“Pressing black steel pipe saved more than 30 percent on labor when compared to threading.”

**Rick DeLuga, Commercial Division Manager,**  
*Atomic Mechanical Services*

Viega's new carbon steel MegaPress and MegaPressG fittings are the fast, clean, secure way to connect black iron systems. Rick DeLuga of Atomic Mechanical Services in Itasca, IL, experienced extraordinary time savings because there was virtually no cleanup.

### **Viega MegaPress and Viega MegaPressG**

- The only carbon steel press fitting systems for water and gas applications
- Flameless press technology reduces installation time by 30 to 60%
- Provides security – join pipe consistently with no manual tightening
- Patented Smart Connect® feature helps installers ensure secure connections

- Produces both heat and electricity for residential or small commercial applications
- Won the EPA 2011 Energy Star Emerging Technology award
- Reduces energy use and curbs CO<sub>2</sub> emissions by 20 to 30 percent

## It's a generator. It's a heat exchanger. It's the new propane technology.

The Marathon Engine Systems ecopower™ cogeneration system does it all in one neat package. This innovative, propane-fueled combined heat and power system earned a 2011 Energy Star Emerging Technology award. Why? In part, because this generator allows homeowners and small businesses to return all unused electricity to the main power grid — resulting in a usage credit or a lower overall utility bill. In addition, the ecopower unit is good for the budget and the environment because it turns engine heat into thermal energy, which can power space- or water-heating applications while producing significantly fewer CO<sub>2</sub> emissions than traditional power plants. Learn more about this technology and how you can use it with free online training courses, including those below, at [buildwithpropane.com/training](http://buildwithpropane.com/training).

Zero or even below, the Woodford 65/67 series commercial wall hydrants will tolerate any temperatures without freezing. All drain automatically, even with a hose attached. The 67 models include an ASSE Standard 1052 approved backflow preventer connection...and all come with Woodford quality, durability, and the ability to tolerate anything Mother Nature can throw at them.

# ZERO TOLERANCE

## WOODFORD 65/67 SERIES FREEZELESS WALL HYDRANTS

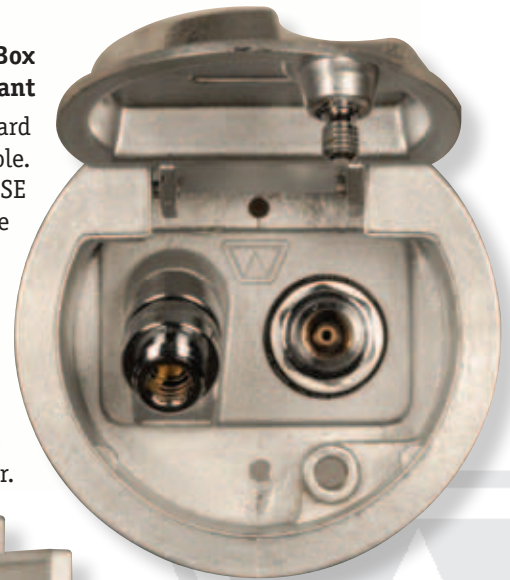

### Model 67 Freezeless Wall Hydrant with backflow prevention

The ASSE 1052 approved double check is field testable. Designed to complement modern architecture. The **Model 65** offers the same features with an ASSE 1019 vacuum breaker.

### RB67 Round Box Freezeless Wall Hydrant

Fits through standard 6" diameter cored hole. Supplied with a ASSE 1052 approved double check backflow preventer that is field testable. Designed especially for tilt-up wall construction. Also available as the **RB65** with ASSE 1019 approved vacuum breaker.

### B67 Freezeless Wall Hydrant with double check backflow protection

A rectangular version of our RB67, with backflow prevention. Also offered as the **B65**.

*Choose from backflow prevention (67 series) or anti-siphon vacuum breaker (65 series) hose connections.*

# President's Message

Jim Bruner

The summer issue of *Michigan Plumbing and Mechanical Contractor* magazine brings two thoughts to mind: 1) We've just come through one of the mildest winters on record which I pray helped all of our bottom lines; and 2) The summer issue contains the current listings of the contractors who, even in this slow economic times, feel it's important to continue to invest in their businesses by being members of MPMCA.

The companies found here are the best, the most involved and motivated in the industry. If your company's name isn't in here, then it should be. United we can speak with one voice concerning the issues that affect us all. MPMCA contractors are people who care what happens to their business and are committed to supporting the activities that make things happen. These people, who are not in it for a free ride, take advantage of positive actions that others have paid for.

MPMCA members are people who don't feel entitled to free representation and problem solving. Make sure you check out the list of Associate members. MPMCA membership is not just limited to plumbing and mechanical contractors, but companies that support our industry.

