department or agency or his designated representative for the employee's or former employee's transfer under Executive Order 9721. A general release for employment elsewhere or a release granted other than for the specific purpose of transfer under Executive Order 9721 shall not be construed as "consent" under Executive Order 9721.

§ 28.3 *Submission of request.* A request for the transfer of an employee or former employee under Executive Order 9721 shall be submitted by the public international organization in writing directly to the agency or department in which such employee is serving or last served.

§ 28.4 *Approval of transfer.* The head of the department or agency con-

cerned or his designated representative shall, if he determines to consent to transfer under Executive Order 9721, give such consent in writing and address it to the requesting public international organization. The letter of consent shall specifically mention that consent is given under Executive Order 9721. A copy of the letter of consent shall be placed in the agency personnel files, and a copy shall be delivered to the transferee. The agency or department concerned may set the date on which the consent becomes valid.

§ 28.5 *Separation from service.* Upon transfer under Executive Order 9721 the employee shall be separated and his "separation by transfer under Executive Order 9721" shall be reported to the Commission on the regular report of personnel changes.

§ 28.6 *Filling vacancy.* The appointment, reassignment, promotion, or transfer of an employee to fill a vacancy created by the transfer of an employee under Executive Order 9721 shall be limited to the return of the specific employee transferred under the order; except that this section shall not apply in any case where the provisions of Section 4 of the order are made applicable to a former employee of a Federal agency serving with a public international organization at the time of issuance of the order, and where the position he left in the agency had already been filled prior to the time the provisions of section 4 of the order were made applicable to him.

§ 28.7 *Acquisition of status.* Any employee who is transferred from a war service indefinite appointment under Executive Order 9721 and who meets the other conditions for acquisition of civil service status under section 2 of Executive Order 9721 shall be deemed to have acquired such status provided those conditions are met on or before May 10, 1949. Determination of status will be made by the Commission on request of a Federal agency or the transferee. Unless all conditions precedent to acquisition of civil service status under section 2 of Executive Order 9721 have been met on or before May 9, 1949, no rights accrue under that section. Determination that such conditions were so met may be made after that date.

§ 28.8 *Reemployment.* An employee transferred under Executive Order 9721 must meet the following conditions in order to have a right to reemployment under that order:

(a) He must have been serving under a probational or permanent civil service appointment prior to such transfer or he must have met the conditions for acquisition of a classified civil service status under section 2 of the order. When reemployment rights depend on acquisition of status under section 2 of the order, request for such determination shall be presented to the Commission by the agency concerned promptly after receipt of application for reemployment, unless such determination was made theretofore.

(b) He must have been terminated without prejudice by the public inter-

national organization to which transferred within three years of the date of his separation for transfer to such international organization or within three years of the date of Executive Order 9721, whichever is later;

(c) He must apply for reemployment to his former agency or department (or its successor) within 90 days of his termination by such international organization.

(d) He must be qualified physically to perform the duties of his former position or one of like seniority, status and pay.

Upon meeting the conditions for reemployment under Executive Order 9721, the transferee's former agency or department (or its successor) shall reemploy him within 30 days of his application for reemployment. Such reemployment shall be in the employee's former position or in a position of like seniority, status and pay.

Upon reemployment under Executive Order 9721, an employee shall be given the seniority and, to the extent consistent with law, the pay to which he would have been entitled had he remained continuously with the agency in his former position. He shall be considered as having civil service status and tenure and shall be given full credit for completion of probation for service in the international organization since acquisition of status. Any sick leave to his credit at the time of his separation for transfer under the order shall be credited to him.

§ 28.9 *Report to the Commission.* (a) A transfer under Executive Order 9721 shall be reported to the Commission on the regular report of personnel changes. In any case where the provisions of the Executive Order are, with the consent of the Federal agency in which he was formerly employed, made applicable to a former employee of the agency, the action shall be reported as a transfer effective as of the date the employee left the Federal agency to take employment with the public international organization.

(b) A reemployment under Executive Order 9721 shall be reported to the Commission on the regular report of personnel changes.

§ 28.10 *Appeals to the Commission.* There shall be no appeal to the Commission from a denial by the head of the agency or department or his designated representative of transfer under the order. The Commission shall make final decision as to the acquisition of status of an employee under section 2 of the order. An employee transferred under the order who has been denied reemployment may appeal to the Commission, and the Commission shall make final determination of his right to reemployment under the order.

§ 28.11 *Effective date.* This part shall be effective as of May 10, 1946.

By the United States Civil Service Commission.

(2) "Handler" means any person who is engaged in the business of transporting or processing milk or cream, or of manufacturing any dairy product. (3) "Milk" means cow's milk.

(4) "Cream" means the class of food which is the fatty liquid or semi-liquid separated from milk, with or without the addition thereto and the mixing therewith of milk or skim milk, irrespective of whether it is pasteurized or homogenized, and which contains not less than 18 percent of milk fat. In addition, such term shall, for the purposes of this order, include, but not be restricted to (i) light cream, coffee cream, table cream, whipping cream, whipped cream, heavy cream plastic cream, sour cream, aerated cream, frozen cream, and any other cream by whatever name known; (ii) reconstituted cream made from two or more of the following ingredients: butter, milk, skim milk, evaporated milk, condensed milk, cream, dried whole milk, dried skim milk, dried cream, and water; and (iii) whey cream.

(5) "Cream product" means cream to which there has been added, or which has been blended or compounded with, a culture, stabilizer, or like agent or ingredient; or with sugar, salt, condiments, spices, flavoring, or similar ingredients; whether or not the resultant product is pasteurized, homogenized, or sterilized.

(6) "Filled cream" means any milk, cream, or skim milk, whether or not condensed, evaporated, concentrated, powdered, dried, or desiccated, to which there has been added, or with which there has been blended or compounded, any fat or oil other than milk fat, so that the resulting product is an imitation of cream or in semblance thereof, whether or not such resulting product contains any other ingredient.

(7) "Milk fat," sometimes known as "butterfat," means the fat of milk; the proportionate content of such milk fat in milk or cream to be determined by the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," Fifth Edition, 1940, page 287, under "Fat, Babcock Method—Official."

(8) "Frozen dairy foods" means any frozen or partially frozen food products (including ice cream, French ice cream, ice milks, milk ices, frozen custards, sherbets, and other similar preparations) containing milk fat and sugar, together with stabilizers, extracts, fruits, nuts, coloring or flavoring materials.

(9) "Administrator" means the Administrator, Production and Marketing Administration, United States Department of Agriculture, or any officer or employee of the Department to whom the Administrator has heretofore lawfully delegated, or to whom he may hereafter lawfully delegate, authority to act in his stead.

(10) "State" means any of the forty-eight States of the United States, or the District of Columbia.

(b) *Restrictions on cream and cream products.* (1) No person shall sell or deliver, except to a handler, any cream, cream product, or filled cream, having a milk fat content in excess of 19 percent: *Provided*, That any person may sell or deliver cream having a milk fat content not exceeding by more than 1 percent the minimum milk fat content required by State law or administrative regulation in effect at the time of such sale or delivery in the State where such delivery is made.

IMPORTED HIDES AND SKINS

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

SECTION 1. *Imported hides and skins.* Notwithstanding any other regulation or order of the Office of Price Administration:

¹ 10 F.R. 14954, 15170; 11 F.R. 296, 297, 881, 1102, 1467, 2378, 2640, 2889, 2927, 3247, 3399, 4021, 4090, 4861, 5066, 5353, 5593, 5599, 5539, 5650, 5740, 5868, 5781, 6232.

(b) Except as provided in paragraph (a) above, no maximum price shall apply to the sale or purchase of any foreign hides or skins situated outside the continental United States.

Sec. 2. Definitions. The following definitions shall be applicable wherever the words or terms defined are used in this supplementary order:

(a) "Imported hides or skins" means hides or skins originating in, and cured, semi-cured or otherwise treated with a preservative agent, in any country other than the continental United States, and shall include all goat skins and sheep skins specified in Revised Maximum Price Regulation 357.

(b) "Foreign invoice price" means the price charged by the seller-shipper located outside the continental United States for the sale and delivery to a person within the continental United States (irrespective of whether the latter person is the importer), minus any charges included in such price for transportation, marine insurance, war risk insurance, export taxes, customs duties, import taxes, or any other expenses incurred in connection with the movement of commodities from the point of shipment abroad to the point of delivery in the continental United States.

(1) If the foreign invoice price is stated in a foreign currency, it shall be converted into United States dollars at the rate or rates of exchange paid or to be paid.

