AT THE
CORE
OF GREAT PROJECTS
EVERYWHERE.

FINLAND

Oasis of
the Seas

At ESAB, we believe welding holds the world together. See how we're at the core of many impressive projects at this year's FABTECH.

Here's what else you can look forward to when ESAB comes to FABTECH.

- Experience demos of the new Heliarc® AC/DC TIG welder
- Observe the strength of the Warrior™ multi-process welding machine
- View live demos of PowerCut® manual plasma and CNC cutting systems
- See an array of filler metals in action – from AlcoTec® aluminum to AristoRod® solid wire and DualShield® X Series cored wire
- Watch amazing iconic stories come to life on the big stage
- Check out some of the latest in welding automation processes

To get a sneak peek at our booth, visit esabna.com/fabtech2013.
And be sure to stop by **booths N1449 and N1145** in the North Hall at the show.

BRAZIL

Your Future is Bright with TRUMPF.

TRUMPF Engineered for your competitive advantage.

With TRUMPF's industry leading, innovative technology the future is bright for fabricators. No other manufacturer offers every 2D laser cutting machine model with the option of a solid-state or CO₂ laser. And, at FABTECH we will introduce a cutting feature exclusive to TRUMPF that will take solid-state laser cutting to a whole new level. Our punching machines and press brakes are available in hydraulic and electric formats, and offer unmatched precision and capability. Standard and customized automation concepts are available for all fabrication technologies and products are backed by an extensive support network including custom finance programs; the largest most comprehensive training program in North America; spare parts, applications and software support; and much more. At FABTECH - Come see why your future is bright with TRUMPF.

HOW TO USE THE ON-SITE GUIDE & DIRECTORY

The show directory is divided into several tabbed sections to make it easy for you to find whatever you need while visiting FABTECH at **McCormick Place**.

GENERAL INFORMATION

Beginning on page 9, find information on attendee event services such as baggage check, first aid, lost and found, hotel shuttle information and also schedules, descriptions and room locations for special events at this year's show.

EDUCATIONAL PROGRAMS & PROFESSIONAL EVENTS

Starting on page 22, preview schedules and room locations for the FABTECH Education Program including seminars, workshops, technical conferences, professional programs and association events and meetings for the 2013 event.

NEW PRODUCTS

The first tabbed section found on page 28, contains details about the new products and technologies introduced at the show. Take the opportunity to review the descriptions provided by the exhibitors prior to visiting their booth to see the products in action.

EXHIBITOR LIST

The second tabbed section found on page 59, is an alphabetical listing of exhibitors who are showcasing their equipment. This includes important exhibitor contact information that can be used as a resource when you return to your office. Exhibitor List is current as of 10/09/13.

PRODUCT CATEGORIES

The third tabbed section found on page 183, provides a list of exhibitors by specific technology or type of equipment or service displayed in their booths. Use this section as a quick index to compare equipment at the show.

EXHIBIT FLOOR PLANS

The fourth and final tabbed section found between pages 278 and 279, is a visual representation of the exhibitor booth locations, including an alphabetical list of all exhibitors represented in the show. There are two maps, one for exhibitors located in the **North Hall** and one for exhibitors located in the **South Hall**.

WELCOME TO FABTECH 2013!

Dear FABTECH 2013 Attendee,

On behalf of the Fabricators & Manufacturers Association, International, SME, American Welding Society, Precision Metalforming Association and the Chemical Coaters Association International, welcome to North America's largest metal forming, fabricating, welding and finishing event.

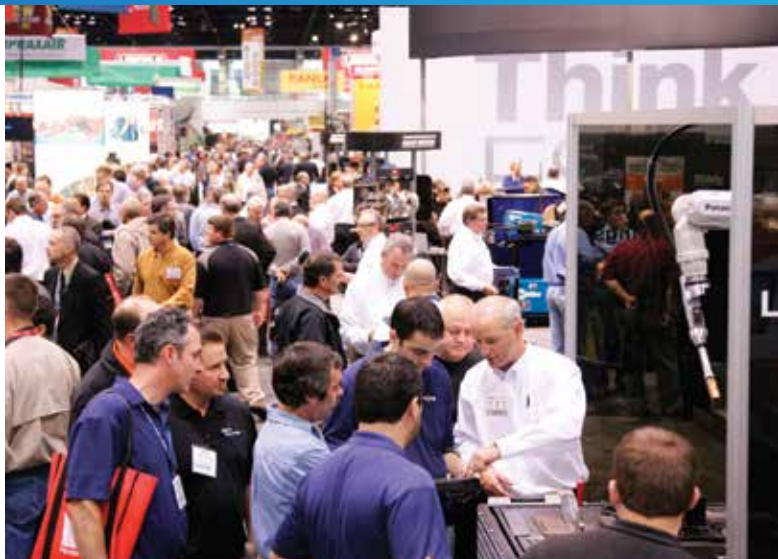

The event continues to grow to meet the demands of the industry. This year will be the largest FABTECH to date. Over the next four days, you will be able to connect with over 1,500 exhibiting companies, preview over 500 new product introductions, network with more than 35,000 industry peers and discover the latest metal forming, fabricating, welding and finishing equipment and services throughout 600,000+ net square feet of floor space in both the North Hall and South Hall of McCormick Place.

FABTECH is more than a trade show. The event is a learning environment, where knowledge is gained not only at the exhibits but beyond the show floor. Each of the co-sponsoring organizations collaborate to provide over 100 educational sessions designed with the industry in mind and focus on key issues and trends impacting business today. Complimentary featured events are offered daily, including two Keynote presentations, State of the Industry: Executive Outlook, and a General Session focused on Workforce Development solutions.

In addition, the show provides a number of value added Special Events to enhance your FABTECH experience including daily new product presentations, a Professional Welders Competition, and networking opportunities at the FABTECH Happy Hour and Cocktails and Comedy.

FABTECH is a proud supporter of the metal forming, fabricating, welding and finishing industries and strives to provide you the best show in the industry. In the next four days, we hope you take the opportunity to experience all the innovation and cutting-edge education FABTECH offers. Thank you for attending FABTECH 2013, and enjoy the show.

ABOUT THE SHOW

FABTECH is the largest metal forming, fabricating, welding, tube & pipe, and finishing event in North America. The event exists to bring buyers and sellers together in a convenient venue that facilitates business relationships, networking, education, and the buying process. This premier industry trade show and conference is cosponsored by the American Welding Society (AWS), the Fabricators and Manufacturers Association, International (FMA), SME, the Precision Metalforming Association (PMA) and the Chemical Coaters Association International (CCAI).

CONNECT AT FABTECH

FABTECH is not just an event, it's a year-round experience. Connect and engage with other industry professionals and show attendees on FABTECH's social media sites—before, during and after the event!

Check out the new FABTECH blog! Find the latest industry news and technology updates, along with updates on the FABTECH exposition and conference at blog.fabtechexpo.com.

HOW TO LOCATE EXHIBITORS ON THE SHOW FLOOR

Exhibitor Booths

The show encompasses both the North Hall and South Hall at McCormick Place. The exhibitor booths are arranged in five (5) technology areas. Overhead signs are displayed throughout the show floor to indicate each technology area, making it convenient for you to find and compare the products and services that you are interested in. In addition, the directory includes a floor plan which is color-coded by these five technology areas:

	Forming & Fabricating
	Metal Forming, Tool/Die
	Finishing
	Tube & Pipe
	Welding

New Products

Each year hundreds of new products debut at FABTECH. You will find that each exhibitor with a new product on display is noted with a light bulb at their booth. In addition, you can look for this icon  in front of their name in the Exhibitor List section of this directory and on the exhibitor Floor Plan. You can also find new product information in the tabbed New Product section of this directory starting on page 28.

Exhibitors by Product Listings

You can refer to the Product Categories tabbed section of the directory to find companies listed by the products and services they provide. Here you will find over 450 individual product categories with exhibitor name and booth number listed below each category.

SHOW REGISTRATION

On-site registration is located in the Grand Ballroom (S100), West Transportation Lobby and the 2.0 level concourse. Anyone who will be attending the exposition MUST register to receive a badge to be admitted to the show. Admission to the exposition is FREE for FMA, SME, AWS, PMA, and CCAI members and \$50 for non-members. Student admission is FREE for members and is \$5 for non-members. No one under the age of 16 will be admitted, and proof of age may be required.

REGISTRATION HOURS

	Attendee	Exhibitor
Monday, November 18	7:00 a.m. – 5:00 p.m.	7:00 a.m. – 5:00 p.m.
Tuesday, November 19	7:30 a.m. – 4:00 p.m.	7:00 a.m. – 4:00 p.m.
Wednesday, November 20	7:30 a.m. – 4:00 p.m.	7:00 a.m. – 4:00 p.m.
Thursday, November 21	7:30 a.m. – 2:00 p.m.	7:00 a.m. - 2:00 p.m.

EVENT SERVICES

ATMs

Cash machines are available in each building: South Level 2.5 in the Convenience Center; North Level 2, near McDonalds; West Level 1 near the Transportation Center and Lakeside Level 2, near the Arie Crown Theater box office. All cash machines accept American Express, VISA, Master Card, Cirrus and Plus.

Badge Corrections

Anyone who will need changes to an exposition or conference badge can go to registration in the Grand Ballroom, (S100) or the 2.0 level concourse. Changes cannot be made in the West Transportation Lobby registration area.

Badge Pick Up

Pre-registered attendees can pick up their show badge at any one of three locations; the Grand Ballroom (S100), West Transportation Lobby or the 2.0 level concourse.

Business Center

FedEx Office is located on:

Level 2.5 of the Grand Concourse in the South Building. It is open Monday Through Friday, 8:30 a.m. until 5:00 p.m.

Satellite stores are also located on:

Level 2 in the North Building
Level 2 in the West Building
Level 2 in Lakeside Center

These are open based on event activity in the facility.

Coat/Baggage Check

Permanent Location at Gate #4, at the entrance to the Hyatt Regency McCormick Place and South Building, Gate 2 (Level 1 near the Ground Transportation Lobby)

Monday, Nov. 18 8 a.m. – 6 p.m.
Tuesday, Nov. 19 7 a.m. – 6 p.m.
Wednesday, Nov. 20 . . . 7 a.m. – 6 p.m.
Thursday, Nov. 21 7 a.m. – 5 p.m.

First Aid/Emergency

McCormick Place provides wheelchair-accessible first aid stations in each building. They are operated and staffed by licensed medical professionals. Stations

are fully-equipped and include automated external defibrillators (AEDs) to respond to life-threatening occurrences.

There are First Aid areas located in each building:

Lakeside Center: Level 1 nearby the Arie Crown Theater Dressing Room Entrance

South and North Buildings: Level 2.5 of the Grand Concourse nearby the FedEx Office

West Building: Level 1 nearby the Transportation Center

* Hours of operation and location are based on event activity in the facility.

Lost and Found

Lost items turned in can be claimed in Security, room S400c. Phone: (312) 791-6809.

Lost Badges

Lost exposition and conference badges can be reprinted at the designated registration areas.

Media Center

The Media Center is located in room N427d. Phone: (312) 791-6803,

Fax: (312) 791-6804. Official members of the press are required to register in the Media Center for show and conference admission. Proper credentials are required.

Hours of operation:

Monday, Nov. 18 8 a.m. – 6 p.m.
Tuesday, Nov. 19 8 a.m. – 5 p.m.
Wednesday, Nov. 20 . . . 8 a.m. – 5 p.m.
Thursday, Nov. 21 8 a.m. – 3 p.m.

VIP Lounge

The VIP lounge is located in room N427a. Visitors must present VIP badge for admission.

Hours of operation:

Monday, Nov. 18 10 a.m. – 6 p.m.
Tuesday, Nov. 19 9 a.m. – 5 p.m.
Wednesday, Nov. 20 . . . 9 a.m. – 5 p.m.
Thursday, Nov. 21 9 a.m. – 3 p.m.

Wi-Fi

McCormick Place now provides free Wi-Fi. This amenity is available throughout the facility, including all common hallways, exhibit halls and meeting rooms.

DISABILITY SERVICES

Assisted Hearing

McCormick Place has TTY access available at the Security Command Center located in the North Building on Level 1. For more information, call the TTY number at (312) 791-6505.

PUBLIC TRANSPORTATION

The Regional Transportation Authority (RTA) manages the 3 public transit operations in northeastern Illinois: The Chicago Transit (CTA), Metra commuter rail and Pace suburban bus. For information on routes and schedules, contact the RTA via the web at rtachiago.org or call the Transit

Information Hotline at (312) 836-7000.

Bus Services: Getting to McCormick Place is possible by using the city transit system. The Chicago Transit Authority provides the following bus service and runs approximately every 15 minutes. Drop off is located at the main entrance to the South Building on Martin Luther King Drive.

Regional Transit Authority (METRA): Located on Level 2.5 of the Grand Concourse in the South Building, the METRA Electric commuter railroad provides direct service within seven minutes to and from downtown Chicago. Service from the Randolph Station (near the Fairmont Hotel) to McCormick Place begins early morning, with more frequent pick-ups during rush hours.

Taxis: Both plentiful and easy-to-hail downtown and at the airports, taxis offer a convenient way to get around the city. Taxis charge a base rate of \$2.25 for the first 1/9 mile, plus, \$0.20 for each additional 1/9 mile. If a gas surcharge is in effect, a sign will be displayed

inside the taxicab and a surcharge may apply. Tolls are an extra charge. Taxicab charge \$1 for the first additional passenger; each additional passenger after that is \$0.50.

Credit cards are accepted in all cabs by city mandate. It is standard to tip the driver about 15-20% of the fare, plus \$1-2 per bag if the driver helps you with luggage. Please note that all fares are subject to change. Sample taxi fare between downtown and O'Hare Airport is \$40-50, and between Midway Airport is \$30-35.

McCORMICK PLACE PARKING

There are three main McCormick Place lots, A, B & C. Attendees are encouraged to utilize parking Lot A, which is the primary parking location close to FABTECH. Parking fees can be paid by cash or credit card; VISA, MasterCard and American Express are accepted.

Lot A: Parking rate is \$28 for up to 16 hours and \$34 from 16 to 24 hours. There are no in-and-out privileges. Overnight parking is available in Lot A only.

Lot B: Parking rate is a flat fee of \$14 per day with no in-and-out privileges. This parking lot is open throughout event hours. Overnight parking is not available.

Lot C: Parking rate is a flat fee of \$21 per day with no in-and-out privileges. This parking lot is open throughout event hours. Overnight parking is not available.

GENERAL INFORMATION

Continuing Education Credits

Individuals who attend AWS education programs are awarded 1 PDH (Professional Development Hour) for each hour of education program attendance. Individuals seeking FMA Recertification Credits will be awarded 2 credits for each conference session attended (forming & fabricating, cutting, or finishing tracks) plus an additional 2 credits for attending the show. For further information, please contact the appropriate credentialing body directly for details on earning continuing education credits at FABTECH events.

Tax Deduction

An income tax deduction may be allowed for expenses of education (including registration fees, travel, lodging, and meals) undertaken to maintain and improve professional skills. (Treas. Reg. Sec. 1.162-5). Contact your tax consultant for additional details.

Solicitation Information

Unauthorized solicitation (suitcasing/outboarding) of or marketing to exhibiting companies is strictly prohibited. Selling activities and distribution of literature, samples and marketing materials are permitted only from within the booth space of officially contracted exhibitors.

Photography/Filming Restrictions

No videotapes, motion picture film, or other type of cameras are allowed in the exposition area except those belonging to news media and technical press, or approved in advance by FABTECH Public Relations staff. Check-in is required at the Media Room, N427d. The use of camera phones for the sole purpose of photography at the show is prohibited.

EXHIBITOR ADVISORY COUNCIL

The FABTECH Exhibitor Advisory Council (EAC) was established to provide show management with industry input and feedback on trade show issues. The group meets annually during the shows and communicates throughout the year. All exhibitors are encouraged to contact Council members or show management with ideas, feedback, and concerns. The Council is comprised of experienced personnel from exhibiting firms representing each of the five show technology areas.

ABOUT THE SHOW SPONSORS

FABTECH is cosponsored by five leading industry associations; the American Welding Society (AWS), the Fabricators and Manufacturers Association, International® (FMA), SME, the Precision Metalforming Association (PMA) and the Chemical Coaters Association International (CCAI).

The Fabricators & Manufacturers Association, International, headquartered in Rockford, Ill., USA, is a non-profit educational association dedicated exclusively to metal forming and fabricating professionals. Founded in 1970, it is considered the world's largest educational association for its industry, with thousands of members worldwide. FMA provides in-depth technical information and educational opportunities through conferences, award-winning magazines, extensive research services, and co-sponsorship of the FABTECH International series. Visit FMA at www.fmanet.org.

SME connects all those who are passionate about making things that improve our world. As a nonprofit organization, SME has served practitioners, companies, educators, government and communities across the manufacturing spectrum for more than 80 years. Through its strategic areas of events, media, membership, training and development, and the SME Education Foundation, SME shares knowledge to advance manufacturing. At SME, we are making the future. Together. To learn more, visit www.sme.org.

The American Welding Society (AWS) was founded in 1919 as a multifaceted, non-profit organization with a mission to advance the science, technology and application of welding and allied joining and cutting processes, including brazing, soldering, and thermal spraying. Headquartered in Doral, Florida and led by a volunteer organization of officers and directors, AWS serves about 70,000 members worldwide and is composed of 22 Districts with 250 sections and student chapters. For more information, visit www.aws.org.

The Precision Metalforming Association is the full-service trade association representing the \$113-billion metalforming industry of North America—the industry that creates precision metal products using stamping, fabricating, spinning, slide forming and roll forming technologies, and other value-added processes. Its nearly 1,000 member companies also include suppliers of equipment, materials and services to the industry. PMA leads innovative member companies toward superior competitiveness and profitability through advocacy, networking, statistics, the PMA Educational Foundation, FABTECH and METALFORM tradeshow, and MetalForming magazine. Visit PMA at www.pma.org.

The Chemical Coaters Association International is a technical and professional organization that provides information and training on surface coating technologies. CCAI's foundation is its series of active local chapters across the U.S. that conduct technical meetings on all aspects of organic finishing. Chapters serve as an excellent forum to discuss regional concerns while offering outstanding networking opportunities for finishers and suppliers. CCAI works to raise the standards of finishing operations through educational meetings and seminars, training manuals, certification programs, and outreach programs with colleges and universities. Visit CCAI at www.ccaiweb.com.

Membership information can be obtained in the booth of the sponsoring association, or by contacting the sponsoring association directly.

SPECIAL EVENTS

FREE AND OPEN TO ALL ATTENDEES

MONDAY, NOVEMBER 18

Keynote Presentation

9:00 a.m. – 10:00 a.m.

Location: Grand Ballroom (S100)

Alan Beaulieu, President, ITR Economics™

NAVIGATING THE FISCAL REALITY

Business leaders are uncertain in the face of conflicting financial reports. What will Washington do? Will Europe pull through? Is China a problem? During this dynamic presentation, Alan Beaulieu, President of ITR Economics™, will take a look at what's really going on in the U.S. and in markets that impact our industry. He will present the economic outlook for the global economy with the clarity that business leaders have come to expect from ITR. This is a must-attend for decision makers who will gain the confidence to plan and position their company for success and prepare for changes that are coming over the next few years.

State of the Industry Executive Outlook

12:30 p.m. – 1:30 p.m.

