LOOG GUITARS

The Loog is cute and small, but it's not a toy: it's a real guitar, made out of real wood that sounds amazing whatever style you play. Because it only has three strings and a narrow neck, it's easier for small children to form chords and to make sense of what they are playing.

All Loog Guitars come unassembled, as we believe that building your own guitar is an experience that helps you bond with the instrument in a deeper level. It is also a bonding experience between parents and their children, who can build their Loog together and share their love of music. Loog Guitars pair with the Loog iOS app filled with video lessons designed to get you playing songs – not just scales or exercises – on day one.

CHORDBUDDY LEARNING SYSTEM

ChordBuddy Jr. Guitar System

ChordBuddy Media

Finally a learning system with a right-sized guitar for children ages 4 and up! Based on the fastest guitar learning system for older beginners, the ChordBuddy is now reconfigured for a 1/2-size guitar. With the ChordBuddy Jr., children will easily learn rhythm, timing skills, and gain finger strength and dexterity by using the patented single-lever system with simple, colored buttons. There is instruction to have the kids eventually form standard chords. The ChordBuddy Jr. Pack includes a 1/2-size guitar, ChordBuddy Jr. chord device, instructional DVD, songbook and guitar tuner.

00122361MSRP \$169.95 • MAP \$149.95

ChordBuddy Learning System – Revised Edition
Includes Color-Coded Songbook, Updated DVD and Revamped Packaging!
Perry's Music

As soon as the ChordBuddy is properly attached to your acoustic or electric guitar, you will be able to make music instantly. This revised edition of the complete learning system now features a color-coded songbook, updated DVD, and re-vamped packaging. As before, this pack includes a ChordBuddy device and

instruction book as well. The ChordBuddy is in the key of “G” and makes the “G” “C” “D” and “Em” chords.

Jamstik+ – The SmartGuitar

Portable Digital Guitar for iPad

Zivix

The jamstik is a portable digital guitar that connects to your favorite Apple device. It uses light to scan your fingers as you play with real strings on real frets.

Features include:

- **Convenient and Portable:** Play and learn wherever you are, when your schedule allows, and at your pace.
- **Affordable:** The jamstik is a guitar and lessons in one. The free jam-Tutor app is all you need to start playing in minutes.
- **Authentic:** Real strings and real frets.
- **Easy to start:** The jamstik is so easy to use, you'll be playing within minutes out of the box.
- **Learn Quickly:** You decide how much, how fast. The interactive learning platform and instant feedback keeps learners of all ages engaged.
- **Wireless:** Connects to your smart phone, tablet, Mac or PC via Wifi.
- **Extensible:** Compatible with hundreds of music apps.
- **Versatile:** The jamstik can sound like a piano, drums, harp, even a sitar, and many more.
- **Fast:** Very low latency MIDI connectivity.

Perry Youth Cutaway Acoustic/Electric Guitar

Natural Finish
Perry's Music

The Perry parlor size guitar measures 40" overall, which is a smaller body than the dreadnought and is more suitable for children and smaller adults. The photo finish process allows the image of beautiful quilted wood onto an otherwise plain guitar surface. To complete the effect the top, back and neck are bound with cream binding and pearl-loid purfling is on the top along with pearl-loid diamond fret markers. Other features include a radiused rosewood fingerboard, rosewood bridge, nickel silver frets and sealed die-cast keys. Active electronics feature a volume 3 band EQ, presence control, battery check feature and an outside battery compartment. The result is a breathtaking guitar at a modest price.

- 00634315MSRP \$159.95 • MAP \$139.95

 MAP \$1299.99

DT50 2x12 25/50W Guitar Amplifier

Line 6

Line 6 DT50™ goes further than any other amplifier to produce the best amp tones. The 25/50W guitar amplifier breathes unparalleled warmth, feel and depth into the 4 classic amp voicings on which all great amps are based. New Line 6 HD modeling technology and reconfigurable analog circuitry (courtesy of Reinhold Bogner's flexible 50W, EL34 tube design) produce the most authentic tones. The classic 2-channel design offers ease, speed and total analog reconfiguration with the flick of one switch. All muscle, no learning curve.

00122949 MSRP \$2149.99
 MAP \$1499.99

DT25 25W/10W Guitar Amplifier Head

Line 6

The new DT25 1x12, 25W/10W combo tube amp from Line 6 and tube-amp guru Reinhold Bogner is four boutique tube amps in one! The powerful combination of reconfigurable analog components and HD modeling allows the DT25 amp to produce stunning American cleans, British crunch, class A chime and modern high-gain. Selectable operating class (Class AB/25 Watts/Fixed Bias or Class A/10 Watts/Cathode Biased), power tube mode (Pentode or Triode) and four lust-worthy amp Voicings (which offer the perfect combinations of negative feedback loop topology, and HD preamp and tone stack modeling) can dial in classic vintage tones or be shaped into highly customized originals – and each one drips with boutique tone and touch-response.

00122946 MSRP \$1289.99
 MAP \$899.99

DT50 Head 25/50W Guitar Amplifier

Line 6

DT50™ goes further than any other amplifier to produce the best amp tones. Many amplifiers offer either modeling technology or reconfigurable analog circuitry, but DT50 offers both to deliver something bigger than the sum of its parts. New HD modeling technology, a host of switchable analog components, and a simple and elegant 2-channel interface – DT50 guitar amplifiers are in a category all their own. Brand-new Line 6 HD modeling technology fuels each voicing's preamp and tone stack, and automatically pairs them with dynamic analog circuitry including tube configuration and negative feedback topology (courtesy of Reinhold Bogner's uniquely versatile 50-watt, EL34 power section).

00122950 MSRP \$1649.99

- FX LOOP for using external effects
- Headphone output jack is very convenient for practicing and recording
- Aux In jack can let you play with an external music player
- 18V DC power supply (Adapter included)
- Power Output: 5 Watts
- Dimensions: 128mm (W) x 75mm (D) x 59.5mm (H)
- Weight: 440 g

Nano Legacy British Invasion Mini Amp

The British Invasion is inspired by Legendary VOX AC30. It captures the main characteristics of the legendary AC30 at low volume. Tweak the 3-band EQ, Volume and Gain knobs to recreate some authentic British Sound in your living room!

00138401MSRP \$149.99 • MAP \$99.99

Nano Legacy Heart Attack Mini Amp

Heart Attack is the newest member of the Nano line, and it is for metal heads. It is similar to the other Nano amp heads in its compact design and five huge watts of output. But it is unique in sound and feel. The Heart Attack design is based on the Mesa Boogie Rectifier, offering metal players that classic hard rock high gain sound. You can pull it out of your pocket and unleash an unimaginable mass of energy plugged in, all without losing control.

00139631MSRP \$189.99 • MAP \$139.99

Nano Legacy Purple Wind Amp

Purple Wind is a 5W Class AB Guitar Amplifier Head. It captures the main tonal characteristics of the legendary Plexi Super Lead. With 3-band EQ and Gain/Volume control you're set for classic rock on the stage or at home. Sound inspired by the legendary Marshall Plexi SuperLead 1959 (Limited Edition).

00138400MSRP \$149.99 • MAP \$99.99

Nano Legacy Mojo Diamond Mini Amp

5W Class AB Guitar Amplifier Head

Hotone

Mojo Diamond is a 5w Class AB guitar amplifier head inspired by legendary Fender Tweed. Like the original Tweeds, Mojo Diamond has a tiny body and loud, sweet sound. With the 3-band EQ, Volume and Gain control, you can easily create some shining sound that makes you stand out from others everywhere!

00154393MSRP \$149.99 • MAP \$99.99

Nano Legacy Thunder Bass Mini Amp

Thunder Bass, which we all guessed, is an amp head for bassists. Based on the Ampeg SVT, Hotone somehow got all the big thunderous sound into a mini-sized amp. Whether you are the bassist in the spotlight or the one keeping the pulse in the shadows, this solid amp will suit. Flexible and dynamic, it's as stable as the most stable member of the band.

00139632MSRP \$189.99 • MAP \$139.99

Nano Legacy Cabinet

The Nano Legacy Cabinet was designed from the bottom up especially for Nano amp heads, but it can be matched with any micro head you like – and it works for guitar and bass alike! In order to guarantee a good bass response and quality highs and mids, the Nano Legacy Cabinet utilizes a special Hotone-designed speaker. It also boasts an inverter tube design – found more often in hi-fi amps than guitar amps – which also helps with the bottom end. Unique among other guitar cabs, the Nano Legacy Cabinet has both IN and OUT jacks, so you can connect cabs together.

FOOT CONTROLLERS

FBV Express MkII

4-Button Foot Controller

Line 6

Get hands-free channel switching and more for your Line 6 amp and POD® with the FBV Express™ MkII foot controller! The steel foot switches make it easy to store and select four channel presets, to synchronize time-based effects with Tap Tempo, and to activate the chromatic tuner. The burly, full-sized volume/wah pedal feels solid under your foot and features plenty of grip. FBV Express MkII connects to your Line 6 amp or POD via the included locking RJ-45 cable. It pairs perfectly with Spider® IV and Spider Valve™ MkII guitar amplifiers to offer complete, hands-free control of the looper, pitch-shifter and other on-board amplifier effects. FBV Express MkII is compatible with most Line 6 amplifiers and POD processors.

00122079 MSRP \$139.99 • MAP \$99.99

FBV Shortboard MkII

13-Button Foot Controller

Line 6

The FBV Shortboard™ MkII keeps you at the foot of the stage instead of tied to the front of your Line 6 amp or POD®. Change, scroll and select presets with uncompromised speed. Add or remove effects in an instant and synchronize them with Tap Tempo. Load up to 64 presets in the four banks.

The full-sized volume/wah pedal feels solid and features plenty of grip. The oversized LCD shows preset names and the chromatic tuner display. The FBV Shortboard MkII connects to your Line 6 amp or POD via the included locking RJ-45 cable. It pairs perfectly with Spider® IV and Spider Valve™ MkII guitar amplifiers to offer complete, hands-free control of many on-board amplifier effects. The FBV Shortboard MkII is compatible with most Line 6 amplifiers and POD processors.

Auto-Tune for Guitar Floor Pedal

Model ATG-1

Antares

With the ATG-1 Auto Tune for Guitar Floor Pedal, the push of a button allows you to instantly tune your guitar all the way up the neck, access your favorite alternate tunings, pop on a virtual capo and select among pre-set guitar models (including acoustic and 12-string). The easy to use ATG-1 also includes standard gain and tone functions, an LCD readout, and accepts MIDI control inputs. Guitars that feature Roland® standard 13-pin outputs can plug directly into the floor pedal, while others require a hex pickup like the Roland GK-3 or equivalent. Perfect for saving time in the studio and rugged enough to handle the road, the ATG-1 is the perfect device for harnessing your creative energy.

BeatBuddy

The First Guitar Pedal Drum Machine

Singular Sound

BeatBuddy is the first drum machine in a guitar pedal format that enables full hands-free, creative control of the beat. Musicians can effortlessly insert fills, transition from verse to chorus, add accent hits, throw in drum breaks, and more, to create an unprecedented live drummer effect – all in award-winning, ultra-realistic 24-bit sound. The non-quantized beats, recordings of real drummers, makes BeatBuddy the first drum machine to not sound like a machine. No programming is necessary. Over 200 songs in 21 genres (each playable by 10 hyper-realistic drum sets) are available right out of the box. Just cue your drummer and start jamming.

00151241 MSRP \$399.00 • MAP \$299.00

Official BeatBuddy Dual Footswitch

Singular Sound

The Official BeatBuddy Dual Momentary Footswitch helps you get the most out of your BeatBuddy: it's easy to add accent hits, drum breaks (pauses), tap tempo, scroll through songs, and more...all hands-free, and with just the tap of a foot! Featuring whisper-quiet momentary buttons and a modern look, the Official BeatBuddy Dual Momentary Footswitch is designed to withstand heavy use and provide rock-solid performance. Guaranteed.

00151242 MSRP \$49.00 • MAP \$49.00

BeatBuddy MIDI Sync Breakout Cable

Singular Sound

Synchronize the BeatBuddy with a MIDI sync cable for MIDI-based loopers and effects to create a powerful performance system. This MIDI breakout cable converts the BeatBuddy's PS/2 MIDI Sync port to full size 5 pin MIDI IN/OUT ports so you're ready to take full advantage of the BeatBuddy's MIDI sync capabilities.

00151243 \$15.00

BeatBuddy Mini

Personal Drum Pedal

Singular Sound

Bring the drummer right into your home with the BeatBuddy Mini – effortlessly insert fills, transition from verse to chorus, add accent hits, throw in drum breaks, and more, to create an unprecedented live drummer effect – all with the simple ease of a guitar pedal format. No programming is necessary. Just cue your drummer and start jamming.

FOOT PEDALS FOR MOBILE DEVICES

iRig BlueBoard

Bluetooth MIDI Pedal Board

IK Multimedia

iRig BlueBoard is the first wireless MIDI pedalboard for iOS and Mac that allows you to control your music apps and more from the floor.

Now control parameters of your MIDI-compatible apps like AmpliTube wirelessly from the floor. Switch between presets, change patches, turn effects on and off and control effects like volume wah pedals all from the stage floor without worrying about tripping over wires. Setup is as simple as turning the iRig BlueBoard on and telling it what you want to control.

iRig BlueBoard features four backlit soft-touch pads housed in a sturdy, stage-worthy chassis, two TRS expansion jacks for connecting additional MIDI controllers like expression pedals, and is powered by four standard AAA batteries.

00119919MSRP/MAP \$99.99

IK Multimedia. Musicians First.

The Quad

4-Pedal Wireless Page Turner

AirTurn

Turn pages, navigatee setlists, transpose keys, toggle backing tracks, trigger metronomes, and even control guitar/bass/amp effects. This AirTurn QUAD 4-pedal board comes with the AirTurn Bluetooth transceiver, 4 ATFS-2 black silent pedals that connect to the transceiver, the AirTurn non-slip pedal board, and a USB recharging cable. The Bluetooth transceiver may be easily removed for use with other applications.

The transceiver features an internal lithium battery that can be used for up to 100 hours on standby. It connects wirelessly to your tablet or MAC/PC computer via Bluetooth and may be easily. The ATFS-2 black pedals are constructed of nearly indestructible polycarbonate plastic and feature a proprietary "mechanism-free" switch system for perfectly silent operation.

