DECLARATION OF INDEPENDENCE.

IN CONGRESS, JULY 4, 1776.

THE UNANIMOUS DECLARATION OF THE THIRTEEN UNITED STATES
OF AMERICA.

[Adopted by the Continental Congress July 2, and authenticated and proclaimed July 4, 1778.]

WHEN in the course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuit of happiness; that to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Frudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and, accordingly, all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such govern. ment, and to provide new guards for their future security. Such has been the patient sufferance of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these states. To prove this, let facts be submitted to a caudid world:

He has refused his assent to laws the most wholesome and necessary for the nublic good.

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation till his assent should be obtained, and, when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the accommodation of large districts of people, unless those people would relinquish the right of representation in the legislature—a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissoved representative houses repeatedly for opposing, with manly

firmness, his invasions on the rights of the people.

He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the state remaining, in the meantime, exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these states, for that purpose obstructing the laws for naturalization of foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice by refusing his assent to laws for establishing judiciary powers.

He has made judges dependent on his will alone for the tenure of their offices and the amount and payment of the reals ites.

He has erected a multitude of new offices, and sent hither swarms of officers to harass our people and eat out their substance.

He has kept among us, in times of peace, standing armies, without the consent of our legislatures.

He has affected to render the military independent of, and superior to, the civil power.

He has combined with others to subject us to a juri diction foreign to our constitution and unacknowledged by our laws, giving his assent to their acts of pretended legislation—

For quartering large bodies of armed troops among us.

For protecting them, by a mock trial, from punishment for any murders which they should commit on the inhabitants of those states;

For cutting off our trade with all parts of the world.

For imposing taxes on us without our consent;

For depriving us, in many cases, of the benefits of trial by jury;

For transporting us beyond seas, to be tried for pretended offenses;

For abolishing the free system of English laws in a neighboring province; establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies;

For taking away our charters, abolishing our most v.:luable laws, and altering fundamentally the forms of our governments;

For suspending our own legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here by declaring us out of his protection and waging war against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is, at this time, transporting large armies of foreign mercenaries to complete the works of death, devolation and tyranny, already begun, with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the head of a civilized nation.

He has constrained our fellow-citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall them elves by their hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these oppressions we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant is unfit to be the ruler of a free people.

Nor have we been wanting in attentions to our ritish brethren. We have warned them, from time to time, of attempts, by their legislature, to extend an unwarrentable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity; and we have conjured them, by the ties of our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war, in peace friends.

We, therefore, the representatives of the United States of America, in general congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare, that these united colonies are, and of right ought to be, free and independent states; that they are absolved from all allegiance to the British crown, and that all political connection between them and the state of Great British is, and ought to be, totally dissolved; and that, as free and independent states, they have full power to levy war, conclude peace, contract alliances, establish commerce, and do all other acts and things which independent states may of right do. And for the support of this declaration, with a firm reliance on the protection of Devine Providence, we mutually pledge to each other our lives, our fortunes, and our sacred honor.

The United States in congress assembled, shall also be the last resort on appeal in all disputes and differences now subsisting, or that hereafter may arise, between two or more states concerning boundary, jurisdiction, or any other cause whatever, which authority shall always be exercised in the manner following: Whenever the legislature or executive authority or lawful agent of any state in controversy with another shall present a petition, to congress, stating the matter in question and praying for a hearing, notice thereof shall be given by order of congress to the legislative or executive authority of the other state in controversy, and a day assigned for the appearance of the parties by their lawful agents, who shall then be directed to appoint, by joint consent, commissioners or judges to constitute a court for hearing and determining of the matter in question; but, if they cannot agree, congress shall name three persons out of each of the United States, and from the list of such persons each party shall alternately strike out one, the petitioners beginning, until the number shall be reduced to thirteen, and from that number not less than seven nor more than nine names, as congress shall direct, shall, in the presence of congress, be drawn out by lot, and the persons whose names shall be so drawn, or any five of them, shall be commissioners or judges to hear and finally determine the controversy, so always as a major part of the judges who shall hear the cause shall agree in the determination; and if either

party shall neglect to attend at the day appointed without showing reasons which congress shall judge sufficient; or, being present shall refuse to strike, the congress shall proceed to nominate three persons out of each state, and the secretary of congress shall strike in behalf of such party absent or refusing; and the judgment and sentence of the court to be appointed in the manner before prescribed shall be final and conclusive; and if any of the parties shall refuse to submit to the authority of such court, or to appear or defend their claim or cause, the court shall nevertheless proceed to pronounce sentence, or judgment which shall in like manner be final and decisive; the judgment or sentence and other proceedings being in either case transmitted to congress, and lodged among the acts of congress, for the security of the parties concerned: provided that every commissioner, before he sits in judgment, shall take an cath, to be administered by one of the indges of the supreme or superior court of the state where the cause shall be tried, "well and truly to hear and determine the matter in question, according to the best of his judgment, without favor, affection or hope of reward." provided, also, that no state shall be deprived of territory for the benefit of the United States.

All controversies concerning the private right of soil, claimed under different grants of two or more states whose jurisdictions, as they may respect such lands, and the states which passed such grants, are adjusted, the said grants or either of them being at the same time claimed to have originated antecedent to such settlement of jurisdiction, shall, on the petition of either party to the congress of the United States, be finally determined, as near as may be, in the same manner as is before prescribed for deciding disputes respecting territorial jurisdiction between different states.

The United States in congress assembled, shall also have the sole and exclusive right and power of regulating the alloy and value of coin struck by their own authority, or by that of the respective states, fixing the standard of weights and measures throughout the United States; regulating the trade and managing all affairs with the Indians, not members of any of the states: provided, that the legislative right of any state, within its own limits, be not infringed or violated; establishing and regulating post offices from one state to another, throughout all the United States, and exacting such postage on the papers passing through the same as may be requisite to defray the expenses of the said office; appointing all officers of the land forces in the service of the United States, and commissioning all officers whatever in the service of the United States; making rules for the government and regulation of the said land and naval forces, and directing their operations.

and thereupon the legislature of each state shall appoint the regimental officers, raise the men, and clothe, arm and equip them, in a soldier-like manner, at the expense of the United States; and the officers and men, so clothed, armed and equipped, shall march to the place appointed, and within the time agreed on, by the United States, in congress a sembled, shall, on consideration of circumstances, judge proper that any state should not raise men, or should raise a smaller number than its quota, and that ony other state should raise a greater number of men than the quota thereof, such extra number shall be raised, officered, clothed, armed and equipped in the same manner as the quota of such state, unless the legislature of such state shall judge that such extra number connot be safely spared out of the same, in which case they shall raise, officer, clothe, arm and equip as many of such extra number as they judge can be safely spared, and the officers and men, so clothed, armed and equipped, shall march to the place appointed, and within the time agreed on, by the United States, in congress assembled.

The United State, in congress a sembled, shall never engage in a war, nor grant letters of marque and reprisal in time of peace, nor enter into any treaties or alliances, nor coin money, nor regula e the value thereof, nor ascertain the sums and expenses necessary for the defense and welfare of the United States, or any of them, nor emit bills, nor borrow money on the credit of the United States, nor appropriate money, nor agree upon the number of vessels of war to be built or purchased, or the number of land or sea forces to be raised, nor appoint a commande in chief of the army or navy, unless nine states assent to the same, nor shall a question on any other point, except for adjourning from day to day, be determined, unless by the votes of a majority of the United States, in congress assembled.

The congress of the United States shall have power to adjourn to any time within the year, and to any place within the United States so that no period of adjournment be for a longer duration than the space of six months, and shall publish the journal of their proceedings monthly, except such parts thereof relating to treaties, alliances or military operations as in their judgment require secrecy; and the yeas and mays of the delega'es of each state, on any question, shall be entered on the journal, when it is desired by any delegate; and the delegates of a state, or any of them, at his or their request, shall be furnished with a transcript of the said journal, except such parts as are above excepted, to lay before the legislatures of the several states.

ART. 10. The committee of the states, or any nine of them, shall be authorized to execute, in the recess of congress, such of the powers of congress as the United States, in congr as assembled, by the consent of nine states, shall, from time to time, think expedient to vest them with: provided that no power be delegated to the said committee, for the exercise of which by the articles of confederation, the voice of nine states, in the congress of the United States assembled, is requisite.

ART. 11. Canada, according to this confederation and joining in the measures of the United States, shall be admitted into and entitled to all the advantages of this union; but no other colony shall be admitted into the same, unless such admission be agreed to by nine states.

Know ye, that we, the undersigned delegates, by virtue of the power and authority to us given for that vurpose, do, by these presents, in the name and in behalf of our respective constituents, fully and entirely ratify and confirm each and every of the said articles of confederation and perpetual union, and all and singular the matters and things therein contained. Judges of the Supreme Court.

The accession list of the State Library on the first day of January, 1903, includes 76,317 volumes, exclusive of the volumes of the Traveling Library Department,—which department was, by act of the Twenty-ninth General Assembly, turned over to the Iowa Library Commission,—exclusive a'so of the volumes of the Historical Department with which the miscellaneous portions of the State Library were consolidated by act of the Twenty-eighth General Assembly. The total of accessions during the year 1902 was 4,774 volumes.

The actual transfer of books from the miscellaneous department of the State Library, left to the discretion of the Library Board, having been carried as far as the limited stack room in the Historical Department would permit, will not be completed until the completion of the Historical Building shall have made the full transfer feasible. This delay is a constant embarassement, not only in the cataloging of the two departments, but also in the arrangement of new books on the shelves. The suspension of the work of consolidation compels the adoption of a temporizing policy in the shelving of books, which policy, though not in any sense seriously damaging, presents many difficulties, chiefly because of the tendency of the two growing departments, the Law and the Miscellaneous, to overlap each other, each calling with equal urgency for the most accessible space, and both now overflowing alcoves which a year ago afforded ample space.

The Law Department has within the year been strengthened by several new sets, and the alcove devoted to the literature of the law has been enriched by many purch ses.

The Document Department is steadily nearing the goal of completeness—a goal very difficult of attainment. For most practical purposes, however, the seeker after documentary information can now obtain what he seeks, either in national documents or in those issued by the several states.

The Miscellaneous Department, during the past year, has grown chiefly in the direction of sociological works, periodicals and complete sets of standard works.

The card cataloging of the entire library after the most approved methods of library science.—a laborious task,—begun in 1898 and continued along with the work of cataloging new books as they are accessioned, is nearing completion. It is anticipated that the completion of the work may be announced in the Official Register for 1904.

HON. W. B. MARTIN, Secretary of State.

HON. R. C. BARRETT, Superintendent of Public Instruction.

CHARLES ALDRICH, A. M., Curator.

As now organized, this department dates from the first day of July, 1892. Its chief purpose is the collection of historical data relating to our own state and the territory of the middle west of which it originally formed a part. So far as literature is concerned special efforts are made to collect Iowa newspapers from the earliest dates to the present time; works of state and general western and national history, biography and genealogy; works on the slavery question and the war for the Union; histories of all our wars from the earliest times; reports upon the census of both state and nation; works relating to the North American Indians; county histories; earlier and later maps; Iowa pamphlets; biographies of our notable men and women, printed or in manuscript; written or printed documents relating to early settlers and settlements; reports, catalogues and broadsides relating to the churches, educational and benevolent institutions of the state; in short, every species of data which can throw light upon local, state or western history.

. The department publishes The Annals of Iowa, an illustrated quarterly historical magazine of eighty pages, which will enter upon its sixth volume with the number for April, 1903. This is made up of original contributions in history and biography. By direction of the trustees it is sent free to every organized library in our state. Its price to subscribers is \$1 per year.

In addition to The Annals, the Historical Department is to be credited with the following publications, viz.: Five biennial reports; "John Brown Among the Quakers, and Other Sketches," by Hon. Irving B. Richman; "First Census of the Original Counties of Dubuque and Des Moines," edited by Dr. Benj. F. Shambaugh; "History of the Constitutions of Iowa," by Dr. Shambaugh; reprints of the Laws of Iowa, 1838-39 and of 1839-40, and the hitherto unpublished Journals of the Council and House of Representatives of the extra session of 1840.

The department has secured fifty-eight fine oil portraits of distinguished Iowans, the most of which are now on exhibition in the art gallery of the historical building. Several more are promised in the near future.