Location: FABTECH Theater, Grand Concourse

Is the U.S. manufacturing renaissance fact, or just fiction? Conventional wisdom points to improvement, but many factors such as the fiscal cliff and tax structure, healthcare costs, and labor have impacted expected growth with many of the businesses that attend FABTECH. Hear from leaders representing job shops, manufacturers and other service providers who are dealing with the same issues discuss how they navigate these challenges to remain competitive in today's economy. Join the interactive Q & A led by Economist Alan Beaulieu, to ask questions and offer your perspective on the future of the industry. Return to your company with new insights that will guide your decision-making in 2014.

Moderator: Alan Beaulieu, President, ITR Economics™

Panel: Jeff Oravitz, President, MetoKote Corporation
 Dr. Dennis S. Bray, President & CEO, Contour Precision Group LLC
 William J. Adler, Jr., President, Stripmatic Products, Inc.

TUESDAY, NOVEMBER 19

Keynote Presentation

8:30 a.m. – 9:30 a.m.

Location: FABTECH Theater, Grand Concourse

Scott A. Kartvedt, Executive Consultant, Afterburner, Inc.

ACCELERATING PERFORMANCE THROUGH FLAWLESS EXECUTION

Flawless Execution is a continuous improvement model that was born and bred in the zero tolerance-for-error world of military aviation and elite-group combat operations where failure is not an option. Hear Scott A. Kartvedt, former Blue Angel pilot, share the model's leadership tools that can be used by organizational leaders and teams to leverage the same execution, leadership, communication, teamwork, and disciplined techniques of Elite Military professionals. Learn how to accelerate your team's performance and begin building a team that executes flawlessly every day.

BONUS: One lucky keynote attendee will win an Afterburner Day (4-6 hrs training based on the Flawless Execution Model) for up to 30 people in their organization (Retail value: \$17,500).

WEDNESDAY, NOVEMBER 20

Solutions for a Qualified Workforce Pipeline

12:30 p.m. – 1:30 p.m.

Location: FABTECH Theater, Grand Concourse

Workforce development has leaped to the top of the chart as one of the key challenges manufacturers face to remain competitive in today's global economy. Hear a panel of leading professionals discuss how education, industry and government are working together to build and strengthen the future manufacturing workforce pipeline. This panel will enlighten attendees and outline solutions for developing employees of tomorrow to meet the skilled labor needs of today's manufacturer.

Moderator: Pam McDonough, President/CEO, Alliance for Illinois Manufacturing/ North Business & Industrial Council

Panel: Stacey DelVecchio, Product Development & Global Technology, Caterpillar

Joe Lampinen, Director, Engineering Services APG, Kelly Services

Scott Mazzulla, VP Planning and Development – CWI, Hobart Institute of Welding Technology

Jeannine Kunz, Director of Training and Development, SME

Sponsored By: **KELLY** | engineering resources

Professional Welding Competition

Monday, November 18: 10:00 a.m. – 5:30 p.m.

Tuesday, November 19: 9:00 a.m. – 5:00 p.m.

Wednesday, November 20: 11:00 a.m.
(announcement of winners)

Location: North Hall, Booth N2299

Don't miss the chance to cheer on competitors as they demonstrate their skills to earn the title of "Best Welder in America." Contestants will make a single-pass SMAW weld with E7018 on low-carbon steel. Speed and quality will be the criteria.

Professional welders can sign up onsite to compete for a \$2,500 first prize, a \$1,000 second prize, and a \$500 third prize.

AWS 2013 Robotic Arc Welding Contest

Tuesday, November 19: 9:30 a.m. – 4:45 p.m. (competition)

Wednesday, November 20: 9:30 a.m. - 1:00 p.m. (competition)

Wednesday, November 20: 3:00 p.m. (awards)

Thursday, November 21: 9:00 a.m. – 3:00 p.m.
(robotic demonstration)

Location: North Hall, Booth N2099

Robotic welding technicians will compete to win free training and examination for the AWS Certified Robotic Arc Welding (CRAW) Operator or Technician certification. The contest will include a timed written test and a challenging exercise with a live welding robot: a simulated CRAW coupon-welding exam.

Contestants can register onsite Monday, November 19 10:00 a.m. to 5:30 p.m. or Tuesday, November 20 9:30 a.m. – 4:45 p.m.

Welding Wars Competition

Tuesday, November 19: 9:30 a.m. – 11:00 a.m.;
12:30 p.m. – 2:30 p.m. • 2:45 p.m. – 4:45 p.m.

Wednesday, November 20: 9:30 a.m. – 11:00 a.m.;
12:30 p.m. – 2:30 p.m. • 4:45 p.m. (announcement of winners)

Location: North Hall, Booth N2293

Competing teams will fabricate weldment on a supplied print using GTAW, GMAW and plasma cutting, with sheared and cut material provided, within a time limit of two hours. A panel of certified welding inspectors will evaluate all weldments to AWS D1.1 based on accuracy of project to print specifications, weld size, overall weldment appearance, craftsmanship, professionalism, and safety.

Teams of three professional and student welders (16+) can sign up onsite (\$10 entry fee per person).

NETWORKING EVENTS

TUESDAY, NOVEMBER 19

Happy Hour

3:00 p.m. – 5:00 p.m.

Location: North & South Halls

Mix and mingle with other attendees and exhibitors during Happy Hour beginning at 3:00 p.m. on Tuesday, November 19. Held on the exhibit hall floor, Happy Hour is a great way to network with peers in a relaxed, entertaining environment while perusing the technology in exhibitor booths.

Complimentary beverage ticket with event registration.

WEDNESDAY, NOVEMBER 20

Cocktails and Comedy

Doors open: 5:00 p.m. | **Show:** 5:30 p.m. – 6:30 p.m.

Location: FABTECH Theater, Grand Concourse

Connect with your peers and enjoy a night of laughs at the annual FABTECH Cocktails and Comedy event. The event features a veteran group of Chicago's elite short-form improvisers known for specializing in quick-witted, hilarious shows as seen at ComedySportz Theater, Second City, the Improvised Shakespeare Company, and more. The lively interaction between performers and the audience will have you falling out of your seat with laughter. You won't want to miss it!

Complimentary admission and beverage ticket with event registration.

NEW PRODUCT PRESENTATIONS

Location: FABTECH Theater, Grand Concourse

Sit in on brief exhibitor-led sessions of the best new products and technologies to hit the market at the FABTECH Theater. This is a great opportunity to stay on the leading edge. **Free and open to all attendees.**

MONDAY, NOVEMBER 18

Time:	Company	Technology	Topic
10:30 a.m.	Mazak Optonics	Fabricating/Tube and Pipe	Reducing Laser-cut Tube & Pipe Cost of Parts
2:15 p.m.	Faccin USA	Fabricating	Advanced Technology in Plate Rolling to Increase Productivity
3:00 p.m.	GEMA	Finishing	35 Second Color Change for a Portable Box Unit
3:45 p.m.	FluidForming Americas	MetalForming	Frictionless Metal Forming Without a Press
4:30 p.m.	Fronius USA LLC, GmbH	Welding	AccuPocket- Cordless MMA Welding

TUESDAY, NOVEMBER 19

Time:	Company	Technology	Topic
10:15 a.m.	TRUMPF	Fabricating/Laser	New TRUMPF Technology Takes Solid-State Laser Cutting to a Whole New Level
11:00 a.m.	Graco Inc.	Finishing	ProMix PD2K - Positive Displacement Proportioning System
11:45 a.m.	Hypertherm	Fabricating	Integrated Waterjet Cutting
1:30 p.m.	Schuler Inc.	MetalForming	Laser Blanking Lines with DynamicFlow Technology
2:15 p.m.	AMADA	Laser	FLCAJ 3015 High Speed, High Precision 2kW Fiber Laser
3:00 p.m.	Lincoln Electric	Welding	APEX(TM) 3000 Orbital Welding System

WEDNESDAY, NOVEMBER 20

Time:	Company	Technology	Topic
10:00 a.m.	Norton Abrasives	Welding/Fabricating	Reshaping the World of Metal Fabrication
10:45 a.m.	IntelliFinishing	Finishing	Software for management of your paint system and part flow
2:15 p.m.	AMADA	Fabricating	HD-ATC Hybrid Drive Press Brake with Automatic Tool Changer
3:00 p.m.	TRUMPF	Fabricating/Bending	TRUMPF TruBend Cell 7000 – High Speed Automated Bending Cell
3:45 p.m.	OTC Daihen	Welding	Nanotechnology Digital GMAW Machines

THURSDAY, NOVEMBER 21

Time:	Company	Technology	Topic
10:00 a.m.	RoboVent	Fabricating	Breakthrough Air Cleaning Technology - RoboVent's Vortex 3
10:45 a.m.	SERVO Robot Inc.	Fabricating / Laser	DIGI-I/Z - Servo-Robot New 3D Laser Vision System for Multi-Pass Welding Automation
11:30 a.m.	Trilogy	Fabricating	iPunch - CNC Ironworker Programming

EDUCATION PROGRAM

The Fabricators & Manufacturers Association, Int'l (FMA), SME, Precision Metalforming Association (PMA), and Chemical Coaters Association International (CCAI), co-sponsor the sessions on cutting, finishing, forming & fabricating, lean, management, stamping, and tube & pipe. All sessions are two hours in length, offering practical knowledge you can use right away. Sessions with Tech Tours combine classroom instruction followed by expert-led guided tours on the show floor to see technology operating in designated booths.

The American Welding Society (AWS) presents a comprehensive lineup of welding education. Led by the industry's top professionals, programs focus on best practices and new commercial developments in welding and thermal spray. Events include conferences, seminars, RWMA Resistance Welding School, professional program, society events, & more.

AWS Conference Headquarters, Room N229

Hours of operation: Monday, Nov. 18 – Thursday, Nov 21, 7 a.m. – 6 p.m.

FABTECH Conference Headquarters (FMA, SME, PMA, CCAI), Room S401bc

Hours of operation: Monday, Nov. 18 – Thursday, Nov 21, 7 a.m. – 5 p.m.

Continuing Education Credits

Individuals who attend AWS education programs are awarded 1 PDH (Professional Development Hour) for each hour of education program attendance. Individuals seeking FMA Recertification Credits will be awarded 2 credits for each conference session attended (forming & fabricating, cutting, or finishing tracks) plus an additional 2 credits for attending the show. Individuals who attend SME education programs may be eligible to receive one credit per hour attended toward their SME-managed recertification requirements.

Tax Deduction

An income tax deduction may be allowed for expenses of education (including registration fees, travel, lodging, and meals) undertaken to maintain and improve professional skills. (Treas. Reg. Sec. 1.162-5). Contact your tax consultant for additional details.

HOW TO LOCATE SESSIONS

- Use the **Schedule-at-a-Glance** on pages 22-25 to get a quick preview of all the programs offered at the 2013 event. Programs are grouped by eleven tracks: Finishing, Stamping, Cutting, Lasers, Forming & Fabricating, Job Shop Solutions, Automation & Robotics, Lean, Management, Tube & Pipe, and Welding.
- Review the **Floor Plan Layout** on page 21 for a visual overview of the meeting rooms where all the FABTECH education and professional events take place.

EXPERIENCE LEVEL KEY

Use this key along with the Schedule at a Glance to find the education that meets your needs.

- B Basic** – Recommended for the attendee who is new to the industry or needs a refresher on the topic.
- I Intermediate** – Designed for the attendee who already has a basic understanding of the subject matter.
- A Advanced** – For the attendee with several years of experience who is seeking more in-depth information.

ON-SITE PRICING INFORMATION

On-site registration for paid educational events is available in the Grand Ballroom (S100), West Transportation Lobby, and the 2.0 level concourse.

Finishing, Stamping, Cutting, Lasers, Forming & Fabricating, Job Shop Solutions, Automation & Robotics, Lean, Management, and Tube & Pipe Tracks		
	Member	Non-Member
1/2-Day Workshop	\$299	\$299
Full-Day Workshop	\$399	\$399
	Member	Non-Member
1 Session	\$175	\$200
2 Sessions	\$305	\$350
3 Sessions	\$400	\$470*
4 Sessions	\$500	\$570*
Full Conference (5 or more sessions) Includes (1) \$22 lunch ticket	\$705	\$805*

*Non-member rates for 3 or more sessions include a one-year complimentary membership to one of the co-sponsoring associations (FMA, SME, PMA, CCAI).

Welding Track		
	Member	Non-Member ^a
1-Day AWS Educational Sessions	\$150	\$235
3-Day AWS Educational Sessions	\$225	\$310
1/2-Day Seminar	\$335	\$420
1-Day Conference or Seminar	\$550	\$635
2-Day Conference or Seminar	\$775	\$860
2-Day RWMA Resistance Welding School	\$775	\$860
1-Day Professional Program	\$150	\$235
4-Day Professional Program	\$225	\$310
Student Professional Program	\$75	\$90 ^b
AWS Awards Luncheon	\$30	\$30
AWS Prayer Breakfast	\$10	\$10

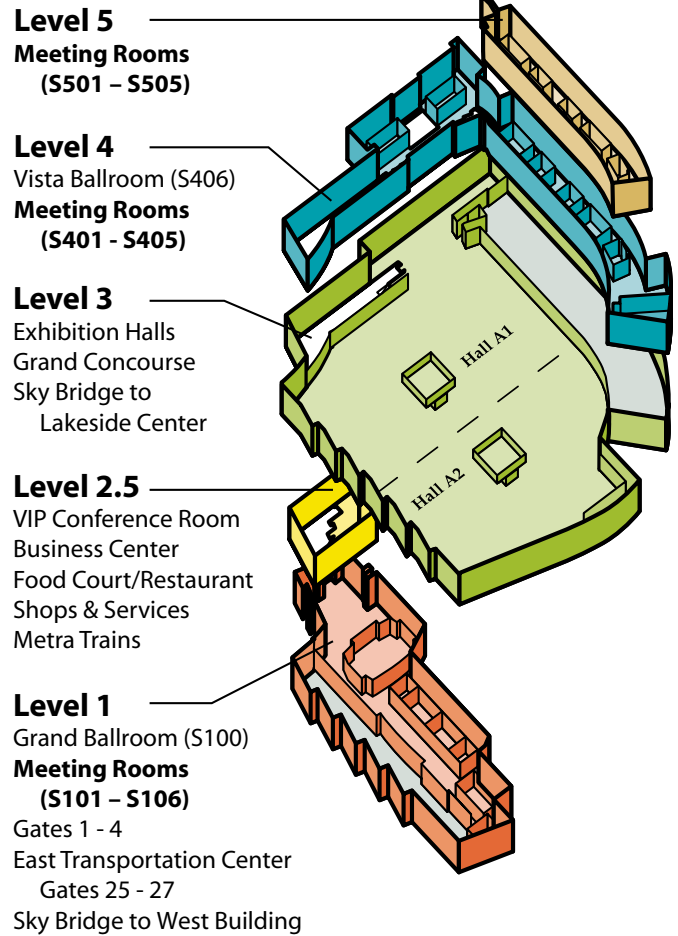

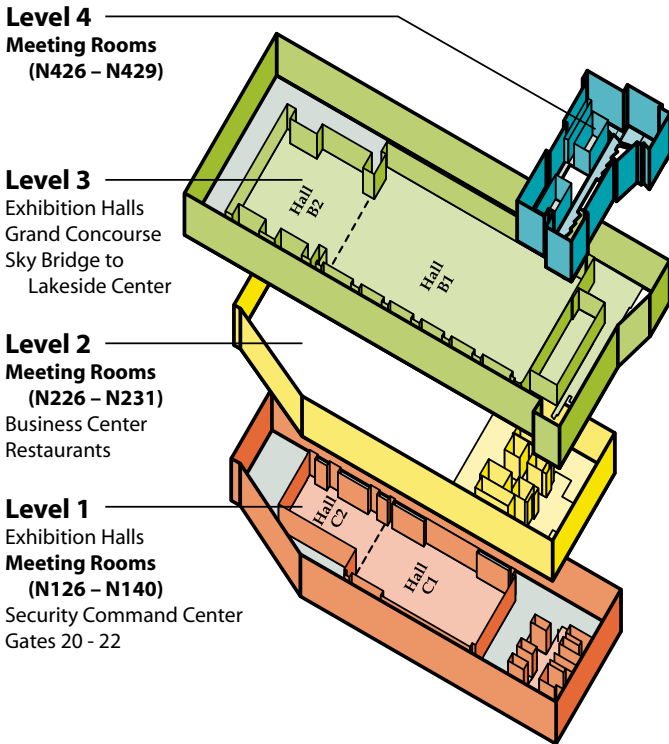

^a Non-member price for AWS Sessions only includes a one-year AWS Individual Membership.
^b Non-member Student Professional Program price includes a one-year AWS Student Membership.

FIRST AGAIN!

While others were scrambling to reconfigure their CO₂ lasers for fiber optics, Salvagnini was introducing its second generation of cutting edge fiber lasers – the L3 & L5. Once again the legacy laser makers were too late.

THE SALVAGNINI L3 & L5 FIBER LASER CUTTERS

- Proven fiber optic technology
- 60-100% faster than CO₂ lasers
- 70% less power consumption
- Cost per part reduced by 50%
- No laser gases required
- Virtually maintenance free
- Ecologically responsible
- Economical to buy and own

So if you're considering a new laser cutter, don't you think it's about time to invest in the future instead of the past? Visit Salvagnini at FabTech Booth No. S931 to see the L5 with its patented Compass Drive.

FIRST

The Shape of Things to Come.

Innovative Machines. New Technologies. Unprecedented Productivity.

Amada will demonstrate three new fiber laser cutting systems — one featuring automation, one equipped to cut thicker materials and all three engineered to deliver uncompromising speed and accuracy. Three new press brakes providing ultra-precise results will be showcased in the Amada booth. Each is equipped with a full range of production-enhancing features. When you visit the Amada booth, you'll also witness our latest generation of punch and laser combination machines. This new series features advanced automation and tool change options to meet virtually any production need.

LCG 3015 AJ

(Two) Fiber laser systems — The LCG features automated load/unload and the leading-edge ENSIS model is equipped to cut thicker materials

NEW PRODUCTS

Arc Welding

Changzhou Zhengyang Welding Material Co Ltd

Booth N2155

High Strength Steel Welding Wire

High-strength steel welding wire, models ER120S-1;ER110S-1;ER100S-1;ER80S-D2,ER90S-B3

ELCo Enterprises

Booth N616

Wire Wizard® Guide Module System

The Wire Wizard® guide module system uses a series of rollers to eliminate points of high friction in the wire delivery system. Benefits include a reduction in arc failures and downtime. Accessories and a version for cored wires available.

Electron Beam Technologies Inc

Booth N536

Braided Tubing

Eltron Bean Technologies Inc offers its light weight, color coded, braided tubing for water and gas.

Miller Electric Mfg Co

Booth N1136

Classic Series Helmets

Miller Electric Mfg. Co. introduces the Classic Vsi and the Classic FS #10 2x4 Flip-Up auto-darkening models to its classic series of welding helmets.

Classic Series Helmets

Miller Electric Mfg. Co. introduces two auto-darkening models to its Classic Series of welding helmets: the Classic VSi and the Classic FS #10 2x4 Flip-Up.

Hardhat Option for PAPRs

Miller Electric Mfg. Co. has added a hard hat option to its current Powered Air Purifying Respirator (PAPR) line. The hard hat is paired with Titanium Series™ auto-darkening welding helmets, which feature exclusive Info-Track™ digital lens technology.

OTC DAIHEN Inc

Booth N842

Welbee Electronic Engine

OTC DAIHEN Inc offers nanotechnology digital GMAW machines.

