with exceptions made for manually archived emails. Director of Public Services.

Chairperson Flachsbart made a motion to request that the MIS Citizens Advisory Group review the time component (30 days) for employee e mail retention and the technology used for storage and retrieval. The motion was seconded by Committee Member Hurt. A voice vote was taken, with a unanimous result 4-0, and the motion was approved.

5. Policies versus Code/Ordinances Input

Chairperson Flachsbart asked for any additional input on the topic, and heard none.

6. New Business

The Committee had no new business to discuss.

7. Adjournment

The meeting was adjourned at 7:17 pm.

Dear Property Owner:

According to the St. Louis County Assessor's Office, you are the owner of record of a portion of the Property described above, which is located within the Broadmoor Condominiums Neighborhood Improvement District (the "District"). On August 3, 2015, the City of Chesterfield established the District and authorized the preparation of plans and specifications to replace streets and parking lots within the Broadmoor Condominiums subdivision (the "Improvements"). RE: Broadmoor Condominiums Neighborhood Improvement District and proposed special assessment affecting Lots 1 through 216 (the "Property")

Dear Property Owner:

According to the St. Louis County Assessor's Office, you are the owner of record of a portion of the Property described above, which is located within the Broadmoor Condominiums Neighborhood Improvement District (the "District"). On August 3, 2015, the City of Chesterfield established the District and authorized the preparation of plans and specifications to replace streets and parking lots within the Broadmoor Condominiums subdivision (the "Improvements"). Now that the plans and specifications have been prepared and a preliminary assessment roll calculated, the City Council has set a public hearing on the consideration of the plans and assessments.

Enclosed please find a Public Hearing Notice describing the Improvements and the special assessments proposed to be levied to finance the Improvements.

Based on the City's preliminary calculations, the Property is expected to be subject to an estimated aggregate special assessment of \$1,515,000. Once the Improvements have been constructed and final costs are determined, the assessment will be finalized and assessed against the Property as a special tax bill payable in not more than 20 equal annual installments to the City of Chesterfield plus accrued interest. The tax bill shall constitute a lien against the Property and will be recorded as such with the St. Louis County Recorder of Deeds. Actual project costs shall not exceed the cost estimated in the enclosed notice by more than 25% and may be less than the estimated costs. Written objections to the Improvements can be submitted to the office of the City Clerk, 690 Chesterfield Parkway West, Chesterfield, MO 63017 on or before the hearing date.

AGRICULTURAL LEVEE REPAIR

As explained via e mails dated 3/21/2016 and 4/4/2016, I authorized financial participation in the repair of the Agricultural Levee per the City's emergency procedures. The City's financial commitment is limited to \$80,000 to be funded by a transfer from the General Fund – Fund Reserves in excess of the 40% fund reserve policy. Per the City's policies, Staff is required to notify City Council of the emergency action at the next regular meeting of City Council. As such, **I request and recommend that the City Council acknowledge receipt of said notice and authorize the \$80,000 transfer from General Fund – Fund Reserves.**

As described in the prior correspondence, the Monarch-Chesterfield Levee District provided a like \$80,000 contribution, in addition to engineering, permitting, and contractual oversight of this work. While the Agricultural Levee is collectively maintained by group of property owners who own property between the main levee and the agricultural levee, the Monarch Chesterfield Levee District recognizes the import of the agricultural levee to the integrity of the main levee, while also recognizing that they possess unique skill and capabilities with regard to levee design, function, repair, and permitting.

As always, if you have any questions or require additional information, please contact Mr. McCarthy or me prior to meeting.

As I had advised via e mail on March 21st, I am proceeding under the provisions of the City's emergency procurement procedures to authorize the repairs to the agricultural levee. The City is not contracting for these improvements, but will be contributing \$80,000 towards the cost of repairs as a land owner. As you may remember, the costs are expected to be in excess of \$425,000 and we own 22.8% of the land between the agricultural levee and main levee. Obviously our \$80k contribution is less than 22.8% of the costs, but the levee district is contributing a larger share, even though the agricultural levee is not under the control or jurisdiction of the Monarch-Chesterfield Levee District. (all of which was described in greater detail in my earlier 3/21/2016 e mail, which I will resend for convenience and reference immediately after sending this e mail.) I received no dissenting responses to that explanation and expression of our intent.

In accordance with the City's procedure, I will authorize the City's participation in the agricultural levee repair cost, and it will be included on the 4/20/2016 Council agenda at which time Council will may formalize the transfer of said funds from the Fund Reserves in excess of the 40% reserve policy.

If you have any questions, please do not hesitate to respond and let me know.

Section 5. Emergency Purchases

The bid procedures outlined in this manual may be waived under emergency conditions of a line department. True emergency conditions are rare. Occasionally, emergency circumstances will necessitate emergency purchasing which cannot await competitive bidding. City Clerk faced with an emergency are to notify the Director of Finance and Administration as soon as possible. A full report in writing of the circumstances requiring an emergency purchase shall be submitted to the City Administration with the City Administrator within a reasonable time period after the emergency and approved by the City Council.

Subject: EMERGENCY AGRICULTURAL LEVEE REPAIRS

Mike:

As you know, the December 2015 storm event caused significant damage to the agricultural levee north of the main Monarch-Chesterfield Levee within Chesterfield Valley. The damage generally falls within two categories: (i) an approximately 300 foot area of the agricultural levee breached on the U.S. Fish & Wildlife property resulting in a large gap in the levee, and (ii) there is significant scouring along a 1,700 foot long stretch of the agricultural levee east of the washed out area. In light of the above, there is no flood protection provided to this area. Given the immediate need to have this damage repaired, the property owners whose properties are protected by the agricultural levee met on several occasions in February and March of 2016 to discuss a procedure for moving forward with repairs.

The agricultural levee is not owned or maintained by the Monarch-Chesterfield Levee District, but is the responsibility of the group of property owners which own property for which it provides protection. Both the City of Chesterfield and the Monarch-Chesterfield Levee District each own properties which are protected by the agricultural levee. Although the agricultural levee is not currently maintained by the Monarch-Chesterfield Levee District, the levee district acknowledges this is an emergency situation and is in the best interest of the levee district and the City of Chesterfield to assist with the repair efforts. Not only is the agricultural levee important in keeping floodwaters away from the Monarch-Chesterfield levee, it also provides substantial protection for the lands between the river and agricultural levee. It is also understood that while the agricultural levee is not actually a levee district responsibility, the Levee District has unique expertise, resources, and capabilities that are critical in the permitting and repair of the agricultural levee. For that reason, the levee

district attended the meetings of the property owners and has applied for permits from both U.S. Fish & Wildlife and the Corps of Engineers to allow the repair work to be completed. The U.S. Fish & Wildlife permit has been granted and we anticipate the Corps permit will be granted in the next few weeks.

