

Scientific Name	Additional Detail	Description	Conservation Code	Location
<i>Acacia consobrina</i>	Watercourse Wattle	Fast growing low spreading/weeping shrub 1m x 2.5m. Masses of yellow flowers Jun-Sep that attract bees. Suits clayey soils both with loam or sand in full sun/part shade.		Esperance Plains
<i>Acacia merinthophora</i>	Zig-zag Wattle	Beautiful ornamental weeping shrub to 3m. Yellow flowers May-Sep. Attractive zig-zag arrangement of the phyllodes. Well drained soils in full sun. Ideal for floral arrangements. Specimen plant.		Avon Wheatbelt
<i>Actinodium</i> sp. Fitzgerald River	Albany Daisy	Beautiful dwarf shrub to 80cm. Spectacular large pink and white daisy-like flower heads Aug-Oct. Needs well drained soils in full sun/part shade. Short-lived plant best grown in containers.		Esperance Plains
<i>Adiantum aethiopicum</i>	Native Maidenhair Fern	Easy to grow spreading fern to 20cm. Pot or rockery culture. Does best in moist rich soil with bright shady location.		S.W.
<i>Androcalva bivillosa</i>		A dense spreading groundcover to 50cm x 2m wide. White flowers with pink tinged May-Dec. Prefers well drained soils in full sun/part shade. Suitable for hanging baskets or slopes.	Declared Rare	Geraldton Sandplains
<i>Astartea scoparia</i>	Common Astartea	Erect open shrub to 1.8m tall. Masses of small white flowers Nov-Jan. Suits most soils in full sun to part shade. Suitable for bog garden. Tolerates winter-wet. Prune for shape.		Perth Metro
<i>Atriplex nummularia</i>	Old Man Saltbush	Ornamental shrub >1.5m high. Attractive silver-grey foliage. Upright pencil-pine form. Useful for hedging or screening. Prune to keep compact. Salt and limestone tolerant. Very hardy.		Goldfields
<i>Atriplex suberecta</i>		Spreading groundcover to 50cm x 1m. Soft blue green foliage with red edible berries Jan-April. Suits most soils in full sun. Salt and limestone tolerant. Hardy.		Wheatbelt
<i>Babingtonia grandiflora</i>	Large-flowered Babingtonia	Spreading open shrub to 1.2m. Sprays of white-pink flowers Aug-Dec. Prefers well drained soils in full or part sun. Prune to shape after flowering.		Geraldton Sandplains
<i>Baekkea</i> sp. Limestone		Robust upright shrub to 1.5m. Masses of white flowers Jun-Dec. Prefers well drained soils in full sun/part shade. For open sunny gardens. Hardy. Trim after flowering. Limestone tolerant.	Priority 1	Perth Metro
<i>Baekkea subcuneata</i>		Colourful spreading shrub to 1.8m. Masses of pink flowers Aug-Nov. Prefers well drained soils in full sun/part shade. Suits raised beds or open gardens.	Priority 2	Geraldton Sandplains
<i>Banksia chamaephyton</i>	Fishbone Banksia	Prostrate spreading shrub to 40cm x 2m. Attractive foliage. Cream terminal flowers Oct-Dec. Well drained soils in full sun/part shade. Ideal for banks and verges.	Priority 4	Northern Sandplains
<i>Banksia fraseri</i>	(syn. <i>Dryandra fraseri</i>)	Low spreading shrub to 30cm x 75cm. Pink buds. Attractive large yellow flowers Jun-Sep. Suits most soils in full sun/part shade. Hardy. Prune to shape.		Perth Hills
<i>Banksia hookeriana</i>	Hooker's Banksia	Attractive shrub with serrated leaves to 3m. Two-toned orange-cream cone flowers Mar-Aug. Prefers well drained sandy soils in full sun/part shade. Bird attracting and excellent cut flower.		Geraldton Sandplains
<i>Banksia leptophylla</i>	Slender-leaved Banksia	Attractive shrub to 2m. Yellow/orange-brown spherical flowers Mar-Aug. Well drained soil in open site. Bird attracting. Good low screen or pot plant. Produces copious quantities of nectar.		Northern Sandplains
<i>Banksia media</i>	Southern Plains Banksia (Dwarf form)	Attractive shrub to 1.5m with large cylindrical yellow-orange/brown flowers Mar-Aug. Suits well drained sandy or loamy soils in full sun/part shade. Tolerates some coastal and limestone areas.		Esperance Plains
<i>Banksia menziesii</i>	Firewood Banksia (Dwarf)	Ornamental slow-growing small tree to 1.5m. Large red (rarely yellow) terminal flowers Feb-Oct. Bird attracting. Well drained soil in full sun. Drought tolerant.		Swan Coastal Plain