PT-Mat

Booth N306

High Deposition PTA Torch

The PT-90 high deposition torch is designed to increase the productivity of plasma transfer arc technology for hard surfacing of large area on massive parts such as wear plates, mining equipment.

Servo-Robot Inc

Booth N1936

POWER-TRAC/Z

The Servo-Robot POWER-TRAC/Z laser vision real time seam tracking system address the needs associated with heavier section welding.

Simufact-Americas LLC

Booth N1968

Simufact.welding 3.1.1

The Simufact. Welding 3.1.1 offers finite element simulation of the welding process, using an easy-to-use graphical user interface. Features include parallel processing and other methods to run simulations on large parts.

Telwin SPA

Booth N670

Technology Tig 222 AC/DC HF/LIFT – Telwin

Telwin introduces its TIG (HF/LIFT), PULSE TIG and MMA inverter welding machine 200A (AC/DC) for steel, stainless steel, aluminum, titanium, nickel, and magnesium. TIG regulations include post gas, current down slope/time, bi-level, balance. Remote control connector.

Weld.com

Booth N2009

Weekend Warriors Forum

The Weekend Warrior Forum is a community of welders of all levels coming together to share their knowledge of welding.

Witt Gas Controls

Booth N2066

OXYBABY® P: Pressurized Lines Mobile Gas Analyzer

The user-friendly hand-held, mobile OXYBABY® P can determine O₂/CO₂ concentration from 0–100% (in 0.1% increments) at all points of the line including the point of consumption. Features include long-lasting battery and measurements in 10 seconds or less.

Assembly

Built Systems

Booth N1482

BUILT Systems

Ergonomic manufacturing workstations, machine bases and material handling tools

Virtek Vision International

Booth S1850

Iris™ Spatial Positioning System (SPS)

Iris™ Spatial Positioning System (SPS) is a precision assembly system that combines the use of laser projection with 3D vision technology to create a new precision assembly technique called virtual tooling.

Bending/Forming

Amada America Inc

Booth S901

HD-ATC

Amada America Inc offers its hybrid drive press brake with automatic tool changer.

Carell Corp/Eagle Bending Machines

Booth S3101

Vertical Format Tank Production Cell

The vertical format tank production cell model T25-SIHRV2/10 produces tanks shells rapidly and consistently using any material type, plasma cut and MIG/TIG/Plasma weld in automatic leaving only 1 seam. Tanks are built vertically as shells are stacked.

Comco USA Inc

Booth S3513

Comco, TWS-15ND Dual Head Bender

Dual head right hand and left hand CNC bender standard features are FlexPlus windows controller, dual stack tooling with dovetail style tooling mounts, quick change tooling, XYZ programming, and the option of mandrel less or mandrel bending.

Fabricators & Manufacturers Association

Booth N1400

BendFab Workshop & Tour

BendFab Workshop & Tour, hosted by BEGNEAUD Manufacturing Inc. April 23-24, 2014 in Lafayette, La., will provide insights to help eliminate bending bottlenecks leading to increased capacity and sales opportunities.

Faccin USA Inc

Booth S1967

Revolutionary Forming Technology by Faccin

Faccin 4 roll machines offer increase productivity, accuracy, reliability and ease of use. Features include new generation CNC, non-impact radius verification, updated hydraulics, as well as new management tools.

Fontijne Formitt Inc

Booth S4072

Vertical Spinner

The Vertical Sizer is capable of automatically reducing round and oval converter shells to a target diameter. This electro-mechanically actuated sizer is vertically oriented to provide a compact footprint.

Global Metal Spinning Solutions Inc - Denn USA Metal Forming

Booth S4580

DENN 3-Roller Vertical Flowforming Machine

Global Metal Spinning Solutions - Denn USA Metal Forming offers its flowforming and rotary forging machinery for the production of bus, truck and passenger car wheels, as well as other parts for which three forming rollers are needed.

Custom Marketing for Your Job Shop

The Job Shop Company is a full service custom marketing organization with over 35 years of helping job shops and contract manufacturers market their services. *We know what OEM engineers and buyers are searching for and how to communicate to them.*

With thousands of satisfied job shops, we have the knowledge and tools to help your organization drive sales.

Bending/Forming

Proto-1 Manufacturing

Booth S3942

SRB-1000 Bead, Flare & Trim Machine

The SRB-1000 Bead machine is capable of beading, flaring & trimming 9" to 15" diameter tubes with a length of 2" to 30", and can bead form up to 5" from the end of the part holding a tight tolerance.

Samco Machinery Ltd

Booth S4657

Continuous Welder In-Line with Rollformer

Samco offers its revolutionary in-line high frequency welder coordinated along side its rollformer without requiring a separate operation.

Sharpe Products

Booth S3490

All-Electric CNC Pipe and Tube Bending Services

Sharpe Products offers custom pipe/tube bending services utilizing the latest all-electric CNC tube bending machinery and technology, delivering quality bent parts to customers. The Sharpe team bends up to 6" O.D. in steel, stainless steel, aluminum, and more.

Toskar Machinery

Booth S5375

MasterFab Hydraulic Press Brake

MasterFab is a versatile press brake that can be utilized in any production environment thanks to its Delem 66 Touch controller, four axis backgauge with motorized Z fingers, CNC crowning and hydraulic top tool clamping.

WDM Rolls

Booth S2978

WDM Tapered Cone Rolling Machine

WDM offers its tapered cone rolling machine.

Brazing & Soldering

Cambridge Vacuum Engineering

Booth N1494

Electron Beam Welder/With Joint Finder

Cambridge Vacuum Engineering introduces its Electron Beam Welder with Joint Finder to assist the operator in assuring the weld joint is fused completely.

Lucas-Milhaupt Global Brazing Solutions

Booth N2230

SIL-FOS® Ring Handy Pack

The SIL-FOS® Ring Handy Pack is convenient and has secure storage for commonly used braze rings. Features include an adjustable compartments and strong latches to provide a secure, reusable package to maintain rings.

Ningbo Feihong United New-Materials Co Ltd

Booth N516

Phosphorus Copper Brazing Alloys and Brass Brazing

Phosphorus copper brazing alloys and brass brazing include; flat rods: 0.05" x 1/8" x 18", round rods: 2.0mm 2.4mm 3.0mm, 3.2mm, 4.0mm Square rods: 1/8" x 1/8" x 18" ring available.

Zhejiang Xinrui Welding Material Co Ltd

Booth N442

Aluminum Flux-Cored Wire

Zhejiang Xinrui Welding Material Co Ltd offers its Al-Si alloys with non-corrosive flux inside for brazing Al-Al in the form of rod, wire and rings.

Business Services

Airgas Inc

Booth N1174

Unlocking the Hidden Cost of Welding Class

Airgas Inc offers its Unlocking the Hidden Cost of Welding course. Learn from the experts how to increase profits by welding more efficiently and effectively.

Dongguan Kingvow Tool Co Ltd

Booth S4262

Expanded Workshop – France

Dongguan Kingvow Tool Co Ltd acquired 2 more businesses based in France (SAMCOR & KTE).

Fabricators & Manufacturers Association

Booth N1400

Forming & Fabricating Job Shop Consumption Report

The Forming & Fabricating Job Shop Consumption Report gauges the health of metal fabricating in the economy by surveying companies quarterly on operating capacity, new order activity, commodity pricing trends, logistics costs, planned capital equipment purchases, and more.

Health Plans for Small Businesses from Starmark

Through an affinity partnership with FMA, Starmark administers self-funded plans for businesses with five or more enrolled employees. Stop-loss insurance is provided by Trustmark Life Insurance Company.

Kelly Services Preferred Talent Solution

FMA has partnered with Kelly Services® to provide members a discounted direct hire program for production, management, and engineering positions.

Pre-Employment Assessment for Metal Fab Shops

This web-based screening tool helps employers find the right candidate for entry-level positions. With the convenience of online administration and immediate results, employers can easily evaluate an applicant's potential.

Sales Representative Certificate

The Sales Rep Certificate is an interactive online training course that teaches the different processes and services fabrication companies can offer customers, as well as tips for identifying and securing the ideal customer.

Penn United Technologies Inc
Booth S4413

Prototyping and Additive Manufacturing

Penn United Technologies offers a range of prototype tooling and precision metal manufacturing solutions.

Coil Processing

Bradbury Co., Inc., The
Booth S2731

Bow Scout™

Bow Scout™ (patent pending) is the latest automation innovation in critical flatness leveling technology from Bradbury.

Cauffiel Corp
Booth S5678

Mechanical Flying Shear

Cauffiel Corporation's Flying Shear incorporates a re-manufactured mechanical shear. The time to manufacture a flying shear is drastically reduced and design ensures a robust frame for cutting today's high tensile materials.

Delta Steel Technologies
Booth S3187

Temper Mill Cut-To-Length Line

Delta Steel Technologies designs, engineers and ships temper mill cut-to-length line 1 in. by 120 in. Tailored to customer requirements, the line produces ultra-flat, stay-flat high-strength steel.

Fagor Arrasate
Booth S4689

Cold Reversing Mill

Fagor Arrasate offers the latest Cold Reversing Mill rolling mills for technology high quality steel.

Feed Lease Corp
Booth S4337

Cut-to-Length Systems

CTL Systems designed to process coil ranging from 12" to 72" wide, .015"-.500" material thickness, and 4,000# - 50,000# coil weight. Types of material, CRS, HRS, galvanized, pre-painted, aluminum and stainless,

Herr Voss Stamco
Booth S2726

Enhanced Leveling Technology (ELT)

The Herr Voss Stamco enhanced leveling technology meets the industry's demand for stable material during and after post processing by laser, plasma or water jet cutting methods.

Schuler Incorporated
Booth S4548

Schuler DynamicFlow Technology (DFT)

Schuler laser banking lines with DynamicFlow technology.

Booth S4275

Handi Disc II

Bad Dog Tools offers its Handi Disc II, which can cut, sand, and grind metal, masonry, and plastic. Trim a metal stud, grind a weld, sharpen a chisel, and cut pvc.

CGW-Camel Grinding Wheels USA

Booth N2241

Premium Quickie Cut Cut-Off Wheels

Using advanced technology, the flexible premium Quickie Cut Cut-Off Wheels cut 14 percent more than the best-producing cut-off wheels.

Cheil Grinding Wheel USA Inc

Booth N1988

Cut-Off Wheel

K-PRIX reinforced cut-off wheels are designed to easy performance, safety, low cost and ready availability for use with a wide range of ferrous and non-ferrous metal cutting applications such as bar stock, structural steel, tubing, sheet metal and etc.

E. H. Wachs

Booth N636

LDSF Large Diameter Split Frame

E. H. Wachs launches its large diameter split frame.

ESAB Welding & Cutting Products

Booth N1145

Hydrocut™ LX

ESAB's Hydrocut™ LX waterjet CNC shape cutting machine, a combined waterjet and plasma cutting system, uses the patented combination of thermal and non-thermal processes operating on the same gantry.

Exact North America

Booth N174

280E Pipe Cut System

The 280E Pipe Cut System can service cast-iron or large diameter PVC needs.

Fagor Arrasate

Booth S4689

SERVOBLANKING

Fagor Arrasate offer cutting lines with presses (blanking lines) allowing users to cut complex geometries in high cadence and have a notable application in the automotive sector. Fagor specializes in the design and construction of presses, servo-presses, and stackers allowing seamless, integrated, turnkey solutions.

Graebener-Reika Inc

Booth S3522

Advantage Series Tube/Pipe Cut-off Machines

Graebener-Reika Inc offers its Advantage Series tube/pipe rotary head cut-off machines for cutting tube and pipe.

HGG Profiling B.V.

Booth S1889

SPC-RB CNC Pipe Cutting Machine

HGG Profiling B.V. introduces its SPC-RB CNC pipe cutting machine, which is chuck-driven with a roller bed, eliminating need for a crane. It is also suitable for use in pipe works, steel structures and offshore structures. The roller bed and chuck provide automated high quality high-speed cutting.

Hilalsan Makina Endustriyel Ve Tic LTD STI

Booth S5476

Ironworker

Hilalsan Makina Endustriyel Ve Tic LTD STI introduces its hydraulic punching, cutting, and notching machine.

Hougen Manufacturing Inc

Booth S2133

RotaCut Sheet Metal Combo Kit

The RotaCut Combo Kit (part no. 11087) combines two of the most popular sheet metal holemaking kits in one package that contains 13 different sizes of cutters, two arbors, extra pilots & center punch. Made in the USA.

Kent Corp

Booth S4131

Deburr for Mitre Cut and Bent Tubes

Kent Corporation has developed a Burrmaster deburring machine to automatically deburr the ends of mitre cut tubes, bent tubes, or straight tubes. The Rotoburr deburr utilizes a 12" diameter x 6" wide brush.

Koike Aronson Inc

Booth N806

PNC-12 Extreme

The Koike PNC-12 Extreme is a compact, oxy-fuel or plasma CNC cutting machine.

Komatsu America Industries LLC

Booth S513

Twister Fine Plasma Cutting Table

Komatsu Twister with Quick Gas option for oxy cutting up to 2" thick plate over full table with the edge quality of fine plasma.

Mercer Abrasives a Division of Mercer Tool Corp

Booth N2808

Black Lightning® Cut-Off Wheels

Mercer Abrasives' Black Lightning® cut-off wheels are reformulated for lightning fast cuts and longer life. Each wheel contains heat-treated aluminum oxide grain in its extra thin design so blades cut fast with less power. The wheels are double external reinforced with high tensile strength fiberglass to minimize vibrations and burrs. Available in Type 1 and Type 27 depressed center versions, a wide variety of sizes are offered to fit a large selection of machines.

Messer Cutting Systems

Booth S1755

Titan III

The Titan III features linear ways in the Y-Axis, along with rack and pinion drives and wider end trucks to allow for the electrical cabinets to mount within the truck.

Cutting

Messer Cutting Systems

Booth S1755

TMC4500 DB

The TMC is heavy-duty dual box-beam constructed gantry cutting machine. The dual beam design is supported by massive 10 foot endtrucks for greater stability, providing support for Messer's largest cutting tools.

Pinnacle Industrial Automation Inc

Booth S3391

Pinnacle iBevel

Pinnacle Industrial Automation Inc introduces the iBevel, which is both compact and self contained. Features include smooth and accurate motion, long term durability, infinite head rotation, can bevel straight lines or contours +/- 45 degrees, and automatically controlled through touch screen.

Reika GmbH & Co KG

Booth S3522

RingSaw®

Reika introduces the ID RingSaw® "The Shark", available for small diameters and short lengths in the compact series machines.

SteelTailor Ltd

Booth N874

LEGEND B5II (SteelTailor Ltd N874)

SteelTailor Ltd offers its LEGEND B5II which can cut as thin as 0.3mm, and as thick as 25mm. With a unique dual mode design, one machine works two. Plasma cutting thickness range from 0.3 to 25mm.

Tenryu America Inc

Booth N133

Heavy Metal, Heavy Metal Plus Series

Tenryu America Inc offers its high performance circular saw blades for heavy gauge steel.

Victor Technologies

Booth N1457

Green Trade Dress for CUTMASTER Plasma Cutter

Victor® Thermal Dynamics® CUTMASTER® series of hand-held plasma cutters has transitioned to a green trade dress and updated branding.

Medalist Oxy-Fuel Outfits

The Victor® 400 series torch is available in medium- and heavy-duty models and also sold as part of the Medalist® 250 and Medalist 350 outfits. Outfits include the torch handle, cutting attachment, welding tip, G Series regulators and hoses.

Ultra-Cut® XT Automated Plasma Power Sources

The Ultra-Cut® XT Series from Victor Thermal Dynamics® delivers higher productivity and lowers cutting costs. The Ultra-Cut XT series is available in 100 to 400-amp configurations for cutting plate up to 2" (50mm) thick.

Victory Plasma Systems

Booth N2453

Integrated Pipe Cutter

Victory introduces its integrated pipe cutter. This option adds a pipe cutter to the interior of its unitized cutting bed and can handle pipe 2"-12" diameter up to 45' in length. The pipe cutter offers a vertical cut and is notching capable.

Voortman Corporation

Booth S1773

V304 Plate Cutting

The V304 is a flexible multi purpose cutting system suitable for both large and small repeatable cutting operations.

Watts Specialties Inc

Booth N2271

W-80

The W-80 cuts and bevels pipe to specific lengths with plasma. The cutting process is housed in an enclosure to capture the smoke and sparks. Bevels of 90, 30, and 37.5 degrees can be cut.

Fastening & Joining

ATTEXOR Clinch Systems SA

Booth S2119

Filters Clinching Machine

ATTEXOR Clinch Systems SA offers its automatic station for clinching filters.

Captive Fastener Corp

Booth S2127

Captive Reel Mounted Spacers and Nuts

Captive series CRM reel mounted spacers and threaded nuts are fed from a recyclable reel using standard pick and place equipment and oriented prior to the re-flow soldering operation. The 13" reel is available with 12 to 44 mm width tape, and is supplied with a polyamide patch for vacuum pick-up, conforming to EIA-481 specifications. Carbon steel fasteners have a coated electro-tin plating and are available in common inch and metric sizes.

Fein Power Tools Inc

Booth N264

Cordless Drill/Drivers

FEIN cordless drill/drivers include 14V & 18V, 4 & 2 speed drill/drivers, 1/2 in & 1/4 in impact drivers, and are supplied with 2amh or 4amh batteries, chargers and plastic case.

Haeger Inc

Booth S1962

OneTouch-4e Lite

OneTouch-4e Lite is a productive insertion machine that combines the Haeger Inc WindowTouch and OneTouch machines.

Lenzkes Clamping Tools Inc

Booth S4884

Lenzkes Multi-Quick 60, 100, 106 Clamps

Lenzkes feature MQ 60, 100, 106 clamps which offer stepless adjustable range & high clamping pressure through low torque. MQ 60 & 100's compact size is ideal for smaller machines & MQ 106 provides high adjustability with an integrated sliding plate.

Finishing

Abtex Corp

Booth S1950

Profile End Preparation

Abtex Corporation introduces its compact, portable, affordable system for deburring aluminum extrusion profiles. The system is 24" wide, 24" long and 48" high and can produce consistent uniform results, removing burrs regardless of work piece geometry. Yet the lateral surface finish is not affected. The system can be set up quickly and its operation requires minimal training and skill.

Acme Finishing Co

Booth S5421

Powder Coated Wood Grain and Decorative Finishes

Acme Finishing Co provides powder coated wood grain and decorative metal finishes using a patented sublimation method. Finishes are available

for architectural applications demanding toughness, durability, and long-term weatherability.

AFC Finishing Systems

Booth S4837

Airflex Sweeper Recovery System for Blast Rooms

The Airflex Sweeper Recovery System is a full recovery floor that automatically recovers media from beneath the operators' feet. Supplies blaster with endless supply of media, eliminating the need to stop production to recover media.

Apex Machine Group

Booth S2179

1037M-DS

Apex Machine Group, introduces its model 1037M-DS, which combines two of its most widely used technologies, the wide belt sanding head and the SlipCon disc station for deburring.

Calvary Industries Inc

Booth S5512

Advantech

Advantech offers its pretreatment products, which are based on transitional metal chemistry, such as zirconium and titanium, but have eliminated the issues associated with these types of products.

Chamtech Retractable Enclosures

Booth S5662

Chamtech Retractable Work Enclosures

Chamtech Retractable Enclosures offer space saving enclosures that retract to 20% of the total length. Enclosures available for spray painting & booth extensions, sand blasting & dust collection, NDT testing, machinery retrofitting, waste containment, and mobile options.