(2) In case a seller located outside the continental United States imports a commodity into the continental United States and sells it after importation either directly or through an agent its current market selling price minus any foreign taxes not paid on exports prevailing at the place of shipment at the time of shipment shall be used as the foreign invoice price.

(c) "Landed costs" shall be (1) the foreign invoice price plus (2) all costs and expenses, including (i) transportation, (ii) customs duties or import taxes, (iii) other commodity taxes, (iv) customs clearance, (v) dock charges, (vi) insurance, (vii) letter of credit expenses, and (viii) any customary buying commission to a purchasing agent outside the continental United States (or, where the importer maintains, either himself or cooperatively, buying offices abroad, a charge to cover the cost of maintaining such offices determined in the same manner as he customarily employed prior to April 1942) incurred by the importer if customarily incurred in connection with the movement of commodities from the point of shipment abroad to the point of delivery to the importer in the continental United States, except (3) the following: (i) cable charges, (ii) financing costs, (iii) other general overhead costs, (iv) charges incurred in storing the imported commodities in a foreign trade zone, a

Where it is necessary, for the purpose of determining the total landed costs of an item contained in a shipment, transportation, insurance and other costs, except duties or import taxes, may be allocated to the particular item as a percentage average in accordance with customary practice in the trade.

Sec. 3. Applicability. This supplementary order shall not apply to any commodity the maximum price of which is determined under Maximum Price Regulation 553, nor to any commodity enumerated in Supplementary Order 126.

For a product or product line to be listed in this appendix, the Administrator must find

(a) That in 1944 its production was approximately one-half or less of its production in its last representative period of peacetime production;

(b) That this reduction in dollar volume resulted from (1) governmental restrictions on the manufacture of products or on the use of materials, facilities, or manpower, or (2) the use of facilities for the production of war goods, or (3) other direct needs of the war effort.

The Administrator may omit from the list a product which meets the above tests if in his judgment the purposes of the order will be effectuated, as to that product, without its being listed.

The list indicates the commodity price branch of the National Office having jurisdiction over the products listed.

For the purpose of this provision, part means any specific part, subassembly or accessory for an article covered by these regulations which was originally designed for use in or in connection with such an article and which is fabricated to such an extent that it may be identified as to its ultimate use in or in connection with that article, and would not ordinarily be used for any other purpose.

APPENDIX C

Form 611-2489

(Copies of Form 611-2489 may be obtained from any OPA Regional or District Office.)

APPENDIX D

In this appendix there are listed profit factors, each of which represents one-half the average margin over cost for the years 1936-1939 for the industry or industry group designated, as determined by the Administrator. You must use the factor which applies to the product for which you are calculating new maximum prices, wherever the form on which you are calculating them directs you to enter one-half the industry's 1936-1939 profit rate or margin.

The profit factors are collected in two lists. In List I are factors for specified industries. In List 2 are factors for groups of industries. As further studies of specific industries are completed, factors for those industries will be added to List I, and the products made by those industries will thereafter be priced by the List I factor instead of the List 2 factor. If there is a factor in List I which applies to the industry making the product whose ceiling you are adjusting, you must use that factor rather than a factor in List 2 which might otherwise be applicable.

The factors listed in this Appendix will be the subject of continuing review and may be revised from time to time. If you find that a profit factor which you have used in calculating the maximum prices of a product has been increased by such a revision or in connection with the specification of the product in List I, you may apply to your OPA District Office for a recalculation of your maximum prices, using the new factor in place of the factor you originally used.

NOTE: Attention is directed to the fact that the factors listed do not disclose the relative profitability of the industries or industry groups listed. Profitability is measured by rate of return on net worth or investment. This in turn depends not merely on the ratio of the margin between net sales income and total costs to total costs, which is reflected in the listed factors, but also on the rate of turn-over of the product and the net worth of, or investment in, the industry. Thus, an industry with a profit factor of 4.0 may be more profitable than an industry with a profit factor of 8.0.

Attention is also directed to the fact that the inclusion of a profit factor for an industry or an industry group does not necessarily mean that the products made by this industry are eligible for adjustment. A product

is eligible for adjustment only if it is listed in Appendix A or B, or covered by one of the regulations listed in section 2.

Supplementary Regulation No. 2 to General Maximum Price Regulation for the Territory of Hawaii is amended by adding a new section 6 to read as follows:

SECTION 6. Permitted additions to maximum prices in certain cases. (a) Any seller may increase his maximum price for any commodity covered by the General Maximum Price Regulation for the Territory of Hawaii under the following conditions:

(1) The price at the source of supply on the mainland is increased under authority of an Office of Price Administration regulation or order; and

(2) Under the provisions of such regulation or order (or one related thereto) processors and/or resellers are permitted to increase their maximum prices.

(b) In the foregoing cases revised maximum prices for processors and/or resellers subject to the General Maximum Price Regulation for the Territory of Hawaii shall be arrived at as follows:

(1) Each seller may add to his maximum price established under the General Maximum Price Regulation for the Territory of Hawaii the amount by which the maximum price of the most nearly equivalent class of processors or reseller on the mainland is increased by the aforementioned regulation or order. (Example: A mainland manufacturer of floor wax is given an increase in his maximum price of \$0.03 per pound jar, and the Office of Price Administration order in such case provides that wholesalers and retailers may increase their prices by designated amounts. Wholesalers and retailers in the Territory may under this section 6 increase their maximum prices by the same amounts without further authorization from the Territorial Office of the Office of Price Administration.)

(c) Every seller subject to this section who increases his prices as herein set forth must, prior to the first sale at the increased price, obtain and keep on file:

PART 12—AMATEUR RADIO SERVICE

PART 13—COMMERCIAL RADIO OPERATORS

RENEWAL OF LICENSES

At a session of the Federal Communications Commission, held at its office in Washington, D. C., on the 20th day of June 1946;

Whereas, § 12.27 of the Commission's rules governing amateur radio service and § 13.28 of the Commission's rules governing commercial radio operators require a showing of service or use as a condition precedent to the renewal, respectively, of an amateur or commercial operator license; and

Whereas, the Commission by its Order No. 77-E, dated November 28, 1945, suspended until June 30, 1946 § 12.26 of its former rules governing amateur radio stations and operators (subsequently replaced by § 12.27 of the Commission's rules governing amateur radio service adopted April 1, 1946) and § 13.28 of its rules governing commercial radio operators, insofar as those sections require a showing of service or use as a condition precedent to the renewal, respectively, of an amateur or commercial operator license; and

Whereas, it appears that it would be advisable to extend for an additional period of six months the suspension of the showing of service or use requirement in order to provide a cushion for the full return to normal peace-time procedures;

Now, therefore, it is ordered, That § 12.27 of the Commission's rules govern-

ing amateur radio service and § 13.28 of its rules governing commercial radio operators be, and they hereby are, suspended until further order of the Commission, but in no event beyond December 31, 1946.

This order shall become effective July 1, 1946.

PART 13—COMMERCIAL RADIO OPERATORS
APPLICATIONS FOR RENEWAL OF LICENSES

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 20th day of June 1946:

Whereas, The Commission by its Order No. 128, adopted August 28, 1945 (10 F.R. 11526), provided that under certain conditions applications filed or mailed not later than June 30, 1946 for the renewal of certain commercial radio operator licenses, which were valid on December 7, 1941 and had expired, might be acted upon by the Commission notwithstanding the provisions of § 13.11 of the Commission's rules governing commercial radio operators; and

Whereas, It appears that the provisions of Commission Order No. 128 should be continued for an additional period of six months in order to provide for the renewal of numerous expired commercial radio operator licenses held by persons serving or who have served in the armed forces of the United States or the United States Maritime Service, or who are or have been employed outside the continental limits of the United States; and

Whereas, The Commission by its Order No. 77-F, adopted today, effective July 1, 1946, has suspended until December 31, 1946 § 13.28 of the Commission's rules insofar as that section requires a showing of service or use as a condition precedent to the renewal of a commercial operator license;

It is ordered, That any application filed or mailed not later than December 31, 1946, for the renewal of a commercial radio operator license (other than a Temporary Emergency Radiotelegraph Second Class Operator License) which was valid on December 7, 1941 and has expired by its own terms without having been cancelled or suspended, may, until the further order of the Commission, be acted upon, notwithstanding the provisions of § 13.11, if a statement is filed as part of the renewal application showing that (1) the applicant is serving in the armed forces of the United States or has been honorably discharged therefrom since December 7, 1941; or (2) the applicant is serving in the United States Maritime Service or has voluntarily left that Service since December 7, 1941; or (3) the applicant is or has been employed

outside the continental United States and has been unable to file timely application for renewal of license because of such employment outside the continental United States.