00142937MSRP/MAP \$149.00

GiO

Guitar Interface and Controller for Mac

Apogee

Apogee GiO is a studio quality guitar interface that turns your Mac into the ultimate guitar rig for recording, rehearsing or performing live on stage. GiO unlocks total control of the virtual guitar amps and effects in GarageBand, Logic and MainStage through a single foot controller and professional audio interface. Easily turn effects on and off, select presets and control recording functions without ever letting your hands leave your guitar. With Apogee's industry-leading conversion and preamps, you won't need to lug around an amp or other heavy gear to sound amazing. GiO is great for any guitar player with a Mac looking for a wide variety of virtual amps, effects and guitar tones for recording, rehearsing, or live performance. It's easy to connect GiO and start rocking.

00140809MSRP/MAP \$395.00

POD SERIES

Pocket POD®
 Legendary POD® Tone To-Go
 Line 6

Pocket POD® exhibits all the celebrated features and pro tone that makes POD a standard in recording studios everywhere. Don't be fooled by the smaller package, Pocket POD is packed with over 300 custom presets dialed in by some of today's hottest rock stars like Maroon 5, P.O.D., 311, Hoobastank and many more. Battery-powered and about the size of a tuner, Pocket POD is completely portable. Use it for effects in front of your amp, or just plug in headphones and practice anywhere, anytime.

00122093 MSRP \$179.99 • MAP \$129.99

POD® HD500X

Aura® Spectrum DI

Fishman

Aura Spectrum DI is the complete tone solution for the acoustic musician featuring award-winning Aura Acoustic Imaging technology that restores a studio-miked sound to your undersaddle or soundhole pickup. Housed in a professional quality all-metal case, Aura Spectrum DI features a 3-band EQ, one-knob compressor, automatic feedback suppression with up to 3 notches, chromatic tuner, effects loop, plus a high-quality balanced XLR D.I. The included Aura Image Gallery software provides access to an ever-expanding list of instruments recorded using world-class studio mics and techniques. Aura Spectrum DI is not only incredibly versatile, but it also delivers the most realistic acoustic sound available for stage or studio.

00125700MSRP \$558.38 • MAP \$362.95

DL4
Delay Guitar Effects Pedal
Line 6

The Line 6 DL4 Delay Stompbox Modeler is the first stompbox to give you digitally modeled effects. Includes 16 vintage delay and echo effects including Tube Echoplex, Space Echo, Deluxe Memory Man, Analog Delay, Reverse, and many more. It also provides for 3 programmable presets and an onboard Tap Tempo control, 14 seconds of sample-loop memory, true bypass switching, an expression-pedal input for real-time control of all effects settings, and stereo inputs and outputs. Runs for up to 30 hours on four "C" batteries or with the optional PX-2G power adaptor. Add the optional EX-1™ Expression Pedal to your Line 6 gear to modify the length of your delay time as you play.

00122094 MSRP \$349.99 • MAP \$249.99

DM4 Distortion Modeler Effects Pedal
Line 6

The DM4 Distortion Modeler is the first and only pedal that lays virtually every classic distortion pedal at your feet (okay, 16 different models, to be precise!), while throwing in a few forward-thinking Line 6 specials to give you something to lust for down the line.

00123031 MSRP \$349.99

FM4 Filter Modulator Effects Pedal
Line 6

The FM4 boasts a simple and sturdy front panel design, with four footswitches for saving and recalling your sounds, and six knobs for selecting models and tweaking parameters, with distinct assignments for each knob depending on the model you've chosen. The Line 6 FM4 is for the true explorer of new sonic galaxies; expect to be surprised, stimulated and encouraged to absolute synth-fulness.

00123032 MSRP \$349.99

JM4 Looper Effects Pedal
Line 6

JM4 Looper features over 100 Endless Jam™ tracks and drum grooves in more than 10 styles performed by top LA and Nashville session players. These tracks aren't rigid and robotic; these are actual recordings laid down by A-list drummers, bass players, and guitarists. The real-world chemistry from these dynamic rhythm sections is here for you to explore your creativity in writing songs, trying out solo ideas or just honing your chops between gigs.

00123035 MSRP \$459.99 • MAP \$329.99

M5
Stompbox Modeler
Line 6

Supercharge your pedal board with a single stompbox! M5® is like the Swiss Army Knife of stomp boxes, with over 100 gain-defying distortions, lush choruses, scintillating reverbs and many other expressive effects. This single box has the entire pro effects lineup, including all Line 6 "super stomps" like the DL4™. With a price point that's lower than one good single effect pedal, it's infinitely customizable. Dedicate one space on your pedal board to be whatever effect you need in the moment. Add an optional expression pedal to open up a world of sonic possibilities. This goes way beyond wah and pitch. Control delay time, mod speed, reverb tails, wet/dry mixes – or all of them at the same time – for every effect.

00122096 MSRP \$279.99 • MAP \$129.99

M9
Stompbox Modeler
Line 6

M9 Stompbox Modeler has the stunning stompbox tones, old-school simplicity and necessary portability you need in an all-in-one stompbox solution. It packs 100+ models from best-selling Line 6 gear (including DL4™ Delay Modeler, FM4™ Filter Modeler, MM4™ Modulation Modeler, Verbzilla® & more) into a tank-tough box. Tweak your tones on the fly, just like a classic stompbox – no menus, saving or hassles. The 28-second looper is easy to use with dedicated footswitches, and the built-in chromatic tuner is always at the ready.

00122095 MSRP \$559.99 • MAP \$399.99

M13 Stompbox Modeler
Guitar Multi-Effect Pedal
Line 6

M13 Stompbox Modeler boasts over 100 immortal distortions, reverbs, delays, and more. Get 19 celebrated analog and digital delays, 18 distinctive distortions from creamy to crazy, 12 reverbs from modern (particle verb) to vintage (spring reverb) to ancient (cave reverb), 26 vibey filters including wahs and pitch effects, 22 tangy mods including expressive tremos and phasers, and 12 compressors and EQs that squash, gate and color. The 28-second looper is always at the ready with dedicated footswitches for Play/Stop, Undo/Redo, Rec/Overdub, Half Speed, Reverse, Play Once, and Pre/Post.

00123034 MSRP \$699.99 • MAP \$499.99

Fishman

Aura® Sixteen is a compact yet powerful stompbox featuring award-winning Aura® Acoustic Imaging technology that restores a studio-miked sound to your undersaddle or soundhole pickup. Easy to set up and use, Aura Sixteen eliminates intrusive stage noise and expensive microphone setups, allowing you to reveal the true, unique voice of your instrument on stage or in the studio. The included Aura Image Gallery software provides access to an ever-expanding list of instruments recorded using world-class studio mics and techniques. Simply connect to your PC or Mac using the included USB cable and download Images for your instrument(s) from our extensive Image library.

00125701 MSRP \$422.99 • MAP \$274.95

SKYLINE SERIES STOMP BOXES

Guitar Effects Distortion Pedals

Hotone

Features include:

- True Bypass Footswitch
- Zinc Alloy Outer Cover
- Transparent top knob and 2 noctilucent small knobs
- Cool LED lights
- Dimensions: 74mm (D) x 44mm (W) x 44mm (H)
- Weight: 190 g

HOTONE

Skyline BLUES Overdrive Stomp Box

The Hotone BLUES overdrive stomp box is a distortion pedal with a full range frequency response that gives you the necessary crunch and power that makes this emotional style of music so compelling to play. Use the FAT button for that extra low end for when you need to lay it all on the line. Distinguished from the conventional overdrive circuit design, BLUES uses a two-stage overdrive circuit, reproducing the natural overdrive sound from a vintage vacuum tube amplifier. It maintains a perfect frequency response, distinct tone, remarkable dynamic expression, and rich detail. Current Consumption: 20 mA

00138389 MSRP \$109.99
 MAP \$79.99

Skyline CHOIR Analog Chorus Stomp Box

The Hotone CHOIR stomp box is an analog chorus pedal. It offers a sound that is pure, warm and lush. Onboard controls let you adjust the depth and speed of your effect. Use the DEEP button to extend the ambience and drama of your tone. Inspired by the legendary Jazz-Chorus amplifier, the circuit is based around the BBD MN3207. This design has a singular purpose: to create the most natural, purest and warmest chorus sound in a secret little box. In addition, the DEEP button can satisfy those guitar players in pursuit of a greater chorus depth. Current Consumption: 14 mA

00138396 MSRP \$109.99
 MAP \$79.99

Skyline CHUNK Distortion Stomp Box (Vintage Crunch)

Compact Vintage Crunch Pedal

The Hotone CHUNK stomp box is all about helping you achieve that vintage British Tone that has endured the test of time. This pedal will give you that classic crunch, while still remaining smooth and clear. As you dial up the gain you will feel as if are adding more and more cabinets to your vintage stack. Chunk is your little friend with that big British sound. Based on the legendary British amplifier, the specially optimized classic Crunch circuit has 4 diodes which were selected from thousands of models. This pedal will take you through time from the 70s to 90s and even hover in punk, hard rock, and heavy metal. The high gain tone never affects string resolution when strumming and does away with that annoying background noise, so that the “noise” you make is the kind you want to hear. Current Consumption: 18 mA

00138393 MSRP \$109.99
 MAP \$79.99

Skyline EKO Digital/Analog Delay

The Hotone EKO pedal is a digital delay stomp box with a direct analog signal path that achieves that classic, natural echo tone. The sound is pure, rich, and warm, and you can press the MOD button to get a deeper spacey feeling. Maximum delay time is approximately 500ms. Pure, warm, and natural echo tone – an excellent ambience maker. Digital Delay Line assures enough delay time and a pure signal path. Elaborate analog circuit makes the sound closer to a classic echo tone. Additional MOD push-button gives you even more space! Current Consumption: Max 60 mA

00138391 MSRP \$109.99
 MAP \$79.99

Skyline FURY Stomp Box (Fuzz Pedal)

The Hotone FURY stomp box is a fuzz pedal that provides that classic rock n roll fuzz that can only be described as beautifully nasty. Use the PUSH button for an extra boost to make your fuzz even dirtier. The Fury is downright rude for such a little box. Classic fuzz tone with a powerful low end, it gives a clear and strong attack. Very nice on bass. Sounds from smooth creamy fuzzy drive to hyper dynamic fuzz distortion, the PUSH button adds a special "Squeeze" feeling that makes the sound more unique. Current Consumption: 3 mA

00138394 MSRP \$109.99
 MAP \$79.99

Skyline GRASS Overdrive Stomp Box

The Hotone GRASS Overdrive Stomp box will give your guitar an artistic overdrive sound. Featuring great dynamic response, the Grass pedal will provide you with sounds ranging from a tasty light overdrive to a juicy medium low distortion. Grass is perfect for capturing a brilliant tone that players of all styles will wish to emulate. Based on the sound of the legendary DUMBLE amplifiers, here is an iconic retro overdrive tone, warm, smooth, and vital, with great sounding details and a wide range of dynamic response. Current Consumption: 9 mA

00138397 MSRP \$109.99
 MAP \$79.99

Skyline KOMP Opto Compressor

The Hotone KOMP stomp box is an optical compressor that provides a smooth compressed tone, while maximizing the punch of your notes. You will feel as if every sound from your amp was mastered in the studio. Use the SPARK button to insert more high end into your sound. Inspired by the legendary Urei LA2A photoelectric compressor, our circuit has been optimized according to the characteristics of the electric guitar and performs outstandingly over the spectrum of different playing styles. The compressed tone is round and smooth, full of musicality, and perfectly retains the original guitar tone. Current Consumption: 19 mA

00138392 MSRP \$109.99
 MAP \$79.99

Skyline LIFTUP Clean Boost Stomp Box

The Hotone LIFTUP Clean Boost stomp box is the perfect way to raise your volume while maintaining the original sound of your guitar. Use the TONE control to shape your ideal clean boost, and try the WARM function button to further construct your own VOLUME UP solution. This pedal was designed with two principles in mind: "Keep the signal super clean," and "Lots of tone shaping capability." It can volume up the signal without any distortion: the secret weapon of getting a transparent tone with great dynamic expression. Current Consumption: 17 mA

00138390 MSRP \$109.99
 MAP \$79.99

Skyline GATE Stomp Box

Noise Reduction Guitar Effects Pedal

Hotone

GATE is a true-bypass designed noise reduction stompbox for guitarists/bassists. No matter what kind of style you are playing, this tiny pedal will effectively keep noise and hum away from your pedalboard without changing your own tone. The CUT button enables a more harder noise reduction mode, which provides a low cut filter and a high cut filter adjustable by the two small knobs onboard.

00154729 MSRP \$134.99
 MAP \$89.99

Skyline HARMONY Stomp Box

Pitch Shifter/Harmonist Guitar Effects Pedal

Hotone

The Hotone HARMONY pedal introduces a gorgeous backup singer to richen up your guitar solo or riff expression. Boasting a wide range of pitch-shifting intervals, you'll find all kinds of room whether you're going up, down or are just looking for a little detune. Harmony's pitch range is totally versatile, and with its polyphonic precision, you can play a chord and make the chorus come out, or sound like an organ or a 12-string!

00154730 MSRP \$154.99
 MAP \$99.99

Skyline OCTA Digital Octave Stompbox

Octa is a digital octave stompbox for both guitarists and bassists. Two octave voices blend with dry level control and support polyphonic processing in the default mode, so playing a chord is absolutely no problem. And there is an additional DIRTY mode which simulates the classic analog octave pedals (single note processing and a different tone). Current Consumption: 53 mA
00138403MSRP \$109.99 • MAP \$79.99

Skyline Roto Pedal

Hotone
Hotone's ROTO Modeling Rotary Speaker stompbox is a fresh-vibe pedal that reaches into the soul of every man, woman and child. Just like the original box, you can switch between tremolo and chorale mode. The sleek rotations and subtle pitch variations will take you places you never knew could be so smooth... or so funky.

