Welkom Welcome

Er is een steentje verlegd in de rivier.

Het verhaal van Denis-Plants vindt zijn oorsprong in December 1975.

Begonnen als bescheiden potplantenkweker en stap per stap geëvolueerd naar een volwaardig jongplanten bedrijf door middel van afharding van in-vitro vermeerderde weefselplanten, en dit alles in eigen beheer.

We hebben dit enkel kunnen realiseren op basis van onze vaste familiale waarden en normen, en door ons gedreven team van medewerkers.

Steeds hebben we het familiale karakter, bij alle facetten van onze bedrijfsvoering, als stille drijfkracht gehanteerd, zonder het sociale en het ecologische aspect uit het oog te verliezen.

Ook de opvolging van de nieuwste technologieën en de implementatie ervan zijn een vaste waarde binnen het bedrijf, met een vernieuwende assortimentsverbreding als resultaat.

Hierover zijn we bijzonder trots nu we de fakkel doorgeven.

De toekomst is verzekerd.

Johan Vrancken is onze nieuwe kapitein.

Hij zal als mede-eigenaar het gedegen schip door de aankomende stormen loodsen, door onder meer verder te investeren in energie- en waterbesparende technologieën. Nieuwe verdelingstechnieken en biologische bestrijding staan ook hoog genoteerd, met oog voor een gezond economisch-sociaal ondernemingschap, en dit alles met dezelfde familiale invalshoek.

A little stone has been moved in the river.

The story of Denis-Plants finds its origins in December 1975.

Started out as a modest pot plant nursery, and step by step evolved to a full-fledged young plant company by means of hardening tissue culture propagated plants, all under our own management.

None of this could have been realized without our fixed norms and values, and our dedicated staff.

The family character of our business has always been the red line in whatever we did, without losing sight of the social and ecological aspects.

Our investments in the newest technologies and its implementation in our production have been core values of our company and have resulted in an expansion of our innovative product range.

We are most proud of this, as we pass the torch.

The future has been secured.

Johan Vrancken is our new captain.

As co-owner he will guide our solid ship through the coming storms by, among other things, investing in energy- and water saving technologies. New breeding techniques and biological pest control are also important priorities, with a focus on sustainable socio-economic entrepreneurship, and all of this with the same family approach that has characterized our company for years.

'Denis-Plants
YOUR QUALITY LABEL'

Denis-Plants from *history* to

future

December 1975 *Start*

The story begins with the acquisition of the family business. We continue to build on the extensive experience of a company with a large selection of 15 species of warm greenhouse plants, such as Philodendron, Ficus, Aechmea, Marantha and others.

As from the 1980s, because monoculture allows for more efficient planning and steady production as well as a larger impact on the market, the company converts to the monoculture of Schefflera. This specialization continues to be part of Denis-Plants.

It soon became clear that a further vertical specialization was needed and the company chose to focus on the young plants segment. While constructing a new greenhouse the company opted for the latest techniques: complete recirculation of water, all available energy saving modalities and optimal climate control. As of 1987, Denis-Plants starts making use of in-vitro technology and focuses increasingly on the hardening of tissue culture plants. This bio-technical, cutting-edge technology inspired Denis-Plants to further invest in this market segment.

Today, Denis-Plants has evolved into one of the most renowned young plant producers, covering 30.000 m² of greenhouses and

a production of 12 million hardened plants on an annual basis. The range of plants includes some 800 varieties, covering indoor plants, perennials and heliobores. The company has been working constantly on sustainable and environmentally friendly ways of cultivating its plants and has been awarded the MPS A+ label, the highest possible certification.

The company has its own R&D lab focusing on the initialization of starting material, the optimization of in-vitro protocols and the support of our multiplication and cloning facilities in Vietnam and Botswana, which are exclusive partnerships operating under complete supervision of Denis-Plants.

With such a solid structure, a highly qualified and dedicated team, Denis-Plants will continue to be your reliable partner in the floriculture world.

Most proud of:

René: maintaining the family character in all aspects of business operations.

Behind every great man stands a strong woman

Solange: a driving force, with a lot of positivism and patience, is necessary to build a strong belief in the future.

