JANE'S TIMELY GARDENING TIPS

Hi there, I'm Jane the gardening person. I've been in the gardening arena for many years, on TV, radio, writing in magazines and taking garden tours. The big thing I love is plants of all shapes and sizes, edibles, indoor, fruiting, ornamentals... they are all so fascinating. They keep me involved, because without them, where would our world be?

Every so often I will give you my impression of some plants that my friend Di has in her catalogue. Enjoy.

- Jane Edmanson

WHAT'S HOT THIS MONTH...

***Dahlia imperialis* – Tree Dahlia:**

Growing on strong stems up to 7 to 8 metres these dahlias are quite majestic when in flower, living up to the species name imperialis.

They have clusters of single or double flowers and are pendulous, so perfect to see from below. Flowering over autumn they grow well in temperate climates and are best suited to frost free areas.

Cut back to ankle height in winter and they will reshoot in spring with no need to lift the tubers.