Over the years MPMCA has been our voice in Lansing, influencing laws and regulations that govern our industry. The MPMCA keeps us abreast of all the local and federal regulations that affect our business.

The *MPMCA Membership Application* can be found in this issue (page 7) or online at [www.mpmca.org](http://www.mpmca.org).

By joining the MPMCA you get more than just a membership...you get an advocate for your company and you.

## HOW CAN EFFICIENCY WORK HARDER?

With **ecocirc<sup>®</sup>** auto and vario  
Effortless "SMART" Heating Circulators

They provide the best in efficiency, return on investment, ease of use and reliability.

- The simple spherical motor design means no shaft and no seal.
- Highly efficient, electronically commutated/permanent magnet (EC/PM) motor.
- Maintenance-free operation.
- Simple to install.
- Reliable, affordable and pay for themselves quickly.

Southfield  
Grand Rapids  
Saginaw  
Cleveland

**THE ANSWER IS SIMPLE.**

**IF EFFICIENCY WORKS HARDER YOU DON'T HAVE TO.**

The new degree of comfort.™

# COMMERCIAL SOLUTIONS

The Rheem SPIDERfire is the perfect solution for many restaurants, schools, hotels and laundromats. It offers a highly efficient way of producing large volumes of hot water and is sure to take a bite out of fuel costs.

Advantages of partnering with Rheem go beyond access to the innovative SPIDERfire. Our full line of reliable and efficient water heating solutions ensures you get the product you need to get the job done. You can trust Rheem to get the practical, hands-on training and education you need to be successful. Contact your local Rheem distributor today to learn how to enroll in the next training course.

Rheem offers a complete line of innovative water heaters for residential and commercial applications.

### Benefits of the American-Made Rheem SPIDERfire:

#### Product Flexibility

- Six ultra high efficiency 100-gallon models
- Operates on natural gas or LP
- Single-pipe power vented or two-pipe power direct vented

#### High Performance

- 95% thermal efficiency
- Unique multi-pass heat transfer system
- Ultra low NOx certified

#### Easy Install and Service

- Narrow diameter and modest height fits into tight spaces
- Eye-level LCD scrollable electronic diagnostic system
- Hot and cold water connections on front and rear
- Factory installed brass drain valve

For more information, visit us online at [www.Rheem.com/spiderfire](http://www.Rheem.com/spiderfire)

# Greater Michigan PMCA

## Great Lakes Peer Group – First JATC Roundtable

The Great Lakes Peer Group held its first JATC Management Trustees and Association Executives JATC Roundtable in February.

Representing Greater MI PMC was JTC Chairman Jim Dornborck, Altech Mechanical; Dave Jones, John E. Green Company; Dan Penix, John Darr Mechanical, Jeff Darr, Boone & Darr; and Sandra Miller, President, PMC. The Roundtable gave attendees the ability to learn more about Trustee responsibilities along with best practices.

The program was organized by Molly Forward with the Detroit MCA. There were presentations on DOL Requirements and Standard and other pertinent information.

## Members Train Employees at PMC Facility

The PMC's Educational Facility continues to be utilized by contractor members for their employees for meetings at any time of the day or evening for Leadership Training, or specific product training from distributors.

The most recent class (pictured) was conducted by John E. Green Company.

## MCAA 2012 Annual Convention & PMC Michigan Night

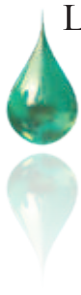

Two-thousand members and friends were welcomed to the MCAA 2012 and Walt Disney World in Florida. The convention featured exceptional speakers from business, government and professional sports.

The Greater MI PMC held their annual Michigan Night dinner at the Convention. Everyone came together to enjoy an evening working together to solve a despicable crime. PMC had reserved a private theatre for dinner and a mystery show. The Dinner show was like living in a clue game, where you were the detectives helping solve the crime!

**Michigan MCA and MCA Detroit assisted with sponsoring the event.**

# Mid-Michigan MCA

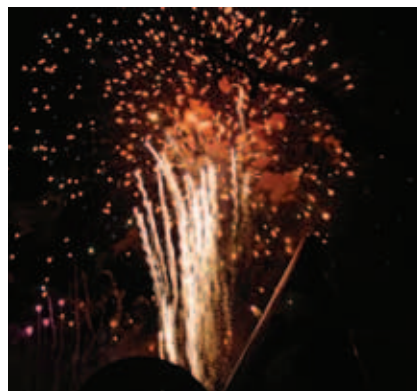

This year's MCAA Program (March 18-22, 2012) at Walt Disney World in Orlando, Florida, featured an exceptional line-up of distinguished and accomplished speakers from business, government and professional sports along with others who gave attendees new ideas on how to streamline business, improve operations and increase profits.