Custom-design racking solutions engineered to maximize your finishing line.

That's the Magic Rack® difference. Our personal approach to providing unique solutions that make optimum use of rack space is what has made us the industry leader in custom finishing solutions for over 30 years.

Whether we visit your facility, or you send us your part for analysis, our goal is to provide the best racking solution to **improve your production efficiencies** and **reduce operating costs**.

Contact us today to discuss how our exclusive Magic Rack® 9-Step Analysis process and unique patented racking technology can solve your most challenging finishing needs.

RACKING UP SOLUTIONS.

PRODUCTION PLUS CORP.

Chemtool Inc

Booth S4542

Chem - Clean 8

Chem-Clean 8 is a specialty formulated, silicate free cleaner formulated for pre-paint and other applications. Chem-Clean 8 is very effective at removing very heavy, oily contaminants from parts and surfaces.

Dynaflux Quality Products/ QWP Division

Booth N1882

HTR121 Heat Tint Machine Modified Brush System

Dynaflux HTR121 modified heat tint machine with brush system, enables cleaning larger areas, and difficult areas to reach. Will pickle and passivate.

Echo Engineering

Booth S5414

Vented and Non-Vented Hollow Silicone Tapered Plug

Echo's hollow tapered silicone plugs are available vented and non-vented. The vented series allows air to escape, reducing internal pressure build-up and prevents oven blow off, a common issue faced by high temperature metal finishing companies.

Graco Inc

Booth S5362

ProMix® PD2K Positive Displacement Proportioner

The ProMix PD2K mixes material close to the gun so the flush zone is significantly smaller. This reduces solvent and mixed material waste by up to 80% compared to traditional proportioners. Ideal for short pot life materials.

Karl Heesemann Maschinenfabrik GmbH & Co KG

Booth S2194

Heesemann MSM 10

The Heesemann Metal Sanding Machine MSM 10 is applicable for sanding and structuring metal workpieces and for removing burr and residues on the surface produced by laser cutting and stamping.

KCI

Booth S5624

K Series Manual Powder Coating System

KCI America introduces its line of powder coating systems, featuring the K1 manual coating system. The K1 series offers a variety of advanced coating features, increasing productivity and efficiency.

Keystone Fastening Technologies

Booth N2856

Metalworking Abrasives

Keystone Fastening Technologies offers its line of metalworking abrasives including cutting disks, grinding discs, flap discs and tungsten carbide burrs.

Kremlin Rexson & SAMES - EXEL North America Inc

Booth S5355

SAMES InoBell Powder Bell Applicator

The InoBell® is a high transfer efficiency applicator that delivers higher first pass transfer efficiency, better uniformity and high finish quality.

Metcast Blast Cleaning Technologies

Booth S5312

M-4-96 Roll Conveyor Shot Blast System

The M-4-96 is a 4-wheel roll conveyor, designed with M4 e-wheels, premium M-Cast lining and seal design, floor mounted separation, extended entrance and exit vestibules. The maintenance friendly designs offers full access to wheels and reclaim system.

Micron Fiber-Tech

Booth S5670

Gas IR Burners,

Micron Fiber-Tech offers metal fiber burner for gas IR emitters. Superior in radiant efficiency, rapid heating up speed, (3 seconds from ignition) and surface temperature up to 2000F. Made in USA products with short turn around and customer fabrication.

Nordson Corp

Booth S5324

ColorMax 2 Engineered Booth

The ColorMax 2 quick color change powder spray system is optimized for efficient, repeatable powder application and fast, contamination-free color change. Numerous system features help to minimize powder in process and aid in system cleaning, providing the ability to change colors quickly.

Encore HD Automatic Gun

The Encore HD Automatic Powder Spray Guns incorporate a proprietary, integral HDLV module* for the most versatile and efficient performance available today. Designed specifically to work with Nordson HDLV pump technology, the unique and innovative Encore HD gun design allows easy adjustment of the powder concentration and spray velocity to achieve optimum coating coverage and cured finish quality for every conceivable part type.

Encore LT Spray Gun

The Encore® LT manual powder coating system is durable, easy to use and service, and offers superior transfer efficiency and overall coating performance for producing the highest quality finished products. This spray gun is a light, best-balanced gun with an ergonomic design that incorporates PowerPurge*, first introduced by Nordson.

OptiMix Plural Component Metering Systems

High-performance OptiMix plural-component mixing and proportioning units process both solvent and water-based paints, and are designed for flexibility, efficiency and high quality paint coverage.

RA-20 Rotary Atomizer

The patented Nordson RA-20 and RA-20R rotary atomizers deliver painting efficiency and superior finishing quality and operating safety for a wide range of finishing applications. With no minimum sparking distance, they can be positioned close to parts for optimal coverage and minimal overspray. With an internal powder supply (IPS), the RA-20R rotary atomizer features lightweight, flexible low-voltage cables that experience less wear in robotic applications.

Finishing

Nordson Corp

Booth S5324

Trilogy Liquid Spray Guns

Nordson's line of Trilogy non-electrostatic spray guns provide excellent spray quality, durability to withstand harsh manufacturing environments and ease of handling and maintenance. In addition, manual and automatic configurations are available, along with gravity-feed and pressure-feed versions. More than 14 non-electrostatic gun options now available.

Norton Abrasives

Booth N461

NorZon® Plus Abrasive Wheels

Norton Abrasives introduces the Norton NorZon Plus line with expanded Norton NorZon Plus Fast Cut™ Wheels, for material removal.

Petroferm Inc

Booth S4818

AXAREL® 1000: Low Odor, MIL-PRF-680 Solvent

AXAREL 1000 Wipes exhibits very low volatility which assists in lowering VOC emissions, fire risk and total cost of ownership. They are the ideal replacement for acetone, isopropyl alcohol (IPA), mineral spirits, PD-680 solvents.

PFERD INC

Booth N1841

COMBICLICK® Non-Woven Discs

PFERD's innovative COMBICLICK® system combines an innovative flexible backing pad with a quick-mounting system, and a complete range of non-woven and felt discs for surface conditioning, fine grinding, and polishing.

Precision Quincy Ovens LLC

Booth S5538

49A-650

The 49-650 features a completely re-designed re-circulation system for

enhanced efficiency and a heavy duty oven body built to perform the perfect cure even after years of abuse.

Protech Powder Coatings

Booth S5042

Thermoplastic Powder Coatings

Thermoplastic Powder Coating lines consist of: DURABOND, DURALLOY, DURAPEARL, DURAPOL, DURAVIN, ENCASE™, GLAS-LOK® and POLYARMOR®.

SlipCon USA Inc

Booth S2081

Model LS-2TBLR 300 Lineal 4 Sided Sanding Machine

Designed for effective multi-sanding in one pass with a working width of 12" (300mm), the LS-2TBLR sander has two top, two bottom, two left and two right sanding heads with a motorized conveyor and is designed to process four sides in a single pass.

Results You Can Rely On

ROTOMAT®/ TRANSOMAT®

For quality testing of oil field and boiler tubes manufacturing process

ROTOMAT
Sensor System

Power Cabinet/
Test Electronics

TRANSOMAT
Sensor System

The ROTOMAT/TRANSOMAT, an in-process flux leakage testing method, is used for the detection of OD and ID surface defects in tubes and pipes. It can be fully integrated with existing production and quality assurance systems.

www.foerstergroup.com

See Us at Booth S4017

Spray Systems Inc

Booth S5524

Powder Collector Modules

Spray Systems introduces its series of powder collector modules to provide manufacturers greater flexibility to powder coat products of various sizes.

Recirculating Booth Design

Spray Systems reengineered its cross draft booth design to solve critical temperature and humidity conditions for a large, 25,000 CFM spray booth, allowing manufacturers to minimize capital equipment costs and rising operating costs

Water Wash Booth Design

Spray Systems customized its Water Wash Booths with a sludge device that solved booth inefficiencies and reduced down time for large paint volume booth applications.

TCI Powder Coatings

Booth S5540

Trullusion Powder Coatings

TCI Trullusion product line offers extremely high DOI, high reflective metallic look, and a formulation backbone and pigment package that can be used outdoors.

Veolia Water Solutions & Technologies

Booth S5660

Spent Caustic Degreaser Recovery System

CeraMem ceramic membranes combine innovative design features and unique materials of construction to provide ceramic membrane modules with exceptional performance for microfiltration (MF) and ultrafiltration (UF) applications.

VSM Abrasives

Booth N1932

Diamond Abrasives

Diamond Abrasives utilize a specially designed backing incorporating both Kevlar and Copper layers. It can be made in both disc and belt forms.

Weiler Corp

Booth N2431

Tiger Paw™

Weiler's Tiger Paw™ flap discs are designed for aggressive performance. The 100% zirconium discs last 30-40% longer, and the performance grain and special poly cotton backing provide superior grain retention.

Wendt USA LLC

Booth N1947

Threaded Flap Wheel (5/8-11 for Angle Grinder)

Wendt USA LLC offers its 5/8-11 threaded arbor for quick mounting on 4-1/2" and 5" angle grinders. The threaded flap wheel leaves a linear scratch pattern instead of an orbital swirl. Recommended for weld beads, heat discoloration, rust and paint removal.

Zerust Corrosion Solutions (Northern Tech Intl Corp)

Booth S4459

ActivPak(LS)

Zerust introduces the ActivPak(LS), fast-acting, drop-in corrosion inhibitor diffuser packets.

Gases & Gas Equipment

CONCOA Inc

Booth N1679

BlendMaster™ 657 Series Gas Blender

The BlendMaster™ 657 series provides 0 to 25% blend adjustability for argon and carbon dioxide gases while enhancing quality by maintaining a +/- 1.5% accuracy which eliminates the hassle of stratified high-pressure cylinders in storage

FIBA Technologies Inc

Booth S4080

Superjumbo CNG Tube Trailer

The Superjumbo CNG tube trailer is capable of hauling 289,171 SCF (12,998 LBS) of CNG, contains fourteen 2,748 PSI tubes, each with a water volume of 85.7 CU.FT. (2,427 L) or a total of 1,200 CU.FT. (33,978 L).

Kaplan Industries Inc/ Midwest Cylinder

Booth N356

Kaplan Cylinder Cradles

Kaplan offers its line of manifolds, carts, and cradles. The manifolds are manufactured in the USA to fit existing frames in use in the industry. Manifolds for 3000, 5000, and 7000 PSI in different configurations, gases, and capacities to connect from 2 to 25 compressed gas cylinders can be provided. The custom designs can be manufactured from brass or stainless steel, to meet special requirements from oxygen service applications to highly corrosive media as well as configured for additional components.

REXARC International

Booth N544

GASLOC

The GASLOC features a tamper-proof design, LoCable™, and are light weight and easy to install. Fits most regulators on the market, and available in colors coded to gas as well as custom colors (minimum order applies).

Hydroforming

Nikko Sangyo Co Ltd

Booth N130

Bulgeformed Faucet

Nikko Sangyo Co Ltd offers its bulgeformed faucet from 1.5mm thick 304 stainless welded tubing. The wall thickness is available from 1mm up to 2mm.

Triform Sheet Hydroforming

Booth S4619

Sheet Hydroforming-with Pre-Production Simulation

Triform introduces its next-generation Deep Draw & Fluid Cell sheet hydroforming presses, in combination with an advanced forming simulation software – Pam-Stamp 2G from ESI.

Inspection & Testing

Bruker AXS Inc

Booth N1583

S1 TITAN

The S1 TITAN quickly identifies alloy grade and complete chemistry of metals. At 1.44 kg, it is a light tube-based handheld XRF analyzer.

Cianflone Scientific Instruments Corp

Booth S5656

Model 2701X Electric Arc Button Remelt Furnace

The Model 2701X Electric Arc Button Remelt Furnace is primarily used for remelting metals and alloys into specimen buttons for spectrographic elemental analysis and alloy research.

Creaform

Booth S3592

MetraSCAN-R Optical CMM 3D Scanner

Creaform introduces its MetraSCAN-R series of robot-mounted optical CMM 3D scanners for fast and highly accurate (up to 0.085 mm) automated inspection on and off the production line.

data M Sheet Metal Solutions GmbH

Booth S4191

COPRA® ProfileScan Desktop (CPS)

The COPRA® ProfileScan Desktop provides profile measurement by means of Laser Light-Section principle. The CPS measures profile sections or short samples contactless by means of a sensor and a turntable, thus the whole visible cross section is pictured.

DeFelsko Corp

Booth S4821

PosiTector Inspection Kit

The PosiTector gage body accepts all coating thickness (6000), environmental (DPM), surface profile (SPG), and ultrasonic wall thickness (UTG) probes.

GE Measurement & Control

Booth N2139

XL-PMI Series XRF Analyzers

XL-PMI analyzers are handheld instruments designed for rapid and accurate

Positive Material Identification (PMI). These analyzers work oil & gas and power generation industries to ensure operational safety and maintain regulatory compliance.

Hexagon Metrology Inc

Booth S4654

ROMER Absolute Arm with integrated laser scanner

The enhanced ROMER Absolute Arm with integrated laser scanner is more rapid than previous versions, offering an acquisition speed of up to 50,000 points per second.

Laboratory Testing Inc

Booth S3515

Fatigue Crack Growth Testing

Laboratory Testing Inc. offers fatigue crack growth testing (da/dN testing) in its line of mechanical testing services. The test presents resistance of materials to stable crack extension under cyclic loading and is performed to ASTM E647 standard.

Magnetic Analysis Corp

Booth S3503

VARIMAC® VI

MAC introduces the VARIMAC® VI, an eddy current comparator for checking and sorting physical characteristics in metal parts.

Matuschek Welding Products Inc

Booth N2833

SPATZ Multi04

The SPATZ Multi04 weld recorder and analyzer measures and stores process information for welding current (AC or DC), weld time, welding voltage, electrode force, weld energy, and electrode displacement.

MTI Instruments Inc

Booth N1590

MTI Microtrak PRO 2D

This high speed 2-dimensional laser displacement sensors are ideal for quality control and production applications such as metal or plastic welding, 3D material inspection, component alignment, tire depth, and angle measurements.

Oasis Scientific Inc

Booth S5469

ViTiny® UM06 Tabletop Autofocus Digital Microscope

ViTiny® tabletop UM06 digital microscope is a total autofocus digital microscope with exchangeable lenses, 5MP high definition camera and both USB/HDMI connection.

Shantou Institute of Ultrasonic Instruments Co Ltd (SIUI)

Booth N2547

SUPOR

The Ultrasonic Phased Array & TOFD Flaw Detector can be used for welding/pressure vessel/fiberglass inspection, as well as aerospace/power generation/primary metals/foundry/oil and gas/shipbuilding industries.

VITRONIC Machine Vision

Booth N1491

VIROwsI

The VIROwsI is a camera-based weld seam inspection system.

Xiris Automation Inc

Booth N2217

XVC-O Open Arc Weld Camera Systems

The Xiris XVC-O Weld Camera system is intended for monitoring all open arc welding processes such as, MIG, MAG, TIG, Plasma, Laser or Stick.

Zarbeco LLC

Booth N571

Video ToolBox Premier Software

Zarbeco LLC offers the Video ToolBox premier software, a digital imaging product.

Job Shop/Contract Manufacturing

Johnson Bros Metal Forming Co

Booth S2304

Hat Channel with Slots

Hat Channels can also be described as a roll formed metal U-channel with a bottom horizontal web and 2 vertical legs with outward flanges. These outward flanges can also be called Wings or Fins.

Metal Rolled Formed Channels

Johnson Bros. offers existing tooling for U-channels & J-channels, many C-channels and Hat channels.

Rolled Formed Metal Parts

Johnson Bros Metal Forming Co offers roll formed metal channels, profiles, mouldings, rings, panels, framing, open seam & lock seam tubing. All metals from prefinished & plain. In-line, holes cut to length, miters, ring bending, end fabricating, and perforating.

Penn United Technologies Inc

Booth S4413

Carbide and Metal Assemblies

Penn United Carbide, a division of Penn United Technologies, manufactures assemblies of tungsten carbide and a customer specified metal alloy. These assemblies are used as a common method of overcoming certain design challenges in mechanical designs from both a mechanical and cost perspective.

High Precision Stamping Dies

Penn United Technologies offers expert skills and comprehensive knowledge of high precision metal stamping dies needed to produce the highest quality stamped parts, giving durability and maintaining the utmost level of accuracy.

Lasers**AKS Cutting Systems Inc**

Booth S3301

AKS Fiber-Kut 4' x 4'

Fiber Laser cutting system with a 4' by 4' cutting area.

Amada America Inc

Booth S901

ACIES Series

Amada introduces the latest evolution in punch and laser combination technology, combining unmatched productivity and scratch-free processing of complex sheet metal parts.

FLCAJ 3015

Amada America Inc introduces its FLCAJ 3015, high-speed, high-precision 2kW fiber laser.

Bystronic Inc

Booth S1731

ByAutonom 3015

Bystronic Inc. introduces its laser cutting system ByAutonom 3015 with ByLaser 6000. ByAutonom's automated functions virtually eliminate operator interventions, reducing non-productive time and lowering the cost per part.

BySprint Fiber 3015 with ByTrans Extended

BySprint Fiber fiber laser can process sheet metal thickness' previously reserved for CO₂ laser cutting systems. With ByTrans Extended storage/return/transfer automation, this system creates the ideal entry into lightly-manned parts production.

Centricut

Booth S951

Sensor Cones for CO₂ Laser

Centricut introduces sensor cones for Amada, Mazak, Mitsubishi and Precitec heads that offer equal performance to the OEM at a value price. They are engineered and manufactured to Hypertherm's high quality standards and come with a one year warranty.

Chart Inc

Booth N2409

Horizontal Perma-Cyl[®]

Chart has created a horizontal version of the popular Perma-Cyl[®] 3000 VHP and HP. This product has the same performance as the 3000 VHP and HP but in a package easily delivered on a flatbed truck and short enough to fit under a 6' fence.

Dimeco Alipresse

Booth S4070

LINACUT[®]

Dimeco offers its continuous coil laser cutting solutions. Focusing on processing strips up to 4 mm thick, this high tech cutting line consists of a coil handling section, a LINACUT[®] continuous laser cutting module and an optional automatic robotic stacking cell.

IntelliFinishing

Turnkey paint finishing systems

Ready to shift gears?

- Moves forward and backward
- Variable speeds throughout the system
- Loads and unloads easily with lifts
- Moves sideways with shuttle system

Lasers

Farley Laserlab USA Inc

Booth S3690

GF3015 CNC FIBER LASER

Farley Laserlab's GF3015 CNC fiber laser cutting machine adopts gantry-motion structure, linear guide, screw drive, AC servo motor and drives, and vacuum system (both sides). The one-time processing area is 3m x1.5m.

Han-Kwang USA Inc

Booth S3340

FS FIBER

The FS FIBER represents the latest in control, drive and laser technology, providing superior accuracy, speed, and capacity. The fiber laser source offers excellent design and performance.

Innovative Tube Equipment Corp

Booth S3649

Tube Laser Cutting Machine

The TTM FL800 3D laser tube cutting machine can be used to cut round, square and rectangular tubes, along with non-tubular open profile sections, ranging in diameter from 6-32 inches and lengths up to 60 feet.

Laser Mechanisms Inc

Booth S1806

Laser Mechanisms FiberWELD™ Processing Head

FiberWELD™ is a compact, low mass laser welding head with all wiring and plumbing internally located. Offered with straight or right angle fiber input, camera viewing, wire feed, air knife, coaxial nozzle, weld monitoring and special focusing optics.