The historical collections of the department up to January 1, 1903, are as follows:

Bound volumes of newspapers	2954
Newspapers and periodicals currently received	412
Books and pamphlets in the library	11,025

Also a large collection of autograph letters and manuscripts.

The Museum includes seven large autograph cases; a collection of recent, aboriginal and prehistoric pottery—some of the most interesting specimens of which were found in our own state; a large collection of stone implements, among which is an Iowa axe weighing 31% pounds—one of the largest ever discovered—with hundreds of flints; many teeth and other bones of the mammoth and mastodon, all of which were found in Iowa; two large cases of birds—mostly specimens found within our state; many Iowa mammals; four large aquariums stocked with a collection of Iowa fishes; a case of Indian baskets, bead work,

implements and weapons, the most of which were manufactured by the Musquakie Indians of Tama county; a collection of arms—cannon, mortars, swivel guns, rifles, muskets, carbines, swords and pistols—in use during the Civil, Spanish and Philippine wars; duplicates in bronze of most of the historic medals issued by the U. S. Government; the Larrabee case with its highly interesting and historically valuable contents; with single items of more or less importance.

A large portion of the articles in this museum possess historic value, aside from their popular interest. It is estimated that over 50,000 people visit the Museum and Art Gallery annually. In this way the people are realizing a return for the taxes they pay for the support of the department. Not the least gratifying result of the years of work devoted to this department is the great measure of appreciation which has been accorded to it by people in every part of lows.

IOWA LIBRARY COMMISSION.

Seven members—three ex-officio and four appointed by the governor. Term of appointees, five years. No compensation.

State Librarian, ex-officio.

Superintendent of Public Instruction, ex-officio President State University, ex-officio.

Alice S. Tyler, secretary. Office, state library, Des Moines.

Margaret W. Brown, clerk (acting librarian of traveling library.)

The Iowa Library Commission was created by an act of the Twenty-eighth General Assembly in March 1900. The growing interest in library matters and the many gifts for the erection of library buildings during the last year have made the demands on the commission so heavy and constant that the secretary's time has been more than filled.

The demands made upon the secretary, cover a wide range of interests, among which are the following: Planning for the submission of a library tax to a popular vote; aiding boards of trustees and librarians in organizing libraries for a business-like administration; assisting in the classifying, shelf-listing and cata oging of books; addressing women's clubs, teachers' meetings, public meetings, etc.; conferring with library trustees and city councils in the consideration of plans for new libraries, with special reference to best working interior arrangement, etc. By correspondence also much information has been given to librarians and library boards as to details of library economy, the selection and classification of books, etc.

The work of the traveling library, heretofore under the direction of the state library, was seen to be so intimately connected with the work of library extension over the entire state that the desirability of transferring it to the commission was soon evident, library extension being the primary purpose of the library commission. Therefore, the library commission law was entirely revised by the Twenty-ninth General Assembly in order to provide for the transfer of the traveling library to the Iowa Library Commission, and an increased appropriation was provided for the calerged work of the commission.

The principal activities of the commission are as follows: (I) The traveling library, consisting of over 10,000 volumes, which are made up into miscellaneous collections of fifty volume librarie; or books on special subjects of study and loaned to any community in the state complying with a simple agreement and paying transportation charges. (2) Summer library school, conducted by the secretary at the State University at Iowa City for six weeks each summer as a department of the university's summer session. (8) Periodical clearing house for the exchange of standard periodicals indexed in Poole's Abridged Index, this exchange being for the purpose of aiding small libraries in securing sets of standard periodicals without cost. (4) Publication of quarterly circulars of information, leadets and other material practically helpful in disseminating library information and in developing and fostering the library spirit in Iowa.

EXECUTIVE COMMITTEE.

On January 6, 1869, Governor Shaw appointed and commissioned the following named gentlemen as a preliminary commission to represent the state of Iowa at a convention of representatives of the states in the "Louisiana Purchase" to be held in the city of St. Louis, Missouri, in the month of January, 1899: Samuel B. Evans of Wapello county, Charles M. Junkin of Jefferson county, S. B. Ziegler of Fayette county, Charles A. Stanton of Appanoose county, A. B. Funk of Dickinson county, James C. Milliman of Harrison county, Edward P. Heizer of Woodbury county, Lafayette Young of Polk county, Edward P. Heizer of Woodbury county, John L. Waite of Des Moines county, David Brant of Clinton county, Charles J. A. Ericson of Boone county, Wm. E. Fuller of Fayette county, Samuel M. Leach of Dallas county, Joseph Wallace of Hardin county, W. C. Hayward of Scott county, William H. Dildine of Woodbury county.

This preliminary commission after thoroughly investigating the merits of the proposed exposition organized by electing J. C. Milliman, of Harrison county, as chairman, and unanimously reported to the Honorable L. M. Shaw, governor of Iowa, January 4, 1902, recommending an appropriation of \$230,000 as a suitable amount, saying in their report that the committee were enthusiastic in the opinion that a great opportunity was now presented to fairly exhibit the wonderful advantages and resources of the state of Iowa, that the commission having considered the matters properly before them the future greatness of Iowa had grown in their minds and the opportunity to reap for our sowing, that the recommendation was made without a dissenting vote. This commission labored without compensation, their expenses being paid by the membership and they made their report in the hope that its work might be helpful to the state of Iowa.

The Twenty-ninth General Assembly after hearing the report of the preliminary commission adopted House File No. 300, which became a law and is now embodied in the session laws of the Twenty-ninth General Assembly appropriating \$125,000, providing for a commission of thirteen members, two at large and one from each congressional district, to be appointed by the governor of the state, to have full power to devise and execute plans for the state exhibit

Appointed by Governor Cummins, December 18, 1902, to fill vacancy caused by resignation of P. L. Prentis.

BOARD OF VOTING MACHINE COMMISSIONERS.

Appointed by the Governor.	Term five years.	Compensation not to exceed
	\$ 1, 500 .	
	- ·	TERMS EXPURE
Sylvester B. Osborn, Tabor		July 8, 1905
Henry M. Belvel, Des Moines.		July 3, 1905

The voting machine commission was created by the act of the Twenty-eighth General Assembly, providing for the use of voting machines at all state, county, city, town and township elections. By this act the governor was authorized to appoint three commissioners, not more than two of whom should be from the same political party. The commissioners are appointed for the term of five years, subject to removal at the pleasure of the governor.

Individuals or corporations owning or interested in any voting machine may call upon the commissioners to examine the said voting machine. After such examination the commissioners are to report the result to the secretary of state, giving the capacity of such machine to register the vote of the people, its accuracy and efficiency, and its mechanical perfections or imperfections. This report is to be filed in the office of the secretary of state, and it must state the opinion of the commissioners, whether the kind of machine so examined can be safely used by the voters. I hould the report state that the machine can be so used, it shall be deemed approved by the commissioners, and machines of the kind may be adopted and used at the various elections held in the state. For making such examination and report, each commissioner is to receive the sum of \$150 for his compensation, and expenses, but no commissioner is to receive an amount in excess of \$1,500 and reasonable expenses in any one year. The fees for examination are to be pa d by the individual or corporation owning or interested in the voting machine examined.

The act makes the following provisions as to the construction of the machine approved:

"A voting machine approved by the State Board of Voting Machine Commissioners, must be so constructed as to provide facilities for voting for the candidates of at least seven different parties or organizations, must permit a voter to vote for any person for any office, although not nominated as a candidate by any party or organization, and must permit voting in absolute secrecy. It must also be so constructed as to prevent voting for more than one person for the same office, except where the voter is lawfully entitled to vote for more than one person for that office; and it must afford him an opportunity to vote for any or all persons for that office as he is by law entitled to vote for, and no more, at the same time preventing his voting for the same person twice. It may also be provided with one ballot in each party column or row containing only the words 'presidential electors' preceded by the party name, and a vote for such ballot shall operate as a vote for all candidates of such party for presidential electors. Such machine shall be so constructed as to accurately account for every vote cast upon it."

PART III. BOARD OF CONTROL. STATE INSTITUTIONS. IOWA NATIONAL GUARD. NEW MILITIA LAW OF THE UNITED STATES.

Board of Control of State Institutions.

MEMBERS.

JOHN COWNIE, Chairman, South Amana	April 5,	1904
G. S. ROBINSON, Sloux City	April 5,	1906
L. G. KINNE, Des Moines	April 5,	1908

F. S. TREAT, Secretary, Des Moines.
HENRY F. LIEBBE, Architect, Des Moines.

The Board of Control of State Institutions was created under the provisions of chapter 118, laws of the Twenty-seventh General Assembly, with full power to manage, control and govern, subject only to the limitations contained in the act, the following named institutions.

Iowa Soldiers Home at Marshalltown. Cherokee State Hospital.

Clarinda S. ate Hospital.

Independence State Hospital.

Mt. Pleasant State Hospital.

College for the Blind at Vinton.

School for the Deaf, at Council Bluff.

Institution for Feeble Minded Children, at Glenwood.

Iowa Soldiers' Orphans' Home, at Dayenport.

Industrial Home for the Blind, at Knoxville.

Industrial School for Boys, at Eldora.

Industrial School for Girls, at Mitchellville.

Industrial Reformatory for Females, at Anamosa.

Penitentiary, at Anamosa.

Penitentiary, at Ft. Madison.

The board is also required to investigate thoroughly the reports and doings of the regents of the State University, the trustees of the State Normal School, and the State College of Agriculture and Mechanic Arts, and the books and records of said institutions. It also has supervision of county and private institutions in which insane persons are kept, and of associations and societies receiving friendless children.

Prior to July 1, 1898, the foregoing state institutions, except the penitentiaries, were in charge of separate boards, each of which had its officers, and each had a secretary and treasurer.

The Board of Control was organized on April 6, 1898, and took full control, as provided by statute, on July 1, 1898, of the institutions heretofore named. At that time the various boards of trustees and commissioners ceased to exist.

The Board publishes quarterly a bulletin of over a hundred pages, devoted to the scientific investigation of the treatment of insanity and epilepsy, and the feeble-minded, and information embodying the experience of scidiers homes, charitable, reformatory and penal institutions in this and other countries, it

being the intention of the board to keep in touch with the best thought and judgment of the age.

As provided by law, under the direction of the board, the state institutions under its control are supplied with goods for their support on competitive bids, thus procuring proper supplies at the lowest market prices. An opportunity to bid is afforded anyone who indicates a desire to the board.

The board visits and inspects each institution under its control at least twice each year, and oftener if necessary. Some member of the hoard visits and thoroughly inspects each hospital for the insane once each month.

The State University of Iowa is an integral part of the public school system of the state. As required by law, the work of the university is based upon the preparation afforded by the duly accredited high schools of the state, whose graduates are admitted to the undergraduate and professional courses upon presentation of the proper certificates. A sense of this vital connection with the public schools determines, in a large measure, the requirements for admission to the university, its spirit, and its courses of study.

The control of the university is intrusted to a board of regents, consisting of the governor of the state and the superintendent of public instruction exceptions, and of one member from each of the cleven congressional districts, elected by the general assembly.

The university is administered through the following organizations:

The College of Liberal Arts, including engineering and the summer session;

The College of Law:

The College of Medicine;

The College of Homosopathic Medicine:

The College of Dentistry;

The College of Pharmacy;

The Graduate College:

Iowa School of Political and Social Science;

The Hospitals.

The college of liberal arts embraces four courses of study: Classical, philosophical, scientific and engineering. Four years are required to graduate in either one of these courses, and on completion the appropriate Bachelor's degree is granted.

In the college of law the course of study extends through three years, and on completion thereof the graduate is given the degree of LL. B., and admitted to practice before the state and United States courts.

The college of medicine and the college of homoeopathic medicine require the student to pursue his studies during a four year's course of nine months each, and on completion of such course the degree of M. D. is granted.

The college of dentistry requires three years of nine months each, to complete the course and obtain the degree D. D. S.

The course in pharmacy extends through two years of nine months each, and the degree Pn. G. is granted on its completion.

Semesters open February 10 and September 21, 1903.

Summer session opens June 22, 1903.