Skyline TAPE EKO Stomp Box

Hotone
Modeling Tape Delay Guitar Effects Pedal
Hotone
The TAPE EKO is a smart echo pedal that embodies the soul of the classic tape echo sound. It provides three delay modes: Mode I, Mode II, and reverse mode. Mode I gives you all the advantages of a digital delay. Mode II differs from Mode I in terms of dynamics. The reverse mode shares the characteristics of Mode I: warm and natural while maintaining clarity.
00154732MSRP \$154.99 • MAP \$99.99

Skyline TREM Optical Tremolo Pedal

The Hotone Skyline Series TREM optical tremolo pedal will deliver pulsating guitar tone. Whether it is surf you are after or something a little scarier, TREM will give you the lush, liquid waves you're looking for. The classic tone of photoelectric tremolo, with wide range adjustability and smooth, well-proportioned pulsing character. Inspired by the legendary Fender Twin Amp, our special circuit design ensures the consistency of output volume at different speeds. Additional EQ circuit offers more options for sound decoration. Current Consumption: 17 mA
00138395MSRP \$109.99 • MAP \$79.99

Skyline TUNER Pedal

This is a smart tiny tuner with the Skyline shape, with fast pitch detection technology and a big bright LED display – a real guarantee for your strings! In addition, it provides a VOLUME knob to control the output volume when active (from mute to 12dB volume boost). You can also use it as a mute box or a clean boost pedal. Current Consumption: Max 65 mA
00138402MSRP \$109.99 • MAP \$79.99

Skyline VERB Stomp Box (Digital Reverb)

The Hotone VERB stomp box is a digital reverb pedal. From the subtle echoes of a small room to the grand ambiance of a large hall, Verb will throw back a natural sound. Onboard controls let you select the decay time and shape the response of your high end. Use the SHIM button to add a decorated shimmer that will give your tone a beautiful and modified character. Current Consumption: 20 mA

00138404MSRP \$109.99 • MAP \$79.99

Skyline WHIP Metal Distortion Stomp Box

The Hotone WHIP Metal Distortion Stomp box offers an aggressive and heavy tone that is sought after by all who wish to preach the attitude of Metal. This pedal may be small, but it will provide your guitar with a tone that is large, dirty and downright mean. Shredders will appreciate the EDGE button that provides an additional boost on the top end. Heavy metal distortion with unique mid range tone shaping, this pedal suits various metal styles. The EDGE button offers a more aggressive tone with a high frequency boost. Current Consumption: 22 mA

Relay G10

Plug-and-Play Digital Guitar Wireless System

Line 6

Relay® G10 is the world's easiest guitar wireless system. Just plug in your instrument and it works automatically – no additional setup required. You'll hear your tone in amazing detail thanks to pure 24-bit Relay digital wireless sound quality – the same technology that top pros use on stage. The built-in rechargeable battery provides up to 8 hours of playing time, and sleep mode extends battery life to as much as 200 hours. When it's time to recharge, simply plug the transmitter into the receiver. Relay G10 features a simple and intuitive design that makes going wirelessly as easy as using a cable.

00156361MSRP \$249.99 • MAP \$179.99

Relay™ G30 Wireless Guitar System

Line 6

Relay™ G30 redefines the wireless experience for guitarists and bassists. Its superior sound, professional dependability and refreshing simplicity are simply unavailable from other wireless systems. Its pure signal clarity rivals that of the highest-quality guitar cables. Guitars get a beautiful high-end sparkle and basses get a thunderous low-end punch, even at distances of up to 30 meters. Unlike traditional wireless systems, Relay G30 offers superior sound with full bandwidth and zero compression. Relay G30 sounds just like a cable, but it also sounds just like your cable. Relay G30 features two EQ settings that match the frequency responses of typical guitar cables. Different players use different cables, but all players can use Relay G30. It broadcasts its robust signal over the 2.4GHz band. This keeps the signal free from many kinds of interference. For added security, Relay G30 employs exclusive signal protection technology: it broadcasts an encrypted data stream on six channels simultaneously. This easy-to-use transmitter is lightweight and low-profile. Bright LEDs display power, status and battery life. Standard 1/4-inch ins and outs deliver real convenience.

Relay G55

Digital Guitar Wireless System

Line 6

Based on patented, fourth-generation technology, Relay® is leading the digital wireless revolution for guitarists. The Relay G55 system delivers tour-grade digital wireless in a compact, half-rack format—so you can experience wireless freedom without compromising your tone. Featuring 12 channels of compander-free 24-bit audio, full 10Hz-20kHz frequency response and 117dB dynamic range, the G55 signal is so pure and strong it sounds just like a wired guitar. 2.4GHz operation and proprietary DCL™ signal protection provide rock-solid performance – while one-step setup and worldwide, license-free operation make Relay G55 incredibly easy to use.

Features:

- Patented, 4th-generation digital wireless technology
- All-metal, half-rack receiver designed for rack-mount or amp-top use, plus durable metal bodypack
- Full-range 24-bit digital conversion, 10Hz-20kHz (-2.5dB) frequency response
- Wide 117dB dynamic range (A weighted), superior transient response
- Operates in 2.4GHz band, free from interference from TV broadcasting, white space devices and cell phone towers
- Up to 12 simultaneous channels
- DCL™ (Digital Channel Lock) technology protects your signal
- 300-foot transmission range
- License-free operation worldwide
- Cable Tone simulates the high-frequency roll-off characteristics of a standard 25-foot cable
- XLR and 1/4" outputs
- Powered half-wavelength antennas

CABLES

Tourtek Instrument Cables

Samson Audio

Tourtek Cables have been designed for musicians and sound engineers who require superior sound quality and demand ultimate reliability. The cables exceed the design goal by combining quality components like genuine Neutrik® connectors and durable low-noise wire with solid build construction.

Tourtek Instrument Cables feature inner stranded copper conductors covered by a PVC insulator, which is wrapped in a second carbon insulator, then wrapped in a braided copper shield with 96% coverage. This is protected by a 6mm PVC outer jacket. The low capacitance cable provides excellent rejection of RFI/EMI interference, extremely low handling noise and superior sound quality. These instrument cables are available in a variety of lengths to ensure you have the appropriate cable for any application and can be purchased with one right angle connector as well. Standard instrument cable available in 1', 3', 6', 10', 15', 20', 25', 30', 50'. Instrument cable with one right angle connector available in 3', 10', 20' and 25'.

COMBO BASS AMPS

HD SERIES BASS COMBOS

Hartke

The HD Series Bass Combos pack Hartke's revolutionary HyDrive speaker design into a sleek combo design ideal for bedroom practice/jam sessions and small rehearsal spaces, and capable of greatly enriching your low-end tone. The HDs also maintain Hartke's commitment to producing high quality bass amplification with exceptional durability.

HD combo employs Hartke's patented HyDrive Speaker Technology that offers a carefully crafted hybrid (half paper, half aluminum) cone bass speaker. By combining the warmth and roundness of paper with the punch and attack of aluminum, the HyDrive design produces serious tone that is ideal for bass players of all genres and styles.

Packed with professional features, HD combos are designed to be user-friendly and reliable for players of all levels. The combo offers Volume, Bass, Mid and Treble controls on its top-mounted amplifier panel, allowing for easy adjustments. It also features an 1/8" stereo Aux input for playing along with your favorite tracks via an MP3 player and a 1/4" headphone output for more intimate practice sessions. In addition, HDs have a built-in limiter to ensure constant amp operation at safe levels. Lastly, its solid enclosure is finished in a stylish fashion with a sleek, perforated metal grill and molded strap carry handle.

With the exceptional tone of a HyDrive speaker housed in a durable, highly portable enclosure, Hartke's HD Bass Combos are able to perform at levels far beyond ordinary bass combos.

Hartke HD15 Bass Combo Amp

AK SERIES BASS CABINETS

Hartke

Hartke revisits the traditional paper cone driver with the new AK series of bass cabinets. These cabs offer exceptionally warm tone, natural coloration and awesome power thanks to their custom crafted paper cone drivers and specially tuned enclosures.

We're known for innovation and tone, so we're adding the Hartke touch to the classic paper cone driver to keep our line of cabinets as diverse and widely appealing as possible. We designed the new AK series to deliver awesome power and terrific tone for all those paper cone loyalists. AKs are killer cabinets that give you a classic rock tone that you can rely on night after night.

For enhanced performance on the top end, the AK series also employs a 1" titanium compression driver, effectively rounding out the full range of tonal dimensions that can be produced by the bass guitar. The cabinet also provides both parallel Speakon® and 1/4" inputs for true connecting convenience.

The AK series has the perfect enclosure to aid in proper dispersion and complement the sound of its speakers. They were specifically engineered to extend low frequencies and provide better bass projection, ensuring all the power and tone of the paper drivers is dispersed with great precision and articulation. Plus, with its rugged construction and removable casters, the AK series is built tough and ready for the road.

AK410

The AK410 houses four 10" 125 watt paper cone drivers for 500 watts of total power handling. These remarkable drivers ensure those deep low frequencies push through with power and clarity. It features a dual-chamber, sealed cabinet design.

00140616 MSRP \$649.99 • MAP \$499.99

HYDRIVE HX SERIES BASS CABINETS

Hartke

HyDrive transducers represent a revolutionary improvement in bass speaker technology and a major leap forward, fusing paper and aluminum in a roadworthy speaker design that is more robust and efficient than anything available.

With Hartke's HyDrive series, you get the best of both worlds: the warm tone of traditional paper cones and the clear, punchy attack of aluminum. HyDrive's patented Hybrid Cone Technology produces a speaker that uses an outside paper cone to push a warm, deep low frequency and an inner aluminum cone that produces mids and highs that cut, yet still remain sweet.

One of the most important advances with the HyDrive speaker is its power-to-weight ratio. A HyDrive speaker weighs 40% less than traditional speakers and handles 500 watts for the highest power-to-weight ratio of any bass speaker available. But the innovation runs even deeper. Because of its cast aluminum frame and neodymium magnets, HyDrive speakers operate cooler and deliver more reliable power handling at peak performance.

**HyDrive HX115**

Aluminum/Paper Hybrid, 1 x 15" + HF / 500 watts / 8 ohms

A revolutionary speaker like HyDrive warrants a cabinet design that properly transfers its sound, which is why we took almost as much time developing an appropriate cabinet as we did engineering the speakers themselves. The ported cabinet featured on the HX115 was specifically engineered to extend low frequencies and provide better bass projection, so you can be sure that the power and tone of your HyDrive speaker are dispersed with great precision and articulation.

Everything about the HX115 says roadworthy durability: power to spare, steel grills, inset side handles, and each cabinet comes with four removable steel casters for easier transport. The HX115 is a ported cabinet made from the highest quality plywood with extensive bracing and dado joinery, making it rigid yet lightweight. Allowing 500 watts of robust, bone-crushing power, it also boasts the lightest 15-inch bass speaker ever made. Put an HX115 cabinet on the bottom with an HX410 on top for the classic two-cabinet rig that thunders so much bass it will literally make your hair stand on end. With the HX115, you get reliable, powerful, portable performance night after night.

00140170 MSRP \$779.99 •
MAP \$599.99

**HyDrive HX410**

Aluminum/Paper Hybrid, 4x10" + HF / 1000 watts / 8 ohms, Dual Chamber

Professional performance and ample power were two critical considerations that heavily factored into the design of the HX410. The need for contemporary bassists to reach high volume levels with seamless performance is a common demand these days, but being able to do so with a durable, portable cabinet that only weighs 70 pounds is practically unheard of. This is where the HX410 bass cabinet comes in.

With power to spare, the HX410 features four 250 watt 10-inch HyDrive neodymium hybrid cone drivers for a total power handling of 1,000 watts. This HyDrive cabinet is beautifully appointed with a steel grill, steel corners, recessed handles and removable casters, making it both resilient and easy to transport. The HyDrive HX410 is a sealed, dual-chamber cabinet constructed from the highest quality plywood with extensive bracing and dado joints, making it rigid yet lightweight for superior projection and true sonic clarity.

The HyDrive HX410 was designed for demanding players who need critical performance at intense volume levels. Perfectly suited for all kinds of bass playing, Hartke engineers also specifically designed the HX410 with the midrange frequencies rock players rely on night after night on stages all over the world. With the power and versatility of the HyDrive speakers housed in a perfectly suited enclosure, it's clear that the HX410 performs on a level far beyond any ordinary bass cabinet.

4x10" + HF / 1000 watts /
8 ohms, Dual Chamber
..... MSRP \$949.99
..... MAP \$699.99

**HyDrive 210
Bass Cabinet****Hartke**

Hartke's HyDrive revolution continues with the high-powered, lightweight HyDrive 210 Bass Cabinet. This all-new enclosure features two patented HyDrive speakers (10" each) with rare earth neodymium magnets. An 8-ohm cabinet capable of handling 500 watts of power and weighing less than 40 pounds, the HyDrive 210 is perfect for all practice and performance situations.

Hartke's revolutionary HyDrive speakers feature carefully crafted paper/aluminum hybrid cones designed to deliver the perfect match of warmth and attack. The use of rare earth neodymium magnets lets the HyDrive speaker shed the typical weight of a bass cabinet and maintain the tight punch that has defined the Hartke sound.

The HyDrive 210 uses a 1" tweeter to further help your tone cut through the mix. Exceptionally roadworthy, the HyDrive 210 cabinet features a solid plywood construction with extensive bracing and dado joinery (a preferred method of cabinet construction), along with a full steel grill and inset side carry handle.

MAP \$499.99

VX SERIES BASS CABINETS

Hartke

The new VX “Very Extreme” Series bass reflex cabinets were designed for bassists who demand excellent tone but prefer traditional paper cone drivers. These warm, punchy enclosures feature proprietary drivers with specially treated cones, impregnated fabric surrounds, matched convex dust caps all mounted in heavy steel frames.

The high efficiency low moving mass design allows for maximum output and plenty of headroom throughout the full range of the driver. Rounding out the tone, each cabinet has a proprietary design horn loaded high frequency transducer. Using Heavy-duty plywood construction, the rugged carpet covered cabinet has strong protective corners, ergonomic handles and a recessed jack cup protecting its two 1/4” inputs.

VX115

The VX115, handling 300 watts, features a 15” low frequency driver and the high frequency transducer.

00140617MSRP \$409.99 • MAP \$299.99

VX410

The VX410 handles 400 watts of power driving its four 10” speakers, plus its horn loaded 1” throat compression driver.

00140618MSRP \$474.99 • MAP \$349.99

BASS CABINETS

XL SERIES BASS CABINETS

Hartke

Professionals choose the XL Series because of its carefully calibrated and tuned cabinet design and high quality aluminum-cone drivers. XLs produce a smooth response along with the clear, punchy attack that changed the sound of bass. Each cabinet is built tough with a shockproof metal grill, reinforced corners, recessed carry handles and a rugged covering.