<i>Banksia prionotes</i>	Acorn Banksia (Dwarf form)	Beautiful tree or shrub to 10m. Large bright white turning orange cone flowers Feb-Aug. Prefers well drained sandy soils in full sun. Bird attracting and excellent cut flower.		Central West Coast
<i>Banksia speciosa</i>	Showy Banksia	An imposing and showy shrub to 3m. Yellow/cream terminal flowers Sep-Jan. Well drained soil in full sun. Ideal for cut flowers and coastal areas.		Esperance Plains
<i>Banksia splendida</i> subsp. <i>macrocarpa</i>	(syn. <i>Dryandra speciosa</i> subsp. <i>macrocarpa</i>)	Bushy shrub to 1.5m with grey hairy foliage. Pendant yellow/orange-red cone flowers Jul-Aug. Prefers full sun/part shade in well drained sandy or gravelly soils.	Priority 3	Lesueur Sandplain
<i>Banksia telmatiaea</i>	Swamp Fox Banksia	An attractive open shrub to 1.5m. Yellow-orange/brown flowers Sep-Jan. Most soils in full sun/part shade. Prefers good winter moisture. Bird attracting.		Perth Metro
<i>Banksia undata</i> var. <i>undata</i>	Urchin <i>Dryandra</i>	Spectacular shrub to 3m. Golden yellow-orange-red flowers. Prefers well drained sandy, loamy and lateritic gravel soils in full sun/part shade. Bird attracting and excellent cut flower.		Jarrah Forest
<i>Beaufortia aestiva</i>	Kalbarri <i>Beaufortia</i>	Dense rounded shrub to 1.5m. Stunning red/yellow flowers Dec-Mar. Prefers well drained soils in full sun. Suitable for open gardens and hedging. Drought tolerant.		Geraldton Sandplains
<i>Beaufortia anisandra</i>	Dark <i>Beaufortia</i>	Densely branched rounded shrub to 1m. Terminal clusters of dark red flowers Oct-May. Well-drained soils in full sun/part shade. Suits rockeries and raised beds. Bird attracting.		Esperance Plains

Beaufortia elegans	Elegant Beaufortia (Red)	Upright rounded shrub to 1m x 1.2m. Profuse red flowers Aug-Feb. Well drained soils. Full sun/part shade. Will tolerate winter-wet. Hardy.		Ex Moyles
Beaufortia empetrifolia	South Coast Beaufortia	Colourful compact shrub to 1.2m. Masses of pink flowers May-Dec. Prefers well drained soils in full sun/part shade. Suitable for raised beds, open gardens and pots.		Esperance Plains
Boronia alata	Winged Boronia	Medium shrub with dense green leaves to 2m. Pretty insect attracting pink flowers July-Dec. Prefers well drained sandy soils in full sun/part shade. Suits coastal and limestone areas.		Swan Coastal Plain
Boronia clavata		Upright slender shrub to 1.5m. Small delicately perfumed, bell-shaped yellow-green flowers Aug-Oct. For most soils. Suitable for pot culture, borders and damp areas.	Declared Rare	Esperance Plains
Boronia dichotoma		Erect, slender perennial to 75cm. Stunning dark pink flowers Aug-Dec. Prefers wetter soils in full sun/part shade. Suits edge of bog garden/winter-wet areas. Prune for more flowers.		Perth Metro
Callistemon phoeniceus	Lesser Bottlebrush	Colourful large shrub to 3m. Stunning scarlet red flowers Sep-Jan. Suits most soils in full sun. Good for screening. Tolerates moist conditions. Bird attracting.		S.W.
Calothamnus lateralis		Upright shrub to 1.5m with long needle-like leaves and dark red flowers Sep-Dec. Suits clay, loam or sandy soils in part shade. Benefits from summer watering.		Jarrah Forest
Calothamnus lehmannii	Dwarf Claw Flower	Low prostrate shrub to 0.5m with red flowers clustered along the stem Aug to Oct. Prefers well drained sand or sandy lateritic soils in full sun/part shade.		Mount Barker
Calytrix brevifolia		Showy small shrub to 60cm. Large star-shaped magenta pink flowers Aug-Nov. Prefers sandy soils in full sun to partial shade. Suits pot culture. Drought tolerant once established.		North Wheatbelt
Calytrix chrysantha		Very attractive shrub to 1.3m with deep green foliage. Bright yellow starflowers Dec-Feb. Prefers well-drained soils in full sun. Good container plant.	Priority 4	Geraldton Sandplains
Calytrix leschenaultii		Colourful upright shrub to 80cm. Profuse purple flowers Jun-Nov. Well drained soil in full sun/part shade. Ideal for pot culture and small gardens. Tip prune after flowering.		S.W.