Given several of the property owners are involved in the construction industry, the property owners have sought proposals utilizing their own resources and contacts, which are included in the attached documents. Ultimately, it is estimated the repair of the 300 foot gap would cost approximately \$50,000 and the repair of the scouring would cost approximately \$375,000, resulting in cumulative costs in excess of at least \$425,000. The levee district's engineer has reviewed those estimates and believes that they are conservative and likely on the low side. I have attached to this e-mail the plans and specs prepared by the landowners to complete each of the two projects.

During the most recent meeting of the property owners on March 11, 2016, the property owners proposed that they could contract directly for the completion of all the repair work if the levee district and the City would contribute \$160,000 towards the repair costs, with the remainder of the repair costs to be paid by the property owners. The Board of Supervisors of the levee district is willing to contribute \$80,000 towards the repairs costs and is requesting that the City of Chesterfield contribute the remaining \$80,000 towards the repairs costs.

In addition to the fact the repairs are in the best interest of the levee district and the City, the levee district owns approximately 10% of the ground north of the Monarch-Chesterfield Levee and the City owns approximately 23% of the ground north of the Monarch-Chesterfield Levee. If the City is willing to participate in the costs and contribute \$80,000, the levee district anticipates entering into a "contribution agreement" with the property owners whereby the levee district agrees to pay up to \$160,000 towards repairs costs after each of the two projects is completed and as long as all work is completed in accordance with the attached plans and specs and all permits.

Please let me know if the City is willing to participate in the repair efforts and contribute to the levee district \$80,000 towards the repair costs. I have attached for your reference a copy of the letter laying out the terms and conditions of the contribution. As I have mentioned previously, this situation is an emergency and in light of the upcoming flood season, please respond as soon as possible. If you have any questions or need any additional information, please let me know. As noted above, given the emergency situation, the repairs will need to be completed as soon as possible.

Thank you.

Subject: AGRICULTURAL LEVEE REPAIR - EMERGENCY PROCUREMENT PROCEDURES

I APOLOGIZE FOR THE LENGTH OF THIS E MAIL, BUT THE SUBJECT MATTER IS IMPORTANT AND I WANTED TO GIVE COUNCIL AS MUCH TIME AS PRACTICABLE IF THERE IS ANY DISSENT IN OUR STRATEGY.

I'm providing this information as an early notice and to give City Council an opportunity to provide feedback prior to acting. As often seems to be the case, there will be an action required in that short term period surrounding the April municipal elections. When this occurs we are unable to go through the normal routine processes since we do not schedule the typical first of the month meeting in April avoiding asking Council to act during a "lame duck" session.

As you may remember, at our PPW meeting on January 21st of this year, I advised City Council that the agricultural levee experienced significant damage as a result of the flooding event the last week of December and the first week of January. The extent of the damage could not be determined for a couple of months because the water had not receded from overtopping the agricultural levee.

Since the water receded, the various property owners have been meeting to identify the damage, develop a repair strategy, and develop a consensus amongst the property owners to proceed. Tom McCarthy, Jim Eckrich and I have been involved with the Levee District and property owners to develop a mutually agreeable plan of attack. Just to remind everyone, **the agricultural levee is not owned or maintained by the Monarch-Chesterfield Levee District (MCLD). Similar to the City of Chesterfield, the MCLD owns property which is protected by the agricultural levee. Traditionally, each individual property owner, farmer, commercial or public entity has contributed equally to maintain the agricultural levee based on their acreage.**

The City owns roughly 23% of the total acreage protected by the Agricultural levee, consisting of three tracts of land. The first tract is the area behind the CVAC, the second tract is the land directly north of Long Road where the police shooting range is, and the third tract is the River's Edge Park north of the Taubman Outlet. The MCLD roughly owns 10% of the protected ground which they had acquired for borrow sites or other levee purposes. The remaining 68% of the protected ground is owned by private entities or the Big Muddy Federal Reserve.

For what would be obvious reasons, each day the agricultural levee remains unrepaired, the properties are at risk of additional flooding during the rainy season. More importantly, the damaged, scoured, and eroded failed sections continue to degrade as water flows by and the slopes remain exposed and unprotected.

The repair plan is not yet finalized, which is why I can't provide you a recommendation as of yet. Material sources, methods, access and the associated cost estimates are not fully developed, but all affected parties continue to work toward developing a final solution. The MCLD has funded preliminary engineering, coordinated with Fish and Wildlife regarding the Big Muddy refuge, and also coordinated the permitting review process as necessary. **Preliminary estimates for repair of the entire agricultural levee are as high as \$425,000. This estimate assumes that this is not a municipal public works project that must be contracted by the City, coordinated and managed by the City, including bonds, insurance, prevailing wage, and easement acquisition from each of the impacted properties. In addition, I would sincerely caution against public acquisition of any easements for the agricultural levee, as that would at least suggest that the City is assuming responsibility for same, which we have NO desire to do.**

I want to share some "general" terms and an explanation of where I think this is heading in order to give you an opportunity to redirect if you feel compelled to do so. With the current preliminary estimates up to \$425,000 without the inevitable contingencies, we are hoping to establish a fixed limit of City participation of \$80,000. That is less than our 23% share of the cost, which would be in excess of \$97,750 based on our pro-rata share of the land protected by the agricultural levee. The MCLD appears to be willing to contribute a matching amount, fixed at \$80,000, and is willing to provide the technical support, oversight of work by contractors, and to act as the disbursing agent for the City's and MCLD's combined contribution of \$160,000. Most importantly, the City and MCLD's contributions represent **cost certain contributions**. If the repair work exceeds estimates, the remaining property owners would be responsible for any cost overages. Again, this is a concept that has not yet been finalized, but is being developed. **THIS IS NOT A CITY CONTRACT, IS NOT A CITY PROJECT, BUT THE \$80,000 REPRESENTS A FIXED**

COST CONTRIBUTION FROM THE CITY BASED ON A PRO-RATA SHARE OF THE TOTAL PROJECT COST. THE CITY WILL ASSUME NO FURTHER RESPONSIBILITY FOR THE REPAIR OF THE AGRICULTURAL LEVEE, AND IT WILL BE THE RESPONSIBILITY OF THE GROUP OF PROPERTY OWNERS TO COMPLETE THE WORK.