4.5XL

Maximum impact. Four Hartke 10" drivers and a custom 5" high-frequency speaker in a tuned, ported cabinet. Handles up to 400 watts at 8 ohms. Wide frequency response of 30 Hz to 12 kHz for more coverage. Ultimate Hartke. 00140620 MSRP \$699.99 • MAP \$549.99

115XL

This tuned, duct-vented XL cabinet and 15" low-bass driver add more bottom to your sound. Power handling is 300 watts at 8 ohms with an expanded frequency response of 30Hz-2.5kHz. 00140619 MSRP \$459.99 • MAP \$349.99

210XL

Expanded Hartke sound for smaller venues. A single chamber, sealed cabinet with two 10" aluminum-cone bass drivers. Power handling is 200 watts at 8 ohms with a frequency response of 50 Hz to 5 kHz. 00140173 2 x 10" AL / 200 watts / 8 ohms MSRP \$329.99 • MAP \$249.99

410XL

The 410XL features a twin chamber, dual-ported design. Housed in the cab are four 10-inch proprietary low frequency drivers that employ large voice coils, impregnated fabric surrounds and convex dust covers, all mounted in a heavy-duty steel frame. And with 400 watts of available power handling and a frequency response of 30 Hz to 5 kHz, this cabinet ensures professional performance and remarkable tone for any style of playing. Additionally, a recessed jack plate and ergonomic metal handles make transporting this cab no sweat. With strength to endure and tone to amaze, the 410XL ensures a performance that will make mouths drop. 00140172 4 x 10" Aluminum / 400 watts / 8 ohms, Dual Chamber MSRP \$524.99 • MAP \$399.99

BASS AMPS

**HA2500 Bass Amplifier**

250 watt Bass Head, Tube and Solid State Emulation preamp, Bass and Treble contour, 10 band Graphic
Hartke

With 250 watts of available power, the HA2500 will drive your small to mid-sized bass rig with incredible clarity and punch. In addition, the HA2500 offers a number of advanced features, including front panel compression and ten bands of graphic equalization, allowing you to create a broad range tonal colors. A dedicated in/out button even allows you to preset an equalization curve. Two fully adjustable contour knobs (high pass and low pass) also provide further control for shaping your bass sound. Effects send and return jacks let you connect to professional outboard effects processors and an effect balance knob enables you to adjust the relative amount of send ("dry") versus return ("wet") effect signal being routed to the speaker outputs. Protection relay circuitry also protects connected speakers from dangerous overloading and also prevents "thumps" when powering on or off. The Hartke silver-face chassis adds a clean, stylish aesthetic to any rig and rugged construction makes the HA2500 eminently roadworthy. Plus, with advanced preamp features, this amp is as ideal for studio work as it is for live performances. All this combined with exceptional reliability makes the HA2500 a staple amplifier for the contemporary bass industry.

00140168 MSRP \$324.99 • MAP \$249.99

**HA3500 Bass Amplifier**

350 watt Bass Head, Tube and Solid State Emulation preamp, Bass and Treble contour, 10 band Graphic
Hartke

Found on stages all over the world, the Hartke 3500 bass amplifier is back in classic black. Yet, it retains all the same rock-solid performance and features as the original that have made it one of the most popular bass amplifiers of all time. The 3500's unique circuitry ensures that every nuance of your bass performance is faithfully reproduced. Featuring two Pre-Amp input knobs, allowing custom blending of tube and solid state tone, and ten-band graphic EQ, the 3500 is ideal for the player who wants plenty of power and control. But we don't stop there. A dedicated preset button allows you to set a equalization curve and two fully adjustable contour knobs provide even more shaping of your distinctive sound. A built-in compressor adds real "punch" to your bass sound, and also allows you to smooth out volume differences between notes. Rugged construction and professional features make the 3500 totally road-worthy. Two independent inputs accommodate both passive and active bass guitars. LEDs that show you the settings of the graphic equalizer in low-light environments as well as a two-color LED that continuously shows the status of the compression circuitry in response to your playing. Electronically balanced direct output provides routing signal to professional mixing consoles for both live performance and recording environments. A ground lift switch helps prevent hum or buzz from entering the signal, and a pre/post switch allows the direct signal to be derived either before or after the amp EQ section. With all the features you need for complete tonal control, along with ample power and rugged design, the 3500 will ensure complete bass euphoria no matter what kind of music you play.

00140169 MSRP \$519.99 • MAP \$399.99

**LH1000 Bass Amplifier**

Tube (12AX7) Preamp, Bass and Treble Shelving with peak Mid-Range 2x500 watt Bass Head
Hartke

The LH1000 has a classic 12AX7 Class-A tube front-end design with a solid-state output. Trick out the Treble and Bass Shelving to give its warm tone a little edge, or use the brite and limiter switches to further sculpt your sound. Its intuitive front panel design also makes adjustments on the fly a breeze. Although the LH1000 is a perfect complement to our HyDrive cabinets, it also works as a seamless accompaniment to any bass cab on the market.

Obviously a head with this kind of power is perfect for gigging musicians in any number of live applications, which is why we made sure the LH1000 is as durable as it is versatile and powerful. With a two-rackspace, metal frame chassis, steel faceplate and handles, this amp is made for the road. The LH1000's raw, reliable power is also perfect for additional shaping through your effects console or stomp box.

With all the necessary features for complete tonal control, along with ample power and rugged design, the LH1000 will ensure your bass playing receives the positive attention it deserves.

00140167 MSRP \$649.99 • MAP \$499.99

Bass Attack 2

Bass Preamp/Direct Box with Overdrive
Hartke

Hartke's Bass Attack 2 combines the classic preamp circuitry of a professional direct box with the vast tone shaping capabilities of the industry's best stompboxes, all in a rugged, zinc die cast stompbox-style design. Its Overdrive circuit provides bass players with creative control over effects ranging from subtle tube emulation to grungy fuzz, while Hartke's Its Overdrive circuit provides bass players with creative control over effects ranging from subtle tube emulation to grungy fuzz, while Hartke's high-frequency growl. With a 1/4" parallel output for dry signals, 1/4" effect output for your amp, and balanced XLR direct output, the Bass Attack 2 provides flexible output options for FOH or studio recording consoles.

Features:

- Bass preamp and direct box with overdrive
- Shape EQ circuit with Frequency and Amount control
- Countour EQ switch
- Overdrive effect with Mix wet/dry control
- XLR direct output with Pre/Post and Ground Lift switches

00140190 Medium 5 String.....	\$27.99

FT50 Chromatic Tuner

Hartke

The Hartke FT50 Chromatic Tuner makes accurately tuning guitars, basses, and other stringed, woodwind and brass instruments an easy task. The FT50 offers two modes of tuning: Auto and Manual. When using Auto mode, the tuner automatically recognizes the note to be tuned, while Manual mode allows the user to select the note to be tuned. The FT50 also features a multi-segment LED display for tuning in well-lit or dark environments. It also utilizes a built-in microphone for calibrating acoustic instruments and its 1/4-inch input and output jacks allow for the tuning of electronic instruments in or out of live performance situations. Conserving the two included AAA batteries that power the tuner, the FT50 features a convenient auto-shut off function if it is not in use for 10 minutes. Lastly, a compact design makes Hartke's FT50 Chromatic Tuner an extremely portable accessory, perfect for storing in your instrument case, gig bag or back pocket.

DIGITAL PIANOS

Coda Pro

88-Key Digital Piano with Hammer-Action Keys
Alesis

Full-sized 88-key digital pianos that are ideal for a wide variety of performing and recording requirements. The Alesis Coda and Coda Pro are full-featured 88-key digital pianos that have the versatility and rich sound you're looking for. They're the perfect solution for any situation where a full-size keyboard is needed, but where portability and affordability are also important. They are ideal for piano students, stage and studio use, schools, theaters, and houses of worship. The full range of built-in features enables you to play any piece and sound great – from Beethoven to Dave Brubeck to Pharrell Williams to Psalm #17 on page 23. Designed with simplicity and ease of use in mind, the Coda Series is elegant and subtle, packed with elements that make it easy for you to be at your creative best.

Both the Coda and Coda Pro have 20 built-in piano voices (such as Grand Piano, Electric Piano, Drawbar Organ, etc.) from the leading music software companies AIR Music Technology and SONIVOX. Plus, they have the versatility to split or layer two voices simultaneously. With 50 piano accompaniment styles to choose from (such as Slow Rock, Vienna Waltz, Jazz Pub, etc.), you can select the perfect style for any solo performance situation.

Kick 15

400-Watt Instrument Amplifier/PA
Alto Professional

Imagine a keyboard amp that's been designed with the same passion, attention to detail and enthusiasm as today's leading guitar and bass amplifiers. That's the Kick15.

The Kick15 represents a new and more powerful amplifier design for keyboardists, drummers and those needing a personal PA. You get 400 Watts of peak power in a true bi-amped design with a custom-tuned electronic crossover, an integrated four-channel mixer, and built-in Alesis effects. Just like Alto Professional's industry-leading Truesonic loudspeakers, the Kick15 is a fine-tuned performance-hungry machine. Each component has been optimized for maximum efficiency, giving you an amplifier that sounds amazing, is lightweight, and has everything you need without the filler.

STANDS • BAG • CABLES

Single X Keyboard Stand

StagePRO Series,
KB860 Model
Hamilton Stands

This single X keyboard stand with locking pin is height adjustable from 26-1/4" to 39". The convenient and lighter weight single X design allows ease of travel, and the included instructions, hardware and tool make assembly easy. Includes a spring loaded locking pin for secure positioning. Other features include cushion feet and adjustable keyboard rests, and durable black powder coated finish.

00140528 \$45.99

Double X Keyboard Stand

StagePRO Series,
KB865K Model
Hamilton Stands

This double X keyboard stand features a spring-loaded locking pin for secure positioning. It's easy to assemble with included instructions, hardware, and tool. The stand features a 5 position clutch, cushion feet, and adjustable keyboard rests. It's height adjustable from 24"-34" with a base spread of 11"-32". The durable steel construction has a weight capacity of 200 lbs.

00140529 \$63.99

X Keyboard and DJ Coffin Stand

System X Series, KB7700K Model
Hamilton Stands

This stand offers the portability and simplicity of the time-tested 'X' braced keyboard stand, but the System X Keyboard Stand maintains the same stable arm and leg width under the keyboard or DJ Coffin throughout its entire height range. An attractive center column houses large and reliable adjustment knobs for the attached arms and legs. Unfolding the stand and setting the height is fast and easy. Once set up, the performer will find there's plenty of unencumbered space for legs, feet and pedals.

00144050 \$169.99

BAGS

76-Note Keyboard Bag

LoDuca Bros Inc

Transport your 76-note portable keyboard with ease using this water-resistant nylon carrying bag. Half-inch foam padding helps protect your keyboard, along with poly web bindings, durable zippers, and double-stitched seams. There is even a front pocket with zipper for carrying music, cords, and power adaptors.

00124047 \$49.99

Keyboard Dust Cover

LoDuca Bros Inc

Protect your keyboard and its electrical contacts from dust, dirt, scratches, fingerprints, sun damage, and more with this cover. Made of durable stretch black nylon with an adjustable draw string for a perfect fit, the cover fits all 49-note, 61-note, and some 76-note keyboards.

00124044 \$14.99

CABLES

Keyboard MIDI Cable

LoDuca Bros Inc

Use this 12' cable to connect any two MIDI-compatible devices to play and edit music. Equipped with 24k gold plated connections, the cable provides virtually error-free data transfer.

00124045 \$9.99

Keyboard/Guitar Instrument Cable

LoDuca Bros Inc

Use this 12 foot cable for your connection needs. The 1/4" gold-plated phone plug reliably connects your keyboard or guitar to your amplifier or sound system. This 24k gold-plating is applied to all contacts through advanced plating technology, giving you a distortion-free sound. Includes one adaptor plug to convert from 6.55mm to 3.5mm if needed.

00124046 \$12.99

PEDALS

EX-P
Universal Expression
Controller Pedal
M-Audio

Feel the need to express yourself fully? The M-Audio®'s EX-P expression controller pedal works with all M-Audio MIDI controllers that have an expression pedal input. A built-in polarity switch insures compatibility with most other brands of controllers and keyboards. Use the EX-P to control any assignable variable MIDI controller value including volume, modulation, panning, filter sweep, and more. Durable molded construction with integral cable.

Yamaha FC3
Continuous
Sustain Pedal
Yamaha

Most digital piano sustain pedals are 2-dimensional, on or off. When used with a compatible keyboard, FC3 is 3-dimensional, offering full-damper sustain, half-damper sustain, and everything in between. FC3 simulates the precise response of an acoustic piano's sustain pedal, which translates into realistic control, increased musicality, and overall enjoyable performance experience. Recommended for S90ES, P60, P70, P120, P140, P200, P250, CME Pro UF Series.

00701194 \$69.99

Yamaha FC4 Piano Style
Sustain Pedal
Yamaha

Add expression to your keyboard with the FC4 sustain pedal. Designed to perform like an acoustic piano's sustain pedal, the FC4 has become a necessity for all keyboards. Its solid construction and 6' cable will ensure that its quality lasts a lifetime.

00750144 \$59.99

Yamaha FC7
Volume Controller
Yamaha

The FC7 is a volume controller that allows you to adjust the volume and even the effects of your instrument. One of the most durable volume foot controllers available, the FC7 withstands the highest energy-driven performances. It can also be used to control one of the many effects parameters of the STOMP Series products. Complete with 5' cable and 1/4" phone plug.

00750145 \$69.95

Yamaha FC5
Foot Switch Style Sustain Pedal
Yamaha

A compact version of the FC4, the FC5 performs similar to an acoustic piano's sustain pedal providing expression and feeling to any performance. The FC5 can also be used as a hands-free on/off switch for activating effects or even recording.

00750107 \$23.99

BENCHES

Musician's Bench
LoDuca Bros Inc

This bench is ideal for use with keyboards and other musical instruments. The padded seat measures 12" x 17," and the cross brace and metal base provide strong support. It can adjust to three different heights of 18.5," 19.5," and 20.5." The bench folds up for easy carrying and storage.

00124001 \$39.99

Deluxe Keyboard Bench
LoDuca Bros Inc

Perfect for piano lessons or playing duets, this deluxe keyboard bench can comfortably sit two on its 13" x 24" padded seat. The cross brace and metal base provide support, and the bench adjusts to three different heights. The bench also folds up for easy transport and storage.

ELECTRONIC DRUMS

DM10 Studio Kit

Professional Six-Piece Electronic Drum Set

Alesis

The DM10 Studio Kit is professional, six-piece electronic drum set with natural-feeling RealHead drum pads, low-noise DMPad Cymbals, the ground-breaking DM10 drum module, and a compact, flexible StageRack.

Features:

- DM10 high-definition drum module with 12 trigger inputs and mixer
- Load custom third-party sound sets or control computer software, all via USB
- RealHead 10" snare and four 8" toms: dual-zone drum pads with real mylar heads
- DMPad Cymbals: DMPad 12" Hi-Hat, DMPad 12" Crash, DMPad 14" Triple-Zone Ride, and DMPad 12" Cymbal
- Compact, four-post StageRack with integrated boom cymbal arms
- Premium sound library of uncompressed samples from real drums and cymbals
- Dynamic Articulation

00122032MSRP \$1199.00 • MAP \$999.00

CSD130

Compact Electronic Drum Kit

Carlsbro

With renowned CD quality and durability, a new era of electronic percussion has been born. Setting new standards are the new Digital Drums which look great and sound superb. Stylish and innovative is an understatement. CD engineers listened to drummers all around the world and combining innovative technology have created astounding electronic kits that deliver what today's drummers expect, enabling you to experience that acoustic drum feel. Check out the EDA Drum amplification, stunning performers that are perfect partners for the new CD electronic percussion experience.