LaserRite

Booth S2341

LaserRite™ Duo

American Bilrite announces the addition of LaserRite Duo fiber optic and CO₂ laser cutting film. LaserRite Duo was developed to meet the high speed requirements of the latest fiber laser machines.

LaserStar Technologies Corp

Booth S2309

Custom Laser Welding Systems

Custom Laser Welding Systems are class 1 enclosures that easily integrate with a variety of laser processing technologies and motion systems.

FiberCube Laser Marking System

The 3801 Series FiberCube® is a compact, turnkey laser marking, laser engraving and laser cutting system that offers the benefits of a non-contact, abrasion-resistant, permanent laser mark, engraving or cut onto almost any type of material.

Industrial Laser Welding Systems

LaserStar's 1900 series industrial laser welding systems are ideal for a wide range of metal joining, complex assembly, automation and repair applications for the industrial marketplace.

Mold Repair Laser Welding System

LaserStar's 7800 series open work-space laser welding systems are ideal for a variety of common spot and seam welding applications

Universal Jig & 7700 Series Laser Welding System

LaserStar's micro welding laser systems are ideal for a wide range of large plastic injection mold, tool & die maintenance and repair applications. Made in the USA.

MegaFab-Piranha-Whitney-Bertsch

Booth S1749

Whitney Eagle

The Whitney Eagle features a 5kW fiber laser, 6G acceleration and 8 second pallet.

Whitney Fiber Laser

Priced at \$495,000, the Whitney Fiber Laser features fiber power up to 6kW. A wide range of machine sizes and CO₂ resonators available.

Messer Cutting Systems

Booth S1755

Edgemax

The EdgeMax by Messer Cutting System is designed as a compact machine with a rugged unitized steel table / frame, full capture bearing assemblies and a low-mass aluminum beam.

Global Rotator Delta

The Global Rotator Delta is a compound skew design plasma bevel unit capable of accurately cutting bevel profiles (non-vertical) on nearly any contour.

MetalMaster Plus

Messer Cutting Systems introduces the MetalMaster Plus, a unitized gantry cutting machine that utilizes conventional and precision plasma to produce excellent cut parts.

MetalMaster Plus with Shuttle Table

The MetalMaster Plus, heavy performance gantry cutting machine and dual pallet shuttle table, provides maximum productivity, excellent cut quality and accuracy.

MPC2000

The MPC2000 features enhanced linear ways, long-life band drives, and larger end trucks. The MPC2000 is a heavy-duty workhorse that drills, cuts, bevel cuts, and marks with multiple processes, fast speed and superior cut quality.

PlateMaster

The PlateMaster is a rugged steel, dual drive box beam gantry with heavy duty floor mounted rail system, which provides a platform for Plasma and Oxyfuel cutting.

Ningbo Jinfeng Welding & Cutting Machinery Manufacture Co Ltd

Booth N353

Laser Cutting Machine

The Ningbo laser cutting machine is equipped with a laser generator, preventing the longitudinal running from being affected by the optical path. This offers a higher power CNC laser cutting machine that can be applied in a wider range.

INDUSTRIAL MACHINERY DIGEST

The Industry's Most Extensive Industrial Publication

Where You Can Find Every Piece of Equipment Needed for the Manufacturing Process!

Lasers

Nitto Denko America Inc

Booth S2253

Fiberguard™ 310GH5

The Fiberguard™ 310GH5 surface protection tape protects metal surfaces during Fiber and CO₂ laser cutting processes. The unique design uses proven engineering to offer a blended film for cutting applications.

Nufern

Booth S3188

NuQ 50W Fiber Laser for Marking

The latest addition to the NuQ series, a 50W average power, is air-cooled Q-switched fiber laser based on the same highly successful industry standard platform as the 20W and 30W pulsed fiber lasers.

Richardson Electronics Ltd

Booth S2018

Remanufactured CO₂ Driver Stages

Richardson Electronics offers remanufactured driver stages used in TRUMPF CO₂ lasers. Each unit undergoes a thorough 38-point process and is tested and burned in for 24 hours before delivery.

Sahajanand Laser Technology LTD

Booth N492

Future X – State of the Art Fiber Laser Cutting

Future X is capable of cutting Aluminum, Brass, Copper, Titanium, coated & textured metal sheets. This system could cut a 20mm of Steel with a 3 kW fiber laser, and offers the finest cut quality prescribed by international standards.

Sharpe Products

Booth S3490

Fiber Optic Tube Laser Cutting Services

Sharpe Products' 3,000 watt fiber optic tube laser has unique cutting capabilities and increased production speed versus CO₂ tube lasers. This tube laser cuts steel, stainless steel, aluminum, copper, brass, bronze, and galvanized pipe up to 6in O.D.

Sulzer Metco (US) Inc

Booth N404

MetcoClad™ Laser Cladding Systems

The MetcoClad™ laser cladding systems are suited for accelerated processing of various component sizes, geometries and weights, and only a single cladding strategy is needed for multi-surface cladding.

Thermacut Inc

Booth N855

Laser Cutting Consumables and Optics

Thermacut Inc. offers its product line of laser cutting consumables and optics for both the TRUMPF® and Bystronic® laser cutting systems.

Tri-Mer Corp

Booth N1894

Laser Chiller/Dust Collector Combo Unit

Laser Chiller/Dust Collector combo unit for precision laser cutting operations.

TRUMPF Inc

Booth S1701

TruLaser 3030 fiber

With 3 kW of power and a one micron wavelength, the TruLaser 3030 fiber is able to cut up to 3/4 inch mild steel, 5/8 inch stainless steel and aluminum, and 1/4 inch copper and brass.

VyTek

Booth S2976

FiberCut

VyTek introduces the FiberCut series which combines the latest developments in fiber laser technology utilizing the next generation air and water cooled fiber lasers.

Lubrication

Andantex USA Inc

Booth S4877

FlexxPump 1500

FlexxPump 1500 is a compact automatic re-lubrication unit that delivers grease efficiently with minimum quantity to the points being lubricated. Equipped with up to 10 outlets fed by piston pumps, with programmable delivery rate and frequency.

Heck Industries

Booth S2209

Crazy Larry's Secret Lube

Heck Industries offers its latest cutting oil.

Industrial Innovations Inc

Booth S4319

Next Generation Pro-Mix

Industrial Innovations Inc introduces its proportional lubricant mixing system for synthetic, semi-synthetic and emulsified lubricants at multiple dilution ratios.

Precision Fluids

Booth S4279

Metal Forming Fluids

Precision fluids for drawing & stamping lines.

Tower Oil & Technology Co

Booth S4709

Saf-T-Draw

Saf-T-Draw is an advanced green fluid technology that provides a environmentally safe, VOC free replacement for solvent based vanishing oils.

Machining/EDM

Anchor Danly

Booth S4714

SNK RB-6 CVM

Anchor Danly introduces its SNK RB-6VM 80" x 137" x 236" with right angle capabilities.

Fabricators & Manufacturers Association

Booth N1400

Canadian Industrial Machinery Leadership Summit

Scheduled for June 12-13 in Niagara Falls, Ontario, this program offers fabrication and machine shop executives a forum to network with peers and learn from leading experts about business growth and operational improvement.

Voortman Corporation

Booth S1773

V630 Beam Drilling System

Voortman Corporation introduces its V630 drilling line with three independent drilling heads. The stable and high quality V630 can drill both flanges and the web at the same time.

Maintenance & Repair**Construction Electrical Products**

Booth N2166

LED Wing Light

The 51 Watt LED work light is available with a stubby base or tripod. It produces 3000 lumens for intense illumination, is listed for wet, is impact resistant to withstand tough environments and pulls 0.47 amps on a 120 volt circuit.

Daubert Cromwell

Booth S4250

Nox-Rust Premium Rust Removing Gel

Goss Inc offers its water-based, non-acidic, brush-on rust remover that clings to metal surfaces. Begins to work in minutes, wipes or rinses clean. Safe to use, odorless, clear, thick gel has no HAPs or VOCs.

Goss Inc

Booth N2049

EN-700F Regulator

The EN-700F is a heavy duty regulator that delivers 700psi and the volume most requested by professionals.

MTI Power Services

Booth N2309

The SOCKETMASTER

MTI introduces the SOCKETMASTER, a machine that mounts quickly to the stub tube OD and excavates bad welds (360°) in minutes. It leaves a uniform, machine quality surface for welding and eliminates the need for mid-process testing

Service Lamp Corp

Booth S2319

Philips High Bay LED Fixture- G16V2

Service Lamp Corp offers a high efficiency, Philips 16" wide LED high-bay, that provides exceptional light distribution. Applications include warehouses, manufacturing facilities, and open construction. This light fixture is a replacement for a 400W MH.

**Material Handling/
Marking****Docmagnet Inc**

Booth S2069

Pick N' Place Permanent-Electro Magnet

Docmagnet Inc offers its permanent-electro magnet for use on robotic fixtures for material handling. The unit comes in a variety of standard sizes and can be designed to fit most applications.

Ergotech Inc

Booth S1925

Compact 3-Axis Motorized Work Positioner

Ergotech Inc. introduces its compact, 3-Axis motorized work positioner, suitable for welding, and assembly. It offers full 360 degree infinitely variable, bi-directional vertical speed rotation, 90 degree tilt angle, as well as a work height adjustment.

Flexarm Inc

Booth S3190

Part Manipulator PM44-S1

The PM44-S1 offers a weight range — 0-90#, work range of 0-108" and arm length of 4 feet.

Kuka Systems North America

Booth N330

KUKA Cobra

KUKA Cobra is designed for linking several presses within a press line.

Messer Cutting Systems

Booth S1755

Telesis® Pinstamp®

The Telesis® Pinstamp® marking system uses a reciprocating stylus and permanently prints messages on a variety of plate such as mild steel, stainless steel and aluminum.

Pax Products Inc

Booth S4314

EGD-50 Oscillating Conveyor

The EGD-50 conveyor can carry 50 pounds of trays plus the weight of the scrap being conveyed out. The patented conveyor utilizes an electric motor to drive elliptical gears located in a sealed oil bath, which provides an extremely reliable design.

Rousseau Metal Inc

Booth S5681

5S Wall Panel

The 5S lean manufacturing wall panel is designed to facilitate organization by allowing visual identification of where each item should go. To maximize functionality, round hooks, heavy-duty hooks, can holders and plastic bins supports can be combined.

Saf-T-Cart Inc

Booth N1934

EZ-Load-4L-EMH

The EZ-Load-4L-EMH is a liquid cylinder cart designed to reduce workplace injuries by adding motorized maneuverability and removing pinch points for the operator.

EZ-Load-4L-MH

The EZ-Load-4L-MH is a ratchet operated liquid cylinder cart designed to reduce 'pinch points' and injury opportunities while moving cylinders. Easy maintenance and minimal training necessary make this cart highly desirable.

SKM Industries Inc

Booth N105

Jumbo Oil Based Markers

SKM Industries Inc offer industrial grade paint markers that are ideal for all surfaces including steel, metal, wood, glass, rubber, and plastic. Fast drying bold lines are weather resistant.

Steel King Industries Inc

Booth S2279

Steel King Bar Racks

Steel King redesigned bar racks are made for storing bar stock, piping, tubing, extrusions, and various other products. The updated design has fork tubes to allow for movement by crane and also with fork trucks.

United ProArc Corp

Booth N318

Positioner

United ProArc Corp offers reliable, high cost-performance, streamlined, compact positioners with load capacity from 100kg to 20,000kg.

Material Handling/ Marking

Welker Engineered Products Booth N2871

Auto-Indexing Dimpler

Welker Auto-Indexing Dimpler minimizing potential for multiple blank feeds and prevents sheet metal blanks from sticking together by producing a pattern of small dimples in the trim edge that automatically index with the action of the press.

Part Positioner

Compact dual-action part positioners are used to preload, position and clamp parts from above. Ideal for down-turned flange stampings. Provides substantial savings over traditional overhead locating and clamping constructions.

UB2 Compact Shot Pin

The UB2 is the smallest, shortest square ram offering in the Gold Line series. Available in 25, 50, and 75mm stroke lengths, the UB2 is ideal for use as a retractable locating pin or straight acting clamp in applications where space is limited.

Yaskawa America Inc Booth N818

RM2-Series Part Positioners

The Yaskawa Motoman RM2-series Ferris Wheel part positioners have a 17% smaller width than standard positioners and offer larger payload capacities.

Metal Suppliers

AED Motorsport Products Ltd Booth S4106

Custom Aerotube

AED Motorsport Products can produce custom aerotube/streamline, roll-formed from round tube.

Changshu Special Shaped Steel Tube Co Ltd Booth S4040

Seamless Fin Pipes

Changshu Special Shaped Steel Tube Co Ltd introduces its line of Seamless Fin Pipes. The pipes are seamless, and the complete fin tubes have no weld-

ing seams, and are not welded to the pipe. These fin pipes are seamless cold drawn and patented in China.

Eagle Brass Co Booth S4205

High Yield Stainless Steel 301

Eagle Brass Co offers high yield stainless steel 301 for the spring industry.

Han's Laser Booth N245

Mars J 20

MARS J series fiber laser markers offer the high quality and reliability of a laser beam and can work on offline mode (without computer).

Other Machinery/ Equipment/Parts/Products

American Friction Welding Booth N247

Valve Pistons - Before & After Machining

American Friction Welding offers friction welding components with near-net-shapes.

Andantex USA Inc Booth S4877

KRPX Rack & Pinion Reducers

KRPX reducers are ideal when zero-backlash and high stiffness linear axis drives are required. An integral output pinion combined with a robust bolt on housing makes for easy installation and maximum compound stiffness.

Ring Gears & Gear Segments

Anadantex USA Inc offers high quality, made to order ring gears and gear segments that provide rotary motion to large turntables and rotating devices. External or internal, straight or helical ring gears can be made to customers drawing or designed to meet application requirements.

Art Technologies Inc Booth S4708

Sealed Tapered Roller Bearing

Sealed tapered roller bearings are designed for high thrust-load capacity applications while retaining lubricants and preventing contaminants to extend the life of the bearing.

Atlanta Drive Systems Inc Booth N317

Hardened & Ground Racks

Atlanta Drive Systems offers their expanded hardened & ground rack range, which includes high-precision (HPR) DIN 7 and 8 quality levels.

Beckwood Press Co Booth S4719

Heartbeat System

The Heartbeat System offers on-board pre-preventive maintenance capability through real-time monitoring of hydraulic press system health. Includes fluid health & pump efficiency monitoring with early-warning notification capability to prevent unplanned downtime.

Bunting Magnetics Co Booth S4652

Magnetic Thin Plate Lifters

Bunting Magnetics Co offers lift plates down to .20" thick, with the same safety factor (3:1). Manually operated permanent magnet lifter specifically designed for lifting thin plates and removing single sheets from a stack.

Burghardt + Schmidt GmbH Booth S2378

EP300 Offline Burr Height Measuring System

The EP300 Offline laboratory system for manual measurement of cut out samples offers quality control over slitting processes.

DESCH Canada Ltd Booth S4616

Servox Brake

With a combination of electronics and mechanics for control, unique test rigs and the development of drive technologies, DESCH offers a multi-functional brake specifically for servo press drives.

Dust Shield LLC Booth S4779

LCD TV Display Enclosure

Dust Shield LLC introduces secure industrial protection for LCD and plasma displays up to 72".

EnvisionTEC Inc
Booth S4141

EnvisionTEC ULTRA 3SP Series
EnvisionTEC's ULTRA® 3SP series 3D printers use 3SP (Scan, Spin and Selectively Photocure) technology to quickly 3D print highly accurate parts from STL files. 3SP allows for faster speeds as well as the ability to be used in large frame systems.

Fein Power Tools Inc
Booth N264

Compact Angle Grinders
FEIN compact angle grinders, with its high power motor, now cover three power classes. All come standard with a 90 degree rotatable metal head, spindle lock, detachable / anti-rotating wheel guard, anti-vibration handle and a 13ft. cord.

Slugger Magnetic Base Drills
The JCM 200 Auto, a class-leading fully auto mag drill, is one of Fein Power Tools five new models.

Garrick USA
Booth S2171

Linishall BG8/915 Bench Grinder w/Attachment
The Linishall 8" heavy duty bench grinder with belt and disc grinding attachment features a full 1 HP motor. It incorporates a traditional grinding wheel on the left side, and a multipurpose belt and disc attachment on the right side to make quick work of shaping, deburring, and many other tasks. Each unit comes supplied with a cooling tray, work light and wheel dresser.

Hex-Hut Shelter Systems Ltd
Booth N147

Octo-Hut Welding Tent
The Octo-Hut welding tent shields welds from the elements and creates uniform, well-lit workspace independent of grade or height of weld. Ultra-light and portable. Sets up in under 10 min. Covers 4-24" pipeline welds.

Keller USA Inc
Booth S5621

RECLAIM
Keller USA Inc introduces RECLAIM, an environmentally reliable dry separation process for wet painting processes.

Linemaster Switch Corp
Booth N872

Electronic AC Speed Control Foot Switch
Linemaster introduces the electronic AC speed control foot switch, which was designed to offer precise variable control of fractional horsepower universal motors. The model utilizes Hall Effect sensor technology rather than the standard mechanical potentiometer, which provides a much more consistent and accurate performance over the life of the foot switch.

BOOTH #N136

T.780.448.9338 **bpautomation.com**

Other Machinery/ Equipment/Parts/Products

Multi-Contact USA

Booth N2673

CombiTac

CombiTac is Multi-Contact's modular connector system combining pneumatic, electrical, fluid, signal, fiber-optic and thermocouple connectors in a compact design for many industrial applications.

Ohio Laser LLC

Booth S2216

Mobile Work Table XL

The Mobile Work Table XL features rugged all-welded steel construction. Designed for demanding industrial and manufacturing work environments. With a 5,000 lb. distributed weight capacity, it can accommodate a wide variety of plant operations.

Packsize International, LLC.

Booth S3550

iQ FUSION

The iQ FUSION™ automated packaging machine provides the ability to create a custom-sized box for every product a company ships.

Progressive Ruesch Machine Co Inc

Booth N123

221 Turret Slitter

Progressive Rueschs product line offers the model #221 turret head slitting head. The turret concept allows an operator to set-up one head for the next production cycle while the other head remains in production.

Rafter Equipment Corp

Booth S4277

Roll Forming Machine

Rafter Equipment Introduces a 2-pass roll stand assembly, which offers a lower cost rafted machine design and a customized drive train arrangement.

Richard Hough Ltd

Booth S4889

RoberteX + Roberto Yellow Fibre Filled Rolls

Richard Hough Ltd introduced its RoberteX chemically resistant fibre rolls and its Roberto Yellow oiling and wringing rolls.

Ruwac Industrial Vacuums

Booth N572

Extract Vac Filtered Separation Vacuum Series

Ruwac's Extract Vac series offers quiet continuous duty operation and highly efficient filtered separation that makes removing fine dust particles easy without worrying about cross-contamination.

ShengYuan Mechanical Equipment Engineering Co Ltd

Booth N392

CNC Lathe

ShengYuan introduces its line of machinery; CNC lathe: 21 sets, CNC milling machine: 18 sets, Slow wire cutting machinery: 4 sets, Lathe: 8 sets, Milling machine: 25 sets, and Grinding machine: 30 sets.

