Computers for Learning

Education is a national priority. Every child should be educated to his or her full potential. GSA's Computers for Learning (CFL) Program helps accomplish this goal by increasing access to technology, which prepares children to contribute and compete in the 21st century. The CFL Program allows government agencies to transfer excess computer equipment to schools and educational nonprofit organizations, giving special consideration to those with the greatest need. Transferring computers to schools gives students the resources to succeed and build a successful future for America.

Computers for Learning

Education is a national priority. Every child should be educated to his or her full potential. GSA's Computers for Learning (CFL) Program helps accomplish this goal by increasing access to technology, which prepares children to contribute and compete in the 21st century. The CFL Program allows government agencies to transfer excess computer equipment to schools and educational nonprofit organizations, giving special consideration to those with the greatest need. Transferring computers to schools gives students the resources to succeed and build a successful future for America.

Personal Property Management

While the demand for new products and supplies keep rising, so does the need to dispose of excess government-owned personal property that is no longer required and is designated as surplus. Turn to GSA for help meeting your mission’s requirements. Our services include internal screening and reassignment of excess property, utilization of excess personal property. Donation or sale and abandonment or destruction.

We make it easy to report, search and select excess property through GSAXcess®. Our web-enabled platform that allows authorized government users to post excess product reports. GSAXcess® organizes products into user-friendly groups so search and selection is click-through convenient. You can look at product by state/territory too, or find out if excess product is available for transfer or donation. We can also provide guidance on how to handle gifts from the public or foreign entities as well as property requiring special handling such as controlled substances, demilitarized equipment, firearms and more.