As previously described, this repair work and restoration of the agricultural levee is time sensitive. Assuming the repair strategy and the financial contributions are finalized in a favorable manner, similar to those I've described above, I would move forward to authorize this expenditure under the emergency procurement provisions of the City's Purchasing Manual. The Purchasing Manual allows me to authorize the work so long as the expenditure is reported to City Council at its next meeting. . Obviously, at this time of year, the potential of spring rains and the resultant damage which could occur at the CVAC and Rivers Edge Park provide every motivation to promptly repair the agricultural levee in order to prevent additional flooding.

I expect the construction and financial details to be worked out within the next two weeks, and that all affected parties will want the work to start immediately, very early in April. This will necessitate that the repair work will have to be authorized prior to the April 20th Council meeting.

So, while I have not exercised the emergency procurement provisions as of yet, I am letting you know that I expect to do so as soon as the construction and financial details are finalized, so long as they are sound and favorable to the City. **I want to provide you an early explanation and an opportunity to object if you do not concur. If there is any hesitancy or belief that this is not a viable emergency strategy, I will act accordingly.** I've provided a few photos and repair details in case you have any interest.

I AM AWAITING A FORMAL PROPOSAL FROM THE LEVEE DISTRICT WHEREIN THE PROPERTY OWNERS HAVE AGREED TO THE TERMS DESCRIBED ABOVE, THE LEVEE DISTRICT AGREES TO PERMIT, COORDINATE, SUPERVISE AND INSPECT THE WORK, AND ACT AS A DISBURSING AGENT ON BEHALF OF THE CITY AND LEVEE DISTRICT. I EXPECT THAT WITHIN A COUPLE OF DAYS. I WILL KEEP YOU ALL POSTED.

The damage generally falls within two categories: (i) an approximately 300 foot area of the agricultural levee breached on the U.S. Fish & Wild life property resulting in a large gap in the levee, and (ii) there is significant scouring along a 1,700 foot long stretch of the agricultural levee east of the washed out area. In light of the above, there is no flood protection provided to this area. Given the immediate need to have this damage repaired, the property owners whose properties are protected by the agricultural levee met on several occasions in February and March of 2016 to discuss a procedure for moving forward with repairs.

The agricultural levee is not owned or maintained by the Monarch-Chesterfield Levee District, but is the responsibility of the group of property owners which own property for which it provides protection. Both the City of Chesterfield and the Monarch- Chesterfield Levee District each own properties which are protected by the agricultural levee. Although the agricultural levee is not currently maintained by the Monarch-Chesterfield Levee District, the levee district acknowledges this is an emergency situation and is in the best interest of the levee district and the City of Chesterfield to assist with the repair efforts. Not only is the agricultural levee important in keeping floodwaters away from the Monarch-Chesterfield levee, it also provides substantial protection for the lands between the river and agricultural levee. It is also understood that while the agricultural levee is not actually a levee district responsibility, the Levee District has unique expertise, resources, and capabilities that are critical in the permitting and repair of the agricultural levee. For that reason, the levee district attended the meetings of the property owners and has applied for permits from both U.S. Fish & Wildlife and the Corps of Engineers to allow the repair work to be completed. The U.S. Fish & Wildlife permit has been granted and we anticipate the Corps permit will be granted in the next few weeks.

Given several of the property owners are involved in the construction industry, the property owners have sought proposals utilizing their own resources and contacts, which are included in the attached documents. Ultimately, it is estimated the repair of the 300 foot gap would cost approximately \$50,000 and the repair of the scouring would cost approximately \$375,000, resulting in cumulative costs in excess of at least \$425,000. The levee district's engineer has reviewed those estimates and believes that they are conservative and likely on the low side. I have attached to this e-mail the plans and specs prepared by the landowners to complete each of the two projects.

During the most recent meeting of the property owners on March 11, 2016, the property owners proposed that they could contract directly for the completion of all the repair work if the levee district and the City would contribute \$160,000 towards the repair costs, with the remainder of the repair costs to be paid by the property owners. The Board of Supervisors of the levee district is willing to contribute \$80,000 towards the repairs costs and is requesting that the City of Chesterfield contribute the remaining \$80,000 towards the repairs costs.

In addition to the fact the repairs are in the best interest of the levee district and the City, the levee district owns approximately 10% of the ground north of the Monarch-Chesterfield Levee and the City owns approximately 23% of the ground north of the Monarch-Chesterfield Levee. If the City is willing to participate in the costs and contribute \$80,000, the levee district anticipates entering into a "contribution agreement" with the property owners whereby the levee district agrees to pay up to \$160,000 towards repairs costs after each of the two projects is completed and as long as all work is completed in accordance with the attached plans and specs and all permits.

Please let me know if the City is willing to participate in the repair efforts and contribute to the levee district \$80,000 towards the repair costs. I have attached for your reference a copy of the letter laying out the terms and conditions of the contribution. As I have mentioned previously, this situation is an emergency and in light of the upcoming flood season, please respond as soon as possible. If you have any questions or need any additional information, please let me know. As noted above, given the emergency situation, the repairs will need to be completed as soon as possible.

Thank you.

Re: Contribution to Agricultural Levee Repairs

Dear Andrew:

As you know, this Firm represents the Monarch-Chesterfield Levee District ("Levee District"), and we have been asked to deliver this letter to you as evidence of the Levee District's commitment, subject to the conditions below, to contribute \$160,000 towards the costs of repairing the agricultural levee on the terms provided below. The Levee District acknowledges the December 2015 rain storms resulted in damage to the agricultural levee generally falling within two categories: (i) an approximately 300 feet area of the agricultural levee breached on the U.S. Fish & Wild life property resulting in a large gap in the levee, and (ii) significant scouring along a 1,700 foot long stretch of the agricultural levee east of the washed out area.

During a series of meetings that occurred in February and March of 2016 between several of the property owners whose properties are protected by the agricultural levee, including the Levee District, it was concluded the most efficient manner to complete the needed repair work would be for the property owners to contract directly for the repair work to be completed. As a result of those conversations, we understand you have obtained bids from several contractors to complete the repairs and that several property owners have offered to utilize their own contacts and resources. Additionally, the Levee District has been provided the plans and specs attached to this letter as Exhibit A identifying the type and scope of work to be completed to address the two categories of needed repair work (the "Plans").

Based upon previous communications to date between you and the Levee District, the Levee District is willing to contribute \$160,000 towards the agricultural levee repair work on the following terms and conditions:

1. All repair work must be completed strictly in accordance with the Plans by no later than September 30, 2016. To the extent there is any change in the Plans or

HUSCH BLACKWELL

the work needed, such change is subject to the approval of the Levee District in their sole discretion.