It is further ordered, That all licenses issued under the authority of this order shall be dated as of the date the application for renewal is granted by the Commission and not as of the date of the expiration of the former license.

This order shall become effective July 1, 1946.

PART 13—COMMERCIAL RADIO OPERATORS
SHIPBOARD RADIOTELEGRAPH OPERATORS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of June 1946:

The Commission having under consideration its Orders No. 97 dated May 19, 1942 (7 F.R. 3830), and No. 123 dated October 9, 1944 (9 F.R. 12360), temporarily relaxing the requirements of the Commission's rules governing commercial operators aboard ships and establishing respectively the temporary limited and temporary emergency radiotelegraph second class operator licenses; and

It appearing that the war-time emergency demand for shipboard radiotelegraph operators which led to the adoption of Order 97 and Order 123 has now been alleviated to the extent that there is no longer any demand for radiotelegraph operators which led to the adoption is that they hold a license issued under Order 97 or under Order 123; and

It further appearing that the issuance of additional licenses under the authority of either Order 97 or Order 123 should be discontinued but that it would be advisable for outstanding licenses issued under either of those orders to remain valid according to their respective terms;

Now, therefore, it is ordered, That on and after the effective date of this order, Order 97 and Order 123 shall be cancelled, *Provided, however*, That all temporary limited and temporary emergency radiotelegraph second class operator licenses which are outstanding at the time of such cancellation shall remain valid according to the respective terms thereof.

The effective date of this order shall be June 30, 1946.

AUTHORITY: §§ 21.1 to 21.12, inclusive, issued under sec. 9 (c) of the Surplus Property Act of 1944, 58 Stat. 765, 50 U.S.C. App. Sup. 1611; Pub. Law 181, 79th Cong., 1st Sess., 59 Stat. 533; and Pub. Law 375, 79th Cong., 2d Sess.

§ 21.1 *Authority to act.* (a) The Department of the Interior is designated by Part 8301 of Title 32 (Regulation 1 of the Surplus Property Administration), issued pursuant to section 10 of the Surplus Property Act as the disposal agency for all real and personal property (except aircraft, property peculiar to aircraft, merchant vessels, vessels capable of conversion to merchant use and marine industrial real property) located in the territories and possessions of the United States. In turn the Secretary of the Interior, by Departmental Order No. 2061, has authorized the Division of Territories and Island Possessions within the Department to carry out the Department's functions in this respect. For this purpose, the Surplus Property Office of the Division has been organized, headed by a Director in the Washington, D. C., Office, with additional offices, each in charge of a territorial surplus property officer, in San Juan, Puerto Rico, Honolulu, Hawaii, and Anchorage, Alaska.

§ 21.2 *Scope.* (a) The regulations in this part apply only to surplus personal property declared for sale in the territories and possessions of the United States, as described in Part 8301 of Title 32 (Regulation 1 of the Surplus Property Administration), including Puerto Rico, the Virgin Islands, Hawaii, and Alaska.

§ 21.3 *Sales activities.* (a) All sales shall be conducted in the territories and possessions by the respective offices for the disposal of such surplus property as may be declared to each office. However, commodities which prove excess to the needs of the respective territories and possessions, and commodities as to which joint selling efforts are deemed appropriate by the Director, may be sold by or with the specific direction of the Washington Office.

§ 21.4 *Sales conditions.* (a) Each sale consummated by the Surplus Property Office of the Division including those made in Washington, shall, subject to any qualification which may be made in writing in the solicitation of bids or otherwise, be made subject to the following sales conditions, commonly referred to as Sales Conditions No. 1 of September 1, 1945:

1. All sales are on a cash basis and payment in full must be made promptly after award and prior to the removal of the property.

2. Property must be removed at the purchaser's expense within ten days (or such other period as may at any time be specifically allowed in writing) after the date of mailing by the Government of the Bill of Sale, which will be the purchaser's authorization to obtain delivery of the property. Without limiting any other rights it may have, the Government may require the payment of storage charges with respect to property not removed within the required time and reserves the right to cancel the contract with respect to any such property. The purchaser shall be responsible for any damage to surrounding property, including buildings, resulting from the removal of the property.

3. It is expected that the Government agency in possession will exercise its usual care for the protection of the property, but the Government will not be liable in the event of loss, damage, or destruction from any cause whatsoever. The Government, however, will refund to the purchaser any amount paid with respect to property lost or destroyed during the period allowed for removal and prior to actual removal.

4. The Government warrants its title to the property sold but makes no other warranty, express or implied, by way of description of the property or otherwise. All property is sold "as is" and "where is."

5. No representative of the Government is authorized to make any statement or representation as to quality, character, condition, size, or kind of any material offered for sale, and any representation or statement made by any representative of the Government, concerning any such material, will not be binding on the Government; nor will it be considered as grounds for any claim for adjustment or rescission of any sale.

6. No Member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of any contract of sale or to any benefit that may arise therefrom unless it be made with a corporation for its general benefit.

7. In case of error in the extension of prices to the "Total Price" column in the bid, the unit price will govern.

8. The Government reserves the right to reject any or all bids or parts thereof, and to waive technical defects therein. The Government also reserves the right to withdraw from sale any property prior to the removal thereof without incurring any liability except to refund to the purchaser any amount paid with respect to such property. The Government further reserves the right to cancel the contract without liability if made on behalf of any principal whose name and address are not set forth in the bid.

It is the responsibility of bidders to inspect property and they are urged to do so prior to submitting bids:

§ 21.5 *Types of sales.* (a) Revised Special Order 24 of March 16, 1946,¹ issued by the War Assets Corporation as successor to the Surplus Property Administration, sets out the types of sales for consumer goods which shall be used by

disposal agencies in carrying out their functions under the act. The same types of sales shall also be used in selling all other goods, such as producer and capital goods. As stated in the order these are:

Fixed price sales. Generally a fixed price sale is preferred to all other methods. This type of sale shall be used when property is in new condition, is available in inventory in large quantities, and is either a standard commercial item or is readily marketable; and may be used whenever property, either new or used, can best be moved by this method.

Other methods of sale may be used when it is not practicable to use the fixed price method of sale. The following additional standards shall be used as a guide in the choice of these other methods:

(1) Sealed bid—where the property is a non-standard commercial item; or is of unknown marketability; or is available only in mixed lots or small quantities.

(2) Spot sale (by fixed price or competitive bid) or public auction—where the property is not suitable for fixed price offering; when rapid clearance of a site is necessary; or when the experience of the disposal agency has shown this to be the best method of disposing of the specific type of property involved.

(3) Negotiated sale—(a) When the proposed purchaser can perform certain functions necessary to make the property salable, such as repairing, rehabilitating, sorting, grading, or testing, more economically and effectively than the disposal agency or others; (b) When the property is non-standard and has no apparent civilian use; (c) When the property is such a hazard to health and property as to require immediate disposition; (d) When the property will spoil or deteriorate so rapidly as to jeopardize any disposal unless immediately sold; (e) When another method of sale has proved unsuccessful; or (f) When the property is to be sold to a foreign government pursuant to a recommendation of the State Department.

(b) Where, because of the remote location and type of property involved, other methods of sale are impracticable in carrying out the functions of the Surplus Property Office, negotiated sales may be used.

(c) The selection of the type of sale in specific instances, whether the commodity involved is consumer goods or otherwise, and the price to be charged therefor, shall be determined by the particular office handling the sale.

§ 21.6 *Priority claimants.*—(a) *Government agencies.* (1) The act, section 12 (a), gives a priority to Government's agencies in the acquisition of surplus property for their own use and not for transfer or disposition. Government agencies shall exercise their priority within twenty (20) days from the time public notice is given of the availability of the surplus property for disposal to Government agencies. Transfer will be made at the fair value fixed by the Surplus Property Office unless transfer without reimbursement or transfer of funds is authorized by any law approved subsequent to June 21, 1944, to be made to the Government agency desiring such property.

(2) These transfers are given priority over all other disposals except disposals to veterans of property reserved exclusively for veterans, as described in paragraph (b) of this section.

(b) *Veterans.* (1) The act, section 16 (a) gives a priority to veterans second to that given to Government agencies in the acquisition of surplus property to enable veterans to establish and maintain their own small business, professional, or agricultural enterprises.

(2) The act, section 16 (b), requires that certain property shall be set aside which has been determined to be appropriate for exclusive disposal to veterans for their own personal use, and to enable them to establish and maintain their own small business, professional, or agricultural enterprises. All the property on Exhibit A, attached hereto, will be set aside for this purpose. Such property will be held for disposal to veterans, who properly qualify in accordance with the provisions of subparagraph (3) of this paragraph, for a period of not less than fifteen (15) days after public notice of its availability for such disposal. Any balance remaining undisposed of thereafter will be available for disposal in accordance with the other provisions of these regulations. The Surplus Property Office may establish maximum and minimum quantities to be disposed of to veterans hereunder.