The Iowa Experiment Station was established in accordance with an act of congress, approved March 2, 1887, for the purpose of aiding "in acquiring and diffusing among the people of the United States useful and practical information on subjects connected with agriculture, and to promote scientific investigation and experiments respecting the principles and applications of agricultural science, 'under direction of the land grant colleges in each state and territory established by the act of 1862, creating such colleges. This act appropriated to each state and territory, for the purpose of agricul ural investigation, the sum of \$15,000 annually, and the experiment stations were thus established as a department of the land grant colleges. They are subject to the regulations of the United States department of agriculture, and are regularly inspected by officers of that department. The results of these investigations and experiments in agriculture, including live stock and all related branches, are published in bulletins issued by the experiment stations quarterly or oftener, and distributed free to all residents of the respective states who apply for them. The work of the Iowa Experiment Station along these lines has proved extremely popular and met with favor in all parts of the state and nation, and many foreign countries as well. The reports of some of its experiments have been republished entire by foreign governments, and the demand for bulletins is so large that applications outside of the state can no longer be supplied. These bulletins are free to farmers and citizens of Iowa.

HISTORICAL—The State Normal School was established in 1876. Its province is the special education and training of public school teachers. It opened its first session September 6, 1876, with a faculty of five members. It enrolled the first year 185 students. At present the school has fifty-six members in the faculty, and the year 1901-1902 enrolled 2,066 teacher grade students and 899 pupils in the model or training school. The school is in no sense a duplicate of other educational institutions, as it devotes itself exclusively to educating teachers, and sends out annually 800 different persons to work in the state, 200 of them being graduates of some one of its several courses.

Courses of Study—The courses of study are conformed in the main to the statute requirements for state certificates and state diplomas, giving considerable choice of subjects in language and science, so far as the amount to be taken is required. These courses are named English, Latin, Science, etc., according to the attention given to the special line of study. These courses are also of such character as to enable students to continue courses in the colleges and the universities after graduation if they so desire.

Courses for primary teachers, vocal music teachers, instrumental music teachers, elecution teachers with scholastic training, are also provided to meet the demands of such work. Special courses in physical training, band music, orchestral music, mandolin and guitar are also able to be secured where special certificates as teachers are granted for these special lines. Every line of preparation for public school teaching is granted while courses for college graduates in all kinds of specialization are able to be secured.

The attendance at this term in 1900 was 795, and in 1901 was 925. For the benefit of the six weeks' term now in operation, a tuition fee of \$5.00 is charged.

Persons who have property or means for their support, or who draw a pension sufficient therefor, will not be admitted to the Home; and if after admission, an inmate of the Home shall receive a pension or other means sufficient for his support, or shall recover his health so as to enable him to support himself, he will be discharged from the Home.

Regular appropriation by the state is \$14.00 per month for each member, and \$10.00 per month for each employe not a member of the Home.

IOWA SOLDIERS' ORPHANS' HOME-DAVENPORT.

Superintendent.—M. T. Gass Physican.—William L. Allen, M. D. Steward.—Henry Kallogg.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the

course of instruction of a high standard. A kindergarten is operated for the very young purils.

The age limit beyond which children are not kept in the Home is 16 years.

Less than 20 per cent remain to the age limit.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children, as from necessity their pastimes and pleasures are somewhat circumscribed.

It is the aim to provide the children with plenty of good comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the Home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food and a reasonable amount of luxuries.

The Home is supported by a regular appropriation of \$10 per month for each inmate and the actual transportation charges of inmates to and from the institution. Each county is liable to the state for the support of its children, except soldiers' orphans, who are cared for at the expense of the state.

COLLEGE FOR THE BLIND-VINTON.

Superintendent.—T. F. McCune.
Physician.—C. C. Griffen, M. D.
Oculist.—Lee Wallace Dean, M. D.
Steward.—John Cook.
Matron.—Mae Robertson.

There is a regular appropriation for this institution of \$22.00 per capita per month for nine months of each year to cover support and maintenance.

The school term begins on the first Wednesday in September and usually ends about the first of June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with thirty-seven planos, one pipe organ, several cabinet organs, and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this department.

In the industrial department the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, broom making, mattress making and cane seating. Those of either sex who so desire may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the state. All that the friends are expected to do to to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupil the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

NEW MILITIA LAW OF THE UNITED STATES

Introduced in the Fifty-seventh Congress by Gen. Chas. Dick, congressman from Ohio; approved by the President January 21, 1968. (Supercedes the obsolete militia law of 1792.)

H. F. 15, 345.

An Act To promote the efficiency of the militia, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the militia shall consist of every able-bodied male citizen of the respective States, Territories, and the District of Columbia, and every able-bodied male of foreign birth who has declared his intention to become a citizen, who is more than eighteen and less than forty-five years of age, and shall be divided into two classes—the organized militia, to be known as the National Guard of the State, Territory, or District of Columbia, or by such other designations as may be given them by the laws of the respective States or Territories, and the remainder to be known as the Reserve Militia.

SEC. 2. That the Vice-President of the United States, the officers, judicial and executive, of the Government of the United States, the members and officers of each House of Congress, persons in the military or naval service of the United States, all custom-house officers, with their clerks, postmasters and persons employed by the United States in the transmission of the mail, ferrymen employed at any ferry on a post road, artificers and workmen employed in the armories and arsenals of the United States, pilots, mariners actually employed in the sea service of any citizen or merchant within the United States, and all persons who are exempted by the laws of the respective States or Territories shall be exempted from militia duty, without regard to age; Provided, That nothing in this Act shall be construed to require or compel any member of any well-recognized religious sect or organization at present organized and existing whose creed forbids its members to participate in war in any form, and whose religious convictions are against war or participation therein, in accordance with the creed of said religious organization, to serve in the militia or any other armed or volunteer force under the jurisdiction and authority of the United States.

SEC. 3. That the regularly enlisted, organized, and uniformed active militia in the several States and Terr.tories and the District of Columbia who

have heretofore participated or shall hereafter participate in the apportionment of the annual appropriation provided by section sixteen hundred and sixty-one of the Revised Statutes of the United States, as amended, whether known and designated as National Guard, militia, or otherwise, shall constitute the organized militia. The organization, armanent, and discipline of the organized militia in the several States and Territories and in the District of Columbia shall be the same as that which is now or may hereafter be prescribed for the Regular and Volunteer Armies of the United States, within five years from the date of the approval of this Act: Provided, That the Fresident of the United States, in time of peace, may by order fix the minimum number of enlisted men in each company, troop, battery, signal corps, engineer corps, and hospital corps: And provided further, That any corps of artillery, cavalry and infantry existing in any of the States at the passage of the Act of May eighth, seventeen hundred and ninety-two, which by the laws, customs or usages of the said States have been in continuous existence since the passage of said Act under its provisions and under the provisions of Section two hundred and thirty-two and Sections sixteen hundred and twenty-five to sixteen hundred and sixty, both inclusive, of Title sixteen of the Revised Statutes of the United States relating to the Militia, shall be allowed to retain their accustomed privileges, subject nevertheless, to all other duties required by law in like manner as the other Militia.

- SEC. 4. That whenever the United States is invaded, or in danger of invasion from any foreign nation, or of rebellion against the authority of the Government of the United States, or the President is unable, with the other forces at his command, to execute the laws of the Union in any part thereof, it shall be lawful for the President to call forth, for a period not exceeding nine months, such number of the militia of the State or of the States or Territories or of the District of Columbia as he may deem necessary to repel such invasion, suppress such rebellion, or to enable him to execute such laws, and to issue his orders for that purpose to such officers of the militia as he may think proper.
- SEC. 5. That whenever the President calls forth the militia of any State or Territory or of the District of Columbia to be employed in the service of the United States, he may specify in his call the period for which such service is required, not exceeding nine months, and the militia so called shall continue to serve during the term so specified, unless sooner discharged by order of the President.
- Sec. 6. That when the militia of more than one State is called into the actual service of the United States by the President he may, in his discretion, apportion them among such States or Territories or to the District of Columbia according to revresentative population.
- SEC. 7. That every officer, and enlisted man of the militia who shall be called forth in the manner hereinbefore prescribed and shall be found fit for military service shall be mustered or accepted into the United States service by a duly authorized mustering officer of the United States: Provided, however, That any officer or enlisted man of the militia who shall refuse or neglect to present himself to such mustering officer upon being called forth as herein prescribed shall be subject to trial by court-martial, and shall be punished as such court-martial may direct.
- SEC. 8. That courts-martial for the trial of officers or men of the militia, when in the service of the United States, shall be composed of militia officers-only.

SEC. 9. That the militia, when called into the actual service of the United States, shall be subject to the same Rules and Articles of War as the regular troops of the United States.

SEC. 10. That the militia, when called into the actual service of the United States, shall, during their time of service, be entitled to the same pay and allowances as are or may be provided by law for the Regular Army.

SEC. II. That when the militia is called into the actual service of the United States, or any portion of the militia is accepted under the provisions of this Act, their pay shall commence from the day of their appearing at the place of company rendezvous. But this provision shall not be construed to authorize any species of expenditure previous to arriving at such places of rendezvous which is not provided by existing laws to be paid after their arrival at such places of rendezvous.

SEC. 12. That there shall be appointed in each State, Territory and District of Columbia, an adjutant-general, who shall perform such duties as may be prescribed by the laws of such State, Territory, and District, respectively, and make returns to the Secretary of War, at such times and in such form as he shall from time to time prescribe, of the strength of the organized militia, and also make such reports as may from time to time be required by the Secretary of War. That the Secretary of War shall, with his annual report of each year, transmit to Congress an abstract of the returns and reports of the adjutants-general of the States, Territories, and the District of Columbia, with such observations thereon as he may deem necessary for the information of Congress.

SEC. 18. That the Secretary of War is hereby authorized to issue, on the requisitions of the governors of the several States and Territories, or of the commanding general of the militia of the District of Columbia, such number of the United States standard service magazine arms, with bayonets, bayonet scabbards, gun slings, belts, and such other necessary accouterments and equipments as are required for the Army of the United States for arming all of the organized militia in said States and Territories and District of Columbia. without charging the cost or value thereof, or any of which have been issued since December first, nineteen hundred and one, or any expense connected therewith, against the allotment to said State, Territory, or District of Columbia, out of the annual appropriation provided by section sixteen hundred and sixty-one of the Revised Statutes, as amended, or requiring payment therefor, and to exchange, without receiving any money credit therefor, ammunition, or parts thereof, suitable to the new arms, round for round, for corresponding ammunition suitable to the old arms theretofore issued to said State, Territory, or District by the United States: Provided, That said rifles and carbines and other property shall be receipted for and shall remain the property of the United States and be annually accounted for by the governors of the States and Territories as now required by law, and that each State, Territory, and District shall, on receipt of the new arms, turn in to the Ordnance Department of the United States Army, without receiving any money credit therefor, and without expense for transportation, all United States rifles and carbines now in its possession.

To provide means to carry into effect the provisions of this section, the necessary money to cover the cost of exchanging or issuing the new arms, accounterments, equipments, and ammunition to be exchanged or issued hereunder is hereby appropriated out of any moneys in the Treasury not otherwise appropriated.

SEC. 14. That whenever it shall appear by the report of inspections, which it shall be the duty of the Secretary of War to cause to be made at least once in

each year by officers detailed by him for that purpose, that the organized militia of a State or Territory or of the District of Columbia is sufficiently armed, uniformed, and equipped for active duty in the field, the Secretary of War is authorized, on the requisition of the governor of such State or Territory, to pay to the quartermaster-general thereof, or to such other officer of the militia of said State as the said governor may designate and appoint for the purpose, so much of its allotment out of the said annual appropriation under section sixteen hundred and sixty-one of the Revised Statutes as amended as shall be necessary for the payment, subsistence, and transportation of such portion of said organized militia as shall engage in actual field or camp service for instruction, and the officers and enlisted men of such militia while so engaged shall be entitled to the same pay, subsistence, and transportation or travel allowances as officers and enlisted men of corresponding grades of the Regular Army are or may hereafter be entitled by law, and the officer so designated and appointed shall be regarded as a disbursing officer of the United States, and shall render his accounts through the War Department to the proper accounting officers of the Treasury for settlement, and he shall be required to give good and sufficient bonds to the United States, in such sums as the Secretary of War may direct, faithfully to account for the safe-keeping and payment of the public moneys so intrusted to him for disbursement.