Tri Tool Inc

Booth N611

TTM Template Tracer

The TTM Template Tracer Modules can be used for light duty form tool applications as well, such as counter boring and cutting a bevel radius.

UltraLube

Booth S2355

UltraView 18V Cordless Grease Gun

UltraView® cordless grease gun with 18-volt battery and heavy-duty motor delivers over 7,500 PSI of force. Clear, shatterproof, polycarbonate barrel to identify grease, eliminating cross-contamination. Two NiCad batteries, charger, 42" hose, strap & case.

Weifang Baolong Precision Casting Co Ltd

Booth N388

Forklift Parts

Baolong provides forklift parts, auto parts, locomotive parts, valves, earth-moving equipment parts, and harvesting machine parts.

Plate & Structural Fabricating

Farley Laserlab USA Inc

Booth S3690

Trident, Combination Plasma Cutting and Drilling

Farley Laserlab USA Inc introduces the Trident featuring a HPR400XD auto-gas, bevelhead and drill.

Ficpe Corporation

Booth S1786

Gemini 36 XD

The Gemini 36 XD is designed to address the largest and heaviest plate applications that require drilling, milling, tapping, countersinking, counter boring and oxy cutting to size.

Hypertherm Inc

Booth S951

Powermax125®

Hypertherm introduces the Powermax125, part of its Powermax family of industrial plasma cutting and gouging systems. It offers 125 amps of power and has a recommended hand cutting rating of 1.5" and a severance rating of 2 1/4".

MegaFab-Piranha- Whitney-Bertsch

Booth S1749

#75-10

The Bertsch #75-10 bending roll features 10' of 3/4" prebending and rolling capacity, heavy duty rectilinear guided design and off the shelf hydraulics and electrics. Manual, NC control and CNC control versions are available.

Piranha Ironworker

Piranha tough, featuring more tonnage and capacity. Available models are P50, P65, P110 and p140.

Whitney Laser

High performance plasma cutting machine tool with industry leading acceleration and multiple options available. The Whitney Finline features a low cost entry level plasma cutting machine tool with independent down draft table and frame to eliminate the effects of thermal transfer.

Whitney Ultimate Combination Machines

The 300HEAVY features 3/4" maximum material thickness and 75 ton optional capacity. Options include marking head, automatic tool change servo controlled drilling/milling (40HP), manual tool change servo controlled drilling/milling (10HP), HPR plasma systems from 130A to 400A, automatic or semi-automatic loading, unloading, skeleton removal, and material storage system, and retractable work clamps.

PythonX-Burlington Automation

Booth S3384

PythonX Structural Fabrication System

The PythonX structural fabrication system allows users to fabricate structural steel in one place eliminating wasteful material handling and saving valuable shop space.

Voortman Corporation

Booth S1773

V320 Combined Plate Drilling and Cutting

The V320 is a compact design pass through system for steel plates. The system is developed for plate drilling and plasma and oxy-fuel cutting.

Welding Alloys USA

Booth N2018

Hardlite

Hardlite is a thin, light and hard Chromium carbide wear plate that is extremely wear resistance to sliding abrasion and moderate impact.

Press Brakes

Bystronic Inc

Booth S1731

Xcite 80 E Press Brake

Bystronic's electrically driven press brake, Xcite 80E, is the solution for producing high-quality bent parts, especially when paired with the equally fast BySprint Fiber 3015 laser cutting system with 4kW fiber-laser.

TRUMPF Inc

Booth S1701

TruBend Cell 7000

Developed with high productivity for small sheet metal component bending as the primary objective, the TruBend Cell 7000 combines unrivaled working speeds with a unique operating concept.

Ursviken Inc

Booth S3967

OptiFlex 230 Ton 10' Press Brake

Ursviken introduces its OptiFlex 230 ton 10' press brake with design with material plate support and swing function that are truly synchronized throughout the bending cycle.

Punching

Dalcos

Booth S3984

EXN Coil Punching Machine

Dalcos offers the latest cutting-edge technology in its electric coil punching machine EXN. The electric actuator fitted on the machine can reach up to 500 strokes a minute a force of 20 tons on all the tools with resulting high performance, while featuring extremely quiet operation and low installed power.

Modern Manufacturing Technologies

Booth S3984

S3984

The Dalcos EXN series of servo-electric coil punching machine features include; 15" wide to 40" wide, 22 ton punch, thick turret style tooling (from 4 to 30+ tools), 30 ton press stations and a cut-off shear.

Murata Machinery USA Inc

Booth S938

Motorum 2048TS

Motorum 2048TS includes servo driven ram design, intelligent control interface, large turrets with 4 large auto index stations, is automation process integration capable, available in Wiedemann or Spring Style tooling, and meets RBD.

Resistance Welding

BF ENTRON Ltd

Booth N208

4PAK Cascade Resistance Welding Control

Modular cascade resistance welding system capable of up to 16 rapid cascade welds into welding transformers of 150/300 kVA, depending upon choice of SCR. The system consists of one master unit and up to 3 slave units, each capable of driving four welds.

Centerline (Windsor) Ltd

Booth N2419

CenterLine FlexGun Series RA

The FlexGun Series RA welding guns are designed for lighter gauge materials and are ideal for assembly plant welding forces and currents. Their compact construction enables them to be carried on 165kg robots. Both C and Pinch style models are available.

FlexFast™ Welder

The FlexFast™ welder offers the ultimate in flexibility, durability and performance for a broad range of fastener welding applications.

SeamTec™ Roll Spot Welder

The SeamTec™ welder is a practical seam welding system that is designed for ease of integration into roll mills, stand-alone or robotic seam welding applications.

Dengensha America Corp

Booth N429

America NDZ Projection Welding System

The NDZ Projection Welding System combines the NDZ Pedestal Welder with Dengensha Feeder. Ideal for manual or robotic systems. Initiated by foot switch, dual palm stand or robotic interface. Installation, set-up and operation are easy and trouble-free.

Etal/INDUX Sa De Cv

Booth N630

Resistance Welding Consumables

Etal, a resistance welding manufacturer provides wheels, rings, electrodes, and caps.

Resistance Welding

GLAMAtronic

Booth N1489

GKS-P 160/280-Q

GLAMAtronic offers capacitor-discharge welding with an electrical discharge energy of 160 kJoule and a welding force of 280 kN.

Harms & Wende GmbH & Co KG

Booth N456

Aluminum Mode Classic (AMC)

AMC allows reliable welds on aluminum using MFDC resistance welding technology.

Ideal Welding Systems LP

Booth N1694

CSR102 Automated Resistance Welder

The CSR102 automated resistance welder can be programmed and tooled to weld 2D and 3D sheet metal and wire components, offering improved quality, reliability and efficiency.

LORS Machinery/Resistance Welding Solutions Inc

Booth N2611

LORS Butt Welder

Available in KVA ratings from 10-30 KVA, LORS Machinery's redesigned butt welder offers higher weld current and better upset results.

Multi-Contact USA

Booth N2673

RobiFix

The RobiFix is a compact connector for spot-welding applications. It features a quick and easy assembly, high current-carrying-capacity, low profile and water tight design, lightweight, easy replaceable.

Robotics

Arc Specialties Inc

Booth N974

MTR-1000: Machine Tending Robot

ARC Specialties integrates robots into machining centers to create flexible automated solutions for part loading and unloading.

BeamMaster (AGT)

Booth N2082

GougeMaster

Automated robotic plasma gouging.

FANUC America - CNC

Booth N1169

3D Area Sensor

FANUC America's high-speed 3D Area Sensor is a solution for robotic bin picking applications. The 3D Area Sensor provides full 3D maps in one quick vision shot.

Nabtesco Motion Control Inc

Booth N2106

RVN

The RVN series is a compact and powerful gearbox that still maintain the highest level of positioning accuracy.

Nachi Robotic Systems Inc

Booth N842

MZ07

Nachi MZ07 series small robot arm features ultra-high speed with advanced through-arm dress capabilities to simplify routing of hoses and cables for material handling, assembly, vision and many other applications.

Robotiq

Booth N1871

Kinetiq Teaching

Robotiq Kinetiq Teaching can quickly and easily task Yaskawa robot welders without requiring in-depth programming knowledge. Through this application, large and small companies can capture the benefits of automating welding processes.

Staubli Corp

Booth N2673

MPS 630 - Robot Tool Changer

Speed up the process, reduce the cycle time, optimize production with maxi-

mum flexibility. The MPS 630 was born of this detailed knowledge both of the challenges facing you and of the automobile industry.

Wolf Robotics LLC

Booth N861

SmartPositioners

Wolf Robotics offers a complete line of standardized positioning equipment designed for manual welders.

WolfPack

Wolf Robotics offers a variety of cost-effective modular robotic systems delivered ready-to-weld.

Safety & Environmental

Ace Industrial Products

Booth N2030

Hi-Lo Portable Welding Fume Extractor

The Model 73-201 is redesigned with the contractor and maintenance person in mind. Design features provide versatility and an easy to use portable extractor. Made in USA.

ASSA ABLOY Entrance Systems

Booth N155

RapidProtect 300 & RapidProtect 2000

AAES offers high speed safety and machine protection doors designed for automated processes and production lines. These rugged machine guarding doors are reliable, easy to install and low maintenance while giving protection to workers in danger zones

Avani Environmental Intl Inc

Booth N2600

SPC-800

The Avani Environmental Intl., Inc. SPC-800 is a portable user friendly fume filtration unit, designed for point of origin extraction at any work area.

Axelent Inc

Booth N2119

Axelent X-TRAY® Wire Tray Cable Management System

X-TRAY® Wire Tray cable management system is economic and functional. Emphasizing on the, food, off shore, machinery, infrastructure, energy and tele-

communications/data sectors, X-TRAY® offers a complete solution for cable management needs.

Buhin Corp Booth N1987

12" VELOCITY – PN

Buhin's intrinsically safe, pneumatically powered Velocity-PN ventilator is designed for use in confined space areas where the elimination of dangerous sparking is critical.

Fabricators & Manufacturers Association Booth N1400

Energy 101 for Manufacturers, Webinar Series

Online classes that reveal profitable ways to improve energy efficiency a facility, such as space heating/cooling, lighting systems, air compressors, retro- and continuous commissioning, and motor's and vfd's.

Green Manufacturer™ Conference & Exhibits

This event will bring together all the elements a manufacturer needs to know in order to adopt or enhance sustainable manufacturing practices that lead to increased profitability on May 20-21, 2014 in Naperville, Ill.

Flame Technologies Inc Booth N2036

HydroMist

Fan Tech products create a very fine misting vapor (or fog) which, through complete evaporation, is capable of reducing temperature in the immediate area by up to 25°F.

Imperial Systems Inc Booth S2387

CMAXX dust & fume cartridge collector

The CMAXX dust collection system not only has a sleek new design, it also contains the latest NANO fiber technology to help preserve filter life. All units are constructed with top-quality DOT/UV Grade silver pulse-valve tubing.

Industrial Maid LLC Booth S3193

Industrial Maid T-Series EXP

Packaged ambient air filtration unit with direct drive motor.

John Tillman Co Booth N2404

1494, 1498 TrueFit Impact Gloves

TrueFit gloves with TPR pads for added impact protection.

Kemper America Inc Booth N661

SparkTrap

KEMPER's SparkTRAP is a preliminary separator that eliminates filter fires and prolongs filter life.

Lazer Safe Pty Ltd Booth S2033

LS-FM Lazer Safe Folding Machine Guarding System

The LS-FM is specifically designed for folding machine applications. It provides a complete safety solution including optical guarding of the clamping operation, clamp speed and overrun monitoring and management of additional machine safety components.

Proceco Ltd Booth S5567

Eco-Smart® MVR Evaporator to Recycle Wash Waters

MVR evaporators use vacuum distillation to treat rinse water issued from surface treatment, aqueous parts washing, or metal parts stamping/forming processes. Reclaim up to 98% of process water. Very low energy consumption process

Riveer Environmental Booth S5517

WASHMASTER 500

Portable washbay for industrial cleaning, degreasing and pretreatment, allows for cleaning large parts, fabricated structures, tooling in both the production and maintenance areas of a facility.

Tapeswitch Corp Booth S2314

Safety Laser Scanner/Perimeter Protection

The Safety Laser Scanner features wide area coverage in a compact, lightweight, and easy to use scanner for presence detection, perimeter security, and area guarding.

West Chester Protective Gear Booth N2458

IRONCAT® Heavy Duty Cowhide MIG Welding Gloves

Designed by welders for welders, the IRONCAT heavy duty cowhide welding gloves (item #9100) were designed to meet the protection and dexterity needs of MIG welding applications.

Saws & Cut-off Machines

Behringer Saws Inc Booth S1914

HBE Dynamic Bandsaw

The HBE Dynamic Bandsaw series covers a broad application spectrum for the steel trade, mechanical engineering, tool making and high-end metalworking shops.

Brobo / Ken Bergman & Assoc LLC Booth S2234

TNF125

Brobo/Ken Bergman & Assoc LTD offers its TNF125 aluminum upcutting saw with a 450 CBT sawblade.

BTM Saws Booth S2797

7151 ADS 3000 Series Automatic Band Saw

The 7151 ADS 300 series automatic band saw is fully automatic and fully programmable, and offers double metering to 60 degrees both directions, utilizes a ten foot single stroke bar feed, capacity is 20" high by 28" wide, positive down feed, automatic head height adjustment and an isolated blade drive.

Saws & Cut-off Machines

Mill Masters

Booth S4078

Master-Cut Flying Shear Cutoff

Mill Masters Master-Cut Flying Shear Tube Mill Cutoff is all-electric, clean & quiet, durable, & compact - offering a very small footprint. This high-speed cutter for round tube mills is versatile & available in single and double-cutting actions.

New Form Tools Ltd

Booth S4056

HSS Circular Saw Blades

New Form Tools offers high speed steel and specialty high speed steel circular saw blade production in North and South America.

Scotchman Industries Inc

Booth S3317

SU-280 Utility Band Saw

The SU-280 Utility Band Saw features band saw cutting with the flexibility, speed and accuracy of a cold saw.

Technical Services Inc

Booth S2377

RazorGage ST with Dell Windows 8 Tablet

The rugged RazorGage ST, typically used as a saw stop or pusher to position lineal material for processing by saws, punches, or other tools, is available with a Dell Latitude tablet PC running Windows 8 Pro.

TigerStop LLC

Booth S1989

TigerAngle

TigerStop brings to market the TigerAngle. This revolutionary system delivers automated material length positioning and compound mitering. TigerAngle is equipped for any application where high volume horizontal and vertical angle cutting is required.

Software & Machine Controls

2020 Software Solutions Inc

Booth S4035

Tube Software (TS) - Enterprise

Take an XYZ or LRA print and convert it to YBC, LRA or XYZ data, or bring in CAD files via STEP (.stp) or IGES (.igs) and create the data needed for the benders. Several additional TS designers are included to make simple or complex jobs easy to handle.

AceCad Software

Booth S2059

StruM.I.S for Production and Scheduling

The forthcoming resource planning & scheduling functionality in StruM.I.S addresses the complex trade-offs when managing multiple projects with competing priorities through diverse fabrication processes.

CIECO Inc

Booth S4467

AUTOMATOR II

The AUTOMATOR II press controller comes with a variety of standard features and optional choices including production tracking, additional counters and tonnage signature.

elap

Booth S2296

Elap Neos N1 Compact Single Axis Controller

Elap's Neos N1 is the compact single axis PLC controller packed with a variety of features.

Exact JobBOSS

Booth S1953

JobBOSS Quality by uniPoint

Exact JobBOSS partners with uniPoint to provide the ultimate solution for job shop quality management

Exact Software

Booth N482

Exact Online Manufacturing

Exact Online Manufacturing automates logistics, production and CRM and provides real-time insight into production processes. The cloud solution seamlessly integrates with QuickBooks and is a cost effective option for the small business manufacturer.

FANUC FA America

Booth S503

Enhanced 30i/31iL Model B High-Speed Laser Control

FANUC CNC Series 30i/31i-L Model B high-speed laser controls offer fabricators streamlined efficiency and increased productivity using Ethernet and Ethernet/IP™ field bus options and supported FANUC NCGuide simulation software.

LBI La Boschiny Inc

Booth S2058

CAL (Zen of Sheet-metal)

CAL finds the material neutral axis along with inside radius for a blank. CAL generates the production data instantly from SolidWorks.

Metalix CAD/CAM Ltd

Booth S1935

cncKad version - V12

Metalix presents cncKad a CAD/CAM solution for sheet metal manufacturing. Easy transformation from 2D & 3D design, through auto nesting, processing, to NC code, its graphic simulation onto machine.

MIE Solutions Inc

Booth S2243

MIE Trak PRO

MIE Trak Pro merges all the vital functions of the manufacturing business into a unified database for maximum efficiency.

ShopFloorConnect

Booth S4737

ShopFloorConnect(R) Asset Utilization Software

SFC displays real-time status information for all machines on a PC or mobile device without having to install any special software. It automatically delivers reports showing downtime analysis, and OEE.

Smartware Group

Booth N241

Bigfoot OSH

Bigfoot OSH (Occupational Safety & Health) is offered as an add on solution to the CMMS to help organizations ensure worker health and safety, pass regulatory inspections, and avoid fines. With the addition of OSH, maintenance and safety data are now centralized in one system.

Trak Machinery LLC

Booth S5089

TRAK Machinery - Retrofit Control Solutions

Retrofit Control Solutions for Amada RG and FBD series offers increased productivity time; reduces employee training and setup time.

Visual Components

Booth N2084

3DAutomate

Visual Components provides 3D factory simulation software that offers machine builders, system integrator, and manufacturers a simple, quick, and highly cost-effective way to build and simulate their total process solutions. The software can be used by production engineers and manufacturing management, and doesn't require specialized skills, extensive training or software programming knowledge.

Wintriss Controls

Booth S4737

SmartPAC 2 Automation Control for Servo Press

SmartPAC 2 Servo uses a magneto-strictive linear position sensor to monitor the ram position and saves unique bottom and top return positions for each tool. The graphical user interface for die protection and programmable cams in the SmartPAC 2 for mechanical presses is maintained by dividing the downstroke from 0° to 180° and the upstroke from 180° to 360°.

Stamping**Ales Pres Kalip Makina San Ve Tic Ltd LTI**

Booth N683

SSH-630

SSH-630 features include; nominal pressure: 630 tons, table: 3000 x 1500 mm. stoke: 300 mm, carriage adj: 200 mm, stroke per minute: 30 - 50, with inverter total weight: 130.000 kg.

Automated Tapping Systems

Booth S4339

In-Die Tapping Station

ATS' complete in-die tapping station with a high speed air clamp includes built-in piloting, air clamp for holding the part during the tapping cycle & tap sensors to verify the tapping operation.

Ebner Furnaces Inc

Booth S4577

hotPHASE Press Hardening Furnace

EBNER hotPHASE press hardening furnaces are available in three different configurations. Small batch type for try-out, roller hearth type for high production and multi-level batch for high production when space is limited.

Fagor Arrasate

Booth S4689

FlexCell

Fabor Arrasate introduces its FlexCell, concatenated transfer presses.

HOTTEKNIK

Press hardening turns key systems offering very high strength in complex parts.

SPT

Servo Press Technology (SPT) providing flexibility, productivity and energy savings.

WAVE LINE

The WaveLine concept allows a continuous and synchronized operation of tandem press lines and increases production volume compare to conventional tandem lines with a lower investment that transfer press lines.

Gerb Vibration Control Systems

Booth S4484

GERB Spring-VISCODAMPER® for Vibration Control

Elastic support provided by GERB spring units considerably reduces vibrations caused by press operation.