(3) In each territorial office an employee has been charged with the duty of certifying veterans' priorities. That employee, a veterans' priority officer, is authorized to obtain from the veteran and other suitable sources all information pertinent to granting a priority under the act and Part 8302 of Title 32 (Regulation 2 of the War Assets Corporation). A record of this information shall be kept in the territorial office in connection with the application form filled out by the veteran. It is advisable that veterans make application and secure their priority certificates prior to the time they actually wish to purchase. The priority certificates shall bear the time and date of issuance. The following certificate shall be signed by the applying veteran, who shall indicate whether subsection (5) is applicable and, if not, the appropriate alternative clause in subsection (3) and subsection (4) thereof:

VETERANS' PRIORITY CERTIFICATE

I hereby certify (1) that all the statements contained in my application for veterans' priority and in this certification are true to the best of my knowledge and belief; (2) that I served in the active military or naval services of the United States on, or after, September 16, 1940, and prior to the termination of World War II, and was discharged or released therefrom under honorable conditions; (3) that I am, or will be, directly or indirectly or beneficially, a proprietor of the enterprise described herein, and that no person or persons, other than veterans, have or will have any proprietary interest in the enterprise, singly or together, directly or indirectly, amounting to 50 percent or more of either the capital invested in the enterprise or of the net income thereof; or that the property described herein is required as a condition of my employment by others; (4) I hereby certify that the surplus property herein applied for is to be used in and as part of the enterprise described; or that the surplus property is required for resale and is the initial stock necessary, within reasonable limits, for the enterprise; (5) I hereby certify that the surplus property herein applied for is for my own personal use; (6) I further certify that I have not heretofore ap-

pled for or received any surplus property, on the basis of a veterans' preference or priority except at the following times and places:

 (Type of business)

 (Property requested)

(4) Priority shall not be granted to veterans seeking to buy merely as agents or brokers. Veterans may not exercise their priorities to purchase in quantities less than the smallest lot customary in commercial practice for the commodity involved. Applications for priority by a veteran or by a group of veterans to buy in excess of \$25,000 fair market value of surplus property must be submitted, together with all pertinent data, secured by the veterans' priority officer, to the Washington Office for action by the Director.

(c) *Other small business priorities.* The act, section 18 (e), gives a priority, following that given to Government agencies and to veterans, to purchases by the Reconstruction Finance Corporation, as successor to Smaller War Plants Corporation, for resale to small businesses.

(d) *States and local Governments.* (1) The act, section 13 (f) gives the next priority, following those given to Government agencies, veterans, and purchases by the Reconstruction Finance Corporation, in that order, to States, territories, or possessions of the United States, the District of Columbia, and political subdivisions or instrumentalities thereof.

(2) Pursuant to Part 8302 of Title 32 (Regulation 2 of the Surplus Property Administration), effective May 3, 1946, which should be consulted for a comprehensive treatment of this subject, a government requirements officer has been appointed in each of the three territorial offices and in the Washington Office. On the basis of estimated needs submitted, it is the duty of the requirements officers in the territorial offices to give notice to government agencies and State and local governments of the availability of specified surplus property and the basis on which it will be sold, to the end that priority claimants may have adequate time to make arrangements to purchase those items in which they are interested. In the case of priority claimants located in Alaska, the requirements officer shall give claimants notice in the nature of a letter forecast at least once each month stating the general types of surplus property which the territorial office has available. This will enable claimants so located to make known to the territorial office their desire to purchase certain items.

(e) *Nonprofit institutions.* (1) The act, section 13 (a), and Part 8314 of Title 32 (Regulation 14 of the Surplus Property Administration) provide that certain nonprofit institutions shall be given an opportunity to acquire surplus property in order to fulfill, in the public interest, their legitimate needs. Part 8314 of Title 32 has delegated to the Federal

Security Agency the responsibility of certifying those institutions which should be granted this preference in buying. Pursuant to that part, the Federal Security Agency has designated the officer in charge of the United States Public Health Service in Puerto Rico, Hawaii, and Alaska to certify all institutions, except educational, which may apply for preference certification in the respective territories and possessions and such adjacent islands as are within the scope of those regulations. Certification of educational institutions are presently handled for the Puerto Rican area by the Acting Commissioner of Education at San Juan, in Hawaii by the Deputy Superintendent, Department of Public Instruction at Honolulu, and in Alaska by the Commissioner of Education at Juneau. Institutions desiring to obtain certification should contact the appropriate officer herein designated before attempting to purchase surplus property.

(2) A 40% discount from fair value is established by Part 8314 of Title 32 only on orders by or for such nonprofit institutions as may be certified as educational or public-health institutions and which are exempt from taxation under section 101 (6) of the Internal Revenue Code.

(f) *Disposals for claimants' own use.* Except in the case of transfers to Reconstruction Finance Corporation as successor to Smaller War Plants Corporation for resale and disposals to veterans of property to be resold with or without processing or fabrication in the regular course of business, transfers or disposals to priority claimants shall be for their own use only and not for transfer or disposition by them to others and priority claimants may be required to so certify.

§ 21.7 *Qualified buyers at fixed price sales of consumer goods.* (a) After priority claimants have been given an opportunity to fill their needs by the purchase of surplus property, sales shall be made to small retailers and wholesalers who serve small independent retailers, to industrial users, and to all other wholesalers in that order and in quantities and at price differentials suitable to the trade level of the buyer. See Revised Special Order 24 of March 16, 1946, referred to in § 21.5. Pursuant to said order such sales to commercial purchasers shall be known as program sales and the following classes of purchasers are qualified buyers in the circumstances indicated:

(a) Sales may be made exclusively to the original producer of the surplus property only when the original producer can perform certain necessary functions, such as repairing, rehabilitating, sorting, grading, or testing, more effectively than the disposal agency or others.

(b) Manufacturers who perform the distributive functions of serving small independent retailers may buy as wholesalers under program sales subject to the rules applicable to purchases made by wholesalers.

(c) Wholesalers and manufacturers who own, operate, or control retail stores are required to buy as retailers, under program sales, for their company owned or controlled retail stores.

(d) Buying offices of associated groups of retail stores operated on the voluntary chain system of buying will buy as retailers under program sales.

(e) Commercial exporters and purchasing commissions representing foreign govern-

ments shall be permitted to participate as wholesalers under program sales, except that items in critically short supply in the domestic economy may not be available to them for export.

(f) Cooperative organizations shall be permitted to participate in sales of consumer goods at the same time and under the same conditions as other commercial enterprises under program sales. In determining the level of trade at which a particular cooperative organization will buy consideration should be given solely to its functions as a wholesaler or retailer and not the features of cooperative ownership.

(g) Industrial users, i. e., manufacturing or commercial enterprises of a class which normally purchases property for its own use and not for resale shall be permitted to participate in program sales at the retail level, or at the wholesale level (at the minimum quantity specified for wholesalers who agree to use their best efforts to sell to small independent retail establishments) if such class customarily buys from manufacturers at the same price as wholesalers: *Provided*, That in either case the property so purchased it not resold in its present form except after incorporation into an end product. Orders of commercial and industrial purchasers shall be filled after retailers and wholesalers who serve small retailers.

(h) Purchasing agents (including resident buyers, commission men, brokers, and other agents) who perform the purchasing function for the principals they represent, shall be permitted to participate in disposals of surplus property. Sales made through these agents shall be made only in the name of the principal they represent and in program sales at the level of distribution of the principal. Such agents may be required to present a written authorization from the principal for each purchase.

(i) All purchasers who may participate in program sales shall also be eligible to acquire property offered by any other method.

(j) Ultimate consumers (persons who buy for their own personal use) are not ordinarily expected to purchase surplus property directly from the disposal agency except when such property is offered in suitable lots or units under circumstances which will not complicate the work of disposal or where sales to ultimate consumers, for example, through rural farm auctions, would be more effective than offerings by other methods.

(b) The following certification shall be signed by all commercial purchasers to establish their qualification as buyers at fixed price sales. The certification shall become a permanent record in each office where the purchaser wishes to buy. It may be amended to show a change of classification and/or additional commodities, items or products, upon an appropriate showing.

(c) In the discretion of the territorial surplus property officer improper certification may result in disqualification from further purchases.