2. No repair work shall be completed until a permit is obtained from the U.S. Army Corps of Engineers, the U.S. Fish & Wildlife Service and any other governmental body having jurisdiction to grant a permit for the completion of the work. All work shall be completed in accordance with the requirements of all permits.
3. The Levee District's obligation to contribute the \$160,000 is subject to the City of Chesterfield depositing with the Levee District \$80,000 to be used towards the agricultural levee repairs and included in the amount of the Levee District's total contribution of \$160,000.
4. Each of the owners of those properties protected by the agricultural levee shall grant to the Levee District an agricultural levee easement in the form attached to this letter as Exhibit B spanning 40-feet from the centerline on each side of the agricultural levee. The Levee District will pay the costs of surveying the area over which an easement is to be granted, but will not pay any additional consideration for the granting of the easements.
5. Assuming all other terms and conditions are complied with, the Levee District will contribute (a) \$50,000 upon completion of repairs for the approximately 300 foot breach on the U.S. Fish & Wildlife property; and (b) \$110,000 upon completion of repairs for the scouring along the approximately 1,700 lineal feet of the agricultural levee east of the breach.

If you have any questions regarding this letter or the terms and conditions of the Levee District's contribution towards the agricultural levee repair costs, please contact the Levee District's attorney, David Human, at (314) 480-1710.

BID RESULTS – RIVER VALLEY DRIVE STREET CLOSURE

As detailed in the enclosed memorandum prepared by Jim Eckrich, Public Works Director – City Engineer, bids were received and publicly opened for construction of the **CLOSURE OF RIVER VALLEY DRIVE**.

Based upon a review of the information contained within said memo, I join with Mr. Eckrich in recommending acceptance of the lowest and best bid to Krupp Construction in an amount not to exceed \$155,000. Please note that approval of this contract must also be accompanied by a motion to transfer \$155,000 from General Fund – Fund Reserves as previously recommended by City Council. In addition, Staff is recommending that City Council pass/approve Bill No. 3079 which restricts parking along River Valley Drive due to the narrow roadway and vertical curbing (See LEGISLATION). Finally, the River Bend Association is proposing to pay for the fabrication of a plaque honoring the former Mayor and Councilmember, Nancy Greenwood. It is Staff's understanding that the plaque would then be installed on one of the fence sections to be constructed adjacent to the closure gate itself.

As you may remember, this recommendation was originally on the 3/21/2016 agenda but was held due to concerns regarding the ability of the River Bend Trustees to convey the property rights associated with this project.

I recommend that this item continue to be held until the next Council meeting on May 2nd, such that an executive session can be scheduled to discuss the project.

To summarize, City Council is being asked to take the following actions at Wednesday's meeting:

- **Approve award of a contract to Krupp Construction, in an amount not to exceed \$155,000.**
- **Approve transfer of \$155,000 from the General Fund – Fund Reserves**

As always, if you have any questions, please contact Mr. Eckrich or me, PRIOR to Wednesday's meeting.

BID RESULTS – RIVER VALLEY DRIVE CLOSURE

As detailed in the enclosed MEMO, prepared by Jim Eckrich, Public Works Director/City Engineer, bids were recently opened for construction of the **CLOSURE of River Valley Drive**. Based upon a review of the information contained within said MEMO, I join with Mr. Eckrich in recommending award of a contract to **Krupp Construction, in an amount-not-to-exceed \$155,000**. Please note that approval of this contract must also be accompanied by a motion to **transfer \$155,000 from General Fund – Fund Reserves**, in order to fully-fund this project. In addition, Staff is recommending that City Council pass/approve **Bill No. 3079** (See **LEGISLATION**). Finally, the River Bend Association is proposing to pay for the fabrication of a plaque, honoring former-Councilmember Nancy Greenwood. It is Staff's understanding that the plaque would then be installed on one of the fence sections to be constructed adjacent to the closure gate itself.

To summarize, City Council is being asked to take the following actions, at Monday's meeting:

- **Approve award of a contract to Krupp Construction, in an amount-not-to-exceed \$155,000**
- **Approve transfer of \$155,000 from General Fund - Fund Reserves**
- **Approve placement of a plaque on one of the sections of fence, located within City right-of-way, adjacent to the closure gate**

If you have any questions, please contact Mr. Eckrich or me, PRIOR to Monday's meeting.

RE: River Valley Drive Closure

As directed by City Council, in May of 2015 Public Services Staff provided a report detailing the impacts of the closure and / or vacation of River Valley Drive and Hog Hollow Road. This report was generated in response to the potential development of the Howard Bend area within the City of Maryland Heights. At that time City Council directed City Staff to prepare plans and a cost estimate for the closure of River Valley Drive. As you may recall, the City Attorney reviewed this matter and advised that a closure could be effected so long as the closure was constructed in conformance with City road standards and the public impacts were thoroughly considered.

In November of 2015 City Staff submitted plans and an estimate for the closure of River Valley Drive to the Planning and Public Works Committee. Those plans and estimate were reviewed by the Committee and recommended for approval to City Council, who unanimously authorized Staff to create a bid package. Bids for the River Valley Drive Closure Project were opened on March 8, 2016, as detailed in the attached memorandum from Civil Engineer Chris Krueger. City Staff recommends that this project be awarded to Krupp Construction in the amount of \$155,000, which includes the low bid amount of \$140,281.55 and a modest contingency. The City has contracted with Krupp Construction previously and they have performed satisfactory.

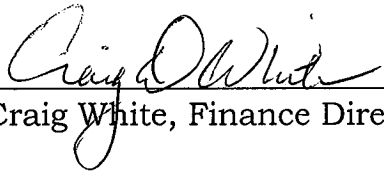

Area residents have expressed concerns about motorists parking on the new cul-de-sac. To alleviate these concerns and to ensure sufficient space for motorists to turn around using the cul-de-sac, City Staff is recommending the passage of the attached ordinance which would restrict parking on both sides of River Valley Drive from the City Limits to a point 160 feet south of the gate including the cul-de-sac. (SEE BILL # 3079)

The River Bend Association is proposing a memorial to former Councilmember Nancy Greenwood which will be in the form of a bronze plaque. An initial proof of the proposed plaque is attached. The shape and size of the text are generic and may change slightly. The River Bend Association is providing the memorial plaque at no cost to the City.

Action Recommended

I request and recommend that this matter be forwarded to City Council for consideration of approval of an agreement with Krupp Construction and the attached ordinance restricting parking on River Valley Drive. Should Council concur with this recommendation it should approve the attached ordinance and authorize the City Administrator to execute the necessary contract documents with Krupp Construction. Additionally, City Council should authorize the transfer of \$155,000 from General Fund – Fund Reserves above the forty percent policy to account 120-079-5490.