00154247 MSRP \$439.99 • MAP \$329.99

EDA50

50-Watt Drum Amplifier

Carlsbro

Today's digital drum technology creates multiple tones at a very broad range of frequencies that all have to be heard simultaneously. Those distinctive sounds generated from the snare drum, tom-toms, bass drum and cymbals are all heard in the same way as the acoustic kit. Carlsbro is proud of the EDA Series as they perform like a true drum amplifier should, delivering those rich, broad tones that inspire you to play more.

00154248 MSRP \$294.99 • MAP \$219.99

Module Mount

Electronic Percussion Mounting Plate

Alesis

Mounting plate for electronic percussion modules. Just add a multiclamp for stands or a rack clamp for racks, and you can mount your ControlPad, PerformancePad, or TriggerI/O to any drum hardware. Integrate your electronics into your acoustic setup, or expand your electronic kit.

00153097 \$19.99

SamplePad

Multi-Pad Sample Instrument

Alesis

The SamplePad is a compact four-pad instrument that gives you access to a limitless palette of sounds. With 25 percussion and electronic drum sounds built in, and the ability to load any sounds you like using a standard SD card, the SamplePad put the sounds you need on its great-feeling pads. Add an external trigger input for a trigger or switch pedal and the ability to mount on virtually any snare stand or rack, and the SamplePad makes expanding your setup easy and convenient.

00122036MSRP \$299.00 • MAP \$199.00

SR-16

Classic Drum Machine

Alesis

As one of the most popular drum machines ever made, the SR-16™ has been used by everyone from songwriters to live performers to remix engineers as their drum machine of choice. The reason is simple: it features a great selection of 233 realistic, natural drum sounds, offered both in dry form and sampled with our incomparable digital reverbs. Our exclusive Dynamic Articulation™ feature enables a drum sound to change its tonal content as it's played harder for truly realistic performances.

00122035MSRP \$269.00 • MAP \$149.00

SR-18

Portable Drum Machine with Effects

Alesis

Alesis knows drums. Our SR16 has dominated the drum machine market since 1990 and continues to be in demand today. The next-generation SR18 is loaded with cutting-edge drumsets, electronic drums, one-shot hits, and modern percussion sounds for any cutting-edge musician's performances and compositions.

00122034MSRP \$399.00 • MAP \$259.00

E-Practice Pad

Electronic Drum Practice Pad

Alesis

The Alesis E-Practice Pad is the fun way to learn and practice the drums. This electronic drum pad has 65 different drum sounds, a built-in metronome with six different sounds, and more than 50 practice games and exercises. The E-Practice Pad is way more fun than you can have with a standard practice pad. It feels great, it sounds great, and it gives you a full range of dynamics from the lightest touches through the loudest accents. The E-Practice Pad runs on batteries for portability or on wall power with the included adapter. You can add bass drum and hi-hat pedals using Alesis Expansion Pedals or any other footswitch.

iRig® Pro DUO

2-Channel Mobile Audio/MIDI Interface for iOS, Android and Mac/PC

IK Multimedia

iRig PRO DUO is an universal, mobile 2 channels Audio and MIDI interface that packs in an ultra-compact and highly portable enclosure, all the necessary connections for making or recording high-quality music on the go with iPhone, iPad or Mac/PC. iRig PRO DUO comes with 2 analog combo inputs for connecting microphones or instruments, MIDI I/O, headphone output and stereo balanced line outputs.

Inputs can accept microphone (both dynamic and condenser), line or high-impedance (guitar, bass, etc.) signals and can be used on the field with condenser microphones that need Phantom power. When you use iRig PRO DUO on the go with your iOS device you'll need 2 AA batteries; as an alternative the DC In port allows you to connect iRig DUO to the external power supply that will supply all the needed energy to DUO. Instead, when using iRig DUO with Mac or PC, all needed power is supplied by the computer.

00153169 MSRP/MAP \$199.99

High Quality Recording and Playback for Your Mac or PC

Griffin Technology

Use iMic as an external sound card for your computer. iMic adds audio-in and -out capability through a computer's USB port. iMic's ease of use and near-universal compatibility make it the perfect solution for connecting microphones, musical instruments, turntables, tape decks – almost anything audio – to your computer. iMic is the all-you-need solution for capturing all kinds of sound, or for ripping your vinyl and tape music collection so you can enjoy it on iTunes and iPod (or on MP3 player, or burned to audio disc).

00123886 USB Audio Interface MSRP/MAP \$39.99

MIDIConnect

MIDI Interface for iOS Devices

Griffin Technology

With all the great musical apps and applications for your iPod, iPhone, and iPad, you need a way to directly connect your iOS device to industry-standard MIDI devices. You need MIDIConnect from Griffin. Plug the 30-pin dock connector into your iOS device; plug your MIDI stuff into MIDIConnect's 5-pin DIN in and out connectors, and you're set to perform, record, use your touch-screen apps as MIDI controllers, or control your apps from your MIDI devices. Now start making music.

00123888 MSRP/MAP \$39.99

StudioConnect with Lightning

Audio and MIDI + Charging Dock for iPad 4, iPad Mini

Griffin Technology

StudioConnect gives your iPad: audio in and out, MIDI in and out, and a stereo headphone jack with its own volume control so you can monitor what's going in (or out). Digital music-making has never been easier. Owning an iPad makes it easier still, taking it to a whole new level of versatility and portability. Whether you're a serious musician, a confirmed hobbyist, or a budding composer, you know about MIDI (Musical Instrument Digital Interface). Unlike audio recording, MIDI lets you capture the digital instructions for a musical performance, and then play them back later on a MIDI instrument. In one compact device for your iPad, StudioConnect combines both the audio and the MIDI hemispheres of the audio world. Audio In and Out Plug your guitar into StudioConnect's mono 1/4" instrument jack and play directly into GarageBand or other apps. Or plug a recorder or mixer into StudioConnect's stereo 3.5 mm input jack and connect the whole band to your iPad. Left- and right-channel RCA plugs give you line-level stereo audio-out. For your headphone there's a separate front-panel 3.5 mm stereo jack with its own volume knob. MIDI In and Out For your MIDI controller or drum pad, StudioConnect's rear panel gives you a standard 5-pin DIN MIDI-in port. For MIDI Out, there's another 5-pin DIN MIDI connector on StudioConnect's rear panel. Connect it to your sequencer, patch bay, or other MIDI gear. This lets you launch your favorite MIDI controller app and use your iPad as a musical instrument. StudioConnect lets you connect everything for music-making to your iPad, and connect your iPad to everything musical. And as if that weren't enough, it even charges your iPad while you play.

iRig HD
High-Quality Digital Guitar Interface for iOS Devices
IK Multimedia

No matter where you are, iRig HD delivers pure high-quality digital input signal. It features a 24-bit A/D ultra-transparent converter that accurately preserves the nuances of your instrument. This means you can rock out on your iPhone, iPad, iPad mini, or Mac laptop or desktop computer, with studio quality sound. iRig HD features a standard 1/4" Hi-Z instrument input jack, and connects to your iOS device with the included 30-pin cable or the included Lightning cable.

Other features include:

- Preamp gain control
- High-quality low-noise, high-definition preamp
- Powered by the iOS device or USB
- Also works with line level signals from synthesizers, keyboards and mixers
- Ultra-compact and lightweight
- Comes with AmpliTube FREE apps (free download on App Store)

00120175.....MSRP/MAP \$99.99

iRig™ Pro
Universal Audio/MIDI Interface for iOS Devices and Macs
IK Multimedia

iRig PRO is the first full-featured compact audio and MIDI interface you can use with your XLR microphones, your guitar and bass, your keyboard or other line-level source and your MIDI controllers. It features an XLR/1/4" combo jack for connecting microphones and instruments (accepts XLR and 1/4" TS cables), and features the same MIDI connectivity and controls found in our iRig MIDI interface.

Now when you're on the go, you can record vocals, harmonies, acoustic instruments, electric guitar/bass, keyboards and more without changing your interface and disrupting your creative flow. You will find iRig PRO to be the most versatile iPhone and iPad accessory in your gig bag. And when you get back to your Mac, plug iRig PRO into your USB port and keep jamming away on your laptop or desktop.

00123352.....MSRP/MAP \$149.99

iRig 2
Digital Guitar Interface for iOS
IK Multimedia

With over 1 million iRig interfaces sold and over 20 million apps downloaded, iRig 2 represents the next stage in the mobile music revolution for iPhone, iPad, iPod touch, Mac, PC and Android. iRig 2 sports a new 1/4" output jack for seamless live performance integration. An added switch allows dual-mode operation: FX lets musicians process and send their signal to an external amplifier without an adaptor. THRU sends a clean signal, letting musicians use their mobile device as a tuner, recorder or other utility. iRig 2's new input gain control pot can be adjusted to provide optimum sound quality when using different instruments and mobile devices. iRig 2 comes with AmpliTube, a powerful multi-effects processor with an integrated music player, a dedicated recorder, a tuner and a vast collection of ultra-realistic digital models of some of the most famous amplifiers and stompbox effects of all time. Now everyone can take their playing to the next level with iRig 2, the ultimate interface for mobile musicians.

GUITAR INTERFACE

iRig HD-A

Digital Guitar Interface for Android
IK Multimedia

The iRig HD-A is the first high-quality 24-bit audio interface that fits in your pocket and connects directly to your Android device and PC. It features superior digital audio quality and offers a premium 24-bit A/D converter for a crystal clear digital signal that's free from noise and crosstalk. Plus, its ultra-low-draw power consumption circuitry eliminates the need for batteries – it's powered by your mobile device or computer. An onboard gain control allows you to dial in the perfect signal level for your instrument and apps, and a multi-color LED lets you know what's going on with your interface and signal. The iRig HD-A is compatible with AmpliTube for Android as well as any other real-time processing apps which support USB/OTG audio input. Use the iRig HD-A anywhere you play guitar – on the go, in the studio or on your PC at home.

00142410 MSRP/MAP \$99.99

iRig HD-UA

Digital Guitar Interface for Android
IK Multimedia

iRig UA is the first digital interface and FX processor that lets musicians enjoy high-quality recording and zero latency processing on any Android device with host mode. iRig UA allows plug-and-play zero latency processing with IK's popular AmpliTube multi-effects processor. iRig UA brings high-definition recording to Android thanks to its 24-bit converter, 44.1/48kHz sampling rate and crystal-clear, low-noise preamp. Its built-in DSP externally handles the processing for the included full version of AmpliTube UA, which provides a generous virtual collection of some of the most coveted amps and stompboxes of all time. An included 1/8" analog aux input allows musicians to play along with songs on their device or from an external sound source. Built for portability, iRig UA sports a compact enclosure and built-in rechargeable Lithium-ion battery. With iRig UA, Android users of all kinds can enjoy high-definition digital recording and zero latency processing while on the go.

00142931 MSRP/MAP \$99.00

iRig BlueBoard

Bluetooth MIDI Pedal Board
IK Multimedia

iRig BlueBoard is the first wireless MIDI pedal-board for iOS and Mac that allows you to control your music apps and more from the floor.

Now control parameters of your MIDI-compatible apps like AmpliTube wirelessly from the floor. Switch between presets, change patches, turn effects on and off and control effects like volume wah pedals all from the stage floor without worrying about tripping over wires. Setup is as simple as turning the iRig BlueBoard on and telling it what you want to control.

iRig BlueBoard features four backlit soft-touch pads housed in a sturdy, stage-worthy chassis, two TRS expansion jacks for connecting additional MIDI controllers like expression pedals, and is powered by four standard AAA batteries.

00119919 MSRP/MAP \$99.99

iRig Acoustic

Acoustic Microphone/Interface for iPhone, iPod touch, iPad

IK Multimedia

iRig Acoustic is a revolutionary new microphone solution that easily connect your acoustic guitar to an iPhone, iPad Android device or Mac with stunningly professional sound quality. The size of a large plectrum, iRig Acoustic easily clips inside the sound hole of any acoustic guitar, yet delivers sound quality that rivals complex, expensive recording setups for a fraction of the price. iRig Acoustic captures the full range and timbre of your instrument in the most life-like manner. Unlike magnetic or piezo solutions, iRig Acoustic doesn't color the sound of your instrument, and offers extended frequency response and low-noise circuitry throughout. The output of iRig Acoustic connects directly to your iPhone, iPad, Android device, or Mac, and offers a 1/8" headphone output for monitoring. No batteries or power is required, making it an incredibly simple, compact way to perform or record anywhere. iRig Acoustic is designed to connect to IK's new AmpliTube Acoustic app, packed with tons of killer effects and features designed for acoustic guitarists. It's also fully compliant with dozens of other top apps, from Apple's GarageBand to Samsung's SoundCamp. With a revolutionary design, aggressive price point and killer sound quality, iRig Acoustic lets acoustic players in on the mobile music revolution. Features include:

- Ultra-compact clip-on microphone for acoustic guitar
- Connects directly to iOS, Android and Mac
- Extended frequency response (15-20kHz)
- Fits nearly any acoustic instrument
- Integrated headphone output
- Includes travel case

00153171.....MSRP/MAP \$49.99

iRig Stomp

IK Multimedia

This is the first stompbox guitar interface for iPhone/iPod touch/iPad users! Guitar and bass players can now integrate their favorite iOS signal processing apps into their existing live pedalboard setup. The compact, aluminum-cast enclosure integrates easily into any traditional pedalboard. The iRig Stomp can be used inline with other effects pedals or directly connected to amplifiers or PA systems. Purchase of this package also includes a FREE AmpliTube for iPhone or iPad download on the iTunes App Store.

iRig Mic HD
IK Multimedia

iRig Mic HD is the digital sequel to iRig Mic, the first and most popular handheld mic for iOS devices. Featuring 24-bit output, and connectivity with iOS, Android (with OGT adapter), and Mac/PC, iRig Mic offers unmatched quality and versatility. Now you can own a studio-quality mic that's compatible with all your technology, from smartphones and tablets to laptop and desktop computers. iRig Mic HD is the ideal mic solution for a wide range of applications including recording speech, vocals, acoustic instruments, guitar amps, and more. Its comfortable handheld design is perfect for interviewers and broadcasters, presenters, singers and musicians. iRig Mic HD also fits in a standard mic stand, and comes with a stand adapter.

00125682 MSRP/MAP \$129.99

iRig Mic
IK Multimedia

iRig Mic is the first handheld quality condenser microphone for iPhone, iPod touch and iPad – designed for all vocal and mobile sound needs. It's ideal for the singer, vocalist and songwriter on the move, but also perfect for recording speeches, instruments, performances or any other sound sources in the studio, on stage or in the field.