Calytrix purpurea		Attractive spreading shrub to 60cm. Spectacular purple with yellow centred star flowers Sep-Nov. Prefers well drained sandy soils sometimes with gravel in full sun.	Priority 2	Geraldton Sandplains
Calytrix sp.	Yellow	Spectacular small shrub to 60cm. Stunning yellow flowers Aug-Oct. Well drained soil in full sun. Ideal for feature areas in the garden. Also suits pot culture.		W.A.
Calytrix strigosa	Arrowsmith Starflower	Colourful semi-prostrate shrub to 60cm. Mauve pink flowers Aug-Jan. Well drained soils in warm sunny position. Suits pot culture and small gardens.		North Sandplains
Calytrix tetragona	Common Fringe Myrtle (Upright form)	Narrow upright shrub to 1.2m. Abundant white star flowers Aug-Oct. Suits most well drained soils in dappled shade to full sun. Limestone tolerant.		W.A.
Calytrix variabilis		Colourful erect small shrub <80cm. Brilliant purple flowers Jul-Dec. Prefers well drained soils in full sun. Suits pot culture and sheltered garden beds.		Geraldton Sandplains
Chamelaucium axillare	Esperance Waxflower	Erect open shrub <1.2m. Waxy white flowers ageing to red Sep-Dec. Prefers well drained soils in full sun. Suits pot culture .		W.A.
Chamelaucium ciliatum		Attractive small shrub 30cm-1m high. Profuse white/pink flowers Aug-Oct. Well drained soil in full sun/part shade. Suitable for pot culture. Responds well to annual pruning.		Avon Wheatbelt
Chamelaucium ciliatum	Cascade Rd form	Small upright shrub <1m. Long lasting waxy white flowers Jan-Dec. Well drained soils in full sun. Tip prune regularly.		Esperance Plains
Chamelaucium drummondii subsp. Carnamah		Striking upright shrub to 1m. White wax flowers turning pink/red Aug-Oct. Prefers well drained soils in full sun with a bit of soil moisture. Suits pot culture.		Carnamah
Chamelaucium lullfitzii		Attractive erect shrub to 1m. Masses of white-pink wax flowers Sept-Dec. Suits well drained sandy, loamy an gravelly soils in full sun/part shade.	Declared Rare	Gingin
Chamelaucium marchantii		Much-branched dense rounded shrub to 1.5m. Waxy yellow/green flowers Sep-Nov. Suits well drained soils in full sun. Tolerates limestone and coastal soils. Unusual cut flower.	Priority 3	Kalbarri
Chamelaucium sp. Wongan Hills	(syn. C. conostigmum)	Soft spreading groundcover 30cm x 2m. Dark pink/magenta flowers Oct-Nov. Will cover banks. Well drained soils in full sun/part shade.	Priority 3	Wheatbelt
Chrysocephalum apiculatum	Yellow Buttons	Sprawling perennial herb to 20cm. Massed clusters of yellow daisy flowers Oct-Apr. Most soils in full sun/part shade. Good for massed plantings, rockeries and containers.		W.A.