SEC. 15. That the Secretary of War is hereby authorized to provide for participation by any part of the organized militia of any State or Territory on the request of the governor thereof in the encampment, maneuvers, and field instruction of any part of the Regular Army at or near any military post or camp or take or seacoast defenses of the United States. In such case the organized militia so participating shall receive the same pay, subsistence, and transportation as is provided by law for the officers and men of the Regular Army, to be paid out of the appropriation for the pay, subsistence, and transportation of the Army: Provided, That the command of such military post or camp and of the officers and troops of the United States there stationed shall remain with the regular commander of the post without regard to the rank of the commanding or other officers of the militia temporarily so encamped within its limits or in its vicinity.

SEC. 18. That whenever any officer of the organized militia shall, upon recommendation of the governor of any State, Territory, or general commanding the District of Columbia, and when authorized by the President, attend and pursue a regular course of study at any military school or college of the United States such officer shall receive from the annual appropriation for the support of the Army the same travel allowances, and quarters, or commutation of quarters, to which an officer of the Ragular Army would be entitled if attending such school or college under orders from proper military authority, and shall also receive commutation of subsistence at the rate of one dollar per day while in actual attendance upon the course of instruction.

SEC. 17. That the annual appropriation made by section sixteen hundred and sixty-one, Revised Statutes, as amended, shall be available for the purpose of providing for issue to the organized militia any stores and supplies or publications which are supplied to the Army by any department. Arry State, Territory, or the District of Columbia may, with the approval of the Secretary of War, purchase for each from the War Department, for the use of its militia, stores, supplies, material of war, or military publications, such as are furnished to the Army, in addition to those issued under the provisions of this Act, at the price at which they are listed for issue to the Army, with the cost of transpor-

tation added, and funds received from such sales shall be credited to the appropriations to which they belong and shall not be covered into the Treasury, but shall be available until expended to replace therewith the supplies sold to the States and Territories and to the District of Columbia in the manner herein provided.

SEC. 18. That each State or Territory furnished with material of war under the provisions of this or former Acts of Congress shall, during the year next preceding each annual allotment of funds, in accordance with section sixteen hundred and sixty-one of the Revised Statutes as amended, have required every company, troop, and battery in its organized militia not excused by the governor of such State or Territory to participate in practice marches or go into camp of instruction at least five consecutive days, and to assemble for drill and instruction at company, battalion, or regimental armories or rendezvous or for target practice not less than twenty-four times, and shall also have required during such year an inspection of each such company, troop, and battery to be made by an officer of such militia or an officer of the Regular Army.

SEC. 19. That upon the application of the governor of any State or Territory furnished with material of war under the provisions of this Act or former laws of Congress, the Secretary of War may detail one or more officers of the Army to attend any encampment of the organized militis, and to give such instruction and information to the officers and men assembled in such camp as may be requested by the governor. Such officer or officers shall immediately make a report of such encampment to the Secretary of War, who shall furnish a copy thereof to the governor of the State or Territory.

SEC. 20. That upon application of the governor of any State or Territory furnished with material of war under the provisions of this Act or former laws of Congress, the Secretary of War may, in his discretion, detail one or more officers of the Army to report to the governor of such State or Territory for duty in connection with the organized militia. All such assignments may be revoked at the request of the governor of such State or Territory or at the pleasure of the Secretary of War.

SEC. 21. That the troops of the militia encamped at any military post or camp of the United States may be furnished such amounts of ammunition for instruction in firing and target practice as may be prescribed by the Secretary of War, and such instruction in firing shall be carried on under the direction of an officer selected for that purpose by the proper military commander.

SEC. 22. That when any officer, noncommissioned officer, or private of the militia is disabled by reason of wounds or disabilities received or incurred in the service of the United States he shall be entitled to all the benefits of the pension laws existing at the the time of his service, and in case such officer, noncommissioned officer, or private dies in the service of the United States or in returning to his place of residence after being mustered out of such service, or at any time, in consequence of wounds or disabilities received in such service, his widow and children, if any, shall be entitled to all the benefits of such pension laws.

SEC. 23. That for the purpose of securing a list of persons specially qualified to hold commissions in any volunteer force which may hereafter be called for and organized under the authority of Congress, other than a force composed of organized militia, the Secretary of War is authorized from time to time to convene boards of officers at suitable and convenient army posts in different parts of the United States, who shall examine as to their qualifications for the

command of troops or for the performance of staff duties all applicants who shall have served in the Regular Army of the United States, in any of the volunteer forces of the United States, or in the organized militia of any State or Territory or District of Columbia, or who, being a citizen of the United States, shall have attended or pursued a regular course of instruction in any military school or college of the United States Army, or shall have graduated from any educational institution to which an officer of the Army or Navy has been detailed as superintendent or professor pursuant to law after having creditably pursued the course of military instruction therein provided. Such examinations shall be under rules and regulations prescribed by the Secretary of War, and shall be especially directed to ascertain the practical capacity of the applicant. The record of previous service of the applicant shall be considered as a part of the examination. Upon the conclusion of each examination the board shall certify to the War Department its judgment as to the fitness of the applicant, stating the office, if any, which it deems him qualified to fill, and, upon approval by the President, the names of the persons certified to be qualified shall be inscribed in a register to be kept in the War Department for that purpose. The persons so certified and registered shall, subject to a physical examination at the time, constitute an eligible class for commissions pursuant to such certificates in any volunteer force hereafter called for and organized under the authority of Congress, other than a force composed of organized militia, and the President may authorize persons from this class, to attend and pursue a regular course of study at any military school or college of the United States other than the Military Academy at West Point and to receive from the annual appropriation for the support of the Army the same allowances and commutations as provided in this Act for officers of the organized militia: Provided. That no person shall be entitled to receive a commission as a second lieutenant after he shall have passed the age of thirty; as first lieutenant after he shall have passed the age of thirty-five; as captain after he shall have passed the age of forty; as major after he shall have passed the age of forty-five; as lieutenant colonel after he shall have passed the age of fifty, or as colonel after he shall have passed the age of fifty-five: And provided further, That such appointments shall be distributed proportionately, as near as may be, among the various States contributing such volunteer force: And provided, That the appointments in this section provided for shall not be deemed to include appointments to any office in any company, troop, battery, battalion, or regiment of the organized militia which volunteers as a body or the officers of which are appointed by the governor of a State or Territory.

SEC. 24. That all the volunteer forces of the United States called for by authority of Congress shall, except as hereinbefore provided, be organized in the manner provided by the Act entitled "An Act to provide for temporarily increasing the military establishment of the United States in time of war, and for other purposes," (approved April twenty-second, eighteen hundred and ninety-eight.

SEC. 25. That sections sixteen hundred and twenty-five to eixteen hundred and sixty, both included, of title sixteen of the Revised Statutes, and section two hundred and thirty-two thereof, relating to the militia, are hereby repealed.

SEC. 25. That this Act shall take effect upon the date of its approval, Approved, January 21, 1908.

NATIONAL PLATFORM.

The republicans of the United States, through their chosen representatives, meet in national convention, looking back upon an unsurpassed record of achievement and looking forward into a great field of duty and opportunity; and, appealing to the judgment of their countrymen, make these declarations.

PREAMBLE.

The expectation in which the American people, turning from the democratic party, intrusted power four years ago to a republican chief magistrate and a republican congress, has been met and satisfied. When the people then assembled at the polls, after a term of democratic legislation and administration, business was dead, industry paralyzed, and the national credit disastrously impaired. The country's capital was hidden away and its labor distressed and unemployed. The democrats had no other plan with which to

improve the ruinous conditions, which they had themselves produced, than to coin silver at the ratio of 16 to 1.

PLEDGES FILLED.

The republican party, denouncing this plan as sure to produce conditions even worse than those from which relief was sought, promised to restore prosperity by means of two legislative measures—a protective tariff and a law making gold the standard of value.

The people, by great majorities, issued to the republican party a commission to enact these laws. This commission has been executed, and the republican promise is redeemed.

Prosperity more general and more abundant than we have ever known has followed these enactments. There is no longer controversy as to the value of any government obligations. Every American dollar is a gold dollar or its assured equivalent, and American credit stands higher than that of any nation. Capital is fully employed, and everywhere labor is profitably occupied. No single fact can more strikingly tell the story of what republican government means to the country than this—that, while during the whole period of 107 years, from 1790 to 1897, there was an excess of exports over imports of only \$333,028,497, there has been, in the short three years of the present republican administration an excess of exports over imports in the enormous sum of \$1,488,597,094.

TRIUMPH IN WAR.

And while the American people, sustained by this republican legislation, have been achieving these splendid triumphs in their business and commerce, they have conducted, and in victory concluded, a war for liberty and human rights. No thought of national aggrandizement tarnished the high purpose with which American standards were unfurled.

It was a war unsought and patiently resisted, but when it came the American government was ready. Its fleets were cleared for action. Its armies were in the field, and the quick and signal triumph of its forces on land and sea bore equal tribute to the courage of American soldiers and sailors and to the skill and forcesight of republican statesmanship. To ten millions of the human race there was given "a new birth of freedom," and to the American people a new and noble responsibility.

TRUE TO M'KINLEY.

We indorse the administration of William McKinley. Its acts have been established in wisdom and in patriotism and at home and abroad it has distinctly elevated and extended the influence of the American nation.

Walking untried paths and facing unforeseen responsibilities, President McKinley has been in every situation the true American patriot and the upright statesman, clear in vision, strong in judgment, firm in action, always inspiring, and deserving the confidence of his countrymen.

In asking the American people to endorse this republican record and to renew their commission to the republican party, we remind them of the fact that the menace to their prosperity has always resided in democratic principles and no less in the general incapacity of the democratic party to conduct public affairs.

The prime essential of business prosperity is public confidence in the good sense of the government and in its ability to deal intelligently with each new

problem of administration and legislation. That confidence the democratic party has never earned. It is hopelessly inadequate, and the country's prosperity when democratic success at the polls is announced halts and ceases in mere anticipation of democratic failures and blunders.

GOLD STANDARD.

We renew our allegiance to the principles of the gold standard and declare our confidence in the wisdom of the legislation of the Fifty-sixth Congress by which the parity of all our money and the stability of our currency on a gold basis have been secured.

We recognize that interest rates are a potent factor in production and business activity, and for the purpose of further equalizing and of further lowering the rates of interest we favor such monetary legislation as will enable the varying needs of the season and of all sections to be promptly met, in order that trade may be evenly sustained, labor steadily employed and commerce enlarged.

The volume of money in circulation was never so great per capita as it is to-day. We declare our steadfast opposition to the free and unlimited coinage of silver. No measure to that end could be considered which was without the support of the leading commercial countries of the world. However firmly republican legislation may seem to have secured the country against the peril of base and discredited currency, the election of a democratic president could not fall to impair the country's credit and to bring once more into question the intention of the American people to maintain upon the gold standard the parity of their money circulation. The democratic party must be convinced that the American people will never tolerate the Chicago platform.

AGAINST TRUSTS.

We recognize the necessity and propriety of the honest co-operation of capital to meet new business conditions, and especially to extend our rapidly increasing foreign trade, but we condemn all conspiracies and combinations intended to restrict business, to create monopolies, to limit production or to control prices, and favor such legislation as will effectually restrain and prevent all such abuses, protect and promote competition and secure the rights of producers, laborers and all who are engaged in industry and commerce.

PROTECTION.

We renew our faith in the policy of protection to American labor. In that policy our industries have been established, deversified and maintained. By protecting the home market, the competition has been stimulated and production cheapened. Opportunity to the inventive genius of our people has been secured and wages in every department of labor maintained at high rates, higher now than ever before, always distinguishing our working people in their better conditions of life from those of any competing country.

Enjoying the blessings of American common schools, secure in the right of self-government and protected in the occupancy of their own markets, their constantly increasing knowledge and skill have enabled them finally to enter the markets of the world. We favor the associated policy of reciprocity, so directed as to open our markets on favorable terms for what we do not our solves produce, in return for free foreign markets.

FOR LABOR.

In the further interest of American workmen we favor a more effective restriction of the immigration of cheap labor from foreign lands, the extension of opportunities of education for working children, the raising of the age limit for child labor, the protection of free labor as against contract convict labor, and an effective system of labor insurance.