The iRig Mic features a highly unidirectional electret-condenser microphone capsule that provides quality recording, in both close mic and long distance mic conditions, and real-time monitoring with its dual mini-jack connector.

A three-level gain switch makes it instantly adjustable for any sound pressure condition - from soft speaking to loud playing. Its familiar form is perfect for handheld performance, plus it can be mounted on any mic stand leaving the iOS device free for app operation. Its rugged metal body is road-ready for the mobile musician.

iRig Mic also comes with VocaLive free, IK's new real time effects processor app suite for the singer and vocalist, iRig Recorder, the new IK free audio recording app and AmpliTube Free, the best selling app for guitar players and songwriters. iRig Mic also works with a multitude of other vocal and audio recording or processing apps for the iOS platform.

00750263 MSRP/MAP \$59.99

iRig Mic HD-A
IK Multimedia

iRig Mic HD-A is the first affordable high-quality handheld digital condenser microphone for Android. Now singers, musicians, journalists, videographers, podcasters and more can enjoy high definition digital audio while on the go. But versatility is just one of iRig Mic HD-A's many attributes. iRig Mic HD-A sports a 24-bit audiophile-grade A/D converter, a 44.1/48 kHz sampling rate and a low-noise/high-definition pre-amp.

You can count on iRig Mic HD-A to give you high quality results, anytime and anywhere. It can handle the most demanding professional needs in the field or in the studio and is comparable in quality to what you'd get in a mic that costs three times as much. iRig Mic HD-A features a sturdy metal body construction and an ergonomic handheld form factor that allows for hours of comfortable recording and performance. It can also be mounted on a standard mic stand using the included clip.

00146135 MSRP/MAP \$129.99

iRig Mic Lav

Lavalier Microphone for Smartphones and Tablets with Foam Pop Shield

IK Multimedia

The iRig Mic Lav is the audio solution for film, television or broadcasting scenarios. This lavalier mic provides convenient, crisp, high-quality audio, right into your smartphone or tablet. It's equipped with an omnidirectional condenser microphone to pick up sound from all directions, and the foam pop filter eliminates vocal plosives and wind noises. Any app that accepts input from a headset connection is compatible with the iRig Mic Lav. More, thanks to the built-in switch, is it possible to connect up to two iRig Mic Lav to the same device or an earphone. Just connect the 1/8" TRRS jack to your device (both iOS and Android), open your recording app and you're ready to capture quality audio. The in-line connector hosts a 1/8" TRRS and a dedicated switch that allows you to connect your headphones for monitoring your recording or a second iRig Mic Lav. Features include:

- Professional Lavalier Mic with TRRS Jack
- High-quality omni-directional condenser capsule
- Includes foam pop shield and durable mountable clip
- Compatible with audio apps that accept audio from headset input
- Compatible with Apple iOS/Android devices
- Allows you to connect both headphones and a second iRig Mic Lav

00154951 \$49.99

iRig™ Mic Cast

IK Multimedia

iRig™ Mic Cast is a quality condenser microphone, specifically designed to record vocal speech, in a compact enclosure with a stylish form factor, that plugs directly into any iPhone, iPod Touch, or iPad. Now anybody can make professional audio recordings for podcasts and interviews – even live broadcasts – anywhere. The iRig Mic Cast plugs directly into the 1/8-inch mini jack on the iOS device, and it features a clip that holds the mic in place on any iOS device. When used with iPhones or iPod Touches, the on-the-go user can hold it with just one hand. iRig Mic Cast also comes with a handy detachable tilted tabletop stand for easy desktop or podium operation. The microphone itself has an adjustable tilt angle for optimum positioning. It also has a cardioid (unidirectional) polar pattern and a very effective pop filter for close miking of the human voice. The mic has a continuous gain control to help the user easily achieve the best signal-to-noise ratio and a tone control to adjust the color of the recording. The integrated built-in headphone output allows for real time monitoring.

00750483.....MSRP/MAP \$39.99

iRig Mic Field

IK Multimedia

Introducing iRig Mic Field, the pocket-sized digital stereo microphone for Apple's range of Lightning-compatible iPhone, iPad and iPod touch devices. Designed to be used for both video and audio recordings, it features a patent-pending rotatable enclosure that you can easily position for the best stereo image in both landscape and portrait orientations. Now you can capture pristine sound no matter whether you're recording a rehearsal or a concert, capturing audio for videography, acquiring audio for a music project, recording instruments while on the move, saving a lecture or speech or creating your next viral video hit – iRig Mic Field lets you create accurate and faithful field recordings in any imaginable context.

Features include

- Digital stereo field-recording mic that connects to iOS devices via the Lightning port
- Lightweight and pocketable design
- Rotates 90 degrees for optimal audio/video positioning and locks in place with comfortable to use controls
- Great for music recording, video shoots or any field recording application
- Integrated headphone output for immediate real-time audio monitoring
- Gain control and multicolor LED indicator for easy and accurate level adjustment
- 2 high-quality cardioid electret condenser capsule
- 24-bit, 44.1-48 kHz A/D conversion
- Elegant design with black finish

00142409 MSRP/MAP \$99.99

iRig Mic Studio

Digital Interface for iOS

IK Multimedia

iRig Mic Studio is the latest addition to IK's high-quality digital microphone line. It packs a 1" diameter condenser capsule into an ultra-compact enclosure that can be used with iPhone, iPad, iPod touch, Mac, PC and Android devices. Roughly the same length as an iPhone and with a diameter of just 45mm, iRig Mic Studio is less than half the size of competing large-diaphragm microphones. iRig Mic Studio's large-diaphragm cardioid electret condenser capsule, 133dB SPL rating, 24-bit 44.1/48kHz converter, high-quality low-noise preamp, gain control knob, multi-color LED level indicator, sturdy tripod base and other professional features ensure superior sound for every session. iRig Mic Studio also includes powerful apps and software: experience superior or vocal processing with Vocalive, unparalleled mobile editing and recording with iRig Recorder and a vast collection of amps and stompbox effects with AmpliTube. With iRig Mic Studio, musicians, vocalists, home producers and more have a studio-quality large-diaphragm microphone that fits in the palm of their hand.

iRig Pre for iOS Devices

The universal microphone interface for iPhone/iPod touch/iPad

IK Multimedia

iRig PRE is the ultimate solution for connecting any type of microphone – from regular stage microphones to expensive studio models – to any iPhone, iPod touch or iPad providing access to the widest range of recording applications. iRig PRE is a high-quality microphone preamp designed specifically for iOS devices that allows musicians to use their favorite high-quality stage or studio mics with their iOS device. The microphone plugs directly into the standard XLR connector of iRig PRE with no need for extra cables or adapters. Its adjustable thumbwheel gain control allows the user to easily make precise level settings. The onboard 9V battery provides the necessary voltage for phantom-powered studio condenser microphones for at least for 15 hours of continuous use.

00750493 MSRP/MAP \$39.99

MicConnect

Microphone Interface for iPhone, iPad and iPod Touch

Griffin Technology

Use your own microphone to record music on your iPhone, iPad and iPod touch. Whether you're practicing in your room, recording with your band, or just jotting down song ideas on the road, MicConnect makes it easy to record vocals on your iPhone, iPad, and iPod Touch. Once your mic has been connected to the XLR input on MicConnect, plug the 1/8" (3.5 mm) audio cable into your device's headphone jack and launch GarageBand or other compatible app to get rocking.

00123890 MSRP/MAP \$39.99

MiC 96k

Professional Microphone for GarageBand on iPad, iPhone and Mac

Apogee

Introduced in 2011, the original MiC became the mobile microphone of choice for both aspiring and professional artists looking for that big-studio microphone sound. Redesigned for the future, the new Apogee MiC 96k delivers unsurpassed recording quality. MiC 96k is optimized for the latest Apple iOS devices, including the ability to record in pristine fidelity – up to 24-bit/96 kHz.

MiC 96k combines a microphone, microphone preamp and an A/D converter into one compact device. Apogee has carefully designed each part of MiC 96k to deliver the lowest noise and highest quality signal possible for a digital microphone. And it all fits in your pocket.

Apogee MiC 96k is a digital microphone designed to deliver studio quality recording you can take anywhere. Use MiC 96k to record vocals, spoken word, acoustic guitar, piano, drums... anything! Inspired by the most revered and classic microphone in history, MiC 96k is designed to sound amazing and be easy to use with your iPhone, iPad, iPod Touch or Mac.

00140808MSRP/MAP \$229.00

iRig PowerBridge
Power Source for iRig Accessories
IK Multimedia

iRig PowerBridge is a streamlined continuous charging system for iPhone, iPad and iPod touch that lets musicians practice, perform and record with their favorite digital iRig accessories for as long as they want. iRig PowerBridge comes with a power supply that connects to the power grid on one end and a connector that plugs into the device on the other end. Its female Mini-Din connector lets musicians plug any digital iRig accessory into iRig PowerBridge. Through this connection, PowerBridge allows continuous charging of an iOS device and pass-thru of audio and MIDI information from an iRig accessory. iRig PowerBridge comes in two versions with either a Lightning or 30-pin cable. Both also include a power adaptor and Mini-Din to Mini-Din and Mini-Din to Micro-USB cables that allow continuous charging with the full iRig range during use. iRig PowerBridge also features a status light that provides at-a-glance visual feedback during charging. With iRig PowerBridge, now musicians can use their iOS device and enjoy IK's digital iRig accessories and sound processing apps for as long as they want.

Groove
Portable USB DAC and
Headphone Amp for Mac and PC
Apogee

Apogee Groove is the best portable USB DAC and headphone amp for listening to music on your Mac or PC. Groove takes the same high quality audio technology found in the world's most prestigious recording studios and delivers it to your laptop. Connect Groove directly to your computer and connect your headphones or powered speakers directly to Groove.

For 30 years, Apogee has been an innovator and industry leader in digital audio recording. Now Groove makes Apogee sound quality available in a simple take-anywhere device dedicated to delivering the ultimate listening experience. Unlock the full potential of your high-res audio files, rediscover your iTunes library and stream Spotify, Pandora or your favorite music services with incredible clarity and detail.

Groove's Constant Current Drive output stage is a truly revolutionary approach to dealing with the wide impedance variations of headphones available on the market today. With Constant Current Drive technology, Groove's output stage's voltage is dynamically "molded" to the impedance variations of the connected headphones, thereby smoothing out frequency response non-linearity that occurs with traditional headphone outputs.

iRig™ Mix
IK Multimedia

iRig™ Mix is an ultra compact portable DJ mixer tailored for use the iPhone, iPod Touch, and iPad. You can easily mix two stereo audio signals and crossfade between them. An input trim stage lets you amplify any source, and the 2-band EQ gives you flexible tonal control over each input. A microphone can be connected for DJs, rappers or announcers, and any electric instrument such as a guitar or bass can be connected. All inputs can be internally compvined in the iRig Mix. A CUE system is also included which enables the DJ to preview individual channels at the headphone output to prepare the next song (sync the tempo, adjust the EQ, match the volume, etc.) to ensure smooth mixes. iRig Mix comes with IK's free VDJ application for iPhone and iPad and is the perfect companion for all the other popular DJ-related apps in the App Store. iRig Mix can also function as an audio interface for AmpliTube and VocaLive, for mixing small bands and even karaoke applications.

- 00631772 MSRP \$99.99 • MAP \$79.99

iRig PADS

IK Multimedia

iRig PADS is a portable MIDI pad controller iPhone/iPod touch/iPad, and Mac/PC that makes it easy to play and control virtual drum, percussion and electronic instruments, anytime and anywhere. Turn your mobile device or laptop into the ultimate groove production station for making beats and electronic tracks. Sixteen pads, in a standard 4x4 configuration, feature velocity sensitivity and provide a superior feel to onscreen tapping. Each pad lights up in three different colors to react to your playing or in response to messages from your apps. iRig PADS is also equipped with two assignable knobs, a pushbutton rotary encoder, two buttons and a slider, all of which are programmable.

iRig PADS is MIDI class-compliant, meaning it works with hundreds of music creation apps on iOS, Mac and PC, with no drivers to install. It comes pre-loaded with a range of presets for the most popular apps, and users can create and save their own settings as well. Lightning, 30-pin and USB connection cables are all included, as is the SampleTank FREE app for iOS and SampleTank 2L software for Mac/PC.

DJ Connect

for iOS Devices

Griffin Technology

Control your pre-cue mix with dual separate stereo output, volume control and compatibility with devices currently running Algoriddim's award-winning djay and vjay apps on iPhone, iPad, iPad mini, iPod touch and your Mac. Much like the best-selling DJ Cable, DJ Connect will allow you to pre-cue your music and beat-mix, with the added benefits of volume control, dual separate stereo outputs and 3 detachable cables for use with both iOS devices with (Lightning connectors) and 30-pin dock connectors, as well as Mac computers with USB ports. Simply plug your headphones in the yellow headphone port in the front and connect your external speakers to the RCA line level stereo outputs on the back.

00131401 MSRP/MAP \$99.99

PowerMate

User-Programmable USB
Multimedia Controller & Input Device

Griffin Technology

The quintessential control knob for all USB computers, PowerMate spins like a knob, and clicks like a mouse, but it's so much more! Use PowerMate to speedily shuttle through large multimedia files, spreadsheets, word processor documents. Connect multiple PowerMates – as many as 127 – and assign an independent function to each of them! You can even control the behavior of the pulsing LED in PowerMate's base to give you system status at a glance.

00123893 MSRP/MAP \$44.99

PowerMate Bluetooth® LE

Wireless Programmable Controller

Griffin Technology

Wirelessly control everything, from volume to keyboard shortcuts. PowerMate Bluetooth is the wireless programmable knob that replaces extra keystrokes with a simple twist or a click. It spins like a knob. It clicks like a mouse. And it's programmable, to replace repetitive keyboard commands. It looks like a great big, shiny, glowing volume knob. And, sure, you can use it for that, right out of the box. But it's capable of so much more. PowerMate is configurable, so it can control practically any Mac application out there. It comes preset for volume and track control, but through the included PowerMate software you can add your own actions for the software you use every day.

00131402 MSRP/MAP \$69.99

iO Dock II

Pro Audio Dock for iPad

Alesis

The iO Dock is the first device that enables anyone with an iPad to create, produce, and perform music with virtually any pro audio gear or instruments. The iO Dock is a universal docking station specifically designed for the iPad, and it gives musicians, recording engineers, and music producers the connectivity they need to create and perform with iPad. Connect all your pro audio gear to virtually any app in the App Store with the iO Dock.

TABLET HOLDERS

iKlip 2
 Universal iPad Holder for Mic Stands
IK Multimedia

We've taken the hugely successful iKlip Microphone Stand Adapter and made it even better and easier to use. Now take your favorite iPad music apps to the stage for live performance with solid, dependable secure support and multi-angle global positioning. Plus, the iKlip 2 can now be attached to beefier mic stand poles – up to 1.2" diameter.