Commersonia borealis		Attractive open shrub to 1.5m. Clusters of white flowers Jul-Nov. Well drained soils. Prefers sheltered location in full sun/part shade. Suitable for screening. Light trim after flowering.		Geraldton Sandplains
Conospermum caeruleum subsp. marginatum		Semi-prostrate spreading shrub to 30cm x 1.5m. Stunning blue flowers Jul-Oct. Suits most soils in full sun/part shade. For raised garden beds and winter-wet areas.		Busselton
Cyathostemon sp.		Hardy small shrub to 1m. Masses of white flowers Oct-Dec. Prefers well drained soils in full sun/part shade. Suitable for raised beds or pot culture.		Avon Wheatbelt

Dampiera haematotricha subsp. haematotricha		Colourful mounding groundcover to 25cm. Bright blue-purple flowers Aug-Dec. Prefers well drained soils in full sun/part shade. Ideal for pot culture and raised garden beds.		Southern Wheatbelt
Dampiera lindleyi	White	Upright or semi-prostrate perennial to 60cm. Masses of pale white flowers Jun-Oct. Suits most soils in full sun. Ideal for pot culture or raised beds.		Avon Wheatbelt
Dampiera linearis	Common Dampiera	Suckering groundcover to 30cm, slowly spreading to 1m wide. Blue-purple flowers May-Nov. Suits most soils. Full sun to part shade.		Perth Metro
Darwinia neildiana	Fringed Bell	Interesting dwarf shrub to 60cm. Nodding heads of burgundy flowers Aug-Dec. Prefers well drained soils in full sun/part shade. Suitable for raised beds and pot culture.		Lesueur Sandplains
Darwinia oldfieldii	Oldfield's Darwinia	Small spreading shrub 60cm x 1m. Grey foliage with showy strawberry-red flowers Aug-Nov. Prefers well drained soils in full sun. Suitable for open sunny gardens. Hardy.		Geraldton Sandplains
Darwinia oldfieldii	Oldfield's Darwinia (Pink)	Small spreading shrub 60cm x 1m. Grey foliage with showy pink flowers Aug-Nov. Prefers well drained soils in full sun. Suitable for open sunny gardens. Hardy.		Geraldton Sandplains
Darwinia pinifolia		Low spreading to prostrate shrub 50cm x 80cm. Striking red flower clusters Sept-Dec. Prefers well drained sandy or loamy soils in full/part sun. Summer watering required.		Geraldton Sandplains
Darwinia polycephala		Open shrub to 50cm. Abundant red-purple flowers Mar-Sep. Suits most soils in full sun. Ideal for pot culture and small gardens.	Priority 4	Eastern Mallee
Darwinia polychroma	Harlequin Bell	Low spreading shrub to 1.2m. Abundant red, green and yellow bell flowers Jul-Oct. Well drained soils in full sun/part shade. Suits pot culture and small gardens.	Declared Rare	Avon Wheatbelt
Dasymalla terminalis	Native Foxglove	Colourful upright shrub with furry grey foliage to 60cm. Pink-burgundy flowers Sep-Oct. Prefers well drained soils in full sun. Suitable for raised beds.		Avon Wheatbelt
Dicrastylis fulva		Ornamental rounded dwarf shrub to 80cm. Contrasting white hairy foliage. Sprays of white flowers Aug-Dec. Most well drained soils in sunny position. Ideal for small gardens and containers.		Geraldton Sandplains
Dicrastylis sp.		Contrasting bushy shrub to 1m. Large heads of white flowers Aug-Dec. Prefers well drained soils in full sun. Striking white woolly foliage.		Murchison
Diplolaena microcephala	Lesser Diplolaena	Dense spreading shrub to 1.5m. Attractive pendulous small red/yellow flowers Jul-Dec. Suits well drained soils in full sun/part shade. Prune to shape. Hardy.		Esperance Plains
Dodonaea concinna		Erect fine-leaved shrub 0.5-2m. Attractive foliage and conspicuous red fruits late spring/summer. Suits most soil types in full sun to part shade. Hardy.		Esperance Plains
Eremophila complanata		Delightful upright wispy shrub to 1.8m. Profuse pink-purple flowers Aug-Sep. Most soils in full sun/part shade. Suitable for large gardens, cut flowers. Prune regularly after flowering. Hardy.	Priority 2	Avon Wheatbelt
Eremophila dichroantha	Bale-hook eremophila	Small / med erect broom-like shrub, 0.6-3 m high. Small blue-purple (occasionally white) flowers Aug to Nov. Adaptable to most soil types.		Eastern Goldfields
Eremophila gilesii	Desert Fuchsia	Delightful spreading shrub to 1m. Blue-purple flowers Mar-Nov. Well drained soils. Full sun to part shade. Hardy. Tip prune regularly.		W.A.