RE: 2015-PW-14 River Valley Drive Closure Project - Construction Contract

As you know, bids were publicly opened for the River Valley Drive Closure Project. This project will consist of a roadway gate, fencing, the addition of a cul-de-sac, and the replacement of approximately 200 LF of pavement on River Valley Drive. The project plans and specifications were completed by City Staff.

Staff opened bids on March 8, 2016 at 10:00 am for the project. Three bids were received. The three responsive bidders were Krupp Construction, RV Wagner, and Spencer Contracting. Please see the attached Bid Tabulation for detailed information on each bid.

Krupp Construction provided the lowest responsive and responsible total bid of \$140,281.55 (bid attached). With positive past project experience and favorable reference checks, I recommend the bid from Krupp Construction.

As part of this project, a parking restriction is proposed on both sides of River Valley starting at the City limits and terminating at a point 40 feet northwesterly of the south property line of River Valley Drive. This would restrict parking on both sides of River Valley Drive from the City Limits to a point 160 feet south of the gate including the cul-de-sac.

I recommend requesting authorization to enter into an agreement with Krupp Construction to provide construction services for the River Valley Drive Closure Project in an amount not to exceed \$155,000.00. This amount includes a modest contingency to account for any unforeseen conditions and/or additional work. I also recommend consideration of the attached ordinance to restrict parking on both sides of River Valley Drive at the gate and cul-de-sac.

If you have any questions, or need additional information, please let me know.

Dear Mike,

The Parkway School District remains most concerned with the City of Chesterfield's decision to close River Valley Drive. As you know, should residential development occur within the Maryland Heights Bottoms, closure of this road would negatively impact our ability to transport students to the nearest elementary school, River Bend Elementary, which could significantly increase our costs.

It is our understanding that, in designing the closure of River Valley Drive, accommodations are being made for emergency vehicles, such as fire trucks and ambulances. However, drivers of such vehicles would be required to exit their vehicles in order to activate/open the "gate". School bus drivers simply cannot exit their vehicles. However, if the closure could be designed in such a manner to provide for electronic activation, then all those who, on occasion, would need to use River Valley Drive, including our school bus drivers, could do so without leaving their vehicles. We ask that consideration be given to designing/building the closure structures, with this in mind.

Given your planned retirement, as of March 31, 2016, I am asking that you forward this letter to the appropriate staff members and ask that they contact me directly, prior to any meetings when the closure of River Valley Drive will be discussed. This would specifically include any meetings during which action is contemplated, regarding construction contracts for the River Valley Drive closure. Before any final decisions are made, regarding the design and construction of this closure, I am requesting the opportunity, as Parkway's Superintendent, to address Chesterfield's Mayor and City Councilmembers, by way of endorsing the construction of a closure system with electronic activation, which would be used by our school bus drivers, in addition to those who drive fire trucks and ambulances. In the meantime, please forward a copy of this letter to your elected officials. I am happy to discuss my concerns with anyone, prior to any final decisions being made.

Thank you, Mike.

Sincerely,

Keith A. Marty, Ed.D.

Subject: River Valley Drive Closure
Attachments: DOC031616.pdf

As directed by City Council, the Public Works division has been pursuing the closure of River Valley Drive just south of the Chesterfield City Limits. That project has been bid and consideration of approval of a construction project will be submitted to City Council as part of the March 21, 2016 meeting packet. Subsequent to the project being designed, Dr. Keith Marty, Superintendent of the Parkway School District, sent the attached letter, a copy of which should have been received by each of you. That letter reiterates Parkway's objection to the closure and requests that if such a closure is approved, that the gate be designed in such a manner that it can be electronically activated by the driver of a school bus.

The gate is currently designed as a manual gate that would have to be opened by the driver physically getting out of his/her car and unlocking the gate. This meets the requirements of the Monarch Fire Protection District and is similar to the design of other gates throughout the City. We anticipate that the gate would rarely be used and believe that this style of gate is appropriate given the current circumstances. That said, Dr. Marty's points are valid and the solution he proposes is possible. We believe an electronic / automatic gate could be designed and constructed for approximately \$15,000 - \$20,000. However, there are still questions as to whether the development of the Howard Bend area within the City of Maryland Heights will actually occur. Accordingly, I would recommend against the additional expenditure of an electronic gate at this time. If that area is developed and if the school district wants access through River Valley at that time, an electronic gate could always be added later. It is even possible (although not a certainty) that we could negotiate that the developer be required to pay a portion of the costs for the electronic gate.

We obviously value the relationship with Parkway School District. I have contacted Dr. Marty and explained the reasons behind the proposed closure. I explained that PPW and Council wanted to close River Valley prior to development of the Howard Bend Area to ensure that anyone buying property in that area would understand that access would not be provided via River Valley Drive. Dr. Marty understood this rationale and also questions whether the Howard Bend area will actually be developed with residential property. He understood that it may not be in the City's best interest to install an electronic gate at this time, but would like for the City to consider a gate modification if the Howard Bend area develops with residential property and the Parkway School District desires access through River Valley Drive.

I have discussed this matter with Mr. Herring and Mr. Geisel, and am providing you this email so you have all of the information prior to the City Council meeting on March 21. If you have questions or need additional information, please let me know.

One caveat, and I wish I was able to catch this before Harry sent out his letter.

But it should be made clear that this projects approval by council was predicated upon the Trustees assertion that they would provide the right of way and/or easements. If there is an effort to obtain concurrence of the multitude of property owners, that effort should be initiated by the trustees and not City staff. We have NO ability to initiate or undertake this level of effort.

-----Original Message-----

To begin with, having conferred with both Mr. Geisel and Mr. Eckrich at the time that this issue has been brought to our attention. However, having said that, Jim has confirmed to me that the easements that the Trustees signed over constitute the same property described in the general warranty deed and title report that the Shanfelds emailed you. **Based on that, it appears that the Shanfelds are correct - the Trustees did not have the power to grant the easements and the City does not have any interest in the property right now.** Since the Shanfelds indicate that they, at least, will not grant the easement to the City - the only way for the City to proceed at this point is (1) to try to get as many property owners to sign over easements to the City, and (2) to acquire the rest by way of a condemnation suit. I would think that the actual value to each individual household will be low, since all the lot owners own the property as tenants-in-common. However, it is the only way to proceed at this point based on the documents I have now reviewed. I am available to answer any questions you might have and am also prepared to discuss this, at tonight's City Council meetings.