00118891 MSRP/MAP \$39.99

IK Multimedia. Musicians First.

iKlip Xpand
 Mic Stand Mount for Tablets
IK Multimedia

iKlip Xpand is a new microphone stand mount for tablets. Its expandable design fits the iPad (from mini to Air, all generations), Samsung Tab, Galaxy Nexus, Kindle Fire, and most other 7" to 12/1" tablets. With iKlip Xpand, musicians and performers alike can bring their favorite apps on stage, so it's perfect for lyrics, sheet music, karaoke, effects processors for guitar or vocals, virtual instruments and synths, DJ and other groove-making apps. The expandable arms allow for the quick and easy installation of a tablet into iKlip Xpand, even with a case, and its ball-joint design lets you easily adjust the viewing angle, rotate freely between portrait and landscape orientation. It fits poles up to 1.2" (30.5 mm) in diameter, and keeps all buttons and ports freely accessible.

00131249 MSRP/MAP \$49.99

iKlip™ Studio
IK Multimedia

iKlip™ Studio is an adjustable desktop stand for iPad, designed to hold your device steady while using a variety of music, gaming, and other apps. With an adjustable angle and no-slip rubber base, even heavy-handed users can no use multi-touch gestures without worrying about the device slipping or having to hold the device. For musicians, iKlip Studio allows you to use your iPad as a seamless part of your existing studio. Keep your device positioned at the ready for use as a control surface, instrument, display, and more, without worrying about it sliding mid-performance. Its foldable design lets it slip into your existing iPad or laptop bag for the use on the go. The iKlip Studio is made of rugged thermoplastic for reliability.

00750484 MSRP/MAP \$29.99

iKlip Studio for iPad Mini
IK Multimedia

Designed specifically for musicians, iKlip Studio holds the iPad Mini firmly on studio desks or other surfaces. You can tap away on synths, beat-pads, and other music apps on iPad's multitouch screen with no risk of the device moving or sliding. iKlip Studio's flexible orientation allows it to tilt from a low-profile angle – ideal for use with apps like mixers, controllers or synthesizers – to near-vertical positioning for use as a reader for scores or tablature, or to place the iPad behind music keyboard controllers.

00119732 MSRP/MAP \$29.99

iKlip Studio for Kindle

IK Multimedia

Designed specifically for musicians, iKlip Studio holds the Kindle firmly on studio desks or other surfaces. iKlip Studio for Kindle is made of lightweight, shock-resistant thermoplastic that is durable and solid, and reliably supports your tablet. Rubber foot-pads grip the desktop and prevent unwanted sliding.

WIRELESS PAGE TURNERS

PED Hands-Free Controller

for Bluetooth-Enabled Tablets and Computers

AirTurn

The AirTurn PED is perfect for users who need to keep both hands free while reading or controlling applications on their Bluetooth-equipped Mac, PC, iPad, or Android Tablet. The PED is very easy to use, transport and connect to your Bluetooth Smart Ready device. For hands-free reading, tap on the right foot switch will turn pages forwards, and a tap on the left foot switch will turn pages backwards.

The AirTurn PED may be used in a wide range of environments, such as music reading, scrolling lyrics or guitar tabs, teleprompting, slide presentations, instrument effects or media control, and many more. Configurations are also available for assistive technologies and common desktop document or presentation applications.

00144641 MSRP/MAP \$69.00

DUO 2-Pedal Bluetooth Page Turner

AirTurn

Step ahead with the DUO Wireless Pedal Control for tablets and computers. For hands-free page turns and app controls so subtle, no one will notice that your hands never touched the screen. No messy cables to clutter your setup. The BT-106 transceiver connects wirelessly to tablets or computers up to 60 feet away using secure Bluetooth technology. And its internal rechargeable battery keeps you going for up to 100 hours and can be charged thousands of times. The dual ATFS-2 pedals connected to the BT-106 are designed to be completely silent. Their "mechanism-free" design means no clicks, no squeaks, and no distractions.

00148433 MSRP /MAP \$99.00

AT-104 with Two ATFS-2 Silent Pedals

AirTurn

This professional package includes the AirTurn AT-104 transmitter and USB receiver, 2 AirTurn ATFS2 Foot Pedals, Pedal Board, 2 patch cables, and MusicReader PDF 4 Software for Mac and PC. 2 AA batteries included.

00750482 MSRP/MAP \$139.00

The Quad

4-Pedal Wireless Page Turner

AirTurn

Turn pages, navigate setlists, transpose keys, toggle backing tracks, trigger metronomes, and even control guitar/bass/amp effects. This AirTurn QUAD 4-pedal board comes with the AirTurn Bluetooth transceiver, 4 ATFS-2 black silent pedals that connect to the transceiver, the AirTurn non-slip pedal board, and a USB recharging cable. The Bluetooth transceiver may be easily removed for use with other applications.

The transceiver features an internal lithium battery that can be used for up to 100 hours on standby. It connects wirelessly to your tablet or MAC/PC computer via Bluetooth and may be easily. The ATFS-2 black pedals are constructed of nearly indestructible polycarbonate plastic and feature a proprietary "mechanism-free" switch system for perfectly silent operation.

00142937 MSRP/MAP \$149.00

Stomp Kit Controller with Two Boss FS-5U Foot Switches

AirTurn

This AirTurn dual foot switch kit comes with the AirTurn BT-105 Bluetooth page turning transmitter, Two Boss FS-5U foot switches, two quarter to eighth inch connector cables, mini USB charging cable, and operating manual.

The BT-105 features an internal lithium polymer battery that can be used for up to 100 hours on standby, and connects wirelessly to your iPad or Mac/PC computer via Bluetooth. The Boss FS-5U foot switches feature heavy-duty extruded metal cases with a unique tongue and groove locking design for double or single foot switch use.

Use both Boss FS-5U foot switches with the BT-105 for forwards and backwards page turns, or just connect one foot switch for single directional page turns in a discreet profile for use in performance.

Includes:

- BT-105 Bluetooth page turning transmitter
- two Boss FS-5U foot switches
- Two 1/4 to 1/8 inch connector cables
- mini USB charging cable
- operating manual

TAP Bluetooth Page Turner

AirTurn

So what if you're a drummer and your hands and feet are busy? The AirTurn TAP provides a piezo interface that takes a tap from a finger or drum stick to trigger an event. Using all the same features as the BT-106 series transceiver, the TAP brings easy-to-use page turning and events to drummers and other active percussion players. Comes with all mounting hardware to mount on any post up to 1.5 inches in diameter. Position can be set at any angle and height.

AirTurn continues to grow their Pro-Sumer line of wireless controllers with the TAP. Turn the pages of your digital documents wirelessly, with the AirTurn TAP Bluetooth controller! The TAP connects via Bluetooth to your Mac, PC, or tablet computer (Android or iOS). Use it to manage your sheet music while you're drumming or playing percussion. Simply give it light tap from a finger or drum stick, and you're on to the next page! TAP can even control audio playback. You are only limited by the hundreds of apps that work with the Pro-Sumer line of AirTurn wireless controllers.

Capacitive Stylus

Griffin Technology

More control as you write, sketch, tap and drag on your iPad, iPhone or any capacitive touchscreen. Griffin's Stylus is a balanced pointer with a soft rubber tip, custom designed to mimic your finger. Unlike your finger, this tip keeps your touchscreen free of fingerprints and smudges as it gives increased control over any touchscreen operation. It's perfect for sketching, drawing, photography or any use where you need a finer degree of control than your finger. Our stylus includes an integrated clip for your pocket or pencil loop.

PROTECTIVE CASES

AirStrap360 for iPad AIR/iPad Mini

Griffin Technology

AirStrap 360 is the case with the built-in hand strap that makes holding and using your iPad Air or iPad Mini more secure and more comfortable, even one-handed. AirStrap 360 surrounds your iPad, protecting its edges without getting in the way of controls or ports. The frame that grips your iPad rotates in 30-degree intervals, to give you the best viewing angle with the most natural position of your hand. Slip your hand under the strap on the back to experience the real beauty of AirStrap 360. It hugs your hand, gently but firmly, making your iPad easy to hold and leaving your other hand free to use your Multi-Touch display. Whether you're reading in a coffee shop, or checking out the headlines as you ride the 6:45 in to work, AirStrap 360 makes it easier, safer, and more fun to use your iPad Air or iPad Mini.

Survivor for iPhone

Griffin Technology

Simply put, the Griffin Extreme Duty Case is the most protective case we've ever built. Tested to meet or exceed US Department of Defense Standard 810F and UK Department of Defense Standard 00-35, Griffin's Survivor extreme-duty case is designed from the inside out to protect your iPhone from extreme conditions – dirt, sand, rain, shock, vibration and a host of other environmental factors. Survivor is built on a shatter-resistant polycarbonate frame clad in rugged, shock absorbing silicone. A built-in screen protector seals your Multi-Touch display from the outside environment, with hinged plugs that seal the dock connector, headphone port, hold switch and volume controls. A detachable heavy-duty clip secures your iPhone to a belt or bag strap.

Survivor Slim for iPad Air2

Griffin Technology

Survivor Slim for iPad Air 2 is the perfect blend of slim, multi-layer design and mil-spec rugged protection. Survivor Slim protects your iPad Air 2 from 2-meter drops using a shatter-resistant polycarbonate shell ringed with a silicone bumper. The bumper absorbs shocks and creates a non-slip grip when you carry it. The touch-through screen shield protects your multi-touch display while you use it, and the built-in fingerprint scanner is fully accessible. All buttons are covered in flexible silicone to deflect windblown dust, grit and rain. Survivor Slim's built-in kickstand flips open and locks in place to hold your iPad at the perfect angles for viewing video, surfing or typing.

CHARGERS

PowerBlock Universal Charger

with ChargeSensor Technology
Griffin Technology

Most chargers are designed with a one-size-fits-all approach; they don't support the requirements of individual devices. Griffin ChargeSensor technology senses the charging requirements of any device plugged into it, and adapts itself to that device. The result is a single, truly universal AC charger that provides optimum charging for all your USB-chargeable devices. Griffin's PowerBlock Universal charger sports a low profile that plays well in power strips and plugs, and travels well in your luggage. PowerBlock accepts any AC power source, from 100 to 240 volts, converting it to safe, efficient charging for your smartphones and tablets. Its universal Type A USB socket is ready to accept your device's USB charging cable.

00124902MSRP/MAP \$29.99

PowerBlock with Lightning Cable

10W Detachable Cable
Griffin Technology

Griffin sets the standard for AC chargers, with PowerBlock. PowerBlock with Lightning Cable is the space-saving, energy-saving charger for your Apple devices. Connect this charger to the Lightning connector of your iPad, iPhone or iPod using the included detachable cable. (The cable can also be used to connect your iPad, iPhone, or iPod to the USB port of your computer.) This low-profile wall charger works in any AC outlet from 100 to 240 volts, and is optimized to deliver fast, safe charging levels for iPad, iPhone, and iPod.

00124903MSRP/MAP \$29.99

PowerBlock 2010

2.1 Amp, Model 1
Griffin Technology

Our best-selling AC power and charging solution for iPad, iPod, and iPhone, in a slimmed-down design. Its fold-flat, non-polarized blades fit easily in wall outlets and power strips. Energy Star certified PowerBlock charges iPad, iPhone, dock connector iPod models, even 1st generation iPod shuffle, or any other USB-chargeable device, and saves energy when not in use. The included detachable cable can be used separately as an extra dock cable for iPad, iPhone, or iPod.

00124908 Black.....MSRP/MAP \$29.99

PowerDock 5

Griffin Technology

It takes up only about as much room on your countertop as a single iPad. But it gives you a place to store and charge 5 tablets at one time, from a single power source. PowerDock 5 gives each tablet its own charging connection and its own clear backrest. Each charging bay is roomy enough to accommodate your iPad and its case, so you'll never need to remove your iPad from its case to charge. Space-saving PowerDock 5 sits on your countertop or shelf, ready to charge. Please note: PowerDock 5 is optimized for all iOS devices (iPad, iPad mini, iPhone, iPod touch, iPod nano). PowerDock 5's 5 volt (2.1 amp) charging circuitry will also charge most Kindles and Android smartphones. Because many devices have unique charging requirements, charging times vary. Check your device's manual for its special requirements.

PowerDuo for iPod, iPhone or iPad

Griffin Technology

PowerDuo's AC and DC chargers deliver 10 watts of charging power for iPad, iPhone, and iPod. The PowerDuo package combines our best-selling PowerBlock AC charger and PowerJolt 12-volt auto charger in one convenient bundle. The included dock cable can be used separately to charge or sync your iPod, iPhone, or iPad. To charge other devices, use the cable that comes with your device. Just plug it into either charger's USB port.

00124901MSRP/MAP \$39.99

PowerJolt Universal ChargeSensor

Griffin Technology

Most chargers are designed with a one-size-fits-all approach; they don't support the requirements of individual devices. Griffin ChargeSensor technology senses the charging requirements of any device plugged into it, and adapts itself to that device. The result is a single, truly universal 12-volt charger that provides optimum charging for all your USB-chargeable devices. Griffin's PowerJolt Universal charger sports a low-profile plug for your car's 12-volt accessory outlet, and a universal Type A USB socket, ready to accept your device's USB charging cable. An LED power indicator glows to signal that it's properly connected and ready to charge. And its built-in, self-resetting SmartFuse guards against power fluctuations as it charges.

00124900 MSRP/MAP \$24.99

PowerJolt Dual Universal Micro

5-Watt Vehicle Charger for USB Devices

Griffin Technology

For MP3 players and other devices that get their power through USB. Plug your device's USB cable in and charge from almost any vehicle's 12 volt accessory outlet with this low-profile, micro form-factor PowerJolt.

00147085 \$19.99

PowerJolt SE Lightning Connector

12-Watt Vehicle Coiled Charger for iOS devices

Griffin Technology

PowerJolt SE sports a powerful 12 watt charging circuit so your iOS devices can power up quickly and safely. A durable captive coiled cable, with Apple's Lightning connector, easily reaches to 36 inches (a generous 91 cm). Plugs are shaped with a slight flare to make them easy to grip, yet still able to fit in even the most restrictive of ruggedized cases, including Griffin's own Survivor cases.

iLoud®
Portable Personal Speaker for Musicians and Audiophiles
IK Multimedia

iLoud is the high-performance, battery-operated portable speaker for musicians and audiophiles. Rated at powerful 40W RMS, it provides up to five times the volume of comparably-sized speakers. Connect your smartphone, tablet, laptop or MP3 player, and get ready to be blown away. A speaker system needs to sound good at all volumes, and reproduce the music the way it was meant to sound. IK has leveraged its 16-year experience in creating tools for professional recording studios into developing iLoud's two-way, high-definition speaker system, onboard DSP, digital Class-D amplifier and high-performance enclosure. For the first time, you can enjoy studio-class sound and performance, comparable to professional monitors, in a surprisingly small package. iLoud connects via Bluetooth or to the headphone output of your smartphone, tablet or laptop. iLoud is also equipped with an iRig 1/4" instrument input, so you can plug in a guitar, bass, keyboard or dynamic mic and jam along to your music using an iPhone, iPod touch or iPad for real-time effects processing.