The big step forward:
Full control of the production process:
breeding, lab initialization, lab propagation,
hardening.

as from 2022

Johan

Being the son of self-employed parents, I've been raised with entrepreneurial norms and values. As a result, I've always had the ambition to run a company myself and participate in it. My meeting with René and Solange felt like "a match made in heaven". A great company, a fascinating product, loyal and competent employees, in short, a family business with solid foundations and with a great potential for further growth and development. I'm thrilled to put my shoulders under this wonderful project and will take up my role with lots of enthusiasm and devotion.

Johan Vrancken
"Born in Bree, Belgium, on November 14th 1975, a great vintage year in which also Denis-Plants was incorporated. Living in Kruisem (East-Flanders), married to Catherine and proud father of Julie and Mathieu. Master in Business Engineering (UHas-selt), completed with a post graduate degree in Finance (KU Leuven) as well as a Master Class in Corporate Finance (Vlerick Business School). 25 years of management experience and determined to add many more years at Denis-Plants."

We stay
innovative

Fog greenhouse Fog serre

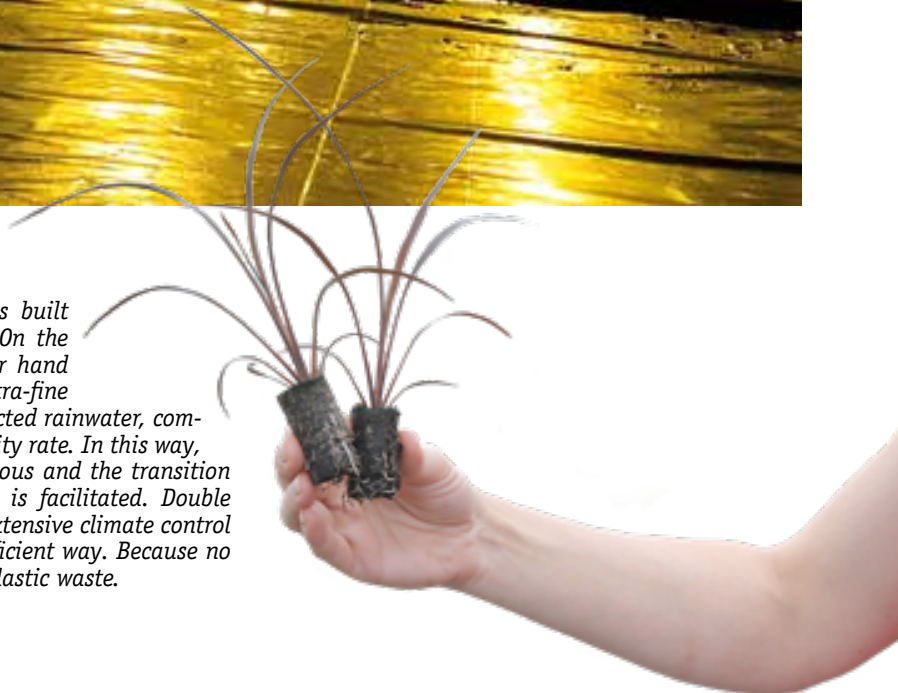

Fog serre

In het najaar van 2021 heeft Denis-Plants een nieuwe en moderne fog serre van 1700 m² in gebruik genomen. Enerzijds om de productie uit te breiden, anderzijds om het afhandingproces verder te optimaliseren. Een ultrafijne sproei-installatie die gefilterd en gedesinfecteerd regenwater vernevelt, gecombineerd met ventilatoren, garanderen een constante hoge luchtvochtigheid. Op deze manier verloopt de productie van jongplanten homogener en wordt de overgang van weefselcultuur naar normale klimaatomstandigheden vergemakkelijkt. Dubbele schermdoeken, dubbele folie, grondverwarming en een doorgedreven klimaatsturing dragen ertoe bij op een energiezuinige manier het klimaat te optimaliseren. Omdat er geen stekfolies meer gebruikt worden kunnen we ook ons plastic afval reduceren.

Fog greenhouse

During the second half of 2021 Denis-Plants has built a new and modern fog greenhouse of 1700 m². On the one hand to expand our production, on the other hand to further optimize the hardening process. An ultra-fine sprinkler system that nebulizes filtered and disinfected rainwater, combined with fans, guarantees a constant high humidity rate. In this way, the production of young plants is more homogeneous and the transition from tissue culture to normal climate conditions is facilitated. Double shading screens, double foil, ground heating and extensive climate control contribute to optimize the climate in an energy-efficient way. Because no more cutting film is used we can also reduce our plastic waste.