MERCHANT MARINEL

Our present dependence upon foreign shipping for nine tenths of our foreign carrying is a great loss to the industry of this country. It is also a serious danger to our trade, for its sudden withdrawal in the event of European war would seriously oripple our expanding foreign commerce. The national defense and naval efficiency of this country, moreover, supply a competent reason for legislation which will enable us to recover our former place among the trade carrying fleets of the world.

PENSTONS.

The nation owes a debt of profound gratitude to the soldiers and sailors who have fought its battles, and it is the government's duty to provide for the survivors and for the widows and orphans of those who have fallen in the country's wars.

The pension laws, founded in this sentiment, should be liberal and should be liberally administered and preference should be given, wherever practicable, with respect to employment in the public service to soldiers and sailors and to their widows and orpha.".

CIVIL SERVICE.

We commend the polloy of the republican party in maintaining the efficiency of the civil service. The administration has acted wisely in its effort to secure for public service in Cubs, Porto Rico, Hawaii, and the Philippine islands only those whose fitness has been determined by training and experience. We believe that employment in the public service in these territories should be confined, as far as practicable, to their inhabitants.

It was the plain purpose of the fifteenth amendment to the constitution to prevent discrimination on account of race or color in regulating the elective franchise. Devices of state governments, whether by statutory or constitutional enactment, to avoid the purpose of this amendment are revolutionary and should be condemned.

Public movements looking to a permanent improvement of the roads and highways of the country meet with our cordial approval, and we recommend this subject to the earnest consideration of the people and of the legislatures of the several states.

We favor the extension of the rural free delivery service wherever its extension may be justified.

In further pursuance of the constant policy of the republican party to provide free homes on the public domain, we recommend adequate national legislation to reclaim the arid lands of the United States, reserving control of the distribution of water for irrigation to the respective states and territories.

We favor home rule for and the early admission to statehood of the territories of New Mexico, Arizons and Oklahoma.

WAR TAXES.

The Dingley act, amended to provide sufficient revenue for the conduct of the war, has so well performed its work that it has been possible to reduce the war debt in the sum of \$40,000,000. So ample are the government's revenues, and so great is the public confidence in the integrity of its obligation, that its newly funded two per cent bonds sell at a premium. The country is now justified in expecting, and it will be the policy of the republican party to bring about a reduction of the war taxes.

ISTRMIAN CANAL.

We favor the construction, ownership, control and protection of an isthmian canal by the government of the United States. New markets are necessary for the increasing surplus of our farm products. Every effort should be made to open and obtain new markets, especially in the Orient, and the administration is warmly to be commended for its successful effort to commit all trading and colonizing nations to the policy of the open door in China.

In the interest of our expanding commerce we recommend that congress create a department of commerce and industry in the charge of a secretary with a seat in the cabinet.

The United States consular system should be recognized under the super vision of this new department upon such a basis of appointment and tenure as will render it still more servicable to the nations increasing trade.

The American government must protect the person and property of every citizen wherever they are wrongfully violated or placed in peril.

We congratulate the women of America upon their splendid record of public service in the Volunteer Aid association, and as nurses in camp and hospital during the recent campaigns of our armies in the Eastern and Western Indies, and we appreciate their faithful co-operation in all works of education and industry.

FORMIGN POLICY.

President McKinley has conducted the foreign affairs of the United States with distinguished credit to the American people. In releasing us from the verations conditions of an European alliance for the government of Samoa, his course is especially to be commended. By securing to our undivided control the most important island of the Samoan group and the best harbor in the Southern Pacific, every American interest has been safeguarded.

We approve the annexation of the Hawaiian Island; to the United States.

We commend the part taken by our government in the peace conference at the Hague.

BOER WAR.

We assert our steadfast adherence to the policy announced in the Monroe doctrine. The provisions of the Hague convention were wisely regarded when President McKinley tendered his friendly offices in the interest of peace between Great Britain and the South African republic.

While the American government must continue the policy prescribed by Washing on, affirmed by every succeeding president and imposed upon us by the Hague treaty, of non-intervention in European controversies, the American people carnestly hope that a way may soon be found, homorably alike to both contending parties, to determine the strife between them.

PHILIPPINES.

In accepting by the treaty of Paris the just responsibility of our victories in the Spanish war, the president and the senate won the undoubted approval of the American people. No other course was possible than to destroy Spain's sovereignity throughout the Western Indies and in the Philippine islands.

That course created our responsibility before the world and with the unorganized population whom our intervention had freed from Spain, to provide for the maintenance of law and order, and for the establishment of good government, and for the performance of international obligations.

Our authority could not be less than responsibility, and wherever sovereign rights were extended it became the high duty of the government to maintain its authority, to put down armed insurrection, and to confer the blessings of liberty and civilization upon all the rescued peoples.

The largest measure of self-government consistent with their welfare and our duties shall be secured to them by law.

PLEDGE TO CUBA.

To Cuba independence and self-government were assured in the same voice by which war was declared, and to the letter this pledge should be performed.

The Republican party upon its history and upon its declaration of its princiciple: and policies confidently invokes the considerate and approving judgment of the American people.

National convention, Kausas City, July 4, 1900.

Temporary Chairman—Gov. Charles Thomas, of Colorado.

Permanent Chairman—Hon. J. D. RICHARDSON. of Tennessee.

NATIONAL PLATFORM.

We, the representatives of the democratic party of the United States, assembled in national convention, on the anniversary of the adoption of the Declaration of Independence, do reaffirm our faith in that immortal proclams tion of the inalienable rights of man and our allegiance to the Constitution framed in harmony therewith by the fathers of the republic. We hold with the United States supreme court, that the Declaration of Independence is the spirit of our government, of which the Constitution is the form and letter.

We declare again that all governments instituted among men derive their just powers from the consent of the governed; that any government not based upon the consent of the governed is a tyranny, and that to impose upon any people a government of force is to substitute the methods of imperialism for those of a republic. We hold that the Constitution follows the flag, and denounce the doctrine that an executive or congress, deriving their existence and their powers from the Constitution, can exercise lawful authority beyond it, or in violation of it.

We assert that no nation can long endure half republic and half empire, and we warn the American people that imperialism abroad will lead quickly and inevitably to despotism at home.

PORTO RICO LAW DENOUNCED.

Believing in these fundamental principles, we denounce the Porto Rico law, enacted by a republican congress against the protest and opposition of the democratic minorty, as a bold and open violation of the nation's organic law, and a flagrant breach of the national good faith.

It imposes upon the people of Porto Rico a government without their consent, and taxation without representation. It dishonors the American people by repudiating a solemn pledge made in their behalf by the commanding general of our army, which the Porto Ricans welcomed to a peaceful and unresisted occupation of their land. It doomed to poverty and distress a people whose helplessness appeals with peculiar force to our justice and magnanimity.

In this, the first act of its imperialistic program, the republican party seeks to commit the United States to a colonial policy, inconsistent with republican institutions, and condemned by the supreme court in numerous decisions.

PLEDGES TO THE CUBANS.

We demand the prompt and honest fulfillment of our pledge to the Cuban people and the world that the United States has no disposition nor intention to exercise sovereignty, jurisdiction, or control over the Island of Cuba, except for its pacification. The war ended nearly two years ago, profound peace reigns over all the island, and still the administration keeps the government of the island from its people, while republican carpet-bag officials plunder its revenues and exploit the colonial theory, to the disgrace of the American people.

THE PHILIPPINE QUESTION.

We condemn and denounce the Philippine policy of the present administration. It has involved the republic in unnecessary war, sacrificed the lives of many of our noblest sons, and placed the United States, previously known and applauded throughout the world as the champion of freedom, in the false and un-American position of ornshing with military force the efforts of our former allies to achieve liberty and self-government. The Filipinos cannot become citizens without endangering our civilization; they cannot become subjects without imperiling our form of government and we are not willing to sur-ender our civilization or to convert the republic into an empire; we favor an immediate declaration of the nation's purpose to give to the Filipinos, first, a stable form of government; second, independence; and third, protection from outside interference, such as has been given for nearly a century to the republics of Central and Southern America.

The greedy commercialism which dictated the Philippine policy of the republican administration attempts to justify it with the plea that it will pay, but even this sordid and unworthy plea fails when brought to the test of facts. The war of criminal aggression against the Filipinos, entailing an annual expense of many millions, has already cost more than any possible profit that could accrue from the entire Philippine trade for years to come. Furthermore, when trade is extended at the expense of liberty the price is always too high.

We are not opposed to territorial expansion when it takes in desirable territory which can be erected into states in the Union and whose people are willing and fit to become American citizens.

We favor trade expansion by every peaceful and legitimate means. But we are unalterably opposed to the seizing or purchasing of distant islands to be governed outside the constitution and whose people can never become citizens.

We are in favor of extending the republic's influence among the nations, but we believe that influence should be extended, not by force and violence, but through the persuasive power of a high and honorable example.

The importance of other questions now pending before the American people is in no wise diminished, and the democratic party takes no backward step from its position on them, but the burning issue of imperialism growing out of the Spanish war involves the very existence of the republic and the destruction of our free institutions. We regard it as the paramount issue of the campaign.

THE MONROE DOCTRING.

The declaration in the republican platform adopted at the Philadelphia convention, held in June 1900, that the republican party "steadfastly adheres to the policy announced in the Monroe doctrine" is manifestly insincere and deceptive. This profession is contradicted by the avowed policy of that party in opposition to the spirit of the Monroe doctrine to acquire and hold sovereignty over large areas of territory and large numbers of people in the eastern hemisphere. We insist on the strict maintenance of the Monroe doctrine and in all its integrity, both in letter and in spirit, as necessary to prevent the extension of European authority on this continent and as essential to our supremacy in American affairs. At the same time we declare that no American people shall ever be held by force in unwilling subjection to European authorities.

OPPOSITION TO MILITARISM.

We oppose militarism. It means conquest abroad and intimidation and oppression at home. It means the strong arm which has ever been fatal to free institutions. It is what millions of our citizens have fled from in urope. t will impose upon our peace-loving people a large standing army and unnecessary burden of taxation and a constant menace to their liberties.

A small standing army with a well disciplined state militia are amply sufficient in times of peace. This republic has no place for a vast military service and conscription,

When the nation is in danger the volunteer soldier is his country's best defender. The national guard in the United States should ever be cherished in the patriotic hearts of a free people. Such organizations are ever an element of strength and safety.

For the first time in our history and co-evil with the Philippine conquest has there been a wholesale departure from our time honored and approved system of volunteer organization. We denounce it as un-American, un-Democratic and un-Republican, and as a subversion of the ancient and fixed principles of a free people.

TRUSTS DENOUNCED.

Private monopolies are indefensible and intolerable. They destroy competition, control the price of all materials and of the finished product, thus robbing both producer and consumer. They lessen the employment of labor and arbitrarily fix the terms and conditions thereof, and deprive individual energy and small capital of their opportunity for betterment. They are the most efficient means yet devised for appropriating the fruits of industry to the benefit of the few at the expense of the many, and unless their insaliate greed is checked, all wealth will be aggregated in a few hands and the republic destroyed.

The dishonest pattering with the trust evil by the republican party in state and national platforms is conclusive proof of the truth of the charge that trusts are the legitimate product of republican polities, that they are fostered by republican laws, and that they are protected by the republican administration in return for the campaign subscriptions and political support.

We pledge the democratic party to an increasing warfare in nation, state and city against private monopoly in every form. Existing laws against trusts must be enforced, and more stringent ones must be enacted, providing for publicity as to the affairs of corporations engaged in interstate commerce, and requiring all corporations to show, before doing business outside of the state of their origin, that they have no water in their stock, and that they have not attempted and are not attempting to monopolize any branch of business or the production of any articles of merchandise, and the whole constitutional power of congress over inter-state commerce, the mails and all modes of inter-state communication shall be exercised by the enactment of comprehensive laws upon the subject of trusts.

Tariff laws should be amended by putting the products of trusts upon the free list to prevent monopoly under the plea of protection.

The failure of the present republican administration, with an absolute control over all the branches of the national government, to enact any legislation designed to prevent or even curtail the absorbing power of trusts and illegal combinations, or to enforce the anti-trust laws already on the statute books, proves the insincerity of the high-sounding phrases of the republican platform.