Greenerd Press & Machine Company Inc

Booth S4452

Custom Hydraulic Press Solutions

With product capabilities to 40,000 tons and bed sizes exceeding 240" (6,100mm), Greenerd presses are available in a variety of styles ranging from gap frame and straight-side to die-spotting and forging presses.

Komatsu America Industries LLC

Booth S4331

Servo Driven Mechanical Presses

Komatsu H1F 200, 220 ton, single point mechanical servo press, with flexible automation system and designed for servo press feed systems.

Macrodyne Technologies Inc

Booth S4663

Hydraulic Hot Stamping Presses

Macrodyne's 1000 ton hydraulic hot stamping press features heavy-duty construction, high speeds, comprehensive press controls and dual rolling bolsters. Macrodyne hot stamping presses are available with a variety of automation or as complete press lines.

Nucap Industries

Booth N231

NRX

NRX™ is a mechanical attachment and reinforcement system for a wide variety of materials, such as concrete, wood, glass and fibers. It's economical, light weight and strong.

Peng Fei Metal & Mold Co LTD

Booth S4487

CNC Machine Centre

Pengfei specialized in tooling R&D, manufacture and metal stamping production & prototype in automotive, office automatic, electronic, and home appliance industries.

Stamping

Superior Die Set Corp

Booth S4606

Strack PowerMax Cam Units

Superior Die Set Corp offer aerial & die mount cam units with extremely powerful stripping force ideal for use with high strength steel. Very compact size that uses a fraction of die space of cams of equal strength.

Triveneta Macchine Europa SRL

Booth N1288

MUFFATO High Speed Press Machines

Triveneta Macchine Europa SRL offers production specialized in medium and high 4 columns press machines.

Wuxi Toprich Forging Manufacture Co Ltd

Booth N254

High Pressure Valve and Connector

Wuxi offers forging valve and connectors widely used in oil fields and power stations.

Yamada Dobby Co Ltd

Booth S4684

NXT Series

The NXT series provides adjustable stroke, double-link motion, and high precision.

Thermal Spraying

Above Material Technology Co., Ltd

Booth N307

Nano Stainless Steel Atomized Powders

Nano stainless steel atomized powders can be used for thermal spraying and PTA hardfacing and offer better wear resistance than Cr₃C₂-NiCr powder and tungsten carbide.

Metallizing Equipment Co PVT LTD

Booth N409

Angular HVOLF ID Gun

MEC Introduce its Angular (45 & 70 degrees) portable liquid fuel HVOF gun. The model MJP-6000 (Patented) is applicable for applying coating in difficult to reach internal diameters (minimum-160 mm).

Sulzer Metco (US) Inc

Booth N404

Metco SimplexPro™ Plasma Spray Gun Series

Universal thermal spray guns yield significantly higher throughput on plasma spray systems at an economical investment cost. They combine the benefits of cascading anode design with the simplicity of a single-cathode.

Tool & Die

Anchor Lamina

Booth S4612

Danly DieMax XL Springs

Danly IEM offers shorter die spring lengths.

Bohler Uddeholm Corp

Booth S4567

Eifeler Duplex Variantic

Duplex Variantic, a coating system for the metalforming industry, along with substrate PM tool steels and high speed steels, offer superior results to tooling applications.

CPM Tool & Die Manufacturer Co Ltd

Booth S4745

Stamping Steel and Die Casting

CPM designs and manufactures metal stamping dies, including progressive dies, compound dies, shuttle dies and transfer dies. Parts are built for a variety of industries including automotive, home appliance and office equipment.

Dongguan Meinie Tool & Die Co Ltd

Booth S4261

Tools for Automotive Industry

Dongguan Meinie Tool & Die Co Ltd offers tools for the automotive industry including door, locking, dashboard, radiator, sunroof, and security systems.

Engineering Technology Associates Inc

Booth S4717

BSE-in-NX

BSE-in-NX is a complete toolset for accurately predicting flat blank profiles, optimal nesting layouts & forming feasibility for 3D part models. It is available for users of Siemens' NX, right within the NX environment via an icon on the NX toolbar.

Hutchison Tool Sales Co

Booth S4522

Model 3000 & 6000 In-Die Tapping Heads

The HTS 3000 and 6000 series In-die tapping heads continue to reduce manufacturing costs by eliminating costly secondary tapping operations.

Hyson Products

Booth S4434

T4SC Nitrogen Gas Spring

Hyson Products offers its, T4SC, a generation sub compact nitrogen gas spring.

Japan Die & Mold Industry Association

Booth N1384

Stamping Die and Molds

Japan Die & Mold Industry Association (JDMIA) introduce Japanese high quality die & mold like stamping die, plastic molds, rubber molds, casting molds, die casting die, forging die, glass/blow, and powdered metal.

Jiashan Dier Electro-Mechanical Technology Co Ltd

Booth S4240

Ball Lock Retainer

The Jiashan Dier ball lock retainer is similar to the Dayton and Moeller standard in the U.S. and the Punch and Misumi standard in Japan.

Rainbow Metal Technologies Co Ltd

Booth S4354

Rails of Seat

Rainbow can meet high tolerance requirements of car seat rails.

Tooling

Alfra USA LLC

Booth N472

X Line Magnetic Drills

ALFRA USA offers its X Line of magnetic drills.

Alpha Professional Tools

Booth N228

Alpha Ultracuts

Vacuum brazed diamond blade designed for angle iron, steel plate, channel iron, I-beams, pipe, corrugat-

ed roofing, sheet metal, conduit, steel studs, stainless plate, stainless tube and many other popular materials at a shop or jobsite.

Bosch Power Tool Corp

Booth N549

Small Angle Grinders

Bosch Power Tools introduces 11 additional grinders focused on delivering exceptional results to meet a wide variety of user needs.

Dongguan Sincere Tool Co Ltd

Booth S4241

Cast Die for Automotive Parts

Cast die to produce lower arm, and automotive parts. Made from high strength steel, with material: DP5900 and thickness: 3.2mm.

NGK Metals Corp

Booth S4878

Plunger Tips

NGK Metals Corp provides plunger tips utilizing best in class casting methods coupled with the highest quality raw material. NGK's CNC machining center capabilities produce a finished plunger tip ready for immediate use in a die casting operation.

Norlok Technology Inc

Booth S2163

SPR Tool Kit

Norlok Technology Inc. introduces the SPR - Self Piercing Rivet, tool kit for the Surelok III clinching machine.

Taiwan Mold Tool Co Ltd

Booth S3486

BMW X1 Mold

The BMW X1 mold has a complex structure and a high surface finish for A-surface exterior parts.

Wolf Robotics LLC

Booth N861

SmartDock Flexible Tooling System

SmartDock is a simplified, low profile and robust means of interchanging tooling fixtures on a robotic welding positioner. This easy to use, safe, and secure system allows for precise locating of new fixture layouts.

Yestool/Aloris USA

Booth S1999

Scribing Tool

YesTool/Aloris has designed and released a spring loaded scribing tool for part identification while CNC machining. The spring loading feature allows for irregular surfaces a equal depth of cut.

Tube & Pipe Fabricating or Welding

BESSEY Tools North America

Booth N2223

Double Force All Steel Clamps

The most recent product releases from BESSEY includes a modular concept for the widest range of applications. Add extra sliding arms or, choose different sliding arms. Available in a choice of lengths or strengths to make a clamp that suits a users needs.

Dalian Field Heavy Machinery Manufacturing Co Ltd

Booth S4158

Automatic Changeover

The Dalian automatic changeover can shorten the changeover time to 1 hour for a 76mm tube mill with 1 operator. No heavy works experience needed.

ESCO Tool Co

Booth S2241

Battery Powered Portable Beveling End Prep Tool

Esco Tool, the manufacturer of MILL-HOG® portable pipe and tube beveling tools offers its battery driven end prep tools.

Gulco International

Booth N2204

Pipe KAT® - Orbital Welding System

The Pipe KAT® is a pipe welding carriage designed for orbital welding. The carriage operates on a track band made of durable aluminum extrusion. It has an integrated oscillation system and works from 12"OD and up.

Haeusler AG

Booth S3562

System for Wind Power Offshore Basements

HAEUSLER introduces its integrated production line for rolling of cylinders and cones for wind power offshore basements. Its special functionality and its size are unique and allow rolling of shells up to 14ft wide and 10 inch thick.

INNOVO Corp

Booth S4145

237SUT Single Unit Triple Station Notcher

INNOVO Corp introduces the 237SUT single unit triple station notcher for tube & pipe ends. The unique design allows the combination of three common sizes in a single unit reducing the amount of tooling required & change-over time.

Manchester Tool & Die Inc

Booth S4045

M71 Servo Positioning Flag Stop System

Manchester Tool and Die's servo positioning flag stop system is designed to aid setup personnel in quickly adjusting tube out through the machine's HMI. This system will provide consistent adjustments resulting in quicker setup up times.

Sharpe Products

Booth S3490

Ram Tube End-Forming up to 7" O.D.

The six head end-former can handle tube sizes from 1/2" up to 7" O.D. This CNC machine makes multiple end-forms on one piece of tube by being hit up to 6 times in one process, allowing complicated parts to be made in an efficient and cost effective manner.

Sumner Manufacturing Co Inc

Booth N552

Purge Star

Sumner Manufacturing, introduces its inflatable weld purge dams that quickly create reduced oxygen weld chambers for welding pipe.

Tube & Pipe Fabricating or Welding

T-DRILL

Booth S4102

F-100 Mobile Flanging Machine

The F-100 is capable of producing flanges directly on pipe from 2" thru 6" with wall thickness up to .180". Operating on 110/220 volt and mounted on wheels, it is suitable for both shop & job-site operation.

Tube Works Inc

Booth S4155

SA EXACTA-BEND Controller

Tube Works Inc introduces its semi-automatic controller for rotary benders.

Tube & Pipe Producing

Accurex Measurement Inc

Booth S3516

BendingStudio and MoveInspect HR

For operators in the field of piping, AICON offers a the software platform BendingStudio together with the 3D measuring system MoveInspect HR and the handheld MI.Probe providing an ideal solution for tactile pipe measurement.

Elmaksan Makina

Booth S4161

Flying Saw for 10" Tube Mill

Elmaksan offers its double bladed flying saw, that can cut up to 10" with 12, 7 MM in thickness, speeds of 30 M/Min.

Formtek Metal Forming/Hill Engineering

Booth S1802

Reshaping Stand

Yoder offers its reshaping stand for mechanical tube & structural sections. The WH-350-RS reshapes up to 4" (101.6 mm) sq., rectangle up to 6" (152.4) w. & as sm. as 2" (50.8 mm) in the horizontal & vertical axes, for mat. up to 0.250" (6.35 mm) thick.

Thermatool Corp

Booth S3901

Alpha Controller Upgrade

Simple and fast replacement of Alpha® control systems with up to date control consoles and readily available service and support from Thermatool.

Universal Controls Group

Booth S4167

U-Trak 1

The U-Trak features include; Max Line Speed: 175 FPM, AC Servo, AC Vector: Motors are sized according to die set weight, travel distance and mill speed required. Ball screw die accelerators can be fitted for new presses or retrofitted to existing presses, System Control: A closed-loop cut cycle is standard for all machines.

Waterjet

Barton International

Booth S1856

BART® Tip Hopper

Designed to be placed next to a waterjet cutting table, the self dumping BART® Tip Hopper serves as a disposal vessel for waste garnet abrasive. During abrasive removal, overflow water is returned to the table. ? cubic yard capacity; liner included.

Jet Edge

Booth S2762

EDGE X-5 5-Axis Waterjet System

Jet Edge's EDGE X-5 5-axis water jet system is capable of cutting complex taper-free 3D parts from virtually any material.

OMAX Corp

Booth S1067

A-Jet & Rotary Axis

The innovative OMAX A-Jet and Rotary Axis combination brings 6-axis 3D cutting technology to abrasive waterjets, allowing for complex 3D cutting and advanced tube and pipe bevel cutting capabilities.

Perfect - Score/Technology

Booth S5680

Perfect Score Waterjet Bricks & Boards

Waterjet welded bricks now offered in 12 and 24 inch widths. Reduces the number of seams on a waterjet work surface providing a more uniform surface.

Techni Waterjet

Booth S975

Techjet-X3® TJ4100-G

The TJ4100-G is a revolutionary gantry-style waterjet with the ability to cut nearly the entire area of the waterjet. The TJ4100-G is 7' 10" x 14' 5" and has the capability to cut 6' 7" x 13' 2" size material.

Waterjet Corporation

Booth S2275

SUPREMA DX510

High Accuracy 2D waterjet cutting system designed for the aerospace industry, tool & die industry, fabrication industry and any application requiring superior quality.

Welding Consumables

AlcoTec Wire Co

Booth N1449

AlcoTec® 5XXX Series NT Series Welding Wire

AlcoTec® patent-pending NT aluminum wire applies the latest innovation in wire manufacturing technology to reduce or eliminate wire shavings, producing a clean, high-quality wire that will not clog torch liners and offers better welding feedability.

Aquasol Corp

Booth N639

I-Purge® Modular Inflatable Bladder System

The patent-pending technology of the I-Purge® Modular System enables a number of different purge requirements with one interchangeable solution.

ArcOne

Booth N1865

AirPlus™ Respiratory Protection

ArcOne offers its AirPlus™ system providing lung protection.

SpeedWay™

ArcOne offers its Vision® SpeedWay™ decals available with digital darkening filters with viewing areas medium, large and Xtreme®.

Changzhou City Yunhe Welding Material Co Ltd

Booth N347

Copper Coated Solid Welding Wire ER70S-6

Changzhou CityYunhe Welding Material Co Ltd offers its AWS A5.18 ER70S-6 copper coated welding wire. Available in sizes 0,6 to 1.6mm, N.W.:1,5, 15, 250kg per pc.

CK Worldwide

Booth N2211

Super Cup

The right nozzle for the toughest TIG welding applications. Super Cups with stand high-amperage and high-reflective heat applications while minimizing cracking problems related to thermal shock.

Hobart Brothers

Booth N831

Hobart Element™ Wires

A family of six Hobart® gas-shielded flux-cored wires have been introduced to address the increasingly stringent environmental requirements and recommendations set forth by regulatory bodies such as the ACGIH and the OSHA.

Midalloy

Booth N1857

Copper Free Bare Welding Wire

The Midalloy brand family includes carbon steel, chromium moly, and low alloy steels in copper free versions.

National Standard LLC

Booth N1854

NS PLUS

National Standard introduces its line of domestically produced welding wires, NS PLUS.

Outokumpu VDM USA, LLC

Booth N2142

Welding Wire FM52i for Nuclear Applications

FM52i is a recent advancement in welding consumables for the nuclear

power industry and is more resistant to welding defects than previous FM52 varieties.

Sandvik Materials Technology

Booth N1869

Sandvik Stainless and Nickel Base Weld Consumables

Sandvik offers Welding Consumable products that include; Nickel Sanicro 41Cu, Sanicro 60, 57S Nickel Electroslag Flux, 2594 Superduplex basic electrodes, and overlay materials for single layer 347 (309LCb-24.13.LNb) and 316L (24.16.3.L) weld deposits.

Washington Alloy Co

Booth N600

Hardfacing Rods and Wire & Welding Accessories

The Washington Alloy Co accessory line includes: USA 300HT, USA 450HT, USA 600HT, USA 700HT, USA MN-O, USA CRMN-O, USA 55-G, USA CRCARB-O, USA COMCARB-O, USA Alloy No. 6-G, USA Alloy No.21-G as well as a line of welding accessories for every day needs.

**Welding Machines/
Equipment****America Fortune Company**

Booth N2828

ISO High Pressure Gas Cylinder

ISO 9809-1 High Pressure Gas Cylinder is a global accepted standard meeting or exceeding requirements and is in every way equivalent to DOT-3AA cylinder. ISO High Pressure Gas Cylinder has also been approved by DOT.

Antec Electronics Co Ltd

Booth N2467

AH6-X60 Series Welding Helmet

Antec offers its series of welding helmets for Stick, Tig, Mig/MMA, Plasma Cutting, and Grining Mode; Antfi X60 welding filter, 4/5-9/9-13, ANSI/CE approved.

Arc Machines Inc

Booth N2642

M217 WDR

Arc Machines Inc introduces its model 217 WDR, a 100/150 A programmable GTAW power supply. It is designed to

work with all AMI's orbital fusion weld heads and is capable of welding tubing and thin wall pipe.

Arc Specialties Inc

Booth N974

ARC-05i Rotating Head & Base Cladding System

Arc Specialties offers its interpolating automated welding system with rotating head & base for hot wire GTAW cladding applications.

ARC-05PL Compact Cladding System

Arc Specialties introduces its compact automated welding system for hot wire GTAW cladding applications.

ARCON Welding Equipment LLC

Booth N2317

Workhorse 300SH

The Workhorse 300SH features heat treatment and multi-process welding power supply, pre- and post-weld heat treatment up to 8kW 300A (32V) @ 60% duty cycle for Stick (SMAW), TIG (GTAW), Air Carbon Arc Gouging (CAC-A), Fluxed Core MIG (FCAW).

ArcOne

Booth N1865

Carrera™

The Carrera™, with 4 decal designs, TopGun; Fighting Tiger; México; and Carbon is available in a 9-13 variable with 2 viewing areas small and large, complete with sensitivity & delay adjustments.

Bluco Corp

Booth N2411

Manual Rollover Positioners for Welding

Bluco Corporation introduces its line of manual rollover positioners.

**Bug-O-Systems/
Weld Tooling Corp**

Booth N1815

K-BUG 4000 Wall Tracking Magnetic Fillet Welder

Bug-O System's introduces the BUG 4000; digital, portable (17lbs) and very compact magnetic trackless travel carriage for welding continuous or intermittent stitch fillet welds while traveling on a vertical wall with 25lb carrying capacity.

Welding Machines/ Equipment

D/F Machine Specialties Inc Booth N2064

Hardbanding & Hardfacing Automation Torch

D/F's heavy duty water-cooled torch can be used for metal build up, hardbanding, hardfacing and metal spray applications, or even retrofit with a flux delivery system for sub-arc applications, and applications where carbide is added.

Ensitech PTY Ltd Booth N1897

TIG Brush TBU-300

The TIG Brush® stainless steel weld cleaning system is an easy-to-use, portable kit which cleans and restores stainless steel surfaces quickly, safely, efficiently and cost-effectively.

ESAB Welding & Cutting Products Booth N1449

Heliarc® Inverter-based Welding Machines

ESAB's Heliarc® family of inverter-based welding machines provide high quality AC/DC GTAW (TIG) and SMAW (Stick) welding, increased energy efficiency and superior functionality in a package that is lighter and smaller than old SCR technology.

Heromin Machinery Canada Ltd Booth N217

MIG 500

The MIG 500 is a DC/CV, full bridge phase-shift, zero-voltage and zero-current, soft-switching high-power industrial inverter MIG welder

JASIC Technologies America Inc Booth N434

Razorweld Series

JASIC offers a range of ARC, M.I.G, T.I.G Plasma and Multi-process inverter machines designed in Australia.

Koike Aronson Inc Booth N806

IK-72W-1

The Koike IK-72W-1 is a light weight, portable welding carriage designed to perform consistent vertical welds.

IK-72W-2 Weaving

The Koike IK72W-2 Weaving is a light weight welding carriage with weaving capabilities.