Re: Proposed Closure of River Valley Drive - Ownership Common Land of River Bend Subdivision

Gentlemen:

We are writing to you as the owners of Lot 171 of River Bend Estates 2nd Addition, known and numbered as 171 Henning Drive, Chesterfield, Missouri 63017

Enclosed is a copy of General Warranty Deed dated June 8, 1962, recorded in Book 4846 Page 96 of the St. Louis County Recorder's Office, by which the original developer of the River Bend Subdivision deeded and conveyed certain Common Land of the Subdivision to the Trustees of the Subdivision for a period of twenty (20) years, after which time the applicable Common Land of the Subdivision became vested in the Lot Owners of the Subdivision, as Tenants in Common.

Also enclosed is a copy of Title Commitment No. 5288STL effective date 8/4/2015, issued by Old Republic National Title Insurance Company, confirming that the Lot Owners of the Subdivision own the applicable Common Land of the Subdivision as Tenants in Common, as provided and contemplated by the 1962 Deed.

As you know, pursuant to Right of Way Dedication instrument dated January 20, 2016, recorded in Book 21869 Pages 0454 thru 0461 of the St. Louis County Recorder's Office, the current Trustees of the Subdivision have purported to convey a portion of the applicable Common Land of the Subdivision to the City of Chesterfield, for the construction by the City of the turn-around to effect the closure of River Valley Drive.

Any conveyance of the applicable Common Land requires the written agreement of all of the Lot Owners of the Subdivision, as the Tenants in Common Owners of the applicable Common Land. As the Owners of a Lot on the Subdivision, we did not and we do not agree or consent to the conveyance of any portion of the Common Lands of the Subdivision to the City, and we did not and we do not agree or consent to any change in use of the Common Land or any construction of any roadway in the Common Land.

Please be advised that: (a) we, along with the other Lot Owners of the Subdivision continue to own the applicable Common Land as Tenants in Common; (b) the 2016 Deed by the Trustees to the City of Chesterfield is wholly ineffective to grant or convey any interest whatsoever in the Common Land to the City of Chesterfield; (c) the 2016 Deed by the Trustees to the City of Chesterfield is slander of title; and (d) any entry by the City of Chesterfield onto the Common Land described in the applicable deeds, and any construction activity by the City of Chesterfield on the applicable Common Land, will be actionable trespass.

As a Tenant in Common Owner of the applicable Common Land, we intend to fully assert our ownership right in the Common Lands, and we intend to hold applicable parties liable for slander of title, for damages and for actionable trespass, by all appropriate legal proceedings.

Respectfully submitted,

Andrew B. Shanfeld

RE: 2016 Sidewalk Replacement Project A

As you know, due to the impacts of the Emerald Ash Borer (EAB) the Public Services Department has directed the street maintenance personnel to begin removing the 6,700+ Ash Trees located within the public right of way, as detailed in the EAB Action Plan approved by City Council in late 2015. Because the maintenance division will be concentrating its efforts on tree removal, the funding for 2016 contractual sidewalk repair was increased from \$200,000 to \$500,000. The Public Services Department plans to address sidewalk deficiencies through three separate project / contracts in 2016. The first of these projects, known as the 2016 Sidewalk Replacement Project A, will correct sidewalk deficiencies along Schoettler Valley Drive and Country Ridge Drive. Two additional projects are planned for 2016 and will be submitted to City Council later this year.

The Department of Public Services publicly opened bids for the 2016 Sidewalk Replacement Project A on April 5, 2016. The results of the bid opening are detailed in the attached memorandum from Project Manager Matt Dooley. After reviewing the bids, Staff recommends the project be awarded to the low bidder, K.J. Unnerstall Construction, in the bid amount of \$219,475. ←

K.J. Unnerstall has successfully performed concrete flatwork in the City of Chesterfield in the past and is positively recommended by City Staff.

Should you have questions or require additional information on this project, please let me know.

Action Recommended

This matter should be forwarded to the City Council for consideration. Should Council concur with Staff's recommendation, it should authorize the Acting City Administrator to enter into an Agreement with K.J. Unnerstall Construction in the amount of \$219,475. .

RE: River Valley Drive Closure

As directed by City Council, in May of 2015 Public Services Staff provided a report detailing the impacts of the closure and / or vacation of River Valley Drive and Hog Hollow Road. This report was generated in response to the potential development of the Howard Bend area within the City of Maryland Heights. At that time City Council directed City Staff to prepare plans and a cost estimate for the closure of River Valley Drive. As you may recall, the City Attorney reviewed this matter and advised that a closure could be effected so long as the closure was constructed in conformance with City road standards and the public impacts were thoroughly considered.

In November of 2015 City Staff submitted plans and an estimate for the closure of River Valley Drive to the Planning and Public Works Committee. Those plans and estimate were reviewed by the Committee and recommended for approval to City Council, who unanimously authorized Staff to create a bid package. Bids for the River Valley Drive Closure Project were opened on March 8, 2016, as detailed in the attached memorandum from Civil Engineer Chris Krueger. City Staff recommends that this project be awarded to Krupp Construction in the amount of \$155,000, which includes the low bid amount of \$140,281.55 and a modest contingency. The City has contracted with Krupp Construction previously and they have performed satisfactory.

Area residents have expressed concerns about motorists parking on the new cul-de-sac. To alleviate these concerns and to ensure sufficient space for motorists to turn around using the cul-de-sac, City Staff is recommending the passage of the attached ordinance which would restrict parking on both sides of River Valley Drive *from Ridgcrest Drive to the northern City Limits.*

The River Bend Association is proposing a memorial to former Councilmember Nancy Greenwood which will be in the form of a bronze plaque. An initial proof of the proposed plaque is attached. The shape and size of the text are generic and may change slightly. The River Bend Association is providing the memorial plaque at no cost to the City.

Action Recommended

I request and recommend that this matter be forwarded to City Council for consideration of approval of an agreement with Krupp Construction and the attached ordinance restricting parking on River Valley Drive. Should Council concur with this recommendation it should approve the attached ordinance and authorize the City Administrator to execute the necessary contract documents with Krupp Construction. Additionally, City Council should authorize the transfer of \$155,000 from General Fund - Fund Reserves above the forty percent policy to account 120-079-5490.

RE: 2015-PW-14 River Valley Drive Closure Project - Construction Contract

As you know, bids were publicly opened for the River Valley Drive Closure Project. This project will consist of a roadway gate, fencing, the addition of a cul-de-sac, and the replacement of approximately 200 LF of pavement on River Valley Drive. The project plans and specifications were completed by City Staff.

Staff opened bids on March 8, 2016 at 10:00 am for the project. Three bids were received. The three responsive bidders were Krupp Construction, RV Wagner, and Spencer Contracting. Please see the attached Bid Tabulation for detailed information on each bid.