Entertainment events included an Evening at Epcot, featuring desserts under the stars and a brilliant fireworks display. The Closing Party at Disney's Hollywood Studios gave attendees a taste of tinsel town, including a red carpet welcome, dinner at the movie back lots and fun-filled movie-themed rides.

From the opening session to the closing programs, attendees experienced MCAA's best, as they learned of and honored their industry's accomplishments.

MCA Detroit Salutes

## Larry D'Ascenzo

from Guardian Plumbing and Heating, Inc.

Who would have “thunk” it?!! A musician and long-time manager of retail Harmony Houses, exceling in the plumbing/HVAC business?? Yup! That is what Larry D’Ascenzo has done and he has been at it now for twenty-two years.

Larry joined his brother, Tony, in 1990. He originally came in part-time to do marketing for Guardian Plumbing and Heating. Larry remembers that his dad (Andy) and mom (Dolores) started Guardian Plumbing from their basement in 1968. Dad provided the plumbing service, while mom manned the phones. He credits his brother, Tony with growing Guardian to the hugely successful business it is today. Guardian provides full service plumbing and heating services in the metro Detroit area, and has a substantial list of satisfied clients.

Larry’s part-time job blossomed into full-time sales where he worked with established customers as well as new ones. When his brother, Brian, left the company, Larry took on an even larger role as Manager of the Service Department. Larry won’t take credit for the success of that Service Department. He has worked for over twenty years with three people whom he says must share in any accolades for the service they provide. They are: Blair Kain who does customer service and sales, marketing and is the Project Manager. Eamon Murtagh is the Service Coordinator, a big job, says Larry, and last but certainly not least is Colleen Green, a long-time neighbor and childhood friend before joining the D’Ascenzo brothers as service dispatcher. Colleen says of Larry, “He’s ethical, thoughtful, loyal and dedicated not only to Guardian Plumbing and Heating but to the entire plumbing industry.”

Larry is also very active with the Southeastern Michigan Society of Healthcare Engineering where he currently serves as Treasurer. SMSHE is dedicated to improving the

communication, education and overall integrity of the healthcare industry. The group provides the primary forum for local healthcare engineers and suppliers to engage in meaningful dialogue for the ultimate purpose of providing better patient healthcare.

Larry left the daytime job of music to work at Guardian, but his passion for song has continued over the years. He and his wife Leslye have been members of the Sunset Boulevard Band for twenty-five years. This year Leslye retired as lead singer for the band so Larry and many of his fellow Sunset members have merged together with a new band called “Byron in Motion”. Over the years and today as well, the band plays at weddings, corporate functions, hospital fundraisers

and any other events people will hire them for. They even played at one of the Detroit Red Wings’ weddings! They are a favorite at MCA Detroit’s Holiday Open House and are true musicians and entertainers. Leslye had the voice of an angel and now only Larry will get to hear her sing (sigh...), but hopefully, the songstress for “Byron in Motion” will bring us joy too.

Larry has a 26 year-old son, Andrew, who is going to make Larry a grandfather of twins this October. Larry and Leslye have a daughter, Alex, who is a junior in high school and is nationally ranked on the USTA tennis circuit. Alex, Larry and Leslye are heading east this spring to check out Ivy League colleges, where high grades and tennis talent hold great promise for a full-ride scholarship.

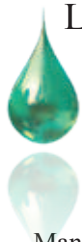

*Larry D’Ascenzo & Colleen Green*

## LOCAL ASSOCIATIONS

# West Michigan MCA

Management meetings provide a platform for WMMCA contractors and Local 174 management to discuss industry related issues. The Executive Boards for Local 174 and WMMCA participated in a ‘meet and greet’ dinner event at Sam’s Joint in Coopersville, Tues. February 21. This was a good opportunity for networking in an informal setting.

Promoting a quality certified workforce, Chapter 18 of the NCPWB has 108 certified welders. The Joint NCPWB/UA welding program has scheduled the following 2012 joint test events at the UA174 Training Center: January 21, March 17, March 24, May 19, July 21, September 15 and October 20.

Cindy Morse, WMMCA, participated in the Great Lakes JATC Peer Group in Dearborn, Michigan. This was a pilot program to encourage contractor JATC committee members to share information. Speaker Michael Asher, of Sullivan, Ward, Asher and Patton, updated the 45 participants on DOL requirements and standards, fiduciary duties and obligations, fund agreement, apprentice agreement, budget and internal controls.

Russ Borst, Hurst Mechanical, and Cindy Morse, WMMCA, participate in the quarterly MI Service & Maintenance Oversight Committee meetings in Lansing.

The Small Business Administration (SBA) recently awarded AMR with 8(A) Business Development status. The 8(a) Business Development Program is a resource for small businesses to

compete in the marketplace. This status helps companies gain access to federal and private procurement markets and government projects “This status will open contracting opportunities for our company regarding government contracts locally and nationally,” commented AMR President Jodi VandenBerg.