§ 21.8 *Public notice of sales*—(a) *Posted notices in the Surplus Property Offices.* As a uniform method of giving public notice of all prospective sales shall be posted in the office proposing to sell the commodity in question, at a place accessible to and frequented by the public, a notice describing the property available and the type of sale contemplated, together with full directions as to who may participate in the sale. This posting shall take place at least one working day in advance of sales negotiated because of deterioration of the commodity and at least one week in advance of all other sales. Additional postings may be made in the discretion of the territorial surplus property officer.

(b) *Newspaper and trade journal advertising.* Except in the case of negotiated sales as an additional uniform method of giving public notice, the same notice described in the paragraph immediately preceding shall be inserted in at least one newspaper with wide circulation in the territory where the commodity is located, or, if the sale is to be made in Washington, in whatever newspaper or newspapers having a general or trade circulation within the continental United States the Washington Office may deem appropriate. One insertion of notice of a proposed sale shall be sufficient, but, in the discretion of the territorial surplus property officer, additional insertions may be used. The last insertion shall occur at least one week in advance of sale.

(c) *Circularization.* Qualified buyers may request the various offices to place their names on mailing lists to receive, whenever possible, direct mail information of the sale of items in which they are interested.

(d) *Radio.* Whenever it shall be deemed appropriate by the territorial surplus property officer, additional notice of a proposed sale may be given by radio broadcast at such time or times as he may think best.

§ 21.9 *Conduct of sales*—(a) *Fixed price sales.* Sales shall be conducted in accordance with the public notice. This shall designate the days on which priority claimants and retailers and whole-

salers may purchase. Not more than twenty (20) days shall be given to Government agencies and not less than fifteen days to veterans after the date of public notice of availability of property. The following order of priority shall be observed: (1) Federal Government agencies; (2) Veterans; (3) Reconstruction Finance Corporation, as successor to Smaller War Plants Corporation, for resale to small businesses; (4) Governments of the territories and possessions, political subdivisions and instrumentalities thereof; (5) Nonprofit institutions; (6) Small retailers and wholesalers serving small independent retailers; (7) Industrial users, whether purchasing as retailers or wholesalers; and (8) All other wholesalers. If sales cannot be concluded to any group other than Government agencies in the time allotted, their orders may be taken during that time and the property reserved from sale to others until such time as the formalities of sale may be completed. In subsequent sales provision may be made for the additional time allotment needed for a particular group.

(b) *Excess property set aside for veterans.* Any property remaining from that reserved exclusively for veterans after the time period allotted to them to purchase will be disposed of after clearance with War Assets Administration.

(c) *Allocation of insufficient quantities at fixed price sales*—(1) *Veterans.* Each of the above named groups may exhaust by purchase the entire amount of property available at the time prescribed for sale to them. Where the amount of property available is insufficient to satisfy all demands of any one group, the following method of awarding the property available shall govern: In disposing of property set aside exclusively for veterans, the territorial offices may establish the maximum and minimum quantities which may be acquired by any one veteran at any one time during a given period of time. If the supply of property is still insufficient, equitable distribution will be accomplished in accordance with the date of certification or registration. The public notice of availability of surplus property shall so state. Equitable distribution between personal use applicants and applicants for small business or agricultural or professional enterprises, will be made by the territorial office. In disposing of property not set aside exclusively for veterans equitable distribution of insufficient quantities will be made by the territorial office.

(2) *All others.* Allotments within other groups shall be made on the basis of the sequence in which the orders were received, or on such other equitable basis as the territorial surplus property office may determine.

(d) *Property unsold after fixed price sale.* As to property remaining unsold after being offered on a fixed price basis to all potential buyers, the territorial office offering the property shall determine, (1) whether a reoffering at a reduced price shall be made to all classes of purchasers in the usual manner or (2) whether an offering by sealed bid, auction or negotiation shall be made, (3)

whether the property shall be offered direct to consumers, or (4) whether a disposition by other appropriate means shall be made.

(e) *Sealed bid sales.* (1) All priority and preference claims for the commodities involved shall have been met before such commodities are sold by sealed bid or at auction, or by negotiated sale except in the case of perishable items.

(2) Consequently in the case of sealed bid sales, the notice of sale shall specify a time certain for the public opening of all bids. A substantial security payment not to exceed one-fourth of the purchase price, either by money order or certified or cashier's check, shall be required to accompany the bid. Bids shall be received in the Surplus Property Office holding the sale up to the time specified in the notice of sale. An award to the highest qualified bidder for each item or lot sold, shall be made within a reasonable time, not to exceed ten working days, after public opening of bids. Failure to complete the transaction after award shall result in the retention by the Surplus Property Office of the deposit as liquidated damages.

(3) The Government reserves the right to reject any or all bids or parts thereof and to withdraw from sale any property prior to the removal thereof without liability except to refund to the purchaser any amount paid with respect to such property.

(4) Discretion to offer any commodity for rebidding, after proper public notice thereof, shall rest with the territorial surplus property officer or the Director in Washington, depending upon the office handling the sale.

(f) *Auction sales.* Sales at auction shall be conducted in the customary manner, unless the notice of sale shall indicate specific requirements.

(g) *Negotiated sales.* (1) Sales by negotiation shall be conducted in the customary manner, by continuing contact with interested buyers until an offer to pay a price reflecting as nearly as possible the market value of the commodity is obtained.

(2) The minimum one day notice prescribed in § 21.8 for negotiated sales of property subject to rapid deterioration shall be construed as adequate notice to priority and preference claimants, small retailers and wholesalers.

(h) *Qualified buyers.* Before any bidder at a sealed bid, spot sale or public auction or negotiated sale shall take delivery of any property awarded to him he shall have completed and placed on file as a permanent record at the appropriate surplus property office a certification as to his category as a purchaser on Form SPO-129 "Certification of Commercial Purchaser of Surplus Property" (See § 21.7 above).

§ 21.10 *Approval of sales.* (a) All proposed sales made by territorial offices which involve a total sales price of \$50,000 or more shall be referred to the Washington Office for approval of the Director. All negotiated sales which involve a total sales price of \$50,000 or more shall be referred with the recommendation of the Director to the Secretary for approval.

(b) Any proposed sale involving circumstances of a peculiar nature or a conflict between private purchasers may be referred by the territorial surplus property office to the Washington Office, and in the discretion of the Director, to the Secretary for approval.

§ 21.11 Method of payment. (a) The Surplus Property Office and its territorial offices are not staffed to make sales on a credit basis. Therefore all sales shall be made on a cash basis, as specified in paragraph 1 of the Sales Conditions (see § 21.4), except:

(1) That bank checks issued or certified by appropriate officers, and money orders will be accepted, and

(2) That irrevocable, unconditional letters of credit subject to sight draft by the Surplus Property Office making the sale will be accepted.

(b) Where the property in question is unlikely to be again available as surplus property or is unique in character and Federal Government agencies and Territorial Governments or their political subdivisions and instrumentalities can furnish evidence that there is a reasonable probability of their having the purchase money available within three months, and said claimants execute a purchase order at the time of offering, immediate transfer of the property may be made to them upon execution of a proper custodial bond, or upon execution of a three month lease at nominal rental reserving in the lessor the right of cancellation at any time.

§ 21.12 Refunds. (a) Since all sales are made by this office on an "as is, where is" basis, without representation as to quality and with no responsibility as to preparation for shipment and transportation, few instances in which a refund may be claimed should arise. However, should the Surplus Property Office, or the owning agency having custody, be unable to deliver the total quantity of an item sold, or should other appropriate circumstances arise, such as set out in paragraph 3 of the Sales Conditions (see § 21.4), refunds may be made only after joint approval by the territorial surplus property officer and the regional counsel of the territorial office, or if no regional counsel is on duty, by the territorial surplus property officer and chief of merchandising and sales in the territory.

(b) All refunds, except those for inability to deliver the quantity of goods originally contracted for, which involve \$1,000 or more must be submitted to the Director in Washington for final approval.

J. M. BARRINGER,
Director, Surplus Property.

Approved: June 25, 1946.

The SECRETARY OF THE INTERIOR.

FEDERAL POWER COMMISSION.

[Docket No. G-731]

MICHIGAN GAS STORAGE CO.

NOTICE OF APPLICATION

JUNE 25, 1946.