Corporations should be protected in all their rights, and their legitimate interests should be respected, but any attempt by corporations to interfere with the public affairs of the people or to control the sovereignty which creates them should be forbidden under such penalties as will make such attempts impossible.

We condemn the Dingley tariff law as a trust-breeding measure, skillfully devised to give the few favors which they do not deserve, and to place upon the many burdens which they should not bear.

INTERSTATE COMMERCE LAW.

We favor such an enlargement of the scope of the interstate commerce law as will enable the commission to protect individuals and communities from discriminations and the public from unjust and unfair transportation rates.

DECLARATION FOR 16 TO 1.

We reaffirm and indorse the principals of the national democratic platform adopted at Chicago in 1896, and reiterate the demand of that platform for an American financial system, made by the American people for themselves, which shall restore and maintain a bimetalic level, and as a part of such system the immediate restoration of the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the sid or consent of any other nation.

CURRENCY LAW DENOUNCED.

We denounce the currency bill enacted at the last session of congress as a step forward in the republican policy which aims to discredit the sover gn right of the national government to issue all money, whether coin or paper, and to bestow upon national banks the power to issue and control the volume of paper money for their own benefit.

A permanent national bank currency, secured by government bonds, mu't have a permanent debt to rest upon, and if the bak currency is to increase with population and business the debt must also increase. The republican currency scheme is therefore a scheme for fastening upon taxpayers a perpetual and growing debt for the benefit of the banks.

We are opposed to this private corporation paper circulated as money, but without legal-tender qualities, and demand the retirement of the national bank notes as fast as government paper or silver certificates can be substituted for them.

SENATORS ELECTED BY THE PEOPLE.

We favor an amendment to the federal constitution providing for the election of United States senators by direct vote of the people, and we favor direct legislation whereever practicable.

GOVERNMENT BY INJUNCTION.

We are opposed to the government by injurction; we denounce the blacklist, and favor arbitration as a means of settling disputes between corporations and employes.

DEPARTMENT OF LABOR.

In the interest of American labor and the uplifting of the workingmen, as the cornerstone of the prosperity of our country, we recommend that congress create a department of labor, in charge of a secretary, with a seat in the cabinet, believing that the elevation of the American laborer will bring with it increased production and increased prosperity to our country at home and to our commerce abroad.

PENSIONS.

We are proud of the courage and fidelity of the American soldiers and sailors in all our wars; we favor liberal pensions to them and their dependents, and we reiterate the position taken in the Chicago platform in 1896, that the fact of enlistment and service shall be deemed conclusive evidence against disease and disability before anlistment.

NICARAGUA CANATA

We favor the immediate construction, ownership and control of the Nicaragur canal by the United States, and we denounce the insincerity of the plank in the national republican platform for an Isthmain canal in face of the failure of the republican majority to pass the bill pending in congress.

We condemn the Hay-Pauncefoie treaty as a surrender of American rights and interests and not to be tolerated by the American people.

STATEHOOD FOR THE TERRITORYES.

We denounce the failure of the republican party to carry out its pledges, to grant statehood to the territories of Arizona. New Mexico and Oklahoma, and we promise the people of those territories immediate statehood and home rule during their condition as territories, and we favor home rule and a territorial form of povernment for Alaska and Porto Rico.

ARID LANDS.

We favor an intelligent system of improving the arid lands of the west, storing the waters for purposes of irrigation, and the holding of such lands for actual settlers.

CHINESE EXCLUSION LAW.

We favor the continuance and strict enforcement of the Chinese exclusion law and its application to the same classes of all Asiatic races.

ALLIANCE WITH ENGLAND.

Jefferson said: "Peace, commerce and honest friendship with all nations, entangling alliances with none."

We approve this wholesome doctrine and earnestly protest against the republican departure which has involved us in so-called politics, including the diplomacy of Europe and the intrigue and land-grabbing of Asia, and we especially condemn the ill-concealed republican alliance with England, which must mean discrimination against other friendly natious, and which has already stifled the nation's voice while liberty is being strangled in Africa.

SYMPATHY FOR THE BOERS.

Believing in the principles of self-government, and rejecting, as did our foreithers, the claim of monarchy, we view with indignation the purpose of England to overwhelm with force the South African republics. Speaking, as we do, for the entire American nation, except its republican officeholders, and for all free men everywhere, we extend our sympathy to the heroic burghers in their unequal struggle to maintain their liberty and independence.

REPUBLICAN APPROPRIATIONS.

We denounce the lavish appropriations of recent republican congresses, which have kept taxes high, and which threaten the perpetuation of the oppressive war lavies.

SHIP-SUBSIDY BILL.

We oppose the accumulation of a surplus to be squandered in such bare faced frauds upon the taxpayers as the shipping subsidy bill, which, under the false pretense of prospering American shipbuilding, would put unearned millions into the pockets of favorite contributors to the republican campaign fund.

REPEAL OF THE WAR TAXES.

We favor the reduction and speedy repeal of the war taxes, and a return to the time-honored democratic policy of strict economy in governmental expend Itures.

CONCLUDING PLEA TO THE PROPLE.

Believing that our most cherished institutions are in great peril, that the very existence of our constitutional republic is at stake, and that the decision now to be rendered will determine whether or not our children are to enjoy those blessed privileges of free government which have made the United States great, prosperous and honored, we earnestly ask for the foregoing declaration of principles the hearty support of the liberty-loving American people, regardless of previous party affiliations.

NATIONAL PLATFORM.

PREAMBLE

The national prohibition party, in convention represented, at Chicago, June 27 and 28, 1900, acknowledge almighty God as the supreme source of all just

government. Realizing that this republic was founded upon Chri tian principles, and can endure only as it embodies justness and righteousness, and asserting that all authority should seek the best good of all the governed, to this end wisely prohibiting what is wrong and permitting only what is right, hereby records and proplaims:

DEFINITION OF PARTY AND ARRAINGEMENT OF PARTIES.

1. We accept and assert the definition given by Edmun'l Burke, that "a party is a body of men joined together for the purpose of promoting, by their joint endeavor, the national interest upon some particular principle upon which they are all agreed." We declare that there is no principle now advocated by any other party which could be made a fact in government with such beneficent moral and material results as the principle of prohibition, applied to the beverage liquor traffic; that the national interest could be promoted in no other way so surely and widely as by its adoption and assertion through a national policy, and the co-operation therein of every state, forbidding the manufacture, sale, exportation, importation and transportation of intoxicating liquors for beverage purposes; that we stand for this as the only principle proposed by any party any where for the settlement of a question greater and graver than any other before the American people, and involving more profoundly than any other their moral future and financial welfare; and that all the patriotic citizenship of this country, agreed upon this principle, however much disagreement there may be as to minor considerations and issues, should stand together at the ballot-box from this time forward until prohibition is the established policy of the United States, with a party in power to enforce it and to insure its moral and material benefits.

We insist that such a party, agreed upon this principle and policy, having sober leadership, without any obligation for success to the saloon vote and to those demoralizing political combinations of men and money now allied therewith and suppliant thereto, could successfully cope with all other and lesser problems of government, in legislative halls and in the executive chair, and that it is useless for any party to make declarations in its platform as to any questions concerning which there may be serious differences of opinion in its own membership, and as to which, because of such differences, the party could legislate only on a basis of mutual concessions when coming into power.

We submit that the democratic and republican parties are alike insincere in their assumed hostility to trusts and monopolies. They dare not and do not attack the most dangerous of them all, the liquor power. So long as the saloon debauches the citizen and breeds the purchasable voter, money will continue to buy its way to power. Break down this traffic, elevate manhood, and a sober citizenship will find a way to control dangerous combinations of capital.

We propose as a first step in the fin noisi problems of the nation to save more than a billion of dollars every year, now annually expended to support the liquor traffic and to demoralize our people. When that is accomplished, conditions will have so improved that with a clearer atmosphere the country can address itself to the questions as to the kind and quantity of currency needed.

THE ISSUE PRESENTED.

We reaffirm as true indisputably the declaration of William Windom, when secretary of the treasury in the cabinet of President Arthur, that "Considered socially, financially, politically or morally, the licensed liquor traffic is or ought to be the overwhelming issue in American politics," and that "the destruction of this iniquity stands next on the calendar of the world's prog. ress." We hold that the existence of our party presents this issue squarely to the American people, and lays upon them the responsibility of choice between liquor parties, dominated by distillers and brewers, with their policy of saloon perpetuation, breeding waste, wickedness, woe, pauperism, taxation, corruption and crime, and our one party of patriotic and moral principle, with a policy which defends it from dominations by corrupt bosses and which insures it forever against the blighting control of saloon politics.

We face with sorrow, shame and fear, the awful fact that this liquor traffic has a grip on our government, municipal, state and national, through the revenue system and saloon sovereignty, which no other party dares to dispute; a grip which dominates the party now in power, from cancus to congress, from policeman to president, from the rum shop to the white house; a grip which compels the chief executive to consent that law shall be nullified in behalf of the brewer, that the can een shall curse our army and spread intemperance across the seas, and that our flag shall wave as the symbol of partnership at home and abroad, between this government and the men who defy and defile it for their unholy gain.

THE PRESIDENT ARRAIGNED.

3. We charge upon President McKinley, who was elected to his high office by appeals to Christian sentiment and patriotism almost unprecedented and by a combination of moral influences never before seen in this country, that, by his conspicuous example as a wine-drinker at public banquets and as a wine-serving host in the white house, he has done more to encourage the liquor business, to demoralize the temperance habits of young men, and to bring Christian practices and requirements into disrepute than any other president this republic has ever had. We further charge upon President McKinley responsibility for the army canteen, with all it dire brood of disease, immorality, an and death, in this country, in Cuba, in Porto Rico and in the Philippines; and we insist that by his attitude concerning the canteen, and his apparent contempt for the vast number of petitions and petitioners protesting against it, he has outraged and degree, as calls for its righteous uprising and his indignant and effective rebuke.

We challenge denial of the fact that our chief executive, as commander-inchief of the military forces of the United States, at any time prior to or since March 2, 1899, could have closed every army saloon, called a canteen, by executive order, as President Haves in effect did before him, and should have closed them, for the same reasons which actuated President Hayes; we assert that the act of congress, passed March 2, 1899, forbidding the sale of liquor, "in auy post-exchange or cauteen," by any "officer or private soldier" or by "any other person on any premises used for military purposes in the United States," was and is as explicit an act of prohibition as the English language can frame; we declare our solemn belief that the attorney-general of the United States in his interpretation of that law, and the secretary of war in his acceptance of that interpretation and his refusal to enfore the law, were and are guilty of treasonable nullification thereof, and that President McKinley, through his assent to and endorsement of such interpretation and refusal, on the part of officials appointed by and responsible to him, shares responsibility in their guilt; and we record our conviction that a new and serious peril confronts our country, in the fact that its president, at the behest of the beer power, dare and does abrogate a law of congress, through subordinates removable at will by him and whose acts become his, and thus virtually confesses that laws are to be administered, or to be nullified in the interest of a law-defying business, by an administration under mortgage to such business for support.

FORBIGN LIQUOR POLICY CONDEMNED.

- 4. We deplore the fact that an administration of this republic, claiming the right and power to carry our flag across seas, and to conquer and to annex new territory, should admit its lack of power to prohibit the American salcon on subjugated soil, or should openly confess itself subject to liquor sovereignty under that flag. We are humiliated, exasperated, and grieved, by the evidence painfully abundant, that this administration's policy of expansion is bearing so rapidly its first truits of drunkenness, insanity and crime under the hot-house sun of the tropics; and when the president of the first Philippine commission says "It was unfortunate that we introduced and established the salcon there to corrupt the natives and to exhibit the vices of our race," we charge the inhumanity and unshristianity of this act upon the administration of William McKinley, and upon the party which elected and would perpetuate the same.
- 5. We declare that the only policy which the government of the United States can of right uphold as to the liquor traffic, under the National Constitution, upon any territory under the military or civil control of that government, is the policy of prohibition; that "to establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity," as the Constitution provides, the liquor traffic must neither be sanctioned nor tolerated, and that the revenue policy, which makes our government a partner with distillers and brewers and bar-keepers, is a disgrace to our civilization, an outrage upon humanity, and a crime against God.