Algemene handels- en verkoopvoorwaarden BV DENIS-PLANTS

Artikel 1

Huidige algemene voorwaarden zijn de enige welke toepasbaar zijn, zelfs indien de klant gebruik maakt van eigen voorwaarden. Afwijkingen van deze voorwaarden zijn slechts mogelijk mits uitdrukkelijke schriftelijke instemming.

Artikel 2

Alle offertes zijn vrijblijvend en slechts geldig tijdens de aangegeven termijn. Bestellingen zijn slechts bindend voor BV Denis-Plants na schriftelijke bevestiging. De afgifte van een pro-forma rekening geldt niet als schriftelijke bevestiging. BV Denis-Plants behoudt zich het recht voor bestellingen te weigeren en geen verkoopsovereenkomst af te sluiten wanneer de koper nog tot betaling gehouden is van één of meer reeds vervallen facturen. BV Denis-Plants behoudt zich het recht voor de aanvaarding van een bestelling afhankelijk te maken van de voorlegging door de koper van een bankgarantie of een documentair krediet of van de aanvaarding van de overeenkomst door een kredietverzekeraar. Indien door overmacht BV Denis-Plants enige overeenkomst niet of slechts gedeeltelijk kan uitvoeren, zal zij geen vergoeding verschuldigd zijn. Onder overmacht worden niet-limitatief volgende gevallen begrepen: vervoersproblemen, overheidsmaatregelen, verlies, weersomstandigheden enz. BV Denis-Plants verbindt er zich in deze omstandigheden wel toe te trachten de bestelde goederen te vervangen door gelijkaardige goederen. Indien de levering van de bestelde soorten, maten en aantallen niet mogelijk is, heeft BV Denis-Plants het recht deze door de dichtst benaderende te vervangen, ten ware anders overeengekomen werd.

Artikel 3

De facturen zijn, behoudens andersluidend beding, contant betaalbaar zonder korting op de zetel van BV Denis-Plants. De gefactureerde bedragen zijn verschuldigd, zelfs als deze afwijken van bedragen vermeld in een offerte. Bij niet-betaling op de vervaldag wordt de schuldvordering, zonder voorafgaandelijke ingebrekestelling, geheel en onmiddellijk opeisbaar, onverminderd een conventionele rente per jaar van 10 % en een conventionele schadevergoeding van 10 % met een minimum van 125,00 euro, onverminderd iedere aansprakelijkheid van de koper voor eventueel koersverlies.

Artikel 4

De koper wordt slechts eigenaar van de verkochte goederen nadat de koopprijs zal betaald zijn. De koper verbindt er zich toe de goederen niet te vervreemden, onroerend te maken of te verwerken alvorens volledige betaling te hebben verricht. Dit eigendomsvoorbehoud kleeft enkel aan de betreffende geleverde goederen die nog niet betaald zijn. De verkoop houdt nooit afstand in van enig intellectueel eigendomsrecht tenzij uitdrukkelijk schriftelijk anders overeengekomen.

Artikel 5

Geen enkele klacht nopens gebreken aan de geleverde goederen of de uitvoering van de verkoopovereenkomst zal ontvankelijk zijn indien deze niet binnen 48 uur na ontvangst van de goederen wordt geformuleerd. Ieder protest dient binnen de 8 dagen na ontvangst van de goederen of bij voorafgaande facturatie binnen de 8 dagen na ontvangst ervan, per aangetekend schrijven bevestigd te worden. Welkdanig gebrek aan het geleverde levert aan de koper geen ander recht dan de vervanging ervan, t.t.z. de aansprakelijkheid van BV Denis-Plants is beperkt tot levering van het vervangend product, zonder welkdanige andere vergoeding uit welken hoofde ook lastens BV Denis-Plants te kunnen eisen.