Eremophila glabra subsp. carnosa	Leeman form (Red)	Small spreading shrub 1.2m x 0.75m. Grey-green foliage. Red flowers May-Jan. Suits well drained soils, coastal sands and limestone. Best in full sun.		Geraldton Sandplains
Eremophila hillii	Hills Emu Bush	Dense spreading shrub to 1m x 2m. Bright red flowers Aug-Dec. Suits most well drained soils, including limestone. Prefers full sun. Long-lived and hardy.	Priority 4	Nullarbor
Eremophila pinnatifida	Dalwallinu Eremophila	Compact shrub 60cm-1m high. Pale purple flowers Aug-Jan. Well drained soil in full sun/part shade. Hardy. Tip prune regularly.	Declared Rare	Wheatbelt
Eremophila splendens	Splendid Eremophila	Erect open shrub to 1m+. Spectacular display of red flowers Sep-Nov/Dec. Suits most soils in full sun. Limestone tolerant. Bird attracting. Tip prune regularly.	Priority 1	Shark Bay
Eremophila subfloccosa	Dense-felted Eremophila	Attractive low spreading shrub to 1m x 2m. Yellow-green flowers Jun-Dec. Well drained soils in full sun/part shade. Semi-drought tolerant.		Goldfields
Eremophila weldii	Purple Emubush	Spreading compact shrub 50cm x1m. Lilac flowers Jun-Dec. Suits all soils, especially limestone. Full sun/part shade. Can be pruned hard. Drought tolerant once established. Hardy.		Esperance Plains
Eucalyptus forrestiana	Fuchsia Gum	Colourful-fruited mallee to 6m. Red capsules and yellow flowers Jan-Mar. Prefers well drained soils in full sun. Small shade tree.		Esperance Plains
Eucalyptus kruseana	Bookleaf Mallee	Attractive and unusual many-branched tree to 2.5m. Clusters of yellow flowers Jun-Sep. Well drained soils in full sun. Good small feature tree. Cut foliage.	Priority 4	Coolgardie
Eucalyptus rhodantha	Rose Mallee	Colourful silver-grey leaved spreading mallee to 3m. Stunning red flowers Sep-Jan. Prefers well drained soils in full sun. Bird-attracting. Hardy. Can be pruned hard.		Northern Wheatbelt

Eucalyptus synandra	Jingymia Mallee	Graceful spreading mallee <5m. Stunning cream to pink flowers Sep-Mar. Suits most soils in full sun. Hardy.	Declared Rare	Goldfields
Eucalyptus woodwardii	Lemon-flowered Gum	Attractive ornamental tree or mallee to 15m. Clusters of yellow flowers Aug-Nov. Prefers well drained soils in full sun. Specimen tree.		Eastern Goldfields
Frankenia confusa		Colourful low shrub to 75cm. Pink and white flowers Sep-Oct. Well drained soils in full sun. Suits raised garden beds. Salt Tolerant. Hardy.	Priority 4	Murchison
Frankenia sp.	Pink	Delightful compact small shrub to 30cm. Pretty pink flowers Aug-Oct. Well drained soils in full sun. Suits pot culture and garden edges. Salt Tolerant. Hardy.		Eastern Goldfields
Frankenia sp.	White	Delightful compact small shrub to 30cm. Pretty white flowers Aug-Oct. Well drained soils in full sun. Suits pot culture or borders. Salt Tolerant. Hardy.		Eastern Goldfields
Goodenia scapigera	White Goodenia	Attractive erect perennial to 80cm. White flower spikes Aug-Dec. Well drained soils in full sun/part shade. Suits pots or open gardens. Hardy.		S.W.
Goodenia viscida	Viscid Goodenia	Dainty erect shrub to 70cm. Masses of yellow flowers most of the year. Prefers sandy or clayey soils in full sun/part shade. Hardy once established. Good for pot culture.		Mallee
Grevillea dielsiana	Diels Grevillea	Attractive compact shrub to 2m. Brilliant display of red-orange flowers Apr-Oct. Suits well drained sandy or loamy soils in full sun. Bird attracting and prickly foliage provide safe refuge.		Geraldton Sandplains