1. Notice is hereby given that on June 10, 1946, an application was filed with the Federal Power Commission by the Michigan Gas Storage Company (hereinafter sometimes referred to as "Applicant" or "Michigan Gas"), a Michigan Corporation with its principal office at Jackson, Michigan, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of certain facilities, and the acquisition and operation of certain other facilities, all as more fully described below:

(a) Applicant seeks authorization to acquire the following facilities from the Consumers Power Company (hereinafter sometimes referred to as "Consumers Power"), which facilities are located in the State of Michigan, and to operate the same:

(1) A 12-inch natural gas transmission pipe line approximately 65 miles in length extending from the Muskegon River Compressor Station of Consumers Power at the Winterfield Gas Field southeasterly to a point of connection with a natural gas transmission pipe line of Panhandle Eastern Pipe Line Company (hereinafter sometimes referred to as "Panhandle Eastern") at Zilwaukee Junction, near the City of Saginaw;

(2) An 8-inch natural gas transmission pipe line approximately 4¼ miles in length extending from the Cranberry Lake Gas Field southerly to said Muskegon River Compressor Station;

(3) An 8-inch natural gas transmission pipe line approximately 34 miles in

length extending westerly from the junction of State Highways M-20 and M-30 to the Two Rivers Compressor Station of Consumers Power located at the Broomfield Gas Field;

(4) Two parallel 6-inch natural gas transmission pipe lines approximately 13 miles in length extending from said Two Rivers Compressor Station southwesterly to a point in the Six Lakes Gas Field, and a 2 mile section of 8-inch pipe line connecting such parallel lines with the Six Lakes Compressor Station of Consumers Power;

(5) A 10-inch natural gas transmission pipe line approximately 60 miles in length extending from said Six Lakes Compressor Station southeasterly to a point near the City of Lansing;

(6) Muskegon River Compressor Station having an installed capacity of 4,000 horsepower, and including, among other things, gas cleaners, after-coolers and dehydration equipment;

(7) Two Rivers Compressor Station having an installed capacity of 1,850 horsepower, and including, among other things, gas cleaners;

(8) That portion of the Six Lakes Compressor Station which is owned by Consumers Power, being approximately one-half thereof, or 2,100 horsepower. (This station, which is operated by Consumers Power, has an installed capacity of 4,050 horsepower. It is jointly owned by Consumers Power and Michigan Consolidated Gas Company.)

(9) The Six Lakes Field Gate Metering and Regulating Station located on Section 23, Belvidere Township, Montcalm County;

(10) The Six Lakes Field Gate Metering Station located on Section 27, Millbrook Township, Mecosta County;

(11) The Blanchard City Gate Metering Station located on Section 18, Rolland Township, Isabella County;

(12) The Six Lakes Field Gate Metering Station located on Section 16, Belvidere Township, Montcalm County;

(13) The Zilwaukee Junction Metering Station located on Section 35, Tittabawassee Township, Saginaw County;

(14) The M-20-M-30 Metering Station located on Section 13, Lee Township, Midland County;

(15) Well lines, field lines, metering stations, gas wells, materials stock, and other facilities and equipment used in the operation of the Winterfield and Cranberry Lake Gas Fields;

(16) Leaseholds, contracts and other rights and interests for the production, storage, and purchase of gas in the Winterfield and Cranberry Lake Gas Fields;

(17) Consents, permits, contracts, easements, rights-of-way and other interests in property pertaining to or exclusively used in connection with the gas production, gas lines compressor stations, metering stations, and other facilities to be acquired from Consumers Power, but not including any franchises or equipment used in conducting a local gas distribution business.

(b) Applicant seeks authorization to construct or acquire and operate the following facilities:

(1) Metering equipment to be constructed at the Zilwaukee Junction con-

trol station of Consumers Power, located near the City of Saginaw at a point of connection between natural gas transmission pipe lines of Consumers Power and Panhandle Eastern;

(2) A compressor station of approximately 2,400 horsepower to be constructed at Freedom Junction at the Junction of the so-called "West Line" and "North Line" of Panhandle Eastern.

(3) A compressor station of 3,200 horsepower to be constructed at North Bradley on the existing 12-inch natural gas transmission line described in paragraph (a) (1) herein which Applicant proposes to acquire;

(4) Approximately 60 additional wells to be drilled and connected in the Winterfield and Cranberry Lake Gas Fields in connection with their conversion to gas storage fields;

(5) Gas rights, overriding and royalty interests and storage rights in the Winterfield and Cranberry Lake Gas Fields to be acquired from oil companies and others than Consumers Power Company having a major interest in such fields.

2. Michigan Gas Storage Company is a newly formed organization. Its stated purpose, according to the application, is to develop the business of purchasing, receiving, producing, storing, transmitting and selling natural gas in the State of Michigan in such manner as to enable it to receive and store natural gas during the summer season and to withdraw from storage and sell natural gas during the winter months, thereby meeting the day to day requirements of Consumers Power Company, its parent corporation, and other public utility customers, if any, while purchasing natural gas from the Panhandle Eastern Pipe Line Company at a high annual load factor.

3. In this application Michigan Gas requests the issuance of a temporary certificate of public convenience and necessity authorizing the acquisition, construction, and operation of the facilities described hereinbefore. Applicant states that, an application for a permanent certificate of public convenience and necessity will be made, subject to issuance by the Securities and Exchange Commission and the Michigan Public Service Commission of such consents and authorizations as may be requisite to the establishment and conduct of Applicant's proposed business, and the transfer by Consumers Power Company to Applicant of the properties hereinbefore described. Such application for a permanent certificate it is stated will include the facilities covered in the instant application, and also certain additional facilities which Michigan Gas proposes to construct in order to complete its plan of development and operation.

4. In support of its request for a temporary certificate Applicant states that an emergency situation exists which can be alleviated only if its proposed facilities and operations are authorized. It is said that the Winterfield and Cranberry Lake Gas Fields have been and are a major source of supply for meeting the requirements of the northern divisions of Consumers Power Company, and that during the war their depletion was ac-

celerated to permit gas which would normally have been delivered to Michigan markets by Panhandle Eastern to be diverted to the Appalachian areas for war purposes pursuant to directives of the War Production Board. Furthermore, that during the next two years it will be necessary for Applicant to repressure those gas fields for storage purposes, while at the same time meeting the minimum market requirements of Consumers Power. In the opinion of the Applicant, the quantity of gas which will be available to it from Panhandle Eastern will not be enough even under the most favorable circumstances to meet Applicant's full requirements in the next two years. In order to minimize the deficit, Applicant proposes to commence deliveries into storage at the earliest possible date, stating in support of such proposal that even if deliveries into storage are commenced immediately there will still be a critical point in late March of 1947 and another in 1948 when the storage fields will have been unduly depleted, and heavy withdrawals necessary to meet maximum day requirements late in the winter season may produce dangerously low well-bottom flowing pressures with the serious risk of drawing bottom-hole water into the gas formations.

5. Applicant estimates that the total overall capital cost of the proposals for which it seeks a temporary certificate will be \$8,213,698. This total estimate includes: \$3,708,523 for acquisitions from Consumers Power Company; \$3,850,000 for other acquisitions and new construction; \$530,175 for gas purchases to repressure the storage fields; and \$125,000 normal working capital. Michigan Gas proposes to finance its acquisitions from Consumers Power by the issuance of stock. The balance of the facilities covered by the instant application will be financed by the sale of stock of Applicant to Consumers Power Company and the Panhandle Eastern Pipe Line Company.

6. Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

7. Any person desiring to be heard or to make any protest with reference to the application of Michigan Gas Storage Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of this publication, a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-1319]

DERBY GAS & ELECTRIC CORP. ET AL.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of June, A. D. 1946.

In the matter of Derby Gas & Electric Corporation, The Derby Gas & Electric Company, The Danbury and Bethel Gas and Electric Light Company, The Wallingford Gas Light Company, File No. 70-1319.

Notice is hereby given that Derby Gas & Electric Corporation ("Derby"), a registered holding company, and its subsidiaries, The Derby Gas and Electric Company ("Derby Connecticut"), The Danbury and Bethel Gas and Electric Light Company ("Danbury") and The Wallingford Gas Light Company ("Wallingford") have filed an application and declaration pursuant to sections 6, 7, 9, 10 and 12 of the Public Utility Holding Company Act of 1935 and the applicable rules thereunder. All interested persons are referred to said application and declaration, which are on file in the office of the Commission, for a full statement of the transactions therein proposed, which are summarized below:

Derby's funded debt consists of \$2,450,000 principal amount of 3% Debentures, Series due 1949, and \$1,410,000 principal amount of 3% Debentures, Series due 1954, all of such debentures being owned by The Equitable Life Assurance Society of the United States ("Equitable"). Derby's outstanding capital stock consists of 200,660 shares of no par value common stock. Derby Connecticut and Wallingford have no outstanding funded debt, whereas Danbury has outstanding \$150,000 principal amount of 5% First Refunding Mortgage Gold Bonds due in 1953. All of the shares (other than directors' qualifying shares) of the outstanding capital stocks of these three companies, consisting of common stocks, are owned by Derby.