Krupp Construction provided the lowest responsive and responsible total bid of \$140,281.55 (bid attached). With positive past project experience and favorable reference checks, I recommend the bid from Krupp Construction.

As part of this project, a parking restriction is proposed on both sides of River Valley starting at the Ridgecrest Drive to the City limits including the proposed cul-de-sac and gate.

I recommend requesting authorization to enter into an agreement with Krupp Construction to provide construction services for the River Valley Drive Closure Project in an amount not to exceed \$155,000.00. This amount includes a modest contingency to account for any unforeseen conditions and/or additional work. I also recommend consideration of the attached ordinance to restrict parking on both sides of River Valley Drive from Ridgecrest Drive to the City Limits.

If you have any questions, or need additional information, please let me know.

RE: Greentrails Drive South Reconstruction
2013-PW-06, STP-5410(619)

In August of 2013 City Council authorized execution of a Surface Transportation Program Agreement with the Missouri Highways and Transportation Committee for the reconstruction of Greentrails Drive South from Ladue Road to White Road (Ord. 2751). In accordance with the STP Agreement, the federal share of this project is not to exceed \$1,731,450.00

Preliminary design plans were completed by the City's design consultant for this project, HR Green, Inc., and approved by MoDOT in July of 2014. Right of way plans were completed in January 2015 and upon approval from MoDOT, acquisition of 43 temporary slope construction licenses (TSCLs) needed to construct the project began in June of 2015. All required TSCLs were acquired by November 2015 and Right of Clearance and authority to advertise the project for construction were received from MoDOT in February 2016.

Bids for the project were solicited in March 2016 and were opened on April 6th, 2016 at 10:00am. There were four bidders on the project; J.M. Marschuetz Construction, Pavement Solutions, Gershenson Construction, and Millstone Weber. The bid tabulation for the project is attached. J.M. Marschuetz Construction is the lowest, responsive and responsible bidder with a total bid of \$2,099,214.25 (copy of bid attached).

I recommend requesting authorization to accept the low bid as submitted by J.M. Marschuetz Construction and award a contract in the amount of \$2,099,214.25, with a total funding authorization from the Capital Projects Fund not to exceed \$2,225,000.00. This amount includes a modest allowance for contingency funding to account for any unforeseen conditions and/or additional work.

Please let me know if you have any questions, or need additional information. Prior to signing the contract documents, we will also need concurrence from MoDOT.

FROM: Tom McCarthy – Parks, Recreation and Arts Director
DATE: March 22, 2016
SUBJECT: Pool Management Contract Extension- Chesterfield Aquatic Center

As you are aware, City Council approved a contract with Midwest Pool Management for the Management services of the Chesterfield Family Aquatic Center for the calendar year 2012-2014, with options to extend the contract for 2015 and 2016. With a very successful 2015 season, we would like to go ahead and recommend the extension of the contract for the fifth year for 2016 as it covers the contractual obligations in managing the Chesterfield Family Aquatic Center.

In the past, the Contract was broken into two different payment methods, a Management Fee and a Salary Fee. The Management Fee for 2016 is \$45,509 and the Salary budget shall not exceed \$210,120.

Therefore, we are recommending that the City exercise the option to extend the current contract with Midwest Pool Management for one additional year, at a cost not to exceed \$255,629, for the calendar year of 2016. This amount is fully-funded within the proposed FY2016 Budget, Account 119-084-5251 Misc. Contractual.

Accordingly, I request that this contract recommendation be forwarded to City Council for approval and authorization to contract with Midwest Pool Management Services not to exceed the amount of \$255,629. Funds for the contract have been approved in the 2016 Misc. Contractual Account 119-084-5251

ADDITIONAL TERMS OF ENGAGEMENT

Our Client. The person(s) or entity(ies) who are the client in this engagement are limited to those specifically stated in the accompanying engagement letter. In order to avoid misunderstandings and/or inadvertent conflicts of interest in the future, it is understood that, in the absence of written agreement to the contrary, neither this engagement nor our work in connection with this engagement shall be understood or taken to create an attorney-client relationship with other, including related or affiliated (e.g., parent, subsidiary, shareholder, partner, joint venture, etc.), persons or entities.

Provision of Legal Services, Generally. This engagement is for provision of professional legal services and not for the provision of business, personal, accounting, technical, financial or other advice not constituting legal services. It is agreed that the client is not relying upon counsel in this engagement for advice in areas other than professional legal services, even if such matters should be discussed in connection with the engagement.

Bond Counsel Services. If legal services involve bond/note counsel services, including the rendering of an approving opinion of bond or note counsel: except as expressly provided in the foregoing letter, such services do not include assisting in the preparation or review of an official statement, private placement memorandum or other form of offering or disclosure document to be disseminated in connection with the sale of the obligations or any other disclosure document with respect to the obligations, or performing an independent investigation to determine the accuracy, completeness or sufficiency of any such document or rendering advice regarding the official statement or other disclosure document. Other than preparation and delivery of transcripts, such services do not include providing continuing advice to you or to or any other party after closing on the obligations. Customarily, an approving opinion is delivered on the date the obligations are exchanged for their purchase price. An approving opinion will be based on and issued subject to facts and law existing as of its date. In rendering our approving opinion, we will rely upon the certified proceedings and other certifications of public officials and other persons furnished to us without undertaking to verify the same by independent investigation, and will assume continuing compliance by the issuer of the obligations with applicable laws relating to the obligations. During the course of this engagement, we will rely on you or other applicable parties to provide us with complete and timely information on all developments pertaining to any aspect of the obligations and their security. It is hereby acknowledged that the various legal opinions delivered concurrently with the delivery of bonds or notes express the professional judgment of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. By rendering a legal opinion, the opinion giver does not become an insurer or guarantor of that expression of professional judgment, of the transaction opined upon, or of the future performance of parties to such transaction, nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

Entire Agreement. The accompanying engagement letter, together with these Additional Terms of Engagement, shall constitute the entire agreement between us concerning the engagement and shall not be modified or supplemented, except in a subsequent writing signed by the parties.

Periodic Billings for Legal Services. Unless other arrangements have been made, it is our policy to render periodic statements for legal services on a monthly basis. We normally base these interim statements on hourly rates of lawyers and legal assistants working on the matter. Statements will be due upon presentation and are to be paid no later than thirty (30) days following the invoice date. The amounts paid on our interim billings are applied to the total final fee. If any statement amount remains unpaid sixty (60) days after the invoice date, the firm reserves the right to terminate its services, consistent with applicable Rules of Professional Conduct.