Grevillea eryngioides	Curly Grevillea	Suckering, open shrub 0.5-1.2m high. Pink, purple, and yellow terminal flowers Jul-Nov. Attractive blue-green foliage. Well drained soil in full sun. Suits open garden or rockery.		Avon Wheatbelt
Grevillea evanescens		Attractive ornamental upright shrub to 4m at risk in the wild. Pink-red flowers Aug-Oct. Prefers well drained sandy or clayey soils in full sun. Bird attracting.	Priority 1	Swan Coastal Plain
Grevillea preissii subsp. glabrilimba	Spider-net Grevillea	Compact rounded shrub to 1m. Grey foliage. Profuse vibrant red toothbrush-like flowers Jun-Oct. Full sun/part shade in well drained soils, including limestone. Bird attracting.		Perth Coastal
Grevillea synapheae	Catkin Grevillea	Prickly spreading shrub to 50cm x 1m. Spectacular cream-white terminal flowers Jul-Oct. Well drained soil in full sun. Excellent bird refuge. Suits pot culture.		Perth Hills
Guichenotia macrantha	Large Flowered Guichenotia	Attractive shrub to 1.2m. Purple/pink flowers May-Sep. Suits most well drained soils in full sun/part shade. Limestone tolerant.		Wheatbelt
Hakea erecta		Rounded dense shrub to 2m. Profuse and showy pink (occasionally cream) flowers Sep-Oct. Suits most well drained soils in full sun. Hardy. Frost Tolerant.		Wheatbelt
Hakea flabellifolia	Fan-leaved Hakea	Spreading multi-stemmed shrub to 50cm. Eye-catching fan-shaped foliage. Small crimson flowers Sep-Oct. Suits well drained soils in full sun.		Geraldton Sandplains
Hakea francisiana	Grass-leaved / Bottlebrush Hakea	Attractive upright shrub to 5m. Prolific racemes of pink flowers Jul-Oct. Needs well drained soils in full sun. Prune to shape. Bird attracting. Hardy.		Avon Wheatbelt
Hakea invaginata		Highly ornamental bushy broom-like shrub to 2.5m. Showy prolific pink flowers Jul-Sep. For well drained soils in full sun. Ideal for hedging. Prune to shape. Bird attracting. Hardy.		Avon Wheatbelt
Hakea lissocarpha	Honey Bush	Erect to sprawling sweetly perfumed dense shrub to 1.5m. Masses of white/pink flowers Jun-Sep. Bird attracting and ideal bird refuge. Well drained soil in full sun/part shade.		S.W.
Hakea multilineata	Grass-leaved Hakea	Spectacular feature shrub to 5m. Stunning spikes of pink flowers Jun-Sep. Prefers well drained soils in full sun. Ideal for screening. Bird attracting.		Avon Wheatbelt
Hakea orthorrhyncha	Bird Hakea	Spreading shrub to 2.5m. Profuse red flowers Aug-Sep. Suits most soils in full sun. Hardy. Bird attracting.		Murchison
Hakea prostrata	Harsh Hakea	Open prickly shrub to 2m x 3m. Sweet scented cream/white flowers Aug-Nov. Suits most soils in full sun/part shade. Limestone tolerant. Bird attracting. Hardy.		Perth Metro
Hakea trifurcata	Two-leaf Hakea	Floriferous round shrub to 3m. Masses of white-cream pink flowers Apr-Oct. Suits most soils including sand over limestone in full sun/part shade. Bird and insect attracting.		S.W.
Halgania anagalloides	Blue Bush	Eye-catching upright shrub <30cm. Attractive purple/blue flowers Aug-May. For well drained soils in full sun/part shade in a sheltered location. Ideal for raised beds.		W.A.
Hemiandra linearis	Speckled Snakebush	Colourful prickly groundcover to 30cm. Flowers white with purple spots Oct-Dec. Prefers well drained soils in full/part shade. Suits sloping banks and verges.		Perth Metro
Hemigenia drummondii		Erect diffuse shrub to 60cm. Flowers blue-violet with spotted throat Sep-Oct. Prefers well drained sandy, lateritic or rocky soils in full sun.		Geraldton Sandplains
Hibbertia amplexicaulis		Prostrate spreading shrub to 20cm. Large yellow flowers Aug-Dec. Well drained soils in part shade. Suitable for containers and raised beds.		S.W.