Lincoln Electric Co Booth N1111

Gem-Pak™ Bulk Packaging System

The Gem-Pak™ bulk packaging system uses glass gems to control the release of aluminum welding wire, without an expensive external payoff device. Depending on alloy, the system is offered in 275 lb and 300 lb 100% recyclable boxes with cardboard pallets.

LPR Global Inc Booth N2169

Robot Welding Machine

Using the turning torch, the vertical turning welding machine welds the connection between pipe and flange that goes into exhaust system. This equipment can be used for other applications as well, that are related to pipes.

Miller Electric Mfg Co Booth N1136

PipeWorx FieldPro™ System

Miller Electric Mfg. Co. introduces its PipeWorx FieldPro™ system for onsite pipe welding in the refinery, petrochemical, power generation and HVAC industries.

Nelson Stud Welding Booth N1811

NCD+ 3200 Capacitor Discharge (CD) Welding System

The NCD+ 3200 features a blend of micro processor and display technology with traditional CD power topology to create a user friendly, versatile welder for a wide range of applications.

Pearl Abrasive Co Booth N2849

Pearl® XTREME™ PX-4000™

The Pearl XTREME™ PX-4000™ is a revolutionary line of diamond wheels for metal applications. It is designed to cut metal, stainless steel and a variety of ferrous metals with less odor and debris compared to conventional abrasives.

Phoenix International Inc Booth N2052

dryWIRE® Type 4 Flux Cored Wire Oven

dryWIRE® features include; capacity of 4 spools (12 inch) or 3 spools (16 inch) of flux cored wire, suited for preheating parts or general purpose storage, thermostatic control, thermometer available for immediate temperature indication.

Save Phace Inc Booth N149

EFP2

The EFP2 features a 4x4; 4/9-13 ADF integrated into the patented 180 degree lens design offering over 40 sq. inches of viewing area.

Sideros Engineering Booth N1597

Rotolift RL 3000 Welding Positioners

ROTOLIFT is an hydraulic welding and handling positioner specially designed to ease welding and assembling operations.

SMK Co Ltd Booth N220

Navi Series

Incorrect nut setting detection system for nut/bolt welding detects with a high degree of accuracy whether or not a nut/bolt is set correctly immediately prior to welding.

Sorex Welding Co Ltd Booth N1586

Eelding consumables (E71T-11)

Sorex offers its self shielded flux cored wire E71T-11, no gas required and flux cored wire E71T-1/5/9/12/ C/M -J wire.

Spinduction Weld Inc Booth N1492

Solid-State Induction Kinetic Welding

Spinduction Weld Inc introduces its zero-defect hybrid solid-state welding process. The process is capable of welding a wide variety of materials, and provides superior weld quality over a large range of part diameters.

Strong Hand Tools Booth N2249

BuildPro MAX Modular Welding Tables

The BuildPro MAX modular welding table provides a continuous table-top surface of precision ground steel plates with $\frac{5}{8}$ " machined table holes. The 8' L x 4' W BuildPro™ MAX Table provides maximum table surface, and maximum load capacity.

FrameBuilder Welding Table Kits

Framebuilder welding table kits are a line of six affordable kits, (including welding table and tools) for the efficient fixturing (setup) of frames for fabrication.

Tregaskiss Booth N836

TOUGH GUN TT3 Reamer

The TOUGH GUN TT3 Reamer has features that simplify maintenance and increase the product's reliability in even the harshest welding environments.

Tri Tool Inc Booth N611

AdaptARC

The AdaptArc is an advanced welding system with features that help reduce costs and increase productivity, all while providing user friendly controls for the operator.

Victor Technologies/Tweco Booth N1461

Tweco Numbered Series MIG Gun

The Tweco classic number 4 MIG gun, has higher impact resistant materials, an interlocking handle design for superior toughness and an angled trigger for a more comfortable pull.

Tweco® Fabricator® 141i 3-in-1 Welder

The Tweco® Fabricator® 141i 3-in-1 welder is a multi-process welder that runs off 115V household current. Built to provide professional quality arc performance, it offers 10 to 140 amps of power for MIG and Lift TIG welding and 90 amps for Stick.

Weil Engineering North America Booth S2359

Flexistar

The Flexistar is Weil Engineering's latest in flexible tube production. Alternating diameters without changeover parts, no loss in cycle time, and virtually no set-up. It comes standard with a destacker, infeed table, multi-roll roll-former and inline welder.

Wuhan Welhel Photoelectric Co Ltd

Booth N1955

Large Viewing Area Auto Darkening Welding Helmet

Wuhan offers its model WH8912334 with a large viewing area of 100 x 67 mm.

Wuxi Ronniwell Machinery Equi

Booth N2846

Wind Tower Welding Rotator

Wuxi offers its wind tower generating equipment.

ZRID.Pty.Ltd

Booth N1992

Portable Inline Deadman Switch

ARID.Pty.Ltd offers its protective portable Deadman Switch for all AC/DC welding machines. Automatically dropping to a 0-Volt output on the electrode when finishing or not welding, preventing electric shocks and accidental arc flashes. Complies with ANSI 60974.1-2008.

HYDRAULIC PRESSES FOR METALFORMING

QUALITY, INNOVATION, VALUE

Macrodyne is a premier supplier of quality custom hydraulic presses up to 15,000 + tons and die handling equipment for the metalforming industry.

FLEXIBILITY, RELIABILITY, VERSATILITY

Macrodyne presses can be integrated into existing automation or supplied turnkey with die handling and automation to meet the most demanding production requirements.

Fladder®

Flexible, effective, fast
Automatic, oscillating deburring system
for stainless, aluminum and other materials.

Deburring of punched, laser cut and machined pieces

- No critical heating of the surface
- No destruction of protective foil.
- Rounding edges without damage to the surface
- Deburring of 3 dimensional pieces is possible.

Dry, Oscillating Deburring Technique

*Engineering Resistance
Welding Value* ★

Our new NDZ Projection Welding System is a perfect example how Dengensha America engineers short and long-term resistance welding value. Combining our NDZ Pedestal Welder with a Dengensha Feeder, count on economy, durability and reliability with installation, set-up, and operation that are all easy and trouble-free. You'll minimize investment and maintenance costs, yet maximize your productivity options.

**PRECISION
METALFORMING
ASSOCIATION**

www.pma.org

NETWORK. LEARN. LEAD.

NETWORK.

Develop rewarding business relationships in CEO groups, local districts, technology divisions and women in manufacturing.

LEARN.

Industry benchmarking | Technical training | Pre-hiring assessments of aptitude and skills

LEAD.

Public action in Washington | Engagement with candidates | Testifying on key issues impacting the metalforming industry and all of manufacturing

PMA's member companies make the parts and components that power the automotive, appliance, aerospace, defense, medical, heavy truck, electronic and industrial hardware industries. Our members are an essential part of the innovation and profitability of these industries and others. PMA is a critical component in the success of our member companies.

I AM ATL.

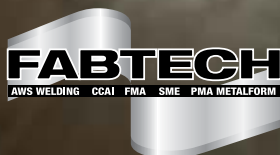

**I LEAVE MY
TROPHIES BEHIND
AND BRING ON
THE HEAT.**

I am a James Beard Award winner and one of *Food & Wine's* best new chefs. I'm the new kitchen of Southern traditions, where honest ingredients and great hospitality are always on the menu. I'm inspired by over 3,000 Atlanta chefs on a mission to deliver you a mouthwatering performance. **Plan on Atlanta and come see what's cooking.**

AN **EXTRAORDINARY**
MACHINE DEMANDS AN
EXTRAORDINARY OFFER.

WARRIOR™

For a limited time, get your choice of a **\$500 manufacturer rebate** or a **\$1,000 ESAB shopping spree** with the purchase of any **Warrior** ready-to-weld package.

You've probably heard about Warrior by ESAB – the breakthrough welding machine that's as rugged and reliable as you are. Designed with extensive input from real-world welders like you, it's the cost-efficient, multi-purpose welding machine you need.

And with an offer like this, now is the time to get it. Contact your ESAB sales rep or distributor or visit www.esabna.com/gearup to find out more. And visit us at FABTECH 2013. Stop by booths N1449 and N1145 in the North Hall.

Paint by the numbers.

Whether you have 1 part or 1,000, Nordson has a system to coat it, paint it or cure it to your specifications.

No matter what's on your line, turn to Nordson for a complete range of finishing solutions. Our innovative powder coating, liquid painting and UV curing systems provide a complete spectrum of capabilities – from simple, manual systems to sophisticated, automated booth configurations. We can handle any part, any quantity, any color...with speed, efficiency and quality.

And when you buy Nordson, you invest in the best. We back all of our coating, painting and curing products with decades of technical expertise and unrivaled service. Our support team is available to you around the clock, keeping you productive and satisfied every step of the way.

A More Efficient Surface

SULZER

To more efficiently crush rock, mining engineers partnered with Sulzer for the answer.

Without a wear-resistant coating, rock crusher teeth can wear out in a matter of a few days. So when mining engineers asked us to help them decrease their downtime and reduce their maintenance costs, we got right to work. Together, we developed a laser cladding solution using a **MetcoClad™** system and a **MetcoClad™** material to create a thick deposit on all exposed surfaces of the teeth with a hardness better than 1500 HV300. The result? Those rock crushers never worked so hard! They crush more efficiently and stay in service substantially longer.

Meet us at:

FF JOURNAL MAGAZINE COMES TO LIFE AT FABTECH 2013

DISCUSS RESHORING

HARRY MOSER is the founder and president of the Reshoring Initiative: bringing good, well-paying manufacturing jobs back to the U.S.
[Contributor, October 2013]

BOOK SIGNING

ED BARR, a professor of the country's only bachelor's degree program in auto body work and author of the book *Professional Sheet Metal Fabrication*.
[Contributor, October 2013]

EDITORS ON CALL

Get involved with a Guest editorial, Face Time column or case study article. Our staff will be at the booth. Set up a time with Nick Wright at nwright@ffjournal.net.

MEET LEAN MANUFACTURING EXPERT

KEVIN DUGGAN is the founder and president of the international training and advisory firm Duggan Associates and the Institute for Operational Excellence.
[Contributor, September 2013]

WORKSHOPS FOR WARRIORS

HERNÁN LUIS Y PRADO is president of this San Diego-based, 501(c)(3) non-profit organization dedicated to training, certifying, and placing veterans in manufacturing careers.
[Cover story, February 2013]

TOP LINER PIPE CLAMP

FAST. PRECISE. EASY.

KEY ADVANTAGES

- High-Low adjustment
- Push-Pull adjustment
- Rounds out pipe on sch. 40 & below
- Works on heavy-wall pipe & preheating
- Increase productivity
- Improve quality control
- Enhance Safety
- Sizes available: 2" through 60"

Industries Served: Oil & Gas, Petro-Chemical,
Power Generation, Pulp & Paper, Shipbuilding

Clients include: PCL Industrial Construction
Bechtel, Inc., Fluor, Inc., Kiewit, US Navy

KELLY®

LOOKING FOR CAREER OPPORTUNITIES?

Kelly®, a leading employment provider, will be on-site at **booth N1299** and in the **North Hall lobby**. Representatives will be on-hand to speak with job seekers about career opportunities nationwide with manufacturers in top industries including automotive, aerospace, pharmaceuticals, petrochemical, medical device, food and beverage, semi-conductors and more. Visit our booth to:

- View nationwide job opportunities, and apply online
- Participate in on-site resume reviews — tips to get your resume noticed
- Take advantage of on-the-spot career counseling and advice
- Sign up for weekly job alerts to learn about new positions as soon as they become available

Kelly has the connections and industry expertise to offer you the best jobs at the world's leading companies.

Don't miss this opportunity to let Kelly help you achieve your career goals.

DON'T REPLACE YOUR RESONATOR. RETHINK YOUR LASER.

Stop paying the price for your resonator's expiration date—switch to Mitsubishi Laser.

Replaced a resonator lately? If you had a Mitsubishi Laser, you wouldn't have to. We've designed our resonators to last.

What's different:

- Revolutionary dual cross flow design maximizes beam quality and stability
- **DiamondClean™ Technology** provides ultra clean resonator materials that yield higher performance and greater stability
- Lower gas cost – consumes up to 90% less gas than traditional fast axial flow systems
- Extended maintenance intervals equal less maintenance
- No glass tubes

LEARN MORE AT **Fabtech**
BOOTH S1719

ONE SOURCE.
ENDLESS EXPERTISE.

TAKE THE LEAD

in punching flexibility with Strippit PX

PRODUCT INDEX

LVD leads the way in value-added punching with the new Strippit PX punch press. Efficiently PUNCH, FORM, BEND and TAP all on a single machine, eliminating secondary operations. This next generation 20-ton punch press can even bend flanges up to 75 mm high, with all tools rotatable to any angle and the capacity to accept up to 200 tools with modular automation options available; the ultimate flexibility and productivity is contained within just one machine.

Learn more about the versatility of the highly capable Strippit PX by visiting www.lvdgroup.com/strippitpx/us or calling **800-828-1527**.

VALVE PROTECTION

To assure protection from dust and contaminants, apply cellulose bands to your gas tanks. The unbroken seal validates a filled tank, as well as prevents leakage. Easy to use and no equipment is needed for application. Samples available. Immediate delivery.

American Welding Society®

Visit Booth #N1700 for On-The-Spot Assistance

MEMBERSHIP

Join 68,000+ Members who receive substantial AWS Members'-only discounts and benefits.

CERTIFICATION

AWS Certification can lead to better pay, more job security and recognition as one of the industry's elite.

EDUCATION

AWS conferences, seminars and workshops are widely respected throughout the industry.

WELDING JOURNAL

12 issues dedicated to providing readers the latest news of the welding and metal fabricating industry.

SHOW SPECIAL

Join AWS onsite as an Individual Member and receive the *AWS Welding Handbook* at an 80% discount + Daily Raffles for \$100 VISA Gift Cards

ALLSET TO CHANNEL SUCCESS.

INNOVATIVE TUBE AND PIPE FLUID SOLUTIONS FROM QUAKER

Making tubes and pipes means more than a simple production line. There are lubricants, process fluids and coatings to consider, and that's just the beginning. You've got to constantly monitor and maintain your machinery, processes and workforce. So you need a partner with the products and expertise to get things running and keep them running at their best – front to back, with you at each step. That's why you need Quaker. No challenge is too big for relentless innovation, hard work and a sincere desire to help you maximize your productivity and improve your bottom line. It's our obsession and inside everything we do. Because at the heart of the tube and pipe industry, you'll find us.

It's what's inside that counts.™

Come visit us at Booth S4843

PERFORMANCE COUNTS®

COUNT ON WEILER

Trusted by welding professionals worldwide. Weiler is your choice for Power Brushes and Abrasives for the welding industry.

- The most complete line of flap discs in the marketplace, including the Tiger® Disc line and the new Tiger Paw™, perfect for edge grinding.
- Roughneck® Weld Cleaning Brushes set the standard for high-performance. You get the most aggressive cleaning, improving weld quality and reducing weld cleaning costs.
- The Dually® line of hot-pass and filler-pass brushes feature a dual-hex nut design that simplifies periodic flipping for maximum cleaning action, long life, and safer use.

**When Performance Counts...
Count on Weiler!**

Let us put 60 years of CHILLER experience to work for YOU.

- Fully engineered chillers for any application
- Designed to meet any specification
- 1/8 ton to 1000 tons of cooling capacity
- Customized options & colors
- OEM Solutions
- UL, CE, CSA Certifications available
- 18 month warranty
- 24/7 service and support

The next Generation of Carbide Tipped Tube Mill Saws have arrived.

Special engineered carbide tipped saw blades for orbital cutting of API casing and Line pipe on ERW mills.

- GPX300 is the right choice for sawing API 5CT J55 to P110.
- GPX400 is the right choice for sawing API 5L tubes X42 to X100.
- GPX100 is the right choice for sawing Structural ASTM tubes.

Blades in stock for OTO MILLS, MTM, KUSAKABE, NAKATA, LINSINGER, THERMATOOL.

DS60HVPLUS with Independent Supports and Round Tooling are sold!

DS60HVPLUS Roll bender for round & square tubes, pipes, angles and special profiles

SALE OPTION #1 DS60HVPLUS MACHINE ONLY \$12,900

SALE OPTION #2 DS60HVPLUS MACHINE WITH 5 SETS OF ROUND TUBE OR PIPE DIES \$15,900

Financing also available!

- Digital display with mechanical stop
- 50mm shafts
- 3 Driving rolls
- Smooth universal tool set for square tubes, rectangular tubes, flat bar, "c" channels, and angles (angle leg in requires additional accessories)
- 2 Foot pedals for forward and reverse bending operation
- 2 Speeds
- Machine can be used in the vertical or horizontal position
- Contact us for a complete offer including specifications on this unit
- Special tooling made in house with quick turnaround at an additional cost

Website: www.tauringroupusa.com
Email: sales@tauringroupusa.com
Phone (909)476-8007 Fax (909)476-8023

We offer over 150 different models of Angle Rolls and Plate Bending machines

A manufacturing cloud that helps
you improve every tiny detail.

It's what's next.

Manufacturing is changing at record speed. More than 350 forward-thinking companies run their manufacturing operations with the Plex Manufacturing Cloud. Unlike on-premise systems, Plex continuously improves to address current and future challenges. It's always flexible, always current, and the best way for a manufacturer to be ready for what's to come. **PLEX.COM**

CenterLine provides advanced manufacturing processes and systems, patented component products and high quality consumable products to weld, form and coat your materials.

Choose CenterLine for:

- Resistance Welding
- Arc Welding & Cutting
- Cold Spray Coatings
- Piercing, Forming & Joining
- Mechanical Assembly
- Laser Welding & Cutting
- Sealing Systems

Portable CNC Cutting Machine

POWER II
For plasma and flame

VALIANT 2.0
For plasma and flame

DRAGON I
For plasma and flame

SMART III
For plasma and flame

Best seller in SteelTailor family!

World leader of portable cutting machines! Portable gantry with two rails & dual drives!

Portable, affordable, powerful!

YEATH! LEGEND™

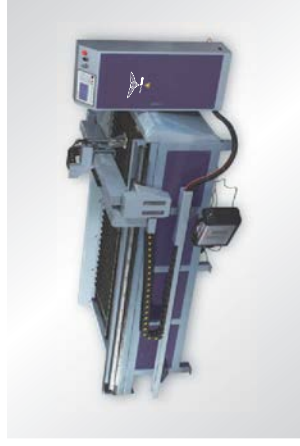

Economical Table CNC Plasma Cutting Machine

LEGEND B5
For thick steel plate

As thin as 2mm till 22mm.

LEGEND II
For thin steel sheet

As thin as 0.3mm till 5mm.

LEGEND B5 II
One machine works as two!

As thin as 0.3mm till 22mm.

IDMLASER™

Economical Laser Cutting System

CLAYA V

As thin as 0.3mm till 3 mm.

The Bystronic logo is a red square with the word "Bystronic" in white, sans-serif font. A stylized, pixelated graphic of a laser beam or spark is positioned behind the letter 'i'.

Best choice.

Enter A World of Innovation

The "Technology Twins" are just the beginning...

Combine the **BySprint Fiber** laser with the **Xcite** high-speed electric press brake—the Technology Twins—to reduce your cost per part and realize the full potential of high-speed cutting and bending.

The award-winning **ByAutomom** laser cutting machine offers the highest degree of machine autonomy and productivity in the market.

In addition, the introduction of a new range of exciting software applications will further enhance cutting and bending machine operations, productivity and traceability.

Enter a world of exciting innovations in Booth S1731.