Determining the Fee. Generally, fees are primarily based on hourly rates for the respective lawyer or legal assistant involved. These rates vary depending on expertise and experience. We adjust these rates from time to time, as lawyers gain experience and expertise, and with economic conditions. When agreed to by engagement letter, fees are sometimes fixed irrespective of the hours involved. Circumstances, including those set out below may require departure from the application of hourly rates. Determination of the total final fee may await conclusion of each specified case or matter so that all relevant factors may be considered.

The firm has clients in multiple states. Our lawyers are subject to rules governing the professional conduct of lawyers in those states. In addition to time spent, these rules list other factors that can be considered in determining a reasonable fee. These include: reputation, the skill and experience required to complete the services properly; the extent to which the acceptance of the particular matter will preclude other employment; the amount involved; the results obtained; the time limitations imposed by the client or by the circumstances; the nature and length of the professional relationship with the client; and whether the fee is fixed or contingent. In the absence of agreement

with you, those factors will not be used to increase our billings for fees above the charge resulting from application of hourly rates.

Paralegals/Legal Assistants/Document Clerks. Certain work will be done by paralegals, sometimes called "legal assistants." Such persons, although not lawyers, have undergone training to perform certain kinds of services at lower rates. In matters involving significant quantities of document management, document clerks may be used to perform tasks at lower rates than those of legal assistants. All such work is supervised by lawyers. The use of such persons allows us to deliver legal services to you at a lower cost.

Client Disbursements. Matters may require, from time to time, certain monetary advances to be made on your behalf by the firm. Some of "client disbursements" represent out of pocket charges we advance, others represent internal costs (including costs such as fees for service of process, court filing fees, deliveries, copying charges, travel expenses, computer assisted legal research, etc.). It is understood that while acting as your lawyers, we have the authority to use our best judgment in making such expenditures on your behalf. Unless we have made prior arrangements with you, we will send you monthly billings for client disbursements incurred during the preceding month. If the nature of the matter is such that we anticipate substantial advances, we may require a separate deposit for such purpose. Substantial individual items in excess of \$250, such as expert witness fees, the costs of deposition transcripts, printing costs, etc., may be billed directly to you by the vendor of such services. In many matters when lawyers must examine legal authorities, it is more economical to accomplish the task using computer databases of legal precedents (instead of the traditional method of manual retrieval). In such instances, the special charges assessed by the provider of these services are shown on client disbursement billings as "Electronic Research."

Client Files. During the course of client representation, this firm retains electronic and paper records relating to the professional legal services we provide so that we are better able to assist you with your legal needs and, in certain situations, to comply with professional guidelines. We employ physical, electronic, and procedural safeguards to preserve client confidentiality and to protect your non-public information. This firm agrees to retain and securely store your client files (which include documents generated by this firm, by the client, and by others) for a period of six (6) months after completion or termination of the representation, absent other written agreement between this firm and you regarding disposition of your files. You may request, in writing, the return of your client files at any time within such six (6) month period. Absent such a written request, your files will be deemed abandoned. In such case, you hereby authorize this firm to destroy your files at any time after expiration of such six-month period. All such client files will be destroyed unless this firm is otherwise required to retain same pursuant to the Code of Professional Responsibility or the Ethical Rules promulgated thereunder.

E-mail Confidentiality. This firm often communicates using e-mail. Any attorney or legal assistant e-mail could contain attorney-client, confidential, or other privileged communications. While the firm makes every effort to ensure that our e-mail and server are secure, Missouri lawyers are required by the Missouri Bar Disciplinary Counsel to notify prospective recipients of e-mail that (1) e-mail communication is not a secure method of communication, (2) any e-mail that is sent to you or by you may be copied and held by various computers it passes through as it goes from the firm to you or vice versa, and (3) persons not participating in our communication may intercept our communications by improperly accessing your computer or the firm's computer or even some computer unconnected to either you or the firm that the e-mail passes through. Unless you otherwise instruct us in writing, this firm will assume you have consented to receive communications via e-mail. If in the future you change your mind and want future communications to be sent by a different method, please contact the firm in writing immediately.

Public Information. The firm represents many governmental entities throughout the region and undertakes pro bono and other actions in order to protect the interests of our municipal clients. By this engagement you agree we may share public information among our municipal clients in furtherance of your interests, for educational purposes, to establish qualifications or experience, or otherwise to allow our lawyers to provide service to local governments or otherwise promote municipal interests, provided that the firm's sharing of public information does not authorize disclosure of confidential information unless deemed impliedly or expressly authorized in furtherance of your specific representation.

TO: Michael G. Herring

Public Works Director / City Engineer

RE: River Valley Drive Closure

As directed by City Council, in May of 2015 Public Services Staff provided a report detailing the impacts of the closure and / or vacation of River Valley Drive and Hog Hollow Road. This report was generated in response to the potential development of the Howard Bend area within the City of Maryland Heights. At that time City Council directed City Staff to prepare plans and a cost estimate for the closure of River Valley Drive. As you may recall, the City Attorney reviewed this matter and advised that a closure could be effected so long as the closure was constructed in conformance with City road standards and the public impacts were thoroughly considered.

In November of 2015 City Staff submitted plans and an estimate for the closure of River Valley Drive to the Planning and Public Works Committee. Those plans and estimate were reviewed by the Committee and recommended for approval to City Council, who unanimously authorized Staff to create a bid package. Bids for the River Valley Drive Closure Project were opened on March 8, 2016, as detailed in the attached memorandum from Civil Engineer Chris Krueger. City Staff recommends that this project be awarded to Krupp Construction in the amount of \$155,000, which includes the low bid amount of \$140,281.55 and a modest contingency. The City has contracted with Krupp Construction previously and they have performed satisfactory.

Area residents have expressed concerns about motorists parking on the new cul-de-sac. To alleviate these concerns and to ensure sufficient space for motorists to turn around using the cul-de-sac, City Staff is recommending the passage of the attached ordinance which would restrict parking on both sides of River Valley Drive from the City Limits to a point 160 feet south of the gate including the cul-de-sac.

The River Bend Association is proposing a memorial to former Councilmember Nancy Greenwood which will be in the form of a bronze plaque. An initial proof of the proposed plaque is attached. The shape and size of the text are generic and may change slightly. The River Bend Association is providing the memorial plaque at no cost to the City.

Action Recommended

I request and recommend that this matter be forwarded to City Council for consideration of approval of an agreement with Krupp Construction and the attached ordinance restricting parking on River Valley Drive. Should Council concur with this recommendation it should approve the attached ordinance and authorize the City Administrator to execute the necessary contract documents with Krupp Construction. Additionally, City Council should authorize the transfer of \$155,000 from General Fund – Fund Reserves above the forty percent policy to account 120-079-5490.