Derby Connecticut, Danbury and Wallingford propose to construct certain gas manufacturing, transmission and storage facilities at an estimated cost to these companies of \$650,000, \$595,000 and \$95,000, respectively, or an aggregate of \$1,340,000. The cost of such new construction will be met by available cash on hand for such purpose and by borrowing from the parent, Derby, from time to time as additional cash is needed, such borrowing to be evidenced by demand notes to be issued to Derby. When the construction work has been completed, it is proposed that Derby will surrender for cancellation such demand notes to each of said subsidiaries in consideration of the issuance to Derby of stock of such subsidiary in an amount (taken at the par or stated value of \$25 per share in each case) equal to the principal amount of said demand notes of each such subsidiary to be so surrendered by Derby.

In connection with the aforesaid construction programs and the inter-company financial arrangements incident thereto, Derby proposes the following transactions:

1. Derby will redeem its outstanding \$2,450,000 principal amount of 3% Debentures, Series due 1949, at 101½% of the principal amount thereof, and simultaneously issue and sell to Equitable \$2,450,000 principal amount of new

2¾% Debentures, Series due 1956, at 101½% of the principal amount thereof.

2. In order to provide funds to make the aforesaid loans to its subsidiaries, Derby will also issue and sell to Equitable an additional \$500,000 principal amount of new 2¾% Debentures Series due 1956 at 102¾% of the principal amount thereof.

3. Additional cash funds required by Derby to supply to its said subsidiaries in connection with the aforesaid construction programs will be obtained by Derby's issuance of new shares of common stock. Derby will offer to its stockholders the right to subscribe to one additional share of common stock, without par value, for each ten shares of its common stock held by such stockholders at a price equal to \$4.00 less than the "average bid" price of Derby's common stock on the over-the-counter market. The "average bid" price is defined to mean "20% (computed to the nearest even one-quarter of a dollar below the resulting figure) of the aggregate of the bid prices quoted in The New York Times on the five trading days immediately preceding the second business day prior to the date on which the offer to subscribe is made by the mailing of a notice, prospectus and the subscription warrants to Derby's stockholders advising them of said right to subscribe". Said offer will be effective for a period of eighteen days following the date on which said notice, prospectus and warrants are mailed to such stockholders. It is further stated that if all the shares of common stock of Derby offered to its stockholders are purchased, the result will be that Derby will increase its outstanding common stock by 20,066 shares, and it will receive, based on the present market, approximately \$460,000 for such shares.

Applicants-declarants consider sections 6 (a), 6 (b), 7, 9 (a) (1), 10, 12 (c) and 12 (d) of the act and Rules U-42 and U-44 as applicable to the proposed transactions. Applicants-declarants state that the proposed issue by Derby of new debentures and additional common stock are excepted from the competitive bidding requirements of Rule U-50 by virtue of paragraphs (a) (2) and (a) (4) thereof, respectively, and that the proposed issue by the subsidiaries of Derby of demand notes and common stock are excepted by virtue of paragraph (a) (3) of the rule.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the matters set forth in the application and declaration and that said application shall not be granted nor said declaration permitted to become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on said application and declaration under the applicable provisions of the act and the general rules and regulations promulgated thereunder be held at 10:00 a. m., e. d. s. t., on the 8th day of July, 1946, at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania,

On such date, the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in these proceedings shall file with the Secretary of the Commission on or before July 5, 1946 his request or application therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That notice of said hearing be given to Derby, Derby Connecticut, Danbury, Wallingford and the Connecticut Public Utilities Commission by registered mail and to all other interested persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for all releases issued under the Public Utility Holding Company Act of 1935 and by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That, without limiting the scope of the issues presented by these proceedings, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the new 2¾% Debentures, Series due 1956, proposed to be issued and sold by Derby and the new common stock proposed to be issued and offered to stockholders of Derby are reasonably adapted to the security structure and earning power of the company and are necessary and appropriate to the economical and efficient operation of the business or businesses in which the company is engaged.

2. Whether the prices proposed to be paid by Equitable for said new debentures are reasonable, and whether the other terms and conditions of said transaction are detrimental to the public interest or the interest of investors or consumers.

3. Whether the terms and conditions of the proposed subscription offer of Derby's common stock are fair and reasonable.

4. Whether Derby, Connecticut, Danbury and Wallingford are entitled to the exemptions from the provisions of section 7 of the Act which they have asserted under section 6 (b) thereof in connection with the proposed issuance and sale by such companies to Derby of demand notes and of additional shares of common stock.

5. Whether the proposed acquisitions by Derby of demand notes and shares of additional common stock of Derby Connecticut, Danbury and Wallingford meet the applicable provisions of the Act.

6. Whether it is necessary or appropriate to impose terms or conditions in the public interest or for the protection of investors or consumers in connection with the proposed transactions.

7. Whether the proposed accounting entries to be recorded in connection with the proposed transactions are proper and conform to sound accounting principles.

8. Generally, whether, in any respect, the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the act or the rules, regulations or orders promulgated thereunder.

By the Commission.

[Rev. SO 119, Order 269]

E. R. WAGNER MFG. CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* E. R. Wagner Manufacturing Company, 4611 N. Thirty Second Street, Milwaukee 9, Wisconsin, may compute its adjusted ceiling prices for carpet sweepers of its manufacture by increasing by 8 percent the ceiling prices to each class of purchaser as established by Maximum Price Regulation No. 188.

As used in this paragraph "ceiling prices as established under Maximum Price Regulation No. 188," shall mean the ceiling prices established under that regulation without the inclusion in those ceiling prices either directly or indirectly of any adjustment, either individual or industry-wide.

(b) *Ceiling prices of purchasers for resale.* (1) A purchaser for resale, who had an established ceiling price prior to the effective date of this order for any article, whose manufacturer's ceiling price was adjusted in accordance with the provisions of this order, may increase that established ceiling price by 8 percent.

(2) A purchaser for resale who had no established ceiling price prior to the effective date of this order for any article whose ceiling price is subject to this order, shall determine his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is one which meets all the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration, however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the resale ceiling price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter, properly established under OPA regulations.

(4) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted ceiling prices for resales of the articles. This notice may be given in any convenient form.

(e) All requests contained in the application for price adjustment filed by E. R. Wagner Manufacturing Company, assigned OPA Docket No. 6069 SO 119-79C, not specifically granted by this order are hereby denied.

(f) The provisions of Supplementary Order No. 153, shall have no application to any sale or delivery of any article subject to this order.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 26th day of June 1946.

Issued this 26th day of June 1946.

Administrator.

SEC. 4. Maximum prices—(a) *Manufacturers' maximum prices.* The maximum prices for 8 x 8 x 16 cinder and concrete block covered by this order are set forth in Table 1, annexed to and made part of this order. These prices are established at varying levels, depending upon the group category to which the manufacturer belongs. These groups are based upon the manufacturer's approximate rated machine capacity per day described as follows

Group A: Machine rated capacity—10,000 block or over.

Group B: Machine rated capacity—5,000 block to 9,999 incl.

Group C: Machine rated capacity—1,000 block to 4,999 incl.

Group D: Machine rated capacity—less than 999.

If the manufacturer had an established differential in price during the month of March 1942 for other sizes of block, he may convert the prices granted in Table I for the 8 x 8 x 16 block on the basis of the conversion factors or formulae in use by him during March 1942 in establishing price differentials between the standard size block and other sizes.

(b) *Resellers' maximum prices.* The maximum prices for resellers of the commodities covered by this order shall be the same as the maximum prices established for the manufacturer who supplies him with these commodities.

SEC. 5. Discounts and allowances. The maximum prices prescribed by this order are subject to all customary cash and trade discounts, allowances or other differentials all of which must be preserved.

SEC. 6. Reports. Before offering for sale or delivery any item covered by this order, the manufacturer must file a report with the Baltimore District Office of the Office of Price Administration setting forth his plant's or plants' machine rated capacity, the group to which he belongs and the maximum prices applicable to him.

copy of that portion of Table 1 which is applicable to him in each of his places of business in the Baltimore, Maryland Trading Area, in a manner plainly visible to all purchasers.

SEC. 8. Sales slips and records. (a) Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of the items sold and the price paid. If he customarily prepared the sales slips in more than one copy, he must keep, for at least six months after delivery, a duplicate copy of each sales slip delivered by him pursuant to this section.

For any sale of \$25 or more, each seller regardless of previous custom must keep records showing at least the following: (1) name and address of buyer, (2) date of transaction, (3) place of delivery and (4) complete description of each item sold and price charged.