Hibbertia commutata		Round multi-stemmed shrub to 60cm. Bright yellow flowers Jul-Nov. Suits well drained soils in full sun/part shade and particularly suitable for lateritic soils.		Jarrah Forest

Hibbertia grossulariifolia		Gooseberry-leaved Guinea Flower Prostrate shrub to 1.2m wide. Large gold-yellow flowers Aug-Dec. Most soils in full sun. Ideal for coastal gardens in limestone areas.		Perth Metro
Hibbertia pilosa	Hairy Guinea Flower	Erect single-stemmed or sprawling shrub to 1 m high with yellow flowers Sep-Dec. Prefers sandy, loamy or lateritic soils in full sun/part shade. Tip prune to promote bushy shape.		Jarrah Forest
Hibbertia porongurupensis		Attractive upright shrub to 1m with grey/green foliage. Large yellow flowers Sep-Nov. Well drained soils in full sun/part shade. Suitable for sheltered locations and raised beds.	Priority 4	Jarrah Forest
Hibbertia subvaginata		Compact spreading shrub to 75cm. Blue-green leaves gives an interesting foliage contrast. Yellow flowers Jul-Dec. Well drained soil in full sun/part shade. Hardy.		Perth Metro
Hovea pungens	Devil's Pins	Prickly upright small shrub to 90cm. Eye-catching purple/blue flowers May-Nov. Most soils in part shade. Creates a splash of colour in winter.		Perth Metro
Hypocalymma ericifolium		Showy small shrub to 1m. Attractive dense sprays of cream-yellow flowers Aug-Nov. Will suit most soils in dappled sun. Good cut flower. Prune after flowering.		Jarrah Forest
Hypocalymma puniceum	Large Myrtle	Delightful compact shrub to 90cm. Large pink flowers Dec-Apr. Prefers well drained soils in full sun. Suitable for pot culture. Hardy.		Wheatbelt
Hypocalymma robustum	Swan River Myrtle	Erect open shrub to 1m. Dark shiny foliage. Attractive dense sprays of scented pink flowers Jun-Nov. Will suit most soils in dappled sun. Good cut flower.		Perth Metro
Hypocalymma tetrapterum		Attractive rounded shrub to 40cm. Lacy white flowers Jun-Aug. Prefers well drained soils in full sun/part shade. Suits small gardens and pot culture. Light prune after flowering.	Priority 3	Dandaragan
Kunzea ciliata		Spreading shrub 1-2m high. Pink pom-pom flowers Oct-Nov. Suits most soils in full sun. Hardy. Bird attracting. Prune to shape.		Jarrah Forest
Kunzea jucunda		Pretty erect open shrub to 1.2m. Delicate pink-purple flowers Aug-Oct. Suits well drained sandy or gravelly soils in full sun/part shade. Prune to bushy shape and more flowers.		Mallee
Kunzea pauciflora		Colourful compact shrub to 1.2m. Cerise pink flowers Aug-Nov. Prefers well drained soils in full sun. Suits pots. Hardy. Limestone tolerant.	Priority 4	Esperance Plains
Laxmannia squarrosa	Paper Lily	Tufted perennial herb to 10cm. Dainty white, papery flowers Aug-Nov. Most well drained soils. Ideal for rockery or pot culture.		Perth Metro
Lechenaultia floribunda	'Bellus White'	Colourful compact shrub to 40cm. Attractive white flowers Aug-Dec. Prefers well drained soils in full sun/part shade. Suitable for raised beds, open gardens and pots.		Geraldton Sandplains
Lechenaultia floribunda	'Jandakot Pink'	Colourful compact shrub to 40cm. Attractive pink flowers Aug-Dec. Prefers well drained soils in full sun/part shade. Suitable for raised beds, open gardens and pots.		Swan Coastal Plain
Lechenaultia floribunda	Free Flowering Leschenaultia (Dark Blue)	Spreading, bushy, groundcover to 60cm high. Violet/Dark Blue flowers cover the plant all summer. A great plant for mass planting in borders in full sun. Hardy.		Perth Metro
Lechenaultia formosa x biloba	'Blue Butterflies'	Impressive compact groundcover. Stunning blue flowers Aug-Oct. Suits most soils in full sun. Suitable for raised beds, open gardens and pots.		Cultivar
Lechenaultia linarioides	Yellow Leschenaultia	Sprawling, open shrub to 1.2m. Pale yellow flowers with a red tinge Jun-Jan. Well drained soils in full sun. Ideal for coastal sands and limestone. Pot or rockery culture.		Perth Metro
Lechenaultia orchestris	Dancing Leschenaultia	Spreading shrub to 30cm. Beautiful large mauve-blue flowers Oct-Dec. Well drained soils in full sun. Ideal for raised beds or pot culture.	Priority 1	Mallee
Lechenaultia superba	Barrens Leschenaultia	Erect shrub to 50cm. Stunning large red-orange flowers May-Nov. Well drained soils in full sun to part shade. Ideal for rockeries or pot culture.	Priority 4	Esperance Plains
Leptosema aphyllum	Ribbon Pea (Upright form)	Upright spreading shrub to 80cm. Flat ribbon-like foliage with red pea flowers May-Oct. Well drained soils in full sun/part shade. Suitable for rockeries and verges.		Northern Sandplains
Leptospermum erubescens	Roadside Tea Tree	Tall upright shrub to 2m. Colourful white-pink flowers Jul-Nov. Prefers well drained soils in full sun/part shade. Prune regularly to shape. Hardy.		S.W.