It is with great sadness that we inform you of the passing of Ted Vanderson. Ted was a UA plumber, one of the original owners of B&V Mechanical in Grand Rapids, Michigan, and past WMMCA Executive Director. Ted was active in many community activities. His contributions to the industry will be fondly remembered.

► What do the Beach Boys, Mickey Mouse, and T&S low-lead faucets have in common?

► They all got their start in California, and they all swept the nation. Although California led the way with the AB1953 legislation mandating low-lead faucets, it's only a matter of time until they are required in all states. And T&S is ready — all of our faucets are low-lead compliant and are available across the country. And, as always, T&S faucets are as rugged and reliable as they come, and meet the requirements of the Buy America Act. Contact your sales rep for more information.

Mickey Mouse® and the Beach Boys® are trademarks of Disney Enterprises, Inc. and Brothers Records, Inc., respectively, and T&S Brass has no affiliation with either such entity.

# Flint PMC

## Former MPMCA President Doug Wyrwicki Retires

The Flint PMC honored Doug Wyrwicki with a celebration retirement event on December 29, 2011 at the Holiday Inn Gateway Centre in Flint. Doug is the past President of the Flint PMC and has held all offices in the Association, along with Chairing the Flint PMC Negotiating Committee for 20 years.

On a state level, Doug has also been the past president for the Michigan Mechanical Contractors Association and the Flint Association Plumbing & Mechanical Contractors.

In 2005 William E. Walter was named Contractor of the year by Michigan Plumbing & Mechanical Contractors Association.

Doug has also been the liaison for Habitat for Humanity of Genesee County and has participated at the Sloan Museum Flint Cultural Center.

***Doug will be missed at PMC activities.  
We wish him the best in his future endeavors.***

## 2012 ASSE Backflow Preventer Testing Seminar

**Register Today**

August 13-17, 2012

November 5-9, 2012

The five day seminar takes place at:  
**Instructional Technology Services,  
Lansing Michigan**

Class is open to licensed plumbers, plus others including pipefitting, water purveyors, lawn irrigation, sprinkler installer, or related fields who need to test backflow preventers in the field.

Instructor: **Martin Jipson**, master plumber, plumbing inspector, & ASSE certified backflow tester and instructor.

The cost is \$1,150 for NON-MPMCA members, (MPMCA members will pay \$1000) which covers the five days of instruction, materials, lunches and breaks.

Upon satisfactory completion, attendees will receive ASSE Certification for Cross Connection Control.

Under Act 54 - Plumbing Inspectors Registration Act - Plumbing Inspectors will receive continuing education credits-24 specialty and 16 technical credit hours.

Water Purveyor Participants may receive continuing education credits (MDEQ Division of Drinking Water & Radiological Protection (credit hours pending).

All registrants must demonstrate five (5) years of experience in a plumbing, pipefitting, water purveyor, lawn irrigation, sprinkler installer, or related field. Upon receipt of your paid reservation, your reservation in the class will be confirmed upon valid demonstration of 5 years experience you will receive a Verification Form which will be used to verify five years of experience such as verification by employer, date of first plumbing license, etc.

**PLEASE NOTE:** The class is only designed for individuals who wish to obtain ASSE certification, and have the necessary field experience to pass the rigorous testing. The Instructor begins the class with the assumption that all attendees already possess adequate knowledge of hydraulics, plumbing, piping, venting, etc. It is not designed for a beginning technician.

Cancellations must be received *in writing* by MPMCA, (emails are accepted), 14 days prior to the first day of class to receive refund. Cancellations less than 14 days, refunds only if we can fill your seat. If you cancel via US mail, we suggest using 'return receipt'.

**Bradford White Contractors!**  
**GET ROUND THE CLOCK,**  
**EXPERT SUPPORT**

Water heaters don't have nights or weekends off. **Neither Do We.**

**FOR 24/7  
EXPERT  
SUPPORT  
PLEASE  
CALL:**

**Technical Support:  
800.334.3393**

**Warranty Support:  
800.531.2111**

If you're a plumbing and heating professional, you know that customers call nights, weekends and even holidays. We understand that you're always on call. Now, whenever the situation calls for it, you can rely on Bradford White for expert support, 24 hours a day, 7 days a week. The Technical Service and Warranty Support personnel are U.S.-based, right inside our Technical Support facilities in Middleville, Michigan. Each technician goes through a rigorous and extensive training program before they take your call, preparing them with the know-how to diagnose and solve any challenge an expert like you might face in the field.

The next time –*make that anytime!*– you have a technical issue or warranty question about a Bradford White water heater, call our expert Support Center. Because the best water heaters and the best contractors deserve the best support.