We condemn the present administration at Washington because it has repealed the prohibitory laws in Alaska, and has given over the partly civilized tribes there to be the prey of the American grog shop; and because it has entered upon a license policy in our new possessions by incorporating the same in the recent act of congress in the code of laws of the government of the Hawaiian islands.

We call general attention to the fearful fact that exportation of liquors from the United States to the Philippine islands increa ed from \$887 in 1998, to \$407, 198 in the first ten months of the fiscal year ending June 30, 1900; and that while our exportation of liquors to Cuba never reached \$80,000 a year previous to American occupation of that island, our exports of such liquors to Cuba during the fiscal year of 1899, reached the sum of \$629,855.

CALL TO MORAL AND CHRISTIAN CITIZENSHIP.

6. One great religious body (the Baptist) having truly declared of the liquor traffic "that it has no defensible right to exist, that it can never be reformed, and that it stands condemned by its unrighteous fruits as a thing un-Christian, un-American, and perilous utterly to every interest in life;" another great religious body (the Methodist) having as truly as erted and reiterated that "no political party has a right to expect, nor should receive, the votes of Christian men so long as it stands committed to the license system, or refuses to put itself on record in an attitude of open hostility to the saloon;" other great religion bodies having made similiar oiliverances, in language plain and un-

equivocal, as to the liquor traffic and the duty of Christian citizenship in opposition thereto; and the fact being plain and undenta 1 that the democratic party stands for license, the salcon and the canteen, while the republican party, in polloy and administration, stands for the canteen, the salcon, and revenue therefrom, we declare curselves justified in expecting that Christian voters everywhere shall cease their complicity with the liquor curse by refusing to uphold a liquor party, and shall unite themselves with the only party which upholds the prohibition policy, and which for nearly thirty years has been the faithful defender of the church, the state, the home and the school, against the salcon, its expanders and perpetuators, their actual and persistent foes.

We insist that no differences of belief, as to any other question or concern of government, should stand in the way of such a union of moral and Christian citizenship as we hereby invite, for the speedy settlement of this paramount moral, industrial, financial and political issue, which our party presents; and we refrain from declaring ourselves upon all minor matters, as to which differences of opinion may exist, that hereby we may offer to the American people a platform so broad that all can stand upon it who desire to see sober citizenship actually sovereign over the allied hosts of evil, sin and crime, in a government of the people, by the people and for the people.

We declare that there are but two parties, to-day, concerning the liquor traffic-perpetuationists and prohibitionists; and that patriotism. Christianity and every interest of genuine and of pure democracy, besides the loyal demands of our common humanity, require the speedy union in one solid phalanx at the ballot box, of all who oppose the liquor traffic's perpetuation, and who covet and urance for this republic.

Permanent Chairman.—Col. W. L. Peek, of Georgia.

NATIONAL PLATFORM.

The people's party of the United States, assembled in national convention this 10th of May, 1900, affirming our unshaken belief in the cardinal tenets of the people's party as set forth in the Omaha platform, and pledging ourselves anew to continued advocacy of those grand principles of human liberty until right shall triumph over might and love over greed, do adopt and proclaim this declaration of faith:

- I. We demand the initiative and referendum and the imperative mandate for such changes of existing fundamental and statute law as will enable the people in their sovereign capacity to propose and compel the enactment of such laws as they desire, to reject such as they deem injurious to their interests, and to recall unfaithful public servants.
- 2. We demand the public ownership and operation of those means of communication, transportation and production which the people may elect, such as railroads, telegraph and telephone lines, coal mines, etc.
- 8. The land, including all natural sources of wealth, is a heritage of the people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.
- 4. A scientific and abolute paper money, based upon the entire wealth and population of the nation, not redeemable in any specific commodity, but made a full legal tender for all debts and receivable for all taxes and public dues, and issued by the government only, without the intervention of banks, and in sufficient quantity to meet the demands of commerce, is the best currency that can be devised, but until such a financial system is secured, which we shall press for adoption, we favor the free and unlimited coinage of both silver and gold at the legal ratio of 16 to 1.
- 5. We demand the levy and collection of a graduated tax on incomes and inheritances and a constitutional amendment to secure the same if necessary.
- We demand the election of president, vice-president, federal judges and United States senators by direct vote of the people.
- 7. We are opposed to trusts, and declare the contention between the old parties on the monopoly question is a sham battle, and that no solution of this mighty problem is possible without the adoption of the principles of public ownership of public utilities.

SOCIALIST LABOR PARTY, 1900.

NATIONAL TICKET.

For President, JOSEPH F. MALLONEY, of Massachusetts.

For Vice-President, VALENTINE REMMEL, of Pennsylvania.

Presidential Ricciors:

At Large. - F. Traulson, of Pottawattamie county. B. Curland, of Polk county.

National convention, New York, June 2, 1900.

Temporary Chairman-Hon. THOMAS CURRAN, of Rhode Island. Permanent Chairman-Hon. Daniel Deleon, of New York.

NATIONAL PLATFORM.

The socialist labor party of the United States, in convention assembled, reasserts the inalienable right of all men to life, liberty, and the pursuit of happiness.

With the founders of the American republic we hold that the purpose of government is to secure every citizen in the enjoyment of this right; but in the light of our social conditions we hold furthermore, that no such right can be exercised under a system of economic inequally, essentially destructive of life, of liberty and of happiness.

With the founders of this republic we hold that the true theory of politics is that the machinery of government must be owned and controlled by the whole people; but in the light of our industrial development we hold, furthermore. that the true theory of economics is that the machinery of production must likewise belong to the people in common.

To the lobvious fact that our despotic system of economics is the direct opposite of our democratic system of polities, can plainly be traced the existence of a privileged class, the corruption of government by that class, the alienation of public property, public franchises and public functions to that class, and the abject dependence of the mightiest of nations upon that class.

Again, through the perversion of democracy to the ends of plutocracy, labor is robbed of the wealth which it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage slavery, is even deprived of the necessaries of life.

Human power and natural forces are thus wasted, that the plutocracy may rule.

Ignorance and misery, with all their concomitant evils, are percetuated. that the people may be kept in bondage.

Science and invention are diverted from their humane purpose to the enslavement of women and children.

Against such a system the socialist labor party once more enters its protest. Once more it reiterates its fundamental declaration that private property in the natural sources of production and in the instruments of labor is the obvious cause of all economic servitude and political dependence.

The time is fast coming when, in the natural course of social evolution, this system, through the destructive action of its failures and crises on the one hand, and the constructive tendencies of its trusts and other capitalistic combinations on the other hand, shall have worked out its own downfall.

We, therefore, call upon the wage workers of the United States, and upon all other honest citizens, to organize under the banner of the socialist labor party into a class-conscious body, aware of its rights and determined to conquer them by taking possession of the public powers: so that held together by an indomitable spirit of solidarity under the most trying conditions of the present class struggle, we may put a summary end to that barbarous struggle by the abolition of classes, the restoration of the laud and of all the means of production, transportation and distribution to the people as a collective body, and the substitution of the co-o erative commonwealth for the present state of planless production, industrial war and social disorder; a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

NATIONAL PLATFORM.

We the united christian party, in national convention assembled in the city of Rock Island, III., May I and 2, 1900, acknowledging Almighty God as the source of all power and authority, the Lord Jesus Christ as the sovereign ruler of nations and the bible as the standard by which to decide moral issues in our political life, do make the following declaration.

We believe the time to have arrived when the eternal principles of justice. mercy and love, as exemplified in the life and teachings of Jesus Christ, should be embodied in the Constitution of our nation and applied in concrete form to every function of our government.

We maintain that this statement is in harmony with the fundamental prin cipals of our national common law, our christian usages and customs, the declaration of the supreme court of the United States that "This is a christian nation," and the accepted principle in judicial decisions that no law should contravene the divine law.

We deprecate certain immoral laws which have grown out of the failure of our nation to recognize these principles, notably such as require the desecration of the christian Sabbath, authorize unscriptual marriage and divorce, and license the manufacture and sale of intoxicating liquors as a beverage.

The execution of these immoral laws above mentioned we hold to be neither loyalty to our country nor honoring to God, therefore, it shall be our purpose to administer the government, so far as it shall be entrusted to us by the suffrages of the people, in accordance with the principles herein set forth, and, until amended, our oath of office shall be to the Constitution and laws as herein explained, and to no other, and we look to Him who has all power in heaven and in earth to vindicate our purpose in seeking His glory and the welfare of our beloved land.

As an expression of consent or allegience on the part of the governed in harmony with the above statements, we declare for the adoption and use of the system of legislation known as the 'initiative and referendum,' together with 'proportionate representation' and the 'imperative mandate.'

We hold that all men and women are created free and with equal rights, and declare for the establichment of such political, industrial and social conditions as shall guarantee to every person civic equality, the full fruits of his or her honest toil and opportunity for the righteous enjoyment of the same and we especially condemn mob violence and outrages against any individual or class of individuals in our country.

We declare against war and for the arbitration of all national and international disputes.

We hold that the legalized liquor traffic is the crowning infamy of civilization, and we declare for the immediate abolition of the manufacture and sale of intoxicating liquors as a beverage.

We are gratified to note the wide spread agitation of the eigenrette question, and declare ourselves in favor of the enantment of laws prohibiting the sale of eigenrettes or tobacco in any form to minors.

We declare for the daily reading of the bible in the public schools and institutions of learning under control of the state.

We declare for the government ownership of public utilities.

We declare for the election of the president and vice-president and United States senators by the direct vote of the people.

We declare fer such amendment of the United States Constitution as shall be necessary to give the principles herein set forth an undeniable legal basis in the fundamental law of our land.

We invite into the united christian party every honest man and woman who believe in Christ and His golden rule and standard of righteousness. We say especially to the sons of toil; Jesus, the carpenter's son, is your true friend. In His name and through the practice of His principles you may obtain your rights, long withheld and long outraged. You have the votes necessary to enthrone Him. His love and principles politically applied, will lift you up and give you true civic liberty forever.

NATIONAL PLATFORM.

The social democratic party of America declares that life, liberty and happine's depend upon equal political and economic rights.

In our economic development and industrial revolution has taken place, the individual tool of former years having become the social tool of the present. The individual tool was owned by the worker who employed himself and was master of his product. The social tool, the machine is owned by the capitalist and the worker is dependent upon him for employment. The capitalist thus becomes the master of the worker and is able to appropriate to himself a large share of the product of his labor.

Capitalism, the private ownership of the means of production, is responsible for the i security of subsistence, the powerty, misery and degradation of the evergrowing majority of our people; but the same economic forces which have produced and now intensify the capitalistic system will necessitate the adoption of socialism, the collective ownership of the means of production for the common good and welfare.

The present system of social production and private ownership is rapidly converting society into two antagonistic classes—i. e., the capitalist class and the propertyless class. The middle class, once the most powerful of this great

nation, is disappearing in the mill of competition. The issue is now between the two classes first named. Our political liberty is now of little value to the masses unless used to acquire economic liberty.

Independent political action and the trade union movement are the chief emancipating factors of the working class, the one representing its political, the other its economic wing, and both must co-operate to abolish the capitalist system.

Therefore the social democratic party of America declares its object to be:

 The organization of the working class into a political party to conquer the public powers now controlled by the capitalists.

2. The abolition of wage-slavery by the establishment of a national system of co-operative industry, based upon the social or common ownership of the means of production and distribution, to be administered by society in the common interest of all its members, and the complete emancipation of the socially useful classes from the domination of capitalism.

The working class and all those in sympathy with their historic mission to realize a higher civilization should sever connection with all capitalist and reform parties and units with the social democratic party of America.

The control of political power by the social democratic party will be tantamount to the abolition of all class rule.

The solidarity of labor connecting the millions of class-conscious fellow workers throughout the civilized world will lead to international socialism, the brotherhood of man.

As stens in that direction we make the following demands:

- 1. Revision of our federal Constitution, in order to remove the obstacles to complete control of government by the people, irrespective of sex.
- 2. The public ownership of all industries controlled by monopolies, trusts and combines.
- 3. The public ownership of all railroads, telegraphs and telephones; all means of transportation and communication; all waterworks, gas and electric plants, and other public utilities.

Permanent Chairman.—Hon. E. C. Roach, Rock Rapids.

STATE PLATFORM.

Resolved, By the republicans of Iowa in convention assembled:

That we congratulate the people upon the prosperity that pervades every part of the country, stimulating every industry to the highest degree of activity.