(b) *Maximum prices for insufficiently described items.* Where the sellers' records or sales slips upon the sale of any commodity in the area covered by this order do not contain a sufficiently complete description to identify the exact type or size of the commodity and thus determine the maximum price fixed by Table 1 of this order the maximum price applicable to such sale shall be the lowest maximum price that can be computed under Table 1 of this order in accordance with the incomplete description.

(c) *Resellers' records.* Each and every reseller of the commodities covered by this order must preserve for examination by representatives of the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, records showing the sources of his purchases, quantities purchased and the prices paid therefor.

SEC. 9. Amendment. This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective May 27, 1946.

Issued this 23d day of May 1946.

[Region IV Basic Order 3, Under Order G-17 Under RMPR 251]

INSTALLED RE-SIDING AND RE-ROOFING MATERIALS AND INCIDENTAL CONSTRUCTION WORK IN ATLANTA REGION

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator for Region IV by section 9 of Revised Maximum Price Regulation No. 251, it is hereby ordered:

1. *What this order does.* This basic order puts into one document the provisions which will be common to all future orders establishing flat dollars-and-cents maximum prices for installed re-siding and re-roofing and related and incidental construction work to be issued by the Atlanta Regional Office

and/or by the District Offices in Region IV, pursuant to the authority contained in Section 9 of Revised Maximum Price Regulation No. 251. The orders to be issued under this basic order are referred to herein as "adopting orders" and when issued will expressly adopt the provisions of this basic order. The provisions of Revised Maximum Price Regulation No. 251 cover all sales of installed residing and re-roofing and related and incidental construction work in all areas not covered by these orders unless and until adopting orders are issued under this order. When such adopting orders are issued they will supersede the provisions of sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to installed sales of re-siding and re-roofing and related and incidental construction work.

2. *Transactions to be covered by this order.* This order covers all sales of composition re-siding and re-roofing on an installed basis together with accessories on residential structures and also will include related and installed construction work when sold by installers of re-siding and re-roofing whether such sale is made as a part of a general contract or not.

3. *Relationship of this order and all adopting orders to Revised Maximum Price Regulation No. 251.* The provisions of this order when and if adopting orders are issued supersede sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to sales of re-roofing and composition re-siding on an installed basis on residential structures and with respect to related and incidental construction work sold by installers of composition re-siding and re-roofing on an installed basis in the areas affected by such adopting orders. All other provisions of Revised Maximum Price Regulation No. 251 are applicable to transactions subject to this order unless otherwise provided in this order.

On and after the effective date of any adopting order issued under this basic order, regardless of any contract or other obligation no person shall sell, offer to sell or deliver composition re-siding and re-roofing on residential structures on an installed basis or related and incidental construction work as herein defined in the area covered by such adopting order at prices higher than those established by such adopting order: *Provided*, That deliveries made not more than thirty (30) days after the effective date of any such adopting order on bona fide contracts executed prior to the effective date of such adopting order shall not be considered violations of such adopting order or of this order.

An employer paying or about to pay labor rates higher than those in effect for him on the effective date of any adopting order under this basic order by reason of the predetermination of wage rates by the Secretary of Labor under the Davis-Bacon Act or any order or authorization of the Wage Adjustment Board, National War Labor Board, Economic Stabilization Director or any Board or officer performing the functions of the Boards and officers above named may file an application for an amendment of such adopting order to

reflect such increased labor rates. Such a petition for amendment shall conform in all respects to the provisions of Revised Procedural Regulation No. 1 except that it shall be filed with the Atlanta Regional Office of the Office of Price Administration.

4. Definitions.

(a) The term "composition re-siding" includes asphalt shingle re-siding, asbestos cement re-siding, insulated brick or stone re-siding and roll brick re-siding but shall not include wood shingles or wood re-siding.

(b) The term "re-roofing" includes composition re-roofing such as asphalt shingles and mineral surface roll re-roofing and smooth surface roll re-roofing but does not include wood, metal, or slate re-roofing.

(c) The terms "related" and "incidental" construction work mean any installation of building materials or construction work other than installed re-roofing and re-siding, when sold by installers of re-roofing and re-siding.

5. Pricing provisions applicable to adopting orders. The maximum prices to be fixed by adopting orders under this basic order shall be upon a price per square basis for re-roofing and re-siding and separate charges will be stated for extras.

6. Guaranteed price. A seller may sell a composition re-siding or re-roofing job covered by any adopting order issued under this basic order on the basis of a guaranteed price but such guaranteed price must not be higher than the maximum price figured in accordance with the pricing methods and requirements of the applicable adopting order and of this basic order. The seller shall stamp or otherwise mark conspicuously on each invoice or contract a statement in substantially the following form: "Prices are at or below ceiling prices set by O. P. A. Regional Order G-17 under RMPR 251."

7. Related and incidental construction work. If on any job, any installed building materials are furnished or any construction service performed by the seller, other than composition re-siding and re-roofing, the cost of such work shall not be included in the cost of installed composition re-siding and re-roofing, but shall be separately priced and billed on all invoices. The maximum price of any such related and incidental work shall be determined under Revised Maximum Price Regulation No. 251.

8. Measurements. It shall be the seller's responsibility to measure with reasonable accuracy the area or footage to be covered. A "measurement with reasonable accuracy" shall be considered to have been made if the price based on such estimate does not vary by more than 10% from the maximum price computed under the terms of this order and of the applicable adopting order.

9. Notification. Every person making sales subject to an adopting order issued under this basic order shall, if requested by the purchaser, make available to the purchaser a copy of this order, applicable adopting order, and a copy of Revised Maximum Price Regulation No.

251. Upon completion of any contract for installed re-siding and/or re-roofing, and/or related and incidental construction work, the seller must furnish to the purchaser an itemized statement showing the number of squares, the maximum price per square of re-siding and re-roofing installed, a list of all extras and the quantities and price of each and a separate statement of any related and incidental construction work other than installed re-siding and re-roofing giving a description of such work and an itemized statement of the prices thereof. The seller shall also include in such statement the date on which the installation was completed, the names and addresses of the sellers and buyers and the terms of sale.

10. Records. All sellers of installed composition re-siding and re-roofing and/or related and incidental construction work covered by any adopting order issued under this basic order must keep records concerning each sale subject to such order, including the name and address of the purchaser, the location of the job, the date of the transaction, a description of the materials and services involved, the number of squares and price per square of re-siding and re-roofing, a list of all extras permitted under such order with the quantity and price of each, and a separate statement of any related and incidental construction work. All such records shall be made available for inspection by representatives of the Office of Price Administration so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

11. Evasion. Any practice or device (including "tie-in" sales) which results in a higher price to the purchaser of composition re-siding and re-roofing on an installed basis and/or related and incidental construction work than is permitted by an applicable adopting order under this order is as such a violation as an outright over-ceiling charge and subjects the seller to all the penalties provided by Revised Maximum Price Regulation No. 251.

12. Revocation or amendment. This order may be revised, amended, revoked or modified at any time by the Office of Price Administration.

This order shall become effective in each area when adopted by an order covering that area.

Issued June 7, 1946.

Regional Administrator.

1. Terms of sale. Maximum prices hereinabove established are subject to the following cash discount:

(a) For sellers who were in business during March 1942, the same cash discount they had in effect during March 1942 for each quantity and type of sale made.

(b) For sellers who were not in business during March 1942, the cash discount which their most competitive seller who was in business during March 1942 is required to make under the provisions of this order.

2. Additions for the extension of credit. The following additions for the maximum prices hereinabove established may be made for the extension of credit beyond 30 days.

(a) Sellers who were in business during March 1942 are permitted to add to prices established hereinabove for the extension of credit beyond a period of 30 days, the same additions that they had in effect during March 1942 for the same type and quantity of sale. If no extra charges were made for the extension of credit during March 1942, none may be added.

(b) Sellers who were not in business during March 1942 are permitted to make the same charge for the extension of credit which their most closely competitive seller is permitted to make under the provisions of this order.

3. Delivery zone defined. The delivery zone, as defined in this order, and on which charges may be made, as listed above in Appendix A, includes the town or city limits and a 5-mile radius from the operator's plant, yard, or store.

For deliveries made outside the above described zone, the following maximum charge may be made: \$0.25 per truck mile, one way; mileage to be calculated from the outer perimeter of the above described zone, or \$0.05 per hundredweight of materials delivered—whichever results in the smaller charge.

Dealers who own no delivery equipment may negotiate with and engage an independent, non-affiliated contract carrier to make deliveries; the actual charges not to exceed legal ceilings are to be added as a separate item on the customer's invoice or sales slip.