Melaleuca cordata	Heart-leaf Honeymyrtle	Attractive shrub to 1.5m. Globular deep pink flowers Sep-Dec. Well drained soils in full sun. Prune to shape after flowering. Suits rockery and pot culture. Bird attracting.		Avon Wheatbelt
Melaleuca suberosa	Corky-bark Honeymyrtle	Sprawling shrub to 1m. Masses of dark pink/purple flowers Aug-Dec. Well drained soils in full sun. Prune to shape after flowering. Suits rockery or pot culture. Bird attracting. Hardy.		Esperance Plains
Melaleuca systema	Coastal Honeymyrtle	Soft dense shrub to 1.5m. Large yellow pompom flowers Aug-Oct. Most soils in full sun. Ideal for coastal sands and limestone. Trim after flowering.		Central West Coast
Needhamiella pumilio		Small shrub 5-25cm. White flowers Apr-May or Jul-Dec. Sandy soils inc coastal but may need summer water.		Esperance Plains
Nematolepis phebaloides		Attractive erect shrub to 80cm with glossy foliage. Tubular red flowers with green tips Mar-Dec. Suits most soils but best in a protected area. Full sun/part shade. Limestone tolerant.		W.A.

<i>Olearia muelleri</i>	Goldfields Daisy	Attractive round shrub to 1.5m. Daisy like white flowers Aug-Dec. Suits sandy, loamy, clayey soils in full sun. Drought tolerant once established.		Wheatbelt / Goldfields
<i>Pelargonium havlasae</i>		Slowly spreading tuberous herb <15cm. Masses of pale pink flowers Sep-Nov. Dies back in summer. Most soils. Full sun/part shade. Great for rockeries and pots/hanging baskets.		Avon Wheatbelt
<i>Pileanthus aurantiacus</i>		Upright woody shrub 1-2m. Showy orange flowers Sep-Oct. Well drained soils. Best in full sun. Drought and limestone tolerant. Tip prune after flowering to produce bushy habit.	Priority 1	Geraldton Sandplains
<i>Pileanthus bellus</i>	Pink Coppercups	Erect willowly shrub to 2.5m. Pretty pink terminal flowers Sep-Feb. Well drained soils in full sun. Intermix with smaller shrubs.	Priority 3	North Sandplains
<i>Pileanthus limacis</i>	Coastal Coppercups	Attractive spreading shrub to 80cm. Pale pink flowers Jul-Sep. Well drained soils in full sun. Garden or pot culture. Prefers open position. Limestone tolerant.		Pilbara Coast
<i>Pileanthus peduncularis</i> subsp. <i>pilifer</i>	Coppercups	Low spreading shrub to 1m with soft furry foliage. Masses of large bright orange flowers Sep-Nov. Well drained soils in full sun. Excellent garden or container plant.		Murchison
<i>Pileanthus vernicosus</i>		Upright slender shrub 1-1.5m x 1m wide. Masses of red/orange flowers Sep-Nov. Short shiny leaves on pinkish new growth stems. Well drained soil. Best in full sun but tolerates some shade.		Northern Sandplains
<i>Platysace deflexa</i>	Youlk	Tuberous spreading shrub to 80cm. Showy heads of white/cream flowers Jan-Dec. Prefers well drained soils in part shade and sheltered location. Edible tubers.		Gnowangerup
<i>Platytheca galioides</i>		Small spreading shrub to 40cm. Colourful violet/blue flowers Jul-Nov. Well drained soils in part shade. Sheltered location. Suits cottage gardens and pot culture.		S.W.
<i>Poa poiformis</i>	Coastal Tussock Grass	Tussock-forming perennial grass to 0.9m. Accent plant in landscapes and for soil stabilisation. Prefers full sun in well drained coastal or limestone soils. Attracts birds and butterflies.		W.A. South Coast
<i>Pomaderris myrtilloides</i>		Compact bushy shrub 1-2m high. Spectacular displays of rounded clusters of white (often with pink) flowers Apr-Sep. Well drained soils in full sun/part shade. Suits limestone areas.		W.A.
<i>Prostanthera magnifica</i>	Magnificent Prostanthera	Erect shrub to 1.5m. Beautiful two-tone blue-pink/purple flowers Aug-Nov. Prefers well drained soils in full sun/part shade. Suits pot culture. Colourful feature plant. Prune for shape.		Murchison