(223)

creating an unprecedented demand for labor and rapidly advancing the United States to a more commanding position in the commerce of the world. The condition of the country today and its progress during the last five years is a complete answer to the theories and predictions of those who opposed republican policies at that time and affords a conclusive argument in favor of a continuance of the policies and the administration under which such manifest benefits have been enjoyed.

We deplore the untimely death of our great and beloved leader, William McKinley, and express our horror at the crime of his assassination. We mourn the loss to the country, coming in the fullness of his powers and usefulness, and pledge our fealty anew to the public policies with which his administration was identified.

We declare our confidence in the leadership of Presideni Roosevelt and our loyalty to his administration, and we express our gratification that two honored representatives of Iowa republicanism have seats at his council board. We indorse his recommendation as to reciprocity with Cuba, and believe that this policy is necessary to preserve and complete the heneficent work we have done on that island, and that it will be mutually advantageous to the people of Cuba and the United States.

Approving his purposes and assured that he has the confidence of the people, we look forward to his election to the presidency in 1904 as a fore-shadowed event demanded by the popular will, and one that will maintain and promote the national prosperity and conserve every national interest.

We express our approval of the work done by the Fifty-seventh congress in its first session, and our pride in the important part of that work borne by the Iowa delegation. The legislation for the reduction of taxation, for the establishment of civil government in the Philippines, for the construction of an Isthmian canal, for the protection of our dairy products, with other measures of practical usefulness, distinguished the session.

We rejoice that the firm but enlightened policy pursued in the Philippines has secured peace in the islands, and that the work of education, civilization, up-building and development is begun. We urge that contention over our policy in the Philippines should now cease and the beneficent plans of the civil government be given the united and cordial support of all the people.

That we stand by the historic policy of the republican party in giving protection to home industries and point for its ample vindication to the extraordinary rapidity with which our national resources have been developed and our industrial and financial independence secured. We favor such changes in the tariff from time to time as become advisable through the progress of our industries and their changing relations to the commerce of the world. We indorse the policy of reciprocity as the natural complement of protection, and arge its development as necessary to the realization of our highest commercial possibilities.

That we assert the sovereignty of the people over all corporations and aggregations of capital and the right residing in the people to enforce such regulations, restrictions or prohibitions upon corporate management as will protect the individual and society from abuse of the power which great combinations of capital wield. We cordially indorse the position of President Rosevelt in appealing to the courts to secure regulations that will control great combinations of capital that prevent competition and control the industries of the people without legal sanction or public approval. We favor such amendment of the interstate commerce act as will more fully earry out its prohibition of discrim-

inations in rate-making, and any modification of the tariff schedules that may be required to prevent their affording a shelter to monopoly.

That we are excessly opposed to all legislation designed to accomplish the disfranchisement of citizens upon lines of race, color or station in life, and condemn the measures adopted by the democratic party in certain states of the

Union to accomplish that end.

The administration of Governor A. B. Cummins merits our unqualified approval. His high courage, sound discretion and scrupulous fidelity have brought additional distinction to executive authority, and his devotion to the progressive policies of the republican party inspires further confidence in the wisdom and helpfulness of his political leadership.

The state convention met at Des Moines, September 3, 1902. Temporary Chairman—Hon. H. C. Taylor, Bloomfield. Permanent Chairman—Hon. J. M. Parsons, Rock Rapids.

STATE PLATFORM.

We, the chosen representatives of the democratic party in Iowa, in delegate convention assembled, hereby declare anew our faith in the fundamental principles of the democratic party and renew our allegiance thereto.

We find much in the domestic affairs of the nation that ought to be changed. The tariff policy originally adopted for the avowed purpose of raising revenue to meet the enormous burdens of the civil war, has been turned to use of individual and class interests until it has become the creator of countless unearned fortunes and the shelter of huge combinations of capital, organized in the form of trusts, which are strangling competition in many of our industries, destroying individual effort, crushing ambition largely in every line of industry and already acquiring a power which enables them to dictate in their own interest the prices of labor and raw material and the cost of transportation of finished products.

We affirm the power and declare it to be the duty of the government to grapple with all monopolies of this character, and by laws which can neither be evaded or defied, drive them from every inch of American soil.

We assert that an immediate reduction of our tariff system to a revenue basis is one absolutely essential remedy for these overshadowing evils, without which they can never be overcome.

We congratulate our republican friends in Iowa who have become able to realize that a protective tariff may be made so high as to become a shelter to monopolies; but regret that their brief reference to the subject in their platform is a matter of severe criticism on the part of leading members of their party throughout the country and openly repudiated by many of their own delegates in congress from this and other states.

That the republican party as now organized is powerless to revise the tariff downward or curb the monstrous trusts it shelters, is as we believe, clearly and conclusively shown by the present attitude of its national leaders. We therefore appeal to every citizen of the state whose judgment leads him to believe such revision necessary, to come to our aid and help us to demonstrate to the world that Iowa at least, will no longer submit to conditions which the conscience of the vast majority of her people, as we believe, does not approve.

We charge that discrimination in freights by common carriers is the handmaid of an exorbitant protective tariff, in fostering the gigantic trusts that have become a menace to the welfare of the masses, and we demand such changes in our interstate commerce act as may be necessary to secure the speedy punishment by imprisonment of any officer or agent of a corporation engaged in interstate commerce, who is guilty of such discrimination, and the enactment of further provisions that shall make such discrimination a ground for prohibiting the offending corporation from transacting the business of a common carrier in the business of interstate commerce.

We are especially proud of the fact that our party in state and nation alike is loyal to the principles enunciated in that immortal chart of human liberty, the Declaration of American Independence, and today with unshaken faith in its wisdom and justice alike we reaffirm its central and ever enduring truth "that governments derive h ir just power from the consent of the governed."

We charge the republican party in its recent administration of the affairs of the nation has wantonly violated this fundamental principle of our government upon which its most beneficent institutions were built, and must continue to rest, if their blessings are to be preserved for generations to come.

To sustain this indictment we point to the fact that in the recent death struggle of the Boer republics in South Africa our government, by permitting the use of its ports for the collection of horses and mules, the most essential to the English army of all the munitions of war, and the constant and open shipment therefrom by English agents and officers to the seat of war of such supplies made us for every practical purpose allies of the British empire in its wanton and finally consummated purpose to blot from the continent every vestige of democratic government and to subject to monarchical rule as brave and determined a people as ever wielded a weapon in defense of human liberty.

We assert that the commencement of the Philippine war was the flagrant abuse of the most noble sentiment of the American people that led them to voluntarily assume the onerons burdens of a foreign war in aid of a struggling race for freedom. That its unjustifiable prosecution has loaded our people with a financial burden of hundrels of millions of dollars, sacrificed the lives of thousands upon tens of thousands of the bravest and best of our young men, the very flower and glory of American manhood, and prepared our pension rolls for a long list of names of those with broken and shattered constitutions, whom the honor of the nation requires shall hereafter be supported at public expense.

In behalf of the honor of the Americae people, in the name of justice to a race we have wronged, in defense of the American doctrine of government by consent of the governed, in support of the most sacred of the institutions of our country, bequeathed us by the fathers of the republic, and in obedience to all the traditions of all our people from the foundation of the government to present time, we demand that this wrong of the nation shall, so far as possible, he atoned for.

To accomplish this, we insist that our steadfast aim should be to prepare the Philippine people for self-government in the broadest sense that term implies, with a pledge of the honor of the nation that they shall not be permanently held in subjection by military force, and that within a reasonable time they shall be permitted to determine for themselves whether they will remain an integral

part of the American republic or become a separate and independent nation by themselves.

We denounce the Fowler bill now pending in congress, and referred by the republican majority in the house to the committee of the whole that it may be put on its passage at once, as a deliberate attempt to convert the banking interests of the United States into one huge financial trust, backed by the apparent credit of the government, that would place the whole banking business of the country under a single management of three individuals, clothed with the all important governmental function of controlling the currency of the people, and fraught with every danger to the masses that was threatened by the old United States bank which Jackson throttled in its infancy three-fourths of a century ago.

We declare our unqualified opposition to the principle of government by injunction.

We renew our demand for the election of United States senators by direct vote of the people.

The fundamental principles of democracy, "Equal rights to all and special privileges to none." applies in full force to the subject of taxation. The democratic party believes that the burdens of taxation should be born equally by all taxable property. We pledge our members of the general assembly to formulate and urge the adoption of such a law as will compel the burdens of taxation to rest on corporate and individual property alike, without favor to or exemption of, any interests.

We demand economy in the administration of state affairs, the repeal of the mulct law and the enactment of a local option law.

We demand the contracting for supplies for the state with the lowest responsible bidders.

The state convention met at Waterloo August 20-21, 1902. Temporary Chairman.—Capt. K. W. Brown, Ames. Permanent Chairman.—Hon. J. H. Campbell, Des Moines.

STATE PLATFORM

The prohibition party of Iowa, in convention assembled, August 20-21, 1902, reverently acknowledges God as the author of civil government and Jesus Christ as the rightful ruler of the nations of the earth, and that His law is the magna charta of human liberty, to which all legislation should conform.

SECTION I. We believe that the federal government, by raising a large part of its revenue by taxation of the manufacture and sale of intoxicating liquors, makes itself ''particeps criminis' in the infemous business, and we insist that our government should go out of this unnecessary and victous partnership, and cease this ungodly practice. We believe that it is the first duty of the state and nation to forever prohibit the manufacture and sale of intoxicating liquors as a beverage, because the liquor traffic is the most fruitful source of ignorance, poverty, political corruption and orime in existence. We demand its absolute everthrow. And we believe that the work can be accomplished only by a political party crystalized around the doctrine and committed to its enforcement, as recent events through the country have testified.

SEC. 2. We declare in favor of equal suffrage regardless of sex, race or color.

SEC. 8. Since mulet means fine or penalty paid in advance for the commission of a crime, therefore we reaffirm our positive disapproval of the "Martin Mulet Law," and demand its repeal and the speedy resubmission of a prohibitory constitutional amendment to the popular vote of the people.

SEC. 4. Since the highest judicial authorities in the land have declared ours to be a Christian nation, and human need as well as divine law demand one day of rest in seven for the toilers, and freedom of conscience in worship for all, therefore we demand the observance of the Christian Sabbath.

Sec. 5. We favor the election of United States senators by direct vote of the people.

SEC. 6. We hail with hope and delight the creation of the permanent international court of arbitration at The Hague, in 1900, by representatives of nearly all the nations of the world and the subsequent approval by twenty-one nations, including the United States, by the appointment of members in said court, and the organization thereof for business in April, 1901.

SEC. 7. We favor the settlement of all controversies between capital and labor by arbitration.

- Sec. 8. We favor the revision of the tariff law, as necessity demands, from time to time, by a commission controlled by ne political party.

Temporary and Permanent Chairman.—Hon. A. B. Wymer, Dubuque.

STATE PLATFORM.

We the socialists of the State of Iowa in convention assembled at Davenport, September 2, 1962, declare our allegiance to and endorsement of the principles of international socialism. We define wealth to be the creation of labor applied to the resources of the earth, and capital to be the accumulated portion of wealth used to create more wealth.

Capttol, therefore, being primarily the product of labor or society as a whole, society has the supreme right to its disposal.

We, therefore, declare it to be our purpose to aquire for society the ownship of said capital, represented by the mines, the machinery and all the means of production and distribution.

We declare the self-evident truth, that all laws and constitutions under Democratic forms of government are the creations of man by legal enactments.

Therefore, what man has created, man may abolish and re-create to conform to the most scientific and systematic means of production and the most just method of distribution.

It is therefore our declared purpose as members of organized labor and the producing and working class, to aquire through the power of our united ballots the entire control of government in all its offices and functions.

By this means, the courts, the laws, the military and all the powers of government will belong not to the capitalists, but to the working class, who, under the principle that majorities should of right rule, are justly entitled to the control of the laws and the conditions which govern their work.

Having acquired this power, we will use it not to enjoin men from the exercise of their natural rights, but to protect them therein and in the end establish through the power so grained the co-operative commonwealth.

To this end we ask every member of organized labor, every wage earner and producer in the state of lows who compose the working class, and whose interests are identical to join us in the struggle we have begun, remembering that "United we stand, divided we fall."