MIC & SPEAKER CABLES

Tourtek Microphone Cables

Samson Audio

Tourtek Cables have been designed for musicians and sound engineers who require superior sound quality and demand ultimate reliability. The cables exceed the design goal by combining quality components like genuine Neutrik® connectors and durable low-noise wire with solid build construction.

Tourtek Instrument Cables feature inner stranded copper conductors covered by a PVC insulator, which is wrapped in a second carbon insulator, then wrapped in a braided copper shield with 96% coverage. This is protected by a 6mm PVC outer jacket. The low capacitance cable provides excellent rejection of RF/EMI interference, extremely low handling noise and superior sound quality. These instrument cables are available in a variety of lengths to ensure you have the appropriate cable for any application and can be purchased with one right angle connector as well.

TUNERS

CM40 Chromatic Tuner / Metronome

Samson Audio

Samson brings precision tuning and metronome capabilities together in our CM40 Chromatic Tuner/ Metronome. Its compact, easy-to-use design makes tuning guitars, basses, stringed, woodwind or brass instruments easier than ever. The CM40 also functions as a metronome. Practice along with tempos ranging from 30 to 250 bpm using the tuner's built-in speaker with volume control and 1/8-inch headphone jack. A convenient auto power-off function conserves the two included AAA batteries that power the CM40 if it is not in use for five minutes.

00140106 MSRP \$24.99 • MAP \$14.99

Korg CA-1 Chromatic Tuner

Korg

Here's Korg's latest ultra-compact, LCD needle-style chromatic tuner! The new CA-1 (replacing the CA-30) joins the bestselling CA series of tuners. With even more features — like a pitch reference tone and marks for pure major thirds and minor thirds — the CA-1 packs functionality and convenience into an ultra-compact body. Ideal for brass band or orchestra, its wide range of pitch detection covers C1-C8, and the high-precision LCD needle-type meter provides stable tuning.

00750197 MSRP \$32.00 • MAP \$17.99

Korg CA-40 Chromatic Tuner

Korg

With superior features like a large, easy-to-read LCD needle-style display, the compact CA-40 Chromatic Tuner is a great value! With a wide range that covers A0 (27.50 Hz) — C8 (4186.01 Hz), you can tune a variety wind, string, and keyboard instruments. The pitch and range are detected quickly and accurately, and you can use the built-in, high-sensitivity microphone to detect the pitch of an acoustic instrument without requiring any other equipment. An output jack (bypass) has been added, making it easy to check the tuning even while you perform.

00750178 MSRP \$35.00 • MAP \$24.99

FT50 Chromatic Tuner

Hartke

The Hartke FT50 Chromatic Tuner makes accurately tuning guitars, basses, and other stringed, woodwind and brass instruments an easy task. The FT50 offers two modes of tuning: Auto and Manual. When using Auto mode, the tuner automatically recognizes the note to be tuned, while Manual mode allows the user to select the note to be tuned. The FT50 also features a multi-segment LED display for tuning in well-lit or dark environments. Conserving the two included AAA batteries that power the tuner, the FT50 features a convenient auto-shut off function if it is not in use for 10 minutes.

00140185 \$24.99

Korg TM-50 Combo Digital Tuner Metronome with Folding Stand

Korg

The Korg TM-50 allows you to use the tuner and metronome simultaneously, providing all you need for both pitch and rhythm training. This updated model features a two-level backlight that enhances the visibility of the LCD display. It uses a newly designed needle-style LCD for excellent response, and even greater tuning accuracy.

00111652 \$40.00

CT20 Clip-On Tuner
Samson Audio

Samson's CT20 Clip-On Tuner combines precision tuning capabilities with a hands-free design that makes accurately tuning guitars, basses, stringed, woodwind or brass instruments easier than ever. The CT20 attaches securely to the headstock of your guitar or bass, as well as a variety of other stringed and wind instruments, for hands-free tuning. Powered by an included single CR2032 battery, the CT20 provides two operating modes for maximizing battery life. After 10 seconds of inactivity, the tuner automatically enters an energy-saving mode that dims the display without shutting off the tuner. After 5 minutes, the unit will power off completely.

00140107MSRP \$39.99 • MAP \$24.99

CT260V
Clip-On Chromatic Tuner
Samson Audio

Samson's CT260V Clip-On Chromatic Tuner combines precision tuning capability with a hands-free design and Auto On/Off features that makes accurately tuning guitars, basses and more easier than ever. To keep your instruments sounding performance-ready at all times and in any lighting environment, the CT260V features a dynamic vertical LCD display. The display offers a smooth, real-time response for exceptional tuning accuracy. The CT260V attaches securely to the headstock of your guitar or bass for hands-free tuning. A dual 360-degree ball-jointed clip stems from the rear of the tuner, allowing you to view the display at any angle.

00146575 \$24.99

CT260H
Clip-On Chromatic Tuner
Samson Audio

To keep your instruments sounding performance-ready at all times and in any lighting environment, the CT260H features a dynamic horizontal LCD display. The CT260H attaches securely to the headstock of your guitar or bass for hands-free tuning. A dual 360-degree ball-jointed clip stems from the rear of the tuner, allowing you to view the display at any angle. In addition, the CT260H offers convenient Auto On/Off features. The tuner powers On as soon as the display is placed in the Up position. In addition, it will automatically power Off when the display is placed in the Down position or after five minutes of inactivity.

Samson's CT260H Clip-On Chromatic Tuner's simple, yet efficient design helps to make it a tuning accessory that musicians will want in their gig bag.

TP-3 Clip-On Tuner Pickup

Peterson Strobe Tuners

The Peterson TP-3 Clip-on Tuning Pickup includes a more sensitive piezo pickup than any previous model to improve the signal transmission of your acoustic instrument into your tuner. The larger opening can now accommodate even the most challenging placement. Higher gripping tension ensures that the TP-3 stays in place without damaging your instrument. Use with any instrument and any tuner. Totally isolate your instrument from any other sound in the room, permitting confident tuning even in the noisiest environments.

00156484 \$16.95

PitchGrabber Mobile

Clip-On Tuner Pickup

Peterson Strobe Tuners

The PitchGrabber Mobile tuning pickup easily and safely clamps on to virtually any musical instrument and captures the pitch using its piezo pickup sending it directly to your mobile tuning application. The PitchGrabber Mobile uses the headphone/mic input of your mobile device to completely isolate the sound of your instrument and provide a direct input path to your tuning application. Perfect for tuning in noisy environments.

00156485 \$19.99

iPhone/iPod Touch Adaptor Cable

Peterson Strobe Tuners

This adaptor cable has been specifically designed to function with your mobile Apple or Android phone/tablet device.

- Connect an instrument, microphone, or tuning pick-up with a 1/4" plug directly into your device using the headphone jack
- The perfect accessory when used with iStroboSoft™ by Peterson Tuners (iOS only)
- Directly plug in your guitar or bass for tuning or use an external microphone (required for iPod touch) to tune brass or wind instruments
- Can be used with any application requiring an audio input
- Will not interfere with charger connector

Devices Supported: iPad (all versions) • iPhone (all versions) • iPod touch 2nd/3rd/4th Gen. • iPod touch (1st Gen will require a compatible mic-in device via docking connector) • Android devices that support 'audio-in' via the 1/8" jack

Hamilton Stands

A great choice for home and studio! This stand features a full size symphonic desk with rolled edges that resist bending in transport and abuse. The height and leg positions are knob-adjustable from 26"–47.5". The stand has a durable black wrinkle powder-coated finish, and it can hold more music, including fake books, than a folding stand.

00140547 MSRP \$61.99

Portable Music Stand Carrying Bag

For KB50 and KB990 Models
Hamilton Stands

This bag is made of heavy duty Cordura type polyester cloth and has 3 compartments — one for the desk, one for the folding base, and an accessory pouch. The desk and base compartments sport zipper closures and the accessory pouch has a velcro closure. The bag, which features an embroidered Hamilton Stands logo, includes both a handle and carrying strap.

00140544 \$35.99

Petersen Music Stand

Petersen Designs Inc.

Lightweight, durable and highly portable, these music stands transform into a convenient, self-contained carrying case. The pull-out extensions provide four-sheet capacity, the desk angle is adjustable, and a patented locking system ensures maximum stability. The Petersen Music Stand has adjustable height (from 23" to 50"), and can accommodate standard music stand lamps. Perfectly suited for musicians looking for the reliable functionality of a large metal stand, but the portability of a collapsible wire one.

00750024 Black \$59.95
 00750027 Blue \$69.95

Petersen Music Stand — Tote Bag Padded Carrying Case

Petersen Designs Inc.

This durable, padded case offers extra protection for your Petersen Music Stand.

00750028 Carrying Case \$19.95

The Grand Stand® Portable Music and Bookstand

The Grand Stand® is ideal for:
Musicians: • Works as a handy stand for songbooks or any music!
• Great for practicing guitarists - sits easily on any surface — even a bed!
At Home: • In the kitchen — great for cookbooks. • With home computers — provides a convenient stand for manuals. • For students' homework or music practice. • For Do-It-Yourselfers — in any work area. Lightweight and portable, The Grand Stand® folds flat for carrying. It's capable of displaying the smallest to the largest of books. Constructed of sturdy fiberboard covered in attractive and easy-to-clean vinyl.

LIGHTS

XtraFlex Music Light

Mighty Bright

Get flexibility and brightness in one with this light. Features one bright white, energy-efficient LED and a flexible gooseneck that holds the light firmly in place. The small base provides stability, and a sturdy clip allows you to also attach it to a stand. Powered by 3 AAA included batteries.

00125718 MSRP \$14.99 • MAP \$11.99

XtraFlex2 Music Light

Mighty Bright

The perfect light for situations that call for extra flexibility! An adjustable gooseneck holds the energy-efficient LED lights in place, and you can use one or two LEDs by tapping a button. The base can be used free-standing or with the sturdy clip. Powered by 3 AAA included batteries.

00125717 MSRP \$19.99 • MAP \$15.99

Hammerhead Music Stand Light

Mighty Bright

Two brightness settings and six energy-efficient LEDs make this light an asset for every musician! The sturdy clip and flexible gooseneck offer versatility for any situation, and the light easily folds for convenient storage. Powered by 3 AAA batteries (included) or optional AC adapter (sold separately).

00125711 MSRP \$24.99 • MAP \$19.99

Duet Music Light

Mighty Bright

The two flexible goosenecks hold two energy-efficient LEDs that cast a bright white light. Individual switches control the lighting level, and the light can easily be folded for convenient storage. The sturdy padded clip firmly grips music stands, and the base can be freestanding.

00125715 MSRP \$24.99 • MAP \$19.99

Duet 10 Piece Pre-Pack Wire Display

Mighty Bright

This wire display holds 10 Duet music lights. The two flexible goosenecks hold two energy-efficient LEDs that cast a bright white light. Individual switches control the lighting level, and the light can easily be folded for convenient storage. The sturdy padded clip firmly grips music stands, and the base can be freestanding.

00125716 \$249.99

Duet2 Deluxe Music Light

Mighty Bright

Two energy-efficient LEDs on two flexible goosenecks cast bright white light over whatever you need to see. Two switches control up to four lighting levels, and the precisely engineered optical grade lens spreads light evenly. The base can be used freestanding, and the sturdy padded clip firmly grips music stands. The light easily folds for convenient storage. Powered by 3 AAA batteries or optional AC adapter, both included.

00125713 MSRP \$39.99 • MAP \$31.99

Encore Music Light *Mighty Bright*

No need to squint at your music anymore! Six energy-efficient LEDs cast bright white light over your music, and the sliding switch controls two brightness settings. The sturdy clip firmly grips music stands, and the flexible gooseneck holds the light firmly in place. Durable travel bag included! Powered by 3 AAA batteries or the included AC adapter.

00125710 MSRP \$44.99
..... MAP \$35.99

Fermata™ Battery-Operated Music Light *Lampcraft*

Until now, battery operated lights had a fundamental limitation. The amount of light produced grows dimmer as time goes on. The drop in light after only a few hours is often >50%. The new Fermata solves that problem dramatically. Even after it has been on for hours, it produces virtually the same amount of light as when it was turned on. Starts bright, stays bright! Batteries and soft case are included.

00129270 MSRP \$54.95
..... MAP \$49.95

Orchestra Light *Mighty Bright*

This light features nine energy-efficient LEDs casting bright white light over your music. The broad, padded clip and flexible gooseneck allow for versatility in placement, and the base can be used freestanding. A sliding switch controls two brightness settings. The light folds up easily for convenient storage, and a durable travel bag is included. Powered by 3 AA batteries or AC adapter, which are both included.

00125712 MSRP \$74.99
..... MAP \$59.99

GearHead Utility Light *Mighty Bright*

A single LED casts an even white beam from this adjustable headband, freeing up your hands. A push button switch controls lighting modes for high, low, and flashing, and the light head tilts to direct light where needed. Powered by two included AAA batteries, this light's beam shines for 50 meters. Musicians will love this light for back-stage use or loading gear at night!

00128339 Gray Headband
..... MSRP \$24.99
..... MAP \$24.99

Light Cradle — Black *Mighty Bright*

This wide-base cradle holds your light in a secure, stand-up position. It attaches and detaches to the base of the light with a spring-loaded clip, and the large floating magnet on the bottom secures it to metal surfaces. The four non-skid rubber feet provide stability, and you can also affix the base to music stands. For use with Hammerhead, XtraFlex, XtraFlex2, Duet, Duet2, and Stage/Pedal Board lights.

00125725 MSRP \$6.99

00507018\$2.99

Superior Valve Oil
Yamaha

Yamaha Superior Valve Oils are based on a newly developed synthetic formula. The Superior Valve Oil synthetic formula is more consistent than mineral based oils and provides superior performance in all playing environments. The advanced formula is produced using a consistent molecule size. Standard valve oils contain mineral oil which is made up of molecules varying in size. The varied molecule make-up of mineral oil allows the oil to evaporate at an uneven rate, leaving high viscosity particles behind. The even molecules found in the new Yamaha Superior Valve Oil synthetic formula allow the oil to evaporate smoothly, guaranteeing a longer life and extremely responsive action.