Artikel 6

Het vervoer van de verkochte goederen geschiedt, behoudens andersluidende voorafgaandelijke overeenkomst, steeds voor rekening van en op risico van de koper. Behoudens andersluidende voorafgaandelijke overeenkomst, worden alle goederen afgehaald op de zetel van de verkoper. Tenzij de verkoper aanvaard heeft zelf voor het vervoer van de verkochte goederen in te staan of te laten gebeuren, draagt de verkoper nooit enige verantwoordelijkheid voor het transport of levering bij de koper of derden. Bij vertraging van levering door de verkoper zal de koper nooit recht hebben op enige schadevergoeding. De verpakkingskosten en andere voorgeschoten kosten worden aangerekend tegen kostprijs en tegen rembours genomen.

Artikel 7

Door het plaatsen van een bestelling stemt de klant er mee in dat BV Denis-Plants alle meegedeelde gegevens van de klant mag opslaan en gebruiken conform de GDPR regelgeving.

Artikel 8

Alle overeenkomsten en handelsrelaties worden beheerst door het Belgisch recht. Alle twistingen dienen beoordeeld te worden door de bevoegde rechtbanken te Gent.

General Terms and Conditions of Trade and Sales BV DENIS-PLANTS

Article 1

Present general terms and conditions are the only ones that are applicable, even if the customer uses his own terms and conditions. Derogations from the present terms and conditions are only possible with explicit written consent.

Article 2

No offer is binding and offers are only valid during the indicated period. Orders are only binding for BV Denis-Plants after written confirmation. The issue of a pro forma invoice does not have the value of a written confirmation. BV Denis-Plants reserves the right to refuse orders and not to conclude a sales agreement if the buyer is still liable to pay one or more already expired invoices. BV Denis-Plants reserves the right to make the acceptance of an order dependent on the buyer's submission of a bank guarantee or documentary credit or the acceptance of the agreement by a credit insurer. If by force majeure BV Denis-Plants cannot execute wholly or only partially any agreement, it will not be liable to pay any compensation. Force majeure includes non-exhaustive following cases: transport problems, government measures, loss, weather conditions etc. In these circumstances BV Denis-Plants undertakes to try to replace the ordered goods with similar goods. If delivery of the ordered types, sizes and quantities is not possible, BV Denis-Plants has the right to replace it by the nearest approximate, unless otherwise agreed.

Article 3

The invoices are, unless otherwise agreed, payable in cash without discount at the registered office of BV Denis-Plants. The invoiced amounts are due even if they deviate from the amounts stated in an offer. In the event of non-payment on the due date, the claim will be due and payable in full and immediately, without prior notice of default, notwithstanding a conventional interest of 10% per year and a conventional compensation of 10% with a minimum of 125,00 euros, without prejudice to any liability on the part of the buyer for any currency exchange loss.

Article 4

The buyer only becomes the owner of the goods sold after the purchase price has been paid. The buyer undertakes not to alienate the goods, to transform them into real property or to process them before full payment has been made. This retention of title only applies to the delivered goods that have not yet been paid. The sale never implies a waiver of any intellectual property rights unless expressly otherwise agreed in writing.

Article 5

No complaint regarding defaults in the delivered goods or the execution of the sales agreement will be acceptable if it is not formulated within 48 hours of receipt of the goods. Every protest must be confirmed by registered letter within 8 days of receipt of the goods or in the event of a previous invoice within 8 days of receipt thereof. Any default in the delivered goods does not give the buyer any other right than the replacement thereof, i.e. the liability of BV Denis-Plants is limited to the delivery of the replacement product, whereby no other compensation can be claimed from BV Denis-Plants.

Article 6

The transport of the sold goods is, unless otherwise agreed in advance, always at the risk and expense of the buyer. Unless otherwise agreed, all goods are collected at the seller's head office. Unless the seller has accepted to take care of the transport of the sold goods or to have them done, the seller never bears any responsibility for the transport or delivery to the buyer or third parties. In case of delay of delivery by the seller, the buyer will never be entitled to any compensation. The packaging costs and other advanced costs are charged at cost price and cash on delivery.

Article 7

By placing an order, the customer agrees that BV Denis-Plants may register and use all the data provided by the customer in accordance with the GDPR regulations.

Article 8

All agreements and trade relations are governed by Belgian law. All disputes must be judged by the competent courts in Gent.

NL: De samenstellers van deze catalogus hebben met zorg en zo betrouwbaar mogelijk gewerkt.
